SAFETY DATA SHEET

PULP RIOT BANGKOK COLOR-SAFE SHAMPOO

Revision: Original
Revision Date: 2/23/2018

Section 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY

Product Name: Pulp Riot Bangkok Color-Safe Shampoo
Description: Rinse off Shampoo for hair

Manufacturer: [redacted]

Telephone: 800-424-9300 CHEMTREC US
Fax: 703-527-3887 CHEMTREC INTERNATIONAL COLLECT CALLS ACCEPTED

Section 2. HAZARDS IDENTIFICATION

GHS Classification: No significant hazards

P102 Keep away from children
P103 read label before use

Section 3. COMPOSITION / INFORMATION ON INGREDIENTS

	Conc.	CAS	EINECS	
Water/Aqua/Eau	>30%	7732-18-5	231-791-2	
Sodium Cocoyl Isethionate	>3-10%	61789-32-0	263-052-5	
Sodium Lauroyl Sarcosinate	>3-10%	137-16-6	205-281-5	
Cocamidopropylamine Oxide	>3-10%	68155-09-9	268-938-5	
Acrylates Copolymer	>1-3%	159666-35-0	n/a	
Glycereth-26	>0.3-1%	31694-55-0	n/a	
Fragrance/Parfum	>0.3-1%	n/a	n/a	
Glycol Distearate	>0.3-1%	627-83-8	211-014-3	
Propylene Glycol	>0.3-1%	57-55-6	200-338-0	
Quaternium-80	>0.3-1%	134737-05-6	n/a	
PEG-150 Distearate	>0.3-1%	9005-08-7	n/a

Section 4. FIRST AID MEASURES

Skin Contact: Flush with copious amounts of water. If irritation persists seek medical attention.

Eye Contact: Flush with copious amounts of water. If irritation persists seek medical attention.

Ingestion: Do not ingest. Seek Medical attention.

Inhalation: If vapors or fumes cause irritation, remove exposed person to fresh air. If irritation persists seek medical attention

Section 5. FIRE FIGHTING MEASURES

Flammability Classification: This product is not flammable

Extinguishing Media: Use extinguishing media appropriate to surrounding fire conditions

Protective equipment: Use self contained breathing apparatus and protective clothing

Unusual Fire and Explosion hazards: None known

Section 6. ACCIDENTAL RELEASE MEASURES

Clean up method: Absorb/recover material. Place in waste container. Clean spillage area thoroughly contaminated surfaces will become slippery

Disposal method: Dispose of according to local, state/federal regulations. US disposal must be carried out under EPA, State and Federal laws.

Section 7. HANDLING and STORAGE

Storage: Keep in a cool, dry well ventilated place. Protect containers from extreme temperatures and damage. Store in correctly labeled containers in a hygienic environment.

Section 8. EXPOSURE CONTROLS and PERSONAL PROTECTION

Engineering Control: Ventilation- local exhaust

Respiration Control: Not required under normal use conditions

Occupation exposure controls: Keep away from food, drink and animal feeding stuffs

Protective Gloves: Optional

Eye & Face Protection: Avoid contact with eyes - goggles optional

Section 9: PHYSICAL and CHEMICAL PROPERTIES

pH: 5.0-7.0

Appearance: Opaque, Light pink, semi-viscous liquid

% Volatile/ Volume:	0.00%
Water Solubility	soluble

Section 10. STABILITY and REACTIVITY

Stability	Stable under normal conditions
Hazardous Polymerization:	____**X**_____Will not occur _____May occur
Incompatibility(*materials to avoid* **)**	Strong Oxidizers and reducing agents
Conditions to avoid:	Extreme Heat or freezing temperatures

Section 11. TOXICOLOGICAL INFORMATION

Acute Toxicity	No specific toxicological testing has been carried out on this product. All ingredients have been incorporated under the controls of current legislation
Corrosivity	May cause irritation to eyes
Repeated or Prolonged Exposure	May cause irritation to skin

Section 12. ECOLOGICAL INFORMATION

Mobility	Soluble in water
Degradability	Avoid uncontrolled release of this material in the environment. Not readily biodegradable.

Section 13. DISPOSAL CONSIDERATIONS

General Information	Dispose of in accordance with all local and national regulations
Packaging Disposal	Containers can be recycled in compliance with all local and national regulations

Section 14. TRANSPORT INFORMATION

Further Information	This product is not classified as a dangerous for carriage Not regulated by Department of Transportation (DOT)

Section 15. REGULATORY INFORMATION

Risk Phrases	NSH - No Significant Hazard
Safety Phrases	S2 - Keep Out of Reach of children S25 - Avoid Contact with Eyes
Further Information	Seek medical attention if irritation or symptoms persist Store in a cool dry area
TSCA	N/A
SARA Title III, Section 313(40CFR372)	N/A
California VOC	This formula contains 0% Volatile Organic Compounds
Guidance Notes	This product does not contain any chemicals known to the state of California to cause cancer or reproductive harm for more information go to www.P65Warnings.CA.GOV. January 1st directive

Section 16. OTHER INFORMATION

Text of Risk Phrases in Section 3	Xi - Irritant R43 - May cause sensitization by skin contact

HMIS: Health: 1 Flammability: 0 Reactivity: 0

Further Information The information supplied in the Safety Data Sheet is designed only as guidance for

the safe use and handling of the product. The information is correct to the best of our knowledge and belief at the date of publication, however, no guarantee is made to its accuracy.

Section 4. FIRST AID MEASURES

Skin Contact: Flush with copious amounts of water. If irritation persists seek medical attention.

Eye Contact: Flush with copious amounts of water. If irritation persists seek medical attention.

Ingestion: Do not ingest. Seek Medical attention.

Inhalation: If vapors or fumes cause irritation, remove exposed person to fresh air. If irritation persists seek medical attention

Section 5. FIRE FIGHTING MEASURES

Flammability Classification: This product is not flammable

Extinguishing Media: Use extinguishing media appropriate to surrounding fire conditions

Protective equipment: Use self contained breathing apparatus and protective clothing

Unusual Fire and Explosion hazards: None known

Section 6. ACCIDENTAL RELEASE MEASURES

Clean up method: Absorb/recover material. Place in waste container. Clean spillage area thoroughly contaminated surfaces will become slippery

Disposal method: Dispose of according to local, state/federal regulations. US disposal must be carried out under EPA, State and Federal laws.

Section 7. HANDLING and STORAGE

Storage: Keep in a cool, dry well ventilated place. Protect containers from extreme temperatures and damage. Store in correctly labeled containers in a hygienic environment.

Section 8. EXPOSURE CONTROLS and PERSONAL PROTECTION

Engineering Control: Ventilation- local exhaust

Respiration Control: Not required under normal use conditions

Occupation exposure controls: Keep away from food, drink and animal feeding stuffs

Protective Gloves: Optional

Eye & Face Protection: Avoid contact with eyes - goggles optional

Section 9: PHYSICAL and CHEMICAL PROPERTIES

pH: 3.0-5.0

Appearance: White to off-white, semi-viscous lotion

% Volatile/ Volume: 0.00%

Water Solubility soluble

Section 10. STABILITY and REACTIVITY

Stability Stable under normal conditions

Hazardous Polymerization: ____**X**_____Will not occur _____May occur

Incompatibility(*materials to avoid* **)** Strong Oxidizers and reducing agents

Conditions to avoid: Extreme Heat or freezing temperatures

Section 11. TOXICOLOGICAL INFORMATION

Acute Toxicity No specific toxicological testing has been carried out on this product. All ingredients have been incorporated under the controls of current legislation

Corrosivity May cause irritation to eyes

Repeated or Prolonged Exposure May cause irritation to skin

Section 12. ECOLOGICAL INFORMATION

Mobility Soluble in water

Degradability Avoid uncontrolled release of this material in the environment. Not readily biodegradable.

Section 13. DISPOSAL CONSIDERATIONS

General Information Dispose of in accordance with all local and national regulations

Packaging Disposal Containers can be recycled in compliance with all local and national regulations

Section 14. TRANSPORT INFORMATION

Further Information This product is not classified as a dangerous for carriage
Not regulated by Department of Transportation (DOT)

Section 15. REGULATORY INFORMATION

Risk Phrases NSH - No Significant Hazard

Safety Phrases S2 - Keep Out of Reach of children
S25 - Avoid Contact with Eyes

Further Information Seek medical attention if irritation or symptoms persist
Store in a cool dry area

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT HAIR LIGHTENER**

Other means of identification

SDS number 50-23-0000007

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards	Oxidizing solids	Category 3
Health hazards	Acute toxicity, oral	Category 4
	Skin corrosion/irritation	Category 2
	Serious eye damage/eye irritation	Category 1
	Sensitization, respiratory	Category 1
	Sensitization, skin	Category 1
	Specific target organ toxicity, single exposure	Category 3 respiratory tract irritation

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May intensify fire; oxidizer. Harmful if swallowed. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause respiratory irritation.

Precautionary statement

Prevention Keep away from heat. Keep/Store away from clothing/combustible materials. Take any precaution to avoid mixing with combustibles. Avoid breathing dust. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/eye protection/face protection. In case of inadequate ventilation wear respiratory protection.

Response If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. In case of fire: Use appropriate media to extinguish.

Storage Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
POTASSIUM PERSULFATE		7727-21-1	40
SODIUM SILICATE		1344-09-8	27
AMMONIUM PERSULFATE		7727-54-0	10
MINERAL OIL		8012-95-1	5
MAGNESIUM CARBONATE		546-93-0	4
SILICA		112945-52-5	3.05

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If experiencing respiratory symptoms: Call a poison center or doctor/physician.
Skin contact	If on clothing: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.
Eye contact	Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. Contact with combustible material may cause fire. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water spray. Foam. Powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers.
Specific methods	Cool containers exposed to flames with water until well after the fire is out.
General fire hazards	May intensify fire; oxidizer. Contact with combustible material may cause fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of dust. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Minimize dust generation and accumulation. Collect dust using a vacuum cleaner equipped with HEPA filter. Wear appropriate protective equipment and clothing during clean-up. Stop the flow of material, if this is without risk.

Large Spills: Wet down with water and dike for later disposal. Absorb in vermiculite, dry sand or earth and place into containers. Shovel the material into waste container. Following product recovery, flush area with water.

Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Keep away from heat. Provide appropriate exhaust ventilation at places where dust is formed. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not get this material in contact with eyes. Do not taste or swallow. Avoid breathing dust. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store locked up. Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
MAGNESIUM CARBONATE (CAS 546-93-0)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
MINERAL OIL (CAS 8012-95-1)	PEL	5 mg/m3	Mist.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Components	Type	Value
SILICA (CAS 112945-52-5)	TWA	0.8 mg/m3
		20 mppcf

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0.1 mg/m3	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0.1 mg/m3	

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
MAGNESIUM CARBONATE (CAS 546-93-0)	TWA	5 mg/m3	Respirable.
		10 mg/m3	Total
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.
SILICA (CAS 112945-52-5)	TWA	6 mg/m3	

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn. If material is ground, cut, or used in any operation which may generate dusts, use appropriate local exhaust ventilation to keep exposures below the recommended exposure limits. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves. Frequent change is advisable.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Dust & vapor respirator.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Solid.

Form Powder.

Color Light blue.

Odor Not available.

Odor threshold Not available.

pH Not applicable.

Melting point/freezing point Not available.

Initial boiling point and boiling range Not applicable.

Flash point Not applicable.

Evaporation rate Not available.

Flammability (solid, gas) Not available.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.

10. Stability and reactivity

Reactivity	Greatly increases the burning rate of combustible materials.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Combustible material. Reducing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause irritation to the respiratory system. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction.
Eye contact	Causes serious eye damage.
Ingestion	Harmful if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Harmful if swallowed.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable
POTASSIUM PERSULFATE	Result: Not expected to bioaccumulate

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Chemical name	CAS number	% by wt.
AMMONIUM PERSULFATE	7727-54-0	10

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act (SDWA) Not regulated.

Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT HAIR LIGHTENER
Synonyms	None.
SDS number	50-23-0000007
Product code	F0000998V01
Issue date	07-13-2018
Version number	02
Revision date	12-03-2020
Supersedes date	07-13-2018

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards		
Oxidizing solids	Category 3	H272 - May intensify fire; oxidizer.
Health hazards		
Skin corrosion/irritation	Category 2	H315 - Causes skin irritation.
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.
Respiratory sensitization	Category 1	H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Skin sensitization	Category 1	H317 - May cause an allergic skin reaction.
Specific target organ toxicity - single exposure	Category 3 respiratory tract irritation	H335 - May cause respiratory irritation.

Hazard summary May intensify fire; oxidizer. Causes serious eye damage. Causes skin irritation. May cause irritation to the respiratory system. Exposure to powder or dusts may be irritating to eyes, nose and throat. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: AMMONIUM PERSULFATE, POTASSIUM PERSULFATE, SODIUM SILICATE

Hazard pictograms

Signal word Danger

Hazard statements

H272	May intensify fire; oxidizer.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H335	May cause respiratory irritation.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P220	Keep away from clothing and other combustible materials.
P260	Do not breathe dust.
P264	Wash thoroughly after handling.
P271	Use only outdoors or in a well-ventilated area.
P272	Contaminated work clothing should not be allowed out of the workplace.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P284	Wear respiratory protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P302 + P352	IF ON SKIN: Wash with plenty of water.
P304 + P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P333 + P313	If skin irritation or rash occurs: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.
P370 + P378	In case of fire: Use appropriate media to extinguish.

Storage

P403 + P233	Store in a well-ventilated place. Keep container tightly closed.
P405	Store locked up.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 58,35% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 91,35% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards The mixture contains a substance that is assessed to be a PBT or a vPvB.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes

Classification: -					

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Take off all contaminated clothing immediately. Contact with combustible material may cause fire. If you feel unwell, seek medical advice (show the label where possible).
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If experiencing respiratory symptoms: Call a poison center or doctor/physician.

Skin contact If on clothing: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.

Eye contact Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards May intensify fire; oxidizer. Contact with combustible material may cause fire.

5.1. Extinguishing media

Suitable extinguishing media Water spray. Foam. Powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers.

Specific methods Cool containers exposed to flames with water until well after the fire is out.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of dust. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders

Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Minimize dust generation and accumulation. Collect dust using a vacuum cleaner equipped with HEPA filter. Wear appropriate protective equipment and clothing during clean-up. Stop the flow of material, if this is without risk.

Large Spills: Wet down with water and dike for later disposal. Absorb in vermiculite, dry sand or earth and place into containers. Shovel the material into waste container. Following product recovery, flush area with water.

Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections

For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Keep away from heat. Provide appropriate exhaust ventilation at places where dust is formed. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not breathe dust. Do not get this material in contact with eyes. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Store locked up. Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3	
MAGNESIUM CARBONATE (CAS 546-93-0)	TWA	10 mg/m3	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3	
SILICA (CAS 112945-52-5)	TWA	10 mg/m3	

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
MAGNESIUM CARBONATE (CAS 546-93-0)	VME	10 mg/m3

Regulatory status: Indicative limit (VL)

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Respirable fraction.
SILICA (CAS 112945-52-5)	TWA	4 mg/m3	Inhalable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8012-95-1)	AGW	5 mg/m3	Respirable fraction.
SILICA (CAS 112945-52-5)	AGW	4 mg/m3	Inhalable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3	

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3	Inhalable fraction.
SILICA (CAS 112945-52-5)	TWA	2 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3	

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn. If material is ground, cut, or used in any operation which may generate dusts, use appropriate local exhaust ventilation to keep exposures below the recommended exposure limits. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge, full facepiece, dust and mist filter.
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves. Frequent change is advisable.
- Other	Applicable for industrial settings only. Wear appropriate chemical resistant clothing.
Respiratory protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge, full facepiece, dust and mist filter.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Solid.
Form	Powder.
Color	Light blue.
Odor	Not available.
Odor threshold	Not available.
pH	Not applicable.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	Keep away from combustible material. Greatly increases the burning rate of combustible materials.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.

10.5. Incompatible materials Combustible material. Reducing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation May cause irritation to the respiratory system. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.

Skin contact Causes skin irritation. May cause an allergic skin reaction.

Eye contact Causes serious eye damage.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT HAIR LIGHTENER		
Acute		
Inhalation		
Dust		
ATEmix		29,5 mg/l
Oral		
ATEmix		2013 mg/kg

Skin corrosion/irritation Causes skin irritation.

Irritation Corrosion - Skin

AMMONIUM PERSULFATE	OECD 404 Result: Irritating Species: Rabbit
SODIUM SILICATE	OECD 404 Result: Irritating Species: Rabbit
CYCLOPENTASILOXANE	OECD 404 Result: Not Irritating Species: Rabbit
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

AMMONIUM PERSULFATE	OECD 405 Result: Irritating Species: Rabbit
CYCLOPENTASILOXANE	OECD 405 Result: Not Irritating Species: Rabbit
SODIUM SILICATE	Result: Corrosive Species: Rabbit
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Respiratory sensitization May cause allergy or asthma symptoms or breathing difficulties if inhaled.

AMMONIUM PERSULFATE	Result: Sensitizing Species: Human
POTASSIUM PERSULFATE	Result: Sensitizing Species: Human

Skin sensitization May cause an allergic skin reaction.

Sensitization

AMMONIUM PERSULFATE	OECD 406 Result: Sensitizing Species: Guinea pig
SODIUM SILICATE	OECD 429 Result: Not Sensitizing Species: Mouse
POTASSIUM PERSULFATE	OECD 429 Result: Sensitizing Species: Mouse

Skin sensitization

CYCLOPENTASILOXANE	Buehler Test Result: Not Sensitizing Species: Guinea pig
POTASSIUM PERSULFATE	OECD 429 Result: Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

CYCLOPENTASILOXANE	Result: In vitro and in vivo tests did not show mutagenic effects.
SODIUM SILICATE	Result: In vitro and in vivo tests did not show mutagenic effects.
AMMONIUM PERSULFATE	Result: In vitro tests did not show mutagenic effects
POTASSIUM PERSULFATE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

SODIUM SILICATE	> 200 mg/kg bw/d Result: NOAEL Species: Rat
AMMONIUM PERSULFATE	> 250 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Reproductivity

SODIUM SILICATE	> 159 mg/kg bw/d, Oral Result: NOAEL Species: Rat
CYCLOPENTASILOXANE	> 160 ppm EPA OPPTS 870,3800, Vapor Result: NOAEL Species: Rat
AMMONIUM PERSULFATE	> 250 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure May cause respiratory irritation.

SODIUM SILICATE	Result: Irritating
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

CYCLOPENTASILOXANE	> 1600 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat
AMMONIUM PERSULFATE	10,3 mg/m³, Inhalation Result: NOAEC Species: Rat Test Duration: 90 d
POTASSIUM PERSULFATE	131,5 mg/kg bw/d OECD 407 Result: NOAEL Species: Rat Test Duration: 28 d
CYCLOPENTASILOXANE	160 ppm OECD 412, Inhalation Result: NOEAC Species: Rat 1600 mg/kg bw/d OECD 410, Dermal Result: NOAEL Species: Rat
SODIUM SILICATE	2400 mg/kg bw/d OECD 407 Result: NOAEL Species: Rat Test Duration: 28 d
AMMONIUM PERSULFATE	41,1 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
AMMONIUM PERSULFATE (CAS 7727-54-0)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	83,7 mg/l, 72 h
Crustacea	EC50	Daphnia magna	120 mg/l, 48 h
Fish	LC50	Oncorhynchus mykiss	76 mg/l, 96 h
Other	EC10	Pseudomonas putida	36 mg/l, 18 h
Chronic			
Algae	NOEC	Desmodesmus subspicatus	32 mg/l, 72 h OECD 201
AMMONIUM SULFATE (CAS 7783-20-2)			
Aquatic			
Crustacea	EC50	Water flea (Ceriodaphnia dubia)	52 - 67 mg/l, 48 hours
Fish	LC50	Rainbow trout,donaldson trout (Oncorhynchus mykiss)	35,2 - 43,8 mg/l, 96 hours
CYCLOPENTASILOXANE (CAS 541-02-6)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 12 µg/l, 96 h OECD 201
Crustacea	EC50	Daphnia magna	> 2,9 µg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	> 16 µg/l, 96 h OECD 204
Chronic			
Crustacea	NOEC	Daphnia magna	> 15 µg/l, 21 d OECD 211
Fish	NOEC	Oncorhynchus mykiss	> 14 µg/l, 90 d OECD 210
Other	EC50	Activated sludge of a predominantly domestic sewage	> 2000 mg/l, 3 h EU C.11
SODIUM SILICATE (CAS 1344-09-8)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	> 345,4 mg/l, 72 h DIN 38412 Part 9
Crustacea	EC50	Daphnia magna	1700 mg/l, 48 h EU C.2
Fish	LC50	Danio rerio	1108 mg/l, 96 h OECD 203
Other	EC0	Pseudomonas putida	3454 mg/l, 30 min DIN 38412 Part 27

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

CYCLOPENTASILOXANE	0,14 % OECD 310 Result: Not Readily Biodegradable
POTASSIUM PERSULFATE	Result: Not expected to bioaccumulate

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

CYCLOPENTASILOXANE	5,2

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment The mixture contains a substance that is assessed to be a PBT or a vPvB.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. UN number	UN1479
14.2. UN proper shipping name	OXIDIZING SOLID, N.O.S. (POTASSIUM PERSULFATE, AMMONIUM PERSULFATE), Limited Quantity

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

CYCLOPENTASILOXANE (CAS 541-02-6)

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

CYCLOPENTASILOXANE (CAS 541-02-6)
SODIUM SILICATE (CAS 1344-09-8)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

AMMONIUM PERSULFATE (CAS 7727-54-0)
POTASSIUM PERSULFATE (CAS 7727-21-1)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H272 May intensify fire; oxidizer. H302 Harmful if swallowed. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H332 Harmful if inhaled. H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques	Matières solides comburantes	Catégorie 3
Dangers pour la santé	Toxicité aiguë, voie orale	Catégorie 4
	Corrosion cutanée/irritation cutanée	Catégorie 2
	Lésions oculaires graves/irritation oculaire	Catégorie 1
	Sensibilisation respiratoire	Catégorie 1
	Sensibilisation cutanée	Catégorie 1
	Toxicité pour certains organes cibles - exposition unique	Irritation des voies respiratoires de catégorie 3

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Peut aggraver un incendie; comburant. Nocif en cas d'ingestion. Provoque une irritation cutanée. Peut provoquer une allergie cutanée. Provoque de graves lésions des yeux. Peut provoquer des symptômes allergiques ou d'asthme ou des difficultés respiratoires par inhalation. Peut irriter les voies respiratoires.

Conseil de prudence

Prévention Conserver à l'écart de la chaleur. Tenir et entreposer loin des vêtements/matières combustibles. Prendre toutes précautions pour éviter de mélanger avec des matières combustibles. Éviter de respirer les poussières. Se laver soigneusement après manipulation. Ne pas manger, boire ou fumer en manipulant ce produit. Utiliser seulement en plein air ou dans un endroit bien ventilé. Il ne faut pas que les vêtements de travail contaminés quittent le lieu de travail. Porter des gants de protection/un équipement de protection des yeux/du visage. Lorsque la ventilation du local est insuffisante, porter un équipement de protection respiratoire.

Intervention	En cas d'ingestion : Appelez un centre antipoison/médecin/ si vous vous sentez mal. Rincer la bouche. En contact avec la peau : Laver avec beaucoup d'eau. En cas d'inhalation : Déplacer la personne à l'air frais et la maintenir dans une position confortable pour la respiration. En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin. En cas d'irritation ou d'éruption cutanée : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation. En cas d'incendie : utiliser un agent d'extinction approprié.
Stockage	Stocker dans un endroit bien ventilé. Maintenir le récipient fermé de manière étanche. Garder sous clef.
Élimination	Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.
Danger(s) non classé(s) ailleurs (DNCA)	Aucun(e) connu(e).
Information supplémentaire	Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
PERSULFATE DE POTASSIUM		7727-21-1	40
SILICATE DE SODIUM		1344-09-8	27
PERSULFATE D'AMMONIUM		7727-54-0	10
HUILE MINÉRALE		8012-95-1	5
MAGNÉSIUM (CARBONATE DE)		546-93-0	4
silice		112945-52-5	3.05

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation	Transporter la victime à l'extérieur et la maintenir au repos dans une position où elle peut confortablement respirer. Oxygène ou respiration artificielle si nécessaire. Ne pas pratiquer le bouche-à-bouche si la victime a inhalé la substance. Pratiquer la respiration artificielle à l'aide d'un masque de poche muni d'une valve antireflux ou d'un autre appareil médical respiratoire approprié. En cas de symptômes respiratoires : Appeler un centre antipoison ou un médecin.
Contact avec la peau	En cas de contact avec les vêtements : Rincer immédiatement et abondamment avec de l'eau les vêtements contaminés et la peau avant de les enlever. Enlever immédiatement les vêtements contaminés et laver la peau à l'eau et au savon. En cas d'eczéma ou d'autres problèmes cutanés : consulter un médecin et apporter cette fiche. Laver les vêtements contaminés avant réutilisation.
Contact avec les yeux	Ne pas se frotter les yeux. Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.
Ingestion	Rincer la bouche. En cas de vomissement, garder la tête basse pour éviter une pénétration du contenu de l'estomac dans les poumons. Demander un avis médical/Consulter un médecin en cas de malaise.
Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Peut irriter les voies respiratoires. Difficultés respiratoires. Irritation de la peau. Peut provoquer des rougeurs et des douleurs. Peut provoquer une allergie cutanée. Dermatite. Éruption.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Donner des soins généraux et traiter en fonction des symptômes. Garder la victime au chaud. Garder la victime en observation. Les symptômes peuvent être retardés.
Informations générales	Enlever immédiatement tous les vêtements contaminés. Favorise l'inflammation des matières combustibles. En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger. Présenter cette fiche de données de sécurité au médecin traitant. Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés	Eau pulvérisée. Mousse. Poudre. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Augmente grandement la vitesse de combustion des produits combustibles. Les récipients peuvent exploser sous l'effet de la chaleur. Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	En cas d'incendie et/ou d'explosion ne pas respirer les fumées. Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque. Utiliser une pulvérisation d'eau pour refroidir les récipients fermés.
Méthodes particulières d'intervention	Refroidir les récipients exposés aux flammes avec de l'eau et continuer même une fois le feu éteint.
Risques d'incendie généraux	Peut aggraver un incendie; comburant. Favorise l'inflammation des matières combustibles.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence	Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Tenir à l'écart des vêtements et d'autres matières combustibles. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Éviter l'inhalation de la poussière. Utiliser un appareil respiratoire homologué NIOSH/MSHA s'il existe un risque d'exposition à la poussière ou aux émanations à des concentrations qui excèdent les limites d'exposition. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Tenir les matières combustibles (bois, papier, huile, etc.) à l'écart du produit déversé. Ventiler la zone contaminée. Éviter la dispersion de poussière dans l'air (c.-à-d., comme lors du nettoyage des surfaces à l'air comprimé). Minimiser la formation et l'accumulation de poussière. Récupérer la poussière en utilisant un aspirateur muni d'un filtre HEPA. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Déversements importants : Mouiller avec de l'eau et endiguer pour une élimination ultérieure. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Pelleter le matériau dans un conteneur à déchets. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Balayer ou aspirer le déversement et mettre dans un récipient approprié pour élimination. Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Minimiser la formation et l'accumulation de poussière. Un ménage et un entretien de routine doivent être mis en place pour s'assurer que la poussière ne s'accumule pas sur les surfaces. Tenir à l'écart de la chaleur. Assurer une ventilation aspirante adéquate aux endroits où la poussière se forme. Prendre toutes précautions pour éviter de mélanger avec des matières combustibles. Tenir à l'écart des vêtements et d'autres matières combustibles. Éviter tout contact de ce produit avec les yeux. Ne pas goûter ni avaler. Éviter de respirer les poussières. Éviter tout contact avec les yeux, la peau et les vêtements. Éviter une exposition prolongée. Ne pas manger, ne pas boire et ne pas fumer pendant l'utilisation. Porter un équipement de protection individuelle approprié. Se laver les mains soigneusement après manipulation. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Garder sous clef. Tenir à l'écart de la chaleur. Stocker dans un endroit frais et sec, à l'écart de la lumière solaire directe. Stocker dans des récipients bien fermés. Stocker dans un endroit bien ventilé. Ne pas stocker à proximité de matières combustibles. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

États-Unis - TABLEAU Z-3 (29 CFR 1910.1000) de l'OSHA

Composants	Type	Valeur
silice (CAS 112945-52-5)	TWA	0.8 mg/m3
		20 mppcf

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8012-95-1)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.
MAGNÉSIUM (CARBONATE DE) (CAS 546-93-0)	PEL (limite d'exposition admissible)	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8012-95-1)	TWA	5 mg/m3	Fraction inhalable.
PERSULFATE D'AMMONIUM (CAS 7727-54-0)	TWA	0.1 mg/m3	
PERSULFATE DE POTASSIUM (CAS 7727-21-1)	TWA	0.1 mg/m3	

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8012-95-1)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.
MAGNÉSIUM (CARBONATE DE) (CAS 546-93-0)	TWA	5 mg/m3	Respirable.
		10 mg/m3	Total
silice (CAS 112945-52-5)	TWA	6 mg/m3	

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Si des mesures techniques ne suffisent pas à maintenir les concentrations de particules de poussière sous les limites d'exposition en milieu de travail (LEMT), il faut porter une protection respiratoire appropriée. Si le matériau est moulu, coupé ou utilisé dans toute opération susceptible de créer des poussières, utiliser une ventilation locale par aspiration appropriée pour maintenir les expositions sous les limites d'exposition recommandées. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques) et un écran facial.

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques Il est conseillé de changer souvent.

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. Utiliser un appareil respiratoire homologué NIOSH/MSHA s'il existe un risque d'exposition à la poussière ou aux émanations à des concentrations qui excèdent les limites d'exposition. Respirateur contre la poussière et les vapeurs.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale	Éviter tout contact avec des vêtements ou d'autres matières combustibles. Retirer et laver rapidement les vêtements contaminés. Tenir à l'écart des aliments et des boissons. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.

9. Propriétés physiques et chimiques

Apparence	
État physique	Solide.
Forme	Poudre.
Couleur	Bleu clair.
Odeur	Non disponible.
Seuil olfactif	Non disponible.
pH	Sans objet.
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	Sans objet.
Point d'éclair	Sans objet.
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Non disponible.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Peut aggraver un incendie; comburant.

10. Stabilité et réactivité

Réactivité	Augmente grandement la vitesse de combustion des produits combustibles.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Matières combustibles. Agents réducteurs.

Produits de décomposition dangereux Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation Peut provoquer une irritation du système respiratoire. Peut provoquer des symptômes allergiques ou d'asthme ou des difficultés respiratoires par inhalation. Toute inhalation prolongée peut être nocive.

Contact avec la peau Provoque une irritation cutanée. Peut provoquer une allergie cutanée.

Contact avec les yeux Provoque de graves lésions des yeux.

Ingestion Nocif en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Peut irriter les voies respiratoires. Difficultés respiratoires. Irritation de la peau. Peut provoquer des rougeurs et des douleurs. Peut provoquer une allergie cutanée. Dermatite. Éruption.

Renseignements sur les effets toxicologiques

Toxicité aiguë Nocif en cas d'ingestion.

Reproductivité

SILICATE DE SODIUM	> 159 mg/kg bw/d, Orale Résultat: DSENO Espèces: Rat
PERSULFATE D'AMMONIUM	> 250 mg/kg bw/d OCDE 421 Résultat: DSENO Espèces: Rat
HUILE MINÉRALE	>= 2000 mg/kg bw/d OCDE 415, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat
silice	497 mg/kg bw/d OCDE 415 Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Peut irriter les voies respiratoires.

SILICATE DE SODIUM	Résultat: Irritant
PERSULFATE DE POTASSIUM	Résultat: Irritant Espèces: Homme

Toxicité pour certains organes cibles - expositions répétées La classification n'est pas possible en raison d'un manque partiel ou total de données.

HUILE MINÉRALE	> 2000 mg/kg bw/d OCDE 411, Cutané Résultat: DSENO Espèces: Rat Durée du test: 90 d > 50 mg/m3 air OCDE 412, Inhalation Résultat: CSENO Espèces: Rat Durée du test: 28 d >= 1200 mg/kg bw/d OCDE 453, Orale Résultat: DSENO Espèces: Rat Durée du test: 2 années
silice	1.3 mg/m3 air OECD 413, Inhalation Résultat: DSENO Espèces: Rat Durée du test: 13 wk
PERSULFATE D'AMMONIUM	10.3 mg/m³, Inhalation Résultat: CSENO Espèces: Rat Durée du test: 90 d
PERSULFATE DE POTASSIUM	131.5 mg/kg bw/d OCDE 407 Résultat: DSENO Espèces: Rat Durée du test: 28 d
SILICATE DE SODIUM	2400 mg/kg bw/d OCDE 407 Résultat: DSENO Espèces: Rat Durée du test: 28 d
PERSULFATE D'AMMONIUM	41.1 mg/kg bw/d OCDE 407, Orale Résultat: DSENO Espèces: Rat Durée du test: 28 d

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Autres informations Peut provoquer des allergies respiratoires et cutanées. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

HUILE MINÉRALE	31 % OECD 301 F Résultat: Difficilement Biodégradable
PERSULFATE DE POTASSIUM	Résultat: Not expected to bioaccumulate

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés	Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).
Emballages contaminés	Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT HAIR LIGHTENER

鉴别的其他方法

SDS编号 50-23-0000007

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险	氧化性固体	类别 3
健康危害	急性毒性-经口	类别 4
	皮肤腐蚀/刺激	类别 2
	严重眼睛损伤/眼睛刺激性	类别 1
	呼吸过敏	类别 1
	皮肤过敏	类别 1
	特异性靶器官系统毒性--一次接触	类别3 呼吸道刺激

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 危险

危险性说明 可能加剧燃烧；氧化剂。 吞咽有害。 造成皮肤刺激。 可能造成皮肤过敏反应。 造成严重眼损伤。 吸入可能导致过敏或哮喘病症状或呼吸困难。 可能造成呼吸道刺激。

防范说明

预防措施 远离热源。 避开/贮存处远离服装/可燃材料。 采取一切防范措施，避免与可燃物混合。 避免吸入粉尘。 作业后彻底清洗。 使用本产品时不要进食、饮水或吸烟。 只能在室外或通风良好之处使用。 受沾染的工作服不得带出工作场地。 戴防护手套/防护眼罩/防护面具。 如通风不足，戴呼吸防护装置。

事故响应 如误吞咽：如感觉不适，呼叫解毒中心/医生。 漱口。 如皮肤沾染：用大量水清洗。 如误吸入：将受害人转移到空气新鲜处，保持呼吸舒适的休息姿势。 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如接触到或有疑虑：呼叫解毒中心/医生。 如发生皮肤刺激或皮疹：求医/就诊。 脱去被污染的衣物，清洗后方可重新使用。 火灾时：使用适当的介质灭火。

安全储存 存放在通风良好的地方。保持容器密闭。 存放处须加锁。

废弃处置 按照地方/区域/国家/国际规章处置内装物/容器。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
POTASSIUM PERSULFATE		7727-21-1	40
硅酸钠		1344-09-8	27
过硫酸铵		7727-54-0	10
矿物油		8012-95-1	5
碳酸镁		546-93-0	4
二氧化硅		112945-52-5	3.05

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入

将受害人转移到空气新鲜处，保持呼吸舒适的休息姿势。 如果需要，吸氧或进行人工呼吸。 勿用嘴对嘴的方法，如果受害者已吸入该物质。 借助於设有一单向阀的小型面具或其它适当的呼吸医疗装置，施以诱导式人工呼吸。 If experiencing respiratory symptoms: Call a poison center or doctor/physician.

皮肤接触

如沾染衣服：立即用水充分冲洗沾染的衣服和皮肤，然后脱掉衣服。 立即脱掉受污染的衣服，用肥皂水冲洗皮肤。 若出现湿疹或其它皮肤疾病：就医治疗，并带上本说明书。 沾染的衣服清洗后方可重新使用。

眼睛接触

不得擦拭眼睛。 立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 立即就医。

经口

漱口。 若发生呕吐，保持头低位，使胃容物不会进入肺部。 如感觉不适，求医/就诊。

最重要的症状/影响，急性和延迟性

严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 可能造成呼吸道刺激。 呼吸困难。 皮肤刺激。 可能导致红肿和疼痛。 可能造成皮肤过敏反应。 皮炎。 皮疹.

指明任何需要立即就医或特殊治疗的情况

提供一般支持措施，并根据症状进行治疗。 给受害者保暖。 观察患者。 症状可能会延后发生。

一般信息

立即脱掉所有污染的衣服。 与可燃物接触会引起火灾。 如感觉不舒服,寻求医生的建议(可能的话出示此标签)。
务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。 出示此安全技术说明书给到现场的医生看。 沾染的衣服清洗后方可重新使用。

5. 消防措施

合适的灭火剂

雾状水。 泡沫。 粉末。 二氧化碳 (CO2)。

不当的灭火介质

禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害

大大增加可燃物料的燃烧速率。 当被加热时，容器可能会爆炸。 燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施

发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明

一旦发生火灾和/或爆炸，不得吸入烟气。 在不会发生危险的情况下将容器撤离火灾现场。 喷雾状水来冷却未打开的容器。

特定的方法

用水冷却火场中的容器，直至火灾被彻底扑灭。

一般火灾危险

可能加剧燃烧；氧化剂。 与可燃物接触会引起火灾。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序

让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 避开服装和其他可燃材料。 清洁时，戴合适防护设备和衣物。 防止吸入粉尘。 如果有接触粉尘/烟雾超过其接触限值的风险，采用NIOSH/MSHA许可的呼吸器。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料

使可燃物（木材、纸张、油等）远离泄漏物。 使受污染区域通风。 避免粉尘扩散到空气中（如，用压缩空气清洗粉尘表面）。 将粉尘的产生和积聚减到最少。 用带HEPA高效过滤器的真空清洗设备收集粉尘。 清洁时，戴合适防护设备和衣物。 如果没有风险，阻止物质流动。

大量泄漏：用水润湿并筑堤以便稍后废弃处置。 用蛭石、干沙或干土吸收后装在容器中。 将材料铲入废料容器。 产品回收后，用水冲洗泄漏区。

小量泄漏： 扫起或真空收集泄漏物，并置于适当的容器中以待处置。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施

防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项

将粉尘的产生和积聚减到最少。 应定期清理以确保粉尘不会在表面积聚。 远离热源。 在有粉尘生成的地方提供合适的排气通风。 采取一切防范措施，避免与可燃物混合。 避开服装和其他可燃材料。 不得让本材料接触眼睛。 不得品尝或食入。 避免吸入粉尘。 避免接触眼睛、皮肤和衣物。 避免长期暴露。 使用时不要吃、喝或吸烟。 穿戴合适的个人防护设备。 作业后彻底洗手。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物

存放处须加锁。 远离热源。 储存于阴凉、干燥的场所，远离直接日光光照。 储存在密闭的容器中。 存放在通风良好的地方。 不要贮存在易燃物附近。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参數

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
矿物油 (CAS 8012-95-1)	PEL-常期暴露极限	5 mg/m3	雾气。
碳酸镁 (CAS 546-93-0)	PEL-常期暴露极限	5 mg/m3	可呼吸部分。
		15 mg/m3	总尘。

美国职业安全和健康署表Z-3（29 CFR 1910.1000）

组分	类型	标准值
二氧化硅 (CAS 112945-52-5)	TWA	0.8 mg/m3
		20 Mppcf

美国ACGIH阈限值

组分	类型	标准值	形状
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0.1 mg/m3	
矿物油 (CAS 8012-95-1)	TWA	5 mg/m3	可吸入组分。
过硫酸铵 (CAS 7727-54-0)	TWA	0.1 mg/m3	

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
二氧化硅 (CAS 112945-52-5)	TWA	6 mg/m3	
矿物油 (CAS 8012-95-1)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。
碳酸镁 (CAS 546-93-0)	TWA	5 mg/m3	可呼吸的。
		10 mg/m3	总量

生物限值

没有该成分的生物接触限值。

适当的技术控制

应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 如果工程措施不足以将粉尘微粒的浓度维持在OEL（职业暴露限值）以下，必须戴上合适的呼吸道保护装置。 如果材料磨、切或进行任何可能产生尘的操作，使用合适的局部废弃物通风装置使暴露低於推荐限度。 提供洗眼和安全淋浴设施。

个人防护措施，如个人防护设备

眼/面保护	仅用於工业环境。 佩戴带侧边的安全眼镜（护目镜）和面罩。
皮肤防护	
手防护	仅用於工业环境。 佩戴适当的抗化学手套。 建议经常更换。
其它的，其它	仅用於工业环境。 穿上合适的化学防护衣。
呼吸系统防护	仅用於工业环境。 如果有接触粉尘/烟雾超过其接触限值的风险，采用NIOSH/MSHA许可的呼吸器。防尘与防蒸气呼吸器。
热危害	必要时，穿戴适当的热防护服。
一般的卫生考虑	防止接触衣物和其他可燃物料。立即脱除并清洗污染的衣物。 远离食品和饮料。 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。 受沾染的工作服不得带出工作场地。

9. 理化特性

外观

性状	固体。
形状	粉末。
颜色	淡蓝色。
气味	无资料。
气味阈值	无资料。
pH 值	不适用。
熔点/凝固点	无资料。
初始沸点和沸程	不适用。
闪点	不适用。
蒸发速率	无资料。
易燃性（固体，气体）	无资料。
燃烧上/下限或爆炸极限	
燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。
溶解性	
溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。
其他信息	
爆炸特性	不具有爆炸性。
氧化特性	可能加剧燃烧；氧化剂。

10. 稳定性和反应性

反应性	大大增加可燃物料的燃烧速率。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 接触禁配物。
禁配物	易燃材料。 还原剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	可能会刺激呼吸系统。 吸入可能导致过敏或哮喘病症状或呼吸困难。 持续的吸入可能是有害的。
皮肤接触	造成皮肤刺激。 可能造成皮肤过敏反应。
眼睛接触	造成严重眼损伤。
经口	吞咽有害。
与物理,化学和毒物学特性有关的症状	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 可能造成呼吸道刺激。 呼吸困难。 皮肤刺激。 可能导致红肿和疼痛。 可能造成皮肤过敏反应。 皮炎。 皮疹.

毒理学效应信息

急性毒性 吞咽有害。

生殖细胞突变性 由于部分或完全缺乏数据，不可能进行分类。

突变性

二氧化硅	结果: 体外和体内试验均未见致突变作用。
硅酸钠	结果: 体外和体内试验均未见致突变作用。
POTASSIUM PERSULFATE	结果: 离体试验未见诱变效应
矿物油	结果: 离体试验未见诱变效应
过硫酸铵	结果: 离体试验未见诱变效应

致癌性 尚不能确定对人有致癌作用。 由于部分或完全缺乏数据，不可能进行分类。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

二氧化硅 (CAS 112945-52-5)	3 尚不能确定对人有致癌作用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

矿物油 (CAS 8012-95-1)	Known To Be Human Carcinogen.

生殖毒性 由于部分或完全缺乏数据，不可能进行分类。

发育效应

硅酸钠	> 200 mg/kg bw/d 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
过硫酸铵	> 250 mg/kg bw/d OECD 421 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
矿物油	> 5000 mg/kg bw/d OECD 414, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
二氧化硅	1350 mg/kg bw/d OECD 414 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

硅酸钠	> 159 mg/kg bw/d, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
过硫酸铵	> 250 mg/kg bw/d OECD 421 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
矿物油	>= 2000 mg/kg bw/d OECD 415, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
二氧化硅	497 mg/kg bw/d OECD 415 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 可能造成呼吸道刺激。

硅酸钠	结果: 刺激性的

特定目标器官系统毒性－单次接触

POTASSIUM PERSULFATE	结果: 刺激性的 物种: 人类

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

矿物油	> 2000 mg/kg bw/d OECD 411, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D > 50 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D >= 1200 mg/kg bw/d OECD 453, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 2 年
二氧化硅	1.3 mg/m3 空气 OECD 413, 吸入 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 13 wk
过硫酸铵	10.3 mg/m³, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 90 D
POTASSIUM PERSULFATE	131.5 mg/kg bw/d OECD 407 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D
硅酸钠	2400 mg/kg bw/d OECD 407 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D
过硫酸铵	41.1 mg/kg bw/d OECD 407, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

更多信息 可能造成皮肤和呼吸过敏性反应。 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
二氧化硅 (CAS 112945-52-5)			
水生的			
急性的			
甲壳纲动物	EL0	水蚤	> 1000 mg/l, 48 h OECD 202

鱼	LC50	虹鳟鱼	76 mg/l, 96 h
慢性的			
藻类	无明显反应浓度（NOEC）	Desmodesmus subspicatus	32 mg/l, 72 h OECD 201

持久性和降解性

生物降解性

降解百分率（好氧生物降解）

POTASSIUM PERSULFATE	结果: Not expected to bioaccumulate
矿物油	31 % OECD 301 F 结果: 不容易生物降解

潜在的生物累积性

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT BLACK CANVAS LIGHTENER**

Other means of identification

SDS number 50-23-0000008

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

US Address:
L'Oreal USA Products, Inc
133 Terminal Avenue
Clark, NJ 07066
USA

Canadian Address:
L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent, H4T 1K5
Canada

Emergency Phone # :
1-800-535-5053 (International: 352-323-3500)
In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards	Oxidizing solids	Category 3
Health hazards	Acute toxicity, oral	Category 4
	Skin corrosion/irritation	Category 2
	Serious eye damage/eye irritation	Category 1
	Sensitization, respiratory	Category 1
	Sensitization, skin	Category 1
	Specific target organ toxicity, single exposure	Category 3 respiratory tract irritation

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May intensify fire; oxidizer. Harmful if swallowed. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause respiratory irritation.

Precautionary statement

Prevention	Keep away from heat. Keep/Store away from clothing/combustible materials. Take any precaution to avoid mixing with combustibles. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/eye protection/face protection. In case of inadequate ventilation wear respiratory protection.
Response	If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. In case of fire: Use appropriate media to extinguish.
Storage	Store in a well-ventilated place. Keep container tightly closed. Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
POTASSIUM PERSULFATE		7727-21-1	29
AMMONIUM PERSULFATE		7727-54-0	23.88
SODIUM METASILICATE		6834-92-0	13
SODIUM SILICATE		1344-09-8	10.5
SODIUM STEARATE		822-16-2	3.3
SILICA		112945-52-5	1.3

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.
Skin contact	IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. Contact with combustible material may cause fire. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water spray. Foam. Powder. Carbon dioxide (CO2).

Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers.
Specific methods	Cool containers exposed to flames with water until well after the fire is out.
General fire hazards	May intensify fire; oxidizer. Contact with combustible material may cause fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Minimize dust generation and accumulation. Wear appropriate protective equipment and clothing during clean-up. Stop the flow of material, if this is without risk. Large Spills: Wet down with water and dike for later disposal. Shovel the material into waste container. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not get this material in contact with eyes. Do not taste or swallow. Avoid breathing dust/fume/gas/mist/vapors/spray. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Components	Type	Value
SILICA (CAS 112945-52-5)	TWA	0.8 mg/m3 20 mppcf

US. ACGIH Threshold Limit Values

Components	Type	Value
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0.1 mg/m3
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0.1 mg/m3
SODIUM STEARATE (CAS 822-16-2)	TWA	10 mg/m3

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
SILICA (CAS 112945-52-5)	TWA	6 mg/m3

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. General ventilation normally adequate. Provide eyewash station. Eye wash fountain and emergency showers are recommended.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

Hand protection Wear appropriate chemical resistant gloves. Frequent change is advisable.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Wear positive pressure self-contained breathing apparatus (SCBA). Chemical respirator with organic vapor cartridge.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Solid.

Form Powder.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 9 - 11.5

Melting point/freezing point Not available.

Initial boiling point and boiling range Not available.

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not available.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Specific gravity Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature Not available.

Decomposition temperature Not available.

Viscosity Not available.

Other information

Density	0.500 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.

10. Stability and reactivity

Reactivity	Greatly increases the burning rate of combustible materials.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Heat. Contact with incompatible materials.
Incompatible materials	Combustible material. Reducing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause irritation to the respiratory system. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction.
Eye contact	Causes serious eye damage.
Ingestion	Harmful if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash. None expected

Information on toxicological effects

Acute toxicity In high concentrations, vapors are anesthetic and may cause headache, fatigue, dizziness and central nervous system effects. Harmful if swallowed.

Skin corrosion/irritation Causes skin irritation.

Irritation Corrosion - Skin

SODIUM METASILICATE	OECD 404 Result: Corrosive Species: Rabbit
AMMONIUM PERSULFATE	OECD 404 Result: Irritating Species: Rabbit
SODIUM SILICATE	OECD 404 Result: Irritating Species: Rabbit
SILICA	OECD 404 Result: Not Irritating Species: Rabbit
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

SODIUM METASILICATE	IRE Result: Corrosive Species: In vitro
AMMONIUM PERSULFATE	OECD 405 Result: Irritating Species: Rabbit

Irritation Corrosion - Eye

SILICA	OECD 405 Result: Not Irritating Species: Rabbit
SODIUM SILICATE	Result: Corrosive Species: Rabbit
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Respiratory or skin sensitization

Respiratory sensitization May cause allergy or asthma symptoms or breathing difficulties if inhaled.

AMMONIUM PERSULFATE	Result: Sensitizing Species: Human
POTASSIUM PERSULFATE	Result: Sensitizing Species: Human

Skin sensitization May cause an allergic skin reaction.

Sensitization

AMMONIUM PERSULFATE	OECD 406 Result: Sensitizing Species: Guinea pig
SODIUM SILICATE	OECD 429 Result: Not Sensitizing Species: Mouse
POTASSIUM PERSULFATE	OECD 429 Result: Sensitizing Species: Mouse

Skin sensitization

SODIUM METASILICATE	OECD 429 Result: Not Sensitizing Species: Mouse
POTASSIUM PERSULFATE	OECD 429 Result: Sensitizing Species: Guinea pig
SILICA	Result: Not Sensitizing

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

SILICA	Result: In vitro and in vivo tests did not show mutagenic effects.
SODIUM METASILICATE	Result: In vitro and in vivo tests did not show mutagenic effects.
SODIUM SILICATE	Result: In vitro and in vivo tests did not show mutagenic effects.
AMMONIUM PERSULFATE	Result: In vitro tests did not show mutagenic effects
POTASSIUM PERSULFATE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

SILICA (CAS 112945-52-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

SODIUM METASILICATE	> 200 mg/kg bw/d Result: NOAEL Species: Mouse
SODIUM SILICATE	> 200 mg/kg bw/d Result: NOAEL Species: Rat
AMMONIUM PERSULFATE	> 250 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Developmental effects

SILICA	1350 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

SODIUM METASILICATE	> 159 mg/kg bw/d Result: NOAEL Species: Rat
SODIUM SILICATE	> 159 mg/kg bw/d, Oral Result: NOAEL Species: Rat

Fish	LC50	Danio rerio	1108 mg/l, 96 h OECD 203
Other	EC0	Pseudomonas putida	3454 mg/l, 30 min DIN 38412 Part 27

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

POTASSIUM PERSULFATE Result: Not expected to bioaccumulate

Bioaccumulative potential No data available.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code This product is ignitable (D001) RCRA hazardous wastes when intended for disposal.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT BLACK CANVAS LIGHTENER
Synonyms	None.
SDS number	50-23-0000008
Issue date	08-06-2018
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Manufacturer

Company name	L'Oreal USA Products, Inc
Address	133 Terminal Avenue Clark, NJ 07066 United States
Telephone	+1-732-499-2741
e-mail	nacorpeuropesdsrequest@loreal.com
1.4. Emergency telephone number	1-800-535-5053 (International: 352-323-3500)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards		
Oxidizing solids	Category 3	H272 - May intensify fire; oxidizer.
Health hazards		
Acute toxicity, oral	Category 4	H302 - Harmful if swallowed.
Skin corrosion/irritation	Category 2	H315 - Causes skin irritation.
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.
Respiratory sensitization	Category 1	H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Skin sensitization	Category 1	H317 - May cause an allergic skin reaction.
Specific target organ toxicity - single exposure	Category 3 respiratory tract irritation	H335 - May cause respiratory irritation.

Hazard summary

May intensify fire; oxidizer. Causes serious eye damage. Harmful if swallowed. Causes skin irritation. May cause irritation to the respiratory system. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: AMMONIUM PERSULFATE, POTASSIUM PERSULFATE, SODIUM METASILICATE, SODIUM SILICATE

Signal word Danger

Hazard statements

H272	May intensify fire; oxidizer.
H302	Harmful if swallowed.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H335	May cause respiratory irritation.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P210	Keep away from heat.
P220	Keep/Store away from clothing/combustible materials.
P221	Take any precaution to avoid mixing with combustibles.
P261	Avoid breathing dust/fume/gas/mist/vapors/spray.
P264	Wash thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P271	Use only outdoors or in a well-ventilated area.
P272	Contaminated work clothing should not be allowed out of the workplace.
P280	Wear protective gloves/eye protection/face protection.
P284	Wear respiratory protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P301 + P312	IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
P330	Rinse mouth.
P302 + P352	IF ON SKIN: Wash with plenty of water.
P304 + P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P333 + P313	If skin irritation or rash occurs: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.
P370 + P378	In case of fire: Use appropriate media to extinguish.

Storage

P403 + P233	Store in a well-ventilated place. Keep container tightly closed.
P405	Store locked up.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 37,4% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 47,9% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards None known.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
POTASSIUM PERSULFATE	29	7727-21-1 231-781-8	01-2119495676-19	016-061-00-1	

Classification: Ox. Sol. 3;H272, Acute Tox. 4;H302, Skin Irrit. 2;H315, Skin Sens. 1;H317, Eye Irrit. 2;H319, Resp. Sens. 1;H334, STOT SE 3;H335

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
AMMONIUM PERSULFATE	23,88	7727-54-0 231-786-5	01-2119495973-19	016-060-00-6	
Classification:	Ox. Sol. 3;H272, Acute Tox. 4;H302, Skin Irrit. 2;H315, Skin Sens. 1;H317, Eye Irrit. 2;H319, Acute Tox. 4;H332, Resp. Sens. 1;H334, STOT SE 3;H335, Aquatic Chronic 3;H412				
SODIUM METASILICATE	13	6834-92-0 229-912-9	01-2119449811-37	014-010-00-8

Classification:	Skin Irrit. 2;H315, Eye Dam. 1;H318, STOT SE 3;H335				

Other components below reportable levels 23.62

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Take off all contaminated clothing immediately. Contact with combustible material may cause fire. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.

Skin contact IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards May intensify fire; oxidizer. Contact with combustible material may cause fire.

5.1. Extinguishing media

Suitable extinguishing media Water spray. Foam. Powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers.
Specific methods	Cool containers exposed to flames with water until well after the fire is out.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Minimize dust generation and accumulation. Wear appropriate protective equipment and clothing during clean-up. Stop the flow of material, if this is without risk. Large Spills: Wet down with water and dike for later disposal. Shovel the material into waste container. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not get this material in contact with eyes. Do not taste or swallow. Avoid breathing dust/fume/gas/mist/vapors/spray. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3
SILICA (CAS 112945-52-5)	TWA	10 mg/m3
SODIUM STEARATE (CAS 822-16-2)	TWA	10 mg/m3

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
SILICA (CAS 112945-52-5)	TWA	4 mg/m3	Inhalable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
SILICA (CAS 112945-52-5)	AGW	4 mg/m3	Inhalable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3
SODIUM STEARATE (CAS 822-16-2)	TWA	10 mg/m3

Poland. MACs. Regulation regarding maximum permissible concentrations and intensities of harmful factors in the work environment, Annex 1

Components	Type	Value	Form
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3	Inhalable fraction.
SILICA (CAS 112945-52-5)	TWA	2 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3
SODIUM STEARATE (CAS 822-16-2)	TWA	10 mg/m3

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. General ventilation normally adequate. Provide eyewash station. Eye wash fountain and emergency showers are recommended.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

- Hand protection Wear appropriate chemical resistant gloves. Frequent change is advisable.

- Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Wear positive pressure self-contained breathing apparatus (SCBA). Chemical respirator with organic vapor cartridge.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

Environmental exposure controls Environmental manager must be informed of all major releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state	Solid.
Form	Powder.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	9 - 11,5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.

Solubility(ies)

Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.

9.2. Other information

Density	0,500 g/cm³

SECTION 10: Stability and reactivity

10.1. Reactivity	Keep away from combustible material. Greatly increases the burning rate of combustible materials.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Heat. Contact with incompatible materials.
10.5. Incompatible materials	Combustible material. Reducing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation	May cause irritation to the respiratory system. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction.
Eye contact	Causes serious eye damage.
Ingestion	Harmful if swallowed.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash. None expected

11.1. Information on toxicological effects

Acute toxicity In high concentrations, vapors are anesthetic and may cause headache, fatigue, dizziness and central nervous system effects. Harmful if swallowed.

Product	Species	Test Results
PULP RIOT BLACK CANVAS LIGHTENER		
Acute		
Oral		
ATEmix		1407,2417 mg/kg

Components	Species	Test Results

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation Causes skin irritation.

Irritation Corrosion - Skin

SODIUM METASILICATE	OECD 404 Result: Corrosive Species: Rabbit
AMMONIUM PERSULFATE	OECD 404 Result: Irritating Species: Rabbit
SODIUM SILICATE	OECD 404 Result: Irritating Species: Rabbit
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

SODIUM METASILICATE	IRE Result: Corrosive Species: In vitro
AMMONIUM PERSULFATE	OECD 405 Result: Irritating Species: Rabbit
SODIUM SILICATE	Result: Corrosive Species: Rabbit
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Respiratory sensitization May cause allergy or asthma symptoms or breathing difficulties if inhaled.

AMMONIUM PERSULFATE	Result: Sensitizing Species: Human
POTASSIUM PERSULFATE	Result: Sensitizing Species: Human

Skin sensitization May cause an allergic skin reaction.

Sensitization

AMMONIUM PERSULFATE	OECD 406 Result: Sensitizing Species: Guinea pig
SODIUM SILICATE	OECD 429 Result: Not Sensitizing Species: Mouse
POTASSIUM PERSULFATE	OECD 429 Result: Sensitizing Species: Mouse

Skin sensitization

SODIUM METASILICATE	OECD 429 Result: Not Sensitizing Species: Mouse
POTASSIUM PERSULFATE	OECD 429 Result: Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

SODIUM METASILICATE	Result: In vitro and in vivo tests did not show mutagenic effects.
SODIUM SILICATE	Result: In vitro and in vivo tests did not show mutagenic effects.
AMMONIUM PERSULFATE	Result: In vitro tests did not show mutagenic effects
POTASSIUM PERSULFATE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

SODIUM METASILICATE	> 200 mg/kg bw/d Result: NOAEL Species: Mouse
SODIUM SILICATE	> 200 mg/kg bw/d Result: NOAEL Species: Rat
AMMONIUM PERSULFATE	> 250 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Reproductivity

SODIUM METASILICATE	> 159 mg/kg bw/d Result: NOAEL Species: Rat
SODIUM SILICATE	> 159 mg/kg bw/d, Oral Result: NOAEL Species: Rat

Reproductivity

AMMONIUM PERSULFATE	> 250 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure May cause respiratory irritation.

SODIUM METASILICATE	Result: Irritating
SODIUM SILICATE	Result: Irritating
POTASSIUM PERSULFATE	Result: Irritating Species: Human

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

SODIUM METASILICATE	> 227 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d
AMMONIUM PERSULFATE	10,3 mg/m³, Inhalation Result: NOAEC Species: Rat Test Duration: 90 d
POTASSIUM PERSULFATE	131,5 mg/kg bw/d OECD 407 Result: NOAEL Species: Rat Test Duration: 28 d
SODIUM SILICATE	2400 mg/kg bw/d OECD 407 Result: NOAEL Species: Rat Test Duration: 28 d
AMMONIUM PERSULFATE	41,1 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information May cause allergic respiratory and skin reactions.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
AMMONIUM PERSULFATE (CAS 7727-54-0)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	83,7 mg/l, 72 h
Crustacea	EC50	Daphnia magna	120 mg/l, 48 h
Fish	LC50	Oncorhynchus mykiss	76 mg/l, 96 h
Other	EC10	Pseudomonas putida	36 mg/l, 18 h
Chronic			
Algae	NOEC	Desmodesmus subspicatus	32 mg/l, 72 h OECD 201
SODIUM METASILICATE (CAS 6834-92-0)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 207 mg/l, 72 h DIN 38412, Pt. 9
Crustacea	EC50	Daphnia magna	> 1700 mg/l, 48 h EU C.2
Fish	LC50	Danio rerio	> 210 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	100 mg/l, 3 h OECD 209
SODIUM SILICATE (CAS 1344-09-8)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	> 345,4 mg/l, 72 h DIN 38412 Part 9

Components		Species	Test Results
Crustacea	EC50	Daphnia magna	1700 mg/l, 48 h EU C.2
Fish	LC50	Danio rerio	1108 mg/l, 96 h OECD 203
Other	EC0	Pseudomonas putida	3454 mg/l, 30 min DIN 38412 Part 27

* Estimates for product may be based on additional component data not shown.

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

POTASSIUM PERSULFATE — Result: Not expected to bioaccumulate

12.3. Bioaccumulative potential No data available.

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not available.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

SODIUM METASILICATE (CAS 6834-92-0)
SODIUM SILICATE (CAS 1344-09-8)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

AMMONIUM PERSULFATE (CAS 7727-54-0)
POTASSIUM PERSULFATE (CAS 7727-21-1)

Other regulations The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.

National regulations Follow national regulation for work with chemical agents. Young people under 18 years old are not allowed to work with this product according to EU Directive 94/33/EC on the protection of young people at work, as amended.

15.2. Chemical safety assessment No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations Not available.

References Not available.

Information on evaluation method leading to the classification of mixture The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.

Full text of any H-statements not written out in full under Sections 2 to 15	H272 May intensify fire; oxidizer. H290 May be corrosive to metals. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H332 Harmful if inhaled. H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT BLACK CANVAS LIGHTENER
Synonyme	Keine.
SDS-Nummer	50-23-0000008
Ausgabedatum	06-August-2018
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Personal care product used for cosmetic effect.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Hersteller

Firmenname	L'Oreal USA Products, Inc
Anschrift	133 Terminal Avenue Clark, NJ 07066 Vereinigte Staaten
Telefonnummer	+1-732-499-2741
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com
1.4. Notrufnummer	1-800-535-5053 (International: 352-323-3500)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Richtlinie 1272/2008 in der geänderten Fassung

Physikalische Gefahren		
Oxidierende Feststoffe	Kategorie 3	H272 - Kann Brand verstärken; Oxidationsmittel.
Gesundheitsgefahren		
Akute orale Toxizität	Kategorie 4	H302 - Gesundheitsschädlich bei Verschlucken.
Ätz-/Reizwirkung auf die Haut	Kategorie 2	H315 - Verursacht Hautreizungen.
Schwere Augenschädigung Reizung der Augen	Kategorie 1	H318 - Verursacht schwere Augenschäden.
Sensibilisierung der Atemwege	Kategorie 1	H334 - Kann bei Einatmen Allergie, asthmaartige Symptome oder Atembeschwerden verursachen.
Sensibilisierung der Haut	Kategorie 1	H317 - Kann allergische Hautreaktionen verursachen.
Spezifische Zielorgan-Toxizität bei einmaliger Exposition	Kategorie 3 Reizung der Atemwege	H335 - Kann die Atemwege reizen.

Gefahrenübersicht

Kann Brand verstärken; Oxidationsmittel. Verursacht schwere Augenschäden. Gesundheitsschädlich bei Verschlucken. Verursacht Hautreizungen. Kann die Atemwege reizen. Kann bei Einatmen Allergie, asthmaartige Symptome oder Atembeschwerden verursachen. Kann allergische Hautreaktionen verursachen. Die Exposition am Arbeitsplatz gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Enthält: AMMONIUM PERSULFATE, KIESELSÄURE, NATRIUMSALZ, POTASSIUM PERSULFATE, SODIUM METASILICATE

Gefahrenpiktogramme

Signalwort Gefahr

Gefahrenhinweise

H272	Kann Brand verstärken; Oxidationsmittel.
H302	Gesundheitsschädlich bei Verschlucken.
H315	Verursacht Hautreizungen.
H317	Kann allergische Hautreaktionen verursachen.
H318	Verursacht schwere Augenschäden.
H334	Kann bei Einatmen Allergie, asthmaartige Symptome oder Atembeschwerden verursachen.
H335	Kann die Atemwege reizen.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.
P210	Von Hitze fernhalten.
P220	Von Kleidung/brennbaren Materialien fernhalten/entfernt aufbewahren.
P221	Mischen mit brennbaren Stoffen unbedingt verhindern.
P261	Einatmen von Staub/Rauch/Gas/Nebel/Dampf/Aerosol vermeiden.
P264	Nach Gebrauch gründlich waschen.
P270	Bei Gebrauch nicht essen, trinken oder rauchen.
P271	Nur im Freien oder in gut belüfteten Räumen verwenden.
P272	Kontaminierte Arbeitskleidung nicht außerhalb des Arbeitsplatzes tragen.
P280	Schutzhandschuhe/Augenschutz/Gesichtsschutz tragen.
P284	Atemschutz tragen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.
P301 + P312	BEI VERSCHLUCKEN: Bei Unwohlsein GIFTINFORMATIONSZENTRUM/Arzt/ anrufen.
P330	Mund ausspülen.
P302 + P352	BEI BERÜHRUNG MIT DER HAUT: Mit viel Wasser/waschen.
P304 + P340	BEI EINATMEN: Die Person an die frische Luft bringen und für ungehinderte Atmung sorgen.
P305 + P351 + P338	BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
P310	Sofort GIFTINFORMATIONSZENTRUM/Arzt/anrufen.
P333 + P313	Bei Hautreizung oder -ausschlag: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.
P362 + P364	Kontaminierte Kleidung ausziehen und vor erneutem Tragen waschen.
P370 + P378	Bei Brand: Geeignetes Medium zum Löschen verwenden.

Lagerung

P403 + P233	Behälter dicht verschlossen an einem gut belüfteten Ort aufbewahren.
P405	Unter Verschluss aufbewahren.

Entsorgung

P501	Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.

Zusätzliche Angaben auf dem Etikett 37,4 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 47,9 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.

2.3. Sonstige Gefahren Unbekannt.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Allgemeine Angaben

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
POTASSIUM PERSULFATE	29	7727-21-1 231-781-8	01-2119495676-19	016-061-00-1	

Einstufung: Ox. Sol. 3;H272, Acute Tox. 4;H302, Skin Irrit. 2;H315, Skin Sens. 1;H317, Eye Irrit. 2;H319, Resp. Sens. 1;H334, STOT SE 3;H335

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
AMMONIUM PERSULFATE	23,88	7727-54-0 231-786-5	01-2119495973-19	016-060-00-6	
Einstufung:	Ox. Sol. 3;H272, Acute Tox. 4;H302, Skin Irrit. 2;H315, Skin Sens. 1;H317, Eye Irrit. 2;H319, Acute Tox. 4;H332, Resp. Sens. 1;H334, STOT SE 3;H335, Aquatic Chronic 3;H412				
SODIUM METASILICATE	13	6834-92-0 229-912-9	01-2119449811-37	014-010-00-8	
Einstufung:	Met. Corr. 1;H290, Acute Tox. 4;H302, Skin Corr. 1B;H314, Eye Dam. 1;H318, STOT SE 3;H335				
KIESELSÄURE, NATRIUMSALZ	10,5	1344-09-8 215-687-4	01-2119448725-31	-	
Einstufung:	Skin Irrit. 2;H315, Eye Dam. 1;H318, STOT SE 3;H335				
Andere Bestandteile unterhalb meldepflichtiger Mengen	23.62				

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Beschmutzte, getränkte Kleidung sofort ausziehen. Feuergefahr bei Berührung mit brennbaren Stoffen. Bei Unwohlsein ärztlichen Rat einholen (wenn möglich dieses Etikett vorzeigen). Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft. Dem behandelnden Arzt dieses Sicherheitsdatenblatt vorzeigen. Kontaminierte Kleidung vor erneutem Tragen waschen.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen Die betroffene Person an die frische Luft bringen und in einer Position ruhigstellen, die das Atmen erleichtert. Sauerstoff oder, falls erforderlich, künstliche Beatmung. Nicht die Mund-zu-Mund-Methode anwenden, wenn der Betroffene die Substanz eingenommen hat. Künstliche Beatmung einleiten mittels einer Taschenmaske, die mit einem Einwegventil ausgerüstet ist, oder sonstiger medizinischer Atmungsgeräte. Bei Symptomen der Atemwege: GIFTINFORMATIONSZENTRUM oder Arzt anrufen.

Hautkontakt BEI KONTAKT MIT DER KLEIDUNG: Kontaminierte Kleidung und Haut sofort mit viel Wasser abwaschen und danach Kleidung ausziehen. Beschmutzte, getränkte Kleidung sofort ausziehen und die Haut mit Wasser und Seife waschen. Bei Hautausschlägen und anderen Hautbeschwerden: Ärztliche Hilfe hinzuziehen und Sicherheitsdatenblatt mitnehmen. Kontaminierte Kleidung vor erneutem Tragen waschen.

Augenkontakt Augen sofort für 15 Minuten mit reichlich Wasser ausspülen. Ggf. Kontaktlinsen herausnehmen, wenn dies einfach möglich ist. Mit dem Auswaschen fortfahren. Sofort ärztliche Hilfe hinzuziehen!

Verschlucken Mund ausspülen. Sollte Erbrechen eintreten, den Kopf nach unten halten, damit kein Mageninhalt in die Lungen gerät. Bei Unwohlsein ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen. Kann zu dauerhaften Augenschäden einschließlich Blindheit führen. Kann die Atemwege reizen. Atembeschwerden. Hautreizung. Kann Rötung und Schmerzen verursachen. Kann allergische Hautreaktionen verursachen. Dermatitis. Ausschlag.

4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung Allgemeine Unterstützungsmaßnahmen und symptomatische Behandlung sind angezeigt. Betroffene Person warm halten. Betroffene Person unter Beobachtung halten. Die Symptome können verzögert auftreten.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren Kann Brand verstärken; Oxidationsmittel. Feuergefahr bei Berührung mit brennbaren Stoffen.

5.1. Löschmittel

Geeignete Löschmittel Wassersprühnebel. Schaum. Pulver. Kohlendioxid (CO_2).

Ungeeignete Löschmittel Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.

5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren

Erhöht den Abbrand brennbarer Materialien stark. Container können explodieren, wenn sie extremer Hitze ausgesetzt werden. Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung

Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.

Besondere Verfahren zur Brandbekämpfung

Explosions- und Brandgase nicht einatmen. Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist. Zur Kühlung geschlossener Behälter Wassersprühnebel einsetzen.

Besondere Löschhinweise

Durch Flammen erhitzte Behälter weiter mit Wasser kühlen, nachdem das Feuer gelöscht wurde.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal

Unnötiges Personal fernhalten. Personen fernhalten und auf windzugewandter Seite bleiben. Von Kleidung und anderen brennbaren Materialien fernhalten Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen. Beschädigte Behälter oder ausgetretenes Material nur berühren, wenn geeignete Schutzkleidung getragen wird. Für angemessene Lüftung sorgen. Wenn grössere Mengen verschütteten Materials nicht eingedämmt werden können, sollen die lokalen Behörden benachrichtigt werden. Angaben zur persönlichen Schutzausrüstung finden Sie in Abschnitt 8 des SDB's.

Einsatzkräfte

Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, siehe Abschnitt 8 im SDB.

6.2. Umweltschutzmaßnahmen

Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.

6.3. Methoden und Material für Rückhaltung und Reinigung

Brennbare Stoffe (Holz, Papier, Öl usw.) von dem ausgetreten Material fernhalten. Lüften Sie den kontaminierten Bereich. Die Bildung und Ansammlung von Staub minimieren. Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen. Falls nicht risikoträchtig, Materialfuss stoppen.

Bei Austritt großer Mengen: Mit Wasser durchnässen und zur späteren Entsorgung eindämmen. Material in Abfallbehälter schaufeln. Mit Vermiculit, trockenem Sand oder Erde aufnehmen und in Behälter füllen. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen.

Kleine Austrittsmengen: Verschüttetes Material aufkehren oder aufsaugen und in geeigneten Behälter zur Entsorgung geben. Mit saugfähigem Material (z.B. Lappen, Vlies) aufwischen. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen.

Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.

6.4. Verweis auf andere Abschnitte

Angaben zur persönlichen Schutzausrüstung finden Sie in Abschnitt 8 des SDB's. Angaben zur Entsorgung finden Sie in Abschnitt 13 des SDB's

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung

Die Bildung und Ansammlung von Staub minimieren. Regelmäßige Reinigung sollte eingeführt werden, um sicherzustellen, dass sich kein Staub auf den Oberflächen ansammelt. Vor Hitze schützen. Mischen mit brennbaren Stoffen unbedingt verhindern. Von Kleidung und anderen brennbaren Materialien fernhalten Dieses Material darf nicht mit den Augen in Berührung kommen. Nicht probieren oder schlucken. Einatmen von Staub/Rauch/Gas/Nebel/Dampf/Aerosol vermeiden. Berührung mit den Augen, der Haut und Kleidung vermeiden. Längeren Kontakt vermeiden. Bei der Verwendung nicht essen, trinken oder rauchen. Für ausreichend Belüftung sorgen. Geeignete persönliche Schutzausrüstung tragen. Nach Gebrauch Hände gründlich waschen. Anerkannte industrielle Hygienemaßnahmen beachten.

7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten

Unter Verschluss aufbewahren. Vor Hitze schützen. An einem kühlen, trockenen Ort geschützt vor Sonnenlicht lagern. Im fest verschlossenen Originalbehälter lagern. An einem gut belüfteten Ort aufbewahren. Nicht in der Nähe von brennbaren Stoffen lagern. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des MSDB).

7.3. Spezifische Endanwendungen

Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3
NATRIUMSTEARAT (CAS 822-16-2)	TWA	10 mg/m3

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3
SILIKA (CAS 112945-52-5)	TWA	10 mg/m3

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
SILIKA (CAS 112945-52-5)	TWA	4 mg/m3	Einatembare Fraktion.

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
SILIKA (CAS 112945-52-5)	AGW	4 mg/m3	Einatembare Fraktion.

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3
NATRIUMSTEARAT (CAS 822-16-2)	TWA	10 mg/m3
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3

Polen. MAK-Werte. Verordnung hinsichtlich den maximal erlaubten Konzentrationen und Intensitäten gesundheitsschädlicher Faktoren am Arbeitsplatz, Anhang 1

Komponenten	Typ	Wert	Form
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3	Einatembare Fraktion.
SILIKA (CAS 112945-52-5)	TWA	2 mg/m3	Alveolengängige Fraktion.
		10 mg/m3	Einatembare Fraktion.

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert
AMMONIUM PERSULFATE (CAS 7727-54-0)	TWA	0,1 mg/m3
NATRIUMSTEARAT (CAS 822-16-2)	TWA	10 mg/m3
POTASSIUM PERSULFATE (CAS 7727-21-1)	TWA	0,1 mg/m3

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren Standardüberwachungsverfahren befolgen.

Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL) Steht nicht zur Verfügung.

Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs) Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen Gute allgemeine Lüftung (gewöhnlich 10 Luftwechsel pro Stunde). Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten. Allgemeine Belüftung ist normalerweise angemessen. Augenduschstation bereitstellen. Augenspülanlagen und Notduschen empfohlen.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben Vorgeschriebene persönliche Schutzausrüstung verwenden. Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.

Augen-/Gesichtsschutz	Sicherheitsbrille mit Seitenschutz (oder Korbbrille) und Gesichtsschutz tragen.
Hautschutz	
- Handschutz	Geeignete chemikalienbeständige Handschuhe tragen. Häufiges Wechseln wird empfohlen.
- Sonstige Schutzmaßnahmen	Geeignete chemikalienbeständige Kleidung tragen. Die Verwendung einer undurchlässigen Schürze wird empfohlen.
Atemschutz	Umluftunabhängiges Atemgerät mit Positivdruck tragen. Atemschutzgerät mit Chemikalienfiltern gegen organische Dämpfe.
Thermische Gefahren	Geeignete Hitzeschutzkleidung tragen, falls nötig.
Hygienemaßnahmen	Nicht in Kontakt mit Kleidung und anderen brennbaren Materialien gelangen lassen. Beschmutzte, getränkte Kleidung sofort ablegen und waschen. Von Nahrungsmitteln und Getränken fernhalten. Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen. Kontaminierte Arbeitskleidung nicht außerhalb des Arbeitsplatzes tragen.
Begrenzung und Überwachung der Umweltexposition	Bei Freisetzung großer Mengen muss immer der Umweltschutzbeauftragte benachrichtigt werden.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen	
Aggregatzustand	Feststoff.
Form	Pulver.
Farbe	Steht nicht zur Verfügung.
Geruch	Steht nicht zur Verfügung.
Geruchsschwelle	Steht nicht zur Verfügung.
pH-Wert	9 - 11,5
Schmelzpunkt/Gefrierpunkt	Steht nicht zur Verfügung.
Siedebeginn und Siedebereich	Steht nicht zur Verfügung.
Flammpunkt	> 100,0 °C (> 212,0 °F) Geschlossener Tiegel
Verdampfungsgeschwindigkeit	Steht nicht zur Verfügung.
Entzündbarkeit (fest, gasförmig)	Steht nicht zur Verfügung.
Obere/untere Entzündbarkeits- oder Explosionsgrenzen	
Untere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Obere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Dampfdruck	Steht nicht zur Verfügung.
Dampfdichte	Steht nicht zur Verfügung.
Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Kann Brand verstärken; Oxidationsmittel.

9.2. Sonstige Angaben

Dichte	0,500 g/cm³

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Von brennbaren Stoffen fernhalten. Erhöht den Abbrand brennbarer Materialien stark.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.

10.4. Zu vermeidende Bedingungen	Hitze. Kontakt mit unverträglichen Materialien.
10.5. Unverträgliche Materialien	Brennbarer Stoff. Reduktionsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.

Angaben zu wahrscheinlichen Expositionswegen

Einatmen Kann die Atemwege reizen. Kann bei Einatmen Allergie, asthmaartige Symptome oder Atembeschwerden verursachen. Anhaltendes Einatmen kann schädlich sein.

Hautkontakt Verursacht Hautreizungen. Kann allergische Hautreaktionen verursachen.

Augenkontakt Verursacht schwere Augenschäden.

Verschlucken Gesundheitsschädlich bei Verschlucken.

Symptome Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen. Kann zu dauerhaften Augenschäden einschließlich Blindheit führen. Kann die Atemwege reizen. Atembeschwerden. Hautreizung. Kann Rötung und Schmerzen verursachen. Kann allergische Hautreaktionen verursachen. Dermatitis. Ausschlag. None expected

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität In hohen Konzentrationen wirken Dämpfe betäubend und können Kopfschmerzen, Müdigkeit, Benommenheitund Auswirkungen auf das Zentralnervensystem verursachen. Gesundheitsschädlich bei Verschlucken.

KIESELSÄURE, NATRIUMSALZ	Ergebnis: In vitro und in vivo-Tests zeigten keine mutagenen Wirkungen.

Mutagenität

SODIUM METASILICATE	Ergebnis: In vitro und in vivo-Tests zeigten keine mutagenen Wirkungen.
AMMONIUM PERSULFATE	Ergebnis: In-vitro-Tests zeigten keine erbgutverändernden Wirkungen
POTASSIUM PERSULFATE	Ergebnis: In-vitro-Tests zeigten keine erbgutverändernden Wirkungen

Karzinogenität Bei Menschen nicht als karzinogen einzustufen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Nicht eingetragen.

Reproduktionstoxizität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Entwicklungsstörungen

SODIUM METASILICATE	> 200 mg/kg bw/d Ergebnis: DSENO Spezies: Maus
KIESELSÄURE, NATRIUMSALZ	> 200 mg/kg bw/d Ergebnis: DSENO Spezies: Ratte
AMMONIUM PERSULFATE	> 250 mg/kg bw/d OECD 421 Ergebnis: DSENO Spezies: Ratte

Reproduktionstoxizität

SODIUM METASILICATE	> 159 mg/kg bw/d Ergebnis: DSENO Spezies: Ratte
KIESELSÄURE, NATRIUMSALZ	> 159 mg/kg bw/d, Oral Ergebnis: DSENO Spezies: Ratte
AMMONIUM PERSULFATE	> 250 mg/kg bw/d OECD 421 Ergebnis: DSENO Spezies: Ratte

Spezifische Zielorgan-Toxizität bei einmaliger Exposition Kann die Atemwege reizen.

KIESELSÄURE, NATRIUMSALZ	Ergebnis: reizend
SODIUM METASILICATE	Ergebnis: reizend
POTASSIUM PERSULFATE	Ergebnis: reizend Spezies: Menschlich

Spezifische Zielorgan-Toxizität bei wiederholter Exposition Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

SODIUM METASILICATE	> 227 mg/kg bw/d OECD 408, Oral Ergebnis: DSENO Spezies: Ratte Testdauer: 90 d
AMMONIUM PERSULFATE	10,3 mg/m3, Einatmen Ergebnis: NOAEC Spezies: Ratte Testdauer: 90 d
POTASSIUM PERSULFATE	131,5 mg/kg bw/d OECD 407 Ergebnis: DSENO Spezies: Ratte Testdauer: 28 d
KIESELSÄURE, NATRIUMSALZ	2400 mg/kg bw/d OECD 407 Ergebnis: DSENO Spezies: Ratte Testdauer: 28 d
AMMONIUM PERSULFATE	41,1 mg/kg bw/d OECD 407, Oral Ergebnis: DSENO Spezies: Ratte Testdauer: 28 d

Aspirationsgefahr Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Gemischbezogene gegenüber stoffbezogenen Angaben Keine Information verfügbar.

Sonstige Angaben Kann allergische Reaktionen der Atemwege und der Haut verursachen.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.

Komponenten		Spezies	Testergebnisse
AMMONIUM PERSULFATE (CAS 7727-54-0)

* Die Schätzungen für das Produkt können auf zusätzlichen, nicht angegebenen Bestandteildaten beruhen.

12.2. Persistenz und Abbaubarkeit

Biologische Abbaubarkeit

Prozentualer Abbau (aerober biologischer Abbau)

POTASSIUM PERSULFATE — Ergebnis: Not expected to bioaccumulate

12.3. Bioakkumulationspotenzial — Keine Daten verfügbar.

Verteilungskoeffizient n-Oktanol/Wasser (log Kow) — Steht nicht zur Verfügung.

12.4. Mobilität im Boden — Keine Daten verfügbar.

12.5. Ergebnisse der PBT- und vPvB-Beurteilung — Steht nicht zur Verfügung.

12.6Andere schädliche Wirkungen — Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall — Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).

Kontaminiertes Verpackungsmaterial — Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.

EU Abfallcode — Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.

Entsorgungsmethoden / Informationen — Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen. Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.

Besondere Vorsichtsmaßnahmen	Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

AMMONIUM PERSULFATE (CAS 7727-54-0)
POTASSIUM PERSULFATE (CAS 7727-21-1)

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Nationale Verordnungen für Arbeit mit chemischen Hilfsstoffen befolgen. Gemäß der EU-Richtlinie 94/33/EG über den Jugendarbeitsschutz, in der geänderten Fassung, dürfen junge Menschen unter 18 Jahren mit diesem Produkt nicht arbeiten.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	H272 Kann Brand verstärken; Oxidationsmittel. H290 Kann gegenüber Metallen korrosiv sein. H302 Gesundheitsschädlich bei Verschlucken. H314 Verursacht schwere Verätzungen der Haut und schwere Augenschäden. H315 Verursacht Hautreizungen. H317 Kann allergische Hautreaktionen verursachen. H318 Verursacht schwere Augenschäden. H319 Verursacht schwere Augenreizung. H332 Gesundheitsschädlich beim Einatmen. H334 Kann bei Einatmen Allergie, asthmaartige Symptome oder Atembeschwerden verursachen. H335 Kann die Atemwege reizen. H412 Schädlich für Wasserorganismen, mit langfristiger Wirkung.
Angaben zur Revision	Keine.
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.

Haftungsausschluss

Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT BLACK CANVAS LIGHTENER
Sinonimi	Nessuno.
Numero SDS	50-23-0000008
Data di pubblicazione	06-Agosto-2018
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Personal care product used for cosmetic effect.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Fabbricante

Nome della Società	L'Oreal USA Products, Inc
Indirizzo	133 Terminal Avenue Clark, NJ 07066 Stati Uniti
Numero di telefono	+1-732-499-2741
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com
1.4. Numero telefonico di emergenza	1-800-535-5053 (International: 352-323-3500)

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli fisici		
Solidi comburenti	Categoria 3	H272 - Può aggravare un incendio; comburente.
Pericoli per la salute		
Tossicità acuta, per via orale	Categoria 4	H302 - Nocivo se ingerito.
Corrosione cutanea/irritazione cutanea	Categoria 2	H315 - Provoca irritazione cutanea.
Gravi danni oculari/irritazione oculare	Categoria 1	H318 - Provoca gravi lesioni oculari.
Sensibilizzazione respiratoria	Categoria 1	H334 - Può provocare sintomi allergici o asmatici o difficoltà respiratorie se inalato.
Sensibilizzazione cutanea	Categoria 1	H317 - Può provocare una reazione allergica cutanea.
Tossicità specifica per organi bersaglio (STOT) — esposizione singola	Categoria 3 irritazione delle vie respiratorie	H335 - Può irritare le vie respiratorie.

Riepilogo dei pericoli Può aggravare un incendio; comburente. Provoca gravi lesioni oculari. Nocivo se ingerito. Provoca irritazione cutanea. Può causare irritazione alle vie respiratorie. Può provocare sintomi allergici o asmatici o difficoltà respiratorie se inalato. Può provocare una reazione allergica cutanea. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto di automedicazione è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: AMMONIUM PERSULFATE, PEROSSODISOLFATO DI DIPOTASSIO, Sodio metasilicato, Sodio silicato

Pittogrammi di pericolo

Avvertenza Pericolo

Indicazioni di pericolo

H272	Può aggravare un incendio; comburente.
H302	Nocivo se ingerito.
H315	Provoca irritazione cutanea.
H317	Può provocare una reazione allergica cutanea.
H318	Provoca gravi lesioni oculari.
H334	Può provocare sintomi allergici o asmatici o difficoltà respiratorie se inalato.
H335	Può irritare le vie respiratorie.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.
P210	Tenere lontano da fonti di calore.
P220	Tenere/conservare lontano da indumenti/materiali combustibili.
P221	Prendere ogni precauzione per evitare di miscelare con sostanze combustibili.
P261	Evitare di respirare la polvere/i fumi/i gas/la nebbia/i vapori/gli aerosol.
P264	Lavare attentamente dopo l'uso.
P270	Non mangiare, né bere, né fumare durante l'uso.
P271	Utilizzare soltanto all'aperto o in luogo ben ventilato.
P272	Gli indumenti da lavoro contaminati non devono essere portati fuori dal luogo di lavoro.
P280	Indossare guanti protettivi/proteggere gli occhi/il viso.
P284	Utilizzare un apparecchio respiratorio.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P301 + P312	SE INGERITO: In caso di malessere, contattare un CENTRO ANTIVELENI/un medico.
P330	Sciacquare la bocca.
P302 + P352	IN CASO DI CONTATTO CON LA PELLE: lavare abbondantemente con acqua.
P304 + P340	IN CASO DI INALAZIONE: trasportare l'infortunato all'aria aperta e mantenerlo a riposo in posizione che favorisca la respirazione.
P305 + P351 + P338	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P310	Contattare immediatamente un CENTRO ANTIVELENI/un medico.
P333 + P313	In caso di irritazione o eruzione della pelle: consultare un medico.
P362 + P364	Togliere tutti gli indumenti contaminati e lavarli prima di indossarli nuovamente.
P370 + P378	In caso di incendio: estinguere con mezzi adeguati.

Conservazione

P403 + P233	Tenere il recipiente ben chiuso e in luogo ben ventilato.
P405	Conservare sotto chiave.

Smaltimento

P501	Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 37,4 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 47,9 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non noto.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSODISOLFATO DI DIPOTASSIO	29	7727-21-1 231-781-8	01-2119495676-19	016-061-00-1

Altri componenti sotto i livelli di sicurezza 23.62

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Togliere immediatamente tutti gli indumenti contaminati. Può provocare l'accensione di materie combustibili. In caso di malessere consultare il medico (se possibile, mostrargli l'etichetta). Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi. Mostrare questa scheda di sicurezza al medico curante. Lavare gli indumenti contaminati prima di indossarli nuovamente.

4.1. Descrizione delle misure di primo soccorso

Inalazione Trasportare l'infortunato all'aria aperta e mantenerlo a riposo in posizione che favorisca la respirazione. Ricorrere all'ossigeno o alla respirazione artificiale se necessario. Non praticare la respirazione bocca a bocca se la vittima ha inalato la sostanza. Praticare la respirazione artificiale con l'ausilio di una maschera portatile con valvola ad una via o altra idonea apparecchiatura medica. In caso di sintomi respiratori, contattare un CENTRO ANTIVELENI o un medico.

Cutanea IN CASO DI CONTATTO CON GLI INDUMENTI: sciacquare immediatamente e abbondantemente gli indumenti contaminati e la pelle prima di togliersi gli indumenti. Togliere immediatamente gli indumenti contaminati e lavare la pelle con acqua e sapone. In caso di eczema o altri disturbi alla pelle: consultare un medico e portare con sé queste istruzioni. Lavare gli indumenti contaminati prima di indossarli nuovamente.

Contatto con gli occhi Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Consultare immediatamente un medico.

Ingestione Sciacquare la bocca. In caso di vomito, tenere la testa in basso in modo che il contenuto dello stomaco non penetri nei polmoni. In caso di malessere, consultare un medico.

4.2. Principali sintomi ed effetti, sia acuti che ritardati Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità. Può irritare le vie respiratorie. Difficoltà respiratorie. Irritazione cutanea. Può causare rossore e dolore.) Può provocare una reazione allergica cutanea. Dermatiti. Sfogo.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Tenere l'infortunato al caldo. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Può aggravare un incendio; comburente. Può provocare l'accensione di materie combustibili.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Spruzzi d'acqua. Schiuma. Polvere. Anidride carbonica (CO2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela Aumenta notevolmente la velocità di combustione dei materiali. I contenitori possono esplodere se riscaldati. In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi In caso d'incendio e/o esplosione non respirare i fumi. Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi. Spruzzi d'acqua possono essere usati per raffreddare contenitori chiusi.

Metodi specifici Raffreddare i contenitori esposti alle fiamme con acqua, anche dopo lo spegnimento delle fiamme.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Tenere lontano da indumenti e da altri materiali combustibili. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per informazioni sulla protezione individuale, consultare la sezione 8 della scheda di dati di sicurezza dei materiali.

Per chi interviene direttamente Allontanare il personale non necessario. Utilizzare i dispositivi di protezione individuale consigliati nella sezione 8 della scheda dati di sicurezza.

6.2. Precauzioni ambientali Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica Tenere i materiali combustibili (legno, carta, olio, ecc.) lontano dal materiale fuoriuscito. Ventilare l'area contaminata. Ridurre al minimo la generazione e l'accumulo di polvere. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Fermare il flusso del materiale, se ciò è possibile senza rischio.

Fuoriuscite di grandi dimensioni: bagnare con acqua e arginare per il successivo smaltimento. Spalare il materiale in un contenitore per rifiuti. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Spazzare o aspirare quanto riversato e mettere in un contenitore adeguato previsto per l'eliminazione. Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni Per informazioni sulla protezione individuale, consultare la sezione 8 della scheda di dati di sicurezza dei materiali. Per informazioni sullo smaltimento, consultare la sezione 13 della scheda di dati di sicurezza dei materiali.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura Ridurre al minimo la generazione e l'accumulo di polvere. Istituire procedure di pulizia di routine per impedire che le polveri si accumulino sulle superfici. Conservare lontano dal calore. Prendere ogni precauzione per evitare di miscelare con sostanze combustibili. Tenere lontano da indumenti e da altri materiali combustibili. Non permettere che questo materiale vada a contatto con gli occhi. Non introdurre in bocca o ingoiare. Evitare di respirare la polvere/i fumi/i gas/la nebbia/i vapori/gli aerosol. Evitare il contatto con gli occhi, con la pelle e con gli indumenti. Evitare l'esposizione prolungata. Durante l'utilizzo, non mangiare, bere o fumare. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Lavare accuratamente le mani dopo l'uso. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare sotto chiave. Conservare lontano dal calore. Conservare in un luogo fresco e asciutto, lontano dalla luce diretta del sole. Conservare nel contenitore originale ben chiuso. Conservare in luogo ben ventilato. Non stoccare vicino a materiali combustibili. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la Sezione 10 della scheda dati di sicurezza).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore
AMMONIUM PERSULFATE (CAS 7727-54-0)	8 ore	0,1 mg/m3
PEROSSODISOLFATO DI DIPOTASSIO (CAS 7727-21-1)	8 ore	0,1 mg/m3

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore
SILICE (CAS 112945-52-5)	8 ore	10 mg/m3
STEARATO DI SODIO (CAS 822-16-2)	8 ore	10 mg/m3

Germania. Elenco DFG MAK (OEL raccomandati). Commissione per le indagini sui rischi per la salute dei composti chimici nell'ambiente di lavoro (DFG)

Componenti	Tipo	Valore	Forma
SILICE (CAS 112945-52-5)	8 ore	4 mg/m3	Frazione inalabile.

Germania. TRGS 900, Valori limite in aria ambiente nel luogo di lavoro

Componenti	Tipo	Valore	Forma
SILICE (CAS 112945-52-5)	AGW	4 mg/m3	Frazione inalabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore
AMMONIUM PERSULFATE (CAS 7727-54-0)	8 ore	0,1 mg/m3
PEROSSODISOLFATO DI DIPOTASSIO (CAS 7727-21-1)	8 ore	0,1 mg/m3
STEARATO DI SODIO (CAS 822-16-2)	8 ore	10 mg/m3

Polonia. MAC. Regolamento riguardante le concentrazioni massime ammissibili e le intensità dei fattori nocivi nell'ambiente di lavoro, Allegato 1

Componenti	Tipo	Valore	Forma
PEROSSODISOLFATO DI DIPOTASSIO (CAS 7727-21-1)	8 ore	0,1 mg/m3	Frazione inalabile.
SILICE (CAS 112945-52-5)	8 ore	2 mg/m3	Frazione respirabile.
		10 mg/m3	Frazione inalabile.

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore
AMMONIUM PERSULFATE (CAS 7727-54-0)	8 ore	0,1 mg/m3
PEROSSODISOLFATO DI DIPOTASSIO (CAS 7727-21-1)	8 ore	0,1 mg/m3
STEARATO DI SODIO (CAS 822-16-2)	8 ore	10 mg/m3

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale (tipicamente 10 ricambi d'aria all'ora). Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Aerazione generale di norma adeguata. Installare un posto di lavaggio oculare. Utilizzare buone pratiche di igiene nel maneggiamento di questo materiale, incl'uso il cambio e il lavaggio degli indumenti dopo l'uso. Disfarsi di scarpe e di altri articoli contaminati di pelle.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle	
- Protezione delle mani	Indossare appositi guanti resistenti agli agenti chimici. È consigliabile cambiarlo spesso.
- Altro	Indossare appositi indumenti resistenti agli agenti chimici. Si consiglia di utilizzare un grembiule impenetrabile.
Protezione respiratoria	Indossare bombole ad ossigeno a pressione positiva (SCBA) Respiratore per sostanze chimiche con filtro per vapori organici.
Pericoli termici	Indossare opportuni indumenti termoprotettivi, quando necessario.
Misure d'igiene	Evitare il contatto con indumenti o altri materiali combustibili. Rimuovere e lavare immediatamente gli indumenti contaminati. Mantenere lontano da alimenti e bevande. Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti. Gli indumenti da lavoro contaminati non devono essere portati fuori dal luogo di lavoro.
Controlli dell'esposizione ambientale	Il responsabile ambientale deve essere informato di tutte le emissioni importanti.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto	
Stato fisico	Solido.
Forma	Polvere.
Colore	Non conosciuto.
Odore	Non conosciuto.
Soglia olfattiva	Non conosciuto.
pH	9 - 11,5
Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	Non conosciuto.
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non conosciuto.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Può aggravare un incendio; comburente.
9.2. Altre informazioni	
Densità	0,500 g/cm³

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Tenere lontano da sostanze combustibili. Aumenta notevolmente la velocità di combustione dei materiali.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.

10.3. Possibilità di reazioni pericolose Non si conosce nessuna reazione pericolosa se usato in condizioni normali.

10.4. Condizioni da evitare Calore. Contatto con materiali non compatibili.

10.5. Materiali incompatibili Materiale combustibile. Agenti riduttori.

10.6. Prodotti di decomposizione pericolosi Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.

Informazioni sulle vie probabili di esposizione

Inalazione Può causare irritazione alle vie respiratorie. Può provocare sintomi allergici o asmatici o difficoltà respiratorie se inalato. L'inalazione prolungata può essere nociva.

Cutanea Provoca irritazione cutanea. Può provocare una reazione allergica cutanea.

Contatto con gli occhi Provoca gravi lesioni oculari.

Ingestione Nocivo se ingerito.

Sintomi Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità. Può irritare le vie respiratorie. Difficoltà respiratorie. Irritazione cutanea. Può causare rossore e dolore.) Può provocare una reazione allergica cutanea. Dermatiti. Sfogo. None expected

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta In concentrazioni elevate i vapori sono anestetici e possono causare cefalea, stanchezza, vertigini e effetti sul sistema nervoso centrale. Nocivo se ingerito.

Altro	CE0	Pseudomonas putida	3454 mg/l, 30 min DIN38412 Part 27
Crostacei	EC50	Daphnia magna	1700 mg/l, 48 H EU C.2
Pesci	LC50	Danio rerio	1108 mg/l, 96 H OCSE 203

* Le valutazioni del prodotto possono essere basate su ulteriori dati dei componenti non indicati.

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSODISOLFATO DI DIPOTASSIO Risultato: Not expected to bioaccumulate

12.3. Potenziale di bioaccumulo Nessun dato disponibile.

Coefficiente di partizione n-ottanolo/acqua (log Kow) Non conosciuto.

12.4. Mobilità nel suolo Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB Non conosciuto.

12.6. Altri effetti avversi Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).

Imballaggi contaminati Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.

Codice Europeo dei Rifiuti Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.

Metodi di smaltimento/informazioni	Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.
Precauzioni particolari	Smaltire secondo le norme applicabili.

AMMONIUM PERSULFATE (CAS 7727-54-0)
PEROSSODISOLFATO DI DIPOTASSIO (CAS 7727-21-1)

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Per i lavori con sostanze chimiche attenersi alle normative nazionali. Ai minori di 18 anni non è consentito lavorare con questo prodotto conformemente alla Direttiva UE 94/33/CE relativa alla protezione dei giovani sul lavoro e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H272 Può aggravare un incendio; comburente. H290 Può essere corrosivo per i metalli. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H315 Provoca irritazione cutanea. H317 Può provocare una reazione allergica cutanea. H318 Provoca gravi lesioni oculari. H319 Provoca grave irritazione oculare. H332 Nocivo se inalato. H334 Può provocare sintomi allergici o asmatici o difficoltà respiratorie se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Nessuno.
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT 6 VOLUME DEVELOPER**

Other means of identification

SDS number 00-26-0000010

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

US Address:
L'Oreal USA Products, Inc
133 Terminal Avenue
Clark, NJ 07066
USA

Canadian Address:
L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent, H4T 1K5
Canada

Emergency Phone # :
1-800-535-5053 (International: 352-323-3500)
In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8012-95-1	6.5

Chemical name	Common name and synonyms	CAS number	%
HYDROGEN PEROXIDE		7722-84-1	1.8

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Not available.

Indication of immediate medical attention and special treatment needed Treat symptomatically.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Avoid prolonged exposure. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
MINERAL OIL (CAS 8012-95-1)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear suitable protective clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color White

Odor Not available.

Odor threshold Not available.

pH 2 - 2.4

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg bw OECD 402
Inhalation		
Vapor		
LC0	Rat	170 mg/m3 air, 4 h OECD 403
Oral		
LD50	Rat	693.7 mg/kg bw OECD 401
MINERAL OIL (CAS 8012-95-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Aerosol		
LC50	Rat	> 5 mg/L air, 4 h OECD 403

Components	Species	Test Results
Oral		
LD50	Rat	> 5000 mg/kg OECD 401

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1) 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

MINERAL OIL (CAS 8012-95-1) Known To Be Human Carcinogen.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - single exposure

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Not classified.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
HYDROGEN PEROXIDE	2.9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97
MINERAL OIL (CAS 8012-95-1)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

FINISHED GOODS

Not regulated as dangerous goods.

BULK

Not regulated as dangerous goods.

IATA

FINISHED GOODS

NFPA ratings Health: 0
Flammability: 1
Instability: 0

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT 6 VOLUME DEVELOPER
Synonyms	None.
SDS number	00-26-0000010
Issue date	08-13-2018
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Manufacturer

Company name	L'Oreal USA Products, Inc
Address	133 Terminal Avenue Clark, NJ 07066 United States
Telephone	+1-732-499-2741
e-mail	nacorpeuropesdsrequest@loreal.com
1.4. Emergency telephone number	1-800-535-5053 (International: 352-323-3500)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary Not classified for health hazards. However, occupational exposure to the mixture or substance(s) may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	8,1% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 8,1% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.
2.3. Other hazards	None known.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

The components are not hazardous or are below required disclosure limits.

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Avoid prolonged exposure. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
HYDROGEN PEROXIDE (CAS 7722-84-1)	VME	1,5 mg/m3
		1 ppm

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8012-95-1)	AGW	5 mg/m3	Respirable fraction.
STEARYL ALCOHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.

Poland. MACs. Regulation regarding maximum permissible concentrations and intensities of harmful factors in the work environment, Annex 1

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	STEL	0,8 mg/m3	
	TWA	0,4 mg/m3	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Wear appropriate chemical resistant gloves.
- Other	Wear suitable protective clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Environmental manager must be informed of all major releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	White
Odor	Not available.
Odor threshold	Not available.
pH	2 - 2,4
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability Material is stable under normal conditions.

10.3. Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Contact with incompatible materials.

10.5. Incompatible materials Strong oxidizing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact No adverse effects due to skin contact are expected.

Eye contact No adverse effects due to eye contact are expected.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on toxicological effects

Acute toxicity Not known.

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information This product has no known adverse effect on human health.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

12.2. Persistence and degradability

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not available.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	None.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT 6 VOLUME DEVELOPER
Synonyme	Keine.
SDS-Nummer	00-26-0000010
Ausgabedatum	13-August-2018
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Personal care product used for cosmetic effect.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Hersteller

Firmenname	L'Oreal USA Products, Inc
Anschrift	133 Terminal Avenue Clark, NJ 07066 Vereinigte Staaten
Telefonnummer	+1-732-499-2741
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com
1.4. Notrufnummer	1-800-535-5053 (International: 352-323-3500)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Richtlinie 1272/2008 in der geänderten Fassung

Dieses Gemisch erfüllt nicht die Einstufungskriterien gemäß der Richtlinie (EG) 1272/2008 in der geänderten Fassung.

Gefahrenübersicht

Das Produkt ist für gesundheitliche Gefahren nicht klassifiziert. Die Exposition am Arbeitsplatz gegenüber der Mischung oder dem Stoff/Stoffen kann jedoch gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Gefahrenpiktogramme	Keine.
Signalwort	Keine.
Gefahrenhinweise	Das Gemisch erfüllt nicht die Kriterien für eine Einstufung.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.

Lagerung	Nicht in der Nähe von inkompatiblen Materialien lagern.
Entsorgung	Abfall und Rückstände gemäß der örtlichen behördlichen Bestimmungen entsorgen.
Zusätzliche Angaben auf dem Etikett	8,1 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 8,1 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.
2.3. Sonstige Gefahren	Unbekannt.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Die Bestandteile sind nicht gefährlich oder liegen unter den meldepflichtigen Grenzen.

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.

Hautkontakt Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Augenkontakt Mit Wasser spülen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Verschlucken Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.

4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.

4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung Gemäß Symptomen behandeln.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren Keine Angaben über ungewöhnliche Brand- oder Explosionsgefahr.

5.1. Löschmittel

Geeignete Löschmittel Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO_2).

Ungeeignete Löschmittel Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.

5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.

Besondere Verfahren zur Brandbekämpfung Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.

Besondere Löschhinweise Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal Unnötiges Personal fernhalten. Angaben zur persönlichen Schutzausrüstung finden Sie in Abschnitt 8 des SDB's.

Einsatzkräfte Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, siehe Abschnitt 8 im SDB.

6.2. Umweltschutzmaßnahmen Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.

6.3. Methoden und Material für Rückhaltung und Reinigung Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Mit Vermiculit, trockenem Sand oder Erde aufnehmen und in Behälter füllen. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen.

Kleine Austrittsmengen: Mit saugfähigem Material (z.B. Lappen, Vlies) aufwischen. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen.

Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.

6.4. Verweis auf andere Abschnitte Angaben zur persönlichen Schutzausrüstung finden Sie in Abschnitt 8 des SDB's. Angaben zur Entsorgung finden Sie in Abschnitt 13 des SDB's

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung Längeren Kontakt vermeiden. Anerkannte industrielle Hygienemaßnahmen beachten.

7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten Im fest verschlossenen Originalbehälter lagern. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des MSDB).

7.3. Spezifische Endanwendungen Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten	Typ	Wert
WASSERSTOFFPEROXID (CAS 7722-84-1)	VME	1,5 mg/m3
		1 ppm

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Alveolengängige Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	AGW	5 mg/m3	Alveolengängige Fraktion.
SEARYLALKHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1 ppm	

Polen. MAK-Werte. Verordnung hinsichtlich den maximal erlaubten Konzentrationen und Intensitäten gesundheitsschädlicher Faktoren am Arbeitsplatz, Anhang 1

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,4 mg/m3	
	Überschreitungsfaktor für Spitzenbegrenzung	0,8 mg/m3	

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren Standardüberwachungsverfahren befolgen.

Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL) Steht nicht zur Verfügung.

Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs) Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen Gute allgemeine Lüftung (gewöhnlich 10 Luftwechsel pro Stunde). Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.

Augen-/Gesichtsschutz Sicherheitsbrille mit Seitenschutz (oder Schutzbrille) tragen.

Hautschutz

- Handschutz Geeignete chemikalienbeständige Handschuhe tragen.

- Sonstige Schutzmaßnahmen Bei der Arbeit geeignete Schutzkleidung tragen.

Atemschutz Bei unzureichender Belüftung Atemschutzgerät anlegen.

Thermische Gefahren Geeignete Hitzeschutzkleidung tragen, falls nötig.

Hygienemaßnahmen Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.

Begrenzung und Überwachung der Umweltexposition Bei Freisetzung großer Mengen muss immer der Umweltschutzbeauftragte benachrichtigt werden.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen

Aggregatzustand Flüssigkeit.

Form Sahne.

Farbe Weiß

Geruch Steht nicht zur Verfügung.

Geruchsschwelle Steht nicht zur Verfügung.

pH-Wert 2 - 2,4

Schmelzpunkt/Gefrierpunkt Steht nicht zur Verfügung.

Siedebeginn und Siedebereich > 100 °C (> 212 °F)

Flammpunkt > 100,0 °C (> 212,0 °F) Geschlossener Tiegel

Verdampfungsgeschwindigkeit Steht nicht zur Verfügung.

Entzündbarkeit (fest, gasförmig) Nicht anwendbar.

Obere/untere Entzündbarkeits- oder Explosionsgrenzen

Untere Entzündbarkeitsgrenze (%) Steht nicht zur Verfügung.

Obere Entzündbarkeitsgrenze (%) Steht nicht zur Verfügung.

Dampfdruck Steht nicht zur Verfügung.

Dampfdichte	Steht nicht zur Verfügung.
Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Nicht oxidierend.
9.2. Sonstige Angaben	Keine relevanten weiteren Daten verfügbar.

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Das Produkt ist stabil und unter normalen Gebrauchs-, Lager- oder Transportbedingungen nicht reaktiv.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Kontakt mit unverträglichen Materialien.
10.5. Unverträgliche Materialien	Starke Oxidationsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben	Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.

Angaben zu wahrscheinlichen Expositionswegen

Einatmen	Anhaltendes Einatmen kann schädlich sein.
Hautkontakt	Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Augenkontakt	No adverse effects due to eye contact are expected.
Verschlucken	Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.
Symptome	Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität	Nicht bekannt.
Ätz-/Reizwirkung auf die Haut	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Schwere Augenschädigung Reizung der Augen	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. No adverse effects due to eye contact are expected.
Sensibilisierung der Atemwege	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Sensibilisierung der Haut	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Keimzell-Mutagenität	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Karzinogenität	Bei Menschen nicht als karzinogen einzustufen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Nicht eingetragen.

Reproduktionstoxizität	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Spezifische Zielorgan-Toxizität bei einmaliger Exposition	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Spezifische Zielorgan-Toxizität bei wiederholter Exposition	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Aspirationsgefahr	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Gemischbezogene gegenüber stoffbezogenen Angaben	Keine Information verfügbar.

Sonstige Angaben	Von diesem Produkt sind keine gesundheitsschädlichen Wirkungen bekannt.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität	Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.
12.2. Persistenz und Abbaubarkeit	
12.3. Bioakkumulationspotenzial	
Verteilungskoeffizient n-Oktanol/Wasser (log Kow)	Steht nicht zur Verfügung.
12.4. Mobilität im Boden	Keine Daten verfügbar.
12.5. Ergebnisse der PBT- und vPvB-Beurteilung	Steht nicht zur Verfügung.
12.6Andere schädliche Wirkungen	Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall	Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).
Kontaminiertes Verpackungsmaterial	Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.
EU Abfallcode	Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.
Entsorgungsmethoden / Informationen	Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen.
Besondere Vorsichtsmaßnahmen	Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

ABSCHNITT 14: Angaben zum Transport

ADR

FINISHED GOODS

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

BULK

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

IATA

FINISHED GOODS

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

BULK

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

IMDG

FINISHED GOODS

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

BULK

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

14.7. Massengutbeförderung gemäß Anhang II des MARPOL-Übereinkommens und gemäß IBC-Code	Nicht nachgewiesen.

ABSCHNITT 15: Rechtsvorschriften

15.1. Vorschriften zu Sicherheit, Gesundheits- und Umweltschutz/spezifische Rechtsvorschriften für den Stoff oder das Gemisch

EU-Vorschriften

Verordnung (EG) Nr. 1005/2009 über Stoffe, die zum Abbau der Ozonschicht führen, Anhang I und II, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 850/2004 für persistente organische Schadstoffe, Anhang I in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 1 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 2 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 3 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang V, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 166/2006 Anhang II Europäisches Schadstofffreisetzungs- und -verbringungsregister, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 1907/2006, REACH Artikel 59(10) Kandidatenliste in der derzeit durch die ECHA veröffentlichten Form

Nicht eingetragen.

Zulassungen

Verordnung (EG) Nr. 1907/2006, REACH Anhang XIV Verzeichnis der zulassungspflichtigen Stoffe, in der geänderten Fassung

Nicht eingetragen.

Beschränkungen für die Verwendung

Verordnung (EG) Nr. 1907/2006, REACH Anhang XVII Stoffe, die für das Inverkehrbringen und die Verwendung der Zulassungspflicht unterliegen

Nicht eingetragen.

Richtlinie 2004/37/EG: Über den Schutz der Arbeitnehmer gegen Gefährdung durch Karzinogene oder Mutagene am Arbeitsplatz, in der geänderten Fassung

Nicht eingetragen.

Andere EU Vorschriften

Richtlinie 2012/18/EU zur Beherrschung von Gefahren schwerer Unfälle mit gefährlichen Stoffen, in der geänderten Fassung

Nicht eingetragen.

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Nationale Verordnungen für Arbeit mit chemischen Hilfsstoffen befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	Keine.
Angaben zur Revision	Keine.
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 10 VOLUME DEVELOPER
Sinonimi	Nessuno.
Numero SDS	00-26-0000011
Data di pubblicazione	13-Agosto-2018
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Personal care product used for cosmetic effect.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Fabbricante

Nome della Società	L'Oreal USA Products, Inc
Indirizzo	133 Terminal Avenue Clark, NJ 07066 Stati Uniti
Numero di telefono	+1-732-499-2741
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com
1.4. Numero telefonico di emergenza	1-800-535-5053 (International: 352-323-3500)

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Questa miscela non rispetta i criteri di classificazione a norma del regolamento (CE) 1272/2008 modificato.

Riepilogo dei pericoli	Non classificato per i pericoli per la salute. Tuttavia l'esposizione professionale alla miscela o alla sostanza/alle sostanze può provocare effetti nocivi sulla salute. Questo prodotto di automedicazione è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Pittogrammi di pericolo	Nessuno.
Avvertenza	Nessuno.
Indicazioni di pericolo	La miscela non soddisfa i criteri di classificazione.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.

Conservazione	Conservare lontano da materiali non compatibili.
Smaltimento	Smaltire residui e rifiuti conformemente a quanto disposto dalle autorità locali.
Informazioni supplementari sulle etichette	La miscela contiene il 8,1 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 8,1 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.
2.3. Altri pericoli	Non noto.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

I componenti non sono pericolosi o sono al di sotto dei limiti riferibili.

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare con acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati L'esposizione può causare irritazione, arrossamento o malessere temporanei.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Trattare in modo sintomatico.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO_2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente Allontanare il personale non necessario. Per informazioni sulla protezione individuale, consultare la sezione 8 della scheda di dati di sicurezza dei materiali.

Per chi interviene direttamente Allontanare il personale non necessario. Utilizzare i dispositivi di protezione individuale consigliati nella sezione 8 della scheda dati di sicurezza.

6.2. Precauzioni ambientali Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni Per informazioni sulla protezione individuale, consultare la sezione 8 della scheda di dati di sicurezza dei materiali. Per informazioni sullo smaltimento, consultare la sezione 13 della scheda di dati di sicurezza dei materiali.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura Evitare l'esposizione prolungata. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare nel contenitore originale ben chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la Sezione 10 della scheda dati di sicurezza).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Francia. Valori limite di soglia (VLEP) per esposizione professionale a sostanze chimiche in Francia, INRS ED 984

Componenti	Tipo	Valore
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	VME	1,5 mg/m3
		1 ppm

Germania. Elenco DFG MAK (OEL raccomandati). Commissione per le indagini sui rischi per la salute dei composti chimici nell'ambiente di lavoro (DFG)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Frazione respirabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,71 mg/m3	
		0,5 ppm	

Germania. TRGS 900, Valori limite in aria ambiente nel luogo di lavoro

Componenti	Tipo	Valore	Forma
ALCOL STEARILICO (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	
Olio minerale (CAS 8012-95-1)	AGW	5 mg/m3	Frazione respirabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Polonia. MAC. Regolamento riguardante le concentrazioni massime ammissibili e le intensità dei fattori nocivi nell'ambiente di lavoro, Allegato 1

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,4 mg/m3	
	Breve termine	0,8 mg/m3	

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Nebbie.

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale (tipicamente 10 ricambi d'aria all'ora). Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Indossare appositi guanti resistenti agli agenti chimici.

- Altro Usare indumenti protettivi adatti.

Protezione respiratoria In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Il responsabile ambientale deve essere informato di tutte le emissioni importanti.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma Panna.

Colore Bianco

Odore Non conosciuto.

Soglia olfattiva Non conosciuto.

pH 2 - 2,4

Punto di fusione/punto di congelamento Non conosciuto.

Punto di ebollizione iniziale e intervallo di ebollizione > 100 °C (> 212 °F)

Punto di infiammabilità > 100,0 °C (> 212,0 °F) Vaso chiuso

Velocità di evaporazione Non conosciuto.

Infiammabilità (solidi, gas) Non applicabile.

Limiti superiori/inferiori di infiammabilità o di esplosività

Limite di infiammabilità - inferiore (%) Non conosciuto.

Limite di infiammabilità - superiore (%) Non conosciuto.

Tensione di vapore Non conosciuto.

Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Forti agenti ossidanti.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	No adverse effects due to eye contact are expected.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	L'esposizione può causare irritazione, arrossamento o malessere temporanei.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta	Non conosciuto.
Corrosione cutanea/irritazione cutanea	A causa della mancanza parziale o totale di dati, la classificazione non è possibile. Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Gravi danni oculari/irritazione oculare	A causa della mancanza parziale o totale di dati, la classificazione non è possibile. No adverse effects due to eye contact are expected.
Sensibilizzazione respiratoria	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Sensibilizzazione cutanea	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Mutagenicità sulle cellule germinali	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Cancerogenicità	Non classificabile in relazione alla cancerogenicità per l'uomo. A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Non listato.

Tossicità per la riproduzione	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Tossicità specifica per organi bersaglio (STOT) — esposizione singola	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Tossicità specifica per organi bersaglio (STOT) — esposizione ripetuta	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Pericolo in caso di aspirazione	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze	Nessuna informazione disponibile.
Altre informazioni	Non si conoscono effetti avversi sulla salute umana provocati da questo prodotto.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità	In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".
12.2. Persistenza e degradabilità	
12.3. Potenziale di bioaccumulo	
Coefficiente di partizione n-ottanolo/acqua (log Kow)	Non conosciuto.
12.4. Mobilità nel suolo	Nessun dato disponibile.
12.5. Risultati della valutazione PBT e vPvB	Non conosciuto.
12.6. Altri effetti avversi	Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui	Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).
Imballaggi contaminati	Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.
Codice Europeo dei Rifiuti	Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.
Metodi di smaltimento/informazioni	Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate.
Precauzioni particolari	Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

ADR

FINISHED GOODS

14.1. - 14.6.: Non regolamentata come merce pericolosa.

BULK

14.1. - 14.6.: Non regolamentata come merce pericolosa.

IATA

FINISHED GOODS

14.1. - 14.6.: Non regolamentata come merce pericolosa.

BULK

14.1. - 14.6.: Non regolamentata come merce pericolosa.

IMDG

FINISHED GOODS

14.1. - 14.6.: Non regolamentata come merce pericolosa.

BULK

14.1. - 14.6.: Non regolamentata come merce pericolosa.

14.7. Trasporto di rinfuse secondo l'allegato II di MARPOL ed il codice IBC	Non stabilito.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

Non listato.

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Per i lavori con sostanze chimiche attenersi alle normative nazionali.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	Nessuno.
Informazioni di revisione	Nessuno.
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT 10 VOLUME DEVELOPER**

Other means of identification

SDS number 00-26-0000011

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

US Address:
L'Oreal USA Products, Inc
133 Terminal Avenue
Clark, NJ 07066
USA

Canadian Address:
L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent, H4T 1K5
Canada

Emergency Phone # :
1-800-535-5053 (International: 352-323-3500)
In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8012-95-1	6.5

Chemical name	Common name and synonyms	CAS number	%
HYDROGEN PEROXIDE		7722-84-1	3.01

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Not available.

Indication of immediate medical attention and special treatment needed Treat symptomatically.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Avoid prolonged exposure. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
MINERAL OIL (CAS 8012-95-1)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear suitable protective clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color White

Odor Not available.

Odor threshold Not available.

pH 2 - 2.4

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1) 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

MINERAL OIL (CAS 8012-95-1) Known To Be Human Carcinogen.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - single exposure

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Not classified.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
HYDROGEN PEROXIDE	2.9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97
MINERAL OIL (CAS 8012-95-1)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Issue date 08-13-2018

Version # 01

NFPA ratings Health: 0
Flammability: 1
Instability: 0

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT 10 VOLUME DEVELOPER
Synonyms	None.
SDS number	00-26-0000011
Issue date	08-13-2018
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Manufacturer

Company name	L'Oreal USA Products, Inc
Address	133 Terminal Avenue Clark, NJ 07066 United States
Telephone	+1-732-499-2741
e-mail	nacorpeuropesdsrequest@loreal.com
1.4. Emergency telephone number	1-800-535-5053 (International: 352-323-3500)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary Not classified for health hazards. However, occupational exposure to the mixture or substance(s) may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	8,1% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 8,1% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.
2.3. Other hazards	None known.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

The components are not hazardous or are below required disclosure limits.

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Avoid prolonged exposure. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
HYDROGEN PEROXIDE (CAS 7722-84-1)	VME	1,5 mg/m3
		1 ppm

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8012-95-1)	AGW	5 mg/m3	Respirable fraction.
STEARYL ALCOHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.

Poland. MACs. Regulation regarding maximum permissible concentrations and intensities of harmful factors in the work environment, Annex 1

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	STEL	0,8 mg/m3	
	TWA	0,4 mg/m3	
MINERAL OIL (CAS 8012-95-1)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8012-95-1)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Wear appropriate chemical resistant gloves.
- Other	Wear suitable protective clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Environmental manager must be informed of all major releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	White
Odor	Not available.
Odor threshold	Not available.
pH	2 - 2,4
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability Material is stable under normal conditions.

10.3. Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Contact with incompatible materials.

10.5. Incompatible materials Strong oxidizing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact No adverse effects due to skin contact are expected.

Eye contact No adverse effects due to eye contact are expected.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on toxicological effects

Acute toxicity Not known.

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information This product has no known adverse effect on human health.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

12.2. Persistence and degradability

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not available.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	None.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT 10 VOLUME DEVELOPER
Synonyme	Keine.
SDS-Nummer	00-26-0000011
Ausgabedatum	13-August-2018
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Personal care product used for cosmetic effect.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Hersteller

Firmenname	L'Oreal USA Products, Inc
Anschrift	133 Terminal Avenue Clark, NJ 07066 Vereinigte Staaten
Telefonnummer	+1-732-499-2741
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com
1.4. Notrufnummer	1-800-535-5053 (International: 352-323-3500)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Richtlinie 1272/2008 in der geänderten Fassung

Dieses Gemisch erfüllt nicht die Einstufungskriterien gemäß der Richtlinie (EG) 1272/2008 in der geänderten Fassung.

Gefahrenübersicht

Das Produkt ist für gesundheitliche Gefahren nicht klassifiziert. Die Exposition am Arbeitsplatz gegenüber der Mischung oder dem Stoff/Stoffen kann jedoch gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Gefahrenpiktogramme	Keine.
Signalwort	Keine.
Gefahrenhinweise	Das Gemisch erfüllt nicht die Kriterien für eine Einstufung.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.

Lagerung	Nicht in der Nähe von inkompatiblen Materialien lagern.
Entsorgung	Abfall und Rückstände gemäß der örtlichen behördlichen Bestimmungen entsorgen.
Zusätzliche Angaben auf dem Etikett	8,1 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 8,1 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.
2.3. Sonstige Gefahren	Unbekannt.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Die Bestandteile sind nicht gefährlich oder liegen unter den meldepflichtigen Grenzen.

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.

Hautkontakt Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Augenkontakt Mit Wasser spülen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Verschlucken Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.

4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.

4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung Gemäß Symptomen behandeln.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren Keine Angaben über ungewöhnliche Brand- oder Explosionsgefahr.

5.1. Löschmittel

Geeignete Löschmittel Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO_2).

Ungeeignete Löschmittel Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.

5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.

Besondere Verfahren zur Brandbekämpfung Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.

Besondere Löschhinweise Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal Unnötiges Personal fernhalten. Angaben zur persönlichen Schutzausrüstung finden Sie in Abschnitt 8 des SDB's.

Einsatzkräfte Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, siehe Abschnitt 8 im SDB.

6.2. Umweltschutzmaßnahmen Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.

6.3. Methoden und Material für Rückhaltung und Reinigung Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Mit Vermiculit, trockenem Sand oder Erde aufnehmen und in Behälter füllen. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen.

Kleine Austrittsmengen: Mit saugfähigem Material (z.B. Lappen, Vlies) aufwischen. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen.

Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.

6.4. Verweis auf andere Abschnitte Angaben zur persönlichen Schutzausrüstung finden Sie in Abschnitt 8 des SDB's. Angaben zur Entsorgung finden Sie in Abschnitt 13 des SDB's

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung Längeren Kontakt vermeiden. Anerkannte industrielle Hygienemaßnahmen beachten.

7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten Im fest verschlossenen Originalbehälter lagern. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des MSDB).

7.3. Spezifische Endanwendungen Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten	Typ	Wert
WASSERSTOFFPEROXID (CAS 7722-84-1)	VME	1,5 mg/m3
		1 ppm

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Alveolengängige Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	AGW	5 mg/m3	Alveolengängige Fraktion.
SEARYLALKHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1 ppm	

Polen. MAK-Werte. Verordnung hinsichtlich den maximal erlaubten Konzentrationen und Intensitäten gesundheitsschädlicher Faktoren am Arbeitsplatz, Anhang 1

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,4 mg/m3	
	Überschreitungsfaktor für Spitzenbegrenzung	0,8 mg/m3	

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
Mineralöl (CAS 8012-95-1)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren Standardüberwachungsverfahren befolgen.

Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL) Steht nicht zur Verfügung.

Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs) Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen Gute allgemeine Lüftung (gewöhnlich 10 Luftwechsel pro Stunde). Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.

Augen-/Gesichtsschutz Sicherheitsbrille mit Seitenschutz (oder Schutzbrille) tragen.

Hautschutz

- Handschutz Geeignete chemikalienbeständige Handschuhe tragen.

- Sonstige Schutzmaßnahmen Bei der Arbeit geeignete Schutzkleidung tragen.

Atemschutz Bei unzureichender Belüftung Atemschutzgerät anlegen.

Thermische Gefahren Geeignete Hitzeschutzkleidung tragen, falls nötig.

Hygienemaßnahmen Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.

Begrenzung und Überwachung der Umweltexposition Bei Freisetzung großer Mengen muss immer der Umweltschutzbeauftragte benachrichtigt werden.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen

Aggregatzustand Flüssigkeit.

Form Sahne.

Farbe Weiß

Geruch Steht nicht zur Verfügung.

Geruchsschwelle Steht nicht zur Verfügung.

pH-Wert 2 - 2,4

Schmelzpunkt/Gefrierpunkt Steht nicht zur Verfügung.

Siedebeginn und Siedebereich > 100 °C (> 212 °F)

Flammpunkt > 100,0 °C (> 212,0 °F) Geschlossener Tiegel

Verdampfungsgeschwindigkeit Steht nicht zur Verfügung.

Entzündbarkeit (fest, gasförmig) Nicht anwendbar.

Obere/untere Entzündbarkeits- oder Explosionsgrenzen

Untere Entzündbarkeitsgrenze (%) Steht nicht zur Verfügung.

Obere Entzündbarkeitsgrenze (%) Steht nicht zur Verfügung.

Dampfdruck Steht nicht zur Verfügung.

Dampfdichte	Steht nicht zur Verfügung.
Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Nicht oxidierend.
9.2. Sonstige Angaben	Keine relevanten weiteren Daten verfügbar.

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Das Produkt ist stabil und unter normalen Gebrauchs-, Lager- oder Transportbedingungen nicht reaktiv.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Kontakt mit unverträglichen Materialien.
10.5. Unverträgliche Materialien	Starke Oxidationsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben	Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.

Angaben zu wahrscheinlichen Expositionswegen

Einatmen	Anhaltendes Einatmen kann schädlich sein.
Hautkontakt	Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Augenkontakt	No adverse effects due to eye contact are expected.
Verschlucken	Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.
Symptome	Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität	Nicht bekannt.
Ätz-/Reizwirkung auf die Haut	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Schwere Augenschädigung Reizung der Augen	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. No adverse effects due to eye contact are expected.
Sensibilisierung der Atemwege	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Sensibilisierung der Haut	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Keimzell-Mutagenität	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Karzinogenität	Bei Menschen nicht als karzinogen einzustufen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Nicht eingetragen.

Reproduktionstoxizität	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Spezifische Zielorgan-Toxizität bei einmaliger Exposition	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Spezifische Zielorgan-Toxizität bei wiederholter Exposition	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Aspirationsgefahr	Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.
Gemischbezogene gegenüber stoffbezogenen Angaben	Keine Information verfügbar.

Sonstige Angaben	Von diesem Produkt sind keine gesundheitsschädlichen Wirkungen bekannt.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität	Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.
12.2. Persistenz und Abbaubarkeit	
12.3. Bioakkumulationspotenzial	
Verteilungskoeffizient n-Oktanol/Wasser (log Kow)	Steht nicht zur Verfügung.
12.4. Mobilität im Boden	Keine Daten verfügbar.
12.5. Ergebnisse der PBT- und vPvB-Beurteilung	Steht nicht zur Verfügung.
12.6Andere schädliche Wirkungen	Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall	Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).
Kontaminiertes Verpackungsmaterial	Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.
EU Abfallcode	Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.
Entsorgungsmethoden / Informationen	Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen.
Besondere Vorsichtsmaßnahmen	Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

ABSCHNITT 14: Angaben zum Transport

ADR

FINISHED GOODS

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

BULK

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

IATA

FINISHED GOODS

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

BULK

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

IMDG

FINISHED GOODS

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

BULK

14.1. - 14.6.: Das Produkt fällt nicht unter die internationalen Regeln über den Transport von Gefahrgütern.

14.7. Massengutbeförderung gemäß Anhang II des MARPOL-Übereinkommens und gemäß IBC-Code	Nicht nachgewiesen.

ABSCHNITT 15: Rechtsvorschriften

15.1. Vorschriften zu Sicherheit, Gesundheits- und Umweltschutz/spezifische Rechtsvorschriften für den Stoff oder das Gemisch

EU-Vorschriften

Verordnung (EG) Nr. 1005/2009 über Stoffe, die zum Abbau der Ozonschicht führen, Anhang I und II, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 850/2004 für persistente organische Schadstoffe, Anhang I in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 1 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 2 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 3 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang V, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 166/2006 Anhang II Europäisches Schadstofffreisetzungs- und -verbringungsregister, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 1907/2006, REACH Artikel 59(10) Kandidatenliste in der derzeit durch die ECHA veröffentlichten Form

Nicht eingetragen.

Zulassungen

Verordnung (EG) Nr. 1907/2006, REACH Anhang XIV Verzeichnis der zulassungspflichtigen Stoffe, in der geänderten Fassung

Nicht eingetragen.

Beschränkungen für die Verwendung

Verordnung (EG) Nr. 1907/2006, REACH Anhang XVII Stoffe, die für das Inverkehrbringen und die Verwendung der Zulassungspflicht unterliegen

Nicht eingetragen.

Richtlinie 2004/37/EG: Über den Schutz der Arbeitnehmer gegen Gefährdung durch Karzinogene oder Mutagene am Arbeitsplatz, in der geänderten Fassung

Nicht eingetragen.

Andere EU Vorschriften

Richtlinie 2012/18/EU zur Beherrschung von Gefahren schwerer Unfälle mit gefährlichen Stoffen, in der geänderten Fassung

Nicht eingetragen.

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Nationale Verordnungen für Arbeit mit chemischen Hilfsstoffen befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	Keine.
Angaben zur Revision	Keine.
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 10 VOLUME DEVELOPER
Sinonimi	Nessuno.
Numero SDS	00-26-0000011
Data di pubblicazione	13-Agosto-2018
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Personal care product used for cosmetic effect.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Fabbricante

Nome della Società	L'Oreal USA Products, Inc
Indirizzo	133 Terminal Avenue Clark, NJ 07066 Stati Uniti
Numero di telefono	+1-732-499-2741
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com
1.4. Numero telefonico di emergenza	1-800-535-5053 (International: 352-323-3500)

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Questa miscela non rispetta i criteri di classificazione a norma del regolamento (CE) 1272/2008 modificato.

Riepilogo dei pericoli	Non classificato per i pericoli per la salute. Tuttavia l'esposizione professionale alla miscela o alla sostanza/alle sostanze può provocare effetti nocivi sulla salute. Questo prodotto di automedicazione è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Pittogrammi di pericolo	Nessuno.
Avvertenza	Nessuno.
Indicazioni di pericolo	La miscela non soddisfa i criteri di classificazione.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.

Conservazione	Conservare lontano da materiali non compatibili.
Smaltimento	Smaltire residui e rifiuti conformemente a quanto disposto dalle autorità locali.
Informazioni supplementari sulle etichette	La miscela contiene il 8,1 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 8,1 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.
2.3. Altri pericoli	Non noto.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

I componenti non sono pericolosi o sono al di sotto dei limiti riferibili.

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare con acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati L'esposizione può causare irritazione, arrossamento o malessere temporanei.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Trattare in modo sintomatico.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO_2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente Allontanare il personale non necessario. Per informazioni sulla protezione individuale, consultare la sezione 8 della scheda di dati di sicurezza dei materiali.

Per chi interviene direttamente Allontanare il personale non necessario. Utilizzare i dispositivi di protezione individuale consigliati nella sezione 8 della scheda dati di sicurezza.

6.2. Precauzioni ambientali Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni Per informazioni sulla protezione individuale, consultare la sezione 8 della scheda di dati di sicurezza dei materiali. Per informazioni sullo smaltimento, consultare la sezione 13 della scheda di dati di sicurezza dei materiali.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura Evitare l'esposizione prolungata. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare nel contenitore originale ben chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la Sezione 10 della scheda dati di sicurezza).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Francia. Valori limite di soglia (VLEP) per esposizione professionale a sostanze chimiche in Francia, INRS ED 984

Componenti	Tipo	Valore
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	VME	1,5 mg/m3
		1 ppm

Germania. Elenco DFG MAK (OEL raccomandati). Commissione per le indagini sui rischi per la salute dei composti chimici nell'ambiente di lavoro (DFG)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Frazione respirabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,71 mg/m3	
		0,5 ppm	

Germania. TRGS 900, Valori limite in aria ambiente nel luogo di lavoro

Componenti	Tipo	Valore	Forma
ALCOL STEARILICO (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	
Olio minerale (CAS 8012-95-1)	AGW	5 mg/m3	Frazione respirabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Polonia. MAC. Regolamento riguardante le concentrazioni massime ammissibili e le intensità dei fattori nocivi nell'ambiente di lavoro, Allegato 1

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,4 mg/m3	
	Breve termine	0,8 mg/m3	

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8012-95-1)	8 ore	5 mg/m3	Nebbie.

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale (tipicamente 10 ricambi d'aria all'ora). Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Indossare appositi guanti resistenti agli agenti chimici.

- Altro Usare indumenti protettivi adatti.

Protezione respiratoria In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Il responsabile ambientale deve essere informato di tutte le emissioni importanti.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma Panna.

Colore Bianco

Odore Non conosciuto.

Soglia olfattiva Non conosciuto.

pH 2 - 2,4

Punto di fusione/punto di congelamento Non conosciuto.

Punto di ebollizione iniziale e intervallo di ebollizione > 100 °C (> 212 °F)

Punto di infiammabilità > 100,0 °C (> 212,0 °F) Vaso chiuso

Velocità di evaporazione Non conosciuto.

Infiammabilità (solidi, gas) Non applicabile.

Limiti superiori/inferiori di infiammabilità o di esplosività

Limite di infiammabilità - inferiore (%) Non conosciuto.

Limite di infiammabilità - superiore (%) Non conosciuto.

Tensione di vapore Non conosciuto.

Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Forti agenti ossidanti.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	No adverse effects due to eye contact are expected.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	L'esposizione può causare irritazione, arrossamento o malessere temporanei.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta	Non conosciuto.
Corrosione cutanea/irritazione cutanea	A causa della mancanza parziale o totale di dati, la classificazione non è possibile. Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Gravi danni oculari/irritazione oculare	A causa della mancanza parziale o totale di dati, la classificazione non è possibile. No adverse effects due to eye contact are expected.
Sensibilizzazione respiratoria	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Sensibilizzazione cutanea	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Mutagenicità sulle cellule germinali	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Cancerogenicità	Non classificabile in relazione alla cancerogenicità per l'uomo. A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Non listato.

Tossicità per la riproduzione	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Tossicità specifica per organi bersaglio (STOT) — esposizione singola	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Tossicità specifica per organi bersaglio (STOT) — esposizione ripetuta	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.
Pericolo in caso di aspirazione	A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze	Nessuna informazione disponibile.
Altre informazioni	Non si conoscono effetti avversi sulla salute umana provocati da questo prodotto.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità	In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".
12.2. Persistenza e degradabilità	
12.3. Potenziale di bioaccumulo	
Coefficiente di partizione n-ottanolo/acqua (log Kow)	Non conosciuto.
12.4. Mobilità nel suolo	Nessun dato disponibile.
12.5. Risultati della valutazione PBT e vPvB	Non conosciuto.
12.6. Altri effetti avversi	Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui	Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).
Imballaggi contaminati	Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.
Codice Europeo dei Rifiuti	Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.
Metodi di smaltimento/informazioni	Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate.
Precauzioni particolari	Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

ADR

FINISHED GOODS

14.1. - 14.6.: Non regolamentata come merce pericolosa.

BULK

14.1. - 14.6.: Non regolamentata come merce pericolosa.

14.1. - 14.6.: Non regolamentata come merce pericolosa.

BULK

14.1. - 14.6.: Non regolamentata come merce pericolosa.

14.7. Trasporto di rinfuse secondo l'allegato II di MARPOL ed il codice IBC	Non stabilito.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

Non listato.

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Per i lavori con sostanze chimiche attenersi alle normative nazionali.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	Nessuno.
Informazioni di revisione	Nessuno.
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8042-47-5	≤ 7

Chemical name	Common name and synonyms	CAS number	%
HYDROGEN PEROXIDE		7722-84-1	< 2

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Not available.

Indication of immediate medical attention and special treatment needed Treat symptomatically.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Avoid prolonged exposure. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear suitable protective clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Viscous Liquid

Color White.

Odor Not available.

Odor threshold Not available.

pH 3.5 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C)

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Vapor		
LC0	Rat	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rat	693.7 mg/kg OECD 401
MINERAL OIL (CAS 8042-47-5)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Aerosol		
LC50	Rat	> 5 mg/L air, 4 h OECD 403

Components	Species	Test Results
Oral		
LD50	Rat	> 5000 mg/kg OECD 401

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Not classified.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
HYDROGEN PEROXIDE	2.9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97
MINERAL OIL (CAS 8042-47-5)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear suitable protective clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Viscous Liquid

Color White.

Odor Not available.

Odor threshold Not available.

pH 3.5 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C)

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Vapor		
LC0	Rat	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rat	693.7 mg/kg OECD 401
MINERAL OIL (CAS 8042-47-5)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Aerosol		
LC50	Rat	> 5 mg/L air, 4 h OECD 403

Components	Species	Test Results
Oral		
LD50	Rat	> 5000 mg/kg OECD 401

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

HYDROGEN PEROXIDE
0, C ≥ 35%
Result: Irritating

Specific target organ toxicity - repeated exposure Not classified.

MINERAL OIL
> 2000 mg/kg bw/d OECD 411, Dermal
Result: NOAEL
Species: Rat
Test Duration: 90 d
> 50 mg/m3 air OECD 412, Inhalation
Result: NOAEC
Species: Rat
Test Duration: 28 d
>= 1200 mg/kg bw/d OECD 453, Oral
Result: NOAEL
Species: Rat
Test Duration: 2 years

HYDROGEN PEROXIDE
2.9 mg/L air OECD 412, Inhalation
Result: NOAEL
Species: Rat
Test Duration: 28 d
26 mg/kg bw/d OECD 408, Oral
Result: NOAEL
Species: Mouse
Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

Further information This product has no known adverse effect on human health.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97
MINERAL OIL (CAS 8042-47-5)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE
99 % OECD 209
Result: Readily Biodegradable

Biodegradability

Percent degradation (Aerobic biodegradation)

MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential No data available.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Serious eye damage/eye irritation Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8042-47-5	≤ 7
HYDROGEN PEROXIDE		7722-84-1	≤ 6

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear suitable protective clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Viscous Liquid

Color White.

Odor Not available.

Odor threshold Not available.

pH 3.5 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C)

Evaporation rate Not available.

Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal

2. Hazard(s) identification

Physical hazards	Oxidizing liquids	Category 3
Health hazards	Serious eye damage/eye irritation	Category 1
OSHA defined hazards	Not classified.	

Label elements

Signal word Danger

Hazard statement May intensify fire; oxidizer. Causes serious eye damage.

Precautionary statement

Prevention Keep away from heat. Keep/Store away from clothing and other combustible materials. Take any precaution to avoid mixing with combustibles. Wear protective gloves/eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. In case of fire: Use appropriate media to extinguish.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
HYDROGEN PEROXIDE		7722-84-1	≤ 9
MINERAL OIL		8042-47-5	≤ 7

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Take off all contaminated clothing immediately. Contact with combustible material may cause fire. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions In case of fire and/or explosion do not breathe fumes. In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards May intensify fire; oxidizer. Contact with combustible material may cause fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

Hand protection

Wear appropriate chemical resistant gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable.

Other

Wear suitable protective clothing.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state

Liquid.

Form

Viscous Liquid

Color

White.

Odor	Not available.
Odor threshold	Not available.
pH	3.5 - 4.5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C)
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.

10. Stability and reactivity

Reactivity	Greatly increases the burning rate of combustible materials.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Heat. Contact with incompatible materials.
Incompatible materials	Combustible material. Reducing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity	Not known.

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Vapor		
LC0	Rat	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rat	693.7 mg/kg OECD 401
MINERAL OIL (CAS 8042-47-5)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Aerosol		
LC50	Rat	> 5 mg/L air, 4 h OECD 403
Oral		
LD50	Rat	> 5000 mg/kg OECD 401

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Not classified.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
HYDROGEN PEROXIDE	2.9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97

Components		Species	Test Results
MINERAL OIL (CAS 8042-47-5)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential No data available.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code This product is ignitable (D001) RCRA hazardous wastes when intended for disposal.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

2. Hazard(s) identification

Physical hazards	Oxidizing liquids	Category 3
Health hazards	Serious eye damage/eye irritation	Category 1
OSHA defined hazards	Not classified.	

Label elements

Signal word Danger

Hazard statement May intensify fire; oxidizer. Causes serious eye damage.

Precautionary statement

Prevention Keep away from heat. Keep/Store away from clothing and other combustible materials. Take any precaution to avoid mixing with combustibles. Wear protective gloves/eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. In case of fire: Use appropriate media to extinguish.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
HYDROGEN PEROXIDE		7722-84-1	≤ 12
MINERAL OIL		8042-47-5	≤ 7

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Take off all contaminated clothing immediately. Contact with combustible material may cause fire. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions In case of fire and/or explosion do not breathe fumes. In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards May intensify fire; oxidizer. Contact with combustible material may cause fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Use water spray to reduce vapors or divert vapor cloud drift. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

Hand protection

Wear appropriate chemical resistant gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable.

Other

Wear suitable protective clothing.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Not classified.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
HYDROGEN PEROXIDE	2.9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97

Components		Species	Test Results
MINERAL OIL (CAS 8042-47-5)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential No data available.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code This product is ignitable (D001) RCRA hazardous wastes when intended for disposal.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.16

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability Material is stable under normal conditions.

Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

Conditions to avoid Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition products No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation No adverse effects due to inhalation are expected.

Skin contact May cause an allergic skin reaction.

Eye contact Causes serious eye damage. No adverse effects due to eye contact are expected.

Ingestion Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
LAURETH-3 (CAS 68439-50-9)		
Acute		
Dermal		
LD50	Rabbit	2000 mg/kg, 24 Hours
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)		
Acute		
Oral		
LD50	Rat	102 mg/kg

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
P-AMINOPHENOL		123-30-8	0.89
RESORCINOL		108-46-3	0.4
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.26

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. ACGIH Threshold Limit Values

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH Not available.

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye damage. No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

RESORCINOL	OECD 404 Result: Irritating Species: Rabbit
P-AMINOPHENOL	Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

P-AMINOPHENOL	EPA OPPTS 870.2400 Result: Slightly Irritating Species: Rabbit
RESORCINOL	OECD 405 Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

P-AMINOPHENOL	OECD 406 Result: Sensitizing Species: Guinea pig
RESORCINOL	OECD 429 Result: Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

RESORCINOL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
P-AMINOPHENOL	Result: In vivo tests showed mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

RESORCINOL (CAS 108-46-3) 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat
RESORCINOL	250 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat
RESORCINOL	245 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

P-AMINOPHENOL	10 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
RESORCINOL	80 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

Further information May cause allergic respiratory and skin reactions.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
P-AMINOPHENOL (CAS 123-30-8)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 0.253 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	0.182 mg/l, 48 h OECD 202
Fish	LC50	Oryzias latipes	0.82 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	29.9 mg/l, 3 h OECD 209
RESORCINOL (CAS 108-46-3)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 97 mg/l, 97 h OECD 201
Crustacea	EC50	Daphnia magna	1 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	26.8 mg/l, 96 h
Other		Activated sludge of a predominantly domestic sewage	79 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	> 0.172 mg/l, 21 d
Fish	LOEC	Oncorhynchus mykiss	320 mg/l, 60 d

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

RESORCINOL	66.7 % OECD 301 C Result: Readily Biodegradable Test Duration: 14 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

P-AMINOPHENOL	0.04 0.25
RESORCINOL	0.8

Bioconcentration factor (BCF)

P-AMINOPHENOL	10 - 46 OECD 305 C

Bioaccumulation

P-AMINOPHENOL	Result: Bioaccumulation is unlikely.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
P-AMINOPHENOL		123-30-8	0.91
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.68
RESORCINOL		108-46-3	0.44

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. ACGIH Threshold Limit Values

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH Not available.

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye damage. No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Serious eye damage/eye irritation Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes serious eye damage.

Precautionary statement

Prevention Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not get this material in contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles) and a face shield.
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear suitable protective clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition products No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation No adverse effects due to inhalation are expected.

Skin contact No adverse effects due to skin contact are expected.

Eye contact Causes serious eye damage. No adverse effects due to eye contact are expected.

Ingestion Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
LAURETH-3 (CAS 68439-50-9)		
Acute		
Dermal		
LD50	Rabbit	2000 mg/kg, 24 Hours

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

FINISHED GOODS

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories

Immediate Hazard - Yes
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical Yes

SARA 313 (TRI reporting)

Not regulated.

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act (SDWA) Not regulated.

16. Other information, including date of preparation or last revision

Issue date 12-06-2018

Version # 01

NFPA ratings Health: 3
Flammability: 1
Instability: 0

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT PERM COLOR VIOLET - 10.2
Synonyms	None.
SDS number	00-21-0000123
Issue date	12-06-2018
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Manufacturer

Company name	L'Oreal USA Products, Inc
Address	133 Terminal Avenue Clark, NJ 07066 United States
Telephone	+1-732-499-2741
e-mail	nacorpeuropesdsrequest@loreal.com
1.4. Emergency telephone number	1-800-535-5053 (International: 352-323-3500)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	6,25% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 6,25% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment. EUH208 - Contains M-AMINOPHENOL, RESORCINOL. May produce an allergic reaction.
2.3. Other hazards	None known.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
LAURETH-3	5	68439-50-9 500-213-3	-	-	
Classification: Acute Tox. 4;H312					
COCAMIDOPROPYL BETAINE	2,88	97862-59-4 931-296-8	01-2119488533-30	-	
Classification: Eye Dam. 1;H318, Aquatic Chronic 3;H412					

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Recommended monitoring procedures	Follow standard monitoring procedures.
Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Wear appropriate chemical resistant gloves.
- Other	Wear suitable protective clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Environmental manager must be informed of all major releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)

Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Not available.
Skin contact	May cause an allergic skin reaction.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)		
Acute		
Dermal		
LD50	Rat	> 620 mg/kg OECD 402
Oral		
LD50	Rat	2335 mg/kg OECD 401
LAURETH-3 (CAS 68439-50-9)		
Acute		
Dermal		
LD50	Rabbit	2000 mg/kg, 24 Hours

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

COCAMIDOPROPYL BETAINE	OECD 404 Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

COCAMIDOPROPYL BETAINE	OECD 405, (C > 10%) Result: Corrosive Species: Rabbit OECD 405, (C ≤ 10%) Result: Irritating Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

COCAMIDOPROPYL BETAINE	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

COCAMIDOPROPYL BETAINE	Result: In vitro and in vivo tests did not show mutagenic effects.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 414, No effects on development Result: NOEL Species: Rat

Reproductivity

COCAMIDOPROPYL BETAINE	247 mg/kg bw/d OECD 408 Result: NOEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 408, Oral Result: NOEL Species: Rat Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information Not available.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	2,4 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,9 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	1,1 mg/l, 96 h OECD 203

Components		Species	Test Results
Other	EC0	Pseudomonas putida	3000 mg/l, 16 h ISO 10712
Chronic			
Crustacea	NOEC	Daphnia magna	0,32 mg/l, 21 d OECD 211
Fish	NOEC	Oncorhynchus mykiss	0,135 mg/l, 37 d OECD 210

* Estimates for product may be based on additional component data not shown.

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

COCAMIDOPROPYL BETAINE	91,6 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

COCAMIDOPROPYL BETAINE	4,2

Bioconcentration factor (BCF)

COCAMIDOPROPYL BETAINE	71

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not available.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H312 Harmful in contact with skin. H318 Causes serious eye damage. H412 Harmful to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT PERM COLOR DOUBLE NATURAL - 9.0**

Other means of identification

SDS number 00-22-0000110

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

US Address:
L'Oreal USA Products, Inc
133 Terminal Avenue
Clark, NJ 07066
USA

Canadian Address:
L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent, H4T 1K5
Canada

Emergency Phone # :
1-800-535-5053 (International: 352-323-3500)
In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.23

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability Material is stable under normal conditions.

Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

Conditions to avoid Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition products No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation No adverse effects due to inhalation are expected.

Skin contact May cause an allergic skin reaction.

Eye contact Causes serious eye damage. No adverse effects due to eye contact are expected.

Ingestion Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
LAURETH-3 (CAS 68439-50-9)		
Acute		
Dermal		
LD50	Rabbit	2000 mg/kg, 24 Hours
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)		
Acute		
Oral		
LD50	Rat	102 mg/kg

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

Aspiration hazard Not an aspiration hazard.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	1
RESORCINOL		108-46-3	0.16

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. ACGIH Threshold Limit Values

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH Not available.

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye damage. No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT PERM COLOR NATURAL/GOLD - 6.03		
Acute		
Oral		
ATEmix		3692.8986 mg/kg

Components	Species	Test Results

Acute		
Oral		
LD50	Rat	102 mg/kg

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

RESORCINOL — OECD 404
Result: Irritating
Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

RESORCINOL — OECD 405
Result: Corrosive
Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

RESORCINOL — OECD 429
Result: Sensitizing
Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

RESORCINOL — Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

RESORCINOL (CAS 108-46-3) — 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

RESORCINOL — 250 mg/kg bw/d OECD 414
Result: NOAEL
Species: Rat

Reproductivity

RESORCINOL — 245 mg/kg bw/d OECD 416
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

RESORCINOL

80 mg/kg bw/d OECD 408
Result: NOAEL
Species: Rat
Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

Further information May cause allergic respiratory and skin reactions.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
RESORCINOL (CAS 108-46-3)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 97 mg/l, 97 h OECD 201
Crustacea	EC50	Daphnia magna	1 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	26.8 mg/l, 96 h
Other		Activated sludge of a predominantly domestic sewage	79 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	> 0.172 mg/l, 21 d
Fish	LOEC	Oncorhynchus mykiss	320 mg/l, 60 d

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

RESORCINOL

66.7 % OECD 301 C
Result: Readily Biodegradable
Test Duration: 14 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

RESORCINOL 0.8

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

M-AMINOPHENOL	OECD 404 Result: Not Irritating Species: Rabbit
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	OECD 404 Result: Slightly Irritating Species: Rabbit
P-AMINOPHENOL	Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

P-AMINOPHENOL	EPA OPPTS 870.2400 Result: Slightly Irritating Species: Rabbit
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	OECD 405 Result: Corrosive Species: Rabbit
M-AMINOPHENOL	OECD 405 Result: Not Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	EU Method B.6 - Cat 1 Result: Sensitizing Species: Guinea pig
P-AMINOPHENOL	OECD 406 Result: Sensitizing Species: Guinea pig
M-AMINOPHENOL	OECD 429 Result: Sensitizing Species: Mouse

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	Result: In vitro tests did not show mutagenic effects
M-AMINOPHENOL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
P-AMINOPHENOL	Result: In vivo tests showed mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

M-AMINOPHENOL	100 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Developmental effects

P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Reproductivity

P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	300 mg/kg bw/d OECD 415 Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

P-AMINOPHENOL	10 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
M-AMINOPHENOL	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

Further information May cause allergic respiratory and skin reactions.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Aquatic

Other	EC50	Activated sludge of a predominantly domestic sewage	29.9 mg/l, 3 h OECD 209

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33.3 % EU C.4-E Result: Not readily biodegradable

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

M-AMINOPHENOL	0.21
P-AMINOPHENOL	0.04 0.25

Bioconcentration factor (BCF)

P-AMINOPHENOL	10 - 46 OECD 305 C

Bioaccumulation

P-AMINOPHENOL	Result: Bioaccumulation is unlikely.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Skin corrosion/irritation	Category 1
Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes severe skin burns and eye damage. May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Do not breathe mist or vapor. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection.

Response	If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Storage	Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
ETHANOLAMINE		141-43-5	1.27
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	1
1-NAPHTHOL		90-15-3	0.48
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.25

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
Most important symptoms/effects, acute and delayed	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling
Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store locked up. Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value
ETHANOLAMINE (CAS 141-43-5)	PEL	6 mg/m3
		3 ppm

US. ACGIH Threshold Limit Values

Components	Type	Value
ETHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
ETHANOLAMINE (CAS 141-43-5)	STEL	15 mg/m3
		6 ppm
	TWA	8 mg/m3
		3 ppm

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection
Wear appropriate chemical resistant gloves.

Other
Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection
In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause irritation to the respiratory system. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	Causes severe skin burns. May cause an allergic skin reaction.
Eye contact	Causes serious eye damage.
Ingestion	Causes digestive tract burns.

Symptoms related to the physical, chemical and toxicological characteristics Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.7
RESORCINOL		108-46-3	0.15

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. ACGIH Threshold Limit Values

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH Not available.

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye damage. No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT PERM COLOR GOLD - 7.3		
Acute		
Oral		
ATEmix		4326.008 mg/kg

Components	Species	Test Results
LAURETH-3 (CAS 68439-50-9)

Dermal		
LD50	Rabbit	3360 mg/kg
Inhalation		
LC0	Rat	> 2800 mg/m³, 8 h
Oral		
LD50	Rat	510 mg/kg OECD 401
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)		
Acute		
Oral		
LD50	Rat	102 mg/kg

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

RESORCINOL — OECD 404
Result: Irritating
Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

RESORCINOL — OECD 405
Result: Corrosive
Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

RESORCINOL — OECD 429
Result: Sensitizing
Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

RESORCINOL — Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

RESORCINOL (CAS 108-46-3) — 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

RESORCINOL — 250 mg/kg bw/d OECD 414
Result: NOAEL
Species: Rat

Reproductivity

RESORCINOL — 245 mg/kg bw/d OECD 416
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

RESORCINOL

80 mg/kg bw/d OECD 408
Result: NOAEL
Species: Rat
Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

Further information May cause allergic respiratory and skin reactions.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
RESORCINOL (CAS 108-46-3)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 97 mg/l, 97 h OECD 201
Crustacea	EC50	Daphnia magna	1 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	26.8 mg/l, 96 h
Other		Activated sludge of a predominantly domestic sewage	79 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	> 0.172 mg/l, 21 d
Fish	LOEC	Oncorhynchus mykiss	320 mg/l, 60 d

* Estimates for product may be based on additional component data not shown.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

RESORCINOL

66.7 % OECD 301 C
Result: Readily Biodegradable
Test Duration: 14 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

RESORCINOL 0.8

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.77
RESORCINOL		108-46-3	0.37

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. ACGIH Threshold Limit Values

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT PERM COLOR NATURAL - 7.0**

Other means of identification

SDS number 00-21-0000141

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

US Address:
L'Oreal USA Products, Inc
133 Terminal Avenue
Clark, NJ 07066
USA

Canadian Address:
L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent, H4T 1K5
Canada

Emergency Phone # :
1-800-535-5053 (International: 352-323-3500)
In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	0.79

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Do not get this material in contact with eyes. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability Material is stable under normal conditions.

Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

Conditions to avoid Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition products No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation No adverse effects due to inhalation are expected.

Skin contact May cause an allergic skin reaction.

Eye contact Causes serious eye damage. No adverse effects due to eye contact are expected.

Ingestion Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT PERM COLOR NATURAL - 7.0		
Acute		
Oral		
ATEmix		4032.9085 mg/kg

Components	Species	Test Results
LAURETH-3 (CAS 68439-50-9)		
Acute		
Dermal		
LD50	Rabbit	2000 mg/kg, 24 Hours
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)		
Acute		
Oral		
LD50	Rat	102 mg/kg

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation Causes serious eye damage. No adverse effects due to eye contact are expected.

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not an aspiration hazard.

12. Ecological information

Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	
Bioaccumulative potential	
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT 6 VOLUME PREMIUM DEVELOPER**

Other means of identification

SDS number 00-26-0000015

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8042-47-5	6.5
HYDROGEN PEROXIDE		7722-84-1	1.8

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed	Not available.
Indication of immediate medical attention and special treatment needed	Treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Avoid prolonged exposure. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 2 - 3.6

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information

Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT 6 VOLUME PREMIUM DEVELOPER
Synonyms	None.
SDS number	00-26-0000015
Product code	F0000890V01
Issue date	12-02-2020
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary Not classified for health hazards. However, occupational exposure to the mixture or substance(s) may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 9,82% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 9,82% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
HYDROGEN PEROXIDE	1,8	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Classification:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections

For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Avoid prolonged exposure. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
HYDROGEN PEROXIDE (CAS 7722-84-1)	VME	1,5 mg/m3
Regulatory status: Indicative limit (VL)		
		1 ppm
Regulatory status: Indicative limit (VL)		

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	AGW	5 mg/m3	Respirable fraction.
STEARYL ALCOHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	STEL	0,8 mg/m3	
	TWA	0,4 mg/m3	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 2 - 3,6

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212,0 °F (> 100,0 °C) Closed Cup

Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 6 VOLUME PREMIUM DEVELOPER		
Acute		
Inhalation		
Vapor		
ATEmix		610,3 mg/l
Oral		
ATEmix		38490 mg/kg

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402

Components	Species	Test Results
Inhalation		
Vapor		
LC0	Rat	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rat	693,7 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

HYDROGEN PEROXIDE

OECD 404, 35% ≥ C < 50%
Result: Irritating
Species: Rabbit
OECD 404, C ≥ 50%
Result: Corrosive
Species: Rabbit

Serious eye damage/eye irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

HYDROGEN PEROXIDE

OECD 405, 5% ≥ C < 8%
Result: Irritating
Species: Rabbit
OECD 405, C ≥ 8%
Result: Corrosive
Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

HYDROGEN PEROXIDE

Result: Not Sensitizing
Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

HYDROGEN PEROXIDE

Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1) 3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE

0, C ≥ 35%
Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE

2,9 mg/L air OECD 412, Inhalation
Result: NOAEL
Species: Rat
Test Duration: 28 d
26 mg/kg bw/d OECD 408, Oral
Result: NOAEL
Species: Mouse
Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2,4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16,4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2,5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE — 99 % OECD 209
Result: Readily Biodegradable

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

HYDROGEN PEROXIDE (CAS 7722-84-1)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H271 May cause fire or explosion; strong oxidizer. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H332 Harmful if inhaled. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT 6 VOLUME PREMIUM DEVELOPER
Synonyme	Keine.
SDS-Nummer	00-26-0000015
Produktcode	F0000890V01
Ausgabedatum	02-Dezember-2020
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Körperpflegeprodukt zur kosmetischen Verwendung.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Kontaktperson

Firmenname	L'ORÉAL SA
Anschrift	14, rue royale 75008 - Paris Frankreich
Telefonnummer	+1 732 499 2745
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com

1.4. Notrufnummer

Frankreich Nationaler Giftnotruf	ORFILA Nummer (INRS): + 33 (0) 1 45 42 59 59 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)
INFOTRAC	+1 352-323-3500 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Verordnung 1272/2008 in der geänderten Fassung

Dieses Gemisch erfüllt nicht die Einstufungskriterien gemäß der Richtlinie (EG) 1272/2008 in der geänderten Fassung.

Gefahrenübersicht Das Produkt ist für gesundheitliche Gefahren nicht klassifiziert. Die Exposition am Arbeitsplatz gegenüber der Mischung oder dem Stoff/Stoffen kann jedoch gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Gefahrenpiktogramme	Keine.
Signalwort	Keine.
Gefahrenhinweise	Das Gemisch erfüllt nicht die Kriterien für eine Einstufung.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.

Lagerung	Nicht in der Nähe von inkompatiblen Materialien lagern.
Entsorgung	Abfall und Rückstände gemäß der örtlichen behördlichen Bestimmungen entsorgen.
Zusätzliche Angaben auf dem Etikett	9,82 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 9,82 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.
2.3. Sonstige Gefahren	Kein PBT- oder vPvB-Gemisch oder Stoff.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Allgemeine Angaben

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
WASSERSTOFFPEROXID	1,8	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Einstufung:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen	An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.
Hautkontakt	Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.
Augenkontakt	Mit Wasser spülen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.
Verschlucken	Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.
4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen	Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.
4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung	Gemäß Symptomen behandeln.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren Keine Angaben über ungewöhnliche Brand- oder Explosionsgefahr.

5.1. Löschmittel

Geeignete Löschmittel	Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO_2).
Ungeeignete Löschmittel	Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.
5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren	Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung	Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.
Besondere Verfahren zur Brandbekämpfung	Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.
Besondere Löschhinweise	Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal	Unnötiges Personal fernhalten. Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB.

Einsatzkräfte	Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, wie in Abschnitt 8 im SDB empfohlen.
6.2. Umweltschutzmaßnahmen	Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.
6.3. Methoden und Material für Rückhaltung und Reinigung	Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Mit Vermiculit, trockenem Sand oder Erde aufnehmen und in Behälter füllen. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen. Kleine Austrittsmengen: Mit saugfähigem Material (z.B. Lappen, Vlies) aufwischen. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen. Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.
6.4. Verweis auf andere Abschnitte	Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB. Für Abfallentsorgung siehe Abschnitt 13 im SDB.

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung	Längeren Kontakt vermeiden. Anerkannte industrielle Hygienemaßnahmen beachten.
7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten	In einem dicht verschlossenen Behälter aufbewahren. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des SDB's).
7.3. Spezifische Endanwendungen	Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten		Typ	Wert
WASSERSTOFFPEROXID (CAS 7722-84-1)		VME	1,5 mg/m3
	Gesetzliche Regelung: Richtgrenzwert (VL)

	Gesetzliche Regelung: Richtgrenzwert (VL)		

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Alveolengängige Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	AGW	5 mg/m3	Alveolengängige Fraktion.
SEARYLALKHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1 ppm	

Verordnung des Ministers für Arbeit und Sozialpolitik vom 6. Juni 2014 zu den maximal erlaubten Konzentrationen und Intensitäten schädlicher Gesundheitsfaktoren am Arbeitsplatz, Gesetzblatt 2014, Punkt 817

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,4 mg/m3	
	Überschreitungsfaktor für Spitzenbegrenzung	0,8 mg/m3	

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren Standardüberwachungsverfahren befolgen.

Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL) Steht nicht zur Verfügung.

Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs) Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen Gute allgemeine Lüftung. Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten. Augenduschstation bereitstellen.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.

Augen-/Gesichtsschutz Nur für ein industrielles Umfeld anwendbar. Sicherheitsbrille mit Seitenschutz (oder Schutzbrille) tragen.

Hautschutz

- Handschutz Nur für ein industrielles Umfeld anwendbar. Geeignete chemikalienbeständige Handschuhe tragen.

- Sonstige Schutzmaßnahmen Nur für ein industrielles Umfeld anwendbar.

Atemschutz Nur für ein industrielles Umfeld anwendbar. Bei unzureichender Belüftung Atemschutzgerät anlegen.

Thermische Gefahren Geeignete Hitzeschutzkleidung tragen, falls nötig.

Hygienemaßnahmen Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.

Begrenzung und Überwachung der Umweltexposition Steht nicht zur Verfügung.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen	
Aggregatzustand	Flüssigkeit.
Form	Sahne.
Farbe	Steht nicht zur Verfügung.
Geruch	Steht nicht zur Verfügung.
Geruchsschwelle	Steht nicht zur Verfügung.
pH-Wert	2 - 3,6
Schmelzpunkt/Gefrierpunkt	Steht nicht zur Verfügung.
Siedebeginn und Siedebereich	> 100 °C (> 212 °F)
Flammpunkt	> 100,0 °C (> 212,0 °F) Geschlossener Tiegel
Verdampfungsgeschwindigkeit	Steht nicht zur Verfügung.
Entzündbarkeit (fest, gasförmig)	Nicht anwendbar.
Obere/untere Entzündbarkeits- oder Explosionsgrenzen	
Untere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Obere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Dampfdruck	Steht nicht zur Verfügung.
Dampfdichte	Steht nicht zur Verfügung.
Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Nicht oxidierend.
9.2. Sonstige Angaben	Keine relevanten weiteren Daten verfügbar.

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Das Produkt ist stabil und unter normalen Gebrauchs-, Lager- oder Transportbedingungen nicht reaktiv.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Kontakt mit unverträglichen Materialien vermeiden.
10.5. Unverträgliche Materialien	Starke Oxidationsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben	Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.
Angaben zu wahrscheinlichen Expositionswegen	
Einatmen	Anhaltendes Einatmen kann schädlich sein.
Hautkontakt	Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Augenkontakt	No adverse effects due to eye contact are expected.
Verschlucken	Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.
Symptome	Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität Nicht bekannt.

Produkt	Spezies	Testergebnisse
PULP RIOT 6 VOLUME PREMIUM DEVELOPER		
Akut		
Einatmen		
Dampf		
ATEmix		610,3 mg/l
Oral		
ATEmix		38490 mg/kg

Komponenten	Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)		
Akut		
Dermal		
LD50	Kaninchen	> 2000 mg/kg OECD 402
Einatmen		
Dampf

Oral		
LD50	Ratte	693,7 mg/kg OECD 401

Ätz-/Reizwirkung auf die Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. Bei Hautkontakt werden keine Beeinträchtigungen erwartet.

Reizung Korrosion - Haut

WASSERSTOFFPEROXID

OECD 404, 35% ≥ C < 50%
Ergebnis: reizend
Spezies: Kaninchen
OECD 404, C ≥ 50%
Ergebnis: Korrosiv
Spezies: Kaninchen

Schwere Augenschädigung/Augenreizung Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. No adverse effects due to eye contact are expected.

Reizung Korrosion - Auge

WASSERSTOFFPEROXID

OECD 405, 5% ≥ C < 8%
Ergebnis: reizend
Spezies: Kaninchen
OECD 405, C ≥ 8%
Ergebnis: Korrosiv
Spezies: Kaninchen

Sensibilisierung der Atemwege Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut

WASSERSTOFFPEROXID

Ergebnis: Nicht sensibilisierend
Spezies: Meerschweinchen

Keimzell-Mutagenität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Mutagenität

WASSERSTOFFPEROXID

Ergebnis: In-vitro-Tests zeigten erbgutverändernde Wirkungen, die bei in-vivo-Tests nicht beobachtet wurden.

Karzinogenität Nicht einstufbar bezüglich der Kanzerogenität für den Menschen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Ungarn. 26/2000 EüM Verordnung zum Schutz vor und Vermeidung von Gefahren im Hinblick auf die Exposition gegenüber Karzinogenen am Arbeitsplatz (in der geänderten Fassung)

Nicht eingetragen.

IARC Monographs. Overall Evaluation of Carcinogenicity (Gesamtbewertung der Karzinogenität)

WASSERSTOFFPEROXID (CAS 7722-84-1) 3 Hinsichtlich der Karzinogenität für den Menschen nicht einstufbar.

Reproduktionstoxizität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Spezifische Zielorgan-Toxizität bei einmaliger Exposition Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Spezifische Zielorgan-Toxizität bei einmaliger Exposition

WASSERSTOFFPEROXID

0, C ≥ 35%
Ergebnis: reizend

Spezifische Zielorgan-Toxizität bei wiederholter Exposition

Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID

2,9 mg/L air OECD 412, Einatmen
Ergebnis: DSENO
Spezies: Ratte
Testdauer: 28 d
26 mg/kg bw/d OECD 408, Oral
Ergebnis: DSENO
Spezies: Maus
Testdauer: 90 d

Aspirationsgefahr

Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Gemischbezogene gegenüber stoffbezogenen Angaben

Keine Information verfügbar.

Sonstige Angaben

Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität

Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.

Komponenten		Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)			
Wasser-			
Akut			
Algen	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Andere	EC50	Belebtschlamm von überwiegend kommunalem Abwasser	2,5 mg/l, 30 min OECD 209
Crustacea	EC50	Daphnia pulex (Wasserfloh)	2,4 mg/l, 48 h
Fische	LC50	Pimephales promelas	16,4 mg/l, 96 h
Chronisch			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenz und Abbaubarkeit

Biologische Abbaubarkeit

Prozentualer Abbau (aerober biologischer Abbau)

WASSERSTOFFPEROXID

99 % OECD 209
Ergebnis: Leicht biologisch abbaubar

12.3. Bioakkumulationspotenzial

Verteilungskoeffizient n-Oktanol/Wasser (log Kow)

Steht nicht zur Verfügung.

12.4. Mobilität im Boden

Keine Daten verfügbar.

12.5. Ergebnisse der PBT- und vPvB-Beurteilung

Kein PBT- oder vPvB-Gemisch oder Stoff.

12.6. Andere schädliche Wirkungen

Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

12.7. Zusätzliche Angaben

Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall

Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).

Kontaminiertes Verpackungsmaterial

Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.

EU Abfallcode

Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.

Entsorgungsmethoden / Informationen	Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen.
Besondere Vorsichtsmaßnahmen	Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

ABSCHNITT 14: Angaben zum Transport

ADR

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

IATA

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

IMDG

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

14.7. Massengutbeförderung gemäß Anhang II des MARPOL-Übereinkommens und gemäß IBC-Code	Nicht nachgewiesen.

ABSCHNITT 15: Rechtsvorschriften

15.1. Vorschriften zu Sicherheit, Gesundheits- und Umweltschutz/spezifische Rechtsvorschriften für den Stoff oder das Gemisch

EU-Vorschriften

Verordnung (EG) Nr. 1005/2009 über Stoffe, die zum Abbau der Ozonschicht führen, Anhang I und II, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 850/2004 für persistente organische Schadstoffe, Anhang I in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 1 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 2 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 3 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang V, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 166/2006 Anhang II Europäisches Schadstofffreisetzungs- und -verbringungsregister, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 1907/2006, REACH Artikel 59(10) Kandidatenliste in der derzeit durch die ECHA veröffentlichten Form

Nicht eingetragen.

Zulassungen

Verordnung (EG) Nr. 1907/2006, REACH Anhang XIV Verzeichnis der zulassungspflichtigen Stoffe, in der geänderten Fassung

Nicht eingetragen.

Beschränkungen für die Verwendung

Verordnung (EG) Nr. 1907/2006, REACH Anhang XVII Stoffe, die für das Inverkehrbringen und die Verwendung der Zulassungspflicht unterliegen

Nicht eingetragen.

Richtlinie 2004/37/EG: Über den Schutz der Arbeitnehmer gegen Gefährdung durch Karzinogene oder Mutagene am Arbeitsplatz, in der geänderten Fassung

Nicht eingetragen.

Andere EU Vorschriften

Richtlinie 2012/18/EU zur Beherrschung von Gefahren schwerer Unfälle mit gefährlichen Stoffen, in der geänderten Fassung

WASSERSTOFFPEROXID (CAS 7722-84-1)

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Beim Arbeiten mit Chemikalien sind die nationalen Vorschriften gemäß der Richtlinie 98/24/EWG in der geänderten Form zu befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	H271 Kann Brand oder Explosion verursachen; starkes Oxidationsmittel. H302 Gesundheitsschädlich bei Verschlucken. H314 Verursacht schwere Verätzungen der Haut und schwere Augenschäden. H332 Gesundheitsschädlich bei Einatmen. H335 Kann die Atemwege reizen. H412 Schädlich für Wasserorganismen, mit langfristiger Wirkung.
Angaben zur Revision	Produkt- und Firmenkennzeichnung: Materialarten Zusammensetzung / Angaben zu Bestandteilen: Bestandteile Physikalische und chemische Eigenschaften. Mutiple Eigenschaften
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

SECCIÓN 1. Identificación de la sustancia o la mezcla y de la sociedad o la empresa

1.1. Identificador del producto

Nombre comercial o denominación de la mezcla	PULP RIOT 6 VOLUME PREMIUM DEVELOPER
Sinónimos	Ninguno.
Número de FDS	00-26-0000015
Código de producto	F0000890V01
Fecha de publicación	02-Diciembre-2020
Número de la versión	01

1.2. Usos pertinentes identificados de la sustancia o de la mezcla y usos desaconsejados

Usos identificados	Producto de cuidado personal para uso cosmético.
Usos desaconsejados	Ninguno conocido.

1.3. Datos del proveedor de la ficha de datos de seguridad

Persona de contacto

Nombre de la compañía	L'ORÉAL SA
Dirección	14, rue royale 75008 - Paris Francia
Número de teléfono	+1 732 499 2745
dirección electrónica	nacorpeuropesdsrequest@loreal.com

1.4. Teléfono de emergencia

Francia Centro nacional de control de intoxicaciones	Número ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)
INFOTRAC	+1 352-323-3500 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)

SECCIÓN 2. Identificación de los peligros

2.1. Clasificación de la sustancia o de la mezcla

La mezcla ha sido evaluada y/o sometida a ensayo para determinar sus peligros físicos y peligros para la salud y el medio ambiente, y la siguiente clasificación tiene aplicación.

Clasificación de acuerdo con el reglamento (CE) No. 1272/2008 con sus modificaciones ulteriores

Esta mezcla no cumple con los criterios de clasificación de acuerdo con el reglamento (CE) 1272/2008/CEE con sus modificaciones ulteriores.

Resumen de los peligros No se ha clasificado para peligros para la salud. Sin embargo, la exposición ocupacional a la mezcla o la(s) sustancia(s) puede tener efectos adversos para la salud. Este es un producto de consumo para el cuidado, seguro para los consumidores si se utiliza siguiendo las instrucciones de la etiqueta. Al igual que con muchos productos de consumo, un pequeño número de personas puede sufrir reacciones como enrojecimiento, erupciones e hinchazón tras un contacto prolongado o repetido con la piel o con los ojos.

2.2. Elementos de la etiqueta

Etiquetado de conformidad con el Reglamento (CE) nº 1272/2008 tal como se modifica en el presente Reglamento

Pictogramas de peligro	Ninguno.
Palabra de advertencia	Ninguno.
Indicaciones de peligro	La mezcla no cumple los criterios para su clasificación.

Consejos de prudencia

Prevención

P102	Mantener fuera del alcance de los niños.
P103	Leer la etiqueta antes del uso.

Respuesta

P101	Si se necesita consejo médico, tener a mano el envase o la etiqueta.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación	Eliminar los desperdicios y residuos de conformidad con la normativa promulgada por las autoridades locales.
Información suplementaria en la etiqueta	La mezcla contiene un 9,82 % de componentes de toxicidad aguda para el medio ambiente acuático desconocida. La mezcla contiene un 9,82 % de componentes de toxicidad a largo plazo para el medio ambiente acuático desconocida.
2.3. Otros peligros	No es una sustancia o mezcla PBT o MPMB.

SECCIÓN 3. Composición/información sobre los componentes

3.2. Mezclas

Información general

Denominación química	%	Número CAS / Número CE	Número de registro conforme a REACH	Número de índice	Notas
PERÓXIDO DE HIDRÓGENO	1,8	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Clasificación:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Lista de abreviaturas y símbolos que se pueden utilizar en lo anterior

#: A esta sustancia se aplican límites de exposición de la Unión en el lugar de trabajo.
M: Factor M
PBT: sustancia persistente, bioacumulativa y tĂłxica.
mPmB: sustancia muy persistente y muy bioacumulativa.
Todas las concentraciones están en porcentaje en peso salvo que el componente sea un gas. Las concentraciones de gas están en porcentaje en volumen.

Comentarios sobre los componentes El texto completo de todas las Frases H se ofrece en la Sección 16.

SECCIÓN 4. Primeros auxilios

Información general Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

4.1. Descripción de los primeros auxilios

Inhalación	Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.
Contacto con la piel	Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.
Contacto con los ojos	Enjuagar con agua. Busque atención médica si la irritación se desarrolla y persiste.
Ingestión	Enjuagarse la boca. Obtenga atención médica en caso de síntomas.
4.2. Principales síntomas y efectos, agudos y retardados	La exposición puede provocar irritación, enrojecimiento o molestias temporales.
4.3. Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente	Tratamiento sintomático.

SECCIÓN 5. Medidas de lucha contra incendios

Riesgos generales de incendio Ningún riesgo excepcional de incendio o explosión señalado.

5.1. Medios de extinción

Medios de extinción apropiados	Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).
Medios de extinción no apropiados	No utilice chorro de agua, pues extendería el fuego.
5.2. Peligros específicos derivados de la sustancia o la mezcla	En caso de incendio se pueden formar gases nocivos.

5.3. Recomendaciones para el personal de lucha contra incendios

Equipos de protección especial que debe llevar el personal de lucha contra incendios	Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.
Procedimientos especiales de lucha contra incendio	Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.
Métodos específicos	Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

SECCIÓN 6. Medidas en caso de vertido accidental

6.1. Precauciones personales, equipo de protección y procedimientos de emergencia

Para el personal que no forma parte de los servicios de emergencia	Mantenga el personal no necesario lejos. Consultar las medidas de protección personal en la sección 8 de la FDS.
Para el personal de emergencia	Mantenga el personal no necesario lejos. Utilizar las medidas de protección personal recomendadas en la sección 8 de la FDS.
6.2. Precauciones relativas al medio ambiente	No verter los residuos al desagüe, al suelo o las corrientes de agua.
6.3. Métodos y material de contención y de limpieza	Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua. Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación. Nunca devuelva el producto derramado al envase original para reutilizarlo.
6.4. Referencia a otras secciones	Consultar las medidas de protección personal en la sección 8 de la FDS. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

SECCIÓN 7. Manipulación y almacenamiento

7.1. Precauciones para una manipulación segura	Evite la exposición prolongada. Respete las normas para una manipulación correcta de productos químicos.
7.2. Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades	Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).
7.3. Usos específicos finales	No disponible.

SECCIÓN 8. Controles de exposición/protección individual

8.1. Parámetros de control

Límites de exposición profesional

Bélgica. Valores límite de exposición.

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Francia. Valores límite umbral (VLEP) para la exposición ocupacional a sustancias químicas en Francia, INRS ED 984

Componentes	Tipo	Valor
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	VME	1,5 mg/m³
Regulación: Indicative limit (VL)		
		1 ppm
Regulación: Indicative limit (VL)		

Alemania. Lista DFG MAK (límites de exposición ocupacional indicativos). Comisión Alemana de Investigación de los Peligros para la Salud de las Sustancias Químicas en el Entorno de Trabajo (DFG)

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción respirable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	0,71 mg/m³	
		0,5 ppm	

Alemania. TRGS 900, Valores límite del aire en el lugar de trabajo

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	AGW	5 mg/m³	Fracción respirable.
ALCOHOL ESTEARÍLICO (CAS 112-92-5)	AGW	224 mg/m³	
		20 ppm	

Italia. Límites de exposición ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1 ppm	

Ordinance of the Minister of Labour and Social Policy on 6 Junio 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	STEL	0,8 mg/m³	
	TWA	0,4 mg/m³	

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Métodos de seguimiento recomendados Seguir los procedimientos de monitorización estándar.

Niveles sin efecto derivado (DNEL) No disponible.

Concentraciones previstas sin efecto (PNECs) No disponible.

8.2. Controles de la exposición

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Información general El equipo de protección personal se elegirá de acuerdo con la norma CEN vigente y en colaboración con el suministrador de equipos de protección personal.

Protección de los ojos/la cara De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).

Protección de la piel

- Protección de las manos De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

- Otros De aplicación solamente en entornos industriales.

Protección respiratoria De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.

Peligros térmicos Use ropa protectora térmica adecuada si resulta necesario.

Medidas de higiene	Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.
Controles de exposición medioambiental	No disponible.

SECCIÓN 9. Propiedades físicas y químicas

9.1. Información sobre propiedades físicas y químicas básicas

Aspecto	
Estado físico	Líquido.
Forma	Nata.
Color	No disponible.
Olor	No disponible.
Umbral olfativo	No disponible.
pH	2 - 3,6
Punto de fusión/punto de congelación	No disponible.
Punto inicial de ebullición e intervalo de ebullición	> 100 °C (> 212 °F)
Punto de inflamación	> 100,0 °C (> 212,0 °F) Copa Cerrada
Tasa de evaporación	No disponible.
Inflamabilidad (sólido, gas)	No aplicable.
Límites superior/inferior de inflamabilidad o de explosividad	
Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.
9.2. Otros datos	No se dispone de información adicional pertinente.

SECCIÓN 10. Estabilidad y reactividad

10.1. Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
10.2. Estabilidad química	El material es estable bajo condiciones normales.
10.3. Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
10.4. Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
10.5. Materiales incompatibles	Agentes oxidantes fuertes.
10.6. Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. Información toxicológica

Información general	La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos.
Información sobre posibles vías de exposición	
Inhalación	La inhalación prolongada puede resultar nociva.

Contacto con la piel No se esperan efectos adversos por contacto con la piel.

Contacto con los ojos No adverse effects due to eye contact are expected.

Ingestión Si se ingiere puede causar molestias. No obstante, no es probable que la ingestión constituya una vía primaria de exposición ocupacional.

Síntomas La exposición puede provocar irritación, enrojecimiento o molestias temporales.

11.1. Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba
PULP RIOT 6 VOLUME PREMIUM DEVELOPER		
Agudo		
Inhalación		
Vapor		
ATEmix		610,3 mg/l
Oral		
ATEmix		38490 mg/kg

Oral		
LD50	Rata	693,7 mg/kg OECD 401

Corrosión/irritación cutánea Debido a la falta total o parcial de datos, la clasificación no es posible. No se esperan efectos adversos por contacto con la piel.

Irritación/Corrosión- Piel

PERÓXIDO DE HIDRÓGENO
OECD 404, 35% ≥ C < 50%
Resultado: Irritante
Especies: Conejo
OECD 404, C ≥ 50%
Resultado: Corrosivo
Especies: Conejo

Lesiones oculares graves/irritación ocular Debido a la falta total o parcial de datos, la clasificación no es posible. No adverse effects due to eye contact are expected.

Irritación/Corrosión- Ojos

PERÓXIDO DE HIDRÓGENO
OECD 405, 5% ≥ C < 8%
Resultado: Irritante
Especies: Conejo
OECD 405, C ≥ 8%
Resultado: Corrosivo
Especies: Conejo

Sensibilización respiratoria Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea

PERÓXIDO DE HIDRÓGENO
Resultado: Not Sensibilizante
Especies: Conejillo de indias

Mutagenicidad en células germinales Debido a la falta total o parcial de datos, la clasificación no es posible.

Mutagenicidad

PERÓXIDO DE HIDRÓGENO
Resultado: Las pruebas in vitro demostraron efectos mutágenos los cuáles no fueron observados con la prueba in vivo.

Carcinogenicidad No clasificable en cuanto a su carcinogenicidad para los seres humanos. Debido a la falta total o parcial de datos, la clasificación no es posible.

Hungría. Decreto 26/2000 EüM del Ministerio de Salud para la prevención y protección de los riesgos relacionados con la exposición a carcinógenos laborales (versión modificada)

No listado.

Monografías IARC. Evaluación general de carcinogenicidad

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1) — 3 No clasificable en cuanto a su carcinogenicidad para los seres humanos.

Toxicidad para la reproducción — Debido a la falta total o parcial de datos, la clasificación no es posible.

Toxicidad específica en determinados órganos – exposición única — Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO — 0, C ≥ 35%
Resultado: Irritante

Toxicidad específica en determinados órganos – exposición repetida — Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO — 2,9 mg/L air OECD 412, Inhalación
Resultado: NOAEL
Especies: Rata
Duración de la prueba: 28 d
26 mg/kg bw/d OECD 408, Oral
Resultado: NOAEL
Especies: Ratón
Duración de la prueba: 90 d

Peligro por aspiración — Debido a la falta total o parcial de datos, la clasificación no es posible.

Información sobre la mezcla en relación con la sustancia — No hay información disponible.

Información adicional — En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 12. Información ecológica

12.1. Toxicidad — A la vista de los datos disponibles, no se cumplen los criterios de clasificación de peligroso para el medio ambiente acuático.

Componentes		Especies	Resultados de la prueba
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)			
Acuático (a)			
Agudo			
Algas	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustáceos	EC50	Daphnia pulex (Daphnia pulex (vesikirppu))	2,4 mg/l, 48 h
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	2,5 mg/l, 30 mín OECD 209
Pez	LC50	Pimephales promelas	16,4 mg/l, 96 h
Crónico			
Crustáceos	NOEC	Dafnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

PERÓXIDO DE HIDRÓGENO — 99 % OECD 209
Resultado: Fácilmente Biodegradable

12.3. Potencial de bioacumulación

Coeficiente de partición n-octanol/agua (log Kow) — No disponible.

12.4. Movilidad en el suelo — No hay datos disponibles.

12.5. Resultados de la valoración PBT y mPmB — No es una sustancia o mezcla PBT o MPMB.

12.6. Otros efectos adversos — No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

12.7. Información adicional — En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 13. Consideraciones relativas a la eliminación

13.1. Métodos para el tratamiento de residuos

Restos de productos	Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).
Envases contaminados	Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.
Código europeo de residuos	El código de Desecho debe ser atribuído de acuerdo entre el usuario, el productor y la compañía de eliminación de desechos.
Métodos de eliminación/información	Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial.
Precauciones especiales	Elimine de acuerdo con todas las reglamentaciones aplicables.

SECCIÓN 14. Información relativa al transporte

ADR

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

IATA

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

IMDG

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

14.7. Transporte a granel con arreglo al anexo II del Convenio MARPOL y el Código IBC	No establecido.

SECCIÓN 15. Información reglamentaria

15.1. Reglamentación y legislación en materia de seguridad, salud y medio ambiente específicas para la sustancia o la mezcla

Normativa de la UE

Reglamento (CE) Nº 1005/2009 sobre las sustancias que agotan la capa de ozono, Anexos I y II, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 850/2004 sobre contaminantes orgánicos persistentes, Anexo I con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 1, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 2, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 3, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo V, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº 166/2006, Anexo II, Registro de emisiones y transferencias de contaminantes, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 1907/2006, REACH Artículo 59(10), Lista de candidatos en vigor publicada por la ECHA

No listado.

Autorizaciones

Reglamento (CE) no. 1907/2006 REACH, Anexo XIV Sustancias sujetas a autorización, con sus modificaciones ulteriores

No listado.

Restricciones de uso

Reglamento (CE) nº. 1907/2006, REACH Anexo XVII, Sustancias sujetas a restricciones de comercialización y uso con las enmiendas correspondientes

No listado.

Directiva 2004/37/CE: relativa a la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes carcinógenos o mutágenos durante el trabajo, con las enmiendas correspondientes

No listado.

Otras normas de la UE

Directiva 2012/18/UE relativa a los riesgos inherentes a los accidentes graves en los que intervengan sustancias peligrosas, con las enmiendas correspondientes

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)

Otras reglamentaciones	Este producto ha sido clasificado y etiquetado con arreglo al Reglamento (CE) nº 1272/2008 (Reglamento CLP) con sus modificaciones ulteriores y con arreglo. Esta ficha de datos de seguridad cumple los requisitos del Reglamento (CE) Nº 1907/2006, con las enmiendas correspondientes.
Normativa nacional	Observar las normativas nacionales relativas al trabajo con agentes químicos, de conformidad con la Directiva 98/24/CE con las enmiendas correspondientes.
15.2. Evaluación de la seguridad química	No se ha realizado ninguna evaluación de la seguridad química.

SECCIÓN 16. Otra información

Lista de abreviaturas	No disponible.
Referencias	No disponible.
Información sobre el método de evaluación usado para la clasificación de la mezcla	La clasificación de los peligros para la salud y el medio ambiente se ha obtenido usando una combinación de métodos de cálculo y, en su caso, datos de ensayo.
Texto completo de cualesquiera frases H para las que no se incluya el enunciado completo en las secciones 2 a 15	H271 Puede provocar un incendio o una explosión; muy comburente. H302 Nocivo en caso de ingestión. H314 Provoca quemaduras graves en la piel y lesiones oculares graves. H332 Nocivo en caso de inhalación. H335 Puede irritar las vías respiratorias. H412 Nocivo para los organismos acuáticos, con efectos nocivos duraderos.
Información de revisión	Identificación del producto y de la empresa: Usos del producto COMPOSICION/INFORMACION DE LOS COMPONENTES: Ingredientes Propiedades físicas y químicas: Múltiples propiedades
Información sobre formación	Siga las instrucciones de entrenamiento al manejar este material.
Cláusula de exención de responsabilidad	La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Non classé.

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Symbole de danger Aucune.

Mention d'avertissement Aucune.

Mention de danger Le mélange ne satisfait pas les critères de classification.

Conseil de prudence

Prévention Observer de bonnes pratiques d'hygiène industrielle.

Intervention Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
HUILE MINÉRALE		8042-47-5	6.5
PEROXYDE DHYDROGENE (EAU OXYGENEE)		7722-84-1	1.8

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer avec de l'eau. Consulter un médecin si une irritation se développe et persiste.

Ingestion	Rincer la bouche. Consulter un médecin si des symptômes apparaissent.
Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Non disponible.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Traiter de manière symptomatique.
Informations générales	S’assurer que le personnel médical est averti du (des) produits(s) en cause et qu’il prend des mesures pour se protéger.

5. Mesures à prendre en cas d’incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l’incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d’incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d’incendie ou d’explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d’urgence	Tenir à l'écart le personnel non requis. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l’élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Éviter une exposition prolongée. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l’écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l’exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d’exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d’exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	PEL (limite d'exposition admissible)	1.4 mg/m3	
		1 ppm	

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	TWA	5 mg/m3	Fraction inhalable.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1 ppm	

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Non disponible.

Odeur Non disponible.

Seuil olfactif Non disponible.

pH 2 - 3.6

Point de fusion et point de congélation Non disponible.

Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Aucun effet indésirable dû au contact des yeux n'est prévu.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Non disponible.

Renseignements sur les effets toxicologiques

Toxicité aiguë	Inconnu(e).

Toxicité pour certains organes cibles - exposition unique La classification n'est pas possible en raison d'un manque partiel ou total de données.

PEROXYDE DHYDROGENE (EAU OXYGENEE)	0, C ≥ 35% Résultat: Irritant

Toxicité pour certains organes cibles - expositions répétées La classification n'est pas possible en raison d'un manque partiel ou total de données.

HUILE MINÉRALE	> 2000 mg/kg bw/d OCDE 411, Cutané Résultat: DSENO Espèces: Rat Durée du test: 90 d > 50 mg/m3 air OCDE 412, Inhalation Résultat: CSENO Espèces: Rat Durée du test: 28 d >= 1200 mg/kg bw/d OCDE 453, Orale Résultat: DSENO Espèces: Rat Durée du test: 2 années
PEROXYDE DHYDROGENE (EAU OXYGENEE)	2.9 mg/L air OCDE 412, Inhalation Résultat: DSENO Espèces: Rat Durée du test: 28 d 26 mg/kg bw/d OCDE 408, Orale Résultat: DSENO Espèces: Souris Durée du test: 90 d

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

HUILE MINÉRALE	31 % OECD 301 F Résultat: Difficilement Biodégradable
PEROXYDE DHYDROGENE (EAU OXYGENEE)	99 % OCDE 209 Résultat: Facilement Biodegradable

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 6 VOLUME PREMIUM DEVELOPER
Sinonimi	Nessuno.
Numero SDS	00-26-0000015
Codice prodotto	F0000890V01
Data di pubblicazione	02-Dicembre-2020
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

Francia Centro nazionale di controllo dei veleni	Numero ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).
INFOTRAC	+1 352-323-3500 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Questa miscela non rispetta i criteri di classificazione a norma del regolamento (CE) 1272/2008 modificato.

Riepilogo dei pericoli Non classificato per i pericoli per la salute. Tuttavia l'esposizione professionale alla miscela o alla sostanza/alle sostanze può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Pittogrammi di pericolo	Nessuno.
Avvertenza	Nessuno.
Indicazioni di pericolo	La miscela non soddisfa i criteri di classificazione.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento	Smaltire residui e rifiuti conformemente a quanto disposto dalle autorità locali.
Informazioni supplementari sulle etichette	La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.
2.3. Altri pericoli	Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSIDO DI IDROGENO	1,8	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Classificazione:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.

4.1. Descrizione delle misure di primo soccorso

Inalazione	Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.
Cutanea	Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.
Contatto con gli occhi	Sciacquare con acqua. Consultare un medico se si sviluppa un'irritazione persistente.
Ingestione	Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.
4.2. Principali sintomi ed effetti, sia acuti che ritardati	L'esposizione può causare irritazione, arrossamento o malessere temporanei.
4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali	Trattare in modo sintomatico.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei	Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO2).
Mezzi di estinzione non idonei	Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.
5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela	In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi	In caso d'incendio indossare autorespiratore e indumenti protettivi completi.
Procedure speciali per l'estinzione degli incendi	Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.
Metodi specifici	Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente	Allontanare il personale non necessario. Per la protezione individuale, vedere la sezione 8 della SDS.
Per chi interviene direttamente	Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS

6.2. Precauzioni ambientali Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura Evitare l'esposizione prolungata. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare in un recipiente ermeticamente chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.

Francia. Valori limite di soglia (VLEP) per esposizione professionale a sostanze chimiche in Francia, INRS ED 984

Componenti	Tipo	Valore
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	VME	1,5 mg/m3
Stato normativo: Limite indicativo (VL)		
		1 ppm
Stato normativo: Limite indicativo (VL)		

Germania. Elenco DFG MAK (OEL raccomandati). Commissione per le indagini sui rischi per la salute dei composti chimici nell'ambiente di lavoro (DFG)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione respirabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,71 mg/m3	
		0,5 ppm	

Germania. TRGS 900, Valori limite in aria ambiente nel luogo di lavoro

Componenti	Tipo	Valore	Forma
ALCOL STEARILICO (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	
Olio minerale (CAS 8042-47-5)	AGW	5 mg/m3	Frazione respirabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Regolamento del Ministero del Lavoro e delle Politiche Sociali del 6 giugno 2014. Riguardante le concentrazioni e le intensità massime permissibili di fattori pericolosi nell'ambiente di lavoro (Gazzetta Ufficiale polacca 2014, n. 817)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,4 mg/m3	
	Breve termine	0,8 mg/m3	

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici.

- Altro Applicabile soltanto per gli impianti industriali.

Protezione respiratoria Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Non conosciuto.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma	Panna.
Colore	Non conosciuto.
Odore	Non conosciuto.
Soglia olfattiva	Non conosciuto.
pH	2 - 3,6
Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Forti agenti ossidanti.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	No adverse effects due to eye contact are expected.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	L'esposizione può causare irritazione, arrossamento o malessere temporanei.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta	Non conosciuto.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze

Nessuna informazione disponibile.

Altre informazioni

The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità

In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".

Componenti		Specie	Risultati del test
PEROSSIDO DI IDROGENO (CAS 7722-84-1)			
Acquatico			
Acuto			
Alga	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Altro	EC50	Fanghi attivi di acque nere prevalentemente domestiche	2,5 mg/l, 30 min OCSE 209
Crostacei	EC50	Daphnia pulex (Pulce d'acqua)	2,4 mg/l, 48 h
Pesci	LC50	Pimephales promelas	16,4 mg/l, 96 h
Cronico			
Crostacei	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSIDO DI IDROGENO	99 % OCSE 209 Risultato: Rapidamente biodegradabile

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow)

Non conosciuto.

12.4. Mobilità nel suolo

Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB

Non è una sostanza o miscela PBT o vPvB.

12.6. Altri effetti avversi

Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

12.7. Altre informazioni

The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui

Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).

Imballaggi contaminati

Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.

Codice Europeo dei Rifiuti

Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.

Metodi di smaltimento/informazioni

Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate.

Precauzioni particolari Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

ADR

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

IATA

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

IMDG

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

14.7. Trasporto di rinfuse secondo l'allegato II di MARPOL ed il codice IBC Non stabilito.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

PEROSSIDO DI IDROGENO (CAS 7722-84-1)

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H271 Può provocare un incendio o un'esplosione; molto comburente. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H332 Nocivo se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione: Tipi di materiale COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT 6 VOLUME PREMIUM DEVELOPER

鉴别的其他方法

SDS编号 00-26-0000015

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 未被分类。

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

危险符号 无。

警示词 无。

危险性说明 混合物不符合分类的标准。

防范说明

预防措施 遵守良好工业卫生习惯。

事故响应 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
矿物油		8042-47-5	6.5
过氧化氢		7722-84-1	1.8

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 用水冲洗。 如果刺激症状持续或加重，应就医。

经口 漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性 无资料。

指明任何需要立即就医或特殊治疗的情况	根据症状处理。
一般信息	务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	避免长期暴露。 遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参數

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	PEL-常期暴露极限	5 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	PEL-常期暴露极限	1.4 mg/m3	
		1 ppm	

美国ACGIH阈限值

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	可吸入组分。
过氧化氢 (CAS 7722-84-1)	TWA	1 ppm	

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

生物限值	没有该成分的生物接触限值。
适当的技术控制	应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。
个人防护措施，如个人防护设备	
眼/面保护	仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。

皮肤防护

手防护	仅用於工业环境。 佩戴适当的抗化学手套。
其它的，其它	仅用於工业环境。 穿上合适的化学防护衣。
呼吸系统防护	仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。
热危害	必要时，穿戴适当的热防护服。
一般的卫生考虑	始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状	液体。
形状	奶油。
颜色	无资料。
气味	无资料。
气味阈值	无资料。
pH 值	2 - 3.6
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。

溶解性

溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。

其他信息

爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	持续的吸入可能是有害的。
皮肤接触	预计没有因皮肤接触导致的任何有害影响。
眼睛接触	预计不会因眼神接触而产生不良影响.
经口	预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 无资料。

毒理学效应信息

急性毒性 未知。

产品	物种	试验结果
PULP RIOT 6 VOLUME PREMIUM DEVELOPER		
急性的		
吸入		
蒸气		
ATEmix		610.3 mg/l
经口		
ATEmix		29130 mg/kg
经皮肤		
ATEmix		123600 mg/kg

组分	物种	试验结果
矿物油 (CAS 8042-47-5)		
急性的		
吸入		
气溶胶		
LC50	大鼠	> 5 mg/L air, 4 h OECD 403
经口		
LD50	大鼠	> 5000 mg/kg OECD 401
经皮肤		
LD50	兔子	> 2000 mg/kg OECD 402
过氧化氢 (CAS 7722-84-1)		
急性的		
吸入		
蒸气		
LC0	大鼠	170 mg/m³, 4 h OECD 403

经皮肤		
LD50	兔子	> 2000 mg/kg OECD 402

皮肤腐蚀/刺激 由于部分或完全缺乏数据，不可能进行分类。 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

矿物油	OECD 404 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 404, 35% ≥ C < 50% 结果: 刺激性的 物种: 兔子 OECD 404, C ≥ 50% 结果: 腐蚀性的 物种: 兔子

严重眼睛损伤/眼睛刺激性 由于部分或完全缺乏数据，不可能进行分类。 预计不会因眼神接触而产生不良影响.

刺激性腐蚀性 - 眼睛

矿物油	OECD 405 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 405, 5% ≥ C < 8% 结果: 刺激性的 物种: 兔子 OECD 405, C ≥ 8% 结果: 腐蚀性的 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物

矿物油	OECD 406 结果: Not Sensitizing 物种: 豚鼠
过氧化氢	结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 由于部分或完全缺乏数据，不可能进行分类。

突变性

矿物油	结果: 离体试验未见诱变效应
过氧化氢	结果: 离体试验表明有在活体试验中未观察到的诱变效应。

致癌性 尚不能确定对人有致癌作用。 由于部分或完全缺乏数据，不可能进行分类。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

矿物油 (CAS 8042-47-5)	3 尚不能确定对人有致癌作用。
过氧化氢 (CAS 7722-84-1)	3 尚不能确定对人有致癌作用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 由于部分或完全缺乏数据，不可能进行分类。

发育效应

矿物油	> 5000 mg/kg bw/d OECD 414, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

矿物油	>= 2000 mg/kg bw/d OECD 415, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 由于部分或完全缺乏数据，不可能进行分类。

过氧化氢	0, C ≥ 35% 结果: 刺激性的

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

矿物油	> 2000 mg/kg bw/d OECD 411, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D > 50 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D >= 1200 mg/kg bw/d OECD 453, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 2 年
过氧化氢	2.9 mg/L air OECD 412, 吸入 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D 26 mg/kg bw/d OECD 408, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 小鼠 测试时间: 90 D

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
矿物油 (CAS 8042-47-5)			
水生的			
急性的			
甲壳纲动物	EL50	水蚤	> 100 mg/l, 48 h OECD 202
藻类	无可观察到的效应剂量（NOEL）	近头状伪蹄形藻	> 100 mg/l, 72 h OECD 201
鱼	LL50	虹鳟鱼	> 100 mg/l, 96 h OECD 203
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	10 mg/l, 21 D OECD 211
过氧化氢 (CAS 7722-84-1)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	2.5 mg/l, 30 最小 OECD 209
甲壳纲动物	EC50	Daphnia pulex (水蚤)	2.4 mg/l, 48 h
藻类	EC50	普通小球藻	2.5 mg/l, 72 h OECD 201
鱼	LC50	呆鲦鱼	16.4 mg/l, 96 h
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	0.63 mg/l, 21 D ASTM E 1193-97

持久性和降解性

生物降解性

降解百分率（好氧生物降解）

矿物油	31 % OECD 301 F 结果: 不容易生物降解
过氧化氢	99 % OECD 209 结果: 易生物降解

潜在的生物累积性

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

不作为危险货物运输

BULK

不作为危险货物运输

国际航空运输协会(IATA)

FINISHED GOODS

不作为危险货物运输

BULK

不作为危险货物运输

国际海运危险货物规则(IMDG)

FINISHED GOODS

不作为危险货物运输

BULK

不作为危险货物运输

15. 法规信息

美国联邦法规 依OSHA 危害通识规则，该产品不是“化学危险物品”。

Toxic Substances Control Act (TSCA)

TSCA第12（b）部分有关出口申报（40 CFR 707，D子项）

未受管制。

CERCLA危险物质清单（40 CFR 302.4）

不适用。

SARA 304 不测事件释放通知

HYDROGEN PEROXIDE (CONC.> 52%) (CAS 7722-84-1) 1000 磅

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

1986年基金修正再授权法案(SARA)

SARA 302 极危险物质

化学名称	登记号(CAS号)	Reportable quantity (pounds)	Threshold planning quantity (pounds)	临界计划量，lower value (pounds)	临界计划量，upper value (pounds)
过氧化氢	7722-84-1	1000	1000		

SARA 311/312 有害化学品 No (Exempt)

SARA 313 (TRI 报告)

未受管制。

其他联邦法规

清洁空气法案（CAA）第112条有害空气污染物（HAPs）清单

未受管制。

清洁空气法（CAA）第112(r)条款关于意外泄漏

未受管制。

饮用水安全法（SDWA） 未受管制。

16. 其他信息，包括编制日期或最新修订日期

最初编制日期 02-十二月-2020

版本号 01

NFPA分级 健康 0
可燃性 1
不稳定性: 0

免责声明 这份安全数据表中提供的信息被认为是其发布日期时我们所知道的知识、信息和确信是准确的。所给出的信息仅作为安全操作处置、使用、加工、储存、运输、废弃处置和释放的指导，而不是作为担保和质量指标。这些信息只涉及到具体指定的物质，而对这些材料与任何其他材料或任何工艺的结合可能是无效的，除非在文本中有说明。

修订信息 产品和公司识别: 物料羁型
合成物/成分信息: 成分

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT 10 VOLUME PREMIUM DEVELOPER**

Other means of identification

SDS number 00-26-0000016

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8042-47-5	6.5
HYDROGEN PEROXIDE		7722-84-1	3.01

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed	Not available.
Indication of immediate medical attention and special treatment needed	Treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Avoid prolonged exposure. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 2.6 - 3

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information

Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 10 VOLUME PREMIUM DEVELOPER		
Acute

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL
>= 2000 mg/kg bw/d OECD 415, No effects on fertility
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure
Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE
0, C ≥ 35%
Result: Irritating

Specific target organ toxicity - repeated exposure
Due to partial or complete lack of data the classification is not possible.

MINERAL OIL
> 2000 mg/kg bw/d OECD 411, Dermal
Result: NOAEL
Species: Rat
Test Duration: 90 d
> 50 mg/m3 air OECD 412, Inhalation
Result: NOAEC
Species: Rat
Test Duration: 28 d
>= 1200 mg/kg bw/d OECD 453, Oral
Result: NOAEL
Species: Rat
Test Duration: 2 years

HYDROGEN PEROXIDE
2.9 mg/L air OECD 412, Inhalation
Result: NOAEL
Species: Rat
Test Duration: 28 d
26 mg/kg bw/d OECD 408, Oral
Result: NOAEL
Species: Mouse
Test Duration: 90 d

Aspiration hazard
Due to partial or complete lack of data the classification is not possible.

Further information
The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97
MINERAL OIL (CAS 8042-47-5)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201

Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Revision information This document has undergone significant changes and should be reviewed in its entirety.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT 10 VOLUME PREMIUM DEVELOPER
Synonyms	None.
SDS number	00-26-0000016
Product code	F0000886V01
Issue date	12-02-2020
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary Not classified for health hazards. However, occupational exposure to the mixture or substance(s) may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 9,82% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 9,82% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
HYDROGEN PEROXIDE	3,01	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Classification:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections

For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Avoid prolonged exposure. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
HYDROGEN PEROXIDE (CAS 7722-84-1)	VME	1,5 mg/m3
Regulatory status: Indicative limit (VL)		
		1 ppm
Regulatory status: Indicative limit (VL)		

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	AGW	5 mg/m3	Respirable fraction.
STEARYL ALCOHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	STEL	0,8 mg/m3	
	TWA	0,4 mg/m3	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 2,6 - 3

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212,0 °F (> 100,0 °C) Closed Cup

Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 10 VOLUME PREMIUM DEVELOPER		
Acute		
Inhalation		
Vapor		
ATEmix		365,4 mg/l
Oral		
ATEmix		23050 mg/kg

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)

Inhalation		
Vapor		
LC0	Rat	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rat	693,7 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

HYDROGEN PEROXIDE

OECD 404, 35% ≥ C < 50%
Result: Irritating
Species: Rabbit
OECD 404, C ≥ 50%
Result: Corrosive
Species: Rabbit

Serious eye damage/eye irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye

HYDROGEN PEROXIDE

OECD 405, 5% ≥ C < 8%
Result: Irritating
Species: Rabbit
OECD 405, C ≥ 8%
Result: Corrosive
Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

HYDROGEN PEROXIDE

Result: Not Sensitizing
Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

HYDROGEN PEROXIDE

Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1) 3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE

0, C ≥ 35%
Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE

2,9 mg/L air OECD 412, Inhalation
Result: NOAEL
Species: Rat
Test Duration: 28 d
26 mg/kg bw/d OECD 408, Oral
Result: NOAEL
Species: Mouse
Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2,4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16,4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2,5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE — 99 % OECD 209
Result: Readily Biodegradable

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

HYDROGEN PEROXIDE (CAS 7722-84-1)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H271 May cause fire or explosion; strong oxidizer. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H332 Harmful if inhaled. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT 10 VOLUME PREMIUM DEVELOPER
Synonyme	Keine.
SDS-Nummer	00-26-0000016
Produktcode	F0000886V01
Ausgabedatum	02-Dezember-2020
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Körperpflegeprodukt zur kosmetischen Verwendung.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Kontaktperson

Firmenname	L'ORÉAL SA
Anschrift	14, rue royale 75008 - Paris Frankreich
Telefonnummer	+1 732 499 2745
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com

1.4. Notrufnummer

Frankreich Nationaler Giftnotruf	ORFILA Nummer (INRS): + 33 (0) 1 45 42 59 59 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)
INFOTRAC	+1 352-323-3500 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Verordnung 1272/2008 in der geänderten Fassung

Dieses Gemisch erfüllt nicht die Einstufungskriterien gemäß der Richtlinie (EG) 1272/2008 in der geänderten Fassung.

Gefahrenübersicht Das Produkt ist für gesundheitliche Gefahren nicht klassifiziert. Die Exposition am Arbeitsplatz gegenüber der Mischung oder dem Stoff/Stoffen kann jedoch gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Gefahrenpiktogramme	Keine.
Signalwort	Keine.
Gefahrenhinweise	Das Gemisch erfüllt nicht die Kriterien für eine Einstufung.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.

Lagerung	Nicht in der Nähe von inkompatiblen Materialien lagern.
Entsorgung	Abfall und Rückstände gemäß der örtlichen behördlichen Bestimmungen entsorgen.
Zusätzliche Angaben auf dem Etikett	9,82 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 9,82 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.
2.3. Sonstige Gefahren	Kein PBT- oder vPvB-Gemisch oder Stoff.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Allgemeine Angaben

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
WASSERSTOFFPEROXID	3,01	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Einstufung:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen	An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.
Hautkontakt	Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.
Augenkontakt	Mit Wasser spülen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.
Verschlucken	Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.
4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen	Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.
4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung	Gemäß Symptomen behandeln.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren Keine Angaben über ungewöhnliche Brand- oder Explosionsgefahr.

5.1. Löschmittel

Geeignete Löschmittel	Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO_2).
Ungeeignete Löschmittel	Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.
5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren	Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung	Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.
Besondere Verfahren zur Brandbekämpfung	Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.
Besondere Löschhinweise	Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal	Unnötiges Personal fernhalten. Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB.

Einsatzkräfte	Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, wie in Abschnitt 8 im SDB empfohlen.
6.2. Umweltschutzmaßnahmen	Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.
6.3. Methoden und Material für Rückhaltung und Reinigung	Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Mit Vermiculit, trockenem Sand oder Erde aufnehmen und in Behälter füllen. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen. Kleine Austrittsmengen: Mit saugfähigem Material (z.B. Lappen, Vlies) aufwischen. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen. Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.
6.4. Verweis auf andere Abschnitte	Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB. Für Abfallentsorgung siehe Abschnitt 13 im SDB.

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung	Längeren Kontakt vermeiden. Anerkannte industrielle Hygienemaßnahmen beachten.
7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten	In einem dicht verschlossenen Behälter aufbewahren. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des SDB's).
7.3. Spezifische Endanwendungen	Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten		Typ	Wert
WASSERSTOFFPEROXID (CAS 7722-84-1)		VME	1,5 mg/m3
	Gesetzliche Regelung: Richtgrenzwert (VL)		
			1 ppm
	Gesetzliche Regelung: Richtgrenzwert (VL)		

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Alveolengängige Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	AGW	5 mg/m3	Alveolengängige Fraktion.
SEARYLALKHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1 ppm	

Verordnung des Ministers für Arbeit und Sozialpolitik vom 6. Juni 2014 zu den maximal erlaubten Konzentrationen und Intensitäten schädlicher Gesundheitsfaktoren am Arbeitsplatz, Gesetzblatt 2014, Punkt 817

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,4 mg/m3	
	Überschreitungsfaktor für Spitzenbegrenzung	0,8 mg/m3	

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren Standardüberwachungsverfahren befolgen.

Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL) Steht nicht zur Verfügung.

Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs) Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen Gute allgemeine Lüftung. Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten. Augenduschstation bereitstellen.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.

Augen-/Gesichtsschutz Nur für ein industrielles Umfeld anwendbar. Sicherheitsbrille mit Seitenschutz (oder Schutzbrille) tragen.

Hautschutz

- Handschutz Nur für ein industrielles Umfeld anwendbar. Geeignete chemikalienbeständige Handschuhe tragen.

- Sonstige Schutzmaßnahmen Nur für ein industrielles Umfeld anwendbar.

Atemschutz Nur für ein industrielles Umfeld anwendbar. Bei unzureichender Belüftung Atemschutzgerät anlegen.

Thermische Gefahren Geeignete Hitzeschutzkleidung tragen, falls nötig.

Hygienemaßnahmen Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.

Begrenzung und Überwachung der Umweltexposition Steht nicht zur Verfügung.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen	
Aggregatzustand	Flüssigkeit.
Form	Sahne.
Farbe	Steht nicht zur Verfügung.
Geruch	Steht nicht zur Verfügung.
Geruchsschwelle	Steht nicht zur Verfügung.
pH-Wert	2,6 - 3
Schmelzpunkt/Gefrierpunkt	Steht nicht zur Verfügung.
Siedebeginn und Siedebereich	> 100 °C (> 212 °F)
Flammpunkt	> 100,0 °C (> 212,0 °F) Geschlossener Tiegel
Verdampfungsgeschwindigkeit	Steht nicht zur Verfügung.
Entzündbarkeit (fest, gasförmig)	Nicht anwendbar.
Obere/untere Entzündbarkeits- oder Explosionsgrenzen	
Untere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Obere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Dampfdruck	Steht nicht zur Verfügung.
Dampfdichte	Steht nicht zur Verfügung.
Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Nicht oxidierend.
9.2. Sonstige Angaben	Keine relevanten weiteren Daten verfügbar.

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Das Produkt ist stabil und unter normalen Gebrauchs-, Lager- oder Transportbedingungen nicht reaktiv.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Kontakt mit unverträglichen Materialien vermeiden.
10.5. Unverträgliche Materialien	Starke Oxidationsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben	Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.
Angaben zu wahrscheinlichen Expositionswegen	
Einatmen	Anhaltendes Einatmen kann schädlich sein.
Hautkontakt	Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Augenkontakt	No adverse effects due to eye contact are expected.
Verschlucken	Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.
Symptome	Exposition kann kurzfristige Reizung, Rötung oder Unwohlsein verursachen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität Nicht bekannt.

Produkt	Spezies	Testergebnisse
PULP RIOT 10 VOLUME PREMIUM DEVELOPER		
Akut		
Einatmen		
Dampf		
ATEmix		365,4 mg/l
Oral		
ATEmix		23050 mg/kg

Komponenten	Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)		
Akut		
Dermal		
LD50	Kaninchen	> 2000 mg/kg OECD 402
Einatmen		
Dampf		
LC0	Ratte	170 mg/m3, 4 h OECD 403
Oral		
LD50	Ratte	693,7 mg/kg OECD 401

Ätz-/Reizwirkung auf die Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. Bei Hautkontakt werden keine Beeinträchtigungen erwartet.

Reizung Korrosion - Haut

WASSERSTOFFPEROXID

OECD 404, 35% ≥ C < 50%
Ergebnis: reizend
Spezies: Kaninchen
OECD 404, C ≥ 50%
Ergebnis: Korrosiv
Spezies: Kaninchen

Schwere Augenschädigung/Augenreizung Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. No adverse effects due to eye contact are expected.

Reizung Korrosion - Auge

WASSERSTOFFPEROXID

OECD 405, 5% ≥ C < 8%
Ergebnis: reizend
Spezies: Kaninchen
OECD 405, C ≥ 8%
Ergebnis: Korrosiv
Spezies: Kaninchen

Sensibilisierung der Atemwege Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut

WASSERSTOFFPEROXID

Ergebnis: Nicht sensibilisierend
Spezies: Meerschweinchen

Keimzell-Mutagenität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Mutagenität

WASSERSTOFFPEROXID

Ergebnis: In-vitro-Tests zeigten erbgutverändernde Wirkungen, die bei in-vivo-Tests nicht beobachtet wurden.

Karzinogenität Nicht einstufbar bezüglich der Kanzerogenität für den Menschen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Ungarn. 26/2000 EüM Verordnung zum Schutz vor und Vermeidung von Gefahren im Hinblick auf die Exposition gegenüber Karzinogenen am Arbeitsplatz (in der geänderten Fassung)

Nicht eingetragen.

IARC Monographs. Overall Evaluation of Carcinogenicity (Gesamtbewertung der Karzinogenität)

WASSERSTOFFPEROXID (CAS 7722-84-1) 3 Hinsichtlich der Karzinogenität für den Menschen nicht einstufbar.

Reproduktionstoxizität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Spezifische Zielorgan-Toxizität bei einmaliger Exposition Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Spezifische Zielorgan-Toxizität bei einmaliger Exposition

WASSERSTOFFPEROXID

0, C ≥ 35%
Ergebnis: reizend

Spezifische Zielorgan-Toxizität bei wiederholter Exposition

Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID

2,9 mg/L air OECD 412, Einatmen
Ergebnis: DSENO
Spezies: Ratte
Testdauer: 28 d
26 mg/kg bw/d OECD 408, Oral
Ergebnis: DSENO
Spezies: Maus
Testdauer: 90 d

Aspirationsgefahr

Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Gemischbezogene gegenüber stoffbezogenen Angaben

Keine Information verfügbar.

Sonstige Angaben

Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität

Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.

Komponenten		Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)			
Wasser-			
Akut			
Algen	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Andere	EC50	Belebtschlamm von überwiegend kommunalem Abwasser	2,5 mg/l, 30 min OECD 209
Crustacea	EC50	Daphnia pulex (Wasserfloh)	2,4 mg/l, 48 h
Fische	LC50	Pimephales promelas	16,4 mg/l, 96 h
Chronisch			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenz und Abbaubarkeit

Biologische Abbaubarkeit

Prozentualer Abbau (aerober biologischer Abbau)

WASSERSTOFFPEROXID

99 % OECD 209
Ergebnis: Leicht biologisch abbaubar

12.3. Bioakkumulationspotenzial

Verteilungskoeffizient n-Oktanol/Wasser (log Kow)

Steht nicht zur Verfügung.

12.4. Mobilität im Boden

Keine Daten verfügbar.

12.5. Ergebnisse der PBT- und vPvB-Beurteilung

Kein PBT- oder vPvB-Gemisch oder Stoff.

12.6. Andere schädliche Wirkungen

Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

12.7. Zusätzliche Angaben

Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall

Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).

Kontaminiertes Verpackungsmaterial

Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.

EU Abfallcode

Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.

Entsorgungsmethoden / Informationen	Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen.
Besondere Vorsichtsmaßnahmen	Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

ABSCHNITT 14: Angaben zum Transport

ADR

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

IATA

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

IMDG

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

14.7. Massengutbeförderung gemäß Anhang II des MARPOL-Übereinkommens und gemäß IBC-Code	Nicht nachgewiesen.

ABSCHNITT 15: Rechtsvorschriften

15.1. Vorschriften zu Sicherheit, Gesundheits- und Umweltschutz/spezifische Rechtsvorschriften für den Stoff oder das Gemisch

EU-Vorschriften

Verordnung (EG) Nr. 1005/2009 über Stoffe, die zum Abbau der Ozonschicht führen, Anhang I und II, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 850/2004 für persistente organische Schadstoffe, Anhang I in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 1 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 2 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 3 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang V, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 166/2006 Anhang II Europäisches Schadstofffreisetzungs- und -verbringungsregister, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 1907/2006, REACH Artikel 59(10) Kandidatenliste in der derzeit durch die ECHA veröffentlichten Form

Nicht eingetragen.

Zulassungen

Verordnung (EG) Nr. 1907/2006, REACH Anhang XIV Verzeichnis der zulassungspflichtigen Stoffe, in der geänderten Fassung

Nicht eingetragen.

Beschränkungen für die Verwendung

Verordnung (EG) Nr. 1907/2006, REACH Anhang XVII Stoffe, die für das Inverkehrbringen und die Verwendung der Zulassungspflicht unterliegen

Nicht eingetragen.

Richtlinie 2004/37/EG: Über den Schutz der Arbeitnehmer gegen Gefährdung durch Karzinogene oder Mutagene am Arbeitsplatz, in der geänderten Fassung

Nicht eingetragen.

Andere EU Vorschriften

Richtlinie 2012/18/EU zur Beherrschung von Gefahren schwerer Unfälle mit gefährlichen Stoffen, in der geänderten Fassung

WASSERSTOFFPEROXID (CAS 7722-84-1)

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Beim Arbeiten mit Chemikalien sind die nationalen Vorschriften gemäß der Richtlinie 98/24/EWG in der geänderten Form zu befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	H271 Kann Brand oder Explosion verursachen; starkes Oxidationsmittel. H302 Gesundheitsschädlich bei Verschlucken. H314 Verursacht schwere Verätzungen der Haut und schwere Augenschäden. H332 Gesundheitsschädlich bei Einatmen. H335 Kann die Atemwege reizen. H412 Schädlich für Wasserorganismen, mit langfristiger Wirkung.
Angaben zur Revision	Produkt- und Firmenkennzeichnung: Materialarten Zusammensetzung / Angaben zu Bestandteilen: Bestandteile Physikalische und chemische Eigenschaften. Mutiple Eigenschaften
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

SECCIÓN 1. Identificación de la sustancia o la mezcla y de la sociedad o la empresa

1.1. Identificador del producto

Nombre comercial o denominación de la mezcla	PULP RIOT 10 VOLUME PREMIUM DEVELOPER
Sinónimos	Ninguno.
Número de FDS	00-26-0000016
Código de producto	F0000886V01
Fecha de publicación	02-Diciembre-2020
Número de la versión	01

1.2. Usos pertinentes identificados de la sustancia o de la mezcla y usos desaconsejados

Usos identificados	Producto de cuidado personal para uso cosmético.
Usos desaconsejados	Ninguno conocido.

1.3. Datos del proveedor de la ficha de datos de seguridad

Persona de contacto

Nombre de la compañía	L'ORÉAL SA
Dirección	14, rue royale 75008 - Paris Francia
Número de teléfono	+1 732 499 2745
dirección electrónica	nacorpeuropesdsrequest@loreal.com

1.4. Teléfono de emergencia

Francia Centro nacional de control de intoxicaciones	Número ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)
INFOTRAC	+1 352-323-3500 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)

SECCIÓN 2. Identificación de los peligros

2.1. Clasificación de la sustancia o de la mezcla

La mezcla ha sido evaluada y/o sometida a ensayo para determinar sus peligros físicos y peligros para la salud y el medio ambiente, y la siguiente clasificación tiene aplicación.

Clasificación de acuerdo con el reglamento (CE) No. 1272/2008 con sus modificaciones ulteriores

Esta mezcla no cumple con los criterios de clasificación de acuerdo con el reglamento (CE) 1272/2008/CEE con sus modificaciones ulteriores.

Resumen de los peligros No se ha clasificado para peligros para la salud. Sin embargo, la exposición ocupacional a la mezcla o la(s) sustancia(s) puede tener efectos adversos para la salud. Este es un producto de consumo para el cuidado, seguro para los consumidores si se utiliza siguiendo las instrucciones de la etiqueta. Al igual que con muchos productos de consumo, un pequeño número de personas puede sufrir reacciones como enrojecimiento, erupciones e hinchazón tras un contacto prolongado o repetido con la piel o con los ojos.

2.2. Elementos de la etiqueta

Etiquetado de conformidad con el Reglamento (CE) nº 1272/2008 tal como se modifica en el presente Reglamento

Pictogramas de peligro	Ninguno.
Palabra de advertencia	Ninguno.
Indicaciones de peligro	La mezcla no cumple los criterios para su clasificación.

Consejos de prudencia

Prevención

P102	Mantener fuera del alcance de los niños.
P103	Leer la etiqueta antes del uso.

Respuesta

P101	Si se necesita consejo médico, tener a mano el envase o la etiqueta.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación Eliminar los desperdicios y residuos de conformidad con la normativa promulgada por las autoridades locales.

Información suplementaria en la etiqueta La mezcla contiene un 9,82 % de componentes de toxicidad aguda para el medio ambiente acuático desconocida. La mezcla contiene un 9,82 % de componentes de toxicidad a largo plazo para el medio ambiente acuático desconocida.

2.3. Otros peligros No es una sustancia o mezcla PBT o MPMB.

SECCIÓN 3. Composición/información sobre los componentes

3.2. Mezclas

Información general

Denominación química	%	Número CAS / Número CE	Número de registro conforme a REACH	Número de índice	Notas
PERÓXIDO DE HIDRÓGENO	3,01	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Clasificación:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Lista de abreviaturas y símbolos que se pueden utilizar en lo anterior

#: A esta sustancia se aplican límites de exposición de la Unión en el lugar de trabajo.
M: Factor M
PBT: sustancia persistente, bioacumulativa y tĂłxica.
mPmB: sustancia muy persistente y muy bioacumulativa.
Todas las concentraciones están en porcentaje en peso salvo que el componente sea un gas. Las concentraciones de gas están en porcentaje en volumen.

Comentarios sobre los componentes El texto completo de todas las Frases H se ofrece en la Sección 16.

SECCIÓN 4. Primeros auxilios

Información general Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

4.1. Descripción de los primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuagar con agua. Busque atención médica si la irritación se desarrolla y persiste.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

4.2. Principales síntomas y efectos, agudos y retardados La exposición puede provocar irritación, enrojecimiento o molestias temporales.

4.3. Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente Tratamiento sintomático.

SECCIÓN 5. Medidas de lucha contra incendios

Riesgos generales de incendio Ningún riesgo excepcional de incendio o explosión señalado.

5.1. Medios de extinción

Medios de extinción apropiados Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).

Medios de extinción no apropiados No utilice chorro de agua, pues extendería el fuego.

5.2. Peligros específicos derivados de la sustancia o la mezcla En caso de incendio se pueden formar gases nocivos.

5.3. Recomendaciones para el personal de lucha contra incendios

Equipos de protección especial que debe llevar el personal de lucha contra incendios Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.

Procedimientos especiales de lucha contra incendio Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.

Métodos específicos Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

SECCIÓN 6. Medidas en caso de vertido accidental

6.1. Precauciones personales, equipo de protección y procedimientos de emergencia

Para el personal que no forma parte de los servicios de emergencia	Mantenga el personal no necesario lejos. Consultar las medidas de protección personal en la sección 8 de la FDS.
Para el personal de emergencia	Mantenga el personal no necesario lejos. Utilizar las medidas de protección personal recomendadas en la sección 8 de la FDS.
6.2. Precauciones relativas al medio ambiente	No verter los residuos al desagüe, al suelo o las corrientes de agua.
6.3. Métodos y material de contención y de limpieza	Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua. Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación. Nunca devuelva el producto derramado al envase original para reutilizarlo.
6.4. Referencia a otras secciones	Consultar las medidas de protección personal en la sección 8 de la FDS. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

SECCIÓN 7. Manipulación y almacenamiento

7.1. Precauciones para una manipulación segura	Evite la exposición prolongada. Respete las normas para una manipulación correcta de productos químicos.
7.2. Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades	Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).
7.3. Usos específicos finales	No disponible.

SECCIÓN 8. Controles de exposición/protección individual

8.1. Parámetros de control

Límites de exposición profesional

Bélgica. Valores límite de exposición.

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Francia. Valores límite umbral (VLEP) para la exposición ocupacional a sustancias químicas en Francia, INRS ED 984

Componentes	Tipo	Valor
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	VME	1,5 mg/m³
Regulación: Indicative limit (VL)		
		1 ppm
Regulación: Indicative limit (VL)		

Alemania. Lista DFG MAK (límites de exposición ocupacional indicativos). Comisión Alemana de Investigación de los Peligros para la Salud de las Sustancias Químicas en el Entorno de Trabajo (DFG)

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción respirable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	0,71 mg/m³	
		0,5 ppm	

Alemania. TRGS 900, Valores límite del aire en el lugar de trabajo

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	AGW	5 mg/m³	Fracción respirable.
ALCOHOL ESTEARÍLICO (CAS 112-92-5)	AGW	224 mg/m³	
		20 ppm	

Italia. Límites de exposición ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1 ppm	

Ordinance of the Minister of Labour and Social Policy on 6 Junio 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	STEL	0,8 mg/m³	
	TWA	0,4 mg/m³	

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Métodos de seguimiento recomendados Seguir los procedimientos de monitorización estándar.

Niveles sin efecto derivado (DNEL) No disponible.

Concentraciones previstas sin efecto (PNECs) No disponible.

8.2. Controles de la exposición

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Información general El equipo de protección personal se elegirá de acuerdo con la norma CEN vigente y en colaboración con el suministrador de equipos de protección personal.

Protección de los ojos/la cara De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).

Protección de la piel

- Protección de las manos De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

- Otros De aplicación solamente en entornos industriales.

Protección respiratoria De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.

Peligros térmicos Use ropa protectora térmica adecuada si resulta necesario.

Medidas de higiene	Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.
Controles de exposición medioambiental	No disponible.

SECCIÓN 9. Propiedades físicas y químicas

9.1. Información sobre propiedades físicas y químicas básicas

Aspecto	
Estado físico	Líquido.
Forma	Nata.
Color	No disponible.
Olor	No disponible.
Umbral olfativo	No disponible.
pH	2,6 - 3
Punto de fusión/punto de congelación	No disponible.
Punto inicial de ebullición e intervalo de ebullición	> 100 °C (> 212 °F)
Punto de inflamación	> 100,0 °C (> 212,0 °F) Copa Cerrada
Tasa de evaporación	No disponible.
Inflamabilidad (sólido, gas)	No aplicable.
Límites superior/inferior de inflamabilidad o de explosividad	
Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.
9.2. Otros datos	No se dispone de información adicional pertinente.

SECCIÓN 10. Estabilidad y reactividad

10.1. Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
10.2. Estabilidad química	El material es estable bajo condiciones normales.
10.3. Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
10.4. Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
10.5. Materiales incompatibles	Agentes oxidantes fuertes.
10.6. Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. Información toxicológica

Información general	La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos.
Información sobre posibles vías de exposición	
Inhalación	La inhalación prolongada puede resultar nociva.

Contacto con la piel No se esperan efectos adversos por contacto con la piel.

Contacto con los ojos No adverse effects due to eye contact are expected.

Ingestión Si se ingiere puede causar molestias. No obstante, no es probable que la ingestión constituya una vía primaria de exposición ocupacional.

Síntomas La exposición puede provocar irritación, enrojecimiento o molestias temporales.

11.1. Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba
PULP RIOT 10 VOLUME PREMIUM DEVELOPER		
Agudo		
Inhalación		
Vapor		
ATEmix		365,4 mg/l
Oral		
ATEmix		23050 mg/kg

Componentes	Especies	Resultados de la prueba
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)		
Agudo		
Dérmico		
LD50	Conejo	> 2000 mg/kg OECD 402
Inhalación		
Vapor		
LC0	Rata	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rata	693,7 mg/kg OECD 401

Corrosión/irritación cutánea Debido a la falta total o parcial de datos, la clasificación no es posible. No se esperan efectos adversos por contacto con la piel.

Irritación/Corrosión- Piel

PERÓXIDO DE HIDRÓGENO
OECD 404, 35% ≥ C < 50%
Resultado: Irritante
Especies: Conejo
OECD 404, C ≥ 50%
Resultado: Corrosivo
Especies: Conejo

Lesiones oculares graves/irritación ocular Debido a la falta total o parcial de datos, la clasificación no es posible. No adverse effects due to eye contact are expected.

Irritación/Corrosión- Ojos

PERÓXIDO DE HIDRÓGENO
OECD 405, 5% ≥ C < 8%
Resultado: Irritante
Especies: Conejo
OECD 405, C ≥ 8%
Resultado: Corrosivo
Especies: Conejo

Sensibilización respiratoria Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea

PERÓXIDO DE HIDRÓGENO
Resultado: Not Sensibilizante
Especies: Conejillo de indias

Mutagenicidad en células germinales Debido a la falta total o parcial de datos, la clasificación no es posible.

Mutagenicidad

PERÓXIDO DE HIDRÓGENO
Resultado: Las pruebas in vitro demostraron efectos mutágenos los cuáles no fueron observados con la prueba in vivo.

Carcinogenicidad No clasificable en cuanto a su carcinogenicidad para los seres humanos. Debido a la falta total o parcial de datos, la clasificación no es posible.

Hungría. Decreto 26/2000 EüM del Ministerio de Salud para la prevención y protección de los riesgos relacionados con la exposición a carcinógenos laborales (versión modificada)

No listado.

Monografías IARC. Evaluación general de carcinogenicidad

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1) — 3 No clasificable en cuanto a su carcinogenicidad para los seres humanos.

Toxicidad para la reproducción — Debido a la falta total o parcial de datos, la clasificación no es posible.

Toxicidad específica en determinados órganos – exposición única — Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO — 0, C ≥ 35%
Resultado: Irritante

Toxicidad específica en determinados órganos – exposición repetida — Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO — 2,9 mg/L air OECD 412, Inhalación
Resultado: NOAEL
Especies: Rata
Duración de la prueba: 28 d
26 mg/kg bw/d OECD 408, Oral
Resultado: NOAEL
Especies: Ratón
Duración de la prueba: 90 d

Peligro por aspiración — Debido a la falta total o parcial de datos, la clasificación no es posible.

Información sobre la mezcla en relación con la sustancia — No hay información disponible.

Información adicional — En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 12. Información ecológica

12.1. Toxicidad — A la vista de los datos disponibles, no se cumplen los criterios de clasificación de peligroso para el medio ambiente acuático.

Componentes		Especies	Resultados de la prueba
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)			
Acuático (a)			
Agudo			
Algas	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustáceos	EC50	Daphnia pulex (Daphnia pulex (vesikirppu))	2,4 mg/l, 48 h
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	2,5 mg/l, 30 mín OECD 209
Pez	LC50	Pimephales promelas	16,4 mg/l, 96 h
Crónico			
Crustáceos	NOEC	Dafnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

PERÓXIDO DE HIDRÓGENO — 99 % OECD 209
Resultado: Fácilmente Biodegradable

12.3. Potencial de bioacumulación

Coeficiente de partición n-octanol/agua (log Kow) — No disponible.

12.4. Movilidad en el suelo — No hay datos disponibles.

12.5. Resultados de la valoración PBT y mPmB — No es una sustancia o mezcla PBT o MPMB.

12.6. Otros efectos adversos — No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

12.7. Información adicional — En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 13. Consideraciones relativas a la eliminación

13.1. Métodos para el tratamiento de residuos

Restos de productos	Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).
Envases contaminados	Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.
Código europeo de residuos	El código de Desecho debe ser atribuído de acuerdo entre el usuario, el productor y la compañía de eliminación de desechos.
Métodos de eliminación/información	Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial.
Precauciones especiales	Elimine de acuerdo con todas las reglamentaciones aplicables.

SECCIÓN 14. Información relativa al transporte

ADR

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

IATA

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

IMDG

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

14.7. Transporte a granel con arreglo al anexo II del Convenio MARPOL y el Código IBC	No establecido.

SECCIÓN 15. Información reglamentaria

15.1. Reglamentación y legislación en materia de seguridad, salud y medio ambiente específicas para la sustancia o la mezcla

Normativa de la UE

Reglamento (CE) Nº 1005/2009 sobre las sustancias que agotan la capa de ozono, Anexos I y II, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 850/2004 sobre contaminantes orgánicos persistentes, Anexo I con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 1, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 2, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 3, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo V, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº 166/2006, Anexo II, Registro de emisiones y transferencias de contaminantes, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 1907/2006, REACH Artículo 59(10), Lista de candidatos en vigor publicada por la ECHA

No listado.

Autorizaciones

Reglamento (CE) no. 1907/2006 REACH, Anexo XIV Sustancias sujetas a autorización, con sus modificaciones ulteriores

No listado.

Restricciones de uso

Reglamento (CE) nº. 1907/2006, REACH Anexo XVII, Sustancias sujetas a restricciones de comercialización y uso con las enmiendas correspondientes

No listado.

Directiva 2004/37/CE: relativa a la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes carcinógenos o mutágenos durante el trabajo, con las enmiendas correspondientes

No listado.

Otras normas de la UE

Directiva 2012/18/UE relativa a los riesgos inherentes a los accidentes graves en los que intervengan sustancias peligrosas, con las enmiendas correspondientes

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)

Otras reglamentaciones	Este producto ha sido clasificado y etiquetado con arreglo al Reglamento (CE) nº 1272/2008 (Reglamento CLP) con sus modificaciones ulteriores y con arreglo. Esta ficha de datos de seguridad cumple los requisitos del Reglamento (CE) Nº 1907/2006, con las enmiendas correspondientes.
Normativa nacional	Observar las normativas nacionales relativas al trabajo con agentes químicos, de conformidad con la Directiva 98/24/CE con las enmiendas correspondientes.
15.2. Evaluación de la seguridad química	No se ha realizado ninguna evaluación de la seguridad química.

SECCIÓN 16. Otra información

Lista de abreviaturas	No disponible.
Referencias	No disponible.
Información sobre el método de evaluación usado para la clasificación de la mezcla	La clasificación de los peligros para la salud y el medio ambiente se ha obtenido usando una combinación de métodos de cálculo y, en su caso, datos de ensayo.
Texto completo de cualesquiera frases H para las que no se incluya el enunciado completo en las secciones 2 a 15	H271 Puede provocar un incendio o una explosión; muy comburente. H302 Nocivo en caso de ingestión. H314 Provoca quemaduras graves en la piel y lesiones oculares graves. H332 Nocivo en caso de inhalación. H335 Puede irritar las vías respiratorias. H412 Nocivo para los organismos acuáticos, con efectos nocivos duraderos.
Información de revisión	Identificación del producto y de la empresa: Usos del producto COMPOSICION/INFORMACION DE LOS COMPONENTES: Ingredientes Propiedades físicas y químicas: Múltiples propiedades
Información sobre formación	Siga las instrucciones de entrenamiento al manejar este material.
Cláusula de exención de responsabilidad	La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Non classé.

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Symbole de danger Aucune.

Mention d'avertissement Aucune.

Mention de danger Le mélange ne satisfait pas les critères de classification.

Conseil de prudence

Prévention Observer de bonnes pratiques d'hygiène industrielle.

Intervention Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
HUILE MINÉRALE		8042-47-5	6.5
PEROXYDE DHYDROGENE (EAU OXYGENEE)		7722-84-1	3.01

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer avec de l'eau. Consulter un médecin si une irritation se développe et persiste.

Ingestion	Rincer la bouche. Consulter un médecin si des symptômes apparaissent.
Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Non disponible.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Traiter de manière symptomatique.
Informations générales	S’assurer que le personnel médical est averti du (des) produits(s) en cause et qu’il prend des mesures pour se protéger.

5. Mesures à prendre en cas d’incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l’incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d’incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d’incendie ou d’explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d’urgence	Tenir à l'écart le personnel non requis. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l’élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Éviter une exposition prolongée. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l’écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l’exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d’exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d’exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	PEL (limite d'exposition admissible)	1.4 mg/m3	
		1 ppm	

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	TWA	5 mg/m3	Fraction inhalable.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1 ppm	

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Non disponible.

Odeur Non disponible.

Seuil olfactif Non disponible.

pH 2.6 - 3

Point de fusion et point de congélation Non disponible.

Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Aucun effet indésirable dû au contact des yeux n'est prévu.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Non disponible.

Renseignements sur les effets toxicologiques

Toxicité aiguë	Inconnu(e).

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

HUILE MINÉRALE	31 % OECD 301 F Résultat: Difficilement Biodégradable
PEROXYDE DHYDROGENE (EAU OXYGENEE)	99 % OCDE 209 Résultat: Facilement Biodegradable

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 10 VOLUME PREMIUM DEVELOPER
Sinonimi	Nessuno.
Numero SDS	00-26-0000016
Codice prodotto	F0000886V01
Data di pubblicazione	02-Dicembre-2020
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

Francia Centro nazionale di controllo dei veleni	Numero ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).
INFOTRAC	+1 352-323-3500 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Questa miscela non rispetta i criteri di classificazione a norma del regolamento (CE) 1272/2008 modificato.

Riepilogo dei pericoli Non classificato per i pericoli per la salute. Tuttavia l'esposizione professionale alla miscela o alla sostanza/alle sostanze può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Pittogrammi di pericolo	Nessuno.
Avvertenza	Nessuno.
Indicazioni di pericolo	La miscela non soddisfa i criteri di classificazione.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento Smaltire residui e rifiuti conformemente a quanto disposto dalle autorità locali.

Informazioni supplementari sulle etichette La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSIDO DI IDROGENO	3,01	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classificazione: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare con acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati L'esposizione può causare irritazione, arrossamento o malessere temporanei.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Trattare in modo sintomatico.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente Allontanare il personale non necessario. Per la protezione individuale, vedere la sezione 8 della SDS.

Per chi interviene direttamente Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS

6.2. Precauzioni ambientali Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura Evitare l'esposizione prolungata. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare in un recipiente ermeticamente chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Regolamento del Ministero del Lavoro e delle Politiche Sociali del 6 giugno 2014. Riguardante le concentrazioni e le intensità massime permissibili di fattori pericolosi nell'ambiente di lavoro (Gazzetta Ufficiale polacca 2014, n. 817)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,4 mg/m3	
	Breve termine	0,8 mg/m3	

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici.

- Altro Applicabile soltanto per gli impianti industriali.

Protezione respiratoria Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Non conosciuto.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma	Panna.
Colore	Non conosciuto.
Odore	Non conosciuto.
Soglia olfattiva	Non conosciuto.
pH	2,6 - 3
Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Forti agenti ossidanti.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	No adverse effects due to eye contact are expected.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	L'esposizione può causare irritazione, arrossamento o malessere temporanei.
11.1. Informazioni sugli effetti tossicologici	
Tossicità acuta	Non conosciuto.

Prodotto	Specie	Risultati del test

Corrosione cutanea/irritazione cutanea A causa della mancanza parziale o totale di dati, la classificazione non è possibile. Non sono previsti effetti nocivi dovuti al contatto con la pelle.

Irritazione/corrosione - Pelle

PEROSSIDO DI IDROGENO	OECD 404, 35% ≥ C < 50% Risultato: irritante Specie: Coniglio OECD 404, C ≥ 50% Risultato: Corrosivo Specie: Coniglio

Gravi danni oculari/irritazione oculare A causa della mancanza parziale o totale di dati, la classificazione non è possibile. No adverse effects due to eye contact are expected.

Irritazione/corrosione - Occhi

PEROSSIDO DI IDROGENO	OECD 405, 5% ≥ C < 8% Risultato: irritante Specie: Coniglio OECD 405, C ≥ 8% Risultato: Corrosivo Specie: Coniglio

Sensibilizzazione respiratoria A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Sensibilizzazione cutanea A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Sensibilizzazione cutanea

PEROSSIDO DI IDROGENO	Risultato: Not Sensitizing Specie: Porcellino d'india

Mutagenicità sulle cellule germinali A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Mutagenicità

PEROSSIDO DI IDROGENO	Risultato: I saggi in vitro hanno rivelato effetti mutagenici, allorché i saggi in vivo non li hanno rivelati.

Cancerogenicità Non classificabile in relazione alla cancerogenicità per l'uomo. A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Non listato.

Monografie IARC. Valutazione generale di cancerogenicità

PEROSSIDO DI IDROGENO (CAS 7722-84-1)	3 Non classificabile per la cancerogenicità nell'uomo.

Tossicità per la riproduzione A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Tossicità specifica per organi bersaglio (STOT) — esposizione singola A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

PEROSSIDO DI IDROGENO	0, C ≥ 35% Risultato: irritante

Tossicità specifica per organi bersaglio (STOT) — esposizione ripetuta

A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

PEROSSIDO DI IDROGENO

2,9 mg/L air OECD 412, Inalazione
Risultato: NOAEL
Specie: Ratto
Durata del test: 28 d
26 mg/kg bw/d OECD 408, Orale
Risultato: NOAEL
Specie: Topo
Durata del test: 90 d

Pericolo in caso di aspirazione

A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze

Nessuna informazione disponibile.

Altre informazioni

The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità

In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".

Componenti		Specie	Risultati del test
PEROSSIDO DI IDROGENO (CAS 7722-84-1)			
Acquatico			
Acuto			
Alga	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Altro	EC50	Fanghi attivi di acque nere prevalentemente domestiche	2,5 mg/l, 30 min OCSE 209
Crostacei	EC50	Daphnia pulex (Pulce d'acqua)	2,4 mg/l, 48 h
Pesci	LC50	Pimephales promelas	16,4 mg/l, 96 h
Cronico			
Crostacei	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSIDO DI IDROGENO

99 % OCSE 209
Risultato: Rapidamente biodegradabile

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow)

Non conosciuto.

12.4. Mobilità nel suolo

Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB

Non è una sostanza o miscela PBT o vPvB.

12.6. Altri effetti avversi

Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

12.7. Altre informazioni

The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui

Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).

Imballaggi contaminati

Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.

Codice Europeo dei Rifiuti

Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.

Metodi di smaltimento/informazioni

Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate.

Precauzioni particolari Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

ADR

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

IATA

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

14.7. Trasporto di rinfuse secondo l'allegato II di MARPOL ed il codice IBC Non stabilito.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

PEROSSIDO DI IDROGENO (CAS 7722-84-1)

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H271 Può provocare un incendio o un'esplosione; molto comburente. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H332 Nocivo se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione: Tipi di materiale COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT 10 VOLUME PREMIUM DEVELOPER

鉴别的其他方法

SDS编号 00-26-0000016

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 未被分类。

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

危险符号 无。

警示词 无。

危险性说明 混合物不符合分类的标准。

防范说明

预防措施 遵守良好工业卫生习惯。

事故响应 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
矿物油		8042-47-5	6.5
过氧化氢		7722-84-1	3.01

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 用水冲洗。 如果刺激症状持续或加重，应就医。

经口 漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性 无资料。

指明任何需要立即就医或特殊治疗的情况 根据症状处理。

一般信息 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂 水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不当的灭火介质 禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害 燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施 发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明 在不会发生危险的情况下将容器撤离火灾现场。

特定的方法 采用标准灭火程序并考虑其他涉及材料有关的危险。

一般火灾危险 无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序 让无关人员离开。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料 大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施 防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项 避免长期暴露。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物 储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	PEL-常期暴露极限	5 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	PEL-常期暴露极限	1.4 mg/m3	
		1 ppm	

美国ACGIH阈限值

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	可吸入组分。
过氧化氢 (CAS 7722-84-1)	TWA	1 ppm	

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。

皮肤防护

手防护	仅用於工业环境。 佩戴适当的抗化学手套。
其它的，其它	仅用於工业环境。 穿上合适的化学防护衣。
呼吸系统防护	仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。
热危害	必要时，穿戴适当的热防护服。
一般的卫生考虑	始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状	液体。
形状	奶油。
颜色	无资料。
气味	无资料。
气味阈值	无资料。
pH 值	2.6 - 3
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。

溶解性

溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。

其他信息

爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	持续的吸入可能是有害的。
皮肤接触	预计没有因皮肤接触导致的任何有害影响。
眼睛接触	预计不会因眼神接触而产生不良影响.
经口	预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 无资料。

毒理学效应信息

急性毒性 未知。

生殖能力

矿物油	>= 2000 mg/kg bw/d OECD 415, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 由于部分或完全缺乏数据，不可能进行分类。

过氧化氢	0, C ≥ 35% 结果: 刺激性的

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

矿物油	> 2000 mg/kg bw/d OECD 411, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D > 50 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D >= 1200 mg/kg bw/d OECD 453, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 2 年
过氧化氢	2.9 mg/L air OECD 412, 吸入 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D 26 mg/kg bw/d OECD 408, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 小鼠 测试时间: 90 D

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
矿物油 (CAS 8042-47-5)			
水生的			
急性的			
甲壳纲动物	EL50	水蚤	> 100 mg/l, 48 h OECD 202
藻类	无可观察到的效应剂量（NOEL）	近头状伪蹄形藻	> 100 mg/l, 72 h OECD 201
鱼	LL50	虹鳟鱼	> 100 mg/l, 96 h OECD 203
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	10 mg/l, 21 D OECD 211
过氧化氢 (CAS 7722-84-1)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	2.5 mg/l, 30 最小 OECD 209
甲壳纲动物	EC50	Daphnia pulex (水蚤)	2.4 mg/l, 48 h
藻类	EC50	普通小球藻	2.5 mg/l, 72 h OECD 201
鱼	LC50	呆鲦鱼	16.4 mg/l, 96 h
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	0.63 mg/l, 21 D ASTM E 1193-97

持久性和降解性

生物降解性

降解百分率（好氧生物降解）

矿物油	31 % OECD 301 F 结果: 不容易生物降解
过氧化氢	99 % OECD 209 结果: 易生物降解

潜在的生物累积性

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

15. 法规信息

美国联邦法规 依OSHA 危害通识规则，该产品不是“化学危险物品”。

Toxic Substances Control Act (TSCA)

TSCA第12（b）部分有关出口申报（40 CFR 707，D子项）

未受管制。

CERCLA危险物质清单（40 CFR 302.4）

不适用。

SARA 304 不测事件释放通知

HYDROGEN PEROXIDE (CONC.> 52%) (CAS 7722-84-1) 1000 磅

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

1986年基金修正再授权法案(SARA)

SARA 302 极危险物质

化学名称	登记号(CAS号)	Reportable quantity (pounds)	Threshold planning quantity (pounds)	临界计划量，lower value (pounds)	临界计划量，upper value (pounds)
过氧化氢	7722-84-1	1000	1000		

SARA 311/312 有害化学品 No (Exempt)

SARA 313 (TRI 报告)

未受管制。

其他联邦法规

清洁空气法案（CAA）第112条有害空气污染物（HAPs）清单

未受管制。

清洁空气法（CAA）第112(r)条款关于意外泄漏

未受管制。

饮用水安全法（SDWA） 未受管制。

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT 20 VOLUME PREMIUM DEVELOPER**

Other means of identification

SDS number 00-26-0000017

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Serious eye damage/eye irritation Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8042-47-5	6.5
HYDROGEN PEROXIDE		7722-84-1	6.02

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 2.5 - 3.1

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 20 VOLUME PREMIUM DEVELOPER

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig
HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

MINERAL OIL
> 5000 mg/kg bw/d OECD 414, No effects on development
Result: NOAEL
Species: Rat

Reproductivity

MINERAL OIL
>= 2000 mg/kg bw/d OECD 415, No effects on fertility
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE
0, C ≥ 35%
Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

MINERAL OIL
> 2000 mg/kg bw/d OECD 411, Dermal
Result: NOAEL
Species: Rat
Test Duration: 90 d
> 50 mg/m3 air OECD 412, Inhalation
Result: NOAEC
Species: Rat
Test Duration: 28 d
>= 1200 mg/kg bw/d OECD 453, Oral
Result: NOAEL
Species: Rat
Test Duration: 2 years

HYDROGEN PEROXIDE
2.9 mg/L air OECD 412, Inhalation
Result: NOAEL
Species: Rat
Test Duration: 28 d
26 mg/kg bw/d OECD 408, Oral
Result: NOAEL
Species: Mouse
Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Revision information This document has undergone significant changes and should be reviewed in its entirety.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture PULP RIOT 20 VOLUME PREMIUM DEVELOPER

Synonyms None.

SDS number 00-26-0000017

Product code F0000889V01

Issue date 12-02-2020

Version number 01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Personal care product used for cosmetic effect.

Uses advised against None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name L'ORÉAL SA

Address 14, rue royale
75008 - Paris
France

Telephone +1 732 499 2745

e-mail nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

INFOTRAC +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.

Hazard summary Causes serious eye irritation. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: HYDROGEN PEROXIDE

Hazard pictograms

Signal word Warning

Hazard statements

H319 Causes serious eye irritation.

Precautionary statements

Prevention

P102 Keep out of reach of children.

P103	Read label before use.
P264	Wash thoroughly after handling.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 9,82% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 9,82% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
HYDROGEN PEROXIDE	6,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classification: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
HYDROGEN PEROXIDE (CAS 7722-84-1)	VME	1,5 mg/m3
Regulatory status: Indicative limit (VL)		
		1 ppm
Regulatory status: Indicative limit (VL)		

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	AGW	5 mg/m3	Respirable fraction.
STEARYL ALCOHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	STEL	0,8 mg/m3	
	TWA	0,4 mg/m3	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear suitable protective clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	2,5 - 3,1
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 20 VOLUME PREMIUM DEVELOPER		
Acute		
Inhalation		
Vapor		
ATEmix		182,7 mg/l
Oral		
ATEmix		11520 mg/kg

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Vapor		
LC0	Rat	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rat	693,7 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible.

Irritation Corrosion - Skin

HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure

HYDROGEN PEROXIDE	2,9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2,4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16,4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2,5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

HYDROGEN PEROXIDE (CAS 7722-84-1)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H271 May cause fire or explosion; strong oxidizer. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H332 Harmful if inhaled. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT 20 VOLUME PREMIUM DEVELOPER
Synonyme	Keine.
SDS-Nummer	00-26-0000017
Produktcode	F0000889V01
Ausgabedatum	02-Dezember-2020
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Körperpflegeprodukt zur kosmetischen Verwendung.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Kontaktperson

Firmenname	L'ORÉAL SA
Anschrift	14, rue royale 75008 - Paris Frankreich
Telefonnummer	+1 732 499 2745
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com

1.4. Notrufnummer

Frankreich Nationaler Giftnotruf	ORFILA Nummer (INRS): + 33 (0) 1 45 42 59 59 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)
INFOTRAC	+1 352-323-3500 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Verordnung 1272/2008 in der geänderten Fassung

Gesundheitsgefahren

Schwere Augenschädigung/Augenreizung	Kategorie 2	H319 - Verursacht schwere Augenreizung.

Gefahrenübersicht

Verursacht schwere Augenreizung. Die Exposition am Arbeitsplatz gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Enthält: WASSERSTOFFPEROXID

Gefahrenpiktogramme

Signalwort Achtung

Gefahrenhinweise

H319	Verursacht schwere Augenreizung.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.
P264	Nach Gebrauch gründlich waschen.
P280	Augenschutz/Gesichtsschutz tragen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.
P305 + P351 + P338	BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Eventuell vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
P337 + P313	Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Lagerung Nicht in der Nähe von inkompatiblen Materialien lagern.

Entsorgung Abfall und Rückstände gemäß der örtlichen behördlichen Bestimmungen entsorgen.

Zusätzliche Angaben auf dem Etikett 9,82 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 9,82 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.

2.3. Sonstige Gefahren Kein PBT- oder vPvB-Gemisch oder Stoff.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Allgemeine Angaben

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
WASSERSTOFFPEROXID	6,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Einstufung: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.

Hautkontakt Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Augenkontakt Augen sofort für 15 Minuten mit reichlich Wasser ausspülen. Ggf. Kontaktlinsen herausnehmen, wenn dies einfach möglich ist. Mit dem Auswaschen fortfahren. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Verschlucken Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.

4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen.

4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung Allgemeine Unterstützungsmaßnahmen und symptomatische Behandlung sind angezeigt. Betroffene Person unter Beobachtung halten. Die Symptome können verzögert auftreten.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren Keine Angaben über ungewöhnliche Brand- oder Explosionsgefahr.

5.1. Löschmittel

Geeignete Löschmittel Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO2).

Ungeeignete Löschmittel Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.

5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.

Besondere Verfahren zur Brandbekämpfung Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.

Besondere Löschhinweise Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal Unnötiges Personal fernhalten. Personen fernhalten und auf windzugewandter Seite bleiben. Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen. Beschädigte Behälter oder ausgetretenes Material nur berühren, wenn geeignete Schutzkleidung getragen wird. Für angemessene Lüftung sorgen. Wenn größere Mengen verschütteten Materials nicht eingedämmt werden können, sollen die lokalen Behörden benachrichtigt werden. Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB.

Einsatzkräfte Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, wie in Abschnitt 8 im SDB empfohlen.

6.2. Umweltschutzmaßnahmen Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.

6.3. Methoden und Material für Rückhaltung und Reinigung Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Mit Vermiculit, trockenem Sand oder Erde aufnehmen und in Behälter füllen. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen.

Kleine Austrittsmengen: Mit saugfähigem Material (z.B. Lappen, Vlies) aufwischen. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen.

Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.

6.4. Verweis auf andere Abschnitte Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB. Für Abfallentsorgung siehe Abschnitt 13 im SDB.

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung Berührung mit den Augen vermeiden. Längeren Kontakt vermeiden. Für ausreichend Belüftung sorgen. Geeignete persönliche Schutzausrüstung tragen. Anerkannte industrielle Hygienemaßnahmen beachten.

7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten In einem dicht verschlossenen Behälter aufbewahren. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des SDB's).

7.3. Spezifische Endanwendungen Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten	Typ	Wert
WASSERSTOFFPEROXID (CAS 7722-84-1)	VME	1,5 mg/m3
Gesetzliche Regelung:	Richtgrenzwert (VL)	
		1 ppm
Gesetzliche Regelung:	Richtgrenzwert (VL)	

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Alveolengängige Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	AGW	5 mg/m3	Alveolengängige Fraktion.
SEARYLALKHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1 ppm	

Verordnung des Ministers für Arbeit und Sozialpolitik vom 6. Juni 2014 zu den maximal erlaubten Konzentrationen und Intensitäten schädlicher Gesundheitsfaktoren am Arbeitsplatz, Gesetzblatt 2014, Punkt 817

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,4 mg/m3	
	Überschreitungsfaktor für Spitzenbegrenzung	0,8 mg/m3	

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren Standardüberwachungsverfahren befolgen.

Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL) Steht nicht zur Verfügung.

Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs) Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen Gute allgemeine Lüftung. Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten. Augenduschstation bereitstellen.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben Vorgeschriebene persönliche Schutzausrüstung verwenden. Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.

Augen-/Gesichtsschutz Nur für ein industrielles Umfeld anwendbar. Sicherheitsbrille mit Seitenschutz (oder Schutzbrille) tragen.

Hautschutz	
- Handschutz	Nur für ein industrielles Umfeld anwendbar. Geeignete chemikalienbeständige Handschuhe tragen.
- Sonstige Schutzmaßnahmen	Nur für ein industrielles Umfeld anwendbar. Bei der Arbeit geeignete Schutzkleidung tragen.
Atemschutz	Nur für ein industrielles Umfeld anwendbar. Bei unzureichender Belüftung Atemschutzgerät anlegen.
Thermische Gefahren	Geeignete Hitzeschutzkleidung tragen, falls nötig.
Hygienemaßnahmen	Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.
Begrenzung und Überwachung der Umweltexposition	Steht nicht zur Verfügung.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen	
Aggregatzustand	Flüssigkeit.
Form	Sahne.
Farbe	Steht nicht zur Verfügung.
Geruch	Steht nicht zur Verfügung.
Geruchsschwelle	Steht nicht zur Verfügung.
pH-Wert	2,5 - 3,1
Schmelzpunkt/Gefrierpunkt	Steht nicht zur Verfügung.
Siedebeginn und Siedebereich	> 100 °C (> 212 °F)
Flammpunkt	> 100,0 °C (> 212,0 °F) Geschlossener Tiegel
Verdampfungsgeschwindigkeit	Steht nicht zur Verfügung.
Entzündbarkeit (fest, gasförmig)	Nicht anwendbar.
Obere/untere Entzündbarkeits- oder Explosionsgrenzen	
Untere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Obere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Dampfdruck	Steht nicht zur Verfügung.
Dampfdichte	Steht nicht zur Verfügung.
Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Nicht oxidierend.
9.2. Sonstige Angaben	Keine relevanten weiteren Daten verfügbar.

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Das Produkt ist stabil und unter normalen Gebrauchs-, Lager- oder Transportbedingungen nicht reaktiv.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Kontakt mit unverträglichen Materialien vermeiden.
10.5. Unverträgliche Materialien	Starke Oxidationsmittel.

10.6. Gefährliche Zersetzungsprodukte Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.

Angaben zu wahrscheinlichen Expositionswegen

Einatmen Anhaltendes Einatmen kann schädlich sein.

Hautkontakt Bei Hautkontakt werden keine Beeinträchtigungen erwartet.

Augenkontakt Verursacht schwere Augenreizung.

Verschlucken Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.

Symptome Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität Nicht bekannt.

Produkt	Spezies	Testergebnisse

Ätz-/Reizwirkung auf die Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Reizung Korrosion - Haut

WASSERSTOFFPEROXID	OECD 404, 35% ≥ C < 50% Ergebnis: reizend Spezies: Kaninchen OECD 404, C ≥ 50% Ergebnis: Korrosiv Spezies: Kaninchen

Schwere Augenschädigung/Augenreizung Verursacht schwere Augenreizung.

Reizung Korrosion - Auge

WASSERSTOFFPEROXID	OECD 405, 5% ≥ C < 8% Ergebnis: reizend Spezies: Kaninchen OECD 405, C ≥ 8% Ergebnis: Korrosiv Spezies: Kaninchen

Sensibilisierung der Atemwege Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut

WASSERSTOFFPEROXID	Ergebnis: Nicht sensibilisierend Spezies: Meerschweinchen

Keimzell-Mutagenität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Mutagenität

WASSERSTOFFPEROXID — Ergebnis: In-vitro-Tests zeigten erbgutverändernde Wirkungen, die bei in-vivo-Tests nicht beobachtet wurden.

Karzinogenität — Nicht einstufbar bezüglich der Kanzerogenität für den Menschen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Ungarn. 26/2000 EüM Verordnung zum Schutz vor und Vermeidung von Gefahren im Hinblick auf die Exposition gegenüber Karzinogenen am Arbeitsplatz (in der geänderten Fassung)

Nicht eingetragen.

IARC Monographs. Overall Evaluation of Carcinogenicity (Gesamtbewertung der Karzinogenität)

WASSERSTOFFPEROXID (CAS 7722-84-1) — 3 Hinsichtlich der Karzinogenität für den Menschen nicht einstufbar.

Reproduktionstoxizität — Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Spezifische Zielorgan-Toxizität bei einmaliger Exposition — Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID — 0, C ≥ 35%
Ergebnis: reizend

Spezifische Zielorgan-Toxizität bei wiederholter Exposition — Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID — 2,9 mg/L air OECD 412, Einatmen
Ergebnis: DSENO
Spezies: Ratte
Testdauer: 28 d
26 mg/kg bw/d OECD 408, Oral
Ergebnis: DSENO
Spezies: Maus
Testdauer: 90 d

Aspirationsgefahr — Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Gemischbezogene gegenüber stoffbezogenen Angaben — Keine Information verfügbar.

Sonstige Angaben — Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität — Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.

Komponenten		Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)			
Wasser-			
Akut			
Algen	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Andere	EC50	Belebtschlamm von überwiegend kommunalem Abwasser	2,5 mg/l, 30 min OECD 209
Crustacea	EC50	Daphnia pulex (Wasserfloh)	2,4 mg/l, 48 h
Fische	LC50	Pimephales promelas	16,4 mg/l, 96 h
Chronisch			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenz und Abbaubarkeit

Biologische Abbaubarkeit

Prozentualer Abbau (aerober biologischer Abbau)

WASSERSTOFFPEROXID — 99 % OECD 209
Ergebnis: Leicht biologisch abbaubar

12.3. Bioakkumulationspotenzial

Verteilungskoeffizient n-Oktanol/Wasser (log Kow) — Steht nicht zur Verfügung.

12.4. Mobilität im Boden — Keine Daten verfügbar.

12.5. Ergebnisse der PBT- und vPvB-Beurteilung — Kein PBT- oder vPvB-Gemisch oder Stoff.

12.6. Andere schädliche Wirkungen — Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

12.7. Zusätzliche Angaben Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall	Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).
Kontaminiertes Verpackungsmaterial	Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.
EU Abfallcode	Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.
Entsorgungsmethoden / Informationen	Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen. Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.
Besondere Vorsichtsmaßnahmen	Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

ABSCHNITT 14: Angaben zum Transport

ADR

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

IATA

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

IMDG

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

14.7. Massengutbeförderung gemäß Anhang II des MARPOL-Übereinkommens und gemäß IBC-Code Nicht nachgewiesen.

ABSCHNITT 15: Rechtsvorschriften

15.1. Vorschriften zu Sicherheit, Gesundheits- und Umweltschutz/spezifische Rechtsvorschriften für den Stoff oder das Gemisch

EU-Vorschriften

Verordnung (EG) Nr. 1005/2009 über Stoffe, die zum Abbau der Ozonschicht führen, Anhang I und II, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 850/2004 für persistente organische Schadstoffe, Anhang I in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 1 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 2 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 3 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang V, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 166/2006 Anhang II Europäisches Schadstofffreisetzungs- und -verbringungsregister, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 1907/2006, REACH Artikel 59(10) Kandidatenliste in der derzeit durch die ECHA veröffentlichten Form

Nicht eingetragen.

Zulassungen

Verordnung (EG) Nr. 1907/2006, REACH Anhang XIV Verzeichnis der zulassungspflichtigen Stoffe, in der geänderten Fassung

Nicht eingetragen.

Beschränkungen für die Verwendung

Verordnung (EG) Nr. 1907/2006, REACH Anhang XVII Stoffe, die für das Inverkehrbringen und die Verwendung der Zulassungspflicht unterliegen

Nicht eingetragen.

Richtlinie 2004/37/EG: Über den Schutz der Arbeitnehmer gegen Gefährdung durch Karzinogene oder Mutagene am Arbeitsplatz, in der geänderten Fassung

Nicht eingetragen.

Andere EU Vorschriften

Richtlinie 2012/18/EU zur Beherrschung von Gefahren schwerer Unfälle mit gefährlichen Stoffen, in der geänderten Fassung

WASSERSTOFFPEROXID (CAS 7722-84-1)

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Beim Arbeiten mit Chemikalien sind die nationalen Vorschriften gemäß der Richtlinie 98/24/EWG in der geänderten Form zu befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	H271 Kann Brand oder Explosion verursachen; starkes Oxidationsmittel. H302 Gesundheitsschädlich bei Verschlucken. H314 Verursacht schwere Verätzungen der Haut und schwere Augenschäden. H332 Gesundheitsschädlich bei Einatmen. H335 Kann die Atemwege reizen. H412 Schädlich für Wasserorganismen, mit langfristiger Wirkung.
Angaben zur Revision	Produkt- und Firmenkennzeichnung: Materialarten Zusammensetzung / Angaben zu Bestandteilen: Bestandteile Physikalische und chemische Eigenschaften. Mutiple Eigenschaften
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

SECCIÓN 1. Identificación de la sustancia o la mezcla y de la sociedad o la empresa

1.1. Identificador del producto

Nombre comercial o denominación de la mezcla	PULP RIOT 20 VOLUME PREMIUM DEVELOPER
Sinónimos	Ninguno.
Número de FDS	00-26-0000017
Código de producto	F0000889V01
Fecha de publicación	02-Diciembre-2020
Número de la versión	01

1.2. Usos pertinentes identificados de la sustancia o de la mezcla y usos desaconsejados

Usos identificados	Producto de cuidado personal para uso cosmético.
Usos desaconsejados	Ninguno conocido.

1.3. Datos del proveedor de la ficha de datos de seguridad

Persona de contacto

Nombre de la compañía	L'ORÉAL SA
Dirección	14, rue royale 75008 - Paris Francia
Número de teléfono	+1 732 499 2745
dirección electrónica	nacorpeuropesdsrequest@loreal.com

1.4. Teléfono de emergencia

Francia Centro nacional de control de intoxicaciones	Número ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)
INFOTRAC	+1 352-323-3500 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)

SECCIÓN 2. Identificación de los peligros

2.1. Clasificación de la sustancia o de la mezcla

La mezcla ha sido evaluada y/o sometida a ensayo para determinar sus peligros físicos y peligros para la salud y el medio ambiente, y la siguiente clasificación tiene aplicación.

Clasificación de acuerdo con el reglamento (CE) No. 1272/2008 con sus modificaciones ulteriores

Peligros para la salud

Lesiones oculares graves/irritación ocular	Categoría 2	H319 - Provoca irritación ocular grave.

Resumen de los peligros

Provoca irritación ocular grave. La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos para la salud. Este es un producto de consumo para el cuidado, seguro para los consumidores si se utiliza siguiendo las instrucciones de la etiqueta. Al igual que con muchos productos de consumo, un pequeño número de personas puede sufrir reacciones como enrojecimiento, erupciones e hinchazón tras un contacto prolongado o repetido con la piel o con los ojos.

2.2. Elementos de la etiqueta

Etiquetado de conformidad con el Reglamento (CE) nº 1272/2008 tal como se modifica en el presente Reglamento

Contiene: PERÓXIDO DE HIDRÓGENO

Pictogramas de peligro

Palabra de advertencia Atención

Indicaciones de peligro

H319	Provoca irritación ocular grave.

Consejos de prudencia

Prevención

P102	Mantener fuera del alcance de los niños.
P103	Leer la etiqueta antes del uso.
P264	Lavarse concienzudamente tras la manipulación.
P280	Llevar protección ocular/facial.

Respuesta

P101	Si se necesita consejo médico, tener a mano el envase o la etiqueta.
P305 + P351 + P338	EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado.
P337 + P313	Si persiste la irritación ocular: Consultar a un médico.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación Eliminar los desperdicios y residuos de conformidad con la normativa promulgada por las autoridades locales.

Información suplementaria en la etiqueta La mezcla contiene un 9,82 % de componentes de toxicidad aguda para el medio ambiente acuático desconocida. La mezcla contiene un 9,82 % de componentes de toxicidad a largo plazo para el medio ambiente acuático desconocida.

2.3. Otros peligros No es una sustancia o mezcla PBT o MPMB.

SECCIÓN 3. Composición/información sobre los componentes

3.2. Mezclas

Información general

Denominación química	%	Número CAS / Número CE	Número de registro conforme a REACH	Número de índice	Notas
PERÓXIDO DE HIDRÓGENO	6,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Clasificación: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Lista de abreviaturas y símbolos que se pueden utilizar en lo anterior

#: A esta sustancia se aplican límites de exposición de la Unión en el lugar de trabajo.
M: Factor M
PBT: sustancia persistente, bioacumulativa y tÄłxica.
mPmB: sustancia muy persistente y muy bioacumulativa.
Todas las concentraciones están en porcentaje en peso salvo que el componente sea un gas. Las concentraciones de gas están en porcentaje en volumen.

Comentarios sobre los componentes El texto completo de todas las Frases H se ofrece en la Sección 16.

SECCIÓN 4. Primeros auxilios

Información general Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

4.1. Descripción de los primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Si persiste la irritación ocular: Consultar a un médico.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

4.2. Principales síntomas y efectos, agudos y retardados Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.

4.3. Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.

SECCIÓN 5. Medidas de lucha contra incendios

Riesgos generales de incendio Ningún riesgo excepcional de incendio o explosión señalado.

5.1. Medios de extinción

Medios de extinción apropiados Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).

Medios de extinción no apropiados No utilice chorro de agua, pues extendería el fuego.

5.2. Peligros específicos derivados de la sustancia o la mezcla En caso de incendio se pueden formar gases nocivos.

5.3. Recomendaciones para el personal de lucha contra incendios

Equipos de protección especial que debe llevar el personal de lucha contra incendios Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.

Procedimientos especiales de lucha contra incendio Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.

Métodos específicos Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

SECCIÓN 6. Medidas en caso de vertido accidental

6.1. Precauciones personales, equipo de protección y procedimientos de emergencia

Para el personal que no forma parte de los servicios de emergencia Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Use equipo y ropa de protección apropiados durante la limpieza. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.

Para el personal de emergencia Mantenga el personal no necesario lejos. Utilizar las medidas de protección personal recomendadas en la sección 8 de la FDS.

6.2. Precauciones relativas al medio ambiente No verter los residuos al desagüe, al suelo o las corrientes de agua.

6.3. Métodos y material de contención y de limpieza Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua.

Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación.

Nunca devuelva el producto derramado al envase original para reutilizarlo.

6.4. Referencia a otras secciones Consultar las medidas de protección personal en la sección 8 de la FDS. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

SECCIÓN 7. Manipulación y almacenamiento

7.1. Precauciones para una manipulación segura Evítese el contacto con los ojos. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.

7.2. Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

7.3. Usos específicos finales No disponible.

SECCIÓN 8. Controles de exposición/protección individual

8.1. Parámetros de control

Límites de exposición profesional

Bélgica. Valores límite de exposición.

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Francia. Valores límite umbral (VLEP) para la exposición ocupacional a sustancias químicas en Francia, INRS ED 984

Componentes	Tipo	Valor
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	VME	1,5 mg/m³

Regulación: Indicative limit (VL)

Francia. Valores límite umbral (VLEP) para la exposición ocupacional a sustancias químicas en Francia, INRS ED 984

Componentes	Tipo	Valor
		1 ppm

Regulación: Indicative limit (VL)

Alemania. Lista DFG MAK (límites de exposición ocupacional indicativos). Comisión Alemana de Investigación de los Peligros para la Salud de las Sustancias Químicas en el Entorno de Trabajo (DFG)

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción respirable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	0,71 mg/m³	
		0,5 ppm	

Alemania. TRGS 900, Valores límite del aire en el lugar de trabajo

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	AGW	5 mg/m³	Fracción respirable.
ALCOHOL ESTEARÍLICO (CAS 112-92-5)	AGW	224 mg/m³	
		20 ppm	

Italia. Límites de exposición ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1 ppm	

Ordinance of the Minister of Labour and Social Policy on 6 Junio 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	STEL	0,8 mg/m³	
	TWA	0,4 mg/m³	

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Métodos de seguimiento recomendados Seguir los procedimientos de monitorización estándar.

Niveles sin efecto derivado (DNEL) No disponible.

Concentraciones previstas sin efecto (PNECs) No disponible.

8.2. Controles de la exposición

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Información general	Utilizar el equipo de protección individual obligatorio. El equipo de protección personal se elegirá de acuerdo con la norma CEN vigente y en colaboración con el suministrador de equipos de protección personal.
Protección de los ojos/la cara	De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).
Protección de la piel	
- Protección de las manos	De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.
- Otros	De aplicación solamente en entornos industriales. Úsese indumentaria protectora adecuada.
Protección respiratoria	De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.
Peligros térmicos	Use ropa protectora térmica adecuada si resulta necesario.
Medidas de higiene	Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.
Controles de exposición medioambiental	No disponible.

SECCIÓN 9. Propiedades físicas y químicas

9.1. Información sobre propiedades físicas y químicas básicas

Aspecto	
Estado físico	Líquido.
Forma	Nata.
Color	No disponible.
Olor	No disponible.
Umbral olfativo	No disponible.
pH	2,5 - 3,1
Punto de fusión/punto de congelación	No disponible.
Punto inicial de ebullición e intervalo de ebullición	> 100 °C (> 212 °F)
Punto de inflamación	> 100,0 °C (> 212,0 °F) Copa Cerrada
Tasa de evaporación	No disponible.
Inflamabilidad (sólido, gas)	No aplicable.
Límites superior/inferior de inflamabilidad o de explosividad	
Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.
9.2. Otros datos	No se dispone de información adicional pertinente.

SECCIÓN 10. Estabilidad y reactividad

10.1. Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.

10.2. Estabilidad química El material es estable bajo condiciones normales.

10.3. Posibilidad de reacciones peligrosas No se conoce reacciones peligrosas bajo condiciones de uso normales.

10.4. Condiciones que deben evitarse Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.

10.5. Materiales incompatibles Agentes oxidantes fuertes.

10.6. Productos de descomposición peligrosos No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. Información toxicológica

Información general La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos.

Información sobre posibles vías de exposición

Inhalación La inhalación prolongada puede resultar nociva.

Contacto con la piel No se esperan efectos adversos por contacto con la piel.

Contacto con los ojos Provoca irritación ocular grave.

Ingestión Si se ingiere puede causar molestias. No obstante, no es probable que la ingestión constituya una vía primaria de exposición ocupacional.

Síntomas Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.

11.1. Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba
PULP RIOT 20 VOLUME PREMIUM DEVELOPER		
Agudo		
Inhalación		
Vapor		
ATEmix		182,7 mg/l
Oral		
ATEmix		11520 mg/kg

Componentes	Especies	Resultados de la prueba

Corrosión/irritación cutánea Debido a la falta total o parcial de datos, la clasificación no es posible.

Irritación/Corrosión- Piel

PERÓXIDO DE HIDRÓGENO	OECD 404, 35% ≥ C < 50% Resultado: Irritante Especies: Conejo OECD 404, C ≥ 50% Resultado: Corrosivo Especies: Conejo

Lesiones oculares graves/irritación ocular Provoca irritación ocular grave.

Irritación/Corrosión- Ojos

PERÓXIDO DE HIDRÓGENO	OECD 405, 5% ≥ C < 8% Resultado: Irritante Especies: Conejo OECD 405, C ≥ 8% Resultado: Corrosivo Especies: Conejo

Sensibilización respiratoria Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea

PERÓXIDO DE HIDRÓGENO	Resultado: Not Sensibilizante Especies: Conejillo de indias

Mutagenicidad en células germinales Debido a la falta total o parcial de datos, la clasificación no es posible.

Mutagenicidad

PERÓXIDO DE HIDRÓGENO	Resultado: Las pruebas in vitro demostraron efectos mutágenos los cuáles no fueron observados con la prueba in vivo.

Carcinogenicidad No clasificable en cuanto a su carcinogenicidad para los seres humanos. Debido a la falta total o parcial de datos, la clasificación no es posible.

Hungría. Decreto 26/2000 EüM del Ministerio de Salud para la prevención y protección de los riesgos relacionados con la exposición a carcinógenos laborales (versión modificada)

No listado.

Monografías IARC. Evaluación general de carcinogenicidad

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	3 No clasificable en cuanto a su carcinogenicidad para los seres humanos.

Toxicidad para la reproducción Debido a la falta total o parcial de datos, la clasificación no es posible.

Toxicidad específica en determinados órganos – exposición única Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO	0, C ≥ 35% Resultado: Irritante

Toxicidad específica en determinados órganos – exposición repetida Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO	2,9 mg/L air OECD 412, Inhalación Resultado: NOAEL Especies: Rata Duración de la prueba: 28 d 26 mg/kg bw/d OECD 408, Oral Resultado: NOAEL Especies: Ratón Duración de la prueba: 90 d

Peligro por aspiración Debido a la falta total o parcial de datos, la clasificación no es posible.

Información sobre la mezcla en relación con la sustancia No hay información disponible.

Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 12. Información ecológica

12.1. Toxicidad A la vista de los datos disponibles, no se cumplen los criterios de clasificación de peligroso para el medio ambiente acuático.

Componentes		Especies	Resultados de la prueba
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)			
Acuático (a)			
Agudo			
Algas	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustáceos	EC50	Daphnia pulex (Daphnia pulex (vesikirppu))	2,4 mg/l, 48 h
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	2,5 mg/l, 30 mín OECD 209
Pez	LC50	Pimephales promelas	16,4 mg/l, 96 h
Crónico			
Crustáceos	NOEC	Dafnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

PERÓXIDO DE HIDRÓGENO	99 % OECD 209 Resultado: Fácilmente Biodegradable

12.3. Potencial de bioacumulación

Coeficiente de partición n-octanol/agua (log Kow)	No disponible.
12.4. Movilidad en el suelo	No hay datos disponibles.
12.5. Resultados de la valoración PBT y mPmB	No es una sustancia o mezcla PBT o MPMB.
12.6. Otros efectos adversos	No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.
12.7. Información adicional	En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 13. Consideraciones relativas a la eliminación

13.1. Métodos para el tratamiento de residuos

Restos de productos	Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).
Envases contaminados	Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.
Código europeo de residuos	El código de Desecho debe ser atribuído de acuerdo entre el usuario, el productor y la compañía de eliminación de desechos.
Métodos de eliminación/información	Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.
Precauciones especiales	Elimine de acuerdo con todas las reglamentaciones aplicables.

SECCIÓN 14. Información relativa al transporte

ADR

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

IATA

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

IMDG

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

14.7. Transporte a granel con arreglo al anexo II del Convenio MARPOL y el Código IBC	No establecido.

SECCIÓN 15. Información reglamentaria

15.1. Reglamentación y legislación en materia de seguridad, salud y medio ambiente específicas para la sustancia o la mezcla

Normativa de la UE

Reglamento (CE) Nº 1005/2009 sobre las sustancias que agotan la capa de ozono, Anexos I y II, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 850/2004 sobre contaminantes orgánicos persistentes, Anexo I con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 1, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 2, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 3, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo V, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº 166/2006, Anexo II, Registro de emisiones y transferencias de contaminantes, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 1907/2006, REACH Artículo 59(10), Lista de candidatos en vigor publicada por la ECHA

No listado.

Autorizaciones

Reglamento (CE) no. 1907/2006 REACH, Anexo XIV Sustancias sujetas a autorización, con sus modificaciones ulteriores

No listado.

Restricciones de uso

Reglamento (CE) nº. 1907/2006, REACH Anexo XVII, Sustancias sujetas a restricciones de comercialización y uso con las enmiendas correspondientes

No listado.

Directiva 2004/37/CE: relativa a la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes carcinógenos o mutágenos durante el trabajo, con las enmiendas correspondientes

No listado.

Otras normas de la UE

Directiva 2012/18/UE relativa a los riesgos inherentes a los accidentes graves en los que intervengan sustancias peligrosas, con las enmiendas correspondientes

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)

Otras reglamentaciones	Este producto ha sido clasificado y etiquetado con arreglo al Reglamento (CE) nº 1272/2008 (Reglamento CLP) con sus modificaciones ulteriores y con arreglo. Esta ficha de datos de seguridad cumple los requisitos del Reglamento (CE) Nº 1907/2006, con las enmiendas correspondientes.
Normativa nacional	Observar las normativas nacionales relativas al trabajo con agentes químicos, de conformidad con la Directiva 98/24/CE con las enmiendas correspondientes.
15.2. Evaluación de la seguridad química	No se ha realizado ninguna evaluación de la seguridad química.

SECCIÓN 16. Otra información

Lista de abreviaturas	No disponible.
Referencias	No disponible.
Información sobre el método de evaluación usado para la clasificación de la mezcla	La clasificación de los peligros para la salud y el medio ambiente se ha obtenido usando una combinación de métodos de cálculo y, en su caso, datos de ensayo.
Texto completo de cualesquiera frases H para las que no se incluya el enunciado completo en las secciones 2 a 15	H271 Puede provocar un incendio o una explosión; muy comburente. H302 Nocivo en caso de ingestión. H314 Provoca quemaduras graves en la piel y lesiones oculares graves. H332 Nocivo en caso de inhalación. H335 Puede irritar las vías respiratorias. H412 Nocivo para los organismos acuáticos, con efectos nocivos duraderos.
Información de revisión	Identificación del producto y de la empresa: Usos del producto COMPOSICION/INFORMACION DE LOS COMPONENTES: Ingredientes Propiedades físicas y químicas: Múltiples propiedades
Información sobre formación	Siga las instrucciones de entrenamiento al manejar este material.

Cláusula de exención de responsabilidad

La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT 20 VOLUME PREMIUM DEVELOPER**

Autres moyens d'identification

Numéro de la FDS 00-26-0000017

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Lésions oculaires graves/irritation oculaire Catégorie 2A

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Provoque une sévère irritation des yeux.

Conseil de prudence

Prévention Se laver soigneusement après manipulation. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
HUILE MINÉRALE		8042-47-5	6.5
PEROXYDE DHYDROGENE (EAU OXYGENEE)		7722-84-1	6.02

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation	Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.
Contact avec la peau	Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.
Contact avec les yeux	Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.
Ingestion	Rincer la bouche. Consulter un médecin si des symptômes apparaissent.
Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.
Informations générales	S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence	Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Éviter tout contact avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l’exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d’exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d’exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	PEL (limite d'exposition admissible)	1.4 mg/m3	
		1 ppm	

ÉTATS-UNIS. Valeurs limites d’exposition de l’ACGIH

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	TWA	5 mg/m3	Fraction inhalable.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1 ppm	

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

Valeurs biologiques limites Aucune limite d’exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur	Non disponible.
Odeur	Non disponible.
Seuil olfactif	Non disponible.
pH	2.5 - 3.1
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Mutagénicité sur les cellules germinales La classification n'est pas possible en raison d'un manque partiel ou total de données.

Mutagénicité

HUILE MINÉRALE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
PEROXYDE DHYDROGENE (EAU OXYGENEE)	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme. La classification n'est pas possible en raison d'un manque partiel ou total de données.

Monographies du CIRC. Évaluation globale de la cancérogénicité

HUILE MINÉRALE (CAS 8042-47-5)	3 Inclassable quant à sa cancérogénicité pour l'homme.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	3 Inclassable quant à sa cancérogénicité pour l'homme.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction La classification n'est pas possible en raison d'un manque partiel ou total de données.

Effets sur le développement

HUILE MINÉRALE	> 5000 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat

Reproductivité

HUILE MINÉRALE	>= 2000 mg/kg bw/d OCDE 415, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique La classification n'est pas possible en raison d'un manque partiel ou total de données.

PEROXYDE DHYDROGENE (EAU OXYGENEE)	0, C ≥ 35% Résultat: Irritant

Toxicité pour certains organes cibles - expositions répétées La classification n'est pas possible en raison d'un manque partiel ou total de données.

HUILE MINÉRALE	> 2000 mg/kg bw/d OCDE 411, Cutané Résultat: DSENO Espèces: Rat Durée du test: 90 d > 50 mg/m3 air OCDE 412, Inhalation Résultat: CSENO Espèces: Rat Durée du test: 28 d >= 1200 mg/kg bw/d OCDE 453, Orale Résultat: DSENO Espèces: Rat Durée du test: 2 années
PEROXYDE DHYDROGENE (EAU OXYGENEE)	2.9 mg/L air OCDE 412, Inhalation Résultat: DSENO Espèces: Rat Durée du test: 28 d

Toxicité pour certains organes cibles - expositions répétées

PEROXYDE DHYDROGENE (EAU OXYGENEE)	26 mg/kg bw/d OCDE 408, Orale Résultat: DSENO Espèces: Souris Durée du test: 90 d

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

HUILE MINÉRALE	31 % OECD 301 F Résultat: Difficilement Biodégradable
PEROXYDE DHYDROGENE (EAU OXYGENEE)	99 % OCDE 209 Résultat: Facilement Biodegradable

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés	Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).
Emballages contaminés	Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 20 VOLUME PREMIUM DEVELOPER
Sinonimi	Nessuno.
Numero SDS	00-26-0000017
Codice prodotto	F0000889V01
Data di pubblicazione	02-Dicembre-2020
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

Francia Centro nazionale di controllo dei veleni	Numero ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).
INFOTRAC	+1 352-323-3500 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli per la salute

Gravi danni oculari/irritazione oculare	Categoria 2	H319 - Provoca grave irritazione oculare.

Riepilogo dei pericoli Provoca grave irritazione oculare. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: PEROSSIDO DI IDROGENO

Pittogrammi di pericolo

Avvertenza Attenzione

Indicazioni di pericolo

H319	Provoca grave irritazione oculare.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.
P264	Lavare attentamente dopo l'uso.
P280	Proteggere gli occhi.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P305 + P351 + P338	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P337 + P313	Se l'irritazione degli occhi persiste, consultare un medico.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento Smaltire residui e rifiuti conformemente a quanto disposto dalle autorità locali.

Informazioni supplementari sulle etichette La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSIDO DI IDROGENO	6,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classificazione: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Se l'irritazione degli occhi persiste, consultare un medico.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi	In caso d'incendio indossare autorespiratore e indumenti protettivi completi.
Procedure speciali per l'estinzione degli incendi	Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.
Metodi specifici	Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente	Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.
Per chi interviene direttamente	Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS
6.2. Precauzioni ambientali	Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.
6.3. Metodi e materiali per il contenimento e per la bonifica	Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua. Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua. Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo
6.4. Riferimento ad altre sezioni	Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura	Evitare il contatto con gli occhi. Evitare l'esposizione prolungata. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Osservare le norme di buona igiene industriale.
7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità	Conservare in un recipiente ermeticamente chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).
7.3. Usi finali particolari	Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Francia. Valori limite di soglia (VLEP) per esposizione professionale a sostanze chimiche in Francia, INRS ED 984

Componenti	Tipo	Valore
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	VME	1,5 mg/m3
Stato normativo: Limite indicativo (VL)		
		1 ppm
Stato normativo: Limite indicativo (VL)		

Germania. Elenco DFG MAK (OEL raccomandati). Commissione per le indagini sui rischi per la salute dei composti chimici nell'ambiente di lavoro (DFG)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione respirabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,71 mg/m3	
		0,5 ppm	

Germania. TRGS 900, Valori limite in aria ambiente nel luogo di lavoro

Componenti	Tipo	Valore	Forma
ALCOL STEARILICO (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	
Olio minerale (CAS 8042-47-5)	AGW	5 mg/m3	Frazione respirabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Regolamento del Ministero del Lavoro e delle Politiche Sociali del 6 giugno 2014. Riguardante le concentrazioni e le intensità massime permissibili di fattori pericolosi nell'ambiente di lavoro (Gazzetta Ufficiale polacca 2014, n. 817)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,4 mg/m3	
	Breve termine	0,8 mg/m3	

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto	Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).
Protezione della pelle	
- Protezione delle mani	Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici.
- Altro	Applicabile soltanto per gli impianti industriali. Usare indumenti protettivi adatti.
Protezione respiratoria	Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.
Pericoli termici	Indossare opportuni indumenti termoprotettivi, quando necessario.
Misure d'igiene	Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.
Controlli dell'esposizione ambientale	Non conosciuto.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto	
Stato fisico	Liquido.
Forma	Panna.
Colore	Non conosciuto.
Odore	Non conosciuto.
Soglia olfattiva	Non conosciuto.
pH	2,5 - 3,1
Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.

10.4. Condizioni da evitare Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.

10.5. Materiali incompatibili Forti agenti ossidanti.

10.6. Prodotti di decomposizione pericolosi Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.

Informazioni sulle vie probabili di esposizione

Inalazione L'inalazione prolungata può essere nociva.

Cutanea Non sono previsti effetti nocivi dovuti al contatto con la pelle.

Contatto con gli occhi Provoca grave irritazione oculare.

Ingestione In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.

Sintomi Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta Non conosciuto.

Pericolo in caso di aspirazione A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze Nessuna informazione disponibile.

Altre informazioni The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".

Componenti		Specie	Risultati del test
PEROSSIDO DI IDROGENO (CAS 7722-84-1)			
Acquatico			
Acuto			
Alga	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Altro	EC50	Fanghi attivi di acque nere prevalentemente domestiche	2,5 mg/l, 30 min OCSE 209
Crostacei	EC50	Daphnia pulex (Pulce d'acqua)	2,4 mg/l, 48 h
Pesci	LC50	Pimephales promelas	16,4 mg/l, 96 h
Cronico			
Crostacei	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSIDO DI IDROGENO — 99 % OCSE 209
Risultato: Rapidamente biodegradabile

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow) Non conosciuto.

12.4. Mobilità nel suolo Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB	Non è una sostanza o miscela PBT o vPvB.
12.6. Altri effetti avversi	Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.
12.7. Altre informazioni	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui	Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).
Imballaggi contaminati	Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.
Codice Europeo dei Rifiuti	Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.
Metodi di smaltimento/informazioni	Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.
Precauzioni particolari	Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

PEROSSIDO DI IDROGENO (CAS 7722-84-1)

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H271 Può provocare un incendio o un'esplosione; molto comburente. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H332 Nocivo se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione: Tipi di materiale COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT 20 VOLUME PREMIUM DEVELOPER

鉴别的其他方法

SDS编号 00-26-0000017

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 严重眼睛损伤/眼睛刺激性 类别 2A

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 警告

危险性说明 造成严重眼刺激。

防范说明

预防措施 作业后彻底清洗。 戴防护眼罩/防护面具。

事故响应 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如仍觉眼刺激：求医/就诊。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
矿物油		8042-47-5	6.5
过氧化氢		7722-84-1	6.02

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触	立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 如仍觉眼刺激：求医/就诊。
经口	漱口。 如症状出现，就医。
最重要的症状/影响，急性和延迟性	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。
指明任何需要立即就医或特殊治疗的情况	提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。
一般信息	务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	避免接触到眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	PEL-常期暴露极限	5 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	PEL-常期暴露极限	1.4 mg/m3	
		1 ppm	

美国ACGIH阈限值

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	可吸入组分。
过氧化氢 (CAS 7722-84-1)	TWA	1 ppm	

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

生物限值	没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色 无资料。

气味 无资料。

气味阈值 无资料。

pH 值 2.5 - 3.1

熔点/凝固点 无资料。

初始沸点和沸程 > 100 ° C (> 212 ° F)

闪点 > 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法

蒸发速率 无资料。

易燃性（固体，气体） 不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

黏度 无资料。

其他信息

爆炸特性 不具有爆炸性。

氧化特性 没有氧化性。

10. 稳定性和反应性

反应性 产品在正常的使用、储存和运输条件下是稳定的和非活性的。

化学稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 接触禁配物。

禁配物 强氧化剂。

危险的分解产物 没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	持续的吸入可能是有害的。
皮肤接触	预计没有因皮肤接触导致的任何有害影响。
眼睛接触	造成严重眼刺激。
经口	预计较低的食入危害。
与物理,化学和毒物学特性有关的症状	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

毒理学效应信息

急性毒性 未知。

产品	物种	试验结果
PULP RIOT 20 VOLUME PREMIUM DEVELOPER		
急性的		
吸入		
蒸气		
ATEmix		182.7 mg/l
经口		
ATEmix		10560 mg/kg

经皮肤		
LD50	兔子	> 2000 mg/kg OECD 402

皮肤腐蚀/刺激 由于部分或完全缺乏数据，不可能进行分类。

刺激性腐蚀性 - 皮肤

矿物油	OECD 404 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 404, 35% ≥ C < 50% 结果: 刺激性的 物种: 兔子 OECD 404, C ≥ 50% 结果: 腐蚀性的 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼刺激。

刺激性腐蚀性 - 眼睛

矿物油	OECD 405 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 405, 5% ≥ C < 8% 结果: 刺激性的 物种: 兔子 OECD 405, C ≥ 8% 结果: 腐蚀性的 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物

矿物油	OECD 406 结果: Not Sensitizing 物种: 豚鼠
过氧化氢	结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 由于部分或完全缺乏数据，不可能进行分类。

突变性

矿物油	结果: 离体试验未见诱变效应
过氧化氢	结果: 离体试验表明有在活体试验中未观察到的诱变效应。

致癌性 尚不能确定对人有致癌作用。 由于部分或完全缺乏数据，不可能进行分类。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

矿物油 (CAS 8042-47-5)	3 尚不能确定对人有致癌作用。
过氧化氢 (CAS 7722-84-1)	3 尚不能确定对人有致癌作用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 由于部分或完全缺乏数据，不可能进行分类。

发育效应

矿物油	> 5000 mg/kg bw/d OECD 414, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

矿物油	>= 2000 mg/kg bw/d OECD 415, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 由于部分或完全缺乏数据，不可能进行分类。

过氧化氢	0, C ≥ 35% 结果: 刺激性的

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

矿物油	> 2000 mg/kg bw/d OECD 411, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D > 50 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D >= 1200 mg/kg bw/d OECD 453, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 2 年
过氧化氢	2.9 mg/L air OECD 412, 吸入 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D

特定目标器官系统毒性－重复接触

过氧化氢

26 mg/kg bw/d OECD 408, 经口
结果: NOAEL (未观察到有害效果的水平)
物种: 小鼠
测试时间: 90 D

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
矿物油 (CAS 8042-47-5)			
水生的			
急性的			
甲壳纲动物	EL50	水蚤	> 100 mg/l, 48 h OECD 202
藻类	无可观察到的效应剂量（NOEL）	近头状伪蹄形藻	> 100 mg/l, 72 h OECD 201
鱼	LL50	虹鳟鱼	> 100 mg/l, 96 h OECD 203
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	10 mg/l, 21 D OECD 211
过氧化氢 (CAS 7722-84-1)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	2.5 mg/l, 30 最小 OECD 209
甲壳纲动物	EC50	Daphnia pulex (水蚤)	2.4 mg/l, 48 h
藻类	EC50	普通小球藻	2.5 mg/l, 72 h OECD 201
鱼	LC50	呆鲦鱼	16.4 mg/l, 96 h
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	0.63 mg/l, 21 D ASTM E 1193-97

持久性和降解性

生物降解性

降解百分率（好氧生物降解）

矿物油

31 % OECD 301 F
结果: 不容易生物降解

过氧化氢

99 % OECD 209
结果: 易生物降解

潜在的生物累积性

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

不作为危险货物运输

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT 30 VOLUME PREMIUM DEVELOPER**

Other means of identification

SDS number 50-26-0000008

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards	Oxidizing liquids	Category 3
Health hazards	Serious eye damage/eye irritation	Category 1
OSHA defined hazards	Not classified.	

Label elements

Signal word Danger

Hazard statement May intensify fire; oxidizer. Causes serious eye damage.

Precautionary statement

Prevention Keep away from heat. Keep/Store away from clothing and other combustible materials. Take any precaution to avoid mixing with combustibles. Wear protective gloves/eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. In case of fire: Use appropriate media to extinguish.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
HYDROGEN PEROXIDE		7722-84-1	9.02
MINERAL OIL		8042-47-5	6.5

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	If on clothing: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. Contact with combustible material may cause fire. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	May intensify fire; oxidizer. Contact with combustible material may cause fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water. Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 2.5 - 3

Melting point/freezing point Not available.

Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C)
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.

10. Stability and reactivity

Reactivity	Greatly increases the burning rate of combustible materials.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Combustible material. Reducing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig

Skin sensitization

HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
HYDROGEN PEROXIDE	2.9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97
MINERAL OIL (CAS 8042-47-5)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code This product is ignitable (D001) RCRA hazardous wastes when intended for disposal.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Special hazards: OX

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Revision information This document has undergone significant changes and should be reviewed in its entirety.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT 30 VOLUME PREMIUM DEVELOPER
Synonyms	None.
SDS number	50-26-0000008
Product code	F0000888V01
Issue date	12-02-2020
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards		
Oxidizing liquids	Category 3	H272 - May intensify fire; oxidizer.
Health hazards		
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.

Hazard summary May intensify fire; oxidizer. Causes serious eye damage. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: HYDROGEN PEROXIDE

Hazard pictograms

Signal word Danger

Hazard statements

H272	May intensify fire; oxidizer.
H318	Causes serious eye damage.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P220	Keep away from clothing and other combustible materials.
P260	Do not breathe vapor.
P280	Wear protective gloves/protective clothing/eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P370 + P378	In case of fire: Use appropriate media to extinguish.

Storage Store away from incompatible materials.

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 9,82% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 9,82% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
HYDROGEN PEROXIDE	9,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Classification:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Take off all contaminated clothing immediately. Contact with combustible material may cause fire. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact If on clothing: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards May intensify fire; oxidizer. Contact with combustible material may cause fire.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures In case of fire and/or explosion do not breathe fumes. In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not breathe vapor. Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
HYDROGEN PEROXIDE (CAS 7722-84-1)	VME	1,5 mg/m3
Regulatory status: Indicative limit (VL)		
		1 ppm
Regulatory status: Indicative limit (VL)		

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	AGW	5 mg/m3	Respirable fraction.
STEARYL ALCOHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	STEL	0,8 mg/m3	
	TWA	0,4 mg/m3	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield.
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable.
- Other	Applicable for industrial settings only. Wear suitable protective clothing.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	2,5 - 3
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C)
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	Keep away from combustible material. Greatly increases the burning rate of combustible materials.
10.2. Chemical stability	Material is stable under normal conditions.

10.3. Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.

10.5. Incompatible materials Combustible material. Reducing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact No adverse effects due to skin contact are expected.

Eye contact Causes serious eye damage.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 30 VOLUME PREMIUM DEVELOPER		
Acute		
Inhalation		
Vapor		
ATEmix		122 mg/l
Oral		
ATEmix		7691 mg/kg

Components	Species	Test Results

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE	2,9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2,4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16,4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2,5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
12.7. Additional information	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

HYDROGEN PEROXIDE (CAS 7722-84-1)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H271 May cause fire or explosion; strong oxidizer. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H332 Harmful if inhaled. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT 30 VOLUME PREMIUM DEVELOPER
Synonyme	Keine.
SDS-Nummer	50-26-0000008
Produktcode	F0000888V01
Ausgabedatum	02-Dezember-2020
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Körperpflegeprodukt zur kosmetischen Verwendung.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Kontaktperson

Firmenname	L'ORÉAL SA
Anschrift	14, rue royale 75008 - Paris Frankreich
Telefonnummer	+1 732 499 2745
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com

1.4. Notrufnummer

Frankreich Nationaler Giftnotruf	ORFILA Nummer (INRS): + 33 (0) 1 45 42 59 59 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)
INFOTRAC	+1 352-323-3500 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Verordnung 1272/2008 in der geänderten Fassung

Physikalische Gefahren		
Oxidierende Flüssigkeiten	Kategorie 3	H272 - Kann Brand verstärken; Oxidationsmittel.
Gesundheitsgefahren		
Schwere Augenschädigung/Augenreizung	Kategorie 1	H318 - Verursacht schwere Augenschäden.

Gefahrenübersicht Kann Brand verstärken; Oxidationsmittel. Verursacht schwere Augenschäden. Die Exposition am Arbeitsplatz gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Enthält: WASSERSTOFFPEROXID

Gefahrenpiktogramme

Signalwort Gefahr

Gefahrenhinweise

H272	Kann Brand verstärken; Oxidationsmittel.
H318	Verursacht schwere Augenschäden.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.
P210	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Nicht rauchen.
P220	Von Kleidung und anderen brennbaren Materialien fernhalten.
P260	Dämpfe nicht einatmen.
P280	Schutzhandschuhe/Schutzkleidung/Augenschutz/Gesichtsschutz tragen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.
P305 + P351 + P338	BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Eventuell vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
P310	Sofort GIFTINFORMATIONSZENTRUM/Arzt/anrufen.
P370 + P378	Bei Brand: Geeignetes Medium zum Löschen verwenden.

Lagerung Nicht in der Nähe von inkompatiblen Materialien lagern.

Entsorgung

P501 Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.

Zusätzliche Angaben auf dem Etikett 9,82 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 9,82 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.

2.3. Sonstige Gefahren Kein PBT- oder vPvB-Gemisch oder Stoff.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Allgemeine Angaben

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
WASSERSTOFFPEROXID	9,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Einstufung:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Beschmutzte, getränkte Kleidung sofort ausziehen. Feuergefahr bei Berührung mit brennbaren Stoffen. Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.
Kontaminierte Kleidung vor erneutem Tragen waschen.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.

Hautkontakt Bei Berührung mit der Kleidung: Vor Ablegen der Kleidung kontaminierte Kleidung und Haut sofort mit reichlich Wasser abwaschen. Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Augenkontakt Augen sofort für 15 Minuten mit reichlich Wasser ausspülen. Ggf. Kontaktlinsen herausnehmen, wenn dies einfach möglich ist. Mit dem Auswaschen fortfahren. Sofort ärztliche Hilfe hinzuziehen!

Verschlucken Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.

4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen. Kann zu dauerhaften Augenschäden einschließlich Blindheit führen.

4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung

Allgemeine Unterstützungsmaßnahmen und symptomatische Behandlung sind angezeigt. Betroffene Person unter Beobachtung halten. Die Symptome können verzögert auftreten.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren

Kann Brand verstärken; Oxidationsmittel. Feuergefahr bei Berührung mit brennbaren Stoffen.

5.1. Löschmittel

Geeignete Löschmittel

Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO_2).

Ungeeignete Löschmittel

Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.

5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren

Erhöht den Abbrand brennbarer Materialien stark. Container können explodieren, wenn sie extremer Hitze ausgesetzt werden. Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung

Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.

Besondere Verfahren zur Brandbekämpfung

Explosions- und Brandgase nicht einatmen. Bei Brand: Undichtigkeit beseitigen, wenn gefahrlos möglich. Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.

Besondere Löschhinweise

Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal

Unnötiges Personal fernhalten. Personen fernhalten und auf windzugewandter Seite bleiben. Von Kleidung und anderen brennbaren Materialien fernhalten. Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen. Dämpfe nicht einatmen. Beschädigte Behälter oder ausgetretenes Material nur berühren, wenn geeignete Schutzkleidung getragen wird. Für angemessene Lüftung sorgen. Wenn größere Mengen verschütteten Materials nicht eingedämmt werden können, sollen die lokalen Behörden benachrichtigt werden. Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB.

Einsatzkräfte

Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, wie in Abschnitt 8 im SDB empfohlen.

6.2. Umweltschutzmaßnahmen

Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.

6.3. Methoden und Material für Rückhaltung und Reinigung

Brennbare Stoffe (Holz, Papier, Öl usw.) von dem ausgetreten Material fernhalten. Lüften Sie den kontaminierten Bereich. Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen.

Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Ein nichtbrennbares Material wie z.B. Vermiculit, Sand oder Erde benutzen, um das Produkt aufzusaugen und es für die spätere Entsorgung in einem Behälter zu lagern. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen.

Kleine Austrittsmengen: Mit Erde, Sand oder anderem nicht brennbaren Material absorbieren und zur späteren Entsorgung in Behälter geben. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen.

Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.

6.4. Verweis auf andere Abschnitte

Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB. Für Abfallentsorgung siehe Abschnitt 13 im SDB.

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung

Vor Hitze schützen. Mischen mit brennbaren Stoffen unbedingt verhindern. Von Kleidung und anderen brennbaren Materialien fernhalten. Dämpfe nicht einatmen. Dieses Material darf nicht mit den Augen in Berührung kommen. Längeren Kontakt vermeiden. Für ausreichend Belüftung sorgen. Geeignete persönliche Schutzausrüstung tragen. Anerkannte industrielle Hygienemaßnahmen beachten.

7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten

Vor Hitze schützen. An einem kühlen, trockenen Ort geschützt vor Sonnenlicht lagern. In einem dicht verschlossenen Behälter aufbewahren. An einem gut belüfteten Ort aufbewahren. Nicht in der Nähe von brennbaren Stoffen lagern. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des SDB's).

7.3. Spezifische Endanwendungen

Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten	Typ	Wert
WASSERSTOFFPEROXID (CAS 7722-84-1)	VME	1,5 mg/m3
Gesetzliche Regelung:	Richtgrenzwert (VL)	
		1 ppm
Gesetzliche Regelung:	Richtgrenzwert (VL)	

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Alveolengängige Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	AGW	5 mg/m3	Alveolengängige Fraktion.
SEARYLALKHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1 ppm	

Verordnung des Ministers für Arbeit und Sozialpolitik vom 6. Juni 2014 zu den maximal erlaubten Konzentrationen und Intensitäten schädlicher Gesundheitsfaktoren am Arbeitsplatz, Gesetzblatt 2014, Punkt 817

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,4 mg/m3	
	Überschreitungsfaktor für Spitzenbegrenzung	0,8 mg/m3	

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren	Standardüberwachungsverfahren befolgen.
Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL)	Steht nicht zur Verfügung.
Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs)	Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen	Gute allgemeine Lüftung. Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten. Augenduschstation bereitstellen.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben	Vorgeschriebene persönliche Schutzausrüstung verwenden. Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.
Augen-/Gesichtsschutz	Nur für ein industrielles Umfeld anwendbar. Sicherheitsbrille mit Seitenschutz (oder Korbbrille) und Gesichtsschutz tragen.
Hautschutz	
- Handschutz	Nur für ein industrielles Umfeld anwendbar. Geeignete chemikalienbeständige Handschuhe tragen. Vorsicht, die Flüssigkeit kann durch das Material dringen. Handschuhe deshalb häufig wechseln.
- Sonstige Schutzmaßnahmen	Nur für ein industrielles Umfeld anwendbar. Bei der Arbeit geeignete Schutzkleidung tragen.
Atemschutz	Nur für ein industrielles Umfeld anwendbar. Bei unzureichender Belüftung Atemschutzgerät anlegen.
Thermische Gefahren	Geeignete Hitzeschutzkleidung tragen, falls nötig.
Hygienemaßnahmen	Nicht in Kontakt mit Kleidung und anderen brennbaren Materialien gelangen lassen. Beschmutzte, getränkte Kleidung sofort ablegen und waschen. Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.
Begrenzung und Überwachung der Umweltexposition	Steht nicht zur Verfügung.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen	
Aggregatzustand	Flüssigkeit.
Form	Sahne.
Farbe	Steht nicht zur Verfügung.
Geruch	Steht nicht zur Verfügung.
Geruchsschwelle	Steht nicht zur Verfügung.
pH-Wert	2,5 - 3
Schmelzpunkt/Gefrierpunkt	Steht nicht zur Verfügung.
Siedebeginn und Siedebereich	> 100 °C (> 212 °F)
Flammpunkt	> 100,0 °C (> 212,0 °F)
Verdampfungsgeschwindigkeit	Steht nicht zur Verfügung.
Entzündbarkeit (fest, gasförmig)	Nicht anwendbar.
Obere/untere Entzündbarkeits- oder Explosionsgrenzen	
Untere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Obere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Dampfdruck	Steht nicht zur Verfügung.
Dampfdichte	Steht nicht zur Verfügung.

Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Kann Brand verstärken; Oxidationsmittel.
9.2. Sonstige Angaben	Keine relevanten weiteren Daten verfügbar.

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Von brennbaren Stoffen fernhalten. Erhöht den Abbrand brennbarer Materialien stark.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Kontakt mit unverträglichen Materialien vermeiden.
10.5. Unverträgliche Materialien	Brennbarer Stoff. Reduktionsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben	Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.

Angaben zu wahrscheinlichen Expositionswegen

Einatmen	Anhaltendes Einatmen kann schädlich sein.
Hautkontakt	Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Augenkontakt	Verursacht schwere Augenschäden.
Verschlucken	Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.
Symptome	Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen. Kann zu dauerhaften Augenschäden einschließlich Blindheit führen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität Nicht bekannt.

LC0	Ratte	170 mg/m3, 4 h OECD 403
Oral		
LD50	Ratte	693,7 mg/kg OECD 401

Ätz-/Reizwirkung auf die Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. Bei Hautkontakt werden keine Beeinträchtigungen erwartet.

Reizung Korrosion - Haut

WASSERSTOFFPEROXID	OECD 404, 35% ≥ C < 50% Ergebnis: reizend Spezies: Kaninchen OECD 404, C ≥ 50% Ergebnis: Korrosiv Spezies: Kaninchen

Schwere Augenschädigung/Augenreizung Verursacht schwere Augenschäden.

Reizung Korrosion - Auge

WASSERSTOFFPEROXID	OECD 405, 5% ≥ C < 8% Ergebnis: reizend Spezies: Kaninchen OECD 405, C ≥ 8% Ergebnis: Korrosiv Spezies: Kaninchen

Sensibilisierung der Atemwege Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut

WASSERSTOFFPEROXID	Ergebnis: Nicht sensibilisierend Spezies: Meerschweinchen

Keimzell-Mutagenität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Mutagenität

WASSERSTOFFPEROXID	Ergebnis: In-vitro-Tests zeigten erbgutverändernde Wirkungen, die bei in-vivo-Tests nicht beobachtet wurden.

Karzinogenität Nicht einstufbar bezüglich der Kanzerogenität für den Menschen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Ungarn. 26/2000 EüM Verordnung zum Schutz vor und Vermeidung von Gefahren im Hinblick auf die Exposition gegenüber Karzinogenen am Arbeitsplatz (in der geänderten Fassung)

Nicht eingetragen.

IARC Monographs. Overall Evaluation of Carcinogenicity (Gesamtbewertung der Karzinogenität)

WASSERSTOFFPEROXID (CAS 7722-84-1)	3 Hinsichtlich der Karzinogenität für den Menschen nicht einstufbar.

Reproduktionstoxizität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Spezifische Zielorgan-Toxizität bei einmaliger Exposition Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID	0, C ≥ 35% Ergebnis: reizend

Spezifische Zielorgan-Toxizität bei wiederholter Exposition Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID	2,9 mg/L air OECD 412, Einatmen Ergebnis: DSENO Spezies: Ratte Testdauer: 28 d 26 mg/kg bw/d OECD 408, Oral Ergebnis: DSENO Spezies: Maus Testdauer: 90 d

Aspirationsgefahr Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Gemischbezogene gegenüber stoffbezogenen Angaben Keine Information verfügbar.

Sonstige Angaben Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.

Komponenten		Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)			
Wasser-			
Akut			
Algen	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Andere	EC50	Belebtschlamm von überwiegend kommunalem Abwasser	2,5 mg/l, 30 min OECD 209
Crustacea	EC50	Daphnia pulex (Wasserfloh)	2,4 mg/l, 48 h
Fische	LC50	Pimephales promelas	16,4 mg/l, 96 h
Chronisch			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenz und Abbaubarkeit

Biologische Abbaubarkeit

Prozentualer Abbau (aerober biologischer Abbau)

WASSERSTOFFPEROXID — 99 % OECD 209
Ergebnis: Leicht biologisch abbaubar

12.3. Bioakkumulationspotenzial

Verteilungskoeffizient n-Oktanol/Wasser (log Kow) Steht nicht zur Verfügung.

12.4. Mobilität im Boden Keine Daten verfügbar.

12.5. Ergebnisse der PBT- und vPvB-Beurteilung Kein PBT- oder vPvB-Gemisch oder Stoff.

12.6. Andere schädliche Wirkungen Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

12.7. Zusätzliche Angaben Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).

Kontaminiertes Verpackungsmaterial Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.

EU Abfallcode Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.

Entsorgungsmethoden / Informationen Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen. Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.

Besondere Vorsichtsmaßnahmen Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

WASSERSTOFFPEROXID (CAS 7722-84-1)

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Beim Arbeiten mit Chemikalien sind die nationalen Vorschriften gemäß der Richtlinie 98/24/EWG in der geänderten Form zu befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	H271 Kann Brand oder Explosion verursachen; starkes Oxidationsmittel. H302 Gesundheitsschädlich bei Verschlucken. H314 Verursacht schwere Verätzungen der Haut und schwere Augenschäden. H332 Gesundheitsschädlich bei Einatmen. H335 Kann die Atemwege reizen. H412 Schädlich für Wasserorganismen, mit langfristiger Wirkung.
Angaben zur Revision	Produkt- und Firmenidentifikation : Produkt- und Firmenidentifikation - L'Oreal Zusammensetzung / Angaben zu Bestandteilen: Bestandteile Physikalische und chemische Eigenschaften. Mutiple Eigenschaften
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

SECCIÓN 1. Identificación de la sustancia o la mezcla y de la sociedad o la empresa

1.1. Identificador del producto

Nombre comercial o denominación de la mezcla	PULP RIOT 30 VOLUME PREMIUM DEVELOPER
Sinónimos	Ninguno.
Número de FDS	50-26-0000008
Código de producto	F0000888V01
Fecha de publicación	02-Diciembre-2020
Número de la versión	01

1.2. Usos pertinentes identificados de la sustancia o de la mezcla y usos desaconsejados

Usos identificados	Producto de cuidado personal para uso cosmético.
Usos desaconsejados	Ninguno conocido.

1.3. Datos del proveedor de la ficha de datos de seguridad

Persona de contacto

Nombre de la compañía	L'ORÉAL SA
Dirección	14, rue royale 75008 - Paris Francia
Número de teléfono	+1 732 499 2745
dirección electrónica	nacorpeuropesdsrequest@loreal.com

1.4. Teléfono de emergencia

Francia Centro nacional de control de intoxicaciones	Número ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)
INFOTRAC	+1 352-323-3500 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)

SECCIÓN 2. Identificación de los peligros

2.1. Clasificación de la sustancia o de la mezcla

La mezcla ha sido evaluada y/o sometida a ensayo para determinar sus peligros físicos y peligros para la salud y el medio ambiente, y la siguiente clasificación tiene aplicación.

Clasificación de acuerdo con el reglamento (CE) No. 1272/2008 con sus modificaciones ulteriores

Peligros físicos		
Líquidos comburentes	Categoría 3	H272 - Puede agravar un incendio; comburente.
Peligros para la salud		
Lesiones oculares graves/irritación ocular	Categoría 1	H318 - Provoca lesiones oculares graves.

Resumen de los peligros Puede agravar un incendio; comburente. Provoca lesiones oculares graves. La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos para la salud. Este es un producto de consumo para el cuidado, seguro para los consumidores si se utiliza siguiendo las instrucciones de la etiqueta. Al igual que con muchos productos de consumo, un pequeño número de personas puede sufrir reacciones como enrojecimiento, erupciones e hinchazón tras un contacto prolongado o repetido con la piel o con los ojos.

2.2. Elementos de la etiqueta

Etiquetado de conformidad con el Reglamento (CE) nº 1272/2008 tal como se modifica en el presente Reglamento

Contiene: PERÓXIDO DE HIDRÓGENO

Pictogramas de peligro

Palabra de advertencia Peligro

Indicaciones de peligro

H272	Puede agravar un incendio; comburente.
H318	Provoca lesiones oculares graves.

Consejos de prudencia

Prevención

P102	Mantener fuera del alcance de los niños.
P103	Leer la etiqueta antes del uso.
P210	Mantener alejado del calor, superficies calientes, chispas, llamas al descubierto y otras fuentes de ignición. No fumar.
P220	Mantener alejado de la ropa y otros materiales combustibles.
P260	No respirar el vapor.
P280	Llevar guantes/prendas/gafas/máscara de protección.

Respuesta

P101	Si se necesita consejo médico, tener a mano el envase o la etiqueta.
P305 + P351 + P338	EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado.
P310	Llamar inmediatamente a un CENTRO DE TOXICOLOGÍA/médico.
P370 + P378	En caso de incendio: Utilizar medios apropiados para apagarlo.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación

P501	Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Información suplementaria en la etiqueta La mezcla contiene un 9,82 % de componentes de toxicidad aguda para el medio ambiente acuático desconocida. La mezcla contiene un 9,82 % de componentes de toxicidad a largo plazo para el medio ambiente acuático desconocida.

2.3. Otros peligros No es una sustancia o mezcla PBT o MPMB.

SECCIÓN 3. Composición/información sobre los componentes

3.2. Mezclas

Información general

Denominación química	%	Número CAS / Número CE	Número de registro conforme a REACH	Número de índice	Notas
PERÓXIDO DE HIDRÓGENO	9,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Clasificación:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Lista de abreviaturas y símbolos que se pueden utilizar en lo anterior

#: A esta sustancia se aplican límites de exposición de la Unión en el lugar de trabajo.
M: Factor M
PBT: sustancia persistente, bioacumulativa y tĂłxica.
mPmB: sustancia muy persistente y muy bioacumulativa.
Todas las concentraciones están en porcentaje en peso salvo que el componente sea un gas. Las concentraciones de gas están en porcentaje en volumen.

Comentarios sobre los componentes El texto completo de todas las Frases H se ofrece en la Sección 16.

SECCIÓN 4. Primeros auxilios

Información general Quítese inmediatamente la ropa contaminada. Peligro de fuego en contacto con materias combustibles. Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.
Lavar las prendas contaminadas antes de volver a usarlas.

4.1. Descripción de los primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel En caso de contacto con la ropa: aclarar inmediatamente con agua abundante las prendas y la piel contaminadas antes de quitarse la ropa. Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Conseguir atención médica inmediatamente.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

4.2. Principales síntomas y efectos, agudos y retardados Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera.

4.3. Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente	Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.

SECCIÓN 5. Medidas de lucha contra incendios

Riesgos generales de incendio	Puede agravar un incendio; comburente. Peligro de fuego en contacto con materias combustibles.
5.1. Medios de extinción	
Medios de extinción apropiados	Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO_2).
Medios de extinción no apropiados	No utilice chorro de agua, pues extendería el fuego.
5.2. Peligros específicos derivados de la sustancia o la mezcla	Aumenta grandemente el ratio de combustión de los materiales combustibles. Los recipientes pueden explotar cuando se calientan. En caso de incendio se pueden formar gases nocivos.
5.3. Recomendaciones para el personal de lucha contra incendios	
Equipos de protección especial que debe llevar el personal de lucha contra incendios	Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.
Procedimientos especiales de lucha contra incendio	En caso de incendio y/o de explosión no respire los humos. En caso de incendio: Detener la fuga, si no hay peligro en hacerlo. Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.
Métodos específicos	Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

SECCIÓN 6. Medidas en caso de vertido accidental

6.1. Precauciones personales, equipo de protección y procedimientos de emergencia	
Para el personal que no forma parte de los servicios de emergencia	Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Mantener alejado de la ropa y otros materiales combustibles. Use equipo y ropa de protección apropiados durante la limpieza. No respirar el vapor. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.
Para el personal de emergencia	Mantenga el personal no necesario lejos. Utilizar las medidas de protección personal recomendadas en la sección 8 de la FDS.
6.2. Precauciones relativas al medio ambiente	No verter los residuos al desagüe, al suelo o las corrientes de agua.
6.3. Métodos y material de contención y de limpieza	Mantenga los materiales combustibles (madera, papel, petróleo, etc.) lejos del material derramado. Ventile el área contaminada. Use equipo y ropa de protección apropiados durante la limpieza. Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Usar un material no combustible como vermiculita, arena o tierra para absorber el producto y colocarlo en un recipiente para su eliminación posterior. Después de recuperar el producto, enjuague el área con agua. Derrames pequeños: Absorba con tierra, arena y otro material no combustible y transfiera a recipientes para su posterior eliminación. Limpie cuidadosamente la superficie para eliminar los restos de contaminación. Nunca devuelva el producto derramado al envase original para reutilizarlo.
6.4. Referencia a otras secciones	Consultar las medidas de protección personal en la sección 8 de la FDS. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

SECCIÓN 7. Manipulación y almacenamiento

7.1. Precauciones para una manipulación segura	Conservar alejado del calor. Tomar todas las precauciones necesarias para no mezclar con materias combustibles. Mantener alejado de la ropa y otros materiales combustibles. No respirar el vapor. No poner este material en contacto con los ojos. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.
7.2. Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades	Conservar alejado del calor. Guárdese en un lugar fresco y seco sin exposición a la luz solar directa. Almacenar en un recipiente herméticamente cerrado. Almacenar en un lugar bien ventilado. No almacenar cerca de materiales combustibles. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).
7.3. Usos específicos finales	No disponible.

SECCIÓN 8. Controles de exposición/protección individual

8.1. Parámetros de control

Límites de exposición profesional

Bélgica. Valores límite de exposición.

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Francia. Valores límite umbral (VLEP) para la exposición ocupacional a sustancias químicas en Francia, INRS ED 984

Componentes	Tipo	Valor
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	VME	1,5 mg/m³
Regulación: Indicative limit (VL)		
		1 ppm
Regulación: Indicative limit (VL)		

Alemania. Lista DFG MAK (límites de exposición ocupacional indicativos). Comisión Alemana de Investigación de los Peligros para la Salud de las Sustancias Químicas en el Entorno de Trabajo (DFG)

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción respirable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	0,71 mg/m³	
		0,5 ppm	

Alemania. TRGS 900, Valores límite del aire en el lugar de trabajo

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	AGW	5 mg/m³	Fracción respirable.
ALCOHOL ESTEARÍLICO (CAS 112-92-5)	AGW	224 mg/m³	
		20 ppm	

Italia. Límites de exposición ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1 ppm	

Ordinance of the Minister of Labour and Social Policy on 6 Junio 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	STEL	0,8 mg/m³	
	TWA	0,4 mg/m³	

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Métodos de seguimiento recomendados Seguir los procedimientos de monitorización estándar.

Niveles sin efecto derivado (DNEL) No disponible.

Concentraciones previstas sin efecto (PNECs) No disponible.

8.2. Controles de la exposición

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Información general Utilizar el equipo de protección individual obligatorio. El equipo de protección personal se elegirá de acuerdo con la norma CEN vigente y en colaboración con el suministrador de equipos de protección personal.

Protección de los ojos/la cara De aplicación solamente en entornos industriales. Use gafas de seguridad con cubiertas laterales y pantalla facial.

Protección de la piel

- Protección de las manos De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos. El líquido puede penetrar los guantes. Por eso, cámbiese con frecuencia los guantes.

- Otros De aplicación solamente en entornos industriales. Úsese indumentaria protectora adecuada.

Protección respiratoria De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.

Peligros térmicos Use ropa protectora térmica adecuada si resulta necesario.

Medidas de higiene Evite el contacto con la ropa y otros materiales combustibles. Quite y lave la ropa contaminada enseguida. Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

Controles de exposición medioambiental No disponible.

SECCIÓN 9. Propiedades físicas y químicas

9.1. Información sobre propiedades físicas y químicas básicas

Aspecto

Estado físico Líquido.

Forma Nata.

Color No disponible.

Olor No disponible.

Umbral olfativo No disponible.

pH 2,5 - 3

Punto de fusión/punto de congelación No disponible.

Punto inicial de ebullición e intervalo de ebullición > 100 °C (> 212 °F)

Punto de inflamación > 100,0 °C (> 212,0 °F)

Tasa de evaporación No disponible.

Inflamabilidad (sólido, gas) No aplicable.

Límites superior/inferior de inflamabilidad o de explosividad

Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Propiedades explosivas	No es explosivo.
Propiedades comburentes	Puede agravar un incendio; comburente.
9.2. Otros datos	No se dispone de información adicional pertinente.

SECCIÓN 10. Estabilidad y reactividad

10.1. Reactividad	Manténgase lejos de materias combustibles. Aumenta grandemente el ratio de combustión de los materiales combustibles.
10.2. Estabilidad química	El material es estable bajo condiciones normales.
10.3. Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
10.4. Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
10.5. Materiales incompatibles	Material combustible. Agentes reductores.
10.6. Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. Información toxicológica

Información general	La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos.

Información sobre posibles vías de exposición

Inhalación	La inhalación prolongada puede resultar nociva.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.
Contacto con los ojos	Provoca lesiones oculares graves.
Ingestión	Si se ingiere puede causar molestias. No obstante, no es probable que la ingestión constituya una vía primaria de exposición ocupacional.
Síntomas	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera.

11.1. Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba

Peligro por aspiración Debido a la falta total o parcial de datos, la clasificación no es posible.

Información sobre la mezcla en relación con la sustancia No hay información disponible.

Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 12. Información ecológica

12.1. Toxicidad A la vista de los datos disponibles, no se cumplen los criterios de clasificación de peligroso para el medio ambiente acuático.

Componentes		Especies	Resultados de la prueba
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)			
Acuático (a)			
Agudo			
Algas	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustáceos	EC50	Daphnia pulex (Daphnia pulex (vesikirppu))	2,4 mg/l, 48 h
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	2,5 mg/l, 30 mín OECD 209
Pez	LC50	Pimephales promelas	16,4 mg/l, 96 h
Crónico			
Crustáceos	NOEC	Dafnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

PERÓXIDO DE HIDRÓGENO 99 % OECD 209
Resultado: Fácilmente Biodegradable

12.3. Potencial de bioacumulación

Coeficiente de partición n-octanol/agua (log Kow) No disponible.

12.4. Movilidad en el suelo No hay datos disponibles.

12.5. Resultados de la valoración PBT y mPmB No es una sustancia o mezcla PBT o MPMB.

12.6. Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

12.7. Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 13. Consideraciones relativas a la eliminación

13.1. Métodos para el tratamiento de residuos

Restos de productos Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

Código europeo de residuos El código de Desecho debe ser atribuído de acuerdo entre el usuario, el productor y la compañía de eliminación de desechos.

Métodos de eliminación/información Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Precauciones especiales Elimine de acuerdo con todas las reglamentaciones aplicables.

SECCIÓN 15. Información reglamentaria

15.1. Reglamentación y legislación en materia de seguridad, salud y medio ambiente específicas para la sustancia o la mezcla

Normativa de la UE

Reglamento (CE) Nº 1005/2009 sobre las sustancias que agotan la capa de ozono, Anexos I y II, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 850/2004 sobre contaminantes orgánicos persistentes, Anexo I con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 1, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 2, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 3, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo V, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº 166/2006, Anexo II, Registro de emisiones y transferencias de contaminantes, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 1907/2006, REACH Artículo 59(10), Lista de candidatos en vigor publicada por la ECHA

No listado.

Autorizaciones

Reglamento (CE) no. 1907/2006 REACH, Anexo XIV Sustancias sujetas a autorización, con sus modificaciones ulteriores

No listado.

Restricciones de uso

Reglamento (CE) nº. 1907/2006, REACH Anexo XVII, Sustancias sujetas a restricciones de comercialización y uso con las enmiendas correspondientes

No listado.

Directiva 2004/37/CE: relativa a la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes carcinógenos o mutágenos durante el trabajo, con las enmiendas correspondientes

No listado.

Otras normas de la UE

Directiva 2012/18/UE relativa a los riesgos inherentes a los accidentes graves en los que intervengan sustancias peligrosas, con las enmiendas correspondientes

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)

Otras reglamentaciones	Este producto ha sido clasificado y etiquetado con arreglo al Reglamento (CE) nº 1272/2008 (Reglamento CLP) con sus modificaciones ulteriores y con arreglo. Esta ficha de datos de seguridad cumple los requisitos del Reglamento (CE) Nº 1907/2006, con las enmiendas correspondientes.
Normativa nacional	Observar las normativas nacionales relativas al trabajo con agentes químicos, de conformidad con la Directiva 98/24/CE con las enmiendas correspondientes.
15.2. Evaluación de la seguridad química	No se ha realizado ninguna evaluación de la seguridad química.

SECCIÓN 16. Otra información

Lista de abreviaturas	No disponible.
Referencias	No disponible.
Información sobre el método de evaluación usado para la clasificación de la mezcla	La clasificación de los peligros para la salud y el medio ambiente se ha obtenido usando una combinación de métodos de cálculo y, en su caso, datos de ensayo.
Texto completo de cualesquiera frases H para las que no se incluya el enunciado completo en las secciones 2 a 15	H271 Puede provocar un incendio o una explosión; muy comburente. H302 Nocivo en caso de ingestión. H314 Provoca quemaduras graves en la piel y lesiones oculares graves. H332 Nocivo en caso de inhalación. H335 Puede irritar las vías respiratorias. H412 Nocivo para los organismos acuáticos, con efectos nocivos duraderos.
Información de revisión	Identificación del producto y de la compañía : L'Oreal Transport COMPOSICION/INFORMACION DE LOS COMPONENTES: Ingredientes Propiedades físicas y químicas: Múltiples propiedades
Información sobre formación	Siga las instrucciones de entrenamiento al manejar este material.
Cláusula de exención de responsabilidad	La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT 30 VOLUME PREMIUM DEVELOPER**

Autres moyens d'identification

Numéro de la FDS 50-26-0000008

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques	Liquides comburants	Catégorie 3
Dangers pour la santé	Lésions oculaires graves/irritation oculaire	Catégorie 1

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Peut aggraver un incendie; comburant. Provoque de graves lésions des yeux.

Conseil de prudence

Prévention Conserver à l'écart de la chaleur. Tenir et entreposer loin des vêtements et autres matières combustibles. Prendre toutes précautions pour éviter de mélanger avec des matières combustibles. Porter des gants de protection/un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin. En cas d'incendie : utiliser un agent d'extinction approprié.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
PEROXYDE DHYDROGENE (EAU OXYGENEE)		7722-84-1	9.02

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
HUILE MINÉRALE		8042-47-5	6.5

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau En cas de contact avec les vêtements : Rincer immédiatement et abondamment avec de l'eau les vêtements contaminés et la peau avant de les enlever. Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales Enlever immédiatement tous les vêtements contaminés. Favorise l'inflammation des matières combustibles. S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.
Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Augmente grandement la vitesse de combustion des produits combustibles. Les récipients peuvent exploser sous l'effet de la chaleur. Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies En cas d'incendie et/ou d'explosion ne pas respirer les fumées. En cas d'incendie : Obturer la fuite si cela peut se faire sans danger. Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Peut aggraver un incendie; comburant. Favorise l'inflammation des matières combustibles.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Tenir à l'écart des vêtements et d'autres matières combustibles. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Tenir les matières combustibles (bois, papier, huile, etc.) à l'écart du produit déversé. Ventiler la zone contaminée. Porter un équipement et des vêtements de protection appropriés durant le nettoyage.

Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Utiliser un matériau non combustible comme la vermiculite, le sable ou la terre pour absorber le produit et le mettre dans un récipient pour élimination ultérieure. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Absorber avec de la terre, du sable ou une autre matière non combustible et transférer dans des contenants pour une élimination ultérieure. Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Tenir à l'écart de la chaleur. Prendre toutes précautions pour éviter de mélanger avec des matières combustibles. Tenir à l'écart des vêtements et d'autres matières combustibles. Éviter tout contact de ce produit avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Tenir à l'écart de la chaleur. Stocker dans un endroit frais et sec, à l'écart de la lumière solaire directe. Stocker dans des récipients bien fermés. Stocker dans un endroit bien ventilé. Ne pas stocker à proximité de matières combustibles. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	PEL (limite d'exposition admissible)	1.4 mg/m3	
		1 ppm	

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	TWA	5 mg/m3	Fraction inhalable.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1 ppm	

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

Valeurs biologiques limites	Aucune limite d’exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques) et un écran facial.
Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques Il faut savoir que le liquide peut pénétrer les gants. Il est conseillé de changer souvent.
Autre	Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Éviter tout contact avec des vêtements ou d’autres matières combustibles. Retirer et laver rapidement les vêtements contaminés. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Forme	Crème.
Couleur	Non disponible.
Odeur	Non disponible.
Seuil olfactif	Non disponible.
pH	2.5 - 3
Point de fusion et point de congélation	Non disponible.
Point initial d’ébullition et domaine d’ébullition	> 100 °C (> 212 °F)
Point d’éclair	> 100.0 °C (> 212.0 °F)
Taux d’évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d’inflammabilité ou d’explosibilité	
Limites d’inflammabilité - inférieure (%)	Non disponible.
Limites d’inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.

Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.

Autres informations

Propriétés explosives	Non explosif.
Propriétés comburantes	Peut aggraver un incendie; comburant.

10. Stabilité et réactivité

Réactivité	Augmente grandement la vitesse de combustion des produits combustibles.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Matières combustibles. Agents réducteurs.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Code des déchets dangereux Ce produit est inflammable (D001), utilisez le RCRA matières dangereuses lors de l'élimination.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 30 VOLUME PREMIUM DEVELOPER
Sinonimi	Nessuno.
Numero SDS	50-26-0000008
Codice prodotto	F0000888V01
Data di pubblicazione	10-Settembre-2021
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

CAV "Osp. Pediatrico Bambino Gesù" - 06 68593726

Az. Osp. Univ. Foggia - 0881-732326

Az. Osp. "a. Cardarelli" - 081-7472870

CAV Policlinico "Umberto I" - 06-49978000

CAV Policlinio "A. Gemelli" - 06-3054343

Az. Osp. "Careggi" U.O. Tossicologia - 055-7947819

CAV C.N.I.T. di Pavia - 0382-24444

Osp. Niguarda Ca' Granda - 02-66101029

Azienda Ospedaliera Papa Giovanni XXII - 800883300

(Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli fisici		
Liquidi comburenti	Categoria 3	H272 - Può aggravare un incendio; comburente.
Pericoli per la salute		
Gravi danni oculari/irritazione oculare	Categoria 1	H318 - Provoca gravi lesioni oculari.

Riepilogo dei pericoli

Può aggravare un incendio; comburente. Provoca gravi lesioni oculari. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: PEROSSIDO DI IDROGENO

Pittogrammi di pericolo

Avvertenza Pericolo

Indicazioni di pericolo

H272 Può aggravare un incendio; comburente.
H318 Provoca gravi lesioni oculari.

Consigli di prudenza

Prevenzione

P102 Tenere fuori dalla portata dei bambini.
P103 Leggere l'etichetta prima dell'uso.
P210 Tenere lontano da fonti di calore, superfici calde, scintille, fiamme libere o altre fonti di accensione. Non fumare.
P220 Tenere lontano da indumenti e altri materiali combustibili.
P260 Non respirare il vapore.
P280 Indossare guanti/indumenti protettivi/Proteggere gli occhi/il viso.

Reazione

P101 In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P305 + P351 + P338 IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P310 Contattare immediatamente un CENTRO ANTIVELENI/un medico.
P370 + P378 In caso di incendio: estinguere con mezzi adeguati.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento

P501 Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSIDO DI IDROGENO	9,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classificazione: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Togliere immediatamente tutti gli indumenti contaminati. Può provocare l'accensione di materie combustibili. Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.
Lavare gli indumenti contaminati prima di indossarli nuovamente.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea	In caso di contatto con gli indumenti: sciacquare immediatamente e abbondantemente gli indumenti contaminati e la pelle prima di togliersi gli indumenti. Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.
Contatto con gli occhi	Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Consultare immediatamente un medico.
Ingestione	Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.
4.2. Principali sintomi ed effetti, sia acuti che ritardati	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.
4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali	Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio	Può aggravare un incendio; comburente. Può provocare l'accensione di materie combustibili.
5.1. Mezzi di estinzione	
Mezzi di estinzione idonei	Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO_2).
Mezzi di estinzione non idonei	Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.
5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela	Aumenta notevolmente la velocità di combustione dei materiali. I contenitori possono esplodere se riscaldati. In caso d'incendio possono crearsi gas nocivi.
5.3. Raccomandazioni per gli addetti all'estinzione degli incendi	
Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi	In caso d'incendio indossare autorespiratore e indumenti protettivi completi.
Procedure speciali per l'estinzione degli incendi	In caso d'incendio e/o esplosione non respirare i fumi. In caso di incendio: bloccare la perdita se non c'è pericolo. Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.
Metodi specifici	Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente	Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Tenere lontano da indumenti e altri materiali combustibili. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non respirare il vapore. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.
Per chi interviene direttamente	Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS
6.2. Precauzioni ambientali	Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.
6.3. Metodi e materiali per il contenimento e per la bonifica	Tenere i materiali combustibili (legno, carta, olio, ecc.) lontano dal materiale fuoriuscito. Ventilare l'area contaminata. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Utilizzare un materiale non combustibile (ad esempio vermiculite, sabbia o terra) per assorbire il prodotto e riporlo in un contenitore per il successivo smaltimento. Una volta recuperato il prodotto, sciacquare l'area con acqua. Versamenti di piccole dimensioni: Assorbire/raccogliere con terra, sabbia o altro materiale non infiammabile e trasferire in contenitori per il successivo smaltimento. Pulire completamente la superficie per rimuovere completamente la contaminazione residua. Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo
6.4. Riferimento ad altre sezioni	Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura	Conservare lontano dal calore. Prendere ogni precauzione per evitare di miscelare con sostanze combustibili. Tenere lontano da indumenti e altri materiali combustibili. Non respirare il vapore. Non permettere che questo materiale vada a contatto con gli occhi. Evitare l'esposizione prolungata. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare lontano dal calore. Conservare in un luogo fresco e asciutto, lontano dalla luce diretta del sole. Conservare in un recipiente ermeticamente chiuso. Conservare in luogo ben ventilato. Non stoccare vicino a materiali combustibili. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici. Fare attenzione perché il liquido può penetrare nei guanti. Si consiglia pertanto di cambiare spesso i guanti.

- Altro Applicabile soltanto per gli impianti industriali. Usare indumenti protettivi adatti.

Protezione respiratoria Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Evitare il contatto con indumenti o altri materiali combustibili. Rimuovere e lavare immediatamente gli indumenti contaminati. Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Non conosciuto.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma Panna.

Colore Non conosciuto.

Odore Non conosciuto.

Soglia olfattiva Non conosciuto.

pH 2,5 - 3

Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F)
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Può aggravare un incendio; comburente.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Tenere lontano da sostanze combustibili. Aumenta notevolmente la velocità di combustione dei materiali.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Materiale combustibile. Agenti riduttori.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	Provoca gravi lesioni oculari.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta	Non conosciuto.

Corrosione cutanea/irritazione cutanea A causa della mancanza parziale o totale di dati, la classificazione non è possibile. Non sono previsti effetti nocivi dovuti al contatto con la pelle.

Irritazione/corrosione - Pelle

PEROSSIDO DI IDROGENO	OECD 404, 35% ≥ C < 50% Risultato: irritante Specie: Coniglio OECD 404, C ≥ 50% Risultato: Corrosivo Specie: Coniglio

Gravi danni oculari/irritazione oculare Provoca gravi lesioni oculari.

Irritazione/corrosione - Occhi

PEROSSIDO DI IDROGENO	OECD 405, 5% ≥ C < 8% Risultato: irritante Specie: Coniglio OECD 405, C ≥ 8% Risultato: Corrosivo Specie: Coniglio

Sensibilizzazione respiratoria A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Sensibilizzazione cutanea A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Sensibilizzazione cutanea

PEROSSIDO DI IDROGENO	Risultato: Not Sensitizing Specie: Porcellino d'india

Mutagenicità sulle cellule germinali A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Mutagenicità

PEROSSIDO DI IDROGENO	Risultato: I saggi in vitro hanno rivelato effetti mutagenici, allorché i saggi in vivo non li hanno rivelati.

Cancerogenicità Non classificabile in relazione alla cancerogenicità per l'uomo. A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Monografie IARC. Valutazione generale di cancerogenicità

PEROSSIDO DI IDROGENO (CAS 7722-84-1)	3 Non classificabile per la cancerogenicità nell'uomo.

Tossicità per la riproduzione A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Tossicità specifica per organi bersaglio (STOT) — esposizione singola A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

PEROSSIDO DI IDROGENO	0, C ≥ 35% Risultato: irritante

Tossicità specifica per organi bersaglio (STOT) — esposizione ripetuta A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

PEROSSIDO DI IDROGENO	2,9 mg/L air OECD 412, Inalazione Risultato: NOAEL Specie: Ratto Durata del test: 28 d 26 mg/kg bw/d OECD 408, Orale Risultato: NOAEL Specie: Topo Durata del test: 90 d

Pericolo in caso di aspirazione A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze	Nessuna informazione disponibile.
Altre informazioni	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".

Componenti		Specie	Risultati del test
PEROSSIDO DI IDROGENO (CAS 7722-84-1)			
Acquatico			
Acuto			
Alga	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Altro	EC50	Fanghi attivi di acque nere prevalentemente domestiche	2,5 mg/l, 30 min OCSE 209
Crostacei	EC50	Daphnia pulex (Pulce d'acqua)	2,4 mg/l, 48 h
Pesci	LC50	Pimephales promelas	16,4 mg/l, 96 h
Cronico			
Crostacei	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSIDO DI IDROGENO — 99 % OCSE 209
Risultato: Rapidamente biodegradabile

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow)	Non conosciuto.
12.4. Mobilità nel suolo	Nessun dato disponibile.
12.5. Risultati della valutazione PBT e vPvB	Non è una sostanza o miscela PBT o vPvB.
12.6. Altri effetti avversi	Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.
12.7. Altre informazioni	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui	Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).
Imballaggi contaminati	Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.
Codice Europeo dei Rifiuti	Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.
Metodi di smaltimento/informazioni	Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.
Precauzioni particolari	Smaltire secondo le norme applicabili.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

PEROSSIDO DI IDROGENO (CAS 7722-84-1)

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H271 Può provocare un incendio o un'esplosione; molto comburente. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H332 Nocivo se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione : Prodotto e la Società Identificazione - L'Oreal COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 30 VOLUME PREMIUM DEVELOPER
Sinonimi	Nessuno.
Numero SDS	50-26-0000008
Codice prodotto	F0000888V01
Data di pubblicazione	02-Dicembre-2020
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

Francia Centro nazionale di controllo dei veleni	Numero ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).
INFOTRAC	+1 352-323-3500 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli fisici		
Liquidi comburenti	Categoria 3	H272 - Può aggravare un incendio; comburente.
Pericoli per la salute		
Gravi danni oculari/irritazione oculare	Categoria 1	H318 - Provoca gravi lesioni oculari.

Riepilogo dei pericoli

Può aggravare un incendio; comburente. Provoca gravi lesioni oculari. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: PEROSSIDO DI IDROGENO

Pittogrammi di pericolo

Avvertenza Pericolo

Indicazioni di pericolo

H272	Può aggravare un incendio; comburente.
H318	Provoca gravi lesioni oculari.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.
P210	Tenere lontano da fonti di calore, superfici calde, scintille, fiamme libere o altre fonti di accensione. Non fumare.
P220	Tenere lontano da indumenti e altri materiali combustibili.
P260	Non respirare il vapore.
P280	Indossare guanti/indumenti protettivi/Proteggere gli occhi/il viso.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P305 + P351 + P338	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P310	Contattare immediatamente un CENTRO ANTIVELENI/un medico.
P370 + P378	In caso di incendio: estinguere con mezzi adeguati.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento

P501 Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSIDO DI IDROGENO	9,02	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classificazione: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Togliere immediatamente tutti gli indumenti contaminati. Può provocare l'accensione di materie combustibili. Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.
Lavare gli indumenti contaminati prima di indossarli nuovamente.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea In caso di contatto con gli indumenti: sciacquare immediatamente e abbondantemente gli indumenti contaminati e la pelle prima di togliersi gli indumenti. Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Consultare immediatamente un medico.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali

Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio

Può aggravare un incendio; comburente. Può provocare l'accensione di materie combustibili.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei

Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO2).

Mezzi di estinzione non idonei

Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela

Aumenta notevolmente la velocità di combustione dei materiali. I contenitori possono esplodere se riscaldati. In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi

In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi

In caso d'incendio e/o esplosione non respirare i fumi. In caso di incendio: bloccare la perdita se non c'è pericolo. Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici

Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente

Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Tenere lontano da indumenti e altri materiali combustibili. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non respirare il vapore. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.

Per chi interviene direttamente

Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS

6.2. Precauzioni ambientali

Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica

Tenere i materiali combustibili (legno, carta, olio, ecc.) lontano dal materiale fuoriuscito. Ventilare l'area contaminata. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione.

Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Utilizzare un materiale non combustibile (ad esempio vermiculite, sabbia o terra) per assorbire il prodotto e riporlo in un contenitore per il successivo smaltimento. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Assorbire/raccogliere con terra, sabbia o altro materiale non infiammabile e trasferire in contenitori per il successivo smaltimento. Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni

Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura

Conservare lontano dal calore. Prendere ogni precauzione per evitare di miscelare con sostanze combustibili. Tenere lontano da indumenti e altri materiali combustibili. Non respirare il vapore. Non permettere che questo materiale vada a contatto con gli occhi. Evitare l'esposizione prolungata. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità

Conservare lontano dal calore. Conservare in un luogo fresco e asciutto, lontano dalla luce diretta del sole. Conservare in un recipiente ermeticamente chiuso. Conservare in luogo ben ventilato. Non stoccare vicino a materiali combustibili. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari

Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma

Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	

Spagna. Limiti di esposizione professionale Componenti	Tipo	Valore	Forma
		1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici. Fare attenzione perché il liquido può penetrare nei guanti. Si consiglia pertanto di cambiare spesso i guanti.

- Altro Applicabile soltanto per gli impianti industriali. Usare indumenti protettivi adatti.

Protezione respiratoria Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Evitare il contatto con indumenti o altri materiali combustibili. Rimuovere e lavare immediatamente gli indumenti contaminati. Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Non conosciuto.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma Panna.

Colore Non conosciuto.

Odore Non conosciuto.

Soglia olfattiva Non conosciuto.

pH 2,5 - 3

Punto di fusione/punto di congelamento Non conosciuto.

Punto di ebollizione iniziale e intervallo di ebollizione > 100 °C (> 212 °F)

Punto di infiammabilità > 100,0 °C (> 212,0 °F)

Velocità di evaporazione Non conosciuto.

Infiammabilità (solidi, gas) Non applicabile.

Limiti superiori/inferiori di infiammabilità o di esplosività

Limite di infiammabilità - inferiore (%) Non conosciuto.

Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Può aggravare un incendio; comburente.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Tenere lontano da sostanze combustibili. Aumenta notevolmente la velocità di combustione dei materiali.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Materiale combustibile. Agenti riduttori.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	Provoca gravi lesioni oculari.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta Non conosciuto.

Pericolo in caso di aspirazione A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze Nessuna informazione disponibile.

Altre informazioni The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".

Componenti		Specie	Risultati del test
PEROSSIDO DI IDROGENO (CAS 7722-84-1)			
Acquatico			
Acuto			
Alga	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Altro	EC50	Fanghi attivi di acque nere prevalentemente domestiche	2,5 mg/l, 30 min OCSE 209
Crostacei	EC50	Daphnia pulex (Pulce d'acqua)	2,4 mg/l, 48 h
Pesci	LC50	Pimephales promelas	16,4 mg/l, 96 h
Cronico			
Crostacei	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSIDO DI IDROGENO — 99 % OCSE 209
Risultato: Rapidamente biodegradabile

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow) Non conosciuto.

12.4. Mobilità nel suolo Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB Non è una sostanza o miscela PBT o vPvB.

12.6. Altri effetti avversi Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

12.7. Altre informazioni The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).

Imballaggi contaminati Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.

Codice Europeo dei Rifiuti Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.

Metodi di smaltimento/informazioni Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Precauzioni particolari Smaltire secondo le norme applicabili.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

PEROSSIDO DI IDROGENO (CAS 7722-84-1)

Altri regolamenti Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.

Regolamenti nazionali Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.

15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H271 Può provocare un incendio o un'esplosione; molto comburente. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H332 Nocivo se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione : Prodotto e la Società Identificazione - L'Oreal COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

2. 危险标识

物理危险	氧化性液体	类别 3
健康危害	严重眼睛损伤/眼睛刺激性	类别 1

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 危险

危险性说明 可能加剧燃烧；氧化剂。 造成严重眼损伤。

防范说明

预防措施 远离热源。 避开/贮存处远离服装和其他可燃材料。 采取一切防范措施，避免与可燃物混合。 戴防护手套/防护眼罩/防护面具。

事故响应 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如接触到或有疑虑：呼叫解毒中心/医生。 火灾时：使用适当的介质灭火。

安全储存 远离禁忌物保存。

废弃处置 按照地方/区域/国家/国际规章处置内装物/容器。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
过氧化氢		7722-84-1	9.02
矿物油		8042-47-5	6.5

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触	如沾染衣服：立即用水充分冲洗沾染的衣服和皮肤，然后脱掉衣服。 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。
眼睛接触	立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 立即就医。
经口	漱口。 如症状出现，就医。
最重要的症状/影响，急性和延迟性	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。
指明任何需要立即就医或特殊治疗的情况	提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。
一般信息	立即脱掉所有污染的衣服。 与可燃物接触会引起火灾。 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。 沾染的衣服清洗后方可重新使用。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	大大增加可燃物料的燃烧速率。 当被加热时，容器可能会爆炸。 燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	一旦发生火灾和/或爆炸，不得吸入烟气。 火灾时：如能保证安全，设法堵塞泄漏。 在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	可能加剧燃烧；氧化剂。 与可燃物接触会引起火灾。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 避开服装和其他可燃材料。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	使可燃物（木材、纸张、油等）远离泄漏物。 使受污染区域通风。 清洁时，戴合适防护设备和衣物。 大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 使用如蛭石、沙或土等非可燃性材料来吸收产品，并放入容器中以便之后进行处理。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用泥土、沙子或其它不燃材料吸收，并转移到容器内待以后处置。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	远离热源。 采取一切防范措施，避免与可燃物混合。 避开服装和其他可燃材料。 不得让本材料接触眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	远离热源。 储存于阴凉、干燥的场所，远离直接日光光照。 储存在密闭的容器中。 存放在通风良好的地方。 不要贮存在易燃物附近。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	PEL-常期暴露极限	5 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	PEL-常期暴露极限	1.4 mg/m3 1 ppm	

美国ACGIH阈限值

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	可吸入组分。

美国ACGIH阈限值

组分	类型	标准值	形状
过氧化氢 (CAS 7722-84-1)	TWA	1 ppm	

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 佩戴带侧边的安全眼镜（护目镜）和面罩。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。 注意液体会穿透手套。建议经常更换手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 防止接触衣物和其他可燃物料。立即脱除并清洗污染的衣物。 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色 无资料。

气味 无资料。

气味阈值 无资料。

pH 值 2.5 - 3

熔点/凝固点 无资料。

初始沸点和沸程 > 100 ° C (> 212 ° F)

闪点 > 100.0 ° C (> 212.0 ° F)

蒸发速率 无资料。

易燃性（固体，气体） 不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

黏度 无资料。

其他信息

爆炸特性 不具有爆炸性。

氧化特性 可能加剧燃烧；氧化剂。

10. 稳定性和反应性

反应性 大大增加可燃物料的燃烧速率。

化学稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 接触禁配物。

禁配物 易燃材料。 还原剂。

危险的分解产物 没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入 持续的吸入可能是有害的。

皮肤接触 预计没有因皮肤接触导致的任何有害影响。

眼睛接触 造成严重眼损伤。

经口 预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。

毒理学效应信息

急性毒性 未知。

产品	物种	试验结果

皮肤腐蚀/刺激 由于部分或完全缺乏数据，不可能进行分类。 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

矿物油	OECD 404 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 404, 35% ≥ C < 50% 结果: 刺激性的 物种: 兔子 OECD 404, C ≥ 50% 结果: 腐蚀性的 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼损伤。

刺激性腐蚀性 - 眼睛

矿物油	OECD 405 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 405, 5% ≥ C < 8% 结果: 刺激性的 物种: 兔子 OECD 405, C ≥ 8% 结果: 腐蚀性的 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物

矿物油	OECD 406 结果: Not Sensitizing 物种: 豚鼠
过氧化氢	结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 由于部分或完全缺乏数据，不可能进行分类。

突变性

矿物油	结果: 离体试验未见诱变效应
过氧化氢	结果: 离体试验表明有在活体试验中未观察到的诱变效应。

致癌性 尚不能确定对人有致癌作用。 由于部分或完全缺乏数据，不可能进行分类。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

矿物油 (CAS 8042-47-5)	3 尚不能确定对人有致癌作用。
过氧化氢 (CAS 7722-84-1)	3 尚不能确定对人有致癌作用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 由于部分或完全缺乏数据，不可能进行分类。

发育效应

矿物油	> 5000 mg/kg bw/d OECD 414, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

矿物油	>= 2000 mg/kg bw/d OECD 415, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 由于部分或完全缺乏数据，不可能进行分类。

过氧化氢	0, C ≥ 35% 结果: 刺激性的

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

矿物油	> 2000 mg/kg bw/d OECD 411, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D

特定目标器官系统毒性－重复接触

矿物油	> 50 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D >= 1200 mg/kg bw/d OECD 453, 经口 结果: NOAEL（未观察到有害效果的水平） 物种: 大鼠 测试时间: 2 年
过氧化氢	2.9 mg/L air OECD 412, 吸入 结果: NOAEL（未观察到有害效果的水平） 物种: 大鼠 测试时间: 28 D 26 mg/kg bw/d OECD 408, 经口 结果: NOAEL（未观察到有害效果的水平） 物种: 小鼠 测试时间: 90 D

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
矿物油 (CAS 8042-47-5)			
水生的			
急性的			
甲壳纲动物	EL50	水蚤	> 100 mg/l, 48 h OECD 202
藻类	无可观察到的效应剂量（NOEL）	近头状伪蹄形藻	> 100 mg/l, 72 h OECD 201
鱼	LL50	虹鳟鱼	> 100 mg/l, 96 h OECD 203
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	10 mg/l, 21 D OECD 211
过氧化氢 (CAS 7722-84-1)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	2.5 mg/l, 30 最小 OECD 209
甲壳纲动物	EC50	Daphnia pulex (水蚤)	2.4 mg/l, 48 h
藻类	EC50	普通小球藻	2.5 mg/l, 72 h OECD 201
鱼	LC50	呆鲦鱼	16.4 mg/l, 96 h
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	0.63 mg/l, 21 D ASTM E 1193-97

持久性和降解性

生物降解性

降解百分率（好氧生物降解）

矿物油	31 % OECD 301 F 结果: 不容易生物降解
过氧化氢	99 % OECD 209 结果: 易生物降解

潜在的生物累积性

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导	回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。
地方处置法规	按照所有适用的法规进行处置。
有害废物代码	本产品在处置时是可燃的（D001）RCRA危险废物.
残渣废料/未用掉的产品	按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。
污染包装物	容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT 40 VOLUME PREMIUM DEVELOPER**

Other means of identification

SDS number 50-26-0000009

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards	Oxidizing liquids	Category 3
Health hazards	Serious eye damage/eye irritation	Category 1
OSHA defined hazards	Not classified.	

Label elements

Signal word Danger

Hazard statement May intensify fire; oxidizer. Causes serious eye damage.

Precautionary statement

Prevention Keep away from heat. Keep/Store away from clothing and other combustible materials. Take any precaution to avoid mixing with combustibles. Wear protective gloves/eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. In case of fire: Use appropriate media to extinguish.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
HYDROGEN PEROXIDE		7722-84-1	11.76
MINERAL OIL		8042-47-5	6.5

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	If on clothing: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. Contact with combustible material may cause fire. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	May intensify fire; oxidizer. Contact with combustible material may cause fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Use water spray to reduce vapors or divert vapor cloud drift. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water. Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	PEL	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Not available.

Odor threshold Not available.

pH 2.5 - 3

Melting point/freezing point Not available.

Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.

10. Stability and reactivity

Reactivity	Greatly increases the burning rate of combustible materials.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Combustible material. Reducing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 40 VOLUME PREMIUM DEVELOPER		
Acute		
Dermal		
ATEmix		129500 mg/kg

Product	Species	Test Results
Inhalation		
Vapor		
ATEmix		93.54 mg/l
Oral

LD50	Rat	> 5000 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

MINERAL OIL	OECD 404 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

MINERAL OIL	OECD 405 Result: Not Irritating Species: Rabbit
HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

MINERAL OIL	OECD 406 Result: Not Sensitizing Species: Guinea pig

Skin sensitization

HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

MINERAL OIL	Result: In vitro tests did not show mutagenic effects
HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.
MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
HYDROGEN PEROXIDE	2.9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2.4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16.4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2.5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.63 mg/l, 21 d ASTM E 1193-97
MINERAL OIL (CAS 8042-47-5)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
Crustacea	EL50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 211

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable
MINERAL OIL	31 % OECD 301 F Result: Not Readily Biodegradable

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code This product is ignitable (D001) RCRA hazardous wastes when intended for disposal.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

HYDROGEN PEROXIDE (CONC.> 52%) (CAS 7722-84-1) 1000 LBS

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Chemical name	CAS number	Reportable quantity (pounds)	Threshold planning quantity (pounds)	Threshold planning quantity, lower value (pounds)	Threshold planning quantity, upper value (pounds)
HYDROGEN PEROXIDE	7722-84-1	1000	1000		

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Not regulated.

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act (SDWA) Not regulated.

16. Other information, including date of preparation or last revision

Issue date 12-02-2020

Version # 01

NFPA ratings Health: 3
Flammability: 1
Instability: 0
Special hazards: OX

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Revision information This document has undergone significant changes and should be reviewed in its entirety.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT 40 VOLUME PREMIUM DEVELOPER
Synonyms	None.
SDS number	50-26-0000009
Product code	F0000887V01
Issue date	12-02-2020
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards		
Oxidizing liquids	Category 3	H272 - May intensify fire; oxidizer.
Health hazards		
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.

Hazard summary May intensify fire; oxidizer. Causes serious eye damage. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: HYDROGEN PEROXIDE

Hazard pictograms

Signal word Danger

Hazard statements

H272	May intensify fire; oxidizer.
H318	Causes serious eye damage.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P220	Keep away from clothing and other combustible materials.
P260	Do not breathe vapor.
P280	Wear protective gloves/protective clothing/eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P370 + P378	In case of fire: Use appropriate media to extinguish.

Storage Store away from incompatible materials.

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 9,82% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 9,82% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
HYDROGEN PEROXIDE	11,76	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classification: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Take off all contaminated clothing immediately. Contact with combustible material may cause fire. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact If on clothing: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards May intensify fire; oxidizer. Contact with combustible material may cause fire.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures In case of fire and/or explosion do not breathe fumes. In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Use water spray to reduce vapors or divert vapor cloud drift. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not breathe vapor. Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Do not store near combustible materials. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
HYDROGEN PEROXIDE (CAS 7722-84-1)	VME	1,5 mg/m3
Regulatory status: Indicative limit (VL)		
		1 ppm
Regulatory status: Indicative limit (VL)		

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	AGW	5 mg/m3	Respirable fraction.
STEARYL ALCOHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1 ppm	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	STEL	0,8 mg/m3	
	TWA	0,4 mg/m3	
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
HYDROGEN PEROXIDE (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield.
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable.
- Other	Applicable for industrial settings only. Wear suitable protective clothing.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	2,5 - 3
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	Keep away from combustible material. Greatly increases the burning rate of combustible materials.
10.2. Chemical stability	Material is stable under normal conditions.

10.3. Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.

10.5. Incompatible materials Combustible material. Reducing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact No adverse effects due to skin contact are expected.

Eye contact Causes serious eye damage.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT 40 VOLUME PREMIUM DEVELOPER		
Acute		
Inhalation		
Vapor		
ATEmix		93,54 mg/l
Oral		
ATEmix		5899 mg/kg

Components	Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Inhalation		
Vapor		
LC0	Rat	170 mg/m³, 4 h OECD 403
Oral		
LD50	Rat	693,7 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

HYDROGEN PEROXIDE	OECD 404, 35% ≥ C < 50% Result: Irritating Species: Rabbit OECD 404, C ≥ 50% Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

HYDROGEN PEROXIDE	OECD 405, 5% ≥ C < 8% Result: Irritating Species: Rabbit OECD 405, C ≥ 8% Result: Corrosive Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

HYDROGEN PEROXIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

HYDROGEN PEROXIDE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

IARC Monographs. Overall Evaluation of Carcinogenicity

HYDROGEN PEROXIDE (CAS 7722-84-1)	3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE	0, C ≥ 35% Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

HYDROGEN PEROXIDE	2,9 mg/L air OECD 412, Inhalation Result: NOAEL Species: Rat Test Duration: 28 d 26 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Mouse Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
HYDROGEN PEROXIDE (CAS 7722-84-1)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia pulex	2,4 mg/l, 48 h
Fish	LC50	Pimephales promelas	16,4 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	2,5 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

HYDROGEN PEROXIDE	99 % OECD 209 Result: Readily Biodegradable

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
12.7. Additional information	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

HYDROGEN PEROXIDE (CAS 7722-84-1)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H271 May cause fire or explosion; strong oxidizer. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H332 Harmful if inhaled. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

1.4. Notrufnummer

Frankreich Nationaler Giftnotruf	ORFILA Nummer (INRS): + 33 (0) 1 45 42 59 59 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)
INFOTRAC	+1 352-323-3500 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Verordnung 1272/2008 in der geänderten Fassung

Physikalische Gefahren		
Oxidierende Flüssigkeiten	Kategorie 3	H272 - Kann Brand verstärken; Oxidationsmittel.
Gesundheitsgefahren		
Schwere Augenschädigung/Augenreizung	Kategorie 1	H318 - Verursacht schwere Augenschäden.

Gefahrenübersicht Kann Brand verstärken; Oxidationsmittel. Verursacht schwere Augenschäden. Die Exposition am Arbeitsplatz gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Enthält: WASSERSTOFFPEROXID

Gefahrenpiktogramme

Signalwort Gefahr

Gefahrenhinweise

H272	Kann Brand verstärken; Oxidationsmittel.
H318	Verursacht schwere Augenschäden.

Sicherheitshinweise

Prävention

P102	Darf nicht in die Hände von Kindern gelangen.
P103	Vor Gebrauch Kennzeichnungsetikett lesen.
P210	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Nicht rauchen.
P220	Von Kleidung und anderen brennbaren Materialien fernhalten.
P260	Dämpfe nicht einatmen.
P280	Schutzhandschuhe/Schutzkleidung/Augenschutz/Gesichtsschutz tragen.

Reaktion

P101	Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.
P305 + P351 + P338	BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Eventuell vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
P310	Sofort GIFTINFORMATIONSZENTRUM/Arzt/anrufen.
P370 + P378	Bei Brand: Geeignetes Medium zum Löschen verwenden.

Lagerung Nicht in der Nähe von inkompatiblen Materialien lagern.

Entsorgung

P501 Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.

Zusätzliche Angaben auf dem Etikett 9,82 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. 9,82 % der Mischung besteht aus Komponenten mit unbekannten langfristigen Gefahren für die aquatische Umwelt.

2.3. Sonstige Gefahren Kein PBT- oder vPvB-Gemisch oder Stoff.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Allgemeine Angaben

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
WASSERSTOFFPEROXID	11,76	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Einstufung:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Beschmutzte, getränkte Kleidung sofort ausziehen. Feuergefahr bei Berührung mit brennbaren Stoffen. Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.
Kontaminierte Kleidung vor erneutem Tragen waschen.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.

Hautkontakt Bei Berührung mit der Kleidung: Vor Ablegen der Kleidung kontaminierte Kleidung und Haut sofort mit reichlich Wasser abwaschen. Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Augenkontakt Augen sofort für 15 Minuten mit reichlich Wasser ausspülen. Ggf. Kontaktlinsen herausnehmen, wenn dies einfach möglich ist. Mit dem Auswaschen fortfahren. Sofort ärztliche Hilfe hinzuziehen!

Verschlucken Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.

4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen. Kann zu dauerhaften Augenschäden einschließlich Blindheit führen.

4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung

Allgemeine Unterstützungsmaßnahmen und symptomatische Behandlung sind angezeigt. Betroffene Person unter Beobachtung halten. Die Symptome können verzögert auftreten.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren

Kann Brand verstärken; Oxidationsmittel. Feuergefahr bei Berührung mit brennbaren Stoffen.

5.1. Löschmittel

Geeignete Löschmittel

Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO_2).

Ungeeignete Löschmittel

Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.

5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren

Erhöht den Abbrand brennbarer Materialien stark. Container können explodieren, wenn sie extremer Hitze ausgesetzt werden. Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung

Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.

Besondere Verfahren zur Brandbekämpfung

Explosions- und Brandgase nicht einatmen. Bei Brand: Undichtigkeit beseitigen, wenn gefahrlos möglich. Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.

Besondere Löschhinweise

Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal

Unnötiges Personal fernhalten. Personen fernhalten und auf windzugewandter Seite bleiben. Von Kleidung und anderen brennbaren Materialien fernhalten. Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen. Dämpfe nicht einatmen. Beschädigte Behälter oder ausgetretenes Material nur berühren, wenn geeignete Schutzkleidung getragen wird. Für angemessene Lüftung sorgen. Wenn größere Mengen verschütteten Materials nicht eingedämmt werden können, sollen die lokalen Behörden benachrichtigt werden. Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB.

Einsatzkräfte

Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, wie in Abschnitt 8 im SDB empfohlen.

6.2. Umweltschutzmaßnahmen

Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.

6.3. Methoden und Material für Rückhaltung und Reinigung

Mittels eines Wassersprühnebels Dämpfe reduzieren oder Dampfwolke umlenken. Brennbare Stoffe (Holz, Papier, Öl usw.) von dem ausgetreten Material fernhalten. Lüften Sie den kontaminierten Bereich. Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen.

Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Ein nichtbrennbares Material wie z.B. Vermiculit, Sand oder Erde benutzen, um das Produkt aufzusaugen und es für die spätere Entsorgung in einem Behälter zu lagern. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen.

Kleine Austrittsmengen: Mit Erde, Sand oder anderem nicht brennbaren Material absorbieren und zur späteren Entsorgung in Behälter geben. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen.

Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.

6.4. Verweis auf andere Abschnitte

Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB. Für Abfallentsorgung siehe Abschnitt 13 im SDB.

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung

Vor Hitze schützen. Mischen mit brennbaren Stoffen unbedingt verhindern. Von Kleidung und anderen brennbaren Materialien fernhalten. Dämpfe nicht einatmen. Dieses Material darf nicht mit den Augen in Berührung kommen. Längeren Kontakt vermeiden. Für ausreichend Belüftung sorgen. Geeignete persönliche Schutzausrüstung tragen. Anerkannte industrielle Hygienemaßnahmen beachten.

7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten

Vor Hitze schützen. An einem kühlen, trockenen Ort geschützt vor Sonnenlicht lagern. In einem dicht verschlossenen Behälter aufbewahren. An einem gut belüfteten Ort aufbewahren. Nicht in der Nähe von brennbaren Stoffen lagern. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des SDB's).

7.3. Spezifische Endanwendungen

Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten	Typ	Wert
WASSERSTOFFPEROXID (CAS 7722-84-1)	VME	1,5 mg/m3
Gesetzliche Regelung:	Richtgrenzwert (VL)	
		1 ppm
Gesetzliche Regelung:	Richtgrenzwert (VL)	

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Alveolengängige Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,71 mg/m3	
		0,5 ppm	

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	AGW	5 mg/m3	Alveolengängige Fraktion.
SEARYLALKHOL (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1 ppm	

Verordnung des Ministers für Arbeit und Sozialpolitik vom 6. Juni 2014 zu den maximal erlaubten Konzentrationen und Intensitäten schädlicher Gesundheitsfaktoren am Arbeitsplatz, Gesetzblatt 2014, Punkt 817

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Einatembare Fraktion.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	0,4 mg/m3	
	Überschreitungsfaktor für Spitzenbegrenzung	0,8 mg/m3	

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Nebel.
	Überschreitungsfaktor für Spitzenbegrenzung	10 mg/m3	Nebel.
WASSERSTOFFPEROXID (CAS 7722-84-1)	TWA	1,4 mg/m3	
		1 ppm	

Biologische Grenzwerte Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren	Standardüberwachungsverfahren befolgen.
Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL)	Steht nicht zur Verfügung.
Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs)	Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen	Gute allgemeine Lüftung. Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten. Augenduschstation bereitstellen.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben	Vorgeschriebene persönliche Schutzausrüstung verwenden. Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.
Augen-/Gesichtsschutz	Nur für ein industrielles Umfeld anwendbar. Sicherheitsbrille mit Seitenschutz (oder Korbbrille) und Gesichtsschutz tragen.
Hautschutz	
- Handschutz	Nur für ein industrielles Umfeld anwendbar. Geeignete chemikalienbeständige Handschuhe tragen. Vorsicht, die Flüssigkeit kann durch das Material dringen. Handschuhe deshalb häufig wechseln.
- Sonstige Schutzmaßnahmen	Nur für ein industrielles Umfeld anwendbar. Bei der Arbeit geeignete Schutzkleidung tragen.
Atemschutz	Nur für ein industrielles Umfeld anwendbar. Bei unzureichender Belüftung Atemschutzgerät anlegen.
Thermische Gefahren	Geeignete Hitzeschutzkleidung tragen, falls nötig.
Hygienemaßnahmen	Nicht in Kontakt mit Kleidung und anderen brennbaren Materialien gelangen lassen. Beschmutzte, getränkte Kleidung sofort ablegen und waschen. Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.
Begrenzung und Überwachung der Umweltexposition	Steht nicht zur Verfügung.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen	
Aggregatzustand	Flüssigkeit.
Form	Sahne.
Farbe	Steht nicht zur Verfügung.
Geruch	Steht nicht zur Verfügung.
Geruchsschwelle	Steht nicht zur Verfügung.
pH-Wert	2,5 - 3
Schmelzpunkt/Gefrierpunkt	Steht nicht zur Verfügung.
Siedebeginn und Siedebereich	> 100 °C (> 212 °F)
Flammpunkt	> 100,0 °C (> 212,0 °F) Geschlossener Tiegel
Verdampfungsgeschwindigkeit	Steht nicht zur Verfügung.
Entzündbarkeit (fest, gasförmig)	Nicht anwendbar.
Obere/untere Entzündbarkeits- oder Explosionsgrenzen	
Untere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Obere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Dampfdruck	Steht nicht zur Verfügung.
Dampfdichte	Steht nicht zur Verfügung.

Relative Dichte	Steht nicht zur Verfügung.
Löslichkeit(en)	
Löslichkeit (in Wasser)	Steht nicht zur Verfügung.
Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Kann Brand verstärken; Oxidationsmittel.
9.2. Sonstige Angaben	Keine relevanten weiteren Daten verfügbar.

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Von brennbaren Stoffen fernhalten. Erhöht den Abbrand brennbarer Materialien stark.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Kontakt mit unverträglichen Materialien vermeiden.
10.5. Unverträgliche Materialien	Brennbarer Stoff. Reduktionsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben	Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.

Angaben zu wahrscheinlichen Expositionswegen

Einatmen	Anhaltendes Einatmen kann schädlich sein.
Hautkontakt	Bei Hautkontakt werden keine Beeinträchtigungen erwartet.
Augenkontakt	Verursacht schwere Augenschäden.
Verschlucken	Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.
Symptome	Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen. Kann zu dauerhaften Augenschäden einschließlich Blindheit führen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität Nicht bekannt.

Produkt	Spezies	Testergebnisse
PULP RIOT 40 VOLUME PREMIUM DEVELOPER		
Akut		
Einatmen		
Dampf		
ATEmix		93,54 mg/l
Oral		
ATEmix		5899 mg/kg

Komponenten	Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)		
Akut		
Dermal		
LD50	Kaninchen	> 2000 mg/kg OECD 402
Einatmen		
Dampf		
LC0	Ratte	170 mg/m3, 4 h OECD 403
Oral		
LD50	Ratte	693,7 mg/kg OECD 401

Ätz-/Reizwirkung auf die Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich. Bei Hautkontakt werden keine Beeinträchtigungen erwartet.

Reizung Korrosion - Haut

WASSERSTOFFPEROXID	OECD 404, 35% ≥ C < 50% Ergebnis: reizend Spezies: Kaninchen OECD 404, C ≥ 50% Ergebnis: Korrosiv Spezies: Kaninchen

Schwere Augenschädigung/Augenreizung Verursacht schwere Augenschäden.

Reizung Korrosion - Auge

WASSERSTOFFPEROXID	OECD 405, 5% ≥ C < 8% Ergebnis: reizend Spezies: Kaninchen OECD 405, C ≥ 8% Ergebnis: Korrosiv Spezies: Kaninchen

Sensibilisierung der Atemwege Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Sensibilisierung der Haut

WASSERSTOFFPEROXID	Ergebnis: Nicht sensibilisierend Spezies: Meerschweinchen

Keimzell-Mutagenität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Mutagenität

WASSERSTOFFPEROXID	Ergebnis: In-vitro-Tests zeigten erbgutverändernde Wirkungen, die bei in-vivo-Tests nicht beobachtet wurden.

Karzinogenität Nicht einstufbar bezüglich der Kanzerogenität für den Menschen. Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Ungarn. 26/2000 EüM Verordnung zum Schutz vor und Vermeidung von Gefahren im Hinblick auf die Exposition gegenüber Karzinogenen am Arbeitsplatz (in der geänderten Fassung)

Nicht eingetragen.

IARC Monographs. Overall Evaluation of Carcinogenicity (Gesamtbewertung der Karzinogenität)

WASSERSTOFFPEROXID (CAS 7722-84-1)	3 Hinsichtlich der Karzinogenität für den Menschen nicht einstufbar.

Reproduktionstoxizität Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Spezifische Zielorgan-Toxizität bei einmaliger Exposition Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID	0, C ≥ 35% Ergebnis: reizend

Spezifische Zielorgan-Toxizität bei wiederholter Exposition Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

WASSERSTOFFPEROXID	2,9 mg/L air OECD 412, Einatmen Ergebnis: DSENO Spezies: Ratte Testdauer: 28 d 26 mg/kg bw/d OECD 408, Oral Ergebnis: DSENO Spezies: Maus Testdauer: 90 d

Aspirationsgefahr Infolge des teilweisen oder vollständigen Mangels an Daten ist eine Einstufung nicht möglich.

Gemischbezogene gegenüber stoffbezogenen Angaben Keine Information verfügbar.

Sonstige Angaben Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 12: Umweltbezogene Angaben

12.1. Toxizität Auf Basis der verfügbaren Daten sind die Kriterien für eine Einstufung als "Gewässergefährdend" nicht erfüllt.

Komponenten		Spezies	Testergebnisse
WASSERSTOFFPEROXID (CAS 7722-84-1)			
Wasser-			
Akut			
Algen	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Andere	EC50	Belebtschlamm von überwiegend kommunalem Abwasser	2,5 mg/l, 30 min OECD 209
Crustacea	EC50	Daphnia pulex (Wasserfloh)	2,4 mg/l, 48 h
Fische	LC50	Pimephales promelas	16,4 mg/l, 96 h
Chronisch			
Crustacea	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenz und Abbaubarkeit

Biologische Abbaubarkeit

Prozentualer Abbau (aerober biologischer Abbau)

WASSERSTOFFPEROXID — 99 % OECD 209
Ergebnis: Leicht biologisch abbaubar

12.3. Bioakkumulationspotenzial

Verteilungskoeffizient n-Oktanol/Wasser (log Kow) Steht nicht zur Verfügung.

12.4. Mobilität im Boden Keine Daten verfügbar.

12.5. Ergebnisse der PBT- und vPvB-Beurteilung Kein PBT- oder vPvB-Gemisch oder Stoff.

12.6. Andere schädliche Wirkungen Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.

12.7. Zusätzliche Angaben Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).

Kontaminiertes Verpackungsmaterial Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.

EU Abfallcode Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.

Entsorgungsmethoden / Informationen Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen. Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.

Besondere Vorsichtsmaßnahmen Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

Andere EU Vorschriften

Richtlinie 2012/18/EU zur Beherrschung von Gefahren schwerer Unfälle mit gefährlichen Stoffen, in der geänderten Fassung

WASSERSTOFFPEROXID (CAS 7722-84-1)

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Beim Arbeiten mit Chemikalien sind die nationalen Vorschriften gemäß der Richtlinie 98/24/EWG in der geänderten Form zu befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	H271 Kann Brand oder Explosion verursachen; starkes Oxidationsmittel. H302 Gesundheitsschädlich bei Verschlucken. H314 Verursacht schwere Verätzungen der Haut und schwere Augenschäden. H332 Gesundheitsschädlich bei Einatmen. H335 Kann die Atemwege reizen. H412 Schädlich für Wasserorganismen, mit langfristiger Wirkung.
Angaben zur Revision	Produkt- und Firmenidentifikation : Produkt- und Firmenidentifikation - L'Oreal Zusammensetzung / Angaben zu Bestandteilen: Bestandteile Physikalische und chemische Eigenschaften. Mutiple Eigenschaften
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

SECCIÓN 1. Identificación de la sustancia o la mezcla y de la sociedad o la empresa

1.1. Identificador del producto

Nombre comercial o denominación de la mezcla	PULP RIOT 40 VOLUME PREMIUM DEVELOPER
Sinónimos	Ninguno.
Número de FDS	50-26-0000009
Código de producto	F0000887V01
Fecha de publicación	02-Diciembre-2020
Número de la versión	01

1.2. Usos pertinentes identificados de la sustancia o de la mezcla y usos desaconsejados

Usos identificados	Producto de cuidado personal para uso cosmético.
Usos desaconsejados	Ninguno conocido.

1.3. Datos del proveedor de la ficha de datos de seguridad

Persona de contacto

Nombre de la compañía	L'ORÉAL SA
Dirección	14, rue royale 75008 - Paris Francia
Número de teléfono	+1 732 499 2745
dirección electrónica	nacorpeuropesdsrequest@loreal.com

1.4. Teléfono de emergencia

Francia Centro nacional de control de intoxicaciones	Número ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)
INFOTRAC	+1 352-323-3500 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)

SECCIÓN 2. Identificación de los peligros

2.1. Clasificación de la sustancia o de la mezcla

La mezcla ha sido evaluada y/o sometida a ensayo para determinar sus peligros físicos y peligros para la salud y el medio ambiente, y la siguiente clasificación tiene aplicación.

Clasificación de acuerdo con el reglamento (CE) No. 1272/2008 con sus modificaciones ulteriores

Peligros físicos		
Líquidos comburentes	Categoría 3	H272 - Puede agravar un incendio; comburente.
Peligros para la salud		
Lesiones oculares graves/irritación ocular	Categoría 1	H318 - Provoca lesiones oculares graves.

Resumen de los peligros Puede agravar un incendio; comburente. Provoca lesiones oculares graves. La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos para la salud. Este es un producto de consumo para el cuidado, seguro para los consumidores si se utiliza siguiendo las instrucciones de la etiqueta. Al igual que con muchos productos de consumo, un pequeño número de personas puede sufrir reacciones como enrojecimiento, erupciones e hinchazón tras un contacto prolongado o repetido con la piel o con los ojos.

2.2. Elementos de la etiqueta

Etiquetado de conformidad con el Reglamento (CE) nº 1272/2008 tal como se modifica en el presente Reglamento

Contiene: PERÓXIDO DE HIDRÓGENO

Pictogramas de peligro

Palabra de advertencia Peligro

Indicaciones de peligro

H272	Puede agravar un incendio; comburente.
H318	Provoca lesiones oculares graves.

Consejos de prudencia

Prevención

P102	Mantener fuera del alcance de los niños.
P103	Leer la etiqueta antes del uso.
P210	Mantener alejado del calor, superficies calientes, chispas, llamas al descubierto y otras fuentes de ignición. No fumar.
P220	Mantener alejado de la ropa y otros materiales combustibles.
P260	No respirar el vapor.
P280	Llevar guantes/prendas/gafas/máscara de protección.

Respuesta

P101	Si se necesita consejo médico, tener a mano el envase o la etiqueta.
P305 + P351 + P338	EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado.
P310	Llamar inmediatamente a un CENTRO DE TOXICOLOGÍA/médico.
P370 + P378	En caso de incendio: Utilizar medios apropiados para apagarlo.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación

P501	Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Información suplementaria en la etiqueta La mezcla contiene un 9,82 % de componentes de toxicidad aguda para el medio ambiente acuático desconocida. La mezcla contiene un 9,82 % de componentes de toxicidad a largo plazo para el medio ambiente acuático desconocida.

2.3. Otros peligros No es una sustancia o mezcla PBT o MPMB.

SECCIÓN 3. Composición/información sobre los componentes

3.2. Mezclas

Información general

Denominación química	%	Número CAS / Número CE	Número de registro conforme a REACH	Número de índice	Notas
PERÓXIDO DE HIDRÓGENO	11,76	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	
Clasificación:	Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412				

Lista de abreviaturas y símbolos que se pueden utilizar en lo anterior

#: A esta sustancia se aplican límites de exposición de la Unión en el lugar de trabajo.
M: Factor M
PBT: sustancia persistente, bioacumulativa y tĂłxica.
mPmB: sustancia muy persistente y muy bioacumulativa.
Todas las concentraciones están en porcentaje en peso salvo que el componente sea un gas. Las concentraciones de gas están en porcentaje en volumen.

Comentarios sobre los componentes El texto completo de todas las Frases H se ofrece en la Sección 16.

SECCIÓN 4. Primeros auxilios

Información general Quítese inmediatamente la ropa contaminada. Peligro de fuego en contacto con materias combustibles. Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.
Lavar las prendas contaminadas antes de volver a usarlas.

4.1. Descripción de los primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel En caso de contacto con la ropa: aclarar inmediatamente con agua abundante las prendas y la piel contaminadas antes de quitarse la ropa. Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Conseguir atención médica inmediatamente.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

4.2. Principales síntomas y efectos, agudos y retardados Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera.

4.3. Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente

Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.

SECCIÓN 5. Medidas de lucha contra incendios

Riesgos generales de incendio

Puede agravar un incendio; comburente. Peligro de fuego en contacto con materias combustibles.

5.1. Medios de extinción

Medios de extinción apropiados

Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO_2).

Medios de extinción no apropiados

No utilice chorro de agua, pues extendería el fuego.

5.2. Peligros específicos derivados de la sustancia o la mezcla

Aumenta grandemente el ratio de combustión de los materiales combustibles. Los recipientes pueden explotar cuando se calientan. En caso de incendio se pueden formar gases nocivos.

5.3. Recomendaciones para el personal de lucha contra incendios

Equipos de protección especial que debe llevar el personal de lucha contra incendios

Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.

Procedimientos especiales de lucha contra incendio

En caso de incendio y/o de explosión no respire los humos. En caso de incendio: Detener la fuga, si no hay peligro en hacerlo. Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.

Métodos específicos

Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

SECCIÓN 6. Medidas en caso de vertido accidental

6.1. Precauciones personales, equipo de protección y procedimientos de emergencia

Para el personal que no forma parte de los servicios de emergencia

Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Mantener alejado de la ropa y otros materiales combustibles. Use equipo y ropa de protección apropiados durante la limpieza. No respirar el vapor. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.

Para el personal de emergencia

Mantenga el personal no necesario lejos. Utilizar las medidas de protección personal recomendadas en la sección 8 de la FDS.

6.2. Precauciones relativas al medio ambiente

No verter los residuos al desagüe, al suelo o las corrientes de agua.

6.3. Métodos y material de contención y de limpieza

Use agua pulverizada para reducir los vapores o desviar el desplazamiento de la nube de vapor. Mantenga los materiales combustibles (madera, papel, petróleo, etc.) lejos del material derramado. Ventile el área contaminada. Use equipo y ropa de protección apropiados durante la limpieza.

Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Usar un material no combustible como vermiculita, arena o tierra para absorber el producto y colocarlo en un recipiente para su eliminación posterior. Después de recuperar el producto, enjuague el área con agua.

Derrames pequeños: Absorba con tierra, arena y otro material no combustible y transfiera a recipientes para su posterior eliminación. Limpie cuidadosamente la superficie para eliminar los restos de contaminación.

Nunca devuelva el producto derramado al envase original para reutilizarlo.

6.4. Referencia a otras secciones

Consultar las medidas de protección personal en la sección 8 de la FDS. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

SECCIÓN 7. Manipulación y almacenamiento

7.1. Precauciones para una manipulación segura

Conservar alejado del calor. Tomar todas las precauciones necesarias para no mezclar con materias combustibles. Mantener alejado de la ropa y otros materiales combustibles. No respirar el vapor. No poner este material en contacto con los ojos. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.

7.2. Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades

Conservar alejado del calor. Guárdese en un lugar fresco y seco sin exposición a la luz solar directa. Almacenar en un recipiente herméticamente cerrado. Almacenar en un lugar bien ventilado. No almacenar cerca de materiales combustibles. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

7.3. Usos específicos finales No disponible.

SECCIÓN 8. Controles de exposición/protección individual

8.1. Parámetros de control

Límites de exposición profesional

Bélgica. Valores límite de exposición.

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Francia. Valores límite umbral (VLEP) para la exposición ocupacional a sustancias químicas en Francia, INRS ED 984

Componentes	Tipo	Valor
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	VME	1,5 mg/m³
Regulación: Indicative limit (VL)		
		1 ppm
Regulación: Indicative limit (VL)		

Alemania. Lista DFG MAK (límites de exposición ocupacional indicativos). Comisión Alemana de Investigación de los Peligros para la Salud de las Sustancias Químicas en el Entorno de Trabajo (DFG)

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción respirable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	0,71 mg/m³	
		0,5 ppm	

Alemania. TRGS 900, Valores límite del aire en el lugar de trabajo

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	AGW	5 mg/m³	Fracción respirable.
ALCOHOL ESTEARÍLICO (CAS 112-92-5)	AGW	224 mg/m³	
		20 ppm	

Italia. Límites de exposición ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1 ppm	

Ordinance of the Minister of Labour and Social Policy on 6 Junio 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	TWA	5 mg/m³	Fracción inhalable.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	STEL	0,8 mg/m³	
	TWA	0,4 mg/m³	

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
ACEITE MINERAL (CAS 8042-47-5)	STEL	10 mg/m³	Neblina.

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
	TWA	5 mg/m³	Neblina.
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	TWA	1,4 mg/m³	
		1 ppm	

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Métodos de seguimiento recomendados Seguir los procedimientos de monitorización estándar.

Niveles sin efecto derivado (DNEL) No disponible.

Concentraciones previstas sin efecto (PNECs) No disponible.

8.2. Controles de la exposición

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Información general Utilizar el equipo de protección individual obligatorio. El equipo de protección personal se elegirá de acuerdo con la norma CEN vigente y en colaboración con el suministrador de equipos de protección personal.

Protección de los ojos/la cara De aplicación solamente en entornos industriales. Use gafas de seguridad con cubiertas laterales y pantalla facial.

Protección de la piel

- Protección de las manos De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos. El líquido puede penetrar los guantes. Por eso, cámbiese con frecuencia los guantes.

- Otros De aplicación solamente en entornos industriales. Úsese indumentaria protectora adecuada.

Protección respiratoria De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.

Peligros térmicos Use ropa protectora térmica adecuada si resulta necesario.

Medidas de higiene Evite el contacto con la ropa y otros materiales combustibles. Quite y lave la ropa contaminada enseguida. Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

Controles de exposición medioambiental No disponible.

SECCIÓN 9. Propiedades físicas y químicas

9.1. Información sobre propiedades físicas y químicas básicas

Aspecto

Estado físico Líquido.

Forma Nata.

Color No disponible.

Olor No disponible.

Umbral olfativo No disponible.

pH 2,5 - 3

Punto de fusión/punto de congelación No disponible.

Punto inicial de ebullición e intervalo de ebullición > 100 °C (> 212 °F)

Punto de inflamación > 100,0 °C (> 212,0 °F) Copa Cerrada

Tasa de evaporación No disponible.

Inflamabilidad (sólido, gas) No aplicable.

Límites superior/inferior de inflamabilidad o de explosividad

Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Propiedades explosivas	No es explosivo.
Propiedades comburentes	Puede agravar un incendio; comburente.
9.2. Otros datos	No se dispone de información adicional pertinente.

SECCIÓN 10. Estabilidad y reactividad

10.1. Reactividad	Manténgase lejos de materias combustibles. Aumenta grandemente el ratio de combustión de los materiales combustibles.
10.2. Estabilidad química	El material es estable bajo condiciones normales.
10.3. Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
10.4. Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
10.5. Materiales incompatibles	Material combustible. Agentes reductores.
10.6. Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. Información toxicológica

Información general	La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos.

Información sobre posibles vías de exposición

Inhalación	La inhalación prolongada puede resultar nociva.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.
Contacto con los ojos	Provoca lesiones oculares graves.
Ingestión	Si se ingiere puede causar molestias. No obstante, no es probable que la ingestión constituya una vía primaria de exposición ocupacional.
Síntomas	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera.

11.1. Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba
PULP RIOT 40 VOLUME PREMIUM DEVELOPER		
Agudo		
Inhalación		
Vapor		
ATEmix		93,54 mg/l
Oral		
ATEmix		5899 mg/kg

Corrosión/irritación cutánea Debido a la falta total o parcial de datos, la clasificación no es posible. No se esperan efectos adversos por contacto con la piel.

Irritación/Corrosión- Piel

PERÓXIDO DE HIDRÓGENO	OECD 404, 35% ≥ C < 50% Resultado: Irritante Especies: Conejo OECD 404, C ≥ 50% Resultado: Corrosivo Especies: Conejo

Lesiones oculares graves/irritación ocular Provoca lesiones oculares graves.

Irritación/Corrosión- Ojos

PERÓXIDO DE HIDRÓGENO	OECD 405, 5% ≥ C < 8% Resultado: Irritante Especies: Conejo OECD 405, C ≥ 8% Resultado: Corrosivo Especies: Conejo

Sensibilización respiratoria Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea Debido a la falta total o parcial de datos, la clasificación no es posible.

Sensibilización cutánea

PERÓXIDO DE HIDRÓGENO	Resultado: Not Sensibilizante Especies: Conejillo de indias

Mutagenicidad en células germinales Debido a la falta total o parcial de datos, la clasificación no es posible.

Mutagenicidad

PERÓXIDO DE HIDRÓGENO	Resultado: Las pruebas in vitro demostraron efectos mutágenos los cuáles no fueron observados con la prueba in vivo.

Carcinogenicidad No clasificable en cuanto a su carcinogenicidad para los seres humanos. Debido a la falta total o parcial de datos, la clasificación no es posible.

Hungría. Decreto 26/2000 EüM del Ministerio de Salud para la prevención y protección de los riesgos relacionados con la exposición a carcinógenos laborales (versión modificada)

No listado.

Monografías IARC. Evaluación general de carcinogenicidad

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)	3 No clasificable en cuanto a su carcinogenicidad para los seres humanos.

Toxicidad para la reproducción Debido a la falta total o parcial de datos, la clasificación no es posible.

Toxicidad específica en determinados órganos – exposición única Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO	0, C ≥ 35% Resultado: Irritante

Toxicidad específica en determinados órganos – exposición repetida Debido a la falta total o parcial de datos, la clasificación no es posible.

PERÓXIDO DE HIDRÓGENO	2,9 mg/L air OECD 412, Inhalación Resultado: NOAEL Especies: Rata Duración de la prueba: 28 d 26 mg/kg bw/d OECD 408, Oral Resultado: NOAEL Especies: Ratón Duración de la prueba: 90 d

Peligro por aspiración Debido a la falta total o parcial de datos, la clasificación no es posible.

Información sobre la mezcla en relación con la sustancia No hay información disponible.

Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 12. Información ecológica

12.1. Toxicidad A la vista de los datos disponibles, no se cumplen los criterios de clasificación de peligroso para el medio ambiente acuático.

Componentes		Especies	Resultados de la prueba
PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)			
Acuático (a)			
Agudo			
Algas	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Crustáceos	EC50	Daphnia pulex (Daphnia pulex (vesikirppu))	2,4 mg/l, 48 h
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	2,5 mg/l, 30 mín OECD 209
Pez	LC50	Pimephales promelas	16,4 mg/l, 96 h
Crónico			
Crustáceos	NOEC	Dafnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

PERÓXIDO DE HIDRÓGENO 99 % OECD 209
Resultado: Fácilmente Biodegradable

12.3. Potencial de bioacumulación

Coeficiente de partición n-octanol/agua (log Kow) No disponible.

12.4. Movilidad en el suelo No hay datos disponibles.

12.5. Resultados de la valoración PBT y mPmB No es una sustancia o mezcla PBT o MPMB.

12.6. Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

12.7. Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 13. Consideraciones relativas a la eliminación

13.1. Métodos para el tratamiento de residuos

Restos de productos Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

Código europeo de residuos El código de Desecho debe ser atribuído de acuerdo entre el usuario, el productor y la compañía de eliminación de desechos.

Métodos de eliminación/información Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Precauciones especiales Elimine de acuerdo con todas las reglamentaciones aplicables.

14.3. Clase(s) de peligro para el transporte	
Clase	5.1
14.4. Grupo de embalaje	III
14.5. Peligros para el medio ambiente	
Contaminante marino	No.
EmS	F-H, S-Q
14.6. Precauciones particulares para los usuarios	No disponible.
14.7. Transporte a granel con arreglo al anexo II del Convenio MARPOL y el Código IBC	No establecido.

SECCIÓN 15. Información reglamentaria

15.1. Reglamentación y legislación en materia de seguridad, salud y medio ambiente específicas para la sustancia o la mezcla

Normativa de la UE

Reglamento (CE) Nº 1005/2009 sobre las sustancias que agotan la capa de ozono, Anexos I y II, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 850/2004 sobre contaminantes orgánicos persistentes, Anexo I con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 1, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 2, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 3, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo V, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº 166/2006, Anexo II, Registro de emisiones y transferencias de contaminantes, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 1907/2006, REACH Artículo 59(10), Lista de candidatos en vigor publicada por la ECHA

No listado.

Autorizaciones

Reglamento (CE) no. 1907/2006 REACH, Anexo XIV Sustancias sujetas a autorización, con sus modificaciones ulteriores

No listado.

Restricciones de uso

Reglamento (CE) nº. 1907/2006, REACH Anexo XVII, Sustancias sujetas a restricciones de comercialización y uso con las enmiendas correspondientes

No listado.

Directiva 2004/37/CE: relativa a la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes carcinógenos o mutágenos durante el trabajo, con las enmiendas correspondientes

No listado.

Otras normas de la UE

Directiva 2012/18/UE relativa a los riesgos inherentes a los accidentes graves en los que intervengan sustancias peligrosas, con las enmiendas correspondientes

PERÓXIDO DE HIDRÓGENO (CAS 7722-84-1)

Otras reglamentaciones	Este producto ha sido clasificado y etiquetado con arreglo al Reglamento (CE) nº 1272/2008 (Reglamento CLP) con sus modificaciones ulteriores y con arreglo. Esta ficha de datos de seguridad cumple los requisitos del Reglamento (CE) Nº 1907/2006, con las enmiendas correspondientes.
Normativa nacional	Observar las normativas nacionales relativas al trabajo con agentes químicos, de conformidad con la Directiva 98/24/CE con las enmiendas correspondientes.
15.2. Evaluación de la seguridad química	No se ha realizado ninguna evaluación de la seguridad química.

SECCIÓN 16. Otra información

Lista de abreviaturas	No disponible.
Referencias	No disponible.
Información sobre el método de evaluación usado para la clasificación de la mezcla	La clasificación de los peligros para la salud y el medio ambiente se ha obtenido usando una combinación de métodos de cálculo y, en su caso, datos de ensayo.
Texto completo de cualesquiera frases H para las que no se incluya el enunciado completo en las secciones 2 a 15	H271 Puede provocar un incendio o una explosión; muy comburente. H302 Nocivo en caso de ingestión. H314 Provoca quemaduras graves en la piel y lesiones oculares graves. H332 Nocivo en caso de inhalación. H335 Puede irritar las vías respiratorias. H412 Nocivo para los organismos acuáticos, con efectos nocivos duraderos.
Información de revisión	Identificación del producto y de la compañía : L'Oreal Transport COMPOSICION/INFORMACION DE LOS COMPONENTES: Ingredientes Propiedades físicas y químicas: Múltiples propiedades
Información sobre formación	Siga las instrucciones de entrenamiento al manejar este material.
Cláusula de exención de responsabilidad	La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT 40 VOLUME PREMIUM DEVELOPER**

Autres moyens d'identification

Numéro de la FDS 50-26-0000009

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques	Liquides comburants	Catégorie 3
Dangers pour la santé	Lésions oculaires graves/irritation oculaire	Catégorie 1

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Peut aggraver un incendie; comburant. Provoque de graves lésions des yeux.

Conseil de prudence

Prévention Conserver à l'écart de la chaleur. Tenir et entreposer loin des vêtements et autres matières combustibles. Prendre toutes précautions pour éviter de mélanger avec des matières combustibles. Porter des gants de protection/un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin. En cas d'incendie : utiliser un agent d'extinction approprié.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
PEROXYDE DHYDROGENE (EAU OXYGENEE)		7722-84-1	11.76

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
HUILE MINÉRALE		8042-47-5	6.5

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau En cas de contact avec les vêtements : Rincer immédiatement et abondamment avec de l'eau les vêtements contaminés et la peau avant de les enlever. Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales Enlever immédiatement tous les vêtements contaminés. Favorise l'inflammation des matières combustibles. S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.
Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Augmente grandement la vitesse de combustion des produits combustibles. Les récipients peuvent exploser sous l'effet de la chaleur. Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies En cas d'incendie et/ou d'explosion ne pas respirer les fumées. En cas d'incendie : Obturer la fuite si cela peut se faire sans danger. Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Peut aggraver un incendie; comburant. Favorise l'inflammation des matières combustibles.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Tenir à l'écart des vêtements et d'autres matières combustibles. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Utiliser une pulvérisation d'eau pour réduire les vapeurs ou pour détourner la direction du nuage de vapeurs. Tenir les matières combustibles (bois, papier, huile, etc.) à l'écart du produit déversé. Ventiler la zone contaminée. Porter un équipement et des vêtements de protection appropriés durant le nettoyage.

Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Utiliser un matériau non combustible comme la vermiculite, le sable ou la terre pour absorber le produit et le mettre dans un récipient pour élimination ultérieure. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Absorber avec de la terre, du sable ou une autre matière non combustible et transférer dans des contenants pour une élimination ultérieure. Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Tenir à l'écart de la chaleur. Prendre toutes précautions pour éviter de mélanger avec des matières combustibles. Tenir à l'écart des vêtements et d'autres matières combustibles. Éviter tout contact de ce produit avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Tenir à l'écart de la chaleur. Stocker dans un endroit frais et sec, à l'écart de la lumière solaire directe. Stocker dans des récipients bien fermés. Stocker dans un endroit bien ventilé. Ne pas stocker à proximité de matières combustibles. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	PEL (limite d'exposition admissible)	1.4 mg/m3	
		1 ppm	

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	TWA	5 mg/m3	Fraction inhalable.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1 ppm	

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

Valeurs biologiques limites	Aucune limite d’exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques) et un écran facial.
Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques Il faut savoir que le liquide peut pénétrer les gants. Il est conseillé de changer souvent.
Autre	Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Éviter tout contact avec des vêtements ou d’autres matières combustibles. Retirer et laver rapidement les vêtements contaminés. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Forme	Crème.
Couleur	Non disponible.
Odeur	Non disponible.
Seuil olfactif	Non disponible.
pH	2.5 - 3
Point de fusion et point de congélation	Non disponible.
Point initial d’ébullition et domaine d’ébullition	> 100 °C (> 212 °F)
Point d’éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d’évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d’inflammabilité ou d’explosibilité	
Limites d’inflammabilité - inférieure (%)	Non disponible.
Limites d’inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.

Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.

Autres informations

Propriétés explosives	Non explosif.
Propriétés comburantes	Peut aggraver un incendie; comburant.

10. Stabilité et réactivité

Réactivité	Augmente grandement la vitesse de combustion des produits combustibles.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Matières combustibles. Agents réducteurs.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Corrosion cutanée/irritation cutanée La classification n'est pas possible en raison d'un manque partiel ou total de données. On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

HUILE MINÉRALE	OCDE 404 Résultat: Non Irritant Espèces: Lapin
PEROXYDE DHYDROGENE (EAU OXYGENEE)	OCDE 404, 35% ≥ C < 50% Résultat: Irritant Espèces: Lapin OCDE 404, C ≥ 50% Résultat: Corrosif Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque de graves lésions des yeux.

Irritation- corrosion - Œil

HUILE MINÉRALE	OCDE 405 Résultat: Non Irritant Espèces: Lapin
PEROXYDE DHYDROGENE (EAU OXYGENEE)	OCDE 405, 5% ≥ C < 8% Résultat: Irritant Espèces: Lapin OCDE 405, C ≥ 8% Résultat: Corrosif Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire La classification n'est pas possible en raison d'un manque partiel ou total de données.

Sensibilisation cutanée La classification n'est pas possible en raison d'un manque partiel ou total de données.

Sensibilisation cutanée

HUILE MINÉRALE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
PEROXYDE DHYDROGENE (EAU OXYGENEE)	Résultat: Non Sensibilisant Espèces: Cobaye

Mutagénicité sur les cellules germinales La classification n'est pas possible en raison d'un manque partiel ou total de données.

Mutagénicité

HUILE MINÉRALE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
PEROXYDE DHYDROGENE (EAU OXYGENEE)	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme. La classification n'est pas possible en raison d'un manque partiel ou total de données.

Monographies du CIRC. Évaluation globale de la cancérogénicité

HUILE MINÉRALE (CAS 8042-47-5)	3 Inclassable quant à sa cancérogénicité pour l'homme.
PEROXYDE DHYDROGENE (EAU OXYGENEE) (CAS 7722-84-1)	3 Inclassable quant à sa cancérogénicité pour l'homme.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction La classification n'est pas possible en raison d'un manque partiel ou total de données.

Effets sur le développement

HUILE MINÉRALE
> 5000 mg/kg bw/d OCDE 414, Pas d'effets sur le développement
Résultat: DSENO
Espèces: Rat

Reproductivité

HUILE MINÉRALE
>= 2000 mg/kg bw/d OCDE 415, Pas d'effets sur la fertilité
Résultat: DSENO
Espèces: Rat

Toxicité pour certains organes cibles - exposition unique La classification n'est pas possible en raison d'un manque partiel ou total de données.

PEROXYDE DHYDROGENE (EAU OXYGENEE)
0, C ≥ 35%
Résultat: Irritant

Toxicité pour certains organes cibles - expositions répétées La classification n'est pas possible en raison d'un manque partiel ou total de données.

HUILE MINÉRALE
> 2000 mg/kg bw/d OCDE 411, Cutané
Résultat: DSENO
Espèces: Rat
Durée du test: 90 d
> 50 mg/m3 air OCDE 412, Inhalation
Résultat: CSENO
Espèces: Rat
Durée du test: 28 d
>= 1200 mg/kg bw/d OCDE 453, Orale
Résultat: DSENO
Espèces: Rat
Durée du test: 2 années

PEROXYDE DHYDROGENE (EAU OXYGENEE)
2.9 mg/L air OCDE 412, Inhalation
Résultat: DSENO
Espèces: Rat
Durée du test: 28 d
26 mg/kg bw/d OCDE 408, Orale
Résultat: DSENO
Espèces: Souris
Durée du test: 90 d

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

HUILE MINÉRALE	31 % OECD 301 F Résultat: Difficilement Biodégradable
PEROXYDE DHYDROGENE (EAU OXYGENEE)	99 % OCDE 209 Résultat: Facilement Biodegradable

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Code des déchets dangereux Ce produit est inflammable (D001), utilisez le RCRA matières dangereuses lors de l'élimination.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre) Non réglementé.

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication 02-Décembre-2020

Version n° 01

Classements NFPA
Santé: 3
Inflammabilité: 1
Instabilité: 0
Risques particuliers: OX

Avis de non-responsabilité À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

Informations relatives à la révision
Identification du produit et de l'entreprise : L'Oreal Transport
Composition / renseignements sur les ingrédients : Ingrédients
Propriétés physiques et chimiques : Propriétés multiples

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 40 VOLUME PREMIUM DEVELOPER
Sinonimi	Nessuno.
Numero SDS	50-26-0000009
Codice prodotto	F0000887V01
Data di pubblicazione	10-Settembre-2021
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

CAV "Osp. Pediatrico Bambino Gesù" - 06 68593726

Az. Osp. Univ. Foggia - 0881-732326

Az. Osp. "a. Cardarelli" - 081-7472870

CAV Policlinico "Umberto I" - 06-49978000

CAV Policlinio "A. Gemelli" - 06-3054343

Az. Osp. "Careggi" U.O. Tossicologia - 055-7947819

CAV C.N.I.T. di Pavia - 0382-24444

Osp. Niguarda Ca' Granda - 02-66101029

Azienda Ospedaliera Papa Giovanni XXII - 800883300

(Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli fisici		
Liquidi comburenti	Categoria 3	H272 - Può aggravare un incendio; comburente.
Pericoli per la salute		
Gravi danni oculari/irritazione oculare	Categoria 1	H318 - Provoca gravi lesioni oculari.

Riepilogo dei pericoli

Può aggravare un incendio; comburente. Provoca gravi lesioni oculari. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: PEROSSIDO DI IDROGENO

Pittogrammi di pericolo

Avvertenza Pericolo

Indicazioni di pericolo

H272 Può aggravare un incendio; comburente.
H318 Provoca gravi lesioni oculari.

Consigli di prudenza

Prevenzione

P102 Tenere fuori dalla portata dei bambini.
P103 Leggere l'etichetta prima dell'uso.
P210 Tenere lontano da fonti di calore, superfici calde, scintille, fiamme libere o altre fonti di accensione. Non fumare.
P220 Tenere lontano da indumenti e altri materiali combustibili.
P260 Non respirare il vapore.
P280 Indossare guanti/indumenti protettivi/Proteggere gli occhi/il viso.

Reazione

P101 In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P305 + P351 + P338 IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P310 Contattare immediatamente un CENTRO ANTIVELENI/un medico.
P370 + P378 In caso di incendio: estinguere con mezzi adeguati.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento

P501 Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSIDO DI IDROGENO	11,76	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classificazione: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Togliere immediatamente tutti gli indumenti contaminati. Può provocare l'accensione di materie combustibili. Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.
Lavare gli indumenti contaminati prima di indossarli nuovamente.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea	In caso di contatto con gli indumenti: sciacquare immediatamente e abbondantemente gli indumenti contaminati e la pelle prima di togliersi gli indumenti. Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.
Contatto con gli occhi	Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Consultare immediatamente un medico.
Ingestione	Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.
4.2. Principali sintomi ed effetti, sia acuti che ritardati	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.
4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali	Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio	Può aggravare un incendio; comburente. Può provocare l'accensione di materie combustibili.
5.1. Mezzi di estinzione	
Mezzi di estinzione idonei	Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO_2).
Mezzi di estinzione non idonei	Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.
5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela	Aumenta notevolmente la velocità di combustione dei materiali. I contenitori possono esplodere se riscaldati. In caso d'incendio possono crearsi gas nocivi.
5.3. Raccomandazioni per gli addetti all'estinzione degli incendi	
Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi	In caso d'incendio indossare autorespiratore e indumenti protettivi completi.
Procedure speciali per l'estinzione degli incendi	In caso d'incendio e/o esplosione non respirare i fumi. In caso di incendio: bloccare la perdita se non c'è pericolo. Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.
Metodi specifici	Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente	Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Tenere lontano da indumenti e altri materiali combustibili. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non respirare il vapore. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.
Per chi interviene direttamente	Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS
6.2. Precauzioni ambientali	Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.
6.3. Metodi e materiali per il contenimento e per la bonifica	Usare spruzzi d'acqua per ridurre i vapori o deviare il movimento della nuvola di vapore. Tenere i materiali combustibili (legno, carta, olio, ecc.) lontano dal materiale fuoriuscito. Ventilare l'area contaminata. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Utilizzare un materiale non combustibile (ad esempio vermiculite, sabbia o terra) per assorbire il prodotto e riporlo in un contenitore per il successivo smaltimento. Una volta recuperato il prodotto, sciacquare l'area con acqua. Versamenti di piccole dimensioni: Assorbire/raccogliere con terra, sabbia o altro materiale non infiammabile e trasferire in contenitori per il successivo smaltimento. Pulire completamente la superficie per rimuovere completamente la contaminazione residua. Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo
6.4. Riferimento ad altre sezioni	Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura	Conservare lontano dal calore. Prendere ogni precauzione per evitare di miscelare con sostanze combustibili. Tenere lontano da indumenti e altri materiali combustibili. Non respirare il vapore. Non permettere che questo materiale vada a contatto con gli occhi. Evitare l'esposizione prolungata. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare lontano dal calore. Conservare in un luogo fresco e asciutto, lontano dalla luce diretta del sole. Conservare in un recipiente ermeticamente chiuso. Conservare in luogo ben ventilato. Non stoccare vicino a materiali combustibili. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici. Fare attenzione perché il liquido può penetrare nei guanti. Si consiglia pertanto di cambiare spesso i guanti.

- Altro Applicabile soltanto per gli impianti industriali. Usare indumenti protettivi adatti.

Protezione respiratoria Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Evitare il contatto con indumenti o altri materiali combustibili. Rimuovere e lavare immediatamente gli indumenti contaminati. Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Non conosciuto.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma Panna.

Colore Non conosciuto.

Odore Non conosciuto.

Soglia olfattiva Non conosciuto.

pH 2,5 - 3

Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Può aggravare un incendio; comburente.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Tenere lontano da sostanze combustibili. Aumenta notevolmente la velocità di combustione dei materiali.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Materiale combustibile. Agenti riduttori.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	Provoca gravi lesioni oculari.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta	Non conosciuto.

Irritazione/corrosione - Pelle

PEROSSIDO DI IDROGENO	OECD 404, 35% ≥ C < 50% Risultato: irritante Specie: Coniglio OECD 404, C ≥ 50% Risultato: Corrosivo Specie: Coniglio

Gravi danni oculari/irritazione oculare Provoca gravi lesioni oculari.

Irritazione/corrosione - Occhi

PEROSSIDO DI IDROGENO	OECD 405, 5% ≥ C < 8% Risultato: irritante Specie: Coniglio OECD 405, C ≥ 8% Risultato: Corrosivo Specie: Coniglio

Sensibilizzazione respiratoria A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Sensibilizzazione cutanea A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Sensibilizzazione cutanea

PEROSSIDO DI IDROGENO	Risultato: Not Sensitizing Specie: Porcellino d'india

Mutagenicità sulle cellule germinali A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Mutagenicità

PEROSSIDO DI IDROGENO	Risultato: I saggi in vitro hanno rivelato effetti mutagenici, allorché i saggi in vivo non li hanno rivelati.

Cancerogenicità Non classificabile in relazione alla cancerogenicità per l'uomo. A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Monografie IARC. Valutazione generale di cancerogenicità

PEROSSIDO DI IDROGENO (CAS 7722-84-1)	3 Non classificabile per la cancerogenicità nell'uomo.

Tossicità per la riproduzione A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Tossicità specifica per organi bersaglio (STOT) — esposizione singola A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

PEROSSIDO DI IDROGENO	0, C ≥ 35% Risultato: irritante

Tossicità specifica per organi bersaglio (STOT) — esposizione ripetuta A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

PEROSSIDO DI IDROGENO	2,9 mg/L air OECD 412, Inalazione Risultato: NOAEL Specie: Ratto Durata del test: 28 d 26 mg/kg bw/d OECD 408, Orale Risultato: NOAEL Specie: Topo Durata del test: 90 d

Pericolo in caso di aspirazione A causa della mancanza parziale o totale di dati, la classificazione non è possibile.

Informazioni sulle miscele rispetto alle informazioni sulle sostanze	Nessuna informazione disponibile.
Altre informazioni	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 12: Informazioni ecologiche

12.1. Tossicità In base ai dati disponibili, i criteri di classificazione non sono soddisfatti per "pericoloso per l'ambiente acquatico".

Componenti		Specie	Risultati del test
PEROSSIDO DI IDROGENO (CAS 7722-84-1)			
Acquatico			
Acuto			
Alga	EC50	Chlorella vulgaris	2,5 mg/l, 72 h OECD 201
Altro	EC50	Fanghi attivi di acque nere prevalentemente domestiche	2,5 mg/l, 30 min OCSE 209
Crostacei	EC50	Daphnia pulex (Pulce d'acqua)	2,4 mg/l, 48 h
Pesci	LC50	Pimephales promelas	16,4 mg/l, 96 h
Cronico			
Crostacei	NOEC	Daphnia magna	0,63 mg/l, 21 d ASTM E 1193-97

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSIDO DI IDROGENO — 99 % OCSE 209
Risultato: Rapidamente biodegradabile

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow)	Non conosciuto.
12.4. Mobilità nel suolo	Nessun dato disponibile.
12.5. Risultati della valutazione PBT e vPvB	Non è una sostanza o miscela PBT o vPvB.
12.6. Altri effetti avversi	Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.
12.7. Altre informazioni	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui	Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).
Imballaggi contaminati	Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.
Codice Europeo dei Rifiuti	Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.
Metodi di smaltimento/informazioni	Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.
Precauzioni particolari	Smaltire secondo le norme applicabili.

14.7. Trasporto di rinfuse secondo l'allegato II di MARPOL ed il codice IBC Non stabilito.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

PEROSSIDO DI IDROGENO (CAS 7722-84-1)

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H271 Può provocare un incendio o un'esplosione; molto comburente. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H332 Nocivo se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione : Prodotto e la Società Identificazione - L'Oreal COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT 40 VOLUME PREMIUM DEVELOPER
Sinonimi	Nessuno.
Numero SDS	50-26-0000009
Codice prodotto	F0000887V01
Data di pubblicazione	02-Dicembre-2020
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

Francia Centro nazionale di controllo dei veleni	Numero ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).
INFOTRAC	+1 352-323-3500 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli fisici		
Liquidi comburenti	Categoria 3	H272 - Può aggravare un incendio; comburente.
Pericoli per la salute		
Gravi danni oculari/irritazione oculare	Categoria 1	H318 - Provoca gravi lesioni oculari.

Riepilogo dei pericoli

Può aggravare un incendio; comburente. Provoca gravi lesioni oculari. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: PEROSSIDO DI IDROGENO

Pittogrammi di pericolo

Avvertenza Pericolo

Indicazioni di pericolo

H272	Può aggravare un incendio; comburente.
H318	Provoca gravi lesioni oculari.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.
P210	Tenere lontano da fonti di calore, superfici calde, scintille, fiamme libere o altre fonti di accensione. Non fumare.
P220	Tenere lontano da indumenti e altri materiali combustibili.
P260	Non respirare il vapore.
P280	Indossare guanti/indumenti protettivi/Proteggere gli occhi/il viso.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P305 + P351 + P338	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P310	Contattare immediatamente un CENTRO ANTIVELENI/un medico.
P370 + P378	In caso di incendio: estinguere con mezzi adeguati.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento

P501 Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 9,82 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
PEROSSIDO DI IDROGENO	11,76	7722-84-1 231-765-0	01-2119485845-22	008-003-00-9	

Classificazione: Ox. Liq. 1;H271, Acute Tox. 4;H302, Skin Corr. 1A;H314, Acute Tox. 4;H332, STOT SE 3;H335, Aquatic Chronic 3;H412

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Togliere immediatamente tutti gli indumenti contaminati. Può provocare l'accensione di materie combustibili. Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.
Lavare gli indumenti contaminati prima di indossarli nuovamente.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea In caso di contatto con gli indumenti: sciacquare immediatamente e abbondantemente gli indumenti contaminati e la pelle prima di togliersi gli indumenti. Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Consultare immediatamente un medico.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali

Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio

Può aggravare un incendio; comburente. Può provocare l'accensione di materie combustibili.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei

Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO2).

Mezzi di estinzione non idonei

Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela

Aumenta notevolmente la velocità di combustione dei materiali. I contenitori possono esplodere se riscaldati. In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi

In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi

In caso d'incendio e/o esplosione non respirare i fumi. In caso di incendio: bloccare la perdita se non c'è pericolo. Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici

Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente

Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Tenere lontano da indumenti e altri materiali combustibili. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non respirare il vapore. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.

Per chi interviene direttamente

Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS

6.2. Precauzioni ambientali

Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica

Usare spruzzi d'acqua per ridurre i vapori o deviare il movimento della nuvola di vapore. Tenere i materiali combustibili (legno, carta, olio, ecc.) lontano dal materiale fuoriuscito. Ventilare l'area contaminata. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione.

Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Utilizzare un materiale non combustibile (ad esempio vermiculite, sabbia o terra) per assorbire il prodotto e riporlo in un contenitore per il successivo smaltimento. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Assorbire/raccogliere con terra, sabbia o altro materiale non infiammabile e trasferire in contenitori per il successivo smaltimento. Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni

Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura

Conservare lontano dal calore. Prendere ogni precauzione per evitare di miscelare con sostanze combustibili. Tenere lontano da indumenti e altri materiali combustibili. Non respirare il vapore. Non permettere che questo materiale vada a contatto con gli occhi. Evitare l'esposizione prolungata. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità

Conservare lontano dal calore. Conservare in un luogo fresco e asciutto, lontano dalla luce diretta del sole. Conservare in un recipiente ermeticamente chiuso. Conservare in luogo ben ventilato. Non stoccare vicino a materiali combustibili. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari

Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	
		1 ppm	

Francia. Valori limite di soglia (VLEP) per esposizione professionale a sostanze chimiche in Francia, INRS ED 984

Componenti	Tipo	Valore
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	VME	1,5 mg/m3
Stato normativo: Limite indicativo (VL)		
		1 ppm
Stato normativo: Limite indicativo (VL)		

Germania. Elenco DFG MAK (OEL raccomandati). Commissione per le indagini sui rischi per la salute dei composti chimici nell'ambiente di lavoro (DFG)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione respirabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,71 mg/m3	
		0,5 ppm	

Germania. TRGS 900, Valori limite in aria ambiente nel luogo di lavoro

Componenti	Tipo	Valore	Forma
ALCOL STEARILICO (CAS 112-92-5)	AGW	224 mg/m3	
		20 ppm	
Olio minerale (CAS 8042-47-5)	AGW	5 mg/m3	Frazione respirabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1 ppm	

Regolamento del Ministero del Lavoro e delle Politiche Sociali del 6 giugno 2014. Riguardante le concentrazioni e le intensità massime permissibili di fattori pericolosi nell'ambiente di lavoro (Gazzetta Ufficiale polacca 2014, n. 817)

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Frazione inalabile.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	0,4 mg/m3	
	Breve termine	0,8 mg/m3	

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
Olio minerale (CAS 8042-47-5)	8 ore	5 mg/m3	Nebbie.
	Breve termine	10 mg/m3	Nebbie.
PEROSSIDO DI IDROGENO (CAS 7722-84-1)	8 ore	1,4 mg/m3	

Spagna. Limiti di esposizione professionale Componenti	Tipo	Valore	Forma
		1 ppm	

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.

Protezione degli occhi/del volto Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).

Protezione della pelle

- Protezione delle mani Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici. Fare attenzione perché il liquido può penetrare nei guanti. Si consiglia pertanto di cambiare spesso i guanti.

- Altro Applicabile soltanto per gli impianti industriali. Usare indumenti protettivi adatti.

Protezione respiratoria Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.

Pericoli termici Indossare opportuni indumenti termoprotettivi, quando necessario.

Misure d'igiene Evitare il contatto con indumenti o altri materiali combustibili. Rimuovere e lavare immediatamente gli indumenti contaminati. Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.

Controlli dell'esposizione ambientale Non conosciuto.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto

Stato fisico Liquido.

Forma Panna.

Colore Non conosciuto.

Odore Non conosciuto.

Soglia olfattiva Non conosciuto.

pH 2,5 - 3

Punto di fusione/punto di congelamento Non conosciuto.

Punto di ebollizione iniziale e intervallo di ebollizione > 100 °C (> 212 °F)

Punto di infiammabilità > 100,0 °C (> 212,0 °F) Vaso chiuso

Velocità di evaporazione Non conosciuto.

Infiammabilità (solidi, gas) Non applicabile.

Limiti superiori/inferiori di infiammabilità o di esplosività

Limite di infiammabilità - inferiore (%) Non conosciuto.

Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Può aggravare un incendio; comburente.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Tenere lontano da sostanze combustibili. Aumenta notevolmente la velocità di combustione dei materiali.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Materiale combustibile. Agenti riduttori.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	Provoca gravi lesioni oculari.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta Non conosciuto.

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

PEROSSIDO DI IDROGENO — 99 % OCSE 209
Risultato: Rapidamente biodegradabile

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow) Non conosciuto.

12.4. Mobilità nel suolo Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB Non è una sostanza o miscela PBT o vPvB.

12.6. Altri effetti avversi Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

12.7. Altre informazioni The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).

Imballaggi contaminati Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.

Codice Europeo dei Rifiuti Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.

Metodi di smaltimento/informazioni Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Precauzioni particolari Smaltire secondo le norme applicabili.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

PEROSSIDO DI IDROGENO (CAS 7722-84-1)

Altri regolamenti Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.

Regolamenti nazionali Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.

15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H271 Può provocare un incendio o un'esplosione; molto comburente. H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H332 Nocivo se inalato. H335 Può irritare le vie respiratorie. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione : Prodotto e la Società Identificazione - L'Oreal COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT 40 VOLUME PREMIUM DEVELOPER

鉴别的其他方法

SDS编号 50-26-0000009

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险	氧化性液体	类别 3
健康危害	严重眼睛损伤/眼睛刺激性	类别 1

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 危险

危险性说明 可能加剧燃烧；氧化剂。 造成严重眼损伤。

防范说明

预防措施 远离热源。 避开/贮存处远离服装和其他可燃材料。 采取一切防范措施，避免与可燃物混合。 戴防护手套/防护眼罩/防护面具。

事故响应 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如接触到或有疑虑：呼叫解毒中心/医生。 火灾时：使用适当的介质灭火。

安全储存 远离禁忌物保存。

废弃处置 按照地方/区域/国家/国际规章处置内装物/容器。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
过氧化氢		7722-84-1	11.76
矿物油		8042-47-5	6.5

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触	如沾染衣服：立即用水充分冲洗沾染的衣服和皮肤，然后脱掉衣服。 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。
眼睛接触	立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 立即就医。
经口	漱口。 如症状出现，就医。
最重要的症状/影响，急性和延迟性	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。
指明任何需要立即就医或特殊治疗的情况	提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。
一般信息	立即脱掉所有污染的衣服。 与可燃物接触会引起火灾。 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。 沾染的衣服清洗后方可重新使用。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	大大增加可燃物料的燃烧速率。 当被加热时，容器可能会爆炸。 燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	一旦发生火灾和/或爆炸，不得吸入烟气。 火灾时：如能保证安全，设法堵塞泄漏。 在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	可能加剧燃烧；氧化剂。 与可燃物接触会引起火灾。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 避开服装和其他可燃材料。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	喷雾状水来减少蒸气或转移蒸气云漂移。 使可燃物（木材、纸张、油等）远离泄漏物。 使受污染区域通风。 清洁时，戴合适防护设备和衣物。 大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 使用如蛭石、沙或土等非可燃性材料来吸收产品，并放入容器中以便之后进行处理。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用泥土、沙子或其它不燃材料吸收，并转移到容器内待以后处置。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	远离热源。 采取一切防范措施，避免与可燃物混合。 避开服装和其他可燃材料。 不得让本材料接触眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	远离热源。 储存于阴凉、干燥的场所，远离直接日光光照。 储存在密闭的容器中。 存放在通风良好的地方。 不要贮存在易燃物附近。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	PEL-常期暴露极限	5 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	PEL-常期暴露极限	1.4 mg/m3 1 ppm	

美国ACGIH阈限值

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	可吸入组分。

美国ACGIH阈限值

组分	类型	标准值	形状
过氧化氢 (CAS 7722-84-1)	TWA	1 ppm	

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
矿物油 (CAS 8042-47-5)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。
过氧化氢 (CAS 7722-84-1)	TWA	1.4 mg/m3	
		1 ppm	

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 佩戴带侧边的安全眼镜（护目镜）和面罩。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。 注意液体会穿透手套。建议经常更换手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 防止接触衣物和其他可燃物料。立即脱除并清洗污染的衣物。 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色 无资料。

气味 无资料。

气味阈值 无资料。

pH 值 2.5 - 3

熔点/凝固点 无资料。

初始沸点和沸程 > 100 ° C (> 212 ° F)

闪点 > 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法

蒸发速率 无资料。

易燃性（固体，气体） 不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

黏度 无资料。

其他信息

爆炸特性 不具有爆炸性。

氧化特性 可能加剧燃烧；氧化剂。

10. 稳定性和反应性

反应性 大大增加可燃物料的燃烧速率。

化学稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 接触禁配物。

禁配物 易燃材料。 还原剂。

危险的分解产物 没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入 持续的吸入可能是有害的。

皮肤接触 预计没有因皮肤接触导致的任何有害影响。

眼睛接触 造成严重眼损伤。

经口 预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。

毒理学效应信息

急性毒性 未知。

产品	物种	试验结果
PULP RIOT 40 VOLUME PREMIUM DEVELOPER		
急性的		
吸入		
蒸气		
ATEmix		93.54 mg/l
经口		
ATEmix		5634 mg/kg
经皮肤		
ATEmix		129500 mg/kg

组分	物种	试验结果
矿物油 (CAS 8042-47-5)

经皮肤		
LD50	兔子	> 2000 mg/kg OECD 402

皮肤腐蚀/刺激 由于部分或完全缺乏数据，不可能进行分类。 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

矿物油	OECD 404 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 404, 35% ≥ C < 50% 结果: 刺激性的 物种: 兔子 OECD 404, C ≥ 50% 结果: 腐蚀性的 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼损伤。

刺激性腐蚀性 - 眼睛

矿物油	OECD 405 结果: 非刺激性 物种: 兔子
过氧化氢	OECD 405, 5% ≥ C < 8% 结果: 刺激性的 物种: 兔子 OECD 405, C ≥ 8% 结果: 腐蚀性的 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物

矿物油	OECD 406 结果: Not Sensitizing 物种: 豚鼠
过氧化氢	结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 由于部分或完全缺乏数据，不可能进行分类。

突变性

矿物油	结果: 离体试验未见诱变效应
过氧化氢	结果: 离体试验表明有在活体试验中未观察到的诱变效应。

致癌性 尚不能确定对人有致癌作用。 由于部分或完全缺乏数据，不可能进行分类。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

矿物油 (CAS 8042-47-5)	3 尚不能确定对人有致癌作用。
过氧化氢 (CAS 7722-84-1)	3 尚不能确定对人有致癌作用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 由于部分或完全缺乏数据，不可能进行分类。

发育效应

矿物油	> 5000 mg/kg bw/d OECD 414, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

矿物油	>= 2000 mg/kg bw/d OECD 415, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 由于部分或完全缺乏数据，不可能进行分类。

过氧化氢	0, C ≥ 35% 结果: 刺激性的

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

矿物油	> 2000 mg/kg bw/d OECD 411, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D

特定目标器官系统毒性－重复接触

矿物油	> 50 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D >= 1200 mg/kg bw/d OECD 453, 经口 结果: NOAEL（未观察到有害效果的水平） 物种: 大鼠 测试时间: 2 年
过氧化氢	2.9 mg/L air OECD 412, 吸入 结果: NOAEL（未观察到有害效果的水平） 物种: 大鼠 测试时间: 28 D 26 mg/kg bw/d OECD 408, 经口 结果: NOAEL（未观察到有害效果的水平） 物种: 小鼠 测试时间: 90 D

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
矿物油 (CAS 8042-47-5)			
水生的			
急性的			
甲壳纲动物	EL50	水蚤	> 100 mg/l, 48 h OECD 202
藻类	无可观察到的效应剂量（NOEL）	近头状伪蹄形藻	> 100 mg/l, 72 h OECD 201
鱼	LL50	虹鳟鱼	> 100 mg/l, 96 h OECD 203
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	10 mg/l, 21 D OECD 211
过氧化氢 (CAS 7722-84-1)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	2.5 mg/l, 30 最小 OECD 209
甲壳纲动物	EC50	Daphnia pulex (水蚤)	2.4 mg/l, 48 h
藻类	EC50	普通小球藻	2.5 mg/l, 72 h OECD 201
鱼	LC50	呆鲦鱼	16.4 mg/l, 96 h
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	0.63 mg/l, 21 D ASTM E 1193-97

持久性和降解性

生物降解性

降解百分率（好氧生物降解）

矿物油	31 % OECD 301 F 结果: 不容易生物降解
过氧化氢	99 % OECD 209 结果: 易生物降解

潜在的生物累积性

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导	回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。
地方处置法规	按照所有适用的法规进行处置。
有害废物代码	本产品在处置时是可燃的（D001）RCRA危险废物.
残渣废料/未用掉的产品	按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。
污染包装物	容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

15. 法规信息

美国联邦法规 本产品在OSHA危险通信标准,29 CFR 1910.1200中被定义为“危险化学品”

Toxic Substances Control Act (TSCA)

TSCA第12（b）部分有关出口申报（40 CFR 707，D子项）

未受管制。

CERCLA危险物质清单（40 CFR 302.4）

不适用。

SARA 304 不测事件释放通知

HYDROGEN PEROXIDE (CONC.> 52%) (CAS 7722-84-1) 1000 磅

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

1986年基金修正再授权法案(SARA)

SARA 302 极危险物质

化学名称	登记号(CAS号)	Reportable quantity (pounds)	Threshold planning quantity (pounds)	临界计划量，lower value (pounds)	临界计划量，upper value (pounds)
过氧化氢	7722-84-1	1000	1000		

SARA 311/312 有害化学品 No (Exempt)

SARA 313 (TRI 报告)

未受管制。

其他联邦法规

清洁空气法案（CAA）第112条有害空气污染物（HAPs）清单

未受管制。

清洁空气法（CAA）第112(r)条款关于意外泄漏

未受管制。

饮用水安全法（SDWA） 未受管制。

16. 其他信息，包括编制日期或最新修订日期

最初编制日期 02-十二月-2020

版本号 01

NFPA分级 健康 3
可燃性 1
不稳定性: 0
特殊危害: OX

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT BARCELONA PURPLE TONING SHAMPOO**

Other means of identification

SDS number 00-11-0000428

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Specific target organ toxicity, repeated exposure	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes serious eye damage. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention Do not breathe mist/vapors. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
SODIUM COCOYL ISETHIONATE		61789-32-0	8.4
SODIUM LAUROYL SARCOSINATE		137-16-6	6
COCAMIDOPROPYLAMINE OXIDE		68155-09-9	3.7

Chemical name	Common name and synonyms	CAS number	%
COCONUT ACID		61788-47-4	1.3

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Prolonged exposure may cause chronic effects.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not breathe mist/vapors. Do not get this material in contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Skin protection	
Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
Other	Applicable for industrial settings only. Wear suitable protective clothing. Use of an impervious apron is recommended.
Respiratory protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state	Liquid.
Color	Violet
Odor	Characteristic.
Odor threshold	Not available.
pH	6 - 6.6
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212.0 °F (> 100.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.

Solubility(ies)

Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information

Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

COCAMIDOPROPYLAMINE OXIDE	OECD 404 Result: Slightly Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 404 Result: Slightly Irritating Species: Rabbit

Irritation Corrosion - Skin

SODIUM LAUROYL SARCOSINATE	OECD 404, 30% Sol. Result: Slightly Irritating Species: Rabbit
COCONUT ACID	Result: Not Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

COCAMIDOPROPYLAMINE OXIDE	OECD 405 Result: Corrosive Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 405 Result: Irritating Species: Rabbit
SODIUM LAUROYL SARCOSINATE	OECD 405, 30% Sol. Result: Irritating Species: Rabbit
COCONUT ACID	Result: Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

SODIUM LAUROYL SARCOSINATE	EU B.6 Result: Not Sensitizing Species: Guinea pig
COCAMIDOPROPYLAMINE OXIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
SODIUM COCOYL ISETHIONATE	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

SODIUM COCOYL ISETHIONATE	Result: In vitro tests did not show mutagenic effect
COCAMIDOPROPYLAMINE OXIDE	Result: In vitro tests did not show mutagenic effects
SODIUM LAUROYL SARCOSINATE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

SODIUM LAUROYL SARCOSINATE	>= 250 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOEL Species: Rat

Reproductivity

COCAMIDOPROPYLAMINE OXIDE	100 mg/kg bw/d OECD 421 Result: NOEL Species: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 421, Based on test data for structurally similar materials. Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure May cause damage to organs through prolonged or repeated exposure.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d >= 2070 mg/kg bw/d OECD 410, Dermal Result: NOAEL Species: Rat Test Duration: 28 d
COCAMIDOPROPYLAMINE OXIDE	15 mg/kg bw/d OECD 407 Result: NOEL Species: Rat Test Duration: 28 d
SODIUM LAUROYL SARCOSINATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Chronic effects May cause damage to organs through prolonged or repeated exposure.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT BARCELONA PURPLE TONING SHAMPOO
Synonyms	None.
SDS number	00-11-0000428
Issue date	07-23-2019
Version number	02
Revision date	09-10-2021
Supersedes date	07-23-2019

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes serious eye damage. Dangerous for the environment if discharged into watercourses. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: COCAMIDOPROPYLAMINE OXIDE, SODIUM LAUROYL SARCOSINATE

Hazard pictograms

Signal word Danger

Hazard statements

H318	Causes serious eye damage.
H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P260	Do not breathe vapor.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.

Storage Store away from incompatible materials.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 4,1% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 13,8% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
4.2. Most important symptoms and effects, both acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
4.3. Indication of any immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards	No unusual fire or explosion hazards noted.
5.1. Extinguishing media	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	During fire, gases hazardous to health may be formed.
5.3. Advice for firefighters	
Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Prevent product from entering drains. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Do not breathe vapor. Do not get this material in contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters	
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures	Follow standard monitoring procedures.
Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield.
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
- Other	Applicable for industrial settings only. Wear suitable protective clothing.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Violet
Odor	Characteristic.
Odor threshold	Not available.
pH	6 - 6,6
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye damage.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT BARCELONA PURPLE TONING SHAMPOO		
Acute		
Dermal		
ATEmix		147600 mg/kg
Oral		
ATEmix		11240 mg/kg

Components	Species	Test Results
CETRIMONIUM CHLORIDE (CAS 112-02-7)		
Acute		
Dermal		
LD50	Rabbit	528 mg/kg OECD 402
Oral		
LD50	Rat	699 mg/kg OECD 401
COCAMIDOPROPYL DIMETHYLAMINE (CAS 68140-01-2)		
Acute		
Oral		
LD50	Rat	200 - 2000 mg/kg
COCAMIDOPROPYLAMINE OXIDE (CAS 68155-09-9)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg OECD 402
Oral		
LD50	Rat	500 - 1000 mg/kg OECD 423
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE (CAS 65497-29-2)		
Acute		
Oral		
LD50	Rat	> 10000 mg/kg

Components	Species	Test Results
SODIUM COCOYL ISETHIONATE (CAS 61789-32-0)		
Acute		
Oral		
LD50	Rat	> 2000 mg/kg OECD 201
SODIUM LAUROYL SARCOSINATE (CAS 137-16-6)		
Acute		
Inhalation		
Aerosol		
LC50	Rat	0,05 - 0,5 mg/l, 4 h OECD 403
Oral		
LD50	Rat	> 5000 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

CETRIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit
COCAMIDOPROPYLAMINE OXIDE	OECD 404 Result: Slightly Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 404 Result: Slightly Irritating Species: Rabbit
SODIUM LAUROYL SARCOSINATE	OECD 404, 30% Sol. Result: Slightly Irritating Species: Rabbit
COCONUT ACID	Result: Not Irritating Species: Rabbit
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

CETRIMONIUM CHLORIDE	OECD 405 Result: Corrosive Species: Rabbit
COCAMIDOPROPYLAMINE OXIDE	OECD 405 Result: Corrosive Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 405 Result: Irritating Species: Rabbit
SODIUM LAUROYL SARCOSINATE	OECD 405, 30% Sol. Result: Irritating Species: Rabbit
COCONUT ACID	Result: Irritating Species: Rabbit
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	Result: Slightly Irritating Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

SODIUM LAUROYL SARCOSINATE	EU B,6 Result: Not Sensitizing Species: Guinea pig
CETRIMONIUM CHLORIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
COCAMIDOPROPYLAMINE OXIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
SODIUM COCOYL ISETHIONATE	OECD 406 Result: Not Sensitizing Species: Guinea pig
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

SODIUM COCOYL ISETHIONATE	Result: In vitro tests did not show mutagenic effect
CETRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects
COCAMIDOPROPYLAMINE OXIDE	Result: In vitro tests did not show mutagenic effects
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects
SODIUM LAUROYL SARCOSINATE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

SODIUM LAUROYL SARCOSINATE	>= 250 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOEL Species: Rat

Reproductivity

COCAMIDOPROPYLAMINE OXIDE	100 mg/kg bw/d OECD 421 Result: NOEL Species: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 421, Based on test data for structurally similar materials. Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d >= 2070 mg/kg bw/d OECD 410, Dermal Result: NOAEL Species: Rat Test Duration: 28 d
CETRIMONIUM CHLORIDE	100 mg/kg bw/d OECD 407 Result: NOEAL Species: Rat Test Duration: 28 d
COCAMIDOPROPYLAMINE OXIDE	15 mg/kg bw/d OECD 407 Result: NOEL Species: Rat Test Duration: 28 d
SODIUM LAUROYL SARCOSINATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Harmful to aquatic life with long lasting effects. Based on available data, the classification criteria are not met for hazardous to the aquatic environment, acute hazard.

Components		Species	Test Results
CETRIMONIUM CHLORIDE (CAS 112-02-7)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0,08 mg/l, 72 hours OECD 201
Crustacea	EC50	Daphnia magna	0,09 mg/l, 48 hours OECD 202
Fish	LC50	Danio rerio	0,19 - 0,29 mg/l, 96 hours OECD 203
Other	EC50	Pseudomonas putida	0,96 mg/l, 16 hours DIN 38412; Pt. 8
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	0,04 mg/l, 72 hours OECD 201
Crustacea	NOEC	Daphnia magna	0,0068 mg/l, 21 day OECD 211
Fish	NOEC	Pimephales promelas	0,032 mg/l, 28 day US FIFRA 72-4(a)
COCAMIDOPROPYLAMINE OXIDE (CAS 68155-09-9)			
Aquatic			
Acute			
Algae	EC50	Algae	> 500 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	46 mg/l, 48 h OECD 202
Fish	LC50	Leuciscus idus	5,9 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	6500 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Algae	16 mg/l, 72 h OECD 201
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE (CAS 65497-29-2)			
Aquatic			
Acute			
Crustacea	EC50	Daphnia magna	100 mg/l, 48 h
Fish	LC50	Oncorhynchus mykiss	0,39 - 1,22 mg/l, 96 h
SODIUM COCOYL ISETHIONATE (CAS 61789-32-0)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	1 - 10 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	10 - 100 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	10 - 100 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h OECD 209
Chronic			
Algae	EC10	Pseudokirchneriella subcapitata	0,1 - 1 mg/l, 72 h OECD 201
SODIUM LAUROYL SARCOSINATE (CAS 137-16-6)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	23,7 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	8,91 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	32,1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h OECD 209

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

CETRIMONIUM CHLORIDE	93,5 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
COCAMIDOPROPYLAMINE OXIDE	93 % OECD 301 A Result: Readily Biodegradable Test Duration: 28 d

Biodegradability

Percent degradation (Aerobic biodegradation)

GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	< 60 % OECD 301 Result: Not Readily Biodegradable Test Duration: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d
SODIUM LAUROYL SARCOSINATE	82 % ISO 14593 Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

CETRIMONIUM CHLORIDE	3,23
COCAMIDOPROPYLAMINE OXIDE	2,11 OECD 107
SODIUM COCOYL ISETHIONATE	-0,41

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H301 Toxic if swallowed. H302 Harmful if swallowed. H311 Toxic in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H318 Causes serious eye damage. H319 Causes serious eye irritation. H330 Fatal if inhaled. H373 May cause damage to organs through prolonged or repeated exposure. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT BARCELONA PURPLE TONING SHAMPOO**

Autres moyens d'identification

Numéro de la FDS 00-11-0000428

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 1
Toxicité pour certains organes cibles - expositions répétées	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Provoque de graves lésions des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Conseil de prudence

Prévention Ne pas respirer les brouillards/vapeurs. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
SODIUM COCOYL ISETHIONATE		61789-32-0	8.4

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
Laurylsarcosinate de sodium		137-16-6	6
COCAMIDOPROPYLAMINE OXIDE		68155-09-9	3.7
COCONUT ACID		61788-47-4	1.3

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Une exposition prolongée peut causer des effets chroniques.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Ne pas respirer les brouillards/vapeurs. Éviter tout contact de ce produit avec les yeux. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Valeurs biologiques limites	Aucune limite d'exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques
Autre	Pour usage industriel seulement. Porter un vêtement de protection approprié. Il est recommandé d'utiliser un tablier imperméable.
Protection respiratoire	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Couleur	Violet
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	6 - 6.6
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.

Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	On ne s'attend à aucun effet néfaste en cas d'inhalation.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Corrosion cutanée/irritation cutanée La classification n'est pas possible en raison d'un manque partiel ou total de données. On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

COCAMIDOPROPYLAMINE OXIDE	OCDE 404 Résultat: Légèrement Irritant Espèces: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 404 Résultat: Légèrement Irritant Espèces: Lapin
Laurylsarcosinate de sodium	OCDE 404, 30% Sol. Résultat: Légèrement Irritant Espèces: Lapin
COCONUT ACID	Résultat: Non Irritant Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque de graves lésions des yeux.

Irritation- corrosion - Œil

COCAMIDOPROPYLAMINE OXIDE	OCDE 405 Résultat: Corrosif Espèces: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 405 Résultat: Irritant Espèces: Lapin
Laurylsarcosinate de sodium	OCDE 405, 30% Sol. Résultat: Irritant Espèces: Lapin
COCONUT ACID	Résultat: Irritant Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire La classification n'est pas possible en raison d'un manque partiel ou total de données.

Sensibilisation cutanée La classification n'est pas possible en raison d'un manque partiel ou total de données.

Sensibilisation cutanée

Laurylsarcosinate de sodium	EU B.6 Résultat: Non Sensibilisant Espèces: Cobaye
COCAMIDOPROPYLAMINE OXIDE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
SODIUM COCOYL ISETHIONATE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye

Mutagénicité sur les cellules germinales La classification n'est pas possible en raison d'un manque partiel ou total de données.

Mutagénicité

SODIUM COCOYL ISETHIONATE	Résultat: In vitro tests did not show mutagenic effect
COCAMIDOPROPYLAMINE OXIDE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
Laurylsarcosinate de sodium	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme. La classification n'est pas possible en raison d'un manque partiel ou total de données.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction La classification n'est pas possible en raison d'un manque partiel ou total de données.

Effets sur le développement

Laurylsarcosinate de sodium	>= 250 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSEO Espèces: Rat

Reproductivité

COCAMIDOPROPYLAMINE OXIDE	100 mg/kg bw/d OCDE 421 Résultat: DSEO Espèces: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 421, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique La classification n'est pas possible en raison d'un manque partiel ou total de données.

Toxicité pour certains organes cibles - expositions répétées Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OCDE 407, Orale Résultat: DSENO Espèces: Rat Durée du test: 28 d >= 2070 mg/kg bw/d OECD 410, Cutané Résultat: DSENO Espèces: Rat Durée du test: 28 d
COCAMIDOPROPYLAMINE OXIDE	15 mg/kg bw/d OCDE 407 Résultat: DSEO Espèces: Rat Durée du test: 28 d
Laurylsarcosinate de sodium	250 mg/kg bw/d OCDE 408, Orale Résultat: DSENO Espèces: Rat Durée du test: 90 d

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Effets chroniques Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

COCAMIDOPROPYLAMINE OXIDE	93 % OCDE 301 A Résultat: Facilement Biodegradable Durée du test: 28 d
Laurylsarcosinate de sodium	82 % ISO 14593 Résultat: Facilement Biodegradable Durée du test: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Résultat: Facilement Biodegradable Durée du test: 28 d

Potentiel de bioaccumulation

Log Koe du coefficient de répartition octanol/eau

COCAMIDOPROPYLAMINE OXIDE	2.11 OECD 107
SODIUM COCOYL ISETHIONATE	-0.41

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés	Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).
Emballages contaminés	Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis

Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux	No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre)	Non réglementé.

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	10-Septembre-2021

Date de la révision	10-Septembre-2021
Version n°	02
Classements NFPA	Santé: 3 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.
Informations relatives à la révision	Des modifications importantes ont été apportées à ce document et il devrait donc être relu entièrement.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT BARCELONA PURPLE TONING SHAMPOO
Sinonimi	Nessuno.
Numero SDS	00-11-0000428
Data di pubblicazione	10-Settembre-2021
Numero della versione	02
Data di revisione	10-Settembre-2021
Data di sostituzione	10-Settembre-2021

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

CAV "Osp. Pediatrico Bambino Gesù" - 06 68593726

Az. Osp. Univ. Foggia - 0881-732326

Az. Osp. "a. Cardarelli" - 081-7472870

CAV Policlinico "Umberto I" - 06-49978000

CAV Policlinio "A. Gemelli" - 06-3054343

Az. Osp. "Careggi" U.O. Tossicologia - 055-7947819

CAV C.N.I.T. di Pavia - 0382-24444

Osp. Niguarda Ca' Granda - 02-66101029

Azienda Ospedaliera Papa Giovanni XXII - 800883300

(Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli per la salute

Gravi danni oculari/irritazione oculare	Categoria 1	H318 - Provoca gravi lesioni oculari.

Pericoli per l'ambiente

Pericoloso per l'ambiente acquatico, pericolo acquatico a lungo termine	Categoria 3	H412 - Nocivo per gli organismi acquatici con effetti di lunga durata.

Riepilogo dei pericoli Provoca gravi lesioni oculari. Pericoloso per l'ambiente se scaricato nei corsi d'acqua. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: COCAMIDOPROPYLAMINE OXIDE, Lauroil sarcosinato di sodio

Pittogrammi di pericolo

Avvertenza Pericolo

Indicazioni di pericolo

H318 Provoca gravi lesioni oculari.
H412 Nocivo per gli organismi acquatici con effetti di lunga durata.

Consigli di prudenza

Prevenzione

P102 Tenere fuori dalla portata dei bambini.
P103 Leggere l'etichetta prima dell'uso.
P260 Non respirare il vapore.
P273 Non disperdere nell'ambiente.
P280 Proteggere gli occhi.

Reazione

P101 In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P305 + P351 + P338 IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P310 Contattare immediatamente un CENTRO ANTIVELENI/un medico.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento

P501 Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 4,1 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico. La miscela contiene il 13,8 % di componenti di cui è ignoto il pericolo a lungo termine per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Denominazione chimica	%	Numero CAS / Numero CE	Numero di registrazione REACH	Numero della sostanza	Note
SODIUM COCOYL ISETHIONATE	8,4	61789-32-0 263-052-5	01-2119974104-40	-	
Classificazione: Eye Irrit. 2;H319, Aquatic Chronic 3;H412

Classificazione: Acute Tox. 3;H301					
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	0,1	65497-29-2 613-809-4	-	-	
Classificazione: Aquatic Acute 1;H400, Aquatic Chronic 1;H410					

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Consultare immediatamente un medico.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO_2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non respirare il vapore. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.

Per chi interviene direttamente Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS

6.2. Precauzioni ambientali	Non disperdere nell'ambiente. Informare il personale di gestione o di supervisione di tutte le emissioni nell'ambiente. Evitare sversamenti o perdite supplementari, se questo può essere fatto senza pericolo. Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.
6.3. Metodi e materiali per il contenimento e per la bonifica	Non scaricare il prodotto nelle fogne. Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua. Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua. Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo
6.4. Riferimento ad altre sezioni	Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura	Non respirare il vapore. Non permettere che questo materiale vada a contatto con gli occhi. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Non disperdere nell'ambiente. Osservare le norme di buona igiene industriale.
7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità	Conservare in un recipiente ermeticamente chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).
7.3. Usi finali particolari	Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale	Nessun valore limite di esposizione annotato per l'ingrediente/gli ingredienti.
Valori limite biologici	Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.
Procedure di monitoraggio raccomandate	Seguire le procedure standard di monitoraggio.
Livelli derivati senza effetto (DNEL)	Non conosciuto.
Prevedibili concentrazioni prive di effetti (PNEC)	Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei	È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali	Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.
Protezione degli occhi/del volto	Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).
Protezione della pelle	
- Protezione delle mani	Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici.
- Altro	Applicabile soltanto per gli impianti industriali. Usare indumenti protettivi adatti.
Protezione respiratoria	Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.
Pericoli termici	Indossare opportuni indumenti termoprotettivi, quando necessario.
Misure d'igiene	Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.
Controlli dell'esposizione ambientale	Informare il personale di gestione o di supervisione di tutte le emissioni nell'ambiente.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto	
Stato fisico	Liquido.
Forma	Non conosciuto.
Colore	Viola
Odore	Caratteristico/a.
Soglia olfattiva	Non conosciuto.
pH	6 - 6,6
Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Forti agenti ossidanti.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	Non si prevedono effettivi negativi per inalazione.
Cutanea	Non sono previsti effetti nocivi dovuti al contatto con la pelle.
Contatto con gli occhi	Provoca gravi lesioni oculari.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.

Sintomi Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta Non conosciuto.

12.2. Persistenza e degradabilità

Biodegradabilità

Percentuale di degradazione (biodegradazione aerobica)

CETRIMONIUM CHLORIDE	93,5 % OECD 301 B Risultato: Rapidamente biodegradabile Durata del test: 28 d
COCAMIDOPROPYLAMINE OXIDE	93 % OECD 301 A Risultato: Rapidamente biodegradabile Durata del test: 28 d
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	< 60 % OECD 301 Risultato: Not Readily Biodegradable Durata del test: 28 d
Lauroil sarcosinato di sodio	82 % ISO 14593 Risultato: Rapidamente biodegradabile Durata del test: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Risultato: Rapidamente biodegradabile Durata del test: 28 d

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow)

CETRIMONIUM CHLORIDE	3,23
COCAMIDOPROPYLAMINE OXIDE	2,11 OECD 107
SODIUM COCOYL ISETHIONATE	-0,41

12.4. Mobilità nel suolo Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB Non è una sostanza o miscela PBT o vPvB.

12.6. Altri effetti avversi Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

12.7. Altre informazioni The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui	Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).
Imballaggi contaminati	Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.
Codice Europeo dei Rifiuti	Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.
Metodi di smaltimento/informazioni	Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Impedire a questo prodotto di penetrare nelle fogne e nelle riserve d'acqua. Non contaminare stagni, canali o fossati con il prodotto chimico o il contenitore usato. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.
Precauzioni particolari	Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

ADR

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

IATA

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

IMDG

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. - 14.6.: Non è regolamentato come merci pericolose.

14.7. Trasporto di rinfuse secondo l'allegato II di MARPOL ed il codice IBC	Non stabilito.

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

Non listato.

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H301 Tossico se ingerito. H302 Nocivo se ingerito. H311 Tossico per contatto con la pelle. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H315 Provoca irritazione cutanea. H318 Provoca gravi lesioni oculari. H319 Provoca grave irritazione oculare. H330 Letale se inalato. H373 Può provocare danni agli organi in caso di esposizione prolungata o ripetuta. H400 Molto tossico per gli organismi acquatici. H410 Molto tossico per gli organismi acquatici con effetti di lunga durata. H412 Nocivo per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Questo documento è stato sottoposto a significative modifiche e deve essere interamente ricontrollato.
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo. Questo documento viene fornito nonostante questo prodotto non richieda per legge una scheda di sicurezza. Lo scopo di questa informazione è di permettere agli operatori interessati di mettere in atto, se necessario, misure di protezione adeguate riguardo le modalità di stoccaggio, la manipolazione ed il trasporto dei prodotti in modo da garantire la protezione dei lavoratori.

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT HAIR PLUMPER**

Other means of identification

SDS number 30-19-0000057

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

US Address:
L'Oreal USA Products, Inc
133 Terminal Avenue
Clark, NJ 07066
USA

Canadian Address:
L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent, H4T 1K5
Canada

Emergency Phone # :
1-800-535-5053 (International: 352-323-3500)
In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards	Flammable liquids	Category 3
Health hazards	Serious eye damage/eye irritation	Category 2A
OSHA defined hazards	Not classified.	

Label elements

Signal word Warning

Hazard statement Flammable liquid and vapor. Causes serious eye irritation.

Precautionary statement

Prevention Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wash thoroughly after handling. Wear protective gloves/eye protection/face protection.

Response If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. In case of fire: Use appropriate media to extinguish.

Storage Store in a well-ventilated place. Keep cool.

Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
ETHANOL		64-17-5	6
AMINOMETHYL PROPANOL		124-68-5	1.14

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	Flammable liquid and vapor.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid contact with eyes. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Keep away from heat, sparks and open flame. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Keep out of the reach of children. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value
ETHANOL (CAS 64-17-5)	PEL	1900 mg/m3
		1000 ppm

US. ACGIH Threshold Limit Values

Components	Type	Value
ETHANOL (CAS 64-17-5)	STEL	1000 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
ETHANOL (CAS 64-17-5)	TWA	1900 mg/m3
		1000 ppm

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Explosion-proof general and local exhaust ventilation. Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection

Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection

Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other

Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection

Applicable for industrial settings only. If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	Not applicable.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 95 °F (> 35 °C)
Flash point	132.8 °F (56.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.

Ingestion Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT HAIR PLUMPER		
Acute		
Dermal		
ATEmix		2e+007 mg/kg

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

AMINOMETHYL PROPANOL	Draize Test Result: Irritating Species: Rabbit
ETHANOL	OECD 404 Result: Not Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

AMINOMETHYL PROPANOL	Draize Test Result: Corrosive Species: Rabbit
ETHANOL	OECD 405 Result: Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

AMINOMETHYL PROPANOL	OECD 406 Result: Not Sensitizing Species: Guinea pig

Skin sensitization

ETHANOL	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

AMINOMETHYL PROPANOL	Result: In vitro and in vivo tests did not show mutagenic effects.
ETHANOL	Result: In vitro and in vivo tests did not show mutagenic effects.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Possible reproductive hazard.

Developmental effects

ETHANOL	> 20000 ppm OECD 414, No effects on development Result: NOAEL Species: Rat
AMINOMETHYL PROPANOL	300 mg/kg bw/d OECD 414 Result: NOEL Species: Rat

Reproductivity

AMINOMETHYL PROPANOL	100 mg/kg bw/d OECD 421 Result: NOEL Species: Rat
ETHANOL	20700 mg/kg bw/d OECD 416, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

AMINOMETHYL PROPANOL	0, Respiratory Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

ETHANOL	1730 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
AMINOMETHYL PROPANOL (CAS 124-68-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	520 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	193 mg/l, 48 h
Fish	LC50	Lepomis macrochirus	190 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	342.9 mg/l, 3 h OECD 209

Components		Species	Test Results
ETHANOL (CAS 64-17-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	22200 mg/l, 96 h
Crustacea	EC50	Ceriodaphnia dubia	5012 mg/l, 48 h
Fish	LC50	Pimephales promelas	15300 mg/l, 96 h
Other	IC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h
Chronic			
Crustacea	NOEC	Daphnia magna	9.6 mg/l, 9 d
Fish	NOEC	Danio rerio	250 mg/l, 120 h OECD 212

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

AMINOMETHYL PROPANOL	40 % OECD 301 D Result: Not Readily Biodegradable Test Duration: 28 d
ETHANOL	84 % Result: Readily Biodegradable Test Duration: 20 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

ETHANOL	-0.31

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code This product is ignitable (D001) RCRA hazardous wastes when intended for disposal.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

Materials associated with this document meet the criteria for US Department of Transportation exemption found at 49 CFR 173.150(g).

Packages containing limited quantities of retail products in volumes in accordance with the tables listed below maybe offered under the conditions of the exemption.

US Domestic Transportation

Per 49 CFR 173.150(g) exemptions:

	>70% Ethyl Alcohol (v/v) (w/w)			
	Inner Packaging	Net Contents	Gross Weight	Marking
Liquids	8 fl. oz.	192 fl. oz.	65 lbs.	None
	≤70% Ethyl Alcohol (v/v) (w/w)			
Liquids (glass)	8 fl. oz.	192 fl. oz.	65 lbs.	None
	16 fl. oz.	192 fl. oz.	65 lbs.	Contains Ethyl Alcohol
Liquids (non-glass)	16 fl. oz.	192 fl. oz.	65 lbs.	None
	1 gallon	192 fl. oz.	65 lbs.	Contains Ethyl Alcohol
	General Conditions			
	Inner packagings must be secured and cushioned within the outer package to prevent breakage, leakage and movement.

The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT SEMI-PERMANENT COLOR - GROUP 10**

Other means of identification

SDS number 00-22-0000164

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Serious eye damage/eye irritation Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
GLYCERIN		56-81-5	2
STEARALKONIUM CHLORIDE		122-19-0	1.41
GLYCERYL STEARATE		31566-31-1	1.02

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	3 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Shaded

Odor Characteristic.

Odor threshold Not available.

pH 3 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	0.98 - 0.999 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes serious eye irritation. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: STEARALKONIUM CHLORIDE

Hazard pictograms

Signal word Warning

Hazard statements

H319	Causes serious eye irritation.
H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 1,02% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. EUH208 - Contains BASIC ORANGE 31. May produce an allergic reaction.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
STEARALKONIUM CHLORIDE	1,41	122-19-0 204-527-9	01-2120769734-41	-

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
4.2. Most important symptoms and effects, both acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
4.3. Indication of any immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards	No unusual fire or explosion hazards noted.
5.1. Extinguishing media	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	During fire, gases hazardous to health may be formed.
5.3. Advice for firefighters	
Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Prevent product from entering drains. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	10 mg/m3	

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	VME	10 mg/m3	Aerosol.

Regulatory status: Indicative limit (VL)

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	200 mg/m3	Inhalable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
CETYL ALCOHOL (CAS 36653-82-4)	AGW	200 mg/m3	Vapor and aerosol.
		20 ppm	Vapor and aerosol.
GLYCERIN (CAS 56-81-5)	AGW	200 mg/m3	Inhalable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	3 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Inhalable fraction.
PROPYLENE GLYCOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalable fraction and vapor.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	10 mg/m3	

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other	Applicable for industrial settings only. Wear suitable protective clothing.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Shaded
Odor	Characteristic.
Odor threshold	Not available.
pH	3 - 4,5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

9.2. Other information

Density	0,98 - 0,999 g/cm³

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

BASIC ORANGE 31	-2,13 OECD 107
BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69
HC BLUE NO. 15	3,47 OECD 117
STEARALKONIUM CHLORIDE	3,23

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number UN3082

14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (STEARALKONIUM CHLORIDE)
14.3. Transport hazard class(es)	
Class	9
Label(s)	9
Hazard No. (ADR)	90
Tunnel restriction code	E
14.4. Packing group	III
14.5. Environmental hazards	Yes
14.6. Special precautions for user	Not available.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number	UN3082
14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (STEARALKONIUM CHLORIDE)
14.3. Transport hazard class(es)	
Class	9
14.4. Packing group	III
14.5. Environmental hazards	Yes
ERG Code	9L
14.6. Special precautions for user	Not available.
Other information	
Passenger and cargo aircraft	Allowed with restrictions.
Cargo aircraft only	Allowed with restrictions.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number	UN3082
14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (STEARALKONIUM CHLORIDE), MARINE POLLUTANT
14.3. Transport hazard class(es)	
Class	9
14.4. Packing group	III
14.5. Environmental hazards	
Marine pollutant	Yes
EmS	F-A, S-F
14.6. Special precautions for user	Not available.
14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.
General information	IMDG Regulated Marine Pollutant. Packagings containing a net quantity per single package or inner packaging of 5L or less are not subject transportation restrictions except for general packing provisions.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

DIDECYLDIMONIUM CHLORIDE (CAS 7173-51-5)

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

STEARALKONIUM CHLORIDE (CAS 122-19-0)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H373 May cause damage to organs through prolonged or repeated exposure. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SICHERHEITSDATENBLATT

ABSCHNITT 1: Bezeichnung des Stoffs bzw. des Gemischs und des Unternehmens

1.1. Produktidentifikator

Handelsname oder Bezeichnung des Gemischs	PULP RIOT SEMI-PERMANENT COLOR - Gruppe 10
Synonyme	Keine.
SDS-Nummer	00-22-0000164
Ausgabedatum	01-Dezember-2020
Überarbeitungsnummer	01

1.2. Relevante identifizierte Verwendungen des Stoffs oder Gemischs und Verwendungen, von denen abgeraten wird

Identifizierte Verwendungen	Körperpflegeprodukt zur kosmetischen Verwendung.
Verwendungen, von denen abgeraten wird	Unbekannt.

1.3. Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Kontaktperson

Firmenname	L'ORÉAL SA
Anschrift	14, rue royale 75008 - Paris Frankreich
Telefonnummer	+1 732 499 2745
E-Mail-Adresse	nacorpeuropesdsrequest@loreal.com

1.4. Notrufnummer

Frankreich Nationaler Giftnotruf	ORFILA Nummer (INRS): + 33 (0) 1 45 42 59 59 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)
INFOTRAC	+1 352-323-3500 (24 Stunden täglich zugänglich. SDB-/Produktinformationen stehen für den Notdienst eventuell nicht zur Verfügung.)

ABSCHNITT 2: Mögliche Gefahren

2.1. Einstufung des Stoffs oder Gemischs

Das Gemisch wurde auf seine physikalischen, gesundheitlichen und Umweltgefahren bewertet und/oder getestet. Es gilt die nachfolgende Einstufung.

Einstufung gemäß der (EG) Verordnung 1272/2008 in der geänderten Fassung

Gesundheitsgefahren		
Schwere Augenschädigung/Augenreizung	Kategorie 2	H319 - Verursacht schwere Augenreizung.
Umweltgefahren		
Gewässergefährdend, langfristig gewässergefährdend	Kategorie 3	H412 - Schädlich für Wasserorganismen, mit langfristiger Wirkung.

Gefahrenübersicht

Verursacht schwere Augenreizung. Beim Eindringen in Wasserwege umweltgefährdend. Die Exposition am Arbeitsplatz gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen. Dies ist ein Reinigungsprodukt, das für Konsumenten sicher ist, wenn es gemäß den auf dem Etikett angegebenen Vorschriften verwendet wird. Wie bei allen Konsumprodukten können bei einer geringen Zahl von Menschen Reaktionen wie Hautröte, Ausschlag und / oder Schwellungen nach längerem oder wiederholtem Haut- oder Augenkontakt auftreten.

2.2. Kennzeichnungselemente

Kennzeichnung gemäß der Verordnung (EG) Nr. 1272/2008 in der geänderten Fassung

Enthält: STEARALKONIUMCHLORID

Gefahrenpiktogramme

Signalwort Achtung

Gefahrenhinweise

H319 Verursacht schwere Augenreizung.
H412 Schädlich für Wasserorganismen, mit langfristiger Wirkung.

Sicherheitshinweise

Prävention

P102 Darf nicht in die Hände von Kindern gelangen.
P103 Vor Gebrauch Kennzeichnungsetikett lesen.
P264 Nach Gebrauch gründlich waschen.
P273 Freisetzung in die Umwelt vermeiden.
P280 Augenschutz/Gesichtsschutz tragen.

Reaktion

P101 Ist ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten.
P305 + P351 + P338 BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Eventuell vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
P337 + P313 Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Lagerung Nicht in der Nähe von inkompatiblen Materialien lagern.

Entsorgung

P501 Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.

Zusätzliche Angaben auf dem Etikett 1,02 % der Mischung besteht aus Komponenten mit unbekannten akuten Gefahren für die aquatische Umwelt. EUH208 - Enthält BASIC ORANGE 31. Kann allergische Reaktionen hervorrufen.

2.3. Sonstige Gefahren Kein PBT- oder vPvB-Gemisch oder Stoff.

ABSCHNITT 3: Zusammensetzung/Angaben zu Bestandteilen

3.2. Gemische

Allgemeine Angaben

Chemische Bezeichnung	%	CAS-Nr. / EG-Nummer	REACH-Registrierungsnummer	Index-Nr.	Hinweise
STEARALKONIUMCHLORID	1,41	122-19-0 204-527-9	01-2120769734-41	-	
Einstufung:	Acute Tox. 4;H302, Eye Dam. 1;H318, Aquatic Acute 1;H400(M=10), Aquatic Chronic 1;H410				
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	0,74	65497-29-2 613-809-4	-	-	
Einstufung:	Aquatic Acute 1;H400, Aquatic Chronic 1;H410				
BASIC RED 51	≤ 0,4	77061-58-6 278-601-4	01-2120820886-46	-	
Einstufung:	Acute Tox. 4;H302, Eye Irrit. 2;H319, Aquatic Acute 1;H400, Aquatic Chronic 1;H410				
BASIC YELLOW 87	≤ 0,2	68259-00-7 269-503-2	01-2120817619-46	-

BASIC ORANGE 31	≤ 0,1	97404-02-9 306-764-4	01-2120817620-63	-	
Einstufung:	Acute Tox. 4;H302, Skin Sens. 1B;H317, Eye Dam. 1;H318, Aquatic Chronic 2;H411				
HC BLUE NO. 15	≤ 0,1	74578-10-2 277-929-5	-	-	
Einstufung:	Eye Dam. 1;H318, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 1;H410				
DIDECYLDIMONIUM CHLORIDE	0,01	7173-51-5 230-525-2	01-2119945987-15	612-131-00-6	
Einstufung:	Acute Tox. 4;H302, Skin Corr. 1B;H314, Eye Dam. 1;H318, Aquatic Acute 1;H400(M=10), Aquatic Chronic 2;H411				

Liste mit Abkürzungen und Symbolen, die möglicherweise vorstehend verwendet wurden

#: Für diesen Stoff gibt es einen Grenzwert bzw. Grenzwerte der Union für die Exposition am Arbeitsplatz.
M: M-Faktor
PBT: Persistente, bioakkumulierbare und toxische Substanz.
vPvB: Sehr persistente und sehr bioakkumulierbare Substanz.
Alle Konzentrationen sind in Gewichtsprozent angegeben, sofern der Inhaltsstoff kein Gas ist. Gaskonzentrationen werden in Volumenprozent angegeben.

Weitere Kommentare Der volle Wortlaut für alle H-Sätze wird in Abschnitt 16 angegeben.

ABSCHNITT 4: Erste-Hilfe-Maßnahmen

Allgemeine Angaben Sicherstellen, dass medizinisches Personal sich der betroffenen Materialien bewusst ist und Schutzvorkehrungen trifft.

4.1. Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen An die frische Luft bringen. Einen Arzt rufen, falls Symptome auftreten oder anhalten sollten.

Hautkontakt Mit Wasser und Seife abwaschen. Ärztliche Hilfe hinzuziehen, wenn sich Reizung entwickelt und anhält.

Augenkontakt Augen sofort für 15 Minuten mit reichlich Wasser ausspülen. Ggf. Kontaktlinsen herausnehmen, wenn dies einfach möglich ist. Mit dem Auswaschen fortfahren. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Verschlucken Mund ausspülen. Ärztliche Hilfe hinzuziehen, wenn Symptome auftreten.

4.2. Wichtigste akute und verzögert auftretende Symptome und Wirkungen Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen.

4.3. Hinweise auf ärztliche Soforthilfe oder Spezialbehandlung Allgemeine Unterstützungsmaßnahmen und symptomatische Behandlung sind angezeigt. Betroffene Person unter Beobachtung halten. Die Symptome können verzögert auftreten.

ABSCHNITT 5: Maßnahmen zur Brandbekämpfung

Allgemeine Brandgefahren Keine Angaben über ungewöhnliche Brand- oder Explosionsgefahr.

5.1. Löschmittel

Geeignete Löschmittel Wassernebel. Schaum. Trockenpulver. Kohlendioxid (CO_2).

Ungeeignete Löschmittel Zum Löschen keinen Wasserstrahl verwenden, da das Feuer dadurch verteilt werden kann.

5.2. Besondere vom Stoff oder Gemisch ausgehende Gefahren Im Brandfall können sich gesundheitsschädliche Gase entwickeln.

5.3. Hinweise für die Brandbekämpfung

Besondere Schutzausrüstung für die Brandbekämpfung Im Brandfall schweres Atemschutzgerät und komplette Schutzausrüstung tragen.

Besondere Verfahren zur Brandbekämpfung Behälter aus dem Brandbereich entfernen, soweit dies ohne Gefahr möglich ist.

Besondere Löschhinweise Gewöhnliche Brandbekämpfungsmaßnahmen einsetzen; dabei Gefahren durch andere beteiligte Materialien berücksichtigen.

ABSCHNITT 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1. Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Nicht für Notfälle geschultes Personal Unnötiges Personal fernhalten. Personen fernhalten und auf windzugewandter Seite bleiben. Während der Entsorgung geeignete Schutzkleidung und -ausrüstung tragen. Beschädigte Behälter oder ausgetretenes Material nur berühren, wenn geeignete Schutzkleidung getragen wird. Für angemessene Lüftung sorgen. Wenn größere Mengen verschütteten Materials nicht eingedämmt werden können, sollen die lokalen Behörden benachrichtigt werden. Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB.

Einsatzkräfte Unnötiges Personal fernhalten. Empfohlenen persönlichen Schutz verwenden, wie in Abschnitt 8 im SDB empfohlen.

6.2. Umweltschutzmaßnahmen Freisetzung in die Umwelt vermeiden. Zuständigen Geschäftsführer oder Bereichsleiter über alle Freisetzungen in die Umwelt informieren. Weiteres Auslaufen oder Verschütten verhindern, wenn dies ohne Gefahr möglich ist. Eindringen in die Kanalisation, den Boden oder Wasserwege vermeiden.

6.3. Methoden und Material für Rückhaltung und Reinigung Vorsorge treffen, daß das Produkt nicht in die Kanalisation gelangt.

Große ausgelaufene Mengen: Falls nicht risikoträchtig, Materialfuss stoppen. Falls möglich, verschüttetes Material eindämmen. Mit Vermiculit, trockenem Sand oder Erde aufnehmen und in Behälter füllen. Nach dem Entfernen des Produkts den Bereich mit Wasser spülen.

Kleine Austrittsmengen: Mit saugfähigem Material (z.B. Lappen, Vlies) aufwischen. Oberflächen gründlich reinigen, um Kontaminationsrückstände zu entfernen.

Verschüttetes Produkt nie in den Orginalbehälter zwecks Wiederverwertung geben.

6.4. Verweis auf andere Abschnitte Für persönliche Schutzmaßnahmen, siehe Abschnitt 8 im SDB. Für Abfallentsorgung siehe Abschnitt 13 im SDB.

ABSCHNITT 7: Handhabung und Lagerung

7.1. Schutzmaßnahmen zur sicheren Handhabung

Berührung mit den Augen vermeiden. Längeren Kontakt vermeiden. Für ausreichend Belüftung sorgen. Geeignete persönliche Schutzausrüstung tragen. Freisetzung in die Umwelt vermeiden. Anerkannte industrielle Hygienemaßnahmen beachten.

7.2. Bedingungen zur sicheren Lagerung unter Berücksichtigung von Unverträglichkeiten

In einem dicht verschlossenen Behälter aufbewahren. Darf nicht in die Hände von Kindern gelangen. Von unverträglichen Stoffen fernhalten (Siehe Abschnitt 10 des SDB's).

7.3. Spezifische Endanwendungen

Steht nicht zur Verfügung.

ABSCHNITT 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstungen

8.1. Zu überwachende Parameter

Grenzwerte für berufsbedingte Exposition

Belgien. Expositionsgrenzwerte.

Komponenten	Typ	Wert	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Nebel.
GLYCERIN-1-STEARAT (CAS 31566-31-1)	TWA	10 mg/m3	

Frankreich. Grenzschwellenwerte (VLEP) für berufsbedingte Exposition gegenüber Chemikalien in Frankreich, INRS ED 984

Komponenten	Typ	Wert	Form
GLYCERIN (CAS 56-81-5)	VME	10 mg/m3	Aerosol

Gesetzliche Regelung: Richtgrenzwert (VL)

Deutschland. DFG-MAK Liste (empfohlene Arbeitsplatzgrenzwerte). Kommission zur Untersuchung gesundheitlicher Gefahren durch chemische Verbindungen im Arbeitsbereich (DFG)

Komponenten	Typ	Wert	Form
GLYCERIN (CAS 56-81-5)	TWA	200 mg/m3	Einatembare Fraktion.

Deutschland. TRGS 900, Grenzwerte in der Luft am Arbeitsplatz

Komponenten	Typ	Wert	Form
GLYCERIN (CAS 56-81-5)	AGW	200 mg/m3	Einatembare Fraktion.
HEXADECAN-1-OL (CAS 36653-82-4)	AGW	200 mg/m3	Dampf und Aerosol.
		20 ppm	Dampf und Aerosol.

Italien. Grenzwert für die Exposition am Arbeitsplatz

Komponenten	Typ	Wert	Form
GLYCERIN-1-STEARAT (CAS 31566-31-1)	TWA	3 mg/m3	Alveolengängige Fraktion.
		10 mg/m3	Einatembare Fraktion.

Verordnung des Ministers für Arbeit und Sozialpolitik vom 6. Juni 2014 zu den maximal erlaubten Konzentrationen und Intensitäten schädlicher Gesundheitsfaktoren am Arbeitsplatz, Gesetzblatt 2014, Punkt 817

Komponenten	Typ	Wert	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Einatembare Fraktion.
PROPYLENGLYKOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalierbarer Dampf und inhalierbare Fraktion.

Spanien. Arbeitsplatzgrenzwerte

Komponenten	Typ	Wert	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Nebel.
GLYCERIN-1-STEARAT (CAS 31566-31-1)	TWA	10 mg/m3	

Biologische Grenzwerte

Für den bzw. die Inhaltsstoffe sind keine biologischen Expositionsgrenzen angegeben.

Empfohlene Überwachungsverfahren

Standardüberwachungsverfahren befolgen.

Abgeleitete Expositionshöhe ohne Beeinträchtigung (Derived No Effect Level, DNEL)	Steht nicht zur Verfügung.
Abgeschätzte Nicht-Effekt-Konzentrationen (PNECs)	Steht nicht zur Verfügung.

8.2. Begrenzung und Überwachung der Exposition

Geeignete technische Steuerungseinrichtungen	Gute allgemeine Lüftung. Lüftungsgrad muss an die Bedingungen angepasst werden. Gegebenenfalls Prozesskammern, örtliche Abluftsysteme oder andere bauliche Maßnahmen zur Kontrolle der Konzentrationen in der Luft einsetzen, um diese unterhalb der empfohlenen Belastungsgrenzen zu halten. Wenn keine Expositionsgrenzen festgesetzt wurden, die Konzentrationen in der Luft auf einem akzeptierbaren Niveau halten. Augenduschstation bereitstellen.

Individuelle Schutzmaßnahmen, zum Beispiel persönliche Schutzausrüstung

Allgemeine Angaben	Vorgeschriebene persönliche Schutzausrüstung verwenden. Persönliche Schutzausrüstung muss in Übereinstimmung mit den geltenden CEN-Normen und nach Absprache mit dem Lieferanten für persönliche Schutzausrüstung gewählt werden.
Augen-/Gesichtsschutz	Nur für ein industrielles Umfeld anwendbar. Sicherheitsbrille mit Seitenschutz (oder Schutzbrille) tragen.
Hautschutz	
- Handschutz	Nur für ein industrielles Umfeld anwendbar. Geeignete chemikalienbeständige Handschuhe tragen.
- Sonstige Schutzmaßnahmen	Nur für ein industrielles Umfeld anwendbar. Bei der Arbeit geeignete Schutzkleidung tragen.
Atemschutz	Nur für ein industrielles Umfeld anwendbar. Bei unzureichender Belüftung Atemschutzgerät anlegen.
Thermische Gefahren	Geeignete Hitzeschutzkleidung tragen, falls nötig.
Hygienemaßnahmen	Immer gute persönliche Hygiene einhalten, z. B Waschen nach der Handhabung des Materials und vor dem Essen, Trinken und/oder Rauchen. Arbeitskleidung und Schutzausrüstung regelmäßig waschen, um Kontaminationen zu entfernen.
Begrenzung und Überwachung der Umweltexposition	Zuständigen Geschäftsführer oder Bereichsleiter über alle Freisetzungen in die Umwelt informieren.

ABSCHNITT 9: Physikalische und chemische Eigenschaften

9.1. Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Aussehen

Aggregatzustand	Flüssigkeit.
Form	Sahne.
Farbe	Shaded
Geruch	Charakteristisch.
Geruchsschwelle	Steht nicht zur Verfügung.
pH-Wert	3 - 4,5
Schmelzpunkt/Gefrierpunkt	Steht nicht zur Verfügung.
Siedebeginn und Siedebereich	> 100 °C (> 212 °F)
Flammpunkt	> 100,0 °C (> 212,0 °F) Geschlossener Tiegel
Verdampfungsgeschwindigkeit	Steht nicht zur Verfügung.
Entzündbarkeit (fest, gasförmig)	Nicht anwendbar.

Obere/untere Entzündbarkeits- oder Explosionsgrenzen

Untere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Obere Entzündbarkeitsgrenze (%)	Steht nicht zur Verfügung.
Dampfdruck	Steht nicht zur Verfügung.
Dampfdichte	Steht nicht zur Verfügung.
Relative Dichte	Steht nicht zur Verfügung.

Löslichkeit(en)

Löslichkeit (in Wasser)	Steht nicht zur Verfügung.

Verteilungskoeffizient: n-Octanol/Wasser	Steht nicht zur Verfügung.
Selbstentzündungstemperatur	Steht nicht zur Verfügung.
Zersetzungstemperatur	Steht nicht zur Verfügung.
Viskosität	Steht nicht zur Verfügung.
Explosive Eigenschaften	Nicht explosiv.
Oxidierende Eigenschaften	Nicht oxidierend.

9.2. Sonstige Angaben

Dichte	0,98 - 0,999 g/cm³

ABSCHNITT 10: Stabilität und Reaktivität

10.1. Reaktivität	Das Produkt ist stabil und unter normalen Gebrauchs-, Lager- oder Transportbedingungen nicht reaktiv.
10.2. Chemische Stabilität	Das Material ist unter normalen Bedingungen stabil.
10.3. Möglichkeit gefährlicher Reaktionen	Keine gefährlichen Reaktionen bekannt bei bestimmungsgemäßem Umgang.
10.4. Zu vermeidende Bedingungen	Von Hitze, heißen Oberflächen, Funken, offenen Flammen sowie anderen Zündquellenarten fernhalten. Kontakt mit unverträglichen Materialien vermeiden.
10.5. Unverträgliche Materialien	Starke Oxidationsmittel.
10.6. Gefährliche Zersetzungsprodukte	Es sind keine gefährlichen Zersetzungsprodukte bekannt.

ABSCHNITT 11: Toxikologische Angaben

Allgemeine Angaben	Die Exposition gegenüber dem Stoff oder der Mischung kann gesundheitsschädigende Wirkungen verursachen.

Angaben zu wahrscheinlichen Expositionswegen

Einatmen	Anhaltendes Einatmen kann schädlich sein.
Hautkontakt	Kann allergische Hautreaktionen verursachen.
Augenkontakt	Verursacht schwere Augenreizung.
Verschlucken	Kann beim Verschlucken Unwohlsein verursachen. Verschlucken ist jedoch kein wahrscheinlicher primärer Expositionsweg am Arbeitsplatz.
Symptome	Starke Augenreizung. Dieses Produkt kann Brennen, Tränenbildung, Rötung, Schwellung und verschwommene Sicht verursachen.

11.1. Angaben zu toxikologischen Wirkungen

Akute Toxizität Nicht bekannt.

Verteilungskoeffizient n-Oktanol/Wasser (log Kow)

BASIC ORANGE 31	-2,13 OECD 107
BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69
HC BLUE NO. 15	3,47 OECD 117
STEARALKONIUMCHLORID	3,23

12.4. Mobilität im Boden Keine Daten verfügbar.

12.5. Ergebnisse der PBT- und vPvB-Beurteilung	Kein PBT- oder vPvB-Gemisch oder Stoff.
12.6. Andere schädliche Wirkungen	Von diesem Bestandteil werden keine anderen nachteiligen Auswirkungen auf die Umwelt (z. B. Ozonabbau, photochemisches Ozonbildungspotential, endokrine Störungen, Treibhauspotential) erwartet.
12.7. Zusätzliche Angaben	Der in diesem Dokument erwähnte Hinweis auf Tierversuche für einzelne Bestandteile basiert auf bereits veröffentlichte Daten Dritter.

ABSCHNITT 13: Hinweise zur Entsorgung

13.1. Verfahren der Abfallbehandlung

Restabfall	Unter Beachtung der örtlichen behördlichen Bestimmungen beseitigen. Leere Behälter oder Einsätze können etwas Produktrückstand zurückhalten. Dieses Material und sein Behälter müssen in gesicherter Weise beseitigt werden (siehe: Entsorgungsanweisungen).
Kontaminiertes Verpackungsmaterial	Da leere Behälter Produktrückstände enthalten, die Warnbeschriftung auch nach dem Leeren des Behälters befolgen. Leere Behälter einer anerkannten Abfallentsorgungsanlage zuführen zwecks Wiedergewinnung oder Entsorgung.
EU Abfallcode	Die Abfallschlüsselnummer soll in Absprache mit dem Verbraucher, dem Hersteller und dem Entsorger festgelegt werden.
Entsorgungsmethoden / Informationen	Sammeln und rückgewinnen oder in dicht verschlossenen Behältern einer zugelassenen Abfallentsorgung zuführen. Das Eindringen dieses Materials ins Abwasser bzw. Wasserversorgungssystem ist zu vermeiden. Keine stehenden oder fließenden Gewässer mit Chemikalie oder Verpackungsmaterial verunreinigen. Inhalt/Behälter gemäß den lokalen/regionalen/nationalen/internationalen Vorschriften der Entsorgung zuführen.
Besondere Vorsichtsmaßnahmen	Bei der Entsorgung alle massgebenden gesetzlichen Bestimmungen beachten.

ABSCHNITT 14: Angaben zum Transport

ADR

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1. UN-Nummer	UN3082
14.2. Ordnungsgemäße UN-Versandbezeichnung	UMWELTGEFÄHRDENDER STOFF, FLÜSSIG, N.A.G. (STEARALKONIUMCHLORID)
14.3. Transportgefahrenklassen	
Klasse	9
Label(s)	9
Gefahr Nr. (ADR)	90
Tunnelbeschränkungscode	E
14.4. Verpackungsgruppe	III
14.5. Umweltgefahren	Ja
14.6. Besondere Vorsichtsmaßnahmen für den Verwender	Steht nicht zur Verfügung.

IATA

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1. UN-Nummer	UN3082
14.2. Ordnungsgemäße UN-Versandbezeichnung	UMWELTGEFÄHRDENDER STOFF, FLÜSSIG, N.A.G. (STEARALKONIUMCHLORID)
14.3. Transportgefahrenklassen	
Klasse	9
14.4. Verpackungsgruppe	III
14.5. Umweltgefahren	Ja
ERG Code	9L
14.6. Besondere Vorsichtsmaßnahmen für den Verwender	Steht nicht zur Verfügung.
Sonstige Angaben	
Passagier- und Frachtflugzeug	Mit Einschränkungen erlaubt.
Nur Transportflugzeug	Mit Einschränkungen erlaubt.

IMDG

FINISHED GOODS

14.1 - 14.6.: Kein Gefahrgut im Sinne der Transportvorschriften.

BULK

14.1. UN-Nummer	UN3082
14.2. Ordnungsgemäße UN-Versandbezeichnung	UMWELTGEFÄHRDENDER STOFF, FLÜSSIG, N.A.G. (STEARALKONIUMCHLORID), MEERESSCHADSTOFF
14.3. Transportgefahrenklassen	
Klasse	9
14.4. Verpackungsgruppe	III
14.5. Umweltgefahren	
Meeresschadstoff	Ja
EmS	F-A, S-F
14.6. Besondere Vorsichtsmaßnahmen für den Verwender	Steht nicht zur Verfügung.
14.7. Massengutbeförderung gemäß Anhang II des MARPOL-Übereinkommens und gemäß IBC-Code	Nicht nachgewiesen.
Allgemeine Angaben	Meeresschadstoff gemäß IMDG Vorschriften. Packagings containing a net quantity per single package or inner packaging of 5L or less are not subject transportation restrictions except for general packing provisions.

ABSCHNITT 15: Rechtsvorschriften

15.1. Vorschriften zu Sicherheit, Gesundheits- und Umweltschutz/spezifische Rechtsvorschriften für den Stoff oder das Gemisch

EU-Vorschriften

Verordnung (EG) Nr. 1005/2009 über Stoffe, die zum Abbau der Ozonschicht führen, Anhang I und II, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 850/2004 für persistente organische Schadstoffe, Anhang I in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 1 in der geänderten Fassung

DIDECYLDIMONIUM CHLORIDE (CAS 7173-51-5)

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 2 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang I, Teil 3 in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 649/2012 über die Aus- und Einfuhr gefährlicher Chemikalien, Anhang V, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 166/2006 Anhang II Europäisches Schadstofffreisetzungs- und -verbringungsregister, in der geänderten Fassung

Nicht eingetragen.

Verordnung (EG) Nr. 1907/2006, REACH Artikel 59(10) Kandidatenliste in der derzeit durch die ECHA veröffentlichten Form

Nicht eingetragen.

Zulassungen

Verordnung (EG) Nr. 1907/2006, REACH Anhang XIV Verzeichnis der zulassungspflichtigen Stoffe, in der geänderten Fassung

Nicht eingetragen.

Beschränkungen für die Verwendung

Verordnung (EG) Nr. 1907/2006, REACH Anhang XVII Stoffe, die für das Inverkehrbringen und die Verwendung der Zulassungspflicht unterliegen

Nicht eingetragen.

Richtlinie 2004/37/EG: Über den Schutz der Arbeitnehmer gegen Gefährdung durch Karzinogene oder Mutagene am Arbeitsplatz, in der geänderten Fassung

Nicht eingetragen.

Andere EU Vorschriften

Richtlinie 2012/18/EU zur Beherrschung von Gefahren schwerer Unfälle mit gefährlichen Stoffen, in der geänderten Fassung

STEARALKONIUMCHLORID (CAS 122-19-0)

Andere Verordnungen	Einstufung und Kennzeichnung des Produkts gemäß der (EG) Richtlinie 1272/2008 (CLP) in ihrer geänderten Fassung. Dieses Sicherheitsdatenblatt erfüllt die Anforderungen (EG) Richtlinie Nr. 1907/2006, in der geänderten Fassung.
Nationale Vorschriften	Beim Arbeiten mit Chemikalien sind die nationalen Vorschriften gemäß der Richtlinie 98/24/EWG in der geänderten Form zu befolgen.
15.2. Stoffsicherheitsbeurteilung	Es wurde keine Stoffsicherheitsbeurteilung durchgeführt.

ABSCHNITT 16: Sonstige Angaben

Liste der Abkürzungen	Steht nicht zur Verfügung.
Referenzen	Steht nicht zur Verfügung.
Informationen über Evaluierungsmethode für die Einstufung eines Gemischs	Die Einstufung für Gesundheit und Umweltgefahren wurde abgeleitet aus einer Kombination von Rechenverfahren und, falls verfügbar, Testdaten.
Jeder in den Abschnitten 2 bis 15 nicht vollständig ausgeschriebene Gefahrenhinweis ist hier in vollem Wortlaut wiederzugeben	H302 Gesundheitsschädlich bei Verschlucken. H314 Verursacht schwere Verätzungen der Haut und schwere Augenschäden. H317 Kann allergische Hautreaktionen verursachen. H318 Verursacht schwere Augenschäden. H319 Verursacht schwere Augenreizung. H373 Kann die Organe schädigen bei längerer oder wiederholter Exposition. H400 Sehr giftig für Wasserorganismen. H410 Sehr giftig für Wasserorganismen mit langfristiger Wirkung. H411 Giftig für Wasserorganismen, mit langfristiger Wirkung.
Angaben zur Revision	Produkt- und Firmenkennzeichnung: Materialarten Zusammensetzung / Angaben zu Bestandteilen: Bestandteile Physikalische und chemische Eigenschaften. Mutiple Eigenschaften Angaben zum Transport: Auswahl des Namens der Behörde und Verpackungsart/Transportart GHS: Einstufung
Schulungsinformationen	Beim Umgang mit diesem Material sind die Schulungsanweisungen zu befolgen.
Haftungsausschluss	Die in diesem Sicherheitsdatenblatt bereitgestellten Informationen sind zum Datum der Veröffentlichung nach bestem Wissen und Glauben genau und zuverlässig. Die hier gegebenen Informationen dienen nur als Hilfe für einen sicheren Umgang, Verwendung, Verarbeitung, Lagerung, Transport, Entsorgung und Freisetzung und gelten nicht als Garantie oder Produktspezifikation. Die Information bezieht sich nur auf das spezifische oben genannte Material und ist nicht gültig für dieses Material in Kombination mit irgendwelchen anderen Materialien oder in irgendeinem Verfahren, wenn dies nicht ausdrücklich im Text angegeben wurde.

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

SECCIÓN 1. Identificación de la sustancia o la mezcla y de la sociedad o la empresa

1.1. Identificador del producto

Nombre comercial o denominación de la mezcla	PULP RIOT SEMI-PERMANENT COLOR - GRUPO 10
Sinónimos	Ninguno.
Número de FDS	00-22-0000164
Fecha de publicación	01-Diciembre-2020
Número de la versión	01

1.2. Usos pertinentes identificados de la sustancia o de la mezcla y usos desaconsejados

Usos identificados	Producto de cuidado personal para uso cosmético.
Usos desaconsejados	Ninguno conocido.

1.3. Datos del proveedor de la ficha de datos de seguridad

Persona de contacto

Nombre de la compañía	L'ORÉAL SA
Dirección	14, rue royale 75008 - Paris Francia
Número de teléfono	+1 732 499 2745
dirección electrónica	nacorpeuropesdsrequest@loreal.com

1.4. Teléfono de emergencia

Francia Centro nacional de control de intoxicaciones	Número ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)
INFOTRAC	+1 352-323-3500 (Disponible las 24 horas del día. Durante el horario de urgencias puede no haber información sobre productos/SDS.)

SECCIÓN 2. Identificación de los peligros

2.1. Clasificación de la sustancia o de la mezcla

La mezcla ha sido evaluada y/o sometida a ensayo para determinar sus peligros físicos y peligros para la salud y el medio ambiente, y la siguiente clasificación tiene aplicación.

Clasificación de acuerdo con el reglamento (CE) No. 1272/2008 con sus modificaciones ulteriores

Peligros para la salud		
Lesiones oculares graves/irritación ocular	Categoría 2	H319 - Provoca irritación ocular grave.
Peligro para el medio ambiente		
Peligroso para el medio ambiente acuático; peligro a largo plazo para el medio ambiente acuático	Categoría 3	H412 - Nocivo para los organismos acuáticos, con efectos nocivos duraderos.

Resumen de los peligros

Provoca irritación ocular grave. Peligroso para el medio ambiente si se desecha en vías acuíferas. La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos para la salud. Este es un producto de consumo para el cuidado, seguro para los consumidores si se utiliza siguiendo las instrucciones de la etiqueta. Al igual que con muchos productos de consumo, un pequeño número de personas puede sufrir reacciones como enrojecimiento, erupciones e hinchazón tras un contacto prolongado o repetido con la piel o con los ojos.

2.2. Elementos de la etiqueta

Etiquetado de conformidad con el Reglamento (CE) nº 1272/2008 tal como se modifica en el presente Reglamento

Contiene: CLORURO DE ESTEARALCONIO

Pictogramas de peligro

Palabra de advertencia Atención

Indicaciones de peligro

H319	Provoca irritación ocular grave.
H412	Nocivo para los organismos acuáticos, con efectos nocivos duraderos.

Consejos de prudencia

Prevención

P102	Mantener fuera del alcance de los niños.
P103	Leer la etiqueta antes del uso.
P264	Lavarse concienzudamente tras la manipulación.
P273	Evitar su liberación al medio ambiente.
P280	Llevar protección ocular/facial.

Respuesta

P101	Si se necesita consejo médico, tener a mano el envase o la etiqueta.
P305 + P351 + P338	EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado.
P337 + P313	Si persiste la irritación ocular: Consultar a un médico.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación

P501	Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Información suplementaria en la etiqueta La mezcla contiene un 1,02 % de componentes de toxicidad aguda para el medio ambiente acuático desconocida. EUH208 - Contiene BASIC ORANGE 31. Puede provocar una reacción alérgica.

2.3. Otros peligros No es una sustancia o mezcla PBT o MPMB.

SECCIÓN 3. Composición/información sobre los componentes

3.2. Mezclas

Información general

Denominación química	%	Número CAS / Número CE	Número de registro conforme a REACH	Número de índice	Notas
CLORURO DE ESTEARALCONIO	1,41	122-19-0 204-527-9	01-2120769734-41	-

Clasificación:	Acute Tox. 4;H302, Skin Corr. 1B;H314, Eye Dam. 1;H318, Aquatic Acute 1;H400(M=10), Aquatic Chronic 2;H411				

Lista de abreviaturas y símbolos que se pueden utilizar en lo anterior

#: A esta sustancia se aplican límites de exposición de la Unión en el lugar de trabajo.
M: Factor M
PBT: sustancia persistente, bioacumulativa y tĂłxica.
mPmB: sustancia muy persistente y muy bioacumulativa.
Todas las concentraciones están en porcentaje en peso salvo que el componente sea un gas. Las concentraciones de gas están en porcentaje en volumen.

Comentarios sobre los componentes El texto completo de todas las Frases H se ofrece en la Sección 16.

SECCIÓN 4. Primeros auxilios

Información general Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

4.1. Descripción de los primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Si persiste la irritación ocular: Consultar a un médico.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

4.2. Principales síntomas y efectos, agudos y retardados Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.

4.3. Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.

SECCIÓN 5. Medidas de lucha contra incendios

Riesgos generales de incendio Ningún riesgo excepcional de incendio o explosión señalado.

5.1. Medios de extinción

Medios de extinción apropiados Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).

Medios de extinción no apropiados No utilice chorro de agua, pues extendería el fuego.

5.2. Peligros específicos derivados de la sustancia o la mezcla En caso de incendio se pueden formar gases nocivos.

5.3. Recomendaciones para el personal de lucha contra incendios

Equipos de protección especial que debe llevar el personal de lucha contra incendios Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.

Procedimientos especiales de lucha contra incendio Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.

Métodos específicos Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

SECCIÓN 6. Medidas en caso de vertido accidental

6.1. Precauciones personales, equipo de protección y procedimientos de emergencia

Para el personal que no forma parte de los servicios de emergencia Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Use equipo y ropa de protección apropiados durante la limpieza. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.

Para el personal de emergencia Mantenga el personal no necesario lejos. Utilizar las medidas de protección personal recomendadas en la sección 8 de la FDS.

6.2. Precauciones relativas al medio ambiente Evitar su liberación al medio ambiente. Informe al personal de mando o supervisión competente sobre cualquier liberación al medio ambiente. Impedir nuevos escapes o derrames de forma segura. No verter los residuos al desagüe, al suelo o las corrientes de agua.

6.3. Métodos y material de contención y de limpieza Evite que el producto penetre en el alcantarillado.

Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua.

Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación.

Nunca devuelva el producto derramado al envase original para reutilizarlo.

6.4. Referencia a otras secciones Consultar las medidas de protección personal en la sección 8 de la FDS. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

SECCIÓN 7. Manipulación y almacenamiento

7.1. Precauciones para una manipulación segura Evítese el contacto con los ojos. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Evitar su liberación al medio ambiente. Respete las normas para una manipulación correcta de productos químicos.

7.2. Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

7.3. Usos específicos finales No disponible.

SECCIÓN 8. Controles de exposición/protección individual

8.1. Parámetros de control

Límites de exposición profesional

Bélgica. Valores límite de exposición.

Componentes	Tipo	Valor	Forma
ESTEARATO DE GLICERILO (CAS 31566-31-1)	TWA	10 mg/m³	
GLYCERIN MIST (CAS 56-81-5)	TWA	10 mg/m³	Neblina.

Francia. Valores límite umbral (VLEP) para la exposición ocupacional a sustancias químicas en Francia, INRS ED 984

Componentes	Tipo	Valor	Forma
GLYCERIN MIST (CAS 56-81-5)	VME	10 mg/m³	Aerosol.

Regulación: Indicative limit (VL)

Alemania. Lista DFG MAK (límites de exposición ocupacional indicativos). Comisión Alemana de Investigación de los Peligros para la Salud de las Sustancias Químicas en el Entorno de Trabajo (DFG)

Componentes	Tipo	Valor	Forma
GLYCERIN MIST (CAS 56-81-5)	TWA	200 mg/m³	Fracción inhalable.

Alemania. TRGS 900, Valores límite del aire en el lugar de trabajo

Componentes	Tipo	Valor	Forma
ALCOHOL CETÍLICO (CAS 36653-82-4)	AGW	200 mg/m³	Vapor y aerosol.
		20 ppm	Vapor y aerosol.
GLYCERIN MIST (CAS 56-81-5)	AGW	200 mg/m³	Fracción inhalable.

Italia. Límites de exposición ocupacional

Componentes	Tipo	Valor	Forma
ESTEARATO DE GLICERILO (CAS 31566-31-1)	TWA	3 mg/m³	Fracción respirable.
		10 mg/m³	Fracción inhalable.

Ordinance of the Minister of Labour and Social Policy on 6 Junio 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Componentes	Tipo	Valor	Forma
GLYCERIN MIST (CAS 56-81-5)	TWA	10 mg/m³	Fracción inhalable.
Propilenglicol (CAS 57-55-6)	TWA	100 mg/m³	Pedacitos y vapor inhalables.

España. Límites de Exposición Ocupacional

Componentes	Tipo	Valor	Forma
ESTEARATO DE GLICERILO (CAS 31566-31-1)	TWA	10 mg/m³	
GLYCERIN MIST (CAS 56-81-5)	TWA	10 mg/m³	Neblina.

Valores límite biológicos	No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.
Métodos de seguimiento recomendados	Seguir los procedimientos de monitorización estándar.
Niveles sin efecto derivado (DNEL)	No disponible.
Concentraciones previstas sin efecto (PNECs)	No disponible.

8.2. Controles de la exposición

Controles técnicos apropiados	Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Información general	Utilizar el equipo de protección individual obligatorio. El equipo de protección personal se elegirá de acuerdo con la norma CEN vigente y en colaboración con el suministrador de equipos de protección personal.
Protección de los ojos/la cara	De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).
Protección de la piel	
- Protección de las manos	De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.
- Otros	De aplicación solamente en entornos industriales. Úsese indumentaria protectora adecuada.
Protección respiratoria	De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.
Peligros térmicos	Use ropa protectora térmica adecuada si resulta necesario.
Medidas de higiene	Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.
Controles de exposición medioambiental	Informe al personal de mando o supervisión competente sobre cualquier liberación al medio ambiente.

SECCIÓN 9. Propiedades físicas y químicas

9.1. Información sobre propiedades físicas y químicas básicas

Aspecto	
Estado físico	Líquido.
Forma	Nata.
Color	Sombreado
Olor	Característico.
Umbral olfativo	No disponible.
pH	3 - 4,5
Punto de fusión/punto de congelación	No disponible.
Punto inicial de ebullición e intervalo de ebullición	> 100 °C (> 212 °F)
Punto de inflamación	> 100,0 °C (> 212,0 °F) Copa Cerrada
Tasa de evaporación	No disponible.
Inflamabilidad (sólido, gas)	No aplicable.
Límites superior/inferior de inflamabilidad o de explosividad	
Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.

Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

9.2. Otros datos

Densidad	0,98 - 0,999 g/cm³

SECCIÓN 10. Estabilidad y reactividad

10.1. Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
10.2. Estabilidad química	El material es estable bajo condiciones normales.
10.3. Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
10.4. Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
10.5. Materiales incompatibles	Agentes oxidantes fuertes.
10.6. Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. Información toxicológica

Información general	La exposición ocupacional a la sustancia o a la mezcla puede tener efectos adversos.

Información sobre posibles vías de exposición

Inhalación	La inhalación prolongada puede resultar nociva.
Contacto con la piel	Puede provocar una reacción alérgica en la piel.
Contacto con los ojos	Provoca irritación ocular grave.
Ingestión	Si se ingiere puede causar molestias. No obstante, no es probable que la ingestión constituya una vía primaria de exposición ocupacional.
Síntomas	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.

11.1. Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba

12.2. Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

BASIC ORANGE 31	1 - 2 % OECD 301 B Resultado: No Es Fácilmente Biodegradable Duración de la prueba: 28 d
BASIC YELLOW 87	21,6 % OECD 302 B Resultado: Intrínsecamente biodegradable. Duración de la prueba: 28 d
CLORURO DE ESTEARALCONIO	64 % OECD 301 D Resultado: Fácilmente Biodegradable Duración de la prueba: 28 d
DIDECYLDIMONIUM CHLORIDE	67 - 71 mg/l OECD 301 B Resultado: Fácilmente Biodegradable Duración de la prueba: 28 d
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	< 60 % OECD 301 Resultado: No Es Fácilmente Biodegradable Duración de la prueba: 28 d
HC BLUE NO. 15	Resultado: No Es Fácilmente Biodegradable

12.3. Potencial de bioacumulación

Coeficiente de partición n-octanol/agua (log Kow)

BASIC ORANGE 31	-2,13 OECD 107

BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69
CLORURO DE ESTEARALCONIO	3,23
HC BLUE NO. 15	3,47 OECD 117

12.4. Movilidad en el suelo No hay datos disponibles.

12.5. Resultados de la valoración PBT y mPmB No es una sustancia o mezcla PBT o MPMB.

12.6. Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

12.7. Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

SECCIÓN 13. Consideraciones relativas a la eliminación

13.1. Métodos para el tratamiento de residuos

Restos de productos Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

Código europeo de residuos El código de Desecho debe ser atribuído de acuerdo entre el usuario, el productor y la compañía de eliminación de desechos.

Métodos de eliminación/información Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. No permita que este material se drene en los drenajes/suministros de agua. No contaminar los estanques, rios o acequias con producto químico o envase usado. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Precauciones especiales Elimine de acuerdo con todas las reglamentaciones aplicables.

SECCIÓN 14. Información relativa al transporte

ADR

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. Número ONU UN3082

14.2. Designación oficial de transporte de las Naciones Unidas SUSTANCIA LÍQUIDA PELIGROSA PARA EL MEDIO AMBIENTE, N.E.P. (CLORURO DE ESTEARALCONIO)

14.3. Clase(s) de peligro para el transporte

Clase 9

Label(s) 9

No. de riesgo (ADR) 90

Código de restricción en túneles E

14.4. Grupo de embalaje III

14.5. Peligros para el medio ambiente Si

14.6. Precauciones particulares para los usuarios No disponible.

IATA

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. Número ONU UN3082

14.2. Designación oficial de transporte de las Naciones Unidas SUSTANCIA LÍQUIDA PELIGROSA PARA EL MEDIO AMBIENTE, N.E.P. (CLORURO DE ESTEARALCONIO)

14.3. Clase(s) de peligro para el transporte

Clase 9

14.4. Grupo de embalaje III

14.5. Peligros para el medio ambiente Si

Cógido GRE	9L
14.6. Precauciones particulares para los usuarios	No disponible.
Información adicional	
Transporte aéreo de pasajeros y mercancías	Permitido con restricciones.
únicamente avión de carga	Permitido con restricciones.

IMDG

FINISHED GOODS

14.1. - 14.6.: El producto no está comprendido por las reglas internacionales o por las de la Unión Europea sobre el transporte de mercancías peligrosas.

BULK

14.1. Número ONU	UN3082
14.2. Designación oficial de transporte de las Naciones Unidas	SUSTANCIA LÍQUIDA PELIGROSA PARA EL MEDIO AMBIENTE, N.E.P. (CLORURO DE ESTEARALCONIO), CONTAMINANTE MARINO
14.3. Clase(s) de peligro para el transporte	
Clase	9
14.4. Grupo de embalaje	III
14.5. Peligros para el medio ambiente	
Contaminante marino	Si
EmS	F-A, S-F
14.6. Precauciones particulares para los usuarios	No disponible.
14.7. Transporte a granel con arreglo al anexo II del Convenio MARPOL y el Código IBC	No establecido.
Información general	Contaminante marino reglamentado por el IMDG. Packagings containing a net quantity per single package or inner packaging of 5L or less are not subject transportation restrictions except for general packing provisions.

SECCIÓN 15. Información reglamentaria

15.1. Reglamentación y legislación en materia de seguridad, salud y medio ambiente específicas para la sustancia o la mezcla

Normativa de la UE

Reglamento (CE) Nº 1005/2009 sobre las sustancias que agotan la capa de ozono, Anexos I y II, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 850/2004 sobre contaminantes orgánicos persistentes, Anexo I con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 1, con las enmiendas correspondientes

DIDECYLDIMONIUM CHLORIDE (CAS 7173-51-5)

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 2, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo I, parte 3, con las enmiendas correspondientes

No listado.

Reglamento (UE) nº 649/2012 relativo a la exportación e importación de productos químicos peligrosos, Anexo V, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº 166/2006, Anexo II, Registro de emisiones y transferencias de contaminantes, con las enmiendas correspondientes

No listado.

Reglamento (CE) nº. 1907/2006, REACH Artículo 59(10), Lista de candidatos en vigor publicada por la ECHA

No listado.

Autorizaciones

Reglamento (CE) no. 1907/2006 REACH, Anexo XIV Sustancias sujetas a autorización, con sus modificaciones ulteriores

No listado.

Restricciones de uso

Reglamento (CE) nº. 1907/2006, REACH Anexo XVII, Sustancias sujetas a restricciones de comercialización y uso con las enmiendas correspondientes

No listado.

Directiva 2004/37/CE: relativa a la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes carcinógenos o mutágenos durante el trabajo, con las enmiendas correspondientes

No listado.

Otras normas de la UE

Directiva 2012/18/UE relativa a los riesgos inherentes a los accidentes graves en los que intervengan sustancias peligrosas, con las enmiendas correspondientes

CLORURO DE ESTEARALCONIO (CAS 122-19-0)

Otras reglamentaciones	Este producto ha sido clasificado y etiquetado con arreglo al Reglamento (CE) nº 1272/2008 (Reglamento CLP) con sus modificaciones ulteriores y con arreglo. Esta ficha de datos de seguridad cumple los requisitos del Reglamento (CE) Nº 1907/2006, con las enmiendas correspondientes.
Normativa nacional	Observar las normativas nacionales relativas al trabajo con agentes químicos, de conformidad con la Directiva 98/24/CE con las enmiendas correspondientes.
15.2. Evaluación de la seguridad química	No se ha realizado ninguna evaluación de la seguridad química.

SECCIÓN 16. Otra información

Lista de abreviaturas	No disponible.
Referencias	No disponible.
Información sobre el método de evaluación usado para la clasificación de la mezcla	La clasificación de los peligros para la salud y el medio ambiente se ha obtenido usando una combinación de métodos de cálculo y, en su caso, datos de ensayo.
Texto completo de cualesquiera frases H para las que no se incluya el enunciado completo en las secciones 2 a 15	H302 Nocivo en caso de ingestión. H314 Provoca quemaduras graves en la piel y lesiones oculares graves. H317 Puede provocar una reacción alérgica en la piel. H318 Provoca lesiones oculares graves. H319 Provoca irritación ocular grave. H373 Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas. H400 Muy tóxico para los organismos acuáticos. H410 Muy tóxico para los organismos acuáticos, con efectos nocivos duraderos. H411 Tóxico para los organismos acuáticos, con efectos nocivos duraderos.
Información de revisión	Identificación del producto y de la empresa: Usos del producto COMPOSICION/INFORMACION DE LOS COMPONENTES: Ingredientes Propiedades físicas y químicas: Múltiples propiedades Información relativa al transporte: Nombre de la agencia y selección del tipo de envase / modo de transporte GHS: Clasificación
Información sobre formación	Siga las instrucciones de entrenamiento al manejar este material.
Cláusula de exención de responsabilidad	La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT SEMI-PERMANENT COLOR - Groupe 10**

Autres moyens d'identification

Numéro de la FDS 00-22-0000164

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Lésions oculaires graves/irritation oculaire Catégorie 2A

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Provoque une sévère irritation des yeux.

Conseil de prudence

Prévention Se laver soigneusement après manipulation. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
GLYCÉRINE		56-81-5	2
STEARALKONIUM CHLORIDE		122-19-0	1.41
STÉARATE DE GLYCÉRYLE		31566-31-1	1.02

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation	Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.
Contact avec la peau	Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.
Contact avec les yeux	Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.
Ingestion	Rincer la bouche. Consulter un médecin si des symptômes apparaissent.
Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.
Informations générales	S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence	Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Ce produit est classé comme un polluant de l'eau en vertu de la Loi sur la qualité de l'eau (Clean Water Act) et ne doit pas contaminer les sols ni pénétrer dans les systèmes d'égouts et d'évacuation qui se déversent dans les cours d'eau. Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Éviter tout contact avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	PEL (limite d'exposition admissible)	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
STÉARATE DE GLYCÉRYLE (CAS 31566-31-1)	TWA	3 mg/m3	Fraction respirable.
		10 mg/m3	Fraction inhalable.

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Nuancé

Odeur Caractéristique.

Seuil olfactif Non disponible.

pH 3 - 4.5

Point de fusion et point de congélation Non disponible.

Point initial d'ébullition et domaine d'ébullition > 100 °C (> 212 °F)

Point d'éclair > 100.0 °C (> 212.0 °F) Coupelle fermée

Taux d'évaporation Non disponible.

Inflammabilité (solides et gaz) Sans objet.

Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	0.98 - 0.999 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.

Renseignements sur les effets toxicologiques

Toxicité aiguë	Inconnu(e).

Toxicité pour certains organes cibles - exposition unique La classification n'est pas possible en raison d'un manque partiel ou total de données.

Toxicité pour certains organes cibles - expositions répétées La classification n'est pas possible en raison d'un manque partiel ou total de données.

GLYCÉRINE	8000 mg/kg bw/d, Orale Résultat: DSENO Espèces: Rat Durée du test: 2 yr

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT SEMI-PERMANENT COLOR - GRUPPO 10
Sinonimi	Nessuno.
Numero SDS	00-22-0000164
Data di pubblicazione	01-Dicembre-2020
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

Francia Centro nazionale di controllo dei veleni	Numero ORFILA (INRS): + 33 (0) 1 45 42 59 59 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).
INFOTRAC	+1 352-323-3500 (Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli per la salute		
Gravi danni oculari/irritazione oculare	Categoria 2	H319 - Provoca grave irritazione oculare.
Pericoli per l'ambiente		
Pericoloso per l'ambiente acquatico, pericolo acquatico a lungo termine	Categoria 3	H412 - Nocivo per gli organismi acquatici con effetti di lunga durata.

Riepilogo dei pericoli

Provoca grave irritazione oculare. Pericoloso per l'ambiente se scaricato nei corsi d'acqua. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: STEARALCONIO CLORURO

Pittogrammi di pericolo

Avvertenza Attenzione

Indicazioni di pericolo

H319	Provoca grave irritazione oculare.
H412	Nocivo per gli organismi acquatici con effetti di lunga durata.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.
P264	Lavare attentamente dopo l'uso.
P273	Non disperdere nell'ambiente.
P280	Proteggere gli occhi.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P305 + P351 + P338	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P337 + P313	Se l'irritazione degli occhi persiste, consultare un medico.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento

P501 Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 1,02 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico.
EUH208 - Contiene BASIC ORANGE 31. Può provocare una reazione allergica.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea Lavare con sapone ed acqua. Consultare un medico se si sviluppa un'irritazione persistente.

Contatto con gli occhi Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Se l'irritazione degli occhi persiste, consultare un medico.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.

Per chi interviene direttamente Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS

6.2. Precauzioni ambientali Non disperdere nell'ambiente. Informare il personale di gestione o di supervisione di tutte le emissioni nell'ambiente. Evitare sversamenti o perdite supplementari, se questo può essere fatto senza pericolo. Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica Non scaricare il prodotto nelle fogne.

Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura Evitare il contatto con gli occhi. Evitare l'esposizione prolungata. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Non disperdere nell'ambiente. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità Conservare in un recipiente ermeticamente chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Belgio. Valori limite d'esposizione.

Componenti	Tipo	Valore	Forma
GLICERIL STEARATO (CAS 31566-31-1)	8 ore	10 mg/m3	
GLICERINA (CAS 56-81-5)	8 ore	10 mg/m3	Nebbie.

Francia. Valori limite di soglia (VLEP) per esposizione professionale a sostanze chimiche in Francia, INRS ED 984

Componenti	Tipo	Valore	Forma
GLICERINA (CAS 56-81-5)	VME	10 mg/m3	Aerosol.

Stato normativo: Limite indicativo (VL)

Germania. Elenco DFG MAK (OEL raccomandati). Commissione per le indagini sui rischi per la salute dei composti chimici nell'ambiente di lavoro (DFG)

Componenti	Tipo	Valore	Forma
GLICERINA (CAS 56-81-5)	8 ore	200 mg/m3	Frazione inalabile.

Germania. TRGS 900, Valori limite in aria ambiente nel luogo di lavoro

Componenti	Tipo	Valore	Forma
ALCOL CETILICO (CAS 36653-82-4)	AGW	200 mg/m3	vapore ed aerosole
		20 ppm	vapore ed aerosole
GLICERINA (CAS 56-81-5)	AGW	200 mg/m3	Frazione inalabile.

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
GLICERIL STEARATO (CAS 31566-31-1)	8 ore	3 mg/m3	Frazione respirabile.
		10 mg/m3	Frazione inalabile.

Regolamento del Ministero del Lavoro e delle Politiche Sociali del 6 giugno 2014. Riguardante le concentrazioni e le intensità massime permissibili di fattori pericolosi nell'ambiente di lavoro (Gazzetta Ufficiale polacca 2014, n. 817)

Componenti	Tipo	Valore	Forma
GLICERINA (CAS 56-81-5)	8 ore	10 mg/m3	Frazione inalabile.
Propilenglicole (CAS 57-55-6)	8 ore	100 mg/m3	Frazione inalabile e vapori.

Spagna. Limiti di esposizione professionale

Componenti	Tipo	Valore	Forma
GLICERIL STEARATO (CAS 31566-31-1)	8 ore	10 mg/m3	
GLICERINA (CAS 56-81-5)	8 ore	10 mg/m3	Nebbie.

Valori limite biologici Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate Seguire le procedure standard di monitoraggio.

Livelli derivati senza effetto (DNEL) Non conosciuto.

Prevedibili concentrazioni prive di effetti (PNEC) Non conosciuto.

8.2. Controlli dell'esposizione

Controlli tecnici idonei	È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali	Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.
Protezione degli occhi/del volto	Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura).
Protezione della pelle	
- Protezione delle mani	Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici.
- Altro	Applicabile soltanto per gli impianti industriali. Usare indumenti protettivi adatti.
Protezione respiratoria	Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.
Pericoli termici	Indossare opportuni indumenti termoprotettivi, quando necessario.
Misure d'igiene	Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti.
Controlli dell'esposizione ambientale	Informare il personale di gestione o di supervisione di tutte le emissioni nell'ambiente.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto	
Stato fisico	Liquido.
Forma	Panna.
Colore	Shaded
Odore	Caratteristico/a.
Soglia olfattiva	Non conosciuto.
pH	3 - 4,5
Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.
Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.

Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.

9.2. Altre informazioni

Densità	0,98 - 0,999 g/cm³

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Forti agenti ossidanti.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.

Informazioni sulle vie probabili di esposizione

Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Può provocare una reazione allergica cutanea.
Contatto con gli occhi	Provoca grave irritazione oculare.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta	Non conosciuto.

12.4. Mobilità nel suolo Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB Non è una sostanza o miscela PBT o vPvB.

12.6. Altri effetti avversi Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

12.7. Altre informazioni The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).

Imballaggi contaminati Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.

Codice Europeo dei Rifiuti Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.

Metodi di smaltimento/informazioni Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Impedire a questo prodotto di penetrare nelle fogne e nelle riserve d'acqua. Non contaminare stagni, canali o fossati con il prodotto chimico o il contenitore usato. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Precauzioni particolari Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

ADR

FINISHED GOODS

14.1. - 14.6.: Non è regolamentato come merci pericolose.

BULK

14.1. Numero ONU UN3082

STEARALCONIO CLORURO (CAS 122-19-0)

Altri regolamenti Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.

Regolamenti nazionali Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.

15.2. Valutazione della sicurezza chimica Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni Non conosciuto.

Riferimenti Non conosciuto.

Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H302 Nocivo se ingerito. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H317 Può provocare una reazione allergica cutanea. H318 Provoca gravi lesioni oculari. H319 Provoca grave irritazione oculare. H373 Può provocare danni agli organi in caso di esposizione prolungata o ripetuta. H400 Molto tossico per gli organismi acquatici. H410 Molto tossico per gli organismi acquatici con effetti di lunga durata. H411 Tossico per gli organismi acquatici con effetti di lunga durata.
Informazioni di revisione	Prodotto e la Società Identificazione: Tipi di materiale COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti Proprietà fisiche e chimiche: Proprietà multiple Informazioni sul trasporto: Nome dell’agenzia e selezione del tipo di imballaggio/della modalità di trasporto GHS: Classificazione
Informazioni formative	Seguire le istruzioni di formazione durante la manipolazione di questo materiale.
Clausole di esclusione della responsabilità	Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT SEMI-PERMANENT COLOR - 组 10

鉴别的其他方法

SDS编号 00-22-0000164

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 严重眼睛损伤/眼睛刺激性 类别 2A

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 警告

危险性说明 造成严重眼刺激。

防范说明

预防措施 作业后彻底清洗。 戴防护眼罩/防护面具。

事故响应 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如仍觉眼刺激：求医/就诊。 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
甘油		56-81-5	2
STEARALKONIUM CHLORIDE		122-19-0	1.41
硬脂酸甘油酯		31566-31-1	1.02

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 如仍觉眼刺激：求医/就诊。

经口 漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

指明任何需要立即就医或特殊治疗的情况 提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。

一般信息 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂 水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不当的灭火介质 禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害 燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施 发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明 在不会发生危险的情况下将容器撤离火灾现场。

特定的方法 采用标准灭火程序并考虑其他涉及材料有关的危险。

一般火灾危险 无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序 让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料 根据水净化法，这种材料被分类为水污染物，应防止污染土壤，或防止进入下水道及流至水路的排水系统。

大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施 防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项 避免接触到眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物 储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
甘油 (CAS 56-81-5)	PEL-常期暴露极限	5 mg/m3	可呼吸部分。
		15 mg/m3	总尘。

美国ACGIH阈限值

组分	类型	标准值	形状
硬脂酸甘油酯 (CAS 31566-31-1)	TWA	3 mg/m3	可呼吸部分。
		10 mg/m3	可吸入组分。

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。

皮肤防护

手防护	仅用於工业环境。 佩戴适当的抗化学手套。
其它的，其它	仅用於工业环境。 穿上合适的化学防护衣。
呼吸系统防护	仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。
热危害	必要时，穿戴适当的热防护服。
一般的卫生考虑	始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状	液体。
形状	奶油。
颜色	有色
气味	特征的。
气味阈值	无资料。
pH 值	3 - 4.5
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。
燃烧上/下限或爆炸极限	
燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。
溶解性	
溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。
其他信息	
密度	0.98 - 0.999 g/cm³
爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	持续的吸入可能是有害的。
皮肤接触	预计没有因皮肤接触导致的任何有害影响。
眼睛接触	造成严重眼刺激。

经口 预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

毒理学效应信息

急性毒性 未知。

产品	物种	试验结果

皮肤腐蚀/刺激 由于部分或完全缺乏数据，不可能进行分类。 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

STEARALKONIUM CHLORIDE	OECD 439 结果: 非刺激性 物种: RhE
甘油	结果: 非刺激性 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼刺激。

刺激性腐蚀性 - 眼睛

STEARALKONIUM CHLORIDE	OECD 492 结果: 可能具刺激性 物种: RhCE
甘油	结果: 非刺激性 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物 由于部分或完全缺乏数据，不可能进行分类。

皮肤致敏物

甘油	167 mg/m3 空气 OECD 413, 吸入 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
STEARALKONIUM CHLORIDE	EU B.6 结果: Not Sensitizing 物种: 豚鼠

皮肤致敏物

甘油 结果: Not Sensitizing
物种: 豚鼠

生殖细胞突变性 由于部分或完全缺乏数据，不可能进行分类。

突变性

甘油 结果: 体外和体内试验均未见致突变作用。
STEARALKONIUM CHLORIDE 结果: 离体试验未见诱变效应

致癌性 尚不能确定对人有致癌作用。 由于部分或完全缺乏数据，不可能进行分类。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

不适用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 由于部分或完全缺乏数据，不可能进行分类。

发育效应

甘油 1310 mg/kg bw/d, 对发展没有影响
结果: NOAEL (未观察到有害效果的水平)
物种: 大鼠

生殖能力

甘油 2000 mg/kg bw/d, 对生育力没有影响
结果: NOAEL (未观察到有害效果的水平)
物种: 大鼠

特定目标器官系统毒性－单次接触 由于部分或完全缺乏数据，不可能进行分类。

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

甘油 8000 mg/kg bw/d, 经口
结果: NOAEL (未观察到有害效果的水平)
物种: 大鼠
测试时间: 2 yr

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
STEARALKONIUM CHLORIDE (CAS 122-19-0)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	11 mg/l, 30 最小 OECD 209
甲壳纲动物	EC50	水蚤	0.016 mg/l, 48 h EU C.2
藻类	EC50	近头状伪蹄形藻	0.03 mg/l, 72 h OECD 201
鱼	LC50	虹鳟鱼	0.85 mg/l, 96 h OECD 203

潜在的生物累积性

辛醇/水分配系数 log Kow

STEARALKONIUM CHLORIDE	3.23
甘油	-1.76

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

不作为危险货物运输

In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes skin irritation. Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
GLYCERIN		56-81-5	2
STEARALKONIUM CHLORIDE		122-19-0	1.41
GLYCERYL STEARATE		31566-31-1	1.02

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	3 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Face shield is recommended. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH 3 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	0.98 - 0.999 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

Information on toxicological effects

Acute toxicity Not known.

LD50	Rabbit	> 18700 mg/kg bw
Inhalation		
LC50	Rat	> 570 mg/L air, 1 h

Components	Species	Test Results
Oral		
LD50	Rat	27200 mg/kg bw

GLYCERYL STEARATE (CAS 31566-31-1)

Acute		
Dermal		
LD50	Rat	> 2000 mg/kg, 24 Hours
Oral		
LD50	Rat	> 5000 mg/kg

Skin corrosion/irritation Causes skin irritation. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

GLYCERIN — Result: Not Irritating; Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

GLYCERIN — Result: Not Irritating; Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

GLYCERIN — 167 mg/m3 air OECD 413, Inhalation; Result: NOAEL; Species: Rat; Test Duration: 90 d; Result: Not Sensitizing; Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

GLYCERIN — Result: In vitro and in vivo tests did not show mutagenic effects.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

GLYCERIN — 1310 mg/kg bw/d, No effects on development; Result: NOAEL; Species: Rat

Reproductivity

GLYCERIN — 2000 mg/kg bw/d, No effects on fertility; Result: NOAEL; Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

GLYCERIN — 8000 mg/kg bw/d, Oral; Result: NOAEL; Species: Rat; Test Duration: 2 yr

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
GLYCERIN (CAS 56-81-5)			
Aquatic			
Acute			
Algae	EC0	Scenedesmus quadricauda	> 10000 mg/l, 192 h
Crustacea	EC50	Daphnia magna	1955 mg/l, 48 h
Fish	LC50	Oncorhynchus mykiss	54000 mg/l, 96 h
Other	NOEC	Pseudomonas putida	> 10000 mg/l, 16 h

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

GLYCERIN	OECD 301 Result: Readily Biodegradable

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

GLYCERIN	-1.76
STEARALKONIUM CHLORIDE	3.23

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT SEMI-PERMANENT COLOR - GROUP 10**

Other means of identification

SDS number 00-22-0000168

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Serious eye damage/eye irritation Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
PETROLATUM		8009-03-8	≤ 1

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Shaded

Odor Characteristic.

Odor threshold Not available.

pH 3.8 - 4.8

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	0.98 - 1 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity

Product	Species	Test Results
PULP RIOT SEMI-PERMANENT COLOR - GROUP 10		
Acute		
Dermal		
ATEmix		3.226e+006 mg/kg
Oral		
ATEmix		120300 mg/kg

Components	Species	Test Results
PETROLATUM (CAS 8009-03-8)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg bw Based on test data for structurally similar materials.
Oral		
LD50	Rat	> 5000 mg/kg bw Based on test data for structurally similar materials.
STEARAMIDOPROPYL DIMETHYLAMINE (CAS 7651-02-7)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg

Components	Species	Test Results
Oral		
LD50	Rat	> 2000 mg/kg OECD 423

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

PETROLATUM	OECD 404, Based on test data for structurally similar materials. Result: Not Irritating Species: Rabbit
STEARAMIDOPROPYL DIMETHYLAMINE	OECE 404 Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

STEARAMIDOPROPYL DIMETHYLAMINE	OECD 405 Result: Corrosive Species: Rabbit
PETROLATUM	OECD 405, Based on test data for structurally similar materials. Result: Not Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

PETROLATUM	OECD 406 Result: Not Sensitizing Species: Guinea pig
STEARAMIDOPROPYL DIMETHYLAMINE	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

STEARAMIDOPROPYL DIMETHYLAMINE	Result: In vitro tests did not show mutagenic effects
PETROLATUM	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

PETROLATUM (CAS 8009-03-8)	Known To Be Human Carcinogen.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OECD 421, No effects on development Result: NOAEL Species: Rat
PETROLATUM	30 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOAEL Species: Rat

Reproductivity

PETROLATUM	> 1000 mg/kg bw/d OECD 421, Based on test data for structurally similar materials. Result: NOAEL Species: Rat

Reproductivity

STEARAMIDOPROPYL DIMETHYLAMINE — 70 mg/kg bw/d OECD 421
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

STEARAMIDOPROPYL DIMETHYLAMINE — > 200 mg/kg bw/d OECD 411, Dermal
Result: NOAEL
Species: Rat
Test Duration: 90 d

PETROLATUM — 5000 mg/kg bw/d OECD 453, Oral
Result: NOAEL
Species: Rat

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
PETROLATUM (CAS 8009-03-8)			
Aquatic			
Acute			
Algae	NOEL	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h Based on test data for structurally similar materials.
Crustacea	NOEL	Daphnia magna	> 10000 mg/l, 48 h Based on test data for structurally similar materials.
Fish	LL50	Pimephales promelas	> 100 mg/l, 96 h Based on test data for structurally similar materials.
STEARAMIDOPROPYL DIMETHYLAMINE (CAS 7651-02-7)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	0.14 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	0.381 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	0.1 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	100 - 1000 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.2 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0.1 mg/l, 9 d OECD 212

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

STEARAMIDOPROPYL DIMETHYLAMINE — 88 % OECD 301
Result: Readily Biodegradable
Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

PETROLATUM — > 6

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT SEMI-PERMANENT COLOR - Groupe 10**

Autres moyens d'identification

Numéro de la FDS 00-22-0000168

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Lésions oculaires graves/irritation oculaire Catégorie 2A

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Provoque une sévère irritation des yeux.

Conseil de prudence

Prévention Se laver soigneusement après manipulation. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
Pétrolatum		8009-03-8	≤ 1

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation	Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.
Contact avec la peau	Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.
Contact avec les yeux	Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.
Ingestion	Rincer la bouche. Consulter un médecin si des symptômes apparaissent.
Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.
Informations générales	S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence	Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Éviter tout contact avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l’exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d’exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d’exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
Pétrolatum (CAS 8009-03-8)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.

ÉTATS-UNIS. Valeurs limites d’exposition de l’ACGIH

Composants	Type	Valeur	Forme
Pétrolatum (CAS 8009-03-8)	TWA	5 mg/m3	Fraction inhalable.

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
Pétrolatum (CAS 8009-03-8)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.

Valeurs biologiques limites Aucune limite d’exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Nuancé

Odeur Caractéristique.

Seuil olfactif Non disponible.

pH 3.8 - 4.8

Point de fusion et point de congélation Non disponible.

Point initial d’ébullition et domaine d’ébullition > 100 °C (> 212 °F)

Point d’éclair > 100.0 °C (> 212.0 °F) Coupelle fermée

Taux d’évaporation Non disponible.

Inflammabilité (solides et gaz) Sans objet.

Limites supérieures et inférieures d'inflammabilité ou d'explosibilité

Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	0.98 - 1 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.

Renseignements sur les effets toxicologiques

Toxicité aiguë

Corrosion cutanée/irritation cutanée On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

Pétrolatum	OCDE 404, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: Non Irritant Espèces: Lapin
STEARAMIDOPROPYL DIMETHYLAMINE	OECE 404 Résultat: Légèrement Irritant Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation- corrosion - Œil

STEARAMIDOPROPYL DIMETHYLAMINE	OCDE 405 Résultat: Corrosif Espèces: Lapin
Pétrolatum	OCDE 405, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: Non Irritant Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée On ne s'attend pas à ce que ce produit provoque une sensibilisation cutanée.

Sensibilisation cutanée

Pétrolatum	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
STEARAMIDOPROPYL DIMETHYLAMINE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

STEARAMIDOPROPYL DIMETHYLAMINE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
Pétrolatum	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Pétrolatum (CAS 8009-03-8)	Carcinogène connu chez l'homme.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Effets sur le développement

STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OCDE 421, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat
Pétrolatum	30 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat

Reproductivité

Pétrolatum	> 1000 mg/kg bw/d OCDE 421, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat
STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OCDE 421 Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OCDE 411, Cutané Résultat: DSENO Espèces: Rat Durée du test: 90 d
Pétrolatum	5000 mg/kg bw/d OCDE 453, Orale Résultat: DSENO Espèces: Rat

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves

Log Koe du coefficient de répartition octanol/eau

Pétrolatum	> 6

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

14. Informations relatives au transport

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis

Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux

No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre)

Non réglementé.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT SEMI-PERMANENT COLOR - 组 10

鉴别的其他方法

SDS编号 00-22-0000168

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 严重眼睛损伤/眼睛刺激性 类别 2A

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 警告

危险性说明 造成严重眼刺激。

防范说明

预防措施 作业后彻底清洗。 戴防护眼罩/防护面具。

事故响应 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如仍觉眼刺激：求医/就诊。 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
凡士林		8009-03-8	≤ 1

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 如仍觉眼刺激：求医/就诊。

经口 漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

指明任何需要立即就医或特殊治疗的情况 提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。

一般信息 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂 水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不当的灭火介质 禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害 燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施 发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明 在不会发生危险的情况下将容器撤离火灾现场。

特定的方法 采用标准灭火程序并考虑其他涉及材料有关的危险。

一般火灾危险 无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序 让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料 大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施 防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项 避免接触到眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物 储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
凡士林 (CAS 8009-03-8)	PEL-常期暴露极限	5 mg/m3	雾气。

美国ACGIH阈限值

组分	类型	标准值	形状
凡士林 (CAS 8009-03-8)	TWA	5 mg/m3	可吸入组分。

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
凡士林 (CAS 8009-03-8)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色 有色

气味 特征的。

气味阈值 无资料。

pH 值 3.8 - 4.8

熔点/凝固点 无资料。

初始沸点和沸程 > 100 ° C (> 212 ° F)

闪点 > 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法

蒸发速率 无资料。

易燃性（固体，气体） 不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

黏度 无资料。

其他信息

密度 0.98 - 1 g/cm³

爆炸特性 不具有爆炸性。

氧化特性 没有氧化性。

10. 稳定性和反应性

反应性 产品在正常的使用、储存和运输条件下是稳定的和非活性的。

化学稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 接触禁配物。

禁配物 强氧化剂。

危险的分解产物 没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入 持续的吸入可能是有害的。

皮肤接触 预计没有因皮肤接触导致的任何有害影响。

眼睛接触 造成严重眼刺激。

经口 预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

毒理学效应信息

急性毒性

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

FICHA DE DATOS DE SEGURIDAD

1. Identificación

Identificador del producto **PULP RIOT SEMI-PERMANENT COLOR - GRUPO 10**

Otros medios de identificación

Número de FDS 00-22-0000168

Uso recomendado Producto de cuidado personal para uso cosmético.

Restricciones recomendadas Ninguno conocido.

Información sobre el fabricante/importador/proveedor/distribuidor

Dirección: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Teléfono de Emergencias 1-800-535-5053 (Internacional: 352-323-3500)

Para más información: 1-732-499-2741

2. Identificación de los peligros

Peligros físicos No clasificado.

Peligros para la salud Lesiones oculares graves/irritación ocular Categoría 2A

Peligros definidos por la OSHA No clasificado.

Elementos de la etiqueta

Palabra de advertencia Atención

Declaración de peligro Provoca irritación ocular grave.

Consejos de prudencia

Prevención Lavarse concienzudamente tras la manipulación. Llevar protección ocular/facial.

Respuesta En caso de contacto con los ojos: Aclárese cuidadosamente con agua durante varios minutos. Quítense las lentes de contacto, si se llevan y resulta fácil hacerlo. Sígase aclarando. Si persiste la irritación ocular: Consultar a un médico. Quitar las prendas contaminadas y lavarlas antes de volver a usarlas.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación Eliminar los desperdicios y residuos de conformidad con la normativa promulgada por las autoridades locales.

Peligro(s) no clasificados en otra parte [Hazard(s) not otherwise classified (HNOC)] Ninguno conocido.

Información complementaria Ninguno.

3. Composición/información sobre los componentes

Mezclas

Denominación química	Nombre común y sinónimos	Número CAS	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
PETROLATO		8009-03-8	≤ 1

*Significa que una identidad química y/o porcentaje de composición específicos han sido reservados como secreto comercial.

4. Primeros auxilios

Inhalación	Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.
Contacto con la piel	Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.
Contacto con los ojos	Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Si persiste la irritación ocular: Consultar a un médico.
Ingestión	Enjuagarse la boca. Obtenga atención médica en caso de síntomas.
Principales síntomas y efectos, agudos y retardados	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.
Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente	Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.
Información general	Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

5. Medidas de lucha contra incendios

Medios de extinción apropiados	Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).
Medios de extinción no apropiados	No utilice chorro de agua, pues extendería el fuego.
Peligros específicos que presenta el producto químico	En caso de incendio se pueden formar gases nocivos.
Equipo de protección especial y medidas de precaución para el personal de lucha contra incendios	Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.
Equipo/Instrucciones para la extinción de incendios	Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.
Métodos específicos	Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.
Riesgos generales de incendio	Ningún riesgo excepcional de incendio o explosión señalado.

6. Medidas en caso de vertido accidental

Precauciones personales, equipo de protección y procedimientos de emergencia	Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Use equipo y ropa de protección apropiados durante la limpieza. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.
Métodos y material de contención y de limpieza	Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua. Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación. Nunca devuelva el producto derramado al envase original para reutilizarlo. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.
Precauciones relativas al medio ambiente	No verter los residuos al desagüe, al suelo o las corrientes de agua.

7. Manipulación y almacenamiento

Precauciones para una manipulación segura	Evítese el contacto con los ojos. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.
Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades	Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

8. Control de la exposición/protección personal

Límites de exposición profesional

Los constituyentes siguientes son los únicos constituyentes del producto que tienen un PEL, TLV u otro límite de exposición recomendado. En este momento, los demás constituyentes no tienen límites de exposición conocidos.

EEUU. Administración de Seguridad y Salud Ocupacional (OSHA) Tabla Z-1 Límites para los contaminantes del aire (29 CFR 1910.1000)

Componentes	Tipo	Valor	Forma
PETROLATO (CAS 8009-03-8)	Limite de Exposición Permisible (LEP)	5 mg/m³	Neblina.

EE.UU. ACGIH Valores umbrales límite

Componentes	Tipo	Valor	Forma
PETROLATO (CAS 8009-03-8)	TWA	5 mg/m³	Fracción inhalable.

EEUU. Instituto Nacional para la Seguridad y Salud Ocupacional (NIOSH): Guía de bolsillo sobre riesgos químicos

Componentes	Tipo	Valor	Forma
PETROLATO (CAS 8009-03-8)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Protección de los ojos/la cara De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).

Protección de la piel

Protección de las manos De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

Otros De aplicación solamente en entornos industriales. Use ropa adecuada resistente a los productos químicos.

Protección respiratoria De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.

Peligros térmicos Use ropa protectora térmica adecuada si resulta necesario.

Consideraciones generales de higiene Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

9. Propiedades físicas y químicas

Aspecto

Estado físico Líquido.

Forma Nata.

Color Sombreado

Olor Característico.

Umbral olfativo No disponible.

pH 3.8 - 4.8

Punto de fusión/punto de congelación No disponible.

Punto inicial de ebullición e intervalo de ebullición > 100 °C (> 212 °F)

Punto de inflamación > 100.0 °C (> 212.0 °F) Copa Cerrada

Tasa de evaporación No disponible.

Inflamabilidad (sólido, gas)	No aplicable.

Límites superior/inferior de inflamabilidad o de explosividad

Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Límite de explosividad inferior (%)	No disponible.
Límite de explosividad superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.

Solubilidad(es)

Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.

Información adicional

Densidad	0.98 - 1 g/cm³
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

10. Estabilidad y reactividad

Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
Estabilidad química	El material es estable bajo condiciones normales.
Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
Materiales incompatibles	Agentes oxidantes fuertes.
Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

11. Información toxicológica

Información sobre posibles vías de exposición

Inhalación	La inhalación prolongada puede resultar nociva.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.
Contacto con los ojos	Provoca irritación ocular grave.
Ingestión	Se espera que representa un riesgo reducido de ingestión.
Síntomas relacionados a las características físicas, químicas y toxicológicas	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.

Información sobre los efectos toxicológicos

Toxicidad aguda

Producto	Especies	Resultados de la prueba
PULP RIOT SEMI-PERMANENT COLOR - GRUPO 10		
Agudo		
Dérmico		
ATEmix		3.226e+006 mg/kg
Oral		
ATEmix		120300 mg/kg

Componentes	Especies	Resultados de la prueba

PETROLATO	5000 mg/kg bw/d OECD 453, Oral Resultado: NOAEL Especies: Rata

Peligro por aspiración No constituye ningún peligro por aspiración.

Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

12. Información ecológica

Ecotoxicidad El producto no está clasificado como peligroso para el medio ambiente. No obstante, eso no excluye la posibilidad de que vertidos grandes o frecuentes puedan tener efectos nocivos o dañinos para el medio ambiente.

Componentes		Especies	Resultados de la prueba
PETROLATO (CAS 8009-03-8)

PETROLATO	> 6

Movilidad en el suelo No hay datos disponibles.

Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

13. Consideraciones relativas a la eliminación

Instrucciones para la eliminación Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Normativas de eliminación locales Elimine de acuerdo con todas las reglamentaciones aplicables.

Desechos de residuos / producto no utilizado Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

2. Nhận diện các hiểm họa

Hiểm Họa Vật Lý Không được phân loại.

Hiểm Họa Cho Sức Khỏe Gây tổn thương mắt /kích ứng mắt nghiêm trọng Loại 2A

OSHA defined hazards Không được phân loại.

Các thành phần của nhãn

Từ cảnh báo Cảnh báo

Công bố hiểm họa Gây kích ứng mắt nghiêm trọng.

Thông điệp đề phòng

Phòng Ngừa Rửa kỹ sau khi thao tác. Sử dụng phương tiện bảo vệ mắt/mặt.

Ứng phó Nếu bị văng vào mắt: Rửa cẩn thận bằng nước trong nhiều phút. Lấy kính tiếp xúc ra, nếu có và dễ thực hiện. Tiếp tục rửa. Nếu vẫn không hết bị kích ứng mắt: Tìm bác sĩ hướng dẫn/chăm sóc. Cởi bỏ quần áo bị ô nhiễm và đem giặt trước khi dùng lại.

Bảo Quản Bảo quản tránh xa các vật liệu tương kỵ.

Thải bỏ Thải bỏ chất thải và các phần cặn dư theo các quy định của cơ quan có thẩm quyền tại địa phương.

Hazard(s) not otherwise classified (HNOC) Chưa được biết.

Thông tin thêm Không có.

3. Thành phần/ thông tin về các phụ liệu

Các hỗn hợp

Tên Hóa Chất	Tên thông dụng và từ đồng nghĩa	Số CAS	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
PETROLATUM		8009-03-8	≤ 1

*Cho biết lai lịch và/hoặc thành phần phần trăm của một hóa chất cụ thể đã được lưu giữ ở dạng bí mật thương mại.

4. Các biện pháp sơ cứu

Hít phải	Đưa ra nơi không khí trong lành. Hãy gọi cho bác sĩ nếu các triệu chứng xuất hiện hoặc không hết.
Tiếp xúc với da	Rửa sạch bằng xà bông và nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng
Tiếp xúc với mắt	Rửa mắt ngay bằng nhiều nước trong ít nhất 15 phút. Tháo kính sát tròng, nếu có và nếu dễ tháo. Tiếp tục súc rửa. Nếu vẫn không hết bị kích ứng mắt: Tìm bác sĩ hướng dẫn/chăm sóc.
Ăn phải	Súc miệng. Tìm gặp y bác sĩ để điều trị nếu các triệu chứng xảy ra.
Các triệu chứng/tác dụng quan trọng nhất, cấp tính và chậm xuất hiện	Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt.
Dấu hiệu cần phải được chăm sóc y tế ngay lập tức và điều trị đặc biệt	Có các biện pháp hỗ trợ tổng quát và điều trị triệu chứng. Theo dõi nạn nhân. Các triệu chứng có thể chậm.
Thông tin tổng quát	Đảm bảo rằng các nhân viên y tế nhận thức được (các) vật liệu liên quan, và thực hiện thận trọng để bảo vệ chính mình.

5. Các biện pháp cứu hỏa

Các chất chữa cháy phù hợp	Sương nước. Bọt. Bộ hóa chất khô. Carbon dioxide (CO2).
Chất chữa cháy không phù hợp	Không dùng vòi xịt nước để dập lửa, vì việc này sẽ gây lan thêm lửa.
Hiểm họa đặc trưng phát sinh từ hóa chất	Trong khi cháy, các khí nguy hiểm cho sức khỏe có thể được hình thành.
Trang bị bảo hộ đặc biệt cho nhân viên chữa cháy	Phải sử dụng thiết bị thở tự điều khiển và trang phục bảo hộ đầy đủ khi chữa cháy.
Các chỉ dẫn/trang thiết bị cứu hỏa	Đưa các thùng chứa ra khỏi khu vực cháy nếu bạn có thể làm mà không gặp nguy hiểm.
Các biện pháp cụ thể	Sử dụng các quy trình chữa cháy tiêu chuẩn và xem xét các hiểm họa của các vật liệu liên quan khác.
Các hiểm họa cháy nói chung	Không có hiểm họa cháy hoặc nổ bất thường nào đáng chú ý.

6. Các biện pháp xử lý rò rỉ bất ngờ

Các biện pháp đề phòng cá nhân, thiết bị bảo vệ và các quy trình xử lý khẩn cấp	Để xa những người không cần thiết. Giữ mọi người tránh xa khỏi khu vực tràn đổ/rò rỉ và tránh hướng gió thổi. Mang thiết bị và quần áo bảo hộ thích hợp trong khi dọn dẹp. Không chạm vào các dụng cụ đựng đã hư hỏng hoặc vật liệu tràn đổ trừ khi có sử dụng trang phục bảo vệ phù hợp. Đảm bảo sự thông hơi đầy đủ. Các nhà chức trách địa phương cần được thông báo nếu xảy ra sự cố tràn đổ lớn không thể kiểm soát được. Về vấn đề bảo hộ cá nhân, xin xem mục 8 của Phiếu An Toàn Hóa Chất.
Phương pháp và vật liệu để ngăn chặn và làm sạch	Lượng Đổ Lớn: Ngăn dòng chảy vật liệu, nếu việc này không gây nguy hiểm. Đắp đê giữ vật liệu đã đổ, khi có thể. Dùng chất khoáng bón cây, cát hoặc đất khô thấm hút rồi cho vào thùng chứa. Sau khi thu hồi sản phẩm, dùng nước xả sạch khu vực. Lượng Đổ Nhỏ: Lau sạch bằng các vật liệu hút nước (ví dụ như khăn, bông). Làm sạch bề mặt cẩn thận để loại bỏ lượng ô nhiễm còn lại. Không bao giờ bỏ chất đã đổ vào bao chứa ban đầu để tái sử dụng. Về thải bỏ chất thải, xin xem mục 13 của Phiếu An Toàn Hóa Chất.
Các biện pháp đề phòng cho môi trường	Không xả vào cống rãnh, kênh rạch hoặc xuống đất.

7. Thao tác và bảo quản

Các biện pháp đề phòng cho thao tác an toàn	Tránh tiếp xúc với mắt. Tránh tiếp xúc lâu. Thực hiện thông khí đầy đủ. Sử dụng thiết bị bảo hộ cá nhân phù hợp. Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.
Các điều kiện bảo quản an toàn, kể cả mọi tính chất tương kỵ	Cất giữ trong dụng cụ đựng thật kín. Giữ xa tầm tay của trẻ em. Bảo quản xa các vật liệu tương kỵ (Xem Mục 10 của Phiếu An Toàn Hóa Chất).

8. Kiểm soát việc tiếp xúc / bảo hộ cá nhân

Các giới hạn tiếp xúc nghề nghiệp

Các cấu tử sau đây là những cấu tử duy nhất của sản phẩm có giá trị PEL, TLV hoặc giới hạn tiếp xúc đề nghị khác. Hiện nay, những cấu tử khác chưa được biết giới hạn tiếp xúc.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Thành phần	Loại	Giá trị	Dạng
PETROLATUM (CAS 8009-03-8)	PEL	5 mg/m3	Sương.

Các Ngưỡng Giới Hạn của Hiệp Hội Vệ Sinh Công Nghiệp Hoa Kỳ (ACGIH), Hoa Kỳ

Thành phần	Loại	Giá trị	Dạng
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Phần có thể hít.

NIOSH của Hoa Kỳ: Hướng Dẫn Bỏ Túi về Hiểm Họa Hóa Chất

Thành phần	Loại	Giá trị	Dạng
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Sương.
	TWA	5 mg/m3	Sương.

Các giá trị giới hạn sinh học Không có giới hạn tiếp xúc sinh học nào đáng lưu ý cho (các) thành phần.

Các biện pháp kiểm soát kỹ thuật phù hợp Nên sử dụng phương pháp thông khí toàn bộ. Tốc độ thông khí phải phù hợp với các điều kiện. Nếu áp dụng, sử dụng tủ xử lý kín, thông hút khí tại chỗ, hoặc các biện pháp kỹ thuật khác để duy trì mức nồng độ trong không khí dưới giới hạn tiếp xúc đề nghị. Nếu chưa thiết lập được các giới hạn tiếp xúc, hãy duy trì mức nồng độ trong không khí ở mức có thể chấp nhận. Cung cấp nơi rửa mắt.

Các biện pháp bảo vệ cá nhân, như trang bị bảo hộ cá nhân

Biện pháp bảo vệ mắt/mặt Chỉ được áp dụng đối với các môi trường công nghiệp. Đeo kính an toàn có gờ chắn bên (hoặc kính bảo hộ).

Bảo vệ da

Bảo vệ tay Chỉ được áp dụng đối với các môi trường công nghiệp. Mang bao tay chống hóa chất thích hợp.

Khác Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc quần áo chống hóa chất thích hợp.

Bảo vệ đường hô hấp Chỉ được áp dụng đối với các môi trường công nghiệp. Trong trường hợp không đủ thông thoáng, sử dụng thiết bị bảo vệ đường hô hấp phù hợp.

Các hiểm họa nhiệt Sử dụng trang phục bảo hộ chống nhiệt, khi cần thiết.

Các lưu ý vệ sinh chung Luôn giám sát việc thực hiện tốt các biện pháp vệ sinh cá nhân, như rửa sạch sau khi làm việc với vật liệu và trước khi ăn, uống, và/hoặc hút thuốc. Thường xuyên giặt quần áo và các thiết bị bảo hộ cho sạch các chất gây ô nhiễm.

9. Tính chất lý hóa

Ngoại Quan

Trạng thái vật lý Chất lỏng.

Dạng Kem.

Màu Màu

Mùi Đặc điểm.

Ngưỡng phát hiện mùi Không có.

pH 3.8 - 4.8

Điểm chảy/điểm đông Không có.

Điểm và vùng nhiệt độ sôi ban đầu > 100 °C (> 212 °F)

Điểm chớp cháy > 100.0 °C (> 212.0 °F) Cốc Kín

Tốc độ bay hơi Không có.

Khả năng cháy (rắn, khí) Không áp dụng.

Giới hạn cháy trên/dưới hoặc các giới hạn nổ

Giới hạn cháy - dưới (%) Không có.

Giới hạn cháy - trên (%) Không có.

Giới hạn nổ – dưới (%)	Không có.
Giới hạn nổ – trên (%)	Không có.
Áp suất hơi	Không có.
Tỷ khối hơi	Không có.
Tỷ trọng tương đối	Không có.
(Các) độ tan	
Tính tan (nước)	Không có.
Hệ số phân tách (n-octanol/nước)	Không có.
Nhiệt độ tự bốc cháy	Không có.
Nhiệt độ phân hủy	Không có.
Độ nhớt	Không có.
Thông tin khác	
Tỷ Trọng	0.98 - 1 g/cm³
Các tính chất nổ	Không nổ.
Các tính chất oxy hóa	Không oxy hóa.

10. Độ bền và khả năng phản ứng

Khả năng phản ứng	Sản phẩm ổn định và không phản ứng trong các điều kiện sử dụng, bảo quản và vận chuyển bình thường.
Độ bền hóa học	Vật liệu ổn định trong các điều kiện bình thường.
Khả năng gây phản ứng nguy hiểm	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Các điều kiện cần tránh	Tránh xa nhiệt, bề mặt nóng, tia lửa, ngọn lửa trần, và các nguồn gây cháy khác. Tiếp xúc với các vật liệu tương kỵ.
Các vật liệu tương kỵ	Các chất oxy hóa mạnh.
Các sản phẩm phân hủy gây nguy hiểm	Không sản phẩm phân hủy nguy hại nào được biết đến.

11. Thông tin về độc tính

Thông tin về các lộ trình tiếp xúc có khả năng xảy ra

Hít phải	Việc hít phải lâu ngày có thể có hại.
Tiếp xúc với da	Được xem là không gây các tác dụng có hại khi tiếp xúc với da.
Tiếp xúc với mắt	Gây kích ứng mắt nghiêm trọng.
Ăn phải	Được xem là có hiểm họa ăn phải thấp.
Triệu chứng liên quan đến tính chất vật lý, hóa học và độc tính.	Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt.

Các tác dụng có hại khác Không có các tác dụng bất lợi cho môi trường nào khác (ví dụ, gây suy yếu tầng ozon, khả năng tạo ozon bằng phương pháp quang hóa, rối loạn nội tiết, khả năng làm tăng nhiệt độ trái đất) được xem là sẽ gặp phải từ thành phần này.

13. Các cân nhắc khi thải bỏ

Các Hướng Dẫn Thải Bỏ Thu gom và tái chế hoặc thải bỏ trong các dụng cụ đựng kín tại các bãi rác thải được phép. Vứt bỏ vật chứa bên trong/thùng chứa tuân theo các quy định địa phương/khu vực/quốc gia/quốc tế.

Các quy định tiêu hủy của địa phương Vứt bỏ tuân theo tất cả các quy định hiện hành.

Chất thải từ cặn lắng/ sản phẩm không sử dụng Loại bỏ theo quy định của địa phương Các dụng cụ đựng hoặc túi lót rỗng có thể còn chứa các cặn dư của sản phẩm. Vật liệu này và dụng cụ đựng của nó phải được thải bỏ bằng một cách thức an toàn (xem: Hướng dẫn thải bỏ).

Bao bì bị ô nhiễm Vì các dụng cụ đựng đã cạn vẫn có thể còn lại cặn sản phẩm, thực hiện dán nhãn cảnh báo ngay cả sau khi dụng cụ đựng đã cạn. Các thùng chứa rỗng cần được đưa tới cơ sở đủ tiêu chuẩn để tái chế hoặc loại bỏ

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT SEMI-PERMANENT COLOR - GROUP 10
Synonyms	None.
SDS number	00-22-0000168
Issue date	11-28-2020
Version number	03
Revision date	02-14-2023
Supersedes date	11-28-2020

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes serious eye irritation. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: STEARAMIDOPROPYL DIMETHYLAMINE

Hazard pictograms

Signal word Warning

Hazard statements

H319 Causes serious eye irritation.

H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 2,75% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 11,75% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
STEARAMIDOPROPYL DIMETHYLAMINE	1	7651-02-7 231-609-1	01-2119979089-19	-	
Classification:	Eye Dam. 1;H318, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				
BASIC RED 51	< 0,6	77061-58-6 278-601-4	01-2120820886-46	-

BASIC YELLOW 87	< 0,3	68259-00-7 269-503-2	01-2120817619-46	-	
Classification:	Acute Tox. 4;H302, Aquatic Acute 1;H400, Aquatic Chronic 1;H410				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Respirable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Inhalable fraction.
PROPYLENE GLYCOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalable fraction and vapor.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear suitable protective clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Shaded

Odor Characteristic.

Odor threshold Not available.

pH 3,8 - 4,8

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212,0 °F (> 100,0 °C) Closed Cup

Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	
Density	0,98 - 1 g/cm³

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on toxicological effects

Acute toxicity

Components	Species	Test Results
BASIC RED 51 (CAS 77061-58-6)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg OECD 402
Oral		
LD50	Rat	> 1000 mg/kg
BASIC YELLOW 87 (CAS 68259-00-7)		
Acute		
Dermal		
LC50	Rat	> 2000 mg/kg OECD 402

Components	Species	Test Results
Oral		
LD50	Rat	1000 mg/kg OECD 420

STEARAMIDOPROPYL DIMETHYLAMINE (CAS 7651-02-7)

Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg
Oral		
LD50	Rat	> 2000 mg/kg OECD 423

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

BASIC YELLOW 87	EPA OPPTS 870,2500 Result: Not Irriating Species: Rabbit
BASIC RED 51	OECD 404 Result: Not Irritating Species: Rabbit
STEARAMIDOPROPYL DIMETHYLAMINE	OECE 404 Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

STEARAMIDOPROPYL DIMETHYLAMINE	OECD 405 Result: Corrosive Species: Rabbit
BASIC RED 51	OECD 405 Result: Irritating Species: Rat
BASIC YELLOW 87	OECD 405 Result: Slightly Irritating Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

BASIC RED 51	OECD 406 Result: Not Sensitizing Species: Guinea pig
BASIC YELLOW 87	OECD 406 Result: Not Sensitizing Species: Guinea pig
STEARAMIDOPROPYL DIMETHYLAMINE	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

STEARAMIDOPROPYL DIMETHYLAMINE	Result: In vitro tests did not show mutagenic effects
BASIC RED 51	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
BASIC YELLOW 87	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

BASIC RED 51	180 mg/kg bw/d OECD 414 Result: NOEL Species: Rat
STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OECD 421, No effects on development Result: NOAEL Species: Rat

Developmental effects

BASIC YELLOW 87	60 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d
BASIC RED 51	10 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
BASIC YELLOW 87	6,76 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Harmful to aquatic life with long lasting effects. Based on available data, the classification criteria are not met for hazardous to the aquatic environment, acute hazard.

Components		Species	Test Results
BASIC RED 51 (CAS 77061-58-6)			
Aquatic			
Acute			
Crustacea	EC50	Daphnia magna	0,44 mg/l, 48 h
Fish	LC50	Lepomis macrochirus	10 - 100 mg/l, 48 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	15 mg/l, 3 h
BASIC YELLOW 87 (CAS 68259-00-7)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0,28 - 0,31 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,6 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	28 - 34 mg/l, 48 h
Other	EC50	Activated sludge of a predominantly domestic sewage	46 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	0,025 mg/l, 72 h OECD 201
STEARAMIDOPROPYL DIMETHYLAMINE (CAS 7651-02-7)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	0,14 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	0,381 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	0,1 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	100 - 1000 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,2 mg/l, 21 d OECD 211

Components		Species	Test Results
Fish	NOEC	Danio rerio	0,1 mg/l, 9 d OECD 212

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BASIC YELLOW 87	21,6 % OECD 302 B Result: Inherently biodegradable. Test Duration: 28 d
STEARAMIDOPROPYL DIMETHYLAMINE	88 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H302 Harmful if swallowed. H318 Causes serious eye damage. H319 Causes serious eye irritation. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects.
Revision information	Product and Company Identification: Product and Company Identification - L'Oreal SECTION 2: Hazards identification: Prevention Composition / Information on Ingredients: Ingredients Physical & Chemical Properties: Multiple Properties
Training information	Follow training instructions when handling this material.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT SEMI-PERMANENT COLOR - Groupe 10
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-22-0000168
Date de publication	le 05-Août-2022
Numéro de version	02
Date de révision	le 14-Février-2023
Date de la version remplacée	le 05-Août-2022

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé		
Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.
Dangers pour l'environnement		
Dangers pour le milieu aquatique, danger à long terme	Catégorie 3	H412 - Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Résumé des dangers

Provoque une sévère irritation des yeux. Dangereux pour l'environnement en cas de déversement dans les cours d'eau. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : STEARAMIDOPROPYL DIMETHYLAMINE

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H319 Provoque une sévère irritation des yeux.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Mentions de mise en garde

Prévention

P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.
P264 Se laver soigneusement après manipulation.
P273 Éviter le rejet dans l'environnement.
P280 Porter un équipement de protection des yeux/du visage.

Intervention

P101 En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P337 + P313 Si l'irritation oculaire persiste: consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination

P501 Eliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 2,75 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 11,75 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
STEARAMIDOPROPYL DIMETHYLAMINE	1	7651-02-7 231-609-1	01-2119979089-19	-	
Classification :	Eye Dam. 1;H318, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				
BASIC RED 51	< 0,6	77061-58-6 278-601-4	01-2120820886-46	-	
Classification :	Acute Tox. 4;H302, Eye Irrit. 2;H319, Aquatic Acute 1;H400, Aquatic Chronic 1;H410				
BASIC YELLOW 87	< 0,3	68259-00-7 269-503-2	01-2120817619-46	-	
Classification :	Acute Tox. 4;H302, Aquatic Acute 1;H400, Aquatic Chronic 1;H410				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Si l'irritation oculaire persiste: consulter un médecin.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie

Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés

Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés

En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange

En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers

Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie

Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention

Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes

Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes

Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement

Éviter le rejet dans l'environnement. Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger. Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage

Éviter que le produit arrive dans les égouts.

Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques

Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger

Éviter le contact avec les yeux. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Éviter le rejet dans l'environnement. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s)

Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d’exposition professionnelle

La Belgique. Valeurs limites d'exposition

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VLCT	10 mg/m3	Brouillard.
	VME	5 mg/m3	Brouillard.

Allemagne. Liste MAK de la DFG (VLE indicatives). Fondation allemande pour la recherche, Division des risques liés aux composés chimiques dans le travail (DFG)

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VME	5 mg/m3	Fraction alvéolaire.

Italie. Valeurs limites d’exposition professionnelle

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VME	5 mg/m3	Fraction inhalable.

Ordonnance du ministre du Travail et de la Politique sociale du 6 juin 2014 sur les concentrations maximales admisibles l'intensité des facteurs de santé nuisibles dans le milieu de travail, Journal des lois 2014, article 817

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VME	5 mg/m3	Fraction inhalable.
PROPANE-1,2-DIOL (CAS 57-55-6)	VME	100 mg/m3	Fraction inhalable et vapeur.

Espagne. Limites d'exposition professionnelle

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VLCT	10 mg/m3	Brouillard.
	VME	5 mg/m3	Brouillard.

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

8.2. Contrôles de l’exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l’équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter un vêtement de protection approprié.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Risques thermiques Porter des équipements de protection contre la chaleur, si nécessaire.

Mesures d'hygiène Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.

Contrôles d’exposition liés à la protection de l’environnement Informer les cadres ou superviseurs concernés de tout rejet dans l’environnement.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect	
État physique	Liquide.
Forme	Crème.
Couleur	Nuancé
Odeur	Caractéristique.
Seuil olfactif	Donnée inconnue.
pH	3,8 - 4,8
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100,0 °C (> 212,0 °F) Coupelle fermée
Taux d'évaporation	Donnée inconnue.
Inflammabilité (solide, gaz)	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.

9.2. Autres informations

Densité	0,98 - 1 g/cm³

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	L'inhalation prolongée peut être nocive.
Contact avec la peau	Aucun effet indésirable par contact cutané n'est attendu.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.

Symptômes Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë

Composants	Espèce	Résultats d'essais
BASIC RED 51 (CAS 77061-58-6)		
Aiguë		
Cutané		
DL50	Rat	> 2000 mg/kg OCDE 402

Corrosion cutanée/irritation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau

BASIC YELLOW 87	EPA OPPTS 870,2500 Résultat: Not Irriating Espèce: Lapin
BASIC RED 51	OCDE 404 Résultat: Non Irritant Espèce: Lapin
STEARAMIDOPROPYL DIMETHYLAMINE	OECE 404 Résultat: Légèrement Irritant Espèce: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation/corrosion – Œil

STEARAMIDOPROPYL DIMETHYLAMINE	OCDE 405 Résultat: Corrosif Espèce: Lapin
BASIC RED 51	OCDE 405 Résultat: Irritant Espèce: Rat
BASIC YELLOW 87	OCDE 405 Résultat: Légèrement Irritant Espèce: Lapin

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée

BASIC RED 51	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
BASIC YELLOW 87	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
STEARAMIDOPROPYL DIMETHYLAMINE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

STEARAMIDOPROPYL DIMETHYLAMINE	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
BASIC RED 51	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.
BASIC YELLOW 87	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

N'est pas listé.

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

BASIC RED 51	180 mg/kg bw/d OCDE 414 Résultat: NOEL Espèce: Rat
STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OCDE 421, Pas d'effets sur le développement Résultat: NOAEL Espèce: Rat
BASIC YELLOW 87	60 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat

Toxicité pour la reproduction

STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OCDE 421 Résultat: NOAEL Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OCDE 411, Cutané Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
BASIC RED 51	10 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
BASIC YELLOW 87	6,76 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme. D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques, danger aigu, ne sont pas remplis.

Composants		Espèce	Résultats d'essais
BASIC RED 51 (CAS 77061-58-6)			
Aquatique			
Aiguë			
Autre	CE50	Boues activées d'eaux usées principalement ménagères	15 mg/l, 3 h
Crustacé	CE50	Daphnia magna	0,44 mg/l, 48 h
Poisson	CL50	Lepomis macrochirus	10 - 100 mg/l, 48 h OCDE 203

Crustacé	CE50	Daphnia magna	0,381 mg/l, 48 h OCDE 202
Poisson	CL50	Oncorhynchus mykiss	0,1 - 1 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,2 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Danio rerio	0,1 mg/l, 9 d OECD 212

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BASIC YELLOW 87	21,6 en % OECD 302 B Résultat: Intrinsèquement biodégradable. Durée de l'essai: 28 d
STEARAMIDOPROPYL DIMETHYLAMINE	88 en % OCED 301 Résultat: Facilement Biodegradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Empêcher que cette substance ne s'écoule dans les égouts ou le réseau d'eau. Ne pas contaminer les étangs, les voies navigables ou les fossés avec le produit ou le récipient utilisés. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC	Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H302 Nocif en cas d'ingestion. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H400 Très toxique pour les organismes aquatiques. H410 Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Identification du produit et de l'entreprise : L'Oreal Attributes RUBRIQUE 2: Identification des dangers: Prévention Composition/Renseignements sur les ingrédients : Ingrédients Caractéristiques chimiques et physiques : Propriétés multiples
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT BELFAST TONING CONDITIONER**

Other means of identification

SDS number 00-12-0000676

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

US Address:
L'Oreal USA Products, Inc
133 Terminal Avenue
Clark, NJ 07066
USA

Canadian Address:
L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent, H4T 1K5
Canada

Emergency Phone # :
1-800-535-5053 (International: 352-323-3500)
In Canada - 1-613-996-6666 (Canutec (*666 Cellular))

For further Information: 1-732-499-2741

Poison Control # : 412-390-3326

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes skin irritation. Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
DICETYLDIMONIUM CHLORIDE		68391-05-9	2.38

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Face shield is recommended. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Purple

Odor Characteristic.

Odor threshold Not available.

pH 3 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C)

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature Not available.

Decomposition temperature Not available.

Viscosity Not available.

Other information

Density	0.98 - 1.1 g/cm3
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	Causes skin irritation.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT BELFAST TONING CONDITIONER		
Acute		
Dermal		
ATEmix		97660 mg/kg
Oral		
ATEmix		28550 mg/kg

Skin corrosion/irritation Causes skin irritation.

Irritation Corrosion - Skin

DICETYLDIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

DICETYLDIMONIUM CHLORIDE	OECD 405 Result: Corrosive Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization	Due to partial or complete lack of data the classification is not possible.
Skin sensitization	Due to partial or complete lack of data the classification is not possible.

Skin sensitization

DICETYLDIMONIUM CHLORIDE — OECD 406
Result: Not Sensitizing
Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

DICETYLDIMONIUM CHLORIDE — Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

DICETYLDIMONIUM CHLORIDE — 12 mg/kg bw/d OECD 414
Result: NOAEL
Species: Rat

Reproductivity

DICETYLDIMONIUM CHLORIDE — 56.3 mg/kg bw/d OECD 416
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

DICETYLDIMONIUM CHLORIDE — 42 - 49 mg/kg bw/d OECD 408, Oral
Result: NOAEL
Species: Rat
Test Duration: 93 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
DICETYLDIMONIUM CHLORIDE (CAS 68391-05-9)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0.386 mg/l, 72 h OECD 201
Crustacea	EC50	Acartia tonsa	0.295 mg/l, 48 h ISO 14669
Fish	LC50	Danio rerio	0.26 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	68 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	0.06 mg/l, 72 h OECD 201
Crustacea	NOEC	Daphnia magna	0.5 mg/l, 21 d OECD 202
Fish	NOEC	Pimephales promelas	0.23 mg/l, 35 d EPA-66013-75-00

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

DICETYLDIMONIUM CHLORIDE	61 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

DICETYLDIMONIUM CHLORIDE	4.7 - 4.9 OECD 123

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé		
Corrosion cutanée/irritation cutanée	Catégorie 2	H315 - Provoque une irritation cutanée.
Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.
Dangers pour l'environnement		
Dangers pour le milieu aquatique, danger à long terme	Catégorie 3	H412 - Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Résumé des dangers

Provoque une sévère irritation des yeux. Provoque une irritation cutanée. Dangereux pour l'environnement en cas de déversement dans les cours d'eau. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : DICETYLDIMONIUM CHLORIDE

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H315	Provoque une irritation cutanée.
H319	Provoque une sévère irritation des yeux.

H412	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P264	Se laver soigneusement après manipulation.
P273	Éviter le rejet dans l'environnement.
P280	Porter un équipement de protection des yeux/du visage.
P280	Porter des gants de protection.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P302 + P352	EN CAS DE CONTACT AVEC LA PEAU: Laver abondamment à l'eau.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P332 + P313	En cas d'irritation cutanée: consulter un médecin.
P337 + P313	Si l'irritation oculaire persiste: consulter un médecin.
P362 + P364	Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination

P501	Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 2,5 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 2,5 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes

Classification :	Acute Tox. 4;H302, Acute Tox. 3;H311, Skin Corr. 1C;H314, Eye Dam. 1;H318, Aquatic Acute 1;H400(M=10), Aquatic Chronic 1;H410				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Enlever les vêtements contaminés. Laver abondamment à l'eau et au savon. En cas d'irritation cutanée: consulter un médecin. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Irritation de la peau. Peut entraîner des rougeurs et de la douleur.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie

Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés

Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés

En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange

En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers

Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie

Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention
