Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur
AMMONIAC (CAS 7664-41-7)	PEL (limite d'exposition admissible)	35 mg/m3
		50 ppm

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur
AMMONIAC (CAS 7664-41-7)	STEL	35 ppm
	TWA	25 ppm

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur
AMMONIAC (CAS 7664-41-7)	STEL	27 mg/m3
		35 ppm
	TWA	18 mg/m3
		25 ppm

Valeurs biologiques limites

Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés

Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux

Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques) et un écran facial.

Protection de la peau

Protection des mains

Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre

Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire

Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques

Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale

Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur	Non disponible.
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	10 - 11
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 0.935 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	Provoque une irritation cutanée.
Contact avec les yeux	Provoque de graves lésions des yeux.

Ingestion Faible danger présumé en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Irritation de la peau. Peut provoquer des rougeurs et des douleurs.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l’élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d’élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d’élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l’étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

Avis de non-responsabilité À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT FACTION8 PERMANENT HAIRCOLOR - Groupe 10
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-21-0000407
Date de publication	le 11-Février-2022
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé		
Corrosion cutanée/irritation cutanée	Catégorie 2	H315 - Provoque une irritation cutanée.
Lésions oculaires graves/irritation oculaire	Catégorie 1	H318 - Provoque des lésions oculaires graves.
Dangers pour l'environnement		
Dangers pour le milieu aquatique, danger à long terme	Catégorie 3	H412 - Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Résumé des dangers

Provoque des lésions oculaires graves. Provoque une irritation cutanée. Dangereux pour l'environnement en cas de déversement dans les cours d'eau. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : AMMONIAC, LAURETH-3, OLEYL PHOSPHATE

Pictogrammes de danger

Mention d'avertissement Danger

Mentions de danger

H315 Provoque une irritation cutanée.
H318 Provoque des lésions oculaires graves.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Mentions de mise en garde

Prévention

P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.
P260 Ne pas respirer les vapeurs.
P264 Se laver soigneusement après manipulation.
P273 Eviter le rejet dans l'environnement.
P280 Porter un équipement de protection des yeux/du visage.
P280 Porter des gants de protection.

Intervention

P101 En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P302 + P352 EN CAS DE CONTACT AVEC LA PEAU: Laver abondamment à l'eau.
P305 + P351 + P338 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P310 Appeler immédiatement un CENTRE ANTIPOISON/un médecin.
P332 + P313 En cas d'irritation cutanée: consulter un médecin.
P362 + P364 Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination

P501 Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 2,32 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 4,25 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue. EUH208 - Contient BISABOLOL, TOLUÈNE -2,5-DIAMINE SULFATE, M-AMINOPHÉNOL, 1-NAPHTOL, RÉSORCINOL, 2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE. Peut produire une réaction allergique.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Enlever les vêtements contaminés. Laver abondamment à l'eau et au savon. En cas d'irritation cutanée: consulter un médecin. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité. Irritation de la peau. Peut entraîner des rougeurs et de la douleur.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement Éviter le rejet dans l'environnement. Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger. Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage Éviter que le produit arrive dans les égouts.

Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger Ne pas respirer les vapeurs. Éviter tout contact de cette substance avec les yeux. Éviter le contact avec les yeux, la peau et les vêtements. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Éviter le rejet dans l'environnement. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s) Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

La Belgique. Valeurs limites d'exposition

Composants	Type	Valeur
AMMONIAC (CAS 7664-41-7)	VLCT	36 mg/m3
		50 ppm
	VME	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	VLCT	7,6 mg/m3
		3 ppm
	VME	2,5 mg/m3

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

Directives au sujet de l'exposition

UE – Valeurs limites d'exposition : Désignation « Peau »

ETHANOLAMINE (CAS 141-43-5)	Résorption via la peau
RÉSORCINOL (CAS 108-46-3)	Résorption via la peau

Slovénie. LEP. Règlements concernant la protection des travailleurs contre les risques d'exposition aux produits chimiques au travail (Journal officiel de la République de Slovénie)

ETHANOLAMINE (CAS 141-43-5)	Résorption via la peau
RÉSORCINOL (CAS 108-46-3)	Résorption via la peau

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter des vêtements appropriés résistant aux produits chimiques.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Risques thermiques Porter des équipements de protection contre la chaleur, si nécessaire.

Mesures d'hygiène	Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.
Contrôles d'exposition liés à la protection de l'environnement	Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect	
État physique	Liquide.
Forme	Crème.
Couleur	Donnée inconnue.
Odeur	Caractéristique.
Seuil olfactif	Donnée inconnue.
pH	10 - 11
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100,0 °C (> 212,0 °F) Coupelle fermée
Taux d'évaporation	Donnée inconnue.
Inflammabilité (solide, gaz)	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.

9.2. Autres informations

Densité	>= 0,935 g/cm³

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	L'inhalation prolongée peut être nocive.

Contact avec la peau	Provoque une irritation cutanée. Peut provoquer une allergie cutanée.
Contact avec les yeux	Provoque des lésions oculaires graves.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.
Symptômes	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité. Irritation de la peau. Peut entraîner des rougeurs et de la douleur.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë Donnée inconnue.

En raison d'un manque partiel ou complet de données, la classification est impossible.

1-NAPHTOL	Résultat: Irritant

Toxicité spécifique pour certains organes cibles – exposition répétée

En raison d'un manque partiel ou complet de données, la classification est impossible.

BASIC RED 51	10 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
TOLUÈNE -2,5-DIAMINE SULFATE	10 mg/kg bw/d OCDE 408, oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
OLEYL PHOSPHATE	1000 mg/kg bw/d OCDE 407 Résultat: NOAEL Espèce: Rat Durée de l'essai: 27 d
1-NAPHTOL	130 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	15 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 108 d
ETHANOLAMINE	150 mg/m3 air OCDE 412, Inhalation Résultat: NOAEC Espèce: Rat Durée de l'essai: 28 d
M-AMINOPHÉNOL	20 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
BISABOLOL	200 mg/kg bw/d OECD 410, Cutané Résultat: NOAEL Espèce: Rat Durée de l'essai: 4 semaines
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 408, Oral Résultat: NOEL Espèce: Rat Durée de l'essai: 90 d
ETHANOLAMINE	300 mg/kg bw/d OCDE 416, Oral Résultat: NOAEL Espèce: Rat
HC YELLOW NO. 2	50 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 91 d
BASIC YELLOW 87	6,76 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
RÉSORCINOL	80 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d 991 mg/m3 Résultat: NOAEC Espèce: Rat Durée de l'essai: 14 d

Danger par aspiration

En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances

Aucune information disponible.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme. D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques, danger aigu, ne sont pas remplis.

Composants		Espèce	Résultats d'essais
1-NAPHTOL (CAS 90-15-3)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	> 2,18 mg/l, 72 h OCDE 201
Crustacé	CE50	Daphnia magna	2,51 mg/l, 48 h
Poisson	CL50	Pimephales promelas	4,24 mg/l, 96 h
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,25 mg/l, 21 d OECD 211
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE (CAS 83763-48-8)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	0,733 mg/l, 72 h OCDE 201
	NOEC (concentration sans effet observé)	Pseudokirchneriella subcapitata	0,341 mg/l, 72 h OCDE 201
Crustacé	CE50	Daphnia magna	3 mg/l, 48 h OCDE 202
AMMONIAC (CAS 7664-41-7)			
Aquatique			
Poisson	CL50	Saumon Chinook (Oncorhynchus tshawytscha)	0,43 - 0,47 mg/l, 96 heures
BASIC RED 51 (CAS 77061-58-6)			
Aquatique			
Aiguë			
Autre	CE50	Boues activées d'eaux usées principalement ménagères	15 mg/l, 3 h
Crustacé	CE50	Daphnia magna	0,44 mg/l, 48 h
Poisson	CL50	Lepomis macrochirus	10 - 100 mg/l, 48 h OCDE 203
BASIC YELLOW 87 (CAS 68259-00-7)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	0,28 - 0,31 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	46 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	1,6 mg/l, 48 h OCDE 202
Poisson	CL50	Oncorhynchus mykiss	28 - 34 mg/l, 48 h
Chronique			
Algues	NOEC (concentration sans effet observé)	Pseudokirchneriella subcapitata	0,025 mg/l, 72 h OCDE 201
BISABOLOL (CAS 72691-24-8)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	5,72 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	> 1000 mg/l, 180 min OCDE 209

Composants		Espèce	Résultats d'essais
Crustacé	CE50	Daphnie	1,3 mg/l, 48 h OCDE 202
Poisson	CL50	Leuciscus idus	6,81 mg/l, 96 h OCDE 203
Cocamidopropylbétaïne (CAS 97862-59-4)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	2,4 mg/l, 72 h OCDE 201
Autre	CE0	Pseudomonas putida	3000 mg/l, 16 h ISO 10712
Crustacé	CE50	Daphnia magna	1,9 mg/l, 48 h OCDE 202

Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	<= 1 mg/l, 21 d
M-AMINOPHÉNOL (CAS 591-27-5)			
Aiguë			
Autre	IC50	Tetrahymena pyriformis	361 mg/l, 40 h

Composants		Espèce	Résultats d'essais
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	62 mg/l, 72 h OCDE 201
Crustacé	CE50	Daphnia magna	1,1 mg/l, 48 h DIN38412, Pt. 11
Poisson	CL50	Danio rerio	82,64 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,05 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Oryzias latipes	25 mg/l, 25 d OECD 204
OLEYL PHOSPHATE (CAS 37310-83-1)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OCDE 201
	NOEC (concentration sans effet observé)	Pseudokirchneriella subcapitata	100 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	318,56 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	> 100 mg/l, 48 h OCDE 202
Poisson	CL50	Danio rerio	> 100 mg/l, 96 h OCDE 203
RÉSORCINOL (CAS 108-46-3)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	> 97 mg/l, 97 h OCDE 201
Autre		Boues activées d'eaux usées principalement ménagères	79 mg/l, 3 h OCDE 209
Crustacé	CL50	Daphnia magna	1 mg/l, 48 h OCDE 202
Poisson	CL50	Pimephales promelas	26,8 mg/l, 96 h E.P.A. -660/3/75-009
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	>= 0,172 mg/l, 21 d
Poisson	LOEC (concentration avec effet mineur observé)	Oncorhynchus mykiss	320 mg/l, 60 d
TOLUÈNE -2,5-DIAMINE SULFATE (CAS 615-50-9)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	0,653 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	17,7 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	0,82 mg/l, 48 h OCDE 202
	NOEC (concentration sans effet observé)	Daphnia magna	0,63 mg/l, 21 d OECD 211
Poisson	CL50	Danio rerio	1,08 mg/l, 96 h OCDE 203

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

1-NAPHTOL	> 77,8 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	0 en % OCDE 301 B Résultat: Difficilement Biodégradable Durée de l'essai: 29 d
BASIC YELLOW 87	21,6 en % OECD 302 B Résultat: Intrinsèquement biodégradable. Durée de l'essai: 28 d
BISABOLOL	70 - 80 en % OECD 301 F Résultat: Facilement Biodegradable Durée de l'essai: 28 d
Cocamidopropylbétaïne	91,6 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
ETHANOLAMINE	> 90 en % OCDE 301 A Résultat: Facilement Biodegradable Durée de l'essai: 21 d
HC YELLOW NO. 2	2,5 - 4 en % OECD 301 F Résultat: Difficilement Biodégradable Durée de l'essai: 28 d
LAURETH-3 OLEYL PHOSPHATE	Résultat: Facilement Biodegradable 26,1 en % OECD 301 D Résultat: Facilement Biodegradable Durée de l'essai: 28 d
RÉSORCINOL	66,7 en % OCDE 301 C Résultat: Facilement Biodegradable Durée de l'essai: 14 d
TOLUÈNE -2,5-DIAMINE SULFATE	17 en % OECD 301 D Résultat: Difficilement Biodégradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

1-NAPHTOL	2,836 OECD 107
AMMONIAC	-2,66
BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69
Cocamidopropylbétaïne	4,2
ETHANOLAMINE	-2,3 OECD 107
M-AMINOPHÉNOL	5,6
RÉSORCINOL	0,8
TOLUÈNE -2,5-DIAMINE SULFATE	0,74

Facteur de bioconcentration (FBC)

Cocamidopropylbétaïne	71

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

Potentiel de réchauffement planétaire selon l'annexe IV du règlement 517/2014/UE relatif aux gaz à effet de serre fluorés avec ses modifications

AMMONIAC (CAS 7664-41-7)	0

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

Estonie : Substances dangereuses dans les sols, Données

RÉSORCINOL (CAS 108-46-3)	Resorcinol (As the sum of Phenols) 0,1 mg/kg Resorcinol (As the sum of Phenols) 1 mg/kg Resorcinol (As the sum of Phenols) 10 mg/kg

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires	Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).
Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Empêcher que cette substance ne s'écoule dans les égouts ou le réseau d'eau. Ne pas contaminer les étangs, les voies navigables ou les fossés avec le produit ou le récipient utilisés. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC	Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

AMMONIAC (CAS 7664-41-7)

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

1-NAPHTOL (CAS 90-15-3)
AMMONIAC (CAS 7664-41-7)
ETHANOLAMINE (CAS 141-43-5)
RÉSORCINOL (CAS 108-46-3)
TOLUÈNE -2,5-DIAMINE SULFATE (CAS 615-50-9)

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

AMMONIAC (CAS 7664-41-7)
M-AMINOPHÉNOL (CAS 591-27-5)
RÉSORCINOL (CAS 108-46-3)
TOLUÈNE -2,5-DIAMINE SULFATE (CAS 615-50-9)

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H301 Toxique en cas d'ingestion. H302 Nocif en cas d'ingestion. H311 Toxique par contact cutané. H312 Nocif par contact cutané. H314 Provoque des brûlures de la peau et des lésions oculaires graves. H315 Provoque une irritation cutanée. H317 Peut provoquer une allergie cutanée. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H332 Nocif par inhalation. H335 Peut irriter les voies respiratoires. H370 Risque avéré d'effets graves pour les organes par ingestion. H371 Risque présumé d'effets graves pour les organes par ingestion. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée. H400 Très toxique pour les organismes aquatiques. H410 Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.

Clause de non-responsabilité

Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte.
Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT FACTION8 PERMANENT HAIRCOLOR - 组 10

鉴别的其他方法

SDS编号 00-21-0000407

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害

皮肤腐蚀/刺激	类别 2
严重眼睛损伤/眼睛刺激性	类别 1

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 危险

危险性说明 造成皮肤刺激。 造成严重眼损伤。

防范说明

预防措施 作业后彻底清洗。 戴防护眼罩/防护面具。 戴防护手套。

事故响应 如皮肤沾染：用大量水清洗。 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如接触到或有疑虑：呼叫解毒中心/医生。 如发生皮肤刺激：求医/就诊。 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
LAURETH-3		68439-50-9	5
氨		7664-41-7	1.8
OLEYL PHOSPHATE		37310-83-1	1.25
HC YELLOW NO. 2		4926-55-0	< 2

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入	移至空气新鲜处。 如果症状持续或恶化，联络医生。
皮肤接触	脱掉受污染的衣服。 用大量肥皂和水清洗。 如发生皮肤刺激：求医/就诊。 沾染的衣服清洗后方可重新使用。
眼睛接触	立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 立即就医。
经口	漱口。 如症状出现，就医。
最重要的症状/影响，急性和延迟性	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 皮肤刺激。 可能导致红肿和疼痛。
指明任何需要立即就医或特殊治疗的情况	提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。
一般信息	务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	不得让本材料接触眼睛。 避免接触眼睛、皮肤和衣物。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参數

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值
氨 (CAS 7664-41-7)	PEL-常期暴露极限	35 mg/m3
		50 ppm

美国ACGIH阈限值

组分	类型	标准值
氨 (CAS 7664-41-7)	TWA	25 ppm
	短期暴露极限（STEL）	35 ppm

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值
氨 (CAS 7664-41-7)	TWA	18 mg/m3
		25 ppm

美国国立职业安全与健康研究所：化学危害物袖珍指南 组分	类型	标准值
	短期暴露极限（STEL）	27 mg/m3 35 ppm

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼和安全淋浴设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 佩戴带侧边的安全眼镜（护目镜）和面罩。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色 无资料。

气味 特征的。

气味阈值 无资料。

pH 值 10 - 11

熔点/凝固点 无资料。

初始沸点和沸程 > 100 ° C (> 212 ° F)

闪点 > 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法

蒸发速率 无资料。

易燃性（固体，气体） 不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

黏度 无资料。

其他信息

密度 >= 0.935 g/cm³

爆炸特性 不具有爆炸性。

氧化特性 没有氧化性。

10. 稳定性和反应性

反应性 产品在正常的使用、储存和运输条件下是稳定的和非活性的。

化学稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 接触禁配物。

禁配物 强氧化剂。

危险的分解产物 没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入 持续的吸入可能是有害的。

皮肤接触 造成皮肤刺激。

眼睛接触 造成严重眼损伤。

经口 预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 皮肤刺激。 可能导致红肿和疼痛。

毒理学效应信息

急性毒性 未知。

潜在的生物累积性

辛醇/水分配系数 log Kow

氨	-2.66

土壤中的迁移性

无数据

其它不良影响

本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导

回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规

按照所有适用的法规进行处置。

残渣废料/未用掉的产品

按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

不作为危险货物运输

BULK

不作为危险货物运输

国际航空运输协会(IATA)

FINISHED GOODS

免责声明

这份安全数据表中提供的信息被认为是其发布日期时我们所知道的知识、信息和确信是准确的。所给出的信息仅作为安全操作处置、使用、加工、储存、运输、废弃处置和释放的指导，而不是作为担保和质量指标。这些信息只涉及到具体指定的物质，而对这些材料与任何其他材料或任何工艺的结合可能是无效的，除非在文本中有说明。

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT FACTION8 PERMANENT HAIRCOLOR - GROUP 26**

Other means of identification

SDS number 00-21-0000408

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A
Specific target organ toxicity, repeated exposure	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention Do not breathe mist/vapors. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	< 4
ETHANOLAMINE		141-43-5	< 3
AMMONIA		7664-41-7	1.8
2,4-DIAMINOPHENOXYETHANOL HCL		66422-95-5	< 2
OLEYL PHOSPHATE		37310-83-1	1.25
RESORCINOL		108-46-3	< 2
M-AMINOPHENOL		591-27-5	< 0.6
P-AMINOPHENOL		123-30-8	< 0.3
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 0.2

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash. Prolonged exposure may cause chronic effects.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Do not breathe mist/vapors. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value
AMMONIA (CAS 7664-41-7)	PEL	35 mg/m3
		50 ppm
ETHANOLAMINE (CAS 141-43-5)	PEL	6 mg/m3
		3 ppm

US. ACGIH Threshold Limit Values

Components	Type	Value
AMMONIA (CAS 7664-41-7)	STEL	35 ppm
	TWA	25 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
AMMONIA (CAS 7664-41-7)	STEL	27 mg/m3
		35 ppm
	TWA	18 mg/m3
		25 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	15 mg/m3
		6 ppm
	TWA	8 mg/m3
		3 ppm
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3

US. NIOSH: Pocket Guide to Chemical Hazards Components	Type	Value
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH 10 - 11

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature Not available.

Decomposition temperature Not available.

Viscosity	Not available.
Other information	
Density	>= 0.935 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction. Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Irritation Corrosion - Eye

M-AMINOPHENOL	OECD 405 Result: Not Irritating Species: Rabbit
RESORCINOL	OECD 405, (2.5%) Result: Not Irritating Species: Rabbit
OLEYL PHOSPHATE	OECD 438 Result: Corrosive Species: In vitro
TOLUENE-2,5-DIAMINE SULFATE	OECD 438 Result: Irritating Species: ICE

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	EU Method B.6 - Cat 1 Result: Sensitizing Species: Guinea pig
P-AMINOPHENOL	OECD 406 Result: Sensitizing Species: Guinea pig
OLEYL PHOSPHATE	OECD 429 Result: Not Sensitizing Species: Mouse
2,4-DIAMINOPHENOXYETHANOL HCL	OECD 429 Result: Sensitizing Species: Mouse
M-AMINOPHENOL	OECD 429 Result: Sensitizing Species: Mouse
RESORCINOL	OECD 429 Result: Sensitizing Species: Mouse
TOLUENE-2,5-DIAMINE SULFATE	OECD 429 Result: Sensitizing Species: Mouse
ETHANOLAMINE	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

ETHANOLAMINE	Result: In vitro and in vivo tests did show mutagenic effects
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	Result: In vitro tests did not show mutagenic effects
LAURETH-3	Result: In vitro tests did not show mutagenic effects
OLEYL PHOSPHATE	Result: In vitro tests did not show mutagenic effects
2,4-DIAMINOPHENOXYETHANOL HCL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
M-AMINOPHENOL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
RESORCINOL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
TOLUENE-2,5-DIAMINE SULFATE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
P-AMINOPHENOL	Result: In vivo tests showed mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

RESORCINOL (CAS 108-46-3)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

ETHANOLAMINE	>= 450 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
TOLUENE-2,5-DIAMINE SULFATE	>= 64 mg/kg bw/d OECD 414 Result: NOAEL Species: Mouse
M-AMINOPHENOL	100 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat
2,4-DIAMINOPHENOXYETHANOL HCL	20 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
RESORCINOL	250 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

TOLUENE-2,5-DIAMINE SULFATE	>= 45 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat
P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat
OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 412 Result: NOEAL Species: Rat
RESORCINOL	245 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	300 mg/kg bw/d OECD 415 Species: Rat
ETHANOLAMINE	300 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure May cause damage to organs through prolonged or repeated exposure.

P-AMINOPHENOL	10 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
TOLUENE-2,5-DIAMINE SULFATE	10 mg/kg bw/d OECD 408, oral Result: NOAEL Species: Rat Test Duration: 90 d
OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 407 Result: NOAEL Species: Rat Test Duration: 27 d
ETHANOLAMINE	150 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d
2,4-DIAMINOPHENOXYETHANOL HCL	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
M-AMINOPHENOL	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d

Specific target organ toxicity - repeated exposure

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d
ETHANOLAMINE	300 mg/kg bw/d OECD 416, Oral Result: NOAEL Species: Rat
RESORCINOL	80 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d 991 mg/m³ Result: NOAEC Species: Rat Test Duration: 14 d

Aspiration hazard Not an aspiration hazard.

Chronic effects May cause damage to organs through prolonged or repeated exposure. May be harmful if absorbed through skin.

Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.

Further information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Aquatic			
Acute			
Algae		Pseudokirchneriella subcapitata	5.33 mg/l, 72 h EU C.3
Crustacea	EC50	Daphnia magna	11.12 mg/l, 48 h TG 202
Fish	LC50	Danio rerio	86.2 mg/l, 96 h EU C.1
2,4-DIAMINOPHENOXYETHANOL HCL (CAS 66422-95-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	36.5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	7.4 mg/l, 48 h OECD 202
AMMONIA (CAS 7664-41-7)			
Aquatic			
Fish	LC50	Chinook salmon (Oncorhynchus tshawytscha)	0.43 - 0.47 mg/l, 96 hours
ETHANOLAMINE (CAS 141-43-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	2.8 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	65 mg/l, 48 h EU C.2
Fish	LC50	Cyprinus carpio	349 mg/l, 96 h EU C.1
Other	EC10	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.85 mg/l, 21 d OECD 211
Fish	NOEC	Oryzias latipes	1.24 mg/l, 41 d OECD 210

Components		Species	Test Results
LAURETH-3 (CAS 68439-50-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	1 - 10 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1 - 10 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	1 - 10 mg/l, 96 h ISO 7346-2
Other	EC0	Pseudomonas putida	> 100 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	<= 1 mg/l, 21 d
M-AMINOPHENOL (CAS 591-27-5)			
Acute			
Other	IC50	Tetrahymena pyriformis	361 mg/l, 40 h
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	62 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1.1 mg/l, 48 h DIN 38412, Pt. 11
Fish	LC50	Danio rerio	82.64 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	0.05 mg/l, 21 d OECD 211
Fish	NOEC	Oryzias latipes	25 mg/l, 25 d OECD 204
OLEYL PHOSPHATE (CAS 37310-83-1)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
	NOEC	Pseudokirchneriella subcapitata	100 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	> 100 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	> 100 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	318.56 mg/l, 3 h OECD 209
P-AMINOPHENOL (CAS 123-30-8)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 0.253 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	0.182 mg/l, 48 h OECD 202
Fish	LC50	Oryzias latipes	0.82 mg/l, 96 h OECD 203

Fish	LC50	Danio rerio	1.08 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	17.7 mg/l, 3 h OECD 209

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33.3 % EU C.4-E Result: Not readily biodegradable
ETHANOLAMINE	> 90 % OECD 301 A Result: Readily Biodegradable Test Duration: 21 d
LAURETH-3	Result: Readily Biodegradable
OLEYL PHOSPHATE	26.1 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d
RESORCINOL	66.7 % OECD 301 C Result: Readily Biodegradable Test Duration: 14 d
TOLUENE-2,5-DIAMINE SULFATE	17 % OECD 301 D Result: Not Readily Biodegradable Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

AMMONIA	-2.66
ETHANOLAMINE	-2.3 OECD 107
M-AMINOPHENOL	5.6
P-AMINOPHENOL	0.25
RESORCINOL	0.8
TOLUENE-2,5-DIAMINE SULFATE	0.74

Bioconcentration factor (BCF)

P-AMINOPHENOL	10 - 46 OECD 305 C

Bioaccumulation

ETHANOLAMINE	Result: Bioaccumulation is unlikely.
P-AMINOPHENOL	Result: Bioaccumulation is unlikely.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

FINISHED GOODS

Not regulated as dangerous goods.

BULK

UN number	UN3082

EmS	F-A, S-F
General information	Packagings containing a net quantity per single package or inner packaging of 5L or less are not subject transportation restrictions except for general packing provisions.

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

AMMONIA (CAS 7664-41-7)	Listed.
RESORCINOL (CAS 108-46-3)	Listed.

SARA 304 Emergency release notification

Ammonia (CAS 7664-41-7)	100 LBS

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Chemical name	CAS number	Reportable quantity (pounds)	Threshold planning quantity (pounds)	Threshold planning quantity, lower value (pounds)	Threshold planning quantity, upper value (pounds)
AMMONIA	7664-41-7	100	500		

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Chemical name	CAS number	% by wt.
AMMONIA	7664-41-7	1.8

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

AMMONIA (CAS 7664-41-7)

Safe Drinking Water Act (SDWA) Not regulated.

FEMA Priority Substances Respiratory Health and Safety in the Flavor Manufacturing Workplace

RESORCINOL (CAS 108-46-3) Low priority

16. Other information, including date of preparation or last revision

Issue date 02-11-2022

Version # 01

NFPA ratings Health: 3
Flammability: 1
Instability: 0

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT FACTION8 PERMANENT HAIRCOLOR - GROUP 26
Synonyms	None.
SDS number	00-21-0000408
Issue date	02-11-2022
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Acute toxicity, oral	Category 4	H302 - Harmful if swallowed.
Skin corrosion/irritation	Category 2	H315 - Causes skin irritation.
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.
Skin sensitization	Category 1A	H317 - May cause an allergic skin reaction.

Environmental hazards

Hazardous to the aquatic environment, long-term aquatic hazard	Category 2	H411 - Toxic to aquatic life with long lasting effects.

Hazard summary Causes serious eye damage. Harmful if swallowed. Causes skin irritation. May cause an allergic skin reaction. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: 1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE, 2,4-DIAMINOPHENOXYETHANOL HCL, 2-METHYLRESORCINOL, AMMONIA, BISABOLOL, ETHANOLAMINE, LAURETH-3, M-AMINOPHENOL, OLEYL PHOSPHATE, P-AMINOPHENOL, RESORCINOL, TOLUENE-2,5-DIAMINE SULFATE

Hazard pictograms

Signal word Danger

Hazard statements

H302	Harmful if swallowed.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H411	Toxic to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P260	Do not breathe vapor.
P264	Wash thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P272	Contaminated work clothing should not be allowed out of the workplace.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.
P280	Wear protective gloves.

Response

P101	If medical advice is needed, have product container or label at hand.
P301 + P312	IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
P330	Rinse mouth.
P302 + P352	IF ON SKIN: Wash with plenty of water.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P333 + P313	If skin irritation or rash occurs: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.
P391	Collect spillage.

Storage Store away from incompatible materials.

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 3,12% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 4,43% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Do not breathe vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. When using, do not eat, drink or smoke. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value
AMMONIA (CAS 7664-41-7)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	7,6 mg/m3

Belgium. Exposure Limit Values.

Components	Type	Value
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	STEL	91 mg/m3
		20 ppm
	TWA	46 mg/m3
		10 ppm

France. OELs. Indicative Occupational Exposure Limits as Prescribed by Order of 30 June 2004, as amended

Components	Type	Value
RESORCINOL (CAS 108-46-3)	VME	45 mg/m3
		45 mg/m3
		10 ppm
		10 ppm

France. OELs. Occupational Exposure Limits as Prescribed by Art. R.4412-149 of Labor Code, as amended

Components	Type	Value
AMMONIA (CAS 7664-41-7)	VLE	14 mg/m3
		20 ppm
	VME	7 mg/m3
		10 ppm
ETHANOLAMINE (CAS 141-43-5)	VLE	7,6 mg/m3
		3 ppm
	VME	2,5 mg/m3
		1 ppm

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
AMMONIA (CAS 7664-41-7)	VLE	14 mg/m3
Regulatory status: Regulatory binding (VRC)		
		20 ppm
Regulatory status: Regulatory binding (VRC)		
	VME	7 mg/m3
Regulatory status: Regulatory binding (VRC)		
		10 ppm
Regulatory status: Regulatory binding (VRC)		
ETHANOLAMINE (CAS 141-43-5)	VLE	7,6 mg/m3
Regulatory status: Regulatory binding (VRC)		
		3 ppm
Regulatory status: Regulatory binding (VRC)		
	VME	2,5 mg/m3
Regulatory status: Regulatory binding (VRC)		
		1 ppm
Regulatory status: Regulatory binding (VRC)		
RESORCINOL (CAS 108-46-3)	VME	45 mg/m3
Regulatory status: Regulatory indicative (VRI)		
		10 ppm
Regulatory status: Regulatory indicative (VRI)		

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
AMMONIA (CAS 7664-41-7)	TWA	14 mg/m3	
		20 ppm	
ETHANOLAMINE (CAS 141-43-5)	TWA	0,51 mg/m3	Vapor and aerosol.
		0,2 ppm	Vapor and aerosol.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
AMMONIA (CAS 7664-41-7)	AGW	14 mg/m3	
		20 ppm	
ETHANOLAMINE (CAS 141-43-5)	AGW	0,5 mg/m3	Vapor and aerosol.
		0,2 ppm	Vapor and aerosol.
RESORCINOL (CAS 108-46-3)	AGW	20 mg/m3	Inhalable fraction.
		4 ppm	Inhalable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value
AMMONIA (CAS 7664-41-7)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	7,6 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	TWA	45 mg/m3
		10 ppm

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
AMMONIA (CAS 7664-41-7)	STEL	28 mg/m3	
	TWA	14 mg/m3	
ETHANOLAMINE (CAS 141-43-5)	STEL	7,5 mg/m3	
	TWA	2,5 mg/m3	
P-AMINOPHENOL (CAS 123-30-8)	TWA	5 mg/m3	Inhalable fraction.
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3	
	TWA	45 mg/m3	

Spain. Occupational Exposure Limits

Components	Type	Value
AMMONIA (CAS 7664-41-7)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm

Spain. Occupational Exposure Limits

Components	Type	Value
ETHANOLAMINE (CAS 141-43-5)	STEL	7,5 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	TWA	46 mg/m3
		10 ppm

EU. Indicative Exposure Limit Values in Directives 91/322/EEC, 2000/39/EC, 2006/15/EC, 2009/161/EU

Components	Type	Value
AMMONIA (CAS 7664-41-7)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	7,6 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

Exposure guidelines

EU Exposure Limit Values: Skin designation

ETHANOLAMINE (CAS 141-43-5) Can be absorbed through the skin.
RESORCINOL (CAS 108-46-3) Can be absorbed through the skin.

Slovenia. OELs. Regulations concerning protection of workers against risks due to exposure to chemicals while working (Official Gazette of the Republic of Slovenia)

ETHANOLAMINE (CAS 141-43-5) Can be absorbed through the skin.
RESORCINOL (CAS 108-46-3) Can be absorbed through the skin.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.
Environmental exposure controls	Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	10 - 11
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

9.2. Other information

Density	>= 0,935 g/cm³

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.

Skin contact Causes skin irritation. May cause an allergic skin reaction.

Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.

Eye contact Causes serious eye damage.

Ingestion Harmful if swallowed.

Symptoms Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

11.1. Information on toxicological effects

Acute toxicity Harmful if swallowed.

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Toxic to aquatic life with long lasting effects. Based on available data, the classification criteria are not met for hazardous to the aquatic environment, acute hazard.

Components		Species	Test Results
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Aquatic			
Acute			
Algae		Pseudokirchneriella subcapitata	5,33 mg/l, 72 h EU C.3
Crustacea	EC50	Daphnia magna	11,12 mg/l, 48 h TG 202
Fish	LC50	Danio rerio	86,2 mg/l, 96 h EU C.1
2,4-DIAMINOPHENOXYETHANOL HCL (CAS 66422-95-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	36,5 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	7,4 mg/l, 48 h OECD 202
2-METHYLRESORCINOL (CAS 608-25-3)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	71 mg/l, 72 h OECD 201

Components		Species	Test Results
Crustacea	EC50	Daphnia magna	0,605 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	58,1 mg/l, 96 h
Other	EC50	Activated sludge of a predominantly domestic sewage	131 mg/l, 3 h OECD 209
AMMONIA (CAS 7664-41-7)			
Aquatic			
Fish	LC50	Chinook salmon (Oncorhynchus tshawytscha)	0,43 - 0,47 mg/l, 96 hours
BISABOLOL (CAS 72691-24-8)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	5,72 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia	1,3 mg/l, 48 h OECD 202
Fish	LC50	Leuciscus idus	6,81 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 180 min OECD 209
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33,3 % EU C,4-E Result: Not readily biodegradable
2-METHYLRESORCINOL	64 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
BISABOLOL	70 - 80 % OECD 301 F Result: Readily Biodegradable Test Duration: 28 d
COCAMIDOPROPYL BETAINE	91,6 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d

Biodegradability

Percent degradation (Aerobic biodegradation)

ETHANOLAMINE	> 90 % OECD 301 A Result: Readily Biodegradable Test Duration: 21 d
LAURETH-3	Result: Readily Biodegradable
OLEYL PHOSPHATE	26,1 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d
RESORCINOL	66,7 % OECD 301 C Result: Readily Biodegradable Test Duration: 14 d
TOLUENE-2,5-DIAMINE SULFATE	17 % OECD 301 D Result: Not Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

AMMONIA	-2,66
COCAMIDOPROPYL BETAINE	4,2
ETHANOLAMINE	-2,3 OECD 107
M-AMINOPHENOL	5,6
P-AMINOPHENOL	0,25
RESORCINOL	0,8
TOLUENE-2,5-DIAMINE SULFATE	0,74

Bioconcentration factor (BCF)

COCAMIDOPROPYL BETAINE	71
P-AMINOPHENOL	10 - 46 OECD 305 C

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

Substance Global Warming Potential per (Annex IV), Regulation 517/2014/EU on fluorinated greenhouse gases, as amended

AMMONIA (CAS 7664-41-7)	0

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

Estonia Dangerous substances in soil Data

RESORCINOL (CAS 108-46-3)	Resorcinol (As the sum of Phenols) 0,1 MG/KG Resorcinol (As the sum of Phenols) 1 MG/KG Resorcinol (As the sum of Phenols) 10 MG/KG

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number UN3082

14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (TOLUENE-2,5-DIAMINE SULFATE)
14.3. Transport hazard class(es)	
Class	9
Label(s)	9
Hazard No. (ADR)	90
Tunnel restriction code	-
14.4. Packing group	III
14.5. Environmental hazards	Yes
14.6. Special precautions for user	Not available.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number	UN3082
14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (TOLUENE-2,5-DIAMINE SULFATE)
14.3. Transport hazard class(es)	
Class	9
14.4. Packing group	III
14.5. Environmental hazards	Yes
ERG Code	9L
14.6. Special precautions for user	Not available.
Other information	
Passenger and cargo aircraft	Allowed with restrictions.
Cargo aircraft only	Allowed with restrictions.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number	UN3082
14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (TOLUENE-2,5-DIAMINE SULFATE), MARINE POLLUTANT
14.3. Transport hazard class(es)	
Class	9
14.4. Packing group	III
14.5. Environmental hazards	
Marine pollutant	Yes
EmS	F-A, S-F
14.6. Special precautions for user	Not available.
14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.
General information	Packagings containing a net quantity per single package or inner packaging of 5L or less are not subject transportation restrictions except for general packing provisions.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

AMMONIA (CAS 7664-41-7)

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

AMMONIA (CAS 7664-41-7)
ETHANOLAMINE (CAS 141-43-5)
RESORCINOL (CAS 108-46-3)
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

P-AMINOPHENOL (CAS 123-30-8)

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)
AMMONIA (CAS 7664-41-7)
M-AMINOPHENOL (CAS 591-27-5)
P-AMINOPHENOL (CAS 123-30-8)
RESORCINOL (CAS 108-46-3)
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H301 Toxic if swallowed. H302 Harmful if swallowed. H311 Toxic in contact with skin. H312 Harmful in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H332 Harmful if inhaled. H335 May cause respiratory irritation. H341 Suspected of causing genetic defects. H370 Causes damage to organs by ingestion. H371 May cause damage to organs by ingestion. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H373 May cause damage to organs through prolonged or repeated exposure. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects.

Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

1. Identificación

Identificador del producto **PULP RIOT FACTION8 PERMANENT HAIRCOLOR - GRUPO 26**

Otros medios de identificación

Número de FDS 00-21-0000408

Uso recomendado Producto de cuidado personal para uso cosmético.

Restricciones recomendadas Ninguno conocido.

Información sobre el fabricante/importador/proveedor/distribuidor

Dirección: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Teléfono de Emergencias 1-800-535-5053 (Internacional: 352-323-3500)

Para más información: 1-732-499-2741

2. Identificación de los peligros

Peligros físicos No clasificado.

Peligros para la salud

Corrosión/irritación cutánea	Categoría 2
Lesiones oculares graves/irritación ocular	Categoría 1
Sensibilización, cutánea	Categoría 1A
Toxicidad sistémica específica de órganos diana (exposiciones repetidas)	Categoría 2

Peligros definidos por la OSHA No clasificado.

Elementos de la etiqueta

Palabra de advertencia Peligro

Declaración de peligro Provoca irritación cutánea. Puede provocar una reacción alérgica en la piel. Provoca lesiones oculares graves. Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas.

Consejos de prudencia

Prevención No respirar la niebla/los vapores. Lavarse concienzudamente tras la manipulación. Las prendas de trabajo contaminadas no deben salir del lugar de trabajo. Llevar protección ocular/facial. Llevar guantes de protección.

Respuesta En caso de contacto con la piel: Lávese con abundante agua. En caso de contacto con los ojos: Aclárese cuidadosamente con agua durante varios minutos. Quítense las lentes de contacto, si se llevan y resulta fácil hacerlo. Sígase aclarando. Llámese inmediatamente a un centro toxicológico o a un médico. En caso de irritación o erupción cutánea: Consultar a un médico. Quitar las prendas contaminadas y lavarlas antes de volver a usarlas.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Peligro(s) no clasificados en otra parte [Hazard(s) not otherwise classified (HNOC)] Ninguno conocido.

Información complementaria Ninguno.

3. Composición/información sobre los componentes

Mezclas

Denominación química	Nombre común y sinónimos	Número CAS	%
LAURETH-3		68439-50-9	5
TOLUENO -2,5-DIAMINE SULFATE		615-50-9	< 4
ETHANOLAMINE		141-43-5	< 3
Amoníaco		7664-41-7	1.8
2,4-DIAMINOPHENOXYETHANOL HCL		66422-95-5	< 2
OLEYL PHOSPHATE		37310-83-1	1.25
RESORCINOL		108-46-3	< 2
M-AMINOFENOL		591-27-5	< 0.6
4-Aminofenol		123-30-8	< 0.3
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 0.2

*Significa que una identidad química y/o porcentaje de composición específicos han sido reservados como secreto comercial.

4. Primeros auxilios

Inhalación
Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel
Quítese inmediatamente la ropa contaminada y lávese la piel con agua y jabón. En caso de eczema u otras molestias cutáneas: acuda al médico y muéstrele esta ficha de datos de seguridad. Lavar las prendas contaminadas antes de volver a usarlas.

Contacto con los ojos
Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Conseguir atención médica inmediatamente.

Ingestión
Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

Principales síntomas y efectos, agudos y retardados
Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera. Irritación de la piel. Puede causar enrojecimiento y dolor. Puede provocar una reacción alérgica en la piel. Dermatitis. Sarpullido. Una exposición prolongada puede producir efectos crónicos.

Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente
Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.

Información general
En caso de malestar, acuda al médico (si es posible, muéstrele la etiqueta). Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse. Lavar las prendas contaminadas antes de volver a usarlas.

5. Medidas de lucha contra incendios

Medios de extinción apropiados
Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).

Medios de extinción no apropiados
No utilice chorro de agua, pues extendería el fuego.

Peligros específicos que presenta el producto químico
En caso de incendio se pueden formar gases nocivos.

Equipo de protección especial y medidas de precaución para el personal de lucha contra incendios
Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.

Equipo/Instrucciones para la extinción de incendios
Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.

Métodos específicos
Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

Riesgos generales de incendio
Ningún riesgo excepcional de incendio o explosión señalado.

6. Medidas en caso de vertido accidental

Precauciones personales, equipo de protección y procedimientos de emergencia

Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Use equipo y ropa de protección apropiados durante la limpieza. No respirar la niebla/los vapores. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.

Métodos y material de contención y de limpieza

Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua.

Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación.

Nunca devuelva el producto derramado al envase original para reutilizarlo. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

Precauciones relativas al medio ambiente

No verter los residuos al desagüe, al suelo o las corrientes de agua.

7. Manipulación y almacenamiento

Precauciones para una manipulación segura

No respirar la niebla/los vapores. Evitar el contacto con los ojos, la piel o la ropa. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.

Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades

Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

8. Control de la exposición/protección personal

Límites de exposición profesional

Los constituyentes siguientes son los únicos constituyentes del producto que tienen un PEL, TLV u otro límite de exposición recomendado. En este momento, los demás constituyentes no tienen límites de exposición conocidos.

EEUU. Administración de Seguridad y Salud Ocupacional (OSHA) Tabla Z-1 Límites para los contaminantes del aire (29 CFR 1910.1000)

Componentes	Tipo	Valor
Amoníaco (CAS 7664-41-7)	Limite de Exposición Permisible (LEP)	35 mg/m³
		50 ppm
ETHANOLAMINE (CAS 141-43-5)	Limite de Exposición Permisible (LEP)	6 mg/m³
		3 ppm

EE.UU. ACGIH Valores umbrales límite

Componentes	Tipo	Valor
Amoníaco (CAS 7664-41-7)	STEL	35 ppm
	TWA	25 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

EEUU. Instituto Nacional para la Seguridad y Salud Ocupacional (NIOSH): Guía de bolsillo sobre riesgos químicos

Componentes	Tipo	Valor
Amoníaco (CAS 7664-41-7)	STEL	27 mg/m³
		35 ppm
	TWA	18 mg/m³
		25 ppm

EEUU. Instituto Nacional para la Seguridad y Salud Ocupacional (NIOSH): Guía de bolsillo sobre riesgos químicos

Componentes	Tipo	Valor
ETHANOLAMINE (CAS 141-43-5)	STEL	15 mg/m³
		6 ppm
	TWA	8 mg/m³
		3 ppm
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m³
		20 ppm
	TWA	45 mg/m³
		10 ppm

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación de lavados de ojos y ducha de emergencia.

Medidas de protección individual, tales como equipos de protección personal

Protección de los ojos/la cara De aplicación solamente en entornos industriales. Equipo respiratorio con cartucho de vapor orgánico y pantalla facial.

Protección de la piel

Protección de las manos De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

Otros De aplicación solamente en entornos industriales. Use ropa adecuada resistente a los productos químicos. Se recomienda el uso de delantal impermeable.

Protección respiratoria De aplicación solamente en entornos industriales. Equipo respiratorio con cartucho de vapor orgánico y pantalla facial.

Peligros térmicos Use ropa protectora térmica adecuada si resulta necesario.

Consideraciones generales de higiene Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes. Las prendas de trabajo contaminadas no podrán sacarse del lugar de trabajo.

9. Propiedades físicas y químicas

Aspecto

Estado físico Líquido.

Forma Nata.

Color No disponible.

Olor Característico.

Umbral olfativo No disponible.

pH 10 - 11

Punto de fusión/punto de congelación No disponible.

Punto inicial de ebullición e intervalo de ebullición > 100 °C (> 212 °F)

Punto de inflamación > 100.0 °C (> 212.0 °F) Copa Cerrada

Tasa de evaporación No disponible.

Inflamabilidad (sólido, gas) No aplicable.

Límites superior/inferior de inflamabilidad o de explosividad

Límite de inflamabilidad - inferior (%) No disponible.

Límite de inflamabilidad - superior (%) No disponible.

Límite de explosividad inferior (%)	No disponible.
Límite de explosividad superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Información adicional	
Densidad	>= 0.935 g/cm³
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

10. Estabilidad y reactividad

Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
Estabilidad química	El material es estable bajo condiciones normales.
Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
Materiales incompatibles	Agentes oxidantes fuertes.
Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

11. Información toxicológica

Información sobre posibles vías de exposición

Inhalación	La inhalación prolongada puede resultar nociva.
Contacto con la piel	Provoca irritación cutánea. Puede provocar una reacción alérgica en la piel. La exposición prolongada o repetitiva puede ocasionar daños en hígado y riñones. No se han observado estos efectos en humanos.
Contacto con los ojos	Provoca lesiones oculares graves.
Ingestión	Se espera que representa un riesgo reducido de ingestión.
Síntomas relacionados a las características físicas, químicas y toxicológicas	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera. Irritación de la piel. Puede causar enrojecimiento y dolor. Puede provocar una reacción alérgica en la piel. Dermatitis. Sarpullido.

Información sobre los efectos toxicológicos

Toxicidad aguda	Desconocido.

Peligro por aspiración

No constituye ningún peligro por aspiración.

Efectos crónicos

Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas. Puede ser nocivo por absorción cutánea.

La exposición prolongada o repetitiva puede ocasionar daños en hígado y riñones. No se han observado estos efectos en humanos.

Información adicional

Puede causar reacciones alérgicas respiratorias y cutáneas. En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

12. Información ecológica

Ecotoxicidad

El producto no está clasificado como peligroso para el medio ambiente. No obstante, eso no excluye la posibilidad de que vertidos grandes o frecuentes puedan tener efectos nocivos o dañinos para el medio ambiente.

Componentes		Especies	Resultados de la prueba
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Acuático (a)			
Agudo			
Algas		Pseudokirchneriella subcapitata	5.33 mg/l, 72 h EU C.3
Crustáceos	EC50	Dafnia magna	11.12 mg/l, 48 h TG 202
Pez	LC50	Danio rerio	86.2 mg/l, 96 h EU C.1
2,4-DIAMINOPHENOXYETHANOL HCL (CAS 66422-95-5)			
Acuático (a)			
Agudo			
Algas	EC50	Pseudokirchneriella subcapitata	36.5 mg/l, 72 h OECD 201
Crustáceos	EC50	Dafnia magna	7.4 mg/l, 48 h OECD 202
4-Aminofenol (CAS 123-30-8)			
Acuático (a)			
Agudo			
Algas	EC50	Pseudokirchneriella subcapitata	> 0.253 mg/l, 72 h OECD 201
Crustáceos	EC50	Dafnia magna	0.182 mg/l, 48 h OECD 202
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	29.9 mg/l, 3 h OECD 209
Pez	LC50	Oryzias latipes	0.82 mg/l, 96 h OECD 203
Amoníaco (CAS 7664-41-7)			
Acuático (a)			
Pez	LC50	Salmón real (Oncorhynchus tshawytscha)	0.43 - 0.47 mg/l, 96 horas
ETHANOLAMINE (CAS 141-43-5)			
Acuático (a)			
Agudo			
Algas	EC50	Pseudokirchneriella subcapitata	2.8 mg/l, 72 h OECD 201
Crustáceos	EC50	Dafnia magna	65 mg/l, 48 h EU C.2
Otros	EC10	Lodo activado de una depuradora predominantemente doméstica	> 1000 mg/l, 30 mín OECD 209
Pez	LC50	Cyprinus carpio	349 mg/l, 96 h EU C.1
Crónico			
Crustáceos	NOEC	Dafnia magna	0.85 mg/l, 21 d OECD 211
Pez	NOEC	Oryzias latipes	1.24 mg/l, 41 d OECD 210
LAURETH-3 (CAS 68439-50-9)			
Acuático (a)			
Agudo			
Algas	EC50	Desmodesmus subspicatus	1 - 10 mg/l, 72 h OECD 201
Crustáceos	EC50	Dafnia magna	1 - 10 mg/l, 48 h OECD 202
Otros	CE0	Seudomonas putida	> 100 mg/l, 3 h OECD 209
Pez	LC50	Danio rerio	1 - 10 mg/l, 96 h ISO 7346-2
Crónico			
Crustáceos	NOEC	Dafnia magna	<= 1 mg/l, 21 d
M-AMINOFENOL (CAS 591-27-5)			
Agudo			
Otros	IC50	Tetrahymena pyriformis	361 mg/l, 40 h
Acuático (a)			
Agudo			
Algas	EC50	Pseudokirchneriella subcapitata	62 mg/l, 72 h OECD 201
Crustáceos	EC50	Dafnia magna	1.1 mg/l, 48 h DIN 38412, Pt. 11

Componentes		Especies	Resultados de la prueba
Pez	LC50	Danio rerio	82.64 mg/l, 96 h OECD 203
Crónico			
Crustáceos	NOEC	Dafnia magna	0.05 mg/l, 21 d OECD 211
Pez	NOEC	Oryzias latipes	25 mg/l, 25 d OECD 204
OLEYL PHOSPHATE (CAS 37310-83-1)			
Acuático (a)			
Agudo			
Algas	EC50	Pseudokirchneriella subcapitata	> 100 mg/l, 72 h OECD 201
	NOEC	Pseudokirchneriella subcapitata	100 mg/l, 72 h OECD 201
Crustáceos	EC50	Dafnia magna	> 100 mg/l, 48 h OECD 202
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	318.56 mg/l, 3 h OECD 209

Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33.3 % EU C.4-E Resultado: No Es Fácilmente Biodegradable
ETHANOLAMINE	> 90 % OECD 301 A Resultado: Fácilmente Biodegradable Duración de la prueba: 21 d
LAURETH-3	Resultado: Fácilmente Biodegradable
OLEYL PHOSPHATE	26.1 % OECD 301 D Resultado: Fácilmente Biodegradable Duración de la prueba: 28 d
RESORCINOL	66.7 % OECD 301 C Resultado: Fácilmente Biodegradable Duración de la prueba: 14 d
TOLUENO -2,5-DIAMINE SULFATE	17 % OECD 301 D Resultado: No Es Fácilmente Biodegradable Duración de la prueba: 28 d

Potencial de bioacumulación

Octanol/agua, coeficiente de partición log Kow

4-Aminofenol	0.25
Amoníaco	-2.66
ETHANOLAMINE	-2.3 OECD 107
M-AMINOFENOL	5.6
RESORCINOL	0.8
TOLUENO -2,5-DIAMINE SULFATE	0.74

Factor de bioconcentración

4-Aminofenol	10 - 46 OECD 305 C

Bioacumulación

4-Aminofenol	Resultado: La bioacumulación es improbable.
ETHANOLAMINE	Resultado: La bioacumulación es improbable.

Movilidad en el suelo No hay datos disponibles.

Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

13. Consideraciones relativas a la eliminación

Instrucciones para la eliminación Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Normativas de eliminación locales Elimine de acuerdo con todas las reglamentaciones aplicables.

Desechos de residuos / producto no utilizado Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

14. Información relativa al transporte

Información general	Packagings containing a net quantity per single package or inner packaging of 5L or less are not subject transportation restrictions except for general packing provisions.

15. Información reglamentaria

reglamentación Federal de EE.UU. El producto es un "Producto químico peligroso" tal como lo define la Norma de comunicación de peligro OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA artículo 12(b) Notificación de exportaciones (40 CFR 707, subapart. D)

No reglamentado.

CERCLA Hazardous Substance List (40 CFR 302.4) (Lista de sustancias peligrosas):

Amoníaco (CAS 7664-41-7)	Listado.
RESORCINOL (CAS 108-46-3)	Listado.

SARA 304 Emergency release notification

Amoníaco (CAS 7664-41-7)	100 libras

Sustancias específicamente reguladas por la OSHA (29 CFR 1910.1001-1052)

No reglamentado.

Ley de Enmiendas y Reautorizaciones Superiores (Superfund) de 1986 (SARA)

SARA 302 Sustancia extremadamente peligrosa

Denominación química	Número CAS	Cantidad denunciable (libras)	Cantidad umbral de planificación (TPQ) (libras)	Cantidad umbral de planificación (TPQ), valor mínimo (libras)	Cantidad umbral de planificación (TPQ), valor máximo (libras)
Amoníaco	7664-41-7	100	500		

SARA 311/312 Producto químico peligroso No (Exempt)

SARA 313 (TRI, Notificación de emisiones de productos tóxicos)

Denominación química	Número CAS	% en peso.
Amoníaco	7664-41-7	1.8

Otras normativas federales

Ley de aire limpio [Clean Air Act (CAA)], artículo 112, lista de Contaminantes del aire peligrosos [Hazardous Air Pollutants (HAP)]

No reglamentado.

Ley de aire limpio (CAA) Sección 112(r) Prevención de liberación accidental (40 CFR 68.130)

Amoníaco (CAS 7664-41-7)

Ley Safe Drinking Water Act (SDWA) No reglamentado.

FEMA Priority Substances Respiratory Health and Safety in the Flavor Manufacturing Workplace

RESORCINOL (CAS 108-46-3)	Low priority

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Corrosion cutanée/irritation cutanée	Catégorie 2
Lésions oculaires graves/irritation oculaire	Catégorie 1
Sensibilisation cutanée	Catégorie 1A
Toxicité pour certains organes cibles - expositions répétées	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Provoque une irritation cutanée. Peut provoquer une allergie cutanée. Provoque de graves lésions des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Conseil de prudence

Prévention Ne pas respirer les brouillards/vapeurs. Se laver soigneusement après manipulation. Il ne faut pas que les vêtements de travail contaminés quittent le lieu de travail. Porter un équipement de protection des yeux/du visage. Porter des gants de protection.

Intervention En contact avec la peau : Laver avec beaucoup d'eau. En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin. En cas d'irritation ou d'éruption cutanée : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements contaminés et laver la peau à l'eau et au savon. En cas d'eczéma ou d'autres problèmes cutanés : consulter un médecin et apporter cette fiche. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Irritation de la peau. Peut provoquer des rougeurs et des douleurs. Peut provoquer une allergie cutanée. Dermatite. Éruption. Une exposition prolongée peut causer des effets chroniques.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger. Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence

Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Ne pas respirer les brouillards/vapeurs. Éviter tout contact avec les yeux, la peau ou les vêtements. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur
AMMONIAC (CAS 7664-41-7)	PEL (limite d'exposition admissible)	35 mg/m3
		50 ppm
ÉTHANOLAMINE (CAS 141-43-5)	PEL (limite d'exposition admissible)	6 mg/m3
		3 ppm

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur
AMMONIAC (CAS 7664-41-7)	STEL	35 ppm
	TWA	25 ppm
ÉTHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm
RÉSORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur
AMMONIAC (CAS 7664-41-7)	STEL	27 mg/m3
		35 ppm

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur
	TWA	18 mg/m3
		25 ppm
ÉTHANOLAMINE (CAS 141-43-5)	STEL	15 mg/m3
		6 ppm
	TWA	8 mg/m3
		3 ppm
RÉSORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3
		10 ppm

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.

Protection respiratoire Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Non disponible.

Odeur Caractéristique.

Seuil olfactif Non disponible.

pH 10 - 11

Point de fusion et point de congélation Non disponible.

Point initial d'ébullition et domaine d'ébullition > 100 °C (> 212 °F)

Point d'éclair > 100.0 °C (> 212.0 °F) Coupelle fermée

Taux d'évaporation Non disponible.

Inflammabilité (solides et gaz) Sans objet.

Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 0.935 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	Provoque une irritation cutanée. Peut provoquer une allergie cutanée. L'exposition répétée ou prolongée peut causer des lésions aux reins et au foie. Ces effets n'ont pas été observés chez l'humain.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Irritation de la peau. Peut provoquer des rougeurs et des douleurs. Peut provoquer une allergie cutanée. Dermatite. Éruption.

Danger par aspiration Pas un danger par aspiration.

Effets chroniques Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée. Peut être nocif en cas d'absorption par la peau.

L'exposition répétée ou prolongée peut causer des lésions aux reins et au foie. Ces effets n'ont pas été observés chez l'humain.

Autres informations Peut provoquer des allergies respiratoires et cutanées. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Bioaccumulation

ÉTHANOLAMINE	Résultat: Une bioaccumulation est peu probable.
p-Aminophénol	Résultat: Une bioaccumulation est peu probable.

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

Avis de non-responsabilité À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l’utilisation, le traitement, l’entreposage, le transport, l’élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT FACTION8 PERMANENT HAIRCOLOR - Groupe 26
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-21-0000408
Date de publication	le 11-Février-2022
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé		
Toxicité aiguë, orale	Catégorie 4	H302 - Nocif en cas d'ingestion.
Corrosion cutanée/irritation cutanée	Catégorie 2	H315 - Provoque une irritation cutanée.
Lésions oculaires graves/irritation oculaire	Catégorie 1	H318 - Provoque des lésions oculaires graves.
Sensibilisation cutanée	Catégorie 1A	H317 - Peut provoquer une allergie cutanée.
Dangers pour l'environnement		
Dangers pour le milieu aquatique, danger à long terme	Catégorie 2	H411 - Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Résumé des dangers

Provoque des lésions oculaires graves. Nocif en cas d'ingestion. Provoque une irritation cutanée. Peut provoquer une allergie cutanée. Dangereux pour l'environnement en cas de déversement dans les cours d'eau. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : 1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE, 2,4-DIAMINOPHENOXYETHANOL HCL, 2-METHYLRESORCINOL, AMMONIAC, BISABOLOL, ETHANOLAMINE, LAURETH-3, M-AMINOPHÉNOL, OLEYL PHOSPHATE, p-Aminophénol, RÉSORCINOL, TOLUÈNE -2,5-DIAMINE SULFATE

Pictogrammes de danger

Mention d'avertissement Danger

Mentions de danger

H302	Nocif en cas d'ingestion.
H315	Provoque une irritation cutanée.
H317	Peut provoquer une allergie cutanée.
H318	Provoque des lésions oculaires graves.
H411	Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P260	Ne pas respirer les vapeurs.
P264	Se laver soigneusement après manipulation.
P270	Ne pas manger, boire ou fumer en manipulant ce produit.
P272	Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.
P273	Éviter le rejet dans l'environnement.
P280	Porter un équipement de protection des yeux/du visage.
P280	Porter des gants de protection.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P301 + P312	EN CAS D'INGESTION: Appeler un CENTRE ANTIPOISON/un médecin// en cas de malaise.
P330	Rincer la bouche.
P302 + P352	EN CAS DE CONTACT AVEC LA PEAU: Laver abondamment à l'eau.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P310	Appeler immédiatement un CENTRE ANTIPOISON/un médecin.
P333 + P313	En cas d'irritation ou d'éruption cutanée: consulter un médecin.
P362 + P364	Enlever les vêtements contaminés et les laver avant réutilisation.
P391	Recueillir le produit répandu.

Stockage Conserver à l'écart de matières incompatibles.

Élimination

P501	Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 3,12 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 4,43 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées. Montrer cette fiche de données de sécurité au médecin traitant. Laver les vêtements contaminés avant réutilisation.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements souillés et laver la peau avec de l'eau et du savon. En cas d'eczéma ou d'autres problèmes cutanés : consulter un médecin et apporter cette fiche. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. En cas de vomissement, garder la tête basse pour éviter une pénétration du contenu de l'estomac dans les poumons. Consulter un médecin en cas de malaise.

4.2. Principaux symptômes et effets, aigus et différés

Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité. Irritation de la peau. Peut entraîner des rougeurs et de la douleur. Peut provoquer une allergie cutanée. Dermatite. Éruption cutanée.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime au chaud. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie

Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés

Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés

En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange

En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers

Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie

Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention

Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes

Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes

Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement

Éviter le rejet dans l'environnement. Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger. Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage

Éviter que le produit arrive dans les égouts.

Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques

Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger

Ne pas respirer les vapeurs. Éviter tout contact avec les yeux, la peau ou les vêtements. Ne pas goûter ni avaler. Éviter toute exposition prolongée. Lors de l'utilisation, ne pas manger, boire ou fumer. Assurer une ventilation efficace. Porter un équipement de protection approprié. Se laver les mains soigneusement après manipulation. Éviter le rejet dans l'environnement. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s)

Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

Directives au sujet de l'exposition

UE – Valeurs limites d'exposition : Désignation « Peau »

ETHANOLAMINE (CAS 141-43-5)	Résorption via la peau
RÉSORCINOL (CAS 108-46-3)	Résorption via la peau

Slovénie. LEP. Règlements concernant la protection des travailleurs contre les risques d'exposition aux produits chimiques au travail (Journal officiel de la République de Slovénie)

ETHANOLAMINE (CAS 141-43-5)	Résorption via la peau
RÉSORCINOL (CAS 108-46-3)	Résorption via la peau

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales	Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.
Protection des yeux/du visage	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux. Le port d'un masque facial est conseillé.
Protection de la peau	
- Protection des mains	Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.
- Autres	Pour usage industriel seulement. Porter des vêtements appropriés résistant aux produits chimiques. L'emploi d'un tablier imperméable est recommandé.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Risques thermiques	Porter des équipements de protection contre la chaleur, si nécessaire.
Mesures d'hygiène	Éviter le contact avec la nourriture et la boisson. Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants. Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.
Contrôles d'exposition liés à la protection de l'environnement	Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect	
État physique	Liquide.
Forme	Crème.
Couleur	Donnée inconnue.
Odeur	Caractéristique.
Seuil olfactif	Donnée inconnue.
pH	10 - 11
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100,0 °C (> 212,0 °F) Coupelle fermée
Taux d'évaporation	Donnée inconnue.
Inflammabilité (solide, gaz)	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.
9.2. Autres informations	
Densité	>= 0,935 g/cm³

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.

10.2. Stabilité chimique Ce produit est stable dans des conditions normales.

10.3. Possibilité de réactions dangereuses Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.4. Conditions à éviter Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des substances incompatibles.

10.5. Matières incompatibles Agents oxydants forts.

10.6. Produits de décomposition dangereux On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation L'inhalation prolongée peut être nocive.

Contact avec la peau Provoque une irritation cutanée. Peut provoquer une allergie cutanée.

Une exposition prolongée ou répétée peut provoquer des lésions hépatiques et rénales. Ces effets n'ont pas été observés chez l'être humain.

Contact avec les yeux Provoque des lésions oculaires graves.

Ingestion Nocif en cas d'ingestion.

Symptômes Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité. Irritation de la peau. Peut entraîner des rougeurs et de la douleur. Peut provoquer une allergie cutanée. Dermatite. Éruption cutanée.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë Nocif en cas d'ingestion.

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

Potentiel de réchauffement planétaire selon l'annexe IV du règlement 517/2014/UE relatif aux gaz à effet de serre fluorés avec ses modifications

AMMONIAC (CAS 7664-41-7)	0

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

Estonie : Substances dangereuses dans les sols, Données

RÉSORCINOL (CAS 108-46-3)	Resorcinol (As the sum of Phenols) 0,1 mg/kg Resorcinol (As the sum of Phenols) 1 mg/kg Resorcinol (As the sum of Phenols) 10 mg/kg

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.

Code des déchets UE Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.

Informations / Méthodes d'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Empêcher que cette substance ne s'écoule dans les égouts ou le réseau d'eau. Ne pas contaminer les étangs, les voies navigables ou les fossés avec le produit ou le récipient utilisés. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Précautions particulières Détruire conformément à toutes les réglementations applicables.

RÉSORCINOL (CAS 108-46-3)
TOLUÈNE -2,5-DIAMINE SULFATE (CAS 615-50-9)

Autres réglementations Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.

Réglementations nationales Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.

15.2. Évaluation de la sécurité chimique Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations Donnée inconnue.

Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H301 Toxique en cas d'ingestion. H302 Nocif en cas d'ingestion. H311 Toxique par contact cutané. H312 Nocif par contact cutané. H314 Provoque des brûlures de la peau et des lésions oculaires graves. H315 Provoque une irritation cutanée. H317 Peut provoquer une allergie cutanée. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H332 Nocif par inhalation. H335 Peut irriter les voies respiratoires. H341 Susceptible d'induire des anomalies génétiques. H370 Risque avéré d'effets graves pour les organes par ingestion. H371 Risque présumé d'effets graves pour les organes par ingestion. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée. H400 Très toxique pour les organismes aquatiques. H410 Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT FACTION8 PERMANENT HAIRCOLOR - 组 26

鉴别的其他方法

SDS编号 00-21-0000408

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害

皮肤腐蚀/刺激	类别 2
严重眼睛损伤/眼睛刺激性	类别 1
皮肤过敏	类别 1A
特异性靶器官系统毒性-反复接触	类别 2

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 危险

危险性说明 造成皮肤刺激。 可能造成皮肤过敏反应。 造成严重眼损伤。 长期或反复接触可能损害器官。

防范说明

预防措施 不要吸入雾气。 作业后彻底清洗。 受沾染的工作服不得带出工作场地。 戴防护眼罩/防护面具。 戴防护手套。

事故响应 如皮肤沾染：用大量水清洗。 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如接触到或有疑虑：呼叫解毒中心/医生。 如发生皮肤刺激或皮疹：求医/就诊。 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 按照地方/区域/国家/国际规章处置内装物/容器。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
LAURETH-3		68439-50-9	5
甲苯 -2,5-DIAMINE SULFATE		615-50-9	< 4

化学名称	通用名称和别名	登记号(CAS号)	%
乙醇胺		141-43-5	< 3
氨		7664-41-7	1.8
2,4-DIAMINOPHENOXYETHANOL HCL		66422-95-5	< 2
OLEYL PHOSPHATE		37310-83-1	1.25
间苯二酚		108-46-3	< 2
M-AMINOPHENOL		591-27-5	< 0.6
P-AMINOPHENOL		123-30-8	< 0.3
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 0.2

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入
移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触
立即脱掉受污染的衣服，用肥皂水冲洗皮肤。 若出现湿疹或其它皮肤疾病：就医治疗，并带上本说明书。 沾染的衣服清洗后方可重新使用。

眼睛接触
立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 立即就医。

经口
漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性
严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 皮肤刺激。 可能导致红肿和疼痛。 可能造成皮肤过敏反应。 皮炎。 皮疹. 长期接触可能会导致慢性的影响。

指明任何需要立即就医或特殊治疗的情况
提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。

一般信息
如感觉不舒服,寻求医生的建议(可能的话出示此标签)。 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。 沾染的衣服清洗后方可重新使用。

5. 消防措施

合适的灭火剂
水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不当的灭火介质
禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害
燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施
发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明
在不会发生危险的情况下将容器撤离火灾现场。

特定的方法
采用标准灭火程序并考虑其他涉及材料有关的危险。

一般火灾危险
无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序
让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 不要吸入雾气。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料
大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施
防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项
不要吸入雾气。 严防进入眼中、接触皮肤或衣服。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物
储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值
乙醇胺 (CAS 141-43-5)	PEL-常期暴露极限	6 mg/m3
		3 ppm
氨 (CAS 7664-41-7)	PEL-常期暴露极限	35 mg/m3
		50 ppm

美国ACGIH阈限值

组分	类型	标准值
乙醇胺 (CAS 141-43-5)	TWA	3 ppm
	短期暴露极限（STEL）	6 ppm
氨 (CAS 7664-41-7)	TWA	25 ppm
	短期暴露极限（STEL）	35 ppm
间苯二酚 (CAS 108-46-3)	TWA	10 ppm
	短期暴露极限（STEL）	20 ppm

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值
乙醇胺 (CAS 141-43-5)	TWA	8 mg/m3
		3 ppm
	短期暴露极限（STEL）	15 mg/m3
		6 ppm
氨 (CAS 7664-41-7)	TWA	18 mg/m3
		25 ppm
	短期暴露极限（STEL）	27 mg/m3
		35 ppm
间苯二酚 (CAS 108-46-3)	TWA	45 mg/m3
		10 ppm
	短期暴露极限（STEL）	90 mg/m3
		20 ppm

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼和安全淋浴设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 带有机蒸气滤毒罐和全面罩的化学呼吸器。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。 建议使用不渗透的围裙。

呼吸系统防护 仅用於工业环境。 带有机蒸气滤毒罐和全面罩的化学呼吸器。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。 受沾染的工作服不得带出工作场地。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色	无资料。
气味	特征的。
气味阈值	无资料。
pH 值	10 - 11
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。
燃烧上/下限或爆炸极限	
燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。
溶解性	
溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。
其他信息	
密度	>= 0.935 g/cm³
爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	持续的吸入可能是有害的。
皮肤接触	造成皮肤刺激。 可能造成皮肤过敏反应。 长时间或是重复暴露可能导致肝脏和肾损伤。 这些影响在人体尚未被观察到。
眼睛接触	造成严重眼损伤。
经口	预计较低的食入危害。
与物理,化学和毒物学特性有关的症状	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 皮肤刺激。 可能导致红肿和疼痛。 可能造成皮肤过敏反应。 皮炎。 皮疹.
毒理学效应信息	
急性毒性	未知。

产品	物种	试验结果
PULP RIOT FACTION8 PERMANENT HAIRCOLOR - 组 26		
急性的		
经口		
ATEmix		2137 mg/kg
经皮肤		
ATEmix		17510 mg/kg

组分	物种	试验结果
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)		
急性的		
吸入		
气溶胶		
LD50	大鼠	> 5.24 mg/m3, 4 h OECD 403
经口		
LD50	大鼠	> 2000 mg/kg OECD 401
2,4-DIAMINOPHENOXYETHANOL HCL (CAS 66422-95-5)		
急性的		
经口		
LD50	大鼠	1000 mg/kg OECD 401
LAURETH-3 (CAS 68439-50-9)		
急性的		
经皮肤		
LD50	兔子	2000 mg/kg, 24 小时
	大鼠	> 5000 mg/kg EU B.1
M-AMINOPHENOL (CAS 591-27-5)		
急性的		
吸入		
LC50	大鼠	1162 mg/m3
经口		
LD50	大鼠	924 mg/kg
OLEYL PHOSPHATE (CAS 37310-83-1)		
急性的		
经口		
LD50	大鼠	> 2000 mg/kg 经济合作发展组织 423
		> 2000 mg/kg
经皮肤		
LD50	大鼠	> 2000 mg/kg OECD 402
		> 2000 mg/kg, 24 小时
P-AMINOPHENOL (CAS 123-30-8)		
急性的		
吸入		
粉尘		
LC50	大鼠	> 3.42 mg/l, 4 h OECD 403
经口		
LD50	大鼠	671 mg/kg EPA OPPTS 870.1100
经皮肤		
LD50	兔子	> 8000 mg/kg EPA OPTTS 870.1200
乙醇胺 (CAS 141-43-5)		
急性的		
吸入		
蒸气		
LC50	大鼠	> 1.3 mg/l, 6 h

组分	物种	试验结果
经口		
LD50	大鼠	1515 mg/kg OECD 401
经皮肤		
LD50	兔子	2504 mg/kg OECD 402
氨 (CAS 7664-41-7)		
急性的		
经口		
LD50	大鼠	350 mg/kg
甲苯 -2,5-DIAMINE SULFATE (CAS 615-50-9)		
急性的		
吸入		
LC50	大鼠	1.77 mg/l, 4 h
经口		
LD50	大鼠	102 mg/kg
经皮肤		
LD50	-	3519 mg/l
	兔子	> 5000 mg/kg, 24 小时
间苯二酚 (CAS 108-46-3)		
急性的		
吸入		
气溶胶		
LC0	大鼠	> 7800 mg/m³, 1 h FHSL Act
经口		
LD50	大鼠	510 mg/kg OECD 401
经皮肤		
LD50	兔子	2830 mg/kg FHSL Act

皮肤腐蚀/刺激 造成皮肤刺激。

刺激性腐蚀性 - 皮肤

间苯二酚	FHLS Act, (100%) 结果: 刺激性的 物种: 兔子
乙醇胺	OECD 404 结果: 腐蚀性的 物种: 兔子
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	OECD 404 结果: 轻微刺激性 物种: 兔子
LAURETH-3	OECD 404 结果: 轻微刺激性 物种: 兔子
2,4-DIAMINOPHENOXYETHANOL HCL	OECD 404 结果: 非刺激性 物种: 兔子
M-AMINOPHENOL	OECD 404 结果: 非刺激性 物种: 兔子
间苯二酚	OECD 404, (2.5%) 结果: 非刺激性 物种: 兔子
OLEYL PHOSPHATE	OECD 439 结果: 非刺激性 物种: RhE
甲苯 -2,5-DIAMINE SULFATE	OECD 439 结果: 非刺激性 物种: RhE
P-AMINOPHENOL	结果: 轻微刺激性 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼损伤。

刺激性腐蚀性 - 眼睛

P-AMINOPHENOL	EPA OPPTS 870.2400 结果: 轻微刺激性 物种: 兔子
间苯二酚	FHLS Act, (100%) 结果: 腐蚀性的 物种: 兔子
2,4-DIAMINOPHENOXYETHANOL HCL	OECD 405 结果: 刺激性的 物种: 兔子
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	OECD 405 结果: 腐蚀性的 物种: 兔子
LAURETH-3	OECD 405 结果: 腐蚀性的 物种: 兔子
乙醇胺	OECD 405 结果: 腐蚀性的 物种: 兔子
M-AMINOPHENOL	OECD 405 结果: 非刺激性 物种: 兔子
间苯二酚	OECD 405, (2.5%) 结果: 非刺激性 物种: 兔子
甲苯 -2,5-DIAMINE SULFATE	OECD 438 结果: 刺激性的 物种: ICE
OLEYL PHOSPHATE	OECD 438 结果: 腐蚀性的 物种: 在試管內

呼吸道或皮肤过敏

呼吸过敏性 不是呼吸道致敏物。

皮肤致敏物 可能造成皮肤过敏反应。

皮肤致敏物

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	EU Method B.6 - 催化剂 1 结果: 致敏 物种: 豚鼠
P-AMINOPHENOL	OECD 406 结果: 致敏 物种: 豚鼠
OLEYL PHOSPHATE	OECD 429 结果: Not Sensitizing 物种: 小鼠
2,4-DIAMINOPHENOXYETHANOL HCL	OECD 429 结果: 致敏 物种: 小鼠
M-AMINOPHENOL	OECD 429 结果: 致敏 物种: 小鼠
甲苯 -2,5-DIAMINE SULFATE	OECD 429 结果: 致敏 物种: 小鼠
间苯二酚	OECD 429 结果: 致敏 物种: 小鼠
乙醇胺	结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 无数据表明本产品或其含量超过0.1%的任何组分具有致变性或基因毒性。

突变性

乙醇胺	结果: In vitro and in vivo tests did show mutagenic effects
P-AMINOPHENOL	结果: 活体试验表明有诱变效应
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	结果: 离体试验未见诱变效应

突变性

LAURETH-3	结果: 离体试验未见诱变效应
OLEYL PHOSPHATE	结果: 离体试验未见诱变效应
2,4-DIAMINOPHENOXYETHANOL HCL	结果: 离体试验表明有在活体试验中未观察到的诱变效应。
M-AMINOPHENOL	结果: 离体试验表明有在活体试验中未观察到的诱变效应。
甲苯 -2,5-DIAMINE SULFATE	结果: 离体试验表明有在活体试验中未观察到的诱变效应。
间苯二酚	结果: 离体试验表明有在活体试验中未观察到的诱变效应。

致癌性 尚不能确定对人有致癌作用。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

间苯二酚 (CAS 108-46-3)	3 尚不能确定对人有致癌作用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 这种产品预期不会导致生殖或发育效应。

发育效应

乙醇胺	>= 450 mg/kg bw/d OECD 414 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
甲苯 -2,5-DIAMINE SULFATE	>= 64 mg/kg bw/d OECD 414 结果: NOAEL (未观察到有害效果的水平) 物种: 小鼠
M-AMINOPHENOL	100 mg/kg bw/d OECD 414 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
P-AMINOPHENOL	100 mg/kg bw/d OECD 421 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
2,4-DIAMINOPHENOXYETHANOL HCL	20 mg/kg bw/d OECD 414 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
间苯二酚	250 mg/kg bw/d OECD 414 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

甲苯 -2,5-DIAMINE SULFATE	>= 45 mg/kg bw/d OECD 416 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
P-AMINOPHENOL	100 mg/kg bw/d OECD 421 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 412 结果: NOEAL 物种: 大鼠
间苯二酚	245 mg/kg bw/d OECD 416 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	300 mg/kg bw/d OECD 415 物种: 大鼠
乙醇胺	300 mg/kg bw/d OECD 416 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 未被分类。

特定目标器官系统毒性－重复接触 长期或反复接触可能损害器官。

P-AMINOPHENOL	10 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
甲苯 -2,5-DIAMINE SULFATE	10 mg/kg bw/d OECD 408, 口服 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D

特定目标器官系统毒性－重复接触

OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 407 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 27 D
乙醇胺	150 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D
2,4-DIAMINOPHENOXYETHANOL HCL	20 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
M-AMINOPHENOL	20 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	250 mg/kg bw/d OECD 408, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
乙醇胺	300 mg/kg bw/d OECD 416, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
间苯二酚	80 mg/kg bw/d OECD 408, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D 991 mg/m³ 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 14 D

吸入危害 非吸入危险。

慢性影响 长期或反复接触可能损害器官。 如通过皮肤吸收可能有害.

长时间或是重复暴露可能导致肝脏和肾损伤。 这些影响在人体尚未被观察到。

更多信息 可能造成皮肤和呼吸过敏性反应。 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
水生的			
急性的			
甲壳纲动物	EC50	水蚤	11.12 mg/l, 48 h TG 202
藻类		近头状伪蹄形藻	5.33 mg/l, 72 h EU C.3
鱼	LC50	斑马鱼 (Danio rerio)	86.2 mg/l, 96 h EU C.1
2,4-DIAMINOPHENOXYETHANOL HCL (CAS 66422-95-5)			
水生的			
急性的			
甲壳纲动物	EC50	水蚤	7.4 mg/l, 48 h OECD 202
藻类	EC50	近头状伪蹄形藻	36.5 mg/l, 72 h OECD 201
LAURETH-3 (CAS 68439-50-9)			
水生的			
急性的			
其它的, 其它	EC0	恶臭假单胞菌	> 100 mg/l, 3 h OECD 209
甲壳纲动物	EC50	水蚤	1 - 10 mg/l, 48 h OECD 202

组分		物种	试验结果
藻类	EC50	Desmodesmus subspicatus	1 - 10 mg/l, 72 h OECD 201
鱼	LC50	斑马鱼 (Danio rerio)	1 - 10 mg/l, 96 h ISO 7346-2
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	<= 1 mg/l, 21 D
M-AMINOPHENOL (CAS 591-27-5)			
急性的			
其它的, 其它	IC50	Tetrahymena pyriformis	361 mg/l, 40 h
水生的			
急性的			
甲壳纲动物	EC50	水蚤	1.1 mg/l, 48 h DIN38412, Pt. 11
藻类	EC50	近头状伪蹄形藻	62 mg/l, 72 h OECD 201
鱼	LC50	斑马鱼 (Danio rerio)	82.64 mg/l, 96 h OECD 203
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	0.05 mg/l, 21 D OECD 211
鱼	无明显反应浓度（NOEC）	Oryzias latipes	25 mg/l, 25 D OECD 204
OLEYL PHOSPHATE (CAS 37310-83-1)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	318.56 mg/l, 3 h OECD 209
甲壳纲动物	EC50	水蚤	> 100 mg/l, 48 h OECD 202
藻类	EC50	近头状伪蹄形藻	> 100 mg/l, 72 h OECD 201
	无明显反应浓度（NOEC）	近头状伪蹄形藻	100 mg/l, 72 h OECD 201
鱼	LC50	斑马鱼 (Danio rerio)	> 100 mg/l, 96 h OECD 203
P-AMINOPHENOL (CAS 123-30-8)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	29.9 mg/l, 3 h OECD 209
甲壳纲动物	EC50	水蚤	0.182 mg/l, 48 h OECD 202
藻类	EC50	近头状伪蹄形藻	> 0.253 mg/l, 72 h OECD 201
鱼	LC50	Oryzias latipes	0.82 mg/l, 96 h OECD 203
乙醇胺 (CAS 141-43-5)			
水生的			
急性的			
其它的, 其它	EC10	以国内污水为主的活性污泥	> 1000 mg/l, 30 最小 OECD 209
甲壳纲动物	EC50	水蚤	65 mg/l, 48 h EU C.2
藻类	EC50	近头状伪蹄形藻	2.8 mg/l, 72 h OECD 201
鱼	LC50	鲤鱼	349 mg/l, 96 h EU C.1
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	0.85 mg/l, 21 D OECD 211
鱼	无明显反应浓度（NOEC）	Oryzias latipes	1.24 mg/l, 41 D OECD 210
氨 (CAS 7664-41-7)			
水生的			
鱼	LC50	大马哈鱼 (Oncorhynchus tshawytscha)	0.43 - 0.47 mg/l, 96 小时

组分		物种	试验结果
甲苯 -2,5-DIAMINE SULFATE (CAS 615-50-9)			
水生的			
急性的			
其它的, 其它	EC50	以国内污水为主的活性污泥	17.7 mg/l, 3 h OECD 209
甲壳纲动物	EC50	水蚤	0.82 mg/l, 48 h OECD 202
	无明显反应浓度（NOEC）	水蚤	0.63 mg/l, 21 D OECD 211
藻类	EC50	Desmodesmus subspicatus	0.653 mg/l, 72 h OECD 201
鱼	LC50	斑马鱼 (Danio rerio)	1.08 mg/l, 96 h OECD 203
间苯二酚 (CAS 108-46-3)			
水生的			
急性的			
其它的, 其它		以国内污水为主的活性污泥	79 mg/l, 3 h OECD 209
甲壳纲动物	LC50	水蚤	1 mg/l, 48 h OECD 202
藻类	EC50	近头状伪蹄形藻	> 97 mg/l, 97 h OECD 201
鱼	LC50	呆鲦鱼	26.8 mg/l, 96 h EPA-660/3/75-009
慢性的			
甲壳纲动物	无明显反应浓度（NOEC）	水蚤	>= 0.172 mg/l, 21 D
鱼	最低可观察效应浓度（LOEC）	虹鳟鱼	320 mg/l, 60 D

持久性和降解性

生物降解性

降解百分率（好氧生物降解）

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33.3 % EU C.4-E 结果: 不容易生物降解
LAURETH-3	结果: 易生物降解
OLEYL PHOSPHATE	26.1 % OECD 301 D 结果: 易生物降解 测试时间: 28 D
乙醇胺	> 90 % OECD 301 A 结果: 易生物降解 测试时间: 21 D
甲苯 -2,5-DIAMINE SULFATE	17 % OECD 301 D 结果: 不容易生物降解 测试时间: 28 D
间苯二酚	66.7 % OECD 301 C 结果: 易生物降解 测试时间: 14 D

潜在的生物累积性

辛醇/水分配系数 log Kow

M-AMINOPHENOL	5.6
P-AMINOPHENOL	0.25
乙醇胺	-2.3 OECD 107
氨	-2.66
甲苯 -2,5-DIAMINE SULFATE	0.74
间苯二酚	0.8

生物积累性

P-AMINOPHENOL	结果: 不一定是生物积累性的。
乙醇胺	结果: 不一定是生物积累性的。

生物富集因子

P-AMINOPHENOL	10 - 46 OECD 305 C

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

不作为危险货物运输

免责声明 这份安全数据表中提供的信息被认为是其发布日期时我们所知道的知识、信息和确信是准确的。所给出的信息仅作为安全操作处置、使用、加工、储存、运输、废弃处置和释放的指导，而不是作为担保和质量指标。这些信息只涉及到具体指定的物质，而对这些材料与任何其他材料或任何工艺的结合可能是无效的，除非在文本中有说明。

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT COLOR CLEANSE - GROUP 7**

Other means of identification

SDS number 00-22-0000234

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 2A
Sensitization, skin	Category 1B
Specific target organ toxicity, repeated exposure	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement May cause an allergic skin reaction. Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention Do not breathe mist/vapors. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention if you feel unwell. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	1.58

Chemical name	Common name and synonyms	CAS number	%
HC BLUE NO. 2		33229-34-4	1

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact
Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion
Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed
Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash. Prolonged exposure may cause chronic effects.

Indication of immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information
If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Move containers from fire area if you can do so without risk.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling
Do not breathe mist/vapors. Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Skin protection	
Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
Other	Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state	Liquid.
Form	Cream.
Color	Shaded
Odor	Characteristic.
Odor threshold	Not available.
pH	3.4 - 4
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199.9 °F (> 93.3 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.

Solubility(ies)

Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information

Density	>= 0.98 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT COLOR CLEANSE - GROUP 7		
Acute		
Dermal		
ATEmix		189000 mg/kg
Oral		
ATEmix		78490 mg/kg

Components	Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Acute		
Oral		
LD50	Rat	3190 mg/kg OECD 401
HC BLUE NO. 2 (CAS 33229-34-4)		
Acute		
Oral		
LD50	Rat	> 2000 mg/kg OECD 420

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

HC BLUE NO. 2	EU B.46 Result: Not Irritating Species: RhE
BEHENTRIMONIUM CHLORIDE	OECD 405 Result: Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

BEHENTRIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit
HC BLUE NO. 2	OECD 405 Result: Not Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

BEHENTRIMONIUM CHLORIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
HC BLUE NO. 2	OECD 429 Result: Sensitizing Species: Mouse

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

BEHENTRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects
HC BLUE NO. 2	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

HC BLUE NO. 2 (CAS 33229-34-4)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

HC BLUE NO. 2	1000 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure May cause damage to organs through prolonged or repeated exposure.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d
HC BLUE NO. 2	300 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d

Aspiration hazard Not an aspiration hazard.

Chronic effects May cause damage to organs through prolonged or repeated exposure.

Further information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	3.48 mg/l, 72 h OECD 201

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BEHENTRIMONIUM CHLORIDE	80 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d
HC BLUE NO. 2	Result: Not Readily Biodegradable

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

HC BLUE NO. 2	1.7

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Instability: 0

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT COLOR CLEANSE - GROUP 7
Synonyms	None.
SDS number	00-22-0000234
Product code	1269475 F
Issue date	02-14-2022
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.
Skin sensitization	Category 1B	H317 - May cause an allergic skin reaction.

Hazard summary Causes serious eye irritation. May cause an allergic skin reaction. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: BEHENTRIMONIUM CHLORIDE, HC BLUE NO. 2

Hazard pictograms

Signal word Warning

Hazard statements

H317	May cause an allergic skin reaction.
H319	Causes serious eye irritation.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P272	Contaminated work clothing should not be allowed out of the workplace.
P280	Wear eye protection/face protection.
P280	Wear protective gloves.

Response

P101	If medical advice is needed, have product container or label at hand.
P302 + P352	IF ON SKIN: Wash with plenty of water.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P333 + P313	If skin irritation or rash occurs: Get medical advice/attention.
P337 + P313	If eye irritation persists: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 1,2% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 1,2% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
BEHENTRIMONIUM CHLORIDE	1,58	68607-24-9 271-756-9	01-2119484817-22	-	
Classification:	Skin Irrit. 2;H315, Eye Dam. 1;H318, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				
HC BLUE NO. 2	1	33229-34-4 251-410-3	01-2120077457-46	-	
Classification:	-				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits No exposure limits noted for ingredient(s).

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Face shield is recommended. Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
- Other	Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Shaded
Odor	Characteristic.
Odor threshold	Not available.
pH	3,4 - 4
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199,9 °F (> 93,3 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	
Density	>= 0,98 g/cm³

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.

10.3. Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

10.5. Incompatible materials Strong oxidizing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation No adverse effects due to inhalation are expected.

Skin contact May cause an allergic skin reaction.

Eye contact Causes serious eye irritation.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash.

11.1. Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Acute		
Oral		
LD50	Rat	3190 mg/kg OECD 401
HC BLUE NO. 2 (CAS 33229-34-4)		
Acute		
Oral		
LD50	Rat	> 2000 mg/kg OECD 420

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

HC BLUE NO. 2	EU B,46 Result: Not Irritating Species: RhE
BEHENTRIMONIUM CHLORIDE	OECD 405 Result: Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

BEHENTRIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit
HC BLUE NO. 2	OECD 405 Result: Not Irritating Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

BEHENTRIMONIUM CHLORIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
HC BLUE NO. 2	OECD 429 Result: Sensitizing Species: Mouse

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

BEHENTRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects
HC BLUE NO. 2	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

IARC Monographs. Overall Evaluation of Carcinogenicity

HC BLUE NO. 2 (CAS 33229-34-4) 3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

HC BLUE NO. 2 1000 mg/kg bw/d OECD 414
Result: NOAEL
Species: Rat

Reproductivity

BEHENTRIMONIUM CHLORIDE 75 mg/kg bw/d OECD 421
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

BEHENTRIMONIUM CHLORIDE 10 mg/kg bw/d OECD 407, Oral
Result: NOAEL
Species: Rat
Test Duration: 28 d

HC BLUE NO. 2 300 mg/kg bw/d OECD 408
Result: NOAEL
Species: Rat
Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	3,48 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,39 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	0,5 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	43 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,128 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0,24 mg/l, 9 d OECD 212
HC BLUE NO. 2 (CAS 33229-34-4)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	> 100 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	32,9 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BEHENTRIMONIUM CHLORIDE	80 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d
HC BLUE NO. 2	Result: Not Readily Biodegradable

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

HC BLUE NO. 2	1,7

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H315 Causes skin irritation. H318 Causes serious eye damage. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H400 Very toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT COLOR CLEANSE - Groupe 7**

Autres moyens d'identification

Numéro de la FDS 00-22-0000234

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 2A
Sensibilisation cutanée	Catégorie 1B
Toxicité pour certains organes cibles - expositions répétées	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Peut provoquer une allergie cutanée. Provoque une sévère irritation des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Conseil de prudence

Prévention Ne pas respirer les brouillards/vapeurs. Se laver soigneusement après manipulation. Il ne faut pas que les vêtements de travail contaminés quittent le lieu de travail. Porter un équipement de protection des yeux/du visage. Porter des gants de protection.

Intervention En contact avec la peau : Laver avec beaucoup d'eau. En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Demander un avis médical/Consulter un médecin en cas de malaise. En cas d'irritation ou d'éruption cutanée : Demander un avis médical/Consulter un médecin. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin. Laver les vêtements contaminés avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	1.58
HC BLUE NO. 2		33229-34-4	1

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements contaminés et laver la peau à l'eau et au savon. En cas d'eczéma ou d'autres problèmes cutanés : consulter un médecin et apporter cette fiche.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut provoquer une allergie cutanée. Dermatite. Éruption. Une exposition prolongée peut causer des effets chroniques.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.
Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Ne pas respirer les brouillards/vapeurs. Éviter tout contact avec les yeux, la peau et les vêtements. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Valeurs biologiques limites	Aucune limite d'exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques
Autre	Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.
Protection respiratoire	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Forme	Crème.
Couleur	Nuancé
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	3.4 - 4
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93.3 °C (> 199.9 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.

Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 0.98 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	On ne s'attend à aucun effet néfaste en cas d'inhalation.
Contact avec la peau	Peut provoquer une allergie cutanée.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut provoquer une allergie cutanée. Dermatite. Éruption.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Produit	Espèces	Résultats d'épreuves

Corrosion cutanée/irritation cutanée On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

HC BLUE NO. 2	EU B.46 Résultat: Non Irritant Espèces: RhE
BEHENTRIMONIUM CHLORIDE	OCDE 405 Résultat: Irritant Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation- corrosion - Œil

BEHENTRIMONIUM CHLORIDE	OCDE 404 Résultat: Corrosif Espèces: Lapin
HC BLUE NO. 2	OCDE 405 Résultat: Non Irritant Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée Peut provoquer une allergie cutanée.

Sensibilisation cutanée

BEHENTRIMONIUM CHLORIDE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
HC BLUE NO. 2	OCDE 429 Résultat: Sensibilisant Espèces: Souris

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

BEHENTRIMONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
HC BLUE NO. 2	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

HC BLUE NO. 2 (CAS 33229-34-4) 3 Inclassable quant à sa cancérogénicité pour l'homme.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Effets sur le développement

HC BLUE NO. 2	1000 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat

Reproductivité

BEHENTRIMONIUM CHLORIDE — 75 mg/kg bw/d OCDE 421
Résultat: DSENO
Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

BEHENTRIMONIUM CHLORIDE — 10 mg/kg bw/d OCDE 407, Orale
Résultat: DSENO
Espèces: Rat
Durée du test: 28 d

HC BLUE NO. 2 — 300 mg/kg bw/d OCDE 408
Résultat: DSENO
Espèces: Rat
Durée du test: 90 d

Danger par aspiration Pas un danger par aspiration.

Effets chroniques Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Autres informations Peut provoquer des allergies respiratoires et cutanées. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	3.48 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées d'origine principalement domestique	43 mg/l, 3 h OCDE 209
Crustacés	CE50	Daphnia magna	1.39 mg/l, 48 h OCDE 202

Poisson	CL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OCDE 203

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BEHENTRIMONIUM CHLORIDE — 80 % OCED 301
Résultat: Facilement Biodegradable
Durée du test: 28 d

HC BLUE NO. 2 — Résultat: Difficilement Biodégradable

Potentiel de bioaccumulation

Log Koe du coefficient de répartition octanol/eau

HC BLUE NO. 2	1.7

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre)	Non réglementé.

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	14-Février-2022
Version n°	01
Classements NFPA	Santé: 2 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT COLOR CLEANSE - Groupe 7
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-22-0000234
Code de produit	1269475 F
Date de publication	le 14-Février-2022
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.
Sensibilisation cutanée	Catégorie 1B	H317 - Peut provoquer une allergie cutanée.

Résumé des dangers Provoque une sévère irritation des yeux. Peut provoquer une allergie cutanée. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : BEHENTRIMONIUM CHLORIDE, HC BLUE NO. 2

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H317	Peut provoquer une allergie cutanée.
H319	Provoque une sévère irritation des yeux.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P264	Se laver soigneusement après manipulation.
P272	Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.
P280	Porter un équipement de protection des yeux/du visage.
P280	Porter des gants de protection.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P302 + P352	EN CAS DE CONTACT AVEC LA PEAU: Laver abondamment à l'eau.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P333 + P313	En cas d'irritation ou d'éruption cutanée: consulter un médecin.
P337 + P313	Si l'irritation oculaire persiste: consulter un médecin.
P362 + P364	Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination

P501	Eliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 1,2 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 1,2 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
BEHENTRIMONIUM CHLORIDE	1,58	68607-24-9 271-756-9	01-2119484817-22	-

HC BLUE NO. 2	1	33229-34-4 251-410-3	01-2120077457-46	-	
Classification :	-				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.
Laver les vêtements contaminés avant réutilisation.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements souillés et laver la peau avec de l'eau et du savon. En cas d'eczéma ou d'autres problèmes cutanés : consulter un médecin et apporter cette fiche.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Peut provoquer une allergie cutanée. Dermatite. Éruption cutanée.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires	Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie	Aucun risque exceptionnel d'incendie et d'explosion.
5.1. Moyens d'extinction	
Moyens d'extinction appropriés	Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).
Moyens d'extinction inappropriés	En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.
5.2. Dangers particuliers résultant de la substance ou du mélange	En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.
5.3. Conseils aux pompiers	
Équipements de protection particuliers des pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Procédures spéciales de lutte contre l'incendie	Éloigner les récipients de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes	Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Éviter de respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.
Pour les secouristes	Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.
6.2. Précautions pour la protection de l'environnement	Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.
6.3. Méthodes et matériel de confinement et de nettoyage	Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.
6.4. Référence à d'autres rubriques	Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger	Éviter de respirer les brouillards/vapeurs. Éviter le contact avec les yeux, la peau et les vêtements. Assurer une ventilation efficace. Porter un équipement de protection approprié. Suivre les règles de bonnes pratiques chimiques.
7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités	Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).
7.3. Utilisation(s) finale(s) particulière(s)	Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle	Il n'y a pas de limites d'exposition pour ce ou ces ingrédients.
Valeurs limites biologiques	Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.
Procédures de suivi recommandées	Suivre les procédures standard de surveillance.
Doses dérivées sans effet (DDSE)	Donnée inconnue.

Concentrations prédites sans effet (PNEC)	Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés	Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales	Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.
Protection des yeux/du visage	Pour usage industriel seulement. Le port d'un masque facial est conseillé. Porter des lunettes de sécurité à écrans latéraux.
Protection de la peau	
- Protection des mains	Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.
- Autres	Pour usage industriel seulement. Porter des vêtements appropriés résistant aux produits chimiques. L'emploi d'un tablier imperméable est recommandé.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Risques thermiques	Porter des équipements de protection contre la chaleur, si nécessaire.
Mesures d'hygiène	Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants. Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.
Contrôles d'exposition liés à la protection de l'environnement	Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect	
État physique	Liquide.
Forme	Crème.
Couleur	Nuancé
Odeur	Caractéristique.
Seuil olfactif	Donnée inconnue.
pH	3,4 - 4
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93,3 °C (> 199,9 °F) Coupelle fermée
Taux d'évaporation	Donnée inconnue.
Inflammabilité (solide, gaz)	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.

Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.

9.2. Autres informations

Densité	>= 0,98 g/cm³

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	N'est pas présumé avoir des effets nocifs en cas d'inhalation.
Contact avec la peau	Peut provoquer une allergie cutanée.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.
Symptômes	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Peut provoquer une allergie cutanée. Dermatite. Éruption cutanée.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë	Donnée inconnue.

Composants	**Espèce**	**Résultats d'essais**
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Aiguë		
Oral		
DL50	Rat	3190 mg/kg OCDE 401
HC BLUE NO. 2 (CAS 33229-34-4)		
Aiguë		
Oral		
DL50	Rat	> 2000 mg/kg OECD 420

Corrosion cutanée/irritation cutanée	En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau

HC BLUE NO. 2	EU B,46 Résultat: Non Irritant Espèce: RhE
BEHENTRIMONIUM CHLORIDE	OCDE 405 Résultat: Irritant Espèce: Lapin

Lésions oculaires graves/irritation oculaire	Provoque une sévère irritation des yeux.

Irritation/corrosion – Œil

BEHENTRIMONIUM CHLORIDE	OCDE 404 Résultat: Corrosif Espèce: Lapin
HC BLUE NO. 2	OCDE 405 Résultat: Non Irritant Espèce: Lapin

Sensibilisation respiratoire	En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée Peut provoquer une allergie cutanée.

Sensibilisation cutanée

BEHENTRIMONIUM CHLORIDE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
HC BLUE NO. 2	OCDE 429 Résultat: Sensibilisant Espèce: Souris

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

BEHENTRIMONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
HC BLUE NO. 2	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

N'est pas listé.

Monographies du CIRC. Évaluation globale de la cancérogénicité

HC BLUE NO. 2 (CAS 33229-34-4)	3 Ne peut pas être classé quant à la cancérogénicité pour l'homme.

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

HC BLUE NO. 2	1000 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat

Toxicité pour la reproduction

BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OCDE 421 Résultat: NOAEL Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OCDE 407, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d
HC BLUE NO. 2	300 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

Autres informations Peut causer des réations allergiques respiratoires et de la peau. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.

Composants		Espèce	Résultats d'essais
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	3,48 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	43 mg/l, 3 h OCDE 209

Composants		Espèce	Résultats d'essais
Crustacé	CE50	Daphnia magna	1,39 mg/l, 48 h OCDE 202
Poisson	CL50	Danio rerio	0,5 - 1 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,128 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Danio rerio	0,24 mg/l, 9 d OECD 212

HC BLUE NO. 2 (CAS 33229-34-4)

Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	> 100 mg/l, 72 h OCDE 201
Crustacé	CE50	Daphnia magna	32,9 mg/l, 48 h OCDE 202
Poisson	CL50	Oncorhynchus mykiss	> 100 mg/l, 96 h OCDE 203

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BEHENTRIMONIUM CHLORIDE	80 en % OCED 301 Résultat: Facilement Biodegradable Durée de l'essai: 28 d
HC BLUE NO. 2	Résultat: Difficilement Biodégradable

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

HC BLUE NO. 2	1,7

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.

Code des déchets UE Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.

Informations / Méthodes d'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Précautions particulières Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC

Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations

Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.

Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H315 Provoque une irritation cutanée. H318 Provoque des lésions oculaires graves. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion. H400 Très toxique pour les organismes aquatiques. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT PERMANENT COLOR - GROUP 6**

Other means of identification

SDS number 00-21-0000368

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
LAURETH-3		68439-50-9	5
AMMONIUM HYDROXIDE		1336-21-6	1.8

Chemical name	Common name and synonyms	CAS number	%
2-AMINO-6-CHLORO-4-NITROPHENOL		6358-09-4	< 2
ETHANOLAMINE		141-43-5	< 2
OLEYL PHOSPHATE		37310-83-1	1.25
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 2
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	< 1
P-AMINOPHENOL		123-30-8	< 1
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE		83763-48-8	< 0.6
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE		54381-16-7	< 0.6
M-AMINOPHENOL		591-27-5	< 0.6
1-NAPHTHOL		90-15-3	≤ 0.5
RESORCINOL		108-46-3	≤ 0.5

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact
Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion
Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed
Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

Indication of immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Move containers from fire area if you can do so without risk.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Do not get in eyes, on skin, or on clothing. Avoid breathing mist/vapors. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	PEL	35 mg/m3
		50 ppm
ETHANOLAMINE (CAS 141-43-5)	PEL	6 mg/m3
		3 ppm

US. ACGIH Threshold Limit Values

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	35 ppm
	TWA	25 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm
RESORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

US. NIOSH: Pocket Guide to Chemical Hazards Components	Type	Value
		20 ppm
	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Shaded

Odor Characteristic.

Odor threshold Not available.

pH 9.7 - 10.1

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction. Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity Not known.

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Chronic effects May be harmful if absorbed through skin.

Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.

Further information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

P-AMINOPHENOL	10 - 46 OECD 305 C

Bioaccumulation

1-NAPHTHOL	Result: Bioaccumulation is unlikely
ETHANOLAMINE	Result: Bioaccumulation is unlikely.
P-AMINOPHENOL	Result: Bioaccumulation is unlikely.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

General information IMDG Regulated Marine Pollutant. DOT Regulated Marine Pollutant.

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

AMMONIUM HYDROXIDE (CAS 1336-21-6)	Listed.
RESORCINOL (CAS 108-46-3)	Listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Chemical name	CAS number	% by wt.
AMMONIUM HYDROXIDE	1336-21-6	1.8

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act (SDWA) Not regulated.

FEMA Priority Substances Respiratory Health and Safety in the Flavor Manufacturing Workplace

RESORCINOL (CAS 108-46-3) Low priority

16. Other information, including date of preparation or last revision

Issue date	10-02-2020
Revision date	11-26-2020
Version #	02
NFPA ratings	Health: 3 Flammability: 1 Instability: 0
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT PERMANENT COLOR - GROUP 6
Synonyms	None.
SDS number	00-21-0000368
Issue date	10-02-2020
Version number	02
Revision date	11-26-2020
Supersedes date	10-06-2020

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Skin corrosion/irritation	Category 2	H315 - Causes skin irritation.
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.
Skin sensitization	Category 1A	H317 - May cause an allergic skin reaction.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes serious eye damage. Causes skin irritation. May cause an allergic skin reaction. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: 1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE, 1-NAPHTHOL, 2,4-DIAMINOPHENOXYETHANOL HCL, 2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE, 2-AMINO-6-CHLORO-4-NITROPHENOL, 2-METHYLRESORCINOL, AMMONIUM HYDROXIDE, BISABOLOL, ETHANOLAMINE, LAURETH-3, M-AMINOPHENOL, N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE, OLEYL PHOSPHATE, P-AMINOPHENOL, RESORCINOL, TOLUENE-2,5-DIAMINE SULFATE

Hazard pictograms

Signal word Danger

Hazard statements

H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P260	Do not breathe vapor.
P264	Wash thoroughly after handling.
P272	Contaminated work clothing should not be allowed out of the workplace.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.
P280	Wear protective gloves.

Response

P101	If medical advice is needed, have product container or label at hand.
P302 + P352	IF ON SKIN: Wash with plenty of water.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P333 + P313	If skin irritation or rash occurs: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 2,27% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Do not breathe vapor. Do not get this material in contact with eyes. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value
ETHANOLAMINE (CAS 141-43-5)	STEL	7,6 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	STEL	91 mg/m3
		20 ppm
	TWA	46 mg/m3
		10 ppm

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	VLE	14 mg/m3
Regulatory status: Regulatory binding (VRC)		
		20 ppm
Regulatory status: Regulatory binding (VRC)		
	VME	7 mg/m3
Regulatory status: Regulatory binding (VRC)		
		10 ppm
Regulatory status: Regulatory binding (VRC)		
ETHANOLAMINE (CAS 141-43-5)	VLE	7,6 mg/m3
Regulatory status: Regulatory binding (VRC)		
		3 ppm
Regulatory status: Regulatory binding (VRC)		
	VME	2,5 mg/m3
Regulatory status: Regulatory binding (VRC)		
		1 ppm
Regulatory status: Regulatory binding (VRC)		
RESORCINOL (CAS 108-46-3)	VME	45 mg/m3
Regulatory status: Regulatory indicative (VRI)		
		10 ppm
Regulatory status: Regulatory indicative (VRI)		

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
ETHANOLAMINE (CAS 141-43-5)	TWA	0,51 mg/m3	Vapor and aerosol.
		0,2 ppm	Vapor and aerosol.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
AMMONIUM HYDROXIDE (CAS 1336-21-6)	AGW	14 mg/m3	
		20 ppm	
ETHANOLAMINE (CAS 141-43-5)	AGW	0,5 mg/m3	Vapor and aerosol.
		0,2 ppm	Vapor and aerosol.
RESORCINOL (CAS 108-46-3)	AGW	20 mg/m3	Inhalable fraction.
		4 ppm	Inhalable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	7,6 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	TWA	45 mg/m3
		10 ppm

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	28 mg/m3	
	TWA	14 mg/m3	
ETHANOLAMINE (CAS 141-43-5)	STEL	7,5 mg/m3	
	TWA	2,5 mg/m3	
P-AMINOPHENOL (CAS 123-30-8)	TWA	5 mg/m3	Inhalable fraction.
RESORCINOL (CAS 108-46-3)	STEL	90 mg/m3	
	TWA	45 mg/m3	

Spain. Occupational Exposure Limits

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	7,5 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	TWA	46 mg/m3
		10 ppm

EU. Indicative Exposure Limit Values in Directives 91/322/EEC, 2000/39/EC, 2006/15/EC, 2009/161/EU

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	7,6 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm
RESORCINOL (CAS 108-46-3)	TWA	45 mg/m3
		10 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

Exposure guidelines

EU Exposure Limit Values: Skin designation

ETHANOLAMINE (CAS 141-43-5)	Can be absorbed through the skin.
RESORCINOL (CAS 108-46-3)	Can be absorbed through the skin.

Slovenia. OELs. Regulations concerning protection of workers against risks due to exposure to chemicals while working (Official Gazette of the Republic of Slovenia)

ETHANOLAMINE (CAS 141-43-5)	Can be absorbed through the skin.
RESORCINOL (CAS 108-46-3)	Can be absorbed through the skin.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

Environmental exposure controls Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state	Liquid.
Form	Cream.
Color	Shaded
Odor	Characteristic.
Odor threshold	Not available.
pH	9,7 - 10,1
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction.
Eye contact	Causes serious eye damage.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

11.1. Information on toxicological effects

Acute toxicity	Not known.

Product	Species	Test Results
PULP RIOT PERMANENT COLOR - GROUP 6		
Acute		
Dermal		
ATEmix		41000 mg/kg
Inhalation		
Vapor		
ATEmix		866,1 mg/l
Oral		
ATEmix		4619 mg/kg

Components	Species	Test Results
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)		
Acute		
Inhalation		
Aerosol		
LD50	Rat	> 5,24 mg/m3, 4 h OECD 403
Oral		
LD50	Rat	> 2000 mg/kg OECD 401
1-NAPHTHOL (CAS 90-15-3)		
Acute		
Dermal		
LD50	Rabbit	>= 880 mg/kg
Inhalation		
Aerosol		
LD50	Rat	> 420 mg/m³, 1 Hours
Oral		
LD50	Rat	1000 - 2000 mg/kg
2,4-DIAMINOPHENOXYETHANOL HCL (CAS 66422-95-5)		
Acute		
Oral		
LD50	Rat	1000 mg/kg OECD 401
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE (CAS 83763-48-8)		
Acute		
Oral		
LD50	Rat	588 mg/kg OECD 401
2-AMINO-6-CHLORO-4-NITROPHENOL (CAS 6358-09-4)		
Acute		
Oral		
LD50	Rat	> 2000 mg/kg OECD 401
2-METHYLRESORCINOL (CAS 608-25-3)		
Acute		
Oral		
LC50	Rat	200 mg/kg
AMMONIUM HYDROXIDE (CAS 1336-21-6)		
Acute		
Inhalation		
LC50	Rat	11590 mg/l, 1 h
Oral		
LD50	Rat	350 mg/kg bw OECD 401
BISABOLOL (CAS 72691-24-8)		
Acute		
Dermal		
LD50	Rat	> 750 mg/kg OECD 402
Oral		
LD50	Rat	> 2000 mg/kg OECD 423

Components	Species	Test Results
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)		
Acute		
Dermal		
LD50	Rat	> 620 mg/kg OECD 402
Oral		
LD50	Rat	2335 mg/kg OECD 401
ETHANOLAMINE (CAS 141-43-5)		
Acute		
Dermal		
LD50	Rabbit	2504 mg/kg OECD 402
Inhalation		
Vapor		
LC50	Rat	> 1,3 mg/l, 6 h
Oral		
LD50	Rat	1515 mg/kg OECD 401
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL (CAS 94158-14-2)		
Acute		
Oral		
LD50	Rat	1550 mg/kg OECD 401
LAURETH-3 (CAS 68439-50-9)		
Acute		
Dermal		
LD50	Rat	> 5000 mg/kg EU B.1
M-AMINOPHENOL (CAS 591-27-5)		
Acute		
Inhalation		
LC50	Rat	1162 mg/m3
Oral		
LD50	Rat	924 mg/kg
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE (CAS 54381-16-7)		
Acute		
Dermal		
LD50	-	428 mg/kg
Inhalation		
LC50	-	0,9 mg/l, 4 h
Oral		
LD50	Rat	264 mg/kg
OLEYL PHOSPHATE (CAS 37310-83-1)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg OECD 402
Oral		
LD50	Rat	> 2000 mg/kg OECD 423
P-AMINOPHENOL (CAS 123-30-8)		
Acute		
Dermal		
LD50	Rabbit	> 8000 mg/kg EPA OPTTS 870.1200
Inhalation		
Dust		
LC50	Rat	> 3,42 mg/l, 4 h OECD 403
Oral		
LD50	Rat	671 mg/kg EPA OPPTS 870.1100

Components	Species	Test Results
RESORCINOL (CAS 108-46-3)		
Acute		
Dermal		
LD50	Rabbit	2830 mg/kg FHSL Act
Inhalation		
Aerosol		
LC0	Rat	> 7800 mg/m³, 1 h FHSL Act
Oral		
LD50	Rat	510 mg/kg OECD 401
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)		
Acute		
Dermal		
LD50	-	3519 mg/l
Inhalation		
LC50	Rat	1,77 mg/l, 4 h
Oral		
LD50	Rat	102 mg/kg

Skin corrosion/irritation Causes skin irritation.

Irritation Corrosion - Skin

RESORCINOL	FHLS Act, (100%) Result: Irritating Species: Rabbit
ETHANOLAMINE	OECD 404 Result: Corrosive Species: Rabbit
AMMONIUM HYDROXIDE	OECD 404 Result: Corrosive Species: Rat
2,4-DIAMINOPHENOXYETHANOL HCL	OECD 404 Result: Not Irritating Species: Rabbit
BISABOLOL	OECD 404 Result: Not Irritating Species: Rabbit
M-AMINOPHENOL	OECD 404 Result: Not Irritating Species: Rabbit
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	OECD 404 Result: Slightly Irritating Species: Rabbit
2-METHYLRESORCINOL	OECD 404 Result: Slightly Irritating Species: Rabbit
COCAMIDOPROPYL BETAINE	OECD 404 Result: Slightly Irritating Species: Rabbit
LAURETH-3	OECD 404 Result: Slightly Irritating Species: Rabbit
RESORCINOL	OECD 404, (2,5%) Result: Not Irritating Species: Rabbit
2-AMINO-6-CHLORO-4-NITROPHENOL	OECD 431 Result: Not corrosive. Species: RhE
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	OECD 439 Result: Not Irritating Species: In vitro
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	OECD 439 Result: Not Irritating Species: RhE
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	OECD 439 Result: Not Irritating Species: RhE

Irritation Corrosion - Skin

OLEYL PHOSPHATE	OECD 439 Result: Not Irritating Species: RhE
TOLUENE-2,5-DIAMINE SULFATE	OECD 439 Result: Not Irritating Species: RhE
1-NAPHTHOL	Result: Irritating Species: Rabbit
P-AMINOPHENOL	Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

P-AMINOPHENOL	EPA OPPTS 870,2400 Result: Slightly Irritating Species: Rabbit
RESORCINOL	FHLS Act, (100%) Result: Corrosive Species: Rabbit
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	OECD 405 Result: Corrosive Species: Rabbit
2-METHYLRESORCINOL	OECD 405 Result: Corrosive Species: Rabbit
ETHANOLAMINE	OECD 405 Result: Corrosive Species: Rabbit
LAURETH-3	OECD 405 Result: Corrosive Species: Rabbit
2,4-DIAMINOPHENOXYETHANOL HCL	OECD 405 Result: Irritating Species: Rabbit
BISABOLOL	OECD 405 Result: Not Irritating Species: Rabbit
M-AMINOPHENOL	OECD 405 Result: Not Irritating Species: Rabbit
RESORCINOL	OECD 405, (2,5%) Result: Not Irritating Species: Rabbit
COCAMIDOPROPYL BETAINE	OECD 405, (C > 10%) Result: Corrosive Species: Rabbit OECD 405, (C ≤ 10%) Result: Irritating Species: Rabbit
1-NAPHTHOL	OECD 438 Result: Corrosive Species: In vitro
OLEYL PHOSPHATE	OECD 438 Result: Corrosive Species: In vitro
2-AMINO-6-CHLORO-4-NITROPHENOL	OECD 438 Result: Irritating Species: ICE
TOLUENE-2,5-DIAMINE SULFATE	OECD 438 Result: Irritating Species: ICE
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	OECD 438 Result: Irritating Species: In vitro
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	OECD 492 Result: Irritating Species: RhCE
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	OECD 492 Result: Irritating Species: RhCE
AMMONIUM HYDROXIDE	Result: Corrosive

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	EU Method B,6 - Cat 1 Result: Sensitizing Species: Guinea pig
COCAMIDOPROPYL BETAINE	OECD 406 Result: Not Sensitizing Species: Guinea pig
P-AMINOPHENOL	OECD 406 Result: Sensitizing Species: Guinea pig
OLEYL PHOSPHATE	OECD 429 Result: Not Sensitizing Species: Mouse
1-NAPHTHOL	OECD 429 Result: Sensitizing Species: Mouse
2,4-DIAMINOPHENOXYETHANOL HCL	OECD 429 Result: Sensitizing Species: Mouse
2-AMINO-6-CHLORO-4-NITROPHENOL	OECD 429 Result: Sensitizing Species: Mouse
2-METHYLRESORCINOL	OECD 429 Result: Sensitizing Species: Mouse
BISABOLOL	OECD 429 Result: Sensitizing Species: Mouse
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	OECD 429 Result: Sensitizing Species: Mouse
M-AMINOPHENOL	OECD 429 Result: Sensitizing Species: Mouse
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	OECD 429 Result: Sensitizing Species: Mouse
RESORCINOL	OECD 429 Result: Sensitizing Species: Mouse
TOLUENE-2,5-DIAMINE SULFATE	OECD 429 Result: Sensitizing Species: Mouse
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	QSAR Result: Sensitizing
ETHANOLAMINE	Result: Not Sensitizing Species: Guinea pig
AMMONIUM HYDROXIDE	Result: Not Sensitzing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

COCAMIDOPROPYL BETAINE	Result: In vitro and in vivo tests did not show mutagenic effects.
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	Result: In vitro and in vivo tests did not show mutagenic effects.
ETHANOLAMINE	Result: In vitro and in vivo tests did show mutagenic effects
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	Result: In vitro tests did not show mutagenic effects
AMMONIUM HYDROXIDE	Result: In vitro tests did not show mutagenic effects
BISABOLOL	Result: In vitro tests did not show mutagenic effects
LAURETH-3	Result: In vitro tests did not show mutagenic effects
OLEYL PHOSPHATE	Result: In vitro tests did not show mutagenic effects
2,4-DIAMINOPHENOXYETHANOL HCL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
2-METHYLRESORCINOL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Mutagenicity

HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
M-AMINOPHENOL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
RESORCINOL	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
TOLUENE-2,5-DIAMINE SULFATE	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
1-NAPHTHOL	Result: In vitro tests showed varied results. In vivo tests showed negative results.
P-AMINOPHENOL	Result: In vivo tests showed mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

IARC Monographs. Overall Evaluation of Carcinogenicity

RESORCINOL (CAS 108-46-3)	3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

ETHANOLAMINE	>= 450 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	>= 50 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
TOLUENE-2,5-DIAMINE SULFATE	>= 64 mg/kg bw/d OECD 414 Result: NOAEL Species: Mouse
M-AMINOPHENOL	100 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat
2,4-DIAMINOPHENOXYETHANOL HCL	20 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
RESORCINOL	250 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	26 mg/kg bw/day OECD 414 Result: NOAEL Species: Rat
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	30 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 414, No effects on development Result: NOEL Species: Rat
1-NAPHTHOL	400 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
2-METHYLRESORCINOL	400 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
2-AMINO-6-CHLORO-4-NITROPHENOL	90 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

TOLUENE-2,5-DIAMINE SULFATE	>= 45 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat
P-AMINOPHENOL	100 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat
OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 412 Result: NOEAL Species: Rat

Reproductivity

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
RESORCINOL	245 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat
COCAMIDOPROPYL BETAINE	247 mg/kg bw/d OECD 408 Result: NOEL Species: Rat
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	300 mg/kg bw/d OECD 415 Species: Rat
ETHANOLAMINE	300 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat
1-NAPHTHOL	Result: No Data

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

AMMONIUM HYDROXIDE	Result: Highly Irritating
1-NAPHTHOL	Result: Irritating

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

P-AMINOPHENOL	10 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
TOLUENE-2,5-DIAMINE SULFATE	10 mg/kg bw/d OECD 408, oral Result: NOAEL Species: Rat Test Duration: 90 d
2-METHYLRESORCINOL	100 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 407 Result: NOAEL Species: Rat Test Duration: 27 d
1-NAPHTHOL	130 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	15 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 108 d
ETHANOLAMINE	150 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 13 weeks
2,4-DIAMINOPHENOXYETHANOL HCL	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
M-AMINOPHENOL	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
BISABOLOL	200 mg/kg bw/d OECD 410, Dermal Result: NOAEL Species: Rat Test Duration: 4 weeks

Specific target organ toxicity - repeated exposure

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d
2-AMINO-6-CHLORO-4-NITROPHENOL	30 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 13 weeks
COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 408, Oral Result: NOEL Species: Rat Test Duration: 90 d
ETHANOLAMINE	300 mg/kg bw/d OECD 416, Oral Result: NOAEL Species: Rat
RESORCINOL	80 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d 991 mg/m³ Result: NOAEC Species: Rat Test Duration: 14 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Harmful to aquatic life with long lasting effects. Based on available data, the classification criteria are not met for hazardous to the aquatic environment, acute hazard.

Components		Species	Test Results
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Aquatic			
Acute			
Algae		Pseudokirchneriella subcapitata	5,33 mg/l, 72 h EU C.3

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33,3 % EU C,4-E Result: Not readily biodegradable
1-NAPHTHOL	> 77,8 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	0 % OECD 301 B Result: Not Readily Biodegradable Test Duration: 29 d
2-AMINO-6-CHLORO-4-NITROPHENOL	0 % OECD 301 F Result: Not Readily Biodegradable Test Duration: 28 d
2-METHYLRESORCINOL	64 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
BISABOLOL	70 - 80 % OECD 301 F Result: Readily Biodegradable Test Duration: 28 d
COCAMIDOPROPYL BETAINE	91,6 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
ETHANOLAMINE	> 90 % OECD 301 A Result: Readily Biodegradable Test Duration: 21 d
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	0 - 16 % OECD 301 B Result: Not Readily Biodegradable Test Duration: 28 d
LAURETH-3	Result: Readily Biodegradable

Biodegradability

Percent degradation (Aerobic biodegradation)

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	14,3 % OECD 301B Result: Not Readilby Biodegradable Test Duration: 28 d
OLEYL PHOSPHATE	26,1 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d
RESORCINOL	66,7 % OECD 301 C Result: Readily Biodegradable Test Duration: 14 d
TOLUENE-2,5-DIAMINE SULFATE	17 % OECD 301 D Result: Not Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

1-NAPHTHOL	2,836 OECD 107
COCAMIDOPROPYL BETAINE	4,2
ETHANOLAMINE	-2,3 OECD 107
M-AMINOPHENOL	0,21
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	-2,8 -2,8 OECD 107
P-AMINOPHENOL	0,25
RESORCINOL	0,8

Bioconcentration factor (BCF)

COCAMIDOPROPYL BETAINE	71
P-AMINOPHENOL	10 - 46 OECD 305 C

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

Estonia Dangerous substances in groundwater Data

RESORCINOL (CAS 108-46-3)	RESORCINOL 0,5 UG/L RESORCINOL 50 UG/L

Estonia Dangerous substances in soil Data

RESORCINOL (CAS 108-46-3)	RESORCINOL 0,1 MG/KG RESORCINOL 1 MG/KG RESORCINOL 10 MG/KG

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.
General information	IMDG Regulated Marine Pollutant.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)
AMMONIUM HYDROXIDE (CAS 1336-21-6)
M-AMINOPHENOL (CAS 591-27-5)
P-AMINOPHENOL (CAS 123-30-8)
RESORCINOL (CAS 108-46-3)
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.

15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H301 Toxic if swallowed. H302 Harmful if swallowed. H311 Toxic in contact with skin. H312 Harmful in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H331 Toxic if inhaled. H332 Harmful if inhaled. H335 May cause respiratory irritation. H341 Suspected of causing genetic defects. H370 Causes damage to organs by ingestion. H371 May cause damage to organs by ingestion. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H373 May cause damage to organs through prolonged or repeated exposure. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects.
Revision information	This document has undergone significant changes and should be reviewed in its entirety.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT PERMANENT COLOR - GROUP 6**

Other means of identification

SDS number 00-21-0000413

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Skin corrosion/irritation	Category 1
Serious eye damage/eye irritation	Category 1
Sensitization, skin	Category 1A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes severe skin burns and eye damage. May cause an allergic skin reaction. Causes serious eye damage.

Precautionary statement

Prevention Do not breathe mist/vapors. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection.

Response If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage Store locked up.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 3
LAURETH-3		68439-50-9	≤ 5
AMMONIUM HYDROXIDE		1336-21-6	< 3
OLEYL PHOSPHATE		37310-83-1	< 2
ETHANOLAMINE		141-43-5	< 2
M-AMINOPHENOL		591-27-5	< 0.8
1-NAPHTHOL		90-15-3	< 0.7
P-AMINOPHENOL		123-30-8	< 0.2
TOLUENE-2,5-DIAMINE SULFATE		615-50-9	≤ 0.3

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.

Ingestion Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

Most important symptoms/effects, acute and delayed Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not breathe mist/vapors. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store locked up. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	PEL	35 mg/m3
		50 ppm
ETHANOLAMINE (CAS 141-43-5)	PEL	6 mg/m3
		3 ppm

US. ACGIH Threshold Limit Values

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	35 ppm
	TWA	25 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	27 mg/m3
		35 ppm
	TWA	18 mg/m3
		25 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	15 mg/m3
		6 ppm
	TWA	8 mg/m3
		3 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	10 - 11
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199.9 °F (> 93.3 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	0.975 - 1.015 g/cm3
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact	Causes severe skin burns. May cause an allergic skin reaction. Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.
Eye contact	Causes serious eye damage.
Ingestion	Causes digestive tract burns.
Symptoms related to the physical, chemical and toxicological characteristics	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

1-NAPHTHOL	130 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
ETHANOLAMINE	150 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d
M-AMINOPHENOL	20 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d
ETHANOLAMINE	300 mg/kg bw/d OECD 416, Oral Result: NOAEL Species: Rat

Aspiration hazard Not an aspiration hazard.

Chronic effects May be harmful if absorbed through skin.

Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.

Further information May cause allergic respiratory and skin reactions. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Aquatic			
Acute			
Algae		Pseudokirchneriella subcapitata	5.33 mg/l, 72 h EU C.3
Crustacea	EC50	Daphnia magna	11.12 mg/l, 48 h TG 202
Fish	LC50	Danio rerio	86.2 mg/l, 96 h EU C.1
1-NAPHTHOL (CAS 90-15-3)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 2.18 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	2.51 mg/l, 48 h
Fish	LC50	Pimephales promelas	4.24 mg/l, 96 h
Chronic			
Crustacea	NOEC	Daphnia magna	0.25 mg/l, 21 d OECD 211

Components		Species	Test Results
AMMONIUM HYDROXIDE (CAS 1336-21-6)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	2700 mg/l, 18 d
Crustacea	EC50	Daphnia magna	101 mg/l, 48 h ASTM E729-80
Fish	LC50	Oncorhynchus mykiss	0.89 mg/l, 96 h
Chronic			
Crustacea	NOEC	Daphnia magna	0.79 mg/l, 21 d
Fish	NOEC	Oncorhynchus mykiss	1.2 mg/l, 61 d OECD 210
ETHANOLAMINE (CAS 141-43-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	2.8 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	65 mg/l, 48 h EU C.2
Fish	LC50	Cyprinus carpio	349 mg/l, 96 h EU C.1
Other	EC10	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 30 min OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.85 mg/l, 21 d OECD 211
Fish	NOEC	Oryzias latipes	1.24 mg/l, 41 d OECD 210
LAURETH-3 (CAS 68439-50-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	1 - 10 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1 - 10 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	1 - 10 mg/l, 96 h ISO 7346-2
Other	EC0	Pseudomonas putida	> 100 mg/l, 3 h OECD 209
Chronic

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33.3 % EU C.4-E Result: Not readily biodegradable
1-NAPHTHOL	> 77.8 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
ETHANOLAMINE	> 90 % OECD 301 A Result: Readily Biodegradable Test Duration: 21 d
LAURETH-3	Result: Readily Biodegradable
OLEYL PHOSPHATE	26.1 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d
TOLUENE-2,5-DIAMINE SULFATE	17 % OECD 301 D Result: Not Readily Biodegradable Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

1-NAPHTHOL	2.836 OECD 107
AMMONIUM HYDROXIDE	-2.66
ETHANOLAMINE	-2.3 OECD 107
M-AMINOPHENOL	5.6
P-AMINOPHENOL	0.25
TOLUENE-2,5-DIAMINE SULFATE	0.74

Bioconcentration factor (BCF)

P-AMINOPHENOL	10 - 46 OECD 305 C

Bioaccumulation

1-NAPHTHOL	Result: Bioaccumulation is unlikely.
ETHANOLAMINE	Result: Bioaccumulation is unlikely.
P-AMINOPHENOL	Result: Bioaccumulation is unlikely.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

AMMONIUM HYDROXIDE (CAS 1336-21-6)

Safe Drinking Water Act (SDWA) Not regulated.

16. Other information, including date of preparation or last revision

Issue date	06-03-2022
Version #	01
NFPA ratings	Health: 3 Flammability: 1 Instability: 0
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT PERMANENT COLOR - GROUP 6
Synonyms	None.
SDS number	00-21-0000413
Issue date	06-03-2022
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Skin corrosion/irritation	Category 1B	H314 - Causes severe skin burns and eye damage.
Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.
Skin sensitization	Category 1A	H317 - May cause an allergic skin reaction.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes severe skin burns and eye damage. May cause an allergic skin reaction. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: 1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE, 1-NAPHTHOL, AMMONIUM HYDROXIDE, BISABOLOL, ETHANOLAMINE, LAURETH-3, M-AMINOPHENOL, OLEYL PHOSPHATE, P-AMINOPHENOL, TOLUENE-2,5-DIAMINE SULFATE

Hazard pictograms

Signal word Danger

Hazard statements

H314	Causes severe skin burns and eye damage.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P260	Do not breathe vapor.
P264	Wash thoroughly after handling.
P272	Contaminated work clothing should not be allowed out of the workplace.
P273	Avoid release to the environment.
P280	Wear protective gloves/protective clothing/eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P301 + P330 + P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303 + P361 + P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
P304 + P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P333 + P313	If skin irritation or rash occurs: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.

Storage

P405	Store locked up.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 2,5% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 3,35% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.

Ingestion Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

4.2. Most important symptoms and effects, both acute and delayed Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Prevent product from entering drains. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Do not breathe mist/vapors. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value

ETHANOLAMINE (CAS 141-43-5)	STEL	7,5 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm

EU. Indicative Exposure Limit Values in Directives 91/322/EEC, 2000/39/EC, 2006/15/EC, 2009/161/EU

Components	Type	Value
AMMONIUM HYDROXIDE (CAS 1336-21-6)	STEL	36 mg/m3
		50 ppm
	TWA	14 mg/m3
		20 ppm
ETHANOLAMINE (CAS 141-43-5)	STEL	7,6 mg/m3
		3 ppm
	TWA	2,5 mg/m3
		1 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

Exposure guidelines

EU Exposure Limit Values: Skin designation

ETHANOLAMINE (CAS 141-43-5) Can be absorbed through the skin.

Slovenia. OELs. Regulations concerning protection of workers against risks due to exposure to chemicals while working (Official Gazette of the Republic of Slovenia)

ETHANOLAMINE (CAS 141-43-5) Can be absorbed through the skin.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield. Face shield is recommended.
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
- Other	Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.
Environmental exposure controls	Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	10 - 11
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199,9 °F (> 93,3 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

9.2. Other information

Density	0,975 - 1,015 g/cm3

SECTION 10: Stability and reactivity

10.1. Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability Material is stable under normal conditions.

10.3. Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

10.5. Incompatible materials Strong oxidizing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation May cause irritation to the respiratory system. Prolonged inhalation may be harmful.

Skin contact Causes severe skin burns. May cause an allergic skin reaction.

Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.

Eye contact Causes serious eye damage.

Ingestion Causes digestive tract burns.

Symptoms Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

11.1. Information on toxicological effects

Acute toxicity Not known.

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33,3 % EU C,4-E Result: Not readily biodegradable
1-NAPHTHOL	> 77,8 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
BISABOLOL	70 - 80 % OECD 301 F Result: Readily Biodegradable Test Duration: 28 d
COCAMIDOPROPYL BETAINE	91,6 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
ETHANOLAMINE	> 90 % OECD 301 A Result: Readily Biodegradable Test Duration: 21 d
LAURETH-3	Result: Readily Biodegradable
OLEYL PHOSPHATE	26,1 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d
TOLUENE-2,5-DIAMINE SULFATE	17 % OECD 301 D Result: Not Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

1-NAPHTHOL	2,836 OECD 107
AMMONIUM HYDROXIDE	-2,66
COCAMIDOPROPYL BETAINE	4,2
ETHANOLAMINE	-2,3 OECD 107
M-AMINOPHENOL	5,6
P-AMINOPHENOL	0,25
TOLUENE-2,5-DIAMINE SULFATE	0,74

Bioconcentration factor (BCF)

COCAMIDOPROPYL BETAINE	71
P-AMINOPHENOL	10 - 46 OECD 305 C

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

Substance Global Warming Potential per (Annex IV), Regulation 517/2014/EU on fluorinated greenhouse gases, as amended

AMMONIUM HYDROXIDE (CAS 1336-21-6)	0

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

AMMONIUM HYDROXIDE (CAS 1336-21-6)

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

1-NAPHTHOL (CAS 90-15-3)
AMMONIUM HYDROXIDE (CAS 1336-21-6)
ETHANOLAMINE (CAS 141-43-5)
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

P-AMINOPHENOL (CAS 123-30-8)

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)
AMMONIUM HYDROXIDE (CAS 1336-21-6)
M-AMINOPHENOL (CAS 591-27-5)
P-AMINOPHENOL (CAS 123-30-8)
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H301 Toxic if swallowed. H302 Harmful if swallowed. H311 Toxic in contact with skin. H312 Harmful in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H332 Harmful if inhaled. H335 May cause respiratory irritation. H341 Suspected of causing genetic defects. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H373 May cause damage to organs through prolonged or repeated exposure. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT PERMANENT COLOR - Groupe 6**

Autres moyens d'identification

Numéro de la FDS 00-21-0000368

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Corrosion cutanée/irritation cutanée	Catégorie 2
Lésions oculaires graves/irritation oculaire	Catégorie 1
Sensibilisation cutanée	Catégorie 1A

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Provoque une irritation cutanée. Peut provoquer une allergie cutanée. Provoque de graves lésions des yeux.

Conseil de prudence

Prévention Se laver soigneusement après manipulation. Il ne faut pas que les vêtements de travail contaminés quittent le lieu de travail. Porter un équipement de protection des yeux/du visage. Porter des gants de protection.

Intervention En contact avec la peau : Laver avec beaucoup d'eau. En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin. En cas d'irritation ou d'éruption cutanée : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
LAURETH-3		68439-50-9	5
HYDROXYDE D'AMMONIUM		1336-21-6	1.8
2-AMINO-6-CHLORO-4-NITROPHÉNOL		6358-09-4	< 2
ÉTHANOLAMINE		141-43-5	< 2
OLEYL PHOSPHATE		37310-83-1	1.25
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 2
TOLUÈNE -2,5-DIAMINE SULFATE		615-50-9	< 1
p-Aminophénol		123-30-8	< 1
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE		83763-48-8	< 0.6
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE		54381-16-7	< 0.6
M-AMINOPHÉNOL		591-27-5	< 0.6
1-NAPHTOL		90-15-3	≤ 0.5
RÉSORCINOL		108-46-3	≤ 0.5

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements contaminés et laver la peau à l'eau et au savon. En cas d'eczéma ou d'autres problèmes cutanés : consulter un médecin et apporter cette fiche. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Irritation de la peau. Peut provoquer des rougeurs et des douleurs. Peut provoquer une allergie cutanée. Dermatite. Éruption.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.
Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence

Tenir à l'écart le personnel non requis. Tenir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Éviter de respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Ce produit est classé comme un polluant de l'eau en vertu de la Loi sur la qualité de l'eau (Clean Water Act) et ne doit pas contaminer les sols ni pénétrer dans les systèmes d'égouts et d'évacuation qui se déversent dans les cours d'eau.

Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Éviter tout contact avec les yeux, la peau ou les vêtements. Éviter de respirer les brouillards/vapeurs. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur
ÉTHANOLAMINE (CAS 141-43-5)	PEL (limite d'exposition admissible)	6 mg/m3
		3 ppm
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)	PEL (limite d'exposition admissible)	35 mg/m3
		50 ppm

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur
ÉTHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)	STEL	35 ppm
	TWA	25 ppm
RÉSORCINOL (CAS 108-46-3)	STEL	20 ppm
	TWA	10 ppm

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur
ÉTHANOLAMINE (CAS 141-43-5)	STEL	15 mg/m3
		6 ppm
	TWA	8 mg/m3
		3 ppm
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)	STEL	27 mg/m3
		35 ppm
	TWA	18 mg/m3
		25 ppm
RÉSORCINOL (CAS 108-46-3)	STEL	90 mg/m3
		20 ppm
	TWA	45 mg/m3
		10 ppm

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques) et un écran facial. Un écran facial est recommandé.

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Nuancé

Odeur Caractéristique.

Seuil olfactif Non disponible.

pH 9.7 - 10.1

Point de fusion et point de congélation Non disponible.

Point initial d'ébullition et domaine d'ébullition > 100 °C (> 212 °F)

Point d'éclair > 100.0 °C (> 212.0 °F) Coupelle fermée

Taux d’évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d’inflammabilité ou d’explosibilité	
Limites d’inflammabilité - inférieure (%)	Non disponible.
Limites d’inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d’auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d’utilisation, d’entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d’utilisation.
Conditions à éviter	Tenir à l’écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d’ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	Provoque une irritation cutanée. Peut provoquer une allergie cutanée. L'exposition répétée ou prolongée peut causer des lésions aux reins et au foie. Ces effets n'ont pas été observés chez l'humain.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Faible danger présumé en cas d’ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité. Irritation de la peau. Peut provoquer des rougeurs et des douleurs. Peut provoquer une allergie cutanée. Dermatite. Éruption.

RÉSORCINOL	80 mg/kg bw/d OCDE 408, Orale Résultat: DSENO Espèces: Rat Durée du test: 90 d

Toxicité pour certains organes cibles - expositions répétées

RÉSORCINOL — 991 mg/m³
Résultat: CSENO
Espèces: Rat
Durée du test: 14 d

Danger par aspiration La classification n'est pas possible en raison d'un manque partiel ou total de données.

Effets chroniques Peut être nocif en cas d'absorption par la peau.

L'exposition répétée ou prolongée peut causer des lésions aux reins et au foie. Ces effets n'ont pas été observés chez l'humain.

Autres informations Peut provoquer des allergies respiratoires et cutanées. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Aquatique			
Aiguë			
Algues		Pseudokirchneriella subcapitata	5.33 mg/l, 72 h EU C.3

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33.3 % EU C.4-E Résultat: Difficilement Biodégradable
1-NAPHTOL	> 77.8 % OCDE 301 B Résultat: Facilement Biodegradable Durée du test: 28 d
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	0 % OCDE 301 B Résultat: Difficilement Biodégradable Durée du test: 29 d
2-AMINO-6-CHLORO-4-NITROPHÉNOL	0 % OECD 301 F Résultat: Difficilement Biodégradable Durée du test: 28 d
ÉTHANOLAMINE	> 90 % OCDE 301 A Résultat: Facilement Biodegradable Durée du test: 21 d
LAURETH-3	Résultat: Facilement Biodegradable
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	14.3 % OECD 301B Résultat: Not Readilby Biodegradable Durée du test: 28 d
OLEYL PHOSPHATE	26.1 % OECD 301 D Résultat: Facilement Biodegradable Durée du test: 28 d
RÉSORCINOL	66.7 % OCDE 301 C Résultat: Facilement Biodegradable Durée du test: 14 d
TOLUÈNE -2,5-DIAMINE SULFATE	17 % OECD 301 D Résultat: Difficilement Biodégradable Durée du test: 28 d

Potentiel de bioaccumulation

Log Koe du coefficient de répartition octanol/eau

1-NAPHTOL	2.836 OECD 107
ÉTHANOLAMINE	-2.3 OECD 107
M-AMINOPHÉNOL	0.21
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	-2.8 -2.8 OECD 107

Log Koe du coefficient de répartition octanol/eau

p-Aminophénol	0.25
RÉSORCINOL	0.8

Facteur de bioconcentration

p-Aminophénol	10 - 46 OECD 305 C

Bioaccumulation

1-NAPHTOL	Résultat: Bioaccumulation is unlikely
ÉTHANOLAMINE	Résultat: Une bioaccumulation est peu probable.
p-Aminophénol	Résultat: Une bioaccumulation est peu probable.

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

14. Informations relatives au transport

DOT

FINISHED GOODS

N'entre pas dans la réglementation des marchandises dangereuses.

BULK

N'entre pas dans la réglementation des marchandises dangereuses.

Informations générales Polluant marin réglementé par l'IMDG. Polluant marin réglementé par le DOT.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

HYDROXYDE D'AMMONIUM (CAS 1336-21-6)	Inscrit.
RÉSORCINOL (CAS 108-46-3)	Inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux No (Exempt)

SARA 313 (déclaration au TRI)

Dénomination chimique	Numéro d'enregistreme	% en poids.
HYDROXYDE D'AMMONIUM	1336-21-6	1.8

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre) Non réglementé.

Substances respiratoires prioritaires FEMA - santé et sécurité respiratoire dans le lieu de travail de fabrication d'arômes

RÉSORCINOL (CAS 108-46-3) Faible priorité

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	02-Octobre-2020
Date de la révision	26-Novembre-2020
Version n°	02
Classements NFPA	Santé: 3 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.
Informations relatives à la révision	Des modifications importantes ont été apportées à ce document et il devrait donc être relu entièrement.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT PERMANENT COLOR - Groupe 6**

Autres moyens d'identification

Numéro de la FDS 00-21-0000413

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Corrosion cutanée/irritation cutanée	Catégorie 1
Lésions oculaires graves/irritation oculaire	Catégorie 1
Sensibilisation cutanée	Catégorie 1A

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Provoque de graves brûlures de la peau et de graves lésions des yeux. Peut provoquer une allergie cutanée. Provoque de graves lésions des yeux.

Conseil de prudence

Prévention Ne pas respirer les brouillards/vapeurs. Se laver soigneusement après manipulation. Il ne faut pas que les vêtements de travail contaminés quittent le lieu de travail. Porter des gants de protection/des vêtements de protection/un équipement de protection des yeux/du visage.

Intervention En cas d'ingestion : Rincer la bouche. NE PAS provoquer de vomissements. En contact avec la peau (ou les cheveux) : Retirer immédiatement tous les vêtements contaminés. Rincer la peau avec de l'eau/sous une douche. En cas d'inhalation : Déplacer la personne à l'air frais et la maintenir dans une position confortable pour la respiration. En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin. En cas d'irritation ou d'éruption cutanée : Demander un avis médical/Consulter un médecin. Laver les vêtements contaminés avant réutilisation.

Stockage Garder sous clef.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 3
LAURETH-3		68439-50-9	≤ 5
HYDROXYDE D'AMMONIUM		1336-21-6	< 3
OLEYL PHOSPHATE		37310-83-1	< 2
ÉTHANOLAMINE		141-43-5	< 2
M-AMINOPHÉNOL		591-27-5	< 0.8
1-NAPHTOL		90-15-3	< 0.7
p-Aminophénol		123-30-8	< 0.2
TOLUÈNE -2,5-DIAMINE SULFATE		615-50-9	≤ 0.3

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements contaminés et laver la peau à l'eau et au savon. Appeler immédiatement un médecin ou un centre antipoison. Les brûlures chimiques doivent être traitées par un médecin. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Appeler immédiatement un médecin ou un centre antipoison.

Ingestion Appeler immédiatement un médecin ou un centre antipoison. Rincer la bouche. Ne pas faire vomir. En cas de vomissement, garder la tête basse pour éviter une pénétration du contenu de l'estomac dans les poumons.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Douleur brûlante et lésions corrosives graves de la peau. Provoque de graves lésions des yeux. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Brûlures chimiques : Rincer immédiatement avec de l'eau. Tout en rinçant, retirer les vêtements qui ne collent pas à la zone touchée. Appeler une ambulance. Continuer à rincer pendant le transport vers l'hôpital. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger. Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence

Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Ne pas respirer les brouillards/vapeurs. Éviter tout contact avec les yeux, la peau ou les vêtements. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Garder sous clef. Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur
ÉTHANOLAMINE (CAS 141-43-5)	PEL (limite d'exposition admissible)	6 mg/m3
		3 ppm
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)	PEL (limite d'exposition admissible)	35 mg/m3
		50 ppm

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur
ÉTHANOLAMINE (CAS 141-43-5)	STEL	6 ppm
	TWA	3 ppm
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)	STEL	35 ppm
	TWA	25 ppm

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur
ÉTHANOLAMINE (CAS 141-43-5)	STEL	15 mg/m3
		6 ppm
	TWA	8 mg/m3
		3 ppm

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)	STEL	27 mg/m3
		35 ppm
	TWA	18 mg/m3
		25 ppm

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Des douches oculaires et des douches d'urgence doivent être disponibles sur le lieu de travail pendant la manipulation de ce produit.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques) et un écran facial. Un écran facial est recommandé.

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Couleur Non disponible.

Odeur Non disponible.

Seuil olfactif Non disponible.

pH 10 - 11

Point de fusion et point de congélation Non disponible.

Point initial d'ébullition et domaine d'ébullition > 100 °C (> 212 °F)

Point d'éclair > 93.3 °C (> 199.9 °F) Coupelle fermée

Taux d'évaporation Non disponible.

Inflammabilité (solides et gaz) Sans objet.

Limites supérieures et inférieures d'inflammabilité ou d'explosibilité

Limites d'inflammabilité - inférieure (%) Non disponible.

Limites d'inflammabilité - supérieure (%) Non disponible.

Limite d'explosibilité - inférieure (%) Non disponible.

Limite d'explosibilité - supérieure (%) Non disponible.

Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	0.975 - 1.015 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Peut provoquer une irritation du système respiratoire. Toute inhalation prolongée peut être nocive.
Contact avec la peau	Provoque de graves brûlures de la peau. Peut provoquer une allergie cutanée. L'exposition répétée ou prolongée peut causer des lésions aux reins et au foie. Ces effets n'ont pas été observés chez l'humain.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Provoque des brûlures du tube digestif.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Douleur brûlante et lésions corrosives graves de la peau. Provoque de graves lésions des yeux. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

TOLUÈNE -2,5-DIAMINE SULFATE	OECD 438 Résultat: Irritant Espèces: ICE
HYDROXYDE D'AMMONIUM	Résultat: Corrosif

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée Peut provoquer une allergie cutanée.

Sensibilisation cutanée

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	EU Method B.6 - Chat 1 Résultat: Sensibilisant Espèces: Cobaye
p-Aminophénol	OCDE 406 Résultat: Sensibilisant Espèces: Cobaye
OLEYL PHOSPHATE	OCDE 429 Résultat: Non Sensibilisant Espèces: Souris
1-NAPHTOL	OCDE 429 Résultat: Sensibilisant Espèces: Souris
M-AMINOPHÉNOL	OCDE 429 Résultat: Sensibilisant Espèces: Souris
TOLUÈNE -2,5-DIAMINE SULFATE	OCDE 429 Résultat: Sensibilisant Espèces: Souris
ÉTHANOLAMINE	Résultat: Non Sensibilisant Espèces: Cobaye
HYDROXYDE D'AMMONIUM	Résultat: Not Sensitzing Espèces: Cobaye

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

ÉTHANOLAMINE	Résultat: In vitro and in vivo tests did show mutagenic effects
1-NAPHTOL	Résultat: In vitro tests showed varied results. In vivo tests showed negative results.
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
HYDROXYDE D'AMMONIUM	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
LAURETH-3	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
OLEYL PHOSPHATE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
M-AMINOPHÉNOL	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.
TOLUÈNE -2,5-DIAMINE SULFATE	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.
p-Aminophénol	Résultat: Les tests in vivo ont montré des effets mutagènes

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Effets sur le développement

ÉTHANOLAMINE	>= 450 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat

ÉTHANOLAMINE	300 mg/kg bw/d OCDE 416, Orale Résultat: DSENO Espèces: Rat

Danger par aspiration Pas un danger par aspiration.

Effets chroniques Peut être nocif en cas d'absorption par la peau.

L'exposition répétée ou prolongée peut causer des lésions aux reins et au foie. Ces effets n'ont pas été observés chez l'humain.

Autres informations Peut provoquer des allergies respiratoires et cutanées. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Bioaccumulation

1-NAPHTOL	Résultat: Une bioaccumulation est peu probable.
ÉTHANOLAMINE	Résultat: Une bioaccumulation est peu probable.
p-Aminophénol	Résultat: Une bioaccumulation est peu probable.

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

HYDROXYDE D'AMMONIUM (CAS 1336-21-6) Inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Ammoniac (CAS 1336-21-6) 100 livres

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Dénomination chimique	Numéro d'enregistrement CAS	Quantité à déclarer (livres)	Quantité seuil de planification (livres)	Quantité seuil de planification, valeur inférieure (livres)	Quantité seuil de planification, valeur supérieure (livres)
HYDROXYDE D'AMMONIUM	1336-21-6	100	500		

SARA 311/312 Produit chimique dangereux No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

HYDROXYDE D'AMMONIUM (CAS 1336-21-6)

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre) Non réglementé.

Avis de non-responsabilité À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT PERMANENT COLOR - Groupe 6
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-21-0000413
Date de publication	le 03-Juin-2022
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé		
Corrosion cutanée/irritation cutanée	Catégorie 1B	H314 - Provoque des brûlures de la peau et des lésions oculaires graves.
Lésions oculaires graves/irritation oculaire	Catégorie 1	H318 - Provoque des lésions oculaires graves.
Sensibilisation cutanée	Catégorie 1A	H317 - Peut provoquer une allergie cutanée.
Dangers pour l'environnement		
Dangers pour le milieu aquatique, danger à long terme	Catégorie 3	H412 - Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Résumé des dangers

Provoque des brûlures de la peau et des lésions oculaires graves. Peut provoquer une allergie cutanée. Dangereux pour l'environnement en cas de déversement dans les cours d'eau. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : 1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE, 1-NAPHTOL, BISABOLOL, ETHANOLAMINE, HYDROXYDE D'AMMONIUM, LAURETH-3, M-AMINOPHÉNOL, OLEYL PHOSPHATE, p-Aminophénol, TOLUÈNE -2,5-DIAMINE SULFATE

Pictogrammes de danger

Mention d'avertissement Danger

Mentions de danger

H314	Provoque des brûlures de la peau et des lésions oculaires graves.
H317	Peut provoquer une allergie cutanée.
H318	Provoque des lésions oculaires graves.
H412	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P260	Ne pas respirer les vapeurs.
P264	Se laver soigneusement après manipulation.
P272	Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.
P273	Eviter le rejet dans l'environnement.
P280	Porter des gants de protection/des vêtements de protection/un équipement de protection des yeux/du visage.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P301 + P330 + P331	EN CAS D'INGESTION: Rincer la bouche. NE PAS faire vomir.
P303 + P361 + P353	EN CAS DE CONTACT AVEC LA PEAU (ou les cheveux) : Enlever immédiatement tout vêtement souillé ou éclaboussé. Rincer la peau à l'eau.
P304 + P340	EN CAS D'INHALATION: transporter la personne à l'extérieur et la maintenir dans une position où elle peut confortablement respirer.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P310	Appeler immédiatement un CENTRE ANTIPOISON/un médecin.
P333 + P313	En cas d'irritation ou d'éruption cutanée: consulter un médecin.
P362 + P364	Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage

P405	Garder sous clef.

Élimination

P501	Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 2,5 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 3,35 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées. Laver les vêtements contaminés avant réutilisation.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements souillés et laver la peau avec de l'eau et du savon. Contacter immédiatement un médecin ou un centre antipoison. Les brûlures chimiques doivent être traitées par un médecin. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Contacter immédiatement un médecin ou un centre antipoison.

Ingestion Contacter immédiatement un médecin ou un centre antipoison. Rincer la bouche. NE PAS faire vomir. En cas de vomissement, garder la tête basse pour éviter une pénétration du contenu de l'estomac dans les poumons.

4.2. Principaux symptômes et effets, aigus et différés Douleur brûlante et lésions corrosives graves de la peau. Provoque des lésions oculaires graves. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires Assurer des soins généraux et traiter en fonction des symptômes. En cas de brûlure chimique: laver immédiatement avec de l'eau. Enlever, pendant le lavage, les vêtements qui ne collent pas à la peau. Appeler une ambulance. Continuer le lavage pendant le transport à l'hôpital. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement Éviter le rejet dans l'environnement. Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger. Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage Éviter que le produit arrive dans les égouts.

Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger Ne pas respirer les brouillards/vapeurs. Éviter tout contact avec les yeux, la peau ou les vêtements. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Éviter le rejet dans l'environnement. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités Garder sous clef. Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s) Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

Directives au sujet de l'exposition

UE – Valeurs limites d'exposition : Désignation « Peau »

ETHANOLAMINE (CAS 141-43-5) Résorption via la peau

Slovénie. LEP. Règlements concernant la protection des travailleurs contre les risques d'exposition aux produits chimiques au travail (Journal officiel de la République de Slovénie)

ETHANOLAMINE (CAS 141-43-5) Résorption via la peau

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Des dispositifs de rinçage oculaire et des douches d'urgence doivent être disponibles sur le lieu de travail pendant la manipulation de ce produit.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux. Le port d'un masque facial est conseillé.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter des vêtements appropriés résistant aux produits chimiques. L'emploi d'un tablier imperméable est recommandé.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Risques thermiques Porter des équipements de protection contre la chaleur, si nécessaire.

Mesures d'hygiène Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants. Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.

Contrôles d'exposition liés à la protection de l'environnement Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect

État physique Liquide.

Couleur Donnée inconnue.

Odeur Donnée inconnue.

Seuil olfactif Donnée inconnue.

pH 10 - 11

Point de fusion/point de congélation Donnée inconnue.

Point initial d'ébullition et intervalle d'ébullition > 100 °C (> 212 °F)

Point d'éclair > 93,3 °C (> 199,9 °F) Coupelle fermée

Taux d'évaporation Donnée inconnue.

Inflammabilité (solide, gaz) Sans objet.

Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité

limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.
9.2. Autres informations	
Densité	0,975 - 1,015 g/cm3

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	Peut entraîner une irritation de l'appareil respiratoire. L'inhalation prolongée peut être nocive.
Contact avec la peau	Provoque de graves brûlures de la peau. Peut provoquer une allergie cutanée. Une exposition prolongée ou répétée peut provoquer des lésions hépatiques et rénales. Ces effets n'ont pas été observés chez l'être humain.
Contact avec les yeux	Provoque des lésions oculaires graves.
Ingestion	Provoque des brûlures de l'appareil digestif.
Symptômes	Douleur brûlante et lésions corrosives graves de la peau. Provoque des lésions oculaires graves. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë	Donnée inconnue.

BISABOLOL	200 mg/kg bw/d OECD 410, Cutané Résultat: NOAEL Espèce: Rat Durée de l'essai: 4 semaines
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	250 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 408, Oral Résultat: NOEL Espèce: Rat Durée de l'essai: 90 d
ETHANOLAMINE	300 mg/kg bw/d OCDE 416, Oral Résultat: NOAEL Espèce: Rat

Danger par aspiration

En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances

Aucune information disponible.

Autres informations

Peut causer des réations allergiques respiratoires et de la peau. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité

Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme. D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques, danger aigu, ne sont pas remplis.

Composants		Espèce	Résultats d'essais
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
Aquatique

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	33,3 en % EU C,4-E Résultat: Difficilement Biodégradable
1-NAPHTOL	> 77,8 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
BISABOLOL	70 - 80 en % OECD 301 F Résultat: Facilement Biodegradable Durée de l'essai: 28 d
Cocamidopropylbétaïne	91,6 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
ETHANOLAMINE	> 90 en % OCDE 301 A Résultat: Facilement Biodegradable Durée de l'essai: 21 d
LAURETH-3	Résultat: Facilement Biodegradable
OLEYL PHOSPHATE	26,1 en % OECD 301 D Résultat: Facilement Biodegradable Durée de l'essai: 28 d
TOLUÈNE -2,5-DIAMINE SULFATE	17 en % OECD 301 D Résultat: Difficilement Biodégradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

1-NAPHTOL	2,836 OECD 107
Cocamidopropylbétaïne	4,2
ETHANOLAMINE	-2,3 OECD 107
HYDROXYDE D'AMMONIUM	-2,66
M-AMINOPHÉNOL	5,6
p-Aminophénol	0,25
TOLUÈNE -2,5-DIAMINE SULFATE	0,74

Facteur de bioconcentration (FBC)

Cocamidopropylbétaïne	71
p-Aminophénol	10 - 46 OECD 305 C

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

Potentiel de réchauffement planétaire selon l'annexe IV du règlement 517/2014/UE relatif aux gaz à effet de serre fluorés avec ses modifications

HYDROXYDE D'AMMONIUM (CAS 1336-21-6) 0

12.7. Informations supplémentaires	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires	Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).
Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Empêcher que cette substance ne s'écoule dans les égouts ou le réseau d'eau. Ne pas contaminer les étangs, les voies navigables ou les fossés avec le produit ou le récipient utilisés. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC	Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

HYDROXYDE D'AMMONIUM (CAS 1336-21-6)

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

1-NAPHTOL (CAS 90-15-3)
ETHANOLAMINE (CAS 141-43-5)
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)
TOLUÈNE -2,5-DIAMINE SULFATE (CAS 615-50-9)

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

p-Aminophénol (CAS 123-30-8)

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)
HYDROXYDE D'AMMONIUM (CAS 1336-21-6)
M-AMINOPHÉNOL (CAS 591-27-5)
p-Aminophénol (CAS 123-30-8)
TOLUÈNE -2,5-DIAMINE SULFATE (CAS 615-50-9)

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H301 Toxique en cas d'ingestion. H302 Nocif en cas d'ingestion. H311 Toxique par contact cutané. H312 Nocif par contact cutané. H314 Provoque des brûlures de la peau et des lésions oculaires graves. H315 Provoque une irritation cutanée. H317 Peut provoquer une allergie cutanée. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H332 Nocif par inhalation. H335 Peut irriter les voies respiratoires. H341 Susceptible d'induire des anomalies génétiques. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée. H400 Très toxique pour les organismes aquatiques. H410 Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.

Clause de non-responsabilité

Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte.
Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS.
L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SCHEDA DI DATI DI SICUREZZA

SEZIONE 1: identificazione della sostanza/miscela e della società/impresa

1.1. Identificatore del prodotto

Nome commerciale o designazione della miscela	PULP RIOT PERMANENT COLOR - GRUPPO 6
Sinonimi	Nessuno.
Numero SDS	00-21-0000368
Data di pubblicazione	10-Settembre-2021
Numero della versione	01

1.2. Usi identificati pertinenti della sostanza o della miscela e usi sconsigliati

Usi identificati	Prodotto per la cura personale utilizzato come effetto cosmetico.
Usi sconsigliati	Non noto.

1.3. Informazioni sul fornitore della scheda di dati di sicurezza

Persona di contatto

Nome della Società	L'ORÉAL SA
Indirizzo	14, rue royale 75008 - Paris Francia
Numero di telefono	+1 732 499 2745
indirizzo di posta elettronica	nacorpeuropesdsrequest@loreal.com

1.4. Numero telefonico di emergenza

CAV "Osp. Pediatrico Bambino Gesù" - 06 68593726

Az. Osp. Univ. Foggia - 0881-732326

Az. Osp. "a. Cardarelli" - 081-7472870

CAV Policlinico "Umberto I" - 06-49978000

CAV Policlinio "A. Gemelli" - 06-3054343

Az. Osp. "Careggi" U.O. Tossicologia - 055-7947819

CAV C.N.I.T. di Pavia - 0382-24444

Osp. Niguarda Ca' Granda - 02-66101029

Azienda Ospedaliera Papa Giovanni XXII - 800883300

(Disponibile 24 ore su 24. Le schede dei dati di sicurezza o le informazioni sul prodotto potrebbero non essere disponibili per il servizio di emergenza).

SEZIONE 2: Identificazione dei pericoli

2.1. Classificazione della sostanza o della miscela

La miscela è stata valutata e/o sottoposta a test per verificare l'assenza di pericoli fisici, per la salute e per l'ambiente e a essa si applica la seguente classificazione.

Classificazione a norma del regolamento (CE) n. 1272/2008 modificato

Pericoli per la salute

Corrosione cutanea/irritazione cutanea	Categoria 2	H315 - Provoca irritazione cutanea.
Gravi danni oculari/irritazione oculare	Categoria 1	H318 - Provoca gravi lesioni oculari.
Sensibilizzazione cutanea	Categoria 1A	H317 - Può provocare una reazione allergica cutanea.

Pericoli per l'ambiente

Pericoloso per l'ambiente acquatico, pericolo acquatico a lungo termine	Categoria 3	H412 - Nocivo per gli organismi acquatici con effetti di lunga durata.

Riepilogo dei pericoli Provoca gravi lesioni oculari. Provoca irritazione cutanea. Può provocare una reazione allergica cutanea. Pericoloso per l'ambiente se scaricato nei corsi d'acqua. L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi sulla salute. Questo prodotto è sicuro per i consumatori se usato secondo le indicazioni riportate sull'etichetta. Come accade per molti prodotti di consumo, un numero limitato di individui potrebbe manifestare reazioni quali rossore, eruzioni cutanee e/o gonfiori in seguito a contatto ripetuto o prolungato con pelle/occhi.

2.2. Elementi dell'etichetta

Etichetta secondo il regolamento (CE) n. 1272/2008 modificato

Contiene: 1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE, 1-NAFTOLO, 2,4-DIAMINOPHENOXYETHANOL HCL, 2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE, 2-AMINO-6-CHLORO-4-NITROFENOLO, 2-METHYLRESORCINOL, 4-Aminofenolo, AMMONIACA .... %, BISABOLOL, ETANOLAMINA, LAURETH-3, M-AMINOFENOLO, N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE, OLEYL PHOSPHATE, RESORCINOLO, TOLUENE-2,5-DIAMINE SULFATE

Pittogrammi di pericolo

Avvertenza Pericolo

Indicazioni di pericolo

H315	Provoca irritazione cutanea.
H317	Può provocare una reazione allergica cutanea.
H318	Provoca gravi lesioni oculari.
H412	Nocivo per gli organismi acquatici con effetti di lunga durata.

Consigli di prudenza

Prevenzione

P102	Tenere fuori dalla portata dei bambini.
P103	Leggere l'etichetta prima dell'uso.
P260	Non respirare il vapore.
P264	Lavare attentamente dopo l'uso.
P272	Gli indumenti da lavoro contaminati non devono essere portati fuori dal luogo di lavoro.
P273	Non disperdere nell'ambiente.
P280	Proteggere gli occhi.
P280	Indossare guanti protettivi.

Reazione

P101	In caso di consultazione di un medico, tenere a disposizione il contenitore o l'etichetta del prodotto.
P302 + P352	IN CASO DI CONTATTO CON LA PELLE: lavare abbondantemente con acqua.
P305 + P351 + P338	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P310	Contattare immediatamente un CENTRO ANTIVELENI/un medico.
P333 + P313	In caso di irritazione o eruzione della pelle: consultare un medico.
P362 + P364	Togliere tutti gli indumenti contaminati e lavarli prima di indossarli nuovamente.

Immagazzinamento Conservare lontano da materiali non compatibili.

Smaltimento

P501	Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Informazioni supplementari sulle etichette La miscela contiene il 2,27 % di componenti di cui è ignoto il pericolo per l'ambiente acquatico.

2.3. Altri pericoli Non è una sostanza o miscela PBT o vPvB.

SEZIONE 3: Composizione/informazioni sugli ingredienti

3.2. Miscele

Informazioni generali

Elenco di eventuali abbreviazioni e simboli usati sopra

#: Per questa sostanza sono stati fissati a livello dell'Unione limiti d'esposizione sul luogo di lavoro.
M: Fattore moltiplicatore
PBT: sostanza persistente, bioaccumulabile e tossica.
vPvB: sostanza molto persistente e molto bioaccumulabile.
Tutte le concentrazioni sono espresse come percentuale in peso a meno che l'ingrediente non sia un gas. Le concentrazioni dei gas sono espresse in percentuale in volume.

Commenti sulla composizione Il testo completo di tutte le indicazioni H è visualizzato nella sezione 16.

SEZIONE 4: Misure di primo soccorso

Informazioni generali Assicurarsi che il personale medico sia al corrente dei materiali coinvolti, e prenda le necessarie precauzioni per proteggersi.
Lavare gli indumenti contaminati prima di indossarli nuovamente.

4.1. Descrizione delle misure di primo soccorso

Inalazione Muovere all'aria fresca. Chiamare un medico se i sintomi compaiono o sono persistenti.

Cutanea Togliere immediatamente gli indumenti contaminati e lavare la pelle con acqua e sapone. In caso di eczema o altri disturbi alla pelle: consultare un medico e portare con sé queste istruzioni. Lavare gli indumenti contaminati prima di indossarli nuovamente.

Contatto con gli occhi Sciacquare immediatamente gli occhi con acqua abbondante per almeno 15 minuti. Togliere le lenti a contatto, se presenti e facili da togliere. Continuare a risciacquare. Consultare immediatamente un medico.

Ingestione Sciacquare la bocca. Contattare un medico se si verificano dei sintomi.

4.2. Principali sintomi ed effetti, sia acuti che ritardati Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità. Irritazione cutanea. Può causare rossore e dolore.) Può provocare una reazione allergica cutanea. Dermatiti. Sfogo.

4.3. Indicazione dell'eventuale necessità di consultare immediatamente un medico e di trattamenti speciali Prendere tutte le misure generali di supporto e curare in funzione dei sintomi. Mantenere la vittima sotto osservazione. I sintomi possono essere ritardati.

SEZIONE 5: Misure antincendio

Pericolo generale d'incendio Non sono indicati rischi d'incendio o di esplosione particolari.

5.1. Mezzi di estinzione

Mezzi di estinzione idonei Nebbia d'acqua. Schiuma. Sostanza chimica secca in polvere. Anidride carbonica (CO_2).

Mezzi di estinzione non idonei Non usare un getto d'acqua come mezzo di estinzione perché estenderebbe l'incendio.

5.2. Pericoli speciali derivanti dalla sostanza o dalla miscela In caso d'incendio possono crearsi gas nocivi.

5.3. Raccomandazioni per gli addetti all'estinzione degli incendi

Dispositivi di protezione speciali per gli addetti all'estinzione degli incendi In caso d'incendio indossare autorespiratore e indumenti protettivi completi.

Procedure speciali per l'estinzione degli incendi Spostare i contenitori dall'area dell'incendio se tale spostamento può essere compiuto senza rischi.

Metodi specifici Usare procedure antincendio standard e considerare i pericoli degli altri materiali coinvolti.

SEZIONE 6: Misure in caso di rilascio accidentale

6.1. Precauzioni personali, dispositivi di protezione e procedure in caso di emergenza

Per chi non interviene direttamente Allontanare il personale non necessario. Tenere le persone lontane dalla perdita, sopravento. Indossare un equipaggiamento protettivo adeguato e indumenti adeguati durante la rimozione. Non respirare il vapore. Non toccare contenitori danneggiati o materiali accidentalmente fuoriusciti se non dopo aver indossato indumenti protettivi appropriati. Prevedere una ventilazione adeguata. Le autorità locali devono essere informate se le perdite non possono essere circoscritte. Per la protezione individuale, vedere la sezione 8 della SDS.

Per chi interviene direttamente Allontanare il personale non necessario. Usare le protezioni individuali raccomandate nella Sezione 8 della SDS

6.2. Precauzioni ambientali

Non disperdere nell'ambiente. Informare il personale di gestione o di supervisione di tutte le emissioni nell'ambiente. Evitare sversamenti o perdite supplementari, se questo può essere fatto senza pericolo. Vietato scaricare in fognature, nei corsi d'acqua o nel terreno.

6.3. Metodi e materiali per il contenimento e per la bonifica

Non scaricare il prodotto nelle fogne.

Versamenti di grandi dimensioni: Fermare il flusso del materiale, se ciò è possibile senza rischio. Arginare il materiale riversato, qualora sia possibile. Assorbire in vermiculite, sabbia o terra asciutta e riporre in contenitori. Una volta recuperato il prodotto, sciacquare l'area con acqua.

Versamenti di piccole dimensioni: Asciugare con materiale assorbente (es. panno, strofinaccio). Pulire completamente la superficie per rimuovere completamente la contaminazione residua.

Non immettere prodotti fuoriusciti nei contenitori originali per il loro riutilizzo

6.4. Riferimento ad altre sezioni

Per la protezione individuale, vedere la sezione 8 della SDS. Per lo smaltimento dei rifiuti, vedere la sezione 13 della SDS.

SEZIONE 7: Manipolazione e immagazzinamento

7.1. Precauzioni per la manipolazione sicura

Non respirare il vapore. Non permettere che questo materiale vada a contatto con gli occhi. Evitare il contatto con gli occhi, con la pelle e con gli indumenti. Evitare l'esposizione prolungata. Garantire una ventilazione adeguata. Indossare attrezzature di protezione personale adeguate. Non disperdere nell'ambiente. Osservare le norme di buona igiene industriale.

7.2. Condizioni per lo stoccaggio sicuro, comprese eventuali incompatibilità

Conservare in un recipiente ermeticamente chiuso. Conservare fuori della portata dei bambini. Conservare lontano da materiali incompatibili (vedere la sezione 10 della SDS).

7.3. Usi finali particolari

Non conosciuto.

SEZIONE 8: Controllo dell'esposizione/protezione individuale

8.1. Parametri di controllo

Valori limite di esposizione professionale

Italia. Limiti di esposizione professionale

Componenti	Tipo	Valore
AMMONIACA .... % (CAS 1336-21-6)	8 ore	14 mg/m3
		20 ppm
	Breve termine	36 mg/m3
		50 ppm
ETANOLAMINA (CAS 141-43-5)	8 ore	2,5 mg/m3
		1 ppm
	Breve termine	7,6 mg/m3
		3 ppm
RESORCINOLO (CAS 108-46-3)	8 ore	45 mg/m3
		10 ppm

Valori limite d'esposizione indicativi dell'UE in Direttive 91/322/CEE, 2000/39/CE, 2006/15/CE, 2009/161/UE

Componenti	Tipo	Valore
AMMONIACA .... % (CAS 1336-21-6)	8 ore	14 mg/m3
		20 ppm
	Breve termine	36 mg/m3
		50 ppm
ETANOLAMINA (CAS 141-43-5)	8 ore	2,5 mg/m3
		1 ppm
	Breve termine	7,6 mg/m3
		3 ppm
RESORCINOLO (CAS 108-46-3)	8 ore	45 mg/m3
		10 ppm

Valori limite biologici

Nessun valore limite biologico di esposizione annotato per l'ingrediente/gli ingredienti.

Procedure di monitoraggio raccomandate	Seguire le procedure standard di monitoraggio.
Livelli derivati senza effetto (DNEL)	Non conosciuto.
Prevedibili concentrazioni prive di effetti (PNEC)	Non conosciuto.

Linee guida sull'esposizione

OEL Italia: Specifica cutanea

ETANOLAMINA (CAS 141-43-5)	Assorbimento attraverso la pelle
RESORCINOLO (CAS 108-46-3)	Assorbimento attraverso la pelle

8.2. Controlli dell'esposizione

Controlli tecnici idonei	È consigliabile adottare una buona ventilazione generale. Le velocità di ventilazione devono corrispondere alle condizioni operative. Se applicabile, utilizzare recinzioni per il processo, ventilazione di scarico locale o altri controlli ingegneristici per mantenere i livelli delle polveri in aria al di sotto dei limiti di esposizione consigliati. Se non sono stati stabiliti limiti di esposizione, mantenere i livelli di polvere emessa nell'aria un livello accettabile. Installare un posto di lavaggio oculare e una doccia di sicurezza.

Misure di protezione individuale, quali dispositivi di protezione individuale

Informazioni generali	Utilizzare il dispositivo di protezione individuale richiesto. L'attrezzatura protettiva personale deve essere scelta conformemente alle norme CEN e insieme al fornitore dell'attrezzatura protettiva personale.
Protezione degli occhi/del volto	Applicabile soltanto per gli impianti industriali. Indossare occhiali di protezione con schermi laterali (o occhiali di copertura). Si raccomanda l'uso di una visiera protettiva.
Protezione della pelle	
- Protezione delle mani	Applicabile soltanto per gli impianti industriali. Indossare appositi guanti resistenti agli agenti chimici.
- Altro	Applicabile soltanto per gli impianti industriali. Indossare appositi indumenti resistenti agli agenti chimici. Si consiglia di utilizzare un grembiule impenetrabile.
Protezione respiratoria	Applicabile soltanto per gli impianti industriali. In caso di ventilazione insufficiente, usare un apparecchio respiratorio adatto.
Pericoli termici	Indossare opportuni indumenti termoprotettivi, quando necessario.
Misure d'igiene	Osservare sempre le misure standard di igiene personale, come per esempio il lavaggio delle mani dopo aver maneggiato il materiale e prima di mangiare, bere e/o fumare. Lavare regolarmente gli indumenti da lavoro e l'equipaggiamento di protezione per rimuovere agenti contaminanti. Gli indumenti da lavoro contaminati non devono essere portati fuori dal luogo di lavoro.
Controlli dell'esposizione ambientale	Informare il personale di gestione o di supervisione di tutte le emissioni nell'ambiente.

SEZIONE 9: Proprietà fisiche e chimiche

9.1. Informazioni sulle proprietà fisiche e chimiche fondamentali

Aspetto	
Stato fisico	Liquido.
Forma	Panna.
Colore	Shaded
Odore	Caratteristico/a.
Soglia olfattiva	Non conosciuto.
pH	9,7 - 10,1
Punto di fusione/punto di congelamento	Non conosciuto.
Punto di ebollizione iniziale e intervallo di ebollizione	> 100 °C (> 212 °F)
Punto di infiammabilità	> 100,0 °C (> 212,0 °F) Vaso chiuso
Velocità di evaporazione	Non conosciuto.
Infiammabilità (solidi, gas)	Non applicabile.
Limiti superiori/inferiori di infiammabilità o di esplosività	
Limite di infiammabilità - inferiore (%)	Non conosciuto.
Limite di infiammabilità - superiore (%)	Non conosciuto.

Tensione di vapore	Non conosciuto.
Densità di vapore	Non conosciuto.
Densità relativa	Non conosciuto.
Solubilità (le solubilità)	
Solubilità (in acqua)	Non conosciuto.
Coefficiente di ripartizione: n-ottanolo/acqua	Non conosciuto.
Temperatura di autoaccensione	Non conosciuto.
Temperatura di decomposizione	Non conosciuto.
Viscosità	Non conosciuto.
Proprietà esplosive	Non esplosivo.
Proprietà ossidanti	Non ossidante.
9.2. Altre informazioni	Non sono disponibili informazioni supplementari pertinenti.

SEZIONE 10: Stabilità e reattività

10.1. Reattività	Il prodotto è stabile e non reattivo nelle normali condizioni d'uso, conservazione e trasporto.
10.2. Stabilità chimica	Il materiale è stabile in condizioni normali.
10.3. Possibilità di reazioni pericolose	Non si conosce nessuna reazione pericolosa se usato in condizioni normali.
10.4. Condizioni da evitare	Tenere lontano da calore, superfici calde, scintille, fiamme libere e altre fonti di accensione. Contatto con materiali non compatibili.
10.5. Materiali incompatibili	Forti agenti ossidanti.
10.6. Prodotti di decomposizione pericolosi	Non si conoscono composti di decomposizione pericolosi.

SEZIONE 11: Informazioni tossicologiche

Informazioni generali	L'esposizione professionale alla sostanza o alla miscela può provocare effetti nocivi.
Informazioni sulle vie probabili di esposizione	
Inalazione	L'inalazione prolungata può essere nociva.
Cutanea	Provoca irritazione cutanea. Può provocare una reazione allergica cutanea.
Contatto con gli occhi	Provoca gravi lesioni oculari.
Ingestione	In caso di ingestione può provocare malessere. Tuttavia, è improbabile che l'ingestione rappresenti una via primaria di esposizione professionale.
Sintomi	Grave irritazione agli occhi. I sintomi possono includere bruciore, lacerazione, rossore, gonfiore e visione offuscata. Può provocare lesioni oculari permanenti, incluso la cecità. Irritazione cutanea. Può causare rossore e dolore.) Può provocare una reazione allergica cutanea. Dermatiti. Sfogo.

11.1. Informazioni sugli effetti tossicologici

Tossicità acuta Non conosciuto.

Prodotto	**Specie**	**Risultati del test**

12.3. Potenziale di bioaccumulo

Coefficiente di partizione n-ottanolo/acqua (log Kow)

1-NAFTOLO	2,836 OECD 107

4-Aminofenolo	0,25
COCAMIDOPROPYL BETAINE	4,2
ETANOLAMINA	-2,3 OECD 107
HYDROXYETHYL-3,4-METHYLENEDIOXYANILINE HCL	0,412, OECD 117
M-AMINOFENOLO	0,21
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	-2,8
	-2,8 OECD 107
RESORCINOLO	0,8

Fattore di bioconcentrazione (BCF)

4-Aminofenolo	10 - 46 OECD 305 C
COCAMIDOPROPYL BETAINE	71

12.4. Mobilità nel suolo Nessun dato disponibile.

12.5. Risultati della valutazione PBT e vPvB Non è una sostanza o miscela PBT o vPvB.

12.6. Altri effetti avversi Nessun effetto nocivo per l'ambiente (ad esempio, riduzione dello strato di ozono, potenziale creazione fotochimica di ozono, distruzione endocrina, potenziale riscaldamento globale) è previsto per questo componente.

12.7. Altre informazioni The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SEZIONE 13: Considerazioni sullo smaltimento

13.1. Metodi di trattamento dei rifiuti

Rifiuti residui Eliminare nel rispetto della normativa vigente in materia. I contenitori o i rivestimenti di contenitori vuoti potrebbero contenere residui di prodotto. Non disfarsi del prodotto e del recipiente se non con le dovute precauzioni (consultare le: Istruzioni per lo smaltimento).

Imballaggi contaminati Poiché i contenitori vuoti possono conservare residui di prodotto, seguire le avvertenze riportate sull'etichetta anche dopo avere svuotato il contenitore. I contenitori vuoti dovrebbero essere trasportati in un sito autorizzato per il riciclaggio o l'eliminazione.

Codice Europeo dei Rifiuti Il codice rifiuto dovrebbe essere assegnato seguito a discussione tra l'utilizzatore, il produttore e la compagnia di smaltimento dei rifiuti.

Metodi di smaltimento/informazioni Raccogliere, contenere o smaltire in contenitori sigillati in discariche autorizzate. Impedire a questo prodotto di penetrare nelle fogne e nelle riserve d'acqua. Non contaminare stagni, canali o fossati con il prodotto chimico o il contenitore usato. Smaltire il prodotto/recipiente in ottemperanza alle norme locali/regionali/nazionali/internazionali.

Precauzioni particolari Smaltire secondo le norme applicabili.

SEZIONE 14: Informazioni sul trasporto

14.1. - 14.6.: Non è regolamentato come merci pericolose.

14.7. Trasporto di rinfuse secondo l'allegato II di MARPOL ed il codice IBC Non stabilito.

Informazioni generali Inquinante Marino Regolato (IMDG).

SEZIONE 15: Informazioni sulla regolamentazione

15.1. Disposizioni legislative e regolamentari su salute, sicurezza e ambiente specifiche per la sostanza o la miscela

Regolamenti UE

Regolamento (CE) n. 1005/2009 sulle sostanze che riducono lo strato di ozono, Allegato I e II e successive modifiche

Non listato.

Regolamento (CE) n. 850/2004 relativo agli inquinanti organici persistenti, Allegato I e successivi adeguamenti

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 1 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 2 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato I, Parte 3 e successive modifiche

Non listato.

Regolamento (UE) n. 649/2012 riguardante l'esportazione e l'importazione di sostanze chimiche pericolose, Allegato V e successive modifiche

Non listato.

Regolamento (CE) n. 166/2006 Allegato II Registro delle emissioni e dei trasferimenti di sostanze inquinanti e successive modifiche

Non listato.

Regolamento (CE) n. 1907/2006, REACH, Articolo 59(10), Elenco di sostanze candidate così come attualmente pubblicato dall'Agenzia europea per le sostanze chimiche (ECHA)

Non listato.

Autorizzazioni

Regolamento (CE) n. 1907/2006, REACH Allegato XIV - Sostanze soggette ad autorizzazione, modificata

Non listato.

Restrizioni d'uso

Regolamento (CE) n. 1907/2006, REACH Allegato XVII, Sostanze soggette a restrizioni in materia di immissione sul mercato e di uso e successivi adeguamenti

Non listato.

Direttiva 2004/37/CE: sulla protezione dei lavoratori contro i rischi derivanti da un'esposizione ad agenti cancerogeni e mutageni durante il lavoro e successive modifiche

Non listato.

Altri regolamenti UE

Direttiva 2012/18/UE sugli incidenti rilevanti connessi con determinate sostanze pericolose e successive modifiche

1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)
4-Aminofenolo (CAS 123-30-8)
AMMONIACA .... % (CAS 1336-21-6)
M-AMINOFENOLO (CAS 591-27-5)
RESORCINOLO (CAS 108-46-3)
TOLUENE-2,5-DIAMINE SULFATE (CAS 615-50-9)

Altri regolamenti	Il prodotto è classificato ed etichettato in accordo con il regolamento (CE) n. 1272/2008 (regolamento CLP) e successivi adeguamenti. Questa scheda di dati di sicurezza è conforme ai requisiti del Regolamento (CE) n. 1907/2006 e successive modifiche.
Regolamenti nazionali	Attenersi alla normativa nazionale in materia di agenti chimici sul luogo di lavoro, in conformità con la Direttiva 98/24/CE e successive modifiche.
15.2. Valutazione della sicurezza chimica	Non è stata effettuata alcuna valutazione della sicurezza chimica.

SEZIONE 16: Altre informazioni

Elenco delle abbreviazioni	Non conosciuto.
Riferimenti	Non conosciuto.
Informazioni sul metodo di valutazione che consente di classificare le miscele	La classificazione per i pericoli per la salute e per l'ambiente è ottenuta mediante una combinazione di metodi di calcolo e dati sperimentali delle prove, se disponibili.
Testo completo delle eventuali indicazioni H non riportate per esteso nelle sezioni dalla 2 alla 15	H301 Tossico se ingerito. H302 Nocivo se ingerito. H311 Tossico per contatto con la pelle. H312 Nocivo per contatto con la pelle. H314 Provoca gravi ustioni cutanee e gravi lesioni oculari. H315 Provoca irritazione cutanea.

H317 Può provocare una reazione allergica cutanea.
H318 Provoca gravi lesioni oculari.
H319 Provoca grave irritazione oculare.
H331 Tossico se inalato.
H332 Nocivo se inalato.
H335 Può irritare le vie respiratorie.
H341 Sospettato di provocare alterazioni genetiche.
H370 Provoca danni agli organi per ingestione.
H371 Può provocare danni agli organi per ingestione.
H373 Può provocare danni agli organi in caso di esposizione prolungata o ripetuta per ingestione.
H373 Può provocare danni agli organi in caso di esposizione prolungata o ripetuta.
H400 Molto tossico per gli organismi acquatici.
H410 Molto tossico per gli organismi acquatici con effetti di lunga durata.
H411 Tossico per gli organismi acquatici con effetti di lunga durata.
H412 Nocivo per gli organismi acquatici con effetti di lunga durata.

Informazioni di revisione

Prodotto e la Società Identificazione: Tipi di materiale
COMPOSIZIONE/INFORMAZIONI SUGLI INGREDIENTI: Ingredienti
Proprietà fisiche e chimiche: Proprietà multiple
GHS: Classificazione

Informazioni formative

Seguire le istruzioni di formazione durante la manipolazione di questo materiale.

Clausole di esclusione della responsabilità

Le informazioni contenute in questa scheda di sicurezza sono corrette in base alle nostre conoscenze, informazioni e opinioni alla data della loro pubblicazione. Le informazioni fornite intendono servire esclusivamente da guida alla manipolazione, impiego, lavorazione, immagazzinamento, trasporto, smaltimento e rilascio in condizioni di sicurezza e non costituiscono una garanzia o una prescrizione della qualità. Le informazioni si riferiscono unicamente allo specifico materiale indicato e potrebbero non essere valide per il medesimo materiale ove venga impiegato in combinazione con altri materiali o in qualsiasi processo, a meno che ciò sia specificato nel testo.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT PERMANENT COLOR - 组 6

鉴别的其他方法

SDS编号 00-21-0000368

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害

皮肤腐蚀/刺激	类别 2
严重眼睛损伤/眼睛刺激性	类别 1
皮肤过敏	类别 1A

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 危险

危险性说明 造成皮肤刺激。 可能造成皮肤过敏反应。 造成严重眼损伤。

防范说明

预防措施 作业后彻底清洗。 受沾染的工作服不得带出工作场地。 戴防护眼罩/防护面具。 戴防护手套。

事故响应 如皮肤沾染：用大量水清洗。 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如接触到或有疑虑：呼叫解毒中心/医生。 如发生皮肤刺激或皮疹：求医/就诊。 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 按照地方/区域/国家/国际规章处置内装物/容器。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
LAURETH-3		68439-50-9	5
氢氧化铵		1336-21-6	1.8
2-AMINO-6-CHLORO-4-NITROPHENOL		6358-09-4	< 2
乙醇胺		141-43-5	< 2

化学名称	通用名称和别名	登记号(CAS号)	%
OLEYL PHOSPHATE		37310-83-1	1.25
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE		155601-30-2	< 2
甲苯 -2,5-DIAMINE SULFATE		615-50-9	< 1
P-AMINOPHENOL		123-30-8	< 1
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE		83763-48-8	< 0.6
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE		54381-16-7	< 0.6
M-AMINOPHENOL		591-27-5	< 0.6
1-NAPHTHOL		90-15-3	≤ 0.5
间苯二酚		108-46-3	≤ 0.5

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入
移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触
立即脱掉受污染的衣服，用肥皂水冲洗皮肤。 若出现湿疹或其它皮肤疾病：就医治疗，并带上本说明书。 沾染的衣服清洗后方可重新使用。

眼睛接触
立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 立即就医。

经口
漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性
严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 皮肤刺激。 可能导致红肿和疼痛。 可能造成皮肤过敏反应。 皮炎。 皮疹.

指明任何需要立即就医或特殊治疗的情况
提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。

一般信息
务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。
沾染的衣服清洗后方可重新使用。

5. 消防措施

合适的灭火剂
水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不当的灭火介质
禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害
燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施
发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明
在不会发生危险的情况下将容器撤离火灾现场。

特定的方法
采用标准灭火程序并考虑其他涉及材料有关的危险。

一般火灾危险
无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序
让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 Avoid breathing mist/vapors. 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料
根据水净化法，这种材料被分类为水污染物，应防止污染土壤，或防止进入下水道及流至水路的排水系统。

大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施
防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项
严防进入眼中、接触皮肤或衣服。 Avoid breathing mist/vapors. 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物
储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值
乙醇胺 (CAS 141-43-5)	PEL-常期暴露极限	6 mg/m3
		3 ppm
氢氧化铵 (CAS 1336-21-6)	PEL-常期暴露极限	35 mg/m3
		50 ppm

美国ACGIH阈限值

组分	类型	标准值
乙醇胺 (CAS 141-43-5)	TWA	3 ppm
	短期暴露极限（STEL）	6 ppm
氢氧化铵 (CAS 1336-21-6)	TWA	25 ppm
	短期暴露极限（STEL）	35 ppm
间苯二酚 (CAS 108-46-3)	TWA	10 ppm
	短期暴露极限（STEL）	20 ppm

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值
乙醇胺 (CAS 141-43-5)	TWA	8 mg/m3
		3 ppm
	短期暴露极限（STEL）	15 mg/m3
		6 ppm
氢氧化铵 (CAS 1336-21-6)	TWA	18 mg/m3
		25 ppm
	短期暴露极限（STEL）	27 mg/m3
		35 ppm
间苯二酚 (CAS 108-46-3)	TWA	45 mg/m3
		10 ppm
	短期暴露极限（STEL）	90 mg/m3
		20 ppm

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼和安全淋浴设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 佩戴带侧边的安全眼镜（护目镜）和面罩。 建议穿戴面罩。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。 建议使用不渗透的围裙。

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。 受沾染的工作服不得带出工作场地。

9. 理化特性

外观

性状	液体。
形状	奶油。
颜色	有色
气味	特征的。
气味阈值	无资料。
pH 值	9.7 - 10.1
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。
燃烧上/下限或爆炸极限	
燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。
溶解性	
溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。
其他信息	
爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	持续的吸入可能是有害的。
皮肤接触	造成皮肤刺激。 可能造成皮肤过敏反应。 长时间或是重复暴露可能导致肝脏和肾损伤。 这些影响在人体尚未被观察到。
眼睛接触	造成严重眼损伤。
经口	预计较低的食入危害。
与物理,化学和毒物学特性有关的症状	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。 皮肤刺激。 可能导致红肿和疼痛。 可能造成皮肤过敏反应。 皮炎。 皮疹.

OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 412 结果: NOEAL 物种: 大鼠
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	20 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
间苯二酚	245 mg/kg bw/d OECD 416 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	300 mg/kg bw/d OECD 415 物种: 大鼠
乙醇胺	300 mg/kg bw/d OECD 416 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

1-NAPHTHOL	结果: 无数据

特定目标器官系统毒性－单次接触 由于部分或完全缺乏数据，不可能进行分类。

1-NAPHTHOL	结果: 刺激性的
氢氧化铵	结果: 高刺激性

特定目标器官系统毒性－重复接触 由于部分或完全缺乏数据，不可能进行分类。

P-AMINOPHENOL	10 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
甲苯 -2,5-DIAMINE SULFATE	10 mg/kg bw/d OECD 408, 口服 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
OLEYL PHOSPHATE	1000 mg/kg bw/d OECD 407 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 27 D
1-NAPHTHOL	130 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
2-AMINO-4-HYDROXYETHYLAMINOANISOLE SULFATE	15 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 108 D
乙醇胺	150 mg/m3 空气 OECD 412, 吸入 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 28 D
M-AMINOPHENOL	20 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	20 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE	250 mg/kg bw/d OECD 408, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
2-AMINO-6-CHLORO-4-NITROPHENOL	30 mg/kg bw/d OECD 408 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 13 星期
乙醇胺	300 mg/kg bw/d OECD 416, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
间苯二酚	80 mg/kg bw/d OECD 408, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D 991 mg/m³ 结果: 无可观察到的不利影响浓度（NOAEC） 物种: 大鼠 测试时间: 14 D

吸入危害 由于部分或完全缺乏数据，不可能进行分类。

慢性影响 如通过皮肤吸收可能有害.

长时间或是重复暴露可能导致肝脏和肾损伤。 这些影响在人体尚未被观察到。

更多信息 可能造成皮肤和呼吸过敏性反应。 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性

产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
1-HYDROXYETHYL 4,5-DIAMINO PYRAZOLE SULFATE (CAS 155601-30-2)			
水生的			
急性的			
甲壳纲动物	EC50	水蚤	11.12 mg/l, 48 h TG 202
藻类		近头状伪蹄形藻	5.33 mg/l, 72 h EU C.3
鱼	LC50	斑马鱼 (Danio rerio)	86.2 mg/l, 96 h EU C.1
1-NAPHTHOL (CAS 90-15-3)

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	-2.8
	-2.8 OECD 107
P-AMINOPHENOL	0.25
乙醇胺	-2.3 OECD 107
间苯二酚	0.8

生物积累性

1-NAPHTHOL	结果: Bioaccumulation is unlikely
P-AMINOPHENOL	结果: 不一定是生物积累性的。
乙醇胺	结果: 不一定是生物积累性的。

生物富集因子

P-AMINOPHENOL	10 - 46 OECD 305 C

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT SEMI-PERMANENT COLOR - GROUP 10 [OSBR]**

Other means of identification

SDS number 00-22-0000235

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 2A
Specific target organ toxicity, repeated exposure	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention Do not breathe mist/vapors. Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention if you feel unwell. If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
MINERAL OIL		8042-47-5	3.5
BEHENTRIMONIUM CHLORIDE		68607-24-9	1.7
GLYCERIN		56-81-5	1.06

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Prolonged exposure may cause chronic effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Do not breathe mist/vapors. Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
MINERAL OIL (CAS 8042-47-5)	PEL	5 mg/m3	Mist.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
		50 mppcf	Total dust.
		15 mppcf	Respirable fraction.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH 3.5 - 4.1

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 199.4 °F (> 93.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT SEMI-PERMANENT COLOR - GROUP 10 [OSBR]

Skin sensitization

GLYCERIN	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

GLYCERIN	Result: In vitro and in vivo tests did not show mutagenic effects.
BEHENTRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects
MINERAL OIL	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

MINERAL OIL (CAS 8042-47-5)	3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

MINERAL OIL	> 5000 mg/kg bw/d OECD 414, No effects on development Result: NOAEL Species: Rat
GLYCERIN	1310 mg/kg bw/d, No effects on development Result: NOAEL Species: Rat

Reproductivity

MINERAL OIL	>= 2000 mg/kg bw/d OECD 415, No effects on fertility Result: NOAEL Species: Rat
GLYCERIN	2000 mg/kg bw/d, No effects on fertility Result: NOAEL Species: Rat
BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure May cause damage to organs through prolonged or repeated exposure.

MINERAL OIL	> 2000 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d > 50 mg/m3 air OECD 412, Inhalation Result: NOAEC Species: Rat Test Duration: 28 d >= 1200 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat Test Duration: 2 years
BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d
GLYCERIN	8000 mg/kg bw/d, Oral Result: NOAEL Species: Rat Test Duration: 2 yr

Aspiration hazard Not an aspiration hazard.

Chronic effects May cause damage to organs through prolonged or repeated exposure.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

GLYCERIN	-1.76

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT SEMI-PERMANENT COLOR - GROUP 10 [OSBR]
Synonyms	None.
SDS number	00-22-0000235
Issue date	10-24-2022
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes serious eye irritation. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: BEHENTRIMONIUM CHLORIDE

Hazard pictograms

Signal word Warning

Hazard statements

H319	Causes serious eye irritation.
H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 6,19% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 4,5% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment. EUH208 - Contains HC BLUE NO. 2. May produce an allergic reaction.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.

Belgium. Exposure Limit Values.

Components	Type	Value	Form
	TWA	5 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	VME	10 mg/m3	Aerosol.

Regulatory status: Indicative limit (VL)

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	200 mg/m3	Inhalable fraction.
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Respirable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	AGW	200 mg/m3	Inhalable fraction.
MINERAL OIL (CAS 8042-47-5)	AGW	5 mg/m3	Respirable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Inhalable fraction.
MINERAL OIL (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.
MINERAL OIL (CAS 8042-47-5)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear suitable protective clothing.

Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	3,5 - 4,1
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199,4 °F (> 93,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.

Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
BASIC BROWN 17 (CAS 68391-32-2)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg OECD 402

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Harmful to aquatic life with long lasting effects. Based on available data, the classification criteria are not met for hazardous to the aquatic environment, acute hazard.

Components		Species	Test Results
BASIC BROWN 17 (CAS 68391-32-2)			
Aquatic			
Acute			
Algae	EC50	Chlorella vulgaris	204,52 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,6 mg/l, 48 h OECD 202
BASIC RED 51 (CAS 77061-58-6)			
Aquatic			
Acute			
Crustacea	EC50	Daphnia magna	0,44 mg/l, 48 h

Components		Species	Test Results
Fish	LC50	Lepomis macrochirus	10 - 100 mg/l, 48 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	15 mg/l, 3 h
BASIC YELLOW 87 (CAS 68259-00-7)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0,28 - 0,31 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,6 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	28 - 34 mg/l, 48 h
Other	EC50	Activated sludge of a predominantly domestic sewage	46 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	0,025 mg/l, 72 h OECD 201
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	3,48 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,39 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	0,5 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	43 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,128 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0,24 mg/l, 9 d OECD 212
CHLORHEXIDINE DIGLUCONATE (CAS 18472-51-0)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	0,081 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	0,087 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	2,08 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	25 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Desmodesmus subspicatus	0,007 mg/l, 72 h OECD 201
Crustacea	NOEC	Daphnia magna	0,0206 mg/l, 21 d OECD 211
HC BLUE NO. 2 (CAS 33229-34-4)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	> 100 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	32,9 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	> 100 mg/l, 96 h OECD 203

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BASIC BROWN 17	28,5 % OECD 301 D Result: Not Readily Biodegradable Test Duration: 28 d
BASIC YELLOW 87	21,6 % OECD 302 B Result: Inherently biodegradable. Test Duration: 28 d
BEHENTRIMONIUM CHLORIDE	80 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d
CHLORHEXIDINE DIGLUCONATE	71 % OECD 301 A Result: Readily Biodegradable Test Duration: 28 d

Biodegradability

Percent degradation (Aerobic biodegradation)

HC BLUE NO. 2	Result: Not Readily Biodegradable

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

BASIC BROWN 17	2,736 OECD 117
BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69
CHLORHEXIDINE DIGLUCONATE	-1,81 OECD 107
HC BLUE NO. 2	1,7

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H302 Harmful if swallowed. H315 Causes skin irritation. H318 Causes serious eye damage. H319 Causes serious eye irritation. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT SEMI-PERMANENT COLOR - Groupe 10 [OSBR]**

Autres moyens d'identification

Numéro de la FDS 00-22-0000235

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 2A
Toxicité pour certains organes cibles - expositions répétées	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Provoque une sévère irritation des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Conseil de prudence

Prévention Ne pas respirer les brouillards/vapeurs. Se laver soigneusement après manipulation. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Demander un avis médical/Consulter un médecin en cas de malaise. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
HUILE MINÉRALE		8042-47-5	3.5
BEHENTRIMONIUM CHLORIDE		68607-24-9	1.7
GLYCÉRINE		56-81-5	1.06

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Une exposition prolongée peut causer des effets chroniques.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention Ne pas respirer les brouillards/vapeurs. Éviter tout contact avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

États-Unis - TABLEAU Z-3 (29 CFR 1910.1000) de l'OSHA

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	TWA	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.
		50 mppcf	Poussières totales.
		15 mppcf	Fraction respirable.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	PEL (limite d'exposition admissible)	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.
HUILE MINÉRALE (CAS 8042-47-5)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	TWA	5 mg/m3	Fraction inhalable.

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.

Protection respiratoire Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale	Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Forme	Crème.
Couleur	Non disponible.
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	3.5 - 4.1
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93.0 °C (> 199.4 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.

Produits de décomposition dangereux Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation Toute inhalation prolongée peut être nocive.

Contact avec la peau On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Contact avec les yeux Provoque une sévère irritation des yeux.

Ingestion Faible danger présumé en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Danger par aspiration — Pas un danger par aspiration.

Effets chroniques — Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Autres informations — La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité — Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis

Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux

No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre)

Non réglementé.

Substances respiratoires prioritaires FEMA - santé et sécurité respiratoire dans le lieu de travail de fabrication d'arômes

GLYCÉRINE (CAS 56-81-5)	Autres substances aromatisantes avec OSHA PEL

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	24-Octobre-2022
Version n°	01
Classements NFPA	Santé: 2 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange PULP RIOT SEMI-PERMANENT COLOR - Groupe 10 [OSBR]

Synonymes Aucun(e)(s).

Numéro de la FDS 00-22-0000235

Date de publication le 24-Octobre-2022

Numéro de version 01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées Produits de soins personnels destinés à un usage cosmétique.

Utilisations déconseillées Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe L'ORÉAL SA

Adresse 14, rue royale
75008 - Paris
France

Téléphone +1 732 499 2745

adresse électronique nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

INFOTRAC +1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé		
Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.
Dangers pour l'environnement		
Dangers pour le milieu aquatique, danger à long terme	Catégorie 3	H412 - Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Résumé des dangers Provoque une sévère irritation des yeux. Dangereux pour l'environnement en cas de déversement dans les cours d'eau. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : BEHENTRIMONIUM CHLORIDE

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H319	Provoque une sévère irritation des yeux.
H412	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P264	Se laver soigneusement après manipulation.
P273	Éviter le rejet dans l'environnement.
P280	Porter un équipement de protection des yeux/du visage.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P337 + P313	Si l'irritation oculaire persiste: consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination

P501	Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 6,19 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 4,5 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue. EUH208 - Contient HC BLUE NO. 2. Peut produire une réaction allergique.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes

Classification :	Eye Dam. 1;H318, Aquatic Acute 1;H400(M=10), Aquatic Chronic 1;H410				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation	Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.
Contact avec la peau	Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.
Contact avec les yeux	Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Si l'irritation oculaire persiste: consulter un médecin.
Ingestion	Rincer la bouche. Consulter un médecin en cas de symptômes.
4.2. Principaux symptômes et effets, aigus et différés	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.
4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires	Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie	Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés	Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO2).
Moyens d'extinction inappropriés	En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.
5.2. Dangers particuliers résultant de la substance ou du mélange	En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Procédures spéciales de lutte contre l'incendie	Éloigner les récipients de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes	Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.
Pour les secouristes	Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.
6.2. Précautions pour la protection de l'environnement	Éviter le rejet dans l'environnement. Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger. Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.
6.3. Méthodes et matériel de confinement et de nettoyage	Éviter que le produit arrive dans les égouts. Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.
6.4. Référence à d'autres rubriques	Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger	Éviter le contact avec les yeux. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Éviter le rejet dans l'environnement. Suivre les règles de bonnes pratiques chimiques.
7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités	Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s) Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

La Belgique. Valeurs limites d'exposition

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Brouillard.

GLYCÉRINE (CAS 56-81-5)	VME	200 mg/m3	Fraction inhalable.
HUILE MINÉRALE (CAS 8042-47-5)	VME	5 mg/m3	Fraction alvéolaire.

Allemagne. TRGS 900, Valeurs limites dans l'air ambiant sur le lieu de travail

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	AGW	200 mg/m3	Fraction inhalable.
HUILE MINÉRALE (CAS 8042-47-5)	AGW	5 mg/m3	Fraction alvéolaire.

Italie. Valeurs limites d'exposition professionnelle

Composants	Type	Valeur	Forme
HUILE MINÉRALE (CAS 8042-47-5)	VME	5 mg/m3	Fraction inhalable.

Ordonnance du ministre du Travail et de la Politique sociale du 6 juin 2014 sur les concentrations maximales admisibles l'intensité des facteurs de santé nuisibles dans le milieu de travail, Journal des lois 2014, article 817

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Fraction inhalable.
HUILE MINÉRALE (CAS 8042-47-5)	VME	5 mg/m3	Fraction inhalable.

Espagne. Limites d'exposition professionnelle

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Brouillard.
HUILE MINÉRALE (CAS 8042-47-5)	VLCT	10 mg/m3	Brouillard.
	VME	5 mg/m3	Brouillard.

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales	Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.
Protection des yeux/du visage	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.
Protection de la peau	
- Protection des mains	Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.
- Autres	Pour usage industriel seulement. Porter un vêtement de protection approprié.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Risques thermiques	Porter des équipements de protection contre la chaleur, si nécessaire.
Mesures d'hygiène	Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.
Contrôles d'exposition liés à la protection de l'environnement	Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect	
État physique	Liquide.
Forme	Crème.
Couleur	Donnée inconnue.
Odeur	Caractéristique.
Seuil olfactif	Donnée inconnue.
pH	3,5 - 4,1
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93,0 °C (> 199,4 °F) Coupelle fermée
Taux d'évaporation	Donnée inconnue.
Inflammabilité (solide, gaz)	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.
9.2. Autres informations	Aucune information pertinente supplémentaire n'est disponible.

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.

10.3. Possibilité de réactions dangereuses Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.4. Conditions à éviter Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.

10.5. Matières incompatibles Agents oxydants forts.

10.6. Produits de décomposition dangereux On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation L'inhalation prolongée peut être nocive.

Contact avec la peau Peut provoquer une allergie cutanée.

Contact avec les yeux Provoque une sévère irritation des yeux.

Ingestion Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.

Symptômes Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë Donnée inconnue.

Composants	Espèce	Résultats d'essais
BASIC BROWN 17 (CAS 68391-32-2)		
Aiguë		
Cutané		
DL50	Rat	> 2000 mg/kg OCDE 402

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BASIC BROWN 17	28,5 en % OECD 301 D Résultat: Difficilement Biodégradable Durée de l'essai: 28 d
BASIC YELLOW 87	21,6 en % OECD 302 B Résultat: Intrinsèquement biodégradable. Durée de l'essai: 28 d
BEHENTRIMONIUM CHLORIDE	80 en % OCED 301 Résultat: Facilement Biodegradable Durée de l'essai: 28 d
CHLORHEXIDINE DIGLUCONATE	71 en % OCDE 301 A Résultat: Facilement Biodegradable Durée de l'essai: 28 d
HC BLUE NO. 2	Résultat: Difficilement Biodégradable

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

BASIC BROWN 17	2,736 OCDE 117
BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69
CHLORHEXIDINE DIGLUCONATE	-1,81 OECD 107
HC BLUE NO. 2	1,7

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.

Code des déchets UE Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.

Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Empêcher que cette substance ne s'écoule dans les égouts ou le réseau d'eau. Ne pas contaminer les étangs, les voies navigables ou les fossés avec le produit ou le récipient utilisés. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC	Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H302 Nocif en cas d'ingestion. H315 Provoque une irritation cutanée. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion. H400 Très toxique pour les organismes aquatiques. H410 Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT SEMI-PERMANENT COLOR - GROUP 10**

Other means of identification

SDS number 00-22-0000168

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 2A
Sensitization, skin	Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement May cause an allergic skin reaction. Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
PETROLATUM		8009-03-8	≤ 1

Chemical name	Common name and synonyms	CAS number	%
BASIC BLUE 124		67846-56-4	< 0.3

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact
Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion
Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed
Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash.

Indication of immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Move containers from fire area if you can do so without risk.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling
Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	PEL	5 mg/m3	Mist.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Inhalable fraction.

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Face shield is recommended. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Shaded

Odor Characteristic.

Odor threshold Not available.

pH 3.8 - 4.8

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	0.98 - 1 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

BASIC BLUE 124	OECD 404 Result: Not Irritating Species: Rabbit
PETROLATUM	OECD 404, Based on test data for structurally similar materials. Result: Not Irritating Species: Rabbit
STEARAMIDOPROPYL DIMETHYLAMINE	OECE 404 Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

STEARAMIDOPROPYL DIMETHYLAMINE	OECD 405 Result: Corrosive Species: Rabbit
BASIC BLUE 124	OECD 405 Result: Irritating Species: Rabbit
PETROLATUM	OECD 405, Based on test data for structurally similar materials. Result: Not Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization May cause an allergic skin reaction.

Skin sensitization

PETROLATUM	OECD 406 Result: Not Sensitizing Species: Guinea pig
STEARAMIDOPROPYL DIMETHYLAMINE	OECD 406 Result: Not Sensitizing Species: Guinea pig
BASIC BLUE 124	OECD 429 Result: Sensitizing Species: Mouse

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

STEARAMIDOPROPYL DIMETHYLAMINE	Result: In vitro tests did not show mutagenic effects

Mutagenicity

BASIC BLUE 124	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.
PETROLATUM	Result: In vitro tests showed mutagenic effects which were not observed with in vivo test.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

PETROLATUM (CAS 8009-03-8)	Known To Be Human Carcinogen.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OECD 421, No effects on development Result: NOAEL Species: Rat
PETROLATUM	30 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOAEL Species: Rat

Reproductivity

PETROLATUM	> 1000 mg/kg bw/d OECD 421, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d
PETROLATUM	5000 mg/kg bw/d OECD 453, Oral Result: NOAEL Species: Rat

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
BASIC BLUE 124 (CAS 67846-56-4)			
Aquatic

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BASIC BLUE 124	10 - 20 % OECD 301 B Result: Not Readily Biodegradable Test Duration: 28 d
STEARAMIDOPROPYL DIMETHYLAMINE	88 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

PETROLATUM	> 6

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT SEMI-PERMANENT COLOR - Groupe 10**

Autres moyens d'identification

Numéro de la FDS 00-22-0000168

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 2A
Sensibilisation cutanée	Catégorie 1

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Peut provoquer une allergie cutanée. Provoque une sévère irritation des yeux.

Conseil de prudence

Prévention Se laver soigneusement après manipulation. Il ne faut pas que les vêtements de travail contaminés quittent le lieu de travail. Porter un équipement de protection des yeux/du visage. Porter des gants de protection.

Intervention En contact avec la peau : Laver avec beaucoup d'eau. En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. En cas d'irritation ou d'éruption cutanée : Demander un avis médical/Consulter un médecin. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
Pétrolatum		8009-03-8	≤ 1
BASIC BLUE 124		67846-56-4	< 0.3

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Enlever immédiatement les vêtements contaminés et laver la peau à l'eau et au savon. En cas d'eczéma ou d'autres problèmes cutanés : consulter un médecin et apporter cette fiche.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut provoquer une allergie cutanée. Dermatite. Éruption.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.
Laver les vêtements contaminés avant réutilisation.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Éviter de respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention Éviter de respirer les brouillards/vapeurs. Éviter tout contact avec les yeux, la peau et les vêtements. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
Pétrolatum (CAS 8009-03-8)	PEL (limite d'exposition admissible)	5 mg/m3	Brouillard.

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
Pétrolatum (CAS 8009-03-8)	TWA	5 mg/m3	Fraction inhalable.

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
Pétrolatum (CAS 8009-03-8)	STEL	10 mg/m3	Brouillard.
	TWA	5 mg/m3	Brouillard.

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Un écran facial est recommandé. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants Les vêtements de travail contaminés ne devraient pas sortir du lieu de travail.

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Nuancé

Odeur Caractéristique.

Seuil olfactif Non disponible.

pH	3.8 - 4.8
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	0.98 - 1 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	Peut provoquer une allergie cutanée.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut provoquer une allergie cutanée. Dermatite. Éruption.

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

STEARAMIDOPROPYL DIMETHYLAMINE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
BASIC BLUE 124	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.
Pétrolatum	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Pétrolatum (CAS 8009-03-8)	Carcinogène connu chez l'homme.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Effets sur le développement

STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OCDE 421, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat
Pétrolatum	30 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat

Reproductivité

Pétrolatum	> 1000 mg/kg bw/d OCDE 421, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat
STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OCDE 421 Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

Toxicité pour certains organes cibles - expositions répétées

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OCDE 411, Cutané Résultat: DSENO Espèces: Rat Durée du test: 90 d
Pétrolatum	5000 mg/kg bw/d OCDE 453, Orale Résultat: DSENO Espèces: Rat

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BASIC BLUE 124	10 - 20 % OCDE 301 B Résultat: Difficilement Biodégradable Durée du test: 28 d
STEARAMIDOPROPYL DIMETHYLAMINE	88 % OCED 301 Résultat: Facilement Biodegradable Durée du test: 28 d

Potentiel de bioaccumulation

Log Koe du coefficient de répartition octanol/eau

Pétrolatum	> 6

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

14. Informations relatives au transport

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre) Non réglementé.

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	28-Novembre-2020
Date de la révision	07-Mars-2023
Version n°	02
Classements NFPA	Santé: 2 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.
Informations relatives à la révision	Des modifications importantes ont été apportées à ce document et il devrait donc être relu entièrement.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT SEMI-PERMANENT COLOR - 组 10

鉴别的其他方法

SDS编号 00-22-0000168

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 严重眼睛损伤/眼睛刺激性 类别 2A

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 警告

危险性说明 造成严重眼刺激。

防范说明

预防措施 作业后彻底清洗。 戴防护眼罩/防护面具。

事故响应 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如仍觉眼刺激：求医/就诊。 脱去被污染的衣物，清洗后方可重新使用。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
凡士林		8009-03-8	≤ 1

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 如仍觉眼刺激：求医/就诊。

经口 漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

指明任何需要立即就医或特殊治疗的情况 提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。

一般信息 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂 水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不当的灭火介质 禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害 燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施 发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明 在不会发生危险的情况下将容器撤离火灾现场。

特定的方法 采用标准灭火程序并考虑其他涉及材料有关的危险。

一般火灾危险 无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序 让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料 大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施 防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项 避免接触到眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物 储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
凡士林 (CAS 8009-03-8)	PEL-常期暴露极限	5 mg/m3	雾气。

美国ACGIH阈限值

组分	类型	标准值	形状
凡士林 (CAS 8009-03-8)	TWA	5 mg/m3	可吸入组分。

美国国立职业安全与健康研究所：化学危害物袖珍指南

组分	类型	标准值	形状
凡士林 (CAS 8009-03-8)	TWA	5 mg/m3	雾气。
	短期暴露极限（STEL）	10 mg/m3	雾气。

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色 有色

气味 特征的。

气味阈值 无资料。

pH 值 3.8 - 4.8

熔点/凝固点 无资料。

初始沸点和沸程 > 100 ° C (> 212 ° F)

闪点 > 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法

蒸发速率 无资料。

易燃性（固体，气体） 不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

黏度 无资料。

其他信息

密度 0.98 - 1 g/cm³

爆炸特性 不具有爆炸性。

氧化特性 没有氧化性。

10. 稳定性和反应性

反应性 产品在正常的使用、储存和运输条件下是稳定的和非活性的。

化学稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 接触禁配物。

禁配物 强氧化剂。

危险的分解产物 没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入 持续的吸入可能是有害的。

皮肤接触 预计没有因皮肤接触导致的任何有害影响。

眼睛接触 造成严重眼刺激。

经口 预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

毒理学效应信息

急性毒性

产品	物种	试验结果
PULP RIOT SEMI-PERMANENT COLOR - 组 10

急性的		
经口		
LD50	大鼠	> 5000 mg/kg bw 根据结构相似材料的试验数据。
经皮肤		
LD50	兔子	> 2000 mg/kg bw 根据结构相似材料的试验数据。

皮肤腐蚀/刺激 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

凡士林	OECD 404, 根据结构相似材料的试验数据。 结果: 非刺激性 物种: 兔子
STEARAMIDOPROPYL DIMETHYLAMINE	OECE 404 结果: 轻微刺激性 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼刺激。

刺激性腐蚀性 - 眼睛

STEARAMIDOPROPYL DIMETHYLAMINE	OECD 405 结果: 腐蚀性的 物种: 兔子
凡士林	OECD 405, 根据结构相似材料的试验数据。 结果: 非刺激性 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 不是呼吸道致敏物。

皮肤致敏物 此产品将不会引起皮肤敏感。

皮肤致敏物

STEARAMIDOPROPYL DIMETHYLAMINE	OECD 406 结果: Not Sensitizing 物种: 豚鼠
凡士林	OECD 406 结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 无数据表明本产品或其含量超过0.1%的任何组分具有致变性或基因毒性。

突变性

STEARAMIDOPROPYL DIMETHYLAMINE	结果: 离体试验未见诱变效应
凡士林	结果: 离体试验表明有在活体试验中未观察到的诱变效应。

致癌性 尚不能确定对人有致癌作用。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

不适用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

凡士林 (CAS 8009-03-8) 已知为人类致癌物质。

生殖毒性 这种产品预期不会导致生殖或发育效应。

发育效应

STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OECD 421, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
凡士林	30 mg/kg bw/d OECD 414, 根据结构相似材料的试验数据。 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

凡士林	> 1000 mg/kg bw/d OECD 421, 根据结构相似材料的试验数据。 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OECD 421 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 未被分类。

特定目标器官系统毒性－重复接触 未被分类。

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OECD 411, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
凡士林	5000 mg/kg bw/d OECD 453, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

吸入危害 非吸入危险。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果

凡士林	> 6

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

Công bố hiểm họa Gây kích ứng mắt nghiêm trọng.

Thông điệp đề phòng

Phòng Ngừa Rửa kỹ sau khi thao tác. Sử dụng phương tiện bảo vệ mắt/mặt.

Ứng phó Nếu bị văng vào mắt: Rửa cẩn thận bằng nước trong nhiều phút. Lấy kính tiếp xúc ra, nếu có và dễ thực hiện. Tiếp tục rửa. Nếu vẫn không hết bị kích ứng mắt: Tìm bác sĩ hướng dẫn/chăm sóc. Cởi bỏ quần áo bị ô nhiễm và đem giặt trước khi dùng lại.

Bảo Quản Bảo quản tránh xa các vật liệu tương kỵ.

Thải bỏ Thải bỏ chất thải và các phần cặn dư theo các quy định của cơ quan có thẩm quyền tại địa phương.

Hazard(s) not otherwise classified (HNOC) Chưa được biết.

Thông tin thêm Không có.

3. Thành phần/ thông tin về các phụ liệu

Các hỗn hợp

Tên Hóa Chất	Tên thông dụng và từ đồng nghĩa	Số CAS	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
PETROLATUM		8009-03-8	≤ 1

*Cho biết lai lịch và/hoặc thành phần phần trăm của một hóa chất cụ thể đã được lưu giữ ở dạng bí mật thương mại.

4. Các biện pháp sơ cứu

Hít phải	Đưa ra nơi không khí trong lành. Hãy gọi cho bác sĩ nếu các triệu chứng xuất hiện hoặc không hết.
Tiếp xúc với da	Rửa sạch bằng xà bông và nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng
Tiếp xúc với mắt	Rửa mắt ngay bằng nhiều nước trong ít nhất 15 phút. Tháo kính sát tròng, nếu có và nếu dễ tháo. Tiếp tục súc rửa. Nếu vẫn không hết bị kích ứng mắt: Tìm bác sĩ hướng dẫn/chăm sóc.
Ăn phải	Súc miệng. Tìm gặp y bác sĩ để điều trị nếu các triệu chứng xảy ra.
Các triệu chứng/tác dụng quan trọng nhất, cấp tính và chậm xuất hiện	Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt.
Dấu hiệu cần phải được chăm sóc y tế ngay lập tức và điều trị đặc biệt	Có các biện pháp hỗ trợ tổng quát và điều trị triệu chứng. Theo dõi nạn nhân. Các triệu chứng có thể chậm.
Thông tin tổng quát	Đảm bảo rằng các nhân viên y tế nhận thức được (các) vật liệu liên quan, và thực hiện thận trọng để bảo vệ chính mình.

5. Các biện pháp cứu hỏa

Các chất chữa cháy phù hợp	Sương nước. Bọt. Bộ hóa chất khô. Carbon dioxide (CO2).
Chất chữa cháy không phù hợp	Không dùng vòi xịt nước để dập lửa, vì việc này sẽ gây lan thêm lửa.
Hiểm họa đặc trưng phát sinh từ hóa chất	Trong khi cháy, các khí nguy hiểm cho sức khỏe có thể được hình thành.
Trang bị bảo hộ đặc biệt cho nhân viên chữa cháy	Phải sử dụng thiết bị thở tự điều khiển và trang phục bảo hộ đầy đủ khi chữa cháy.
Các chỉ dẫn/trang thiết bị cứu hỏa	Đưa các thùng chứa ra khỏi khu vực cháy nếu bạn có thể làm mà không gặp nguy hiểm.
Các biện pháp cụ thể	Sử dụng các quy trình chữa cháy tiêu chuẩn và xem xét các hiểm họa của các vật liệu liên quan khác.
Các hiểm họa cháy nói chung	Không có hiểm họa cháy hoặc nổ bất thường nào đáng chú ý.

6. Các biện pháp xử lý rò rỉ bất ngờ

Các biện pháp đề phòng cá nhân, thiết bị bảo vệ và các quy trình xử lý khẩn cấp	Để xa những người không cần thiết. Giữ mọi người tránh xa khỏi khu vực tràn đổ/rò rỉ và tránh hướng gió thổi. Mang thiết bị và quần áo bảo hộ thích hợp trong khi dọn dẹp. Không chạm vào các dụng cụ đựng đã hư hỏng hoặc vật liệu tràn đổ trừ khi có sử dụng trang phục bảo vệ phù hợp. Đảm bảo sự thông hơi đầy đủ. Các nhà chức trách địa phương cần được thông báo nếu xảy ra sự cố tràn đổ lớn không thể kiểm soát được. Về vấn đề bảo hộ cá nhân, xin xem mục 8 của Phiếu An Toàn Hóa Chất.
Phương pháp và vật liệu để ngăn chặn và làm sạch	Lượng Đổ Lớn: Ngăn dòng chảy vật liệu, nếu việc này không gây nguy hiểm. Đắp đê giữ vật liệu đã đổ, khi có thể. Dùng chất khoáng bón cây, cát hoặc đất khô thấm hút rồi cho vào thùng chứa. Sau khi thu hồi sản phẩm, dùng nước xả sạch khu vực. Lượng Đổ Nhỏ: Lau sạch bằng các vật liệu hút nước (ví dụ như khăn, bông). Làm sạch bề mặt cẩn thận để loại bỏ lượng ô nhiễm còn lại. Không bao giờ bỏ chất đã đổ vào bao chứa ban đầu để tái sử dụng. Về thải bỏ chất thải, xin xem mục 13 của Phiếu An Toàn Hóa Chất.
Các biện pháp đề phòng cho môi trường	Không xả vào cống rãnh, kênh rạch hoặc xuống đất.

7. Thao tác và bảo quản

Các biện pháp đề phòng cho thao tác an toàn	Tránh tiếp xúc với mắt. Tránh tiếp xúc lâu. Thực hiện thông khí đầy đủ. Sử dụng thiết bị bảo hộ cá nhân phù hợp. Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.
Các điều kiện bảo quản an toàn, kể cả mọi tính chất tương kỵ	Cất giữ trong dụng cụ đựng thật kín. Giữ xa tầm tay của trẻ em. Bảo quản xa các vật liệu tương kỵ (Xem Mục 10 của Phiếu An Toàn Hóa Chất).

8. Kiểm soát việc tiếp xúc / bảo hộ cá nhân

Các giới hạn tiếp xúc nghề nghiệp

Các cấu tử sau đây là những cấu tử duy nhất của sản phẩm có giá trị PEL, TLV hoặc giới hạn tiếp xúc đề nghị khác. Hiện nay, những cấu tử khác chưa được biết giới hạn tiếp xúc.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Thành phần	Loại	Giá trị	Dạng
PETROLATUM (CAS 8009-03-8)	PEL	5 mg/m3	Sương.

Các Ngưỡng Giới Hạn của Hiệp Hội Vệ Sinh Công Nghiệp Hoa Kỳ (ACGIH), Hoa Kỳ

Thành phần	Loại	Giá trị	Dạng
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Phần có thể hít.

NIOSH của Hoa Kỳ: Hướng Dẫn Bỏ Túi về Hiểm Họa Hóa Chất

Thành phần	Loại	Giá trị	Dạng
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Sương.
	TWA	5 mg/m3	Sương.

Các giá trị giới hạn sinh học Không có giới hạn tiếp xúc sinh học nào đáng lưu ý cho (các) thành phần.

Các biện pháp kiểm soát kỹ thuật phù hợp Nên sử dụng phương pháp thông khí toàn bộ. Tốc độ thông khí phải phù hợp với các điều kiện. Nếu áp dụng, sử dụng tủ xử lý kín, thông hút khí tại chỗ, hoặc các biện pháp kỹ thuật khác để duy trì mức nồng độ trong không khí dưới giới hạn tiếp xúc đề nghị. Nếu chưa thiết lập được các giới hạn tiếp xúc, hãy duy trì mức nồng độ trong không khí ở mức có thể chấp nhận. Cung cấp nơi rửa mắt.

Các biện pháp bảo vệ cá nhân, như trang bị bảo hộ cá nhân

Biện pháp bảo vệ mắt/mặt Chỉ được áp dụng đối với các môi trường công nghiệp. Đeo kính an toàn có gờ chắn bên (hoặc kính bảo hộ).

Bảo vệ da

Bảo vệ tay Chỉ được áp dụng đối với các môi trường công nghiệp. Mang bao tay chống hóa chất thích hợp.

Khác Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc quần áo chống hóa chất thích hợp.

Bảo vệ đường hô hấp Chỉ được áp dụng đối với các môi trường công nghiệp. Trong trường hợp không đủ thông thoáng, sử dụng thiết bị bảo vệ đường hô hấp phù hợp.

Các hiểm họa nhiệt Sử dụng trang phục bảo hộ chống nhiệt, khi cần thiết.

Các lưu ý vệ sinh chung Luôn giám sát việc thực hiện tốt các biện pháp vệ sinh cá nhân, như rửa sạch sau khi làm việc với vật liệu và trước khi ăn, uống, và/hoặc hút thuốc. Thường xuyên giặt quần áo và các thiết bị bảo hộ cho sạch các chất gây ô nhiễm.

9. Tính chất lý hóa

Ngoại Quan

Trạng thái vật lý Chất lỏng.

Dạng Kem.

Màu Màu

Mùi Đặc điểm.

Ngưỡng phát hiện mùi Không có.

pH 3.8 - 4.8

Điểm chảy/điểm đông Không có.

Điểm và vùng nhiệt độ sôi ban đầu > 100 °C (> 212 °F)

Điểm chớp cháy > 100.0 °C (> 212.0 °F) Cốc Kín

Tốc độ bay hơi Không có.

Khả năng cháy (rắn, khí) Không áp dụng.

Giới hạn cháy trên/dưới hoặc các giới hạn nổ

Giới hạn cháy - dưới (%) Không có.

Giới hạn cháy - trên (%) Không có.

Giới hạn nổ – dưới (%)	Không có.
Giới hạn nổ – trên (%)	Không có.
Áp suất hơi	Không có.
Tỷ khối hơi	Không có.
Tỷ trọng tương đối	Không có.
(Các) độ tan	
Tính tan (nước)	Không có.
Hệ số phân tách (n-octanol/nước)	Không có.
Nhiệt độ tự bốc cháy	Không có.
Nhiệt độ phân hủy	Không có.
Độ nhớt	Không có.
Thông tin khác	
Tỷ Trọng	0.98 - 1 g/cm³
Các tính chất nổ	Không nổ.
Các tính chất oxy hóa	Không oxy hóa.

10. Độ bền và khả năng phản ứng

Khả năng phản ứng	Sản phẩm ổn định và không phản ứng trong các điều kiện sử dụng, bảo quản và vận chuyển bình thường.
Độ bền hóa học	Vật liệu ổn định trong các điều kiện bình thường.
Khả năng gây phản ứng nguy hiểm	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Các điều kiện cần tránh	Tránh xa nhiệt, bề mặt nóng, tia lửa, ngọn lửa trần, và các nguồn gây cháy khác. Tiếp xúc với các vật liệu tương kỵ.
Các vật liệu tương kỵ	Các chất oxy hóa mạnh.
Các sản phẩm phân hủy gây nguy hiểm	Không sản phẩm phân hủy nguy hại nào được biết đến.

11. Thông tin về độc tính

Thông tin về các lộ trình tiếp xúc có khả năng xảy ra

Hít phải	Việc hít phải lâu ngày có thể có hại.
Tiếp xúc với da	Được xem là không gây các tác dụng có hại khi tiếp xúc với da.
Tiếp xúc với mắt	Gây kích ứng mắt nghiêm trọng.
Ăn phải	Được xem là có hiểm họa ăn phải thấp.
Triệu chứng liên quan đến tính chất vật lý, hóa học và độc tính.	Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt.

Thông tin về các tác dụng độc

Độc tính cấp tính

Sản Phẩm	Loài	Kết quả thử nghiệm

PETROLATUM	> 6

Di chuyển trong đất Không có dữ liệu.

Các tác dụng có hại khác Không có các tác dụng bất lợi cho môi trường nào khác (ví dụ, gây suy yếu tầng ozon, khả năng tạo ozon bằng phương pháp quang hóa, rối loạn nội tiết, khả năng làm tăng nhiệt độ trái đất) được xem là sẽ gặp phải từ thành phần này.

13. Các cân nhắc khi thải bỏ

Các Hướng Dẫn Thải Bỏ Thu gom và tái chế hoặc thải bỏ trong các dụng cụ đựng kín tại các bãi rác thải được phép. Vứt bỏ vật chứa bên trong/thùng chứa tuân theo các quy định địa phương/khu vực/quốc gia/quốc tế.

Các quy định tiêu hủy của địa phương Vứt bỏ tuân theo tất cả các quy định hiện hành.

Chất thải từ cặn lắng/ sản phẩm không sử dụng Loại bỏ theo quy định của địa phương Các dụng cụ đựng hoặc túi lót rỗng có thể còn chứa các cặn dư của sản phẩm. Vật liệu này và dụng cụ đựng của nó phải được thải bỏ bằng một cách thức an toàn (xem: Hướng dẫn thải bỏ).

Bao bì bị ô nhiễm Vì các dụng cụ đựng đã cạn vẫn có thể còn lại cặn sản phẩm, thực hiện dán nhãn cảnh báo ngay cả sau khi dụng cụ đựng đã cạn. Các thùng chứa rỗng cần được đưa tới cơ sở đủ tiêu chuẩn để tái chế hoặc loại bỏ

14. Thông tin về việc vận chuyển

Bộ Giao Thông Vận Tải (DOT)

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

1. Identificación

Identificador del producto **PULP RIOT SEMI-PERMANENT COLOR - GRUPO 10**

Otros medios de identificación

Número de FDS 00-22-0000168

Uso recomendado Producto de cuidado personal para uso cosmético.

Restricciones recomendadas Ninguno conocido.

Información sobre el fabricante/importador/proveedor/distribuidor

Dirección: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Teléfono de Emergencias 1-800-535-5053 (Internacional: 352-323-3500)

Para más información: 1-732-499-2741

2. Identificación de los peligros

Peligros físicos No clasificado.

Peligros para la salud Lesiones oculares graves/irritación ocular Categoría 2A

Peligros definidos por la OSHA No clasificado.

Elementos de la etiqueta

Palabra de advertencia Atención

Declaración de peligro Provoca irritación ocular grave.

Consejos de prudencia

Prevención Lavarse concienzudamente tras la manipulación. Llevar protección ocular/facial.

Respuesta En caso de contacto con los ojos: Aclárese cuidadosamente con agua durante varios minutos. Quítense las lentes de contacto, si se llevan y resulta fácil hacerlo. Sígase aclarando. Si persiste la irritación ocular: Consultar a un médico. Quitar las prendas contaminadas y lavarlas antes de volver a usarlas.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación Eliminar los desperdicios y residuos de conformidad con la normativa promulgada por las autoridades locales.

Peligro(s) no clasificados en otra parte [Hazard(s) not otherwise classified (HNOC)] Ninguno conocido.

Información complementaria Ninguno.

3. Composición/información sobre los componentes

Mezclas

Denominación química	Nombre común y sinónimos	Número CAS	%
STEARAMIDOPROPYL DIMETHYLAMINE		7651-02-7	1
PETROLATO		8009-03-8	≤ 1

*Significa que una identidad química y/o porcentaje de composición específicos han sido reservados como secreto comercial.

4. Primeros auxilios

Inhalación	Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.
Contacto con la piel	Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.
Contacto con los ojos	Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Si persiste la irritación ocular: Consultar a un médico.
Ingestión	Enjuagarse la boca. Obtenga atención médica en caso de síntomas.
Principales síntomas y efectos, agudos y retardados	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.
Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente	Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.
Información general	Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

5. Medidas de lucha contra incendios

Medios de extinción apropiados	Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).
Medios de extinción no apropiados	No utilice chorro de agua, pues extendería el fuego.
Peligros específicos que presenta el producto químico	En caso de incendio se pueden formar gases nocivos.
Equipo de protección especial y medidas de precaución para el personal de lucha contra incendios	Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.
Equipo/Instrucciones para la extinción de incendios	Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.
Métodos específicos	Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.
Riesgos generales de incendio	Ningún riesgo excepcional de incendio o explosión señalado.

6. Medidas en caso de vertido accidental

Precauciones personales, equipo de protección y procedimientos de emergencia	Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Use equipo y ropa de protección apropiados durante la limpieza. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.
Métodos y material de contención y de limpieza	Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua. Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación. Nunca devuelva el producto derramado al envase original para reutilizarlo. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.
Precauciones relativas al medio ambiente	No verter los residuos al desagüe, al suelo o las corrientes de agua.

7. Manipulación y almacenamiento

Precauciones para una manipulación segura	Evítese el contacto con los ojos. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.
Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades	Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

8. Control de la exposición/protección personal

Límites de exposición profesional

Los constituyentes siguientes son los únicos constituyentes del producto que tienen un PEL, TLV u otro límite de exposición recomendado. En este momento, los demás constituyentes no tienen límites de exposición conocidos.

EEUU. Administración de Seguridad y Salud Ocupacional (OSHA) Tabla Z-1 Límites para los contaminantes del aire (29 CFR 1910.1000)

Componentes	Tipo	Valor	Forma
PETROLATO (CAS 8009-03-8)	Limite de Exposición Permisible (LEP)	5 mg/m³	Neblina.

EE.UU. ACGIH Valores umbrales límite

Componentes	Tipo	Valor	Forma
PETROLATO (CAS 8009-03-8)	TWA	5 mg/m³	Fracción inhalable.

EEUU. Instituto Nacional para la Seguridad y Salud Ocupacional (NIOSH): Guía de bolsillo sobre riesgos químicos

Componentes	Tipo	Valor	Forma
PETROLATO (CAS 8009-03-8)	STEL	10 mg/m³	Neblina.
	TWA	5 mg/m³	Neblina.

Valores límite biológicos No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Controles técnicos apropiados Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Protección de los ojos/la cara De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).

Protección de la piel

Protección de las manos De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

Otros De aplicación solamente en entornos industriales. Use ropa adecuada resistente a los productos químicos.

Protección respiratoria De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.

Peligros térmicos Use ropa protectora térmica adecuada si resulta necesario.

Consideraciones generales de higiene Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

9. Propiedades físicas y químicas

Aspecto

Estado físico Líquido.

Forma Nata.

Color Sombreado

Olor Característico.

Umbral olfativo No disponible.

pH 3.8 - 4.8

Punto de fusión/punto de congelación No disponible.

Punto inicial de ebullición e intervalo de ebullición > 100 °C (> 212 °F)

Punto de inflamación > 100.0 °C (> 212.0 °F) Copa Cerrada

Tasa de evaporación No disponible.

Inflamabilidad (sólido, gas)	No aplicable.

Límites superior/inferior de inflamabilidad o de explosividad

Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Límite de explosividad inferior (%)	No disponible.
Límite de explosividad superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.

Solubilidad(es)

Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.

Información adicional

Densidad	0.98 - 1 g/cm³
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

10. Estabilidad y reactividad

Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
Estabilidad química	El material es estable bajo condiciones normales.
Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Contacto con materiales incompatibles.
Materiales incompatibles	Agentes oxidantes fuertes.
Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

11. Información toxicológica

Información sobre posibles vías de exposición

Inhalación	La inhalación prolongada puede resultar nociva.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.
Contacto con los ojos	Provoca irritación ocular grave.
Ingestión	Se espera que representa un riesgo reducido de ingestión.
Síntomas relacionados a las características físicas, químicas y toxicológicas	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.

Información sobre los efectos toxicológicos

Toxicidad aguda

Movilidad en el suelo No hay datos disponibles.

Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

13. Consideraciones relativas a la eliminación

Instrucciones para la eliminación Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Normativas de eliminación locales Elimine de acuerdo con todas las reglamentaciones aplicables.

Desechos de residuos / producto no utilizado Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT SEMI-PERMANENT COLOR - GROUP 10
Synonyms	None.
SDS number	00-22-0000168
Issue date	11-28-2020
Version number	03
Revision date	03-07-2023
Supersedes date	02-14-2023

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes serious eye irritation. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: STEARAMIDOPROPYL DIMETHYLAMINE

Hazard pictograms

Signal word Warning

Hazard statements

H319 Causes serious eye irritation.

H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 2,75% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 11,75% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment. EUH208 - Contains BASIC BLUE 124. May produce an allergic reaction.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
STEARAMIDOPROPYL DIMETHYLAMINE	1	7651-02-7 231-609-1	01-2119979089-19	-

Classification:	Acute Tox. 4;H302, Skin Sens. 1;H317, Eye Irrit. 2;H319, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Respirable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	TWA	5 mg/m3	Inhalable fraction.
PROPYLENE GLYCOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalable fraction and vapor.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
PETROLATUM (CAS 8009-03-8)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear suitable protective clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Shaded

Odor Characteristic.

Odor threshold Not available.

pH	3,8 - 4,8
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	
Density	0,98 - 1 g/cm³

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on toxicological effects

Acute toxicity

Components	Species	Test Results
BASIC BLUE 124 (CAS 67846-56-4)

STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OECD 411, Dermal Result: NOAEL Species: Rat Test Duration: 90 d
BASIC RED 51	10 mg/kg bw/d OECD 408 Result: NOAEL Species: Rat Test Duration: 90 d
BASIC YELLOW 87	6,76 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Harmful to aquatic life with long lasting effects. Based on available data, the classification criteria are not met for hazardous to the aquatic environment, acute hazard.

Components		Species	Test Results
BASIC BLUE 124 (CAS 67846-56-4)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0,1 - 1 mg/l, 72 h OECD 201
Fish	LC50	Danio rerio	1 - 10 mg/l, 96 h OECD 203
Other	EC10	Activated sludge of a predominantly domestic sewage	10 - 100 mg/l, 3 h OECD 209
Chronic			
Algae	EC10	Pseudokirchneriella subcapitata	0,1 - 1 mg/l, 72 h OECD 201

Components		Species	Test Results
BASIC RED 51 (CAS 77061-58-6)			
Aquatic			
Acute			
Crustacea	EC50	Daphnia magna	0,44 mg/l, 48 h
Fish	LC50	Lepomis macrochirus	10 - 100 mg/l, 48 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	15 mg/l, 3 h
BASIC YELLOW 87 (CAS 68259-00-7)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0,28 - 0,31 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,6 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	28 - 34 mg/l, 48 h
Other	EC50	Activated sludge of a predominantly domestic sewage	46 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	0,025 mg/l, 72 h OECD 201
STEARAMIDOPROPYL DIMETHYLAMINE (CAS 7651-02-7)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	0,14 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	0,381 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	0,1 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	100 - 1000 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,2 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0,1 mg/l, 9 d OECD 212

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BASIC BLUE 124	10 - 20 % OECD 301 B Result: Not Readily Biodegradable Test Duration: 28 d
BASIC YELLOW 87	21,6 % OECD 302 B Result: Inherently biodegradable. Test Duration: 28 d
STEARAMIDOPROPYL DIMETHYLAMINE	88 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H302 Harmful if swallowed. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects.
Revision information	Product and Company Identification: Product and Company Identification - L'Oreal SECTION 2: Hazards identification: Supplemental label information Composition / Information on Ingredients: Ingredients SECTION 8: Exposure controls/personal protection: PPE Symbols Physical & Chemical Properties: Multiple Properties
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT SEMI-PERMANENT COLOR - Groupe 10
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-22-0000168
Date de publication	le 05-Août-2022
Numéro de version	02
Date de révision	le 07-Mars-2023
Date de la version remplacée	le 14-Février-2023

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé		
Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.
Dangers pour l'environnement		
Dangers pour le milieu aquatique, danger à long terme	Catégorie 3	H412 - Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Résumé des dangers

Provoque une sévère irritation des yeux. Dangereux pour l'environnement en cas de déversement dans les cours d'eau. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : STEARAMIDOPROPYL DIMETHYLAMINE

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H319 Provoque une sévère irritation des yeux.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Mentions de mise en garde

Prévention

P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.
P264 Se laver soigneusement après manipulation.
P273 Éviter le rejet dans l'environnement.
P280 Porter un équipement de protection des yeux/du visage.

Intervention

P101 En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P337 + P313 Si l'irritation oculaire persiste: consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination

P501 Eliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Informations supplémentaires de l'étiquette 2,75 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 11,75 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue. EUH208 - Contient BASIC BLUE 124. Peut produire une réaction allergique.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
STEARAMIDOPROPYL DIMETHYLAMINE	1	7651-02-7 231-609-1	01-2119979089-19	-	
Classification :	Eye Dam. 1;H318, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				
BASIC RED 51	< 0,6	77061-58-6 278-601-4	01-2120820886-46	-	
Classification :	Acute Tox. 4;H302, Eye Irrit. 2;H319, Aquatic Acute 1;H400, Aquatic Chronic 1;H410				
BASIC YELLOW 87	< 0,3	68259-00-7 269-503-2	01-2120817619-46	-	
Classification :	Acute Tox. 4;H302, Aquatic Acute 1;H400, Aquatic Chronic 1;H410				
BASIC BLUE 124	< 0,3	67846-56-4 267-370-5	-	-	
Classification :	Acute Tox. 4;H302, Skin Sens. 1;H317, Eye Irrit. 2;H319, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux	Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Si l'irritation oculaire persiste: consulter un médecin.
Ingestion	Rincer la bouche. Consulter un médecin en cas de symptômes.
4.2. Principaux symptômes et effets, aigus et différés	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.
4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires	Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie	Aucun risque exceptionnel d'incendie et d'explosion.
5.1. Moyens d'extinction	
Moyens d'extinction appropriés	Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).
Moyens d'extinction inappropriés	En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.
5.2. Dangers particuliers résultant de la substance ou du mélange	En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.
5.3. Conseils aux pompiers	
Équipements de protection particuliers des pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Procédures spéciales de lutte contre l'incendie	Éloigner les récipients de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes	Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.
Pour les secouristes	Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.
6.2. Précautions pour la protection de l'environnement	Éviter le rejet dans l'environnement. Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger. Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.
6.3. Méthodes et matériel de confinement et de nettoyage	Éviter que le produit arrive dans les égouts. Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.
6.4. Référence à d'autres rubriques	Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger	Éviter le contact avec les yeux. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Éviter le rejet dans l'environnement. Suivre les règles de bonnes pratiques chimiques.
7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités	Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).
7.3. Utilisation(s) finale(s) particulière(s)	Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

La Belgique. Valeurs limites d'exposition

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VLCT	10 mg/m3	Brouillard.
	VME	5 mg/m3	Brouillard.

Allemagne. Liste MAK de la DFG (VLE indicatives). Fondation allemande pour la recherche, Division des risques liés aux composés chimiques dans le travail (DFG)

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VME	5 mg/m3	Fraction alvéolaire.

Italie. Valeurs limites d'exposition professionnelle

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VME	5 mg/m3	Fraction inhalable.

Ordonnance du ministre du Travail et de la Politique sociale du 6 juin 2014 sur les concentrations maximales admisibles l'intensité des facteurs de santé nuisibles dans le milieu de travail, Journal des lois 2014, article 817

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VME	5 mg/m3	Fraction inhalable.
PROPANE-1,2-DIOL (CAS 57-55-6)	VME	100 mg/m3	Fraction inhalable et vapeur.

Espagne. Limites d'exposition professionnelle

Composants	Type	Valeur	Forme
PÉTROLATUM (CAS 8009-03-8)	VLCT	10 mg/m3	Brouillard.
	VME	5 mg/m3	Brouillard.

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter un vêtement de protection approprié.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Risques thermiques Porter des équipements de protection contre la chaleur, si nécessaire.

Mesures d'hygiène Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.

Contrôles d'exposition liés à la protection de l'environnement	Informer les cadres ou superviseurs concernés de tout rejet dans l'environnement.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect	
État physique	Liquide.
Forme	Crème.
Couleur	Nuancé
Odeur	Caractéristique.
Seuil olfactif	Donnée inconnue.
pH	3,8 - 4,8
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100,0 °C (> 212,0 °F) Coupelle fermée
Taux d'évaporation	Donnée inconnue.
Inflammabilité (solide, gaz)	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.

9.2. Autres informations

Densité	0,98 - 1 g/cm³

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	L'inhalation prolongée peut être nocive.
Contact avec la peau	Peut provoquer une allergie cutanée.
Contact avec les yeux	Provoque une sévère irritation des yeux.

Ingestion Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.

Symptômes Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë

Composants	Espèce	Résultats d'essais
BASIC BLUE 124 (CAS 67846-56-4)		
Aiguë		
Cutané		
DL50	Rat	> 2000 mg/kg OCDE 402

Corrosion cutanée/irritation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau

BASIC YELLOW 87	EPA OPPTS 870,2500 Résultat: Not Irriating Espèce: Lapin
BASIC BLUE 124	OCDE 404 Résultat: Non Irritant Espèce: Lapin
BASIC RED 51	OCDE 404 Résultat: Non Irritant Espèce: Lapin
STEARAMIDOPROPYL DIMETHYLAMINE	OECE 404 Résultat: Légèrement Irritant Espèce: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation/corrosion – Œil

STEARAMIDOPROPYL DIMETHYLAMINE	OCDE 405 Résultat: Corrosif Espèce: Lapin
BASIC BLUE 124	OCDE 405 Résultat: Irritant Espèce: Lapin
BASIC RED 51	OCDE 405 Résultat: Irritant Espèce: Rat
BASIC YELLOW 87	OCDE 405 Résultat: Légèrement Irritant Espèce: Lapin

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée

BASIC RED 51	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
BASIC YELLOW 87	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
STEARAMIDOPROPYL DIMETHYLAMINE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
BASIC BLUE 124	OCDE 429 Résultat: Sensibilisant Espèce: Souris

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

STEARAMIDOPROPYL DIMETHYLAMINE	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
BASIC BLUE 124	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.
BASIC RED 51	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.
BASIC YELLOW 87	Résultat: Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

N'est pas listé.

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

BASIC RED 51	180 mg/kg bw/d OCDE 414 Résultat: NOEL Espèce: Rat
STEARAMIDOPROPYL DIMETHYLAMINE	200 mg/kg bw/d OCDE 421, Pas d'effets sur le développement Résultat: NOAEL Espèce: Rat
BASIC YELLOW 87	60 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat

Toxicité pour la reproduction

STEARAMIDOPROPYL DIMETHYLAMINE	70 mg/kg bw/d OCDE 421 Résultat: NOAEL Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

STEARAMIDOPROPYL DIMETHYLAMINE	> 200 mg/kg bw/d OCDE 411, Cutané Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
BASIC RED 51	10 mg/kg bw/d OCDE 408 Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
BASIC YELLOW 87	6,76 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme. D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques, danger aigu, ne sont pas remplis.

Composants		Espèce	Résultats d'essais
BASIC BLUE 124 (CAS 67846-56-4)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	0,1 - 1 mg/l, 72 h OCDE 201

Poisson	NOEC (concentration sans effet observé)	Danio rerio	0,1 mg/l, 9 d OECD 212

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BASIC BLUE 124	10 - 20 en % OCDE 301 B Résultat: Difficilement Biodégradable Durée de l'essai: 28 d
BASIC YELLOW 87	21,6 en % OECD 302 B Résultat: Intrinsèquement biodégradable. Durée de l'essai: 28 d
STEARAMIDOPROPYL DIMETHYLAMINE	88 en % OCED 301 Résultat: Facilement Biodegradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.

Code des déchets UE Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.

Informations / Méthodes d'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Empêcher que cette substance ne s'écoule dans les égouts ou le réseau d'eau. Ne pas contaminer les étangs, les voies navigables ou les fossés avec le produit ou le récipient utilisés. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Précautions particulières Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H302 Nocif en cas d'ingestion. H317 Peut provoquer une allergie cutanée. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux.

H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion.
H400 Très toxique pour les organismes aquatiques.
H410 Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Informations de révision

Identification du produit et de l'entreprise : L'Oreal Attributes
RUBRIQUE 2: Identification des dangers: Informations supplémentaires de l'étiquette
Composition/Renseignements sur les ingrédients : Ingrédients
RUBRIQUE 8: Contrôles de l'exposition/protection individuelle: Symboles EPP
Caractéristiques chimiques et physiques : Propriétés multiples

Informations de formation

Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.

Clause de non-responsabilité

Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte.
Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS.
L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT EXTREME BLONDE TONING SHAMPOO**

Other means of identification

SDS number 00-11-0001267

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Reproductive toxicity (the unborn child)	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes serious eye damage. Suspected of damaging the unborn child.

Precautionary statement

Prevention Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

Storage Store locked up.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
SODIUM COCOYL ISETHIONATE		61789-32-0	< 6
DECYL GLUCOSIDE		68515-73-1	≤ 6
CITRIC ACID		77-92-9	≤ 1
SALICYLIC ACID		69-72-7	≤ 0.2

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get this material in contact with eyes. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values	No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Skin protection	
Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
Other	Applicable for industrial settings only. Wear suitable protective clothing. Use of an impervious apron is recommended.
Respiratory protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	5.3 - 5.9
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199.4 °F (> 93.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	>= 1.05 g/cm3
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT EXTREME BLONDE TONING SHAMPOO		
Acute

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

DECYL GLUCOSIDE	OECD 404 Result: Not Irritating Species: Rabbit
SALICYLIC ACID	OECD 404 Result: Not Irritating Species: Rabbit
CITRIC ACID	OECD 404 Result: Slightly Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 404 Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

DECYL GLUCOSIDE	OECD 405 Result: Corrosive Species: Rabbit
CITRIC ACID	OECD 405 Result: Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 405 Result: Irritating Species: Rabbit
SALICYLIC ACID	Result: Severely Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

DECYL GLUCOSIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
SODIUM COCOYL ISETHIONATE	OECD 406 Result: Not Sensitizing Species: Guinea pig
CITRIC ACID	OECD 406 Result: Not Sensiziting Species: Guinea pig
SALICYLIC ACID	OECD 429 Result: Not Sensitizing Species: Mouse

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

CITRIC ACID	Result: In vitro and in vivo tests did not show mutagenic effects.
DECYL GLUCOSIDE	Result: In vitro and in vivo tests did not show mutagenic effects.
SODIUM COCOYL ISETHIONATE	Result: In vitro tests did not show mutagenic effect

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Suspected of damaging the unborn child.

Developmental effects

CITRIC ACID	> 295 mg/kg bw/d, No effects on development Result: NOAEL Species: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOEL Species: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 414, No effects on development Species: Rat
SALICYLIC ACID	75 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 421, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 421, No effects on fertility Result: NOAEL Species: Rat
SALICYLIC ACID	250 mg/kg bw/d OECD 416, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
CITRIC ACID	2500 mg/kg bw/d, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d >= 2070 mg/kg bw/d OECD 410, Dermal Result: NOAEL Species: Rat Test Duration: 28 d
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B.26, Oral Result: NOAEL Species: Rat Test Duration: 90 d
CITRIC ACID	4000 mg/kg bw/d, Oral Result: NOAEL Species: Rat Test Duration: 10 d
SALICYLIC ACID	700 mg/m3 air OECD 412, Based on test data for structurally similar materials. Result: NOEC Species: Rat Test Duration: 28 d

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

CITRIC ACID	97 % OECD 301 B Test Duration: 28 d
SALICYLIC ACID	100 % OECD 301 C Result: Readily Biodegradable Test Duration: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d

Percent degradation (Aerobic biodegradation-inherent)

DECYL GLUCOSIDE	100 % OECD 301 E Result: Readily Biodegradable Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

CITRIC ACID	-1.64
SALICYLIC ACID	2.26
SODIUM COCOYL ISETHIONATE	-0.41

Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Not regulated.

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act (SDWA)	Not regulated.

16. Other information, including date of preparation or last revision

Issue date	03-16-2023

Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT EXTREME BLONDE TONING SHAMPOO**

Autres moyens d'identification

Numéro de la FDS 00-11-0001267

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 1
Toxicité pour la reproduction (le fœtus)	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Provoque de graves lésions des yeux. Susceptible de nuire au fœtus.

Conseil de prudence

Prévention Se procurer les instructions avant utilisation. Ne pas manipuler avant d'avoir lu et compris toutes les précautions de sécurité. Porter des gants de protection/des vêtements de protection/un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin.

Stockage Garder sous clef.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
SODIUM COCOYL ISETHIONATE		61789-32-0	< 6

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
DECYL GLUCOSIDE		68515-73-1	≤ 6
ACIDE CITRIQUE		77-92-9	≤ 1
ACIDE SALICYLIQUE		69-72-7	≤ 0.2

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales EN CAS d'exposition prouvée ou suspectée : Demander un avis médical/Consulter un médecin. En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger. Présenter cette fiche de données de sécurité au médecin traitant.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Se procurer les instructions avant utilisation. Ne pas manipuler avant d'avoir lu et compris toutes les précautions de sécurité. Éviter tout contact de ce produit avec les yeux. Les femmes enceintes ou allaitantes ne doivent pas manipuler ce produit. Doit être manipulé dans des systèmes fermés, si possible. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Garder sous clef. Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Valeurs biologiques limites	Aucune limite d'exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques
Autre	Pour usage industriel seulement. Porter un vêtement de protection approprié. Il est recommandé d'utiliser un tablier imperméable.
Protection respiratoire	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Suivre toutes les exigences de surveillance médicale. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Couleur	Non disponible.
Odeur	Non disponible.
Seuil olfactif	Non disponible.
pH	5.3 - 5.9
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93.0 °C (> 199.4 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.

Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 1.05 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	On ne s'attend à aucun effet néfaste en cas d'inhalation.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Produit	Espèces	Résultats d'épreuves
PULP RIOT EXTREME BLONDE TONING SHAMPOO		
Aiguë		
Cutané		
ATEmix		1.351e+006 mg/kg

DL50	Rat	> 2000 mg/kg OCDE 401

Corrosion cutanée/irritation cutanée On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

ACIDE CITRIQUE	OCDE 404 Résultat: Légèrement Irritant Espèces: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 404 Résultat: Légèrement Irritant Espèces: Lapin
ACIDE SALICYLIQUE	OCDE 404 Résultat: Non Irritant Espèces: Lapin
DECYL GLUCOSIDE	OCDE 404 Résultat: Non Irritant Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque de graves lésions des yeux.

Irritation- corrosion - Œil

DECYL GLUCOSIDE	OCDE 405 Résultat: Corrosif Espèces: Lapin
ACIDE CITRIQUE	OCDE 405 Résultat: Irritant Espèces: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 405 Résultat: Irritant Espèces: Lapin
ACIDE SALICYLIQUE	Résultat: Gravement Irritant Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée On ne s'attend pas à ce que ce produit provoque une sensibilisation cutanée.

Sensibilisation cutanée

DECYL GLUCOSIDE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
SODIUM COCOYL ISETHIONATE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
ACIDE CITRIQUE	OCDE 406 Résultat: Not Sensiziting Espèces: Cobaye
ACIDE SALICYLIQUE	OCDE 429 Résultat: Non Sensibilisant Espèces: Souris

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

ACIDE CITRIQUE	Résultat: Des essais in vitro et in vivo n'ont pas montré d'effets mutagènes.
DECYL GLUCOSIDE	Résultat: Des essais in vitro et in vivo n'ont pas montré d'effets mutagènes.
SODIUM COCOYL ISETHIONATE	Résultat: In vitro tests did not show mutagenic effect

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction Susceptible de nuire au fœtus.

Effets sur le développement

ACIDE CITRIQUE	> 295 mg/kg bw/d, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSEO Espèces: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Espèces: Rat
ACIDE SALICYLIQUE	75 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat

Reproductivité

SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 421, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 421, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat
ACIDE SALICYLIQUE	250 mg/kg bw/d OCDE 416, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat
ACIDE CITRIQUE	2500 mg/kg bw/d, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OCDE 407, Orale Résultat: DSENO Espèces: Rat Durée du test: 28 d >= 2070 mg/kg bw/d OECD 410, Cutané Résultat: DSENO Espèces: Rat Durée du test: 28 d
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B.26, Orale Résultat: DSENO Espèces: Rat Durée du test: 90 d
ACIDE CITRIQUE	4000 mg/kg bw/d, Orale Résultat: DSENO Espèces: Rat Durée du test: 10 d
ACIDE SALICYLIQUE	700 mg/m3 air OCDE 412, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEC (concentration sans effet observé) Espèces: Rat Durée du test: 28 d

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves
ACIDE CITRIQUE (CAS 77-92-9)			
Aquatique			
Algues	CE50	Microcystis aeruginosa	80 mg/l, 7 d
Autre	CE50	Pseudomonas putida	4235 mg/l, 18 h OCDE 209
Crustacés	CL50	Daphnia magna	1535 mg/l, 24 h

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

ACIDE CITRIQUE	97 % OCDE 301 B Durée du test: 28 d
ACIDE SALICYLIQUE	100 % OCDE 301 C Résultat: Facilement Biodegradable Durée du test: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Résultat: Facilement Biodegradable Durée du test: 28 d

Pourcentage de dégradation (biodégradation aérobie-inhérente)

DECYL GLUCOSIDE	100 % OECD 301 E Résultat: Facilement Biodegradable Durée du test: 28 d

Potentiel de bioaccumulation

Log Koe du coefficient de répartition octanol/eau

ACIDE CITRIQUE	-1.64
ACIDE SALICYLIQUE	2.26
SODIUM COCOYL ISETHIONATE	-0.41

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis

Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux

No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre)

Non réglementé.

Avis de non-responsabilité

À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT EXTREME BLONDE TONING SHAMPOO
Synonyms	None.
SDS number	00-11-0001267
Product code	1285470 A
Issue date	03-16-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Serious eye damage/eye irritation	Category 1	H318 - Causes serious eye damage.

Hazard summary Causes serious eye damage. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: DECYL GLUCOSIDE

Hazard pictograms

Signal word Danger

Hazard statements

H318 Causes serious eye damage.

Precautionary statements

Prevention

P102 Keep out of reach of children.

P103	Read label before use.
P260	Do not breathe vapor.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 2% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 8% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
SODIUM COCOYL ISETHIONATE	< 6	61789-32-0 263-052-5	01-2119974104-40	-	
Classification:	Eye Irrit. 2;H319, Aquatic Chronic 3;H412				
DECYL GLUCOSIDE	≤ 6	68515-73-1 500-220-1	01-2119488530-36	-	
Classification:	Eye Dam. 1;H318				
COCAMIDOPROPYL BETAINE	< 2	97862-59-4 931-296-8	01-2119488533-30	-	
Classification:	Eye Dam. 1;H318, Aquatic Chronic 3;H412				
CITRIC ACID	≤ 1	77-92-9 201-069-1	01-2119457026-42	607-750-00-3	
Classification:	Eye Irrit. 2;H319, STOT SE 3;H335				
SALICYLIC ACID	≤ 0,2	69-72-7 200-712-3	01-2119486984-17	607-732-00-5	
Classification:	Acute Tox. 4;H302, Eye Dam. 1;H318, Repr. 2;H361d				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Do not breathe vapor. Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
CITRIC ACID (CAS 77-92-9)	TWA	2 mg/m3	Inhalable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
CITRIC ACID (CAS 77-92-9)	AGW	2 mg/m3	Inhalable fraction.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles) and a face shield.
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
- Other	Applicable for industrial settings only. Wear suitable protective clothing.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
pH	5,3 - 5,9
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199,4 °F (> 93,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.

Oxidizing properties Not oxidizing.

9.2. Other information

Density >= 1,05 g/cm3

SECTION 10: Stability and reactivity

10.1. Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability Material is stable under normal conditions.

10.3. Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

10.5. Incompatible materials Strong oxidizing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact No adverse effects due to skin contact are expected.

Eye contact Causes serious eye damage.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

11.1. Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
CITRIC ACID (CAS 77-92-9)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg bw OECD 402
Oral		
LD50	Mouse	5400 mg/kg bw OECD 401
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)		
Acute		
Dermal		
LD50	Rat	> 620 mg/kg OECD 402
Oral		
LD50	Rat	2335 mg/kg OECD 401
DECYL GLUCOSIDE (CAS 68515-73-1)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Oral		
LD50	Rat	> 5000 mg/kg OECD 401
SALICYLIC ACID (CAS 69-72-7)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg OECD 402
Oral		
LD50	Rat	891 mg/kg OECD 401
SODIUM COCOYL ISETHIONATE (CAS 61789-32-0)		
Acute		
Oral		
LD50	Rat	> 2000 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

DECYL GLUCOSIDE	OECD 404 Result: Not Irritating Species: Rabbit
SALICYLIC ACID	OECD 404 Result: Not Irritating Species: Rabbit
CITRIC ACID	OECD 404 Result: Slightly Irritating Species: Rabbit
COCAMIDOPROPYL BETAINE	OECD 404 Result: Slightly Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 404 Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

DECYL GLUCOSIDE	OECD 405 Result: Corrosive Species: Rabbit
CITRIC ACID	OECD 405 Result: Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 405 Result: Irritating Species: Rabbit
COCAMIDOPROPYL BETAINE	OECD 405, (C > 10%) Result: Corrosive Species: Rabbit OECD 405, (C ≤ 10%) Result: Irritating Species: Rabbit
SALICYLIC ACID	Result: Severely Irritating Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

COCAMIDOPROPYL BETAINE	OECD 406 Result: Not Sensitizing Species: Guinea pig
DECYL GLUCOSIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
SODIUM COCOYL ISETHIONATE	OECD 406 Result: Not Sensitizing Species: Guinea pig
CITRIC ACID	OECD 406 Result: Not Sensiziting Species: Guinea pig
SALICYLIC ACID	OECD 429 Result: Not Sensitizing Species: Mouse

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

CITRIC ACID	Result: In vitro and in vivo tests did not show mutagenic effects.
COCAMIDOPROPYL BETAINE	Result: In vitro and in vivo tests did not show mutagenic effects.
DECYL GLUCOSIDE	Result: In vitro and in vivo tests did not show mutagenic effects.
SODIUM COCOYL ISETHIONATE	Result: In vitro tests did not show mutagenic effect

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

SALICYLIC ACID (CAS 69-72-7)

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

CITRIC ACID	> 295 mg/kg bw/d, No effects on development Result: NOAEL Species: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOEL Species: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 414, No effects on development Species: Rat
COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 414, No effects on development Result: NOEL Species: Rat
SALICYLIC ACID	75 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 421, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 421, No effects on fertility Result: NOAEL Species: Rat
COCAMIDOPROPYL BETAINE	247 mg/kg bw/d OECD 408 Result: NOEL Species: Rat
SALICYLIC ACID	250 mg/kg bw/d OECD 416, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
CITRIC ACID	2500 mg/kg bw/d, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d >= 2070 mg/kg bw/d OECD 410, Dermal Result: NOAEL Species: Rat Test Duration: 28 d
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B,26, Oral Result: NOAEL Species: Rat Test Duration: 90 d
COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 408, Oral Result: NOEL Species: Rat Test Duration: 90 d
CITRIC ACID	4000 mg/kg bw/d, Oral Result: NOAEL Species: Rat Test Duration: 10 d
SALICYLIC ACID	700 mg/m3 air OECD 412, Based on test data for structurally similar materials. Result: NOEC Species: Rat Test Duration: 28 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
CITRIC ACID (CAS 77-92-9)			
Aquatic			
Algae	EC50	Microcystis aeruginosa	80 mg/l, 7 d
Crustacea	LC50	Daphnia magna	1535 mg/l, 24 h
Fish	LC50	Leuciscus idus	440 - 760 mg/l, 96 h OECD 203
Other	EC50	Pseudomonas putida	4235 mg/l, 18 h OECD 209
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	2,4 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,9 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	1,1 mg/l, 96 h OECD 203
Other	EC0	Pseudomonas putida	3000 mg/l, 16 h ISO 10712
Chronic			
Crustacea	NOEC	Daphnia magna	0,32 mg/l, 21 d OECD 211
Fish	NOEC	Oncorhynchus mykiss	0,135 mg/l, 37 d OECD 210
DECYL GLUCOSIDE (CAS 68515-73-1)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	19 mg/l, 72 h DIN 38412 PT 9
Crustacea	EC50	Daphnia magna	7 mg/l, 48 h OECD 202
	NOEC	Daphnia magna	2 mg/l, 21 d OECD 202
Fish	LC50	Danio rerio	2,95 mg/l, 96 h OECD 203
Other	EC0	Pseudomonas putida	1000 mg/l, 0,5 h DIN 38412 PT 8
Chronic			
Fish	NOEC	Danio rerio	1,8 mg/l, 28 d OECD 204
SALICYLIC ACID (CAS 69-72-7)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	> 100 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	870 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	1370 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 202
SODIUM COCOYL ISETHIONATE (CAS 61789-32-0)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	1 - 10 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	10 - 100 mg/l, 48 h OECD 202
Fish	LC50	Oncorhynchus mykiss	10 - 100 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h OECD 209
Chronic			
Algae	EC10	Pseudokirchneriella subcapitata	0,1 - 1 mg/l, 72 h OECD 201

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

CITRIC ACID	97 % OECD 301 B Test Duration: 28 d
COCAMIDOPROPYL BETAINE	91,6 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
SALICYLIC ACID	100 % OECD 301 C Result: Readily Biodegradable Test Duration: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d

Percent degradation (Aerobic biodegradation-inherent)

DECYL GLUCOSIDE	100 % OECD 301 E Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

CITRIC ACID	-1,64
COCAMIDOPROPYL BETAINE	4,2
SALICYLIC ACID	2,26
SODIUM COCOYL ISETHIONATE	-0,41

Bioconcentration factor (BCF)

COCAMIDOPROPYL BETAINE	71

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H302 Harmful if swallowed. H318 Causes serious eye damage. H319 Causes serious eye irritation. H335 May cause respiratory irritation. H361d Suspected of damaging the unborn child. H412 Harmful to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT EXTREME BLONDE TONING SHAMPOO
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-11-0001267
Code de produit	1285470 A
Date de publication	le 16-Mars-2023
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 1	H318 - Provoque des lésions oculaires graves.

Résumé des dangers

Provoque des lésions oculaires graves. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : DECYL GLUCOSIDE

Pictogrammes de danger

Mention d'avertissement Danger

Mentions de danger

H318	Provoque des lésions oculaires graves.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P260	Ne pas respirer les vapeurs.
P280	Porter un équipement de protection des yeux/du visage.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P310	Appeler immédiatement un CENTRE ANTIPOISON/un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Informations supplémentaires de l'étiquette 2 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 8 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie

Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés

Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés

En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange

En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers

Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie

Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention

Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes

Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes

Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement

Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage

Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques

Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger

Ne pas respirer les vapeurs. Éviter tout contact de cette substance avec les yeux. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s)

Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

Allemagne. Liste MAK de la DFG (VLE indicatives). Fondation allemande pour la recherche, Division des risques liés aux composés chimiques dans le travail (DFG)

Composants	Type	Valeur	Forme
ACIDE CITRIQUE (CAS 77-92-9)	VME	2 mg/m3	Fraction inhalable.

Allemagne. TRGS 900, Valeurs limites dans l'air ambiant sur le lieu de travail

Composants	Type	Valeur	Forme
ACIDE CITRIQUE (CAS 77-92-9)	AGW	2 mg/m3	Fraction inhalable.

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter un vêtement de protection approprié.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Risques thermiques Porter des équipements de protection contre la chaleur, si nécessaire.

Mesures d'hygiène Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.

Contrôles d'exposition liés à la protection de l'environnement Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect

État physique Liquide.

Couleur Non disponible.

Odeur Donnée inconnue.

Seuil olfactif Donnée inconnue.

pH 5,3 - 5,9

Point de fusion/point de congélation Donnée inconnue.

Point initial d'ébullition et intervalle d'ébullition > 100 °C (> 212 °F)

Point d'éclair > 93,0 °C (> 199,4 °F) Coupelle fermée

Taux d'évaporation Donnée inconnue.

Inflammabilité (solide, gaz) Sans objet.

Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité

limite inférieure d'inflammabilité (%) Donnée inconnue.

limite supérieure d'inflammabilité (%) Donnée inconnue.

Pression de vapeur Donnée inconnue.

Densité de vapeur Donnée inconnue.

Densité relative Donnée inconnue.

Solubilité(s)

Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.

9.2. Autres informations

Densité	>= 1,05 g/cm3

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	L'inhalation prolongée peut être nocive.
Contact avec la peau	Aucun effet indésirable par contact cutané n'est attendu.
Contact avec les yeux	Provoque des lésions oculaires graves.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.
Symptômes	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë Donnée inconnue.

Composants	Espèce	Résultats d'essais
ACIDE CITRIQUE (CAS 77-92-9)		
Aiguë		
Cutané		
DL50	Rat	> 2000 mg/kg bw OCDE 402
Oral		
DL50	Souris	5400 mg/kg bw OCDE 401
ACIDE SALICYLIQUE (CAS 69-72-7)		
Aiguë		
Cutané		
DL50	Rat	> 2000 mg/kg OCDE 402
Oral		
DL50	Rat	891 mg/kg OCDE 401
Cocamidopropylbétaïne (CAS 97862-59-4)		
Aiguë		
Cutané		
DL50	Rat	> 620 mg/kg OCDE 402

Composants	Espèce	Résultats d'essais
Oral		
DL50	Rat	2335 mg/kg OCDE 401
DECYL GLUCOSIDE (CAS 68515-73-1)		
Aiguë		
Cutané		
DL50	Lapin	> 2000 mg/kg OCDE 402
Oral		
DL50	Rat	> 5000 mg/kg OCDE 401
SODIUM COCOYL ISETHIONATE (CAS 61789-32-0)		
Aiguë		
Oral		
DL50	Rat	> 2000 mg/kg OCDE 401

Corrosion cutanée/irritation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau

ACIDE CITRIQUE	OCDE 404 Résultat: Légèrement Irritant Espèce: Lapin
Cocamidopropylbétaïne	OCDE 404 Résultat: Légèrement Irritant Espèce: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 404 Résultat: Légèrement Irritant Espèce: Lapin
ACIDE SALICYLIQUE	OCDE 404 Résultat: Non Irritant Espèce: Lapin
DECYL GLUCOSIDE	OCDE 404 Résultat: Non Irritant Espèce: Lapin

Lésions oculaires graves/irritation oculaire Provoque des lésions oculaires graves.

Irritation/corrosion – Œil

DECYL GLUCOSIDE	OCDE 405 Résultat: Corrosif Espèce: Lapin
ACIDE CITRIQUE	OCDE 405 Résultat: Irritant Espèce: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 405 Résultat: Irritant Espèce: Lapin
Cocamidopropylbétaïne	OCDE 405, (C > 10%) Résultat: Corrosif Espèce: Lapin OCDE 405, (C ≤ 10%) Résultat: Irritant Espèce: Lapin
ACIDE SALICYLIQUE	Résultat: Gravement Irritant Espèce: Lapin

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée

Cocamidopropylbétaïne	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
DECYL GLUCOSIDE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
SODIUM COCOYL ISETHIONATE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
ACIDE CITRIQUE	OCDE 406 Résultat: Not Sensiziting Espèce: Cochon d'Inde

Sensibilisation cutanée

ACIDE SALICYLIQUE	OCDE 429 Résultat: Non Sensibilisant Espèce: Souris

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

SODIUM COCOYL ISETHIONATE	Résultat: In vitro tests did not show mutagenic effect
ACIDE CITRIQUE	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.
Cocamidopropylbétaïne	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.
DECYL GLUCOSIDE	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

ACIDE SALICYLIQUE (CAS 69-72-7)

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

ACIDE CITRIQUE	> 295 mg/kg bw/d, Pas d'effets sur le développement Résultat: NOAEL Espèce: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEL Espèce: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Espèce: Rat
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Résultat: NOEL Espèce: Rat
ACIDE SALICYLIQUE	75 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat

Toxicité pour la reproduction

SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 421, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOAEL Espèce: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 421, Pas d'effets sur la fertilité Résultat: NOAEL Espèce: Rat
Cocamidopropylbétaïne	247 mg/kg bw/d OCDE 408 Résultat: NOEL Espèce: Rat
ACIDE SALICYLIQUE	250 mg/kg bw/d OCDE 416, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOAEL Espèce: Rat
ACIDE CITRIQUE	2500 mg/kg bw/d, Pas d'effets sur la fertilité Résultat: NOAEL Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OCDE 407, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d

Toxicité spécifique pour certains organes cibles – exposition répétée

SODIUM COCOYL ISETHIONATE	>= 2070 mg/kg bw/d OECD 410, Cutané Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B,26, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 408, Oral Résultat: NOEL Espèce: Rat Durée de l'essai: 90 d
ACIDE CITRIQUE	4000 mg/kg bw/d, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 10 d
ACIDE SALICYLIQUE	700 mg/m3 air OCDE 412, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEC (concentration sans effet observé) Espèce: Rat Durée de l'essai: 28 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.

Composants		Espèce	Résultats d'essais
ACIDE CITRIQUE (CAS 77-92-9)			
Aquatique			
Algues	CE50	Microcystis aeruginosa	80 mg/l, 7 d
Autre	CE50	Pseudomonas putida	4235 mg/l, 18 h OCDE 209
Crustacé	CL50	Daphnia magna	1535 mg/l, 24 h
Poisson	CL50	Leuciscus idus	440 - 760 mg/l, 96 h OCDE 203

Poisson	CL50	Oncorhynchus mykiss	10 - 100 mg/l, 96 h OCDE 203
Chronique			
Algues	CE10	Pseudokirchneriella subcapitata	0,1 - 1 mg/l, 72 h OCDE 201

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie – intrinsèque)

DECYL GLUCOSIDE	100 en % OECD 301 E Résultat: Facilement Biodegradable Durée de l'essai: 28 d

Pourcentage de dégradation (biodégradation aérobie)

ACIDE CITRIQUE	97 en % OCDE 301 B Durée de l'essai: 28 d
ACIDE SALICYLIQUE	100 en % OCDE 301 C Résultat: Facilement Biodegradable Durée de l'essai: 28 d
Cocamidopropylbétaïne	91,6 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
SODIUM COCOYL ISETHIONATE	78 en % OECD 301 D Résultat: Facilement Biodegradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

ACIDE CITRIQUE	-1,64
ACIDE SALICYLIQUE	2,26
Cocamidopropylbétaïne	4,2

SODIUM COCOYL ISETHIONATE	-0,41

Facteur de bioconcentration (FBC)

Cocamidopropylbétaïne	71

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.

Code des déchets UE Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.

Informations / Méthodes d'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Précautions particulières Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H302 Nocif en cas d'ingestion. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H335 Peut irriter les voies respiratoires. H361d Susceptible de nuire au fœtus. H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.

Clause de non-responsabilité

Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte.
Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT VIVID WASH - GROUP 10**

Other means of identification

SDS number 00-22-0000238

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 2A
Specific target organ toxicity, repeated exposure	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention Do not breathe mist/vapors. Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention if you feel unwell. If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	1.58

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Prolonged exposure may cause chronic effects.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Do not breathe mist/vapors. Avoid contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Skin protection	
Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
Other	Applicable for industrial settings only. Wear suitable protective clothing. Use of an impervious apron is recommended.
Respiratory protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Shaded.
Odor	Characteristic.
Odor threshold	Not available.
pH	3.5 - 4.5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199.4 °F (> 93.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition products No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation No adverse effects due to inhalation are expected.

Skin contact No adverse effects due to skin contact are expected.

Eye contact Causes serious eye irritation.

Ingestion Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT VIVID WASH - GROUP 10		
Acute		
Dermal		
ATEmix		206600 mg/kg
Oral		
ATEmix		68630 mg/kg

Components	Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Acute		
Oral		
LD50	Rat	3190 mg/kg OECD 401

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

BEHENTRIMONIUM CHLORIDE — OECD 405
Result: Irritating
Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

BEHENTRIMONIUM CHLORIDE — OECD 404
Result: Corrosive
Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

BEHENTRIMONIUM CHLORIDE — OECD 406
Result: Not Sensitizing
Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

BEHENTRIMONIUM CHLORIDE — Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Reproductivity

BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure May cause damage to organs through prolonged or repeated exposure.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d

Aspiration hazard Not an aspiration hazard.

Chronic effects May cause damage to organs through prolonged or repeated exposure.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	3.48 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1.39 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	0.5 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	43 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.128 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0.24 mg/l, 9 d OECD 212

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BEHENTRIMONIUM CHLORIDE	80 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

FINISHED GOODS

Not regulated as dangerous goods.

BULK

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Not regulated.

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act (SDWA) Not regulated.

16. Other information, including date of preparation or last revision

Issue date 03-24-2023

Version # 01

NFPA ratings Health: 2
Flammability: 1
Instability: 0

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT VIVID WASH - Groupe 10**

Autres moyens d'identification

Numéro de la FDS 00-22-0000238

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 2A
Toxicité pour certains organes cibles - expositions répétées	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Provoque une sévère irritation des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Conseil de prudence

Prévention Ne pas respirer les brouillards/vapeurs. Se laver soigneusement après manipulation. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Demander un avis médical/Consulter un médecin en cas de malaise. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	1.58

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation — Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau — Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux — Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.

Ingestion — Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés — Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Une exposition prolongée peut causer des effets chroniques.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire — Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales — En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés — Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés — Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux — Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers — Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies — Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention — Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux — Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence — Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage — Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement — Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention — Ne pas respirer les brouillards/vapeurs. Éviter tout contact avec les yeux. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Valeurs biologiques limites	Aucune limite d'exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques
Autre	Pour usage industriel seulement. Porter un vêtement de protection approprié. Il est recommandé d'utiliser un tablier imperméable.
Protection respiratoire	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Forme	Crème.
Couleur	Nuancé.
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	3.5 - 4.5
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93.0 °C (> 199.4 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.

Solubilité

Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.

Autres informations

Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	On ne s'attend à aucun effet néfaste en cas d'inhalation.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Sensibilisation cutanée

BEHENTRIMONIUM CHLORIDE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

BEHENTRIMONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Reproductivité

BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OCDE 421 Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OCDE 407, Orale Résultat: DSENO Espèces: Rat Durée du test: 28 d

Danger par aspiration Pas un danger par aspiration.

Effets chroniques Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	3.48 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées d'origine principalement domestique	43 mg/l, 3 h OCDE 209
Crustacés	CE50	Daphnia magna	1.39 mg/l, 48 h OCDE 202
Poisson	CL50	Danio rerio	0.5 - 1 mg/l, 96 h OCDE 203

Composants		Espèces	Résultats d'épreuves
Chronique			
Crustacés	NOEC (concentration sans effet observé)	Daphnia magna	0.128 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Danio rerio	0.24 mg/l, 9 d OECD 212

Persistance et dégradation

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BEHENTRIMONIUM CHLORIDE	80 % OCED 301 Résultat: Facilement Biodegradable Durée du test: 28 d

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux	No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre)	Non réglementé.

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	24-Mars-2023
Version n°	01
Classements NFPA	Santé: 2 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT VIVID WASH - GROUP 10
Synonyms	None.
SDS number	00-22-0000238
Issue date	03-24-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.

Hazard summary Causes serious eye irritation. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: BEHENTRIMONIUM CHLORIDE

Hazard pictograms

Signal word Warning

Hazard statements

H319	Causes serious eye irritation.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 1,2% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 1,2% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
BEHENTRIMONIUM CHLORIDE	1,58	68607-24-9 271-756-9	01-2119484817-22	-	

Classification: Skin Irrit. 2;H315, Eye Dam. 1;H318, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 2;H411

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Avoid contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Recommended monitoring procedures	Follow standard monitoring procedures.
Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
- Other	Applicable for industrial settings only. Wear suitable protective clothing.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state	Liquid.
Form	Cream.
Color	Shaded.
Odor	Characteristic.
Odor threshold	Not available.
pH	3,5 - 4,5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199,4 °F (> 93,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.

Solubility(ies)

Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on toxicological effects

Acute toxicity Not known.

Components	Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Acute		
Oral		
LD50	Rat	3190 mg/kg OECD 401

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin
BEHENTRIMONIUM CHLORIDE
OECD 405
Result: Irritating
Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye
BEHENTRIMONIUM CHLORIDE
OECD 404
Result: Corrosive
Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization
BEHENTRIMONIUM CHLORIDE
OECD 406
Result: Not Sensitizing
Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity
BEHENTRIMONIUM CHLORIDE
Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Reproductivity
BEHENTRIMONIUM CHLORIDE
75 mg/kg bw/d OECD 421
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

BEHENTRIMONIUM CHLORIDE
10 mg/kg bw/d OECD 407, Oral
Result: NOAEL
Species: Rat
Test Duration: 28 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	3,48 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,39 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	0,5 - 1 mg/l, 96 h OECD 203

Components		Species	Test Results
Other	EC50	Activated sludge of a predominantly domestic sewage	43 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,128 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0,24 mg/l, 9 d OECD 212

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BEHENTRIMONIUM CHLORIDE — 80 % OECD 301
Result: Readily Biodegradable
Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow) Not available.

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H315 Causes skin irritation. H318 Causes serious eye damage. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H400 Very toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange PULP RIOT VIVID WASH - Groupe 10

Synonymes Aucun(e)(s).

Numéro de la FDS 00-22-0000238

Date de publication le 24-Mars-2023

Numéro de version 01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées Produits de soins personnels destinés à un usage cosmétique.

Utilisations déconseillées Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe L'ORÉAL SA

Adresse 14, rue royale
75008 - Paris
France

Téléphone +1 732 499 2745

adresse électronique nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

INFOTRAC +1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.

Résumé des dangers Provoque une sévère irritation des yeux. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : BEHENTRIMONIUM CHLORIDE

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H319 Provoque une sévère irritation des yeux.

Mentions de mise en garde

Prévention

P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.

P264	Se laver soigneusement après manipulation.
P280	Porter un équipement de protection des yeux/du visage.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P337 + P313	Si l'irritation oculaire persiste: consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Informations supplémentaires de l'étiquette 1,2 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 1,2 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
BEHENTRIMONIUM CHLORIDE	1,58	68607-24-9 271-756-9	01-2119484817-22	-	

Classification : Skin Irrit. 2;H315, Eye Dam. 1;H318, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 2;H411

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Si l'irritation oculaire persiste: consulter un médecin.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Procédures spéciales de lutte contre l'incendie	Éloigner les récipients de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes	Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.
Pour les secouristes	Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.
6.2. Précautions pour la protection de l'environnement	Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.
6.3. Méthodes et matériel de confinement et de nettoyage	Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.
6.4. Référence à d'autres rubriques	Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger	Éviter le contact avec les yeux. Assurer une ventilation efficace. Porter un équipement de protection approprié. Suivre les règles de bonnes pratiques chimiques.
7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités	Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).
7.3. Utilisation(s) finale(s) particulière(s)	Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle	Il n'y a pas de limites d'exposition pour ce ou ces ingrédients.
Valeurs limites biologiques	Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.
Procédures de suivi recommandées	Suivre les procédures standard de surveillance.
Doses dérivées sans effet (DDSE)	Donnée inconnue.
Concentrations prédites sans effet (PNEC)	Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés	Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales	Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.
Protection des yeux/du visage	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau	
- Protection des mains	Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.
- Autres	Pour usage industriel seulement. Porter un vêtement de protection approprié.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Risques thermiques	Porter des équipements de protection contre la chaleur, si nécessaire.
Mesures d'hygiène	Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.
Contrôles d'exposition liés à la protection de l'environnement	Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect	
État physique	Liquide.
Forme	Crème.
Couleur	Nuancé.
Odeur	Caractéristique.
Seuil olfactif	Donnée inconnue.
pH	3,5 - 4,5
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93,0 °C (> 199,4 °F) Coupelle fermée
Taux d'évaporation	Donnée inconnue.
Inflammabilité (solide, gaz)	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
limite inférieure d'inflammabilité (%)	Donnée inconnue.
limite supérieure d'inflammabilité (%)	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.
9.2. Autres informations	Aucune information pertinente supplémentaire n'est disponible.

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.

10.6. Produits de décomposition dangereux On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation N'est pas présumé avoir des effets nocifs en cas d'inhalation.

Contact avec la peau Aucun effet indésirable par contact cutané n'est attendu.

Contact avec les yeux Provoque une sévère irritation des yeux.

Ingestion Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.

Symptômes Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë Donnée inconnue.

Composants	Espèce	Résultats d'essais
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Aiguë		
Oral		
DL50	Rat	3190 mg/kg OCDE 401

Corrosion cutanée/irritation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau
BEHENTRIMONIUM CHLORIDE — OCDE 405
Résultat: Irritant
Espèce: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation/corrosion – Œil
BEHENTRIMONIUM CHLORIDE — OCDE 404
Résultat: Corrosif
Espèce: Lapin

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée
BEHENTRIMONIUM CHLORIDE — OCDE 406
Résultat: Non Sensibilisant
Espèce: Cochon d'Inde

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité
BEHENTRIMONIUM CHLORIDE — Résultat: Les tests in vitro n'ont pas montré des effets mutagènes

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

N'est pas listé.

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité pour la reproduction
BEHENTRIMONIUM CHLORIDE — 75 mg/kg bw/d OCDE 421
Résultat: NOAEL
Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée

BEHENTRIMONIUM CHLORIDE — 10 mg/kg bw/d OCDE 407, Oral
Résultat: NOAEL
Espèce: Rat
Durée de l'essai: 28 d

Danger par aspiration — En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances — Aucune information disponible.

Autres informations — La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité — D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.

Composants		Espèce	Résultats d'essais
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	3,48 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	43 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	1,39 mg/l, 48 h OCDE 202
Poisson	CL50	Danio rerio	0,5 - 1 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,128 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Danio rerio	0,24 mg/l, 9 d OECD 212

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BEHENTRIMONIUM CHLORIDE — 80 en % OCED 301
Résultat: Facilement Biodegradable
Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow) — Donnée inconnue.

12.4. Mobilité dans le sol — Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB — Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes — Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

12.7. Informations supplémentaires — La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires — Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC	Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H315 Provoque une irritation cutanée. H318 Provoque des lésions oculaires graves. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion. H400 Très toxique pour les organismes aquatiques. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT EXTREME BLONDE TONING SHAMPOO**

Other means of identification

SDS number 00-11-0001281

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Serious eye damage/eye irritation	Category 1
Reproductive toxicity (the unborn child)	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes serious eye damage. Suspected of damaging the unborn child.

Precautionary statement

Prevention Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

Storage Store locked up.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
DECYL GLUCOSIDE		68515-73-1	6
SODIUM COCOYL ISETHIONATE		61789-32-0	5.7
CITRIC ACID		77-92-9	1
SALICYLIC ACID		69-72-7	0.2

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get this material in contact with eyes. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values	No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Skin protection	
Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
Other	Applicable for industrial settings only. Wear suitable protective clothing. Use of an impervious apron is recommended.
Respiratory protection	Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	5.3 - 5.9
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199.9 °F (> 93.3 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.

Solubility(ies)

Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information

Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity Not known.

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

DECYL GLUCOSIDE	OECD 404 Result: Not Irritating Species: Rabbit
SALICYLIC ACID	OECD 404 Result: Not Irritating Species: Rabbit
CITRIC ACID	OECD 404 Result: Slightly Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 404 Result: Slightly Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye damage.

Irritation Corrosion - Eye

DECYL GLUCOSIDE	OECD 405 Result: Corrosive Species: Rabbit
CITRIC ACID	OECD 405 Result: Irritating Species: Rabbit
SODIUM COCOYL ISETHIONATE	OECD 405 Result: Irritating Species: Rabbit
SALICYLIC ACID	Result: Severely Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

DECYL GLUCOSIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
SODIUM COCOYL ISETHIONATE	OECD 406 Result: Not Sensitizing Species: Guinea pig
CITRIC ACID	OECD 406 Result: Not Sensiziting Species: Guinea pig
SALICYLIC ACID	OECD 429 Result: Not Sensitizing Species: Mouse

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

CITRIC ACID	Result: In vitro and in vivo tests did not show mutagenic effects.
DECYL GLUCOSIDE	Result: In vitro and in vivo tests did not show mutagenic effects.
SODIUM COCOYL ISETHIONATE	Result: In vitro tests did not show mutagenic effect

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Suspected of damaging the unborn child.

Developmental effects

CITRIC ACID	> 295 mg/kg bw/d, No effects on development Result: NOAEL Species: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOEL Species: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 414, No effects on development Species: Rat
SALICYLIC ACID	75 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 421, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 421, No effects on fertility Result: NOAEL Species: Rat
SALICYLIC ACID	250 mg/kg bw/d OECD 416, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
CITRIC ACID	2500 mg/kg bw/d, No effects on fertility Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d >= 2070 mg/kg bw/d OECD 410, Dermal Result: NOAEL Species: Rat Test Duration: 28 d
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B.26, Oral Result: NOAEL Species: Rat Test Duration: 90 d
CITRIC ACID	4000 mg/kg bw/d, Oral Result: NOAEL Species: Rat Test Duration: 10 d
SALICYLIC ACID	700 mg/m3 air OECD 412, Based on test data for structurally similar materials. Result: NOEC Species: Rat Test Duration: 28 d

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
CITRIC ACID (CAS 77-92-9)			
Aquatic			
Algae	EC50	Microcystis aeruginosa	80 mg/l, 7 d

Components		Species	Test Results
Crustacea	LC50	Daphnia magna	1535 mg/l, 24 h
Fish	LC50	Leuciscus idus	440 - 760 mg/l, 96 h OECD 203

Algae	EC10	Pseudokirchneriella subcapitata	0.1 - 1 mg/l, 72 h OECD 201

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

CITRIC ACID	97 % OECD 301 B Test Duration: 28 d
SALICYLIC ACID	100 % OECD 301 C Result: Readily Biodegradable Test Duration: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d

Percent degradation (Aerobic biodegradation-inherent)

DECYL GLUCOSIDE	100 % OECD 301 E Result: Readily Biodegradable Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

CITRIC ACID	-1.64
SALICYLIC ACID	2.26
SODIUM COCOYL ISETHIONATE	-0.41

Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT EXTREME BLONDE TONING SHAMPOO**

Autres moyens d'identification

Numéro de la FDS 00-11-0001281

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 1
Toxicité pour la reproduction (le fœtus)	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Provoque de graves lésions des yeux. Susceptible de nuire au fœtus.

Conseil de prudence

Prévention Se procurer les instructions avant utilisation. Ne pas manipuler avant d'avoir lu et compris toutes les précautions de sécurité. Porter des gants de protection/des vêtements de protection/un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Appeler immédiatement un centre antipoison/médecin.

Stockage Garder sous clef.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
DECYL GLUCOSIDE		68515-73-1	6

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
SODIUM COCOYL ISETHIONATE		61789-32-0	5.7
ACIDE CITRIQUE		77-92-9	1
ACIDE SALICYLIQUE		69-72-7	0.2

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales EN CAS d'exposition prouvée ou suspectée : Demander un avis médical/Consulter un médecin. En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger. Présenter cette fiche de données de sécurité au médecin traitant.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention
Se procurer les instructions avant utilisation. Ne pas manipuler avant d'avoir lu et compris toutes les précautions de sécurité. Éviter tout contact de ce produit avec les yeux. Les femmes enceintes ou allaitantes ne doivent pas manipuler ce produit. Doit être manipulé dans des systèmes fermés, si possible. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités
Garder sous clef. Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Valeurs biologiques limites
Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés
Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux
Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Protection de la peau

Protection des mains
Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre
Pour usage industriel seulement. Porter un vêtement de protection approprié. Il est recommandé d'utiliser un tablier imperméable.

Protection respiratoire
Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Dangers thermiques
Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale
Suivre toutes les exigences de surveillance médicale. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique
Liquide.

Forme
Crème.

Couleur
Non disponible.

Odeur
Caractéristique.

Seuil olfactif
Non disponible.

pH
5.3 - 5.9

Point de fusion et point de congélation
Non disponible.

Point initial d'ébullition et domaine d'ébullition
> 100 °C (> 212 °F)

Point d'éclair
> 93.3 °C (> 199.9 °F) Coupelle fermée

Taux d'évaporation
Non disponible.

Inflammabilité (solides et gaz)
Sans objet.

Limites supérieures et inférieures d'inflammabilité ou d'explosibilité

Limites d'inflammabilité - inférieure (%)
Non disponible.

Limites d'inflammabilité - supérieure (%)
Non disponible.

Limite d'explosibilité - inférieure (%)
Non disponible.

Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	On ne s'attend à aucun effet néfaste en cas d'inhalation.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque de graves lésions des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Peut causer une lésion permanente aux yeux, y compris la cécité.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Corrosion cutanée/irritation cutanée On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

ACIDE CITRIQUE	OCDE 404 Résultat: Légèrement Irritant Espèces: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 404 Résultat: Légèrement Irritant Espèces: Lapin
ACIDE SALICYLIQUE	OCDE 404 Résultat: Non Irritant Espèces: Lapin
DECYL GLUCOSIDE	OCDE 404 Résultat: Non Irritant Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque de graves lésions des yeux.

Irritation- corrosion - Œil

DECYL GLUCOSIDE	OCDE 405 Résultat: Corrosif Espèces: Lapin
ACIDE CITRIQUE	OCDE 405 Résultat: Irritant Espèces: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 405 Résultat: Irritant Espèces: Lapin
ACIDE SALICYLIQUE	Résultat: Gravement Irritant Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée On ne s'attend pas à ce que ce produit provoque une sensibilisation cutanée.

Sensibilisation cutanée

DECYL GLUCOSIDE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
SODIUM COCOYL ISETHIONATE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye

Sensibilisation cutanée

ACIDE CITRIQUE	OCDE 406 Résultat: Not Sensiziting Espèces: Cobaye
ACIDE SALICYLIQUE	OCDE 429 Résultat: Non Sensibilisant Espèces: Souris

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

ACIDE CITRIQUE	Résultat: Des essais in vitro et in vivo n'ont pas montré d'effets mutagènes.
DECYL GLUCOSIDE	Résultat: Des essais in vitro et in vivo n'ont pas montré d'effets mutagènes.
SODIUM COCOYL ISETHIONATE	Résultat: In vitro tests did not show mutagenic effect

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction Susceptible de nuire au fœtus.

Effets sur le développement

ACIDE CITRIQUE	> 295 mg/kg bw/d, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSEO Espèces: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Espèces: Rat
ACIDE SALICYLIQUE	75 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat

Reproductivité

SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 421, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 421, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat
ACIDE SALICYLIQUE	250 mg/kg bw/d OCDE 416, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat
ACIDE CITRIQUE	2500 mg/kg bw/d, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OCDE 407, Orale Résultat: DSENO Espèces: Rat Durée du test: 28 d

Toxicité pour certains organes cibles - expositions répétées

SODIUM COCOYL ISETHIONATE	>= 2070 mg/kg bw/d OECD 410, Cutané Résultat: DSENO Espèces: Rat Durée du test: 28 d
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B.26, Orale Résultat: DSENO Espèces: Rat Durée du test: 90 d
ACIDE CITRIQUE	4000 mg/kg bw/d, Orale Résultat: DSENO Espèces: Rat Durée du test: 10 d
ACIDE SALICYLIQUE	700 mg/m3 air OCDE 412, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEC (concentration sans effet observé) Espèces: Rat Durée du test: 28 d

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis

Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux

No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre)

Non réglementé.

Avis de non-responsabilité

À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT EXTREME BLONDE TONING SHAMPOO

鉴别的其他方法

SDS编号 00-11-0001281

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害

严重眼睛损伤/眼睛刺激性	类别 1
生殖毒性 (胎儿)	类别 2

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

警示词 危险

危险性说明 造成严重眼损伤。 怀疑对胎儿造成伤害。

防范说明

预防措施 在使用前获取特别指示。 在读懂所有安全防范措施之前切勿搬动。 戴防护手套/穿防护服/戴防护眼罩/戴防护面具。

事故响应 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。 如接触到或有疑虑：呼叫解毒中心/医生。

安全储存 存放处须加锁。

废弃处置 按照地方/区域/国家/国际规章处置内装物/容器。

未经其他分类的有害物 (HNOC) 未知。

补充信息 无。

3. 成分/组成信息

混合物

化学名称	通用名称和别名	登记号(CAS号)	%
DECYL GLUCOSIDE		68515-73-1	6
SODIUM COCOYL ISETHIONATE		61789-32-0	5.7
柠檬酸		77-92-9	1
水杨酸		69-72-7	0.2

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入	移至空气新鲜处。 如果症状持续或恶化，联络医生。
皮肤接触	用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。
眼睛接触	立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 立即就医。
经口	漱口。 如症状出现，就医。
最重要的症状/影响，急性和延迟性	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。
指明任何需要立即就医或特殊治疗的情况	提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。
一般信息	如接触到或有疑虑：求医/就诊。 如感觉不舒服,寻求医生的建议(可能的话出示此标签)。 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。 出示此安全技术说明书给到现场的医生看。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	在使用前获取特别指示。 在读懂所有安全防范措施之前切勿搬动。 不得让本材料接触眼睛。 怀孕或正在哺乳的妇女不得接触本品。 如果可能，应在密闭系统里操作。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	存放处须加锁。 储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

生物限值	没有该成分的生物接触限值。
适当的技术控制	应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。
个人防护措施，如个人防护设备	
眼/面保护	仅用於工业环境。 带有机蒸气滤毒罐和全面罩的化学呼吸器。
皮肤防护	
手防护	仅用於工业环境。 佩戴适当的抗化学手套。
其它的，其它	仅用於工业环境。 需穿上合适的防护衣服。 建议使用不渗透的围裙。
呼吸系统防护	仅用於工业环境。 带有机蒸气滤毒罐和全面罩的化学呼吸器。
热危害	必要时，穿戴适当的热防护服。
一般的卫生考虑	遵守医务监督的要求。 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状	液体。
形状	奶油。
颜色	无资料。
气味	特征的。
气味阈值	无资料。
pH 值	5.3 - 5.9
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 93.3 ° C (> 199.9 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。
燃烧上/下限或爆炸极限	
燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。
溶解性	
溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。
其他信息	
爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 避免温度超過閃火點温度。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	预期吸入无有害影响。
皮肤接触	预计没有因皮肤接触导致的任何有害影响。
眼睛接触	造成严重眼损伤。
经口	预计较低的食入危害。
与物理,化学和毒物学特性有关的症状	严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 会导致包括失明等永久性眼睛损伤。
毒理学效应信息	
急性毒性	未知。

产品	物种	试验结果

经皮肤		
LD50	大鼠	> 2000 mg/kg OECD 402

皮肤腐蚀/刺激 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

SODIUM COCOYL ISETHIONATE	OECD 404 结果: 轻微刺激性 物种: 兔子
柠檬酸	OECD 404 结果: 轻微刺激性 物种: 兔子
DECYL GLUCOSIDE	OECD 404 结果: 非刺激性 物种: 兔子
水杨酸	OECD 404 结果: 非刺激性 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼损伤。

刺激性腐蚀性 - 眼睛

SODIUM COCOYL ISETHIONATE	OECD 405 结果: 刺激性的 物种: 兔子
柠檬酸	OECD 405 结果: 刺激性的 物种: 兔子
DECYL GLUCOSIDE	OECD 405 结果: 腐蚀性的 物种: 兔子
水杨酸	结果: 重度刺激性 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 不是呼吸道致敏物。

皮肤致敏物 此产品将不会引起皮肤敏感。

皮肤致敏物

DECYL GLUCOSIDE	OECD 406 结果: Not Sensitizing 物种: 豚鼠
SODIUM COCOYL ISETHIONATE	OECD 406 结果: Not Sensitizing 物种: 豚鼠
柠檬酸	OECD 406 结果: Not Sensiziting 物种: 豚鼠
水杨酸	OECD 429 结果: Not Sensitizing 物种: 小鼠

生殖细胞突变性 无数据表明本产品或其含量超过0.1%的任何组分具有致变性或基因毒性。

突变性

SODIUM COCOYL ISETHIONATE	结果: In vitro tests did not show mutagenic effect
DECYL GLUCOSIDE	结果: 体外和体内试验均未见致突变作用。
柠檬酸	结果: 体外和体内试验均未见致突变作用。

致癌性 尚不能确定对人有致癌作用。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

不适用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 怀疑对胎儿造成伤害。

发育效应

柠檬酸	> 295 mg/kg bw/d, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 414, 对发展没有影响 物种: 大鼠
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 414, 根据结构相似材料的试验数据。 结果: 无可观察到的效应剂量（NOEL） 物种: 大鼠
水杨酸	75 mg/kg bw/d OECD 414 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

DECYL GLUCOSIDE	1000 mg/kg bw/d OECD 421, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OECD 421, 根据结构相似材料的试验数据。 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
水杨酸	250 mg/kg bw/d OECD 416, 根据结构相似材料的试验数据。 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
柠檬酸	2500 mg/kg bw/d, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 未被分类。

特定目标器官系统毒性－重复接触 未被分类。

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OECD 407, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D

特定目标器官系统毒性－重复接触

SODIUM COCOYL ISETHIONATE	>= 2070 mg/kg bw/d OECD 410, 经皮肤 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B.26, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
柠檬酸	4000 mg/kg bw/d, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 10 D
水杨酸	700 mg/m3 空气 OECD 412, 根据结构相似材料的试验数据。 结果: 无明显反应浓度（NOEC） 物种: 大鼠 测试时间: 28 D

吸入危害 非吸入危险。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
DECYL GLUCOSIDE (CAS 68515-73-1)

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

FICHA DE DATOS DE SEGURIDAD

1. Identificación

Identificador del producto **PULP RIOT EXTREME BLONDE TONING SHAMPOO**

Otros medios de identificación

Número de FDS 00-11-0001281

Uso recomendado Producto de cuidado personal para uso cosmético.

Restricciones recomendadas Ninguno conocido.

Información sobre el fabricante/importador/proveedor/distribuidor

Dirección: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Teléfono de Emergencias 1-800-535-5053 (Internacional: 352-323-3500)

Para más información: 1-732-499-2741

2. Identificación de los peligros

Peligros físicos No clasificado.

Peligros para la salud

Lesiones oculares graves/irritación ocular	Categoría 1
Toxicidad para la reproducción (feto)	Categoría 2

Peligros definidos por la OSHA No clasificado.

Elementos de la etiqueta

Palabra de advertencia Peligro

Declaración de peligro Provoca lesiones oculares graves. Se sospecha que puede perjudicar daña al feto.

Consejos de prudencia

Prevención Solicitar instrucciones especiales antes del uso. No manipular la sustancia antes de haber leído y comprendido todas las instrucciones de seguridad. Llevar guantes/prendas/gafas/máscara de protección.

Respuesta En caso de contacto con los ojos: Aclárese cuidadosamente con agua durante varios minutos. Quítense las lentes de contacto, si se llevan y resulta fácil hacerlo. Sígase aclarando. Llámese inmediatamente a un centro toxicológico o a un médico.

Almacenamiento Guardar bajo llave.

Eliminación Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Peligro(s) no clasificados en otra parte [Hazard(s) not otherwise classified (HNOC)] Ninguno conocido.

Información complementaria Ninguno.

3. Composición/información sobre los componentes

Mezclas

Denominación química	Nombre común y sinónimos	Número CAS	%
DECYL GLUCOSIDE		68515-73-1	6
SODIUM COCOYL ISETHIONATE		61789-32-0	5.7

Denominación química	Nombre común y sinónimos	Número CAS	%
ACIDO CITRICO		77-92-9	1
Acido salicílico		69-72-7	0.2

*Significa que una identidad química y/o porcentaje de composición específicos han sido reservados como secreto comercial.

4. Primeros auxilios

Inhalación
Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel
Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos
Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Conseguir atención médica inmediatamente.

Ingestión
Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

Principales síntomas y efectos, agudos y retardados
Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera.

Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente
Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.

Información general
EN CASO DE exposición manifiesta o presunta: Consultar a un médico.
En caso de malestar, acuda al médico (si es posible, muéstrele la etiqueta). Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse. Mostrar esta ficha de seguridad al doctor que esté de servicio.

5. Medidas de lucha contra incendios

Medios de extinción apropiados
Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).

Medios de extinción no apropiados
No utilice chorro de agua, pues extendería el fuego.

Peligros específicos que presenta el producto químico
En caso de incendio se pueden formar gases nocivos.

Equipo de protección especial y medidas de precaución para el personal de lucha contra incendios
Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.

Equipo/Instrucciones para la extinción de incendios
Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.

Métodos específicos
Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

Riesgos generales de incendio
Ningún riesgo excepcional de incendio o explosión señalado.

6. Medidas en caso de vertido accidental

Precauciones personales, equipo de protección y procedimientos de emergencia
Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Use equipo y ropa de protección apropiados durante la limpieza. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.

Métodos y material de contención y de limpieza
Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua.

Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación.

Nunca devuelva el producto derramado al envase original para reutilizarlo. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

Precauciones relativas al medio ambiente
No verter los residuos al desagüe, al suelo o las corrientes de agua.

7. Manipulación y almacenamiento

Precauciones para una manipulación segura
Solicitar instrucciones especiales antes del uso. No manipular la sustancia antes de haber leído y comprendido todas las instrucciones de seguridad. No poner este material en contacto con los ojos. Las mujeres embarazadas o lactantes no deben manipular este producto. De ser posible, debe manejarse en sistemas cerrados. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.

Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades
Guardar bajo llave. Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

8. Control de la exposición/protección personal

Valores límite biológicos
No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Controles técnicos apropiados
Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Protección de los ojos/la cara
De aplicación solamente en entornos industriales. Equipo respiratorio con cartucho de vapor orgánico y pantalla facial.

Protección de la piel

Protección de las manos
De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

Otros
De aplicación solamente en entornos industriales. Úsese indumentaria protectora adecuada. Se recomienda el uso de delantal impermeable.

Protección respiratoria
De aplicación solamente en entornos industriales. Equipo respiratorio con cartucho de vapor orgánico y pantalla facial.

Peligros térmicos
Use ropa protectora térmica adecuada si resulta necesario.

Consideraciones generales de higiene
Obsérvense todos los requisitos de vigilancia médica. Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

9. Propiedades físicas y químicas

Aspecto

Estado físico
Líquido.

Forma
Nata.

Color
No disponible.

Olor
Característico.

Umbral olfativo
No disponible.

pH
5.3 - 5.9

Punto de fusión/punto de congelación
No disponible.

Punto inicial de ebullición e intervalo de ebullición
> 100 °C (> 212 °F)

Punto de inflamación
> 93.3 °C (> 199.9 °F) Copa Cerrada

Tasa de evaporación
No disponible.

Inflamabilidad (sólido, gas)
No aplicable.

Límites superior/inferior de inflamabilidad o de explosividad

Límite de inflamabilidad - inferior (%)
No disponible.

Límite de inflamabilidad - superior (%)
No disponible.

Límite de explosividad inferior (%)	No disponible.
Límite de explosividad superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Información adicional	
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

10. Estabilidad y reactividad

Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
Estabilidad química	El material es estable bajo condiciones normales.
Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Evitar temperaturas por encima del punto de flash. Contacto con materiales incompatibles.
Materiales incompatibles	Agentes oxidantes fuertes.
Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

11. Información toxicológica

Información sobre posibles vías de exposición

Inhalación	No es de esperar que se produzcan efectos adversos por inhalación.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.
Contacto con los ojos	Provoca lesiones oculares graves.
Ingestión	Se espera que representa un riesgo reducido de ingestión.
Síntomas relacionados a las características físicas, químicas y toxicológicas	Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Podrían producirse daños oculares permanentes, incluso ceguera.

Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Peligro por aspiración No constituye ningún peligro por aspiración.

Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

12. Información ecológica

Ecotoxicidad El producto no está clasificado como peligroso para el medio ambiente. No obstante, eso no excluye la posibilidad de que vertidos grandes o frecuentes puedan tener efectos nocivos o dañinos para el medio ambiente.

Componentes		Especies	Resultados de la prueba
ACIDO CITRICO (CAS 77-92-9)			
Acuático (a)			
Algas	EC50	Microcystis aeruginosa	80 mg/l, 7 d

Algas	EC10	Pseudokirchneriella subcapitata	0.1 - 1 mg/l, 72 h OECD 201

Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica - inherente)

DECYL GLUCOSIDE	100 % OECD 301 E Resultado: Fácilmente Biodegradable Duración de la prueba: 28 d

Porcentaje de degradación (biodegradación aeróbica)

ACIDO CITRICO	97 % OECD 301 B Duración de la prueba: 28 d
Acido salicílico	100 % OECD 301 C Resultado: Fácilmente Biodegradable Duración de la prueba: 28 d
SODIUM COCOYL ISETHIONATE	78 % OECD 301 D Resultado: Fácilmente Biodegradable Duración de la prueba: 28 d

Potencial de bioacumulación

Octanol/agua, coeficiente de partición log Kow

ACIDO CITRICO	-1.64
Acido salicílico	2.26
SODIUM COCOYL ISETHIONATE	-0.41

Movilidad en el suelo No hay datos disponibles.

Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

13. Consideraciones relativas a la eliminación

Instrucciones para la eliminación Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Normativas de eliminación locales Elimine de acuerdo con todas las reglamentaciones aplicables.

Desechos de residuos / producto no utilizado Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

14. Información relativa al transporte

DOT

FINISHED GOODS

No se regula como artículo peligroso.

BULK

No se regula como artículo peligroso.

IATA

FINISHED GOODS

No se regula como artículo peligroso.

2. Nhận diện các hiểm họa

Hiểm Họa Vật Lý Không được phân loại.

Hiểm Họa Cho Sức Khỏe

Gây tổn thương mắt /kích ứng mắt nghiêm trọng	Loại 1
Độc tích sinh sản (thai nhi)	Loại 2

OSHA defined hazards Không được phân loại.

Các thành phần của nhãn

Từ cảnh báo Nguy hiểm

Công bố hiểm họa Gây tổn thương nặng cho mắt. Nghi ngờ gây tổn thương cho thai nhi.

Thông điệp đề phòng

Phòng Ngừa Xin được hướng dẫn đặc biệt trước khi sử dụng. Không được thao tác nếu chưa đọc và hiểu tất cả mọi biện pháp đề phòng cho an toàn. Sử dụng găng tay bảo hộ/phương tiện bảo vệ mắt/mặt.

Ứng phó Nếu bị văng vào mắt: Rửa cẩn thận bằng nước trong nhiều phút. Lấy kính tiếp xúc ra, nếu có và dễ thực hiện. Tiếp tục rửa. Gọi ngay cho một trung tâm độc chất/bác sĩ.

Bảo Quản Bảo quản khóa chặt.

Thải bỏ Vứt bỏ vật chứa bên trong/thùng chứa tuân theo các quy định địa phương/khu vực/quốc gia/quốc tế.

Hazard(s) not otherwise classified (HNOC) Chưa được biết.

Thông tin thêm Không có.

3. Thành phần/ thông tin về các phụ liệu

Các hỗn hợp

Tên Hóa Chất	Tên thông dụng và từ đồng nghĩa	Số CAS	%
DECYL GLUCOSIDE		68515-73-1	6
SODIUM COCOYL ISETHIONATE		61789-32-0	5.7
AXIT CITRIC		77-92-9	1

Tên Hóa Chất	Tên thông dụng và từ đồng nghĩa	Số CAS	%
AXIT SALICYLIC		69-72-7	0.2

*Cho biết lai lịch và/hoặc thành phần phần trăm của một hóa chất cụ thể đã được lưu giữ ở dạng bí mật thương mại.

4. Các biện pháp sơ cứu

Hít phải
Đưa ra nơi không khí trong lành. Hãy gọi cho bác sĩ nếu các triệu chứng xuất hiện hoặc không hết.

Tiếp xúc với da
Rửa sạch bằng xà bông và nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng

Tiếp xúc với mắt
Rửa mắt ngay bằng nhiều nước trong ít nhất 15 phút. Tháo kính sát tròng, nếu có và nếu dễ tháo. Tiếp tục súc rửa. Tìm gặp y bác sĩ ngay để được chăm sóc điều trị.

Ăn phải
Súc miệng. Tìm gặp y bác sĩ để điều trị nếu các triệu chứng xảy ra.

Các triệu chứng/tác dụng quan trọng nhất, cấp tính và chậm xuất hiện
Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt. Có thể dẫn đến bị tổn thương mắt vĩnh viễn kể cả mù.

Dấu hiệu cần phải được chăm sóc y tế ngay lập tức và điều trị đặc biệt
Có các biện pháp hỗ trợ tổng quát và điều trị triệu chứng. Theo dõi nạn nhân. Các triệu chứng có thể chậm.

Thông tin tổng quát
NẾU bị tiếp xúc hoặc lo ngại: Tìm gặp bác sĩ để được hướng dẫn/chăm sóc.
Nếu bạn cảm thấy không khoẻ, hãy đi khám (đưa nhãn dán cho bác sĩ xem nếu có thể). Đảm bảo rằng các nhân viên y tế nhận thức được (các) vật liệu liên quan, và thực hiện thận trọng để bảo vệ chính mình. Đưa phiếu dữ liệu an toàn hoá chất này cho bác sỹ chăm sóc.

5. Các biện pháp cứu hỏa

Các chất chữa cháy phù hợp
Sương nước. Bọt. Bộ hóa chất khô. Carbon dioxide (CO2).

Chất chữa cháy không phù hợp
Không dùng vòi xịt nước để dập lửa, vì việc này sẽ gây lan thêm lửa.

Hiểm họa đặc trưng phát sinh từ hóa chất
Trong khi cháy, các khí nguy hiểm cho sức khỏe có thể được hình thành.

Trang bị bảo hộ đặc biệt cho nhân viên chữa cháy
Phải sử dụng thiết bị thở tự điều khiển và trang phục bảo hộ đầy đủ khi chữa cháy.

Các chỉ dẫn/trang thiết bị cứu hỏa
Đưa các thùng chứa ra khỏi khu vực cháy nếu bạn có thể làm mà không gặp nguy hiểm.

Các biện pháp cụ thể
Sử dụng các quy trình chữa cháy tiêu chuẩn và xem xét các hiểm họa của các vật liệu liên quan khác.

Các hiểm họa cháy nói chung
Không có hiểm họa cháy hoặc nổ bất thường nào đáng chú ý.

6. Các biện pháp xử lý rò rỉ bất ngờ

Các biện pháp đề phòng cá nhân, thiết bị bảo vệ và các quy trình xử lý khẩn cấp
Để xa những người không cần thiết. Giữ mọi người tránh xa khỏi khu vực tràn đổ/rò rỉ và tránh hướng gió thổi. Mang thiết bị và quần áo bảo hộ thích hợp trong khi dọn dẹp. Không chạm vào các dụng cụ đựng đã hư hỏng hoặc vật liệu tràn đổ trừ khi có sử dụng trang phục bảo vệ phù hợp. Đảm bảo sự thông hơi đầy đủ. Các nhà chức trách địa phương cần được thông báo nếu xảy ra sự cố tràn đổ lớn không thể kiểm soát được. Về vấn đề bảo hộ cá nhân, xin xem mục 8 của Phiếu An Toàn Hóa Chất.

Phương pháp và vật liệu để ngăn chặn và làm sạch
Lượng Đổ Lớn: Ngăn dòng chảy vật liệu, nếu việc này không gây nguy hiểm. Đắp đê giữ vật liệu đã đổ, khi có thể. Dùng chất khoáng bón cây, cát hoặc đất khô thấm hút rồi cho vào thùng chứa. Sau khi thu hồi sản phẩm, dùng nước xả sạch khu vực.

Lượng Đổ Nhỏ: Lau sạch bằng các vật liệu hút nước (ví dụ như khăn, bông). Làm sạch bề mặt cẩn thận để loại bỏ lượng ô nhiễm còn lại.

Không bao giờ bỏ chất đã đổ vào bao chứa ban đầu để tái sử dụng. Về thải bỏ chất thải, xin xem mục 13 của Phiếu An Toàn Hóa Chất.

Các biện pháp đề phòng cho môi trường
Không xả vào cống rãnh, kênh rạch hoặc xuống đất.

7. Thao tác và bảo quản

Các biện pháp đề phòng cho thao tác an toàn

Xin được hướng dẫn đặc biệt trước khi sử dụng. Không được thao tác nếu chưa đọc và hiểu tất cả mọi biện pháp đề phòng cho an toàn. Không để vật liệu này tiếp xúc với mắt. Phụ nữ có thai và đang cho con bú không được làm việc với sản phẩm này. Nên thao tác trong các hệ thống kín, nếu có thể được. Thực hiện thông khí đầy đủ. Sử dụng thiết bị bảo hộ cá nhân phù hợp. Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.

Các điều kiện bảo quản an toàn, kể cả mọi tính chất tương kỵ

Bảo quản khóa chặt. Cất giữ trong dụng cụ đựng thật kín. Giữ xa tầm tay của trẻ em. Bảo quản xa các vật liệu tương kỵ (Xem Mục 10 của Phiếu An Toàn Hóa Chất).

8. Kiểm soát việc tiếp xúc / bảo hộ cá nhân

Các giá trị giới hạn sinh học

Không có giới hạn tiếp xúc sinh học nào đáng lưu ý cho (các) thành phần.

Các biện pháp kiểm soát kỹ thuật phù hợp

Nên sử dụng phương pháp thông khí toàn bộ. Tốc độ thông khí phải phù hợp với các điều kiện. Nếu áp dụng, sử dụng tủ xử lý kín, thông hút khí tại chỗ, hoặc các biện pháp kỹ thuật khác để duy trì mức nồng độ trong không khí dưới giới hạn tiếp xúc đề nghị. Nếu chưa thiết lập được các giới hạn tiếp xúc, hãy duy trì mức nồng độ trong không khí ở mức có thể chấp nhận. Cung cấp nơi rửa mắt.

Các biện pháp bảo vệ cá nhân, như trang bị bảo hộ cá nhân

Biện pháp bảo vệ mắt/mặt

Chỉ được áp dụng đối với các môi trường công nghiệp. Mặt nạ chống hóa chất có ống lọc hơi hữu cơ và kính che toàn bộ mặt.

Bảo vệ da

Bảo vệ tay

Chỉ được áp dụng đối với các môi trường công nghiệp. Mang bao tay chống hóa chất thích hợp.

Khác

Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc trang phục bảo hộ thích hợp. Nên sử dụng tạp dề không thấm.

Bảo vệ đường hô hấp

Chỉ được áp dụng đối với các môi trường công nghiệp. Mặt nạ chống hóa chất có ống lọc hơi hữu cơ và kính che toàn bộ mặt.

Các hiểm họa nhiệt

Sử dụng trang phục bảo hộ chống nhiệt, khi cần thiết.

Các lưu ý vệ sinh chung

Tuân thủ mọi yêu cầu về giám sát y tế. Luôn giám sát việc thực hiện tốt các biện pháp vệ sinh cá nhân, như rửa sạch sau khi làm việc với vật liệu và trước khi ăn, uống, và/hoặc hút thuốc. Thường xuyên giặt quần áo và các thiết bị bảo hộ cho sạch các chất gây ô nhiễm.

9. Tính chất lý hóa

Ngoại Quan

Trạng thái vật lý	Chất lỏng.
Dạng	Kem.
Màu	Không có.
Mùi	Đặc điểm.
Ngưỡng phát hiện mùi	Không có.
pH	5.3 - 5.9
Điểm chảy/điểm đông	Không có.
Điểm và vùng nhiệt độ sôi ban đầu	> 100 °C (> 212 °F)
Điểm chớp cháy	> 93.3 °C (> 199.9 °F) Cốc Kín
Tốc độ bay hơi	Không có.
Khả năng cháy (rắn, khí)	Không áp dụng.

Giới hạn cháy trên/dưới hoặc các giới hạn nổ

Giới hạn cháy - dưới (%)	Không có.
Giới hạn cháy - trên (%)	Không có.
Giới hạn nổ – dưới (%)	Không có.
Giới hạn nổ – trên (%)	Không có.
Áp suất hơi	Không có.
Tỷ khối hơi	Không có.
Tỷ trọng tương đối	Không có.

(Các) độ tan

Tính tan (nước)	Không có.

Hệ số phân tách (n-octanol/nước)	Không có.
Nhiệt độ tự bốc cháy	Không có.
Nhiệt độ phân hủy	Không có.
Độ nhớt	Không có.

Thông tin khác

Các tính chất nổ	Không nổ.
Các tính chất oxy hóa	Không oxy hóa.

10. Độ bền và khả năng phản ứng

Khả năng phản ứng	Sản phẩm ổn định và không phản ứng trong các điều kiện sử dụng, bảo quản và vận chuyển bình thường.
Độ bền hóa học	Vật liệu ổn định trong các điều kiện bình thường.
Khả năng gây phản ứng nguy hiểm	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Các điều kiện cần tránh	Tránh xa nhiệt, bề mặt nóng, tia lửa, ngọn lửa trần, và các nguồn gây cháy khác. Tránh các nhiệt độ vượt quá điểm bốc cháy. Tiếp xúc với các vật liệu tương kỵ.
Các vật liệu tương kỵ	Các chất oxy hóa mạnh.
Các sản phẩm phân hủy gây nguy hiểm	Không sản phẩm phân hủy nguy hại nào được biết đến.

11. Thông tin về độc tính

Thông tin về các lộ trình tiếp xúc có khả năng xảy ra

Hít phải	Được xem là không gây ra các tác dụng có hại do hít phải.
Tiếp xúc với da	Được xem là không gây các tác dụng có hại khi tiếp xúc với da.
Tiếp xúc với mắt	Gây tổn thương nặng cho mắt.
Ăn phải	Được xem là có hiểm họa ăn phải thấp.
Triệu chứng liên quan đến tính chất vật lý, hóa học và độc tính.	Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt. Có thể dẫn đến bị tổn thương mắt vĩnh viễn kể cả mù.

Thông tin về các tác dụng độc

Độc tính cấp tính Chưa được biết.

Di chuyển trong đất Không có dữ liệu.

Các tác dụng có hại khác Không có các tác dụng bất lợi cho môi trường nào khác (ví dụ, gây suy yếu tầng ozon, khả năng tạo ozon bằng phương pháp quang hóa, rối loạn nội tiết, khả năng làm tăng nhiệt độ trái đất) được xem là sẽ gặp phải từ thành phần này.

13. Các cân nhắc khi thải bỏ

Các Hướng Dẫn Thải Bỏ Thu gom và tái chế hoặc thải bỏ trong các dụng cụ đựng kín tại các bãi rác thải được phép. Vứt bỏ vật chứa bên trong/thùng chứa tuân theo các quy định địa phương/khu vực/quốc gia/quốc tế.

Các quy định tiêu hủy của địa phương Vứt bỏ tuân theo tất cả các quy định hiện hành.

Chất thải từ cặn lắng/ sản phẩm không sử dụng Loại bỏ theo quy định của địa phương Các dụng cụ đựng hoặc túi lót rỗng có thể còn chứa các cặn dư của sản phẩm. Vật liệu này và dụng cụ đựng của nó phải được thải bỏ bằng một cách thức an toàn (xem: Hướng dẫn thải bỏ).

Bao bì bị ô nhiễm Vì các dụng cụ đựng đã cạn vẫn có thể còn lại cặn sản phẩm, thực hiện dán nhãn cảnh báo ngay cả sau khi dụng cụ đựng đã cạn. Các thùng chứa rỗng cần được đưa tới cơ sở đủ tiêu chuẩn để tái chế hoặc loại bỏ

16. Thông tin khác, kể cả ngày soạn thảo hoặc sửa đổi

Ngày Ban Hành	24-Tháng-Ba-2023
Phiên bản số	01
Xếp hạng NFPA	Sức Khỏe: 3 Khả Năng Cháy: 1 Tính không ổn định: 0
Khước Từ Trách Nhiệm	Thông tin trong Bản Thông Tin An Toàn này là chính xác theo mức độ hiểu biết nhất của chúng tôi, thông tin chúng tôi có được và sự tin tưởng của chúng tôi vào ngày công bố tài liệu này. Thông tin được soạn thảo chỉ nhằm mục đích hướng dẫn cho việc thao tác, sử dụng, chế biến, bảo quản, vận chuyển, thải bỏ và xử lý rò rỉ được an toàn và không được xem là một sự bảo đảm hay đặc điểm chất lượng. Thông tin này chỉ liên quan đến riêng vật liệu đề cập trên và sẽ không hợp lệ khi vật liệu đó được sử dụng kết hợp với bất kỳ vật liệu nào khác hoặc bất kỳ quá trình chế biến nào, nếu không được nêu rõ trong tài liệu này.

MAYBELLINE NEW YORK

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	MAYBELLINE NEW YORK FACESTUDIO LASTING FIX SETTING SPRAY
Synonyms	None.
SDS number	34-68-0000028
Product code	2063292
Issue date	03-24-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary Not classified for health hazards. However, occupational exposure to the mixture or substance(s) may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P280	Wear protective gloves/eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 2,34% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 6,34% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
ETHANOL	4,66	64-17-5 200-578-6	01-2119457610-43	603-002-00-5	
Classification:	Flam. Liq. 2;H225, Eye Irrit. 2;H319				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections

For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Avoid prolonged exposure. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value

		1,25 mg/m3	Respirable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
ETHANOL (CAS 64-17-5)	STEL	1000 ppm	

Italy. Occupational Exposure Limits

Components	Type	Value	Form
TALC (CAS 14807-96-6)	TWA	2 mg/m3	Respirable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
ETHANOL (CAS 64-17-5)	TWA	1900 mg/m3	
PROPYLENE GLYCOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalable fraction and vapor.
TALC (CAS 14807-96-6)	TWA	4 mg/m3	Inhalable fraction.
		1 mg/m3	Respirable fraction.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
ETHANOL (CAS 64-17-5)	STEL	1910 mg/m3	
		1000 ppm	
TALC (CAS 14807-96-6)	TWA	2 mg/m3	Respirable fraction.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state Liquid.

Color Colorless

Odor Not available.

Odor threshold Not available.

pH 6 - 6,8

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point 154,4 °F (68,0 °C) Closed Cup

Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on toxicological effects

Acute toxicity

Components	Species	Test Results
ETHANOL (CAS 64-17-5)		
Acute		
Dermal		
LD50	Rabbit	> 20000 mg/kg
Inhalation		
Vapor		
LC50	Rat	124,7 mg/l, 4 h OECD 403
Oral		
LD50	Rat	10470 mg/kg OECD 401

Skin corrosion/irritation	Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin
ETHANOL — OECD 404
Result: Not Irritating
Species: Rabbit

Serious eye damage/eye irritation — Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.

Irritation Corrosion - Eye
ETHANOL — OECD 405
Result: Irritating
Species: Rabbit

Respiratory sensitization — Due to partial or complete lack of data the classification is not possible.

Skin sensitization — Due to partial or complete lack of data the classification is not possible.

Skin sensitization
ETHANOL — OECD 406
Result: Not Sensitizing
Species: Guinea pig

Germ cell mutagenicity — Due to partial or complete lack of data the classification is not possible.

Mutagenicity
ETHANOL — Result: In vitro and in vivo tests did not show mutagenic effects.

Carcinogenicity — Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity — Due to partial or complete lack of data the classification is not possible.

Developmental effects
ETHANOL — > 20000 ppm OECD 414, No effects on development
Result: NOAEL
Species: Rat

Reproductivity
ETHANOL — 20700 mg/kg bw/d OECD 416, No effects on fertility
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure — Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure — Due to partial or complete lack of data the classification is not possible.

ETHANOL — 1730 mg/kg bw/d OECD 408, Oral
Result: NOAEL
Species: Rat

Aspiration hazard — Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information — No information available.

Other information — The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity — Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
ETHANOL (CAS 64-17-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	22200 mg/l, 96 h
Crustacea	EC50	Ceriodaphnia dubia	5012 mg/l, 48 h
Fish	LC50	Pimephales promelas	15300 mg/l, 96 h
Other	IC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h
Chronic			
Crustacea	NOEC	Daphnia magna	9,6 mg/l, 9 d
Fish	NOEC	Danio rerio	250 mg/l, 120 h OECD 212

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

ETHANOL	84 % Result: Readily Biodegradable Test Duration: 20 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

ETHANOL	-0,31

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

ETHANOL (CAS 64-17-5)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H225 Highly flammable liquid and vapor. H319 Causes serious eye irritation.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT EXTREME BLONDE TONING SHAMPOO
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-11-0001281
Code de produit	1285473
Date de publication	le 24-Mars-2023
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 1	H318 - Provoque des lésions oculaires graves.

Résumé des dangers

Provoque des lésions oculaires graves. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : DECYL GLUCOSIDE

Pictogrammes de danger

Mention d'avertissement Danger

Mentions de danger

H318	Provoque des lésions oculaires graves.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P260	Ne pas respirer les vapeurs.
P280	Porter un équipement de protection des yeux/du visage.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P310	Appeler immédiatement un CENTRE ANTIPOISON/un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Informations supplémentaires de l'étiquette 2 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 8 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
DECYL GLUCOSIDE	6	68515-73-1 500-220-1	01-2119488530-36	-	
Classification : Eye Dam. 1;H318					
SODIUM COCOYL ISETHIONATE	5,7	61789-32-0 263-052-5	01-2119974104-40	-	
Classification : Eye Irrit. 2;H319, Aquatic Chronic 3;H412					
Cocamidopropylbétaïne	1,33	97862-59-4 931-296-8	01-2119488533-30	-

ACIDE SALICYLIQUE	0,2	69-72-7 200-712-3	01-2119486984-17	607-732-00-5	
Classification : Acute Tox. 4;H302, Eye Dam. 1;H318, Repr. 2;H361d					

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Consulter immédiatement un médecin.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie

Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés

Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés

En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange

En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers

Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie

Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention

Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes

Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes

Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement

Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage

Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques

Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger

Ne pas respirer les vapeurs. Éviter tout contact de cette substance avec les yeux. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s)

Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

Allemagne. Liste MAK de la DFG (VLE indicatives). Fondation allemande pour la recherche, Division des risques liés aux composés chimiques dans le travail (DFG)

Composants	Type	Valeur	Forme
ACIDE CITRIQUE (CAS 77-92-9)	VME	2 mg/m3	Fraction inhalable.

Allemagne. TRGS 900, Valeurs limites dans l'air ambiant sur le lieu de travail

Composants	Type	Valeur	Forme
ACIDE CITRIQUE (CAS 77-92-9)	AGW	2 mg/m3	Fraction inhalable.

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter un vêtement de protection approprié.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Risques thermiques Porter des équipements de protection contre la chaleur, si nécessaire.

Mesures d'hygiène Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.

Contrôles d'exposition liés à la protection de l'environnement Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

Aspect

État physique Liquide.

Forme Crème.

Couleur Donnée inconnue.

Odeur Caractéristique.

Seuil olfactif Donnée inconnue.

pH 5,3 - 5,9

Point de fusion/point de congélation Donnée inconnue.

Point initial d'ébullition et intervalle d'ébullition > 100 °C (> 212 °F)

Point d'éclair > 93,3 °C (> 199,9 °F) Coupelle fermée

Taux d'évaporation Donnée inconnue.

Inflammabilité (solide, gaz) Sans objet.

Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité

limite inférieure d'inflammabilité (%) Donnée inconnue.

limite supérieure d'inflammabilité (%) Donnée inconnue.

Pression de vapeur Donnée inconnue.

Densité de vapeur Donnée inconnue.

Densité relative	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
Viscosité	Donnée inconnue.
Propriétés explosives	Non explosif.
Propriétés comburantes	Non comburant.
9.2. Autres informations	Aucune information pertinente supplémentaire n'est disponible.

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.
Informations sur les voies d'exposition probables	
Inhalation	L'inhalation prolongée peut être nocive.
Contact avec la peau	Aucun effet indésirable par contact cutané n'est attendu.
Contact avec les yeux	Provoque des lésions oculaires graves.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.
Symptômes	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Risque de lésions oculaires permanentes, y compris cécité.

11.1. Informations sur les effets toxicologiques

Toxicité aiguë Donnée inconnue.

Composants	Espèce	Résultats d'essais
ACIDE CITRIQUE (CAS 77-92-9)		
Aiguë		
Cutané		
DL50	Rat	> 2000 mg/kg bw OCDE 402

Oral		
DL50	Rat	> 2000 mg/kg OCDE 401

Corrosion cutanée/irritation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau

ACIDE CITRIQUE	OCDE 404 Résultat: Légèrement Irritant Espèce: Lapin
Cocamidopropylbétaïne	OCDE 404 Résultat: Légèrement Irritant Espèce: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 404 Résultat: Légèrement Irritant Espèce: Lapin
ACIDE SALICYLIQUE	OCDE 404 Résultat: Non Irritant Espèce: Lapin
DECYL GLUCOSIDE	OCDE 404 Résultat: Non Irritant Espèce: Lapin

Lésions oculaires graves/irritation oculaire Provoque des lésions oculaires graves.

Irritation/corrosion – Œil

DECYL GLUCOSIDE	OCDE 405 Résultat: Corrosif Espèce: Lapin
ACIDE CITRIQUE	OCDE 405 Résultat: Irritant Espèce: Lapin
SODIUM COCOYL ISETHIONATE	OCDE 405 Résultat: Irritant Espèce: Lapin
Cocamidopropylbétaïne	OCDE 405, (C > 10%) Résultat: Corrosif Espèce: Lapin OCDE 405, (C ≤ 10%) Résultat: Irritant Espèce: Lapin
ACIDE SALICYLIQUE	Résultat: Gravement Irritant Espèce: Lapin

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée

Cocamidopropylbétaïne	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
DECYL GLUCOSIDE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
SODIUM COCOYL ISETHIONATE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
ACIDE CITRIQUE	OCDE 406 Résultat: Not Sensiziting Espèce: Cochon d'Inde

Sensibilisation cutanée

ACIDE SALICYLIQUE	OCDE 429 Résultat: Non Sensibilisant Espèce: Souris

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

SODIUM COCOYL ISETHIONATE	Résultat: In vitro tests did not show mutagenic effect
ACIDE CITRIQUE	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.
Cocamidopropylbétaïne	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.
DECYL GLUCOSIDE	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

ACIDE SALICYLIQUE (CAS 69-72-7)

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

ACIDE CITRIQUE	> 295 mg/kg bw/d, Pas d'effets sur le développement Résultat: NOAEL Espèce: Rat
SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEL Espèce: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Espèce: Rat
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Résultat: NOEL Espèce: Rat
ACIDE SALICYLIQUE	75 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat

Toxicité pour la reproduction

SODIUM COCOYL ISETHIONATE	1000 mg/kg bw/d OCDE 421, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOAEL Espèce: Rat
DECYL GLUCOSIDE	1000 mg/kg bw/d OCDE 421, Pas d'effets sur la fertilité Résultat: NOAEL Espèce: Rat
Cocamidopropylbétaïne	247 mg/kg bw/d OCDE 408 Résultat: NOEL Espèce: Rat
ACIDE SALICYLIQUE	250 mg/kg bw/d OCDE 416, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOAEL Espèce: Rat
ACIDE CITRIQUE	2500 mg/kg bw/d, Pas d'effets sur la fertilité Résultat: NOAEL Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

SODIUM COCOYL ISETHIONATE	>= 1000 mg/kg bw/d OCDE 407, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d

Toxicité spécifique pour certains organes cibles – exposition répétée

SODIUM COCOYL ISETHIONATE	>= 2070 mg/kg bw/d OECD 410, Cutané Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d
DECYL GLUCOSIDE	1000 mg/kg bw/d EU B,26, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 408, Oral Résultat: NOEL Espèce: Rat Durée de l'essai: 90 d
ACIDE CITRIQUE	4000 mg/kg bw/d, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 10 d
ACIDE SALICYLIQUE	700 mg/m3 air OCDE 412, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEC (concentration sans effet observé) Espèce: Rat Durée de l'essai: 28 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.

Composants		Espèce	Résultats d'essais
ACIDE CITRIQUE (CAS 77-92-9)			
Aquatique			
Algues	CE50	Microcystis aeruginosa	80 mg/l, 7 d
Autre	CE50	Pseudomonas putida	4235 mg/l, 18 h OCDE 209
Crustacé	CL50	Daphnia magna	1535 mg/l, 24 h
Poisson	CL50	Leuciscus idus	440 - 760 mg/l, 96 h OCDE 203
ACIDE SALICYLIQUE (CAS 69-72-7)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	> 100 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	> 1000 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	870 mg/l, 48 h OCDE 202
Poisson	CL50	Pimephales promelas	1370 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	10 mg/l, 21 d OCDE 202
Cocamidopropylbétaïne (CAS 97862-59-4)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	2,4 mg/l, 72 h OCDE 201
Autre	CE0	Pseudomonas putida	3000 mg/l, 16 h ISO 10712
Crustacé	CE50	Daphnia magna	1,9 mg/l, 48 h OCDE 202
Poisson	CL50	Pimephales promelas	1,1 mg/l, 96 h OCDE 203

Composants		Espèce	Résultats d'essais
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,32 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Oncorhynchus mykiss	0,135 mg/l, 37 d OECD 210

DECYL GLUCOSIDE (CAS 68515-73-1)

Aquatique

Aiguë			
Algues	CE50	Desmodesmus subspicatus	19 mg/l, 72 h DIN38412 PT 9
Autre	CE0	Pseudomonas putida	1000 mg/l, 0,5 h DIN38412 PT 8
Crustacé	CE50	Daphnia magna	7 mg/l, 48 h OCDE 202
	NOEC (concentration sans effet observé)	Daphnia magna	2 mg/l, 21 d OCDE 202
Poisson	CL50	Danio rerio	2,95 mg/l, 96 h OCDE 203
Chronique			
Poisson	NOEC (concentration sans effet observé)	Danio rerio	1,8 mg/l, 28 d OECD 204

SODIUM COCOYL ISETHIONATE (CAS 61789-32-0)

Aquatique

Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	1 - 10 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	> 1000 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	10 - 100 mg/l, 48 h OCDE 202
Poisson	CL50	Oncorhynchus mykiss	10 - 100 mg/l, 96 h OCDE 203
Chronique			
Algues	CE10	Pseudokirchneriella subcapitata	0,1 - 1 mg/l, 72 h OCDE 201

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie – intrinsèque)

DECYL GLUCOSIDE	100 en % OECD 301 E Résultat: Facilement Biodegradable Durée de l'essai: 28 d

Pourcentage de dégradation (biodégradation aérobie)

ACIDE CITRIQUE	97 en % OCDE 301 B Durée de l'essai: 28 d
ACIDE SALICYLIQUE	100 en % OCDE 301 C Résultat: Facilement Biodegradable Durée de l'essai: 28 d
Cocamidopropylbétaïne	91,6 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
SODIUM COCOYL ISETHIONATE	78 en % OECD 301 D Résultat: Facilement Biodegradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

ACIDE CITRIQUE	-1,64
ACIDE SALICYLIQUE	2,26
Cocamidopropylbétaïne	4,2

SODIUM COCOYL ISETHIONATE	-0,41

Facteur de bioconcentration (FBC)

Cocamidopropylbétaïne	71

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Autres effets néfastes Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

12.7. Informations supplémentaires La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).

Emballage contaminé Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.

Code des déchets UE Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.

Informations / Méthodes d'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.

Précautions particulières Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport en vrac conformément à l'annexe II de la convention Marpol et au recueil IBC Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H302 Nocif en cas d'ingestion. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H335 Peut irriter les voies respiratoires. H361d Susceptible de nuire au fœtus. H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.

Clause de non-responsabilité

Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte.
Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT VIVID WASH CONDITIONER**

Other means of identification

SDS number 34-12-0000058

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards	Flammable liquids	Category 4
Health hazards	Serious eye damage/eye irritation	Category 2A
	Specific target organ toxicity, repeated exposure	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Combustible liquid. Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention Keep away from flames and hot surfaces-No smoking. Do not breathe mist/vapors. Wash thoroughly after handling. Wear protective gloves/eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention if you feel unwell. If eye irritation persists: Get medical advice/attention. In case of fire: Use appropriate media to extinguish.

Storage Store in a well-ventilated place. Keep cool.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	2.37
GLYCERIN		56-81-5	2

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Prolonged exposure may cause chronic effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	Combustible liquid.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Keep combustibles (wood, paper, oil, etc.) away from spilled material. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water. Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke. Do not breathe mist/vapors. Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Keep away from heat, sparks and open flame. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Keep out of the reach of children. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
		50 mppcf	Total dust.
		15 mppcf	Respirable fraction.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color White.

Odor Characteristic.

Odor threshold Not available.

pH 3.5 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point 140.0 - 199.4 °F (60.0 - 93.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	>= 0.98 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT VIVID WASH CONDITIONER		
Acute		
Dermal		
ATEmix		3.704e+006 mg/kg
Oral		
ATEmix		80710 mg/kg

Components	Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Acute		
Oral

Components	Species	Test Results
GLYCERIN (CAS 56-81-5)		
Acute		
Dermal		
LD50	Rabbit	> 18700 mg/kg bw
Inhalation		
LC50	Rat	> 570 mg/L air, 1 h
Oral		
LD50	Rat	27200 mg/kg bw

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

BEHENTRIMONIUM CHLORIDE	OECD 405 Result: Irritating Species: Rabbit
GLYCERIN	Result: Not Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

BEHENTRIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit
GLYCERIN	Result: Not Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

GLYCERIN	167 mg/m3 air OECD 413, Inhalation Result: NOAEL Species: Rat Test Duration: 90 d
BEHENTRIMONIUM CHLORIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
GLYCERIN	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

GLYCERIN	Result: In vitro and in vivo tests did not show mutagenic effects.
BEHENTRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

GLYCERIN	1310 mg/kg bw/d, No effects on development Result: NOAEL Species: Rat

Reproductivity

GLYCERIN	2000 mg/kg bw/d, No effects on fertility Result: NOAEL Species: Rat

Reproductivity

BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure May cause damage to organs through prolonged or repeated exposure.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d
GLYCERIN	8000 mg/kg bw/d, Oral Result: NOAEL Species: Rat Test Duration: 2 yr

Aspiration hazard Not an aspiration hazard.

Chronic effects May cause damage to organs through prolonged or repeated exposure.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	3.48 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1.39 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	0.5 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	43 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0.128 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0.24 mg/l, 9 d OECD 212
GLYCERIN (CAS 56-81-5)			
Aquatic			
Acute			
Algae	EC0	Scenedesmus quadricauda	> 10000 mg/l, 192 h
Crustacea	EC50	Daphnia magna	1955 mg/l, 48 h
Fish	LC50	Oncorhynchus mykiss	54000 mg/l, 96 h
Other	NOEC	Pseudomonas putida	> 10000 mg/l, 16 h

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BEHENTRIMONIUM CHLORIDE	80 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d
GLYCERIN	OECD 301 Result: Readily Biodegradable

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

GLYCERIN	-1.76

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

1. Identification

Identificateur de produit **PULP RIOT VIVID WASH CONDITIONER**

Autres moyens d'identification

Numéro de la FDS 34-12-0000058

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques	Liquides inflammables	Catégorie 4
Dangers pour la santé	Lésions oculaires graves/irritation oculaire	Catégorie 2A
	Toxicité pour certains organes cibles - expositions répétées	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Liquide combustible. Provoque une sévère irritation des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Conseil de prudence

Prévention Tenir loin des flammes et des surfaces chaudes - défense de fumer. Ne pas respirer les brouillards/vapeurs. Se laver soigneusement après manipulation. Porter des gants de protection/un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Demander un avis médical/Consulter un médecin en cas de malaise. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin. En cas d'incendie : utiliser un agent d'extinction approprié.

Stockage Stocker dans un endroit bien ventilé. Tenir au frais.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	2.37
GLYCÉRINE		56-81-5	2

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Une exposition prolongée peut causer des effets chroniques.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Ce produit est combustible et son chauffage peut générer des vapeurs qui peuvent former des mélanges vapeurs/air explosifs. Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies En cas d'incendie et/ou d'explosion ne pas respirer les fumées. Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Liquide combustible.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Éliminer toutes les sources d'ignition (pas de cigarettes, de torches, d'étincelles ou de flammes dans la zone immédiate). Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas respirer les brouillards/vapeurs. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Tenir les matières combustibles (bois, papier, huile, etc.) à l'écart du produit déversé.

Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Utiliser un matériau non combustible comme la vermiculite, le sable ou la terre pour absorber le produit et le mettre dans un récipient pour élimination ultérieure. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Absorber avec de la terre, du sable ou une autre matière non combustible et transférer dans des contenants pour une élimination ultérieure. Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Tenir à l'écart des flammes nues, des surfaces chaudes et des sources d'ignition. Ne pas fumer pendant l'utilisation. Ne pas respirer les brouillards/vapeurs. Éviter tout contact avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Tenir à l'écart de la chaleur, des étincelles et des flammes nues. Stocker dans un endroit frais et sec, à l'écart de la lumière solaire directe. Stocker dans des récipients bien fermés. Stocker dans un endroit bien ventilé. Tenir hors de la portée des enfants. Conserver dans un endroit muni de gicleurs. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

États-Unis - TABLEAU Z-3 (29 CFR 1910.1000) de l'OSHA

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	TWA	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.
		50 mppcf	Poussières totales.
		15 mppcf	Fraction respirable.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	PEL (limite d'exposition admissible)	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.

Valeurs biologiques limites

Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés

Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux

Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Protection de la peau

Protection des mains

Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre

Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.

Protection respiratoire

Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.

Dangers thermiques

Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale	Ne pas fumer pendant l'utilisation. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Forme	Crème.
Couleur	Blanc.
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	3.5 - 4.5
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	60.0 - 93.0 °C (140.0 - 199.4 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 0.98 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.

Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Corrosion cutanée/irritation cutanée On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

BEHENTRIMONIUM CHLORIDE	OCDE 405 Résultat: Irritant Espèces: Lapin
GLYCÉRINE	Résultat: Non Irritant Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation- corrosion - Œil

BEHENTRIMONIUM CHLORIDE	OCDE 404 Résultat: Corrosif Espèces: Lapin
GLYCÉRINE	Résultat: Non Irritant Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée On ne s'attend pas à ce que ce produit provoque une sensibilisation cutanée.

Sensibilisation cutanée

GLYCÉRINE	167 mg/m3 air OECD 413, Inhalation Résultat: DSENO Espèces: Rat Durée du test: 90 d
BEHENTRIMONIUM CHLORIDE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
GLYCÉRINE	Résultat: Non Sensibilisant Espèces: Cobaye

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

GLYCÉRINE	Résultat: Des essais in vitro et in vivo n'ont pas montré d'effets mutagènes.
BEHENTRIMONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Effets sur le développement

GLYCÉRINE	1310 mg/kg bw/d, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat

Reproductivité

GLYCÉRINE	2000 mg/kg bw/d, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat
BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OCDE 421 Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OCDE 407, Orale Résultat: DSENO Espèces: Rat Durée du test: 28 d
GLYCÉRINE	8000 mg/kg bw/d, Orale Résultat: DSENO Espèces: Rat Durée du test: 2 yr

Danger par aspiration Pas un danger par aspiration.

Effets chroniques Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves

Potentiel de bioaccumulation

Log Koe du coefficient de répartition octanol/eau

GLYCÉRINE	-1.76

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

4. 急救措施

吸入
移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触
用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触
立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 如果刺激症状持续或加重，应就医。

经口
漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性
严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。 长期接触可能会导致慢性的影响。

指明任何需要立即就医或特殊治疗的情况
提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。

一般信息
如感觉不舒服,寻求医生的建议(可能的话出示此标签)。 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂
水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不当的灭火介质
禁止使用直流水灭火，否则会引起火势蔓延。

由此化学品引发的特殊的危害
该产品为易燃物，加热可产生可能形成爆炸性的蒸气/空气混合物的蒸汽。 燃烧时，会产生对人体健康有害的气体。

特殊保护性装备以及消防员的预防措施
发生火灾时，使用自给式呼吸设备并穿全身防护服。

消防设备/使用说明
一旦发生火灾和/或爆炸，不得吸入烟气。 在不会发生危险的情况下将容器撤离火灾现场。

特定的方法
采用标准灭火程序并考虑其他涉及材料有关的危险。

一般火灾危险
可燃液体。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序
让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 消除所有的点火源（在邻近区域严禁吸烟、火苗、火花或火焰）。 清洁时，戴合适防护设备和衣物。 不要吸入雾气。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

抑制和清除溢出物的方法和材料
使可燃物（木材、纸张、油等）远离泄漏物。

大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 使用如蛭石、沙或土等非可燃性材料来吸收产品，并放入容器中以便之后进行处理。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用泥土、沙子或其它不燃材料吸收，并转移到容器内待以后处置。 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

环境保护措施
防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项
远离明火、热的表面和点火源。 使用时严禁吸烟。 不要吸入雾气。 避免接触到眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 遵守良好工业卫生习惯。

安全储存条件，包括任何禁配物
远离热源、火花和明火。 储存于阴凉、干燥的场所，远离直接日光光照。 储存在密闭的容器中。 存放在通风良好的地方。 避免儿童触及。 保存在装备有喷淋设备的地方。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

控制参数

下列成分是该产品中唯一一个具有PEL，TLV或其他推荐的接触限值的成分。并且，其他成分没有已知的接触限值。

美国职业安全和健康署表Z-1空气污染物极限值（29 CFR 1910.1000）

组分	类型	标准值	形状
甘油 (CAS 56-81-5)	PEL-常期暴露极限	5 mg/m3	可呼吸部分。
		15 mg/m3	总尘。

美国职业安全和健康署表Z-3（29 CFR 1910.1000）

组分	类型	标准值	形状
甘油 (CAS 56-81-5)	TWA	5 mg/m3	可呼吸部分。
		15 mg/m3	总尘。

美国职业安全和健康署表Z-3（29 CFR 1910.1000）

组分	类型	标准值	形状
		50 Mppcf	总尘。
		15 Mppcf	可呼吸部分。

生物限值 没有该成分的生物接触限值。

适当的技术控制 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个人防护措施，如个人防护设备

眼/面保护 仅用於工业环境。 带有机蒸气滤毒罐和全面罩的化学呼吸器。

皮肤防护

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

其它的，其它 仅用於工业环境。 穿上合适的化学防护衣。 建议使用不渗透的围裙。

呼吸系统防护 仅用於工业环境。 带有机蒸气滤毒罐和全面罩的化学呼吸器。

热危害 必要时，穿戴适当的热防护服。

一般的卫生考虑 使用时严禁吸烟。 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观

性状 液体。

形状 奶油。

颜色 白色。

气味 特征的。

气味阈值 无资料。

pH 值 3.5 - 4.5

熔点/凝固点 无资料。

初始沸点和沸程 > 100 ° C (> 212 ° F)

闪点 60.0 - 93.0 ° C (140.0 - 199.4 ° F) 闭杯闪点测定法

蒸发速率 无资料。

易燃性（固体，气体） 不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

黏度 无资料。

其他信息

密度 >= 0.98 g/cm³

爆炸特性 不具有爆炸性。

氧化特性 没有氧化性。

10. 稳定性和反应性

反应性 产品在正常的使用、储存和运输条件下是稳定的和非活性的。

化学稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 避免温度超過閃火點温度。 接触禁配物。

禁配物 强氧化剂。

危险的分解产物 没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入 持续的吸入可能是有害的。

皮肤接触 预计没有因皮肤接触导致的任何有害影响。

眼睛接触 造成严重眼刺激。

经口 预计较低的食入危害。

与物理,化学和毒物学特性有关的症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

毒理学效应信息

急性毒性 未知。

产品	物种	试验结果
PULP RIOT VIVID WASH CONDITIONER		
急性的		
经口		
ATEmix		80710 mg/kg

经口		
LD50	大鼠	27200 mg/kg bw
经皮肤		
LD50	兔子	> 18700 mg/kg bw

皮肤腐蚀/刺激 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

BEHENTRIMONIUM CHLORIDE	OECD 405 结果: 刺激性的 物种: 兔子
甘油	结果: 非刺激性 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼刺激。

刺激性腐蚀性 - 眼睛

BEHENTRIMONIUM CHLORIDE	OECD 404 结果: 腐蚀性的 物种: 兔子
甘油	结果: 非刺激性 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 不是呼吸道致敏物。

皮肤致敏物 此产品将不会引起皮肤敏感。

皮肤致敏物

甘油	167 mg/m3 空气 OECD 413, 吸入 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 90 D
BEHENTRIMONIUM CHLORIDE	OECD 406 结果: Not Sensitizing 物种: 豚鼠
甘油	结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 无数据表明本产品或其含量超过0.1%的任何组分具有致变性或基因毒性。

突变性

甘油	结果: 体外和体内试验均未见致突变作用。
BEHENTRIMONIUM CHLORIDE	结果: 离体试验未见诱变效应

致癌性 尚不能确定对人有致癌作用。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

不适用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 这种产品预期不会导致生殖或发育效应。

发育效应

甘油	1310 mg/kg bw/d, 对发展没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

生殖能力

甘油	2000 mg/kg bw/d, 对生育力没有影响 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠
BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OECD 421 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠

特定目标器官系统毒性－单次接触 未被分类。

特定目标器官系统毒性－重复接触 长期或反复接触可能损害器官。

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OECD 407, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 28 D
甘油	8000 mg/kg bw/d, 经口 结果: NOAEL (未观察到有害效果的水平) 物种: 大鼠 测试时间: 2 yr

吸入危害 非吸入危险。

慢性影响 长期或反复接触可能损害器官。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

组分		物种	试验结果
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
水生的

甘油	-1.76

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 按照地方/区域/国家/国际规章处置内装物/容器。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

不作为危险货物运输

免责声明 这份安全数据表中提供的信息被认为是其发布日期时我们所知道的知识、信息和确信是准确的。所给出的信息仅作为安全操作处置、使用、加工、储存、运输、废弃处置和释放的指导，而不是作为担保和质量指标。这些信息只涉及到具体指定的物质，而对这些材料与任何其他材料或任何工艺的结合可能是无效的，除非在文本中有说明。

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

1. Identificación

Identificador del producto **PULP RIOT VIVID WASH CONDITIONER**

Otros medios de identificación

Número de FDS 34-12-0000058

Uso recomendado Producto de cuidado personal para uso cosmético.

Restricciones recomendadas Ninguno conocido.

Información sobre el fabricante/importador/proveedor/distribuidor

Dirección: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Teléfono de Emergencias 1-800-535-5053 (Internacional: 352-323-3500)

Para más información: 1-732-499-2741

2. Identificación de los peligros

Peligros físicos	Líquidos inflamables	Categoría 4
Peligros para la salud	Lesiones oculares graves/irritación ocular	Categoría 2A
	Toxicidad sistémica específica de órganos diana (exposiciones repetidas)	Categoría 2

Peligros definidos por la OSHA No clasificado.

Elementos de la etiqueta

Palabra de advertencia Atención

Declaración de peligro Líquido combustible. Provoca irritación ocular grave. Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas.

Consejos de prudencia

Prevención Mantener alejado de llamas y de superficies calientes. No fumar. No respirar la niebla/los vapores. Lavarse concienzudamente tras la manipulación. Llevar guantes protectores / protección ocular / protección facial.

Respuesta En caso de contacto con los ojos: Aclárese cuidadosamente con agua durante varios minutos. Quítense las lentes de contacto, si se llevan y resulta fácil hacerlo. Sígase aclarando. Consultar a un médico en caso de malestar. Si persiste la irritación ocular: Consultar a un médico. En caso de incendio: Utilizar medios apropiados para apagarlo.

Almacenamiento Almacenar en un lugar bien ventilado. Mantener en lugar fresco.

Eliminación Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Peligro(s) no clasificados en otra parte [Hazard(s) not otherwise classified (HNOC)] Ninguno conocido.

Información complementaria Ninguno.

3. Composición/información sobre los componentes

Mezclas

Denominación química	Nombre común y sinónimos	Número CAS	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	2.37
GLYCERIN MIST		56-81-5	2

*Significa que una identidad química y/o porcentaje de composición específicos han sido reservados como secreto comercial.

4. Primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuáguese los ojos inmediatamente con abundante cantidad de agua por lo menos durante 15 minutos. Quítese los lentillas si las lleva puestas y puede hacerlo con facilidad. Continúe enjuagando. Busque atención médica si la irritación se desarrolla y persiste.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

Principales síntomas y efectos, agudos y retardados Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa. Una exposición prolongada puede producir efectos crónicos.

Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente Provea las medidas de apoyo generales y de tratamiento sintomático. Mantenga a la víctima bajo observación. Los síntomas pueden retrasarse.

Información general En caso de malestar, acuda al médico (si es posible, muéstrele la etiqueta). Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

5. Medidas de lucha contra incendios

Medios de extinción apropiados Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).

Medios de extinción no apropiados No utilice chorro de agua, pues extendería el fuego.

Peligros específicos que presenta el producto químico El producto es combustible, y en caso de calentamiento pueden producirse vapores que forman mezclas explosivas de aire/vapor. En caso de incendio se pueden formar gases nocivos.

Equipo de protección especial y medidas de precaución para el personal de lucha contra incendios Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.

Equipo/Instrucciones para la extinción de incendios En caso de incendio y/o de explosión no respire los humos. Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.

Métodos específicos Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.

Riesgos generales de incendio Líquido combustible.

6. Medidas en caso de vertido accidental

Precauciones personales, equipo de protección y procedimientos de emergencia Mantenga el personal no necesario lejos. Mantener alejadas a las personas de la zona de fuga y en sentido opuesto al viento. Eliminar todas las fuentes de ignición (no fumar, teas, chispas ni llamas en los alrededores). Use equipo y ropa de protección apropiados durante la limpieza. No respirar la niebla/los vapores. No toque los recipientes dañados o el material derramado a menos que esté usando ropa protectora adecuada. Asegúrese una ventilación apropiada. Las autoridades locales deben de ser informadas si los derrames importantes no pueden ser contenidos. Consultar las medidas de protección personal en la sección 8 de la FDS.

Métodos y material de contención y de limpieza Mantenga los materiales combustibles (madera, papel, petróleo, etc.) lejos del material derramado .

Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Usar un material no combustible como vermiculita, arena o tierra para absorber el producto y colocarlo en un recipiente para su eliminación posterior. Después de recuperar el producto, enjuague el área con agua.

Derrames pequeños: Absorba con tierra, arena y otro material no combustible y transfiera a recipientes para su posterior eliminación. Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación.

Nunca devuelva el producto derramado al envase original para reutilizarlo. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.

Precauciones relativas al medio ambiente No verter los residuos al desagüe, al suelo o las corrientes de agua.

7. Manipulación y almacenamiento

Precauciones para una manipulación segura

Mantener apartado de las llamas abiertas, de las superficies calientes y de los focos de ignición. No fumar durante su utilización. No respirar la niebla/los vapores. Evítese el contacto con los ojos. Evite la exposición prolongada. Asegúre una ventilación adecuada. Use equipo protector personal adecuado. Respete las normas para una manipulación correcta de productos químicos.

Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades

Guardar lejos del calor, las chispas o llamas desnudas. Guárdese en un lugar fresco y seco sin exposición a la luz solar directa. Almacenar en un recipiente herméticamente cerrado. Almacenar en un lugar bien ventilado. Manténgase fuera del alcance de los niños. Guardar en una zona equipada con extinctores automáticos. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

8. Control de la exposición/protección personal

Límites de exposición profesional

Los constituyentes siguientes son los únicos constituyentes del producto que tienen un PEL, TLV u otro límite de exposición recomendado. En este momento, los demás constituyentes no tienen límites de exposición conocidos.

EE.UU. OSHA, Tabla Z-3 (29 CFR 1910.1000)

Componentes	Tipo	Valor	Forma
GLYCERIN MIST (CAS 56-81-5)	TWA	5 mg/m³	Fracción respirable.
		15 mg/m³	Total polvo.
		50 mppcf	Total polvo.
		15 mppcf	Fracción respirable.

EEUU. Administración de Seguridad y Salud Ocupacional (OSHA) Tabla Z-1 Límites para los contaminantes del aire (29 CFR 1910.1000)

Componentes	Tipo	Valor	Forma
GLYCERIN MIST (CAS 56-81-5)	Limite de Exposición Permisible (LEP)	5 mg/m³	Fracción respirable.
		15 mg/m³	Total polvo.

Valores límite biológicos

No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.

Controles técnicos apropiados

Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable. Proveer estación para lavado de ojos.

Medidas de protección individual, tales como equipos de protección personal

Protección de los ojos/la cara

De aplicación solamente en entornos industriales. Equipo respiratorio con cartucho de vapor orgánico y pantalla facial.

Protección de la piel

Protección de las manos

De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

Otros

De aplicación solamente en entornos industriales. Use ropa adecuada resistente a los productos químicos. Se recomienda el uso de delantal impermeable.

Protección respiratoria

De aplicación solamente en entornos industriales. Equipo respiratorio con cartucho de vapor orgánico y pantalla facial.

Peligros térmicos

Use ropa protectora térmica adecuada si resulta necesario.

Consideraciones generales de higiene

No fumar durante su utilización. Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

9. Propiedades físicas y químicas

Aspecto

Estado físico Líquido.

Forma Nata.

Color Blanco.

Olor Característico.

Umbral olfativo	No disponible.
pH	3.5 - 4.5
Punto de fusión/punto de congelación	No disponible.
Punto inicial de ebullición e intervalo de ebullición	> 100 °C (> 212 °F)
Punto de inflamación	60.0 - 93.0 °C (140.0 - 199.4 °F) Copa Cerrada
Tasa de evaporación	No disponible.
Inflamabilidad (sólido, gas)	No aplicable.

Límites superior/inferior de inflamabilidad o de explosividad

Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Límite de explosividad inferior (%)	No disponible.
Límite de explosividad superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.

Solubilidad(es)

Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.

Información adicional

Densidad	>= 0.98 g/cm³
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

10. Estabilidad y reactividad

Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
Estabilidad química	El material es estable bajo condiciones normales.
Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Evitar temperaturas por encima del punto de flash. Contacto con materiales incompatibles.
Materiales incompatibles	Agentes oxidantes fuertes.
Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

11. Información toxicológica

Información sobre posibles vías de exposición

Inhalación	La inhalación prolongada puede resultar nociva.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.

Contacto con los ojos Provoca irritación ocular grave.

Ingestión Se espera que representa un riesgo reducido de ingestión.

Síntomas relacionados a las características físicas, químicas y toxicológicas Grave irritación de los ojos. Los síntomas pueden incluir escozor, lagrimeo, enrojecimiento, hinchazón y visión borrosa.

Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba

Mutagenicidad en células germinales No hay datos disponibles que indiquen que el producto o cualquier compuesto presente en una cantidad superior al 0.1% sea mutagénico o genotóxico.

Mutagenicidad

BEHENTRIMONIUM CHLORIDE	Resultado: Las pruebas in vitro no demostraron efectos mutágenos
GLYCERIN MIST	Resultado: Pruebas in vitro e in vivo no mostraron efectos mutagénicos.

Carcinogenicidad No clasificable en cuanto a su carcinogenicidad para los seres humanos.

Monografías IARC. Evaluación general de carcinogenicidad

No listado.

Sustancias específicamente reguladas por la OSHA (29 CFR 1910.1001-1052)

No reglamentado.

US. National Toxicology Program (NTP) Report on Carcinogens

No listado.

Toxicidad para la reproducción No se espera que este producto tenga efectos adversos para la reproducción o el feto.

Efectos sobre el desarrollo

GLYCERIN MIST	1310 mg/kg bw/d, No afecta el desarrollo Resultado: NOAEL Especies: Rata

Reproductividad

GLYCERIN MIST	2000 mg/kg bw/d, No afecta la fertilidad Resultado: NOAEL Especies: Rata
BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OCDE 421 Resultado: NOAEL Especies: Rata

Toxicidad específica en determinados órganos – exposición única No clasificado.

Toxicidad específica en determinados órganos – exposición repetida Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OECD 407, Oral Resultado: NOAEL Especies: Rata Duración de la prueba: 28 d
GLYCERIN MIST	8000 mg/kg bw/d, Oral Resultado: NOAEL Especies: Rata Duración de la prueba: 2 yr

Peligro por aspiración No constituye ningún peligro por aspiración.

Efectos crónicos Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas.

Información adicional En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

12. Información ecológica

Ecotoxicidad El producto no está clasificado como peligroso para el medio ambiente. No obstante, eso no excluye la posibilidad de que vertidos grandes o frecuentes puedan tener efectos nocivos o dañinos para el medio ambiente.

Componentes		Especies	Resultados de la prueba
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Acuático (a)			
Agudo			
Algas	EC50	Desmodesmus subspicatus	3.48 mg/l, 72 h OECD 201
Crustáceos	EC50	Dafnia magna	1.39 mg/l, 48 h OECD 202
Otros	EC50	Lodo activado de una depuradora predominantemente doméstica	43 mg/l, 3 h OECD 209
Pez	LC50	Danio rerio	0.5 - 1 mg/l, 96 h OECD 203

Componentes		Especies	Resultados de la prueba
Crónico			
Crustáceos	NOEC	Dafnia magna	0.128 mg/l, 21 d OECD 211
Pez	NOEC	Danio rerio	0.24 mg/l, 9 d OECD 212
GLYCERIN MIST (CAS 56-81-5)			
Acuático (a)			
Agudo			
Algas	CE0	Scenedesmus quadricauda	> 10000 mg/l, 192 h
Crustáceos	EC50	Dafnia magna	1955 mg/l, 48 h
Otros	NOEC	Seudomonas putida	> 10000 mg/l, 16 h
Pez	LC50	Oncorhynchus mykiss	54000 mg/l, 96 h

Persistencia y degradabilidad

Biodegradabilidad

Porcentaje de degradación (biodegradación aeróbica)

BEHENTRIMONIUM CHLORIDE	80 % OECD 301 Resultado: Fácilmente Biodegradable Duración de la prueba: 28 d
GLYCERIN MIST	OECD 301 Resultado: Fácilmente Biodegradable

Potencial de bioacumulación

Octanol/agua, coeficiente de partición log Kow

GLYCERIN MIST	-1.76

Movilidad en el suelo No hay datos disponibles.

Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

13. Consideraciones relativas a la eliminación

Instrucciones para la eliminación Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial. Eliminar el contenido/el recipiente de conformidad con la normativa local, regional, nacional o internacional.

Normativas de eliminación locales Elimine de acuerdo con todas las reglamentaciones aplicables.

Desechos de residuos / producto no utilizado Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

2. Nhận diện các hiểm họa

Hiểm Họa Vật Lý	Chất lỏng dễ cháy	Loại 4
Hiểm Họa Cho Sức Khỏe	Gây tổn thương mắt /kích ứng mắt nghiêm trọng	Loại 2A
	Độc tính đối với cơ quan tác dụng đặc hiệu đến sau lần tiếp xúc lại	Loại 2

OSHA defined hazards Không được phân loại.

Các thành phần của nhãn

Từ cảnh báo Cảnh báo

Công bố hiểm họa Chất lỏng có thể cháy. Gây kích ứng mắt nghiêm trọng. Có thể gây tổn thương cho các cơ quan khi bị tiếp xúc trong thời gian dài hoặc lặp lại.

Thông điệp đề phòng

Phòng Ngừa Để tránh xa ngọn lửa và các bề mặt nóng-Không hút thuốc. Không hít sương/hơi. Rửa kỹ sau khi thao tác. Sử dụng găng tay bảo hộ/phương tiện bảo vệ mắt/mặt.

Ứng phó Nếu bị văng vào mắt: Rửa cẩn thận bằng nước trong nhiều phút. Lấy kính tiếp xúc ra, nếu có và dễ thực hiện. Tiếp tục rửa. Tìm gặp bác sĩ để được hướng dẫn/chăm sóc nếu bạn thấy không được khỏe. Nếu vẫn không hết bị kích ứng mắt: Tìm bác sĩ hướng dẫn/chăm sóc. Trong trường hợp cháy: Sử dụng chất chữa cháy phù hợp để dập lửa.

Bảo Quản Bảo quản ở nơi thông khí tốt. Giữ mát.

Thải bỏ Vứt bỏ vật chứa bên trong/thùng chứa tuân theo các quy định địa phương/khu vực/quốc gia/quốc tế.

Hazard(s) not otherwise classified (HNOC) Chưa được biết.

Thông tin thêm Không có.

3. Thành phần/ thông tin về các phụ liệu

Các hỗn hợp

Tên Hóa Chất	Tên thông dụng và từ đồng nghĩa	Số CAS	%
BEHENTRIMONIUM CHLORIDE		68607-24-9	2.37
GLYCERIN		56-81-5	2

*Cho biết lai lịch và/hoặc thành phần phần trăm của một hóa chất cụ thể đã được lưu giữ ở dạng bí mật thương mại.

4. Các biện pháp sơ cứu

Hít phải
Đưa ra nơi không khí trong lành. Hãy gọi cho bác sĩ nếu các triệu chứng xuất hiện hoặc không hết.

Tiếp xúc với da
Rửa sạch bằng xà bông và nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng

Tiếp xúc với mắt
Rửa mắt ngay bằng nhiều nước trong ít nhất 15 phút. Tháo kính sát tròng, nếu có và nếu dễ tháo. Tiếp tục súc rửa. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng

Ăn phải
Súc miệng. Tìm gặp y bác sĩ để điều trị nếu các triệu chứng xảy ra.

Các triệu chứng/tác dụng quan trọng nhất, cấp tính và chậm xuất hiện
Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt. Phơi nhiễm kéo dài có thể gây các ảnh hưởng mãn tính.

Dấu hiệu cần phải được chăm sóc y tế ngay lập tức và điều trị đặc biệt
Có các biện pháp hỗ trợ tổng quát và điều trị triệu chứng. Theo dõi nạn nhân. Các triệu chứng có thể chậm.

Thông tin tổng quát
Nếu bạn cảm thấy không khoẻ, hãy đi khám (đưa nhãn dán cho bác sĩ xem nếu có thể). Đảm bảo rằng các nhân viên y tế nhận thức được (các) vật liệu liên quan, và thực hiện thận trọng để bảo vệ chính mình.

5. Các biện pháp cứu hỏa

Các chất chữa cháy phù hợp
Sương nước. Bọt. Bộ hóa chất khô. Carbon dioxide (CO2).

Chất chữa cháy không phù hợp
Không dùng vòi xịt nước để dập lửa, vì việc này sẽ gây lan thêm lửa.

Hiểm họa đặc trưng phát sinh từ hóa chất
Sản phẩm là có thể cháy được, và gia nhiệt có thể sinh ra các hơi có thể tạo thành các hỗn hợp hơi/không khí dễ nổ. Trong khi cháy, các khí nguy hiểm cho sức khỏe có thể được hình thành.

Trang bị bảo hộ đặc biệt cho nhân viên chữa cháy
Phải sử dụng thiết bị thở tự điều khiển và trang phục bảo hộ đầy đủ khi chữa cháy.

Các chỉ dẫn/trang thiết bị cứu hỏa
Trong trường hợp cháy và/hoặc nổ, không hít khói. Đưa các thùng chứa ra khỏi khu vực cháy nếu bạn có thể làm mà không gặp nguy hiểm.

Các biện pháp cụ thể
Sử dụng các quy trình chữa cháy tiêu chuẩn và xem xét các hiểm họa của các vật liệu liên quan khác.

Các hiểm họa cháy nói chung
Chất lỏng có thể cháy.

6. Các biện pháp xử lý rò rỉ bất ngờ

Các biện pháp đề phòng cá nhân, thiết bị bảo vệ và các quy trình xử lý khẩn cấp
Để xa những người không cần thiết. Giữ mọi người tránh xa khỏi khu vực tràn đổ/rò rỉ và tránh hướng gió thổi. Loại bỏ tất cả nguồn gây cháy (không hút thuốc, lưỡi lửa, tia lửa, hoặc lửa ở khu vực trực tiếp). Mang thiết bị và quần áo bảo hộ thích hợp trong khi dọn dẹp. Không hít sương/hơi. Không chạm vào các dụng cụ đựng đã hư hỏng hoặc vật liệu tràn đổ trừ khi có sử dụng trang phục bảo vệ phù hợp. Đảm bảo sự thông hơi đầy đủ. Các nhà chức trách địa phương cần được thông báo nếu xảy ra sự cố tràn đổ lớn không thể kiểm soát được. Về vấn đề bảo hộ cá nhân, xin xem mục 8 của Phiếu An Toàn Hóa Chất.

Phương pháp và vật liệu để ngăn chặn và làm sạch
Giữ cho các chất dễ cháy (gỗ, giấy, dầu, v.v...) tránh xa vật liệu tràn đổ.

Lượng Đổ Lớn: Ngăn dòng chảy vật liệu, nếu việc này không gây nguy hiểm. Đắp đê giữ vật liệu đã đổ, khi có thể. Sử dụng vật liệu không cháy như vermiculite, cát hoặc đất để thấm sản phẩm và đặt vào thùng chứa để vứt bỏ sau. Sau khi thu hồi sản phẩm, dùng nước xả sạch khu vực.

Lượng Đổ Nhỏ: Thấm bằng đất, cát hoặc vật liệu không cháy khác và bỏ vào thùng chứa để vứt bỏ sau đó. Lau sạch bằng các vật liệu hút nước (ví dụ như khăn, bông). Làm sạch bề mặt cẩn thận để loại bỏ lượng ô nhiễm còn lại.

Không bao giờ bỏ chất đã đổ vào bao chứa ban đầu để tái sử dụng. Về thải bỏ chất thải, xin xem mục 13 của Phiếu An Toàn Hóa Chất.

Các biện pháp đề phòng cho môi trường
Không xả vào cống rãnh, kênh rạch hoặc xuống đất.

7. Thao tác và bảo quản

Các biện pháp đề phòng cho thao tác an toàn

Để xa các ngọn lửa trần, các bề mặt nóng và các nguồn gây cháy. Khi sử dụng không hút thuốc. Không hít sương/hơi. Tránh tiếp xúc với mắt. Tránh tiếp xúc lâu. Thực hiện thông khí đầy đủ. Sử dụng thiết bị bảo hộ cá nhân phù hợp. Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.

Các điều kiện bảo quản an toàn, kể cả mọi tính chất tương kỵ

Tránh xa nhiệt, tia lửa và ngọn lửa trần. Bảo quản ở nơi mát, khô và tránh ánh nắng trực tiếp. Cất giữ trong dụng cụ đựng thật kín. Bảo quản ở nơi thông khí tốt. Giữ xa tầm tay của trẻ em. Để trong khu vực có vòi nước cứu hoả. Bảo quản xa các vật liệu tương kỵ (Xem Mục 10 của Phiếu An Toàn Hóa Chất).

8. Kiểm soát việc tiếp xúc / bảo hộ cá nhân

Các giới hạn tiếp xúc nghề nghiệp

Các cấu tử sau đây là những cấu tử duy nhất của sản phẩm có giá trị PEL, TLV hoặc giới hạn tiếp xúc đề nghị khác. Hiện nay, những cấu tử khác chưa được biết giới hạn tiếp xúc.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Thành phần	Loại	Giá trị	Dạng
GLYCERIN (CAS 56-81-5)	PEL	5 mg/m3	Phần có thể hít.
		15 mg/m3	Total dust.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Thành phần	Loại	Giá trị	Dạng
GLYCERIN (CAS 56-81-5)	TWA	5 mg/m3	Phần có thể hít.
		15 mg/m3	Total dust.
		50 mppcf	Total dust.
		15 mppcf	Phần có thể hít.

Các giá trị giới hạn sinh học

Không có giới hạn tiếp xúc sinh học nào đáng lưu ý cho (các) thành phần.

Các biện pháp kiểm soát kỹ thuật phù hợp

Nên sử dụng phương pháp thông khí toàn bộ. Tốc độ thông khí phải phù hợp với các điều kiện. Nếu áp dụng, sử dụng tủ xử lý kín, thông hút khí tại chỗ, hoặc các biện pháp kỹ thuật khác để duy trì mức nồng độ trong không khí dưới giới hạn tiếp xúc đề nghị. Nếu chưa thiết lập được các giới hạn tiếp xúc, hãy duy trì mức nồng độ trong không khí ở mức có thể chấp nhận. Cung cấp nơi rửa mắt.

Các biện pháp bảo vệ cá nhân, như trang bị bảo hộ cá nhân

Biện pháp bảo vệ mắt/mặt

Chỉ được áp dụng đối với các môi trường công nghiệp. Mặt nạ chống hóa chất có ống lọc hơi hữu cơ và kính che toàn bộ mặt.

Bảo vệ da

Bảo vệ tay

Chỉ được áp dụng đối với các môi trường công nghiệp. Mang bao tay chống hóa chất thích hợp.

Khác

Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc quần áo chống hóa chất thích hợp. Nên sử dụng tạp dề không thấm.

Bảo vệ đường hô hấp

Chỉ được áp dụng đối với các môi trường công nghiệp. Mặt nạ chống hóa chất có ống lọc hơi hữu cơ và kính che toàn bộ mặt.

Các hiểm họa nhiệt

Sử dụng trang phục bảo hộ chống nhiệt, khi cần thiết.

Các lưu ý vệ sinh chung

Khi sử dụng không hút thuốc. Luôn giám sát việc thực hiện tốt các biện pháp vệ sinh cá nhân, như rửa sạch sau khi làm việc với vật liệu và trước khi ăn, uống, và/hoặc hút thuốc. Thường xuyên giặt quần áo và các thiết bị bảo hộ cho sạch các chất gây ô nhiễm.

9. Tính chất lý hóa

Ngoại Quan

Trạng thái vật lý Chất lỏng.

Dạng Kem.

Màu Trắng.

Mùi Đặc điểm.

Ngưỡng phát hiện mùi Không có.

pH 3.5 - 4.5

Điểm chảy/điểm đông Không có.

Điểm và vùng nhiệt độ sôi ban đầu > 100 °C (> 212 °F)

Điểm chớp cháy	60.0 - 93.0 °C (140.0 - 199.4 °F) Cốc Kín
Tốc độ bay hơi	Không có.
Khả năng cháy (rắn, khí)	Không áp dụng.
Giới hạn cháy trên/dưới hoặc các giới hạn nổ	
Giới hạn cháy - dưới (%)	Không có.
Giới hạn cháy - trên (%)	Không có.
Giới hạn nổ – dưới (%)	Không có.
Giới hạn nổ – trên (%)	Không có.
Áp suất hơi	Không có.
Tỷ khối hơi	Không có.
Tỷ trọng tương đối	Không có.
(Các) độ tan	
Tính tan (nước)	Không có.
Hệ số phân tách (n-octanol/nước)	Không có.
Nhiệt độ tự bốc cháy	Không có.
Nhiệt độ phân hủy	Không có.
Độ nhớt	Không có.
Thông tin khác	
Tỷ Trọng	>= 0.98 g/cm³
Các tính chất nổ	Không nổ.
Các tính chất oxy hóa	Không oxy hóa.

10. Độ bền và khả năng phản ứng

Khả năng phản ứng	Sản phẩm ổn định và không phản ứng trong các điều kiện sử dụng, bảo quản và vận chuyển bình thường.
Độ bền hóa học	Vật liệu ổn định trong các điều kiện bình thường.
Khả năng gây phản ứng nguy hiểm	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Các điều kiện cần tránh	Tránh xa nhiệt, bề mặt nóng, tia lửa, ngọn lửa trần, và các nguồn gây cháy khác. Tránh các nhiệt độ vượt quá điểm bốc cháy. Tiếp xúc với các vật liệu tương kỵ.
Các vật liệu tương kỵ	Các chất oxy hóa mạnh.
Các sản phẩm phân hủy gây nguy hiểm	Không sản phẩm phân hủy nguy hại nào được biết đến.

11. Thông tin về độc tính

Thông tin về các lộ trình tiếp xúc có khả năng xảy ra

Hít phải	Việc hít phải lâu ngày có thể có hại.
Tiếp xúc với da	Được xem là không gây các tác dụng có hại khi tiếp xúc với da.
Tiếp xúc với mắt	Gây kích ứng mắt nghiêm trọng.
Ăn phải	Được xem là có hiểm họa ăn phải thấp.
Triệu chứng liên quan đến tính chất vật lý, hóa học và độc tính.	Kích ứng mắt nghiêm trọng. Các triệu chứng có thể bao gồm xót, chảy nước mắt, đỏ, sưng, và mờ mắt.
Thông tin về các tác dụng độc	
Độc tính cấp tính	Chưa được biết.

Hiểm họa hít phải Không phải là một hiểm họa cho đường hô hấp.

Ảnh hưởng mãn tính Có thể gây tổn thương cho các cơ quan khi bị tiếp xúc trong thời gian dài hoặc lặp lại.

Thông tin khác Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộng rãi và các nghiên cứu khách quan của các đơn vị chuyên ngành.

12. Thông tin về sinh thái

Độc tính sinh thái Sản phẩm không được phân loại là nguy hiểm cho môi trường. Tuy nhiên, điều đó không có nghĩa là không có nguy cơ bị tràn đổ những lượng lớn hoặc thường xuyên dẫn đến tác dụng gây hại hoặc phá hủy môi trường.

GLYCERIN	-1.76

Di chuyển trong đất Không có dữ liệu.

Các tác dụng có hại khác Không có các tác dụng bất lợi cho môi trường nào khác (ví dụ, gây suy yếu tầng ozon, khả năng tạo ozon bằng phương pháp quang hóa, rối loạn nội tiết, khả năng làm tăng nhiệt độ trái đất) được xem là sẽ gặp phải từ thành phần này.

13. Các cân nhắc khi thải bỏ

Các Hướng Dẫn Thải Bỏ Thu gom và tái chế hoặc thải bỏ trong các dụng cụ đựng kín tại các bãi rác thải được phép. Vứt bỏ vật chứa bên trong/thùng chứa tuân theo các quy định địa phương/khu vực/quốc gia/quốc tế.

Các quy định tiêu hủy của địa phương Vứt bỏ tuân theo tất cả các quy định hiện hành.

Chất thải từ cặn lắng/ sản phẩm không sử dụng Loại bỏ theo quy định của địa phương Các dụng cụ đựng hoặc túi lót rỗng có thể còn chứa các cặn dư của sản phẩm. Vật liệu này và dụng cụ đựng của nó phải được thải bỏ bằng một cách thức an toàn (xem: Hướng dẫn thải bỏ).

Bao bì bị ô nhiễm Vì các dụng cụ đựng đã cạn vẫn có thể còn lại cặn sản phẩm, thực hiện dán nhãn cảnh báo ngay cả sau khi dụng cụ đựng đã cạn. Các thùng chứa rỗng cần được đưa tới cơ sở đủ tiêu chuẩn để tái chế hoặc loại bỏ

16. Thông tin khác, kể cả ngày soạn thảo hoặc sửa đổi

Ngày Ban Hành	26-Tháng-Tư-2023
Phiên bản số	01
Xếp hạng NFPA	Sức Khỏe: 2 Khả Năng Cháy: 2 Tính không ổn định: 0
Khước Từ Trách Nhiệm	Thông tin trong Bản Thông Tin An Toàn này là chính xác theo mức độ hiểu biết nhất của chúng tôi, thông tin chúng tôi có được và sự tin tưởng của chúng tôi vào ngày công bố tài liệu này. Thông tin được soạn thảo chỉ nhằm mục đích hướng dẫn cho việc thao tác, sử dụng, chế biến, bảo quản, vận chuyển, thải bỏ và xử lý rò rỉ được an toàn và không được xem là một sự bảo đảm hay đặc điểm chất lượng. Thông tin này chỉ liên quan đến riêng vật liệu đề cập trên và sẽ không hợp lệ khi vật liệu đó được sử dụng kết hợp với bất kỳ vật liệu nào khác hoặc bất kỳ quá trình chế biến nào, nếu không được nêu rõ trong tài liệu này.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT VIVID WASH CONDITIONER
Synonyms	None.
SDS number	34-12-0000058
Product code	1218427PL2
Issue date	04-26-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.

Hazard summary Causes serious eye irritation. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: BEHENTRIMONIUM CHLORIDE

Hazard pictograms

Signal word Warning

Hazard statements

H319 Causes serious eye irritation.

Precautionary statements

Prevention

P102 Keep out of reach of children.

P103	Read label before use.
P264	Wash thoroughly after handling.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 1,28% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 4,28% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
BEHENTRIMONIUM CHLORIDE	2,37	68607-24-9 271-756-9	01-2119484817-22	-	
Classification:	Skin Irrit. 2;H315, Eye Dam. 1;H318, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				
DICETYLDIMONIUM CHLORIDE	0,68	68391-05-9 269-924-1	01-2119486994-16	-	
Classification:	Acute Tox. 4;H302, Skin Corr. 1B;H314, Eye Dam. 1;H318, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				
CETRIMONIUM CHLORIDE	0,02	112-02-7 203-928-6	01-2119970558-23	-	
Classification:	Acute Tox. 4;H302, Acute Tox. 3;H311, Skin Corr. 1C;H314, Eye Dam. 1;H318, Aquatic Acute 1;H400(M=10), Aquatic Chronic 1;H410				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	VME	10 mg/m3	Aerosol.

Regulatory status: Indicative limit (VL)

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	200 mg/m3	Inhalable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	AGW	200 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Inhalable fraction.
PROPYLENE GLYCOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalable fraction and vapor.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear suitable protective clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Liquid.

Form Cream.

Color White.

Odor Characteristic.

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flammability Not applicable.

Upper/lower flammability or explosive limits

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Flash point 140,0 - 199,4 °F (60,0 - 93,0 °C) Closed Cup

Auto-ignition temperature Not available.

Decomposition temperature	Not available.
pH	3,5 - 4,5
Kinematic viscosity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Vapor pressure	Not available.
Density	>= 0,98 g/cm³
Vapor density	Not available.
Particle characteristics	Not available.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Not known.

Components	Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Acute		
Oral		
LD50	Rat	3190 mg/kg OECD 401
CETRIMONIUM CHLORIDE (CAS 112-02-7)		
Acute		
Dermal		
LD50	Rabbit	528 mg/kg OECD 402
Oral		
LD50	Rat	699 mg/kg OECD 401
DICETYLDIMONIUM CHLORIDE (CAS 68391-05-9)		
Acute		
Oral		
LD50	Rat	960 mg/kg

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

CETRIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit

Irritation Corrosion - Skin

DICETYLDIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit
BEHENTRIMONIUM CHLORIDE	OECD 405 Result: Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

BEHENTRIMONIUM CHLORIDE	OECD 404 Result: Corrosive Species: Rabbit
CETRIMONIUM CHLORIDE	OECD 405 Result: Corrosive Species: Rabbit
DICETYLDIMONIUM CHLORIDE	OECD 405 Result: Corrosive Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

BEHENTRIMONIUM CHLORIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
CETRIMONIUM CHLORIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig
DICETYLDIMONIUM CHLORIDE	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

BEHENTRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects
CETRIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects
DICETYLDIMONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

DICETYLDIMONIUM CHLORIDE	12 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

DICETYLDIMONIUM CHLORIDE	56,3 mg/kg bw/d OECD 416 Result: NOAEL Species: Rat
BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OECD 421 Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d
CETRIMONIUM CHLORIDE	100 mg/kg bw/d OECD 407 Result: NOAEL Species: Rat Test Duration: 28 d

Specific target organ toxicity - repeated exposure

DICETYLDIMONIUM CHLORIDE	42 - 49 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 93 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

11.2 Information on other hazards

Endocrine disrupting properties The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	3,48 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,39 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	0,5 - 1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	43 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	0,128 mg/l, 21 d OECD 211
Fish	NOEC	Danio rerio	0,24 mg/l, 9 d OECD 212
CETRIMONIUM CHLORIDE (CAS 112-02-7)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0,08 mg/l, 72 hours OECD 201
Crustacea	EC50	Daphnia magna	0,09 mg/l, 48 hours OECD 202
Fish	LC50	Danio rerio	0,19 - 0,29 mg/l, 96 hours OECD 203
Other	EC50	Pseudomonas putida	0,96 mg/l, 16 hours DIN 38412; Pt. 8
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	0,04 mg/l, 72 hours OECD 201
Crustacea	NOEC	Daphnia magna	0,0068 mg/l, 21 day OECD 211
Fish	NOEC	Pimephales promelas	0,032 mg/l, 28 day US FIFRA 72-4(a)
DICETYLDIMONIUM CHLORIDE (CAS 68391-05-9)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0,386 mg/l, 72 h OECD 201
Crustacea	EC50	Acartia tonsa	0,295 mg/l, 48 h ISO 14669
Fish	LC50	Danio rerio	0,26 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	68 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	0,06 mg/l, 72 h OECD 201
Crustacea	NOEC	Daphnia magna	0,5 mg/l, 21 d OECD 202
Fish	NOEC	Pimephales promelas	0,23 mg/l, 35 d EPA-66013-75-00

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BEHENTRIMONIUM CHLORIDE	80 % OECD 301 Result: Readily Biodegradable Test Duration: 28 d
CETRIMONIUM CHLORIDE	93,5 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
DICETYLDIMONIUM CHLORIDE	61 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

CETRIMONIUM CHLORIDE	3,23
DICETYLDIMONIUM CHLORIDE	4,7 - 4,9 OECD 123

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Endocrine disrupting properties The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Maritime transport in bulk according to IMO instructions Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H302 Harmful if swallowed. H311 Toxic in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H318 Causes serious eye damage. H373 May cause damage to organs through prolonged or repeated exposure by ingestion. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT VIVID WASH CONDITIONER
Synonymes	Aucun(e)(s).
Numéro de la FDS	34-12-0000058
Code de produit	1218427PL2
Date de publication	le 26-Avril-2023
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé

Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.

Résumé des dangers

Provoque une sévère irritation des yeux. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : BEHENTRIMONIUM CHLORIDE

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H319	Provoque une sévère irritation des yeux.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P264	Se laver soigneusement après manipulation.
P280	Porter un équipement de protection des yeux/du visage.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P337 + P313	Si l'irritation oculaire persiste: consulter un médecin.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Informations supplémentaires de l'étiquette 1,28 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 4,28 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus. La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
BEHENTRIMONIUM CHLORIDE	2,37	68607-24-9 271-756-9	01-2119484817-22	-	
Classification :	Skin Irrit. 2;H315, Eye Dam. 1;H318, STOT RE 2;H373, Aquatic Acute 1;H400, Aquatic Chronic 2;H411				
DICETYLDIMONIUM CHLORIDE	0,68	68391-05-9 269-924-1	01-2119486994-16	-

Classification :	Acute Tox. 4;H302, Acute Tox. 3;H311, Skin Corr. 1C;H314, Eye Dam. 1;H318, Aquatic Acute 1;H400(M=10), Aquatic Chronic 1;H410				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Si l'irritation oculaire persiste: consulter un médecin.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie

Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés

Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés

En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange

En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers

Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie

Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention

Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes

Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes

Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement

Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage

Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques

Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger

Éviter le contact avec les yeux. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s)

Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

La Belgique. Valeurs limites d'exposition

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Brouillard.

La France. INRS, Valeurs limites d'exposition professionnelle aux agents chimiques

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Aérosol

État réglementaire: Limite Indicative

Allemagne. Liste MAK de la DFG (VLE indicatives). Fondation allemande pour la recherche, Division des risques liés aux composés chimiques dans le travail (DFG)

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	200 mg/m3	Fraction inhalable.

Allemagne. TRGS 900, Valeurs limites dans l'air ambiant sur le lieu de travail

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	AGW	200 mg/m3	Fraction inhalable.

Ordonnance du ministre du Travail et de la Politique sociale du 6 juin 2014 sur les concentrations maximales admisibles l'intensité des facteurs de santé nuisibles dans le milieu de travail, Journal des lois 2014, article 817

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Fraction inhalable.
PROPANE-1,2-DIOL (CAS 57-55-6)	VME	100 mg/m3	Fraction inhalable et vapeur.

Espagne. Limites d'exposition professionnelle

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Brouillard.

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter un vêtement de protection approprié.

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Risques thermiques Porter des équipements de protection contre la chaleur, si nécessaire.

Mesures d'hygiène Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.

Contrôles d'exposition liés à la protection de l'environnement Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

État physique Liquide.

Forme Crème.

Couleur Blanche.

Odeur Caractéristique.

Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Inflammabilité	Sans objet.

Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité

Limite d'explosivité inférieure (%)	Donnée inconnue.
Limite d'explosivité – supérieure (%)	Donnée inconnue.
Point d'éclair	60,0 - 93,0 °C (140,0 - 199,4 °F) Coupelle fermée
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
pH	3,5 - 4,5
Viscosité cinématique	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité	>= 0,98 g/cm³
Densité de vapeur	Donnée inconnue.
Caractéristiques de la particule	Donnée inconnue.
9.2. Autres informations	Aucune information pertinente supplémentaire n'est disponible.

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	L'inhalation prolongée peut être nocive.
Contact avec la peau	Aucun effet indésirable par contact cutané n'est attendu.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.
Symptômes	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée.

11.1. Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë Donnée inconnue.

Composants	Espèce	Résultats d'essais
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)		
Aiguë		
Oral		
DL50	Rat	3190 mg/kg OCDE 401

Composants	Espèce	Résultats d'essais
CETRIMONIUM CHLORIDE (CAS 112-02-7)		
Aiguë		
Cutané		
DL50	Lapin	528 mg/kg OCDE 402
Oral		
DL50	Rat	699 mg/kg OCDE 401
DICETYLDIMONIUM CHLORIDE (CAS 68391-05-9)		
Aiguë		
Oral		
DL50	Rat	960 mg/kg

Corrosion cutanée/irritation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau

CETRIMONIUM CHLORIDE	OCDE 404 Résultat: Corrosif Espèce: Lapin
DICETYLDIMONIUM CHLORIDE	OCDE 404 Résultat: Corrosif Espèce: Lapin
BEHENTRIMONIUM CHLORIDE	OCDE 405 Résultat: Irritant Espèce: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation/corrosion – Œil

BEHENTRIMONIUM CHLORIDE	OCDE 404 Résultat: Corrosif Espèce: Lapin
CETRIMONIUM CHLORIDE	OCDE 405 Résultat: Corrosif Espèce: Lapin
DICETYLDIMONIUM CHLORIDE	OCDE 405 Résultat: Corrosif Espèce: Lapin

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée

BEHENTRIMONIUM CHLORIDE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
CETRIMONIUM CHLORIDE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
DICETYLDIMONIUM CHLORIDE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

BEHENTRIMONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
CETRIMONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
DICETYLDIMONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

N'est pas listé.

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

DICETYLDIMONIUM CHLORIDE	12 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat

Toxicité pour la reproduction

DICETYLDIMONIUM CHLORIDE	56,3 mg/kg bw/d OCDE 416 Résultat: NOAEL Espèce: Rat
BEHENTRIMONIUM CHLORIDE	75 mg/kg bw/d OCDE 421 Résultat: NOAEL Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

BEHENTRIMONIUM CHLORIDE	10 mg/kg bw/d OCDE 407, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d
CETRIMONIUM CHLORIDE	100 mg/kg bw/d OCDE 407 Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d
DICETYLDIMONIUM CHLORIDE	42 - 49 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 93 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

11.2 Information on other hazards

Endocrine disrupting properties La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.

Composants		Espèce	Résultats d'essais
BEHENTRIMONIUM CHLORIDE (CAS 68607-24-9)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	3,48 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	43 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	1,39 mg/l, 48 h OCDE 202
Poisson	CL50	Danio rerio	0,5 - 1 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,128 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Danio rerio	0,24 mg/l, 9 d OECD 212

Composants		Espèce	Résultats d'essais

Poisson	NOEC (concentration sans effet observé)	Pimephales promelas	0,23 mg/l, 35 d E.P.A. -66013-75-00

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BEHENTRIMONIUM CHLORIDE	80 en % OCED 301 Résultat: Facilement Biodegradable Durée de l'essai: 28 d
CETRIMONIUM CHLORIDE	93,5 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
DICETYLDIMONIUM CHLORIDE	61 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

CETRIMONIUM CHLORIDE	3,23
DICETYLDIMONIUM CHLORIDE	4,7 - 4,9 OECD 123

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB	Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.
12.6. Propriétés perturbant le système endocrinien	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.
12.7. Other adverse effects	Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.
.	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires	Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).
Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport maritime en vrac conformément aux instruments de l'OMI	Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H302 Nocif en cas d'ingestion. H311 Toxique par contact cutané. H314 Provoque des brûlures de la peau et des lésions oculaires graves. H315 Provoque une irritation cutanée. H318 Provoque des lésions oculaires graves. H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée par ingestion. H400 Très toxique pour les organismes aquatiques. H410 Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.

Clause de non-responsabilité

Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte.
Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT VIVID WASH SHAMPOO**

Other means of identification

SDS number 00-11-0001299

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2A
Reproductive toxicity (the unborn child)	Category 2

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes skin irritation. Causes serious eye irritation. Suspected of damaging the unborn child.

Precautionary statement

Prevention Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

Response If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store locked up.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
SODIUM C14-16 OLEFIN SULFONATE		68439-57-6	≤ 10

Chemical name	Common name and synonyms	CAS number	%
SODIUM LAUROYL SARCOSINATE		137-16-6	< 2
GLYCERIN		56-81-5	≤ 2
COCAMIDE MIPA		68333-82-4	≤ 1
HEXYLENE GLYCOL		107-41-5	≤ 1
SALICYLIC ACID		69-72-7	≤ 0.2

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store locked up. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
		50 mppcf	Total dust.
		15 mppcf	Respirable fraction.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
HEXYLENE GLYCOL (CAS 107-41-5)	STEL	10 mg/m3	Aerosol, inhalable.
		50 ppm	Vapor fraction
	TWA	25 ppm	Vapor fraction

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
HEXYLENE GLYCOL (CAS 107-41-5)	Ceiling	125 mg/m3
		25 ppm

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

Eye/face protection

Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Skin protection

Hand protection

Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other

Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection

Applicable for industrial settings only. Chemical respirator with organic vapor cartridge and full facepiece.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state	Liquid.
Color	White.
Odor	Not available.
Odor threshold	Not available.
pH	5.1 - 5.7
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	> 199.4 °F (> 93.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.

Solubility(ies)

Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information

Density	>= 1.01 g/cm3
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT VIVID WASH SHAMPOO

Skin corrosion/irritation Causes skin irritation.

Irritation Corrosion - Skin

SODIUM C14-16 OLEFIN SULFONATE	OECD 404 Result: Irritating Species: Rabbit
SALICYLIC ACID	OECD 404 Result: Not Irritating Species: Rabbit
SODIUM LAUROYL SARCOSINATE	OECD 404, 30% Sol. Result: Slightly Irritating Species: Rabbit
COCAMIDE MIPA	OECD 404, Based on test data for structurally similar materials. Result: Irritating Species: Rabbit
HEXYLENE GLYCOL	OECD 405 Result: Slightly irritating Species: Rabbit
GLYCERIN	Result: Not Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

HEXYLENE GLYCOL	OECD 405 Result: Slightly irritating Species: Rabbit
SODIUM LAUROYL SARCOSINATE	OECD 405, 30% Sol. Result: Irritating Species: Rabbit
SODIUM C14-16 OLEFIN SULFONATE	OECD 405, 5% < C ≤ 38% Result: Irritating Species: Rabbit
COCAMIDE MIPA	OECD 405, Based on test data for structurally similar materials. Result: Corrosive Species: Rabbit
SODIUM C14-16 OLEFIN SULFONATE	OECD 405, C >38% Result: Corrosive Species: Rabbit
HEXYLENE GLYCOL	Result: Irritating Species: Human
GLYCERIN	Result: Not Irritating Species: Rabbit
SALICYLIC ACID	Result: Severely Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

GLYCERIN	167 mg/m3 air OECD 413, Inhalation Result: NOAEL Species: Rat Test Duration: 90 d

Skin sensitization

SODIUM LAUROYL SARCOSINATE	EU B.6 Result: Not Sensitizing Species: Guinea pig
COCAMIDE MIPA	OECD 406 Result: Not Sensitizing Species: Guinea pig
HEXYLENE GLYCOL	OECD 406 Result: Not Sensitizing Species: Guinea pig
SODIUM C14-16 OLEFIN SULFONATE	OECD 406 Result: Not Sensitizing Species: Guinea pig
SALICYLIC ACID	OECD 429 Result: Not Sensitizing Species: Mouse
GLYCERIN	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

GLYCERIN	Result: In vitro and in vivo tests did not show mutagenic effects.
COCAMIDE MIPA	Result: In vitro tests did not show mutagenic effects
HEXYLENE GLYCOL	Result: In vitro tests did not show mutagenic effects
SODIUM C14-16 OLEFIN SULFONATE	Result: In vitro tests did not show mutagenic effects
SODIUM LAUROYL SARCOSINATE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Suspected of damaging the unborn child.

Developmental effects

COCAMIDE MIPA	> 1000 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
SODIUM LAUROYL SARCOSINATE	>= 250 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
SODIUM C14-16 OLEFIN SULFONATE	>= 600 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
GLYCERIN	1310 mg/kg bw/d, No effects on development Result: NOAEL Species: Rat
HEXYLENE GLYCOL	300 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
SALICYLIC ACID	75 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

HEXYLENE GLYCOL	1000 mg/kg bw/d OECD 421 Result: NOEL Species: Rat
GLYCERIN	2000 mg/kg bw/d, No effects on fertility Result: NOAEL Species: Rat

Reproductivity

SALICYLIC ACID	250 mg/kg bw/d OECD 416, Based on test data for structurally similar materials. Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

COCAMIDE MIPA	> 750 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d
SODIUM C14-16 OLEFIN SULFONATE	>= 259 mg/kg bw/d Result: NOAEL Species: Rat Test Duration: 104 wk
SODIUM LAUROYL SARCOSINATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d
HEXYLENE GLYCOL	450 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat
SALICYLIC ACID	700 mg/m3 air OECD 412, Based on test data for structurally similar materials. Result: NOEC Species: Rat Test Duration: 28 d
GLYCERIN	8000 mg/kg bw/d, Oral Result: NOAEL Species: Rat Test Duration: 2 yr

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
COCAMIDE MIPA (CAS 68333-82-4)			
Aquatic			
Acute

SALICYLIC ACID	2.26
SODIUM C14-16 OLEFIN SULFONATE	-1.3 EU A.8

Bioconcentration factor (BCF)

COCAMIDE MIPA	143

Bioaccumulation

COCAMIDE MIPA	Result: Bioaccumulation is unlikely.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Toxicité pour la reproduction (le fœtus)	Catégorie 2

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Provoque une irritation cutanée. Provoque une sévère irritation des yeux. Susceptible de nuire au fœtus.

Conseil de prudence

Prévention Se procurer les instructions avant utilisation. Ne pas manipuler avant d'avoir lu et compris toutes les précautions de sécurité. Se laver soigneusement après manipulation. Porter des gants de protection/des vêtements de protection/un équipement de protection des yeux/du visage.

Intervention En contact avec la peau : Laver avec beaucoup d'eau. En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Si exposé(e) ou préoccupé(e) : Obtenir une consultation médicale ou des soins médicaux. En cas d'irritation cutanée : Demander un avis médical/Consulter un médecin. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Garder sous clef.

Élimination Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
SODIUM C14-16 OLEFIN SULFONATE		68439-57-6	≤ 10
Laurylsarcosinate de sodium		137-16-6	< 2
GLYCÉRINE		56-81-5	≤ 2
COCAMIDE MIPA		68333-82-4	≤ 1
GLYCOL DE HEXYLENE		107-41-5	≤ 1
ACIDE SALICYLIQUE		69-72-7	≤ 0.2

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Enlever les vêtements contaminés. Laver abondamment au savon et à l'eau. En cas d'irritation cutanée : Demander un avis médical/Consulter un médecin. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Irritation de la peau. Peut provoquer des rougeurs et des douleurs.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales EN CAS d'exposition prouvée ou suspectée : Demander un avis médical/Consulter un médecin. En cas de malaise, demander un avis médical (montrer l'étiquette du produit lorsque possible). S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger. Présenter cette fiche de données de sécurité au médecin traitant.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Équipement/directives de lutte contre les incendies Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.

Risques d'incendie généraux Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Se procurer les instructions avant utilisation. Ne pas manipuler avant d'avoir lu et compris toutes les précautions de sécurité. Éviter tout contact avec les yeux, la peau et les vêtements. Éviter une exposition prolongée. Les femmes enceintes ou allaitantes ne doivent pas manipuler ce produit. Doit être manipulé dans des systèmes fermés, si possible. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Garder sous clef. Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

États-Unis - TABLEAU Z-3 (29 CFR 1910.1000) de l'OSHA

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	TWA	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.
		50 mppcf	Poussières totales.
		15 mppcf	Fraction respirable.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	PEL (limite d'exposition admissible)	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
GLYCOL DE HEXYLENE (CAS 107-41-5)	STEL	10 mg/m3	Aérosol, inhalable.
		50 ppm	Fraction vapeur
	TWA	25 ppm	Fraction vapeur

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur
GLYCOL DE HEXYLENE (CAS 107-41-5)	Plafond	125 mg/m3
		25 ppm

Valeurs biologiques limites

Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés

Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques
Autre	Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques Il est recommandé d'utiliser un tablier imperméable.
Protection respiratoire	Pour usage industriel seulement. Respirateur chimique à cartouche contre les vapeurs organiques et masque complet.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Suivre toutes les exigences de surveillance médicale. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Couleur	Blanc.
Odeur	Non disponible.
Seuil olfactif	Non disponible.
pH	5.1 - 5.7
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	Non disponible.
Point d'éclair	> 93.0 °C (> 199.4 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 1.01 g/cm3

Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	Provoque une irritation cutanée.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Irritation de la peau. Peut provoquer des rougeurs et des douleurs.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Corrosion cutanée/irritation cutanée Provoque une irritation cutanée.

Irritation- corrosion - Cutanée

SODIUM C14-16 OLEFIN SULFONATE	OCDE 404 Résultat: Irritant Espèces: Lapin
ACIDE SALICYLIQUE	OCDE 404 Résultat: Non Irritant Espèces: Lapin
Laurylsarcosinate de sodium	OCDE 404, 30% Sol. Résultat: Légèrement Irritant Espèces: Lapin
COCAMIDE MIPA	OCDE 404, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: Irritant Espèces: Lapin
GLYCOL DE HEXYLENE	OCDE 405 Résultat: Légèrement irritant. Espèces: Lapin
GLYCÉRINE	Résultat: Non Irritant Espèces: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation- corrosion - Œil

GLYCOL DE HEXYLENE	OCDE 405 Résultat: Légèrement irritant. Espèces: Lapin
Laurylsarcosinate de sodium	OCDE 405, 30% Sol. Résultat: Irritant Espèces: Lapin
SODIUM C14-16 OLEFIN SULFONATE	OCDE 405, 5% < C ≤ 38% Résultat: Irritant Espèces: Lapin

Irritation- corrosion - Œil

COCAMIDE MIPA	OCDE 405, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: Corrosif Espèces: Lapin
SODIUM C14-16 OLEFIN SULFONATE	OCDE 405, C >38% Résultat: Corrosif Espèces: Lapin
ACIDE SALICYLIQUE	Résultat: Gravement Irritant Espèces: Lapin
GLYCOL DE HEXYLENE	Résultat: Irritant Espèces: Homme
GLYCÉRINE	Résultat: Non Irritant Espèces: Lapin

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée On ne s'attend pas à ce que ce produit provoque une sensibilisation cutanée.

Sensibilisation cutanée

GLYCÉRINE	167 mg/m3 air OECD 413, Inhalation Résultat: DSENO Espèces: Rat Durée du test: 90 d
Laurylsarcosinate de sodium	EU B.6 Résultat: Non Sensibilisant Espèces: Cobaye
COCAMIDE MIPA	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
GLYCOL DE HEXYLENE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
SODIUM C14-16 OLEFIN SULFONATE	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye
ACIDE SALICYLIQUE	OCDE 429 Résultat: Non Sensibilisant Espèces: Souris
GLYCÉRINE	Résultat: Non Sensibilisant Espèces: Cobaye

Mutagénicité sur les cellules germinales Il n’existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

GLYCÉRINE	Résultat: Des essais in vitro et in vivo n’ont pas montré d’effets mutagènes.
COCAMIDE MIPA	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
GLYCOL DE HEXYLENE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
Laurylsarcosinate de sodium	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes
SODIUM C14-16 OLEFIN SULFONATE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l’OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction Susceptible de nuire au fœtus.

Effets sur le développement

COCAMIDE MIPA	> 1000 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat
Laurylsarcosinate de sodium	>= 250 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat
SODIUM C14-16 OLEFIN SULFONATE	>= 600 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat
GLYCÉRINE	1310 mg/kg bw/d, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat
GLYCOL DE HEXYLENE	300 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat
ACIDE SALICYLIQUE	75 mg/kg bw/d OCDE 414 Résultat: DSENO Espèces: Rat

Reproductivité

GLYCOL DE HEXYLENE	1000 mg/kg bw/d OCDE 421 Résultat: DSEO Espèces: Rat
GLYCÉRINE	2000 mg/kg bw/d, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat
ACIDE SALICYLIQUE	250 mg/kg bw/d OCDE 416, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

COCAMIDE MIPA	> 750 mg/kg bw/d OCDE 407, Orale Résultat: DSENO Espèces: Rat Durée du test: 28 d
SODIUM C14-16 OLEFIN SULFONATE	>= 259 mg/kg bw/d Résultat: DSENO Espèces: Rat Durée du test: 104 wk
Laurylsarcosinate de sodium	250 mg/kg bw/d OCDE 408, Orale Résultat: DSENO Espèces: Rat Durée du test: 90 d
GLYCOL DE HEXYLENE	450 mg/kg bw/d OCDE 408, Orale Résultat: DSENO Espèces: Rat
ACIDE SALICYLIQUE	700 mg/m3 air OCDE 412, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEC (concentration sans effet observé) Espèces: Rat Durée du test: 28 d
GLYCÉRINE	8000 mg/kg bw/d, Orale Résultat: DSENO Espèces: Rat Durée du test: 2 yr

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Composants		Espèces	Résultats d'épreuves

GLYCOL DE HEXYLENE	0.58
SODIUM C14-16 OLEFIN SULFONATE	-1.3 EU A.8

Facteur de bioconcentration

COCAMIDE MIPA	143

Bioaccumulation

COCAMIDE MIPA — Résultat: Une bioaccumulation est peu probable.

Mobilité dans le sol — Aucune donnée disponible.

Autres effets nocifs — On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination — Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination — Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés — Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés — Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis — Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux — No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l’air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l’eau potable sûre) Non réglementé.

Substances respiratoires prioritaires FEMA - santé et sécurité respiratoire dans le lieu de travail de fabrication d’arômes

GLYCÉRINE (CAS 56-81-5)	Autres substances aromatisantes avec OSHA PEL

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	08-Mai-2023
Version n°	01
Classements NFPA	Santé: 2 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l’utilisation, le traitement, l’entreposage, le transport, l’élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT VIVID WASH SHAMPOO
Synonyms	None.
SDS number	00-11-0001299
Product code	1218426PL1
Issue date	05-08-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Skin corrosion/irritation	Category 2	H315 - Causes skin irritation.
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.

Hazard summary Causes serious eye irritation. Causes skin irritation. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: COCAMIDE MIPA, SODIUM C14-16 OLEFIN SULFONATE, SODIUM LAUROYL SARCOSINATE

Hazard pictograms

Signal word Warning

Hazard statements

H315	Causes skin irritation.
H319	Causes serious eye irritation.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P280	Wear eye protection/face protection.
P280	Wear protective gloves.

Response

P101	If medical advice is needed, have product container or label at hand.
P302 + P352	IF ON SKIN: Wash with plenty of water.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P332 + P313	If skin irritation occurs: Get medical advice/attention.
P337 + P313	If eye irritation persists: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 2,5% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 15,21% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
SODIUM C14-16 OLEFIN SULFONATE	≤ 10	68439-57-6 931-534-0	01-2119513401-57	-	
Classification:	Skin Irrit. 2;H315, Eye Dam. 1;H318				
SODIUM LAUROYL SARCOSINATE	< 2	137-16-6 205-281-5	01-2119527780-39	-	
Classification:	Skin Irrit. 2;H315, Eye Dam. 1;H318, Acute Tox. 2;H330				
COCAMIDOPROPYL BETAINE	≤ 2	97862-59-4 931-296-8	01-2119488533-30	-	
Classification:	Eye Dam. 1;H318, Aquatic Chronic 3;H412				
COCAMIDE MIPA	≤ 1	1335203-30-9 931-596-9	01-2119519248-37	-	
Classification:	Skin Irrit. 2;H315, Eye Dam. 1;H318, Aquatic Chronic 2;H411				
HEXYLENE GLYCOL	≤ 1	107-41-5 203-489-0	01-2119539582-35	603-053-00-3	
Classification:	Skin Irrit. 2;H315, Eye Irrit. 2;H319				
SALICYLIC ACID	≤ 0,2	69-72-7 200-712-3	01-2119486984-17	607-732-00-5	
Classification:	Acute Tox. 4;H302, Eye Dam. 1;H318, Repr. 2;H361d				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.
COCAMIDOPROPYL BETAINE (97862-59-4) – SCL – H318: ≥ 10%; H319: 4% - <10%

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
4.2. Most important symptoms and effects, both acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.
4.3. Indication of any immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards	No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	VME	10 mg/m3	Aerosol.
Regulatory status: Indicative limit (VL)			
HEXYLENE GLYCOL (CAS 107-41-5)	VLE	125 mg/m3	
Regulatory status: Indicative limit (VL)			
		25 ppm	
Regulatory status: Indicative limit (VL)			

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	200 mg/m3	Inhalable fraction.
HEXYLENE GLYCOL (CAS 107-41-5)	TWA	49 mg/m3	Vapor and aerosol.
		10 ppm	Vapor and aerosol.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	AGW	200 mg/m3	Inhalable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
HEXYLENE GLYCOL (CAS 107-41-5)	STEL	10 mg/m3	Aerosol, inhalable.
		50 ppm	Vapor fraction
	TWA	25 ppm	Vapor fraction

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Inhalable fraction.
HEXYLENE GLYCOL (CAS 107-41-5)	STEL	100 mg/m3	Inhalable fraction and vapor.
	TWA	50 mg/m3	Inhalable fraction and vapor.
PROPYLENE GLYCOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalable fraction and vapor.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.
HEXYLENE GLYCOL (CAS 107-41-5)	STEL	123 mg/m3	
		25 ppm	

Biological limit values	No biological exposure limits noted for the ingredient(s).
Recommended monitoring procedures	Follow standard monitoring procedures.
Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
- Other	Applicable for industrial settings only. Wear appropriate chemical resistant clothing.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Liquid.
Form	Not available.
Color	White.
Odor	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flammability	Not applicable.
Upper/lower flammability or explosive limits	
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Flash point	> 199,4 °F (> 93,0 °C) Closed Cup
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
pH	5,1 - 5,7
Kinematic viscosity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Vapor pressure	Not available.
Density	>= 1,01 g/cm3
Vapor density	Not available.
Particle characteristics	Not available.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.

10.6. Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact Causes skin irritation.

Eye contact Causes serious eye irritation.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Symptoms Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Not known.

Components	Species	Test Results
COCAMIDE MIPA (CAS 1335203-30-9)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg OECD 402
Oral		
LD50	Rat	> 2000 mg/kg OECD 401
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)		
Acute		
Dermal		
LD50	Rat	> 620 mg/kg OECD 402
Oral		
LD50	Rat	2335 mg/kg OECD 401
HEXYLENE GLYCOL (CAS 107-41-5)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg OECD 402
Inhalation		
LC50	Rat	> 60 ml/m3 air, 8 h OECD 403
Oral		
LD50	Rat	> 2000 mg/kg OECD 420
SALICYLIC ACID (CAS 69-72-7)		
Acute		
Dermal		
LD50	Rat	> 2000 mg/kg OECD 402
Oral		
LD50	Rat	891 mg/kg OECD 401
SODIUM C14-16 OLEFIN SULFONATE (CAS 68439-57-6)		
Acute		
Dermal		
LD50	Rabbit	6300 mg/kg OECD 402
Inhalation		
Aerosol		
LC50	Rat	> 52 mg/l, 4 h OECD 403
Oral		
LD50	Rat	2079 mg/kg OECD 401

Components	Species	Test Results
SODIUM LAUROYL SARCOSINATE (CAS 137-16-6)		
Acute		
Inhalation		
Aerosol		
LC50	Rat	0,05 - 0,5 mg/l, 4 h OECD 403
Oral		
LD50	Rat	> 5000 mg/kg OECD 401

Skin corrosion/irritation Causes skin irritation.

Irritation Corrosion - Skin

SODIUM C14-16 OLEFIN SULFONATE	OECD 404 Result: Irritating Species: Rabbit
SALICYLIC ACID	OECD 404 Result: Not Irritating Species: Rabbit
COCAMIDOPROPYL BETAINE	OECD 404 Result: Slightly Irritating Species: Rabbit
SODIUM LAUROYL SARCOSINATE	OECD 404, 30% Sol. Result: Slightly Irritating Species: Rabbit
COCAMIDE MIPA	OECD 404, Based on test data for structurally similar materials. Result: Irritating Species: Rabbit
HEXYLENE GLYCOL	OECD 405 Result: Slightly irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

HEXYLENE GLYCOL	OECD 405 Result: Slightly irritating Species: Rabbit
COCAMIDOPROPYL BETAINE	OECD 405, (C > 10%) Result: Corrosive Species: Rabbit OECD 405, (C ≤ 10%) Result: Irritating Species: Rabbit
SODIUM LAUROYL SARCOSINATE	OECD 405, 30% Sol. Result: Irritating Species: Rabbit
SODIUM C14-16 OLEFIN SULFONATE	OECD 405, 5% < C ≤ 38% Result: Irritating Species: Rabbit
COCAMIDE MIPA	OECD 405, Based on test data for structurally similar materials. Result: Corrosive Species: Rabbit
SODIUM C14-16 OLEFIN SULFONATE	OECD 405, C >38% Result: Corrosive Species: Rabbit
HEXYLENE GLYCOL	Result: Irritating Species: Human
SALICYLIC ACID	Result: Severely Irritating Species: Rabbit

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

SODIUM LAUROYL SARCOSINATE	EU B,6 Result: Not Sensitizing Species: Guinea pig
COCAMIDE MIPA	OECD 406 Result: Not Sensitizing Species: Guinea pig

Skin sensitization

COCAMIDOPROPYL BETAINE	OECD 406 Result: Not Sensitizing Species: Guinea pig
HEXYLENE GLYCOL	OECD 406 Result: Not Sensitizing Species: Guinea pig
SODIUM C14-16 OLEFIN SULFONATE	OECD 406 Result: Not Sensitizing Species: Guinea pig
SALICYLIC ACID	OECD 429 Result: Not Sensitizing Species: Mouse

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

COCAMIDOPROPYL BETAINE	Result: In vitro and in vivo tests did not show mutagenic effects.
COCAMIDE MIPA	Result: In vitro tests did not show mutagenic effects
HEXYLENE GLYCOL	Result: In vitro tests did not show mutagenic effects
SODIUM C14-16 OLEFIN SULFONATE	Result: In vitro tests did not show mutagenic effects
SODIUM LAUROYL SARCOSINATE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

SALICYLIC ACID (CAS 69-72-7)

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

COCAMIDE MIPA	> 1000 mg/kg bw/d OECD 414, Based on test data for structurally similar materials. Result: NOAEL Species: Rat
SODIUM LAUROYL SARCOSINATE	>= 250 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
SODIUM C14-16 OLEFIN SULFONATE	>= 600 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
HEXYLENE GLYCOL	300 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat
COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 414, No effects on development Result: NOEL Species: Rat
SALICYLIC ACID	75 mg/kg bw/d OECD 414 Result: NOAEL Species: Rat

Reproductivity

HEXYLENE GLYCOL	1000 mg/kg bw/d OECD 421 Result: NOEL Species: Rat
COCAMIDOPROPYL BETAINE	247 mg/kg bw/d OECD 408 Result: NOEL Species: Rat
SALICYLIC ACID	250 mg/kg bw/d OECD 416, Based on test data for structurally similar materials. Result: NOAEL Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

COCAMIDE MIPA	> 750 mg/kg bw/d OECD 407, Oral Result: NOAEL Species: Rat Test Duration: 28 d

Specific target organ toxicity - repeated exposure

SODIUM C14-16 OLEFIN SULFONATE	>= 259 mg/kg bw/d Result: NOAEL Species: Rat Test Duration: 104 wk
SODIUM LAUROYL SARCOSINATE	250 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat Test Duration: 90 d
COCAMIDOPROPYL BETAINE	300 mg/kg bw/d OECD 408, Oral Result: NOEL Species: Rat Test Duration: 90 d
HEXYLENE GLYCOL	450 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat
SALICYLIC ACID	700 mg/m3 air OECD 412, Based on test data for structurally similar materials. Result: NOEC Species: Rat Test Duration: 28 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

11.2 Information on other hazards

Endocrine disrupting properties The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
COCAMIDE MIPA (CAS 1335203-30-9)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 9,4 mg/l, 72 h OECD 201
Crustacea	LC50	Daphnia magna	3,7 mg/l, 48 h OECD 202
Fish	LC50	Fish	2,7 mg/l, 96 h QSAR
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h OECD 209
Chronic			
Algae	NOEC	Pseudokirchneriella subcapitata	1 mg/l, 72 h OECD 201
Crustacea	NOEC	Daphnia magna	0,07 mg/l, 21 d OECD 211
Fish	NOEC	Oncorhynchus mykiss	0,32 mg/l, 28 d OECD 204
COCAMIDOPROPYL BETAINE (CAS 97862-59-4)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	2,4 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	1,9 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	1,1 mg/l, 96 h OECD 203
Other	EC0	Pseudomonas putida	3000 mg/l, 16 h ISO 10712
Chronic			
Crustacea	NOEC	Daphnia magna	0,32 mg/l, 21 d OECD 211
Fish	NOEC	Oncorhynchus mykiss	0,135 mg/l, 37 d OECD 210

Components		Species	Test Results
HEXYLENE GLYCOL (CAS 107-41-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	> 429 mg/l, 72 hours OECD 201
Crustacea	EC50	Daphnia magna	5410 mg/l, 48 hours OECD 202
Fish	LC50	Pimephales promelas	10700 mg/l, 96 hours OECD 203
Other	NOEC	Pseudomonas aeruginosa	200 mg/l, 10 days
SALICYLIC ACID (CAS 69-72-7)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	> 100 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	870 mg/l, 48 h OECD 202
Fish	LC50	Pimephales promelas	1370 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h OECD 209
Chronic			
Crustacea	NOEC	Daphnia magna	10 mg/l, 21 d OECD 202
SODIUM C14-16 OLEFIN SULFONATE (CAS 68439-57-6)			
Aquatic			
Crustacea	EC50	Water flea (Ceriodaphnia dubia)	4,14 - 4,95 mg/l, 48 hours
Acute			
Algae	EC50	Skeletonema costatum	5,2 mg/l, 72 h ISO 10253
Crustacea	EC50	Acartia tonsa	230 mg/l, 3 h OECD 209
		Ceriodaphnia dubia	4,53 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	4,2 mg/l, 96 h OECD 203
Chronic			
Crustacea	NOEC	Daphnia magna	6,3 mg/l, 21 d OECD 211
SODIUM LAUROYL SARCOSINATE (CAS 137-16-6)			
Aquatic			
Acute			
Algae	EC50	Desmodesmus subspicatus	23,7 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	8,91 mg/l, 48 h OECD 202
Fish	LC50	Danio rerio	32,1 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h OECD 209

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

COCAMIDE MIPA	74 % ISO 14593 Result: Readily Biodegradable Test Duration: 28 d
COCAMIDOPROPYL BETAINE	91,6 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
HEXYLENE GLYCOL	81 % OECD 301 F Result: Readily biodegradable Test Duration: 28 d
SALICYLIC ACID	100 % OECD 301 C Result: Readily Biodegradable Test Duration: 28 d
SODIUM C14-16 OLEFIN SULFONATE	80 % OECD 301 B Result: Readily Biodegradable Test Duration: 28 d
SODIUM LAUROYL SARCOSINATE	82 % ISO 14593 Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient
n-octanol/water (log Kow)

COCAMIDE MIPA	3,77
COCAMIDOPROPYL BETAINE	4,2
HEXYLENE GLYCOL	0,58
SALICYLIC ACID	2,26
SODIUM C14-16 OLEFIN SULFONATE	-1,3 EU A,8

Bioconcentration factor (BCF)

COCAMIDE MIPA	143
COCAMIDOPROPYL BETAINE	71

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Endocrine disrupting properties The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Maritime transport in bulk according to IMO instructions Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

HEXYLENE GLYCOL (CAS 107-41-5)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H302 Harmful if swallowed. H315 Causes skin irritation. H318 Causes serious eye damage. H319 Causes serious eye irritation. H330 Fatal if inhaled. H361d Suspected of damaging the unborn child. H411 Toxic to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT VIVID WASH SHAMPOO
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-11-0001299
Code de produit	1218426PL1
Date de publication	le 08-Mai-2023
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers pour la santé

Corrosion cutanée/irritation cutanée	Catégorie 2	H315 - Provoque une irritation cutanée.
Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.

Résumé des dangers Provoque une sévère irritation des yeux. Provoque une irritation cutanée. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : COCAMIDE MIPA, Lauroylsarcosinate de sodium, SODIUM C14-16 OLEFIN SULFONATE

Pictogrammes de danger

Mention d'avertissement Attention

Mentions de danger

H315 Provoque une irritation cutanée.

H319	Provoque une sévère irritation des yeux.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P264	Se laver soigneusement après manipulation.
P280	Porter un équipement de protection des yeux/du visage.
P280	Porter des gants de protection.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P302 + P352	EN CAS DE CONTACT AVEC LA PEAU: Laver abondamment à l'eau.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P332 + P313	En cas d'irritation cutanée: consulter un médecin.
P337 + P313	Si l'irritation oculaire persiste: consulter un médecin.
P362 + P364	Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Informations supplémentaires de l'étiquette 2,5 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 15,21 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus. La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
SODIUM C14-16 OLEFIN SULFONATE	≤ 10	68439-57-6 931-534-0	01-2119513401-57	-

Classification :	Acute Tox. 4;H302, Eye Dam. 1;H318, Repr. 2;H361d				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16. COCAMIDOPROPYL BETAINE (97862-59-4) – SCL – H318: ≥ 10%; H319: 4% - <10%

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Enlever les vêtements contaminés. Laver abondamment à l'eau et au savon. En cas d'irritation cutanée: consulter un médecin. Laver les vêtements contaminés avant réutilisation.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Irritation de la peau. Peut entraîner des rougeurs et de la douleur.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.

6.4. Référence à d'autres rubriques Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger Éviter le contact avec les yeux, la peau et les vêtements. Éviter toute exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection approprié. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s) Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

La Belgique. Valeurs limites d'exposition

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Brouillard.

La France. INRS, Valeurs limites d'exposition professionnelle aux agents chimiques

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Aérosol
État réglementaire: Limite Indicative			
HEXYLÈNEGLYCOL (CAS 107-41-5)	VLE	125 mg/m3	
État réglementaire: Limite Indicative			
		25 ppm	
État réglementaire: Limite Indicative			

Allemagne. Liste MAK de la DFG (VLE indicatives). Fondation allemande pour la recherche, Division des risques liés aux composés chimiques dans le travail (DFG)

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	200 mg/m3	Fraction inhalable.
HEXYLÈNEGLYCOL (CAS 107-41-5)	VME	49 mg/m3	Vapeur et aérosol.
		10 ppm	Vapeur et aérosol.

Allemagne. TRGS 900, Valeurs limites dans l'air ambiant sur le lieu de travail

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	AGW	200 mg/m3	Fraction inhalable.

Italie. Valeurs limites d'exposition professionnelle

Composants	Type	Valeur	Forme
HEXYLÈNEGLYCOL (CAS 107-41-5)	VLCT	10 mg/m3	Aérosol, inhalable.
		50 ppm	Fraction vapeur
	VME	25 ppm	Fraction vapeur

Ordonnance du ministre du Travail et de la Politique sociale du 6 juin 2014 sur les concentrations maximales admisibles l'intensité des facteurs de santé nuisibles dans le milieu de travail, Journal des lois 2014, article 817

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Fraction inhalable.
HEXYLÈNEGLYCOL (CAS 107-41-5)	VLCT	100 mg/m3	Fraction inhalable et vapeur.
	VME	50 mg/m3	Fraction inhalable et vapeur.
PROPANE-1,2-DIOL (CAS 57-55-6)	VME	100 mg/m3	Fraction inhalable et vapeur.

Espagne. Limites d'exposition professionnelle

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	VME	10 mg/m3	Brouillard.
HEXYLÈNEGLYCOL (CAS 107-41-5)	VLCT	123 mg/m3	
		25 ppm	

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE)	Donnée inconnue.
Concentrations prédites sans effet (PNEC)	Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés	Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire et à une douche de sécurité.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales	Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.
Protection des yeux/du visage	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.
Protection de la peau	
- Protection des mains	Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.
- Autres	Pour usage industriel seulement. Porter des vêtements appropriés résistant aux produits chimiques.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Risques thermiques	Porter des équipements de protection contre la chaleur, si nécessaire.
Mesures d'hygiène	Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.
Contrôles d'exposition liés à la protection de l'environnement	Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

État physique	Liquide.
Forme	Donnée inconnue.
Couleur	Blanche.
Odeur	Donnée inconnue.
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	Donnée inconnue.
Inflammabilité	Sans objet.

Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité

Limite d'explosivité inférieure (%)	Donnée inconnue.
Limite d'explosivité – supérieure (%)	Donnée inconnue.
Point d'éclair	> 93,0 °C (> 199,4 °F) Coupelle fermée
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
pH	5,1 - 5,7
Viscosité cinématique	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité	>= 1,01 g/cm3
Densité de vapeur	Donnée inconnue.

Caractéristiques de la particule Donnée inconnue.

9.2. Autres informations Aucune information pertinente supplémentaire n'est disponible.

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.

10.2. Stabilité chimique Ce produit est stable dans des conditions normales.

10.3. Possibilité de réactions dangereuses Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.4. Conditions à éviter Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.

10.5. Matières incompatibles Agents oxydants forts.

10.6. Produits de décomposition dangereux On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation L'inhalation prolongée peut être nocive.

Contact avec la peau Provoque une irritation cutanée.

Contact avec les yeux Provoque une sévère irritation des yeux.

Ingestion Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.

Symptômes Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Irritation de la peau. Peut entraîner des rougeurs et de la douleur.

11.1. Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë Donnée inconnue.

Composants	Espèce	Résultats d'essais
ACIDE SALICYLIQUE (CAS 69-72-7)		
Aiguë		
Cutané		
DL50	Rat	> 2000 mg/kg OCDE 402
Oral		
DL50	Rat	891 mg/kg OCDE 401

Corrosion cutanée/irritation cutanée Provoque une irritation cutanée.

Irritation/corrosion – Peau

SODIUM C14-16 OLEFIN SULFONATE	OCDE 404 Résultat: Irritant Espèce: Lapin
Cocamidopropylbétaïne	OCDE 404 Résultat: Légèrement Irritant Espèce: Lapin
ACIDE SALICYLIQUE	OCDE 404 Résultat: Non Irritant Espèce: Lapin
Lauroylsarcosinate de sodium	OCDE 404, 30% Sol. Résultat: Légèrement Irritant Espèce: Lapin
COCAMIDE MIPA	OCDE 404, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: Irritant Espèce: Lapin
HEXYLÈNEGLYCOL	OCDE 405 Résultat: Légèrement irritant. Espèce: Lapin

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation/corrosion – Œil

HEXYLÈNEGLYCOL	OCDE 405 Résultat: Légèrement irritant. Espèce: Lapin
Cocamidopropylbétaïne	OCDE 405, (C > 10%) Résultat: Corrosif Espèce: Lapin OCDE 405, (C ≤ 10%) Résultat: Irritant Espèce: Lapin
Lauroylsarcosinate de sodium	OCDE 405, 30% Sol. Résultat: Irritant Espèce: Lapin
SODIUM C14-16 OLEFIN SULFONATE	OCDE 405, 5% < C ≤ 38% Résultat: Irritant Espèce: Lapin
COCAMIDE MIPA	OCDE 405, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: Corrosif Espèce: Lapin
SODIUM C14-16 OLEFIN SULFONATE	OCDE 405, C >38% Résultat: Corrosif Espèce: Lapin
ACIDE SALICYLIQUE	Résultat: Gravement Irritant Espèce: Lapin

Irritation/corrosion – Œil

HEXYLÈNEGLYCOL	Résultat: Irritant Espèce: Homme

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée

Lauroylsarcosinate de sodium	EU B,6 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
COCAMIDE MIPA	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
Cocamidopropylbétaïne	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
HEXYLÈNEGLYCOL	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
SODIUM C14-16 OLEFIN SULFONATE	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde
ACIDE SALICYLIQUE	OCDE 429 Résultat: Non Sensibilisant Espèce: Souris

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

Cocamidopropylbétaïne	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.
COCAMIDE MIPA	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
HEXYLÈNEGLYCOL	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
Lauroylsarcosinate de sodium	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes
SODIUM C14-16 OLEFIN SULFONATE	Résultat: Les tests in vitro n'ont pas montré des effets mutagènes

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

ACIDE SALICYLIQUE (CAS 69-72-7)

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

COCAMIDE MIPA	> 1000 mg/kg bw/d OCDE 414, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOAEL Espèce: Rat
Lauroylsarcosinate de sodium	>= 250 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat
SODIUM C14-16 OLEFIN SULFONATE	>= 600 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat
HEXYLÈNEGLYCOL	300 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 414, Pas d'effets sur le développement Résultat: NOEL Espèce: Rat
ACIDE SALICYLIQUE	75 mg/kg bw/d OCDE 414 Résultat: NOAEL Espèce: Rat

Toxicité pour la reproduction

HEXYLÈNEGLYCOL	1000 mg/kg bw/d OCDE 421 Résultat: NOEL Espèce: Rat

Toxicité pour la reproduction

Cocamidopropylbétaïne	247 mg/kg bw/d OCDE 408 Résultat: NOEL Espèce: Rat
ACIDE SALICYLIQUE	250 mg/kg bw/d OCDE 416, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOAEL Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

COCAMIDE MIPA	> 750 mg/kg bw/d OCDE 407, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 28 d
SODIUM C14-16 OLEFIN SULFONATE	>= 259 mg/kg bw/d Résultat: NOAEL Espèce: Rat Durée de l'essai: 104 wk
Lauroylsarcosinate de sodium	250 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat Durée de l'essai: 90 d
Cocamidopropylbétaïne	300 mg/kg bw/d OCDE 408, Oral Résultat: NOEL Espèce: Rat Durée de l'essai: 90 d
HEXYLÈNEGLYCOL	450 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat
ACIDE SALICYLIQUE	700 mg/m3 air OCDE 412, Basé sur des données expérimentales relatives à des produits de structure semblable. Résultat: NOEC (concentration sans effet observé) Espèce: Rat Durée de l'essai: 28 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

11.2 Information on other hazards

Endocrine disrupting properties La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.

Composants		Espèce	Résultats d'essais
ACIDE SALICYLIQUE (CAS 69-72-7)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	> 100 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	> 1000 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	870 mg/l, 48 h OCDE 202
Poisson	CL50	Pimephales promelas	1370 mg/l, 96 h OCDE 203

Composants		Espèce	Résultats d'essais
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	10 mg/l, 21 d OCDE 202
COCAMIDE MIPA (CAS 1335203-30-9)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	> 9,4 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	> 1000 mg/l, 3 h OCDE 209
Crustacé	CL50	Daphnia magna	3,7 mg/l, 48 h OCDE 202
Poisson	CL50	Poisson	2,7 mg/l, 96 h RQSA
Chronique			
Algues	NOEC (concentration sans effet observé)	Pseudokirchneriella subcapitata	1 mg/l, 72 h OCDE 201
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,07 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Oncorhynchus mykiss	0,32 mg/l, 28 d OECD 204
Cocamidopropylbétaïne (CAS 97862-59-4)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	2,4 mg/l, 72 h OCDE 201
Autre	CE0	Pseudomonas putida	3000 mg/l, 16 h ISO 10712
Crustacé	CE50	Daphnia magna	1,9 mg/l, 48 h OCDE 202
Poisson	CL50	Pimephales promelas	1,1 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	0,32 mg/l, 21 d OECD 211
Poisson	NOEC (concentration sans effet observé)	Oncorhynchus mykiss	0,135 mg/l, 37 d OECD 210
HEXYLÈNEGLYCOL (CAS 107-41-5)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	> 429 mg/l, 72 heures OCDE 201
Autre	NOEC (concentration sans effet observé)	Pseudomonas aeruginosa	200 mg/l, 10 jours
Crustacé	CE50	Daphnia magna	5410 mg/l, 48 heures OCDE 202
Poisson	CL50	Pimephales promelas	10700 mg/l, 96 heures OCDE 203
Lauroylsarcosinate de sodium (CAS 137-16-6)			
Aquatique			
Aiguë			
Algues	CE50	Desmodesmus subspicatus	23,7 mg/l, 72 h OCDE 201
Autre	CE50	Boues activées d'eaux usées principalement ménagères	> 1000 mg/l, 3 h OCDE 209
Crustacé	CE50	Daphnia magna	8,91 mg/l, 48 h OCDE 202

Composants		Espèce	Résultats d'essais
Poisson	CL50	Danio rerio	32,1 mg/l, 96 h OCDE 203
SODIUM C14-16 OLEFIN SULFONATE (CAS 68439-57-6)			
Aquatique			
Crustacé	CE50	Daphnie (Ceriodaphnia dubia)	4,14 - 4,95 mg/l, 48 heures
Aiguë			
Algues	CE50	Skeletonema costatum	5,2 mg/l, 72 h ISO 10253
Crustacé	CE50	Acartia tonsa	230 mg/l, 3 h OCDE 209
		Ceriodaphnia dubia	4,53 mg/l, 48 h OCDE 202
Poisson	CL50	Danio rerio	4,2 mg/l, 96 h OCDE 203
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	6,3 mg/l, 21 d OECD 211

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

ACIDE SALICYLIQUE	100 en % OCDE 301 C Résultat: Facilement Biodegradable Durée de l'essai: 28 d
COCAMIDE MIPA	74 en % ISO 14593 Résultat: Facilement Biodegradable Durée de l'essai: 28 d
Cocamidopropylbétaïne	91,6 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d
HEXYLÈNEGLYCOL	81 en % OECD 301 F Résultat: Facilement Biodegradable Durée de l'essai: 28 d
Lauroylsarcosinate de sodium	82 en % ISO 14593 Résultat: Facilement Biodegradable Durée de l'essai: 28 d
SODIUM C14-16 OLEFIN SULFONATE	80 en % OCDE 301 B Résultat: Facilement Biodegradable Durée de l'essai: 28 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

ACIDE SALICYLIQUE	2,26
COCAMIDE MIPA	3,77
Cocamidopropylbétaïne	4,2
HEXYLÈNEGLYCOL	0,58
SODIUM C14-16 OLEFIN SULFONATE	-1,3 EU A,8

Facteur de bioconcentration (FBC)

COCAMIDE MIPA	143
Cocamidopropylbétaïne	71

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Propriétés perturbant le système endocrinien La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

12.7. Other adverse effects Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires	Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).
Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport maritime en vrac conformément aux instruments de l'OMI Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

HEXYLÈNEGLYCOL (CAS 107-41-5)

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations	Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.
Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H302 Nocif en cas d'ingestion. H315 Provoque une irritation cutanée. H318 Provoque des lésions oculaires graves. H319 Provoque une sévère irritation des yeux. H330 Mortel par inhalation. H361d Susceptible de nuire au fœtus. H411 Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme. H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT BERLIN DRY SHAMPOO**

Other means of identification

SDS number 21-91-0000233

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards	Flammable aerosols	Category 1
	Gases under pressure	Liquefied gas
Health hazards	Serious eye damage/eye irritation	Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation.

Precautionary statement

Prevention Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Storage Protect from sunlight. Store in a well-ventilated place. Do not expose to temperatures exceeding 50°C/122°F.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
HYDROFLUOROCARBON 152A		75-37-6	42
BUTANE		106-97-8	28
ETHANOL		64-17-5	18.64

Chemical name	Common name and synonyms	CAS number	%
ORYZA SATIVA (RICE) STARCH		9005-25-8	10.5

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact
Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion
Not likely, due to the form of the product. In the unlikely event of swallowing contact a physician or poison control center. Rinse mouth.

Most important symptoms/effects, acute and delayed
Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing.

Indication of immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media
Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Fire fighting equipment/instructions
In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been exposed to heat. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.

General fire hazards
Extremely flammable aerosol. Contents under pressure. Pressurized container may explode when exposed to heat or flame.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Isolate area until gas has dispersed. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Close valve after each use and when empty. Protect containers from physical damage; do not drag, roll, slide, or drop. When moving containers, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport containers. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Purge air from system before introducing gas. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Do not re-use empty containers. Avoid contact with eyes. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Level 1 Aerosol.

Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store in tightly closed container. Store in a well-ventilated place. Stored containers should be periodically checked for general condition and leakage. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
ETHANOL (CAS 64-17-5)	PEL	1900 mg/m3	
		1000 ppm	
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Components	Type	Value	Form
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
		50 mppcf	Total dust.
		15 mppcf	Respirable fraction.

US. ACGIH Threshold Limit Values

Components	Type	Value
BUTANE (CAS 106-97-8)	STEL	1000 ppm
ETHANOL (CAS 64-17-5)	STEL	1000 ppm
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	10 mg/m3

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value	Form
BUTANE (CAS 106-97-8)	TWA	1900 mg/m3	
		800 ppm	
ETHANOL (CAS 64-17-5)	TWA	1900 mg/m3	
		1000 ppm	
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	5 mg/m3	Respirable.
		10 mg/m3	Total

US. Workplace Environmental Exposure Level (WEEL) Guides

Components	Type	Value
HYDROFLUOROCARBON 152A (CAS 75-37-6)	TWA	2700 mg/m3
		1000 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Aerosol.

Color Not available.

Odor Characteristic.

Odor threshold Not available.

pH Not available.

Melting point/freezing point Not available.

Initial boiling point and boiling range > 95 °F (> 35 °C) (Liquid)

Flash point 55.4 °F (13.0 °C) Closed Cup (Liquid)

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Not available.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature Not available.

Decomposition temperature Not available.

Viscosity Not available.

Other information

Explosive properties	Not explosive.
Heat of combustion (NFPA 30B)	19.75 kJ/g
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Acids. Strong oxidizing agents. Chlorine. Fluorine. Nitrates.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT BERLIN DRY SHAMPOO		
Acute		
Dermal		
ATEmix		1.053e+006 mg/kg
Oral

Acute		
Inhalation		
Gas		
LC50	Rat	> 437500 ppm, 4 h

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

ETHANOL	OECD 404 Result: Not Irritating Species: Rabbit
BUTANE	Result: Contact with liquid form may cause frostbite.
HYDROFLUOROCARBON 152A	Result: Contact with liquid form may cause frostbite.

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

ETHANOL	OECD 405 Result: Irritating Species: Rabbit
BUTANE	Result: Contact with liquid form may cause frostbite.
HYDROFLUOROCARBON 152A	Result: Contact with liquid form may cause frostbite.

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

ETHANOL	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

BUTANE	Result: In vitro and in vivo tests did not show mutagenic effects.
ETHANOL	Result: In vitro and in vivo tests did not show mutagenic effects.
HYDROFLUOROCARBON 152A	Result: In vitro and in vivo tests did not show mutagenic effects.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Possible reproductive hazard.

Developmental effects

ETHANOL	> 20000 ppm OECD 414, No effects on development Result: NOAEL Species: Rat
BUTANE	19678 mg/m³ OECD 422 Result: NOAEC Species: Rat
HYDROFLUOROCARBON 152A	50000 ppm OECD 414 Result: NOAEC Species: Rat

Reproductivity

ETHANOL	20700 mg/kg bw/d OECD 416, No effects on fertility Result: NOAEL Species: Rat

Reproductivity

HYDROFLUOROCARBON 152A	25000 ppm Result: NOAEL Species: Rat
BUTANE	7131 mg/m³ OECD 422 Result: NOAEC Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

ETHANOL	1730 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat
HYDROFLUOROCARBON 152A	25000 ppm OECD 453, Inhalation Result: NOAEC Species: Rat Test Duration: 104 wk
BUTANE	7214 mg/m³ OECD 422 Result: NOAEC Species: Rat Test Duration: 28 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
ETHANOL (CAS 64-17-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	22200 mg/l, 96 h
Crustacea	EC50	Ceriodaphnia dubia	5012 mg/l, 48 h
Fish	LC50	Pimephales promelas	15300 mg/l, 96 h
Other	IC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h
Chronic			
Crustacea	NOEC	Daphnia magna	9.6 mg/l, 9 d
Fish	NOEC	Danio rerio	250 mg/l, 120 h OECD 212
HYDROFLUOROCARBON 152A (CAS 75-37-6)			
Aquatic			
Acute			
Algae	EC50	Algae	47.755 mg/l QSAR
Crustacea	EC50	Daphnia	146.695 mg/l QSAR
Fish	LC50	Fish	295.783 mg/l QSAR

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BUTANE	100 % Result: Readily Biodegradable Test Duration: 385.5 Hours
ETHANOL	84 % Result: Readily Biodegradable Test Duration: 20 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)	
BUTANE	2.89
ETHANOL	-0.31
HYDROFLUOROCARBON 152A	0.75

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code This product is ignitable (D001) RCRA hazardous wastes when intended for disposal.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

General information Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers: Ensure that containers are firmly secured. Ensure cylinder valve is closed and not leaking. Ensure valve outlet cap nut or plug (where provided) is correctly fitted. Ensure valve protection device (where provided) is correctly fitted. Ensure adequate ventilation. Ensure compliance with applicable regulations.

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

BUTANE (CAS 106-97-8)	Listed.
ETHANOL (CAS 64-17-5)	Listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Not regulated.

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

BUTANE (CAS 106-97-8)
HYDROFLUOROCARBON 152A (CAS 75-37-6)

Safe Drinking Water Act (SDWA) Not regulated.

FEMA Priority Substances Respiratory Health and Safety in the Flavor Manufacturing Workplace

ETHANOL (CAS 64-17-5)	Low priority

16. Other information, including date of preparation or last revision

Issue date	05-11-2023
Version #	01

NFPA ratings	Health: 2 Flammability: 4 Instability: 0
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT BERLIN DRY SHAMPOO**

Autres moyens d'identification

Numéro de la FDS 21-91-0000233

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques	Aérosols inflammables	Catégorie 1
	Gaz sous pression	Gaz liquéfié
Dangers pour la santé	Lésions oculaires graves/irritation oculaire	Catégorie 2A

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Danger

Mention de danger Aérosol extrêmement inflammable. Contient un gaz sous pression; peut exploser sous l'effet de la chaleur. Provoque une sévère irritation des yeux.

Conseil de prudence

Prévention Tenir à lécart de la chaleur/des étincelles/des flammes nues/des surfaces chaudes. - Ne pas fumer. Ne pas vaporiser sur une flamme nue ou sur toute autre source d'ignition Récipient sous pression : ne pas perforer ni brûler, même après usage. Se laver soigneusement après manipulation. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.

Stockage Protéger du rayonnement solaire. Stocker dans un endroit bien ventilé. Ne pas exposer à une température supérieure à 50 °C/122 °F

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
HYDROFLUOROCARBON 152A		75-37-6	42
BUTANE		106-97-8	28
ÉTHANOL		64-17-5	18.64
ORYZA SATIVA (RICE) STARCH		9005-25-8	10.5

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.

Ingestion Peu probable en raison de la forme du produit. Dans le cas peu probable d'une ingestion, communiquez avec un médecin ou un centre anti-poison. Rincer la bouche.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Toux.

Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.

Informations générales S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés Brouillard d'eau. Mousse antialcool. Poudre chimique. Dioxyde de carbone (CO2).

Agents extincteurs inappropriés Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.

Dangers spécifiques du produit dangereux Contenu sous pression. Un récipient sous pression peut exploser lorsqu'il est exposé à la chaleur ou à une flamme. Des gaz dangereux pour la santé peuvent se former pendant un incendie.

Équipements de protection spéciaux et précautions spéciales pour les pompiers Les pompiers doivent porter un équipement de protection standard, notamment des vêtements ignifuges, un casque à écran facial, des gants, des bottes en caoutchouc et, dans les espaces clos, un appareil respiratoire autonome.

Équipement/directives de lutte contre les incendies En cas d'incendie : Obturer la fuite si cela peut se faire sans danger. Ne pas déplacer la cargaison ou le véhicule si la cargaison a été exposée à la chaleur. Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque. Les récipients doivent être refroidis à l'eau pour prévenir la création de pression de vapeur. Pour un important incendie dans la zone de cargaison, utiliser un support à tuyau automatique ou des lances à eau autonomes, si possible. Sinon, se retirer et laisser brûler.

Méthodes particulières d'intervention Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause. Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque. En cas d'incendie et/ou d'explosion, ne pas respirer les fumées.

Risques d'incendie généraux Aérosol extrêmement inflammable. Contenu sous pression. Un récipient sous pression peut exploser lorsqu'il est exposé à la chaleur ou à une flamme.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Tenir à l'écart des zones basses. De nombreux gaz sont plus que l'air. Ils se répandent au niveau du sol et s'accumulent dans des zones basses ou confinées (égouts, sous-sols, citernes). Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Le personnel d'urgence doit posséder un matériel respiratoire autonome. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. Ventiler les espaces clos avant d'y entrer. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.

Méthodes et matériaux pour le confinement et le nettoyage

Se reporter aux fiches de données de sécurité et/ou aux instructions. Arrêter la fuite si cela peut se faire sans risque. Déplacer la bouteille vers un endroit sûr et ouvert si la fuite est irréparable. Utiliser une pulvérisation d'eau pour réduire les vapeurs ou pour détourner la direction du nuage de vapeurs. Isoler la zone jusqu'à dispersion du gaz. Tenir les matières combustibles (bois, papier, huile, etc.) à l'écart du produit déversé. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Pour l'élimination des déchets, voir la section 13 de la FDS.

Précautions relatives à l'environnement

Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention

Récipient sous pression : ne pas perforer ni brûler, même après usage. Ne pas utiliser si le bouton de vaporisation est manquant ou défectueux. Ne pas pulvériser sur une flamme nue ou toute autre matière incandescente. Ne pas fumer pendant l'utilisation ou jusqu'à ce que la surface vaporisée soit complètement sèche. Ne pas couper, souder, braser, percer, broyer ou exposer les récipients à de la chaleur, à une flamme, à des étincelles ou à d'autres sources d'ignition. Tout matériel utilisé pour la manutention de ce produit doit être mis à la terre. Fermer le détendeur après chaque utilisation et lorsque la bouteille est vide. Protéger les contenants des dommages physiques; ne pas traîner, rouler, glisser ou laisser tomber. Lors du déplacement des réservoirs, même sur de courtes distances, utiliser un chariot (chariot de transport, chariot à main, etc.) conçu pour le transport de réservoirs. L'aspiration inverse de l'eau du récipient doit être évitée. Ne pas permettre le refoulement dans le récipient. Purger l'air du système avant d'introduire un gaz. Utiliser uniquement de l'équipement correctement spécifié qui est approprié pour ce produit, sa pression d'alimentation et sa température. En cas de doute, communiquez avec votre fournisseur de gaz. Ne pas réutiliser les récipients vides. Éviter tout contact avec les yeux. Éviter une exposition prolongée. Utiliser seulement dans les zones bien ventilées. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités

Aérosol niveau 1.
Récipient sous pression. Protéger du rayonnement solaire et ne pas exposer à une température supérieure à 50 °C/122 °F. Ne pas perforer, incinérer ou écraser. Ne pas manipuler ou stocker à proximité d'une flamme nue, d'une source de chaleur ou d'autres sources d'ignition. Ce produit peut accumuler des charges statiques qui peuvent causer des étincelles et devenir une source d'ignition. Stocker dans des récipients bien fermés. Stocker dans un endroit bien ventilé. Les contenants stockés doivent être inspectés régulièrement pour leur condition générale et des fuites. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

États-Unis - TABLEAU Z-3 (29 CFR 1910.1000) de l'OSHA

Composants	Type	Valeur	Forme
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.
		50 mppcf	Poussières totales.
		15 mppcf	Fraction respirable.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
ÉTHANOL (CAS 64-17-5)	PEL (limite d'exposition admissible)	1900 mg/m3	
		1000 ppm	
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	PEL (limite d'exposition admissible)	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur
BUTANE (CAS 106-97-8)	STEL	1000 ppm
ÉTHANOL (CAS 64-17-5)	STEL	1000 ppm
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	10 mg/m3

États-Unis. NIOSH : Pocket Guide to Chemical Hazards (guide de poche des dangers des produits chimiques).

Composants	Type	Valeur	Forme
BUTANE (CAS 106-97-8)	TWA	1900 mg/m3	
		800 ppm	
ÉTHANOL (CAS 64-17-5)	TWA	1900 mg/m3	
		1000 ppm	
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	5 mg/m3	Respirable.
		10 mg/m3	Total

États-Unis. Guides WEEL (niveau d'exposition environnemental sur le lieu de travail)

Composants	Type	Valeur
HYDROFLUOROCARBON 152A (CAS 75-37-6)	TWA	2700 mg/m3
		1000 ppm

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. Si les niveaux admissibles sont dépassés, utiliser un filtre mécanique / une cartouche contre les vapeurs organiques NIOSH ou un respirateur à adduction d'air.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Ne pas fumer pendant l'utilisation. Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Aérosol

Couleur Non disponible.

Odeur Caractéristique.

Seuil olfactif Non disponible.

pH Non disponible.

Point de fusion et point de congélation Non disponible.

Point initial d'ébullition et domaine d'ébullition	> 35 °C (> 95 °F) (liquide)
Point d'éclair	13.0 °C (55.4 °F) Coupelle fermée (liquide)
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Propriétés explosives	Non explosif.
Chaleur de combustion (NFPA 30B)	19.75 kJ/g
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Acides. Agents comburants forts. Chlore Fluor Nitrates.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.
Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble. Toux.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Corrosion cutanée/irritation cutanée La classification n'est pas possible en raison d'un manque partiel ou total de données. On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Irritation- corrosion - Cutanée

ÉTHANOL	OCDE 404 Résultat: Non Irritant Espèces: Lapin
BUTANE	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.
HYDROFLUOROCARBON 152A	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation- corrosion - Œil

ÉTHANOL	OCDE 405 Résultat: Irritant Espèces: Lapin
BUTANE	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.
HYDROFLUOROCARBON 152A	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire La classification n'est pas possible en raison d'un manque partiel ou total de données.

Sensibilisation cutanée La classification n'est pas possible en raison d'un manque partiel ou total de données.

Sensibilisation cutanée

ÉTHANOL	OCDE 406 Résultat: Non Sensibilisant Espèces: Cobaye

Mutagénicité sur les cellules germinales La classification n’est pas possible en raison d’un manque partiel ou total de données.

Mutagénicité

BUTANE	Résultat: Des essais in vitro et in vivo n’ont pas montré d’effets mutagènes.
ÉTHANOL	Résultat: Des essais in vitro et in vivo n’ont pas montré d’effets mutagènes.
HYDROFLUOROCARBON 152A	Résultat: Des essais in vitro et in vivo n’ont pas montré d’effets mutagènes.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme. La classification n’est pas possible en raison d’un manque partiel ou total de données.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l’OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction Danger possible pour la reproduction.

Effets sur le développement

ÉTHANOL	> 20000 ppm OCDE 414, Pas d’effets sur le développement Résultat: DSENO Espèces: Rat

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Contenu sous pression. Ne pas perforer, incinérer ou écraser. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Code des déchets dangereux Ce produit est inflammable (D001), utilisez le RCRA matières dangereuses lors de l'élimination.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage. Ne pas réutiliser les récipients vides.

Informations générales Éviter le transport avec des véhicules où l'espace de chargement n'est pas séparé du poste de conduite. S'assurer que le chauffeur du véhicule connaît les risques potentiels liés à la cargaison et sait ce qu'il doit faire en cas d'accident ou d'urgence. Avant de transporter des contenants du produit : S'assurer que les contenants sont solidement fixés. S'assurer que le robinet de la bouteille est fermé et ne fuit pas. S'assurer que l'écrou du bouchon de vidange du robinet ou le capuchon protecteur (s'il y a lieu) est correctement installé. S'assurer que le dispositif de protection du robinet (s'il y a lieu) est correctement installé. S'assurer une ventilation adéquate. S'assurer la conformité avec la réglementation applicable.

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis Ce produit est un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

BUTANE (CAS 106-97-8)	Inscrit.
ÉTHANOL (CAS 64-17-5)	Inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Avis de non-responsabilité

À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT BERLIN DRY SHAMPOO
Synonyms	None.
SDS number	21-91-0000233
Product code	1218287 A
Issue date	05-11-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards		
Aerosols	Category 1	H222 - Extremely flammable aerosol. H229 - Pressurized container: May burst if heated.
Health hazards		
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.

Hazard summary

Aerosol. CONTENTS UNDER PRESSURE.
Pressurized container may explode when exposed to heat or flame. Causes serious eye irritation.
Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: BUTANE, HYDROFLUOROCARBON 152A

Hazard pictograms

Signal word Danger

Hazard statements

H222	Extremely flammable aerosol.
H229	Pressurized container: May burst if heated.
H319	Causes serious eye irritation.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211	Do not spray on an open flame or other ignition source.
P251	Do not pierce or burn, even after use.
P264	Wash thoroughly after handling.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage

P410 + P412	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 38,5% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 38,5% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
HYDROFLUOROCARBON 152A	42	75-37-6 200-866-1	01-2119474440-43	-	
Classification:	Flam. Gas 1;H220, Press. Gas;H280				
BUTANE	28	106-97-8 203-448-7	01-2119474691-32	601-004-00-0	
Classification:	Flam. Gas 1;H220, Press. Gas;H280				
ETHANOL	18,64	64-17-5 200-578-6	01-2119457610-43	603-002-00-5	
Classification:	Flam. Liq. 2;H225, Eye Irrit. 2;H319				

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion In the unlikely event of swallowing contact a physician or poison control center. Rinse mouth.

4.2. Most important symptoms and effects, both acute and delayed Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing.

4.3. Indication of any immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards Extremely flammable aerosol.

5.1. Extinguishing media

Suitable extinguishing media Alcohol resistant foam. Powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Special fire fighting procedures Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid contact with eyes. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Level 1 Aerosol.

Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value
BUTANE (CAS 106-97-8)	STEL	2370 mg/m3
		980 ppm
ETHANOL (CAS 64-17-5)	TWA	1907 mg/m3
		1000 ppm
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	10 mg/m3

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value	Form
BUTANE (CAS 106-97-8)	VME	1900 mg/m3	
Regulatory status: Indicative limit (VL)			
		800 ppm	
Regulatory status: Indicative limit (VL)			
ETHANOL (CAS 64-17-5)	VLE	9500 mg/m3	
Regulatory status: Indicative limit (VL)			
		5000 ppm	
Regulatory status: Indicative limit (VL)			
	VME	1900 mg/m3

		1000 ppm	
Regulatory status: Indicative limit (VL)			
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	VME	5 mg/m3	Respirable fraction.
Regulatory status: Regulatory binding (VRC)			
		10 mg/m3	Inhalable fraction.
Regulatory status: Regulatory binding (VRC)			

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
BUTANE (CAS 106-97-8)	TWA	2400 mg/m3	
		1000 ppm	
ETHANOL (CAS 64-17-5)	TWA	380 mg/m3	
		200 ppm	
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	4 mg/m3	Inhalable dust.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
BUTANE (CAS 106-97-8)	AGW	2400 mg/m3	
		1000 ppm	
ETHANOL (CAS 64-17-5)	AGW	380 mg/m3	
		200 ppm	
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	AGW	10 mg/m3	Inhalable fraction.
		1,25 mg/m3	Respirable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value
BUTANE (CAS 106-97-8)	STEL	1000 ppm
ETHANOL (CAS 64-17-5)	STEL	1000 ppm
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	10 mg/m3

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value
BUTANE (CAS 106-97-8)	STEL	3000 mg/m3
	TWA	1900 mg/m3
ETHANOL (CAS 64-17-5)	TWA	1900 mg/m3

Spain. Occupational Exposure Limits

Components	Type	Value
BUTANE (CAS 106-97-8)	TWA	1000 ppm
ETHANOL (CAS 64-17-5)	STEL	1910 mg/m3
		1000 ppm
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	TWA	10 mg/m3

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear suitable protective clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Liquid.

Form Aerosol.

Color Not available.

Odor Characteristic.

Melting point/freezing point Not available.

Initial boiling point and boiling range > 95 °F (> 35 °C) (Liquid)

Flammability Not applicable.

Upper/lower flammability or explosive limits

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Flash point 55,4 °F (13,0 °C) Closed Cup (Liquid)

Auto-ignition temperature Not available.

Decomposition temperature	Not available.
pH	Not available.
Kinematic viscosity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Vapor pressure	Not available.
Density	Not available.
Vapor density	Not available.
Particle characteristics	Not available.
9.2. Other information	
Heat of combustion (NFPA 30B)	19,75 kJ/g

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Acids. Strong oxidizing agents. Chlorine. Fluorine. Nitrates.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Not known.

Components	Species	Test Results
BUTANE (CAS 106-97-8)		
Acute		
Inhalation		
Gas		
LC50	Mouse	1237 mg/l, 2 Hours
ETHANOL (CAS 64-17-5)		
Acute		
Dermal		
LD50	Rabbit	> 20000 mg/kg
Inhalation		
Vapor		
LC50	Rat	124,7 mg/l, 4 h OECD 403
Oral		
LD50	Rat	10470 mg/kg OECD 401

Components	Species	Test Results
HYDROFLUOROCARBON 152A (CAS 75-37-6)		
Acute		
Inhalation		
Gas		
LC50	Rat	> 437500 ppm, 4 h

Skin corrosion/irritation Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

ETHANOL	OECD 404 Result: Not Irritating Species: Rabbit
BUTANE	Result: Contact with liquid form may cause frostbite.
HYDROFLUOROCARBON 152A	Result: Contact with liquid form may cause frostbite.

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

ETHANOL	OECD 405 Result: Irritating Species: Rabbit
BUTANE	Result: Contact with liquid form may cause frostbite.
HYDROFLUOROCARBON 152A	Result: Contact with liquid form may cause frostbite.

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization

ETHANOL	OECD 406 Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity Due to partial or complete lack of data the classification is not possible.

Mutagenicity

BUTANE	Result: In vitro and in vivo tests did not show mutagenic effects.
ETHANOL	Result: In vitro and in vivo tests did not show mutagenic effects.
HYDROFLUOROCARBON 152A	Result: In vitro and in vivo tests did not show mutagenic effects.

Slovenia. CMR. Protection of workers from exposure to carcinogen and mutagen agents (ULRS 101/2005, as amended)

BUTANE (CAS 106-97-8)	Mutagenic, Category 1B.

Carcinogenicity Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

BUTANE (CAS 106-97-8)

Slovenia. CMR. Protection of workers from exposure to carcinogen and mutagen agents (ULRS 101/2005, as amended)

BUTANE (CAS 106-97-8)	Carcinogenic, Category 1A

Reproductive toxicity Due to partial or complete lack of data the classification is not possible.

Developmental effects

ETHANOL	> 20000 ppm OECD 414, No effects on development Result: NOAEL Species: Rat
BUTANE	19678 mg/m³ OECD 422 Result: NOAEC Species: Rat
HYDROFLUOROCARBON 152A	50000 ppm OECD 414 Result: NOAEC Species: Rat

Reproductivity

ETHANOL	20700 mg/kg bw/d OECD 416, No effects on fertility Result: NOAEL Species: Rat
HYDROFLUOROCARBON 152A	25000 ppm Result: NOAEL Species: Rat

Reproductivity

BUTANE	7131 mg/m³ OECD 422 Result: NOAEC Species: Rat

Specific target organ toxicity - single exposure Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure Due to partial or complete lack of data the classification is not possible.

ETHANOL	1730 mg/kg bw/d OECD 408, Oral Result: NOAEL Species: Rat
HYDROFLUOROCARBON 152A	25000 ppm OECD 453, Inhalation Result: NOAEC Species: Rat Test Duration: 104 wk
BUTANE	7214 mg/m³ OECD 422 Result: NOAEC Species: Rat Test Duration: 28 d

Aspiration hazard Due to partial or complete lack of data the classification is not possible.

Mixture versus substance information No information available.

11.2 Information on other hazards

Endocrine disrupting properties The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Other information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment.

Components		Species	Test Results
ETHANOL (CAS 64-17-5)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	22200 mg/l, 96 h
Crustacea	EC50	Ceriodaphnia dubia	5012 mg/l, 48 h
Fish	LC50	Pimephales promelas	15300 mg/l, 96 h
Other	IC50	Activated sludge of a predominantly domestic sewage	> 1000 mg/l, 3 h
Chronic			
Crustacea	NOEC	Daphnia magna	9,6 mg/l, 9 d
Fish	NOEC	Danio rerio	250 mg/l, 120 h OECD 212
HYDROFLUOROCARBON 152A (CAS 75-37-6)			
Aquatic			
Acute			
Algae	EC50	Algae	47,755 mg/l QSAR
Crustacea	EC50	Daphnia	146,695 mg/l QSAR
Fish	LC50	Fish	295,783 mg/l QSAR

12.2. Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

BUTANE	100 % Result: Readily Biodegradable Test Duration: 385,5 Hours
ETHANOL	84 % Result: Readily Biodegradable Test Duration: 20 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

BUTANE	2,89
ETHANOL	-0,31
HYDROFLUOROCARBON 152A	0,75

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Endocrine disrupting properties The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

Substance Global Warming Potential per (Annex IV), Regulation 517/2014/EU on fluorinated greenhouse gases, as amended

BUTANE (CAS 106-97-8)	4

. The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. UN Number or ID Number UN1950

14.2. UN proper shipping name AEROSOLS, FLAMMABLE, Limited Quantity

14.3. Transport hazard class(es)

Class 2.1

Label(s) Limited Quantity

Hazard No. (ADR) Not available.

14.6. Special precautions for user	Not available.

14.7. Maritime transport in bulk according to IMO instructions Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

HYDROFLUOROCARBON 152A (CAS 75-37-6)

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

BUTANE (CAS 106-97-8)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

BUTANE (CAS 106-97-8)

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

BUTANE (CAS 106-97-8)
ETHANOL (CAS 64-17-5)

Other regulations The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.

National regulations Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.

15.2. Chemical safety assessment No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations Not available.

References Not available.

Information on evaluation method leading to the classification of mixture The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.

Full text of any H-statements not written out in full under Sections 2 to 15

H220 Extremely flammable gas.
H225 Highly flammable liquid and vapor.
H280 Contains gas under pressure; may explode if heated.
H319 Causes serious eye irritation.

Revision information None.

Training information Follow training instructions when handling this material.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT BERLIN DRY SHAMPOO
Synonymes	Aucun(e)(s).
Numéro de la FDS	21-91-0000233
Code de produit	1218287 A
Date de publication	le 11-Mai-2023
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Dangers physiques		
Aérosols	Catégorie 1	H222 - Aérosol extrêmement inflammable. H229 - Récipient sous pression: peut éclater sous l'effet de la chaleur.
Dangers pour la santé		
Lésions oculaires graves/irritation oculaire	Catégorie 2	H319 - Provoque une sévère irritation des yeux.

Résumé des dangers

Aérosol CONTENU SOUS PRESSION.
Le récipient pressurisé peut exploser lorsqu'il est exposé à la chaleur ou à une flamme. Provoque une sévère irritation des yeux. L'exposition professionnelle à la substance ou au mélange peut provoquer des effets sanitaires. Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Contient : BUTANE, HYDROFLUOROCARBON 152A

Pictogrammes de danger

Mention d'avertissement Danger

Mentions de danger

H222	Aérosol extrêmement inflammable.
H229	Récipient sous pression: peut éclater sous l'effet de la chaleur.
H319	Provoque une sévère irritation des yeux.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.
P210	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Ne pas fumer.
P211	Ne pas vaporiser sur une flamme nue ou sur toute autre source d'ignition.
P251	Ne pas perforer, ni brûler, même après usage.
P264	Se laver soigneusement après manipulation.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
P305 + P351 + P338	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P337 + P313	Si l'irritation oculaire persiste: consulter un médecin.

Stockage

P410 + P412	Protéger du rayonnement solaire. Ne pas exposer à une température supérieure à 50 °C/122 °F.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Informations supplémentaires de l'étiquette 38,5 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 38,5 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus. La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Informations générales

Nom chimique	en %	N° CAS/n° CE	Numéro d'enregistrement REACH	Numéro index	Notes
HYDROFLUOROCARBON 152A	42	75-37-6 200-866-1	01-2119474440-43	-	
Classification :	Flam. Gas 1;H220, Press. Gas;H280				
BUTANE	28	106-97-8 203-448-7	01-2119474691-32	601-004-00-0	
Classification :	Flam. Gas 1;H220, Press. Gas;H280				
ÉTHANOL	18,64	64-17-5 200-578-6	01-2119457610-43	603-002-00-5	
Classification :	Flam. Liq. 2;H225, Eye Irrit. 2;H319				

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Laver immédiatement les yeux à grande eau pendant au moins 15 minutes. Les personnes portant des lentilles de contact doivent autant que possible les enlever. Rincer continuellement. Si l'irritation oculaire persiste: consulter un médecin.

Ingestion Dans le cas improbable d'une ingestion, contacter un médecin ou un centre antipoison. Rincer la bouche.

4.2. Principaux symptômes et effets, aigus et différés Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Toux.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires Assurer des soins généraux et traiter en fonction des symptômes. Garder la victime sous observation Les symptômes peuvent se manifester à retardement.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie Aérosol extrêmement inflammable.

5.1. Moyens d'extinction

Moyens d'extinction appropriés Mousse résistante à l'alcool. Poudre. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange Contenu sous pression. Le récipient pressurisé peut exploser lorsqu'il est exposé à la chaleur ou à une flamme. En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers Les pompiers doivent porter un équipement de protection standard, notamment vêtement ignifuge, casque à masque facial, gants, bottes en caoutchouc et, dans les espaces clos, un appareil respiratoire autonome.

Procédures spéciales de lutte contre l'incendie Éloigner les récipients de l'incendie si cela peut se faire sans risque. Les récipients doivent être refroidis à l'eau pour éviter toute accumulation de pression de vapeur. En cas d'incendie majeur dans la zone de chargement : utiliser des supports de tuyaux autonomes et des lances à eau autonomes; sinon, se retirer et laisser brûler.

Méthodes particulières d'intervention Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes. Éloigner les récipients de l'incendie si cela peut se faire sans risque. En cas d'incendie et/ou d'explosion, ne pas respirer les fumées.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes Tenir à l'écart le personnel superflu. Garder les personnes à l'écart de l'endroit de l'écoulement/de la fuite et contre le vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins d'être vêtu d'une tenue protectrice appropriée. Aérer les espaces fermés avant d'y entrer. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage Se reporter aux fiches de données de sécurité et/ou aux modes d'emploi joints. Bloquer la fuite si cela peut se faire sans risque. Déplacer la bonbonne vers une zone sûre et ouverte si la fuite est irréparable. Pulvériser de l'eau pour réduire les vapeurs ou détourner le nuage de vapeur. Tenir les matériaux combustibles (bois, papier, huile, etc.) à l'écart du produit déversé. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau.

Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle.

6.4. Référence à d'autres rubriques Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger

Récipient sous pression: ne pas perforer, ni brûler, même après usage. Ne pas utiliser si le bouton de pulvérisation est manquant ou défectueux. Ne pas pulvériser contre une flamme nue ou tout autre objet incandescent. Ne pas fumer pendant l'utilisation du produit ou attendre que la surface vaporisée soit totalement sèche. Ne pas couper, souder, braser, percer, broyer ou exposer les récipients à la chaleur, à une flamme, à des étincelles ou à toute autre source d'ignition. Tout matériel utilisé pour la manutention de ce produit doit être mis à la terre. Ne pas réutiliser des récipients vides. Éviter le contact avec les yeux. Éviter toute exposition prolongée. Utiliser seulement dans des zones bien ventilées. Porter un équipement de protection approprié. Suivre les règles de bonnes pratiques chimiques.

7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Aérosol de niveau 1.

Récipient sous pression. A protéger contre les rayons solaires et ne pas exposer à une température supérieure à 50 °C. Ne pas perforer, incinérer ou broyer. Ne pas manipuler ou stocker à proximité d'une flamme nue, d'une source de chaleur ou toute autre source d'ignition. Cette matière peut accumuler des charges statiques pouvant causer des étincelles et devenir une source d'ignition. Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).

7.3. Utilisation(s) finale(s) particulière(s)

Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle

La Belgique. Valeurs limites d'exposition

Composants	Type	Valeur
BUTANE (CAS 106-97-8)	VLCT	2370 mg/m3

Composants	Type	Valeur	Forme
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	VME	4 mg/m3	Poussière inhalable.

Allemagne. TRGS 900, Valeurs limites dans l'air ambiant sur le lieu de travail

Composants	Type	Valeur	Forme
BUTANE (CAS 106-97-8)	AGW	2400 mg/m3	
		1000 ppm	
ÉTHANOL (CAS 64-17-5)	AGW	380 mg/m3	
		200 ppm	
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	AGW	10 mg/m3	Fraction inhalable.
		1,25 mg/m3	Fraction alvéolaire.

Italie. Valeurs limites d'exposition professionnelle

Composants	Type	Valeur
BUTANE (CAS 106-97-8)	VLCT	1000 ppm
ÉTHANOL (CAS 64-17-5)	VLCT	1000 ppm
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	VME	10 mg/m3

Ordonnance du ministre du Travail et de la Politique sociale du 6 juin 2014 sur les concentrations maximales admisibles l'intensité des facteurs de santé nuisibles dans le milieu de travail, Journal des lois 2014, article 817

Composants	Type	Valeur
BUTANE (CAS 106-97-8)	VLCT	3000 mg/m3
	VME	1900 mg/m3
ÉTHANOL (CAS 64-17-5)	VME	1900 mg/m3

Espagne. Limites d'exposition professionnelle

Composants	Type	Valeur
BUTANE (CAS 106-97-8)	VME	1000 ppm
ÉTHANOL (CAS 64-17-5)	VLCT	1910 mg/m3
		1000 ppm
ORYZA SATIVA (RICE) STARCH (CAS 9005-25-8)	VME	10 mg/m3

Valeurs limites biologiques Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.

Procédures de suivi recommandées Suivre les procédures standard de surveillance.

Doses dérivées sans effet (DDSE) Donnée inconnue.

Concentrations prédites sans effet (PNEC) Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales Utiliser l'équipement de protection individuel requis. Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.

Protection des yeux/du visage Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.

Protection de la peau

- Protection des mains Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.

- Autres Pour usage industriel seulement. Porter un vêtement de protection approprié.

Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Risques thermiques	Porter des équipements de protection contre la chaleur, si nécessaire.
Mesures d'hygiène	Ne pas fumer pendant l'utilisation. Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.
Contrôles d'exposition liés à la protection de l'environnement	Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

État physique	Liquide.
Forme	Aérosol
Couleur	Donnée inconnue.
Odeur	Caractéristique.
Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 35 °C (> 95 °F) (liquide)
Inflammabilité	Sans objet.
Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité	
Limite d'explosivité inférieure (%)	Donnée inconnue.
Limite d'explosivité – supérieure (%)	Donnée inconnue.
Point d'éclair	13,0 °C (55,4 °F) Coupelle fermée (liquide)
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
pH	Donnée inconnue.
Viscosité cinématique	Donnée inconnue.
Solubilité(s)	
Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité	Donnée inconnue.
Densité de vapeur	Donnée inconnue.
Caractéristiques de la particule	Donnée inconnue.
9.2. Autres informations	
Chaleur de combustion (NFPA 30B)	19,75 kJ/g

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Acides. Agents oxydants forts. Chlore. Fluor. Nitrates.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	L'inhalation prolongée peut être nocive.
Contact avec la peau	Aucun effet indésirable par contact cutané n'est attendu.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.
Symptômes	Irritation sévère des yeux. Les symptômes peuvent inclure des picotements, des déchirures, des rougeurs, des gonflements et une vision brouillée. Toux.

11.1. Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë Donnée inconnue.

Composants	**Espèce**	**Résultats d'essais**
BUTANE (CAS 106-97-8)		
Aiguë		
Inhalation		
Gaz		
CL50	Souris	1237 mg/l, 2 Heures
ÉTHANOL (CAS 64-17-5)		
Aiguë		
Cutané		
DL50	Lapin	> 20000 mg/kg
Inhalation		
Vapeur		
CL50	Rat	124,7 mg/l, 4 h OECD 403
Oral		
DL50	Rat	10470 mg/kg OCDE 401
HYDROFLUOROCARBON 152A (CAS 75-37-6)		
Aiguë		
Inhalation		
Gaz		
CL50	Rat	> 437500 ppm, 4 h

Corrosion cutanée/irritation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.

Irritation/corrosion – Peau

ÉTHANOL	OCDE 404 Résultat: Non Irritant Espèce: Lapin
BUTANE	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.
HYDROFLUOROCARBON 152A	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.

Lésions oculaires graves/irritation oculaire Provoque une sévère irritation des yeux.

Irritation/corrosion – Œil

ÉTHANOL	OCDE 405 Résultat: Irritant Espèce: Lapin
BUTANE	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.
HYDROFLUOROCARBON 152A	Résultat: Le contact avec le produit sous forme de liquide peut causer des gelures.

Sensibilisation respiratoire En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée En raison d'un manque partiel ou complet de données, la classification est impossible.

Sensibilisation cutanée

ÉTHANOL	OCDE 406 Résultat: Non Sensibilisant Espèce: Cochon d'Inde

Mutagénicité sur les cellules germinales En raison d'un manque partiel ou complet de données, la classification est impossible.

Mutagénicité

BUTANE	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.
ÉTHANOL	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.
HYDROFLUOROCARBON 152A	Résultat: Les tests in vitro et in vivo ne mettent en évidence aucun effet mutagène.

Slovénie. CMR. Protection des travailleurs contre l'exposition à des agents cancérogènes et mutagènes (ULRS 101/2005 et ses modifications)

BUTANE (CAS 106-97-8)	mutagène , Category 1B.

Cancérogénicité Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

BUTANE (CAS 106-97-8)

Slovénie. CMR. Protection des travailleurs contre l'exposition à des agents cancérogènes et mutagènes (ULRS 101/2005 et ses modifications)

BUTANE (CAS 106-97-8)	Agent cancérogène de la catégorie 1A

Toxicité pour la reproduction En raison d'un manque partiel ou complet de données, la classification est impossible.

Effets sur le développement

ÉTHANOL	> 20000 ppm OCDE 414, Pas d'effets sur le développement Résultat: NOAEL Espèce: Rat
BUTANE	19678 mg/m3 OECD 422 Résultat: NOAEC Espèce: Rat
HYDROFLUOROCARBON 152A	50000 ppm OCDE 414 Résultat: NOAEC Espèce: Rat

Toxicité pour la reproduction

ÉTHANOL	20700 mg/kg bw/d OCDE 416, Pas d'effets sur la fertilité Résultat: NOAEL Espèce: Rat
HYDROFLUOROCARBON 152A	25000 ppm Résultat: NOAEL Espèce: Rat
BUTANE	7131 mg/m3 OECD 422 Résultat: NOAEC Espèce: Rat

Toxicité spécifique pour certains organes cibles – exposition unique En raison d'un manque partiel ou complet de données, la classification est impossible.

Toxicité spécifique pour certains organes cibles – exposition répétée En raison d'un manque partiel ou complet de données, la classification est impossible.

ÉTHANOL	1730 mg/kg bw/d OCDE 408, Oral Résultat: NOAEL Espèce: Rat
HYDROFLUOROCARBON 152A	25000 ppm OCDE 453, Inhalation Résultat: NOAEC Espèce: Rat Durée de l'essai: 104 wk
BUTANE	7214 mg/m3 OECD 422 Résultat: NOAEC Espèce: Rat Durée de l'essai: 28 d

Danger par aspiration En raison d'un manque partiel ou complet de données, la classification est impossible.

Informations sur les mélanges et informations sur les substances Aucune information disponible.

11.2 Information on other hazards

Endocrine disrupting properties La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.

Composants		Espèce	Résultats d'essais
ÉTHANOL (CAS 64-17-5)			
Aquatique			
Aiguë			
Algues	CE50	Pseudokirchneriella subcapitata	22200 mg/l, 96 h
Autre	IC50	Boues activées d'eaux usées principalement ménagères	> 1000 mg/l, 3 h
Crustacé	CE50	Ceriodaphnia dubia	5012 mg/l, 48 h
Poisson	CL50	Pimephales promelas	15300 mg/l, 96 h
Chronique			
Crustacé	NOEC (concentration sans effet observé)	Daphnia magna	9,6 mg/l, 9 d
Poisson	NOEC (concentration sans effet observé)	Danio rerio	250 mg/l, 120 h OECD 212
HYDROFLUOROCARBON 152A (CAS 75-37-6)			
Aquatique			
Aiguë			
Algues	CE50	Algues	47,755 mg/l RQSA
Crustacé	CE50	Daphnie	146,695 mg/l RQSA
Poisson	CL50	Poisson	295,783 mg/l RQSA

12.2. Persistance et dégradabilité

Biodégradabilité

Pourcentage de dégradation (biodégradation aérobie)

BUTANE	100 en % Résultat: Facilement Biodegradable Durée de l'essai: 385,5 Heures
ÉTHANOL	84 en % Résultat: Facilement Biodegradable Durée de l'essai: 20 d

12.3. Potentiel de bioaccumulation

Coefficient de partage n-octanol/eau (log Kow)

BUTANE	2,89
ÉTHANOL	-0,31
HYDROFLUOROCARBON 152A	0,75

12.4. Mobilité dans le sol Aucune information disponible.

12.5. Résultats des évaluations PBT et vPvB Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.

12.6. Propriétés perturbant le système endocrinien La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

12.7. Other adverse effects Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.

Potentiel de réchauffement planétaire selon l'annexe IV du règlement 517/2014/UE relatif aux gaz à effet de serre fluorés avec ses modifications

BUTANE (CAS 106-97-8)	4

. La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires	Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).
Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination. Ne pas réutiliser des récipients vides.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée. Contenu sous pression. Ne pas perforer, incinérer ou broyer. Éliminer le contenu/récipient conformément aux réglementations locales/régionales/nationales/internationales.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. Numéro OUN ou numéro d'identification	UN1950
14.2. Désignation officielle de transport de l'ONU	AÉROSOLS INFLAMMABLES, Limited Quantity

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

HYDROFLUOROCARBON 152A (CAS 75-37-6)

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

BUTANE (CAS 106-97-8)

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

BUTANE (CAS 106-97-8)

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

BUTANE (CAS 106-97-8)
ÉTHANOL (CAS 64-17-5)

Autres réglementations Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.

Réglementations nationales Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.

15.2. Évaluation de la sécurité chimique Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations Donnée inconnue.

Références Donnée inconnue.

Informations sur la méthode d'évaluation utilisée pour classer le mélange La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.

Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	H220 Gaz extrêmement inflammable. H225 Liquide et vapeurs très inflammables. H280 Contient un gaz sous pression; peut exploser sous l'effet de la chaleur. H319 Provoque une sévère irritation des yeux.
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING**

Other means of identification

SDS number 00-19-0000521

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Not available.

Indication of immediate medical attention and special treatment needed	Treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).
Skin protection	
Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
Other	Applicable for industrial settings only.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	4.2 - 5.2
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199.4 °F (> 93.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	>= 0.97 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics Not available.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING		
Acute		
Dermal		
ATEmix		392200 mg/kg
Oral		
ATEmix		130500 mg/kg

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation No adverse effects due to eye contact are expected.

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

FINISHED GOODS

Not regulated as dangerous goods.

BULK

Not regulated as dangerous goods.

15. Regulatory information

US federal regulations This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Not regulated.

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act (SDWA) Not regulated.

16. Other information, including date of preparation or last revision

Issue date 05-16-2023

Version # 01

NFPA ratings Health: 0
Flammability: 1
Instability: 0

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING**

Autres moyens d'identification

Numéro de la FDS 00-19-0000521

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Non classé.

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Symbole de danger Aucune.

Mention d'avertissement Aucune.

Mention de danger Le mélange ne satisfait pas les critères de classification.

Conseil de prudence

Prévention Observer de bonnes pratiques d'hygiène industrielle.

Intervention Se laver les mains après utilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Le fabricant ne mentionne aucun ingrédient comme étant dangereux selon la norme 29 CFR 1910.1200 de l'OSHA.

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer avec de l'eau. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Non disponible.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Traiter de manière symptomatique.
Informations générales	S’assurer que le personnel médical est averti du (des) produits(s) en cause et qu’il prend des mesures pour se protéger.

5. Mesures à prendre en cas d’incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l’incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d’incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d’incendie ou d’explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d’urgence	Tenir à l'écart le personnel non requis. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l’élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l’écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l’exposition/protection individuelle

Valeurs biologiques limites	Aucune limite d’exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques
Autre	Pour usage industriel seulement.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Forme	Crème.
Couleur	Non disponible.
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	4.2 - 5.2
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93.0 °C (> 199.4 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 0.97 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.

Stabilité chimique La substance est stable dans des conditions normales.

Risque de réactions dangereuses Aucune réaction dangereuse connue dans des conditions normales d'utilisation.

Conditions à éviter Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.

Matériaux incompatibles Agents comburants forts.

Produits de décomposition dangereux Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation On ne s'attend à aucun effet néfaste en cas d'inhalation.

Contact avec la peau On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Contact avec les yeux Aucun effet indésirable dû au contact des yeux n'est prévu.

Ingestion Faible danger présumé en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Non disponible.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Produit	Espèces	Résultats d'épreuves
PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING		
Aiguë		
Cutané		
ATEmix		392200 mg/kg
Orale		
ATEmix		130500 mg/kg

Corrosion cutanée/irritation cutanée On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Lésions oculaires graves/irritation oculaire Aucun effet indésirable dû au contact des yeux n'est prévu.

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire Pas un sensibilisant respiratoire.

Sensibilisation cutanée On ne s'attend pas à ce que ce produit provoque une sensibilisation cutanée.

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

Danger par aspiration	Pas un danger par aspiration.
Autres informations	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité	Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.
Persistance et dégradation	
Potentiel de bioaccumulation	
Mobilité dans le sol	Aucune donnée disponible.
Autres effets nocifs	On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé.
Règlements locaux d'élimination	Détruire conformément àtoutes les réglementations applicables.
Déchets des résidus / produits non utilisés	Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).
Emballages contaminés	Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

14. Informations relatives au transport

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis

Ce produit n'est pas connu comme un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre) Non réglementé.

16. Autres renseignements, y compris la date de la préparation ou de la dernière révision

Date de publication	16-Mai-2023
Version n°	01
Classements NFPA	Santé: 0 Inflammabilité: 1 Instabilité: 0
Avis de non-responsabilité	À notre connaissance, les renseignements et recommandations de cette fiche de données de sécurité étaient précis à la date de publication. Les renseignements donnés sont conçus uniquement comme un guide pour la manipulation, l'utilisation, le traitement, l'entreposage, le transport, l'élimination et le rejet sécuritaires du produit et ne doivent pas être considérés comme une garantie ou une norme de qualité. Les renseignements sont liés uniquement au produit particulier indiqué et peuvent ne pas être valides pour un tel produit utilisé en association avec toute autre substance ou dans tout autre procédé, sauf si indiqué dans le texte.

PULPRIOT

化学品安全技术说明书

1. 鉴别

产品标识 PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING

鉴别的其他方法

SDS编号 00-19-0000521

推荐用途 个人美容护理产品.

建议限制 未知。

制造商/进口商/供应商/分销商信息

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 未被分类。

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

危险符号 无。

警示词 无。

危险性说明 混合物不符合分类的标准。

防范说明

预防措施 遵守良好工业卫生习惯。

事故响应 操作后洗手。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 用水冲洗。 如果刺激症状持续或加重，应就医。

经口 漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性 无资料。

指明任何需要立即就医或特殊治疗的情况 根据症状处理。

一般信息	务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

生物限值	没有该成分的生物接触限值。
适当的技术控制	应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。
个人防护措施，如个人防护设备	
眼/面保护	仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。
皮肤防护	
手防护	仅用於工业环境。 佩戴适当的抗化学手套。
其它的，其它	仅用於工业环境。
呼吸系统防护	仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。
热危害	必要时，穿戴适当的热防护服。
一般的卫生考虑	始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观	
性状	液体。
形状	奶油。
颜色	无资料。
气味	特征的。
气味阈值	无资料。
pH 值	4.2 - 5.2
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 93.0 ° C (> 199.4 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。

燃烧上/下限或爆炸极限

燃烧限值 - 下限（%）	无资料。
燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。
溶解性	
溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。
其他信息	
密度	>= 0.97 g/cm³
爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 避免温度超過閃火點温度。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	预期吸入无有害影响。
皮肤接触	预计没有因皮肤接触导致的任何有害影响。
眼睛接触	预计不会因眼神接触而产生不良影响.
经口	预计较低的食入危害。
与物理,化学和毒物学特性有关的症状	无资料。

毒理学效应信息

急性毒性 未知。

产品	**物种**	**试验结果**
PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING		
急性的		
经口		
ATEmix		130500 mg/kg
经皮肤		
ATEmix		392200 mg/kg

皮肤腐蚀/刺激	预计没有因皮肤接触导致的任何有害影响。
严重眼睛损伤/眼睛刺激性	预计不会因眼神接触而产生不良影响.
呼吸道或皮肤过敏	
呼吸过敏性	不是呼吸道致敏物。
皮肤致敏物	此产品将不会引起皮肤敏感。
生殖细胞突变性	无数据表明本产品或其含量超过0.1%的任何组分具有致变性或基因毒性。
致癌性	尚不能确定对人有致癌作用。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

不适用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性	这种产品预期不会导致生殖或发育效应。
特定目标器官系统毒性－单次接触	未被分类。
特定目标器官系统毒性－重复接触	未被分类。
吸入危害	非吸入危险。
更多信息	本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性	产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。
持久性和降解性	
潜在的生物累积性	
土壤中的迁移性	无数据
其它不良影响	本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导	回收再生或装在密封的容器中送至专门的废弃物处理场处理。
地方处置法规	按照所有适用的法规进行处置。
残渣废料/未用掉的产品	按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。
污染包装物	容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

免责声明 这份安全数据表中提供的信息被认为是其发布日期时我们所知道的知识、信息和确信是准确的。所给出的信息仅作为安全操作处置、使用、加工、储存、运输、废弃处置和释放的指导，而不是作为担保和质量指标。这些信息只涉及到具体指定的物质，而对这些材料与任何其他材料或任何工艺的结合可能是无效的，除非在文本中有说明。

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

1. Identificación

Identificador del producto **PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING**

Otros medios de identificación

Número de FDS 00-19-0000521

Uso recomendado Producto de cuidado personal para uso cosmético.

Restricciones recomendadas Ninguno conocido.

Información sobre el fabricante/importador/proveedor/distribuidor

Dirección: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Teléfono de Emergencias 1-800-535-5053 (Internacional: 352-323-3500)

Para más información: 1-732-499-2741

2. Identificación de los peligros

Peligros físicos No clasificado.

Peligros para la salud No clasificado.

Peligros definidos por la OSHA No clasificado.

Elementos de la etiqueta

Símbolo de riesgo Ninguno.

Palabra de advertencia Ninguno.

Declaración de peligro La mezcla no cumple los criterios para su clasificación.

Consejos de prudencia

Prevención Respete las normas para una manipulación correcta de productos químicos.

Respuesta Lávese las manos después del uso.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación Eliminar los desperdicios y residuos de conformidad con la normativa promulgada por las autoridades locales.

Peligro(s) no clasificados en otra parte [Hazard(s) not otherwise classified (HNOC)] Ninguno conocido.

Información complementaria Ninguno.

3. Composición/información sobre los componentes

Mezclas

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*Significa que una identidad química y/o porcentaje de composición específicos han sido reservados como secreto comercial.

4. Primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuagar con agua. Busque atención médica si la irritación se desarrolla y persiste.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

Principales síntomas y efectos, agudos y retardados No disponible.

Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente	Tratamiento sintomático.
Información general	Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

5. Medidas de lucha contra incendios

Medios de extinción apropiados	Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).
Medios de extinción no apropiados	No utilice chorro de agua, pues extendería el fuego.
Peligros específicos que presenta el producto químico	En caso de incendio se pueden formar gases nocivos.
Equipo de protección especial y medidas de precaución para el personal de lucha contra incendios	Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.
Equipo/Instrucciones para la extinción de incendios	Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.
Métodos específicos	Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.
Riesgos generales de incendio	Ningún riesgo excepcional de incendio o explosión señalado.

6. Medidas en caso de vertido accidental

Precauciones personales, equipo de protección y procedimientos de emergencia	Mantenga el personal no necesario lejos. Consultar las medidas de protección personal en la sección 8 de la FDS.
Métodos y material de contención y de limpieza	Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua. Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación. Nunca devuelva el producto derramado al envase original para reutilizarlo. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.
Precauciones relativas al medio ambiente	No verter los residuos al desagüe, al suelo o las corrientes de agua.

7. Manipulación y almacenamiento

Precauciones para una manipulación segura	Respete las normas para una manipulación correcta de productos químicos.
Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades	Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

8. Control de la exposición/protección personal

Valores límite biológicos	No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.
Controles técnicos apropiados	Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable.

Medidas de protección individual, tales como equipos de protección personal

Protección de los ojos/la cara	De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).
Protección de la piel	
Protección de las manos	De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

Otros	De aplicación solamente en entornos industriales.
Protección respiratoria	De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.
Peligros térmicos	Use ropa protectora térmica adecuada si resulta necesario.
Consideraciones generales de higiene	Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

9. Propiedades físicas y químicas

Aspecto	
Estado físico	Líquido.
Forma	Nata.
Color	No disponible.
Olor	Característico.
Umbral olfativo	No disponible.
pH	4.2 - 5.2
Punto de fusión/punto de congelación	No disponible.
Punto inicial de ebullición e intervalo de ebullición	> 100 °C (> 212 °F)
Punto de inflamación	> 93.0 °C (> 199.4 °F) Copa Cerrada
Tasa de evaporación	No disponible.
Inflamabilidad (sólido, gas)	No aplicable.
Límites superior/inferior de inflamabilidad o de explosividad	
Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Límite de explosividad inferior (%)	No disponible.
Límite de explosividad superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Información adicional	
Densidad	>= 0.97 g/cm³
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

10. Estabilidad y reactividad

Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.

Estabilidad química	El material es estable bajo condiciones normales.
Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Evitar temperaturas por encima del punto de flash. Contacto con materiales incompatibles.
Materiales incompatibles	Agentes oxidantes fuertes.
Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

11. Información toxicológica

Información sobre posibles vías de exposición

Inhalación	No es de esperar que se produzcan efectos adversos por inhalación.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.
Contacto con los ojos	No adverse effects due to eye contact are expected.
Ingestión	Se espera que representa un riesgo reducido de ingestión.
Síntomas relacionados a las características físicas, químicas y toxicológicas	No disponible.

Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba
PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING		
Agudo		
Dérmico		
ATEmix		392200 mg/kg
Oral		
ATEmix		130500 mg/kg

Corrosión/irritación cutánea	No se esperan efectos adversos por contacto con la piel.
Lesiones oculares graves/irritación ocular	No adverse effects due to eye contact are expected.

Sensibilización respiratoria o cutánea

Sensibilización respiratoria	No es un sensibilizante respiratorio.
Sensibilización cutánea	No se espera que este producto cause sensibilización cutánea.
Mutagenicidad en células germinales	No hay datos disponibles que indiquen que el producto o cualquier compuesto presente en una cantidad superior al 0.1% sea mutagénico o genotóxico.
Carcinogenicidad	No clasificable en cuanto a su carcinogenicidad para los seres humanos.

Monografías IARC. Evaluación general de carcinogenicidad

No listado.

Sustancias específicamente reguladas por la OSHA (29 CFR 1910.1001-1052)

No reglamentado.

US. National Toxicology Program (NTP) Report on Carcinogens

No listado.

Toxicidad para la reproducción	No se espera que este producto tenga efectos adversos para la reproducción o el feto.
Toxicidad específica en determinados órganos – exposición única	No clasificado.
Toxicidad específica en determinados órganos – exposición repetida	No clasificado.
Peligro por aspiración	No constituye ningún peligro por aspiración.
Información adicional	En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

12. Información ecológica

Ecotoxicidad El producto no está clasificado como peligroso para el medio ambiente. No obstante, eso no excluye la posibilidad de que vertidos grandes o frecuentes puedan tener efectos nocivos o dañinos para el medio ambiente.

Persistencia y degradabilidad

Potencial de bioacumulación

Movilidad en el suelo No hay datos disponibles.

Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

13. Consideraciones relativas a la eliminación

Instrucciones para la eliminación Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial.

Normativas de eliminación locales Elimine de acuerdo con todas las reglamentaciones aplicables.

Desechos de residuos / producto no utilizado Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

14. Información relativa al transporte

DOT

FINISHED GOODS

No se regula como artículo peligroso.

BULK

No se regula como artículo peligroso.

IATA

FINISHED GOODS

No se regula como artículo peligroso.

BULK

No se regula como artículo peligroso.

IMDG

FINISHED GOODS

No se regula como artículo peligroso.

No se regula como artículo peligroso.

15. Información reglamentaria

reglamentación Federal de EE.UU. No se tiene conocimiento de que este producto sea un "Producto químico peligroso" tal como está definido por la Norma de comunicación de riesgos OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA artículo 12(b) Notificación de exportaciones (40 CFR 707, subapart. D)

No reglamentado.

CERCLA Hazardous Substance List (40 CFR 302.4) (Lista de sustancias peligrosas):

No listado.

SARA 304 Emergency release notification

No reglamentado.

Sustancias específicamente reguladas por la OSHA (29 CFR 1910.1001-1052)

No reglamentado.

Ley de Enmiendas y Reautorizaciones Superiores (Superfund) de 1986 (SARA)

SARA 302 Sustancia extremadamente peligrosa

No listado.

SARA 311/312 Producto químico peligroso No (Exempt)

SARA 313 (TRI, Notificación de emisiones de productos tóxicos)

No reglamentado.

Otras normativas federales

Ley de aire limpio [Clean Air Act (CAA)], artículo 112, lista de Contaminantes del aire peligrosos [Hazardous Air Pollutants (HAP)]

No reglamentado.

Ley de aire limpio (CAA) Sección 112(r) Prevención de liberación accidental (40 CFR 68.130)

No reglamentado.

Ley Safe Drinking Water Act (SDWA) No reglamentado.

16. Otra información, como fecha de preparación o última revisión

Fecha de publicación	16-Mayo-2023
Nº de versión	01
Clasificaciones NFPA	Salud: 0 Inflamabilidad: 1 Inestabilidad: 0
Cláusula de exención de responsabilidad	La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

PULPRIOT

PHIẾU DỮ LIỆU AN TOÀN

1. Nhận dạng

Mã định danh sản phẩm **PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING**

Các hình thức nhận dạng khác

Số bản thông tin an toàn 00-19-0000521

Công dụng đề nghị Mỹ phẩm.

Các giới hạn đề nghị Chưa được biết.

Thông tin về Nhà Sản Xuất/Nhập Khẩu/Cung Cấp/Phân Phối

Địa chỉ: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
Hoa Kỳ

Số điện thoại liên lạc trong trường hợp khẩn cấp: 1-800-535-5053 (International: 352-323-3500)

Muốn có thêm thông tin: 1-732-499-2741

2. Nhận diện các hiểm họa

Hiểm Họa Vật Lý Không được phân loại.

Hiểm Họa Cho Sức Khỏe Không được phân loại.

OSHA defined hazards Không được phân loại.

Các thành phần của nhãn

Ký hiệu hiểm họa Không có.

Từ cảnh báo Không có.

Công bố hiểm họa Hỗn hợp không thỏa mãn tiêu chuẩn phân loại.

Thông điệp đề phòng

Phòng Ngừa Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.

Ứng phó Rửa tay sau khi thao tác.

Bảo Quản Bảo quản tránh xa các vật liệu tương kỵ.

Thải bỏ Thải bỏ chất thải và các phần cặn dư theo các quy định của cơ quan có thẩm quyền tại địa phương.

Hazard(s) not otherwise classified (HNOC) Chưa được biết.

Thông tin thêm Không có.

3. Thành phần/ thông tin về các phụ liệu

Các hỗn hợp

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*Cho biết lai lịch và/hoặc thành phần phần trăm của một hóa chất cụ thể đã được lưu giữ ở dạng bí mật thương mại.

4. Các biện pháp sơ cứu

Hít phải Đưa ra nơi không khí trong lành. Hãy gọi cho bác sĩ nếu các triệu chứng xuất hiện hoặc không hết.

Tiếp xúc với da Rửa sạch bằng xà bông và nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng

Tiếp xúc với mắt Rửa bằng nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng

Ăn phải Súc miệng. Tìm gặp y bác sĩ để điều trị nếu các triệu chứng xảy ra.

Các triệu chứng/tác dụng quan trọng nhất, cấp tính và chậm xuất hiện	Không có.
Dấu hiệu cần phải được chăm sóc y tế ngay lập tức và điều trị đặc biệt	Điều trị triệu chứng.
Thông tin tổng quát	Đảm bảo rằng các nhân viên y tế nhận thức được (các) vật liệu liên quan, và thực hiện thận trọng để bảo vệ chính mình.

5. Các biện pháp cứu hỏa

Các chất chữa cháy phù hợp	Sương nước. Bọt. Bộ hóa chất khô. Carbon dioxide (CO2).
Chất chữa cháy không phù hợp	Không dùng vòi xịt nước để dập lửa, vì việc này sẽ gây lan thêm lửa.
Hiểm họa đặc trưng phát sinh từ hóa chất	Trong khi cháy, các khí nguy hiểm cho sức khỏe có thể được hình thành.
Trang bị bảo hộ đặc biệt cho nhân viên chữa cháy	Phải sử dụng thiết bị thở tự điều khiển và trang phục bảo hộ đầy đủ khi chữa cháy.
Các chỉ dẫn/trang thiết bị cứu hỏa	Đưa các thùng chứa ra khỏi khu vực cháy nếu bạn có thể làm mà không gặp nguy hiểm.
Các biện pháp cụ thể	Sử dụng các quy trình chữa cháy tiêu chuẩn và xem xét các hiểm họa của các vật liệu liên quan khác.
Các hiểm họa cháy nói chung	Không có hiểm họa cháy hoặc nổ bất thường nào đáng chú ý.

6. Các biện pháp xử lý rò rỉ bất ngờ

Các biện pháp đề phòng cá nhân, thiết bị bảo vệ và các quy trình xử lý khẩn cấp	Để xa những người không cần thiết. Về vấn đề bảo hộ cá nhân, xin xem mục 8 của Phiếu An Toàn Hóa Chất.
Phương pháp và vật liệu để ngăn chặn và làm sạch	Lượng Đổ Lớn: Ngăn dòng chảy vật liệu, nếu việc này không gây nguy hiểm. Đắp đê giữ vật liệu đã đổ, khi có thể. Dùng chất khoáng bón cây, cát hoặc đất khô thấm hút rồi cho vào thùng chứa. Sau khi thu hồi sản phẩm, dùng nước xả sạch khu vực. Lượng Đổ Nhỏ: Lau sạch bằng các vật liệu hút nước (ví dụ như khăn, bông). Làm sạch bề mặt cẩn thận để loại bỏ lượng ô nhiễm còn lại. Không bao giờ bỏ chất đã đổ vào bao chứa ban đầu để tái sử dụng. Về thải bỏ chất thải, xin xem mục 13 của Phiếu An Toàn Hóa Chất.
Các biện pháp đề phòng cho môi trường	Không xả vào cống rãnh, kênh rạch hoặc xuống đất.

7. Thao tác và bảo quản

Các biện pháp đề phòng cho thao tác an toàn	Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.
Các điều kiện bảo quản an toàn, kể cả mọi tính chất tương kỵ	Cất giữ trong dụng cụ đựng thật kín. Giữ xa tầm tay của trẻ em. Bảo quản xa các vật liệu tương kỵ (Xem Mục 10 của Phiếu An Toàn Hóa Chất).

8. Kiểm soát việc tiếp xúc / bảo hộ cá nhân

Các giá trị giới hạn sinh học	Không có giới hạn tiếp xúc sinh học nào đáng lưu ý cho (các) thành phần.
Các biện pháp kiểm soát kỹ thuật phù hợp	Nên sử dụng phương pháp thông khí toàn bộ. Tốc độ thông khí phải phù hợp với các điều kiện. Nếu áp dụng, sử dụng tủ xử lý kín, thông hút khí tại chỗ, hoặc các biện pháp kỹ thuật khác để duy trì mức nồng độ trong không khí dưới giới hạn tiếp xúc đề nghị. Nếu chưa thiết lập được các giới hạn tiếp xúc, hãy duy trì mức nồng độ trong không khí ở mức có thể chấp nhận.

Các biện pháp bảo vệ cá nhân, như trang bị bảo hộ cá nhân

Biện pháp bảo vệ mắt/mặt	Chỉ được áp dụng đối với các môi trường công nghiệp. Đeo kính an toàn có gờ chắn bên (hoặc kính bảo hộ).
Bảo vệ da	
Bảo vệ tay	Chỉ được áp dụng đối với các môi trường công nghiệp. Mang bao tay chống hóa chất thích hợp.
Khác	Chỉ được áp dụng đối với các môi trường công nghiệp.
Bảo vệ đường hô hấp	Chỉ được áp dụng đối với các môi trường công nghiệp. Trong trường hợp không đủ thông thoáng, sử dụng thiết bị bảo vệ đường hô hấp phù hợp.

Các hiểm họa nhiệt	Sử dụng trang phục bảo hộ chống nhiệt, khi cần thiết.
Các lưu ý vệ sinh chung	Luôn giám sát việc thực hiện tốt các biện pháp vệ sinh cá nhân, như rửa sạch sau khi làm việc với vật liệu và trước khi ăn, uống, và/hoặc hút thuốc. Thường xuyên giặt quần áo và các thiết bị bảo hộ cho sạch các chất gây ô nhiễm.

9. Tính chất lý hóa

Ngoại Quan	
Trạng thái vật lý	Chất lỏng.
Dạng	Kem.
Màu	Không có.
Mùi	Đặc điểm.
Ngưỡng phát hiện mùi	Không có.
pH	4.2 - 5.2
Điểm chảy/điểm đông	Không có.
Điểm và vùng nhiệt độ sôi ban đầu	> 100 °C (> 212 °F)
Điểm chớp cháy	> 93.0 °C (> 199.4 °F) Cốc Kín
Tốc độ bay hơi	Không có.
Khả năng cháy (rắn, khí)	Không áp dụng.
Giới hạn cháy trên/dưới hoặc các giới hạn nổ	
Giới hạn cháy - dưới (%)	Không có.
Giới hạn cháy - trên (%)	Không có.
Giới hạn nổ – dưới (%)	Không có.
Giới hạn nổ – trên (%)	Không có.
Áp suất hơi	Không có.
Tỷ khối hơi	Không có.
Tỷ trọng tương đối	Không có.
(Các) độ tan	
Tính tan (nước)	Không có.
Hệ số phân tách (n-octanol/nước)	Không có.
Nhiệt độ tự bốc cháy	Không có.
Nhiệt độ phân hủy	Không có.
Độ nhớt	Không có.
Thông tin khác	
Tỷ Trọng	>= 0.97 g/cm³
Các tính chất nổ	Không nổ.
Các tính chất oxy hóa	Không oxy hóa.

10. Độ bền và khả năng phản ứng

Khả năng phản ứng	Sản phẩm ổn định và không phản ứng trong các điều kiện sử dụng, bảo quản và vận chuyển bình thường.
Độ bền hóa học	Vật liệu ổn định trong các điều kiện bình thường.
Khả năng gây phản ứng nguy hiểm	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Các điều kiện cần tránh	Tránh xa nhiệt, bề mặt nóng, tia lửa, ngọn lửa trần, và các nguồn gây cháy khác. Tránh các nhiệt độ vượt quá điểm bốc cháy. Tiếp xúc với các vật liệu tương kỵ.
Các vật liệu tương kỵ	Các chất oxy hóa mạnh.
Các sản phẩm phân hủy gây nguy hiểm	Không sản phẩm phân hủy nguy hại nào được biết đến.

11. Thông tin về độc tính

Thông tin về các lộ trình tiếp xúc có khả năng xảy ra

Hít phải	Được xem là không gây ra các tác dụng có hại do hít phải.

Tiếp xúc với da Được xem là không gây các tác dụng có hại khi tiếp xúc với da.

Tiếp xúc với mắt Không có tác dụng xấu khi chạm và mắt.

Ăn phải Được xem là có hiểm họa ăn phải thấp.

Triệu chứng liên quan đến tính chất vật lý, hóa học và độc tính. Không có.

Thông tin về các tác dụng độc

Độc tính cấp tính Chưa được biết.

Sản Phẩm	Loài	Kết quả thử nghiệm
PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING		
Cấp tính		
Da		
ATEmix		392200 mg/kg
Qua Miệng		
ATEmix		130500 mg/kg

Ăn mòn/kích ứng da Được xem là không gây các tác dụng có hại khi tiếp xúc với da.

Gây tổn thương mắt /kích ứng mắt nghiêm trọng Không có tác dụng xấu khi chạm và mắt.

Gây mẫn cảm đường hô hấp hoặc da

Gây mẫn cảm đường hô hấp Không phải là một chất gây mẫn cảm đường hô hấp.

Gây mẫn cảm da Sản phẩm này không được xem là gây mẫn cảm cho da.

Khả năng gây đột biến tế bào mầm Không có dữ liệu cho thấy sản phẩm hoặc bất kỳ thành phần nào có trên 0.1% tác nhân gây đột biến hoặc tác nhân gây ngộ độc di truyền.

Khả năng gây ung thư Không thể phân loại là có tính gây ung thư cho người.

Các Chuyên Khảo Của Cơ Quan Nghiên Cứu Ung Thư Quốc Tế (IARC). Đánh Giá Tổng Thể Khả Năng Gây Ung Thư

Không có trong danh mục.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Không được quy định.

Hoa Kỳ. Chương Trình Chất Độc Quốc Gia (NTP) Báo cáo về các Chất Gây Ung Thư

Không có trong danh mục.

Độc tích sinh sản Sản phẩm này không được xem là gây các tác dụng lên chức năng sinh sản hoặc tăng trưởng.

Độc tính đối với cơ quan tác dụng đặc hiệu đến sau một lần tiếp xúc Không được phân loại.

Độc tính đối với cơ quan tác dụng đặc hiệu đến sau lần tiếp xúc lại Không được phân loại.

Hiểm họa hít phải Không phải là một hiểm họa cho đường hô hấp.

Thông tin khác Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộng rãi và các nghiên cứu khách quan của các đơn vị chuyên ngành.

12. Thông tin về sinh thái

Độc tính sinh thái Sản phẩm không được phân loại là nguy hiểm cho môi trường. Tuy nhiên, điều đó không có nghĩa là không có nguy cơ bị tràn đổ những lượng lớn hoặc thường xuyên dẫn đến tác dụng gây hại hoặc phá hủy môi trường.

Độ Bền Và Khả Năng Phân Hủy

Khả năng tích tụ sinh học

Di chuyển trong đất Không có dữ liệu.

Các tác dụng có hại khác Không có các tác dụng bất lợi cho môi trường nào khác (ví dụ, gây suy yếu tầng ozon, khả năng tạo ozon bằng phương pháp quang hóa, rối loạn nội tiết, khả năng làm tăng nhiệt độ trái đất) được xem là sẽ gặp phải từ thành phần này.

13. Các cân nhắc khi thải bỏ

Các Hướng Dẫn Thải Bỏ	Thu gom và tái chế hoặc thải bỏ trong các dụng cụ đựng kín tại các bãi rác thải được phép.
Các quy định tiêu hủy của địa phương	Vứt bỏ tuân theo tất cả các quy định hiện hành.
Chất thải từ cặn lắng/ sản phẩm không sử dụng	Loại bỏ theo quy định của địa phương Các dụng cụ đựng hoặc túi lót rỗng có thể còn chứa các cặn dư của sản phẩm. Vật liệu này và dụng cụ đựng của nó phải được thải bỏ bằng một cách thức an toàn (xem: Hướng dẫn thải bỏ).
Bao bì bị ô nhiễm	Vì các dụng cụ đựng đã cạn vẫn có thể còn lại cặn sản phẩm, thực hiện dán nhãn cảnh báo ngay cả sau khi dụng cụ đựng đã cạn. Các thùng chứa rỗng cần được đưa tới cơ sở đủ tiêu chuẩn để tái chế hoặc loại bỏ

14. Thông tin về việc vận chuyển

Bộ Giao Thông Vận Tải (DOT)

FINISHED GOODS

Không được quy định là hàng hóa nguy hiểm.

Không được quy định.

Other federal regulations

Đạo Luật Bảo Vệ Bầu Không Khí (Clean Air Act - CAA) Mục 112 Danh Mục Chất Ô Nhiễm Không Khí Nguy Hiểm (HAP)

Không được quy định.

Đạo Luật Bảo Vệ Không Khí (CAA) Mục 112(r) Phòng Ngừa Rò Rỉ Bất Ngờ (40 CFR 68.130)

Không được quy định.

Đạo Luật An Toàn Nước Uống (SDWA) Không được quy định.

16. Thông tin khác, kể cả ngày soạn thảo hoặc sửa đổi

Ngày Ban Hành	16-Tháng-Năm-2023
Phiên bản số	01
Xếp hạng NFPA	Sức Khỏe: 0 Khả Năng Cháy: 1 Tính không ổn định: 0
Khước Từ Trách Nhiệm	Thông tin trong Bản Thông Tin An Toàn này là chính xác theo mức độ hiểu biết nhất của chúng tôi, thông tin chúng tôi có được và sự tin tưởng của chúng tôi vào ngày công bố tài liệu này. Thông tin được soạn thảo chỉ nhằm mục đích hướng dẫn cho việc thao tác, sử dụng, chế biến, bảo quản, vận chuyển, thải bỏ và xử lý rò rỉ được an toàn và không được xem là một sự bảo đảm hay đặc điểm chất lượng. Thông tin này chỉ liên quan đến riêng vật liệu đề cập trên và sẽ không hợp lệ khi vật liệu đó được sử dụng kết hợp với bất kỳ vật liệu nào khác hoặc bất kỳ quá trình chế biến nào, nếu không được nêu rõ trong tài liệu này.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT TONING LEAVE IN TREATMENT WITH BONDING
Synonyms	None.
SDS number	00-19-0000521
Product code	1285474 B
Issue date	05-16-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 4,4% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 4,4% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

The components are not hazardous or are below required disclosure limits.

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Recommended monitoring procedures	Follow standard monitoring procedures.
Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.

8.2. Exposure controls

Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
- Other	Applicable for industrial settings only.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Liquid.
Form	Cream.
Color	Not available.
Odor	Characteristic.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flammability	Not applicable.

Upper/lower flammability or explosive limits

Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Flash point	> 199,4 °F (> 93,0 °C) Closed Cup
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
pH	4,2 - 5,2

Kinematic viscosity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Vapor pressure	Not available.
Density	>= 0,97 g/cm³
Vapor density	Not available.
Particle characteristics	Not available.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity	Not known.
Skin corrosion/irritation	Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.
Serious eye damage/eye irritation	Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.
Respiratory sensitization	Due to partial or complete lack of data the classification is not possible.
Skin sensitization	Due to partial or complete lack of data the classification is not possible.
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.
Carcinogenicity	Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.
Mixture versus substance information	No information available.

11.2 Information on other hazards

Endocrine disrupting properties	The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Other information	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
12.2. Persistence and degradability	
12.3. Bioaccumulative potential	
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	Not a PBT or vPvB substance or mixture.
12.6. Endocrine disrupting properties	The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
.	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Maritime transport in bulk according to IMO instructions	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	None.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

SAFETY DATA SHEET

1. Identification

Product identifier **PULP RIOT SEMI-PERMANENT COLOR - GROUP 10**

Other means of identification

SDS number 00-22-0000164

Recommended use Personal care product used for cosmetic effect.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Address:
Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Serious eye damage/eye irritation Category 2A

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement Causes serious eye irritation.

Precautionary statement

Prevention Wash thoroughly after handling. Wear eye protection/face protection.

Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
GLYCERIN		56-81-5	2
STEARALKONIUM CHLORIDE		122-19-0	1.41
GLYCERYL STEARATE		31566-31-1	1.02

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.

US. OSHA Table Z-3 (29 CFR 1910.1000)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
		50 mppcf	Total dust.
		15 mppcf	Respirable fraction.

US. ACGIH Threshold Limit Values

Components	Type	Value	Form
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	3 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

Other Applicable for industrial settings only. Wear appropriate chemical resistant clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid.

Form Cream.

Color Shaded

Odor Characteristic.

Odor threshold Not available.

pH 3 - 4.5

Melting point/freezing point Not available.

Initial boiling point and boiling range > 212 °F (> 100 °C)

Flash point > 212.0 °F (> 100.0 °C) Closed Cup

Evaporation rate Not available.

Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not available.

Flammability limit - upper (%) Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	0.98 - 0.999 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT SEMI-PERMANENT COLOR - GROUP 10

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Irritation Corrosion - Skin

STEARALKONIUM CHLORIDE	OECD 439 Result: Not Irritating Species: RhE
GLYCERIN	Result: Not Irritating Species: Rabbit

Serious eye damage/eye irritation Causes serious eye irritation.

Irritation Corrosion - Eye

STEARALKONIUM CHLORIDE	OECD 492 Result: Possibly Irritating Species: RhCE
GLYCERIN	Result: Not Irritating Species: Rabbit

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Skin sensitization

GLYCERIN	167 mg/m3 air OECD 413, Inhalation Result: NOAEL Species: Rat Test Duration: 90 d
STEARALKONIUM CHLORIDE	EU B.6 Result: Not Sensitizing Species: Guinea pig
GLYCERIN	Result: Not Sensitizing Species: Guinea pig

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity

GLYCERIN	Result: In vitro and in vivo tests did not show mutagenic effects.
STEARALKONIUM CHLORIDE	Result: In vitro tests did not show mutagenic effects

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Developmental effects

GLYCERIN — 1310 mg/kg bw/d, No effects on development
Result: NOAEL
Species: Rat

Reproductivity

GLYCERIN — 2000 mg/kg bw/d, No effects on fertility
Result: NOAEL
Species: Rat

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

GLYCERIN — 8000 mg/kg bw/d, Oral
Result: NOAEL
Species: Rat
Test Duration: 2 yr

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results
GLYCERIN (CAS 56-81-5)			
Aquatic			
Acute			
Algae	EC0	Scenedesmus quadricauda	> 10000 mg/l, 192 h
Crustacea	EC50	Daphnia magna	1955 mg/l, 48 h
Fish	LC50	Oncorhynchus mykiss	54000 mg/l, 96 h
Other	NOEC	Pseudomonas putida	> 10000 mg/l, 16 h
STEARALKONIUM CHLORIDE (CAS 122-19-0)			
Aquatic			
Acute			
Algae	EC50	Pseudokirchneriella subcapitata	0.03 mg/l, 72 h OECD 201
Crustacea	EC50	Daphnia magna	0.016 mg/l, 48 h EU C.2
Fish	LC50	Oncorhynchus mykiss	0.85 mg/l, 96 h OECD 203
Other	EC50	Activated sludge of a predominantly domestic sewage	11 mg/l, 30 min OECD 209
Chronic			
Algae	EC10	Pseudokirchneriella subcapitata	0.011 mg/l, 72 h OECD 201
Crustacea	NOEC	Daphnia magna	0.013 mg/l, 21 d OECD 211

Persistence and degradability

Biodegradability

Percent degradation (Aerobic biodegradation)

GLYCERIN — OECD 301
Result: Readily Biodegradable

STEARALKONIUM CHLORIDE — 64 % OECD 301 D
Result: Readily Biodegradable
Test Duration: 28 d

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

GLYCERIN -1.76
STEARALKONIUM CHLORIDE 3.23

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

FINISHED GOODS

Not regulated as dangerous goods.

1. Identification

Identificateur de produit **PULP RIOT SEMI-PERMANENT COLOR - Groupe 10**

Autres moyens d'identification

Numéro de la FDS 00-22-0000164

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Lésions oculaires graves/irritation oculaire Catégorie 2A

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Mention d'avertissement Attention

Mention de danger Provoque une sévère irritation des yeux.

Conseil de prudence

Prévention Se laver soigneusement après manipulation. Porter un équipement de protection des yeux/du visage.

Intervention En contact avec les yeux : Rincer prudemment avec de l'eau pendant plusieurs minutes. Retirer les verres de contact si la victime en porte et qu'il est possible de les retirer facilement. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin. Enlever les vêtements contaminés et les laver avant réutilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Dénomination chimique	Nom commun et synonymes	Numéro d'enregistrement CAS	%
GLYCÉRINE		56-81-5	2
STEARALKONIUM CHLORIDE		122-19-0	1.41
STÉARATE DE GLYCÉRYLE		31566-31-1	1.02

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation	Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.
Contact avec la peau	Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.
Contact avec les yeux	Rincer immédiatement les yeux abondamment à l'eau pendant au moins 15 minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation des yeux persiste : Demander un avis médical/Consulter un médecin.
Ingestion	Rincer la bouche. Consulter un médecin si des symptômes apparaissent.
Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Donner des soins généraux et traiter en fonction des symptômes. Garder la victime en observation. Les symptômes peuvent être retardés.
Informations générales	S'assurer que le personnel médical est averti du (des) produits(s) en cause et qu'il prend des mesures pour se protéger.

5. Mesures à prendre en cas d'incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l'incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d'incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d'incendie ou d'explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d'urgence	Tenir à l'écart le personnel non requis. Ternir les gens à l'écart de l'endroit du déversement/de la fuite et en amont du vent. Porter un équipement et des vêtements de protection appropriés durant le nettoyage. Ne pas toucher les récipients endommagés ou le produit déversé à moins de porter des vêtements de protection appropriés. S'assurer une ventilation adéquate. Prévenir les autorités locales si des fuites significatives ne peuvent pas être contenues. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Ce produit est classé comme un polluant de l'eau en vertu de la Loi sur la qualité de l'eau (Clean Water Act) et ne doit pas contaminer les sols ni pénétrer dans les systèmes d'égouts et d'évacuation qui se déversent dans les cours d'eau. Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l'élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Éviter tout contact avec les yeux. Éviter une exposition prolongée. Assurer une ventilation efficace. Porter un équipement de protection individuelle approprié. Observer de bonnes pratiques d'hygiène industrielle.

Conditions de sûreté en matière de stockage, y compris les incompatibilités Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l'écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l'exposition/protection individuelle

Limites d'exposition professionnelle

Les constituants suivants sont les seuls constituants du produit qui possèdent une valeur PEL ou TLV ou autre limite d'exposition recommandée. À ce moment-ci, les autres constituants ne possèdent pas de limites d'exposition connues.

États-Unis - TABLEAU Z-3 (29 CFR 1910.1000) de l'OSHA

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	TWA	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.
		50 mppcf	Poussières totales.
		15 mppcf	Fraction respirable.

ÉTATS-UNIS. OSHA Tableau Z-1 Limites de contaminants aériens (29 CFR 1910.1000)

Composants	Type	Valeur	Forme
GLYCÉRINE (CAS 56-81-5)	PEL (limite d'exposition admissible)	5 mg/m3	Fraction respirable.
		15 mg/m3	Poussières totales.

ÉTATS-UNIS. Valeurs limites d'exposition de l'ACGIH

Composants	Type	Valeur	Forme
STÉARATE DE GLYCÉRYLE (CAS 31566-31-1)	TWA	3 mg/m3	Fraction respirable.
		10 mg/m3	Fraction inhalable.

Valeurs biologiques limites Aucune limite d'exposition biologique observée pour les ingrédients.

Contrôles d'ingénierie appropriés Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau

Protection des mains Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques

Autre Pour usage industriel seulement. Porter des gants appropriés résistants aux produits chimiques

Protection respiratoire Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.

Dangers thermiques Porter des vêtements de protection thermique appropriés, au besoin.

Considérations d'hygiène générale Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence

État physique Liquide.

Forme Crème.

Couleur Nuancé

Odeur Caractéristique.

Seuil olfactif Non disponible.

pH 3 - 4.5

Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 100.0 °C (> 212.0 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	0.98 - 0.999 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.
Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	Toute inhalation prolongée peut être nocive.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Provoque une sévère irritation des yeux.
Ingestion	Faible danger présumé en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Irritation oculaire grave. Les symptômes peuvent inclure un picotement, un larmoiement, une rougeur, un gonflement et une vision trouble.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Mutagénicité

GLYCÉRINE	Résultat: Des essais in vitro et in vivo n'ont pas montré d'effets mutagènes.
STEARALKONIUM CHLORIDE	Résultat: Les tests in vitro n'ont pas montré d'effets mutagènes

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Effets sur le développement

GLYCÉRINE	1310 mg/kg bw/d, Pas d'effets sur le développement Résultat: DSENO Espèces: Rat

Reproductivité

GLYCÉRINE	2000 mg/kg bw/d, Pas d'effets sur la fertilité Résultat: DSENO Espèces: Rat

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

GLYCÉRINE	8000 mg/kg bw/d, Orale Résultat: DSENO Espèces: Rat Durée du test: 2 yr

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

GLYCÉRINE	-1.76
STEARALKONIUM CHLORIDE	3.23

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé. Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/internationale.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT SEMI-PERMANENT COLOR - GROUP 10
Synonyms	None.
SDS number	00-22-0000164
Issue date	11-30-2020
Version number	02
Revision date	03-09-2022
Supersedes date	11-30-2020

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.
Environmental hazards		
Hazardous to the aquatic environment, long-term aquatic hazard	Category 3	H412 - Harmful to aquatic life with long lasting effects.

Hazard summary Causes serious eye irritation. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects. This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: STEARALKONIUM CHLORIDE

Hazard pictograms

Signal word Warning

Hazard statements

H319 Causes serious eye irritation.

H412	Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.
P264	Wash thoroughly after handling.
P273	Avoid release to the environment.
P280	Wear eye protection/face protection.

Response

P101	If medical advice is needed, have product container or label at hand.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Store away from incompatible materials.

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information 1,02% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. EUH208 - Contains BASIC ORANGE 31. May produce an allergic reaction.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
4.2. Most important symptoms and effects, both acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
4.3. Indication of any immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards	No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Prevent product from entering drains. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Belgium. Exposure Limit Values.

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	10 mg/m3	

France. Threshold Limit Values (VLEP) for Occupational Exposure to Chemicals in France, INRS ED 984

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	VME	10 mg/m3	Aerosol.

Regulatory status: Indicative limit (VL)

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	200 mg/m3	Inhalable fraction.

Germany. TRGS 900, Limit Values in the Ambient Air at the Workplace

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	AGW	200 mg/m3	Inhalable fraction.

Italy. Occupational Exposure Limits

Components	Type	Value	Form
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	3 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.

Ordinance of the Minister of Labour and Social Policy on 6 June 2014 on the maximum permissible concentrations and intensities of harmful health factors in the work environment, Journal of Laws 2014, item 817

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Inhalable fraction.
PROPYLENE GLYCOL (CAS 57-55-6)	TWA	100 mg/m3	Inhalable fraction and vapor.

Spain. Occupational Exposure Limits

Components	Type	Value	Form
GLYCERIN (CAS 56-81-5)	TWA	10 mg/m3	Mist.
GLYCERYL STEARATE (CAS 31566-31-1)	TWA	10 mg/m3	

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only. Wear suitable protective clothing.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Environmental exposure controls	Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Cream.
Color	Shaded
Odor	Characteristic.
Odor threshold	Not available.
pH	3 - 4,5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 212,0 °F (> 100,0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

9.2. Other information

Density	0,98 - 0,999 g/cm³

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of exposure	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.

Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

11.1. Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results

HC BLUE NO. 15	Result: Not Readily Biodegradable
STEARALKONIUM CHLORIDE	64 % OECD 301 D Result: Readily Biodegradable Test Duration: 28 d

12.3. Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

BASIC ORANGE 31	-2,13 OECD 107
BASIC RED 51	-1,97 OECD 107
BASIC YELLOW 87	-1,69
HC BLUE NO. 15	3,47 OECD 117
STEARALKONIUM CHLORIDE	3,23

12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

12.7. Additional information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number UN3082

14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (STEARALKONIUM CHLORIDE)
14.3. Transport hazard class(es)	
Class	9
Label(s)	9
Hazard No. (ADR)	90
Tunnel restriction code	E
14.4. Packing group	III
14.5. Environmental hazards	Yes
14.6. Special precautions for user	Not available.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number	UN3082
14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (STEARALKONIUM CHLORIDE)
14.3. Transport hazard class(es)	
Class	9
14.4. Packing group	III
14.5. Environmental hazards	Yes
ERG Code	9L
14.6. Special precautions for user	Not available.
Other information	
Passenger and cargo aircraft	Allowed with restrictions.
Cargo aircraft only	Allowed with restrictions.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. UN number	UN3082
14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (STEARALKONIUM CHLORIDE), MARINE POLLUTANT
14.3. Transport hazard class(es)	
Class	9
14.4. Packing group	III
14.5. Environmental hazards	
Marine pollutant	Yes
EmS	F-A, S-F
14.6. Special precautions for user	Not available.
14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not established.
General information	IMDG Regulated Marine Pollutant. Packagings containing a net quantity per single package or inner packaging of 5L or less are not subject transportation restrictions except for general packing provisions.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

DIDECYLDIMONIUM CHLORIDE (CAS 7173-51-5)

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

STEARALKONIUM CHLORIDE (CAS 122-19-0)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

STEARALKONIUM CHLORIDE (CAS 122-19-0)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H301 Toxic if swallowed. H302 Harmful if swallowed. H311 Toxic in contact with skin. H314 Causes severe skin burns and eye damage. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H319 Causes serious eye irritation. H373 May cause damage to organs through prolonged or repeated exposure. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxic to aquatic life with long lasting effects.
Revision information	Product and Company Identification: Product and Company Identification - L'Oreal Composition / Information on Ingredients: Ingredients SECTION 4: First aid measures: Skin contact SECTION 7: Handling and storage: 7,2. Conditions for safe storage, including any incompatibilities SECTION 8: Exposure controls/personal protection: Eye/face protection SECTION 8: Exposure controls/personal protection: - Hand protection SECTION 10: Stability and reactivity: 10,4. Conditions to avoid SECTION 16: Other information: Disclaimer
Training information	Follow training instructions when handling this material.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

化学品安全技术说明书

按照 GB/T 16483、GB/T 17519编制。

产品名称： PULP RIOT SEMI-PERMANENT COLOR - 组 10

最初编制日期：09-三月-2022
版本号：01
SDS 编号：00-22-0000164

第1部分 化学品及企业标识

化学品中文名 PULP RIOT SEMI-PERMANENT COLOR - 组 10

化学品英文名 PULP RIOT SEMI-PERMANENT COLOR - GROUP 10

生产商

企业名称 L’ ORÉAL SA

地址 14, rue royale
75008 - Paris
法国

联系电话 +1 732 499 2745

电子邮件 nacorpeuropesdsrequest@loreal.com

应急电话 +1 352 323-3500

推荐用途及限制用途

推荐用途 个人美容护理产品.

最初编制日期 09-三月-2022

SDS 编号 00-22-0000164

第2部分 危险性概述

紧急情况概述

造成严重眼刺激。 若被排入水道中，会危害环境。 这是一款消费者护理产品，按照标籤说明使用是安全的。 和许多消费品类似，长期或重复接触皮肤或进入眼中，少数人会产生发红、皮疹和 / 或肿胀等不良反应。

危险类别

物理危险	未被分类。	
健康危害	严重眼睛损伤/眼睛刺激性	类别 2A
环境危害	对水环境危害-急性危害	类别 2
	对水环境危害-长期危害	类别 3

标签要素

象形图

警示词 警告

危险性说明

H319	造成严重眼刺激。
H401	对水生生物有毒。
H412	对水生生物有害并具有长期持续影响。

防范说明

预防措施

P102	放在儿童无法触及之处。
P103	使用前请阅读标签。
P264	作业后彻底清洗。
P273	避免释放到环境中。
P280	戴防护眼罩/防护面具。

事故响应

P101	如需就医，请随身携带产品容器或标签。
P305 + P351 + P338	如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。
P337 + P313	如仍觉眼刺激：求医/就诊。

安全储存 远离禁忌物保存。

废弃处置

P501 按照地方/区域/国家/国际规章处置内装物/容器。

物理和化学危险 产品在正常的使用、储存和运输条件下是稳定的和非活性的。 无异常的火灾或爆炸危险。

健康危害 持续的吸入可能是有害的。 预计较低的食入危害。 造成严重眼刺激。

环境危害 对水生生物有毒。 对水生生物有害并具有长期持续影响。

补充信息 混合物的1.02%由对水生环境的急性危害未知的组分组成。

第3部分 成分/组成信息

物质/混合物 混合物

化学名称	浓度（%）	CAS 号
STEARALKONIUM CHLORIDE	1.41	122-19-0
硬脂酸甘油酯 GLYCERYL STEARATE	1.02	31566-31-1
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	0.74	65497-29-2
BASIC RED 51	≤ 0.4	77061-58-6
HC BLUE NO. 15	< 0.2	74578-10-2
BASIC YELLOW 87	≤ 0.2	68259-00-7
BASIC ORANGE 31	≤ 0.1	97404-02-9
DIDECYLDIMONIUM CHLORIDE	0.01	7173-51-5

第4部分 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 立刻用大量的水冲洗眼睛至少15分钟。 如果可能性的话，移除隐形眼镜。 继续冲洗。 如仍觉眼刺激：求医/就诊。

经口 漱口。 如症状出现，就医。

最重要的症状和健康影响 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

对施救者的个体防护 务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

对医生的特别提示 提供一般支持措施，并根据症状进行治疗。 观察患者。 症状可能会延后发生。

第5部分 消防措施

灭火剂 水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。

不合适的灭火剂 禁止使用直流水灭火，否则会引起火势蔓延。

特别危险性 燃烧时，会产生对人体健康有害的气体。

特殊消防程序 在不会发生危险的情况下将容器撤离火灾现场。

对消防人员的防护 发生火灾时，使用自给式呼吸设备并穿全身防护服。

一般火灾危险 无异常的火灾或爆炸危险。

特定的方法 采用标准灭火程序并考虑其他涉及材料有关的危险。

第6部分 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序

非应急处理人员 让无关人员离开。 使人员远离泄漏/释放区域并且位于上风方向。 清洁时，戴合适防护设备和衣物。 严禁接触损坏的容器或泄漏物，除非穿戴适当的防护服。 确保充分的通风。 如果显著量的溢出物不能被控制住，应通报地方当局。 有关个人防护，参见SDS第8部分。

应急人员 让无关人员离开。 使用SDS第8部分中推荐的个人防护。

环境保护措施 避免释放到环境中。 通知相应的管理和主管人员所有发生的环境泄漏。 在确保安全的条件下，采取措施防止进一步的泄漏或溢出。 防止排入到排水系统、河道或排放到地面上。

泄漏化学品的收容、清除方法 防止产品进入下水道。

大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。

小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。

千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。

防止发生次生灾害的预防措施 无资料。

第7部分 操作处置与储存

操作处置 避免接触到眼睛。 避免长期暴露。 提供足够通风。 穿戴合适的个人防护设备。 避免释放到环境中。 遵守良好工业卫生习惯。

安全储存 储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

第8部分 接触控制/个体防护

接触限值

没有对各成分的接触限值的说明。

生物限值 没有该成分的生物接触限值。

监测方法 依照标准监控程序。

工程控制措施 应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。 提供洗眼设施。

个体防护装备

呼吸系统防护 仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。

手防护 仅用於工业环境。 佩戴适当的抗化学手套。

眼睛防护 仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。

皮肤和身体防护 仅用於工业环境。 需穿上合适的防护衣服。

卫生措施 始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

第9部分 理化特性

外观

性状 液体。

形状 奶油。

颜色 有色

气味 特征的。

pH 值 3 - 4.5

熔点/凝固点 无资料。

沸点，初沸点和沸程 > 100 ° C (> 212 ° F)

闪点 > 100.0 ° C (> 212.0 ° F) 闭杯闪点测定法

燃烧限值 - 下限（%） 无资料。

燃烧限值 - 上限 (%) 无资料。

爆炸限值 - 下限（%） 无资料。

爆炸限值 - 上限（%） 无资料。

蒸气压 无资料。

蒸气密度 无资料。

相对密度 无资料。

密度 0.98 - 0.999 g/cm³

溶解性

溶解性（水） 无资料。

分配系数（辛醇/水） 无资料。

自燃温度 无资料。

分解温度 无资料。

易燃性（固体，气体） 不适用。

其他数据

爆炸特性 不具有爆炸性。

氧化特性 没有氧化性。

第10部分 稳定性和反应性

反应性 产品在正常的使用、储存和运输条件下是稳定的和非活性的。

稳定性 正常条件下物料稳定。

可能的危险反应 正常使用的条件下未见有危险反应。

避免接触的条件 远离热，热表面，火花，明火和其他点火源。 接触禁配物。

禁配物 强氧化剂。

危险的分解产物 没有已知的危险分解产物。

第11部分 毒理学信息

急性毒性 未知。

产品	物种	试验结果
PULP RIOT SEMI-PERMANENT COLOR - 组 10		
急性的		
经口		
ATEmix		28270 mg/kg
经皮肤		
ATEmix		19250 mg/kg

组分	物种	试验结果
BASIC ORANGE 31 (CAS 97404-02-9)		
急性的		
经口		
LD50	大鼠	1000 - 2000 mg/kg OECD 420
经皮肤		
LD50	大鼠	> 2000 mg/kg OECD 402
BASIC RED 51 (CAS 77061-58-6)		
急性的		
经口		
LD50	大鼠	> 1000 mg/kg
经皮肤		
LD50	大鼠	> 2000 mg/kg OECD 402

急性的		
经口		
LD50	大鼠	> 10000 mg/kg
STEARALKONIUM CHLORIDE (CAS 122-19-0)		
急性的		
经口		
LD50	大鼠	397.5 mg/kg OECD 401
经皮肤		
LD50	大鼠	704 mg/kg
硬脂酸甘油酯 (CAS 31566-31-1)		
急性的		
经口		
LD50	大鼠	> 5000 mg/kg
经皮肤		
LD50	大鼠	> 2000 mg/kg, 24 小时

接触途径 吸入。 眼睛接触。

症状 严重的眼睛刺激. 症状可能包括刺痛、流泪、充血、肿胀和视力模糊。

皮肤腐蚀/刺激 预计没有因皮肤接触导致的任何有害影响。

刺激性腐蚀性 - 皮肤

BASIC YELLOW 87	EPA OPPTS 870.2500 结果: Not Irriating 物种: 兔子
DIDECYLDIMONIUM CHLORIDE	OECD 404 结果: 腐蚀性的 物种: 兔子
HC BLUE NO. 15	OECD 404 结果: 轻微刺激性 物种: 兔子
BASIC RED 51	OECD 404 结果: 非刺激性 物种: 兔子
BASIC ORANGE 31	OECD 439 结果: 非刺激性 物种: RhE
STEARALKONIUM CHLORIDE	OECD 439 结果: 非刺激性 物种: RhE
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	结果: 轻微刺激性 物种: 兔子

严重眼睛损伤/眼睛刺激性 造成严重眼刺激。

刺激性腐蚀性 - 眼睛

BASIC RED 51	OECD 405 结果: 刺激性的 物种: 大鼠
HC BLUE NO. 15	OECD 405 结果: 腐蚀性的 物种: 兔子
BASIC YELLOW 87	OECD 405 结果: 轻微刺激性 物种: 兔子
BASIC ORANGE 31	OECD 437 结果: 腐蚀性的 物种: BCOP
STEARALKONIUM CHLORIDE	OECD 492 结果: 可能具刺激性 物种: RhCE
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	结果: 轻微刺激性 物种: 兔子

呼吸道或皮肤过敏

呼吸过敏性 不是呼吸道致敏物。

皮肤过敏性 此产品将不会引起皮肤敏感。

皮肤致敏物

STEARALKONIUM CHLORIDE	EU B.6 结果: Not Sensitizing 物种: 豚鼠
BASIC RED 51	OECD 406 结果: Not Sensitizing 物种: 豚鼠
BASIC YELLOW 87	OECD 406 结果: Not Sensitizing 物种: 豚鼠
DIDECYLDIMONIUM CHLORIDE	OECD 406 结果: Not Sensitizing 物种: 豚鼠
HC BLUE NO. 15	OECD 429 结果: Not Sensitizing 物种: 小鼠
BASIC ORANGE 31	OECD 429 结果: 致敏 物种: 小鼠
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	结果: Not Sensitizing 物种: 豚鼠

生殖细胞突变性 无数据表明本产品或其含量超过0.1%的任何组分具有致变性或基因毒性。

突变性

HC BLUE NO. 15	结果：体外和体内试验均未见致突变作用。
GUAR HYDROXYPROPYLTRIMONIUM CHLORIDE	结果：离体试验未见诱变效应
STEARALKONIUM CHLORIDE	结果：离体试验未见诱变效应
BASIC ORANGE 31	结果：离体试验表明有在活体试验中未观察到的诱变效应。
BASIC RED 51	结果：离体试验表明有在活体试验中未观察到的诱变效应。
BASIC YELLOW 87	结果：离体试验表明有在活体试验中未观察到的诱变效应。

突变性类别

DIDECYLDIMONIUM CHLORIDE	结果：离体试验未见诱变效应

致癌性 尚不能确定对人有致癌作用。

生殖毒性 这种产品预期不会导致生殖或发育效应。

发育效应

DIDECYLDIMONIUM CHLORIDE	12 mg/kg bw/d OECD 414 物种：大鼠
BASIC RED 51	180 mg/kg bw/d OECD 414 结果：无可观察到的效应剂量（NOEL） 物种：大鼠
HC BLUE NO. 15	30 mg/kg bw/d OECD 414 结果：NOAEL（未观察到有害效果的水平） 物种：兔子
BASIC YELLOW 87	60 mg/kg bw/d OECD 414 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠
BASIC ORANGE 31	60 mg/kg bw/d 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠

生殖能力

DIDECYLDIMONIUM CHLORIDE	1500 ppm OECD 416 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠

特异性靶器官系统毒性--一次接触 未被分类。

特异性靶器官系统毒性-反复接触 未被分类。

BASIC RED 51	10 mg/kg bw/d OECD 408 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠 测试时间：90 D
HC BLUE NO. 15	15 mg/kg bw/d OECD 408 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠 测试时间：90 D
DIDECYLDIMONIUM CHLORIDE	46 mg/kg bw/d OECD 408 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠 测试时间：93 D
BASIC YELLOW 87	6.76 mg/kg bw/d OECD 408, 经口 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠 测试时间：90 D
BASIC ORANGE 31	60 mg/kg bw/d OECD 408, 经口 结果：NOAEL（未观察到有害效果的水平） 物种：大鼠 测试时间：90 D

吸入危害 非吸入危险。

慢性影响 无资料。

其他信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

第12部分 生态学信息

生态毒理学数据

BASIC YELLOW 87	-1.69
HC BLUE NO. 15	3.47 OECD 117
STEARALKONIUM CHLORIDE	3.23

土壤中的迁移性 本产品无数据。

其它有害效应 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

第13部分 废弃处置

残余废弃物 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

地方处置法规 回收再生或装在密封的容器中送至专门的废弃物处理场处理。 禁止物料排放到排水沟/供水系统。不得用化学品或使用过的容器去污染水池、水道和沟渠。 按照地方/区域/国家/国际规章处置内装物/容器。

Encino, CA 91436
USA

Emergency Phone # : 1-800-535-5053 (International: 352-323-3500)

For further Information: 1-732-499-2741

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed Not available.

Indication of immediate medical attention and special treatment needed	Treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling	Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection	Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).
Skin protection	
Hand protection	Applicable for industrial settings only. Wear appropriate chemical resistant gloves.
Other	Applicable for industrial settings only.
Respiratory protection	Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state	Liquid.
Color	Not available.
Odor	Characteristic.
Odor threshold	Not available.
pH	4.2 - 5.2
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flash point	> 199.4 °F (> 93.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	>= 0.97 g/cm³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity Not known.

Product	Species	Test Results
PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT		
Acute		
Dermal		
ATEmix		392200 mg/kg
Oral		
ATEmix		130500 mg/kg

Skin corrosion/irritation No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation No adverse effects due to eye contact are expected.

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

Skin sensitization This product is not expected to cause skin sensitization.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure Not classified.

Specific target organ toxicity - repeated exposure Not classified.

Aspiration hazard Not an aspiration hazard.

Further information The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

12. Ecological information

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

Bioaccumulative potential

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations Dispose in accordance with all applicable regulations.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

Issue date 07-09-2023

Version # 01

NFPA ratings Health: 0
Flammability: 1
Instability: 0

Disclaimer The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

PULPRIOT

FICHES DE DONNÉES DE SÉCURITÉ

1. Identification

Identificateur de produit **PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT**

Autres moyens d'identification

Numéro de la FDS 00-19-0000533

Usage recommandé Produits de soins personnels destinés à un usage cosmétique.

Restrictions d'utilisation Aucun(e) connu(e).

Renseignements sur le fabricant/importateur/fournisseur/distributeur

Adresse: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
États-Unis

 # de telephone d'urgence 1-800-535-5053 (International: 352-323-3500)

Pour de l'information supplémentaire: 1-732-499-2741

2. Identification des dangers

Dangers physiques Non classé.

Dangers pour la santé Non classé.

Définition des dangers selon l'OSHA Non classé.

Éléments d'étiquetage

Symbole de danger Aucune.

Mention d'avertissement Aucune.

Mention de danger Le mélange ne satisfait pas les critères de classification.

Conseil de prudence

Prévention Observer de bonnes pratiques d'hygiène industrielle.

Intervention Se laver les mains après utilisation.

Stockage Conserver à l'écart de matières incompatibles.

Élimination Éliminer les rejets et les déchets conformément aux règlements municipaux.

Danger(s) non classé(s) ailleurs (DNCA) Aucun(e) connu(e).

Information supplémentaire Aucune.

3. Composition/information sur les ingrédients

Mélanges

Le fabricant ne mentionne aucun ingrédient comme étant dangereux selon la norme 29 CFR 1910.1200 de l'OSHA.

* Indique qu'une dénomination chimique précise ou un pourcentage de composition est retenu comme secret commercial.

4. Premiers soins

Inhalation Transporter à l'extérieur. Appeler un médecin si des symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer avec de l'eau. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin si des symptômes apparaissent.

Symptômes et effets les plus importants, qu'ils soient aigus ou retardés	Non disponible.
Mention de la nécessité d'une prise en charge médicale immédiate ou d'un traitement spécial, si nécessaire	Traiter de manière symptomatique.
Informations générales	S’assurer que le personnel médical est averti du (des) produits(s) en cause et qu’il prend des mesures pour se protéger.

5. Mesures à prendre en cas d’incendie

Agents extincteurs appropriés	Brouillard d'eau. Mousse. Poudre chimique. Dioxyde de carbone (CO2).
Agents extincteurs inappropriés	Ne pas utiliser un jet d'eau comme agent extincteur, car cela propagera l'incendie.
Dangers spécifiques du produit dangereux	Des gaz dangereux pour la santé peuvent se former pendant un incendie.
Équipements de protection spéciaux et précautions spéciales pour les pompiers	Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.
Équipement/directives de lutte contre les incendies	Éloigner les récipients du lieu de l’incendie si cela peut se faire sans risque.
Méthodes particulières d'intervention	Utiliser des procédures standard en cas d’incendie et tenir compte des dangers des autres substances en cause.
Risques d'incendie généraux	Aucun risque inhabituel d’incendie ou d’explosion observé.

6. Mesures à prendre en cas de déversement accidentel

Précautions individuelles, équipements de protection et mesures d’urgence	Tenir à l'écart le personnel non requis. Pour la protection individuelle, voir la section 8 de la FDS.
Méthodes et matériaux pour le confinement et le nettoyage	Déversements importants : Arrêter l'écoulement de la substance, si cela peut se faire sans risque. Endiguer le matériau déversé, lorsque cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements peu importants : Essuyer avec une matière absorbante (par ex., tissu, lainage). Nettoyer la surface à fond pour éliminer la contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation. Pour l’élimination des déchets, voir la section 13 de la FDS.
Précautions relatives à l'environnement	Éviter le rejet dans les égouts, les cours d'eau ou sur le sol.

7. Manutention et stockage

Précautions relatives à la sûreté en matière de manutention	Observer de bonnes pratiques d'hygiène industrielle.
Conditions de sûreté en matière de stockage, y compris les incompatibilités	Stocker dans des récipients bien fermés. Tenir hors de la portée des enfants. Entreposer à l’écart des substances incompatibles (consulter la section 10 de la FDS).

8. Contrôle de l’exposition/protection individuelle

Valeurs biologiques limites	Aucune limite d’exposition biologique observée pour les ingrédients.
Contrôles d'ingénierie appropriés	Il faut utiliser une bonne ventilation générale. Les débits de ventilation doivent être adaptés aux conditions. S'il y a lieu, utiliser des enceintes d'isolement, une ventilation locale ou d'autres mesures d'ingénierie pour maintenir les concentrations atmosphériques sous les limites d'exposition recommandées. Si des limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Protection du visage/des yeux	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux (ou des lunettes à coques).

Protection de la peau	
Protection des mains	Pour usage industriel seulement. Porte des vêtements appropriés résistants aux produits chimiques
Autre	Pour usage industriel seulement.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Dangers thermiques	Porter des vêtements de protection thermique appropriés, au besoin.
Considérations d'hygiène générale	Toujours adopter de bonnes pratiques d'hygiène personnelle, comme se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Laver régulièrement les vêtements de travail et l'équipement de protection pour éliminer les contaminants

9. Propriétés physiques et chimiques

Apparence	
État physique	Liquide.
Couleur	Non disponible.
Odeur	Caractéristique.
Seuil olfactif	Non disponible.
pH	4.2 - 5.2
Point de fusion et point de congélation	Non disponible.
Point initial d'ébullition et domaine d'ébullition	> 100 °C (> 212 °F)
Point d'éclair	> 93.0 °C (> 199.4 °F) Coupelle fermée
Taux d'évaporation	Non disponible.
Inflammabilité (solides et gaz)	Sans objet.
Limites supérieures et inférieures d'inflammabilité ou d'explosibilité	
Limites d'inflammabilité - inférieure (%)	Non disponible.
Limites d'inflammabilité - supérieure (%)	Non disponible.
Limite d'explosibilité - inférieure (%)	Non disponible.
Limite d'explosibilité - supérieure (%)	Non disponible.
Tension de vapeur	Non disponible.
Densité de vapeur	Non disponible.
Densité relative	Non disponible.
Solubilité	
Solubilité (eau)	Non disponible.
Coefficient de partage n-octanol/eau	Non disponible.
Température d'auto-inflammation	Non disponible.
Température de décomposition	Non disponible.
Viscosité	Non disponible.
Autres informations	
Densité	>= 0.97 g/cm3
Propriétés explosives	Non explosif.
Propriétés comburantes	Non oxydant.

10. Stabilité et réactivité

Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, d'entreposage et de transport.

Stabilité chimique	La substance est stable dans des conditions normales.
Risque de réactions dangereuses	Aucune réaction dangereuse connue dans des conditions normales d'utilisation.
Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Éviter les températures supérieures au point d'éclair. Contact avec des matériaux incompatibles.
Matériaux incompatibles	Agents comburants forts.
Produits de décomposition dangereux	Aucun produit dangereux de décomposition n'est connu.

11. Données toxicologiques

Renseignements sur les voies d'exposition probables

Inhalation	On ne s'attend à aucun effet néfaste en cas d'inhalation.
Contact avec la peau	On ne s'attend à aucun effet néfaste en cas de contact avec la peau.
Contact avec les yeux	Aucun effet indésirable dû au contact des yeux n'est prévu.
Ingestion	Faible danger présumé en cas d'ingestion.

Les symptômes correspondant aux caractéristiques physiques, chimiques et toxicologiques Non disponible.

Renseignements sur les effets toxicologiques

Toxicité aiguë Inconnu(e).

Produit	Espèces	Résultats d'épreuves
PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT		
Aiguë		
Cutané		
ATEmix		392200 mg/kg
Orale		
ATEmix		130500 mg/kg

Corrosion cutanée/irritation cutanée On ne s'attend à aucun effet néfaste en cas de contact avec la peau.

Lésions oculaires graves/irritation oculaire Aucun effet indésirable dû au contact des yeux n'est prévu.

Sensibilisation respiratoire ou cutanée

Sensibilisation respiratoire	Pas un sensibilisant respiratoire.
Sensibilisation cutanée	On ne s'attend pas à ce que ce produit provoque une sensibilisation cutanée.

Mutagénicité sur les cellules germinales Il n'existe pas de données qui indiquent que ce produit, ou tout composant présent à des taux de plus de 0,1 %, soit mutagène ou génétoxique.

Cancérogénicité Inclassable quant à sa cancérogénicité pour l'homme.

Monographies du CIRC. Évaluation globale de la cancérogénicité

Non inscrit.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

États-Unis. Rapport du NTP (National Toxicilogy Program) sur les cancérogènes

Non inscrit.

Toxicité pour la reproduction On ne s'attend pas à ce que ce produit présente des effets sur la reproduction ou le développement.

Toxicité pour certains organes cibles - exposition unique Non classé.

Toxicité pour certains organes cibles - expositions répétées Non classé.

Danger par aspiration Pas un danger par aspiration.

Autres informations La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

12. Données écologiques

Écotoxicité Le produit n'est pas classé comme dangereux pour l'environnement. Toutefois, ceci n'exclut pas la possibilité que des déversements importants ou fréquents puissent avoir un effet nocif ou nuisible sur l'environnement.

Persistance et dégradation

Potentiel de bioaccumulation

Mobilité dans le sol Aucune donnée disponible.

Autres effets nocifs On ne s'attend pas à ce que ce composant ait des effets néfastes sur l'environnement (par ex., appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement de la planète).

13. Données sur l'élimination

Instructions pour l'élimination Recueillir et réutiliser ou éliminer dans des récipients scellés dans un site d'élimination des déchets autorisé.

Règlements locaux d'élimination Détruire conformément àtoutes les réglementations applicables.

Déchets des résidus / produits non utilisés Éliminer conformément à la réglementation locale. Les récipients ou pochettes vides peuvent conserver certains résidus de produit. Éliminer ce produit et son récipient d'une manière sûre (voir : instructions d'élimination).

Emballages contaminés Comme les récipients vides peuvent contenir un résidu du produit, suivre les avertissements de l'étiquette, même une fois le récipient vide. Les contenants vides doivent être acheminés vers une installation certifiée de traitement des déchets en vue de leur élimination ou recyclage.

14. Informations relatives au transport

15. Informations sur la réglementation

Réglementations Fédérales des Etats-Unis Ce produit n'est pas connu comme un « produit chimique dangereux » tel que défini dans la norme sur la communication des renseignements à l'égard des matières dangereuses d'OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA) (Loi réglementant les substances toxiques)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) (Préavis d'exportation)

Non réglementé.

CERCLA Hazardous Substance List (40 CFR 302.4) (Liste des substances dangereuses):

Non inscrit.

SARA 304 - Notification d'urgence en cas de rejet

Non réglementé.

Substances spécialement réglementées par l'OSHA (29 CFR 1910.1001-1052)

Non réglementé.

Superfund Amendments and Reauthorization Act de 1986 (SARA)

SARA 302 Substance très dangereuse

Non inscrit.

SARA 311/312 Produit chimique dangereux No (Exempt)

SARA 313 (déclaration au TRI)

Non réglementé.

Autres règlements fédéraux

Loi sur la qualité de l'air (CAA), section 112, Liste des polluants atmosphériques dangereux (HAP)

Non réglementé.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) (Loi sur l'assainissement de l'air, Prévention des rejets accidentels)

Non réglementé.

Safe Drinking Water Act (SDWA - loi sur l'eau potable sûre) Non réglementé.

地址: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
美国

紧急联系电话号码: 1-800-535-5053 (International: 352-323-3500)

需要了解更多信息: 1-732-499-2741

2. 危险标识

物理危险 未被分类。

健康危害 未被分类。

职业安全与健康管理局 (OSHA)定义的危险 未被分类。

标签要素

危险符号 无。

警示词 无。

危险性说明 混合物不符合分类的标准。

防范说明

预防措施 遵守良好工业卫生习惯。

事故响应 操作后洗手。

安全储存 远离禁忌物保存。

废弃处置 根据当地管理部门的要求对废弃物和残余物进行处理。

未经其他分类的有害物（HNOC） 未知。

补充信息 无。

3. 成分/组成信息

混合物

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*表示一个特定的化学特性和/或组成百分数已被当作商业秘密而不予披露。

4. 急救措施

吸入 移至空气新鲜处。 如果症状持续或恶化，联络医生。

皮肤接触 用肥皂和水冲洗。 如果刺激症状持续或加重，应就医。

眼睛接触 用水冲洗。 如果刺激症状持续或加重，应就医。

经口 漱口。 如症状出现，就医。

最重要的症状/影响，急性和延迟性 无资料。

指明任何需要立即就医或特殊治疗的情况 根据症状处理。

一般信息	务必让医务人员知道所涉及的物质，并采取防护措施以保护他们自己。

5. 消防措施

合适的灭火剂	水雾。 泡沫。 化学干粉。 二氧化碳 (CO2)。
不当的灭火介质	禁止使用直流水灭火，否则会引起火势蔓延。
由此化学品引发的特殊的危害	燃烧时，会产生对人体健康有害的气体。
特殊保护性装备以及消防员的预防措施	发生火灾时，使用自给式呼吸设备并穿全身防护服。
消防设备/使用说明	在不会发生危险的情况下将容器撤离火灾现场。
特定的方法	采用标准灭火程序并考虑其他涉及材料有关的危险。
一般火灾危险	无异常的火灾或爆炸危险。

6. 泄漏应急处理

作业人员防护措施、防护装备和应急处置程序	让无关人员离开。 有关个人防护，参见SDS第8部分。
抑制和清除溢出物的方法和材料	大量泄漏： 如果没有风险，阻止物质流动。 如果有可能，控制住泄漏物。 用蛭石、干沙或干土吸收后装在容器中。 产品回收后，用水冲洗泄漏区。 小量泄漏： 用吸附性材料（如布、毛绒）擦去。 彻底清理表面以去除残留污染物。 千万不要将溢出物回收到原来的容器中去再使用. 参见SDS第13部分废弃处理的说明。
环境保护措施	防止排入到排水系统、河道或排放到地面上。

7. 操作处置与储存

安全操作的注意事项	遵守良好工业卫生习惯。
安全储存条件，包括任何禁配物	储存在密闭的容器中。 避免儿童触及。 储存远离不相容材料（参见SDS第10部分）。

8. 接触控制/个体防护

生物限值	没有该成分的生物接触限值。
适当的技术控制	应采用良好的全面通风。通风速率应与具体条件匹配。如可行，采用过程封闭、局部通风，或其他工程控制措施以保持空气中浓度水平低于推荐的接触限值。如未建立接触限值，维持空气中浓度水平到可接受的水平。
个人防护措施，如个人防护设备	
眼/面保护	仅用於工业环境。 戴有侧护罩的安全眼镜（或护目镜）。
皮肤防护	
手防护	仅用於工业环境。 佩戴适当的抗化学手套。
其它的，其它	仅用於工业环境。
呼吸系统防护	仅用於工业环境。 为了预防通风不足，需配备合适的助呼吸装置。
热危害	必要时，穿戴适当的热防护服。
一般的卫生考虑	始终保持良好的卫生习惯，例如处理过该物质之后，在饮食、喝水和/或吸烟之前洗手。定期洗涤工作服和防护设备，以除去污染物。

9. 理化特性

外观	
性状	液体。
颜色	无资料。
气味	特征的。
气味阈值	无资料。
pH 值	4.2 - 5.2
熔点/凝固点	无资料。
初始沸点和沸程	> 100 ° C (> 212 ° F)
闪点	> 93.0 ° C (> 199.4 ° F) 闭杯闪点测定法
蒸发速率	无资料。
易燃性（固体，气体）	不适用。
燃烧上/下限或爆炸极限	
燃烧限值 - 下限（%）	无资料。

燃烧限值 - 上限 (%)	无资料。
爆炸限值 - 下限（%）	无资料。
爆炸限值 - 上限（%）	无资料。
蒸气压	无资料。
蒸气密度	无资料。
相对密度	无资料。
溶解性	
溶解性（水）	无资料。
分配系数（辛醇/水）	无资料。
自燃温度	无资料。
分解温度	无资料。
黏度	无资料。
其他信息	
密度	>= 0.97 g/cm³
爆炸特性	不具有爆炸性。
氧化特性	没有氧化性。

10. 稳定性和反应性

反应性	产品在正常的使用、储存和运输条件下是稳定的和非活性的。
化学稳定性	正常条件下物料稳定。
可能的危险反应	正常使用的条件下未见有危险反应。
避免接触的条件	远离热，热表面，火花，明火和其他点火源。 避免温度超過閃火點温度。 接触禁配物。
禁配物	强氧化剂。
危险的分解产物	没有已知的危险分解产物。

11. 毒理学信息

可能的接触途径信息

吸入	预期吸入无有害影响。
皮肤接触	预计没有因皮肤接触导致的任何有害影响。
眼睛接触	预计不会因眼神接触而产生不良影响.
经口	预计较低的食入危害。
与物理,化学和毒物学特性有关的症状	无资料。

毒理学效应信息

急性毒性 未知。

产品	**物种**	**试验结果**
PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT		
急性的		
经口		
ATEmix		130500 mg/kg
经皮肤		
ATEmix		392200 mg/kg

皮肤腐蚀/刺激	预计没有因皮肤接触导致的任何有害影响。
严重眼睛损伤/眼睛刺激性	预计不会因眼神接触而产生不良影响.
呼吸道或皮肤过敏	
呼吸过敏性	不是呼吸道致敏物。
皮肤致敏物	此产品将不会引起皮肤敏感。
生殖细胞突变性	无数据表明本产品或其含量超过0.1%的任何组分具有致变性或基因毒性。
致癌性	尚不能确定对人有致癌作用。

国际癌症研究机构（IARC）专题论文。 致癌性的综合评价

不适用。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

美国国家毒理学计划（NTP）致癌物报告

不适用。

生殖毒性 这种产品预期不会导致生殖或发育效应。

特定目标器官系统毒性－单次接触 未被分类。

特定目标器官系统毒性－重复接触 未被分类。

吸入危害 非吸入危险。

更多信息 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

12. 生态学信息

生态毒性 产品不被分类为环境有害物质。然而，这不排除大量的和经常的泄漏物可能对环境产生有害影响或损害。

持久性和降解性

潜在的生物累积性

土壤中的迁移性 无数据

其它不良影响 本成分对环境无任何其它不利影响（如消耗臭氧层、光化学臭氧形成潜势、内分泌干扰物、全球变暖潜势）。

13. 废弃处置

废弃处置指导 回收再生或装在密封的容器中送至专门的废弃物处理场处理。

地方处置法规 按照所有适用的法规进行处置。

残渣废料/未用掉的产品 按当地规定处理。 空的容器或衬垫可能保留有一些产品的残留物。这些材料及其容器必须以安全的方式废弃处置（参见：废弃指导）。

污染包装物 容器内可能残留产品，所以即使空容器也要注意标签警示。 空容器应送到批准的废物处理场所去再生或处理。

14. 运输信息

美国运输部（DOT）

FINISHED GOODS

不作为危险货物运输

BULK

不作为危险货物运输

国际航空运输协会(IATA)

FINISHED GOODS

不作为危险货物运输

BULK

不作为危险货物运输

国际海运危险货物规则(IMDG)

FINISHED GOODS

不作为危险货物运输

BULK

不作为危险货物运输

15. 法规信息

美国联邦法规 依OSHA 危害通识规则，该产品不是“化学危险物品”。

Toxic Substances Control Act (TSCA)

TSCA第12（b）部分有关出口申报（40 CFR 707，D子项）

未受管制。

CERCLA危险物质清单（40 CFR 302.4）

不适用。

SARA 304 不测事件释放通知

未受管制。

OSHA特别管制的物质（29 CFR 1910.1001-1052）

未受管制。

1986年基金修正再授权法案(SARA)

SARA 302 极危险物质

不适用。

SARA 311/312 有害化学品 No (Exempt)

SARA 313 (TRI 报告)

未受管制。

其他联邦法规

清洁空气法案（CAA）第112条有害空气污染物（HAPs）清单

未受管制。

清洁空气法（CAA）第112(r)条款关于意外泄漏

未受管制。

饮用水安全法（SDWA） 未受管制。

16. 其他信息，包括编制日期或最新修订日期

最初编制日期 09-七月-2023

版本号 01

NFPA分级 健康 0
可燃性 1
不稳定性: 0

免责声明 这份安全数据表中提供的信息被认为是其发布日期时我们所知道的知识、信息和确信是准确的。所给出的信息仅作为安全操作处置、使用、加工、储存、运输、废弃处置和释放的指导，而不是作为担保和质量指标。这些信息只涉及到具体指定的物质，而对这些材料与任何其他材料或任何工艺的结合可能是无效的，除非在文本中有说明。

PULPRIOT

FICHA DE DATOS DE SEGURIDAD

1. Identificación

Identificador del producto **PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT**

Otros medios de identificación

Número de FDS 00-19-0000533

Uso recomendado Producto de cuidado personal para uso cosmético.

Restricciones recomendadas Ninguno conocido.

Información sobre el fabricante/importador/proveedor/distribuidor

Dirección: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
USA

Teléfono de Emergencias 1-800-535-5053 (Internacional: 352-323-3500)

Para más información: 1-732-499-2741

2. Identificación de los peligros

Peligros físicos No clasificado.

Peligros para la salud No clasificado.

Peligros definidos por la OSHA No clasificado.

Elementos de la etiqueta

Símbolo de riesgo Ninguno.

Palabra de advertencia Ninguno.

Declaración de peligro La mezcla no cumple los criterios para su clasificación.

Consejos de prudencia

Prevención Respete las normas para una manipulación correcta de productos químicos.

Respuesta Lávese las manos después del uso.

Almacenamiento Consérvese alejado de materiales incompatibles.

Eliminación Eliminar los desperdicios y residuos de conformidad con la normativa promulgada por las autoridades locales.

Peligro(s) no clasificados en otra parte [Hazard(s) not otherwise classified (HNOC)] Ninguno conocido.

Información complementaria Ninguno.

3. Composición/información sobre los componentes

Mezclas

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*Significa que una identidad química y/o porcentaje de composición específicos han sido reservados como secreto comercial.

4. Primeros auxilios

Inhalación Trasladar al aire libre. Llame al médico si los síntomas aparecen o persisten.

Contacto con la piel Lavar con agua y jabón. Busque atención médica si la irritación se desarrolla y persiste.

Contacto con los ojos Enjuagar con agua. Busque atención médica si la irritación se desarrolla y persiste.

Ingestión Enjuagarse la boca. Obtenga atención médica en caso de síntomas.

Principales síntomas y efectos, agudos y retardados No disponible.

Indicación de toda atención médica y de los tratamientos especiales que deban dispensarse inmediatamente	Tratamiento sintomático.
Información general	Asegúrese de que el personal médico sepa de los materiales involucrados y tomen precauciones para protegerse.

5. Medidas de lucha contra incendios

Medios de extinción apropiados	Neblina de agua. Espuma. Polvo químico seco. Dióxido de carbono (CO2).
Medios de extinción no apropiados	No utilice chorro de agua, pues extendería el fuego.
Peligros específicos que presenta el producto químico	En caso de incendio se pueden formar gases nocivos.
Equipo de protección especial y medidas de precaución para el personal de lucha contra incendios	Use aparato respiratorio autónomo y traje de protección completo en caso de incendio.
Equipo/Instrucciones para la extinción de incendios	Mueva los recipientes del área del incendio si puede hacerlo sin riesgo.
Métodos específicos	Utilice procedimientos contra incendios estándar y considere los peligros de otros materiales involucrados.
Riesgos generales de incendio	Ningún riesgo excepcional de incendio o explosión señalado.

6. Medidas en caso de vertido accidental

Precauciones personales, equipo de protección y procedimientos de emergencia	Mantenga el personal no necesario lejos. Consultar las medidas de protección personal en la sección 8 de la FDS.
Métodos y material de contención y de limpieza	Derrames grandes: Detenga el flujo del material, si esto no representa un riesgo. Forme un dique para el material derramado, donde esto sea posible. Absorber en vermiculita, arena o tierra seca y colocar en recipientes. Después de recuperar el producto, enjuague el área con agua. Derrames pequeños: Limpiar con material absorbente (por ejemplo tela, vellón). Limpie cuidadosamente la superficie para eliminar los restos de contaminación. Nunca devuelva el producto derramado al envase original para reutilizarlo. Consultar la información relativa a eliminación de los residuos en la sección 13 de la FDS.
Precauciones relativas al medio ambiente	No verter los residuos al desagüe, al suelo o las corrientes de agua.

7. Manipulación y almacenamiento

Precauciones para una manipulación segura	Respete las normas para una manipulación correcta de productos químicos.
Condiciones de almacenamiento seguro, incluidas posibles incompatibilidades	Almacenar en un recipiente herméticamente cerrado. Manténgase fuera del alcance de los niños. Almacenar alejado de materiales incompatibles (consultar la sección 10 de la FDS).

8. Control de la exposición/protección personal

Valores límite biológicos	No existen ningunos límites biológicos de exposición para el ingrediente/los ingredientes.
Controles técnicos apropiados	Debe haber una ventilación general adecuada. La frecuencia de la renovación del aire debe corresponder a las condiciones. De ser posible, use campanas extractoras, ventilación aspirada local u otras medidas técnicas para mantener los niveles de exposición por debajo de los límites de exposición recomendados. Si no se han establecido ningunos límites de exposición, el nivel de contaminantes suspendidos en el aire ha de mantenerse a un nivel aceptable.

Medidas de protección individual, tales como equipos de protección personal

Protección de los ojos/la cara	De aplicación solamente en entornos industriales. Use gafas de seguridad con protectores laterales (o goggles).
Protección de la piel	
Protección de las manos	De aplicación solamente en entornos industriales. Use guantes adecuados resistentes a los productos químicos.

Otros	De aplicación solamente en entornos industriales.
Protección respiratoria	De aplicación solamente en entornos industriales. En caso de ventilación insuficiente, úsese equipo respiratorio adecuado.
Peligros térmicos	Use ropa protectora térmica adecuada si resulta necesario.
Consideraciones generales de higiene	Seguir siempre buenas medidas buenas de higiene personal, tales como lavarse después de la manipulación y antes de comer, beber, y/o fumar. Rutinariamente, lavar la ropa y el equipo de protección para eliminar los contaminantes.

9. Propiedades físicas y químicas

Aspecto	
Estado físico	Líquido.
Color	No disponible.
Olor	Característico.
Umbral olfativo	No disponible.
pH	4.2 - 5.2
Punto de fusión/punto de congelación	No disponible.
Punto inicial de ebullición e intervalo de ebullición	> 100 °C (> 212 °F)
Punto de inflamación	> 93.0 °C (> 199.4 °F) Copa Cerrada
Tasa de evaporación	No disponible.
Inflamabilidad (sólido, gas)	No aplicable.
Límites superior/inferior de inflamabilidad o de explosividad	
Límite de inflamabilidad - inferior (%)	No disponible.
Límite de inflamabilidad - superior (%)	No disponible.
Límite de explosividad inferior (%)	No disponible.
Límite de explosividad superior (%)	No disponible.
Presión de vapor	No disponible.
Densidad de vapor	No disponible.
Densidad relativa	No disponible.
Solubilidad(es)	
Solubilidad (agua)	No disponible.
Coeficiente de reparto n-octanol/agua	No disponible.
Temperatura de auto-inflamación	No disponible.
Temperatura de descomposición	No disponible.
Viscosidad	No disponible.
Información adicional	
Densidad	>= 0.97 g/cm³
Propiedades explosivas	No es explosivo.
Propiedades comburentes	No es oxidante.

10. Estabilidad y reactividad

Reactividad	El producto es estable y no reactivo bajo condiciones normales de uso, almacenamiento y transporte.
Estabilidad química	El material es estable bajo condiciones normales.

Posibilidad de reacciones peligrosas	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Condiciones que deben evitarse	Mantener alejado del calor, superficies calientes, chispas, llamas abiertas y otras fuentes de ignición. Evitar temperaturas por encima del punto de flash. Contacto con materiales incompatibles.
Materiales incompatibles	Agentes oxidantes fuertes.
Productos de descomposición peligrosos	No se conoce ningún producto peligroso de la descomposición.

11. Información toxicológica

Información sobre posibles vías de exposición

Inhalación	No es de esperar que se produzcan efectos adversos por inhalación.
Contacto con la piel	No se esperan efectos adversos por contacto con la piel.
Contacto con los ojos	No adverse effects due to eye contact are expected.
Ingestión	Se espera que representa un riesgo reducido de ingestión.
Síntomas relacionados a las características físicas, químicas y toxicológicas	No disponible.

Información sobre los efectos toxicológicos

Toxicidad aguda Desconocido.

Producto	Especies	Resultados de la prueba
PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT		
Agudo		
Dérmico		
ATEmix		392200 mg/kg
Oral		
ATEmix		130500 mg/kg

Corrosión/irritación cutánea	No se esperan efectos adversos por contacto con la piel.
Lesiones oculares graves/irritación ocular	No adverse effects due to eye contact are expected.

Sensibilización respiratoria o cutánea

Sensibilización respiratoria	No es un sensibilizante respiratorio.
Sensibilización cutánea	No se espera que este producto cause sensibilización cutánea.
Mutagenicidad en células germinales	No hay datos disponibles que indiquen que el producto o cualquier compuesto presente en una cantidad superior al 0.1% sea mutagénico o genotóxico.
Carcinogenicidad	No clasificable en cuanto a su carcinogenicidad para los seres humanos.

Monografías IARC. Evaluación general de carcinogenicidad

No listado.

Sustancias específicamente reguladas por la OSHA (29 CFR 1910.1001-1052)

No reglamentado.

US. National Toxicology Program (NTP) Report on Carcinogens

No listado.

Toxicidad para la reproducción	No se espera que este producto tenga efectos adversos para la reproducción o el feto.
Toxicidad específica en determinados órganos – exposición única	No clasificado.
Toxicidad específica en determinados órganos – exposición repetida	No clasificado.
Peligro por aspiración	No constituye ningún peligro por aspiración.
Información adicional	En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al público de terceros.

12. Información ecológica

Ecotoxicidad El producto no está clasificado como peligroso para el medio ambiente. No obstante, eso no excluye la posibilidad de que vertidos grandes o frecuentes puedan tener efectos nocivos o dañinos para el medio ambiente.

Persistencia y degradabilidad

Potencial de bioacumulación

Movilidad en el suelo No hay datos disponibles.

Otros efectos adversos No se prevén otros efectos medioambientales adversos (p.e. agotamiento del ozono, potencial de creación fotoquímica de ozono, disrupción endocrina, potencial de calentamiento global) por parte de este componente.

13. Consideraciones relativas a la eliminación

Instrucciones para la eliminación Recoger y recuperar o botar en recipientes sellados usando un colector de desperdicios oficial.

Normativas de eliminación locales Elimine de acuerdo con todas las reglamentaciones aplicables.

Desechos de residuos / producto no utilizado Eliminar, observando las normas locales en vigor. Los recipientes vacíos o los revestimientos pueden retener residuos de producto. Este material y su recipiente deben desecharse de manera segura (ver: Instrucciones de eliminación).

Envases contaminados Ya que los recipientes vacíos pueden contener restos de producto, obsérvense las advertencias indicadas en la etiqueta después de vaciarse el recipiente. Los contenedores vacíos deben ser llevados a un sitio de manejo aprobado para desechos, para el reciclado o eliminación.

14. Información relativa al transporte

DOT

FINISHED GOODS

No se regula como artículo peligroso.

BULK

No se regula como artículo peligroso.

IATA

FINISHED GOODS

No se regula como artículo peligroso.

BULK

No se regula como artículo peligroso.

IMDG

FINISHED GOODS

No se regula como artículo peligroso.

BULK

No se regula como artículo peligroso.

15. Información reglamentaria

reglamentación Federal de EE.UU. No se tiene conocimiento de que este producto sea un "Producto químico peligroso" tal como está definido por la Norma de comunicación de riesgos OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA artículo 12(b) Notificación de exportaciones (40 CFR 707, subapart. D)

No reglamentado.

CERCLA Hazardous Substance List (40 CFR 302.4) (Lista de sustancias peligrosas):

No listado.

SARA 304 Emergency release notification

No reglamentado.

Sustancias específicamente reguladas por la OSHA (29 CFR 1910.1001-1052)

No reglamentado.

Ley de Enmiendas y Reautorizaciones Superiores (Superfund) de 1986 (SARA)

SARA 302 Sustancia extremadamente peligrosa

No listado.

SARA 311/312 Producto químico peligroso No (Exempt)

SARA 313 (TRI, Notificación de emisiones de productos tóxicos)

No reglamentado.

Otras normativas federales

Ley de aire limpio [Clean Air Act (CAA)], artículo 112, lista de Contaminantes del aire peligrosos [Hazardous Air Pollutants (HAP)]

No reglamentado.

Ley de aire limpio (CAA) Sección 112(r) Prevención de liberación accidental (40 CFR 68.130)

No reglamentado.

Ley Safe Drinking Water Act (SDWA) No reglamentado.

16. Otra información, como fecha de preparación o última revisión

Fecha de publicación	09-Julio-2023
Nº de versión	01
Clasificaciones NFPA	Salud: 0 Inflamabilidad: 1 Inestabilidad: 0
Cláusula de exención de responsabilidad	La información facilitada en esta Ficha de Datos de Seguridad es correcta, a nuestro leal saber y entender, en la fecha de su publicación. Dicha información está concebida únicamente como guía para la seguridad en la manipulación, el uso, el procesamiento, el almacenamiento, el transporte, la eliminación y la liberación, no debiendo tomarse como garantía o especificación de calidades. La información se refiere únicamente al material específico mencionado y puede no ser válida para tal material usado en combinación con cualesquiera otros materiales o en cualquier proceso salvo que se especifique expresamente en el texto.

PHIẾU DỮ LIỆU AN TOÀN

1. Nhận dạng

Mã định danh sản phẩm **PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT**

Các hình thức nhận dạng khác

Số bản thông tin an toàn 00-19-0000533

Công dụng đề nghị Mỹ phẩm.

Các giới hạn đề nghị Chưa được biết.

Thông tin về Nhà Sản Xuất/Nhập Khẩu/Cung Cấp/Phân Phối

Địa chỉ: Pulp Riot
16501 Ventura Blvd #500
Encino, CA 91436
Hoa Kỳ

Số điện thoại liên lạc trong trường hợp khẩn cấp: 1-800-535-5053 (International: 352-323-3500)

Muốn có thêm thông tin: 1-732-499-2741

2. Nhận diện các hiểm họa

Hiểm Họa Vật Lý Không được phân loại.

Hiểm Họa Cho Sức Khỏe Không được phân loại.

OSHA defined hazards Không được phân loại.

Các thành phần của nhãn

Ký hiệu hiểm họa Không có.

Từ cảnh báo Không có.

Công bố hiểm họa Hỗn hợp không thỏa mãn tiêu chuẩn phân loại.

Thông điệp đề phòng

Phòng Ngừa Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.

Ứng phó Rửa tay sau khi thao tác.

Bảo Quản Bảo quản tránh xa các vật liệu tương kỵ.

Thải bỏ Thải bỏ chất thải và các phần cặn dư theo các quy định của cơ quan có thẩm quyền tại địa phương.

Hazard(s) not otherwise classified (HNOC) Chưa được biết.

Thông tin thêm Không có.

3. Thành phần/ thông tin về các phụ liệu

Các hỗn hợp

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

*Cho biết lai lịch và/hoặc thành phần phần trăm của một hóa chất cụ thể đã được lưu giữ ở dạng bí mật thương mại.

4. Các biện pháp sơ cứu

Hít phải Đưa ra nơi không khí trong lành. Hãy gọi cho bác sĩ nếu các triệu chứng xuất hiện hoặc không hết.

Tiếp xúc với da Rửa sạch bằng xà bông và nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng

Tiếp xúc với mắt Rửa bằng nước. Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng

Ăn phải Súc miệng. Tìm gặp y bác sĩ để điều trị nếu các triệu chứng xảy ra.

Các triệu chứng/tác dụng quan trọng nhất, cấp tính và chậm xuất hiện	Không có.
Dấu hiệu cần phải được chăm sóc y tế ngay lập tức và điều trị đặc biệt	Điều trị triệu chứng.
Thông tin tổng quát	Đảm bảo rằng các nhân viên y tế nhận thức được (các) vật liệu liên quan, và thực hiện thận trọng để bảo vệ chính mình.

5. Các biện pháp cứu hỏa

Các chất chữa cháy phù hợp	Sương nước. Bọt. Bộ hóa chất khô. Carbon dioxide (CO2).
Chất chữa cháy không phù hợp	Không dùng vòi xịt nước để dập lửa, vì việc này sẽ gây lan thêm lửa.
Hiểm họa đặc trưng phát sinh từ hóa chất	Trong khi cháy, các khí nguy hiểm cho sức khỏe có thể được hình thành.
Trang bị bảo hộ đặc biệt cho nhân viên chữa cháy	Phải sử dụng thiết bị thở tự điều khiển và trang phục bảo hộ đầy đủ khi chữa cháy.
Các chỉ dẫn/trang thiết bị cứu hỏa	Đưa các thùng chứa ra khỏi khu vực cháy nếu bạn có thể làm mà không gặp nguy hiểm.
Các biện pháp cụ thể	Sử dụng các quy trình chữa cháy tiêu chuẩn và xem xét các hiểm họa của các vật liệu liên quan khác.
Các hiểm họa cháy nói chung	Không có hiểm họa cháy hoặc nổ bất thường nào đáng chú ý.

6. Các biện pháp xử lý rò rỉ bất ngờ

Các biện pháp đề phòng cá nhân, thiết bị bảo vệ và các quy trình xử lý khẩn cấp	Để xa những người không cần thiết. Về vấn đề bảo hộ cá nhân, xin xem mục 8 của Phiếu An Toàn Hóa Chất.
Phương pháp và vật liệu để ngăn chặn và làm sạch	Lượng Đổ Lớn: Ngăn dòng chảy vật liệu, nếu việc này không gây nguy hiểm. Đắp đê giữ vật liệu đã đổ, khi có thể. Dùng chất khoáng bón cây, cát hoặc đất khô thấm hút rồi cho vào thùng chứa. Sau khi thu hồi sản phẩm, dùng nước xả sạch khu vực. Lượng Đổ Nhỏ: Lau sạch bằng các vật liệu hút nước (ví dụ như khăn, bông). Làm sạch bề mặt cẩn thận để loại bỏ lượng ô nhiễm còn lại. Không bao giờ bỏ chất đã đổ vào bao chứa ban đầu để tái sử dụng. Về thải bỏ chất thải, xin xem mục 13 của Phiếu An Toàn Hóa Chất.
Các biện pháp đề phòng cho môi trường	Không xả vào cống rãnh, kênh rạch hoặc xuống đất.

7. Thao tác và bảo quản

Các biện pháp đề phòng cho thao tác an toàn	Giám sát thực hiện tốt các biện pháp vệ sinh công nghiệp.
Các điều kiện bảo quản an toàn, kể cả mọi tính chất tương kỵ	Cất giữ trong dụng cụ đựng thật kín. Giữ xa tầm tay của trẻ em. Bảo quản xa các vật liệu tương kỵ (Xem Mục 10 của Phiếu An Toàn Hóa Chất).

8. Kiểm soát việc tiếp xúc / bảo hộ cá nhân

Các giá trị giới hạn sinh học	Không có giới hạn tiếp xúc sinh học nào đáng lưu ý cho (các) thành phần.
Các biện pháp kiểm soát kỹ thuật phù hợp	Nên sử dụng phương pháp thông khí toàn bộ. Tốc độ thông khí phải phù hợp với các điều kiện. Nếu áp dụng, sử dụng tủ xử lý kín, thông hút khí tại chỗ, hoặc các biện pháp kỹ thuật khác để duy trì mức nồng độ trong không khí dưới giới hạn tiếp xúc đề nghị. Nếu chưa thiết lập được các giới hạn tiếp xúc, hãy duy trì mức nồng độ trong không khí ở mức có thể chấp nhận.

Các biện pháp bảo vệ cá nhân, như trang bị bảo hộ cá nhân

Biện pháp bảo vệ mắt/mặt	Chỉ được áp dụng đối với các môi trường công nghiệp. Đeo kính an toàn có gờ chắn bên (hoặc kính bảo hộ).
Bảo vệ da	
Bảo vệ tay	Chỉ được áp dụng đối với các môi trường công nghiệp. Mang bao tay chống hóa chất thích hợp.
Khác	Chỉ được áp dụng đối với các môi trường công nghiệp.
Bảo vệ đường hô hấp	Chỉ được áp dụng đối với các môi trường công nghiệp. Trong trường hợp không đủ thông thoáng, sử dụng thiết bị bảo vệ đường hô hấp phù hợp.

Các hiểm họa nhiệt	Sử dụng trang phục bảo hộ chống nhiệt, khi cần thiết.
Các lưu ý vệ sinh chung	Luôn giám sát việc thực hiện tốt các biện pháp vệ sinh cá nhân, như rửa sạch sau khi làm việc với vật liệu và trước khi ăn, uống, và/hoặc hút thuốc. Thường xuyên giặt quần áo và các thiết bị bảo hộ cho sạch các chất gây ô nhiễm.

9. Tính chất lý hóa

Ngoại Quan	
Trạng thái vật lý	Chất lỏng.
Màu	Không có.
Mùi	Đặc điểm.
Ngưỡng phát hiện mùi	Không có.
pH	4.2 - 5.2
Điểm chảy/điểm đông	Không có.
Điểm và vùng nhiệt độ sôi ban đầu	> 100 °C (> 212 °F)
Điểm chớp cháy	> 93.0 °C (> 199.4 °F) Cốc Kín
Tốc độ bay hơi	Không có.
Khả năng cháy (rắn, khí)	Không áp dụng.
Giới hạn cháy trên/dưới hoặc các giới hạn nổ	
Giới hạn cháy - dưới (%)	Không có.
Giới hạn cháy - trên (%)	Không có.
Giới hạn nổ – dưới (%)	Không có.
Giới hạn nổ – trên (%)	Không có.
Áp suất hơi	Không có.
Tỷ khối hơi	Không có.
Tỷ trọng tương đối	Không có.
(Các) độ tan	
Tính tan (nước)	Không có.
Hệ số phân tách (n-octanol/nước)	Không có.
Nhiệt độ tự bốc cháy	Không có.
Nhiệt độ phân hủy	Không có.
Độ nhớt	Không có.
Thông tin khác	
Tỷ Trọng	>= 0.97 g/cm³
Các tính chất nổ	Không nổ.
Các tính chất oxy hóa	Không oxy hóa.

10. Độ bền và khả năng phản ứng

Khả năng phản ứng	Sản phẩm ổn định và không phản ứng trong các điều kiện sử dụng, bảo quản và vận chuyển bình thường.
Độ bền hóa học	Vật liệu ổn định trong các điều kiện bình thường.
Khả năng gây phản ứng nguy hiểm	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Các điều kiện cần tránh	Tránh xa nhiệt, bề mặt nóng, tia lửa, ngọn lửa trần, và các nguồn gây cháy khác. Tránh các nhiệt độ vượt quá điểm bốc cháy. Tiếp xúc với các vật liệu tương kỵ.
Các vật liệu tương kỵ	Các chất oxy hóa mạnh.
Các sản phẩm phân hủy gây nguy hiểm	Không sản phẩm phân hủy nguy hại nào được biết đến.

11. Thông tin về độc tính

Thông tin về các lộ trình tiếp xúc có khả năng xảy ra

Hít phải	Được xem là không gây ra các tác dụng có hại do hít phải.
Tiếp xúc với da	Được xem là không gây các tác dụng có hại khi tiếp xúc với da.

Tiếp xúc với mắt Không có tác dụng xấu khi chạm và mắt.

Ăn phải Được xem là có hiểm họa ăn phải thấp.

Triệu chứng liên quan đến tính chất vật lý, hóa học và độc tính. Không có.

Thông tin về các tác dụng độc

Độc tính cấp tính Chưa được biết.

Sản Phẩm	Loài	Kết quả thử nghiệm
PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT		
Cấp tính		
Da		
ATEmix		392200 mg/kg
Qua Miệng		
ATEmix		130500 mg/kg

Ăn mòn/kích ứng da Được xem là không gây các tác dụng có hại khi tiếp xúc với da.

Gây tổn thương mắt /kích ứng mắt nghiêm trọng Không có tác dụng xấu khi chạm và mắt.

Gây mẫn cảm đường hô hấp hoặc da

Gây mẫn cảm đường hô hấp Không phải là một chất gây mẫn cảm đường hô hấp.

Gây mẫn cảm da Sản phẩm này không được xem là gây mẫn cảm cho da.

Khả năng gây đột biến tế bào mầm Không có dữ liệu cho thấy sản phẩm hoặc bất kỳ thành phần nào có trên 0.1% tác nhân gây đột biến hoặc tác nhân gây ngộ độc di truyền.

Khả năng gây ung thư Không thể phân loại là có tính gây ung thư cho người.

Các Chuyên Khảo Của Cơ Quan Nghiên Cứu Ung Thư Quốc Tế (IARC). Đánh Giá Tổng Thể Khả Năng Gây Ung Thư

Không có trong danh mục.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Không được quy định.

Hoa Kỳ. Chương Trình Chất Độc Quốc Gia (NTP) Báo cáo về các Chất Gây Ung Thư

Không có trong danh mục.

Độc tích sinh sản Sản phẩm này không được xem là gây các tác dụng lên chức năng sinh sản hoặc tăng trưởng.

Độc tính đối với cơ quan tác dụng đặc hiệu đến sau một lần tiếp xúc Không được phân loại.

Độc tính đối với cơ quan tác dụng đặc hiệu đến sau lần tiếp xúc lại Không được phân loại.

Hiểm họa hít phải Không phải là một hiểm họa cho đường hô hấp.

Thông tin khác Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộng rãi và các nghiên cứu khách quan của các đơn vị chuyên ngành.

12. Thông tin về sinh thái

Độc tính sinh thái Sản phẩm không được phân loại là nguy hiểm cho môi trường. Tuy nhiên, điều đó không có nghĩa là không có nguy cơ bị tràn đổ những lượng lớn hoặc thường xuyên dẫn đến tác dụng gây hại hoặc phá hủy môi trường.

Độ Bền Và Khả Năng Phân Hủy

Khả năng tích tụ sinh học

Di chuyển trong đất Không có dữ liệu.

Các tác dụng có hại khác Không có các tác dụng bất lợi cho môi trường nào khác (ví dụ, gây suy yếu tầng ozon, khả năng tạo ozon bằng phương pháp quang hóa, rối loạn nội tiết, khả năng làm tăng nhiệt độ trái đất) được xem là sẽ gặp phải từ thành phần này.

13. Các cân nhắc khi thải bỏ

Các Hướng Dẫn Thải Bỏ Thu gom và tái chế hoặc thải bỏ trong các dụng cụ đựng kín tại các bãi rác thải được phép.

Các quy định tiêu hủy của địa phương	Vứt bỏ tuân theo tất cả các quy định hiện hành.
Chất thải từ cặn lắng/ sản phẩm không sử dụng	Loại bỏ theo quy định của địa phương Các dụng cụ đựng hoặc túi lót rỗng có thể còn chứa các cặn dư của sản phẩm. Vật liệu này và dụng cụ đựng của nó phải được thải bỏ bằng một cách thức an toàn (xem: Hướng dẫn thải bỏ).
Bao bì bị ô nhiễm	Vì các dụng cụ đựng đã cạn vẫn có thể còn lại cặn sản phẩm, thực hiện dán nhãn cảnh báo ngay cả sau khi dụng cụ đựng đã cạn. Các thùng chứa rỗng cần được đưa tới cơ sở đủ tiêu chuẩn để tái chế hoặc loại bỏ

14. Thông tin về việc vận chuyển

Bộ Giao Thông Vận Tải (DOT)

FINISHED GOODS

Không được quy định là hàng hóa nguy hiểm.

BULK

Không được quy định là hàng hóa nguy hiểm.

IATA

FINISHED GOODS

15. Thông tin về quy định

Các quy định của liên bang Hoa Kỳ Sản phẩm này không được cho là một "Hóa Chất Nguy Hiểm" theo định nghĩa của Tiêu Chuẩn Thông Báo Nguy Hiểm OSHA, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Không được quy định.

Danh Mục Chất Nguy Hiểm của CERCLA (40 CFR 302.4)

Không có trong danh mục.

SARA 304 Emergency release notification

Không được quy định.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Không được quy định.

Đạo Luật Sửa Đổi và Cấp Phép Chương Trình Nhận Diện-Xử Lý-Ngăn Ngừa Phát Tán Chất Độc Quốc Gia (Superfund Amendments and Reauthorization Act - SARA, 1986)

SARA 302 Extremely hazardous substance

Không có trong danh mục.

SARA 311/312 Hazardous chemical No (Exempt)

SARA 313 (TRI reporting)

Không được quy định.

Other federal regulations

Đạo Luật Bảo Vệ Bầu Không Khí (Clean Air Act - CAA) Mục 112 Danh Mục Chất Ô Nhiễm Không Khí Nguy Hiểm (HAP)

Không được quy định.

Đạo Luật Bảo Vệ Không Khí (CAA) Mục 112(r) Phòng Ngừa Rò Rỉ Bất Ngờ (40 CFR 68.130)

Không được quy định.

Đạo Luật An Toàn Nước Uống (SDWA) Không được quy định.

16. Thông tin khác, kể cả ngày soạn thảo hoặc sửa đổi

Ngày Ban Hành 09-Tháng-Bảy-2023

Phiên bản số	01
Xếp hạng NFPA	Sức Khỏe: 0 Khả Năng Cháy: 1 Tính không ổn định: 0
Khước Từ Trách Nhiệm	Thông tin trong Bản Thông Tin An Toàn này là chính xác theo mức độ hiểu biết nhất của chúng tôi, thông tin chúng tôi có được và sự tin tưởng của chúng tôi vào ngày công bố tài liệu này. Thông tin được soạn thảo chỉ nhằm mục đích hướng dẫn cho việc thao tác, sử dụng, chế biến, bảo quản, vận chuyển, thải bỏ và xử lý rò rỉ được an toàn và không được xem là một sự bảo đảm hay đặc điểm chất lượng. Thông tin này chỉ liên quan đến riêng vật liệu đề cập trên và sẽ không hợp lệ khi vật liệu đó được sử dụng kết hợp với bất kỳ vật liệu nào khác hoặc bất kỳ quá trình chế biến nào, nếu không được nêu rõ trong tài liệu này.

PULPRIOT

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture	PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT
Synonyms	None.
SDS number	00-19-0000533
Product code	1285474 C
Issue date	07-09-2023
Version number	01

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care product used for cosmetic effect.
Uses advised against	None known.

1.3. Details of the supplier of the safety data sheet

Contact person

Company name	L'ORÉAL SA
Address	14, rue royale 75008 - Paris France
Telephone	+1 732 499 2745
e-mail	nacorpeuropesdsrequest@loreal.com

1.4. Emergency telephone number

France National Poisons Control Center	ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)
INFOTRAC	+1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary This is a consumer care product that is safe for consumers when used according to the label directions. Like many consumer products, a small number of individuals may experience reactions such as redness, rash and / or swelling upon prolonged or repeated skin contact or eye contact.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.

Precautionary statements

Prevention

P102	Keep out of reach of children.
P103	Read label before use.

Response

P101	If medical advice is needed, have product container or label at hand.

Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.

Supplemental label information 4,4% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 4,4% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

2.3. Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

The components are not hazardous or are below required disclosure limits.

List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).
M: M-factor
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments

The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

4.1. Description of first aid measures

Inhalation

Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact

Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact

Rinse with water. Get medical attention if irritation develops and persists.

Ingestion

Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed

Exposure may cause temporary irritation, redness, or discomfort.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards

No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture

During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures

Move containers from fire area if you can do so without risk.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

For emergency responders

Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

7.3. Specific end use(s) Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits No exposure limits noted for ingredient(s).

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no effect levels (DNELs) Not available.

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

General information Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).

Skin protection

- Hand protection Applicable for industrial settings only. Wear appropriate chemical resistant gloves.

- Other Applicable for industrial settings only.

Respiratory protection Applicable for industrial settings only. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls Not available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Liquid.
Form	Not available.
Color	Not available.
Odor	Characteristic.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 212 °F (> 100 °C)
Flammability	Not applicable.
Upper/lower flammability or explosive limits	
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Flash point	> 199,4 °F (> 93,0 °C) Closed Cup
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
pH	4,2 - 5,2

Kinematic viscosity	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Vapor pressure	Not available.
Density	>= 0,97 g/cm³
Vapor density	Not available.
Particle characteristics	Not available.
9.2. Other information	No relevant additional information available.

SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidizing agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	No adverse effects due to eye contact are expected.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity	Not known.
Skin corrosion/irritation	Due to partial or complete lack of data the classification is not possible. No adverse effects due to skin contact are expected.
Serious eye damage/eye irritation	Due to partial or complete lack of data the classification is not possible. No adverse effects due to eye contact are expected.
Respiratory sensitization	Due to partial or complete lack of data the classification is not possible.
Skin sensitization	Due to partial or complete lack of data the classification is not possible.
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.
Carcinogenicity	Not classifiable as to carcinogenicity to humans. Due to partial or complete lack of data the classification is not possible.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Not listed.

Reproductive toxicity	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.
Mixture versus substance information	No information available.

11.2 Information on other hazards

Endocrine disrupting properties	The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Other information	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
12.2. Persistence and degradability	
12.3. Bioaccumulative potential	
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	Not a PBT or vPvB substance or mixture.
12.6. Endocrine disrupting properties	The substance/mixture does not contain components consid-ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
.	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IATA

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

FINISHED GOODS

14.1. - 14.6.: Not regulated as dangerous goods.

BULK

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Maritime transport in bulk according to IMO instructions	Not established.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

Not listed.

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	None.
Revision information	None.
Training information	Follow training instructions when handling this material.
Disclaimer	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. This document is communicated even though this product does not legally require an SDS. The purpose of this information is to allow the operators concerned to take, if necessary, the measures they deem appropriate, with regard to the storage, handling and transport of products, in order to guarantee the protection of their employees.

PULPRIOT

FICHE DE DONNÉES DE SÉCURITÉ

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1. Identificateur de produit

Nom commercial ou désignation du mélange	PULP RIOT BLONDE AF TONING LEAVE-IN TREATMENT
Synonymes	Aucun(e)(s).
Numéro de la FDS	00-19-0000533
Code de produit	1285474 C
Date de publication	le 09-Juillet-2023
Numéro de version	01

1.2. Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisations identifiées	Produits de soins personnels destinés à un usage cosmétique.
Utilisations déconseillées	Aucun connu.

1.3. Renseignements concernant le fournisseur de la fiche de données de sécurité

Personne à contacter

Nom de la societe	L'ORÉAL SA
Adresse	14, rue royale 75008 - Paris France
Téléphone	+1 732 499 2745
adresse électronique	nacorpeuropesdsrequest@loreal.com

1.4. Numéro d'appel d'urgence

France Centre antipoison national	Numéro ORFILA (INRS) : + 33 (0) 1 45 42 59 59 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)
INFOTRAC	+1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1. Classification de la substance ou du mélange

Les dangers physiques, sanitaires et environnementaux du mélange ont été évalués et/ou testés, et la classification suivante s'applique.

Classification selon le règlement (CE) n° 1272/2008 et ses amendements

Ce mélange ne répond pas aux critères de classification du règlement (CE) 1272/2008 et ses amendements.

Résumé des dangers Le produit ne présente pas de danger pour les consommateurs lorsqu'il est utilisé conformément aux instructions d'utilisation sur l'étiquette. Comme pour de nombreux produits de consommation, une faible proportion d'individus peut développer des réactions telles que rougeurs, éruption cutanée et/ou œdèmes en cas de contact cutané ou oculaire prolongé ou répété.

2.2. Éléments d'étiquetage

Étiquetage selon le règlement (CE) no 1272/2008 tel que modifié

Pictogrammes de danger	Aucun(e)(s).
Mention d'avertissement	Aucun(e)(s).
Mentions de danger	Le mélange ne répond pas aux critères de classification.

Mentions de mise en garde

Prévention

P102	Tenir hors de portée des enfants.
P103	Lire l'étiquette avant utilisation.

Intervention

P101	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.

Stockage	Conserver à l'écart de matières incompatibles.
Élimination	Éliminer les rejets et les déchets conformément aux règlements municipaux.

Informations supplémentaires de l'étiquette 4,4 % du mélange sont constitués de composants dont la toxicité aiguë pour le milieu aquatique est inconnue. 4,4 % du mélange sont constitués de composants dont la toxicité à long terme pour le milieu aquatique est inconnue.

2.3. Autres dangers Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus. La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2. Mélanges

Les composants ne sont pas dangereux ou sont en dessous des limites de déclaration légales.

Liste des abréviations et des symboles pouvant être utilisés ci-avant

#: des limites d'exposition sur le lieu de travail ont été fixées pour cette substance en application de la législation de l'Union.
M : facteur M
PBT : substance persistante, bioaccumulable et toxique.
vPvB : substance très persistante et très bioaccumulable.
Toutes les concentrations sont données en pourcentage massique sauf pour les ingrédients sous forme gazeuse. Les concentrations des gaz sont exprimées en pourcentage volumique.

Remarques sur la composition Le texte intégral de toutes les mentions H est présenté en section 16.

RUBRIQUE 4: Premiers secours

Informations générales Vérifier que le personnel médical est conscient des substances impliquées et prend les mesures de protection individuelles appropriées.

4.1. Description des premiers secours

Inhalation Sortir au grand air. Contacter un médecin si les symptômes se développent ou persistent.

Contact avec la peau Laver avec de l'eau et du savon. Consulter un médecin si une irritation se développe et persiste.

Contact avec les yeux Rincer avec de l'eau. Consulter un médecin si une irritation se développe et persiste.

Ingestion Rincer la bouche. Consulter un médecin en cas de symptômes.

4.2. Principaux symptômes et effets, aigus et différés L'exposition peut entraîner inconfort, rougeur et irritation transitoire.

4.3. Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires Appliquer un traitement symptomatique.

RUBRIQUE 5: Mesures de lutte contre l'incendie

Risques généraux d'incendie Aucun risque exceptionnel d'incendie et d'explosion.

5.1. Moyens d'extinction

Moyens d'extinction appropriés Brouillard d'eau. Mousse. Agent chimique sec. Dioxyde de carbone (CO_2).

Moyens d'extinction inappropriés En cas d'incendie ne pas utiliser de jet d'eau car celà dispersera le feu.

5.2. Dangers particuliers résultant de la substance ou du mélange En cas d'incendie, des gaz dangereux pour la santé peuvent être produits.

5.3. Conseils aux pompiers

Équipements de protection particuliers des pompiers Porter un appareil respiratoire autonome et un vêtement de protection complet en cas d'incendie.

Procédures spéciales de lutte contre l'incendie Éloigner les récipients de l'incendie si cela peut se faire sans risque.

Méthodes particulières d'intervention Employer des méthodes normales de lutte contre l'incendie et tenir compte des dangers associés aux autres substances présentes.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1. Précautions individuelles, équipement de protection et procédures d'urgence

Pour les non-secouristes Tenir à l'écart le personnel superflu. Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS.

Pour les secouristes Tenir à l'écart le personnel superflu. Porter les protections individuelles recommandées dans la section 8 de la FDS.

6.2. Précautions pour la protection de l'environnement Éviter le rejet à l'égout et dans les environnements terrestres et les cours d'eau.

6.3. Méthodes et matériel de confinement et de nettoyage	Déversements importants : Arrêter le débit de matière, si ceci est sans risque. Endiguer le matériau renversé si cela est possible. Absorber avec de la vermiculite, du sable sec ou de la terre, puis placer en récipient. Après avoir récupéré le produit, rincer la zone à l'eau. Déversements mineurs : Essuyer avec une matière absorbante (p.ex. tissu, laine). Nettoyer à fond la surface pour éliminer toute contamination résiduelle. Ne jamais réintroduire le produit répandu dans son récipient d'origine en vue d'une réutilisation.
6.4. Référence à d'autres rubriques	Pour plus de détails sur la protection individuelle, voir la section 8 de la FDS. Pour plus de détails sur l'élimination des déchets, voir la section 13 de la FDS.

RUBRIQUE 7: Manipulation et stockage

7.1. Précautions à prendre pour une manipulation sans danger	Suivre les règles de bonnes pratiques chimiques.
7.2. Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités	Stocker dans un récipient fermé de manière étanche. Conserver hors de la portée des enfants. Conserver à l'écart des matières incompatibles (voir la Section 10 de la FDS).
7.3. Utilisation(s) finale(s) particulière(s)	Donnée inconnue.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1. Paramètres de contrôle

Limites d'exposition professionnelle	Il n'y a pas de limites d'exposition pour ce ou ces ingrédients.
Valeurs limites biologiques	Il n'y a pas de limites d'exposition biologique pour ce ou ces ingrédients.
Procédures de suivi recommandées	Suivre les procédures standard de surveillance.
Doses dérivées sans effet (DDSE)	Donnée inconnue.
Concentrations prédites sans effet (PNEC)	Donnée inconnue.

8.2. Contrôles de l'exposition

Contrôles techniques appropriés	Assurer une bonne ventilation générale. Le taux de renouvellement d'air devrait être adapté aux conditions. Si c'est approprié, clôtures de processus d'utilisation, ventilation d'échappement locale, ou d'autres commandes de technologie pour maintenir les niveaux aéroportés au-dessous des limites recommandées d'exposition. Si des limites d'exposition n'ont pas été établies, maintenez les niveaux aéroportés à un niveau acceptable. Assurer l'accès à une douche oculaire.

Mesures de protection individuelle, telles que les équipements de protection individuelle

Informations générales	Choisir l'équipement de protection conformément aux normes CEN en vigueur et en coopération avec le fournisseur de l'équipement de protection.
Protection des yeux/du visage	Pour usage industriel seulement. Porter des lunettes de sécurité à écrans latéraux.
Protection de la peau	
- Protection des mains	Pour usage industriel seulement. Porter des gants appropriés et résistant aux produits chimiques.
- Autres	Pour usage industriel seulement.
Protection respiratoire	Pour usage industriel seulement. En cas de ventilation insuffisante, porter un appareil respiratoire approprié.
Risques thermiques	Porter des équipements de protection contre la chaleur, si nécessaire.
Mesures d'hygiène	Toujours adopter de bonnes pratiques d'hygiène personnelle, telles que se laver après avoir manipulé la substance et avant de manger, de boire ou de fumer. Nettoyer régulièrement la tenue de travail et l'équipement de protection pour éliminer les contaminants.
Contrôles d'exposition liés à la protection de l'environnement	Donnée inconnue.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1. Informations sur les propriétés physiques et chimiques essentielles

État physique	Liquide.
Forme	Donnée inconnue.
Couleur	Donnée inconnue.
Odeur	Caractéristique.

Point de fusion/point de congélation	Donnée inconnue.
Point initial d'ébullition et intervalle d'ébullition	> 100 °C (> 212 °F)
Inflammabilité	Sans objet.

Limites supérieures/inférieures d'inflammabilité ou limites d'explosivité

Limite d'explosivité inférieure (%)	Donnée inconnue.
Limite d'explosivité – supérieure (%)	Donnée inconnue.
Point d'éclair	> 93,0 °C (> 199,4 °F) Coupelle fermée
Température d'auto-inflammabilité	Donnée inconnue.
Température de décomposition	Donnée inconnue.
pH	4,2 - 5,2
Viscosité cinématique	Donnée inconnue.

Solubilité(s)

Solubilité (dans l'eau)	Donnée inconnue.
Coefficient de partage: n-octanol/eau	Donnée inconnue.
Pression de vapeur	Donnée inconnue.
Densité	>= 0,97 g/cm³
Densité de vapeur	Donnée inconnue.
Caractéristiques de la particule	Donnée inconnue.
9.2. Autres informations	Aucune information pertinente supplémentaire n'est disponible.

RUBRIQUE 10: Stabilité et réactivité

10.1. Réactivité	Le produit est stable et non réactif dans des conditions normales d'utilisation, de stockage et de transport.
10.2. Stabilité chimique	Ce produit est stable dans des conditions normales.
10.3. Possibilité de réactions dangereuses	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
10.4. Conditions à éviter	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Eviter les températures supérieures au point d'éclair. Contact avec des substances incompatibles.
10.5. Matières incompatibles	Agents oxydants forts.
10.6. Produits de décomposition dangereux	On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

Informations générales	L'exposition professionnelle à le mélange ou au mélange peut provoquer des effets indésirables.

Informations sur les voies d'exposition probables

Inhalation	N'est pas présumé avoir des effets nocifs en cas d'inhalation.
Contact avec la peau	Aucun effet indésirable par contact cutané n'est attendu.
Contact avec les yeux	Aucun effet indésirable dû au contact des yeux n'est prévu.
Ingestion	Peut causer des gênes en cas d'ingestion. Cependant, l'ingestion est une voie primaire d'exposition professionnelle peu probable.
Symptômes	L'exposition peut entraîner inconfort, rougeur et irritation transitoire.

11.1. Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë	Donnée inconnue.
Corrosion cutanée/irritation cutanée	En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable par contact cutané n'est attendu.
Lésions oculaires graves/irritation oculaire	En raison d'un manque partiel ou complet de données, la classification est impossible. Aucun effet indésirable dû au contact des yeux n'est prévu.
Sensibilisation respiratoire	En raison d'un manque partiel ou complet de données, la classification est impossible.
Sensibilisation cutanée	En raison d'un manque partiel ou complet de données, la classification est impossible.
Mutagénicité sur les cellules germinales	En raison d'un manque partiel ou complet de données, la classification est impossible.

Cancérogénicité	Non classé quant à la cancérogénicité pour l'homme. En raison d'un manque partiel ou complet de données, la classification est impossible.

Hongrie. Ordonnance (hongr. EüM) n° 26/2000 relative à la protection contre les substances cancérogènes sur le lieu de travail et la prévention des risques liés à l'exposition à ces dernières [et ses modifications]

N'est pas listé.

Toxicité pour la reproduction	En raison d'un manque partiel ou complet de données, la classification est impossible.
Toxicité spécifique pour certains organes cibles – exposition unique	En raison d'un manque partiel ou complet de données, la classification est impossible.
Toxicité spécifique pour certains organes cibles – exposition répétée	En raison d'un manque partiel ou complet de données, la classification est impossible.
Danger par aspiration	En raison d'un manque partiel ou complet de données, la classification est impossible.
Informations sur les mélanges et informations sur les substances	Aucune information disponible.

11.2 Information on other hazards

Endocrine disrupting properties	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.
Autres informations	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 12: Informations écologiques

12.1. Toxicité	D'après les données disponibles, les critères de classification dans les substances dangereuses pour les milieux aquatiques ne sont pas remplis.
12.2. Persistance et dégradabilité	
12.3. Potentiel de bioaccumulation	
12.4. Mobilité dans le sol	Aucune information disponible.
12.5. Résultats des évaluations PBT et vPvB	Cette substance ou ce mélange n'est pas classé comme PBT ou vPvB.
12.6. Propriétés perturbant le système endocrinien	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.
12.7. Other adverse effects	Aucun autre effet indésirable sur l'environnement (par exemple appauvrissement de la couche d'ozone, potentiel de formation photochimique d'ozone, perturbation endocrinienne, potentiel de réchauffement climatique) n'est attendu pour ce composant.
.	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques ou provenant de tierce partie.

RUBRIQUE 13: Considérations relatives à l'élimination

13.1. Méthodes de traitement des déchets

Déchets résiduaires	Eliminer le produit conformément à la réglementation locale en vigueur. Les doublures intérieures ou récipients vides peuvent conserver des résidus de produit. N'éliminer cette matière et son récipient qu'en prenant toutes les précautions nécessaires (voir : Instructions relatives à l'élimination).
Emballage contaminé	Les récipients vides peuvent contenir des résidus de produit. Respecter les avertissements de l'étiquette même quand le récipient est vide. Les conteneurs vides doivent être acheminés vers un site agréé pour le traitement des déchets à des fins de recyclage ou d'élimination.
Code des déchets UE	Le code de déchet doit être attribué en accord avec l'utilisateur, le producteur et les services d'élimination de déchets.
Informations / Méthodes d'élimination	Recueillir et réutiliser ou éliminer dans des récipients scellés en décharge agréée.
Précautions particulières	Détruire conformément à toutes les réglementations applicables.

RUBRIQUE 14: Informations relatives au transport

ADR

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IATA

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

IMDG

FINISHED GOODS

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

BULK

14.1. - 14.6.: Le produit n'est pas soumis à la réglementation internationale sur le transport des marchandises dangereuses.

14.7. Transport maritime en vrac conformément aux instruments de l'OMI Non établi.

RUBRIQUE 15: Informations relatives à la réglementation

15.1. Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

Réglementations de l'UE

Règlement (CE) n° 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone, Annexe I et II, avec ses modifications

N'est pas listé.

Règlement (CE) n° 850/2004 concernant les polluants organiques persistants, Annexe I et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 1 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 2 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe I, partie 3 et ses modifications

N'est pas listé.

Règlement (UE) n° 649/2012 concernant les exportations et importations de produits chimiques dangereux, Annexe V et ses modifications

N'est pas listé.

Règlement (CE) n° 166/2066 concernant la création d'un registre européen des rejets et des transferts de polluants, Annexe II, avec ses modifications

N'est pas listé.

Règlement (EC) n° 1907/2006 (REACH), Article 59, paragraphe 10, Liste des substances candidates actualisée par l'ECHA

N'est pas listé.

Autorisations

Règlement (CE) n° 1907/2006, REACH, Annexe XIV Substance soumise à autorisation, et ses amendements

N'est pas listé.

Restrictions d'utilisation

Règlement (CE) n° 1907/2006 (REACH), Annexe XVII, Substances soumises à restrictions de mise sur le marché et d'utilisation, et ses modifications

N'est pas listé.

Directive 2004/37/CE : concernant la protection des travailleurs contre les risques liés à l'exposition à des agents cancérigènes ou mutagènes au travail, avec ses modifications

N'est pas listé.

Autres réglementations UE

Directive 2012/18/UE concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses, et ses modifications

N'est pas listé.

Autres réglementations Le produit est classé et étiqueté conformément au Règlement (CE) 1272/2008 (Règlement CLP) et à ses amendements. La présente Fiche de données de sécurité est conforme aux exigences du Règlement (CE) n° 1907/2006, avec ses modifications.

Réglementations nationales	Respecter les réglementations nationales relatives au travail avec des agents chimiques conformément à la directive 98/24/CE et ses modifications.
15.2. Évaluation de la sécurité chimique	Aucune évaluation de sécurité chimique n'a été mise en œuvre.

RUBRIQUE 16: Autres informations

Liste des abréviations	Donnée inconnue.
Références	Donnée inconnue.
Informations sur la méthode d'évaluation utilisée pour classer le mélange	La classification au titre des risques envers la santé et l'environnement est dérivée d'une combinaison de méthodes de calcul et de données d'essai, le cas échéant.
Le texte des mentions H des sections 2 à 15 n'est reproduit que partiellement	Aucun(e)(s).
Informations de révision	Aucun(e)(s).
Informations de formation	Suivre les instructions dispensées pendant la formation lors de la manipulation de ce matériau.
Clause de non-responsabilité	Les informations contenues dans la présente Fiche de données de sécurité sont exactes dans l'état actuel de nos connaissances et de nos informations, à la date de publication. Ces informations ne sont fournies qu'à titre indicatif pour assurer la sécurité de la manipulation, de l'utilisation, de la transformation, du stockage, du transport, de l'élimination et de la mise sur le marché de la substance, et ne sauraient être considérées comme une garantie ou une assurance-qualité. Les informations ne concernent que la matière spécifiquement décrite, et sont susceptibles d'être non valables si la matière est employée en combinaison avec toute autre matière ou dans tout autre procédé, à moins que le contraire ne soit précisé dans le texte. Ce document est communiqué alors même que le produit ne requiert pas légalement de SDS. L'objectif de ces informations est de permettre aux opérateurs concernés de prendre, le cas échéant, les mesures qu'ils jugent nécessaires, en ce qui concerne le stockage, la manutention et le transport des produits, afin de garantir la protection de leurs salariés.

SAFETY DATA SHEET

PULP RIOT HIGH SPEED TONERS - GROUP 6

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	03/07/2024	00-21-410000001412	Date of first issue: 03/07/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT HIGH SPEED TONERS - GROUP 6

Manufacturer or supplier's details

Address : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Skin irritation : Category 2

Serious eye damage : Category 1

Skin sensitization : Category 1

GHS label elements

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P261 Avoid breathing mist or vapors.
P264 Wash skin thoroughly after handling.
P272 Contaminated work clothing must not be allowed out of the workplace.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.
P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.
P362 Take off contaminated clothing and wash before reuse.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Additional Labeling

The following percentage of the mixture consists of ingredient(s) with unknown acute toxicity: 3 %

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Concentration (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5
p-AMINOPHENOL	123-30-8	>= 0.1 - < 1
4-AMINO-2-HYDROXYTOLUENE	2835-95-2	>= 0.1 - < 1
m-AMINOPHENOL	591-27-5	>= 0.1 - < 1

Actual concentration is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice : Consult a physician.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : If skin irritation persists, call a physician.

If on skin, rinse well with water.

In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Remove contact lenses. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Neutralize with acid. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. Avoid exposure - obtain special instructions before use. For personal protection see section 8. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Ammonia)	ACGIH
		STEL	35 ppm (Ammonia)	ACGIH
		TWA	25 ppm 18 mg/m3 (Ammonia)	NIOSH REL
		ST	35 ppm 27 mg/m3 (Ammonia)	NIOSH REL

Personal protective equipment

Respiratory protection	:	No personal respiratory protective equipment normally required.
Hand protection		
Remarks	:	Applicable for industrial settings only. Nitrile rubber
Eye protection	:	Applicable for industrial settings only. Tightly fitting safety goggles
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.
Hygiene measures	:	When using do not eat or drink.

When using do not smoke.
Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	liquid
Color	:	No data available
Odor	:	characteristic
pH	:	10.5 - 11.1
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 199 °F / > 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	0.997 - 1.003 (68 °F / 20 °C)
Solubility(ies) Water solubility	: :	 partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity Viscosity, kinematic	: :	 No data available

Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 5,000 mg/kg Method: Calculation method

Components:

COCAMIDE MEA:

Acute oral toxicity	:	LD50: > 5,000 mg/kg Assessment: The substance or mixture has no acute oral toxicity
Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l Exposure time: 4 h Test atmosphere: vapor
Acute dermal toxicity	:	Acute toxicity estimate: > 5,000 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity	:	LD50 (Rat, male and female): > 5,000 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity

Acute dermal toxicity : LD50 (Rat, male and female): > 2,000 mg/kg
Method: OECD Test Guideline 402
Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity : LD50 (Rat, male): 350 mg/kg
Method: OECD Test Guideline 401

p-AMINOPHENOL:

Acute oral toxicity : LD50 (Rat, male and female): 671 mg/kg
Method: OPPTS 870.1100

Acute inhalation toxicity : LC50 (Rat, male and female): > 3.42 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403

Acute dermal toxicity : LD50 (Rabbit): > 8,000 mg/kg
Method: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Acute oral toxicity : LD50 (Rat, male and female): 3,600 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): 42.57 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Assessment: The substance or mixture has no acute inhalation toxicity

Acute dermal toxicity : LD50 (Rat): 5,688 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

m-AMINOPHENOL:

Acute oral toxicity : LD50 (Rat, male and female): > 500 - 2,000 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): 1.162 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403

Acute dermal toxicity : LD50 (Rabbit): 8,112 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks : May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Skin irritation

COCAMIDOPROPYL BETAINE:

Species : human skin
Result : Skin irritation

AMMONIUM HYDROXIDE:

Species : Rabbit
Method : OECD Test Guideline 404
Result : Corrosive after 3 minutes to 1 hour of exposure

p-AMINOPHENOL:

Species : Rabbit
Result : No skin irritation

4-AMINO-2-HYDROXYTOLUENE:

Species : human skin
Method : OECD Test Guideline 431
Result : No skin irritation

m-AMINOPHENOL:

Species : Rabbit
Method : OECD Test Guideline 404
Result : No skin irritation

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks : May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species	:	Rabbit
Result	:	Eye irritation

p-AMINOPHENOL:

Species	:	Rabbit
Result	:	No eye irritation

4-AMINO-2-HYDROXYTOLUENE:

Species	:	Non-standard test species
Result	:	No eye irritation
Method	:	OECD Test Guideline 438

m-AMINOPHENOL:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

May cause an allergic skin reaction.

Respiratory sensitization

Not classified based on available information.

Product:

Remarks	:	May cause sensitization.

Components:

p-AMINOPHENOL:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	May cause sensitization by skin contact.

4-AMINO-2-HYDROXYTOLUENE:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	The product is a skin sensitizer, sub-category 1A.

m-AMINOPHENOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	The product is a skin sensitizer, sub-category 1A.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

p-AMINOPHENOL:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Genotoxicity in vivo	:	Remarks: In vivo tests showed mutagenic effects
Germ cell mutagenicity - Assessment	:	In vitro tests showed mutagenic effects which were not observed with in vivo test.

4-AMINO-2-HYDROXYTOLUENE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Components:

p-AMINOPHENOL:

Carcinogenicity - Assessment	:	Not classifiable as a human carcinogen.

IARC No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility	:	Species: Rat

Fertility: NOAEL: 1,000 mg/kg body weight
Method: OECD Test Guideline 408
Result: Animal testing did not show any effects on fertility.

Effects on fetal development : Species: Rat
Developmental Toxicity: 950
Method: OECD Test Guideline 414
Result: No adverse effects.

Reproductive toxicity - Assessment : No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

p-AMINOPHENOL:

Effects on fertility : Species: Rat
Fertility: NOAEL: 100 mg/kg body weight
Method: OECD Test Guideline 421

Effects on fetal development : Species: Rat
Developmental Toxicity: 100
Method: OECD Test Guideline 421

Reproductive toxicity - Assessment : No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

4-AMINO-2-HYDROXYTOLUENE:

Effects on fertility : Species: Rat
Fertility: NOAEL: 200 mg/kg body weight
Result: Some evidence of adverse effects on development, based on animal experiments.

Effects on fetal development : Species: Rat
Developmental Toxicity: 180
Method: OECD Test Guideline 414
Result: No adverse effects.

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure : Inhalation
Assessment : May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Components:

p-AMINOPHENOL:

Routes of exposure : Ingestion
Assessment : The substance or mixture is classified as specific target organ

toxicant, repeated exposure, category 2.

m-AMINOPHENOL:

Assessment : The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

p-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

4-AMINO-2-HYDROXYTOLUENE:

Species	:	Rat, male and female
NOAEL	:	180 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

m-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	70 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks

Species	:	Rat, male and female
NOAEL	:	0.59 mg/kg
Application Route	:	Dermal
Exposure time	:	2 yr

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party

data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l
Toxicity to daphnia and other aquatic invertebrates	:	EC50: > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0.01 - 0.1 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6.4 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Non-standard test species): 30 mg/l Exposure time: 48 h
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.9 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	IC50 (Pseudomonas putida): 3,000 mg/l Exposure time: 16 h

AMMONIUM HYDROXIDE:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 0.75 mg/l Exposure time: 96 h
Toxicity to daphnia and other	:	EC50 (Daphnia magna (Water flea)): 101 mg/l

aquatic invertebrates		Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to fish (Chronic toxicity)	:	NOEC (Oncorhynchus mykiss (rainbow trout)): 1.2 mg/l Exposure time: 21 d Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.79 mg/l Exposure time: 21 d Method: OPPTS 850.1300

p-AMINOPHENOL:

Toxicity to fish	:	LC50 (Oryzias latipes (Japanese medaka)): 0.82 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0.182 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0.253 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0.083 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC (Oryzias latipes (Japanese medaka)): 0.049 mg/l Exposure time: 41 d Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.206 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	EC10 (activated sludge): 2.65 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

4-AMINO-2-HYDROXYTOLUENE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 25 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 2.3 mg/l Exposure time: 48 h Method: OECD Test Guideline 202 Remarks: No toxicity at the limit of solubility.
Toxicity to algae/aquatic	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 41 mg/l

plants		Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.24 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
Toxicity to microorganisms	:	IC50 (activated sludge): 150 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

m-AMINOPHENOL:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): > 100 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0.267 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 67.7 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
		EC10 (Pseudokirchneriella subcapitata (green algae)): 37.8 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC (Oryzias latipes (Japanese medaka)): 50 mg/l Exposure time: 21 d Method: OECD Test Guideline 204
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.05 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	EC10 (activated sludge): 406.4 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability	:	Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability	:	Result: Readily biodegradable.

Biodegradation: > 90 %
Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability : Result: Readily biodegradable.

p-AMINOPHENOL:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 6 %
Exposure time: 28 d
Method: OECD Test Guideline 301C

4-AMINO-2-HYDROXYTOLUENE:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: < 0.01 %
Exposure time: 28 d
Method: OECD Test Guideline 301B

m-AMINOPHENOL:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 0 %
Exposure time: 28 d
Method: OECD Test Guideline 301F

Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Bioconcentration factor (BCF): 70.79

Partition coefficient: n-octanol/water : log Pow: -1.28

p-AMINOPHENOL:

Bioaccumulation : Bioconcentration factor (BCF): 15 - 46
Method: OECD Test Guideline 305C

Partition coefficient: n-octanol/water : log Pow: -0.09
pH: 7.5
Method: OECD Test Guideline 107

4-AMINO-2-HYDROXYTOLUENE:

Partition coefficient: n-octanol/water	:	log Pow: 0.53 pH: 7.22 Method: OECD Test Guideline 117

m-AMINOPHENOL:

Bioaccumulation	:	Bioconcentration factor (BCF): 4

Mobility in soil

No data available

Other adverse effects

Product:

Ozone-Depletion Potential	:	Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
Additional ecological information	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues	:	The product should not be allowed to enter drains, water courses or the soil. Send to a licensed waste management company.
Contaminated packaging	:	Dispose of as unused product. Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

49 CFR
Not regulated as a dangerous good

International Regulations

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

CERCLA Reportable Quantity

Listed substances in the product are at low enough levels to not be expected to exceed the RQ

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards : Respiratory or skin sensitization
Skin corrosion or irritation
Serious eye damage or eye irritation

SARA 313 : The following components are subject to reporting levels established by SARA Title III, Section 313:

AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

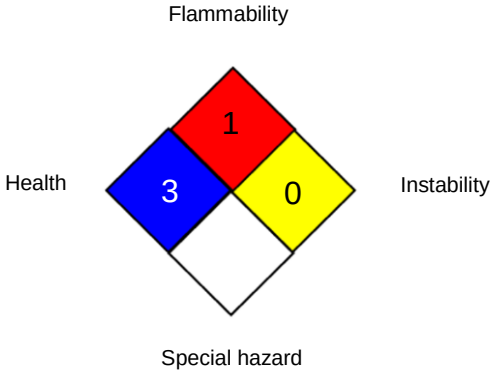
Clean Air Act

This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

SECTION 16. OTHER INFORMATION

Further information

NFPA 704:



Full text of other abbreviations

ACGIH	:	USA. ACGIH Threshold Limit Values (TLV)
NIOSH REL	:	USA. NIOSH Recommended Exposure Limits
ACGIH / TWA	:	8-hour, time-weighted average
ACGIH / STEL	:	Short-term exposure limit
NIOSH REL / TWA	:	Time-weighted average concentration for up to a 10-hour workday during a 40-hour workweek
NIOSH REL / ST	:	STEL - 15-minute TWA exposure that should not be exceeded at any time during a workday

AIIC - Australian Inventory of Industrial Chemicals; ASTM - American Society for the Testing of Materials; bw - Body weight; CERCLA - Comprehensive Environmental Response, Compensation, and Liability Act; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DOT - Department of Transportation; DSL - Domestic Substances List (Canada); ECx - Concentration associated with x% response; EHS - Extremely Hazardous Substance; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; ERG - Emergency Response Guide; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; HMIS - Hazardous Materials Identification System; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; MSHA - Mine Safety and Health Administration; n.o.s. - Not Otherwise Specified; NFPA - National Fire Protection Association; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NTP - National Toxicology Program; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumu-

lative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; RCRA - Resource Conservation and Recovery Act; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RQ - Reportable Quantity; SADT - Self-Accelerating Decomposition Temperature; SARA - Superfund Amendments and Reauthorization Act; SDS - Safety Data Sheet; TCSI - Taiwan Chemical Substance Inventory; TECI - Thailand Existing Chemicals Inventory; TSCA - Toxic Substances Control Act (United States); UN - United Nations; UNRTDG - United Nations Recommendations on the Transport of Dangerous Goods; vPvB - Very Persistent and Very Bioaccumulative

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

化学品安全技术说明书

PULP RIOT HIGH SPEED TONERS - GROUP 6

版本	修订日期:	SDS 编号:	前次修订日期: -
1.0	03/07/2024	00-21-410000001412	最初编制日期: 03/07/2024

部分 1. 鉴别

产品名称 : PULP RIOT HIGH SPEED TONERS - GROUP 6

制造商或供应商信息

地址 : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

电话号码 : 1-732-499-2745

电子邮件地址 : CORPREGAFFAIRSMSDS@LOREAL.COM

应急咨询电话

INFOTRAC : 1-800-535-5053（国际：+1 352-323-3500）（每天 24 小时提供服务。紧急服务可能无法提供 SDS/产品信息。）

推荐用途和限制用途

推荐用途 : 个人美容护理产品.

部分 2. 危险性概述

根据 OSHA 危险通报标准 (29 CFR 1910.1200) 的 GHS 分类

皮肤刺激 : 类别 2

严重眼睛损伤 : 类别 1

皮肤过敏 : 类别 1

GHS 标签要素

象形图 :

信号词 : 危险

危险性说明 : H315 造成皮肤刺激。
H317 可能造成皮肤过敏反应。

H318 造成严重眼损伤。

防范说明 : P102 儿童不得接触。
P103 使用前请读标签。

预防措施:

P261 避免吸入烟雾或蒸气。
P264 作业后彻底清洗皮肤。
P272 受污染的工作服不得带出工作场所。
P280 戴防护手套/戴防护眼罩/戴防护面具。

事故响应:

P302 + P352 如皮肤沾染：用肥皂和水充分清洗。
P305 + P351 + P338 + P310 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。立即呼叫急救中心/医生。
P333 + P313 如发生皮肤刺激或皮疹：求医/就诊。
P362 脱掉沾污的衣服。

废弃处置:

P501 将内装物/容器送到批准的废物处理厂处理。

附加的标记

混合物中含有以下百分比成分的物质其急性毒性未知： 3 %

其他危害

未见报道。

部分 3. 成分/组成信息

组分

化学品名称	化学文摘登记号 (CAS No.)	浓度或浓度范围 (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5
p-氨基苯酚	123-30-8	>= 0.1 - < 1
4-AMINO-2-HYDROXYTOLUENE	2835-95-2	>= 0.1 - < 1
m-氨基苯酚	591-27-5	>= 0.1 - < 1

实际浓度作为商业秘密保留

部分 4. 急救措施

一般的建议 : 请教医生。

吸入 : 如果症状持续，请就医。

皮肤接触	:	如果皮肤刺激持续，请就医。 如果皮肤接触了,用水彻底淋洗。
眼睛接触	:	如与眼睛接触,立即用大量水冲洗并就医。 取下隐形眼镜。 如果眼睛刺激持续，就医。
食入	:	用水漱口。 如果症状持续，请就医。
最重要的症状和健康影响	:	造成皮肤刺激。 可能造成皮肤过敏反应。 造成严重眼损伤。
对医生的特别提示	:	对症治疗。

部分 5. 消防措施

灭火方法及灭火剂	:	根据当时情况和周围环境采用适合的灭火措施。
不合适的灭火剂	:	未见报道。
特别危险性	:	不要让消防水流入下水道和河道。
有害燃烧产物	:	已知无有害燃烧产物
其他信息	:	防止消防水污染地表和地下水系统。 化学火灾的标准程序。
消防人员的特殊保护装备	:	如有必要，佩戴自给式呼吸器进行消防作业。

部分 6. 泄漏应急处理

人员防护措施、防护装备和应急处置程序	:	使用个人防护装备。
环境保护措施	:	防止产品进入下水道。 如能确保安全，可采取措施防止进一步的泄漏或溢出。
泄漏化学品的收容、清除方法及所使用的处置材料	:	用酸中和。 用惰性材料吸收（如砂子、硅胶、酸性粘结剂、通用粘结剂、锯末）。 放入合适的封闭的容器中待处理。

部分 7. 操作处置与储存

防火防爆的建议 : 一般性的防火保护措施。

安全处置注意事项 : 避免沾及眼睛。
避免曝露：使用前需要获得专门的指导。
有关个人防护,请看第 8 部分。
使用这种混合物的工艺生产岗位不要聘用：易皮肤过敏或哮喘、过敏体质、慢性或常发呼吸系统疾病的人。

安全储存条件 : 使容器保持密闭，储存在干燥通风处。

有关储存稳定性的更多信息 : 按指导方法贮存和使用不会产生分解。

部分 8. 接触控制和个体防护

危害组成及职业接触限值

组分	化学文摘登记号(CAS No.)	数值的类型 (接触形式)	控制参数 / 容许浓度	依据
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (氨)	ACGIH
		STEL	35 ppm (氨)	ACGIH
		TWA	25 ppm 18 mg/m3 (氨)	NIOSH REL
		ST	35 ppm 27 mg/m3 (氨)	NIOSH REL

个体防护装备

呼吸系统防护 : 一般来说无需个人呼吸防护设备。

手防护

备注 : 仅用於工业环境。 丁腈橡胶

眼睛防护 : 仅用於工业环境。
紧密贴合的防护眼罩

皮肤和身体防护 : 仅用於工业环境。
工作服或实验外衣。

卫生措施 : 使用时，严禁饮食。
使用时，严禁吸烟。
休息前及工作结束时洗手。

部分 9. 理化特性

物态	:	液体
颜色	:	无数据资料
气味	:	特征的
pH 值	:	10.5 - 11.1
熔点/凝固点	:	无数据资料
沸点/沸程	:	无法使用
闪点	:	> 199 华氏度 / > 93 ° C 方法: 国际标准 ISO 3679
燃点	:	不适用
爆炸上限 / 易燃上限	:	无数据资料
爆炸下限 / 易燃下限	:	无数据资料
蒸气压	:	无数据资料
蒸气密度	:	无数据资料
密度/相对密度	:	0.997 - 1.003 (68 华氏度 / 20 ° C)
溶解性		
水溶性	:	部分溶解
正辛醇/水分配系数	:	不适用
自燃温度	:	无数据资料
分解温度	:	不适用
黏度		
运动黏度	:	无数据资料
粉尘爆炸级别	:	不适用
粒径	:	不适用

部分 10. 稳定性和反应性

反应性	:	正常使用的条件下未见有危险反应。
稳定性	:	正常条件下稳定。
危险反应	:	按指导方法贮存和使用不会产生分解。
应避免的条件	:	无数据资料
禁配物	:	不适用
危险的分解产物	:	没有危险的分解产物。

部分 11. 毒理学信息

急性毒性

根据现有信息无需进行分类。

产品:

急性经口毒性	:	急性毒性估计值: > 5,000 mg/kg 方法: 计算方法

组分:

COCAMIDE MEA:

急性经口毒性	:	LD50: > 5,000 mg/kg 评估: 此物质或混合物无急性口服毒性
急性吸入毒性	:	急性毒性估计值: > 20 mg/l 暴露时间: 4 h 测试环境: 蒸气
急性经皮毒性	:	急性毒性估计值: > 5,000 mg/kg 评估: 此物质或混合物无急性皮肤毒性

COCAMIDOPROPYL BETAINE:

急性经口毒性	:	LD50 (大鼠, 雄性和雌性): > 5,000 mg/kg 方法: OECD 测试导则 401 评估: 此物质或混合物无急性口服毒性
急性经皮毒性	:	LD50 (大鼠, 雄性和雌性): > 2,000 mg/kg 方法: OECD 测试导则 402 评估: 此物质或混合物无急性皮肤毒性

AMMONIUM HYDROXIDE:

急性经口毒性	:	LD50 (大鼠, 雄性): 350 mg/kg 方法: OECD 测试导则 401

p-氨基苯酚:

急性经口毒性 : LD50 (大鼠, 雄性和雌性): 671 mg/kg
方法: OPPTS 870.1100

急性吸入毒性 : LC50 (大鼠, 雄性和雌性): > 3.42 mg/l
暴露时间: 4 h
测试环境: 粉尘/烟雾
方法: OECD 测试导则 403

急性经皮毒性 : LD50 (家兔): > 8,000 mg/kg
方法: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

急性经口毒性 : LD50 (大鼠, 雄性和雌性): 3,600 mg/kg

急性吸入毒性 : LC50 (大鼠, 雄性和雌性): 42.57 mg/l
暴露时间: 4 h
测试环境: 粉尘/烟雾
评估: 此物质或混合物无急性吸入毒性

急性经皮毒性 : LD50 (大鼠): 5,688 mg/kg
评估: 此物质或混合物无急性皮肤毒性

m-氨基苯酚:

急性经口毒性 : LD50 (大鼠, 雄性和雌性): > 500 - 2,000 mg/kg

急性吸入毒性 : LC50 (大鼠, 雄性和雌性): 1.162 mg/l
暴露时间: 4 h
测试环境: 粉尘/烟雾
方法: OECD 测试导则 403

急性经皮毒性 : LD50 (家兔): 8,112 mg/kg
评估: 此物质或混合物无急性皮肤毒性

皮肤腐蚀/刺激

造成皮肤刺激。

产品:

备注 : 对易感的人会引起皮肤刺激。

组分:

COCAMIDE MEA:

种属 : 家兔
结果 : 皮肤刺激

COCAMIDOPROPYL BETAINE:

种属 : 人体皮肤
结果 : 皮肤刺激

AMMONIUM HYDROXIDE:

种属 : 家兔
方法 : OECD 测试导则 404
结果 : 接触暴露 3 分钟到 1 小时后，产生腐蚀影响

p-氨基苯酚:

种属 : 家兔
结果 : 无皮肤刺激

4-AMINO-2-HYDROXYTOLUENE:

种属 : 人体皮肤
方法 : OECD 测试导则 431
结果 : 无皮肤刺激

m-氨基苯酚:

种属 : 家兔
方法 : OECD 测试导则 404
结果 : 无皮肤刺激

严重眼睛损伤/眼刺激

造成严重眼损伤。

产品:

备注 : 可能引起不可逆转的眼睛损伤。

组分:

COCAMIDE MEA:

种属 : 家兔
结果 : 对眼睛有不可逆转的影响

COCAMIDOPROPYL BETAINE:

种属 : 家兔
结果 : 眼睛刺激

p-氨基苯酚:

种属	:	家兔
结果	:	无眼睛刺激

4-AMINO-2-HYDROXYTOLUENE:

种属	:	非标准测试物种
结果	:	无眼睛刺激
方法	:	OECD 测试导则 438

m-氨基苯酚:

种属	:	家兔
结果	:	无眼睛刺激
方法	:	OECD 测试导则 405

呼吸或皮肤过敏

皮肤过敏

可能造成皮肤过敏反应。

呼吸过敏

根据现有信息无需进行分类。

产品:

备注	:	可能会引起过敏。

组分:

p-氨基苯酚:

接触途径	:	皮肤接触
种属	:	豚鼠
方法	:	OECD 测试导则 406
结果	:	接触皮肤可引起过敏。

4-AMINO-2-HYDROXYTOLUENE:

接触途径	:	皮肤接触
种属	:	小鼠
方法	:	OECD 测试导则 429
结果	:	此产品是一种皮肤敏化物，子栏目名称 1A。

m-氨基苯酚:

接触途径	:	皮肤接触
种属	:	小鼠
方法	:	OECD 测试导则 429
结果	:	此产品是一种皮肤敏化物，子栏目名称 1A。

生殖细胞致突变性

根据现有信息无需进行分类。

组分:

COCAMIDOPROPYL BETAINE:

体外基因毒性 : 备注: 体外试验未见突变效应

生殖细胞致突变性 - 评估 : 依证据权重不足以归类为生殖细胞致突变性物质。

AMMONIUM HYDROXIDE:

生殖细胞致突变性 - 评估 : 依证据权重不足以归类为生殖细胞致突变性物质。

p-氨基苯酚:

体外基因毒性 : 备注: 体外试验未见突变效应

体内基因毒性 : 备注: 体内试验表明有致突变效应

生殖细胞致突变性 - 评估 : 体外试验观察到的致突变效应未在体内试验中观察到。

4-AMINO-2-HYDROXYTOLUENE:

生殖细胞致突变性 - 评估 : 依证据权重不足以归类为生殖细胞致突变性物质。

致癌性

根据现有信息无需进行分类。

组分:

p-氨基苯酚:

致癌性 - 评估 : 不属于人类致癌物。

IARC 此产品中所有含量大于等于 0.1%的组分中，没有被 IARC 鉴别为已知或可能的致癌物。

OSHA 此产品中所有含量大于等于 0.1%的组分中，没有被 OSHA 鉴别为已知或潜在的致癌物。

NTP 此产品中所有含量大于等于 0.1%的组分中，没有被 NTP 鉴别为已知或预计的致癌物。

生殖毒性

根据现有信息无需进行分类。

组分:

COCAMIDOPROPYL BETAINE:

对繁殖性的影响 : 种属: 大鼠
生育能力: NOAEL: 1,000 mg/kg 体重

方法: OECD 测试导则 408
结果: 动物试验未见任何对生育能力的影响。

对胎儿发育的影响 : 种属: 大鼠
发育毒性: 950
方法: OECD 测试导则 414
结果: 无不良作用。

生殖毒性 - 评估 : 根据动物试验，没有对性功能，生殖或发育的不利影响。

p-氨基苯酚:

对繁殖性的影响 : 种属: 大鼠
生育能力: NOAEL: 100 mg/kg 体重
方法: OECD 测试导则 421

对胎儿发育的影响 : 种属: 大鼠
发育毒性: 100
方法: OECD 测试导则 421

生殖毒性 - 评估 : 根据动物试验，没有对性功能，生殖或发育的不利影响。

4-AMINO-2-HYDROXYTOLUENE:

对繁殖性的影响 : 种属: 大鼠
生育能力: NOAEL: 200 mg/kg 体重
结果: 根据动物试验，有一些对生长发育有影响的证据。

对胎儿发育的影响 : 种属: 大鼠
发育毒性: 180
方法: OECD 测试导则 414
结果: 无不良作用。

特异性靶器官系统毒性- 一次接触

根据现有信息无需进行分类。

组分:

AMMONIUM HYDROXIDE:

接触途径 : 吸入
评估 : 可能造成呼吸道刺激。

特异性靶器官系统毒性- 反复接触

根据现有信息无需进行分类。

组分:

p-氨基苯酚:

接触途径 : 食入
评估 : 此物质或混合物被分类为特异性靶器官系统毒物，反复暴露，

类别 2。

m-氨基苯酚:

评估 : 此物质或混合物未被分类为特异性靶器官系统毒物，反复暴露。

重复染毒毒性

组分:

COCAMIDOPROPYL BETAINE:

种属	:	大鼠,雄性和雌性
NOAEL	:	500 mg/kg
染毒途径	:	经口
暴露时间	:	28 天
方法	:	OECD 测试导则 407

p-氨基苯酚:

种属	:	大鼠,雄性和雌性
NOAEL	:	10 mg/kg
染毒途径	:	经口
暴露时间	:	13 周
方法	:	OECD 测试导则 408

4-AMINO-2-HYDROXYTOLUENE:

种属	:	大鼠,雄性和雌性
NOAEL	:	180 mg/kg
染毒途径	:	经口
暴露时间	:	13 周
方法	:	OECD 测试导则 408

m-氨基苯酚:

种属	:	大鼠,雄性和雌性
NOAEL	:	70 mg/kg
染毒途径	:	经口
暴露时间	:	13 周

种属	:	大鼠,雄性和雌性
NOAEL	:	0.59 mg/kg
染毒途径	:	经皮
暴露时间	:	2 年

吸入危害

根据现有信息无需进行分类。

其他信息

产品:

备注 : 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 12. 生态学信息

生态毒性

组分:

COCAMIDE MEA:

对鱼类的毒性	:	LC50 (鱼): > 10 - 100 mg/l
对水溞和其他水生无脊椎动物的毒性	:	EC50: > 1 - 10 mg/l
对藻类/水生植物的毒性	:	EC50 (海藻): > 1 - 10 mg/l
对水溞和其他水生无脊椎动物的毒性 (慢性毒性)	:	NOEC: > 0.01 - 0.1 mg/l
对微生物的毒性	:	EC10 (活性污泥): > 100 mg/l

COCAMIDOPROPYL BETAINE:

对鱼类的毒性	:	LC50 (Danio rerio (斑马鱼)): 2 mg/l 暴露时间: 96 h
对水溞和其他水生无脊椎动物的毒性	:	EC50 (Daphnia magna (水溞)): 6.4 mg/l 暴露时间: 48 h 方法: OECD 测试导则 202
对藻类/水生植物的毒性	:	EC50 (非标准测试物种): 30 mg/l 暴露时间: 48 h
对水溞和其他水生无脊椎动物的毒性 (慢性毒性)	:	NOEC (Daphnia magna (水溞)): 0.9 mg/l 暴露时间: 21 天 方法: OECD 测试导则 202
对微生物的毒性	:	IC50 (Pseudomonas putida (恶臭假单胞菌)): 3,000 mg/l 暴露时间: 16 h

AMMONIUM HYDROXIDE:

对鱼类的毒性	:	LC50 (Pimephales promelas (肥头鲦鱼)): 0.75 mg/l 暴露时间: 96 h
对水溞和其他水生无脊椎动物的毒性	:	EC50 (Daphnia magna (水溞)): 101 mg/l 暴露时间: 48 h 方法: OECD 测试导则 202
对鱼类的毒性 (慢性毒性)	:	NOEC (Oncorhynchus mykiss (虹鳟)): 1.2 mg/l 暴露时间: 21 天 方法: OECD 测试导则 210
对水溞和其他水生无脊椎动物的毒性 (慢性毒性)	:	NOEC (Daphnia magna (水溞)): 0.79 mg/l 暴露时间: 21 天 方法: OPPTS 850.1300

p-氨基苯酚:

对鱼类的毒性	:	LC50 (Oryzias latipes (日本青鳉)): 0.82 mg/l 暴露时间: 96 h 方法: OECD 测试导则 203
对水溞和其他水生无脊椎动物的毒性	:	EC50 (Daphnia magna (水溞)): 0.182 mg/l 暴露时间: 48 h 方法: OECD 测试导则 202
对藻类/水生植物的毒性	:	EC50 (Pseudokirchneriella subcapitata (绿藻)): 0.253 mg/l 暴露时间: 72 h 方法: OECD 测试导则 201 NOELR (Pseudokirchneriella subcapitata (绿藻)): 0.083 mg/l 暴露时间: 72 h 方法: OECD 测试导则 201
对鱼类的毒性 (慢性毒性)	:	NOEC (Oryzias latipes (日本青鳉)): 0.049 mg/l 暴露时间: 41 天 方法: OECD 测试导则 210
对水溞和其他水生无脊椎动物的毒性 (慢性毒性)	:	NOEC (Daphnia magna (水溞)): 0.206 mg/l 暴露时间: 21 天 方法: OECD 测试导则 202
对微生物的毒性	:	EC10 (活性污泥): 2.65 mg/l 暴露时间: 3 h 方法: OECD 测试导则 209

4-AMINO-2-HYDROXYTOLUENE:

对鱼类的毒性	:	LC50 (Danio rerio (斑马鱼)): 25 mg/l

暴露时间: 96 h

对水溞和其他水生无脊椎动物的毒性 : EC50 (Daphnia magna (水溞)): 2.3 mg/l
暴露时间: 48 h
方法: OECD 测试导则 202
备注: 在极限溶解浓度时无毒性

对藻类/水生植物的毒性 : EC50 (Pseudokirchneriella subcapitata (绿藻)): 41 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 0.24 mg/l
暴露时间: 21 天
方法: OECD 测试导则 211

对微生物的毒性 : IC50 (活性污泥): 150 mg/l
暴露时间: 3 h
方法: OECD 测试导则 209

m-氨基苯酚:

对鱼类的毒性 : LC50 (Danio rerio (斑马鱼)): > 100 mg/l
暴露时间: 96 h
方法: OECD 测试导则 203

对水溞和其他水生无脊椎动物的毒性 : EC50 (Daphnia magna (水溞)): 0.267 mg/l
暴露时间: 48 h
方法: OECD 测试导则 202

对藻类/水生植物的毒性 : EC50 (Pseudokirchneriella subcapitata (绿藻)): 67.7 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

EC10 (Pseudokirchneriella subcapitata (绿藻)): 37.8 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

对鱼类的毒性 (慢性毒性) : NOEC (Oryzias latipes (日本青鳉)): 50 mg/l
暴露时间: 21 天
方法: OECD 测试导则 204

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 0.05 mg/l
暴露时间: 21 天
方法: OECD 测试导则 202

对微生物的毒性 : EC10 (活性污泥): 406.4 mg/l
暴露时间: 3 h
方法: OECD 测试导则 209

持久性和降解性

组分:

COCAMIDE MEA:

生物降解性 : 结果: 快速生物降解的。

COCAMIDOPROPYL BETAINE:

生物降解性 : 结果: 快速生物降解的。
生物降解性: > 90 %
暴露时间: 14 天

AMMONIUM HYDROXIDE:

生物降解性 : 结果: 快速生物降解的。

p-氨基苯酚:

生物降解性 : 结果: 不易快速生物降解的。
生物降解性: 6 %
暴露时间: 28 天
方法: OECD 测试导则 301C

4-AMINO-2-HYDROXYTOLUENE:

生物降解性 : 结果: 不易快速生物降解的。
生物降解性: < 0.01 %
暴露时间: 28 天
方法: OECD 测试导则 301B

m-氨基苯酚:

生物降解性 : 结果: 不易快速生物降解的。
生物降解性: 0 %
暴露时间: 28 天
方法: OECD 测试导则 301F

生物蓄积潜力

组分:

COCAMIDE MEA:

正辛醇/水分配系数 : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

生物蓄积 : 生物富集系数(BCF): 70.79

正辛醇/水分配系数 : log Pow: -1.28

p-氨基苯酚:

生物蓄积 : 生物富集系数(BCF): 15 - 46
方法: OECD 测试导则 305C

正辛醇/水分配系数 : log Pow: -0.09
pH 值: 7.5
方法: OECD 测试导则 107

4-AMINO-2-HYDROXYTOLUENE:

正辛醇/水分配系数 : log Pow: 0.53
pH 值: 7.22
方法: OECD 测试导则 117

m-氨基苯酚:

生物蓄积 : 生物富集系数(BCF): 4

土壤中的迁移性

无数据资料

其他环境有害作用

产品:

臭氧消耗潜能值 : 法规: 40 CFR 环境保护; 第 82 部分平流层臭氧保护 - CAA 第 602 节 I 类物质
备注: 此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App.A + B)规定的 I 类或 II 类的臭氧破坏性（ODS）的物质。

其它生态信息 : 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 13. 废弃处置

处置方法

废弃化学品 : 本品不允许排入下水道,水道或土壤。
送往有执照的废弃物管理公司。

污染包装物 : 按未用产品处置。
不要重复使用倒空的容器。

部分 14. 运输信息

国内法规

49 CFR

不作为危险品管理

国际法规

空运(IATA-DGR)
不作为危险品管理

海运(IMDG-Code)
不作为危险品管理

按《MARPOL73/78 公约》附则 II 和 IBC 规则
不适用于供应的产品。

特殊防范措施
备注 : 根据运输法规，未被分类为危险品。

部分 15. 法规信息

欧洲癌症研究协会 可报告的量
产品中列出的物质含量足够低，预计不会超过 RQ

SARA 304 极危险的物质 可报告的量
此物质不含有任何与 304 EHS RQ 有关的组分。

SARA 302 极度危险物质阈值规划数量
该材料不包含任何符合 EHS TPQ 第 302 节的成分。

萨拉 311/312 危险 : 呼吸道或皮肤过敏
皮肤腐蚀或刺激
严重眼睛损伤或眼睛刺激

莎拉 313 : 根据 SARA 第 III 条，第 313 部分，以下成分是要申报的：

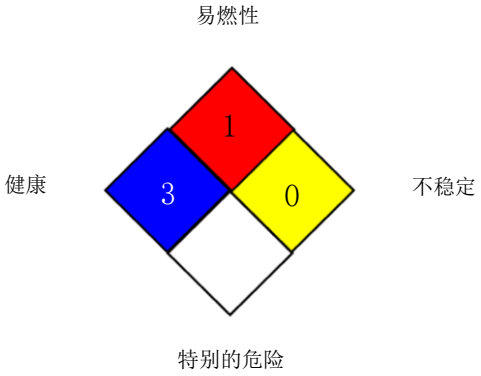
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

空气清洁法
此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App.A + B)规定的 1 类或 II 类的臭氧破坏性（ODS）的物质。
本品不含有美国空气洁净法第 112 部分(40 CFR 61)定义的任何危险空气污染物（HAP）。
此产品不包含在美国空气洁净法令 112(r)关于意外释放防范(40 CFR 68.130, Subpart F)部分的。

部分 16. 其他信息

其他信息

NFPA 704:



缩略语和首字母缩写

ACGIH	:	美国政府工业卫生学家会议(ACGIH)之阈限值 (TLV)
NIOSH REL	:	美国。 NIOSH 建议的暴露限值
ACGIH / TWA	:	8 小时，时间加权平均值
ACGIH / STEL	:	短期暴露限制
NIOSH REL / TWA	:	每周 40 小时工作期间，每天最多 10 小时工作日的时间加权平均浓度
NIOSH REL / ST	:	STEL - 15 分钟 TWA 暴露量，工作日任何时间都不应超过

FICHA DE DATOS DE SEGURIDAD

PULP RIOT HIGH SPEED TONERS - GROUP 6

Versión	Fecha de revisión:	Número SDS:	Fecha de la última expedición: -
1.0	03/07/2024	00-21-410000001412	Fecha de la primera expedición: 03/07/2024

SECCIÓN 1. IDENTIFICACIÓN

Nombre del producto : PULP RIOT HIGH SPEED TONERS - GROUP 6

Informaciones sobre el fabricante o el proveedor

Dirección : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Teléfono : 1-732-499-2745

E-mail de contacto : CORPREGAFFAIRSMSDS@LOREAL.COM

Teléfono de emergencia

INFOTRAC : 1-800-535-5053 (Internacional: +1 352-323-3500) (Disponible las 24 horas del día. Es posible que la SDS/información del producto no esté disponible para el Servicio de emergencia).

Uso recomendado del producto químico y restricciones de uso

Uso recomendado : Producto de cuidado personal para uso cosmético.

SECCIÓN 2. IDENTIFICACIÓN DE LOS PELIGROS

Clasificación GHS de acuerdo con Norma de Comunicación de Riesgos de OSHA (29 CFR 1910.1200)

Irritación cutáneas : Categoría 2

Lesiones oculares graves : Categoría 1

Sensibilización cutánea : Categoría 1

Elementos de etiquetado GHS

Pictogramas de peligro :

Palabra de advertencia : Peligro

Indicaciones de peligro : H315 Provoca irritación cutánea.
H317 Puede provocar una reacción alérgica en la piel.
H318 Provoca lesiones oculares graves.

Consejos de prudencia : P102 Mantener fuera del alcance de los niños.
P103 Leer la etiqueta antes del uso.

Prevención:

P261 Evitar respirar la niebla o los vapores.
P264 Lavarse la piel concienzudamente tras la manipulación.
P272 La ropa de trabajo contaminada no debe salir del lugar de trabajo.
P280 Llevar guantes/equipo de protección para los ojos/ la cara.

Intervención:

P302 + P352 EN CASO DE CONTACTO CON LA PIEL: Lavar con agua y jabón abundantes.
P305 + P351 + P338 + P310 EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado. Llamar inmediatamente a un CENTRO DE TOXICOLOGÍA/ médico.
P333 + P313 En caso de irritación o erupción cutánea: Consultar a un médico.
P362 Quitarse las prendas contaminadas y lavarlas antes de volver a usarlas.

Eliminación:

P501 Eliminar el contenido/ el recipiente en una planta de eliminación de residuos autorizada.

Etiquetado adicional

El siguiente porcentaje de la mezcla se compone de ingrediente(s) con toxicidad aguda desconocida: 3 %

Otros peligros

Ninguna conocida.

SECCIÓN 3. COMPOSICIÓN/INFORMACIÓN SOBRE LOS COMPONENTES

Componentes

Nombre químico	No. CAS	Concentración (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5
p-AMINOPHENOL	123-30-8	>= 0.1 - < 1
4-AMINO-2-HYDROXYTOLUENE	2835-95-2	>= 0.1 - < 1
m-AMINOPHENOL	591-27-5	>= 0.1 - < 1

La concentración real se retiene como secreto comercial

SECCIÓN 4. PRIMEROS AUXILIOS

Recomendaciones generales : Consultar a un médico.

Si es inhalado	:	Si los síntomas persisten consultar a un médico.
En caso de contacto con la piel	:	Si continúa la irritación de la piel, llamar al médico. Si esta en piel, aclare bien con agua.
En caso de contacto con los ojos	:	En caso de contacto con los ojos, lávenlos inmediata y abundantemente con agua y acúdase a un médico. Retirar las lentillas. Si persiste la irritación de los ojos, consultar a un especialista.
Por ingestión	:	Enjuague la boca con agua. Si los síntomas persisten consultar a un médico.
Principales síntomas y efectos, agudos y retardados	:	Provoca irritación cutánea. Puede provocar una reacción alérgica en la piel. Provoca lesiones oculares graves.
Notas para el médico	:	Tratar sintomáticamente.

SECCIÓN 5. MEDIDAS DE LUCHA CONTRA INCENDIOS

Medios de extinción apropiados	:	Usar medidas de extinción que sean apropiadas a las circunstancias del local y a sus alrededores.
Medios de extinción no apropiados	:	Ninguna conocida.
Peligros específicos en la lucha contra incendios	:	No permita que las aguas de extinción entren en el alcantarillado o en los cursos de agua.
Productos de combustión peligrosos	:	No se conocen productos de combustión peligrosos
Otros datos	:	Impedir la contaminación de las aguas superficiales o subterráneas por el agua que ha servido a la extinción de incendios. Procedimiento estándar para fuegos químicos.
Equipo de protección especial para el personal de lucha contra incendios	:	Si es necesario, usar equipo de respiración autónomo para la lucha contra el fuego.

SECCIÓN 6. MEDIDAS EN CASO DE VERTIDO ACCIDENTAL

Precauciones personales, equipo de protección y procedimientos de emergencia	:	Utilícese equipo de protección individual.
Precauciones relativas al medio ambiente	:	Evite que el producto penetre en el alcantarillado. Impedir nuevos escapes o derrames si puede hacerse sin

riesgos.

Métodos y material de contención y de limpieza : Neutralizar con ácido.
Recojer con un producto absorbente inerte (por ejemplo, arena, diatomita, fijador de ácidos, fijador universal, serrín).
Guardar en contenedores apropiados y cerrados para su eliminación.

SECCIÓN 7. MANIPULACIÓN Y ALMACENAMIENTO

Indicaciones para la protección contra incendio y explosión : Disposiciones normales de protección preventivas de incendio.

Consejos para una manipulación segura : Evítese el contacto con los ojos.
Evítese la exposición - recábense instrucciones especiales antes del uso.
Equipo de protección individual, ver sección 8.
Las personas susceptibles a problemas de sensibilización de piel o asma, alergias, enfermedades respiratorias crónicas o recurrentes, no deben ser empleadas en ningún proceso en el cual se esté utilizando esta mezcla.

Condiciones para el almacenaje seguro : Conservar el envase herméticamente cerrado en un lugar seco y bien ventilado.

Más información acerca de la estabilidad durante el almacenamiento : No se descompone si se almacena y aplica como se indica.

SECCIÓN 8. CONTROLES DE EXPOSICIÓN/ PROTECCIÓN INDIVIDUAL

Componentes con valores límite ambientales de exposición profesional.

Componentes	No. CAS	Tipo de valor (Forma de exposición)	Parámetros de control / Concentración permisible	Base
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Amoniaco)	ACGIH
		STEL	35 ppm (Amoniaco)	ACGIH
		TWA	25 ppm 18 mg/m3 (Amoniaco)	NIOSH REL
		ST	35 ppm 27 mg/m3 (Amoniaco)	NIOSH REL

Protección personal

Protección respiratoria : Normalmente no requiere el uso de un equipo de protección individual respiratorio.

Protección de las manos

Observaciones	:	De aplicación solamente en entornos industriales. Caucho nitrílo
Protección de los ojos	:	De aplicación solamente en entornos industriales. Gafas de seguridad ajustadas al contorno del rostro
Protección de la piel y del cuerpo	:	De aplicación solamente en entornos industriales. Uniforme de trabajo o bata de laboratorio.
Medidas de higiene	:	No comer ni beber durante su utilización. No fumar durante su utilización. Lávense las manos antes de los descansos y después de terminar la jornada laboral.

SECCIÓN 9. PROPIEDADES FÍSICAS Y QUÍMICAS

Estado físico	:	líquido
Color	:	Sin datos disponibles
Olor	:	característico
pH	:	10.5 - 11.1
Punto de fusión/ punto de congelación	:	Sin datos disponibles
Punto /intervalo de ebullición	:	No disponible
Punto de inflamación	:	> 199 °F / > 93 °C Método: ISO 3679
Punto de incendio	:	No aplicable
Límite superior de explosividad / Limites de inflamabilidad superior	:	Sin datos disponibles
Límites inferior de explosividad / Límites de inflamabilidad inferior	:	Sin datos disponibles
Presión de vapor	:	Sin datos disponibles

Densidad relativa del vapor	:	Sin datos disponibles
Densidad relativa	:	0.997 - 1.003 (68 °F / 20 °C)
Solubilidad(es)		
Solubilidad en agua	:	parcialmente soluble
Coeficiente de reparto n-octanol/agua	:	No aplicable
Temperatura de auto-inflamación	:	Sin datos disponibles
Temperatura de descomposición	:	No aplicable
Viscosidad		
Viscosidad, cinemática	:	Sin datos disponibles
Clase de explosión del polvo	:	No aplica
Tamaño de partícula	:	No aplicable

SECCIÓN 10. ESTABILIDAD Y REACTIVIDAD

Reactividad	:	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Estabilidad química	:	Estable en condiciones normales.
Posibilidad de reacciones peligrosas	:	No se descompone si se almacena y aplica como se indica.
Condiciones que deben evitarse	:	Sin datos disponibles
Materiales incompatibles	:	No aplicable
Productos de descomposición peligrosos	:	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. INFORMACIÓN TOXICOLÓGICA

Toxicidad aguda

No está clasificado en base a la información disponible.

Producto:

Toxicidad oral aguda	:	Estimación de la toxicidad aguda: > 5,000 mg/kg Método: Método de cálculo

Componentes:

COCAMIDE MEA:

Toxicidad oral aguda	:	DL50: > 5,000 mg/kg Valoración: La sustancia o mezcla no presenta toxicidad oral aguda
Toxicidad aguda por inhalación	:	Estimación de la toxicidad aguda: > 20 mg/l Tiempo de exposición: 4 h Prueba de atmosfera: vapor
Toxicidad cutánea aguda	:	Estimación de la toxicidad aguda: > 5,000 mg/kg Valoración: La sustancia o mezcla no presenta ninguna toxicidad aguda por vía cutánea

COCAMIDOPROPYL BETAINE:

Toxicidad oral aguda	:	DL50 (Rata, machos y hembras): > 5,000 mg/kg Método: Directrices de ensayo 401 del OECD Valoración: La sustancia o mezcla no presenta toxicidad oral aguda
Toxicidad cutánea aguda	:	DL50 (Rata, machos y hembras): > 2,000 mg/kg Método: Directrices de ensayo 402 del OECD Valoración: La sustancia o mezcla no presenta ninguna toxicidad aguda por vía cutánea

AMMONIUM HYDROXIDE:

Toxicidad oral aguda	:	DL50 (Rata, macho): 350 mg/kg Método: Directrices de ensayo 401 del OECD

p-AMINOPHENOL:

Toxicidad oral aguda	:	DL50 (Rata, machos y hembras): 671 mg/kg Método: OPPTS 870.1100
Toxicidad aguda por inhalación	:	CL50 (Rata, machos y hembras): > 3.42 mg/l Tiempo de exposición: 4 h Prueba de atmosfera: polvo/niebla Método: Directrices de ensayo 403 del OECD
Toxicidad cutánea aguda	:	DL50 (Conejo): > 8,000 mg/kg Método: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Toxicidad oral aguda	:	DL50 (Rata, machos y hembras): 3,600 mg/kg
Toxicidad aguda por inhalación	:	CL50 (Rata, machos y hembras): 42.57 mg/l Tiempo de exposición: 4 h Prueba de atmosfera: polvo/niebla Valoración: La sustancia o mezcla no presenta toxicidad aguda por inhalación

Toxicidad cutánea aguda : DL50 (Rata): 5,688 mg/kg
Valoración: La sustancia o mezcla no presenta ninguna toxicidad aguda por vía cutánea

m-AMINOPHENOL:

Toxicidad oral aguda : DL50 (Rata, machos y hembras): > 500 - 2,000 mg/kg

Toxicidad aguda por inhalación : CL50 (Rata, machos y hembras): 1.162 mg/l
Tiempo de exposición: 4 h
Prueba de atmosfera: polvo/niebla
Método: Directrices de ensayo 403 del OECD

Toxicidad cutánea aguda : DL50 (Conejo): 8,112 mg/kg
Valoración: La sustancia o mezcla no presenta ninguna toxicidad aguda por vía cutánea

Corrosión o irritación cutáneas

Provoca irritación cutánea.

Producto:

Observaciones : Puede producir irritaciones en la piel en personas predispuestas.

Componentes:

COCAMIDE MEA:

Especies : Conejo
Resultado : Irritación de la piel

COCAMIDOPROPYL BETAINE:

Especies : piel humana
Resultado : Irritación de la piel

AMMONIUM HYDROXIDE:

Especies : Conejo
Método : Directrices de ensayo 404 del OECD
Resultado : Corrosivo después de 3 minutos a 1 hora de exposición

p-AMINOPHENOL:

Especies : Conejo
Resultado : No irrita la piel

4-AMINO-2-HYDROXYTOLUENE:

Especies : piel humana
Método : Directrices de ensayo 431 del OECD
Resultado : No irrita la piel

m-AMINOPHENOL:

Especies	:	Conejo
Método	:	Directrices de ensayo 404 del OECD
Resultado	:	No irrita la piel

Lesiones o irritación ocular graves

Provoca lesiones oculares graves.

Producto:

Observaciones	:	Puede lesionar los ojos de forma irreversible.

Componentes:

COCAMIDE MEA:

Especies	:	Conejo
Resultado	:	Efectos irreversibles en los ojos

COCAMIDOPROPYL BETAINE:

Especies	:	Conejo
Resultado	:	Irritación ocular

p-AMINOPHENOL:

Especies	:	Conejo
Resultado	:	No irrita los ojos

4-AMINO-2-HYDROXYTOLUENE:

Especies	:	Especies de ensayo no estándares
Resultado	:	No irrita los ojos
Método	:	Directrices de ensayo 438 del OECD

m-AMINOPHENOL:

Especies	:	Conejo
Resultado	:	No irrita los ojos
Método	:	Directrices de ensayo 405 del OECD

Sensibilización respiratoria o cutánea

Sensibilización cutánea

Puede provocar una reacción alérgica en la piel.

Sensibilización respiratoria

No está clasificado en base a la información disponible.

Producto:

Observaciones	:	Puede causar sensibilización.

Componentes:

p-AMINOPHENOL:

Vía de exposición	:	Contacto con la piel
Especies	:	Conejillo de indias
Método	:	Directrices de ensayo 406 del OECD
Resultado	:	Posibilidad de sensibilización en contacto con la piel.

4-AMINO-2-HYDROXYTOLUENE:

Vía de exposición	:	Contacto con la piel
Especies	:	Ratón
Método	:	Directrices de ensayo 429 del OECD
Resultado	:	El producto es un sensibilizador de la piel, sub-categoría 1A.

m-AMINOPHENOL:

Vía de exposición	:	Contacto con la piel
Especies	:	Ratón
Método	:	Directrices de ensayo 429 del OECD
Resultado	:	El producto es un sensibilizador de la piel, sub-categoría 1A.

Mutagenicidad en células germinales

No está clasificado en base a la información disponible.

Componentes:

COCAMIDOPROPYL BETAINE:

Genotoxicidad in vitro	:	Observaciones: Las pruebas in vitro no mostraron efectos mutágenos
Mutagenicidad en células germinales - Valoración	:	El peso de la evidencia no soporta la clasificación como un mutágeno de célula germinal.

AMMONIUM HYDROXIDE:

Mutagenicidad en células germinales - Valoración	:	El peso de la evidencia no soporta la clasificación como un mutágeno de célula germinal.

p-AMINOPHENOL:

Genotoxicidad in vitro	:	Observaciones: Las pruebas in vitro no mostraron efectos mutágenos
Genotoxicidad in vivo	:	Observaciones: Las pruebas in vivo mostraron efectos mutágenos
Mutagenicidad en células germinales - Valoración	:	Las pruebas in vitro demostraron efectos mutágenos los cuáles no fueron observados con la prueba in vivo.

4-AMINO-2-HYDROXYTOLUENE:

Mutagenicidad en células germinales - Valoración	:	El peso de la evidencia no soporta la clasificación como un mutágeno de célula germinal.

Carcinogenicidad

No está clasificado en base a la información disponible.

Componentes:

p-AMINOPHENOL:

Carcinogenicidad - Valoración : No clasificable como agente carcinógeno para el humano.

IARC No se identifica ningún componente de este producto, que presente niveles mayores que o igual a 0,1% como agente carcinógeno humano probable, posible o confirmado por la (IARC) Agencia Internacional de Investigaciones sobre Carcinógenos.

OSHA Ningún componente de este producto está presente en niveles superiores o iguales al 0,1 % por lo que no se encuentra en la lista de OSHA de carcinógenos regulados.

NTP En este producto no se identifica ningún componente, que presente niveles mayores que o iguales a 0.1%, como agente carcinógeno conocido o anticipado por el (NTP) Programa Nacional de Toxicología.

Toxicidad para la reproducción

No está clasificado en base a la información disponible.

Componentes:

COCAMIDOPROPYL BETAINE:

Efectos en la fertilidad : Especies: Rata
Fertilidad: NOAEL: 1,000 peso corporal en mg/kg
Método: Directrices de ensayo 408 del OECD
Resultado: Las pruebas en animales no demuestran efectos en la fertilidad.

Efectos en el desarrollo fetal : Especies: Rata
Toxicidad para el desarrollo: 950
Método: Directrices de ensayo 414 del OECD
Resultado: Sin efectos secundarios.

Toxicidad para la reproducción - Valoración : No hay evidencia de efectos adversos sobre la función sexual y la fertilidad, o sobre el desarrollo, basado en experimentos con animales.

p-AMINOPHENOL:

Efectos en la fertilidad : Especies: Rata
Fertilidad: NOAEL: 100 peso corporal en mg/kg
Método: Directrices de ensayo 421 del OECD

Efectos en el desarrollo fetal : Especies: Rata
Toxicidad para el desarrollo: 100
Método: Directrices de ensayo 421 del OECD

Toxicidad para la reproduc- : No hay evidencia de efectos adversos sobre la función sexual

ción - Valoración		y la fertilidad, o sobre el desarrollo, basado en experimentos con animales.

4-AMINO-2-HYDROXYTOLUENE:

Efectos en la fertilidad	:	Especies: Rata Fertilidad: NOAEL: 200 peso corporal en mg/kg Resultado: Algunas evidencias de efectos adversos sobre el desarrollo, basado en experimentos con animales.
Efectos en el desarrollo fetal	:	Especies: Rata Toxicidad para el desarrollo: 180 Método: Directrices de ensayo 414 del OECD Resultado: Sin efectos secundarios.

Toxicidad específica en determinados órganos (stot) - exposición única

No está clasificado en base a la información disponible.

Componentes:

AMMONIUM HYDROXIDE:

Vía de exposición	:	Inhalación
Valoración	:	Puede irritar las vías respiratorias.

Toxicidad específica en determinados órganos (stot) - exposiciones repetidas

No está clasificado en base a la información disponible.

Componentes:

p-AMINOPHENOL:

Vía de exposición	:	Ingestión
Valoración	:	La sustancia o mezcla se clasifica como tóxica específica de órganos diana, exposición repetida, categoría 2.

m-AMINOPHENOL:

Valoración	:	La sustancia o mezcla no se clasifica como tóxica específica de órganos diana, exposición repetida.

Toxicidad por dosis repetidas

Componentes:

COCAMIDOPROPYL BETAINE:

Especies	:	Rata, machos y hembras
NOAEL	:	500 mg/kg
Vía de aplicación	:	Oral
Tiempo de exposición	:	28 d
Método	:	Directrices de ensayo 407 del OECD

p-AMINOPHENOL:

Especies	:	Rata, machos y hembras
NOAEL	:	10 mg/kg

Vía de aplicación : Oral
Tiempo de exposición : 13 Semana
Método : Directrices de ensayo 408 del OECD

4-AMINO-2-HYDROXYTOLUENE:

Especies : Rata, machos y hembras
NOAEL : 180 mg/kg
Vía de aplicación : Oral
Tiempo de exposición : 13 Semana
Método : Directrices de ensayo 408 del OECD

m-AMINOPHENOL:

Especies : Rata, machos y hembras
NOAEL : 70 mg/kg
Vía de aplicación : Oral
Tiempo de exposición : 13 Semana

Especies : Rata, machos y hembras
NOAEL : 0.59 mg/kg
Vía de aplicación : Cutáneo
Tiempo de exposición : 2 a

Toxicidad por aspiración

No está clasificado en base a la información disponible.

Otros datos

Producto:

Observaciones : En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 12. INFORMACIÓN ECOLÓGICA

Ecotoxicidad

Componentes:

COCAMIDE MEA:

Toxicidad para los peces : CL50 (Pez): > 10 - 100 mg/l

Toxicidad para las dafnias y otros invertebrados acuáticos : CE50: > 1 - 10 mg/l

Toxicidad para las algas/plantas acuáticas : CE50 (algas): > 1 - 10 mg/l

Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC: > 0.01 - 0.1 mg/l
Toxicidad para los microorganismos	:	EC10 (lodos activados): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicidad para los peces	:	CL50 (Danio rerio (pez zebra)): 2 mg/l Tiempo de exposición: 96 h
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 6.4 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para las algas/plantas acuáticas	:	CE50 (Especies de ensayo no estándares): 30 mg/l Tiempo de exposición: 48 h
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.9 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 202 del OECD
Toxicidad para los microorganismos	:	CI50 (Pseudomonas putida): 3,000 mg/l Tiempo de exposición: 16 h

AMMONIUM HYDROXIDE:

Toxicidad para los peces	:	CL50 (Pimephales promelas (Piscardo de cabeza gorda)): 0.75 mg/l Tiempo de exposición: 96 h
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 101 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Oncorhynchus mykiss (Trucha irisada)): 1.2 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 210 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.79 mg/l Tiempo de exposición: 21 d Método: OPPTS 850.1300

p-AMINOPHENOL:

Toxicidad para los peces	:	CL50 (Oryzias latipes (medaka)): 0.82 mg/l Tiempo de exposición: 96 h Método: Directrices de ensayo 203 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 0.182 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD

Toxicidad para las algas/plantas acuáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0.253 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD NOELR (Pseudokirchneriella subcapitata (alga verde)): 0.083 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Oryzias latipes (medaka)): 0.049 mg/l Tiempo de exposición: 41 d Método: Directrices de ensayo 210 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.206 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 202 del OECD
Toxicidad para los microorganismos	:	EC10 (lodos activados): 2.65 mg/l Tiempo de exposición: 3 h Método: Directrices de ensayo 209 del OECD

4-AMINO-2-HYDROXYTOLUENE:

Toxicidad para los peces	:	CL50 (Danio rerio (pez zebra)): 25 mg/l Tiempo de exposición: 96 h
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 2.3 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD Observaciones: No es tóxico en caso de solubilidad límite
Toxicidad para las algas/plantas acuáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 41 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.24 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 211 del OECD
Toxicidad para los microorganismos	:	CI50 (lodos activados): 150 mg/l Tiempo de exposición: 3 h Método: Directrices de ensayo 209 del OECD

m-AMINOPHENOL:

Toxicidad para los peces	:	CL50 (Danio rerio (pez zebra)): > 100 mg/l Tiempo de exposición: 96 h Método: Directrices de ensayo 203 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 0.267 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD

Toxicidad para las algas/plantas acuáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 67.7 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD EC10 (Pseudokirchneriella subcapitata (alga verde)): 37.8 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Oryzias latipes (medaka)): 50 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 204 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.05 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 202 del OECD
Toxicidad para los microorganismos	:	EC10 (lodos activados): 406.4 mg/l Tiempo de exposición: 3 h Método: Directrices de ensayo 209 del OECD

Persistencia y degradabilidad

Componentes:

COCAMIDE MEA:

Biodegradabilidad	:	Resultado: Fácilmente biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradabilidad	:	Resultado: Fácilmente biodegradable. Biodegradación: > 90 % Tiempo de exposición: 14 d

AMMONIUM HYDROXIDE:

Biodegradabilidad	:	Resultado: Fácilmente biodegradable.

p-AMINOPHENOL:

Biodegradabilidad	:	Resultado: No es fácilmente biodegradable. Biodegradación: 6 % Tiempo de exposición: 28 d Método: Directrices de ensayo 301 C del OECD

4-AMINO-2-HYDROXYTOLUENE:

Biodegradabilidad	:	Resultado: No es fácilmente biodegradable. Biodegradación: < 0.01 % Tiempo de exposición: 28 d Método: Directrices de ensayo 301 B del OECD

m-AMINOPHENOL:

Biodegradabilidad : Resultado: No es fácilmente biodegradable.
Biodegradación: 0 %
Tiempo de exposición: 28 d
Método: Directrices de ensayo 301F del OECD

Potencial de bioacumulación

Componentes:

COCAMIDE MEA:

Coeficiente de reparto n-octanol/agua : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Bioacumulación : Factor de bioconcentración (FBC): 70.79

Coeficiente de reparto n-octanol/agua : log Pow: -1.28

p-AMINOPHENOL:

Bioacumulación : Factor de bioconcentración (FBC): 15 - 46
Método: Directrices de ensayo 305C del OECD

Coeficiente de reparto n-octanol/agua : log Pow: -0.09
pH: 7.5
Método: Directrices de ensayo 107 del OECD

4-AMINO-2-HYDROXYTOLUENE:

Coeficiente de reparto n-octanol/agua : log Pow: 0.53
pH: 7.22
Método: Directrices de ensayo 117 del OECD

m-AMINOPHENOL:

Bioacumulación : Factor de bioconcentración (FBC): 4

Movilidad en el suelo

Sin datos disponibles

Otros efectos adversos

Producto:

Potencial de agotamiento del ozono : Regulacion: De acuerdo con las Regulaciones de Estados Unidos, se encuentra incluído en el listado de 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances
Observaciones: Este producto no contiene, ni ha sido fabricado con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio

de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).

Información ecológica complementaria : En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 13. CONSIDERACIONES RELATIVAS A LA ELIMINACIÓN

Métodos de eliminación.

Residuos : No se debe permitir que el producto penetre en los desagües, tuberías, o la tierra (suelos).
Envíese a una compañía autorizada para la gestión de desechos.

Envases contaminados : Eliminar como producto no usado.
No reutilizar los recipientes vacíos.

SECCIÓN 14. INFORMACIÓN RELATIVA AL TRANSPORTE

Regulación doméstica

49 CFR
No está clasificado como producto peligroso.

Regulaciones internacionales

IATA-DGR
No está clasificado como producto peligroso.

Código-IMDG
No está clasificado como producto peligroso.

Transporte a granel con arreglo al anexo II del Convenio Marpol 73/78 y del Código IBC
No aplicable al producto suministrado.

Precauciones particulares para los usuarios

Observaciones : Producto no peligroso según los criterios de la reglamentación del transporte.

SECCIÓN 15. INFORMACIÓN REGLAMENTARIA

CERCA Cantidad Reportable
Los niveles de las sustancias mencionadas en el producto son lo suficientemente bajos que no se espera que excedan la RQ

SARA 304 Sustancias extremadamente peligrosas Cantidad Reportable
Este material no contiene ningún componente en la sección 304 EHS RQ .

Cantidad de planeación de umbral SARA 302 Sustancias Extremadamente peligrosas
Este material no contiene componentes con una sección 302 EHS TPQ.

SARA 311/312 Peligros : Sensibilización respiratoria o cutánea
Corrosión cutánea o irritación
Lesiones oculares graves o irritación ocular

SARA 313 : Los siguientes componentes están sujetos a los niveles de referencia establecidos por SARA Título III, Sección 313:

AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

Ley del Aire Limpio

Este producto no contiene, ni ha sido fabricado con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).
Este producto no contiene ningún contaminante atmosférico peligroso (HAP), tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 112 (40 CFR 61).
Este producto no contiene ningún producto químico que figure en el Acta de Aire Limpio de los EE.UU. Sección 112(r) para la Prevención de Liberación Accidental (40 CFR 68.130, Sub-parte F).

SECCIÓN 16. OTRA INFORMACIÓN

PULP RIOT HIGH SPEED TONERS - GROUP 6

Phiên bản 1.0	Ngày tháng sửa đổi, bổ sung gần nhất: 03/07/2024	MÃ SỐ PHIẾU CHỈ DẪN AN TOÀN: 00-21-410000001412	Ngày ban hành cuối cùng: - Ngày ban hành đầu tiên: 03/07/2024

Phần 1. NHẬN DẠNG

Tên sản phẩm : PULP RIOT HIGH SPEED TONERS - GROUP 6

Thông tin nhà cung cấp (nhập khẩu; sản xuất; phân phối)

Địa chỉ : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Điện thoại : 1-732-499-2745

Địa chỉ e-mail : CORPREGAFFAIRSMSDS@LOREAL.COM

Số điện thoại liên hệ trong trường hợp khẩn cấp

INFOTRAC : 1-800-535-5053 (Quốc tế: +1 352-323-3500) (Có sẵn 24 giờ một ngày. Thông tin SDS/Sản phẩm có thể không có sẵn cho Dịch vụ khẩn cấp.)

Mục đích sử dụng và hạn chế khi sử dụng

Mục đích sử dụng : Mỹ phẩm.

Phần 2. THÔNG TIN VỀ SỰ NGUY HẠI

Phân loại GHS theo Tiêu chuẩn truyền thông nguy hiểm của OSHA (29 CFR 1910.1200)

Kích ứng da : Cấp 2

Gây tổn thương nặng cho mắt : Cấp 1

Nhạy cảm với da : Cấp 1

Các yếu tố nhãn theo GHS

Hình đồ cảnh báo nguy cơ :

Từ cảnh báo : Nguy hiểm

Cảnh báo nguy hiểm : H315 Gây kích ứng da.

H317 Có thể gây ra phản ứng dị ứng da.
H318 Gây tổn thương mắt nghiêm trọng.

Các lưu ý phòng ngừa : P102 Để xa tầm tay của trẻ.
P103 Đọc nhãn trước khi sử dụng.

Biện pháp phòng ngừa:

P261 Tránh hít phải hơi sương hoặc hơi.
P264 Rửa sạch da thật kỹ sau khi thao tác với hoá chất.
P272 Quần áo làm việc bị nhiễm bẩn không được phép mang ra khỏi nơi làm việc.
P280 Đeo găng tay bảo hộ/ bảo vệ mắt/ bảo vệ mặt.

Biện pháp ứng phó:

P302 + P352 NẾU TIẾP XÚC LÊN DA: Rửa bằng nhiều nước và xà phòng.
P305 + P351 + P338 + P310 NẾU BAY VÀO MẮT: Rửa cẩn thận bằng nước trong một vài phút. Tháo bỏ kính áp tròng nếu có và dễ làm. Tiếp tục rửa. Gọi ngay cho TRUNG TÂM CHỐNG ĐỘC hoặc bác sỹ.
P333 + P313 Nếu xảy ra hiện tượng kích ứng da hoặc nổi mẩn: Tìm kiếm sự tư vấn/ chăm sóc y tế.
P362 Cởi bỏ quần áo bị nhiễm hoá chất và giặt sạch trước khi tái sử dụng.

Việc thải bỏ:

P501 Tiêu hủy thành phần bên trong/ thùng chứa hóa chất tại cơ sở xử lý chất thải đủ tiêu chuẩn.

Dán nhãn bổ sung

Các phần trăm sau đây của hỗn hợp chứa các thành phần không rõ độc tính cấp: 3 %

Các nguy cơ khác

Được biết là chưa xảy ra.

Phần 3. THÀNH PHẦN/THÔNG TIN VỀ CÁC PHỤ LIỆU

Thành phần

Tên hóa học	Số CAS	Nồng độ (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5
p-AMINOPHENOL	123-30-8	>= 0.1 - < 1
4-AMINO-2-HYDROXYTOLUENE	2835-95-2	>= 0.1 - < 1
m-AMINOPHENOL	591-27-5	>= 0.1 - < 1

Nồng độ thực tế được giữ lại như một bí mật thương mại

Phần 4. BIỆN PHÁP SƠ CỨU VỀ Y TẾ

Lời khuyên chung : Tham vấn bác sĩ.

Trường hợp tai nạn tiếp xúc theo đường hô hấp	:	Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.
Trường hợp tai nạn tiếp xúc trên da	:	Liên hệ với bác sĩ nếu hiện tượng kích ứng da kéo dài. Nếu ở trên da, rửa sạch bằng nước.
Trường hợp tai nạn khi tiếp xúc với mắt	:	Trong trường hợp tiếp xúc với mắt, ngay lập tức rửa mắt bằng nhiều nước và hỏi ý kiến bác sĩ. Gỡ bỏ kính áp tròng. Liên hệ với chuyên gia nếu hiện tượng kích ứng ở mắt kéo dài.
Trường hợp tai nạn theo đường tiêu hóa	:	Xúc miệng bằng nước. Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.
Các triệu chứng/tác hại nghiêm trọng tức thời và ảnh hưởng sau này	:	Gây kích ứng da. Có thể gây ra phản ứng dị ứng da. Gây tổn thương mắt nghiêm trọng.
Lưu ý đối với bác sỹ điều trị	:	Điều trị theo triệu trứng.

Phần 5. BIỆN PHÁP XỬ LÝ KHI CÓ HỎA HOẠN

Các phương tiện chữa cháy thích hợp	:	Sử dụng các biện pháp chữa cháy phù hợp với hoàn cảnh địa phương và môi trường xung quanh.
Các phương tiện chữa cháy không thích hợp	:	Được biết là chưa xảy ra.
Các nguy hiểm cụ thể khi chữa cháy	:	Không để nước chữa cháy chảy xuống cống và ao hồ.
Các chất độc được sinh ra khi bị cháy	:	Chưa từng biết có các sản phẩn gây nổ độc hại
Thông tin khác	:	Ngăn chặn việc nước chữa cháy gây ô nhiễm cho nguồn nước mặt hoặc hệ thống nước ngầm. Quy trình chuẩn dùng trong cháy nổ hóa chất
Thiết bị bảo hộ đặc biệt dành cho lính cứu hỏa	:	Đeo các dụng cụ thở cá nhân khi chữa cháy nếu cần thiết.

Phần 6. BIỆN PHÁP PHÒNG NGỪA, ỨNG PHÓ KHI CÓ SỰ CỐ

Trang thiết bị bảo hộ và quy trình ứng phó sự cố	:	Sử dụng các thiết bị bảo hộ cá nhân.
Các cảnh báo về môi trường	:	Ngăn ngừa không cho sản phẩm đi vào hệ thống cống rãnh.

Ngăn ngừa việc rò rỉ hoặc tràn đổ tiếp theo nếu việc việc làm này an toàn.

Biện pháp, vật liệu vệ sinh sau khi xảy ra sự cố : Trung hoà bằng axít.
Hút khô bằng các vật liệu hút nước trơ (ví dụ như cát, silicagen, chất liên kết axit, chất liên kết phổ thông, mùn cưa).
Giữ trong các bình chứa kín thích hợp để tiêu huỷ.

Phần 7. YÊU CẦU VỀ SỬ DỤNG, BẢO QUẢN

Lời khuyên khi bảo vệ khỏi cháy nổ : Các biện pháp thông thường nhằm ngăn ngừa hoả hoạn.

Biện pháp, điều kiện cần áp dụng khi sử dụng, thao tác với hóa chất nguy hiểm : Tránh tiếp xúc với mắt.
Tránh phơi nhiễm - tìm đọc các hướng dẫn đặc biệt trước khi dùng.
Về bảo hộ cá nhân, xem phần 8.
Những người dễ bị mắc bệnh về da, hen xuyễn, dị ứng hoặc các bệnh mãn tính về đường hô hấp không được làm việc trong bất kỳ quá trình nào có sử dụng chất pha chế này.

Biện pháp, điều kiện cần áp dụng khi bảo quản : Đóng kín bình chứa, đặt tại nơi khô ráo và thông gió tốt.

Thêm thông tin về độ ổn định kho lưu trữ : Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.

Phần 8. KIỂM SOÁT PHƠI NHIỄM/YÊU CẦU VỀ THIẾT BỊ BẢO VỆ CÁ NHÂN

Các thành phần có các thông số cần kiểm soát tại nơi làm việc

Thành phần	Số CAS	Loại giá trị (Dạng phơi nhiễm)	Các thông số kiểm soát / Nồng độ cho phép	Cơ sở
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Amoniac)	ACGIH
		STEL	35 ppm (Amoniac)	ACGIH
		TWA	25 ppm 18 mg/m3 (Amoniac)	NIOSH REL
		ST	35 ppm 27 mg/m3 (Amoniac)	NIOSH REL

Biện pháp và thiết bị bảo hộ cá nhân

Bảo vệ hô hấp : Thông thường không yêu cầu các thiết bị bảo hộ hô hấp cá nhân.

Bảo vệ tay

Ghi chú	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Cao su nitrile
Bảo vệ mắt	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Kính bảo hộ vừa khít
Bảo vệ da và cơ thể	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc đồng phục hoặc áo choàng phòng thí nghiệm.
Các biện pháp vệ sinh	:	Không được ăn hoặc uống khi sử dụng. Không hút thuốc khi sử dụng. Rửa tay trước khi nghỉ giải lao và vào cuối ngày làm việc.

Phần 9. ĐẶC TÍNH LÝ, HÓA CỦA HÓA CHẤT

Trạng thái vật lý	:	thể lỏng
Màu sắc	:	chưa có dữ liệu
Mùi đặc trưng	:	đặc tính
Độ pH	:	10.5 - 11.1
Điểm/khoảng nóng chảy/đông đặc	:	chưa có dữ liệu
Điểm sôi/khoảng sôi	:	Không có sẵn
Điểm cháy	:	> 199 °F / > 93 °C Phương pháp: ISO 3679
Nhiệt Độ Cháy	:	Không áp dụng được
Giới hạn trên của cháy nổ / Giới hạn trên của sự bốc cháy	:	chưa có dữ liệu
Giới hạn dưới của cháy nổ / Giới hạn dưới của sự bốc cháy	:	chưa có dữ liệu
Áp suất hóa hơi	:	chưa có dữ liệu
Tỷ trọng hơi tương đối	:	chưa có dữ liệu
Tỷ trọng tương đối	:	0.997 - 1.003 (68 °F / 20 °C)

Độ hòa tan		
Độ hòa tan trong nước	:	hòa tan một phần
Hệ số phân tán: n-octanol/nước	:	Không áp dụng được
Nhiệt độ tự bốc cháy	:	chưa có dữ liệu
Nhiệt độ phân hủy	:	Không áp dụng được
Độ nhớt		
Độ nhớt, động học	:	chưa có dữ liệu
Loại nổ tạo bụi	:	không áp dụng
Kích thước hạt	:	Không áp dụng được

Phần 10. MỨC ỔN ĐỊNH VÀ PHẢN ỨNG CỦA HÓA CHẤT

Khả năng phản ứng	:	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Tính ổn định	:	Ổn định trong các điều kiện thông thường.
Phản ứng nguy hiểm	:	Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.
Các điều kiện cần tránh	:	chưa có dữ liệu
Vật liệu không tương thích	:	Không áp dụng được
Phản ứng phân hủy và các sản phẩm độc của phản ứng phân hủy	:	Không sản phẩm phân hủy nguy hại nào được biết đến.

Phần 11. THÔNG TIN VỀ ĐỘC TÍNH

Độc cấp tính

Không được phân loại dựa trên thông tin có sẵn.

Sản phẩm:

Độc tính cấp theo đường miệng	:	Ước lượng độc tính cấp: > 5,000 mg/kg Phương pháp: Phương pháp tính toán

Thành phần:

COCAMIDE MEA:

Độc tính cấp theo đường miệng	:	LD50: > 5,000 mg/kg Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường miệng

Độc tính cấp do hít phải	:	Ước lượng độc tính cấp: > 20 mg/l Thời gian phơi nhiễm: 4 h Không khí kiểm nghiệm: hơi
Độc tính cấp qua da	:	Ước lượng độc tính cấp: > 5,000 mg/kg Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính qua da

COCAMIDOPROPYL BETAINE:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, Đực và cái): > 5,000 mg/kg Phương pháp: Hướng dẫn xét nghiệm OECD 401 Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường miệng
Độc tính cấp qua da	:	LD50 (Chuột, Đực và cái): > 2,000 mg/kg Phương pháp: Hướng dẫn xét nghiệm OECD 402 Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính qua da

AMMONIUM HYDROXIDE:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, con đực): 350 mg/kg Phương pháp: Hướng dẫn xét nghiệm OECD 401

p-AMINOPHENOL:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, Đực và cái): 671 mg/kg Phương pháp: OPPTS 870.1100
Độc tính cấp do hít phải	:	LC50 (Chuột, Đực và cái): > 3.42 mg/l Thời gian phơi nhiễm: 4 h Không khí kiểm nghiệm: bụi / hơi sương Phương pháp: Hướng dẫn xét nghiệm OECD 403
Độc tính cấp qua da	:	LD50 (Thỏ): > 8,000 mg/kg Phương pháp: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, Đực và cái): 3,600 mg/kg
Độc tính cấp do hít phải	:	LC50 (Chuột, Đực và cái): 42.57 mg/l Thời gian phơi nhiễm: 4 h Không khí kiểm nghiệm: bụi / hơi sương Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường hô hấp
Độc tính cấp qua da	:	LD50 (Chuột): 5,688 mg/kg Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính qua da

m-AMINOPHENOL:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, Đực và cái): > 500 - 2,000 mg/kg
Độc tính cấp do hít phải	:	LC50 (Chuột, Đực và cái): 1.162 mg/l Thời gian phơi nhiễm: 4 h Không khí kiểm nghiệm: bụi / hơi sương Phương pháp: Hướng dẫn xét nghiệm OECD 403
Độc tính cấp qua da	:	LD50 (Thỏ): 8,112 mg/kg Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính qua da

Ăn mòn/kích ứng da

Gây kích ứng da.

Sản phẩm:

Ghi chú	:	Có thể gây kích ứng da với những người dễ bị tổn thương

Thành phần:

COCAMIDE MEA:

Loài	:	Thỏ
Kết quả	:	Kích ứng da

COCAMIDOPROPYL BETAINE:

Loài	:	da người
Kết quả	:	Kích ứng da

AMMONIUM HYDROXIDE:

Loài	:	Thỏ
Phương pháp	:	Hướng dẫn xét nghiệm OECD 404
Kết quả	:	Gây ăn mòn sau khi tiếp xúc từ 3 phút đến 1 giờ

p-AMINOPHENOL:

Loài	:	Thỏ
Kết quả	:	Không gây kích ứng da

4-AMINO-2-HYDROXYTOLUENE:

Loài	:	da người
Phương pháp	:	Hướng dẫn xét nghiệm OECD 431
Kết quả	:	Không gây kích ứng da

m-AMINOPHENOL:

Loài : Thỏ
Phương pháp : Hướng dẫn xét nghiệm OECD 404
Kết quả : Không gây kích ứng da

Tổn thương mắt nghiêm trọng/kích ứng mắt

Gây tổn thương mắt nghiêm trọng.

Sản phẩm:

Ghi chú : Có thể gây tổn thương mắt không thể phục hồi

Thành phần:

COCAMIDE MEA:

Loài : Thỏ
Kết quả : Những ảnh hưởng không thể phục hồi lên mắt

COCAMIDOPROPYL BETAINE:

Loài : Thỏ
Kết quả : Kích ứng mắt

p-AMINOPHENOL:

Loài : Thỏ
Kết quả : Không gây kích ứng mắt

4-AMINO-2-HYDROXYTOLUENE:

Loài : Các loài thử nghiệm không đạt tiêu chuẩn
Kết quả : Không gây kích ứng mắt
Phương pháp : Hướng dẫn xét nghiệm OECD 438

m-AMINOPHENOL:

Loài : Thỏ
Kết quả : Không gây kích ứng mắt
Phương pháp : Hướng dẫn xét nghiệm OECD 405

Kích thích hô hấp hoặc da

Nhạy cảm với da

Có thể gây ra phản ứng dị ứng da.

Nhạy cảm với hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Sản phẩm:

Ghi chú : Có thể gây mẫn cảm.

Thành phần:

p-AMINOPHENOL:

Đường tiếp xúc	:	Tiếp xúc với da
Loài	:	Chuột lang
Phương pháp	:	Hướng dẫn xét nghiệm OECD 406
Kết quả	:	Có thể gây kích ứng khi tiếp xúc với da.

4-AMINO-2-HYDROXYTOLUENE:

Đường tiếp xúc	:	Tiếp xúc với da
Loài	:	Chuột nhắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 429
Kết quả	:	Sản phẩm này là chất gây kích thích da, phân nhóm 1A.

m-AMINOPHENOL:

Đường tiếp xúc	:	Tiếp xúc với da
Loài	:	Chuột nhắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 429
Kết quả	:	Sản phẩm này là chất gây kích thích da, phân nhóm 1A.

Đột biến tế bào mầm (tế bào gen)

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

COCAMIDOPROPYL BETAINE:

Độc tính gây đột biến gen trong ống thí nghiệm	:	Ghi chú: Các thử nghiệm trong ống nghiệm không cho thấy các tác nhân gây đột biến.
Đột biến tế bào mầm (tế bào gen) - Đánh giá	:	Trọng số bằng chứng không đủ khẳng định xếp loại là biến đổi tế bào mầm.

AMMONIUM HYDROXIDE:

Đột biến tế bào mầm (tế bào gen) - Đánh giá	:	Trọng số bằng chứng không đủ khẳng định xếp loại là biến đổi tế bào mầm.

p-AMINOPHENOL:

Độc tính gây đột biến gen trong ống thí nghiệm	:	Ghi chú: Các thử nghiệm trong ống nghiệm không cho thấy các tác nhân gây đột biến.
Độc tính gây đột biến gen trong cơ thể	:	Ghi chú: Các thử nghiệm trên cơ thể sinh vật sống cho thấy các tác nhân gây đột biến.
Đột biến tế bào mầm (tế bào gen) - Đánh giá	:	Các thử nghiệm trong ống nghiệm cho thấy các ảnh hưởng gây đột biến mà không quan sát được khi tiến hành thử nghiệm trên cơ thể sinh vật sống.

4-AMINO-2-HYDROXYTOLUENE:

Đột biến tế bào mầm (tế bào	:	Trọng số bằng chứng không đủ khẳng định xếp loại là biến

gen) - Đánh giá | đổi tế bào mầm.

Tác nhân gây ung thư

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

p-AMINOPHENOL:

Tác nhân gây ung thư - Đánh giá : Không được phân loại là chất gây ung thư ở người.

IARC Không có thành phần nào của sản phẩm ở mức cao hơn hoặc bằng 0.1 % được xác định là chất nghi ngờ, có thể hoặc chắc chắn gây ung thư ở người theo quy định của IARC.

OSHA Không có thành phần nào trong sản phẩm này có nồng độ lớn hơn hoặc bằng 0,1% nằm trong danh sách chất gây ung thư thuộc diện quản lý của OSHA.

NTP Không có thành phần nào của sản phẩm này ở mức cao hơn hoặc bằng 0.1 % được xác định là chất gây ung thư hoặc chất được dự đoán là gây ung thư theo NTP.

Độc tính sinh sản

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

COCAMIDOPROPYL BETAINE:

Ảnh hưởng đến khả năng sinh sản : Loài: Chuột
Khả năng sinh sản: NOAEL: 1,000 mg/kg trọng lượng cơ thể
Phương pháp: Hướng dẫn xét nghiệm OECD 408
Kết quả: Các thí nghiệm thú vật cho thấy không có tác hại đến khả năng sinh sản.

Ảnh hưởng đến sự phát triển của thai : Loài: Chuột
Độc tính đối với sự phát triển: 950
Phương pháp: Hướng dẫn xét nghiệm OECD 414
Kết quả: Không gây hại.

Độc tính sinh sản - Đánh giá : Không có bằng chứng về các ảnh hưởng có hại đối với chức năng sinh dục, sinh sản hay đối với sự phát triển, dựa vào các thực nghiệm trên động vật.

p-AMINOPHENOL:

Ảnh hưởng đến khả năng sinh sản : Loài: Chuột
Khả năng sinh sản: NOAEL: 100 mg/kg trọng lượng cơ thể
Phương pháp: Hướng dẫn xét nghiệm OECD 421

Ảnh hưởng đến sự phát triển của thai : Loài: Chuột
Độc tính đối với sự phát triển: 100
Phương pháp: Hướng dẫn xét nghiệm OECD 421

Độc tính sinh sản - Đánh giá : Không có bằng chứng về các ảnh hưởng có hại đối với chức năng sinh dục, sinh sản hay đối với sự phát triển, dựa vào các thực nghiệm trên động vật.

4-AMINO-2-HYDROXYTOLUENE:

Ảnh hưởng đến khả năng sinh sản : Loài: Chuột
Khả năng sinh sản: NOAEL: 200 mg/kg trọng lượng cơ thể
Kết quả: Một vài bằng chứng về những ảnh hưởng có hại đối với sự phát triển, dựa vào các thí nghiệm trên động vật

Ảnh hưởng đến sự phát triển của thai : Loài: Chuột
Độc tính đối với sự phát triển: 180
Phương pháp: Hướng dẫn xét nghiệm OECD 414
Kết quả: Không gây hại.

STOT - Tiếp xúc một lần

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

AMMONIUM HYDROXIDE:

Đường tiếp xúc : Hít phải
Đánh giá : Có thể gây kích ứng hô hấp.

STOT - Tiếp xúc lặp lại

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

p-AMINOPHENOL:

Đường tiếp xúc : Nuốt phải
Đánh giá : Chất hoặc hỗn hợp được phân loại là chất độc đối với các cơ quan đích cụ thể, phơi nhiễm nhiều lần, hạng 2.

m-AMINOPHENOL:

Đánh giá : Chất hoặc chất độc không được phân loại là chất độc đối với các cơ quan đích cụ thể, phơi nhiễm nhiều lần.

Lượng độc lặp lại

Thành phần:

COCAMIDOPROPYL BETAINE:

Loài : Chuột, Đực và cái
NOAEL : 500 mg/kg
Lộ trình ứng dụng : Đường miệng
Thời gian phơi nhiễm : 28 d
Phương pháp : Hướng dẫn xét nghiệm OECD 407

p-AMINOPHENOL:

Loài	:	Chuột, Đực và cái
NOAEL	:	10 mg/kg
Lộ trình ứng dụng	:	Đường miệng
Thời gian phơi nhiễm	:	13 wk
Phương pháp	:	Hướng dẫn xét nghiệm OECD 408

4-AMINO-2-HYDROXYTOLUENE:

Loài	:	Chuột, Đực và cái
NOAEL	:	180 mg/kg
Lộ trình ứng dụng	:	Đường miệng
Thời gian phơi nhiễm	:	13 wk
Phương pháp	:	Hướng dẫn xét nghiệm OECD 408

m-AMINOPHENOL:

Loài	:	Chuột, Đực và cái
NOAEL	:	70 mg/kg
Lộ trình ứng dụng	:	Đường miệng
Thời gian phơi nhiễm	:	13 wk

Loài	:	Chuột, Đực và cái
NOAEL	:	0.59 mg/kg
Lộ trình ứng dụng	:	Da
Thời gian phơi nhiễm	:	2 năm

Độc tính hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Thông tin khác

Sản phẩm:

Ghi chú	:	Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 12. THÔNG TIN VỀ SINH THÁI

Độc môi trường

Thành phần:

COCAMIDE MEA:

Độc đối với cá	:	LC50 (Cá): > 10 - 100 mg/l
Độc tính đối các loài giáp xác	:	EC50: > 1 - 10 mg/l

và các động vật không xương sống thủy sinh khác

Độc tính đối với tảo/thực vật dưới nước	:	EC50 (tảo): > 1 - 10 mg/l
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC: > 0.01 - 0.1 mg/l
Độc tính đối với các vi sinh vật	:	EC10 (Than hoạt tính): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Độc đối với cá	:	LC50 (Danio rerio (cá vằn)): 2 mg/l Thời gian phơi nhiễm: 96 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 6.4 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Các loài thử nghiệm không đạt tiêu chuẩn): 30 mg/l Thời gian phơi nhiễm: 48 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.9 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với các vi sinh vật	:	IC50 (Pseudomonas putida (Vi khuẩn Pseudomonas putida)): 3,000 mg/l Thời gian phơi nhiễm: 16 h

AMMONIUM HYDROXIDE:

Độc đối với cá	:	LC50 (Pimephales promelas (cá tuế đầu to)): 0.75 mg/l Thời gian phơi nhiễm: 96 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 101 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Oncorhynchus mykiss (cá hồi cầu vồng)): 1.2 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 210
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.79 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: OPPTS 850.1300

p-AMINOPHENOL:

Độc đối với cá	:	LC50 (Oryzias latipes (biết đến với cá mồi Nhật Bản)): 0.82 mg/l Thời gian phơi nhiễm: 96 h Phương pháp: Hướng dẫn xét nghiệm OECD 203
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 0.182 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Pseudokirchneriella subcapitata (tảo lục)): 0.253 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201 NOELR (Pseudokirchneriella subcapitata (tảo lục)): 0.083 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Oryzias latipes (biết đến với cá mồi Nhật Bản)): 0.049 mg/l Thời gian phơi nhiễm: 41 d Phương pháp: Hướng dẫn xét nghiệm OECD 210
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.206 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với các vi sinh vật	:	EC10 (Than hoạt tính): 2.65 mg/l Thời gian phơi nhiễm: 3 h Phương pháp: Hướng dẫn xét nghiệm OECD 209

4-AMINO-2-HYDROXYTOLUENE:

Độc đối với cá	:	LC50 (Danio rerio (cá vằn)): 25 mg/l Thời gian phơi nhiễm: 96 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 2.3 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202 Ghi chú: Không có độc tính ở giới hạn hòa tan
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Pseudokirchneriella subcapitata (tảo lục)): 41 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.24 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 211
Độc tính đối với các vi sinh	:	IC50 (Than hoạt tính): 150 mg/l

vật		Thời gian phơi nhiễm: 3 h Phương pháp: Hướng dẫn xét nghiệm OECD 209

m-AMINOPHENOL:

Độc đối với cá	:	LC50 (Danio rerio (cá vằn)): > 100 mg/l Thời gian phơi nhiễm: 96 h Phương pháp: Hướng dẫn xét nghiệm OECD 203
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 0.267 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Pseudokirchneriella subcapitata (tảo lục)): 67.7 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201 EC10 (Pseudokirchneriella subcapitata (tảo lục)): 37.8 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Oryzias latipes (biết đến với cá mồi Nhật Bản)): 50 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 204
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.05 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với các vi sinh vật	:	EC10 (Than hoạt tính): 406.4 mg/l Thời gian phơi nhiễm: 3 h Phương pháp: Hướng dẫn xét nghiệm OECD 209

Tính bền vững, khó phân hủy và khả năng phân hủy

Thành phần:

COCAMIDE MEA:

Tính phân hủy sinh học	:	Kết quả: Dễ phân huỷ sinh học.

COCAMIDOPROPYL BETAINE:

Tính phân hủy sinh học	:	Kết quả: Dễ phân huỷ sinh học. Phân hủy sinh học: > 90 % Thời gian phơi nhiễm: 14 d

AMMONIUM HYDROXIDE:

Tính phân hủy sinh học	:	Kết quả: Dễ phân huỷ sinh học.

p-AMINOPHENOL:

Tính phân hủy sinh học : Kết quả: Không dễ phân huỷ sinh học.
Phân hủy sinh học: 6 %
Thời gian phơi nhiễm: 28 d
Phương pháp: OECD Hướng dẫn xét nghiệm 301C

4-AMINO-2-HYDROXYTOLUENE:

Tính phân hủy sinh học : Kết quả: Không dễ phân huỷ sinh học.
Phân hủy sinh học: < 0.01 %
Thời gian phơi nhiễm: 28 d
Phương pháp: OECD Hướng dẫn xét nghiệm 301B

m-AMINOPHENOL:

Tính phân hủy sinh học : Kết quả: Không dễ phân huỷ sinh học.
Phân hủy sinh học: 0 %
Thời gian phơi nhiễm: 28 d
Phương pháp: Hướng dẫn xét nghiệm OECD 301F

Khả năng tích lũy sinh học

Thành phần:

COCAMIDE MEA:

Hệ số phân tán: n-octanol/nước : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Tính tích lũy sinh học : Yếu tố nồng độ sinh học (BCF): 70.79

Hệ số phân tán: n-octanol/nước : log Pow: -1.28

p-AMINOPHENOL:

Tính tích lũy sinh học : Yếu tố nồng độ sinh học (BCF): 15 - 46
Phương pháp: Hướng dẫn xét nghiệm OECD 305C

Hệ số phân tán: n-octanol/nước : log Pow: -0.09
Độ pH: 7.5
Phương pháp: Hướng dẫn xét nghiệm OECD 107

4-AMINO-2-HYDROXYTOLUENE:

Hệ số phân tán: n-octanol/nước : log Pow: 0.53
Độ pH: 7.22
Phương pháp: Hướng dẫn xét nghiệm OECD 117

m-AMINOPHENOL:

Tính tích lũy sinh học : Yếu tố nồng độ sinh học (BCF): 4

Độ linh động trong đất

chưa có dữ liệu

Các tác hại khác

Sản phẩm:

Có khả năng gây suy giảm tầng ozon	:	Quy định: 40 CFR Bảo vệ Môi trường; Phần 82 Bảo vệ tầng ôzôn bình lưu - CAA Phần 602 Các chất loại I Ghi chú: Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt. A, App.A + B) .
Các thông tin sinh thái khác	:	Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 13. THÔNG TIN VỀ THẢI BỎ

Các biện pháp thải bỏ

Chất thải từ cặn	:	Không được đổ sản phẩm vào cống, rãnh, mương, máng, nơi nước chảy hoặc vứt xuống đất. Gửi đến cho một công ty xử lý chất thải có giấy phép
Bao bì nhiễm độc	:	Loại bỏ như đối với sản phẩm không sử dụng. Không tái sử dụng các thùng chứa rỗng.

Phần 14. THÔNG TIN KHI VẬN CHUYỂN

Quy định quốc gia

49 CFR

Chưa được quy định là hàng hóa nguy hiểm

Quy định Quốc tế

IATA-DGR

Chưa được quy định là hàng hóa nguy hiểm

Mã IMDG

Chưa được quy định là hàng hóa nguy hiểm

Vận chuyển trong tàu lớn theo như Phụ lục II của Công ước MARPOL 73/78 và Bộ luật IBC

Không áp dụng cho sản phẩm khi được cung cấp.

Những cảnh báo đặc biệt mà người sử dụng cần lưu ý

Ghi chú	:	Không bị xếp vào loại nguy hiểm hiểu theo các quy định về vận tải.

Phần 15. THÔNG TIN VỀ PHÁP LUẬT

CERCLA Số lượng báo cáo

Các chất được liệt kê trong sản phẩm ở mức đủ thấp để không vượt quá RQ

Các hóa chất cực kỳ nguy hại SARA 304 Số lượng báo cáo

Nguyên liệu này không chứa bất cứ thành phần nào thuộc quy định của mục 304 EHS RQ.

SARA 302 Lập kế hoạch ngưỡng cho các chất cực kỳ nguy hiểm Số lượng

Vật liệu này không chứa bất kỳ thành phần nào có phần 302 EHS TPQ.

SARA 311/312 Các nguy cơ : Gây mẫn cảm đường hô hấp hoặc da
Ăn mòn hoặc kích ứng da
Tổn thương mắt nghiêm trọng hoặc kích ứng mắt

SARA 313 : Các thành phần sau đây là đối tượng cần báo cáo theo quy định SARA, Chương III, Mục 313:

AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

Đạo luật không khí sạch

Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt. A, App.A + B) .
Sản phẩm này không chứa bất kỳ chất ô nhiễm không khí nguy hại nào (HAP) theo như Đạo luật Không khí sạch của Hoa Kỳ, mục 112 (40 CFR 61).
Sản phẩm này không chứa bất kỳ chất nào được liệt kê trong Đạo luật không khí sạch của Hoa Kỳ, Mục 112 (r) Ngăn ngừa Phát thải do sự cố (40 CFR 68.130 phần phụ F).

Phần 16. CÁC THÔNG TIN CẦN THIẾT KHÁC, BAO GỒM CÁC THÔNG TIN KHI XÂY DỰNG VÀ HIỆU ĐÍNH PHIẾU AN TOÀN HÓA CHẤT

Thông tin khác

NFPA 704:

SAFETY DATA SHEET

PULP RIOT HIGH SPEED TONERS - GROUP 6

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	03/07/2024	00-21-410000001412	Date of first issue: 03/07/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT HIGH SPEED TONERS - GROUP 6

Other means of identification : No data available

Manufacturer or supplier's details

Address : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

National Poisons Control Center : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (This telephone nuer is available during office hours only.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the Hazardous Products Regulations

Skin irritation : Category 2

Serious eye damage : Category 1

Skin sensitization : Sub-category 1A

GHS label elements

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P261 Avoid breathing mist or vapors.
P264 Wash skin thoroughly after handling.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P302 + P352 IF ON SKIN: Wash with plenty of water.
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.
P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Additional Labeling

The following percentage of the mixture consists of ingredient(s) with unknown acute toxicity: 3 %

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	Common Name/Synonym	CAS-No.	Concentration (% w/w)
COCAMIDE MEA	Amides, coco, N-(hydroxyethyl)	68140-00-1	>= 10 - < 30 *
COCAMIDOPROPYL BETAINE	1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-coco acyl derivs., hydroxides, inner salts	61789-40-0	>= 1 - < 5 *
AMMONIUM	ammonia	1336-21-6	>= 1 - < 5 *

HYDROXIDE			
p-AMINOPHENOL	4-aminophenol	123-30-8	>= 0.1 - < 1 *
4-AMINO-2-HYDROXYTOLUENE	5-amino-o-cresol	2835-95-2	>= 0.1 - < 1 *
m-AMINOPHENOL	3-aminophenol	591-27-5	>= 0.1 - < 1 *

* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice	:	Consult a physician.
If inhaled	:	If symptoms persist, call a physician.
In case of skin contact	:	If skin irritation persists, call a physician. If on skin, rinse well with water.
In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Remove contact lenses. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Neutralize with acid. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. Avoid exposure - obtain special instructions before use. For personal protection see section 8. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Ammonia)	ACGIH
		STEL	35 ppm (Ammonia)	ACGIH
		TWA	25 ppm 18 mg/m3 (Ammonia)	NIOSH REL
		ST	35 ppm 27 mg/m3	NIOSH REL

			(Ammonia)	

Personal protective equipment

Respiratory protection	:	No personal respiratory protective equipment normally required.
Hand protection		
Remarks	:	Applicable for industrial settings only. Nitrile rubber
Eye protection	:	Applicable for industrial settings only. Tightly fitting safety goggles
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	liquid
Color	:	No data available
Odor	:	characteristic
pH	:	10.5 - 11.1
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available

Relative vapor density	:	No data available
Relative density	:	0.997 - 1.003 (20 °C)
Solubility(ies)		
Water solubility	:	partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity		
Viscosity, kinematic	:	No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method

Components:

COCAMIDE MEA:

Acute oral toxicity	:	LD50: > 5,000 mg/kg Assessment: The substance or mixture has no acute oral

toxicity

Acute inhalation toxicity : Acute toxicity estimate: > 20 mg/l
Exposure time: 4 h
Test atmosphere: vapor

Acute dermal toxicity : Acute toxicity estimate: > 5,000 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity : LD50 (Rat, male and female): > 5,000 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

Acute dermal toxicity : LD50 (Rat, male and female): > 2,000 mg/kg
Method: OECD Test Guideline 402
Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity : LD50 (Rat, male): 350 mg/kg
Method: OECD Test Guideline 401

p-AMINOPHENOL:

Acute oral toxicity : LD50 (Rat, male and female): 671 mg/kg
Method: OPPTS 870.1100

Acute inhalation toxicity : LC50 (Rat, male and female): > 3.42 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403

Acute dermal toxicity : LD50 (Rabbit): > 8,000 mg/kg
Method: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Acute oral toxicity : LD50 (Rat, male and female): 3,600 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): 42.57 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Assessment: The substance or mixture has no acute inhalation toxicity

Acute dermal toxicity : LD50 (Rat): 5,688 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

m-AMINOPHENOL:

Acute oral toxicity	:	LD50 (Rat, male and female): > 500 - 2,000 mg/kg
Acute inhalation toxicity	:	LC50 (Rat, male and female): 1.162 mg/l Exposure time: 4 h Test atmosphere: dust/mist Method: OECD Test Guideline 403
Acute dermal toxicity	:	LD50 (Rabbit): 8,112 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks	:	May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species	:	Rabbit
Result	:	Skin irritation

COCAMIDOPROPYL BETAINE:

Species	:	human skin
Result	:	Skin irritation

AMMONIUM HYDROXIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 3 minutes to 1 hour of exposure

p-AMINOPHENOL:

Species	:	Rabbit
Result	:	No skin irritation

4-AMINO-2-HYDROXYTOLUENE:

Species	:	human skin
Method	:	OECD Test Guideline 431
Result	:	No skin irritation

m-AMINOPHENOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks : May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species : Rabbit
Result : Eye irritation

p-AMINOPHENOL:

Species : Rabbit
Result : No eye irritation

4-AMINO-2-HYDROXYTOLUENE:

Species : Non-standard test species
Result : No eye irritation
Method : OECD Test Guideline 438

m-AMINOPHENOL:

Species : Rabbit
Result : No eye irritation
Method : OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

May cause an allergic skin reaction.

Respiratory sensitization

Not classified based on available information.

Product:

Remarks : May cause sensitization.

Components:

p-AMINOPHENOL:

Routes of exposure : Skin contact
Species : Guinea pig

Method : OECD Test Guideline 406
Result : May cause sensitization by skin contact.

4-AMINO-2-HYDROXYTOLUENE:

Routes of exposure : Skin contact
Species : Mouse
Method : OECD Test Guideline 429
Result : The product is a skin sensitizer, sub-category 1A.

m-AMINOPHENOL:

Routes of exposure : Skin contact
Species : Mouse
Method : OECD Test Guideline 429
Result : The product is a skin sensitizer, sub-category 1A.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro : Remarks: In vitro tests did not show mutagenic effects

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

p-AMINOPHENOL:

Genotoxicity in vitro : Remarks: In vitro tests did not show mutagenic effects

Genotoxicity in vivo : Remarks: In vivo tests showed mutagenic effects

Germ cell mutagenicity - Assessment : In vitro tests showed mutagenic effects which were not observed with in vivo test.

4-AMINO-2-HYDROXYTOLUENE:

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Components:

p-AMINOPHENOL:

Carcinogenicity - Assessment : Not classifiable as a human carcinogen.

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 1,000 mg/kg body weight Method: OECD Test Guideline 408 Result: Animal testing did not show any effects on fertility.
Effects on fetal development	:	Species: Rat Developmental Toxicity: 950 Method: OECD Test Guideline 414 Result: No adverse effects.
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

p-AMINOPHENOL:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 100 mg/kg body weight Method: OECD Test Guideline 421
Effects on fetal development	:	Species: Rat Developmental Toxicity: 100 Method: OECD Test Guideline 421
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

4-AMINO-2-HYDROXYTOLUENE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 200 mg/kg body weight Result: Some evidence of adverse effects on development, based on animal experiments.
Effects on fetal development	:	Species: Rat Developmental Toxicity: 180 Method: OECD Test Guideline 414 Result: No adverse effects.

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure	:	Inhalation
Assessment	:	May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Components:

p-AMINOPHENOL:

Routes of exposure	:	Ingestion
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

m-AMINOPHENOL:

Assessment	:	The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

p-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

4-AMINO-2-HYDROXYTOLUENE:

Species	:	Rat, male and female
NOAEL	:	180 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

m-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	70 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks

Species	:	Rat, male and female
NOAEL	:	0.59 mg/kg
Application Route	:	Dermal
Exposure time	:	2 yr

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l
Toxicity to daphnia and other aquatic invertebrates	:	EC50: > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0.01 - 0.1 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6.4 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Non-standard test species): 30 mg/l Exposure time: 48 h
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.9 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	IC50 (Pseudomonas putida): 3,000 mg/l Exposure time: 16 h

AMMONIUM HYDROXIDE:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 0.75 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 101 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to fish (Chronic toxicity)	:	NOEC (Oncorhynchus mykiss (rainbow trout)): 1.2 mg/l Exposure time: 21 d Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.79 mg/l Exposure time: 21 d Method: OPPTS 850.1300

p-AMINOPHENOL:

Toxicity to fish	:	LC50 (Oryzias latipes (Japanese medaka)): 0.82 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0.182 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0.253 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0.083 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC (Oryzias latipes (Japanese medaka)): 0.049 mg/l Exposure time: 41 d Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.206 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	EC10 (activated sludge): 2.65 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

4-AMINO-2-HYDROXYTOLUENE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 25 mg/l Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 2.3 mg/l Exposure time: 48 h Method: OECD Test Guideline 202 Remarks: No toxicity at the limit of solubility.
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 41 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.24 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
Toxicity to microorganisms	:	IC50 (activated sludge): 150 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

m-AMINOPHENOL:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): > 100 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0.267 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 67.7 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Pseudokirchneriella subcapitata (green algae)): 37.8 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC (Oryzias latipes (Japanese medaka)): 50 mg/l Exposure time: 21 d Method: OECD Test Guideline 204
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.05 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	EC10 (activated sludge): 406.4 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability : Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: > 90 %
Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability : Result: Readily biodegradable.

p-AMINOPHENOL:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 6 %
Exposure time: 28 d
Method: OECD Test Guideline 301C

4-AMINO-2-HYDROXYTOLUENE:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: < 0.01 %
Exposure time: 28 d
Method: OECD Test Guideline 301B

m-AMINOPHENOL:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 0 %
Exposure time: 28 d
Method: OECD Test Guideline 301F

Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Bioconcentration factor (BCF): 70.79

Partition coefficient: n-octanol/water : log Pow: -1.28

p-AMINOPHENOL:

Bioaccumulation	:	Bioconcentration factor (BCF): 15 - 46 Method: OECD Test Guideline 305C
Partition coefficient: n-octanol/water	:	log Pow: -0.09 pH: 7.5 Method: OECD Test Guideline 107

4-AMINO-2-HYDROXYTOLUENE:

Partition coefficient: n-octanol/water	:	log Pow: 0.53 pH: 7.22 Method: OECD Test Guideline 117

m-AMINOPHENOL:

Bioaccumulation	:	Bioconcentration factor (BCF): 4

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues	:	The product should not be allowed to enter drains, water courses or the soil. Send to a licensed waste management company.
Contaminated packaging	:	Dispose of as unused product. Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

TDG
Not regulated as a dangerous good

International Regulations

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Canadian PBT Chemicals : This product does not contain any components on the DSL that are classified as Persistent, Bioaccumulative and Toxic (PBT) under CEPA.

Canadian National Pollutant Release Inventory (NPRI): No component is listed on NPRI.

SECTION 16. OTHER INFORMATION

Full text of other abbreviations

ACGIH	:	USA. ACGIH Threshold Limit Values (TLV)
NIOSH REL	:	USA. NIOSH Recommended Exposure Limits
ACGIH / TWA	:	8-hour, time-weighted average
ACGIH / STEL	:	Short-term exposure limit
NIOSH REL / TWA	:	Time-weighted average concentration for up to a 10-hour workday during a 40-hour workweek
NIOSH REL / ST	:	STEL - 15-minute TWA exposure that should not be exceeded at any time during a workday

AIIC - Australian Inventory of Industrial Chemicals; ANTT - National Agency for Transport by Land of Brazil; ASTM - American Society for the Testing of Materials; bw - Body weight; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECx - Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; ERG - Emergency Response Guide; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; Nch - Chilean Norm; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NOM - Official Mexican Norm; NTP - National Toxicology Program; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evalua-

tion, Authorisation and Restriction of Chemicals; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; TCSI - Taiwan Chemical Substance Inventory; TDG - Transportation of Dangerous Goods; TECI - Thailand Existing Chemicals Inventory; TSCA - Toxic Substances Control Act (United States); UN - United Nations; UNRTDG - United Nations Recommendations on the Transport of Dangerous Goods; vPvB - Very Persistent and Very Bioaccumulative; WHMIS - Workplace Hazardous Materials Information System

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

FICHE DE DONNÉES DE SÉCURITÉ

L'ORAL PARIS REDNESS ERASER & DULLNESS REDUCER PRIMER

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	03/12/2024	30-68-410000001443	Date de la première parution: 03/12/2024

SECTION 1. IDENTIFICATION

Nom du produit : L'ORAL PARIS REDNESS ERASER & DULLNESS REDUCER PRIMER

Référence du centre de formule : G2047509 3

Autres moyens d'identification : Donnée non disponible

Détails concernant le fabricant ou le fournisseur

Adresse : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Téléphone : 1-732-499-2745

Adresse de courrier électronique : CORPREGAFFAIRSMSDS@LOREAL.COM

Numéro de téléphone en cas d'urgence

Centre antipoison national : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (Ce numéro de téléone n'est valable que pendant les heures de bureau.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Disponible 24h/24. Les informations sur la FDS/le produit peuvent ne pas être disponibles pour le service d'urgence.)

Utilisation recommandée du produit chimique et restrictions d'utilisation

Utilisation recommandée : Produits de soins personnels destinés à un usage cosmétique.

SECTION 2. IDENTIFICATION DES DANGERS

Classement SGH en conformité avec les règlements sur les produits dangereux

Liquides inflammables : Catégorie 3

Risque d'aspiration : Catégorie 1

Éléments étiquette SGH

Pictogrammes de danger :

Mot indicateur : Danger

Déclarations sur les risques : H226 Liquide et vapeurs inflammables.
H304 Peut être mortel en cas d'ingestion et de pénétration dans les voies respiratoires.

Déclarations sur la sécurité : P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.

Prévention:

P210 Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute autre source d'ignition. Ne pas fumer.
P233 Maintenir le récipient fermé de manière étanche.
P240 Mise à la terre et liaison équipotentielle du récipient et du matériel de réception.
P241 Utiliser du matériel électrique/ de ventilation/ d'éclairage antidéflagrant.
P242 Utiliser d'outils ne produisant pas des étincelles.
P243 Prendre des mesures contre les décharges électrostatiques.
P280 Porter des gants de protection/ des vêtements de protection/ un équipement de protection des yeux/ du visage.

Intervention:

P301 + P310 EN CAS D'INGESTION: Appeler immédiatement un CENTRE ANTIPOISON/ un médecin.
P303 + P361 + P353 EN CAS DE CONTACT AVEC LA PEAU (ou les cheveux) : Enlever immédiatement tous les vêtements contaminés. Rincer la peau à l'eau.
P331 Ne PAS faire vomir.
P370 + P378 En cas d'incendie: Utiliser du sable sec, une poudre chimique ou une mousse anti-alcool pour l'extinction.

Entreposage:

P403 + P235 Stocker dans un endroit bien ventilé. Tenir au frais.
P405 Garder sous clef.

Élimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

Étiquetage supplémentaire

Les pourcentages du mélange qui suivent consistent en ingrédient(s) dont la toxicité aiguë est inconnue: 1.0692 %

Autres dangers

Inconnu.

SECTION 3. COMPOSITION/INFORMATION SUR LES COMPOSANTS

Composants

Nom Chimique	Nom commun/Synonyme	No. CAS	Concentration (% w/w)
ALCOHOL	ethanol	64-17-5	>= 5 - < 10 *
GLYCERIN	glycerol	56-81-5	>= 5 - < 10 *
NIACINAMIDE	nicotinamide	98-92-0	>= 1 - < 5 *
TITANIUM DIOXIDE	titanium dioxide	13463-67-7	>= 1 - < 5 *
PEG-10 DIMETHICONE	Siloxanes and Silicones, di-Me, 3-hydroxypropyl Me, ethoxylated	68937-54-2	>= 1 - < 5 *
PERLITE	Perlite	93763-70-3	>= 1 - < 5 *
SILICA	silicon dioxide	7631-86-9	>= 1 - < 5 *
IRON OXIDES	diiron trioxide	1309-37-1	>= 1 - < 5 *
DENATONIUM BENZOATE	denatonium benzoate	3734-33-6	>= 0.1 - < 1 *

* La concentration ou la plage de concentration réelle est retenue en tant que secret industriel

SECTION 4. PREMIERS SOINS

Conseils généraux	:	Les symptômes d'empoisonnement peuvent apparaître plusieurs heures plus tard.
En cas d'inhalation	:	Amener la victime à l'air libre.
En cas de contact avec la peau	:	Faire appel à une assistance médicale si de l'irritation se développe et persiste.
En cas de contact avec les yeux	:	Rincer à l'eau. Si l'irritation oculaire persiste, consulter un médecin spécialiste.
En cas d'ingestion	:	Rincer la bouche à l'eau. NE PAS faire vomir. Si les symptômes persistent, consulter un médecin.
Symptômes et effets les plus importants, aigus et différés	:	Peut être mortel en cas d'ingestion et de pénétration dans les voies respiratoires.
Avis aux médecins	:	Traiter de façon symptomatique.

SECTION 5. MESURES DE LUTTE CONTRE L'INCENDIE

Moyen d'extinction approprié	:	Mousse résistant à l'alcool Dioxyde de carbone (CO2) Poudre chimique d'extinction
Moyens d'extinction inadéquats	:	Jet d'eau à grand débit
Dangers spécifiques pendant la lutte contre l'incendie	:	Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.
Produits de combustion dangereux	:	On ne connaît aucun produit de combustion dangereux
Autres informations	:	Pour de raisons de sécurité en cas d'incendie, les bidons doivent être entreposés séparément, dans des enceintes fermées. Utiliser un vaporisateur d'eau pour refroidir les contenants complètement fermés.
Équipement de protection spécial pour les pompiers	:	Si nécessaire, porter un appareil respiratoire autonome lors de la lutte contre l'incendie.

SECTION 6. MESURES À PRENDRE EN CAS DE DÉVERSEMENT ACCIDENTEL

Précautions individuelles, équipement de protection et procédures d'urgence	:	Utiliser un équipement de protection personnelle. Assurer une ventilation adéquate. Enlever toute source d'allumage. Attention aux vapeurs qui s'accumulent pour former des concentrations explosives. Les vapeurs peuvent s'accumuler dans les zones en contrebas.
Précautions pour la protection de l'environnement	:	Éviter que le produit pénètre dans les égouts. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger.
Méthodes et matières pour le confinement et le nettoyage	:	Contenir et collecter le matériel répandu à l'aide d'un matériau absorbant non combustible, (p.e. sable, terre, terre de diatomées, vermiculite) et le mettre dans un conteneur pour l'élimination conformément aux réglementations locales / nationales (voir chapitre 13).

SECTION 7. MANIPULATION ET ENTREPOSAGE

Indications pour la protection contre l'incendie et l'explosion	:	Ne pas pulvériser contre une flamme nue ou tout autre objet incandescent. Entreprendre les actions nécessaires pour éviter les décharges d'électricité statique (qui peuvent provoquer l'inflammation des vapeurs organiques). Tenir à l'écart des flammes nues, des surfaces chaudes et des sources d'ignition.

Conseils pour une manipulation sans danger	:	Équipement de protection individuelle, voir la section 8. Fournir un renouvellement d'air et/ou une ventilation aspirante suffisante dans les ateliers. Les récipients ne peuvent être ouverts que sous une hotte d'évacuation. Ouvrir les barils avec précaution, le contenu pouvant être sous pression.
Conditions de stockage sures	:	Défense de fumer. Tenir le récipient bien fermé dans un endroit sec et bien aéré. Respecter les mises-en-garde de l'étiquette.
D'autres informations sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications.

SECTION 8. MESURES DE CONTRÔLE DE L'EXPOSITION/PROTECTION INDIVIDUELLE

Composants avec valeurs limites d'exposition professionnelle

Composants	No. CAS	Type de valeur (Type d'exposition)	Paramètres de contrôle / Concentration admissible	Base
ALCOHOL	64-17-5	TWA	1,000 ppm 1,880 mg/m3	CA AB OEL
		STEL	1,000 ppm	CA BC OEL
		VECD	1,000 ppm	CA QC OEL
		STEL	1,000 ppm	ACGIH
GLYCERIN	56-81-5	TWA (Brouillard)	10 mg/m3	CA AB OEL
		TWA (Brouillard)	10 mg/m3	CA BC OEL
		TWA (Brume respirable)	3 mg/m3	CA BC OEL
		VEMP (Brouillard)	10 mg/m3	CA QC OEL
TITANIUM DIOXIDE	13463-67-7	TWA	10 mg/m3	CA AB OEL
		TWA (Poussière totale)	10 mg/m3	CA BC OEL
		TWA (fraction de poussière inhalable)	3 mg/m3	CA BC OEL
		VEMP (poussière totale)	10 mg/m3	CA QC OEL
		TWA (Fraction respirable)	0.2 mg/m3 (Oxyde de titane)	ACGIH

		TWA (Fraction respirable)	2.5 mg/m3 (Oxyde de titane)	ACGIH
PERLITE	93763-70-3	TWA (Poussière totale)	10 mg/m3	CA BC OEL
		TWA (fraction de poussière inhalable)	3 mg/m3	CA BC OEL
SILICA	7631-86-9	TWA (Matières particulaires respirables)	0.025 mg/m3 (Silice)	CA AB OEL
		VEMP (poussière respirable)	6 mg/m3	CA QC OEL
IRON OXIDES	1309-37-1	TWA (Respirable)	5 mg/m3	CA AB OEL
		TWA (Emanations)	5 mg/m3 (Fer)	CA BC OEL
		TWA (Poussière)	5 mg/m3 (Fer)	CA BC OEL
		STEL (Emanations)	10 mg/m3 (Fer)	CA BC OEL
		VEMP (fumées et poussières)	5 mg/m3 (Fer)	CA QC OEL
		TWA (Fraction respirable)	5 mg/m3	ACGIH

Équipement de protection individuelle

Protection respiratoire : Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

Protection des mains

Remarques : Pour usage industriel seulement. Caoutchouc nitrile

Protection des yeux : Pour usage industriel seulement.
Lunettes de sécurité

Protection de la peau et du corps : Pour usage industriel seulement.
Uniforme de travail ou sarreau de laboratoire.

Mesures d'hygiène : Ne pas manger et ne pas boire pendant l'utilisation.
Ne pas fumer pendant l'utilisation.
Se laver les mains avant les pauses et à la fin de la journée.

SECTION 9. PROPRIETES PHYSIQUES ET CHIMIQUES

État physique	:	liquide
Couleur	:	pigmenté
Odeur	:	caractéristique
pH	:	Sans objet
Point de fusion/congélation	:	Donnée non disponible
Point/intervalle d'ébullition	:	Pas disponible
Point d'éclair	:	34.0 °C Méthode: ISO 3679
Point de feu	:	< 100 °C Méthode:ISO 2592
Limite d'explosivité, supérieure / Limite d'inflammabilité supérieure	:	19 %(V) (pour un composant de ce mélange)
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	3.3 %(V) (pour un composant de ce mélange)
Pression de vapeur	:	59.5 hPa (20 °C) (pour un composant de ce mélange)
Densité de vapeur relative	:	Donnée non disponible
Densité relative	:	0.987 - 0.993 (20 °C)
Solubilité		
Solubilité dans l'eau	:	partiellement soluble
Coefficient de partage (n-octanol/eau)	:	Sans objet
Température d'auto-inflammation	:	365 °C (pour un composant de ce mélange)
Température de décomposition	:	Sans objet
Viscosité		
Viscosité, cinématique	:	Donnée non disponible

Classe d'explosivité des poussières	:	Sans objet.
Taille des particules	:	Sans objet

SECTION 10. STABILITÉ ET RÉACTIVITÉ

Réactivité	:	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
Stabilité chimique	:	Stable dans des conditions normales.
Possibilité de réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications. Les vapeurs peuvent former un mélange explosif avec l'air.
Conditions à éviter	:	Chaleur, flammes et étincelles.
Produits incompatibles	:	Sans objet
Produits de décomposition dangereux	:	Aucun produit dangereux de décomposition n'est connu.

SECTION 11. INFORMATIONS TOXICOLOGIQUES

Toxicité aiguë

Non répertorié selon les informations disponibles.

Produit:

Toxicité aiguë par inhalation	:	Estimation de la toxicité aiguë: > 5 mg/l Durée d'exposition: 4 h Atmosphère d'essai: poussières/brouillard Méthode: Méthode de calcul

Composants:

ALCOHOL:

Toxicité aiguë par voie orale	:	DL50 (Rat, mâle et femelle): 10,470 mg/kg Méthode: Directives du test 401 de l'OECD Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie orale
Toxicité aiguë par inhalation	:	CL50 (Rat, mâle et femelle): 124.7 mg/l Durée d'exposition: 4 h Atmosphère d'essai: vapeur Méthode: Directives du test 403 de l'OECD Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par inhalation

Toxicité cutanée aiguë : DL50 (Lapin): 15,800 mg/kg
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie cutanée
Remarques: Selon les données provenant de matières similaires

NIACINAMIDE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 2,000 mg/kg
Méthode: Directives du test 423 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie orale

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): > 3.8 mg/l
Durée d'exposition: 4 h
Atmosphère d'essai: poussières/brouillard
Méthode: Directives du test 436 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par inhalation

Toxicité cutanée aiguë : DL50 (Lapin, mâle et femelle): > 2,000 mg/kg
Méthode: Directives du test 402 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie cutanée

PEG-10 DIMETHICONE:

Toxicité aiguë par voie orale : DL50 (Rat): > 5,000 mg/kg
Remarques: Selon les données provenant de matières similaires

DENATONIUM BENZOATE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 749 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): 0.2 mg/l
Durée d'exposition: 4 h
Atmosphère d'essai: poussières/brouillard
Méthode: Directives du test 403 de l'OECD

Toxicité cutanée aiguë : (Rat, mâle et femelle): 2,000 mg/kg
Méthode: Directives du test 402 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie cutanée

Corrosion et/ou irritation de la peau

Non répertorié selon les informations disponibles.

Composants:

ALCOHOL:

Espèce	:	Lapin
Méthode	:	Directives du test 404 de l'OECD
Résultat	:	Pas d'irritation de la peau

NIACINAMIDE:

Espèce	:	Lapin
Méthode	:	Directives du test 404 de l'OECD
Résultat	:	Pas d'irritation de la peau

PEG-10 DIMETHICONE:

Espèce	:	Lapin
Résultat	:	Pas d'irritation de la peau

DENATONIUM BENZOATE:

Espèce	:	Lapin
Résultat	:	Pas d'irritation de la peau

Lésion/irritation grave des yeux

Non répertorié selon les informations disponibles.

Composants:

ALCOHOL:

Espèce	:	Lapin
Résultat	:	Irritation des yeux
Méthode	:	Directives du test 405 de l'OECD

NIACINAMIDE:

Espèce	:	Lapin
Résultat	:	Irritation des yeux
Méthode	:	Directives du test 405 de l'OECD

PEG-10 DIMETHICONE:

Résultat	:	Irritation des yeux

DENATONIUM BENZOATE:

Espèce	:	Lapin
Résultat	:	Des effets irréversibles aux yeux

Sensibilisation cutanée ou respiratoire

Sensibilisation de la peau

Non répertorié selon les informations disponibles.

Sensibilisation des voies respiratoires

Non répertorié selon les informations disponibles.

Composants:

ALCOHOL:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cobaye
Méthode	:	Directives du test 406 de l'OECD
Résultat	:	Ne cause pas la sensibilisation de la peau.
Remarques	:	Selon les données provenant de matières similaires

NIACINAMIDE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cobaye
Méthode	:	Directives du test 406 de l'OECD
Résultat	:	Ne cause pas la sensibilisation de la peau.

PEG-10 DIMETHICONE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cobaye
Résultat	:	Ne cause pas la sensibilisation de la peau.

DENATONIUM BENZOATE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cobaye
Méthode	:	Test de Buehler
Résultat	:	Ne cause pas la sensibilisation de la peau.

Mutagénécité de la cellule germinale

Non répertorié selon les informations disponibles.

Composants:

ALCOHOL:

Mutagénécité de la cellule germinale - Évaluation	:	Les données ne soutiennent pas le classement comme un mutagène des cellules germinales.

Cancérogénicité

Non répertorié selon les informations disponibles.

Composants:

ALCOHOL:

Cancérogénicité - Évaluation	:	Le poids des données ne supporte pas la classification comme carcinogène

Toxicité pour la reproduction

Non répertorié selon les informations disponibles.

Composants:

ALCOHOL:

Toxicité pour la reproduction - Évaluation : Le poids des données ne supporte pas la classification comme toxique pour la reproduction

STOT - exposition unique

Non répertorié selon les informations disponibles.

STOT - exposition répétée

Non répertorié selon les informations disponibles.

Toxicité par aspiration

Peut être mortel en cas d'ingestion et de pénétration dans les voies respiratoires.

Autres informations

Produit:

Remarques : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 12. INFORMATIONS ÉCOLOGIQUES

Écotoxicité

Composants:

ALCOHOL:

Toxicité pour les poissons : CL50 (Oncorhynchus mykiss (Truite arc-en-ciel)): 11,200 mg/l
Durée d'exposition: 24 h

Toxicité pour la daphnie et les autres invertébrés aquatiques : CE50 (Ceriodaphnia dubia (puce d'eau)): 5,012 mg/l
Durée d'exposition: 48 h

Toxicité pour les algues/plantes aquatiques : CE50 (Chlorella vulgaris (Algue d'eau douce)): 275 mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

Toxicité pour les poissons (Toxicité chronique) : NOEC (Danio rerio (poisson zèbre)): 250 mg/l
Durée d'exposition: 5 d
Méthode: Directives du test 212 de l'OECD

Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC (Daphnia magna (Puce d'eau)): 9.6 mg/l Durée d'exposition: 10 d
Toxicité pour les microorganismes	:	CI50 (Bactérie): 5,800 mg/l Durée d'exposition: 4 h

NIACINAMIDE:

Toxicité pour les poissons	:	CL50 (Poecilia reticulata (Guppy)): > 1,000 mg/l Durée d'exposition: 96 h Méthode: Directives du test 203 de l'OECD
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Puce d'eau)): > 1,000 mg/l Durée d'exposition: 24 h Méthode: OCDE Ligne directrice 202
Toxicité pour les microorganismes	:	NOEC (Pseudomonas putida): 4,235 mg/l Durée d'exposition: 18 h Méthode: OCDE Ligne directrice 209

DENATONIUM BENZOATE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): > 100 mg/l Durée d'exposition: 96 h Méthode: Directives du test 203 de l'OECD
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Puce d'eau)): > 500 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Chlorella vulgaris (Algue d'eau douce)): 281.56 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Toxicité pour les microorganismes	:	CI50 (Espèces d'essai non standard): 511.59 mg/l Durée d'exposition: 0.25 h

Persistance et dégradabilité

Composants:

ALCOHOL:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 84 % Durée d'exposition: 20 d

NIACINAMIDE:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 96 % Durée d'exposition: 14 d

Méthode: Directives du test 301E de l'OECD

DENATONIUM BENZOATE:

Biodégradabilité : Résultat: Difficilement biodégradable.
Biodégradation: 18.17 %
Durée d'exposition: 28 d
Méthode: Directives du test 301F de l'OECD

Potentiel bioaccumulatif

Donnée non disponible

Mobilité dans le sol

Donnée non disponible

Autres effets néfastes

Produit:

Information écologique supplémentaire : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 13. CONSIDERATIONS RELATIVES À L'ÉLIMINATION

Méthodes d'élimination

Déchets de résidus : Ne pas rejeter les déchets à l'égout.
Envoyer à une entreprise autorisée de gestion des déchets.

Emballages contaminés : Éliminer comme produit non utilisé.
Ne pas réutiliser des récipients vides.
Ne pas brûler les fûts vides ou les exposer au chalumeau.

SECTION 14. INFORMATIONS RELATIVES AU TRANSPORT

Réglementation nationale

TDG

No. UN	:	UN 1993
Nom d'expédition	:	LIQUIDE INFLAMMABLE, N.S.A. (ETHANOL, ISODODECANE)
Classe	:	3
Groupe d'emballage	:	III
Étiquettes	:	3
Code ERG	:	128
Polluant marin	:	non
Remarques	:	Les matériaux emballés en tant que produit fini peuvent être proposés sous ID8000, Consumer Comodity par IATA Les matériaux peuvent être offerts en quantité limitée lorsqu'ils sont contenus dans des contenants de 5 litres ou moins,

sauf pour

Réglementations internationales

IATA-DGR

UN/ID No.	:	UN 1993
Nom d'expédition	:	Flammable liquid, n.o.s. (Ethanol, Isododecane)
Classe	:	3
Groupe d'emballage	:	III
Étiquettes	:	Flammable Liquids
Instructions de conditionnement (avion cargo)	:	366
Instructions de conditionnement (avion de ligne)	:	355

Code IMDG

No. UN	:	UN 1993
Nom d'expédition	:	FLAMMABLE LIQUID, N.O.S. (ETHANOL, ISODODECANE)
Classe	:	3
Groupe d'emballage	:	III
Étiquettes	:	3
EmS Code	:	F-E, S-E
Polluant marin	:	non

Transport en vrac en vertu de l'Annexe II des règles MARPOL 73/78 et du code IBC

Non applicable pour le produit tel qu'il est fourni.

Précautions spéciales pour les utilisateurs

Remarques	:	Les matériaux emballés en tant que produit fini peuvent être proposés sous ID8000, Consumer Comodity par IATA Les matériaux peuvent être offerts en quantité limitée lorsqu'ils sont contenus dans des contenants de 5 litres ou moins, sauf pour

SECTION 15. INFORMATIONS RÉGLEMENTAIRES

Produits chimiques PBT au Canada	:	Ce produit ne contient pas de composants inscrits sur la LIS qui sont classés comme substances persistantes, bioaccumulables et toxiques (PBT) sous la LCPE.
NPRI Composants	:	ALCOHOL

CERCLE Quantité à déclarer

Un QR caractéristique de déchets de 100 lb s'applique à ce produit sous forme de déchets:

SECTION 16. AUTRES INFORMATIONS

SAFETY DATA SHEET
according to Regulation (EC) No. 1907/2006

PULP RIOT HIGH SPEED TONERS - GROUP 6

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	07.03.2024	00-21-410000001412	Date of first issue: 07.03.2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : PULP RIOT HIGH SPEED TONERS - GROUP 6

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Personal care product used for cosmetic effect.

1.3 Details of the supplier of the safety data sheet

Company : L'Oreal SA
14, Rue Royale
75008Paris
France

Telephone : +17324992745

E-mail address of person responsible for the SDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Emergency telephone

National Poisons Control Center : ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Skin irritation, Category 2	H315: Causes skin irritation.
Serious eye damage, Category 1	H318: Causes serious eye damage.
Skin sensitization, Category 1	H317: May cause an allergic skin reaction.
Long-term (chronic) aquatic hazard, Category 3	H412: Harmful to aquatic life with long lasting effects.

2.2 Label elements

Labeling (REGULATION (EC) No 1272/2008)

Hazard pictograms :

Signal Word : Danger

Hazard Statements :
H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements :
P102 Keep out of reach of children.

Prevention:

P261 Avoid breathing mist or vapors.
P264 Wash skin thoroughly after handling.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Hazardous ingredients which must be listed on the label:

COCAMIDE MEA
p-AMINOPHENOL
4-AMINO-2-HYDROXYTOLUENE
m-AMINOPHENOL
TOLUENE-2,5-DIAMINE SULFATE

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
COCAMIDE MEA	68140-00-1 268-770-2	Skin Irrit. 2; H315 Eye Dam. 1; H318 Aquatic Chronic 2; H411 --- Acute toxicity estimate Acute inhalation toxicity (vapor): > 20 mg/l Acute dermal toxicity: > 5.000 mg/kg	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0 263-058-8 01-2120770501-61	Skin Irrit. 2; H315 Eye Irrit. 2; H319 Aquatic Chronic 3; H412	>= 1 - < 2,5
AMMONIUM HYDROXIDE	1336-21-6 215-647-6 007-001-01-2	Acute Tox. 4; H302 Skin Corr. 1B; H314 Eye Dam. 1; H318 STOT SE 3; H335 (Respiratory system) Aquatic Acute 1; H400 Aquatic Chronic 3; H412 --- M-Factor (Acute aquatic toxicity): 1 --- specific concentration limit STOT SE 3; H335 >= 5 % --- Acute toxicity estimate Acute oral toxicity: 350 mg/kg	>= 1 - < 2,5
p-AMINOPHENOL	123-30-8 204-616-2	Acute Tox. 4; H302 Acute Tox. 4; H332	>= 0,25 - < 1

	612-128-00-X 01-2119535388-31	Skin Sens. 1; H317 Muta. 2; H341 STOT RE 2; H373 Aquatic Acute 1; H400 Aquatic Chronic 1; H410 M-Factor (Acute aquatic toxicity): 1 M-Factor (Chronic aquatic toxicity): 1 Acute toxicity estimate Acute oral toxicity: 671 mg/kg Acute inhalation toxicity (dust/mist): 3,43 mg/l	
4-AMINO-2-HYDROXYTOLUENE	2835-95-2 220-618-6 01-2120766272-54	Skin Sens. 1A; H317 Aquatic Chronic 2; H411	>= 0,25 - < 1
m-AMINOPHENOL	591-27-5 209-711-2 612-127-00-4	Acute Tox. 4; H302 Acute Tox. 4; H332 Skin Sens. 1A; H317 Aquatic Acute 1; H400 Aquatic Chronic 1; H410 M-Factor (Acute aquatic toxicity): 1 M-Factor (Chronic aquatic toxicity): 1 Acute toxicity estimate Acute oral toxicity: 500,05 mg/kg Acute inhalation toxicity (dust/mist): 1,162 mg/l	>= 0,1 - < 0,25
TOLUENE-2,5-DIAMINE SULFATE	615-50-9 210-431-8 612-030-00-7 01-2119962199-25	Acute Tox. 3; H301 Acute Tox. 3; H331 Acute Tox. 4; H312 Skin Sens. 1A; H317 STOT RE 2; H373	>= 0,0025 - < 0,025

		(Skeletal muscle) Aquatic Chronic 2; H411 _____ Acute toxicity estimate Acute oral toxicity: 102 mg/kg Acute inhalation toxicity (dust/mist): 0,99 mg/l	

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice : Consult a physician.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : If skin irritation persists, call a physician.
If on skin, rinse well with water.

In case of eye contact : In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Remove contact lenses.
If eye irritation persists, consult a specialist.

If swallowed : Rinse mouth with water.
If symptoms persist, call a physician.

4.2 Most important symptoms and effects, both acute and delayed

Risks : Causes skin irritation.
May cause an allergic skin reaction.
Causes serious eye damage.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media	:	None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.

5.3 Advice for firefighters

Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	Use personal protective equipment.

6.2 Environmental precautions

Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Neutralize with acid. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	:	Avoid contact with eyes. Avoid exposure - obtain special instructions before use. For personal protection see section 8. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being

used.

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Dust explosion class	:	Not applicable

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	:	Keep container tightly closed in a dry and well-ventilated place.
Further information on storage stability	:	No decomposition if stored and applied as directed.

7.3 Specific end use(s)

Specific use(s)	:	Personal care product used for cosmetic effect.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Personal protective equipment

Eye/face protection	:	Applicable for industrial settings only. Tightly fitting safety goggles
Hand protection		
Remarks	:	Applicable for industrial settings only. Nitrile rubber
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.
Respiratory protection	:	No personal respiratory protective equipment normally required.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	:	liquid
Color	:	No data available
Odor	:	characteristic
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Flash point	:	> 93 °C Method: ISO 3679
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
pH	:	10,5 - 11,1
Viscosity		
Viscosity, kinematic	:	No data available
Solubility(ies)		
Water solubility	:	partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Vapor pressure	:	No data available
Relative density	:	0,997 - 1,003 (20 °C)
Relative vapor density	:	No data available
Particle characteristics		
Particle size	:	Not applicable

9.2 Other information

Fire Point	:	Not applicable
Dust explosion class	:	Not applicable

SECTION 10: Stability and reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions	:	No decomposition if stored and applied as directed.

10.4 Conditions to avoid

Conditions to avoid	:	No data available

10.5 Incompatible materials

Materials to avoid	:	Not applicable

10.6 Hazardous decomposition products

No hazardous decomposition products are known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 2.000 mg/kg Method: Calculation method

Components:

COCAMIDE MEA:

Acute oral toxicity	:	LD50: > 5.000 mg/kg Assessment: The substance or mixture has no acute oral toxicity
Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l Exposure time: 4 h

Test atmosphere: vapor

Acute dermal toxicity : Acute toxicity estimate: > 5.000 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity : LD50 (Rat, male and female): > 5.000 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

Acute dermal toxicity : LD50 (Rat, male and female): > 2.000 mg/kg
Method: OECD Test Guideline 402
Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity : LD50 (Rat, male): 350 mg/kg
Method: OECD Test Guideline 401

Acute toxicity estimate: 350 mg/kg
Method: Calculation method

p-AMINOPHENOL:

Acute oral toxicity : LD50 (Rat, male and female): 671 mg/kg
Method: OPPTS 870.1100

Acute inhalation toxicity : LC50 (Rat, male and female): > 3,42 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403

Acute dermal toxicity : LD50 (Rabbit): > 8.000 mg/kg
Method: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Acute oral toxicity : LD50 (Rat, male and female): 3.600 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): 42,57 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Assessment: The substance or mixture has no acute inhalation toxicity

Acute dermal toxicity : LD50 (Rat): 5.688 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

m-AMINOPHENOL:

Acute oral toxicity	:	LD50 (Rat, male and female): > 500 - 2.000 mg/kg
Acute inhalation toxicity	:	LC50 (Rat, male and female): 1,162 mg/l Exposure time: 4 h Test atmosphere: dust/mist Method: OECD Test Guideline 403
Acute dermal toxicity	:	LD50 (Rabbit): 8.112 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

TOLUENE-2,5-DIAMINE SULFATE:

Acute oral toxicity	:	LD50 (Rat, male and female): 102 mg/kg
Acute inhalation toxicity	:	LC50 (Rat): 0,99 mg/l Exposure time: 4 h Test atmosphere: dust/mist Remarks: Based on data from similar materials
Acute dermal toxicity	:	LD50 (Rat): 3.519 mg/kg Remarks: Based on data from similar materials

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks	:	May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species	:	Rabbit
Result	:	Skin irritation

COCAMIDOPROPYL BETAINE:

Species	:	human skin
Result	:	Skin irritation

AMMONIUM HYDROXIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 3 minutes to 1 hour of exposure

p-AMINOPHENOL:

Species	:	Rabbit

Result : No skin irritation

4-AMINO-2-HYDROXYTOLUENE:

Species : human skin
Method : OECD Test Guideline 431
Result : No skin irritation

m-AMINOPHENOL:

Species : Rabbit
Method : OECD Test Guideline 404
Result : No skin irritation

TOLUENE-2,5-DIAMINE SULFATE:

Species : Rabbit
Result : No skin irritation

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks : May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species : Rabbit
Result : Eye irritation

p-AMINOPHENOL:

Species : Rabbit
Result : No eye irritation

4-AMINO-2-HYDROXYTOLUENE:

Species : Non-standard test species
Method : OECD Test Guideline 438
Result : No eye irritation

m-AMINOPHENOL:

Species : Rabbit
Method : OECD Test Guideline 405

Result : No eye irritation

TOLUENE-2,5-DIAMINE SULFATE:

Species : Rabbit
Result : No eye irritation

Respiratory or skin sensitization

Skin sensitization

May cause an allergic skin reaction.

Respiratory sensitization

Not classified based on available information.

Product:

Remarks : May cause sensitization.

Components:

p-AMINOPHENOL:

Routes of exposure : Skin contact
Species : Guinea pig
Method : OECD Test Guideline 406
Result : May cause sensitization by skin contact.

4-AMINO-2-HYDROXYTOLUENE:

Routes of exposure : Skin contact
Species : Mouse
Method : OECD Test Guideline 429
Result : The product is a skin sensitizer, sub-category 1A.

m-AMINOPHENOL:

Routes of exposure : Skin contact
Species : Mouse
Method : OECD Test Guideline 429
Result : The product is a skin sensitizer, sub-category 1A.

TOLUENE-2,5-DIAMINE SULFATE:

Routes of exposure : Skin contact
Species : Mouse
Method : OECD Test Guideline 429
Result : May cause sensitization by skin contact.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Germ cell mutagenicity-Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity-Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

p-AMINOPHENOL:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Genotoxicity in vivo	:	Remarks: In vivo tests showed mutagenic effects
Germ cell mutagenicity-Assessment	:	In vitro tests showed mutagenic effects which were not observed with in vivo test.

4-AMINO-2-HYDROXYTOLUENE:

Germ cell mutagenicity-Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

TOLUENE-2,5-DIAMINE SULFATE:

Germ cell mutagenicity-Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Components:

p-AMINOPHENOL:

Carcinogenicity - Assessment	:	Not classifiable as a human carcinogen.

TOLUENE-2,5-DIAMINE SULFATE:

Carcinogenicity - Assessment	:	Weight of evidence does not support classification as a carcinogen

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 1.000 mg/kg body weight Method: OECD Test Guideline 408 Result: Animal testing did not show any effects on fertility.

Effects on fetal development	:	Species: Rat Developmental Toxicity: 950 Method: OECD Test Guideline 414 Result: No adverse effects.
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

p-AMINOPHENOL:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 100 mg/kg body weight Method: OECD Test Guideline 421
Effects on fetal development	:	Species: Rat Developmental Toxicity: 100 Method: OECD Test Guideline 421
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

4-AMINO-2-HYDROXYTOLUENE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 200 mg/kg body weight Result: Some evidence of adverse effects on development, based on animal experiments.
Effects on fetal development	:	Species: Rat Developmental Toxicity: 180 Method: OECD Test Guideline 414 Result: No adverse effects.

TOLUENE-2,5-DIAMINE SULFATE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: >= 45 mg/kg body weight Method: OECD Test Guideline 416
Effects on fetal development	:	Species: Mouse Developmental Toxicity: >= 32 Method: OECD Test Guideline 414 Result: No adverse effects.
Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure	:	Inhalation
Assessment	:	May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Components:

p-AMINOPHENOL:

Routes of exposure	:	Ingestion
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

m-AMINOPHENOL:

Assessment	:	The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

p-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

4-AMINO-2-HYDROXYTOLUENE:

Species	:	Rat, male and female
NOAEL	:	180 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

m-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	70 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks

Species	:	Rat, male and female
NOAEL	:	0,59 mg/kg
Application Route	:	Dermal
Exposure time	:	2 yr

TOLUENE-2,5-DIAMINE SULFATE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	91 d
Method	:	OECD Test Guideline 408
Target Organs	:	Skeletal muscle
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Aspiration toxicity

Not classified based on available information.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment	:	The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1 Toxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l

Toxicity to daphnia and other aquatic invertebrates	:	EC50 : > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0,01 - 0,1 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6,4 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Non-standard test species): 30 mg/l Exposure time: 48 h
Toxicity to microorganisms	:	IC50 (Pseudomonas putida): 3.000 mg/l Exposure time: 16 h
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,9 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 202

AMMONIUM HYDROXIDE:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 0,75 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 101 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC: 1,2 mg/l Exposure time: 21 d Species: Oncorhynchus mykiss (rainbow trout) Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,79 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OPPTS 850.1300

p-AMINOPHENOL:

Toxicity to fish	:	LC50 (Oryzias latipes (Japanese medaka)): 0,82 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,182 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,253 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0,083 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to microorganisms	:	EC10 (activated sludge): 2,65 mg/l Exposure time: 3 h Method: OECD Test Guideline 209
Toxicity to fish (Chronic toxicity)	:	NOEC: 0,049 mg/l Exposure time: 41 d Species: Oryzias latipes (Japanese medaka) Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,206 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 202
M-Factor (Chronic aquatic toxicity)	:	1

4-AMINO-2-HYDROXYTOLUENE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 25 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 2,3 mg/l Exposure time: 48 h Method: OECD Test Guideline 202 Remarks: No toxicity at the limit of solubility.
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 41 mg/l Exposure time: 72 h

		Method: OECD Test Guideline 201
Toxicity to microorganisms	:	IC50 (activated sludge): 150 mg/l Exposure time: 3 h Method: OECD Test Guideline 209
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,24 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211

m-AMINOPHENOL:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): > 100 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,267 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 67,7 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Pseudokirchneriella subcapitata (green algae)): 37,8 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to microorganisms	:	EC10 (activated sludge): 406,4 mg/l Exposure time: 3 h Method: OECD Test Guideline 209
Toxicity to fish (Chronic toxicity)	:	NOEC: 50 mg/l Exposure time: 21 d Species: Oryzias latipes (Japanese medaka) Method: OECD Test Guideline 204
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,05 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 202
M-Factor (Chronic aquatic toxicity)	:	1

TOLUENE-2,5-DIAMINE SULFATE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 1,08 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,19 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): 0,65 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to microorganisms	:	IC50 (activated sludge): 17,7 mg/l Exposure time: 3 h Method: OECD Test Guideline 209
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,63 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211

Ecotoxicology Assessment

Acute aquatic toxicity	:	This product has no known ecotoxicological effects.

12.2 Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability	:	Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability	:	Result: Readily biodegradable. Biodegradation: > 90 % Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability	:	Result: Readily biodegradable.

p-AMINOPHENOL:

Biodegradability	:	Result: Not readily biodegradable. Biodegradation: 6 % Exposure time: 28 d Method: OECD Test Guideline 301C

4-AMINO-2-HYDROXYTOLUENE:

Biodegradability	:	Result: Not readily biodegradable. Biodegradation: < 0,01 %

Exposure time: 28 d
Method: OECD Test Guideline 301B

m-AMINOPHENOL:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 0 %
Exposure time: 28 d
Method: OECD Test Guideline 301F

TOLUENE-2,5-DIAMINE SULFATE:

Biodegradability : Result: Inherently biodegradable.
Biodegradation: 17 %
Exposure time: 1,167 d
Method: OECD Test Guideline 301D

12.3 Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Bioconcentration factor (BCF): 70,79

Partition coefficient: n-octanol/water : log Pow: -1,28

p-AMINOPHENOL:

Bioaccumulation : Bioconcentration factor (BCF): 15 - 46
Method: OECD Test Guideline 305C

Partition coefficient: n-octanol/water : log Pow: -0,09
pH: 7,5
Method: OECD Test Guideline 107

4-AMINO-2-HYDROXYTOLUENE:

Partition coefficient: n-octanol/water : log Pow: 0,53
pH: 7,22
Method: OECD Test Guideline 117

m-AMINOPHENOL:

Bioaccumulation : Bioconcentration factor (BCF): 4

TOLUENE-2,5-DIAMINE SULFATE:

Partition coefficient: n-octanol/water	:	log Pow: 0,74 Method: OECD Test Guideline 117

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment	:	This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Endocrine disrupting properties

Product:

Assessment	:	The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7 Other adverse effects

Product:

Additional ecological information	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	:	The product should not be allowed to enter drains, water courses or the soil. Send to a licensed waste management company.
Contaminated packaging	:	Dispose of as unused product. Do not reuse empty containers.

SECTION 14: Transport information

14.1 UN number or ID number

ADN	:	Not regulated as a dangerous good
ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good

IMDG	:	Not regulated as a dangerous good
IATA	:	Not regulated as a dangerous good

14.2 UN proper shipping name

ADN	:	Not regulated as a dangerous good
ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA	:	Not regulated as a dangerous good

14.3 Transport hazard class(es)

ADN	:	Not regulated as a dangerous good
ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA	:	Not regulated as a dangerous good

14.4 Packing group

ADN	:	Not regulated as a dangerous good
ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA (Cargo)	:	Not regulated as a dangerous good
IATA (Passenger)	:	Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks	:	Not classified as dangerous in the meaning of transport regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances,	:	Conditions of restriction for the following entries should be considered:

mixtures and articles (Annex XVII)		Number on list 3
REACH - Candidate List of Substances of Very High Concern for Authorization (Article 59).	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
Regulation (EU) 2019/1021 on persistent organic pollutants (recast)	:	Not applicable
Regulation (EC) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals	:	Not applicable
REACH - List of substances subject to authorisation (Annex XIV)	:	Not applicable
Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances.		Not applicable
Reinforced medical supervision (R4624-18)	:	The product has no CMR properties

Other regulations:

Take note of Directive 94/33/EC on the protection of young people at work or stricter national regulations, where applicable.

15.2 Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this mixture.

SECTION 16: Other information

Full text of H-Statements

H301	:	Toxic if swallowed.
H302	:	Harmful if swallowed.
H312	:	Harmful in contact with skin.
H314	:	Causes severe skin burns and eye damage.
H315	:	Causes skin irritation.
H317	:	May cause an allergic skin reaction.
H318	:	Causes serious eye damage.
H319	:	Causes serious eye irritation.
H331	:	Toxic if inhaled.
H332	:	Harmful if inhaled.
H335	:	May cause respiratory irritation.
H341	:	Suspected of causing genetic defects.

H373	:	May cause damage to organs through prolonged or repeated exposure if swallowed.
H400	:	Very toxic to aquatic life.
H410	:	Very toxic to aquatic life with long lasting effects.
H411	:	Toxic to aquatic life with long lasting effects.
H412	:	Harmful to aquatic life with long lasting effects.

FICHE DE DONNÉES DE SÉCURITÉ
conformément au Règlement (CE) No. 1907/2006

PULP RIOT HIGH SPEED TONERS - GROUP 6

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	07.03.2024	00-21-410000001412	Date de la première version publiée: 07.03.2024

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1 Identificateur de produit

Nom commercial : PULP RIOT HIGH SPEED TONERS - GROUP 6

1.2 Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisation de la substance/du mélange : Produits de soins personnels destinés à un usage cosmétique.

1.3 Renseignements concernant le fournisseur de la fiche de données de sécurité

Société : L'Oreal SA
14, Rue Royale
75008Paris
France

Téléphone : +17324992745

Adresse e-mail de la personne responsable de FDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Numéro d'appel d'urgence

Centre d'information antipoison national : ORFILA number (INRS): + 33 (0) 1 45 42 59 59 ((Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

INFOTRAC : +1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1 Classification de la substance ou du mélange

Classification (RÈGLEMENT (CE) No 1272/2008)

Irritation cutanée, Catégorie 2	H315: Provoque une irritation cutanée.
Lésions oculaires graves, Catégorie 1	H318: Provoque de graves lésions des yeux.
Sensibilisation cutanée, Catégorie 1	H317: Peut provoquer une allergie cutanée.
Danger à long terme (chronique) pour le milieu aquatique, Catégorie 3	H412: Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

2.2 Éléments d'étiquetage

Étiquetage (RÈGLEMENT (CE) No 1272/2008)

Pictogrammes de danger :

Mention d'avertissement : Danger

Mentions de danger :
H315 Provoque une irritation cutanée.
H317 Peut provoquer une allergie cutanée.
H318 Provoque de graves lésions des yeux.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Conseils de prudence :
P102 Tenir hors de portée des enfants.

Prévention:

P261 Éviter de respirer les brouillards ou les vapeurs.
P264 Se laver la peau soigneusement après manipulation.
P280 Porter des gants de protection/ un équipement de protection des yeux/ du visage.

Intervention:

P305 + P351 + P338 + P310 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Appeler immédiatement un CENTRE ANTIPOISON/ un médecin.

Elimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

Composants dangereux qui doivent être listés sur l'étiquette:

COCAMIDE MEA
p-AMINOPHENOL
4-AMINO-2-HYDROXYTOLUENE
m-AMINOPHENOL
TOLUENE-2,5-DIAMINE SULFATE

2.3 Autres dangers

Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

Informations écologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Informations toxicologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Pour l'explication des abréviations voir rubrique 16.

RUBRIQUE 4: Premiers secours

4.1 Description des premiers secours

Conseils généraux : Consulter un médecin.

En cas d'inhalation : Si les troubles se prolongent, consulter un médecin.

En cas de contact avec la peau : Si l'irritation de la peau persiste, appeler un médecin.
En cas de contact avec la peau, bien rincer à l'eau.

En cas de contact avec les yeux : En cas de contact avec les yeux, laver immédiatement et abondamment avec de l'eau et consulter un spécialiste.
Enlever les lentilles de contact.
Si l'irritation oculaire persiste, consulter un médecin spécialiste.

En cas d'ingestion : Se rincer la bouche à l'eau.
Si les troubles se prolongent, consulter un médecin.

4.2 Principaux symptômes et effets, aigus et différés

Risques : Provoque une irritation cutanée.
Peut provoquer une allergie cutanée.
Provoque de graves lésions des yeux.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Traitement : Traiter de façon symptomatique.

RUBRIQUE 5: Mesures de lutte contre l'incendie

5.1 Moyens d'extinction

Moyens d'extinction appropriés : Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement proche.

Moyens d'extinction inappropriés : Aucun(e) à notre connaissance.

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers spécifiques pendant la lutte contre l'incendie : Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.

Produits de combustion dangereux : On ne connaît aucun produit de combustion dangereux

5.3 Conseils aux pompiers

Équipements de protection particuliers des pompiers : Porter un appareil de protection respiratoire autonome pour la lutte contre l'incendie, si nécessaire.

Information supplémentaire : Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou le réseau d'alimentation souterrain.
Procédure standard pour feux d'origine chimique.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1 Précautions individuelles, équipement de protection et procédures d'urgence

Précautions individuelles : Utiliser un équipement de protection individuelle.

6.2 Précautions pour la protection de l'environnement

Précautions pour la protection de l'environnement : Éviter que le produit pénètre dans les égouts.
Éviter tout déversement ou fuite supplémentaire, si cela est possible en toute sécurité.

6.3 Méthodes et matériel de confinement et de nettoyage

Méthodes de nettoyage	:	Neutraliser à l'acide. Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure). Conserver dans des récipients adaptés et fermés pour l'élimination.

6.4 Référence à d'autres rubriques

Voir les rubriques: 7, 8, 11, 12 et 13.

RUBRIQUE 7: Manipulation et stockage

7.1 Précautions à prendre pour une manipulation sans danger

Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Éviter l'exposition - se procurer des instructions spéciales avant l'utilisation. Pour l'équipement de protection individuel, voir rubrique 8. Les personnes susceptibles d'avoir des problèmes de sensibilisation de la peau ou d'asthme, des allergies, des maladies respiratoires chroniques ou récurrentes, ne devraient pas être employées dans aucun des procédés dans lequel ce mélange est utilisé.
Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Mesures d'hygiène	:	Ne pas manger et ne pas boire pendant l'utilisation. Ne pas fumer pendant l'utilisation. Se laver les mains avant les pauses et à la fin de la journée de travail.
Classe d´explosibilité de poussière	:	Sans objet.

7.2 Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Exigences concernant les aires de stockage et les conteneurs	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
Pour en savoir plus sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

7.3 Utilisation(s) finale(s) particulière(s)

Utilisation(s) particulière(s)	:	Produits de soins personnels destinés à un usage cosmétique.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Ne contient pas de substances avec des valeurs limites d'exposition professionnelle.

8.2 Contrôles de l'exposition

Équipement de protection individuelle

Protection des yeux/du visage	:	Pour usage industriel seulement. Lunettes de sécurité à protection intégrale
Protection des mains		
Remarques	:	Pour usage industriel seulement. Caoutchouc nitrile
Protection de la peau et du corps	:	Pour usage industriel seulement. Uniforme de travail ou veste de laboratoire.
Protection respiratoire	:	Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques essentielles

Etat physique	:	liquide
Couleur	:	Donnée non disponible
Odeur	:	caractéristique
Point de fusion/point de congélation	:	Donnée non disponible
Point/intervalle d'ébullition	:	Pas disponible
Limite d'explosivité, supérieure / Limite d'inflammabilité supérieure	:	Donnée non disponible
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible

Point d'éclair	:	> 93 °C Méthode: ISO 3679
Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Non applicable
pH	:	10,5 - 11,1
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Solubilité(s)		
Hydrosolubilité	:	partiellement soluble
Coefficient de partage: n-octanol/eau	:	Non applicable
Pression de vapeur	:	Donnée non disponible
Densité relative	:	0,997 - 1,003 (20 °C)
Densité de vapeur relative	:	Donnée non disponible
Caractéristiques de la particule		
Taille des particules	:	Non applicable

9.2 Autres informations

Point d'inflammation	:	Non applicable
Classe d´explosibilité de poussière	:	Sans objet.

RUBRIQUE 10: Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.2 Stabilité chimique

Stable dans des conditions normales.

10.3 Possibilité de réactions dangereuses

Réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

10.4 Conditions à éviter

Conditions à éviter : Donnée non disponible

10.5 Matières incompatibles

Matières à éviter : Non applicable

10.6 Produits de décomposition dangereux

On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

11.1 Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë

Non classé sur la base des informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2.000 mg/kg
Méthode: Méthode de calcul

Composants:

COCAMIDE MEA:

Toxicité aiguë par voie orale : DL50: > 5.000 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par inhalation : Estimation de la toxicité aiguë: > 20 mg/l
Durée d'exposition: 4 h
Atmosphère de test: vapeur

Toxicité aiguë par voie cutanée : Estimation de la toxicité aiguë: > 5.000 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

COCAMIDOPROPYL BETAINE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): > 5.000 mg/kg
Méthode: OCDE ligne directrice 401
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par voie cutanée : DL50 (Rat, mâle et femelle): > 2.000 mg/kg
Méthode: OCDE ligne directrice 402
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

AMMONIUM HYDROXIDE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 350 mg/kg
Méthode: OCDE ligne directrice 401

Estimation de la toxicité aiguë: 350 mg/kg
Méthode: Méthode de calcul

p-AMINOPHENOL:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 671 mg/kg
Méthode: OPPTS 870.1100

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): > 3,42 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard
Méthode: OCDE ligne directrice 403

Toxicité aiguë par voie cutanée : DL50 (Lapin): > 8.000 mg/kg
Méthode: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 3.600 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): 42,57 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard
Evaluation: La substance ni le mélange ne présente une toxicité aiguë par inhalation

Toxicité aiguë par voie cutanée : DL50 (Rat): 5.688 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

m-AMINOPHENOL:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): > 500 - 2.000 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): 1,162 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard
Méthode: OCDE ligne directrice 403

Toxicité aiguë par voie cutanée : DL50 (Lapin): 8.112 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

TOLUENE-2,5-DIAMINE SULFATE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 102 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat): 0,99 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard
Remarques: Selon les données provenant de composants similaires

Toxicité aiguë par voie cutanée : DL50 (Rat): 3.519 mg/kg
Remarques: Selon les données provenant de composants similaires

Corrosion cutanée/irritation cutanée

Provoque une irritation cutanée.

Produit:

Remarques : Peut provoquer une irritation de la peau chez les personnes sensibles.

Composants:

COCAMIDE MEA:

Espèce : Lapin
Résultat : Irritation de la peau

COCAMIDOPROPYL BETAINE:

Espèce : Epiderme humain
Résultat : Irritation de la peau

AMMONIUM HYDROXIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Corrosif après 3 minutes à 1 heure d'exposition

p-AMINOPHENOL:

Espèce : Lapin
Résultat : Pas d'irritation de la peau

4-AMINO-2-HYDROXYTOLUENE:

Espèce : Epiderme humain
Méthode : OCDE ligne directrice 431
Résultat : Pas d'irritation de la peau

m-AMINOPHENOL:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Pas d'irritation de la peau

TOLUENE-2,5-DIAMINE SULFATE:

Espèce : Lapin
Résultat : Pas d'irritation de la peau

Lésions oculaires graves/irritation oculaire

Provoque de graves lésions des yeux.

Produit:

Remarques : Peut provoquer des lésions oculaires irréversibles.

Composants:

COCAMIDE MEA:

Espèce : Lapin
Résultat : Effets irréversibles sur les yeux

COCAMIDOPROPYL BETAINE:

Espèce : Lapin
Résultat : Irritation des yeux

p-AMINOPHENOL:

Espèce : Lapin
Résultat : Pas d'irritation des yeux

4-AMINO-2-HYDROXYTOLUENE:

Espèce : Espèces d'essai non standards
Méthode : OCDE ligne directrice 438
Résultat : Pas d'irritation des yeux

m-AMINOPHENOL:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Pas d'irritation des yeux

TOLUENE-2,5-DIAMINE SULFATE:

Espèce : Lapin
Résultat : Pas d'irritation des yeux

Sensibilisation respiratoire ou cutanée

Sensibilisation cutanée

Peut provoquer une allergie cutanée.

Sensibilisation respiratoire

Non classé sur la base des informations disponibles.

Produit:

Remarques : Peut provoquer une sensibilisation.

Composants:

p-AMINOPHENOL:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Peut entraîner une sensibilisation par contact avec la peau.

4-AMINO-2-HYDROXYTOLUENE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris
Méthode	:	OCDE ligne directrice 429
Résultat	:	Le produit est un sensibilisant de la peau, sous-catégorie 1A.

m-AMINOPHENOL:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris
Méthode	:	OCDE ligne directrice 429
Résultat	:	Le produit est un sensibilisant de la peau, sous-catégorie 1A.

TOLUENE-2,5-DIAMINE SULFATE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris
Méthode	:	OCDE ligne directrice 429
Résultat	:	Peut entraîner une sensibilisation par contact avec la peau.

Mutagénicité sur les cellules germinales

Non classé sur la base des informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Génotoxicité in vitro	:	Remarques: Les tests in vitro n'ont pas montré des effets mutagènes
Mutagénicité sur les cellules germinales- Evaluation	:	L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

AMMONIUM HYDROXIDE:

Mutagénicité sur les cellules germinales- Evaluation	:	L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

p-AMINOPHENOL:

Génotoxicité in vitro	:	Remarques: Les tests in vitro n'ont pas montré des effets mutagènes
Génotoxicité in vivo	:	Remarques: Les tests in vivo ont montré des effets mutagènes

Mutagénicité sur les cellules germinales- Evaluation : Les tests in vitro ont montré des effets mutagènes qui n'ont pas été observés dans les tests in vivo.

4-AMINO-2-HYDROXYTOLUENE:

Mutagénicité sur les cellules germinales- Evaluation : L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

TOLUENE-2,5-DIAMINE SULFATE:

Mutagénicité sur les cellules germinales- Evaluation : L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

Cancérogénicité

Non classé sur la base des informations disponibles.

Composants:

p-AMINOPHENOL:

Cancérogénicité - Evaluation : N'est pas classifiable comme cancérogène pour l'homme.

TOLUENE-2,5-DIAMINE SULFATE:

Cancérogénicité - Evaluation : Les éléments de preuve apportés ne permettent pas le classement comme cancérogène

Toxicité pour la reproduction

Non classé sur la base des informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Effets sur la fertilité : Espèce: Rat
Fertilité: NOAEL: 1.000 mg/kg de poids corporel/jour
Méthode: OCDE ligne directrice 408
Résultat: L’expérimentation sur des animaux n’a démontré aucun effet sur la fertilité.

Incidences sur le développement du fœtus : Espèce: Rat
Toxicité pour le développement: 950
Méthode: OCDE ligne directrice 414
Résultat: Aucune réaction secondaire.

Toxicité pour la reproduction - Evaluation : Aucune preuve d'effets nocifs sur la fonction sexuelle et la fertilité ou sur la croissance, lors de l'expérimentation animale.

p-AMINOPHENOL:

Effets sur la fertilité : Espèce: Rat
Fertilité: NOAEL: 100 mg/kg de poids corporel/jour
Méthode: OCDE ligne directrice 421

Incidences sur le développement du fœtus : Espèce: Rat
Toxicité pour le développement: 100

Méthode: OCDE ligne directrice 421

Toxicité pour la reproduction - Evaluation : Aucune preuve d'effets nocifs sur la fonction sexuelle et la fertilité ou sur la croissance, lors de l'expérimentation animale.

4-AMINO-2-HYDROXYTOLUENE:

Effets sur la fertilité : Espèce: Rat
Fertilité: NOAEL: 200 mg/kg de poids corporel/jour
Résultat: Quelques preuves d'effets néfastes sur le développement sur base de tests sur les animaux.

Incidences sur le développement du fœtus : Espèce: Rat
Toxicité pour le développement: 180
Méthode: OCDE ligne directrice 414
Résultat: Aucune réaction secondaire.

TOLUENE-2,5-DIAMINE SULFATE:

Effets sur la fertilité : Espèce: Rat
Fertilité: NOAEL: >= 45 mg/kg de poids corporel/jour
Méthode: OCDE ligne directrice 416

Incidences sur le développement du fœtus : Espèce: Souris
Toxicité pour le développement: >= 32
Méthode: OCDE ligne directrice 414
Résultat: Aucune réaction secondaire.

Toxicité pour la reproduction - Evaluation : Les éléments de preuve apportés ne permettent pas le classement comme toxique pour la reproduction

Toxicité spécifique pour certains organes cibles - exposition unique

Non classé sur la base des informations disponibles.

Composants:

AMMONIUM HYDROXIDE:

Voies d'exposition : Inhalation
Evaluation : Peut irriter les voies respiratoires.

Toxicité spécifique pour certains organes cibles - exposition répétée

Non classé sur la base des informations disponibles.

Composants:

p-AMINOPHENOL:

Voies d'exposition : Ingestion
Evaluation : La substance ou le mélange est classé comme toxique spécifique pour un organe cible, exposition répétée, catégorie 2.

m-AMINOPHENOL:

Evaluation : La substance ou le mélange n'est pas classé comme toxique

spécifique pour un organe cible, exposition répétée.

Toxicité à dose répétée

Composants:

COCAMIDOPROPYL BETAINE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	500 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 jr
Méthode	:	OCDE ligne directrice 407

p-AMINOPHENOL:

Espèce	:	Rat, mâle et femelle
NOAEL	:	10 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	13 sem.
Méthode	:	OCDE ligne directrice 408

4-AMINO-2-HYDROXYTOLUENE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	180 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	13 sem.
Méthode	:	OCDE ligne directrice 408

m-AMINOPHENOL:

Espèce	:	Rat, mâle et femelle
NOAEL	:	70 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	13 sem.

Espèce	:	Rat, mâle et femelle
NOAEL	:	0,59 mg/kg
Voie d'application	:	Dermale
Durée d'exposition	:	2 a

TOLUENE-2,5-DIAMINE SULFATE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	10 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	91 jr
Méthode	:	OCDE ligne directrice 408
Organes cibles	:	Muscle squelettique
Evaluation	:	La substance ou le mélange est classé comme toxique spécifique pour un organe cible, exposition répétée, catégorie 2.

Toxicité par aspiration

Non classé sur la base des informations disponibles.

11.2 Informations sur les autres dangers

Propriétés perturbant le système endocrinien

Produit:

Evaluation : La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Information supplémentaire

Produit:

Remarques : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 12: Informations écologiques

12.1 Toxicité

Composants:

COCAMIDE MEA:

Toxicité pour les poissons	:	CL50 (Poisson): > 10 - 100 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 : > 1 - 10 mg/l
Toxicité pour les algues/plantes aquatiques	:	CE50 (Algues): > 1 - 10 mg/l
Toxicité pour les microorganismes	:	EC10 (boue activée): > 100 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: > 0,01 - 0,1 mg/l

COCAMIDOPROPYL BETAINE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 2 mg/l

		Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 6,4 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Espèces d'essai non standards): 30 mg/l Durée d'exposition: 48 h
Toxicité pour les microorganismes	:	CI50 (Pseudomonas putida (Bacille Pseudomonas putida)): 3.000 mg/l Durée d'exposition: 16 h
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,9 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 202

AMMONIUM HYDROXIDE:

Toxicité pour les poissons	:	CL50 (Pimephales promelas (Vairon à grosse tête)): 0,75 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 101 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Facteur M (Toxicité aiguë pour le milieu aquatique)	:	1
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 1,2 mg/l Durée d'exposition: 21 jr Espèce: Oncorhynchus mykiss (Truite arc-en-ciel) Méthode: OCDE Ligne directrice 210
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,79 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OPPTS 850.1300

p-AMINOPHENOL:

Toxicité pour les poissons	:	CL50 (Oryzias latipes (médaka)): 0,82 mg/l Durée d'exposition: 96 h Méthode: OCDE ligne directrice 203
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 0,182 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (algues vertes)): 0,253 mg/l Durée d'exposition: 72 h

Méthode: OCDE Ligne directrice 201

NOELR (Pseudokirchneriella subcapitata (algues vertes)): 0,083 mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

Facteur M (Toxicité aiguë pour le milieu aquatique)	:	1
Toxicité pour les microorganismes	:	EC10 (boue activée): 2,65 mg/l Durée d'exposition: 3 h Méthode: OCDE Ligne directrice 209
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 0,049 mg/l Durée d'exposition: 41 jr Espèce: Oryzias latipes (médaka) Méthode: OCDE Ligne directrice 210
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,206 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 202
Facteur M (Toxicité chronique pour le milieu aquatique)	:	1

4-AMINO-2-HYDROXYTOLUENE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 25 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 2,3 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202 Remarques: Aucune toxicité à la limite de solubilité
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (algues vertes)): 41 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Toxicité pour les microorganismes	:	CI50 (boue activée): 150 mg/l Durée d'exposition: 3 h Méthode: OCDE Ligne directrice 209
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,24 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 211

m-AMINOPHENOL:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): > 100 mg/l Durée d'exposition: 96 h Méthode: OCDE ligne directrice 203
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 0,267 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (algues vertes)): 67,7 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201 EC10 (Pseudokirchneriella subcapitata (algues vertes)): 37,8 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Facteur M (Toxicité aiguë pour le milieu aquatique)	:	1
Toxicité pour les microorganismes	:	EC10 (boue activée): 406,4 mg/l Durée d'exposition: 3 h Méthode: OCDE Ligne directrice 209
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 50 mg/l Durée d'exposition: 21 jr Espèce: Oryzias latipes (médaka) Méthode: OCDE Ligne directrice 204
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,05 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 202
Facteur M (Toxicité chronique pour le milieu aquatique)	:	1

TOLUENE-2,5-DIAMINE SULFATE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 1,08 mg/l Durée d'exposition: 96 h Méthode: OCDE ligne directrice 203
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 1,19 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Desmodesmus subspicatus (Algue verte)): 0,65 mg/l Durée d'exposition: 72 h

Méthode: OCDE Ligne directrice 201

Toxicité pour les microorganismes : CI50 (boue activée): 17,7 mg/l
Durée d'exposition: 3 h
Méthode: OCDE Ligne directrice 209

Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique) : NOEC: 0,63 mg/l
Durée d'exposition: 21 jr
Espèce: Daphnia magna (Grande daphnie)
Méthode: OCDE Ligne directrice 211

Évaluation Ecotoxicologique

Toxicité aiguë pour le milieu aquatique : Ce produit n'est associé à aucun effet écotoxicologique connu.

12.2 Persistance et dégradabilité

Composants:

COCAMIDE MEA:

Biodégradabilité : Résultat: Facilement biodégradable.

COCAMIDOPROPYL BETAINE:

Biodégradabilité : Résultat: Facilement biodégradable.
Biodégradation: > 90 %
Durée d'exposition: 14 jr

AMMONIUM HYDROXIDE:

Biodégradabilité : Résultat: Facilement biodégradable.

p-AMINOPHENOL:

Biodégradabilité : Résultat: Difficilement biodégradable.
Biodégradation: 6 %
Durée d'exposition: 28 jr
Méthode: OCDE Ligne directrice 301 C

4-AMINO-2-HYDROXYTOLUENE:

Biodégradabilité : Résultat: Difficilement biodégradable.
Biodégradation: < 0,01 %
Durée d'exposition: 28 jr
Méthode: OCDE Ligne directrice 301 B

m-AMINOPHENOL:

Biodégradabilité : Résultat: Difficilement biodégradable.
Biodégradation: 0 %
Durée d'exposition: 28 jr
Méthode: OCDE ligne directrice 301F

TOLUENE-2,5-DIAMINE SULFATE:

Biodégradabilité : Résultat: Intrinsèquement biodégradable.
Biodégradation: 17 %
Durée d'exposition: 1,167 jr
Méthode: OCDE ligne directrice 301D

12.3 Potentiel de bioaccumulation

Composants:

COCAMIDE MEA:

Coefficient de partage: n-octanol/eau : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Facteur de bioconcentration (FBC): 70,79

Coefficient de partage: n-octanol/eau : log Pow: -1,28

p-AMINOPHENOL:

Bioaccumulation : Facteur de bioconcentration (FBC): 15 - 46
Méthode: OCDE ligne directrice 305C

Coefficient de partage: n-octanol/eau : log Pow: -0,09
pH: 7,5
Méthode: OCDE ligne directrice 107

4-AMINO-2-HYDROXYTOLUENE:

Coefficient de partage: n-octanol/eau : log Pow: 0,53
pH: 7,22
Méthode: OCDE Ligne directrice 117

m-AMINOPHENOL:

Bioaccumulation : Facteur de bioconcentration (FBC): 4

TOLUENE-2,5-DIAMINE SULFATE:

Coefficient de partage: n-octanol/eau : log Pow: 0,74
Méthode: OCDE Ligne directrice 117

12.4 Mobilité dans le sol

Donnée non disponible

12.5 Résultats des évaluations PBT et vPvB

Produit:

Evaluation	:	Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

12.6 Propriétés perturbant le système endocrinien

Produit:

Evaluation	:	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

12.7 Autres effets néfastes

Produit:

Information écologique supplémentaire	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 13: Considérations relatives à l'élimination

13.1 Méthodes de traitement des déchets

Produit	:	Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol. Envoyer à une entreprise autorisée à gérer les déchets.
Emballages contaminés	:	Eliminer comme produit non utilisé. Ne pas réutiliser des récipients vides.

RUBRIQUE 14: Informations relatives au transport

14.1 Numéro ONU ou numéro d'identification

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.2 Désignation officielle de transport de l'ONU

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse

RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.3 Classe(s) de danger pour le transport

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.4 Groupe d'emballage

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA (Cargo)	:	Non réglementé comme étant une marchandise dangereuse
IATA (Passager)	:	Non réglementé comme étant une marchandise dangereuse

14.5 Dangers pour l'environnement

Non réglementé comme étant une marchandise dangereuse

14.6 Précautions particulières à prendre par l'utilisateur

Remarques	:	Produit non dangereux au sens des réglementations pour le transport.

14.7 Transport maritime en vrac conformément aux instruments de l'OMI

Non applicable pour le produit tel qu'il est fourni.

RUBRIQUE 15: Informations relatives à la réglementation

15.1 Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

REACH - Restrictions applicables à la fabrication, à la mise sur le marché et à l'utilisation de certaines substances dangereuses et de certains mélanges et articles dangereux (Annexe XVII)	:	Les conditions de limitation pour les entrées suivantes doivent être prises en compte: Numéro sur la liste 3
REACH - Listes des substances extrêmement préoccupantes candidates en vue d'une autorisation (Article 59).	:	Non applicable
Règlement (CE) Nº 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone	:	Non applicable

Règlement (UE) 2019/1021 concernant les polluants organiques persistants (refonte)	:	Non applicable
Règlement (CE) Nº 649/2012 du Parlement européen et du Conseil concernant les exportations et importations de produits chimiques dangereux	:	Non applicable
REACH - Liste des substances soumises à autorisation (Annexe XIV)	:	Non applicable
Seveso III: Directive 2012/18/UE du Parlement européen et du Conseil concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses.		Non applicable
Surveillance médicale renforcée (R4624-18)	:	Le produit n'a pas de propriétés CMR

Autres réglementations:

Prenez note de la directive 94/33/CE relative à la protection des jeunes au travail ou de réglementations nationales plus strictes, le cas échéant.

15.2 Évaluation de la sécurité chimique

Aucune évaluation de la sécurité chimique n'a été réalisée pour ce mélange.

RUBRIQUE 16: Autres informations

Texte complet pour phrase H

H301	:	Toxique en cas d'ingestion.
H302	:	Nocif en cas d'ingestion.
H312	:	Nocif par contact cutané.
H314	:	Provoque de graves brûlures de la peau et de graves lésions des yeux.
H315	:	Provoque une irritation cutanée.
H317	:	Peut provoquer une allergie cutanée.
H318	:	Provoque de graves lésions des yeux.
H319	:	Provoque une sévère irritation des yeux.
H331	:	Toxique par inhalation.
H332	:	Nocif par inhalation.
H335	:	Peut irriter les voies respiratoires.
H341	:	Susceptible d'induire des anomalies génétiques.
H373	:	Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.
H400	:	Très toxique pour les organismes aquatiques.
H410	:	Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

H411	:	Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
H412	:	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Texte complet pour autres abréviations

Acute Tox.	:	Toxicité aiguë
Aquatic Acute	:	Danger à court terme (aigu) pour le milieu aquatique
Aquatic Chronic	:	Danger à long terme (chronique) pour le milieu aquatique
Eye Dam.	:	Lésions oculaires graves
Eye Irrit.	:	Irritation oculaire
Muta.	:	Mutagénicité sur les cellules germinales
Skin Corr.	:	Corrosion cutanée
Skin Irrit.	:	Irritation cutanée
Skin Sens.	:	Sensibilisation cutanée
STOT RE	:	Toxicité spécifique pour certains organes cibles - exposition répétée
STOT SE	:	Toxicité spécifique pour certains organes cibles - exposition unique

Information supplémentaire

Autres informations : Les informations contenues dans la présente fiche de sécurité ont été établies sur la base de nos connaissances à la date de publication de ce document. Ces informations ne sont données qu'à titre indicatif en vue de permettre des opérations de manipulation, fabrication, stockage, transport, distribution, mise à disposition, utilisation et élimination dans des conditions satisfaisantes de sécurité, et ne sauraient donc être interprétées comme une garantie ou considérées comme des spécifications de qualité. Ces informations ne concernent en outre que le produit nommément désigné et, sauf indication contraire spécifique, peuvent ne pas être applicables en cas de mélange dudit produit avec d'autres substances ou utilisables pour tout procédé de fabrication.

SAFETY DATA SHEET

PULP RIOT HIGH SPEED TONERS - GROUP 6

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	2024.03.07	00-21-410000001412	Date of first issue: 2024.03.07

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : PULP RIOT HIGH SPEED TONERS - GROUP 6

Manufacturer or supplier's details

Company : Procosa SP - Procosa Produtos de beleza LTDA
Address : Rua Manoel Monteiro de Araújo
1350 - Parque Sao Domingos
São Paulo - SP 02675-031
Brazil

Telephone : +55 21 4505-0000

E-mail address : NACORPEUROPESDSREQUEST@LOREAL.COM

Emergency telephone

National Poisons Control Center :
INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification in accordance with ABNT NBR 14725 Standard

Skin irritation : Category 2

Serious eye damage : Category 1

Skin sensitization : Category 1

Short-term (acute) aquatic hazard : Category 3

Long-term (chronic) aquatic hazard : Category 3

GHS label elements in accordance with ABNT NBR 14725 Standard

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements : P102 Keep out of reach of children.

Prevention:

P261 Avoid breathing mist or vapors.
P264 Wash skin thoroughly after handling.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Additional Labeling

The following percentage of the mixture consists of ingredient(s) with unknown acute oral toxicity: 3 %
The following percentage of the mixture consists of ingredient(s) with unknown acute dermal toxicity: 3 %
The following percentage of the mixture consists of ingredient(s) with unknown acute inhalation toxicity: 3 %
The following percentage of the mixture consists of ingredient(s) with unknown hazards to the aquatic environment: 3 %

Other hazards which do not result in classification

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Classification	Concentration (% w/w)
COCAMIDE MEA	68140-00-1	Skin irritation, Category 2 Serious eye damage, Category 1 Long-term (chronic) aquatic hazard, Category 2	>= 10 -< 20
COCAMIDOPROPYL BETAINE	61789-40-0	Skin irritation, Category 2 Eye irritation, Category 2A	>= 1 -< 2,5

		Short-term (acute) aquatic hazard, Category 2 Long-term (chronic) aquatic hazard, Category 3	
AMMONIUM HYDROXIDE	1336-21-6	Acute toxicity (Oral), Category 4 Skin corrosion, Category 1B Serious eye damage, Category 1 Specific target organ toxicity - single exposure (Respiratory system), Category 3 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 3	>= 1 -< 2,5
p-AMINOPHENOL	123-30-8	Acute toxicity (Oral), Category 4 Acute toxicity (Inhalation), Category 4 Skin sensitization, Category 1 Germ cell mutagenicity, Category 2 Specific target organ toxicity - repeated exposure (Oral), Category 2 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,25 -< 1
4-AMINO-2-HYDROXYTOLUENE	2835-95-2	Acute toxicity (Oral), Category 5 Skin sensitization, Sub-category 1A Short-term (acute) aquatic hazard, Category 3 Long-term (chronic) aquatic hazard, Category 2	>= 0,25 -< 1

m-AMINOPHENOL	591-27-5	Acute toxicity (Oral), Category 4 Acute toxicity (Inhalation), Category 4 Skin sensitization, Sub-category 1A Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,1 -< 0,25

SECTION 4. FIRST AID MEASURES

General advice	:	Consult a physician.
If inhaled	:	If symptoms persist, call a physician.
In case of skin contact	:	If skin irritation persists, call a physician. If on skin, rinse well with water.
In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Remove contact lenses. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion prod-	:	No hazardous combustion products are known.

ucts

Specific extinguishing methods	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Neutralize with acid. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. Avoid exposure - obtain special instructions before use. For personal protection see section 8. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type	Control parame-	Basis

		(Form of exposure)	ters / Permissible concentration	
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Ammonia)	ACGIH
		STEL	35 ppm (Ammonia)	ACGIH

Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally required.

Hand protection

Remarks : Applicable for industrial settings only. Nitrile rubber

Eye protection : Applicable for industrial settings only.
Tightly fitting safety goggles

Skin and body protection : Applicable for industrial settings only.
Work uniform or laboratory coat.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state : liquid

Color : No data available

Odor : characteristic

pH : 10,5 - 11,1

Melting point/freezing point : No data available

Boiling point/boiling range : Not available

Flash point : > 93 °C

Method: ISO 3679

Fire Point : Not applicable

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit : No data available

Vapor pressure : No data available

Relative vapor density	:	No data available
Relative density	:	0,997 - 1,003 (20 °C)
Solubility(ies)		
Water solubility	:	partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity		
Viscosity, kinematic	:	No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity : Acute toxicity estimate: > 5.000 mg/kg
Method: Calculation method

Components:

COCAMIDE MEA:

Acute oral toxicity : LD50: > 5.000 mg/kg

Assessment: The substance or mixture has no acute oral toxicity

Acute inhalation toxicity : Acute toxicity estimate: > 20 mg/l
Exposure time: 4 h
Test atmosphere: vapor

Acute dermal toxicity : Acute toxicity estimate: > 5.000 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity : LD50 (Rat, male and female): > 5.000 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

Acute dermal toxicity : LD50 (Rat, male and female): > 2.000 mg/kg
Method: OECD Test Guideline 402
Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity : LD50 (Rat, male): 350 mg/kg
Method: OECD Test Guideline 401

p-AMINOPHENOL:

Acute oral toxicity : LD50 (Rat, male and female): 671 mg/kg
Method: OPPTS 870.1100

Acute inhalation toxicity : LC50 (Rat, male and female): > 3,42 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403

Acute dermal toxicity : LD50 (Rabbit): > 8.000 mg/kg
Method: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Acute oral toxicity : LD50 (Rat, male and female): 3.600 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): 42,57 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Assessment: The substance or mixture has no acute inhalation toxicity

Acute dermal toxicity : LD50 (Rat): 5.688 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity

m-AMINOPHENOL:

Acute oral toxicity	:	LD50 (Rat, male and female): > 500 - 2.000 mg/kg
Acute inhalation toxicity	:	LC50 (Rat, male and female): 1,162 mg/l Exposure time: 4 h Test atmosphere: dust/mist Method: OECD Test Guideline 403
Acute dermal toxicity	:	LD50 (Rabbit): 8.112 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks	:	May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species	:	Rabbit
Result	:	Skin irritation

COCAMIDOPROPYL BETAINE:

Species	:	human skin
Result	:	Skin irritation

AMMONIUM HYDROXIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 3 minutes to 1 hour of exposure

p-AMINOPHENOL:

Species	:	Rabbit
Result	:	No skin irritation

4-AMINO-2-HYDROXYTOLUENE:

Species	:	human skin
Method	:	OECD Test Guideline 431
Result	:	No skin irritation

m-AMINOPHENOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404

Result : No skin irritation

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks : May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species : Rabbit
Result : Eye irritation

p-AMINOPHENOL:

Species : Rabbit
Result : No eye irritation

4-AMINO-2-HYDROXYTOLUENE:

Species : Non-standard test species
Result : No eye irritation
Method : OECD Test Guideline 438

m-AMINOPHENOL:

Species : Rabbit
Result : No eye irritation
Method : OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

May cause an allergic skin reaction.

Respiratory sensitization

Not classified based on available information.

Product:

Remarks : May cause sensitization.

Components:

p-AMINOPHENOL:

Routes of exposure : Skin contact

Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	May cause sensitization by skin contact.

4-AMINO-2-HYDROXYTOLUENE:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	The product is a skin sensitizer, sub-category 1A.

m-AMINOPHENOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	The product is a skin sensitizer, sub-category 1A.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

p-AMINOPHENOL:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Genotoxicity in vivo	:	Remarks: In vivo tests showed mutagenic effects
Germ cell mutagenicity - Assessment	:	In vitro tests showed mutagenic effects which were not observed with in vivo test.

4-AMINO-2-HYDROXYTOLUENE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Components:

p-AMINOPHENOL:

Carcinogenicity -	:	Not classifiable as a human carcinogen.

Assessment

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 1.000 mg/kg body weight Method: OECD Test Guideline 408 Result: Animal testing did not show any effects on fertility.
Effects on fetal development	:	Species: Rat Developmental Toxicity: 950 Method: OECD Test Guideline 414 Result: No adverse effects.
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

p-AMINOPHENOL:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 100 mg/kg body weight Method: OECD Test Guideline 421
Effects on fetal development	:	Species: Rat Developmental Toxicity: 100 Method: OECD Test Guideline 421
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

4-AMINO-2-HYDROXYTOLUENE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 200 mg/kg body weight Result: Some evidence of adverse effects on development, based on animal experiments.
Effects on fetal development	:	Species: Rat Developmental Toxicity: 180 Method: OECD Test Guideline 414 Result: No adverse effects.

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure	:	Inhalation
Assessment	:	May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Components:

p-AMINOPHENOL:

Routes of exposure	:	Ingestion
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

m-AMINOPHENOL:

Assessment	:	The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

p-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

4-AMINO-2-HYDROXYTOLUENE:

Species	:	Rat, male and female
NOAEL	:	180 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks
Method	:	OECD Test Guideline 408

m-AMINOPHENOL:

Species	:	Rat, male and female
NOAEL	:	70 mg/kg
Application Route	:	Oral
Exposure time	:	13 Weeks

Species	:	Rat, male and female
NOAEL	:	0,59 mg/kg
Application Route	:	Dermal
Exposure time	:	2 yr

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l
Toxicity to daphnia and other aquatic invertebrates	:	EC50: > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0,01 - 0,1 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6,4 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Non-standard test species): 30 mg/l Exposure time: 48 h
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,9 mg/l Exposure time: 21 d Method: OECD Test Guideline 202

Toxicity to microorganisms	:	IC50 (Pseudomonas putida): 3.000 mg/l Exposure time: 16 h

AMMONIUM HYDROXIDE:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 0,75 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 101 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC (Oncorhynchus mykiss (rainbow trout)): 1,2 mg/l Exposure time: 21 d Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,79 mg/l Exposure time: 21 d Method: OPPTS 850.1300

p-AMINOPHENOL:

Toxicity to fish	:	LC50 (Oryzias latipes (Japanese medaka)): 0,82 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,182 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,253 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0,083 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC (Oryzias latipes (Japanese medaka)): 0,049 mg/l Exposure time: 41 d Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,206 mg/l Exposure time: 21 d Method: OECD Test Guideline 202

M-Factor (Chronic aquatic toxicity)	:	1
Toxicity to microorganisms	:	EC10 (activated sludge): 2,65 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

4-AMINO-2-HYDROXYTOLUENE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 25 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 2,3 mg/l Exposure time: 48 h Method: OECD Test Guideline 202 Remarks: No toxicity at the limit of solubility.
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 41 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,24 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
Toxicity to microorganisms	:	IC50 (activated sludge): 150 mg/l Exposure time: 3 h Method: OECD Test Guideline 209

m-AMINOPHENOL:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): > 100 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,267 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 67,7 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Pseudokirchneriella subcapitata (green algae)): 37,8 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC (Oryzias latipes (Japanese medaka)): 50 mg/l Exposure time: 21 d

Method: OECD Test Guideline 204

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 0,05 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 202

M-Factor (Chronic aquatic toxicity) : 1

Toxicity to microorganisms : EC10 (activated sludge): 406,4 mg/l
Exposure time: 3 h
Method: OECD Test Guideline 209

Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability : Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: > 90 %
Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability : Result: Readily biodegradable.

p-AMINOPHENOL:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 6 %
Exposure time: 28 d
Method: OECD Test Guideline 301C

4-AMINO-2-HYDROXYTOLUENE:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: < 0,01 %
Exposure time: 28 d
Method: OECD Test Guideline 301B

m-AMINOPHENOL:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 0 %
Exposure time: 28 d
Method: OECD Test Guideline 301F

Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Bioconcentration factor (BCF): 70,79

Partition coefficient: n-octanol/water : log Pow: -1,28

p-AMINOPHENOL:

Bioaccumulation : Bioconcentration factor (BCF): 15 - 46
Method: OECD Test Guideline 305C

Partition coefficient: n-octanol/water : log Pow: -0,09
pH: 7,5
Method: OECD Test Guideline 107

4-AMINO-2-HYDROXYTOLUENE:

Partition coefficient: n-octanol/water : log Pow: 0,53
pH: 7,22
Method: OECD Test Guideline 117

m-AMINOPHENOL:

Bioaccumulation : Bioconcentration factor (BCF): 4

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.

Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

ANTT
Not regulated as a dangerous good

International Regulations

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National List of Carcinogenic Agents for Humans - (LINACH) : Not applicable

Brazil. List of chemicals controlled by the Federal Police : AMMONIUM HYDROXIDE

SECTION 16. OTHER INFORMATION

Revision Date : 2024.03.07

Date format : yyyy/mm/dd

Further information

Other information : The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be

valid for such material used in combination with any other materials or in any process, unless specified in the text.

FICHA DE DADOS DE SEGURANÇA

PULP RIOT HIGH SPEED TONERS - GROUP 6

Versão	Data de revisão:	Número SDS:	Data de última emissão: -
1.0	2024.03.07	00-21-410000001412	Data da primeira emissão: 2024.03.07

SECÇÃO 1. IDENTIFICACAO DO PRODUTO E DA SOCIEDADE

Nome do produto : PULP RIOT HIGH SPEED TONERS - GROUP 6

Coordenadas do fabricante e do fornecedos

Companhia : Procosa SP - Procosa Produtos de beleza LTDA

Direcção : Rua Manoel Monteiro de Araújo
1350 - Parque Sao Domingos
São Paulo - SP 02675-031
Brazil

Telefone : +55 21 4505-0000

Email endereço : NACORPEUROPESDSREQUEST@LOREAL.COM

Número de telefone de emergência

Centro de Informação Antivenenos nacional :

INFOTRAC : +1 352-323-3500 (Disponível 24 horas por dia. A informação sobre o produto/FDS poderá não estar disponível para o Serviço de Emergência.)

Utilização recomendada da substância química e restrições de utilização

Utilizações recomendadas : Produto de cuidado pessoal usado para efeito cosmético.

SECÇÃO 2. IDENTIFICAÇÃO DOS PERIGOS

Classificação do GHS conforme Norma ABNT NBR 14725

Irritação cutânea : Categoria 2

Lesões oculares graves : Categoria 1

Sensibilização da pele : Categoria 1

Perigo (agudo) de curto prazo para o ambiente aquático : Categoria 3

Perigo (crónico) de longo prazo para o ambiente aquático : Categoria 3

Elementos de rotulagem do GHS conforme Norma ABNT NBR 14725

Pictogramas de perigo :

Palavra-sinal : Perigo

Advertências de perigo : H315 Provoca irritação cutânea.
H317 Pode provocar uma reacção alérgica cutânea.
H318 Provoca lesões oculares graves.
H412 Nocivo para os organismos aquáticos com efeitos duradouros.

Recomendações de prudência : P102 Manter fora do alcance das crianças.

Prevenção:

P261 Evitar respirar névoa ou vapores.
P264 Lavar a pele cuidadosamente após manuseamento.
P280 Usar luvas de proteção/ proteção ocular/ proteção facial.

Resposta:

P305 + P351 + P338 + P310 SE ENTRAR EM CONTACTO COM OS OLHOS: Enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar. Contacte imediatamente um CENTRO DE INFORMAÇÃO ANTIVENENOS/ médico.

Destruição:

P501 Eliminar o conteúdo/ recipiente em instalação aprovada de destruição de resíduos.

Etiquetagem suplementar

A seguinte percentagem de mistura consiste de ingrediente(s) com toxicidade oral aguda desconhecida: 3 %
A percentagem seguinte da mistura consiste em ingrediente(s) com toxicidade dérmica aguda desconhecida: 3 %
A seguinte percentagem de mistura consiste de ingrediente(s) com toxicidade aguda por inalação desconhecida: 3 %
A seguinte porcentagem da mistura consiste num (nuns) ingrediente (ingredientes) com perigos desconhecidos para o ambiente aquático: 3 %

Outros perigos não resultam na classificação

Nenhum conhecido.

SECÇÃO 3. COMPOSIÇÃO/ INFORMAÇÃO SOBRE OS COMPONENTES

Componentes

Nome Químico	No. CAS	Classificação	Concentração (% w/w)
COCAMIDE MEA	68140-00-1	Irritação cutânea, Categoria 2	>= 10 -< 20

		Lesões oculares graves, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 2	
COCAMIDOPROPYL BETAINE	61789-40-0	Irritação cutânea, Categoria 2 Iirritação ocular, Categoria 2A Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 2 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 3	>= 1 -< 2,5
AMMONIUM HYDROXIDE	1336-21-6	Toxicidade aguda (Oral), Categoria 4 Corrosão cutânea, Categoria 1B Lesões oculares graves, Categoria 1 Toxicidade para órgãos-alvo específicos - exposição única (Sistema respiratório), Categoria 3 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 3	>= 1 -< 2,5
p-AMINOPHENOL	123-30-8	Toxicidade aguda (Oral), Categoria 4 Toxicidade aguda (Inalação), Categoria 4 Sensibilização da pele, Categoria 1 Mutagenicidade em células germinativas, Categoria 2 Toxicidade para órgãos-alvo	>= 0,25 -< 1

		específicos - exposição repetida (Oral), Categoria 2 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	
4-AMINO-2-HYDROXYTOLUENE	2835-95-2	Toxicidade aguda (Oral), Categoria 5 Sensibilização da pele, Sub-categoria 1A Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 3 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 2	>= 0,25 -< 1
m-AMINOPHENOL	591-27-5	Toxicidade aguda (Oral), Categoria 4 Toxicidade aguda (Inalação), Categoria 4 Sensibilização da pele, Sub-categoria 1A Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,1 -< 0,25

SECÇÃO 4. MEDIDAS DE PRIMEIROS SOCORROS

Recomendação geral : Consultar um médico.

Em caso de inalação : No caso de problemas prolongados consultar um médico.

Em caso de contacto com a : Se a irritação da pele persistir, chamar o médico.

pele		Se estiver em contacto com a pele, enxaguar bem com água.
Se entrar em contacto com os olhos	:	Em caso de contacto com os olhos, lavar imediata e abundantemente com água, e consultar um especialista. Retirar as lentes de contacto. Se a irritação dos olhos continuar, consultar um especialista.
Em caso de ingestão	:	Enxaguar a boca com água. No caso de problemas prolongados consultar um médico.
Sintomas e efeitos mais importantes, tanto agudos como retardados	:	Provoca irritação cutânea. Pode provocar uma reacção alérgica cutânea. Provoca lesões oculares graves.
Indicações para o médico	:	Tratar de acordo com os sintomas.

SECÇÃO 5. MEDIDAS DE COMBATE A INCÊNDIOS

Meios adequados de extinção	:	Adapte as medidas de combate a incêndios às condições do local e ao ambiente envolvente.
Meios inadequados de extinção	:	Nenhum conhecido.
Perigos específicos para combate a incêndios	:	Não deixar entrar a água utilizada para apagar o incêndio nos esgotos e nos cursos de água.
Produtos de combustão perigosos	:	Desconhecem-se produtos de combustão perigosos
Métodos específicos de extinção	:	Evitar a contaminação de águas de superfície e subterrâneas pela água de combate a incêndios. Procedimento standard para incêndios com produtos químicos.
Equipamento especial de proteção a utilizar pelo pessoal de combate a incêndio	:	Usar equipamento de respiração autónomo para combate a incêndios, se necessário.

SECÇÃO 6. MEDIDAS EM CASO DE FUGA ACCIDENTAL

Precauções individuais, equipamento de proteção e procedimentos de emergência	:	Usar equipamento de proteção individual.
Precauções a nível ambiental	:	Evitar que o produto entre no sistema de esgotos. Prevenir dispersão ou derramamento, se seguro.
Métodos e materiais de	:	Neutralizar com ácido.

confinamento e limpeza	Impregnar com material absorvente inerte (por exemplo: areia, sílica gel, aglutinante ácido, aglutinante universal, serragem). Manter em recipientes fechados adequados, para eliminação.

SECÇÃO 7. MANUSEAMENTO E ARMAZENAGEM

Orientação para prevenção de Fogo e Explosão	:	Medidas usuais de protecção preventiva contra incêndio.
Informação para um manuseamento seguro	:	Evitar o contacto com os olhos. Evitar a exposição - obter instruções específicas antes da utilização. Para a proteção individual ver a secção 8. As pessoas suscetíveis aos problemas de sensibilização da pele ou asma, alergias, doenças respiratórias crónicas ou recorrentes não devem trabalhar nos processos utilizando esta mistura.
Medidas de higiene	:	Não comer nem beber durante a utilização. Não fumar durante a utilização. Lavar as mãos antes das pausas, e no fim do dia de trabalho.
Condições para uma armazenagem segura	:	Guardar o recipiente herméticamente fechado em lugar seco e bem ventilado.
Outras informações sobre a estabilidade de armazenamento	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.

SECÇÃO 8. CONTROLO DA EXPOSIÇÃO/ PROTEÇÃO INDIVIDUAL

Componentes a controlar com relação ao local de trabalho

Componentes	No. CAS	tipo de valor (Forma de exposição)	Parâmetros de controlo / Concentração permissível	Bases
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Amoníaco)	ACGIH
		STEL	35 ppm (Amoníaco)	ACGIH

Proteção individual

Protecção respiratória	:	Normalmente, não é necessário equipamento de proteção respiratória individual.
Protecção das mãos		
Observações	:	Aplicável apenas a ambientes industriais. Borracha nitrílica
Proteção dos olhos	:	Aplicável apenas a ambientes industriais.

		Óculos de segurança bem ajustados
Proteção do corpo e da pele	:	Aplicável apenas a ambientes industriais. Uniforme de trabalho ou bata de laboratório.

SECÇÃO 9. PROPRIEDADES FÍSICO-QUÍMICAS

Estado físico	:	líquido
Cor	:	Dados não disponíveis
Odor	:	característico
pH	:	10,5 - 11,1
Ponto de fusão/ponto de congelação	:	Dados não disponíveis
Ponto de ebulição/intervalo de ebulição	:	Não disponível
Ponto de inflamação	:	> 93 °C Método: ISO 3679
Ponto de ignição	:	Não aplicável
Limite superior de explosão / Limite de inflamabilidade superior	:	Dados não disponíveis
Limite inferior de explosão / Limite de inflamabilidade inferior	:	Dados não disponíveis
Pressão de vapor	:	Dados não disponíveis
Densidade relativa do vapor	:	Dados não disponíveis
Densidade relativa	:	0,997 - 1,003 (20 °C)
Solubilidade(s)		
Hidrossolubilidade	:	parcialmente solúvel
Coeficiente de partição: n-octanol/água	:	Não aplicável
Temperatura de auto-ignição	:	Dados não disponíveis

Temperatura de decomposição	:	Não aplicável
Viscosidade		
Viscosidade, cinemático	:	Dados não disponíveis
Classe de explosão do pó	:	Não aplicável
Tamanho da partícula	:	Não aplicável

SECÇÃO 10. ESTABILIDADE E REACTIVIDADE

Reatividade	:	Nenhuma reacção perigosa nas condições normais de utilização.
Estabilidade química	:	Estável em condições normais.
Possibilidade de reações perigosas	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.
Condições a evitar	:	Dados não disponíveis
Materiais incompatíveis	:	Não aplicável
Produtos de decomposição perigosos	:	Nenhuns produtos de decomposição conhecidos.

SECÇÃO 11. INFORMAÇÃO TOXICOLÓGICA

Toxicidade aguda

Não classificado com base nas informações disponíveis.

Produto:

Toxicidade aguda por via oral	:	Estimativa da toxicidade aguda: > 5.000 mg/kg Método: Método de cálculo

Componentes:

COCAMIDE MEA:

Toxicidade aguda por via oral	:	DL50: > 5.000 mg/kg Avaliação: A substância ou mistura não tem toxicidade oral aguda
Toxicidade aguda por via inalatória	:	Estimativa da toxicidade aguda: > 20 mg/l Duração da exposição: 4 h Atmosfera de ensaio: vapor
Toxicidade aguda por via cutânea	:	Estimativa da toxicidade aguda: > 5.000 mg/kg Avaliação: A substância ou mistura não tem toxicidade aguda por via dérmica

COCAMIDOPROPYL BETAINE:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho e fêmea): > 5.000 mg/kg Método: Directrizes do Teste OECD 401 Avaliação: A substância ou mistura não tem toxicidade oral aguda
Toxicidade aguda por via cutânea	:	DL50 (Ratazana, macho e fêmea): > 2.000 mg/kg Método: Directrizes do Teste OECD 402 Avaliação: A substância ou mistura não tem toxicidade aguda por via dérmica

AMMONIUM HYDROXIDE:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho): 350 mg/kg Método: Directrizes do Teste OECD 401

p-AMINOPHENOL:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho e fêmea): 671 mg/kg Método: OPPTS 870.1100
Toxicidade aguda por via inalatória	:	CL50 (Ratazana, macho e fêmea): > 3,42 mg/l Duração da exposição: 4 h Atmosfera de ensaio: pó/névoa Método: Directrizes do Teste OECD 403
Toxicidade aguda por via cutânea	:	DL50 (Coelho): > 8.000 mg/kg Método: OPPTS 870.1200

4-AMINO-2-HYDROXYTOLUENE:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho e fêmea): 3.600 mg/kg
Toxicidade aguda por via inalatória	:	CL50 (Ratazana, macho e fêmea): 42,57 mg/l Duração da exposição: 4 h Atmosfera de ensaio: pó/névoa Avaliação: A substância ou mistura não tem toxicidade aguda por inalação
Toxicidade aguda por via cutânea	:	DL50 (Ratazana): 5.688 mg/kg Avaliação: A substância ou mistura não tem toxicidade aguda por via dérmica

m-AMINOPHENOL:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho e fêmea): > 500 - 2.000 mg/kg
Toxicidade aguda por via inalatória	:	CL50 (Ratazana, macho e fêmea): 1,162 mg/l Duração da exposição: 4 h Atmosfera de ensaio: pó/névoa Método: Directrizes do Teste OECD 403

Toxicidade aguda por via cutânea	:	DL50 (Coelho): 8.112 mg/kg Avaliação: A substância ou mistura não tem toxicidade aguda por via dérmica

Corrosão/irritação cutânea

Provoca irritação cutânea.

Produto:

Observações	:	Pode provocar irritação dérmica em pessoas susceptíveis.

Componentes:

COCAMIDE MEA:

Espécie	:	Coelho
Resultado	:	Irritação cutânea

COCAMIDOPROPYL BETAINE:

Espécie	:	pele humana
Resultado	:	Irritação cutânea

AMMONIUM HYDROXIDE:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Corrosivo após 3 minutos até 1 hora de exposição

p-AMINOPHENOL:

Espécie	:	Coelho
Resultado	:	Não provoca irritação da pele

4-AMINO-2-HYDROXYTOLUENE:

Espécie	:	pele humana
Método	:	Directrizes do Teste OECD 431
Resultado	:	Não provoca irritação da pele

m-AMINOPHENOL:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Não provoca irritação da pele

Lesões oculares graves/irritação ocular

Provoca lesões oculares graves.

Produto:

Observações : Pode provocar um dano irreparável nos olhos.

Componentes:

COCAMIDE MEA:

Espécie : Coelho
Resultado : Efeitos irreversíveis nos olhos

COCAMIDOPROPYL BETAINE:

Espécie : Coelho
Resultado : Irritação ocular

p-AMINOPHENOL:

Espécie : Coelho
Resultado : Não irrita os olhos

4-AMINO-2-HYDROXYTOLUENE:

Espécie : Espécies de teste não padronizadas
Resultado : Não irrita os olhos
Método : Directrizes do Teste OECD 438

m-AMINOPHENOL:

Espécie : Coelho
Resultado : Não irrita os olhos
Método : Directrizes do Teste OECD 405

Sensibilização respiratória ou cutânea

Sensibilização da pele

Pode provocar uma reacção alérgica cutânea.

Sensibilização respiratória

Não classificado com base nas informações disponíveis.

Produto:

Observações : Pode causar sensibilização.

Componentes:

p-AMINOPHENOL:

Vias de exposição : Contacto com a pele
Espécie : Porquinho da índia
Método : Directrizes do Teste OECD 406
Resultado : Pode causar sensibilização em contacto com a pele.

4-AMINO-2-HYDROXYTOLUENE:

Vias de exposição : Contacto com a pele
Espécie : Rato
Método : Directrizes do Teste OECD 429
Resultado : O produto é um sensibilizador da pele, sub-categoria 1A.

m-AMINOPHENOL:

Vias de exposição	:	Contacto com a pele
Espécie	:	Rato
Método	:	Directrizes do Teste OECD 429
Resultado	:	O produto é um sensibilizador da pele, sub-categoria 1A.

Mutagenicidade em células germinativas

Não classificado com base nas informações disponíveis.

Componentes:

COCAMIDOPROPYL BETAINE:

Genotoxicidade in vitro	:	Observações: Os testes in vitro não mostraram efeitos mutagénicos
Mutagenicidade em células germinativas - Avaliação	:	Peso da prova não suporta a classificação como um mutagénio de células germinais.

AMMONIUM HYDROXIDE:

Mutagenicidade em células germinativas - Avaliação	:	Peso da prova não suporta a classificação como um mutagénio de células germinais.

p-AMINOPHENOL:

Genotoxicidade in vitro	:	Observações: Os testes in vitro não mostraram efeitos mutagénicos
Genotoxicidade in vivo	:	Observações: Os testes in vivo mostraram efeitos mutagénicos
Mutagenicidade em células germinativas - Avaliação	:	Os testes in vitro mostraram efeitos mutagénicos que não foram observados no teste in vivo.

4-AMINO-2-HYDROXYTOLUENE:

Mutagenicidade em células germinativas - Avaliação	:	Peso da prova não suporta a classificação como um mutagénio de células germinais.

Carcinogenicidade

Não classificado com base nas informações disponíveis.

Componentes:

p-AMINOPHENOL:

Carcinogenicidade - Avaliação	:	Não classificável como um carcinogénico para os humanos.

Toxicidade reprodutiva

Não classificado com base nas informações disponíveis.

Componentes:

COCAMIDOPROPYL BETAINE:

Efeitos na fertilidade	:	Espécie: Ratazana Fertilidade: NOAEL: 1.000 mg/kg peso corporal Método: Directrizes do Teste OECD 408 Resultado: As experiências com animais não demonstraram efeitos sobre a fertilidade.
Efeitos sobre o desenvolvimento do feto	:	Espécie: Ratazana Efeitos tóxicos no desenvolvimento: 950 Método: Directrizes do Teste OECD 414 Resultado: Sem efeitos colaterais.
Toxicidade reprodutiva - Avaliação	:	Não há evidência de efeitos adversos na função sexual e de fertilidade, ou no desenvolvimento, baseada sobre experiências com animais.

p-AMINOPHENOL:

Efeitos na fertilidade	:	Espécie: Ratazana Fertilidade: NOAEL: 100 mg/kg peso corporal Método: Directrizes do Teste OECD 421
Efeitos sobre o desenvolvimento do feto	:	Espécie: Ratazana Efeitos tóxicos no desenvolvimento: 100 Método: Directrizes do Teste OECD 421
Toxicidade reprodutiva - Avaliação	:	Não há evidência de efeitos adversos na função sexual e de fertilidade, ou no desenvolvimento, baseada sobre experiências com animais.

4-AMINO-2-HYDROXYTOLUENE:

Efeitos na fertilidade	:	Espécie: Ratazana Fertilidade: NOAEL: 200 mg/kg peso corporal Resultado: Algumas provas de efeitos adversos sobre o desenvolvimento, baseadas sobre experiências com animais.
Efeitos sobre o desenvolvimento do feto	:	Espécie: Ratazana Efeitos tóxicos no desenvolvimento: 180 Método: Directrizes do Teste OECD 414 Resultado: Sem efeitos colaterais.

Toxicidade para órgãos-alvo específicos (STOT) - exposição única

Não classificado com base nas informações disponíveis.

Componentes:

AMMONIUM HYDROXIDE:

Vias de exposição	:	Inalação
Avaliação	:	Pode provocar irritação das vias respiratórias.

Toxicidade para órgãos-alvo específicos (STOT) - exposição repetida

Não classificado com base nas informações disponíveis.

Componentes:

p-AMINOPHENOL:

Vias de exposição	:	Ingestão
Avaliação	:	A substância ou mistura está classificada como tóxico específico de orgãos-alvo, exposição repetida, categoria 2.

m-AMINOPHENOL:

Avaliação	:	A substância ou mistura não está classificada como tóxico específico de orgãos-alvo, exposição repetida.

Toxicidade por dose repetida

Componentes:

COCAMIDOPROPYL BETAINE:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	500 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	28 d
Método	:	Directrizes do Teste OECD 407

p-AMINOPHENOL:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	10 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	13 Weeks
Método	:	Directrizes do Teste OECD 408

4-AMINO-2-HYDROXYTOLUENE:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	180 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	13 Weeks
Método	:	Directrizes do Teste OECD 408

m-AMINOPHENOL:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	70 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	13 Weeks

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	0,59 mg/kg
Via de aplicação	:	Dérmico
Duração da exposição	:	2 yr

Toxicidade por aspiração

Não classificado com base nas informações disponíveis.

Informações adicionais

Produto:

Observações : A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 12. INFORMAÇÃO ECOLÓGICA

Ecotoxicidade

Componentes:

COCAMIDE MEA:

Toxicidade em peixes	:	CL50 (Peixe): > 10 - 100 mg/l
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50: > 1 - 10 mg/l
Toxicidade para às algas/plantas aquáticas	:	CE50 (algas): > 1 - 10 mg/l
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC: > 0,01 - 0,1 mg/l
Toxicidade para os micro-organismos	:	EC10 (lamas activadas): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 2 mg/l Duração da exposição: 96 h
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 6,4 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Espécies de teste não padronizadas): 30 mg/l Duração da exposição: 48 h
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,9 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 202

Toxicidade para os micro-organismos	:	CI50 (Pseudomonas putida): 3.000 mg/l Duração da exposição: 16 h

AMMONIUM HYDROXIDE:

Toxicidade em peixes	:	CL50 (Pimephales promelas (vairão gordo)): 0,75 mg/l Duração da exposição: 96 h
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 101 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Oncorhynchus mykiss (truta arco-íris)): 1,2 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 210
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,79 mg/l Duração da exposição: 21 d Método: OPPTS 850.1300

p-AMINOPHENOL:

Toxicidade em peixes	:	CL50 (Oryzias latipes (medaka)): 0,82 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,182 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,253 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 NOELR (Pseudokirchneriella subcapitata (alga verde)): 0,083 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Oryzias latipes (medaka)): 0,049 mg/l Duração da exposição: 41 d Método: Directrizes do Teste OECD 210
Toxicidade em dáfnias e outros invertebrados	:	NOEC (Daphnia magna): 0,206 mg/l Duração da exposição: 21 d

aquáticos (Toxicidade crónica)		Método: Directrizes do Teste OECD 202
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1
Toxicidade para os micro-organismos	:	EC10 (lamas activadas): 2,65 mg/l Duração da exposição: 3 h Método: Directrizes do Teste OECD 209

4-AMINO-2-HYDROXYTOLUENE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 25 mg/l Duração da exposição: 96 h
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 2,3 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202 Observações: Sem toxicidade na solubilidade limite
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 41 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,24 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211
Toxicidade para os micro-organismos	:	CI50 (lamas activadas): 150 mg/l Duração da exposição: 3 h Método: Directrizes do Teste OECD 209

m-AMINOPHENOL:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): > 100 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,267 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 67,7 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 EC10 (Pseudokirchneriella subcapitata (alga verde)): 37,8 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda	:	1

para o ambiente aquático)

Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Oryzias latipes (medaka)): 50 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 204
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,05 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 202
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1
Toxicidade para os micro-organismos	:	EC10 (lamas activadas): 406,4 mg/l Duração da exposição: 3 h Método: Directrizes do Teste OECD 209

Persistência e degradabilidade

Componentes:

COCAMIDE MEA:

Biodegradabilidade	:	Resultado: Rapidamente biodegradável.

COCAMIDOPROPYL BETAINE:

Biodegradabilidade	:	Resultado: Rapidamente biodegradável. Biodegradabilidade: > 90 % Duração da exposição: 14 d

AMMONIUM HYDROXIDE:

Biodegradabilidade	:	Resultado: Rapidamente biodegradável.

p-AMINOPHENOL:

Biodegradabilidade	:	Resultado: Não rapidamente biodegradável. Biodegradabilidade: 6 % Duração da exposição: 28 d Método: Directrizes do Teste OECD 301 C

4-AMINO-2-HYDROXYTOLUENE:

Biodegradabilidade	:	Resultado: Não rapidamente biodegradável. Biodegradabilidade: < 0,01 % Duração da exposição: 28 d Método: Directrizes do Teste OECD 301 B

m-AMINOPHENOL:

Biodegradabilidade	:	Resultado: Não rapidamente biodegradável. Biodegradabilidade: 0 % Duração da exposição: 28 d

Método: Directrizes do Teste OECD 301F

Potencial de bioacumulação

Componentes:

COCAMIDE MEA:

Coeficiente de partição: n-octanol/água : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioacumulação : Factor de bioconcentração (BCF): 70,79

Coeficiente de partição: n-octanol/água : log Pow: -1,28

p-AMINOPHENOL:

Bioacumulação : Factor de bioconcentração (BCF): 15 - 46
Método: Directrizes do Teste OECD 305C

Coeficiente de partição: n-octanol/água : log Pow: -0,09
pH: 7,5
Método: Directrizes do Teste OECD 107

4-AMINO-2-HYDROXYTOLUENE:

Coeficiente de partição: n-octanol/água : log Pow: 0,53
pH: 7,22
Método: Directrizes do Teste OECD 117

m-AMINOPHENOL:

Bioacumulação : Factor de bioconcentração (BCF): 4

Mobilidade no solo

Dados não disponíveis

Outros efeitos adversos

Produto:

Informações ecológicas adicionais : A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 13. CONSIDERAÇÕES RELATIVAS À ELIMINAÇÃO

Métodos de destruição

Resíduos : Este produto não deve entrar nos esgotos, nos cursos de água e no solo.

Enviar para uma indústria licenciada de gerência dos resíduos.

Embalagens contaminadas : Eliminar como produto Não utilizado.
Não reutilizar os recipientes vazios.

SECÇÃO 14. INFORMAÇÕES RELATIVAS AO TRANSPORTE

Regulamentação doméstica

ANTT
Não regulado como mercadoria perigosa

Regulamentaçãoes Internacionais

IATA-DGR
Não regulado como mercadoria perigosa

Código-IMDG
Não regulado como mercadoria perigosa

Transporte a granel em conformidade com o anexo II da Convenção Marpol 73/78 e o Código IBC

Não aplicável ao produto tal como fornecido.

Precauções especiais para o utilizador

Observações : Produto não perigoso segundo o regulamento de transporte.

SECÇÃO 15. INFORMAÇÃO SOBRE REGULAMENTAÇÃO

Regulamentação/legislação específica para a substância ou mistura em matéria de saúde, segurança e ambiente

Lista Nacional de Agentes Cancerígenos para Humanos - (LINACH) : Não aplicável

Brasil. Lista de Produtos Químicos Controlados pela Policia Federal : AMMONIUM HYDROXIDE

SECÇÃO 16. OUTRAS INFORMAÇÕES

Data de revisão : 2024.03.07

Formato da data : ano/mês/dias

Informações adicionais

Outras informações : A informação fornecida nesta ficha de segurança é a mais correta disponível na data da sua publicação. A informação prestada destina-se apenas a orientar o uso, manuseio,

processamento, armazenamento, transporte e eliminação com segurança e não deve ser considerada garantia ou especificação de qualidade. A informação refere-se apenas ao produto designado e, a menos que tal seja especificado no texto, pode não ser válida se o mesmo produto for utilizado em qualquer combinação com outros produtos ou processos.

SAFETY DATA SHEET

PULP RIOT HIGH SPEED TONERS - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	03/07/2024	00-21-410000001413	Date of first issue: 03/07/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT HIGH SPEED TONERS - GROUP 10

Formula Center Reference : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

Manufacturer or supplier's details

Address : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Skin irritation : Category 2

Serious eye damage : Category 1

GHS label elements

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H315 Causes skin irritation.
H318 Causes serious eye damage.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P264 Wash skin thoroughly after handling.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.
P332 + P313 If skin irritation occurs: Get medical advice/ attention.
P362 Take off contaminated clothing and wash before reuse.

Additional Labeling

The following percentage of the mixture consists of ingredient(s) with unknown acute toxicity: 3 %

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Concentration (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5

Actual concentration is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice : Consult a physician.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : If skin irritation persists, call a physician.
If on skin, rinse well with water.

In case of eye contact : In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Remove contact lenses.
If eye irritation persists, consult a specialist.

If swallowed : Rinse mouth with water.
If symptoms persist, call a physician.

Most important symptoms : Causes skin irritation.

and effects, both acute and delayed		Causes serious eye damage.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Neutralize with acid. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.

Further information on storage stability : No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Ammonia)	ACGIH
		STEL	35 ppm (Ammonia)	ACGIH
		TWA	25 ppm 18 mg/m3 (Ammonia)	NIOSH REL
		ST	35 ppm 27 mg/m3 (Ammonia)	NIOSH REL

Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally required.

Hand protection

Remarks : Applicable for industrial settings only. Nitrile rubber

Eye protection : Applicable for industrial settings only.
Tightly fitting safety goggles

Skin and body protection : Applicable for industrial settings only.
Work uniform or laboratory coat.

Hygiene measures : When using do not eat or drink.
When using do not smoke.
Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state : liquid

Color : No data available

Odor : characteristic

pH : 10.5 - 11.1

Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 199 °F / > 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	0.997 - 1.003 (68 °F / 20 °C)
Solubility(ies) Water solubility	: :	 partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity Viscosity, kinematic	: :	 No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available

Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 5,000 mg/kg Method: Calculation method

Components:

COCAMIDE MEA:

Acute oral toxicity	:	LD50: > 5,000 mg/kg Assessment: The substance or mixture has no acute oral toxicity
Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l Exposure time: 4 h Test atmosphere: vapor
Acute dermal toxicity	:	Acute toxicity estimate: > 5,000 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity	:	LD50 (Rat, male and female): > 5,000 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity
Acute dermal toxicity	:	LD50 (Rat, male and female): > 2,000 mg/kg Method: OECD Test Guideline 402 Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity	:	LD50 (Rat, male): 350 mg/kg Method: OECD Test Guideline 401

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks : May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Skin irritation

COCAMIDOPROPYL BETAINE:

Species : human skin
Result : Skin irritation

AMMONIUM HYDROXIDE:

Species : Rabbit
Method : OECD Test Guideline 404
Result : Corrosive after 3 minutes to 1 hour of exposure

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks : May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species : Rabbit
Result : Eye irritation

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro : Remarks: In vitro tests did not show mutagenic effects

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

IARC No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility : Species: Rat
Fertility: NOAEL: 1,000 mg/kg body weight
Method: OECD Test Guideline 408
Result: Animal testing did not show any effects on fertility.

Effects on fetal development : Species: Rat
Developmental Toxicity: 950
Method: OECD Test Guideline 414
Result: No adverse effects.

Reproductive toxicity - Assessment : No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure : Inhalation
Assessment : May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l
Toxicity to daphnia and other aquatic invertebrates	:	EC50: > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0.01 - 0.1 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6.4 mg/l Exposure time: 48 h

Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : EC50 (Non-standard test species): 30 mg/l
Exposure time: 48 h

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 0.9 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 202

Toxicity to microorganisms : IC50 (Pseudomonas putida): 3,000 mg/l
Exposure time: 16 h

AMMONIUM HYDROXIDE:

Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)): 0.75 mg/l
Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 101 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to fish (Chronic toxicity) : NOEC (Oncorhynchus mykiss (rainbow trout)): 1.2 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 210

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 0.79 mg/l
Exposure time: 21 d
Method: OPPTS 850.1300

Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability : Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: > 90 %
Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability : Result: Readily biodegradable.

Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Bioaccumulation	:	Bioconcentration factor (BCF): 70.79
Partition coefficient: n-octanol/water	:	log Pow: -1.28

Mobility in soil

No data available

Other adverse effects

Product:

Ozone-Depletion Potential	:	Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
Additional ecological information	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues	:	The product should not be allowed to enter drains, water courses or the soil. Send to a licensed waste management company.
Contaminated packaging	:	Dispose of as unused product. Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

49 CFR
Not regulated as a dangerous good

International Regulations

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

CERCLA Reportable Quantity

Listed substances in the product are at low enough levels to not be expected to exceed the RQ

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards : Skin corrosion or irritation
Serious eye damage or eye irritation

SARA 313 : The following components are subject to reporting levels established by SARA Title III, Section 313:

AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

Clean Air Act

This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

SECTION 16. OTHER INFORMATION

Further information

NFPA 704:

部分 1. 鉴别

产品名称 : PULP RIOT HIGH SPEED TONERS - GROUP 10

配方中心参考 : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

制造商或供应商信息

地址 : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

电话号码 : 1-732-499-2745

电子邮件地址 : CORPREGAFFAIRSMSDS@LOREAL.COM

应急咨询电话

INFOTRAC : 1-800-535-5053（国际：+1 352-323-3500）（每天 24 小时提供服务。紧急服务可能无法提供 SDS/产品信息。）

推荐用途和限制用途

推荐用途 : 个人美容护理产品.

部分 2. 危险性概述

根据 OSHA 危险通报标准 (29 CFR 1910.1200) 的 GHS 分类

皮肤刺激 : 类别 2

严重眼睛损伤 : 类别 1

GHS 标签要素

象形图 :

信号词 : 危险

危险性说明 : H315 造成皮肤刺激。
H318 造成严重眼损伤。

防范说明 : P102 儿童不得接触。
P103 使用前请读标签。

预防措施:

P264 作业后彻底清洗皮肤。
P280 戴防护手套/戴防护眼罩/戴防护面具。

事故响应:

P302 + P352 如皮肤沾染：用肥皂和水充分清洗。
P305 + P351 + P338 + P310 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。立即呼叫急救中心/医生。
P332 + P313 如发生皮肤刺激：求医/就诊。
P362 脱掉沾污的衣服。

附加的标记

混合物中含有以下百分比成分的物质其急性毒性未知： 3 %

其他危害

未见报道。

部分 3. 成分/组成信息

组分

化学品名称	化学文摘登记号 (CAS No.)	浓度或浓度范围 (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5

实际浓度作为商业秘密保留

部分 4. 急救措施

一般的建议 : 请教医生。

吸入 : 如果症状持续，请就医。

皮肤接触 : 如果皮肤刺激持续，请就医。
如果皮肤接触了,用水彻底淋洗。

眼睛接触 : 如与眼睛接触,立即用大量水冲洗并就医。
取下隐形眼镜。
如果眼睛刺激持续，就医。

食入 : 用水漱口。

如果症状持续，请就医。

最重要的症状和健康影响	:	造成皮肤刺激。 造成严重眼损伤。
对医生的特别提示	:	对症治疗。

部分 5. 消防措施

灭火方法及灭火剂	:	根据当时情况和周围环境采用适合的灭火措施。
不合适的灭火剂	:	未见报道。
特别危险性	:	不要让消防水流入下水道和河道。
有害燃烧产物	:	已知无有害燃烧产物
其他信息	:	防止消防水污染地表和地下水系统。 化学火灾的标准程序。
消防人员的特殊保护装备	:	如有必要，佩戴自给式呼吸器进行消防作业。

部分 6. 泄漏应急处理

人员防护措施、防护装备和应急处置程序	:	使用个人防护装备。
环境保护措施	:	防止产品进入下水道。 如能确保安全，可采取措施防止进一步的泄漏或溢出。
泄漏化学品的收容、清除方法及所使用的处置材料	:	用酸中和。 用惰性材料吸收（如砂子、硅胶、酸性粘结剂、通用粘结剂、锯末）。 放入合适的封闭的容器中待处理。

部分 7. 操作处置与储存

防火防爆的建议	:	一般性的防火保护措施。
安全处置注意事项	:	避免沾及眼睛。 有关个人防护,请看第 8 部分。
安全储存条件	:	使容器保持密闭，储存在干燥通风处。
有关储存稳定性的更多信息	:	按指导方法贮存和使用不会产生分解。

部分 8. 接触控制和个体防护

危害组成及职业接触限值

组分	化学文摘登记号(CAS No.)	数值的类型 (接触形式)	控制参数 / 容许浓度	依据
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (氨)	ACGIH
		STEL	35 ppm (氨)	ACGIH
		TWA	25 ppm 18 mg/m3 (氨)	NIOSH REL
		ST	35 ppm 27 mg/m3 (氨)	NIOSH REL

个体防护装备

呼吸系统防护 : 一般来说无需个人呼吸防护设备。

手防护

备注 : 仅用於工业环境。 丁腈橡胶

眼睛防护 : 仅用於工业环境。
紧密贴合的防护眼罩

皮肤和身体防护 : 仅用於工业环境。
工作服或实验外衣。

卫生措施 : 使用时，严禁饮食。
使用时，严禁吸烟。
休息前及工作结束时洗手。

部分 9. 理化特性

物态 : 液体

颜色 : 无数据资料

气味 : 特征的

pH 值 : 10.5 - 11.1

熔点/凝固点 : 无数据资料

沸点/沸程	:	无法使用
闪点	:	> 199 华氏度 / > 93 ° C 方法: 国际标准 ISO 3679
燃点	:	不适用
爆炸上限 / 易燃上限	:	无数据资料
爆炸下限 / 易燃下限	:	无数据资料
蒸气压	:	无数据资料
蒸气密度	:	无数据资料
密度/相对密度	:	0.997 - 1.003 (68 华氏度 / 20 ° C)
溶解性		
水溶性	:	部分溶解
正辛醇/水分配系数	:	不适用
自燃温度	:	无数据资料
分解温度	:	不适用
黏度		
运动黏度	:	无数据资料
粉尘爆炸级别	:	不适用
粒径	:	不适用

部分 10. 稳定性和反应性

反应性	:	正常使用的条件下未见有危险反应。
稳定性	:	正常条件下稳定。
危险反应	:	按指导方法贮存和使用不会产生分解。
应避免的条件	:	无数据资料
禁配物	:	不适用

危险的分解产物 : 没有危险的分解产物。

部分 11. 毒理学信息

急性毒性

根据现有信息无需进行分类。

产品:

急性经口毒性 : 急性毒性估计值: > 5,000 mg/kg
方法: 计算方法

组分:

COCAMIDE MEA:

急性经口毒性 : LD50: > 5,000 mg/kg
评估: 此物质或混合物无急性口服毒性

急性吸入毒性 : 急性毒性估计值: > 20 mg/l
暴露时间: 4 h
测试环境: 蒸气

急性经皮毒性 : 急性毒性估计值: > 5,000 mg/kg
评估: 此物质或混合物无急性皮肤毒性

COCAMIDOPROPYL BETAINE:

急性经口毒性 : LD50 (大鼠, 雄性和雌性): > 5,000 mg/kg
方法: OECD 测试导则 401
评估: 此物质或混合物无急性口服毒性

急性经皮毒性 : LD50 (大鼠, 雄性和雌性): > 2,000 mg/kg
方法: OECD 测试导则 402
评估: 此物质或混合物无急性皮肤毒性

AMMONIUM HYDROXIDE:

急性经口毒性 : LD50 (大鼠, 雄性): 350 mg/kg
方法: OECD 测试导则 401

皮肤腐蚀/刺激

造成皮肤刺激。

产品:

备注 : 对易感的人会引起皮肤刺激。

组分:

COCAMIDE MEA:

种属	:	家兔
结果	:	皮肤刺激

COCAMIDOPROPYL BETAINE:

种属	:	人体皮肤
结果	:	皮肤刺激

AMMONIUM HYDROXIDE:

种属	:	家兔
方法	:	OECD 测试导则 404
结果	:	接触暴露 3 分钟到 1 小时后，产生腐蚀影响

严重眼睛损伤/眼刺激

造成严重眼损伤。

产品:

备注	:	可能引起不可逆转的眼睛损伤。

组分:

COCAMIDE MEA:

种属	:	家兔
结果	:	对眼睛有不可逆转的影响

COCAMIDOPROPYL BETAINE:

种属	:	家兔
结果	:	眼睛刺激

呼吸或皮肤过敏

皮肤过敏

根据现有信息无需进行分类。

呼吸过敏

根据现有信息无需进行分类。

生殖细胞致突变性

根据现有信息无需进行分类。

组分:

COCAMIDOPROPYL BETAINE:

体外基因毒性 : 备注: 体外试验未见突变效应

生殖细胞致突变性 - 评估 : 依证据权重不足以归类为生殖细胞致突变性物质。

AMMONIUM HYDROXIDE:

生殖细胞致突变性 - 评估 : 依证据权重不足以归类为生殖细胞致突变性物质。

致癌性

根据现有信息无需进行分类。

IARC 此产品中所有含量大于等于 0.1%的组分中，没有被 IARC 鉴别为已知或可能的致癌物。

OSHA 此产品中所有含量大于等于 0.1%的组分中，没有被 OSHA 鉴别为已知或潜在的致癌物。

NTP 此产品中所有含量大于等于 0.1%的组分中，没有被 NTP 鉴别为已知或预计的致癌物。

生殖毒性

根据现有信息无需进行分类。

组分:

COCAMIDOPROPYL BETAINE:

对繁殖性的影响 : 种属: 大鼠
生育能力: NOAEL: 1,000 mg/kg 体重
方法: OECD 测试导则 408
结果: 动物试验未见任何对生育能力的影响。

对胎儿发育的影响 : 种属: 大鼠
发育毒性: 950
方法: OECD 测试导则 414
结果: 无不良作用。

生殖毒性 - 评估 : 根据动物试验，没有对性功能，生殖或发育的不利影响。

特异性靶器官系统毒性- 一次接触

根据现有信息无需进行分类。

组分:

AMMONIUM HYDROXIDE:

接触途径 : 吸入
评估 : 可能造成呼吸道刺激。

特异性靶器官系统毒性- 反复接触

根据现有信息无需进行分类。

重复染毒毒性

组分:

COCAMIDOPROPYL BETAINE:

种属	:	大鼠, 雄性和雌性
NOAEL	:	500 mg/kg
染毒途径	:	经口
暴露时间	:	28 天
方法	:	OECD 测试导则 407

吸入危害

根据现有信息无需进行分类。

其他信息

产品:

备注	:	本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 12. 生态学信息

生态毒性

组分:

COCAMIDE MEA:

对鱼类的毒性	:	LC50 (鱼): > 10 - 100 mg/l
对水溞和其他水生无脊椎动物的毒性	:	EC50: > 1 - 10 mg/l
对藻类/水生植物的毒性	:	EC50 (海藻): > 1 - 10 mg/l
对水溞和其他水生无脊椎动物的毒性 (慢性毒性)	:	NOEC: > 0.01 - 0.1 mg/l
对微生物的毒性	:	EC10 (活性污泥): > 100 mg/l

COCAMIDOPROPYL BETAINE:

对鱼类的毒性	:	LC50 (Danio rerio (斑马鱼)): 2 mg/l 暴露时间: 96 h
对水溞和其他水生无脊椎动物的毒性	:	EC50 (Daphnia magna (水溞)): 6.4 mg/l 暴露时间: 48 h

方法: OECD 测试导则 202

对藻类/水生植物的毒性 : EC50 (非标准测试物种): 30 mg/l
暴露时间: 48 h

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 0.9 mg/l
暴露时间: 21 天
方法: OECD 测试导则 202

对微生物的毒性 : IC50 (Pseudomonas putida (恶臭假单胞菌)): 3,000 mg/l
暴露时间: 16 h

AMMONIUM HYDROXIDE:

对鱼类的毒性 : LC50 (Pimephales promelas (肥头鲦鱼)): 0.75 mg/l
暴露时间: 96 h

对水溞和其他水生无脊椎动物的毒性 : EC50 (Daphnia magna (水溞)): 101 mg/l
暴露时间: 48 h
方法: OECD 测试导则 202

对鱼类的毒性 (慢性毒性) : NOEC (Oncorhynchus mykiss (虹鳟)): 1.2 mg/l
暴露时间: 21 天
方法: OECD 测试导则 210

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 0.79 mg/l
暴露时间: 21 天
方法: OPPTS 850.1300

持久性和降解性

组分:

COCAMIDE MEA:

生物降解性 : 结果: 快速生物降解的。

COCAMIDOPROPYL BETAINE:

生物降解性 : 结果: 快速生物降解的。
生物降解性: > 90 %
暴露时间: 14 天

AMMONIUM HYDROXIDE:

生物降解性 : 结果: 快速生物降解的。

生物蓄积潜力

组分:

COCAMIDE MEA:

正辛醇/水分配系数 : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

生物蓄积 : 生物富集系数(BCF): 70.79

正辛醇/水分配系数 : log Pow: -1.28

土壤中的迁移性

无数据资料

其他环境有害作用

产品:

臭氧消耗潜能值 : 法规: 40 CFR 环境保护; 第 82 部分平流层臭氧保护 - CAA 第 602 节 I 类物质
备注: 此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App. A + B)规定的 I 类或 II 类的臭氧破坏性（ODS）的物质。

其它生态信息 : 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 13. 废弃处置

处置方法

废弃化学品 : 本品不允许排入下水道,水道或土壤。
送往有执照的废弃物管理公司。

污染包装物 : 按未用产品处置。
不要重复使用倒空的容器。

部分 14. 运输信息

国内法规

49 CFR

不作为危险品管理

国际法规

空运(IATA-DGR)

不作为危险品管理

海运(IMDG-Code)
不作为危险品管理

按《MARPOL73/78 公约》附则 II 和 IBC 规则
不适用于供应的产品。

特殊防范措施

备注 : 根据运输法规，未被分类为危险品。

部分 15. 法规信息

欧洲癌症研究协会 可报告的量
产品中列出的物质含量足够低，预计不会超过 RQ

SARA 304 极危险的物质 可报告的量
此物质不含有任何与 304 EHS RQ 有关的组分。

SARA 302 极度危险物质阈值规划数量
该材料不包含任何符合 EHS TPQ 第 302 节的成分。

萨拉 311/312 危险 : 皮肤腐蚀或刺激
严重眼睛损伤或眼睛刺激

莎拉 313 : 根据 SARA 第 III 条，第 313 部分，以下成分是要申报的：

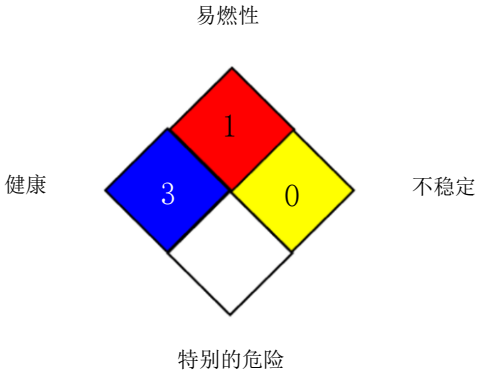
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

空气清洁法
此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App.A + B)规定的 1 类或 II 类的臭氧破坏性（ODS）的物质。
本品不含有美国空气洁净法第 112 部分(40 CFR 61)定义的任何危险空气污染物（HAP）。
此产品不包含在美国空气洁净法令 112(r)关于意外释放防范(40 CFR 68.130, Subpart F)部分的。

部分 16. 其他信息

其他信息

NFPA 704:



缩略语和首字母缩写

ACGIH	:	美国政府工业卫生学家会议(ACGIH)之阈限值 (TLV)
NIOSH REL	:	美国。 NIOSH 建议的暴露限值
ACGIH / TWA	:	8 小时，时间加权平均值
ACGIH / STEL	:	短期暴露限制
NIOSH REL / TWA	:	每周 40 小时工作期间，每天最多 10 小时工作日的时间加权平均浓度
NIOSH REL / ST	:	STEL - 15 分钟 TWA 暴露量，工作日任何时间都不应超过

AIIC - 澳大利亚工业化学品清单 ASTM - 美国材料实验协会; bw - 体重; CERCLA - 综合环境反应、赔偿和责任法; CMR - 致癌、致突变性或生殖毒性物质; DIN - 德国标准化学会; DOT - 交通运输部; DSL - 加拿大国内化学物质名录; ECx - 引起 x%效应的浓度; EHS - 极端有害 物质; ELx - 引起 x%效应的负荷率; EmS - 应急措施; ENCS - 日本现有和新化学物质名录; ErCx - 引起 x%生长效应的浓度; ERG - 应急指南; GHS - 全球化学品统一分类和标签制度; GLP - 良好实验室规范; HMIS - 危害物质识别系统; IARC - 国际癌症研究机构; IATA - 国际航空运输协会; IBC - 国际散装运输危险化学品船舶构造和设备规则; IC50 - 半抑制浓度; ICAO - 国际民用航空组织; IECSC - 中国现有化学物质名录; IMDG - 国际海运危险货物; IMO - 国际海事组织; ISHL - 日本工业安全和健康法案; ISO - 国际标准化组织; KECI - 韩国现有化学物质名录; LC50 - 测试人群半数致死浓度; LD50 - 测试人群半数致死量（半数致死量）; MARPOL - 国际防止船舶造成污染公约; MSHA - 矿业安全与卫生署; n.o.s. - 未另列明的; NFPA - 美国消防协会; NO(A)EC - 无可见（有害）作用浓度; NO(A)EL - 无可见（有害）作用剂量; NOELR - 无可见作用负荷率; NTP - 国家毒理学规划处; NZIoC - 新西兰化学物质名录; OECD - 经济合作与发展组织; OPPTS - 污染防治、杀虫剂和有毒物质办公室; PBT - 持久性、生物累积性和毒性的物质; PICCS - 菲律宾化学品与化学物质名录; (Q)SAR - （定量）结构一活性关系; RCRA - 资源保护和回收法; REACH - 欧洲议会和理事会关于化学品的注册、评估、授权和限制法规 (EC) 1907/2006 号; RQ - 应申报的数量; SADT - 自加速分解温度; SARA - 非常基金修正及再授权法; SDS - 安全技术说明书; TCSI - 台湾既有化学物质清册; TECI - 泰国既有化学物质清单; TSCA - 美国有毒物质控制法; UN - 联合国; UNRTDG - 联合国关于危险货物运输的建议书; vPvB - 高持久性和高生物累积性物质

此安全技术说明书提供的信息在其发布之日是准确无误的，所给出的信息仅作为安全搬运，储存，运输，处理等的指导，而不能被作为担保和质量指标，此信息仅用于指定的物质而不能用于其它相关的物质，除非特别指明。

修订日期 : 03/07/2024

FICHA DE DATOS DE SEGURIDAD

PULP RIOT HIGH SPEED TONERS - GROUP 10

Versión	Fecha de revisión:	Número SDS:	Fecha de la última expedición: -
1.0	03/07/2024	00-21-410000001413	Fecha de la primera expedición: 03/07/2024

SECCIÓN 1. IDENTIFICACIÓN

Nombre del producto : PULP RIOT HIGH SPEED TONERS - GROUP 10

Referencia del centro de fórmulas : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

Informaciones sobre el fabricante o el proveedor

Dirección : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Teléfono : 1-732-499-2745

E-mail de contacto : CORPREGAFFAIRSMSDS@LOREAL.COM

Teléfono de emergencia

INFOTRAC : 1-800-535-5053 (Internacional: +1 352-323-3500) (Disponible las 24 horas del día. Es posible que la SDS/información del producto no esté disponible para el Servicio de emergencia).

Uso recomendado del producto químico y restricciones de uso

Uso recomendado : Producto de cuidado personal para uso cosmético.

SECCIÓN 2. IDENTIFICACIÓN DE LOS PELIGROS

Clasificación GHS de acuerdo con Norma de Comunicación de Riesgos de OSHA (29 CFR 1910.1200)

Irritación cutáneas : Categoría 2

Lesiones oculares graves : Categoría 1

Elementos de etiquetado GHS

Pictogramas de peligro :

Palabra de advertencia : Peligro

Indicaciones de peligro : H315 Provoca irritación cutánea.
H318 Provoca lesiones oculares graves.

Consejos de prudencia : P102 Mantener fuera del alcance de los niños.
P103 Leer la etiqueta antes del uso.

Prevención:

P264 Lavarse la piel concienzudamente tras la manipulación.
P280 Llevar guantes/equipo de protección para los ojos/ la cara.

Intervención:

P302 + P352 EN CASO DE CONTACTO CON LA PIEL: Lavar con agua y jabón abundantes.
P305 + P351 + P338 + P310 EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado. Llamar inmediatamente a un CENTRO DE TOXICOLOGÍA/ médico.
P332 + P313 En caso de irritación cutánea: Consultar a un médico.
P362 Quitarse las prendas contaminadas y lavarlas antes de volver a usarlas.

Etiquetado adicional

El siguiente porcentaje de la mezcla se compone de ingrediente(s) con toxicidad aguda desconocida: 3 %

Otros peligros

Ninguna conocida.

SECCIÓN 3. COMPOSICIÓN/INFORMACIÓN SOBRE LOS COMPONENTES

Componentes

Nombre químico	No. CAS	Concentración (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5

La concentración real se retiene como secreto comercial

SECCIÓN 4. PRIMEROS AUXILIOS

Recomendaciones generales : Consultar a un médico.

Si es inhalado : Si los síntomas persisten consultar a un médico.

En caso de contacto con la piel : Si continúa la irritación de la piel, llamar al médico.
Si esta en piel, aclare bien con agua.

En caso de contacto con los ojos : En caso de contacto con los ojos, lávenlos inmediata y abundantemente con agua y acúdase a un médico.
Retirar las lentillas.
Si persiste la irritación de los ojos, consultar a un especialista.

Por ingestión	:	Enjuague la boca con agua. Si los síntomas persisten consultar a un médico.
Principales síntomas y efectos, agudos y retardados	:	Provoca irritación cutánea. Provoca lesiones oculares graves.
Notas para el médico	:	Tratar sintomáticamente.

SECCIÓN 5. MEDIDAS DE LUCHA CONTRA INCENDIOS

Medios de extinción apropiados	:	Usar medidas de extinción que sean apropiadas a las circunstancias del local y a sus alrededores.
Medios de extinción no apropiados	:	Ninguna conocida.
Peligros específicos en la lucha contra incendios	:	No permita que las aguas de extinción entren en el alcantarillado o en los cursos de agua.
Productos de combustión peligrosos	:	No se conocen productos de combustión peligrosos
Otros datos	:	Impedir la contaminación de las aguas superficiales o subterráneas por el agua que ha servido a la extinción de incendios. Procedimiento estándar para fuegos químicos.
Equipo de protección especial para el personal de lucha contra incendios	:	Si es necesario, usar equipo de respiración autónomo para la lucha contra el fuego.

SECCIÓN 6. MEDIDAS EN CASO DE VERTIDO ACCIDENTAL

Precauciones personales, equipo de protección y procedimientos de emergencia	:	Utilícese equipo de protección individual.
Precauciones relativas al medio ambiente	:	Evite que el producto penetre en el alcantarillado. Impedir nuevos escapes o derrames si puede hacerse sin riesgos.
Métodos y material de contención y de limpieza	:	Neutralizar con ácido. Recojer con un producto absorbente inerte (por ejemplo, arena, diatomita, fijador de ácidos, fijador universal, serrín). Guardar en contenedores apropiados y cerrados para su eliminación.

SECCIÓN 7. MANIPULACIÓN Y ALMACENAMIENTO

Indicaciones para la protec-	:	Disposiciones normales de protección preventivas de incen-

ción contra incendio y explosión

dio.

Consejos para una manipulación segura : Evítese el contacto con los ojos.
Equipo de protección individual, ver sección 8.

Condiciones para el almacenaje seguro : Conservar el envase herméticamente cerrado en un lugar seco y bien ventilado.

Más información acerca de la estabilidad durante el almacenamiento : No se descompone si se almacena y aplica como se indica.

SECCIÓN 8. CONTROLES DE EXPOSICIÓN/ PROTECCIÓN INDIVIDUAL

Componentes con valores límite ambientales de exposición profesional.

Componentes	No. CAS	Tipo de valor (Forma de exposición)	Parámetros de control / Concentración permisible	Base
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Amoniaco)	ACGIH
		STEL	35 ppm (Amoniaco)	ACGIH
		TWA	25 ppm 18 mg/m3 (Amoniaco)	NIOSH REL
		ST	35 ppm 27 mg/m3 (Amoniaco)	NIOSH REL

Protección personal

Protección respiratoria : Normalmente no requiere el uso de un equipo de protección individual respiratorio.

Protección de las manos

Observaciones : De aplicación solamente en entornos industriales. Caucho nitrílo

Protección de los ojos : De aplicación solamente en entornos industriales.
Gafas de seguridad ajustadas al contorno del rostro

Protección de la piel y del cuerpo : De aplicación solamente en entornos industriales.
Uniforme de trabajo o bata de laboratorio.

Medidas de higiene : No comer ni beber durante su utilización.
No fumar durante su utilización.
Lávense las manos antes de los descansos y después de terminar la jornada laboral.

SECCIÓN 9. PROPIEDADES FÍSICAS Y QUÍMICAS

Estado físico	:	líquido
Color	:	Sin datos disponibles
Olor	:	característico
pH	:	10.5 - 11.1
Punto de fusión/ punto de congelación	:	Sin datos disponibles
Punto /intervalo de ebullición	:	No disponible
Punto de inflamación	:	> 199 °F / > 93 °C Método: ISO 3679
Punto de incendio	:	No aplicable
Límite superior de explosividad / Limites de inflamabilidad superior	:	Sin datos disponibles
Límites inferior de explosividad / Límites de inflamabilidad inferior	:	Sin datos disponibles
Presión de vapor	:	Sin datos disponibles
Densidad relativa del vapor	:	Sin datos disponibles
Densidad relativa	:	0.997 - 1.003 (68 °F / 20 °C)
Solubilidad(es)		
Solubilidad en agua	:	parcialmente soluble
Coeficiente de reparto n-octanol/agua	:	No aplicable
Temperatura de auto-inflamación	:	Sin datos disponibles
Temperatura de descomposición	:	No aplicable
Viscosidad		
Viscosidad, cinemática	:	Sin datos disponibles
Clase de explosión del polvo	:	No aplica

Tamaño de partícula : No aplicable

SECCIÓN 10. ESTABILIDAD Y REACTIVIDAD

Reactividad : No se conoce reacciones peligrosas bajo condiciones de uso normales.

Estabilidad química : Estable en condiciones normales.

Posibilidad de reacciones peligrosas : No se descompone si se almacena y aplica como se indica.

Condiciones que deben evitarse : Sin datos disponibles

Materiales incompatibles : No aplicable

Productos de descomposición peligrosos : No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. INFORMACIÓN TOXICOLÓGICA

Toxicidad aguda

No está clasificado en base a la información disponible.

Producto:

Toxicidad oral aguda : Estimación de la toxicidad aguda: > 5,000 mg/kg
Método: Método de cálculo

Componentes:

COCAMIDE MEA:

Toxicidad oral aguda : DL50: > 5,000 mg/kg
Valoración: La sustancia o mezcla no presenta toxicidad oral aguda

Toxicidad aguda por inhalación : Estimación de la toxicidad aguda: > 20 mg/l
Tiempo de exposición: 4 h
Prueba de atmosfera: vapor

Toxicidad cutánea aguda : Estimación de la toxicidad aguda: > 5,000 mg/kg
Valoración: La sustancia o mezcla no presenta ninguna toxicidad aguda por vía cutánea

COCAMIDOPROPYL BETAINE:

Toxicidad oral aguda : DL50 (Rata, machos y hembras): > 5,000 mg/kg
Método: Directrices de ensayo 401 del OECD
Valoración: La sustancia o mezcla no presenta toxicidad oral

aguda

Toxicidad cutánea aguda : DL50 (Rata, machos y hembras): > 2,000 mg/kg
Método: Directrices de ensayo 402 del OECD
Valoración: La sustancia o mezcla no presenta ninguna toxicidad aguda por vía cutánea

AMMONIUM HYDROXIDE:

Toxicidad oral aguda : DL50 (Rata, macho): 350 mg/kg
Método: Directrices de ensayo 401 del OECD

Corrosión o irritación cutáneas

Provoca irritación cutánea.

Producto:

Observaciones : Puede producir irritaciones en la piel en personas predispuestas.

Componentes:

COCAMIDE MEA:

Especies : Conejo
Resultado : Irritación de la piel

COCAMIDOPROPYL BETAINE:

Especies : piel humana
Resultado : Irritación de la piel

AMMONIUM HYDROXIDE:

Especies : Conejo
Método : Directrices de ensayo 404 del OECD
Resultado : Corrosivo después de 3 minutos a 1 hora de exposición

Lesiones o irritación ocular graves

Provoca lesiones oculares graves.

Producto:

Observaciones : Puede lesionar los ojos de forma irreversible.

Componentes:

COCAMIDE MEA:

Especies : Conejo
Resultado : Efectos irreversibles en los ojos

COCAMIDOPROPYL BETAINE:

Especies	:	Conejo
Resultado	:	Irritación ocular

Sensibilización respiratoria o cutánea

Sensibilización cutánea

No está clasificado en base a la información disponible.

Sensibilización respiratoria

No está clasificado en base a la información disponible.

Mutagenicidad en células germinales

No está clasificado en base a la información disponible.

Componentes:

COCAMIDOPROPYL BETAINE:

Genotoxicidad in vitro	:	Observaciones: Las pruebas in vitro no mostraron efectos mutágenos
Mutagenicidad en células germinales - Valoración	:	El peso de la evidencia no soporta la clasificación como un mutágeno de célula germinal.

AMMONIUM HYDROXIDE:

Mutagenicidad en células germinales - Valoración	:	El peso de la evidencia no soporta la clasificación como un mutágeno de célula germinal.

Carcinogenicidad

No está clasificado en base a la información disponible.

IARC No se identifica ningún componente de este producto, que presente niveles mayores que o igual a 0,1% como agente carcinógeno humano probable, posible o confirmado por la (IARC) Agencia Internacional de Investigaciones sobre Carcinógenos.

OSHA Ningún componente de este producto está presente en niveles superiores o iguales al 0,1 % por lo que no se encuentra en la lista de OSHA de carcinógenos regulados.

NTP En este producto no se identifica ningún componente, que presente niveles mayores que o iguales a 0.1%, como agente carcinógeno conocido o anticipado por el (NTP) Programa Nacional de Toxicología.

Toxicidad para la reproducción

No está clasificado en base a la información disponible.

Componentes:

COCAMIDOPROPYL BETAINE:

Efectos en la fertilidad	:	Especies: Rata Fertilidad: NOAEL: 1,000 peso corporal en mg/kg Método: Directrices de ensayo 408 del OECD Resultado: Las pruebas en animales no demuestran efectos

en la fertilidad.

Efectos en el desarrollo fetal	:	Especies: Rata Toxicidad para el desarrollo: 950 Método: Directrices de ensayo 414 del OECD Resultado: Sin efectos secundarios.
Toxicidad para la reproducción - Valoración	:	No hay evidencia de efectos adversos sobre la función sexual y la fertilidad, o sobre el desarrollo, basado en experimentos con animales.

Toxicidad específica en determinados órganos (stot) - exposición única

No está clasificado en base a la información disponible.

Componentes:

AMMONIUM HYDROXIDE:

Vía de exposición	:	Inhalación
Valoración	:	Puede irritar las vías respiratorias.

Toxicidad específica en determinados órganos (stot) - exposiciones repetidas

No está clasificado en base a la información disponible.

Toxicidad por dosis repetidas

Componentes:

COCAMIDOPROPYL BETAINE:

Especies	:	Rata, machos y hembras
NOAEL	:	500 mg/kg
Vía de aplicación	:	Oral
Tiempo de exposición	:	28 d
Método	:	Directrices de ensayo 407 del OECD

Toxicidad por aspiración

No está clasificado en base a la información disponible.

Otros datos

Producto:

Observaciones	:	En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 12. INFORMACIÓN ECOLÓGICA

Ecotoxicidad

Componentes:

COCAMIDE MEA:

Toxicidad para los peces	:	CL50 (Pez): > 10 - 100 mg/l
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50: > 1 - 10 mg/l
Toxicidad para las algas/plantas acuáticas	:	CE50 (algas): > 1 - 10 mg/l
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC: > 0.01 - 0.1 mg/l
Toxicidad para los microorganismos	:	EC10 (lodos activados): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicidad para los peces	:	CL50 (Danio rerio (pez zebra)): 2 mg/l Tiempo de exposición: 96 h
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 6.4 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para las algas/plantas acuáticas	:	CE50 (Especies de ensayo no estándares): 30 mg/l Tiempo de exposición: 48 h
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.9 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 202 del OECD
Toxicidad para los microorganismos	:	CI50 (Pseudomonas putida): 3,000 mg/l Tiempo de exposición: 16 h

AMMONIUM HYDROXIDE:

Toxicidad para los peces	:	CL50 (Pimephales promelas (Piscardo de cabeza gorda)): 0.75 mg/l Tiempo de exposición: 96 h
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 101 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Oncorhynchus mykiss (Trucha irisada)): 1.2 mg/l Tiempo de exposición: 21 d

Método: Directrices de ensayo 210 del OECD

Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica) : NOEC (Daphnia magna (Pulga de mar grande)): 0.79 mg/l
Tiempo de exposición: 21 d
Método: OPPTS 850.1300

Persistencia y degradabilidad

Componentes:

COCAMIDE MEA:

Biodegradabilidad : Resultado: Fácilmente biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradabilidad : Resultado: Fácilmente biodegradable.
Biodegradación: > 90 %
Tiempo de exposición: 14 d

AMMONIUM HYDROXIDE:

Biodegradabilidad : Resultado: Fácilmente biodegradable.

Potencial de bioacumulación

Componentes:

COCAMIDE MEA:

Coeficiente de reparto n-octanol/agua : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Bioacumulación : Factor de bioconcentración (FBC): 70.79

Coeficiente de reparto n-octanol/agua : log Pow: -1.28

Movilidad en el suelo

Sin datos disponibles

Otros efectos adversos

Producto:

Potencial de agotamiento del ozono : Regulacion: De acuerdo con las Regulaciones de Estados Unidos, se encuentra incluído en el listado de 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances
Observaciones: Este producto no contiene, ni ha sido fabricado con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).

Información ecológica complementaria : En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 13. CONSIDERACIONES RELATIVAS A LA ELIMINACIÓN

Métodos de eliminación.

Residuos : No se debe permitir que el producto penetre en los desagües, tuberías, o la tierra (suelos).
Envíese a una compañía autorizada para la gestión de desechos.

Envases contaminados : Eliminar como producto no usado.
No reutilizar los recipientes vacíos.

SECCIÓN 14. INFORMACIÓN RELATIVA AL TRANSPORTE

Regulación doméstica

49 CFR
No está clasificado como producto peligroso.

Regulaciones internacionales

IATA-DGR
No está clasificado como producto peligroso.

Código-IMDG
No está clasificado como producto peligroso.

Transporte a granel con arreglo al anexo II del Convenio Marpol 73/78 y del Código IBC
No aplicable al producto suministrado.

Precauciones particulares para los usuarios

Observaciones : Producto no peligroso según los criterios de la reglamentación del transporte.

SECCIÓN 15. INFORMACIÓN REGLAMENTARIA

CERCA Cantidad Reportable
Los niveles de las sustancias mencionadas en el producto son lo suficientemente bajos que no se espera que excedan la RQ

SARA 304 Sustancias extremadamente peligrosas Cantidad Reportable
Este material no contiene ningún componente en la sección 304 EHS RQ .

Cantidad de planeación de umbral SARA 302 Sustancias Extremadamente peligrosas
Este material no contiene componentes con una sección 302 EHS TPQ.

SARA 311/312 Peligros : Corrosión cutánea o irritación
Lesiones oculares graves o irritación ocular

SARA 313 : Los siguientes componentes están sujetos a los niveles de referencia establecidos por SARA Título III, Sección 313:

AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

Ley del Aire Limpio

Este producto no contiene, ni ha sido fabricado con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).
Este producto no contiene ningún contaminante atmosférico peligroso (HAP), tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 112 (40 CFR 61).
Este producto no contiene ningún producto químico que figure en el Acta de Aire Limpio de los EE.UU. Sección 112(r) para la Prevención de Liberación Accidental (40 CFR 68.130, Sub-parte F).

SECCIÓN 16. OTRA INFORMACIÓN

PHIẾU AN TOÀN HÓA CHẤT

PULP RIOT HIGH SPEED TONERS - GROUP 10

Phiên bản 1.0	Ngày tháng sửa đổi, bổ sung gần nhất: 03/07/2024	MÃ SỐ PHIẾU CHỈ DẪN AN TOÀN: 00-21-410000001413	Ngày ban hành cuối cùng: - Ngày ban hành đầu tiên: 03/07/2024

Phần 1. NHẬN DẠNG

Tên sản phẩm	:	PULP RIOT HIGH SPEED TONERS - GROUP 10
Tham khảo Trung tâm Công thức	:	1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

Thông tin nhà cung cấp (nhập khẩu; sản xuất; phân phối)

Địa chỉ	:	L'Oreal USA Products, Inc 133, Terminal Avenue Clark, NJ 07066 USA
Điện thoại	:	1-732-499-2745
Địa chỉ e-mail	:	CORPREGAFFAIRSMSDS@LOREAL.COM

Số điện thoại liên hệ trong trường hợp khẩn cấp

INFOTRAC	:	1-800-535-5053 (Quốc tế: +1 352-323-3500) (Có sẵn 24 giờ một ngày. Thông tin SDS/Sản phẩm có thể không có sẵn cho Dịch vụ khẩn cấp.)

Mục đích sử dụng và hạn chế khi sử dụng

Mục đích sử dụng	:	Mỹ phẩm.

Phần 2. THÔNG TIN VỀ SỰ NGUY HẠI

Phân loại GHS theo Tiêu chuẩn truyền thông nguy hiểm của OSHA (29 CFR 1910.1200)

Kích ứng da	:	Cấp 2
Gây tổn thương nặng cho mắt	:	Cấp 1

Các yếu tố nhãn theo GHS

Hình đồ cảnh báo nguy cơ :

Từ cảnh báo : Nguy hiểm

Cảnh báo nguy hiểm : H315 Gây kích ứng da.
H318 Gây tổn thương mắt nghiêm trọng.

Các lưu ý phòng ngừa : P102 Để xa tầm tay của trẻ.
P103 Đọc nhãn trước khi sử dụng.

Biện pháp phòng ngừa:

P264 Rửa sạch da thật kỹ sau khi thao tác với hoá chất.
P280 Đeo găng tay bảo hộ/ bảo vệ mắt/ bảo vệ mặt.

Biện pháp ứng phó:

P302 + P352 NẾU TIẾP XÚC LÊN DA: Rửa bằng nhiều nước và xà phòng.
P305 + P351 + P338 + P310 NẾU BAY VÀO MẮT: Rửa cẩn thận bằng nước trong một vài phút. Tháo bỏ kính áp tròng nếu có và dễ làm. Tiếp tục rửa. Gọi ngay cho TRUNG TÂM CHỐNG ĐỘC hoặc bác sỹ.
P332 + P313 Nếu xảy ra hiện tượng kích ứng da: Tìm kiếm sự tư vấn/ chăm sóc y tế.
P362 Cởi bỏ quần áo bị nhiễm hoá chất và giặt sạch trước khi tái sử dụng.

Dán nhãn bổ sung

Các phần trăm sau đây của hỗn hợp chứa các thành phần không rõ độc tính cấp: 3 %

Các nguy cơ khác

Được biết là chưa xảy ra.

Phần 3. THÀNH PHẦN/THÔNG TIN VỀ CÁC PHỤ LIỆU

Thành phần

Tên hóa học	Số CAS	Nồng độ (% w/w)
COCAMIDE MEA	68140-00-1	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0	>= 1 - < 5
AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5

Nồng độ thực tế được giữ lại như một bí mật thương mại

Phần 4. BIỆN PHÁP SƠ CỨU VỀ Y TẾ

Lời khuyên chung : Tham vấn bác sĩ.

Trường hợp tai nạn tiếp xúc theo đường hô hấp : Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.

Trường hợp tai nạn tiếp xúc trên da : Liên hệ với bác sĩ nếu hiện tượng kích ứng da kéo dài.
Nếu ở trên da, rửa sạch bằng nước.

Trường hợp tai nạn khi tiếp xúc với mắt : Trong trường hợp tiếp xúc với mắt, ngay lập tức rửa mắt bằng nhiều nước và hỏi ý kiến bác sĩ.

		Gỡ bỏ kính áp tròng. Liên hệ với chuyên gia nếu hiện tượng kích ứng ở mắt kéo dài.
Trường hợp tai nạn theo đường tiêu hóa	:	Xúc miệng bằng nước. Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.
Các triệu chứng/tác hại nghiêm trọng tức thời và ảnh hưởng sau này	:	Gây kích ứng da. Gây tổn thương mắt nghiêm trọng.
Lưu ý đối với bác sỹ điều trị	:	Điều trị theo triệu trứng.

Phần 5. BIỆN PHÁP XỬ LÝ KHI CÓ HỎA HOẠN

Các phương tiện chữa cháy thích hợp	:	Sử dụng các biện pháp chữa cháy phù hợp với hoàn cảnh địa phương và môi trường xung quanh.
Các phương tiện chữa cháy không thích hợp	:	Được biết là chưa xảy ra.
Các nguy hiểm cụ thể khi chữa cháy	:	Không để nước chữa cháy chảy xuống cống và ao hồ.
Các chất độc được sinh ra khi bị cháy	:	Chưa từng biết có các sản phẩn gây nổ độc hại
Thông tin khác	:	Ngăn chặn việc nước chữa cháy gây ô nhiễm cho nguồn nước mặt hoặc hệ thống nước ngầm. Quy trình chuẩn dùng trong cháy nổ hóa chất
Thiết bị bảo hộ đặc biệt dành cho lính cứu hỏa	:	Đeo các dụng cụ thở cá nhân khi chữa cháy nếu cần thiết.

Phần 6. BIỆN PHÁP PHÒNG NGỪA, ỨNG PHÓ KHI CÓ SỰ CỐ

Trang thiết bị bảo hộ và quy trình ứng phó sự cố	:	Sử dụng các thiết bị bảo hộ cá nhân.
Các cảnh báo về môi trường	:	Ngăn ngừa không cho sản phẩm đi vào hệ thống cống rãnh. Ngăn ngừa việc rò rỉ hoặc tràn đổ tiếp theo nếu việc việc làm này an toàn.
Biện pháp, vật liệu vệ sinh sau khi xảy ra sự cố	:	Trung hoà bằng axít. Hút khô bằng các vật liệu hút nước trơ (ví dụ như cát, silicagen, chất liên kết axit, chất liên kết phổ thông, mùn cưa). Giữ trong các bình chứa kín thích hợp để tiêu huỷ.

Phần 7. YÊU CẦU VỀ SỬ DỤNG, BẢO QUẢN

Lời khuyên khi bảo vệ khỏi cháy nổ	:	Các biện pháp thông thường nhằm ngăn ngừa hoả hoạn.
Biện pháp, điều kiện cần áp dụng khi sử dụng, thao tác với hóa chất nguy hiểm	:	Tránh tiếp xúc với mắt. Về bảo hộ cá nhân, xem phần 8.
Biện pháp, điều kiện cần áp dụng khi bảo quản	:	Đóng kín bình chứa, đặt tại nơi khô ráo và thông gió tốt.
Thêm thông tin về độ ổn định kho lưu trữ	:	Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.

Phần 8. KIỂM SOÁT PHƠI NHIỄM/YÊU CẦU VỀ THIẾT BỊ BẢO VỆ CÁ NHÂN

Các thành phần có các thông số cần kiểm soát tại nơi làm việc

Thành phần	Số CAS	Loại giá trị (Dạng phơi nhiễm)	Các thông số kiểm soát / Nồng độ cho phép	Cơ sở
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Amoniac)	ACGIH
		STEL	35 ppm (Amoniac)	ACGIH
		TWA	25 ppm 18 mg/m3 (Amoniac)	NIOSH REL
		ST	35 ppm 27 mg/m3 (Amoniac)	NIOSH REL

Biện pháp và thiết bị bảo hộ cá nhân

Bảo vệ hô hấp	:	Thông thường không yêu cầu các thiết bị bảo hộ hô hấp cá nhân.
Bảo vệ tay		
Ghi chú	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Cao su nitrile
Bảo vệ mắt	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Kính bảo hộ vừa khít
Bảo vệ da và cơ thể	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc đồng phục hoặc áo choàng phòng thí nghiệm.
Các biện pháp vệ sinh	:	Không được ăn hoặc uống khi sử dụng. Không hút thuốc khi sử dụng. Rửa tay trước khi nghỉ giải lao và vào cuối ngày làm việc.

Phần 9. ĐẶC TÍNH LÝ, HÓA CỦA HÓA CHẤT

Trạng thái vật lý	:	thể lỏng
Màu sắc	:	chưa có dữ liệu
Mùi đặc trưng	:	đặc tính
Độ pH	:	10.5 - 11.1
Điểm/khoảng nóng chảy/đông đặc	:	chưa có dữ liệu
Điểm sôi/khoảng sôi	:	Không có sẵn
Điểm cháy	:	> 199 °F / > 93 °C Phương pháp: ISO 3679
Nhiệt Độ Cháy	:	Không áp dụng được
Giới hạn trên của cháy nổ / Giới hạn trên của sự bốc cháy	:	chưa có dữ liệu
Giới hạn dưới của cháy nổ / Giới hạn dưới của sự bốc cháy	:	chưa có dữ liệu
Áp suất hóa hơi	:	chưa có dữ liệu
Tỷ trọng hơi tương đối	:	chưa có dữ liệu
Tỷ trọng tương đối	:	0.997 - 1.003 (68 °F / 20 °C)
Độ hòa tan		
Độ hòa tan trong nước	:	hòa tan một phần
Hệ số phân tán: n-octanol/nước	:	Không áp dụng được
Nhiệt độ tự bốc cháy	:	chưa có dữ liệu
Nhiệt độ phân hủy	:	Không áp dụng được
Độ nhớt		
Độ nhớt, động học	:	chưa có dữ liệu
Loại nổ tạo bụi	:	không áp dụng

Kích thước hạt	:	Không áp dụng được

Phần 10. MỨC ỔN ĐỊNH VÀ PHẢN ỨNG CỦA HÓA CHẤT

Khả năng phản ứng	:	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Tính ổn định	:	Ổn định trong các điều kiện thông thường.
Phản ứng nguy hiểm	:	Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.
Các điều kiện cần tránh	:	chưa có dữ liệu
Vật liệu không tương thích	:	Không áp dụng được
Phản ứng phân hủy và các sản phẩm độc của phản ứng phân hủy	:	Không sản phẩm phân hủy nguy hại nào được biết đến.

Phần 11. THÔNG TIN VỀ ĐỘC TÍNH

Độc cấp tính

Không được phân loại dựa trên thông tin có sẵn.

Sản phẩm:

Độc tính cấp theo đường miệng	:	Ước lượng độc tính cấp: > 5,000 mg/kg Phương pháp: Phương pháp tính toán

Thành phần:

COCAMIDE MEA:

Độc tính cấp theo đường miệng	:	LD50: > 5,000 mg/kg Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường miệng
Độc tính cấp do hít phải	:	Ước lượng độc tính cấp: > 20 mg/l Thời gian phơi nhiễm: 4 h Không khí kiểm nghiệm: hơi
Độc tính cấp qua da	:	Ước lượng độc tính cấp: > 5,000 mg/kg Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính qua da

COCAMIDOPROPYL BETAINE:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, Đực và cái): > 5,000 mg/kg Phương pháp: Hướng dẫn xét nghiệm OECD 401 Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường miệng
Độc tính cấp qua da	:	LD50 (Chuột, Đực và cái): > 2,000 mg/kg

Phương pháp: Hướng dẫn xét nghiệm OECD 402
Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính qua da

AMMONIUM HYDROXIDE:

Độc tính cấp theo đường miệng : LD50 (Chuột, con đực): 350 mg/kg
Phương pháp: Hướng dẫn xét nghiệm OECD 401

Ăn mòn/kích ứng da

Gây kích ứng da.

Sản phẩm:

Ghi chú : Có thể gây kích ứng da với những người dễ bị tổn thương

Thành phần:

COCAMIDE MEA:

Loài : Thỏ
Kết quả : Kích ứng da

COCAMIDOPROPYL BETAINE:

Loài : da người
Kết quả : Kích ứng da

AMMONIUM HYDROXIDE:

Loài : Thỏ
Phương pháp : Hướng dẫn xét nghiệm OECD 404
Kết quả : Gây ăn mòn sau khi tiếp xúc từ 3 phút đến 1 giờ

Tổn thương mắt nghiêm trọng/kích ứng mắt

Gây tổn thương mắt nghiêm trọng.

Sản phẩm:

Ghi chú : Có thể gây tổn thương mắt không thể phục hồi

Thành phần:

COCAMIDE MEA:

Loài : Thỏ
Kết quả : Những ảnh hưởng không thể phục hồi lên mắt

COCAMIDOPROPYL BETAINE:

Loài : Thỏ

Kết quả : Kích ứng mắt

Kích thích hô hấp hoặc da

Nhạy cảm với da

Không được phân loại dựa trên thông tin có sẵn.

Nhạy cảm với hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Đột biến tế bào mầm (tế bào gen)

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

COCAMIDOPROPYL BETAINE:

Độc tính gây đột biến gen trong ống thí nghiệm : Ghi chú: Các thử nghiệm trong ống nghiệm không cho thấy các tác nhân gây đột biến.

Đột biến tế bào mầm (tế bào gen) - Đánh giá : Trọng số bằng chứng không đủ khẳng định xếp loại là biến đổi tế bào mầm.

AMMONIUM HYDROXIDE:

Đột biến tế bào mầm (tế bào gen) - Đánh giá : Trọng số bằng chứng không đủ khẳng định xếp loại là biến đổi tế bào mầm.

Tác nhân gây ung thư

Không được phân loại dựa trên thông tin có sẵn.

IARC Không có thành phần nào của sản phẩm ở mức cao hơn hoặc bằng 0.1 % được xác định là chất nghi ngờ, có thể hoặc chắc chắn gây ung thư ở người theo quy định của IARC.

OSHA Không có thành phần nào trong sản phẩm này có nồng độ lớn hơn hoặc bằng 0,1% nằm trong danh sách chất gây ung thư thuộc diện quản lý của OSHA.

NTP Không có thành phần nào của sản phẩm này ở mức cao hơn hoặc bằng 0.1 % được xác định là chất gây ung thư hoặc chất được dự đoán là gây ung thư theo NTP.

Độc tính sinh sản

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

COCAMIDOPROPYL BETAINE:

Ảnh hưởng đến khả năng sinh sản : Loài: Chuột
Khả năng sinh sản: NOAEL: 1,000 mg/kg trọng lượng cơ thể
Phương pháp: Hướng dẫn xét nghiệm OECD 408
Kết quả: Các thí nghiệm thú vật cho thấy không có tác hại đến khả năng sinh sản.

Ảnh hưởng đến sự phát triển : Loài: Chuột

của thai		Độc tính đối với sự phát triển: 950 Phương pháp: Hướng dẫn xét nghiệm OECD 414 Kết quả: Không gây hại.
Độc tính sinh sản - Đánh giá	:	Không có bằng chứng về các ảnh hưởng có hại đối với chức năng sinh dục, sinh sản hay đối với sự phát triển, dựa vào các thực nghiệm trên động vật.

STOT - Tiếp xúc một lần

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

AMMONIUM HYDROXIDE:

Đường tiếp xúc	:	Hít phải
Đánh giá	:	Có thể gây kích ứng hô hấp.

STOT - Tiếp xúc lặp lại

Không được phân loại dựa trên thông tin có sẵn.

Lượng độc lặp lại

Thành phần:

COCAMIDOPROPYL BETAINE:

Loài	:	Chuột, Đực và cái
NOAEL	:	500 mg/kg
Lộ trình ứng dụng	:	Đường miệng
Thời gian phơi nhiễm	:	28 d
Phương pháp	:	Hướng dẫn xét nghiệm OECD 407

Độc tính hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Thông tin khác

Sản phẩm:

Ghi chú	:	Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 12. THÔNG TIN VỀ SINH THÁI

Độc môi trường

Thành phần:

COCAMIDE MEA:

Độc đối với cá	:	LC50 (Cá): > 10 - 100 mg/l
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50: > 1 - 10 mg/l
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (tảo): > 1 - 10 mg/l
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC: > 0.01 - 0.1 mg/l
Độc tính đối với các vi sinh vật	:	EC10 (Than hoạt tính): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Độc đối với cá	:	LC50 (Danio rerio (cá vằn)): 2 mg/l Thời gian phơi nhiễm: 96 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 6.4 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Các loài thử nghiệm không đạt tiêu chuẩn): 30 mg/l Thời gian phơi nhiễm: 48 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.9 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với các vi sinh vật	:	IC50 (Pseudomonas putida (Vi khuẩn Pseudomonas putida)): 3,000 mg/l Thời gian phơi nhiễm: 16 h

AMMONIUM HYDROXIDE:

Độc đối với cá	:	LC50 (Pimephales promelas (cá tuế đầu to)): 0.75 mg/l Thời gian phơi nhiễm: 96 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 101 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Oncorhynchus mykiss (cá hồi cầu vồng)): 1.2 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 210
Độc tính đối các loài giáp xác và các động vật không	:	NOEC (Daphnia magna (Bọ nước)): 0.79 mg/l Thời gian phơi nhiễm: 21 d

xương sống thủy sinh khác (Tính độc mãn tính)	Phương pháp: OPPTS 850.1300

Tính bền vững, khó phân hủy và khả năng phân hủy

Thành phần:

COCAMIDE MEA:

Tính phân hủy sinh học : Kết quả: Dễ phân huỷ sinh học.

COCAMIDOPROPYL BETAINE:

Tính phân hủy sinh học : Kết quả: Dễ phân huỷ sinh học.
Phân hủy sinh học: > 90 %
Thời gian phơi nhiễm: 14 d

AMMONIUM HYDROXIDE:

Tính phân hủy sinh học : Kết quả: Dễ phân huỷ sinh học.

Khả năng tích lũy sinh học

Thành phần:

COCAMIDE MEA:

Hệ số phân tán: n-octanol/nước : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Tính tích lũy sinh học : Yếu tố nồng độ sinh học (BCF): 70.79

Hệ số phân tán: n-octanol/nước : log Pow: -1.28

Độ linh động trong đất

chưa có dữ liệu

Các tác hại khác

Sản phẩm:

Có khả năng gây suy giảm tầng ozon : Quy định: 40 CFR Bảo vệ Môi trường; Phần 82 Bảo vệ tầng ôzôn bình lưu - CAA Phần 602 Các chất loại I
Ghi chú: Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt. A, App.A + B) .

Các thông tin sinh thái khác : Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 13. THÔNG TIN VỀ THẢI BỎ

Các biện pháp thải bỏ

Chất thải từ cặn	:	Không được đổ sản phẩm vào cống, rãnh, mương, máng, nơi nước chảy hoặc vứt xuống đất. Gửi đến cho một công ty xử lý chất thải có giấy phép
Bao bì nhiễm độc	:	Loại bỏ như đối với sản phẩm không sử dụng. Không tái sử dụng các thùng chứa rỗng.

Phần 14. THÔNG TIN KHI VẬN CHUYỂN

Quy định quốc gia

49 CFR
Chưa được quy định là hàng hóa nguy hiểm

Quy định Quốc tế

IATA-DGR
Chưa được quy định là hàng hóa nguy hiểm

Mã IMDG
Chưa được quy định là hàng hóa nguy hiểm

Vận chuyển trong tàu lớn theo như Phụ lục II của Công ước MARPOL 73/78 và Bộ luật IBC
Không áp dụng cho sản phẩm khi được cung cấp.

Những cảnh báo đặc biệt mà người sử dụng cần lưu ý

Ghi chú	:	Không bị xếp vào loại nguy hiểm hiểu theo các quy định về vận tải.

Phần 15. THÔNG TIN VỀ PHÁP LUẬT

CERCLA Số lượng báo cáo
Các chất được liệt kê trong sản phẩm ở mức đủ thấp để không vượt quá RQ

Các hóa chất cực kỳ nguy hại SARA 304 Số lượng báo cáo
Nguyên liệu này không chứa bất cứ thành phần nào thuộc quy định của mục 304 EHS RQ.

SARA 302 Lập kế hoạch ngưỡng cho các chất cực kỳ nguy hiểm Số lượng
Vật liệu này không chứa bất kỳ thành phần nào có phần 302 EHS TPQ.

SARA 311/312 Các nguy cơ	:	Ăn mòn hoặc kích ứng da Tổn thương mắt nghiêm trọng hoặc kích ứng mắt
SARA 313	:	Các thành phần sau đây là đối tượng cần báo cáo theo quy định SARA, Chương III, Mục 313:

AMMONIUM HYDROXIDE	1336-21-6	>= 1 - < 5 %

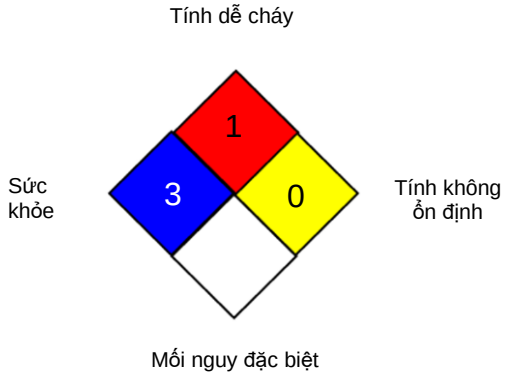
Đạo luật không khí sạch

Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt. A, App.A + B) .
Sản phẩm này không chứa bất kỳ chất ô nhiễm không khí nguy hại nào (HAP) theo như Đạo luật Không khí sạch của Hoa Kỳ, mục 112 (40 CFR 61).
Sản phẩm này không chứa bất kỳ chất nào được liệt kê trong Đạo luật không khí sạch của Hoa Kỳ, Mục 112 (r) Ngăn ngừa Phát thải do sự cố (40 CFR 68.130 phần phụ F).

Phần 16. CÁC THÔNG TIN CẦN THIẾT KHÁC, BAO GỒM CÁC THÔNG TIN KHI XÂY DỰNG VÀ HIỆU ĐÍNH PHIẾU AN TOÀN HÓA CHẤT

Thông tin khác

NFPA 704:



Toàn bộ nội dung các cụm từ viết tắt khác

ACGIH	:	Giá trị giới hạn ngưỡng (TLV) USA. ACGIH
NIOSH REL	:	HOA KỲ. Giới hạn phơi nhiễm được NIOSH khuyến nghị
ACGIH / TWA	:	8 giờ, trung bình tính theo thời gian
ACGIH / STEL	:	giới hạn tiếp xúc trong thời gian ngắn
NIOSH REL / TWA	:	Sự tập trung trung bình theo trọng số thời gian cho một ngày làm việc lên tới 10 giờ trong một tuần làm việc 40 giờ
NIOSH REL / ST	:	STEL - mức phơi nhiễm TWA 15 phút không được vượt quá bất kỳ lúc nào trong ngày làm việc

SAFETY DATA SHEET

PULP RIOT HIGH SPEED TONERS - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	03/07/2024	00-21-410000001413	Date of first issue: 03/07/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT HIGH SPEED TONERS - GROUP 10

Formula Center Reference : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

Other means of identification : No data available

Manufacturer or supplier's details

Address : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

National Poisons Control Center : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (This telephone nuer is available during office hours only.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the Hazardous Products Regulations

Skin irritation : Category 2

Serious eye damage : Category 1

GHS label elements

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H315 Causes skin irritation.
H318 Causes serious eye damage.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P264 Wash skin thoroughly after handling.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P302 + P352 IF ON SKIN: Wash with plenty of water.
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.
P332 + P313 If skin irritation occurs: Get medical advice/ attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.

Additional Labeling

The following percentage of the mixture consists of ingredient(s) with unknown acute toxicity: 3 %

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	Common Name/Synonym	CAS-No.	Concentration (% w/w)
COCAMIDE MEA	Amides, coco, N-(hydroxyethyl)	68140-00-1	>= 10 - < 30 *
COCAMIDOPROPYL BETAINE	1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-coco acyl derivs., hydroxides, inner salts	61789-40-0	>= 1 - < 5 *
AMMONIUM HYDROXIDE	ammonia	1336-21-6	>= 1 - < 5 *

* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice : Consult a physician.

If inhaled	:	If symptoms persist, call a physician.
In case of skin contact	:	If skin irritation persists, call a physician. If on skin, rinse well with water.
In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Remove contact lenses. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes skin irritation. Causes serious eye damage.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for	:	Neutralize with acid.

containment and cleaning up	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Ammonia)	ACGIH
		STEL	35 ppm (Ammonia)	ACGIH
		TWA	25 ppm 18 mg/m3 (Ammonia)	NIOSH REL
		ST	35 ppm 27 mg/m3 (Ammonia)	NIOSH REL

Personal protective equipment

Respiratory protection	:	No personal respiratory protective equipment normally required.
Hand protection		
Remarks	:	Applicable for industrial settings only. Nitrile rubber
Eye protection	:	Applicable for industrial settings only. Tightly fitting safety goggles
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.
Hygiene measures	:	When using do not eat or drink.

When using do not smoke.
Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	liquid
Color	:	No data available
Odor	:	characteristic
pH	:	10.5 - 11.1
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	0.997 - 1.003 (20 °C)
Solubility(ies) Water solubility	: :	 partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity Viscosity, kinematic	: :	 No data available

Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method

Components:

COCAMIDE MEA:

Acute oral toxicity	:	LD50: > 5,000 mg/kg Assessment: The substance or mixture has no acute oral toxicity
Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l Exposure time: 4 h Test atmosphere: vapor
Acute dermal toxicity	:	Acute toxicity estimate: > 5,000 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity	:	LD50 (Rat, male and female): > 5,000 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity

Acute dermal toxicity	:	LD50 (Rat, male and female): > 2,000 mg/kg Method: OECD Test Guideline 402 Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity	:	LD50 (Rat, male): 350 mg/kg Method: OECD Test Guideline 401

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks	:	May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species	:	Rabbit
Result	:	Skin irritation

COCAMIDOPROPYL BETAINE:

Species	:	human skin
Result	:	Skin irritation

AMMONIUM HYDROXIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 3 minutes to 1 hour of exposure

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks	:	May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species	:	Rabbit
Result	:	Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species	:	Rabbit

Result : Eye irritation

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro : Remarks: In vitro tests did not show mutagenic effects

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility : Species: Rat
Fertility: NOAEL: 1,000 mg/kg body weight
Method: OECD Test Guideline 408
Result: Animal testing did not show any effects on fertility.

Effects on fetal development : Species: Rat
Developmental Toxicity: 950
Method: OECD Test Guideline 414
Result: No adverse effects.

Reproductive toxicity - Assessment : No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure : Inhalation

Assessment : May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l
Toxicity to daphnia and other aquatic invertebrates	:	EC50: > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0.01 - 0.1 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6.4 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Non-standard test species): 30 mg/l Exposure time: 48 h
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.9 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	IC50 (Pseudomonas putida): 3,000 mg/l Exposure time: 16 h

AMMONIUM HYDROXIDE:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 0.75 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 101 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to fish (Chronic toxicity)	:	NOEC (Oncorhynchus mykiss (rainbow trout)): 1.2 mg/l Exposure time: 21 d Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0.79 mg/l Exposure time: 21 d Method: OPPTS 850.1300

Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability	:	Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability	:	Result: Readily biodegradable. Biodegradation: > 90 % Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability	:	Result: Readily biodegradable.

Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Bioconcentration factor (BCF): 70.79

Partition coefficient: n-octanol/water : log Pow: -1.28

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

TDG
Not regulated as a dangerous good

International Regulations

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Canadian PBT Chemicals : This product does not contain any components on the DSL that are classified as Persistent, Bioaccumulative and Toxic (PBT) under CEPA.

Canadian National Pollutant Release Inventory (NPRI): No component is listed on NPRI.

SECTION 16. OTHER INFORMATION

Full text of other abbreviations

ACGIH	:	USA. ACGIH Threshold Limit Values (TLV)
NIOSH REL	:	USA. NIOSH Recommended Exposure Limits
ACGIH / TWA	:	8-hour, time-weighted average
ACGIH / STEL	:	Short-term exposure limit
NIOSH REL / TWA	:	Time-weighted average concentration for up to a 10-hour workday during a 40-hour workweek
NIOSH REL / ST	:	STEL - 15-minute TWA exposure that should not be exceeded at any time during a workday

Détails concernant le fabricant ou le fournisseur

Adresse : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Téléphone : 1-732-499-2745

Adresse de courrier électronique : CORPREGAFFAIRSMSDS@LOREAL.COM

Numéro de téléphone en cas d'urgence

Centre antipoison national : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (Ce numéro de téléone n'est valable que pendant les heures de bureau.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Disponible 24h/24. Les informations sur la FDS/le produit peuvent ne pas être disponibles pour le service d'urgence.)

Utilisation recommandée du produit chimique et restrictions d'utilisation

Utilisation recommandée : Produits de soins personnels destinés à un usage cosmétique.

SECTION 2. IDENTIFICATION DES DANGERS

Classement SGH en conformité avec les règlements sur les produits dangereux

Irritation de la peau : Catégorie 2

Dommages occulaires graves : Catégorie 1

Éléments étiquette SGH

Pictogrammes de danger :

Mot indicateur : Danger

Déclarations sur les risques : H315 Provoque une irritation cutanée.
H318 Provoque de graves lésions des yeux.

Déclarations sur la sécurité : P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.

Prévention:

P264 Se laver la peau soigneusement après manipulation.
P280 Porter des gants de protection/ un équipement de protection des yeux/ du visage.

Intervention:

P302 + P352 EN CAS DE CONTACT AVEC LA PEAU: Laver abondamment à l'eau.
P305 + P351 + P338 + P310 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Appeler immédiatement un CENTRE ANTIPOISON/ un médecin.
P332 + P313 En cas d'irritation cutanée: Demander un avis médical/ Consulter un médecin.
P362 + P364 Enlever les vêtements contaminés et les laver avant réutilisation.

Étiquetage supplémentaire

Les pourcentages du mélange qui suivent consistent en ingrédient(s) dont la toxicité aiguë est inconnue: 3 %

Autres dangers

Inconnu.

SECTION 3. COMPOSITION/INFORMATION SUR LES COMPOSANTS

Composants

Nom Chimique	Nom commun/Synonyme	No. CAS	Concentration (% w/w)
COCAMIDE MEA	Amides, coco, N-(hydroxyethyl)	68140-00-1	>= 10 - < 30 *
COCAMIDOPROPYL BETAINE	1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-	61789-40-0	>= 1 - < 5 *

	coco acyl derivs., hydroxides, inner salts		
AMMONIUM HYDROXIDE	ammonia, aqueous solution	1336-21-6	>= 1 - < 5 *

* La concentration ou la plage de concentration réelle est retenue en tant que secret industriel

SECTION 4. PREMIERS SOINS

Conseils généraux	:	Consulter un médecin.
En cas d'inhalation	:	Si les symptômes persistent, consulter un médecin.
En cas de contact avec la peau	:	Si l'irritation de la peau persiste, appeler un médecin. Si la personne en a sur la peau, bien rincer à l'eau.
En cas de contact avec les yeux	:	En cas de contact avec les yeux, laver immédiatement et abondamment avec de l'eau et consulter un spécialiste. Retirez les lentilles de contact. Si l'irritation oculaire persiste, consulter un médecin spécialiste.
En cas d'ingestion	:	Rincer la bouche à l'eau. Si les symptômes persistent, consulter un médecin.
Symptômes et effets les plus importants, aigus et différés	:	Provoque une irritation cutanée. Provoque de graves lésions des yeux.
Avis aux médecins	:	Traiter de façon symptomatique.

SECTION 5. MESURES DE LUTTE CONTRE L'INCENDIE

Moyen d'extinction approprié	:	Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement immédiat.
Moyens d'extinction inadéquats	:	Inconnu.
Dangers spécifiques pendant la lutte contre l'incendie	:	Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.
Produits de combustion dangereux	:	On ne connaît aucun produit de combustion dangereux
Autres informations	:	Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou souterraines. Procédure usuelle pour feux d'origine chimique.

Équipement de protection spécial pour les pompiers	:	Si nécessaire, porter un appareil respiratoire autonome lors de la lutte contre l'incendie.

SECTION 6. MESURES À PRENDRE EN CAS DE DÉVERSEMENT ACCIDENTEL

Précautions individuelles, équipement de protection et procédures d'urgence	:	Utiliser un équipement de protection personnelle.
Précautions pour la protection de l'environnement	:	Éviter que le produit pénètre dans les égouts. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger.
Méthodes et matières pour le confinement et le nettoyage	:	Neutraliser à l'acide. Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure). Conserver dans des récipients adaptés et fermés pour l'élimination.

SECTION 7. MANIPULATION ET ENTREPOSAGE

Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Équipement de protection individuelle, voir la section 8.
Conditions de stockage sures	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
D'autres informations sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications.

SECTION 8. MESURES DE CONTRÔLE DE L'EXPOSITION/PROTECTION INDIVIDUELLE

Composants avec valeurs limites d'exposition professionnelle

Composants	No. CAS	Type de valeur (Type d'exposition)	Paramètres de contrôle / Concentration admissible	Base
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Ammoniaque)	ACGIH
		STEL	35 ppm (Ammoniaque)	ACGIH
		TWA	25 ppm 18 mg/m3 (Ammoniaque)	NIOSH REL
		ST	35 ppm	NIOSH REL

			27 mg/m3 (Ammoniaque)	

Équipement de protection individuelle

Protection respiratoire	:	Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.
Protection des mains		
Remarques	:	Pour usage industriel seulement. Caoutchouc nitrile
Protection des yeux	:	Pour usage industriel seulement. Lunettes de sécurité à protection intégrale
Protection de la peau et du corps	:	Pour usage industriel seulement. Uniforme de travail ou sarreau de laboratoire.
Mesures d'hygiène	:	Ne pas manger et ne pas boire pendant l'utilisation. Ne pas fumer pendant l'utilisation. Se laver les mains avant les pauses et à la fin de la journée.

SECTION 9. PROPRIETES PHYSIQUES ET CHIMIQUES

État physique	:	liquide
Couleur	:	Donnée non disponible
Odeur	:	caractéristique
pH	:	10.5 - 11.1
Point de fusion/congélation	:	Donnée non disponible
Point/intervalle d'ébullition	:	Pas disponible
Point d'éclair	:	> 93 °C Méthode: ISO 3679
Point de feu	:	Sans objet
Limite d'explosivité, supérieure / Limite d'inflammabilité supérieure	:	Donnée non disponible
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible

Pression de vapeur	:	Donnée non disponible
Densité de vapeur relative	:	Donnée non disponible
Densité relative	:	0.997 - 1.003 (20 °C)
Solubilité		
Solubilité dans l'eau	:	partiellement soluble
Coefficient de partage (n-octanol/eau)	:	Sans objet
Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Sans objet
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Classe d'explosivité des poussières	:	Sans objet.
Taille des particules	:	Sans objet

SECTION 10. STABILITÉ ET RÉACTIVITÉ

Réactivité	:	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
Stabilité chimique	:	Stable dans des conditions normales.
Possibilité de réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications.
Conditions à éviter	:	Donnée non disponible
Produits incompatibles	:	Sans objet
Produits de décomposition dangereux	:	Aucun produit dangereux de décomposition n'est connu.

SECTION 11. INFORMATIONS TOXICOLOGIQUES

Toxicité aiguë

Non répertorié selon les informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2,000 mg/kg

Méthode: Méthode de calcul

Composants:

COCAMIDE MEA:

Toxicité aiguë par voie orale : DL50: > 5,000 mg/kg
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie orale

Toxicité aiguë par inhalation : Estimation de la toxicité aiguë: > 20 mg/l
Durée d'exposition: 4 h
Atmosphère d'essai: vapeur

Toxicité cutanée aiguë : Estimation de la toxicité aiguë: > 5,000 mg/kg
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie cutanée

COCAMIDOPROPYL BETAINE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): > 5,000 mg/kg
Méthode: Directives du test 401 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie orale

Toxicité cutanée aiguë : DL50 (Rat, mâle et femelle): > 2,000 mg/kg
Méthode: Directives du test 402 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie cutanée

AMMONIUM HYDROXIDE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 350 mg/kg
Méthode: Directives du test 401 de l'OECD

Corrosion et/ou irritation de la peau

Provoque une irritation cutanée.

Produit:

Remarques : Peut provoquer une irritation de la peau chez les personnes sensibles.

Composants:

COCAMIDE MEA:

Espèce : Lapin
Résultat : Irritation de la peau

COCAMIDOPROPYL BETAINE:

Espèce : Epiderme humain
Résultat : Irritation de la peau

AMMONIUM HYDROXIDE:

Espèce	:	Lapin
Méthode	:	Directives du test 404 de l'OECD
Résultat	:	Corrosif après 3 minutes à 1 heure d'exposition

Lésion/irritation grave des yeux

Provoque de graves lésions des yeux.

Produit:

Remarques	:	Peut provoquer des lésions oculaires irréversibles.

Composants:

COCAMIDE MEA:

Espèce	:	Lapin
Résultat	:	Des effets irréversibles aux yeux

COCAMIDOPROPYL BETAINE:

Espèce	:	Lapin
Résultat	:	Irritation des yeux

Sensibilisation cutanée ou respiratoire

Sensibilisation de la peau

Non répertorié selon les informations disponibles.

Sensibilisation des voies respiratoires

Non répertorié selon les informations disponibles.

Mutagénécité de la cellule germinale

Non répertorié selon les informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Génotoxicité in vitro	:	Remarques: Les tests in vitro n'ont pas montré d'effets mutagènes
Mutagénécité de la cellule germinale - Évaluation	:	Les données ne soutiennent pas le classement comme un mutagène des cellules germinales.

AMMONIUM HYDROXIDE:

Mutagénécité de la cellule germinale - Évaluation	:	Les données ne soutiennent pas le classement comme un mutagène des cellules germinales.

Cancérogénicité

Non répertorié selon les informations disponibles.

Toxicité pour la reproduction

Non répertorié selon les informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Effets sur la fertilité	:	Espèce: Rat Fertilité: NOAEL: 1,000 Poids corporel mg / kg Méthode: Directives du test 408 de l'OECD Résultat: L'expérimentation sur des animaux n'a démontré aucun effet sur la fertilité.
Incidences sur le développement fœtal	:	Espèce: Rat Toxicité pour le développement: 950 Méthode: Directives du test 414 de l'OECD Résultat: Aucun effet nocif.
Toxicité pour la reproduction - Évaluation	:	Aucune évidence d'effets contraires sur les fonctions et la fertilité sexuelles ou sur le développement basée sur des expériences animales.

STOT - exposition unique

Non répertorié selon les informations disponibles.

Composants:

AMMONIUM HYDROXIDE:

Voies d'exposition	:	Inhalation
Évaluation	:	Peut irriter les voies respiratoires.

STOT - exposition répétée

Non répertorié selon les informations disponibles.

Toxicité à dose répétée

Composants:

COCAMIDOPROPYL BETAINE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	500 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 d
Méthode	:	Directives du test 407 de l'OECD

Toxicité par aspiration

Non répertorié selon les informations disponibles.

Autres informations

Produit:

Remarques	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 12. INFORMATIONS ÉCOLOGIQUES

Écotoxicité

Composants:

COCAMIDE MEA:

Toxicité pour les poissons	:	CL50 (Poissons): > 10 - 100 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50: > 1 - 10 mg/l
Toxicité pour les algues/plantes aquatiques	:	CE50 (algues): > 1 - 10 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: > 0.01 - 0.1 mg/l
Toxicité pour les microorganismes	:	EC10 (boue activée): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 2 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Puce d'eau)): 6.4 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Espèces d'essai non standard): 30 mg/l Durée d'exposition: 48 h
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC (Daphnia magna (Puce d'eau)): 0.9 mg/l Durée d'exposition: 21 d Méthode: OCDE Ligne directrice 202
Toxicité pour les microorganismes	:	CI50 (Pseudomonas putida): 3,000 mg/l Durée d'exposition: 16 h

AMMONIUM HYDROXIDE:

Toxicité pour les poissons	:	CL50 (Pimephales promelas (Vairon à grosse tête)): 0.75 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et	:	CE50 (Daphnia magna (Puce d'eau)): 101 mg/l

les autres invertébrés aquatiques		Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les poissons (Toxicité chronique)	:	NOEC (Oncorhynchus mykiss (Truite arc-en-ciel)): 1.2 mg/l Durée d'exposition: 21 d Méthode: OCDE Ligne directrice 210
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC (Daphnia magna (Puce d'eau)): 0.79 mg/l Durée d'exposition: 21 d Méthode: OPPTS 850.1300

Persistance et dégradabilité

Composants:

COCAMIDE MEA:

Biodégradabilité	:	Résultat: Facilement biodégradable.

COCAMIDOPROPYL BETAINE:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: > 90 % Durée d'exposition: 14 d

AMMONIUM HYDROXIDE:

Biodégradabilité	:	Résultat: Facilement biodégradable.

Potentiel bioaccumulatif

Composants:

COCAMIDE MEA:

Coefficient de partage (n-octanol/eau)	:	log Pow: 2.86

COCAMIDOPROPYL BETAINE:

Bioaccumulation	:	Coefficient de bioconcentration (BCF): 70.79
Coefficient de partage (n-octanol/eau)	:	log Pow: -1.28

Mobilité dans le sol

Donnée non disponible

Autres effets néfastes

Produit:

Information écologique supplémentaire	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 13. CONSIDERATIONS RELATIVES À L'ÉLIMINATION

Méthodes d'élimination

Déchets de résidus : Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol.
Envoyer à une entreprise autorisée de gestion des déchets.

Emballages contaminés : Éliminer comme produit non utilisé.
Ne pas réutiliser des récipients vides.

SECTION 14. INFORMATIONS RELATIVES AU TRANSPORT

Réglementation nationale

TDG
Non réglementé comme étant une marchandise dangereuse

Réglementations internationales

IATA-DGR
Non réglementé comme étant une marchandise dangereuse

Code IMDG
Non réglementé comme étant une marchandise dangereuse

Transport en vrac en vertu de l'Annexe II des règles MARPOL 73/78 et du code IBC
Non applicable pour le produit tel qu'il est fourni.

Précautions spéciales pour les utilisateurs

Remarques : Produit non dangereux au sens des règlements de transport.

SECTION 15. INFORMATIONS RÉGLEMENTAIRES

Produits chimiques PBT au Canada : Ce produit ne contient pas de composants inscrits sur la LIS qui sont classés comme substances persistantes, bioaccumulables et toxiques (PBT) sous la LCPE.

Inventaire National Canadien des Rejets de Polluants (INRP): Aucun composé ne fait partie de la liste de l'INRP.

SECTION 16. AUTRES INFORMATIONS

Texte complet d'autres abréviations

ACGIH	:	États-Unis. ACGIH, valeurs limites d'exposition (TLV)
NIOSH REL	:	USA. NIOSH Recommended Exposure Limits
ACGIH / TWA	:	Moyenne pondérée dans le temps de 8 h
ACGIH / STEL	:	Limite d'exposition à court terme
NIOSH REL / TWA	:	Time-weighted average concentration for up to a 10-hour workday during a 40-hour workweek
NIOSH REL / ST	:	STEL - 15-minute TWA exposure that should not be exceeded

at any time during a workday

AIIC - Inventaire australien des produits chimiques industriels; ANTT - Agence nationale du transport routier du Brésil; ASTM - Société américaine pour l'analyse des matériaux; bw - Poids corporel; CMR - Carcinogène, mutagène ou agent toxique pour le système reproductif; DIN - Norme de l'institut allemande de normalisation; DSL - Liste intérieure des substances (Canada); ECx - Concentration associée avec une réponse de x %; ELx - Taux de chargement associé avec une réponse de x %; EmS - Plan d'urgence; ENCS - Liste des substances chimiques existantes et nouvelles (Japon); ErCx - Concentration associée avec une réponse de taux de croissance de x %; ERG - Guide du plan d'urgence; GHS - Système à harmonisation globale; GLP - Bonne pratique de laboratoire; IARC - Agence internationale de recherche sur le cancer; IATA - Association internationale du transport aérien; IBC - Code international de la construction et des équipements pour les bateaux transportant des produits chimiques dangereux en vrac; IC50 - Concentration inhibitrice de 50 %; ICAO - Organisation internationale de l'aviation civile; IECSC - Inventaire des produits chimiques existants de la Chine; IMDG - Code maritime international des marchandises dangereuses; IMO - Organisation maritime internationale; ISHL - Loi sur la santé et la sécurité industrielle (Japon); ISO - Organisation internationale pour la normalisation; KECI - Inventaire des produits chimiques existants de la Corée; LC50 - Concentration létale pour 50 % d'une population test; LD50 - Dose létale pour 50 % d'une population test (dose létale médiane); MARPOL - Convention internationale pour la prévention de la pollution provenant des bateaux; n.o.s. - Sans autres précisions; Nch - Norme chilienne; NO(A)EC - Aucun effet de la concentration (indésirable) observé; NO(A)EL - Aucun effet du niveau (indésirable) observé; NOELR - Aucun effet observable du taux de chargement; NOM - Norme mexicaine officielle; NTP - Programme toxicologique nationale; NZIoC - Inventaire des produits chimiques de la Nouvelle Zélande; OECD - Organisation pour la coopération et le développement économique; OPPTS - Bureau de la sécurité chimique et de la prévention de la pollution; PBT - Substance persistante, bioaccumulative et toxique; PICCS - Inventaire des produits chimiques et des substances chimiques des Philippines; (Q)SAR - (Quantitative) Relation structure/activité; REACH - Règlement (CE) no. 1907/2006 du parlement européen et du conseil relatif à l'enregistrement, l'évaluation, l'autorisation et la restriction des produits chimiques; SADT - Température de décomposition auto-accélérante; SDS - Fiche technique de santé-sécurité; TCSI - Inventaire des produits chimiques de Taïwan; TDG - Transport de marchandises dangereuses; TECI - Inventaire des produits chimiques existants de la Thaïlande; TSCA - Loi sur le contrôle des substances toxiques (États-Unis); UN - Nations unies; UNRTDG - Recommandations des Nations unies pour le transport de marchandises dangereuses; vPvB - Très persistant et très bioaccumulatif; WHMIS - Système d'information sur les matières dangereuse utilisées au travail

Les informations contenues dans la présente fiche signalétique ont été établies sur la base de nos connaissances à la date de publication de ce document. Ces informations ne sont données qu'à titre indicatif en vue de permettre des opérations de manipulation, utilisation, fabrication, entreposage, transport, élimination, mise à disposition, utilisation et élimination dans des conditions satisfaisantes de sécurité, et ne sauraient donc être interprétées comme une garantie ou considérées comme des spécifications de qualité. Ces informations ne concernent en outre que le produit nommément désigné et, sauf indication contraire spécifique, peuvent ne pas être applicables en cas de mélange dudit produit avec d'autres substances ou utilisables pour tout procédé de fabrication.

SAFETY DATA SHEET
according to Regulation (EC) No. 1907/2006

PULP RIOT HIGH SPEED TONERS - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	07.03.2024	00-21-410000001413	Date of first issue: 07.03.2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : PULP RIOT HIGH SPEED TONERS - GROUP 10

Formula Center Reference : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Personal care product used for cosmetic effect.

1.3 Details of the supplier of the safety data sheet

Company : L'Oreal SA
14, Rue Royale
75008Paris
France

Telephone : +17324992745

E-mail address of person responsible for the SDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Emergency telephone

National Poisons Control Center : + 34 91 562 04 20 (Available 24 hours a day. SDS/Product informationa not be available for the Emergency Service.) mergency Phone Number: + 34 947 258 300 (This telephone number is avlable during office hours only.)

INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Skin irritation, Category 2	H315: Causes skin irritation.
Serious eye damage, Category 1	H318: Causes serious eye damage.
Long-term (chronic) aquatic hazard, Category 3	H412: Harmful to aquatic life with long lasting effects.

2.2 Label elements

Labeling (REGULATION (EC) No 1272/2008)

Hazard pictograms :

Signal Word : Danger

Hazard Statements :
H315 Causes skin irritation.
H318 Causes serious eye damage.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements :
P102 Keep out of reach of children.

Prevention:

P264 Wash skin thoroughly after handling.
P273 Avoid release to the environment.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Hazardous ingredients which must be listed on the label:

COCAMIDE MEA
AMMONIUM HYDROXIDE

Additional Labeling

EUH208 Contains N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE. May produce an allergic reaction.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
COCAMIDE MEA	68140-00-1 268-770-2	Skin Irrit. 2; H315 Eye Dam. 1; H318 Aquatic Chronic 2; H411 --- Acute toxicity estimate Acute inhalation toxicity (vapor): > 20 mg/l Acute dermal toxicity: > 5.000 mg/kg	>= 10 - < 20
COCAMIDOPROPYL BETAINE	61789-40-0 263-058-8 01-2120770501-61	Skin Irrit. 2; H315 Eye Irrit. 2; H319 Aquatic Chronic 3; H412	>= 1 - < 2,5
AMMONIUM HYDROXIDE	1336-21-6 215-647-6 007-001-01-2	Acute Tox. 4; H302 Skin Corr. 1B; H314 Eye Dam. 1; H318 STOT SE 3; H335 (Respiratory system) Aquatic Acute 1; H400 Aquatic Chronic 3; H412 --- M-Factor (Acute aquatic toxicity): 1 --- specific concentration limit STOT SE 3; H335 >= 5 % --- Acute toxicity estimate Acute oral toxicity: 350 mg/kg	>= 1 - < 2,5

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE	54381-16-7 259-134-5 01-2120762993-40	Acute Tox. 3; H301 Acute Tox. 3; H331 Acute Tox. 3; H311 Eye Irrit. 2; H319 Skin Sens. 1A; H317 Aquatic Acute 1; H400 Aquatic Chronic 2; H411 M-Factor (Acute aquatic toxicity): 1 Acute toxicity estimate Acute oral toxicity: 246 mg/kg Acute inhalation toxicity (dust/mist): 0,9 mg/l Acute dermal toxicity: 428 mg/kg	>= 0,0025 - < 0,025

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice : Consult a physician.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : If skin irritation persists, call a physician.
If on skin, rinse well with water.

In case of eye contact : In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Remove contact lenses.
If eye irritation persists, consult a specialist.

If swallowed : Rinse mouth with water.
If symptoms persist, call a physician.

4.2 Most important symptoms and effects, both acute and delayed

Risks : Causes skin irritation.
Causes serious eye damage.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media : None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.

Hazardous combustion products : No hazardous combustion products are known.

5.3 Advice for firefighters

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

Further information : Prevent fire extinguishing water from contaminating surface water or the ground water system.
Standard procedure for chemical fires.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : Use personal protective equipment.

6.2 Environmental precautions

Environmental precautions : Prevent product from entering drains.
Prevent further leakage or spillage if safe to do so.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up : Neutralize with acid.
Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Dust explosion class	:	Not applicable

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	:	Keep container tightly closed in a dry and well-ventilated place.
Further information on storage stability	:	No decomposition if stored and applied as directed.

7.3 Specific end use(s)

Specific use(s)	:	Personal care product used for cosmetic effect.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Personal protective equipment

Eye/face protection	:	Applicable for industrial settings only. Tightly fitting safety goggles
Hand protection		
Remarks	:	Applicable for industrial settings only. Nitrile rubber
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.

Respiratory protection	:	No personal respiratory protective equipment normally required.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	:	liquid
Color	:	No data available
Odor	:	characteristic
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Flash point	:	> 93 °C Method: ISO 3679
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
pH	:	10,5 - 11,1
Viscosity		
Viscosity, kinematic	:	No data available
Solubility(ies)		
Water solubility	:	partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Vapor pressure	:	No data available
Relative density	:	0,997 - 1,003 (20 °C)
Relative vapor density	:	No data available

Particle characteristics
Particle size : Not applicable

9.2 Other information

Fire Point : Not applicable

Dust explosion class : Not applicable

SECTION 10: Stability and reactivity

10.1 Reactivity
No dangerous reaction known under conditions of normal use.

10.2 Chemical stability
Stable under normal conditions.

10.3 Possibility of hazardous reactions
Hazardous reactions : No decomposition if stored and applied as directed.

10.4 Conditions to avoid
Conditions to avoid : No data available

10.5 Incompatible materials
Materials to avoid : Not applicable

10.6 Hazardous decomposition products
No hazardous decomposition products are known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity
Not classified based on available information.

Product:
Acute oral toxicity : Acute toxicity estimate: > 2.000 mg/kg
Method: Calculation method

Components:

COCAMIDE MEA:
Acute oral toxicity : LD50: > 5.000 mg/kg
Assessment: The substance or mixture has no acute oral toxicity

Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l Exposure time: 4 h Test atmosphere: vapor
Acute dermal toxicity	:	Acute toxicity estimate: > 5.000 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity	:	LD50 (Rat, male and female): > 5.000 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity
Acute dermal toxicity	:	LD50 (Rat, male and female): > 2.000 mg/kg Method: OECD Test Guideline 402 Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity	:	LD50 (Rat, male): 350 mg/kg Method: OECD Test Guideline 401 Acute toxicity estimate: 350 mg/kg Method: Calculation method

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Acute oral toxicity	:	LD50 (Rat, male): 246 mg/kg Method: OECD Test Guideline 401
Acute inhalation toxicity	:	LC50 (Rat, male and female): 0,90 mg/l Exposure time: 4 h Test atmosphere: dust/mist
Acute dermal toxicity	:	LD50: 428 mg/kg

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks	:	May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species	:	Rabbit

Result : Skin irritation

COCAMIDOPROPYL BETAINE:

Species : human skin
Result : Skin irritation

AMMONIUM HYDROXIDE:

Species : Rabbit
Method : OECD Test Guideline 404
Result : Corrosive after 3 minutes to 1 hour of exposure

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Species : Rabbit
Result : No skin irritation

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks : May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species : Rabbit
Result : Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species : Rabbit
Result : Eye irritation

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Species : Rabbit
Result : Eye irritation

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	The product is a skin sensitizer, sub-category 1A.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Germ cell mutagenicity-Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity-Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Germ cell mutagenicity-Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 1.000 mg/kg body weight Method: OECD Test Guideline 408 Result: Animal testing did not show any effects on fertility.
Effects on fetal development	:	Species: Rat Developmental Toxicity: 950 Method: OECD Test Guideline 414 Result: No adverse effects.
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure	:	Inhalation
Assessment	:	May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment	:	The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1 Toxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l
Toxicity to daphnia and other aquatic invertebrates	:	EC50 : > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0,01 - 0,1 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6,4 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Non-standard test species): 30 mg/l Exposure time: 48 h
Toxicity to microorganisms	:	IC50 (Pseudomonas putida): 3.000 mg/l Exposure time: 16 h
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,9 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 202

AMMONIUM HYDROXIDE:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 0,75 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 101 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC: 1,2 mg/l Exposure time: 21 d Species: Oncorhynchus mykiss (rainbow trout) Method: OECD Test Guideline 210
Toxicity to daphnia and other aquatic invertebrates (Chron-	:	NOEC: 0,79 mg/l Exposure time: 21 d

ic toxicity) Species: Daphnia magna (Water flea)
Method: OPPTS 850.1300

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Toxicity to fish : LC50 (Danio rerio (zebra fish)): > 235 mg/l
Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 0,381 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : ErC50 (Pseudokirchneriella subcapitata (green algae)): 0,338 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

EC10 (Pseudokirchneriella subcapitata (green algae)): 0,272 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

M-Factor (Acute aquatic toxicity) : 1

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC: 0,674 mg/l
Exposure time: 21 d
Species: Daphnia magna (Water flea)
Method: OECD Test Guideline 211

12.2 Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability : Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: > 90 %
Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability : Result: Readily biodegradable.

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 14,3 %
Exposure time: 29 d
Method: OECD Test Guideline 301B

12.3 Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Bioconcentration factor (BCF): 70,79

Partition coefficient: n-octanol/water : log Pow: -1,28

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Partition coefficient: n-octanol/water : log Pow: -2,8
pH: 4
Method: OECD Test Guideline 107

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment : This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Endocrine disrupting properties

Product:

Assessment : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7 Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	:	The product should not be allowed to enter drains, water courses or the soil. Send to a licensed waste management company.
Contaminated packaging	:	Dispose of as unused product. Do not reuse empty containers.

SECTION 14: Transport information

14.1 UN number or ID number

ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA	:	Not regulated as a dangerous good

14.2 UN proper shipping name

ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA	:	Not regulated as a dangerous good

14.3 Transport hazard class(es)

ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA	:	Not regulated as a dangerous good

14.4 Packing group

ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA (Cargo)	:	Not regulated as a dangerous good
IATA (Passenger)	:	Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII) : Conditions of restriction for the following entries should be considered: Number on list 3

REACH - Candidate List of Substances of Very High Concern for Authorization (Article 59). : Not applicable

Regulation (EC) No 1005/2009 on substances that deplete the ozone layer : Not applicable

Regulation (EU) 2019/1021 on persistent organic pollutants (recast) : Not applicable

Regulation (EC) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals : Not applicable

REACH - List of substances subject to authorisation (Annex XIV) : Not applicable

Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances. Not applicable

15.2 Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this mixture.

SECTION 16: Other information

Full text of H-Statements

H301 : Toxic if swallowed.
H302 : Harmful if swallowed.
H311 : Toxic in contact with skin.
H314 : Causes severe skin burns and eye damage.
H315 : Causes skin irritation.

H317	:	May cause an allergic skin reaction.
H318	:	Causes serious eye damage.
H319	:	Causes serious eye irritation.
H331	:	Toxic if inhaled.
H335	:	May cause respiratory irritation.
H400	:	Very toxic to aquatic life.
H411	:	Toxic to aquatic life with long lasting effects.
H412	:	Harmful to aquatic life with long lasting effects.

Full text of other abbreviations

Acute Tox.	:	Acute toxicity
Aquatic Acute	:	Short-term (acute) aquatic hazard
Aquatic Chronic	:	Long-term (chronic) aquatic hazard
Eye Dam.	:	Serious eye damage
Eye Irrit.	:	Eye irritation
Skin Corr.	:	Skin corrosion
Skin Irrit.	:	Skin irritation
Skin Sens.	:	Skin sensitization
STOT SE	:	Specific target organ toxicity - single exposure

FICHE DE DONNÉES DE SÉCURITÉ
conformément au Règlement (CE) No. 1907/2006

PULP RIOT HIGH SPEED TONERS - GROUP 10

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	07.03.2024	00-21-410000001413	Date de la première version publiée: 07.03.2024

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1 Identificateur de produit

Nom commercial : PULP RIOT HIGH SPEED TONERS - GROUP 10

Référence du centre de formule : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

1.2 Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisation de la substance/du mélange : Produits de soins personnels destinés à un usage cosmétique.

1.3 Renseignements concernant le fournisseur de la fiche de données de sécurité

Société : L'Oreal SA
14, Rue Royale
75008Paris
France

Téléphone : +17324992745

Adresse e-mail de la personne responsable de FDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Numéro d'appel d'urgence

Centre d'information antipoison national : + 34 91 562 04 20 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles)
Numéro de téléphone d'urgence: + 34 947 258 300 (Ce numéro de téléphone est disponible uniquement pendant les heures de bureau.)

INFOTRAC : +1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1 Classification de la substance ou du mélange

Classification (RÈGLEMENT (CE) No 1272/2008)

Irritation cutanée, Catégorie 2	H315: Provoque une irritation cutanée.
Lésions oculaires graves, Catégorie 1	H318: Provoque de graves lésions des yeux.

Danger à long terme (chronique) pour le milieu aquatique, Catégorie 3	H412: Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

2.2 Éléments d'étiquetage

Étiquetage (RÈGLEMENT (CE) No 1272/2008)

Pictogrammes de danger :

Mention d'avertissement : Danger

Mentions de danger :
H315 Provoque une irritation cutanée.
H318 Provoque de graves lésions des yeux.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Conseils de prudence :
P102 Tenir hors de portée des enfants.

Prévention:

P264 Se laver la peau soigneusement après manipulation.
P273 Éviter le rejet dans l'environnement.
P280 Porter des gants de protection/ un équipement de protection des yeux/ du visage.

Intervention:

P305 + P351 + P338 + P310 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Appeler immédiatement un CENTRE ANTIPOISON/ un médecin.

Elimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

Composants dangereux qui doivent être listés sur l'étiquette:

COCAMIDE MEA
AMMONIUM HYDROXIDE

Etiquetage supplémentaire

EUH208 Contient N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE. Peut produire une réaction allergique.

2.3 Autres dangers

Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

Informations écologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Informations toxicologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2 Mélanges

Composants

Nom Chimique	No.-CAS No.-CE No.-Index Numéro d'enregistrement	Classification	Concentration (% w/w)

Pour l'explication des abréviations voir rubrique 16.

RUBRIQUE 4: Premiers secours

4.1 Description des premiers secours

Conseils généraux : Consulter un médecin.

En cas d'inhalation : Si les troubles se prolongent, consulter un médecin.

En cas de contact avec la : Si l'irritation de la peau persiste, appeler un médecin.

peau		En cas de contact avec la peau, bien rincer à l'eau.
En cas de contact avec les yeux	:	En cas de contact avec les yeux, laver immédiatement et abondamment avec de l'eau et consulter un spécialiste. Enlever les lentilles de contact. Si l'irritation oculaire persiste, consulter un médecin spécialiste.
En cas d'ingestion	:	Se rincer la bouche à l'eau. Si les troubles se prolongent, consulter un médecin.

4.2 Principaux symptômes et effets, aigus et différés

Risques	:	Provoque une irritation cutanée. Provoque de graves lésions des yeux.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Traitement	:	Traiter de façon symptomatique.

RUBRIQUE 5: Mesures de lutte contre l'incendie

5.1 Moyens d'extinction

Moyens d'extinction appropriés	:	Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement proche.
Moyens d'extinction inappropriés	:	Aucun(e) à notre connaissance.

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers spécifiques pendant la lutte contre l'incendie	:	Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.
Produits de combustion dangereux	:	On ne connaît aucun produit de combustion dangereux

5.3 Conseils aux pompiers

Équipements de protection particuliers des pompiers	:	Porter un appareil de protection respiratoire autonome pour la lutte contre l'incendie, si nécessaire.
Information supplémentaire	:	Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou le réseau d'alimentation souterrain. Procédure standard pour feux d'origine chimique.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1 Précautions individuelles, équipement de protection et procédures d'urgence

Précautions individuelles	:	Utiliser un équipement de protection individuelle.

6.2 Précautions pour la protection de l'environnement

Précautions pour la protection de l'environnement	:	Éviter que le produit pénètre dans les égouts. Éviter tout déversement ou fuite supplémentaire, si cela est possible en toute sécurité.

6.3 Méthodes et matériel de confinement et de nettoyage

Méthodes de nettoyage	:	Neutraliser à l'acide. Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure). Conserver dans des récipients adaptés et fermés pour l'élimination.

6.4 Référence à d'autres rubriques

Voir les rubriques: 7, 8, 11, 12 et 13.

RUBRIQUE 7: Manipulation et stockage

7.1 Précautions à prendre pour une manipulation sans danger

Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Pour l'équipement de protection individuel, voir rubrique 8.
Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Mesures d'hygiène	:	Ne pas manger et ne pas boire pendant l'utilisation. Ne pas fumer pendant l'utilisation. Se laver les mains avant les pauses et à la fin de la journée de travail.
Classe d´explosibilité de poussière	:	Sans objet.

7.2 Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Exigences concernant les aires de stockage et les conteneurs	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
Pour en savoir plus sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

7.3 Utilisation(s) finale(s) particulière(s)

Utilisation(s) particulière(s)	:	Produits de soins personnels destinés à un usage cosmétique.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Ne contient pas de substances avec des valeurs limites d'exposition professionnelle.

8.2 Contrôles de l'exposition

Équipement de protection individuelle

Protection des yeux/du visage	:	Pour usage industriel seulement. Lunettes de sécurité à protection intégrale
Protection des mains		
Remarques	:	Pour usage industriel seulement. Caoutchouc nitrile
Protection de la peau et du corps	:	Pour usage industriel seulement. Uniforme de travail ou veste de laboratoire.
Protection respiratoire	:	Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques essentielles

Etat physique	:	liquide
Couleur	:	Donnée non disponible
Odeur	:	caractéristique
Point de fusion/point de congélation	:	Donnée non disponible
Point/intervalle d'ébullition	:	Pas disponible
Limite d'explosivité, supérieure / Limite d'inflammabilité supérieure	:	Donnée non disponible
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible

Point d'éclair	:	> 93 °C Méthode: ISO 3679
Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Non applicable
pH	:	10,5 - 11,1
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Solubilité(s)		
Hydrosolubilité	:	partiellement soluble
Coefficient de partage: n-octanol/eau	:	Non applicable
Pression de vapeur	:	Donnée non disponible
Densité relative	:	0,997 - 1,003 (20 °C)
Densité de vapeur relative	:	Donnée non disponible
Caractéristiques de la particule		
Taille des particules	:	Non applicable

9.2 Autres informations

Point d'inflammation	:	Non applicable
Classe d´explosibilité de poussière	:	Sans objet.

RUBRIQUE 10: Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.2 Stabilité chimique

Stable dans des conditions normales.

10.3 Possibilité de réactions dangereuses

Réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

10.4 Conditions à éviter

Conditions à éviter : Donnée non disponible

10.5 Matières incompatibles

Matières à éviter : Non applicable

10.6 Produits de décomposition dangereux

On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

11.1 Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë

Non classé sur la base des informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2.000 mg/kg
Méthode: Méthode de calcul

Composants:

COCAMIDE MEA:

Toxicité aiguë par voie orale : DL50: > 5.000 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par inhalation : Estimation de la toxicité aiguë: > 20 mg/l
Durée d'exposition: 4 h
Atmosphère de test: vapeur

Toxicité aiguë par voie cutanée : Estimation de la toxicité aiguë: > 5.000 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

COCAMIDOPROPYL BETAINE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): > 5.000 mg/kg
Méthode: OCDE ligne directrice 401
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par voie cutanée : DL50 (Rat, mâle et femelle): > 2.000 mg/kg
Méthode: OCDE ligne directrice 402
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

AMMONIUM HYDROXIDE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 350 mg/kg
Méthode: OCDE ligne directrice 401

Estimation de la toxicité aiguë: 350 mg/kg
Méthode: Méthode de calcul

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 246 mg/kg
Méthode: OCDE ligne directrice 401

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): 0,90 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard

Toxicité aiguë par voie cutanée : DL50: 428 mg/kg

Corrosion cutanée/irritation cutanée

Provoque une irritation cutanée.

Produit:

Remarques : Peut provoquer une irritation de la peau chez les personnes sensibles.

Composants:

COCAMIDE MEA:

Espèce : Lapin
Résultat : Irritation de la peau

COCAMIDOPROPYL BETAINE:

Espèce : Epiderme humain
Résultat : Irritation de la peau

AMMONIUM HYDROXIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Corrosif après 3 minutes à 1 heure d'exposition

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Espèce : Lapin
Résultat : Pas d'irritation de la peau

Lésions oculaires graves/irritation oculaire

Provoque de graves lésions des yeux.

Produit:

Remarques : Peut provoquer des lésions oculaires irréversibles.

Composants:

COCAMIDE MEA:

Espèce : Lapin
Résultat : Effets irréversibles sur les yeux

COCAMIDOPROPYL BETAINE:

Espèce : Lapin
Résultat : Irritation des yeux

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Espèce : Lapin
Résultat : Irritation des yeux

Sensibilisation respiratoire ou cutanée

Sensibilisation cutanée

Non classé sur la base des informations disponibles.

Sensibilisation respiratoire

Non classé sur la base des informations disponibles.

Composants:

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Voies d'exposition : Contact avec la peau
Espèce : Souris
Méthode : OCDE ligne directrice 429
Résultat : Le produit est un sensibilisant de la peau, sous-catégorie 1A.

Mutagénicité sur les cellules germinales

Non classé sur la base des informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Génotoxicité in vitro : Remarques: Les tests in vitro n'ont pas montré des effets mutagènes

Mutagénicité sur les cellules germinales- Evaluation : L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

AMMONIUM HYDROXIDE:

Mutagénicité sur les cellules germinales- Evaluation : L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Mutagénicité sur les cellules : L'analyse de la valeur probante ne reconnaît pas la classifica-

germinales- Evaluation | tion en tant que mutagène sur des cellules germinales.

Cancérogénicité

Non classé sur la base des informations disponibles.

Toxicité pour la reproduction

Non classé sur la base des informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Effets sur la fertilité	:	Espèce: Rat Fertilité: NOAEL: 1.000 mg/kg de poids corporel/jour Méthode: OCDE ligne directrice 408 Résultat: L'expérimentation sur des animaux n'a démontré aucun effet sur la fertilité.
Incidences sur le développement du fœtus	:	Espèce: Rat Toxicité pour le développement: 950 Méthode: OCDE ligne directrice 414 Résultat: Aucune réaction secondaire.
Toxicité pour la reproduction - Evaluation	:	Aucune preuve d'effets nocifs sur la fonction sexuelle et la fertilité ou sur la croissance, lors de l'expérimentation animale.

Toxicité spécifique pour certains organes cibles - exposition unique

Non classé sur la base des informations disponibles.

Composants:

AMMONIUM HYDROXIDE:

Voies d'exposition	:	Inhalation
Evaluation	:	Peut irriter les voies respiratoires.

Toxicité spécifique pour certains organes cibles - exposition répétée

Non classé sur la base des informations disponibles.

Toxicité à dose répétée

Composants:

COCAMIDOPROPYL BETAINE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	500 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 jr
Méthode	:	OCDE ligne directrice 407

Toxicité par aspiration

Non classé sur la base des informations disponibles.

11.2 Informations sur les autres dangers

Propriétés perturbant le système endocrinien

Produit:

Evaluation : La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Information supplémentaire

Produit:

Remarques : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 12: Informations écologiques

12.1 Toxicité

Composants:

COCAMIDE MEA:

Toxicité pour les poissons	:	CL50 (Poisson): > 10 - 100 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 : > 1 - 10 mg/l
Toxicité pour les algues/plantes aquatiques	:	CE50 (Algues): > 1 - 10 mg/l
Toxicité pour les microorganismes	:	EC10 (boue activée): > 100 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: > 0,01 - 0,1 mg/l

COCAMIDOPROPYL BETAINE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 2 mg/l Durée d'exposition: 96 h

Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 6,4 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Espèces d'essai non standards): 30 mg/l Durée d'exposition: 48 h
Toxicité pour les microorganismes	:	CI50 (Pseudomonas putida (Bacille Pseudomonas putida)): 3.000 mg/l Durée d'exposition: 16 h
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,9 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 202

AMMONIUM HYDROXIDE:

Toxicité pour les poissons	:	CL50 (Pimephales promelas (Vairon à grosse tête)): 0,75 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 101 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Facteur M (Toxicité aiguë pour le milieu aquatique)	:	1
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 1,2 mg/l Durée d'exposition: 21 jr Espèce: Oncorhynchus mykiss (Truite arc-en-ciel) Méthode: OCDE Ligne directrice 210
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,79 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OPPTS 850.1300

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): > 235 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 0,381 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50r (Pseudokirchneriella subcapitata (algues vertes)): 0,338 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201 EC10 (Pseudokirchneriella subcapitata (algues vertes)): 0,272

mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

Facteur M (Toxicité aiguë pour le milieu aquatique) : 1

Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique) : NOEC: 0,674 mg/l
Durée d'exposition: 21 jr
Espèce: Daphnia magna (Grande daphnie)
Méthode: OCDE Ligne directrice 211

12.2 Persistance et dégradabilité

Composants:

COCAMIDE MEA:

Biodégradabilité : Résultat: Facilement biodégradable.

COCAMIDOPROPYL BETAINE:

Biodégradabilité : Résultat: Facilement biodégradable.
Biodégradation: > 90 %
Durée d'exposition: 14 jr

AMMONIUM HYDROXIDE:

Biodégradabilité : Résultat: Facilement biodégradable.

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Biodégradabilité : Résultat: Difficilement biodégradable.
Biodégradation: 14,3 %
Durée d'exposition: 29 jr
Méthode: OCDE Ligne directrice 301 B

12.3 Potentiel de bioaccumulation

Composants:

COCAMIDE MEA:

Coefficient de partage: n-octanol/eau : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Facteur de bioconcentration (FBC): 70,79

Coefficient de partage: n-octanol/eau : log Pow: -1,28

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Coefficient de partage: n-octanol/eau	:	log Pow: -2,8 pH: 4 Méthode: OCDE ligne directrice 107

12.4 Mobilité dans le sol

Donnée non disponible

12.5 Résultats des évaluations PBT et vPvB

Produit:

Evaluation	:	Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

12.6 Propriétés perturbant le système endocrinien

Produit:

Evaluation	:	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

12.7 Autres effets néfastes

Produit:

Information écologique supplémentaire	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 13: Considérations relatives à l'élimination

13.1 Méthodes de traitement des déchets

Produit	:	Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol. Envoyer à une entreprise autorisée à gérer les déchets.
Emballages contaminés	:	Eliminer comme produit non utilisé. Ne pas réutiliser des récipients vides.

RUBRIQUE 14: Informations relatives au transport

14.1 Numéro ONU ou numéro d'identification

ADR	:	Non réglementé comme étant une marchandise dangereuse

RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.2 Désignation officielle de transport de l'ONU

ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.3 Classe(s) de danger pour le transport

ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.4 Groupe d'emballage

ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA (Cargo)	:	Non réglementé comme étant une marchandise dangereuse
IATA (Passager)	:	Non réglementé comme étant une marchandise dangereuse

14.5 Dangers pour l'environnement

Non réglementé comme étant une marchandise dangereuse

14.6 Précautions particulières à prendre par l'utilisateur

Remarques	:	Produit non dangereux au sens des réglementations pour le transport.

14.7 Transport maritime en vrac conformément aux instruments de l’OMI

Non applicable pour le produit tel qu'il est fourni.

RUBRIQUE 15: Informations relatives à la réglementation

15.1 Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

REACH - Restrictions applicables à la fabrication, à la mise sur le marché et à l’utilisation de certaines substances dangereuses et de certains mélanges et articles dangereux (Annexe XVII)	:	Les conditions de limitation pour les entrées suivantes doivent être prises en compte: Numéro sur la liste 3

REACH - Listes des substances extrêmement préoccupantes candidates en vue d'une autorisation (Article 59).	:	Non applicable
Règlement (CE) Nº 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone	:	Non applicable
Règlement (UE) 2019/1021 concernant les polluants organiques persistants (refonte)	:	Non applicable
Règlement (CE) Nº 649/2012 du Parlement européen et du Conseil concernant les exportations et importations de produits chimiques dangereux	:	Non applicable
REACH - Liste des substances soumises à autorisation (Annexe XIV)	:	Non applicable

Seveso III: Directive 2012/18/UE du Parlement européen et du Conseil concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses. Non applicable

15.2 Évaluation de la sécurité chimique

Aucune évaluation de la sécurité chimique n'a été réalisée pour ce mélange.

RUBRIQUE 16: Autres informations

Texte complet pour phrase H

H301	:	Toxique en cas d'ingestion.
H302	:	Nocif en cas d'ingestion.
H311	:	Toxique par contact cutané.
H314	:	Provoque de graves brûlures de la peau et de graves lésions des yeux.
H315	:	Provoque une irritation cutanée.
H317	:	Peut provoquer une allergie cutanée.
H318	:	Provoque de graves lésions des yeux.
H319	:	Provoque une sévère irritation des yeux.
H331	:	Toxique par inhalation.
H335	:	Peut irriter les voies respiratoires.
H400	:	Très toxique pour les organismes aquatiques.
H411	:	Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
H412	:	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Texte complet pour autres abréviations

Acute Tox.	:	Toxicité aiguë
Aquatic Acute	:	Danger à court terme (aigu) pour le milieu aquatique

FICHE DE DONNÉES DE SÉCURITÉ
conformément au Règlement (CE) No. 1907/2006

PULP RIOT HIGH SPEED TONERS - GROUP 10

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	07.03.2024	00-21-410000001413	Date de la première version publiée: 07.03.2024

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1 Identificateur de produit

Nom commercial : PULP RIOT HIGH SPEED TONERS - GROUP 10

Référence du centre de formule : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

1.2 Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisation de la substance/du mélange : Produits de soins personnels destinés à un usage cosmétique.

1.3 Renseignements concernant le fournisseur de la fiche de données de sécurité

Société : L'Oreal SA
14, Rue Royale
75008Paris
France

Téléphone : +17324992745

Adresse e-mail de la personne responsable de FDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Numéro d'appel d'urgence

Centre d'information antipoison national : + 34 91 562 04 20 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles)
Numéro de téléphone d'urgence: + 34 947 258 300 (Ce numéro de téléphone est disponible uniquement pendant les heures de bureau.)

INFOTRAC : +1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1 Classification de la substance ou du mélange

Classification (RÈGLEMENT (CE) No 1272/2008)

Irritation cutanée, Catégorie 2	H315: Provoque une irritation cutanée.
Lésions oculaires graves, Catégorie 1	H318: Provoque de graves lésions des yeux.

Danger à long terme (chronique) pour le milieu aquatique, Catégorie 3	H412: Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

2.2 Éléments d'étiquetage

Étiquetage (RÈGLEMENT (CE) No 1272/2008)

Pictogrammes de danger :

Mention d'avertissement : Danger

Mentions de danger :
H315 Provoque une irritation cutanée.
H318 Provoque de graves lésions des yeux.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Conseils de prudence :
P102 Tenir hors de portée des enfants.

Prévention:

P264 Se laver la peau soigneusement après manipulation.
P273 Éviter le rejet dans l'environnement.
P280 Porter des gants de protection/ un équipement de protection des yeux/ du visage.

Intervention:

P305 + P351 + P338 + P310 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Appeler immédiatement un CENTRE ANTIPOISON/ un médecin.

Elimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

Composants dangereux qui doivent être listés sur l'étiquette:

COCAMIDE MEA
AMMONIUM HYDROXIDE

Etiquetage supplémentaire

EUH208 Contient N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE. Peut produire une réaction allergique.

2.3 Autres dangers

Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

Informations écologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Informations toxicologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2 Mélanges

Composants

Nom Chimique	No.-CAS No.-CE No.-Index Numéro d'enregistrement	Classification	Concentration (% w/w)

Pour l'explication des abréviations voir rubrique 16.

RUBRIQUE 4: Premiers secours

4.1 Description des premiers secours

Conseils généraux : Consulter un médecin.

En cas d'inhalation : Si les troubles se prolongent, consulter un médecin.

En cas de contact avec la : Si l'irritation de la peau persiste, appeler un médecin.

peau		En cas de contact avec la peau, bien rincer à l'eau.
En cas de contact avec les yeux	:	En cas de contact avec les yeux, laver immédiatement et abondamment avec de l'eau et consulter un spécialiste. Enlever les lentilles de contact. Si l'irritation oculaire persiste, consulter un médecin spécialiste.
En cas d'ingestion	:	Se rincer la bouche à l'eau. Si les troubles se prolongent, consulter un médecin.

4.2 Principaux symptômes et effets, aigus et différés

Risques	:	Provoque une irritation cutanée. Provoque de graves lésions des yeux.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Traitement	:	Traiter de façon symptomatique.

RUBRIQUE 5: Mesures de lutte contre l'incendie

5.1 Moyens d'extinction

Moyens d'extinction appropriés	:	Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement proche.
Moyens d'extinction inappropriés	:	Aucun(e) à notre connaissance.

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers spécifiques pendant la lutte contre l'incendie	:	Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.
Produits de combustion dangereux	:	On ne connaît aucun produit de combustion dangereux

5.3 Conseils aux pompiers

Équipements de protection particuliers des pompiers	:	Porter un appareil de protection respiratoire autonome pour la lutte contre l'incendie, si nécessaire.
Information supplémentaire	:	Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou le réseau d'alimentation souterrain. Procédure standard pour feux d'origine chimique.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1 Précautions individuelles, équipement de protection et procédures d'urgence

Précautions individuelles	:	Utiliser un équipement de protection individuelle.

6.2 Précautions pour la protection de l'environnement

Précautions pour la protection de l'environnement	:	Éviter que le produit pénètre dans les égouts. Éviter tout déversement ou fuite supplémentaire, si cela est possible en toute sécurité.

6.3 Méthodes et matériel de confinement et de nettoyage

Méthodes de nettoyage	:	Neutraliser à l'acide. Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure). Conserver dans des récipients adaptés et fermés pour l'élimination.

6.4 Référence à d'autres rubriques

Voir les rubriques: 7, 8, 11, 12 et 13.

RUBRIQUE 7: Manipulation et stockage

7.1 Précautions à prendre pour une manipulation sans danger

Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Pour l'équipement de protection individuel, voir rubrique 8.
Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Mesures d'hygiène	:	Ne pas manger et ne pas boire pendant l'utilisation. Ne pas fumer pendant l'utilisation. Se laver les mains avant les pauses et à la fin de la journée de travail.
Classe d´explosibilité de poussière	:	Sans objet.

7.2 Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Exigences concernant les aires de stockage et les conteneurs	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
Pour en savoir plus sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

7.3 Utilisation(s) finale(s) particulière(s)

Utilisation(s) particulière(s)	:	Produits de soins personnels destinés à un usage cosmétique.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Ne contient pas de substances avec des valeurs limites d'exposition professionnelle.

8.2 Contrôles de l'exposition

Équipement de protection individuelle

Protection des yeux/du visage	:	Pour usage industriel seulement. Lunettes de sécurité à protection intégrale
Protection des mains		
Remarques	:	Pour usage industriel seulement. Caoutchouc nitrile
Protection de la peau et du corps	:	Pour usage industriel seulement. Uniforme de travail ou veste de laboratoire.
Protection respiratoire	:	Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques essentielles

Etat physique	:	liquide
Couleur	:	Donnée non disponible
Odeur	:	caractéristique
Point de fusion/point de congélation	:	Donnée non disponible
Point/intervalle d'ébullition	:	Pas disponible
Limite d'explosivité, supérieure / Limite d'inflammabilité supérieure	:	Donnée non disponible
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible

Point d'éclair	:	> 93 °C Méthode: ISO 3679
Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Non applicable
pH	:	10,5 - 11,1
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Solubilité(s)		
Hydrosolubilité	:	partiellement soluble
Coefficient de partage: n-octanol/eau	:	Non applicable
Pression de vapeur	:	Donnée non disponible
Densité relative	:	0,997 - 1,003 (20 °C)
Densité de vapeur relative	:	Donnée non disponible
Caractéristiques de la particule		
Taille des particules	:	Non applicable

9.2 Autres informations

Point d'inflammation	:	Non applicable
Classe d´explosibilité de poussière	:	Sans objet.

RUBRIQUE 10: Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.2 Stabilité chimique

Stable dans des conditions normales.

10.3 Possibilité de réactions dangereuses

Réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

10.4 Conditions à éviter

Conditions à éviter : Donnée non disponible

10.5 Matières incompatibles

Matières à éviter : Non applicable

10.6 Produits de décomposition dangereux

On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

11.1 Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë

Non classé sur la base des informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2.000 mg/kg
Méthode: Méthode de calcul

Composants:

COCAMIDE MEA:

Toxicité aiguë par voie orale : DL50: > 5.000 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par inhalation : Estimation de la toxicité aiguë: > 20 mg/l
Durée d'exposition: 4 h
Atmosphère de test: vapeur

Toxicité aiguë par voie cutanée : Estimation de la toxicité aiguë: > 5.000 mg/kg
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

COCAMIDOPROPYL BETAINE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): > 5.000 mg/kg
Méthode: OCDE ligne directrice 401
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par voie cutanée : DL50 (Rat, mâle et femelle): > 2.000 mg/kg
Méthode: OCDE ligne directrice 402
Evaluation: La substance ou le mélange ne présente pas de toxicité aiguë par la peau

AMMONIUM HYDROXIDE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 350 mg/kg
Méthode: OCDE ligne directrice 401

Estimation de la toxicité aiguë: 350 mg/kg
Méthode: Méthode de calcul

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 246 mg/kg
Méthode: OCDE ligne directrice 401

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): 0,90 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard

Toxicité aiguë par voie cutanée : DL50: 428 mg/kg

Corrosion cutanée/irritation cutanée

Provoque une irritation cutanée.

Produit:

Remarques : Peut provoquer une irritation de la peau chez les personnes sensibles.

Composants:

COCAMIDE MEA:

Espèce : Lapin
Résultat : Irritation de la peau

COCAMIDOPROPYL BETAINE:

Espèce : Epiderme humain
Résultat : Irritation de la peau

AMMONIUM HYDROXIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Corrosif après 3 minutes à 1 heure d'exposition

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Espèce : Lapin
Résultat : Pas d'irritation de la peau

Lésions oculaires graves/irritation oculaire

Provoque de graves lésions des yeux.

Produit:

Remarques : Peut provoquer des lésions oculaires irréversibles.

Composants:

COCAMIDE MEA:

Espèce : Lapin
Résultat : Effets irréversibles sur les yeux

COCAMIDOPROPYL BETAINE:

Espèce : Lapin
Résultat : Irritation des yeux

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Espèce : Lapin
Résultat : Irritation des yeux

Sensibilisation respiratoire ou cutanée

Sensibilisation cutanée

Non classé sur la base des informations disponibles.

Sensibilisation respiratoire

Non classé sur la base des informations disponibles.

Composants:

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Voies d'exposition : Contact avec la peau
Espèce : Souris
Méthode : OCDE ligne directrice 429
Résultat : Le produit est un sensibilisant de la peau, sous-catégorie 1A.

Mutagénicité sur les cellules germinales

Non classé sur la base des informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Génotoxicité in vitro : Remarques: Les tests in vitro n'ont pas montré des effets mutagènes

Mutagénicité sur les cellules germinales- Evaluation : L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

AMMONIUM HYDROXIDE:

Mutagénicité sur les cellules germinales- Evaluation : L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Mutagénicité sur les cellules : L'analyse de la valeur probante ne reconnaît pas la classifica-

germinales- Evaluation | tion en tant que mutagène sur des cellules germinales.

Cancérogénicité

Non classé sur la base des informations disponibles.

Toxicité pour la reproduction

Non classé sur la base des informations disponibles.

Composants:

COCAMIDOPROPYL BETAINE:

Effets sur la fertilité	:	Espèce: Rat Fertilité: NOAEL: 1.000 mg/kg de poids corporel/jour Méthode: OCDE ligne directrice 408 Résultat: L'expérimentation sur des animaux n'a démontré aucun effet sur la fertilité.
Incidences sur le développement du fœtus	:	Espèce: Rat Toxicité pour le développement: 950 Méthode: OCDE ligne directrice 414 Résultat: Aucune réaction secondaire.
Toxicité pour la reproduction - Evaluation	:	Aucune preuve d'effets nocifs sur la fonction sexuelle et la fertilité ou sur la croissance, lors de l'expérimentation animale.

Toxicité spécifique pour certains organes cibles - exposition unique

Non classé sur la base des informations disponibles.

Composants:

AMMONIUM HYDROXIDE:

Voies d'exposition	:	Inhalation
Evaluation	:	Peut irriter les voies respiratoires.

Toxicité spécifique pour certains organes cibles - exposition répétée

Non classé sur la base des informations disponibles.

Toxicité à dose répétée

Composants:

COCAMIDOPROPYL BETAINE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	500 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 jr
Méthode	:	OCDE ligne directrice 407

Toxicité par aspiration

Non classé sur la base des informations disponibles.

11.2 Informations sur les autres dangers

Propriétés perturbant le système endocrinien

Produit:

Evaluation : La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Information supplémentaire

Produit:

Remarques : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 12: Informations écologiques

12.1 Toxicité

Composants:

COCAMIDE MEA:

Toxicité pour les poissons	:	CL50 (Poisson): > 10 - 100 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 : > 1 - 10 mg/l
Toxicité pour les algues/plantes aquatiques	:	CE50 (Algues): > 1 - 10 mg/l
Toxicité pour les microorganismes	:	EC10 (boue activée): > 100 mg/l
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: > 0,01 - 0,1 mg/l

COCAMIDOPROPYL BETAINE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 2 mg/l Durée d'exposition: 96 h

Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 6,4 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Espèces d'essai non standards): 30 mg/l Durée d'exposition: 48 h
Toxicité pour les microorganismes	:	CI50 (Pseudomonas putida (Bacille Pseudomonas putida)): 3.000 mg/l Durée d'exposition: 16 h
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,9 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 202

AMMONIUM HYDROXIDE:

Toxicité pour les poissons	:	CL50 (Pimephales promelas (Vairon à grosse tête)): 0,75 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 101 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Facteur M (Toxicité aiguë pour le milieu aquatique)	:	1
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 1,2 mg/l Durée d'exposition: 21 jr Espèce: Oncorhynchus mykiss (Truite arc-en-ciel) Méthode: OCDE Ligne directrice 210
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,79 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OPPTS 850.1300

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): > 235 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 0,381 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50r (Pseudokirchneriella subcapitata (algues vertes)): 0,338 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201 EC10 (Pseudokirchneriella subcapitata (algues vertes)): 0,272

mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

Facteur M (Toxicité aiguë pour le milieu aquatique) : 1

Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique) : NOEC: 0,674 mg/l
Durée d'exposition: 21 jr
Espèce: Daphnia magna (Grande daphnie)
Méthode: OCDE Ligne directrice 211

12.2 Persistance et dégradabilité

Composants:

COCAMIDE MEA:

Biodégradabilité : Résultat: Facilement biodégradable.

COCAMIDOPROPYL BETAINE:

Biodégradabilité : Résultat: Facilement biodégradable.
Biodégradation: > 90 %
Durée d'exposition: 14 jr

AMMONIUM HYDROXIDE:

Biodégradabilité : Résultat: Facilement biodégradable.

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Biodégradabilité : Résultat: Difficilement biodégradable.
Biodégradation: 14,3 %
Durée d'exposition: 29 jr
Méthode: OCDE Ligne directrice 301 B

12.3 Potentiel de bioaccumulation

Composants:

COCAMIDE MEA:

Coefficient de partage: n-octanol/eau : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Facteur de bioconcentration (FBC): 70,79

Coefficient de partage: n-octanol/eau : log Pow: -1,28

N,N-BIS(2-HYDROXYETHYL)-p-PHENYLENEDIAMINE SULFATE:

Coefficient de partage: n-octanol/eau	:	log Pow: -2,8 pH: 4 Méthode: OCDE ligne directrice 107

12.4 Mobilité dans le sol

Donnée non disponible

12.5 Résultats des évaluations PBT et vPvB

Produit:

Evaluation	:	Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

12.6 Propriétés perturbant le système endocrinien

Produit:

Evaluation	:	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

12.7 Autres effets néfastes

Produit:

Information écologique supplémentaire	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 13: Considérations relatives à l'élimination

13.1 Méthodes de traitement des déchets

Produit	:	Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol. Envoyer à une entreprise autorisée à gérer les déchets.
Emballages contaminés	:	Eliminer comme produit non utilisé. Ne pas réutiliser des récipients vides.

RUBRIQUE 14: Informations relatives au transport

14.1 Numéro ONU ou numéro d'identification

ADR	:	Non réglementé comme étant une marchandise dangereuse

RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.2 Désignation officielle de transport de l'ONU

ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.3 Classe(s) de danger pour le transport

ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.4 Groupe d'emballage

ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA (Cargo)	:	Non réglementé comme étant une marchandise dangereuse
IATA (Passager)	:	Non réglementé comme étant une marchandise dangereuse

14.5 Dangers pour l'environnement

Non réglementé comme étant une marchandise dangereuse

14.6 Précautions particulières à prendre par l'utilisateur

Remarques	:	Produit non dangereux au sens des réglementations pour le transport.

14.7 Transport maritime en vrac conformément aux instruments de l’OMI

Non applicable pour le produit tel qu'il est fourni.

RUBRIQUE 15: Informations relatives à la réglementation

15.1 Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

REACH - Restrictions applicables à la fabrication, à la mise sur le marché et à l’utilisation de certaines substances dangereuses et de certains mélanges et articles dangereux (Annexe XVII)	:	Les conditions de limitation pour les entrées suivantes doivent être prises en compte: Numéro sur la liste 3

REACH - Listes des substances extrêmement préoccupantes candidates en vue d'une autorisation (Article 59).	:	Non applicable
Règlement (CE) Nº 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone	:	Non applicable
Règlement (UE) 2019/1021 concernant les polluants organiques persistants (refonte)	:	Non applicable
Règlement (CE) Nº 649/2012 du Parlement européen et du Conseil concernant les exportations et importations de produits chimiques dangereux	:	Non applicable
REACH - Liste des substances soumises à autorisation (Annexe XIV)	:	Non applicable

Seveso III: Directive 2012/18/UE du Parlement européen et du Conseil concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses. Non applicable

15.2 Évaluation de la sécurité chimique

Aucune évaluation de la sécurité chimique n'a été réalisée pour ce mélange.

RUBRIQUE 16: Autres informations

Texte complet pour phrase H

H301	:	Toxique en cas d'ingestion.
H302	:	Nocif en cas d'ingestion.
H311	:	Toxique par contact cutané.
H314	:	Provoque de graves brûlures de la peau et de graves lésions des yeux.
H315	:	Provoque une irritation cutanée.
H317	:	Peut provoquer une allergie cutanée.
H318	:	Provoque de graves lésions des yeux.
H319	:	Provoque une sévère irritation des yeux.
H331	:	Toxique par inhalation.
H335	:	Peut irriter les voies respiratoires.
H400	:	Très toxique pour les organismes aquatiques.
H411	:	Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.
H412	:	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Texte complet pour autres abréviations

Acute Tox.	:	Toxicité aiguë
Aquatic Acute	:	Danger à court terme (aigu) pour le milieu aquatique
Aquatic Chronic	:	Danger à long terme (chronique) pour le milieu aquatique

SAFETY DATA SHEET

PULP RIOT HIGH SPEED TONERS - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	2024.03.07	00-21-410000001413	Date of first issue: 2024.03.07

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : PULP RIOT HIGH SPEED TONERS - GROUP 10

Formula Center Reference : 1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

Manufacturer or supplier's details

Company : Procosa SP - Procosa Produtos de beleza LTDA
Address : Rua Manoel Monteiro de Araújo
1350 - Parque Sao Domingos
São Paulo - SP 02675-031
Brazil

Telephone : +55 21 4505-0000

E-mail address : NACORPEUROPESDSREQUEST@LOREAL.COM

Emergency telephone

National Poisons Control Center :
INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification in accordance with ABNT NBR 14725 Standard

Skin irritation : Category 2

Serious eye damage : Category 1

Short-term (acute) aquatic hazard : Category 3

Long-term (chronic) aquatic hazard : Category 3

GHS label elements in accordance with ABNT NBR 14725 Standard

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H315 Causes skin irritation.
H318 Causes serious eye damage.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements : P102 Keep out of reach of children.

Prevention:

P264 Wash skin thoroughly after handling.
P273 Avoid release to the environment.
P280 Wear protective gloves/ eye protection/ face protection.

Response:

P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Additional Labeling

The following percentage of the mixture consists of ingredient(s) with unknown acute oral toxicity: 3 %
The following percentage of the mixture consists of ingredient(s) with unknown acute dermal toxicity: 3 %
The following percentage of the mixture consists of ingredient(s) with unknown acute inhalation toxicity: 3 %
The following percentage of the mixture consists of ingredient(s) with unknown hazards to the aquatic environment: 3 %

Other hazards which do not result in classification

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Classification	Concentration (% w/w)
COCAMIDE MEA	68140-00-1	Skin irritation, Category 2 Serious eye damage, Category 1 Long-term (chronic) aquatic hazard, Category 2	>= 10 -< 20
COCAMIDOPROPYL BETAINE	61789-40-0	Skin irritation, Category 2 Eye irritation, Category 2A Short-term (acute)	>= 1 -< 2,5

		aquatic hazard, Category 2 Long-term (chronic) aquatic hazard, Category 3	
AMMONIUM HYDROXIDE	1336-21-6	Acute toxicity (Oral), Category 4 Skin corrosion, Category 1B Serious eye damage, Category 1 Specific target organ toxicity - single exposure (Respiratory system), Category 3 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 3	>= 1 -< 2,5

SECTION 4. FIRST AID MEASURES

General advice	:	Consult a physician.
If inhaled	:	If symptoms persist, call a physician.
In case of skin contact	:	If skin irritation persists, call a physician. If on skin, rinse well with water.
In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Remove contact lenses. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes skin irritation. Causes serious eye damage.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local cir-

cumstances and the surrounding environment.

Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Specific extinguishing methods	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Neutralize with acid. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Ammonia)	ACGIH
		STEL	35 ppm (Ammonia)	ACGIH

Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally required.

Hand protection

Remarks : Applicable for industrial settings only. Nitrile rubber

Eye protection : Applicable for industrial settings only.
Tightly fitting safety goggles

Skin and body protection : Applicable for industrial settings only.
Work uniform or laboratory coat.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state : liquid

Color : No data available

Odor : characteristic

pH : 10,5 - 11,1

Melting point/freezing point : No data available

Boiling point/boiling range : Not available

Flash point : > 93 °C

Method: ISO 3679

Fire Point : Not applicable

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	0,997 - 1,003 (20 °C)
Solubility(ies)		
Water solubility	:	partly soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity		
Viscosity, kinematic	:	No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 5.000 mg/kg Method: Calculation method

Components:

COCAMIDE MEA:

Acute oral toxicity	:	LD50: > 5.000 mg/kg Assessment: The substance or mixture has no acute oral toxicity
Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l Exposure time: 4 h Test atmosphere: vapor
Acute dermal toxicity	:	Acute toxicity estimate: > 5.000 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

COCAMIDOPROPYL BETAINE:

Acute oral toxicity	:	LD50 (Rat, male and female): > 5.000 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity
Acute dermal toxicity	:	LD50 (Rat, male and female): > 2.000 mg/kg Method: OECD Test Guideline 402 Assessment: The substance or mixture has no acute dermal toxicity

AMMONIUM HYDROXIDE:

Acute oral toxicity	:	LD50 (Rat, male): 350 mg/kg Method: OECD Test Guideline 401

Skin corrosion/irritation

Causes skin irritation.

Product:

Remarks	:	May cause skin irritation in susceptible persons.

Components:

COCAMIDE MEA:

Species	:	Rabbit
Result	:	Skin irritation

COCAMIDOPROPYL BETAINE:

Species	:	human skin
Result	:	Skin irritation

AMMONIUM HYDROXIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 3 minutes to 1 hour of exposure

Serious eye damage/eye irritation

Causes serious eye damage.

Product:

Remarks	:	May cause irreversible eye damage.

Components:

COCAMIDE MEA:

Species	:	Rabbit
Result	:	Irreversible effects on the eye

COCAMIDOPROPYL BETAINE:

Species	:	Rabbit
Result	:	Eye irritation

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Germ cell mutagenicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Genotoxicity in vitro	:	Remarks: In vitro tests did not show mutagenic effects
Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

AMMONIUM HYDROXIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

COCAMIDOPROPYL BETAINE:

Effects on fertility	:	Species: Rat Fertility: NOAEL: 1.000 mg/kg body weight Method: OECD Test Guideline 408 Result: Animal testing did not show any effects on fertility.
Effects on fetal development	:	Species: Rat Developmental Toxicity: 950 Method: OECD Test Guideline 414 Result: No adverse effects.
Reproductive toxicity - Assessment	:	No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

STOT-single exposure

Not classified based on available information.

Components:

AMMONIUM HYDROXIDE:

Routes of exposure	:	Inhalation
Assessment	:	May cause respiratory irritation.

STOT-repeated exposure

Not classified based on available information.

Repeated dose toxicity

Components:

COCAMIDOPROPYL BETAINE:

Species	:	Rat, male and female
NOAEL	:	500 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

COCAMIDE MEA:

Toxicity to fish	:	LC50 (Fish): > 10 - 100 mg/l
Toxicity to daphnia and other aquatic invertebrates	:	EC50: > 1 - 10 mg/l
Toxicity to algae/aquatic plants	:	EC50 (algae): > 1 - 10 mg/l
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: > 0,01 - 0,1 mg/l
Toxicity to microorganisms	:	EC10 (activated sludge): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 6,4 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Non-standard test species): 30 mg/l Exposure time: 48 h
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,9 mg/l Exposure time: 21 d Method: OECD Test Guideline 202
Toxicity to microorganisms	:	IC50 (Pseudomonas putida): 3.000 mg/l Exposure time: 16 h

AMMONIUM HYDROXIDE:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 0,75 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 101 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic tox-	:	NOEC (Oncorhynchus mykiss (rainbow trout)): 1,2 mg/l

icity)

Exposure time: 21 d
Method: OECD Test Guideline 210

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 0,79 mg/l
Exposure time: 21 d
Method: OPPTS 850.1300

Persistence and degradability

Components:

COCAMIDE MEA:

Biodegradability : Result: Readily biodegradable.

COCAMIDOPROPYL BETAINE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: > 90 %
Exposure time: 14 d

AMMONIUM HYDROXIDE:

Biodegradability : Result: Readily biodegradable.

Bioaccumulative potential

Components:

COCAMIDE MEA:

Partition coefficient: n-octanol/water : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioaccumulation : Bioconcentration factor (BCF): 70,79

Partition coefficient: n-octanol/water : log Pow: -1,28

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

ANTT
Not regulated as a dangerous good

International Regulations

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National List of Carcinogenic Agents for Humans - (LINACH) : Not applicable

Brazil. List of chemicals controlled by the Federal Police : AMMONIUM HYDROXIDE

SECTION 16. OTHER INFORMATION

Revision Date : 2024.03.07

Date format : yyyy/mm/dd

Further information

Other information	:	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

FICHA DE DADOS DE SEGURANÇA

PULP RIOT HIGH SPEED TONERS - GROUP 10

Versão	Data de revisão:	Número SDS:	Data de última emissão: -
1.0	2024.03.07	00-21-410000001413	Data da primeira emissão: 2024.03.07

SECÇÃO 1. IDENTIFICACAO DO PRODUTO E DA SOCIEDADE

Nome do produto	:	PULP RIOT HIGH SPEED TONERS - GROUP 10
Referência do Centro de Fórmula	:	1285361, 1285363, 1260083 A, 1260131 A, F0000993V03

Coordenadas do fabricante e do fornecedos

Companhia	:	Procosa SP - Procosa Produtos de beleza LTDA
Direcção	:	Rua Manoel Monteiro de Araújo 1350 - Parque Sao Domingos São Paulo - SP 02675-031 Brazil
Telefone	:	+55 21 4505-0000
Email endereço	:	NACORPEUROPESDSREQUEST@LOREAL.COM

Número de telefone de emergência

Centro de Informação Antivenenos nacional	:	
INFOTRAC	:	+1 352-323-3500 (Disponível 24 horas por dia. A informação sobre o produto/FDS poderá não estar disponível para o Serviço de Emergência.)

Utilização recomendada da substância química e restrições de utilização

Utilizações recomendadas	:	Produto de cuidado pessoal usado para efeito cosmético.

SECÇÃO 2. IDENTIFICAÇÃO DOS PERIGOS

Classificação do GHS conforme Norma ABNT NBR 14725

Irritação cutânea	:	Categoria 2
Lesões oculares graves	:	Categoria 1
Perigo (agudo) de curto prazo para o ambiente aquático	:	Categoria 3
Perigo (crónico) de longo prazo para o ambiente aquático	:	Categoria 3

Elementos de rotulagem do GHS conforme Norma ABNT NBR 14725

Pictogramas de perigo :

Palavra-sinal : Perigo

Advertências de perigo : H315 Provoca irritação cutânea.
H318 Provoca lesões oculares graves.
H412 Nocivo para os organismos aquáticos com efeitos duradouros.

Recomendações de prudência : P102 Manter fora do alcance das crianças.

Prevenção:

P264 Lavar a pele cuidadosamente após manuseamento.
P273 Evitar a libertação para o ambiente.
P280 Usar luvas de proteção/ proteção ocular/ proteção facial.

Resposta:

P305 + P351 + P338 + P310 SE ENTRAR EM CONTACTO COM OS OLHOS: Enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar. Contacte imediatamente um CENTRO DE INFORMAÇÃO ANTIVENENOS/ médico.

Destruição:

P501 Eliminar o conteúdo/ recipiente em instalação aprovada de destruição de resíduos.

Etiquetagem suplementar

A seguinte percentagem de mistura consiste de ingrediente(s) com toxicidade oral aguda desconhecida: 3 %
A percentagem seguinte da mistura consiste em ingrediente(s) com toxicidade dérmica aguda desconhecida: 3 %
A seguinte percentagem de mistura consiste de ingrediente(s) com toxicidade aguda por inalação desconhecida: 3 %
A seguinte porcentagem da mistura consiste num (nuns) ingrediente (ingredientes) com perigos desconhecidos para o ambiente aquático: 3 %

Outros perigos não resultam na classificação

Nenhum conhecido.

SECÇÃO 3. COMPOSIÇÃO/ INFORMAÇÃO SOBRE OS COMPONENTES

Componentes

Nome Químico	No. CAS	Classificação	Concentração (% w/w)
COCAMIDE MEA	68140-00-1	Irritação cutânea, Categoria 2 Lesões oculares	>= 10 -< 20

		graves, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 2	
COCAMIDOPROPYL BETAINE	61789-40-0	Irritação cutânea, Categoria 2 Iirritação ocular, Categoria 2A Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 2 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 3	>= 1 -< 2,5
AMMONIUM HYDROXIDE	1336-21-6	Toxicidade aguda (Oral), Categoria 4 Corrosão cutânea, Categoria 1B Lesões oculares graves, Categoria 1 Toxicidade para órgãos-alvo específicos - exposição única (Sistema respiratório), Categoria 3 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 3	>= 1 -< 2,5

SECÇÃO 4. MEDIDAS DE PRIMEIROS SOCORROS

Recomendação geral	:	Consultar um médico.
Em caso de inalação	:	No caso de problemas prolongados consultar um médico.
Em caso de contacto com a pele	:	Se a irritação da pele persistir, chamar o médico. Se estiver em contacto com a pele, enxaguar bem com água.
Se entrar em contacto com	:	Em caso de contacto com os olhos, lavar imediata e

os olhos		abundantemente com água, e consultar um especialista. Retirar as lentes de contacto. Se a irritação dos olhos continuar, consultar um especialista.
Em caso de ingestão	:	Enxaguar a boca com água. No caso de problemas prolongados consultar um médico.
Sintomas e efeitos mais importantes, tanto agudos como retardados	:	Provoca irritação cutânea. Provoca lesões oculares graves.
Indicações para o médico	:	Tratar de acordo com os sintomas.

SECÇÃO 5. MEDIDAS DE COMBATE A INCÊNDIOS

Meios adequados de extinção	:	Adapte as medidas de combate a incêndios às condições do local e ao ambiente envolvente.
Meios inadequados de extinção	:	Nenhum conhecido.
Perigos específicos para combate a incêndios	:	Não deixar entrar a água utilizada para apagar o incêndio nos esgotos e nos cursos de água.
Produtos de combustão perigosos	:	Desconhecem-se produtos de combustão perigosos
Métodos específicos de extinção	:	Evitar a contaminação de águas de superfície e subterrâneas pela água de combate a incêndios. Procedimento standard para incêndios com produtos químicos.
Equipamento especial de proteção a utilizar pelo pessoal de combate a incêndio	:	Usar equipamento de respiração autónomo para combate a incêndios, se necessário.

SECÇÃO 6. MEDIDAS EM CASO DE FUGA ACCIDENTAL

Precauções individuais, equipamento de proteção e procedimentos de emergência	:	Usar equipamento de proteção individual.
Precauções a nível ambiental	:	Evitar que o produto entre no sistema de esgotos. Prevenir dispersão ou derramamento, se seguro.
Métodos e materiais de confinamento e limpeza	:	Neutralizar com ácido. Impregnar com material absorvente inerte (por exemplo: areia, sílica gel, aglutinante ácido, aglutinante universal, serragem).

Manter em recipientes fechados adequados, para eliminação.

SECÇÃO 7. MANUSEAMENTO E ARMAZENAGEM

Orientação para prevenção de Fogo e Explosão	:	Medidas usuais de protecção preventiva contra incêndio.
Informação para um manuseamento seguro	:	Evitar o contacto com os olhos. Para a proteção individual ver a secção 8.
Medidas de higiene	:	Não comer nem beber durante a utilização. Não fumar durante a utilização. Lavar as mãos antes das pausas, e no fim do dia de trabalho.
Condições para uma armazenagem segura	:	Guardar o recipiente herméticamente fechado em lugar seco e bem ventilado.
Outras informações sobre a estabilidade de armazenamento	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.

SECÇÃO 8. CONTROLO DA EXPOSIÇÃO/ PROTEÇÃO INDIVIDUAL

Componentes a controlar com relação ao local de trabalho

Componentes	No. CAS	tipo de valor (Forma de exposição)	Parâmetros de controlo / Concentração permissível	Bases
AMMONIUM HYDROXIDE	1336-21-6	TWA	25 ppm (Amoníaco)	ACGIH
		STEL	35 ppm (Amoníaco)	ACGIH

Proteção individual

Protecção respiratória	:	Normalmente, não é necessário equipamento de proteção respiratória individual.
Protecção das mãos		
Observações	:	Aplicável apenas a ambientes industriais. Borracha nitrílica
Proteção dos olhos	:	Aplicável apenas a ambientes industriais. Óculos de segurança bem ajustados
Proteção do corpo e da pele	:	Aplicável apenas a ambientes industriais. Uniforme de trabalho ou bata de laboratório.

SECÇÃO 9. PROPRIEDADES FÍSICO-QUÍMICAS

Estado físico	:	líquido

Cor	:	Dados não disponíveis
Odor	:	característico
pH	:	10,5 - 11,1
Ponto de fusão/ponto de congelação	:	Dados não disponíveis
Ponto de ebulição/intervalo de ebulição	:	Não disponível
Ponto de inflamação	:	> 93 °C Método: ISO 3679
Ponto de ignição	:	Não aplicável
Limite superior de explosão / Limite de inflamabilidade superior	:	Dados não disponíveis
Limite inferior de explosão / Limite de inflamabilidade inferior	:	Dados não disponíveis
Pressão de vapor	:	Dados não disponíveis
Densidade relativa do vapor	:	Dados não disponíveis
Densidade relativa	:	0,997 - 1,003 (20 °C)
Solubilidade(s)		
Hidrossolubilidade	:	parcialmente solúvel
Coeficiente de partição: n-octanol/água	:	Não aplicável
Temperatura de auto-ignição	:	Dados não disponíveis
Temperatura de decomposição	:	Não aplicável
Viscosidade		
Viscosidade, cinemático	:	Dados não disponíveis
Classe de explosão do pó	:	Não aplicável

Tamanho da partícula	:	Não aplicável

SECÇÃO 10. ESTABILIDADE E REACTIVIDADE

Reatividade	:	Nenhuma reacção perigosa nas condições normais de utilização.
Estabilidade química	:	Estável em condições normais.
Possibilidade de reações perigosas	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.
Condições a evitar	:	Dados não disponíveis
Materiais incompatíveis	:	Não aplicável
Produtos de decomposição perigosos	:	Nenhuns produtos de decomposição conhecidos.

SECÇÃO 11. INFORMAÇÃO TOXICOLÓGICA

Toxicidade aguda

Não classificado com base nas informações disponíveis.

Produto:

Toxicidade aguda por via oral	:	Estimativa da toxicidade aguda: > 5.000 mg/kg Método: Método de cálculo

Componentes:

COCAMIDE MEA:

Toxicidade aguda por via oral	:	DL50: > 5.000 mg/kg Avaliação: A substância ou mistura não tem toxicidade oral aguda
Toxicidade aguda por via inalatória	:	Estimativa da toxicidade aguda: > 20 mg/l Duração da exposição: 4 h Atmosfera de ensaio: vapor
Toxicidade aguda por via cutânea	:	Estimativa da toxicidade aguda: > 5.000 mg/kg Avaliação: A substância ou mistura não tem toxicidade aguda por via dérmica

COCAMIDOPROPYL BETAINE:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho e fêmea): > 5.000 mg/kg Método: Directrizes do Teste OECD 401 Avaliação: A substância ou mistura não tem toxicidade oral aguda
Toxicidade aguda por via	:	DL50 (Ratazana, macho e fêmea): > 2.000 mg/kg

cutânea

Método: Directrizes do Teste OECD 402
Avaliação: A substância ou mistura não tem toxicidade aguda por via dérmica

AMMONIUM HYDROXIDE:

Toxicidade aguda por via oral : DL50 (Ratazana, macho): 350 mg/kg
Método: Directrizes do Teste OECD 401

Corrosão/irritação cutânea

Provoca irritação cutânea.

Produto:

Observações : Pode provocar irritação dérmica em pessoas susceptíveis.

Componentes:

COCAMIDE MEA:

Espécie : Coelho
Resultado : Irritação cutânea

COCAMIDOPROPYL BETAINE:

Espécie : pele humana
Resultado : Irritação cutânea

AMMONIUM HYDROXIDE:

Espécie : Coelho
Método : Directrizes do Teste OECD 404
Resultado : Corrosivo após 3 minutos até 1 hora de exposição

Lesões oculares graves/irritação ocular

Provoca lesões oculares graves.

Produto:

Observações : Pode provocar um dano irreparável nos olhos.

Componentes:

COCAMIDE MEA:

Espécie : Coelho
Resultado : Efeitos irreversíveis nos olhos

COCAMIDOPROPYL BETAINE:

Espécie : Coelho
Resultado : Irritação ocular

Sensibilização respiratória ou cutânea

Sensibilização da pele

Não classificado com base nas informações disponíveis.

Sensibilização respiratória

Não classificado com base nas informações disponíveis.

Mutagenicidade em células germinativas

Não classificado com base nas informações disponíveis.

Componentes:

COCAMIDOPROPYL BETAINE:

Genotoxicidade in vitro	:	Observações: Os testes in vitro não mostraram efeitos mutagénicos
Mutagenicidade em células germinativas - Avaliação	:	Peso da prova não suporta a classificação como um mutagénio de células germinais.

AMMONIUM HYDROXIDE:

Mutagenicidade em células germinativas - Avaliação	:	Peso da prova não suporta a classificação como um mutagénio de células germinais.

Carcinogenicidade

Não classificado com base nas informações disponíveis.

Toxicidade reprodutiva

Não classificado com base nas informações disponíveis.

Componentes:

COCAMIDOPROPYL BETAINE:

Efeitos na fertilidade	:	Espécie: Ratazana Fertilidade: NOAEL: 1.000 mg/kg peso corporal Método: Directrizes do Teste OECD 408 Resultado: As experiências com animais não demonstraram efeitos sobre a fertilidade.
Efeitos sobre o desenvolvimento do feto	:	Espécie: Ratazana Efeitos tóxicos no desenvolvimento: 950 Método: Directrizes do Teste OECD 414 Resultado: Sem efeitos colaterais.
Toxicidade reprodutiva - Avaliação	:	Não há evidência de efeitos adversos na função sexual e de fertilidade, ou no desenvolvimento, baseada sobre experiências com animais.

Toxicidade para órgãos-alvo específicos (STOT) - exposição única

Não classificado com base nas informações disponíveis.

Componentes:

AMMONIUM HYDROXIDE:

Vias de exposição	:	Inalação

Avaliação : Pode provocar irritação das vias respiratórias.

Toxicidade para órgãos-alvo específicos (STOT) - exposição repetida

Não classificado com base nas informações disponíveis.

Toxicidade por dose repetida

Componentes:

COCAMIDOPROPYL BETAINE:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	500 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	28 d
Método	:	Directrizes do Teste OECD 407

Toxicidade por aspiração

Não classificado com base nas informações disponíveis.

Informações adicionais

Produto:

Observações : A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 12. INFORMAÇÃO ECOLÓGICA

Ecotoxicidade

Componentes:

COCAMIDE MEA:

Toxicidade em peixes	:	CL50 (Peixe): > 10 - 100 mg/l
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50: > 1 - 10 mg/l
Toxicidade para às algas/plantas aquáticas	:	CE50 (algas): > 1 - 10 mg/l
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC: > 0,01 - 0,1 mg/l

Toxicidade para os micro-organismos : EC10 (lamas activadas): > 100 mg/l

COCAMIDOPROPYL BETAINE:

Toxicidade em peixes : CL50 (Danio rerio (peixe-zebra)): 2 mg/l
Duração da exposição: 96 h

Toxicidade em dáfnias e outros invertebrados aquáticos : CE50 (Daphnia magna): 6,4 mg/l
Duração da exposição: 48 h
Método: Directrizes do Teste OECD 202

Toxicidade para às algas/plantas aquáticas : CE50 (Espécies de teste não padronizadas): 30 mg/l
Duração da exposição: 48 h

Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica) : NOEC (Daphnia magna): 0,9 mg/l
Duração da exposição: 21 d
Método: Directrizes do Teste OECD 202

Toxicidade para os micro-organismos : CI50 (Pseudomonas putida): 3.000 mg/l
Duração da exposição: 16 h

AMMONIUM HYDROXIDE:

Toxicidade em peixes : CL50 (Pimephales promelas (vairão gordo)): 0,75 mg/l
Duração da exposição: 96 h

Toxicidade em dáfnias e outros invertebrados aquáticos : CE50 (Daphnia magna): 101 mg/l
Duração da exposição: 48 h
Método: Directrizes do Teste OECD 202

Factor-M (Toxicidade aguda para o ambiente aquático) : 1

Toxicidade em peixes (Toxicidade crónica) : NOEC (Oncorhynchus mykiss (truta arco-íris)): 1,2 mg/l
Duração da exposição: 21 d
Método: Directrizes do Teste OECD 210

Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica) : NOEC (Daphnia magna): 0,79 mg/l
Duração da exposição: 21 d
Método: OPPTS 850.1300

Persistência e degradabilidade

Componentes:

COCAMIDE MEA:

Biodegradabilidade : Resultado: Rapidamente biodegradável.

COCAMIDOPROPYL BETAINE:

Biodegradabilidade : Resultado: Rapidamente biodegradável.
Biodegradabilidade: > 90 %
Duração da exposição: 14 d

AMMONIUM HYDROXIDE:

Biodegradabilidade : Resultado: Rapidamente biodegradável.

Potencial de bioacumulação

Componentes:

COCAMIDE MEA:

Coeficiente de partição: n-octanol/água : log Pow: 2,86

COCAMIDOPROPYL BETAINE:

Bioacumulação : Factor de bioconcentração (BCF): 70,79

Coeficiente de partição: n-octanol/água : log Pow: -1,28

Mobilidade no solo

Dados não disponíveis

Outros efeitos adversos

Produto:

Informações ecológicas adicionais : A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 13. CONSIDERAÇÕES RELATIVAS À ELIMINAÇÃO

Métodos de destruição

Resíduos : Este produto não deve entrar nos esgotos, nos cursos de água e no solo.
Enviar para uma indústria licenciada de gerência dos resíduos.

Embalagens contaminadas : Eliminar como produto Não utilizado.
Não reutilizar os recipientes vazios.

SECÇÃO 14. INFORMAÇÕES RELATIVAS AO TRANSPORTE

Regulamentação doméstica

ANTT

Não regulado como mercadoria perigosa

Regulamentaçãoes Internacionais

IATA-DGR
Não regulado como mercadoria perigosa

Código-IMDG
Não regulado como mercadoria perigosa

Transporte a granel em conformidade com o anexo II da Convenção Marpol 73/78 e o Código IBC
Não aplicável ao produto tal como fornecido.

Precauções especiais para o utilizador

Observações	:	Produto não perigoso segundo o regulamento de transporte.

SECÇÃO 15. INFORMAÇÃO SOBRE REGULAMENTAÇÃO

Regulamentação/legislação específica para a substância ou mistura em matéria de saúde, segurança e ambiente

Lista Nacional de Agentes Cancerígenos para Humanos - (LINACH)	:	Não aplicável
Brasil. Lista de Produtos Químicos Controlados pela Policia Federal	:	AMMONIUM HYDROXIDE

SECÇÃO 16. OUTRAS INFORMAÇÕES

Data de revisão	:	2024.03.07
Formato da data	:	ano/mês/dias

Informações adicionais

Outras informações	:	A informação fornecida nesta ficha de segurança é a mais correta disponível na data da sua publicação. A informação prestada destina-se apenas a orientar o uso, manuseio, processamento, armazenamento, transporte e eliminação com segurança e não deve ser considerada garantia ou especificação de qualidade. A informação refere-se apenas ao produto designado e, a menos que tal seja especificado no texto, pode não ser válida se o mesmo produto for utilizado em qualquer combinação com outros produtos ou processos.

SAFETY DATA SHEET

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	04/03/2024	00-22-410000001511	Date of first issue: 04/03/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Manufacturer or supplier's details

Address : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Eye irritation : Category 2A

Specific target organ toxicity - repeated exposure (Oral) : Category 2 (Gastrointestinal tract)

GHS label elements

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H319 Causes serious eye irritation.
H373 May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P260 Do not breathe mist or vapors.
P264 Wash hands thoroughly after handling.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P314 Get medical advice/ attention if you feel unwell.
P337 + P313 If eye irritation persists: Get medical advice/ attention.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

Actual concentration is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice : No hazards which require special first aid measures.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : Get medical attention if irritation develops and persists.

In case of eye contact : Immediately flush eye(s) with plenty of water.
If eye irritation persists, consult a specialist.

If swallowed : Rinse mouth with water.
Clean mouth with water and drink afterwards plenty of water.
If symptoms persist, call a physician.

Most important symptoms : Causes serious eye irritation.

and effects, both acute and delayed		May cause damage to organs through prolonged or repeated exposure if swallowed.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.

Materials to avoid : Do not store near acids.

Further information on storage stability : No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (Inhalable particulate matter)	10 mg/m3	ACGIH
		TWA (Respirable particulate matter)	3 mg/m3	ACGIH

Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally required.

Hand protection

Remarks : Applicable for industrial settings only. Nitrile rubber

Eye protection : Applicable for industrial settings only.
Safety glasses

Skin and body protection : Applicable for industrial settings only.
Work uniform or laboratory coat.

Hygiene measures : When using do not eat or drink.
When using do not smoke.
Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state : liquid

Form : viscous liquid

Color : pigmented

Odor	:	characteristic
pH	:	3.5 - 4.5
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 199 °F / > 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	>= 0.97 (68 °F / 20 °C)
Solubility(ies) Water solubility	: :	 soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity Viscosity, kinematic	: :	 No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.

Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity : Acute toxicity estimate: > 5,000 mg/kg
Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity : LD50 (Rat, female): 3,190 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity : LD50 (Rat, male): 1,620 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): > 4,178 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403
Assessment: The substance or mixture has no acute inhalation toxicity

Skin corrosion/irritation

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Species : Rabbit
Method : OECD Test Guideline 404
Result : Skin irritation

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

BENZYL ALCOHOL:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

IARC No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d

Method : OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity : Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish : LC50 (Danio rerio (zebra fish)): 3.5 mg/l
Exposure time: 96 h
Method: OECD Test Guideline 203

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 1.39 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : EC50 (Desmodesmus subspicatus (green algae)): 3.48 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

EC10 (Desmodesmus subspicatus (green algae)): 0.78 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Danio rerio (zebra fish)): 0.24 mg/l
Exposure time: 9 d
Method: OECD Test Guideline 212

Toxicity to daphnia and other aquatic invertebrates (Chron- : NOEC (Daphnia magna (Water flea)): 0.119 mg/l
Exposure time: 21 d

ic toxicity) Method: OECD Test Guideline 211

Ecotoxicology Assessment

Acute aquatic toxicity : Very toxic to aquatic life.

Chronic aquatic toxicity : Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)): 460 mg/l
Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 230 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Fish): 48.9 mg/l
Exposure time: 30 d
Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 51 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 211

Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 80 %
Exposure time: 28 d
Method: OECD Test Guideline 301B
Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 92 - 96 %
Exposure time: 14 d
Method: OECD Test Guideline 301C

Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation	:	Bioconcentration factor (BCF): 835 Method: OECD Test Guideline 305
Partition coefficient: n-octanol/water	:	log Pow: 3.29 pH: 5.4

BENZYL ALCOHOL:

Bioaccumulation	:	Bioconcentration factor (BCF): 1.55

Mobility in soil

No data available

Other adverse effects

Product:

Ozone-Depletion Potential	:	Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
Additional ecological information	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues	:	The product should not be allowed to enter drains, water courses or the soil. Send to a licensed waste management company.
Contaminated packaging	:	Dispose of as unused product. Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

49 CFR

Not regulated as a dangerous good

International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards : Specific target organ toxicity (single or repeated exposure)
Serious eye damage or eye irritation

SARA 313 : This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act

This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

SECTION 16. OTHER INFORMATION

Further information

制造商或供应商信息

地址 : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

电话号码 : 1-732-499-2745

电子邮件地址 : CORPREGAFFAIRSMSDS@LOREAL.COM

应急咨询电话

INFOTRAC : 1-800-535-5053（国际：+1 352-323-3500）（每天 24 小时提供服务。紧急服务可能无法提供 SDS/产品信息。）

推荐用途和限制用途

推荐用途 : 个人美容护理产品.

部分 2. 危险性概述

根据 OSHA 危险通报标准 (29 CFR 1910.1200) 的 GHS 分类

眼睛刺激 : 类别 2A

特异性靶器官系统毒性（反复接触） (经口) : 类别 2 (胃肠道)

GHS 标签要素

象形图 :

信号词 : 警告

危险性说明 : H319 造成严重眼刺激。

H373 长期吞咽或反复接触可能损害(胃肠道)器官。

防范说明 : P102 儿童不得接触。
P103 使用前请读标签。

预防措施:

P260 不要吸入烟雾或蒸气。
P264 作业后彻底清洗双手。
P280 戴防护眼罩/戴防护面具。

事故响应:

P305 + P351 + P338 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。
P314 如感觉不适，须求医/就诊。
P337 + P313 如仍觉眼刺激：求医/就诊。

废弃处置:

P501 将内装物/容器送到批准的废物处理厂处理。

其他危害

未见报道。

部分 3. 成分/组成信息

组分

化学品名称	化学文摘登记号 (CAS No.)	浓度或浓度范围 (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

实际浓度作为商业秘密保留

部分 4. 急救措施

一般的建议 : 无需特别急救措施。

吸入 : 如果症状持续，请就医。

皮肤接触 : 如果刺激发生并持续，就医。

眼睛接触 : 立即用大量水冲洗眼睛。
如果眼睛刺激持续，就医。

食入 : 用水漱口。
用水嗽口，然后大量饮水。

如果症状持续，请就医。

最重要的症状和健康影响	:	造成严重眼刺激。 长期吞咽或反复接触可能损害器官。
对医生的特别提示	:	对症治疗。

部分 5. 消防措施

灭火方法及灭火剂	:	根据当时情况和周围环境采用适合的灭火措施。
不合适的灭火剂	:	未见报道。
特别危险性	:	不要让消防水流入下水道和河道。
有害燃烧产物	:	已知无有害燃烧产物
其他信息	:	防止消防水污染地表和地下水系统。 化学火灾的标准程序。
消防人员的特殊保护装备	:	如有必要，佩戴自给式呼吸器进行消防作业。

部分 6. 泄漏应急处理

人员防护措施、防护装备和应急处置程序	:	使用个人防护装备。
环境保护措施	:	防止产品进入下水道。 如能确保安全，可采取措施防止进一步的泄漏或溢出。
泄漏化学品的收容、清除方法及所使用的处置材料	:	用惰性材料吸收（如砂子、硅胶、酸性粘结剂、通用粘结剂、锯末）。 放入合适的封闭的容器中待处理。

部分 7. 操作处置与储存

防火防爆的建议	:	一般性的防火保护措施。
安全处置注意事项	:	避免沾及眼睛。 有关个人防护,请看第 8 部分。
安全储存条件	:	使容器保持密闭，储存在干燥通风处。
禁配物	:	不要贮存在酸附近。
有关储存稳定性的更多信息	:	按指导方法贮存和使用不会产生分解。

部分 8. 接触控制和个体防护

危害组成及职业接触限值

组分	化学文摘登记号(CAS No.)	数值的类型 (接触形式)	控制参数 / 容许浓度	依据
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (可吸入性粉尘)	10 mg/m3	ACGIH
		TWA (呼吸性粉尘)	3 mg/m3	ACGIH

个体防护装备

呼吸系统防护 : 一般来说无需个人呼吸防护设备。

手防护

备注 : 仅用於工业环境。 丁腈橡胶

眼睛防护 : 仅用於工业环境。
安全眼镜

皮肤和身体防护 : 仅用於工业环境。
工作服或实验外衣。

卫生措施 : 使用时，严禁饮食。
使用时，严禁吸烟。
休息前及工作结束时洗手。

部分 9. 理化特性

物态 : 液体

形状 : 粘性液体

颜色 : 着色的

气味 : 特征的

pH 值 : 3.5 - 4.5

熔点/凝固点 : 无数据资料

沸点/沸程	:	无法使用
闪点	:	> 199 华氏度 / > 93 ° C 方法: 国际标准 ISO 3679
燃点	:	不适用
爆炸上限 / 易燃上限	:	无数据资料
爆炸下限 / 易燃下限	:	无数据资料
蒸气压	:	无数据资料
蒸气密度	:	无数据资料
密度/相对密度	:	>= 0.97 (68 华氏度 / 20 ° C)
溶解性		
水溶性	:	可溶
正辛醇/水分配系数	:	不适用
自燃温度	:	无数据资料
分解温度	:	不适用
黏度		
运动黏度	:	无数据资料
粉尘爆炸级别	:	不适用
粒径	:	不适用

部分 10. 稳定性和反应性

反应性	:	正常使用的条件下未见有危险反应。
稳定性	:	正常条件下稳定。
危险反应	:	按指导方法贮存和使用不会产生分解。
应避免的条件	:	无数据资料
禁配物	:	不适用

危险的分解产物 : 没有危险的分解产物。

部分 11. 毒理学信息

急性毒性

根据现有信息无需进行分类。

产品:

急性经口毒性 : 急性毒性估计值: > 5,000 mg/kg
方法: 计算方法

组分:

BEHENTRIMONIUM CHLORIDE:

急性经口毒性 : LD50 (大鼠, 雌性): 3,190 mg/kg
方法: OECD 测试导则 401
评估: 此物质或混合物无急性口服毒性

BENZYL ALCOHOL:

急性经口毒性 : LD50 (大鼠, 雄性): 1,620 mg/kg

急性吸入毒性 : LC50 (大鼠, 雄性和雌性): > 4,178 mg/l
暴露时间: 4 h
测试环境: 粉尘/烟雾
方法: OECD 测试导则 403
评估: 此物质或混合物无急性吸入毒性

皮肤腐蚀/刺激

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

种属 : 家兔
方法 : OECD 测试导则 404
结果 : 皮肤刺激

BENZYL ALCOHOL:

种属 : 家兔
方法 : OECD 测试导则 404
结果 : 无皮肤刺激

严重眼睛损伤/眼刺激

造成严重眼刺激。

产品:

备注 : 可能刺激眼睛。

组分:

BEHENTRIMONIUM CHLORIDE:

种属 : 家兔
结果 : 对眼睛有不可逆转的影响
方法 : OECD 测试导则 405

BENZYL ALCOHOL:

种属 : 家兔
结果 : 无眼睛刺激
方法 : OECD 测试导则 405

呼吸或皮肤过敏

皮肤过敏

根据现有信息无需进行分类。

呼吸过敏

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

接触途径 : 皮肤接触
种属 : 豚鼠
方法 : OECD 测试导则 406
结果 : 不引起皮肤过敏。

BENZYL ALCOHOL:

接触途径 : 皮肤接触
种属 : 小鼠
方法 : OECD 测试导则 429
结果 : 不引起皮肤过敏。

生殖细胞致突变性

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

生殖细胞致突变性 - 评估 : 依证据权重不足以归类为生殖细胞致突变性物质。

致癌性

根据现有信息无需进行分类。

IARC 此产品中所有含量大于等于 0.1%的组分中，没有被 IARC 鉴别为已知或可能的致癌物。

OSHA 此产品中所有含量大于等于 0.1%的组分中，没有被 OSHA 鉴别为已知或潜在的致癌物。

NTP 此产品中所有含量大于等于 0.1%的组分中，没有被 NTP 鉴别为已知或预计的致癌物。

生殖毒性

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

生殖毒性 - 评估 : 证据的效力不足以支持将该物质归类为具有生殖毒性的物质

特异性靶器官系统毒性- 一次接触

根据现有信息无需进行分类。

特异性靶器官系统毒性- 反复接触

长期吞咽或反复接触可能损害(胃肠道)器官。

组分:

BEHENTRIMONIUM CHLORIDE:

接触途径	:	食入
靶器官	:	胃肠道
评估	:	此物质或混合物被分类为特异性靶器官系统毒物，反复暴露，类别 2。

重复染毒毒性

组分:

BEHENTRIMONIUM CHLORIDE:

种属	:	大鼠,雄性和雌性
NOAEL	:	10 mg/kg
染毒途径	:	经口
暴露时间	:	28 天
方法	:	OECD 测试导则 407

吸入危害

根据现有信息无需进行分类。

其他信息

产品:

备注 : 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 12. 生态学信息

生态毒性

产品:

生态毒理评估

长期水生危害 : 对水生生物有害并具有长期持续影响。

组分:

BEHENTRIMONIUM CHLORIDE:

对鱼类的毒性 : LC50 (Danio rerio (斑马鱼)): 3.5 mg/l
暴露时间: 96 h
方法: OECD 测试导则 203

对水溞和其他水生无脊椎动物的毒性 : EC50 (Daphnia magna (水溞)): 1.39 mg/l
暴露时间: 48 h
方法: OECD 测试导则 202

对藻类/水生植物的毒性 : EC50 (Desmodesmus subspicatus（近具刺链带藻）): 3.48 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

EC10 (Desmodesmus subspicatus (绿藻)): 0.78 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

对鱼类的毒性 (慢性毒性) : NOEC (Danio rerio (斑马鱼)): 0.24 mg/l
暴露时间: 9 天
方法: OECD 测试导则 212

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 0.119 mg/l
暴露时间: 21 天

方法: OECD 测试导则 211

生态毒理评估

急性水生危害 : 对水生生物毒性极大。

长期水生危害 : 对水生生物毒性极大并具有长期持续影响。

BENZYL ALCOHOL:

对鱼类的毒性 : LC50 (Pimephales promelas (肥头鲦鱼)): 460 mg/l
暴露时间: 96 h

对水溞和其他水生无脊椎动物的毒性 : EC50 (Daphnia magna (水溞)): 230 mg/l
暴露时间: 48 h
方法: OECD 测试导则 202

对藻类/水生植物的毒性 : EC50 (Pseudokirchneriella subcapitata (绿藻)): 770 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

对鱼类的毒性 (慢性毒性) : NOEC (鱼): 48.9 mg/l
暴露时间: 30 天
备注: 该值依据 SAR/AAR 方法给定，使用了 OECD 工具箱、DEREK 和 VEGA QSAR 模型（CAESAR 模型）等。

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 51 mg/l
暴露时间: 21 天
方法: OECD 测试导则 211

持久性和降解性

组分:

BEHENTRIMONIUM CHLORIDE:

生物降解性 : 结果: 快速生物降解的。
生物降解性: 80 %
暴露时间: 28 天
方法: OECD 测试导则 301B
备注: 未满足 10 天时间窗口标准

BENZYL ALCOHOL:

生物降解性 : 结果: 快速生物降解的。
生物降解性: 92 - 96 %
暴露时间: 14 天
方法: OECD 测试导则 301C

生物蓄积潜力

组分:

BEHENTRIMONIUM CHLORIDE:

生物蓄积	:	生物富集系数(BCF): 835 方法: OECD 测试导则 305
正辛醇/水分配系数	:	log Pow: 3.29 pH 值: 5.4

BENZYL ALCOHOL:

生物蓄积	:	生物富集系数(BCF): 1.55

土壤中的迁移性

无数据资料

其他环境有害作用

产品:

臭氧消耗潜能值	:	法规: 40 CFR 环境保护; 第 82 部分平流层臭氧保护 - CAA 第 602 节 I 类物质 备注: 此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App.A + B)规定的 I 类或 II 类的臭氧破坏性（ODS）的物质。
其它生态信息	:	本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 13. 废弃处置

处置方法

废弃化学品	:	本品不允许排入下水道,水道或土壤。 送往有执照的废弃物管理公司。
污染包装物	:	按未用产品处置。 不要重复使用倒空的容器。

部分 14. 运输信息

国内法规

49 CFR

不作为危险品管理

国际法规

空运(IATA-DGR)

不作为危险品管理

海运(IMDG-Code)

不作为危险品管理

按《MARPOL73/78 公约》附则 II 和 IBC 规则

不适用于供应的产品。

特殊防范措施

备注 : 根据运输法规，未被分类为危险品。

部分 15. 法规信息

欧洲癌症研究协会 可报告的量

此物质不含有任何与 CERCLA RQ.有关的组分。

SARA 304 极危险的物质 可报告的量

此物质不含有任何与 304 EHS RQ 有关的组分。

SARA 302 极度危险物质阈值规划数量

该材料不包含任何符合 EHS TPQ 第 302 节的成分。

萨拉 311/312 危险 : 特定靶器官毒性（单次或重复接触）
严重眼睛损伤或眼睛刺激

莎拉 313 : 该材料不包含任何已知 CAS 编号超过 SARA 第三章第 313 节规定的阈值（最低）报告水平的化学成分。

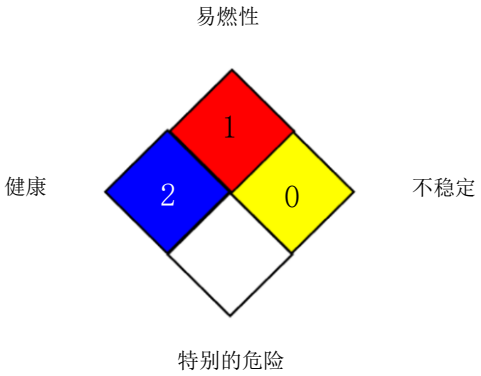
空气清洁法

此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App.A + B)规定的 1 类或 II 类的臭氧破坏性（ODS）的物质。
本品不含有美国空气洁净法第 112 部分(40 CFR 61)定义的任何危险空气污染物（HAP）。
此产品不包含在美国空气洁净法令 112(r)关于意外释放防范(40 CFR 68.130, Subpart F)部分的。

部分 16. 其他信息

其他信息

NFPA 704:



缩略语和首字母缩写

ACGIH	:	美国政府工业卫生学家会议(ACGIH)之阈限值 (TLV)
US WEEL	:	USA. Workplace Environmental Exposure Levels (WEEL)
ACGIH / TWA	:	8 小时，时间加权平均值
US WEEL / TWA	:	8-hr TWA

FICHA DE DATOS DE SEGURIDAD

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Versión	Fecha de revisión:	Número SDS:	Fecha de la última expedición: -
1.0	04/03/2024	00-22-410000001511	Fecha de la primera expedición: 04/03/2024

SECCIÓN 1. IDENTIFICACIÓN

Nombre del producto : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Informaciones sobre el fabricante o el proveedor

Dirección : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Teléfono : 1-732-499-2745

E-mail de contacto : CORPREGAFFAIRSMSDS@LOREAL.COM

Teléfono de emergencia

INFOTRAC : 1-800-535-5053 (Internacional: +1 352-323-3500) (Disponible las 24 horas del día. Es posible que la SDS/información del producto no esté disponible para el Servicio de emergencia).

Uso recomendado del producto químico y restricciones de uso

Uso recomendado : Producto de cuidado personal para uso cosmético.

SECCIÓN 2. IDENTIFICACIÓN DE LOS PELIGROS

Clasificación GHS de acuerdo con Norma de Comunicación de Riesgos de OSHA (29 CFR 1910.1200)

Irritación ocular : Categoría 2A

Toxicidad específica en determinados órganos - exposiciones repetidas (Oral) : Categoría 2 (Sistema gastrointestinal)

Elementos de etiquetado GHS

Pictogramas de peligro :

Palabra de advertencia : Atención

Indicaciones de peligro : H319 Provoca irritación ocular grave.
H373 Puede provocar daños en los órganos (Sistema gastroin-

testinal) tras exposiciones prolongadas o repetidas en caso de ingestión.

Consejos de prudencia : P102 Mantener fuera del alcance de los niños.
P103 Leer la etiqueta antes del uso.

Prevención:

P260 No respirar la niebla o los vapores.
P264 Lavarse las manos concienzudamente tras la manipulación.
P280 Llevar equipo de protección para los ojos/ la cara.

Intervención:

P305 + P351 + P338 EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado.
P314 Consultar a un médico en caso de malestar.
P337 + P313 Si persiste la irritación ocular: Consultar a un médico.

Eliminación:

P501 Eliminar el contenido/ el recipiente en una planta de eliminación de residuos autorizada.

Otros peligros

Ninguna conocida.

SECCIÓN 3. COMPOSICIÓN/INFORMACIÓN SOBRE LOS COMPONENTES

Componentes

Nombre químico	No. CAS	Concentración (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

La concentración real se retiene como secreto comercial

SECCIÓN 4. PRIMEROS AUXILIOS

Recomendaciones generales : Sin peligros que requieran medidas especiales de primeros auxilios.

Si es inhalado : Si los síntomas persisten consultar a un médico.

En caso de contacto con la piel : Consultar un médico si aparece y persiste una irritación.

En caso de contacto con los ojos : Enjuagar inmediatamente los ojos con abundante agua.
Si persiste la irritación de los ojos, consultar a un especialista.

Por ingestión	:	Enjuague la boca con agua. Lavar la boca con agua y después beber agua abundante. Si los síntomas persisten consultar a un médico.
Principales síntomas y efectos, agudos y retardados	:	Provoca irritación ocular grave. Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas en caso de ingestión.
Notas para el médico	:	Tratar sintomáticamente.

SECCIÓN 5. MEDIDAS DE LUCHA CONTRA INCENDIOS

Medios de extinción apropiados	:	Usar medidas de extinción que sean apropiadas a las circunstancias del local y a sus alrededores.
Medios de extinción no apropiados	:	Ninguna conocida.
Peligros específicos en la lucha contra incendios	:	No permita que las aguas de extinción entren en el alcantarillado o en los cursos de agua.
Productos de combustión peligrosos	:	No se conocen productos de combustión peligrosos
Otros datos	:	Impedir la contaminación de las aguas superficiales o subterráneas por el agua que ha servido a la extinción de incendios. Procedimiento estándar para fuegos químicos.
Equipo de protección especial para el personal de lucha contra incendios	:	Si es necesario, usar equipo de respiración autónomo para la lucha contra el fuego.

SECCIÓN 6. MEDIDAS EN CASO DE VERTIDO ACCIDENTAL

Precauciones personales, equipo de protección y procedimientos de emergencia	:	Utilícese equipo de protección individual.
Precauciones relativas al medio ambiente	:	Evite que el producto penetre en el alcantarillado. Impedir nuevos escapes o derrames si puede hacerse sin riesgos.
Métodos y material de contención y de limpieza	:	Recojer con un producto absorbente inerte (por ejemplo, arena, diatomita, fijador de ácidos, fijador universal, serrín). Guardar en contenedores apropiados y cerrados para su eliminación.

SECCIÓN 7. MANIPULACIÓN Y ALMACENAMIENTO

Indicaciones para la protección contra incendio y explosión	:	Disposiciones normales de protección preventivas de incendio.
Consejos para una manipulación segura	:	Evítese el contacto con los ojos. Equipo de protección individual, ver sección 8.
Condiciones para el almacenaje seguro	:	Conservar el envase herméticamente cerrado en un lugar seco y bien ventilado.
Materias que deben evitarse	:	No almacenar conjuntamente con ácidos.
Más información acerca de la estabilidad durante el almacenamiento	:	No se descompone si se almacena y aplica como se indica.

SECCIÓN 8. CONTROLES DE EXPOSICIÓN/ PROTECCIÓN INDIVIDUAL

Componentes con valores límite ambientales de exposición profesional.

Componentes	No. CAS	Tipo de valor (Forma de exposición)	Parámetros de control / Concentración permisible	Base
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (fracción inhalable)	10 mg/m3	ACGIH
		TWA (fracción respirable)	3 mg/m3	ACGIH

Protección personal

Protección respiratoria	:	Normalmente no requiere el uso de un equipo de protección individual respiratorio.
Protección de las manos		
Observaciones	:	De aplicación solamente en entornos industriales. Caucho nitrílo
Protección de los ojos	:	De aplicación solamente en entornos industriales. Gafas de seguridad
Protección de la piel y del cuerpo	:	De aplicación solamente en entornos industriales. Uniforme de trabajo o bata de laboratorio.
Medidas de higiene	:	No comer ni beber durante su utilización. No fumar durante su utilización. Lávense las manos antes de los descansos y después de terminar la jornada laboral.

SECCIÓN 9. PROPIEDADES FÍSICAS Y QUÍMICAS

Estado físico	:	líquido
Forma	:	líquido viscoso
Color	:	pigmentado
Olor	:	característico
pH	:	3.5 - 4.5
Punto de fusión/ punto de congelación	:	Sin datos disponibles
Punto /intervalo de ebullición	:	No disponible
Punto de inflamación	:	> 199 °F / > 93 °C Método: ISO 3679
Punto de incendio	:	No aplicable
Límite superior de explosividad / Limites de inflamabilidad superior	:	Sin datos disponibles
Límites inferior de explosividad / Límites de inflamabilidad inferior	:	Sin datos disponibles
Presión de vapor	:	Sin datos disponibles
Densidad relativa del vapor	:	Sin datos disponibles
Densidad relativa	:	>= 0.97 (68 °F / 20 °C)
Solubilidad(es) Solubilidad en agua	: :	 soluble
Coeficiente de reparto n-octanol/agua	:	No aplicable
Temperatura de auto-inflamación	:	Sin datos disponibles

Temperatura de descomposición	:	No aplicable
Viscosidad		
Viscosidad, cinemática	:	Sin datos disponibles
Clase de explosión del polvo	:	No aplica
Tamaño de partícula	:	No aplicable

SECCIÓN 10. ESTABILIDAD Y REACTIVIDAD

Reactividad	:	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Estabilidad química	:	Estable en condiciones normales.
Posibilidad de reacciones peligrosas	:	No se descompone si se almacena y aplica como se indica.
Condiciones que deben evitarse	:	Sin datos disponibles
Materiales incompatibles	:	No aplicable
Productos de descomposición peligrosos	:	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. INFORMACIÓN TOXICOLÓGICA

Toxicidad aguda

No está clasificado en base a la información disponible.

Producto:

Toxicidad oral aguda	:	Estimación de la toxicidad aguda: > 5,000 mg/kg Método: Método de cálculo

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidad oral aguda	:	DL50 (Rata, hembra): 3,190 mg/kg Método: Directrices de ensayo 401 del OECD Valoración: La sustancia o mezcla no presenta toxicidad oral aguda

BENZYL ALCOHOL:

Toxicidad oral aguda	:	DL50 (Rata, macho): 1,620 mg/kg

Toxicidad aguda por inhalación	:	CL50 (Rata, machos y hembras): > 4,178 mg/l Tiempo de exposición: 4 h Prueba de atmosfera: polvo/niebla Método: Directrices de ensayo 403 del OECD Valoración: La sustancia o mezcla no presenta toxicidad aguda por inhalación

Corrosión o irritación cutáneas

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Especies	:	Conejo
Método	:	Directrices de ensayo 404 del OECD
Resultado	:	Irritación de la piel

BENZYL ALCOHOL:

Especies	:	Conejo
Método	:	Directrices de ensayo 404 del OECD
Resultado	:	No irrita la piel

Lesiones o irritación ocular graves

Provoca irritación ocular grave.

Producto:

Observaciones	:	Puede irritar los ojos.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Especies	:	Conejo
Resultado	:	Efectos irreversibles en los ojos
Método	:	Directrices de ensayo 405 del OECD

BENZYL ALCOHOL:

Especies	:	Conejo
Resultado	:	No irrita los ojos
Método	:	Directrices de ensayo 405 del OECD

Sensibilización respiratoria o cutánea

Sensibilización cutánea

No está clasificado en base a la información disponible.

Sensibilización respiratoria

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vía de exposición	:	Contacto con la piel
Especies	:	Conejillo de indias
Método	:	Directrices de ensayo 406 del OECD
Resultado	:	No provoca sensibilización a la piel.

BENZYL ALCOHOL:

Vía de exposición	:	Contacto con la piel
Especies	:	Ratón
Método	:	Directrices de ensayo 429 del OECD
Resultado	:	No provoca sensibilización a la piel.

Mutagenicidad en células germinales

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Mutagenicidad en células germinales - Valoración	:	El peso de la evidencia no soporta la clasificación como un mutágeno de célula germinal.

Carcinogenicidad

No está clasificado en base a la información disponible.

IARC No se identifica ningún componente de este producto, que presente niveles mayores que o igual a 0,1% como agente carcinógeno humano probable, posible o confirmado por la (IARC) Agencia Internacional de Investigaciones sobre Carcinógenos.

OSHA Ningún componente de este producto está presente en niveles superiores o iguales al 0,1 % por lo que no se encuentra en la lista de OSHA de carcinógenos regulados.

NTP En este producto no se identifica ningún componente, que presente niveles mayores que o iguales a 0.1%, como agente carcinógeno conocido o anticipado por el (NTP) Programa Nacional de Toxicología.

Toxicidad para la reproducción

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidad para la reproducción - Valoración	:	El peso de la prueba no admite la clasificación como toxicidad reproductiva

Toxicidad específica en determinados órganos (stot) - exposición única

No está clasificado en base a la información disponible.

Toxicidad específica en determinados órganos (stot) - exposiciones repetidas

Puede provocar daños en los órganos (Sistema gastrointestinal) tras exposiciones prolongadas o repetidas en caso de ingestión.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vía de exposición	:	Ingestión
Órganos diana	:	Sistema gastrointestinal
Valoración	:	La sustancia o mezcla se clasifica como tóxica específica de órganos diana, exposición repetida, categoría 2.

Toxicidad por dosis repetidas

Componentes:

BEHENTRIMONIUM CHLORIDE:

Especies	:	Rata, machos y hembras
NOAEL	:	10 mg/kg
Vía de aplicación	:	Oral
Tiempo de exposición	:	28 d
Método	:	Directrices de ensayo 407 del OECD

Toxicidad por aspiración

No está clasificado en base a la información disponible.

Otros datos

Producto:

Observaciones	:	En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 12. INFORMACIÓN ECOLÓGICA

Ecotoxicidad

Producto:

Evaluación Ecotoxicológica

Toxicidad acuática crónica	:	Nocivo para los organismos acuáticos, con efectos nocivos duraderos.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidad para los peces	:	CL50 (Danio rerio (pez zebra)): 3.5 mg/l Tiempo de exposición: 96 h Método: Directrices de ensayo 203 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 1.39 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para las algas/plantas acuáticas	:	CE50 (Desmodesmus subspicatus (Alga)): 3.48 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD EC10 (Desmodesmus subspicatus (alga verde)): 0.78 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Danio rerio (pez zebra)): 0.24 mg/l Tiempo de exposición: 9 d Método: Directrices de ensayo 212 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.119 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 211 del OECD

Evaluación Ecotoxicológica

Toxicidad acuática aguda	:	Muy tóxico para los organismos acuáticos.
Toxicidad acuática crónica	:	Muy tóxico para los organismos acuáticos, con efectos nocivos duraderos.

BENZYL ALCOHOL:

Toxicidad para los peces	:	CL50 (Pimephales promelas (Piscardo de cabeza gorda)): 460 mg/l Tiempo de exposición: 96 h
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 230 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para las algas/plantas acuáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 770 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Pez): 48.9 mg/l Tiempo de exposición: 30 d Observaciones: El resultado viene dado basándose en un enfoque SAR/AAR utilizando los modelos OECD Toolbox,

DEREK, VEGA QSAR (modelos CAESAR), etc.

Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica) : NOEC (Daphnia magna (Pulga de mar grande)): 51 mg/l
Tiempo de exposición: 21 d
Método: Directrices de ensayo 211 del OECD

Persistencia y degradabilidad

Componentes:

BEHENTRIMONIUM CHLORIDE:

Biodegradabilidad : Resultado: Fácilmente biodegradable.
Biodegradación: 80 %
Tiempo de exposición: 28 d
Método: Directrices de ensayo 301 B del OECD
Observaciones: El criterio de ventana de 10 días no se cumple.

BENZYL ALCOHOL:

Biodegradabilidad : Resultado: Fácilmente biodegradable.
Biodegradación: 92 - 96 %
Tiempo de exposición: 14 d
Método: Directrices de ensayo 301 C del OECD

Potencial de bioacumulación

Componentes:

BEHENTRIMONIUM CHLORIDE:

Bioacumulación : Factor de bioconcentración (FBC): 835
Método: Directrices de ensayo 305 del OECD

Coeficiente de reparto n-octanol/agua : log Pow: 3.29
pH: 5.4

BENZYL ALCOHOL:

Bioacumulación : Factor de bioconcentración (FBC): 1.55

Movilidad en el suelo

Sin datos disponibles

Otros efectos adversos

Producto:

Potencial de agotamiento del ozono : Regulacion: De acuerdo con las Regulaciones de Estados Unidos, se encuentra incluído en el listado de 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances
Observaciones: Este producto no contiene, ni ha sido fabrica-

do con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).

Información ecológica complementaria : En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 13. CONSIDERACIONES RELATIVAS A LA ELIMINACIÓN

Métodos de eliminación.

Residuos : No se debe permitir que el producto penetre en los desagües, tuberías, o la tierra (suelos).
Envíese a una compañía autorizada para la gestión de desechos.

Envases contaminados : Eliminar como producto no usado.
No reutilizar los recipientes vacíos.

SECCIÓN 14. INFORMACIÓN RELATIVA AL TRANSPORTE

Regulación doméstica

49 CFR

No está clasificado como producto peligroso.

Regulaciones internacionales

IATA-DGR

No está clasificado como producto peligroso.

Código-IMDG

No está clasificado como producto peligroso.

Transporte a granel con arreglo al anexo II del Convenio Marpol 73/78 y del Código IBC
No aplicable al producto suministrado.

Precauciones particulares para los usuarios

Observaciones : Producto no peligroso según los criterios de la reglamentación del transporte.

SECCIÓN 15. INFORMACIÓN REGLAMENTARIA

CERCA Cantidad Reportable

Este material no contiene ningún componente con una cantidad reportada (RQ) para CERCLA.

SARA 304 Sustancias extremadamente peligrosas Cantidad Reportable

Este material no contiene ningún componente en la sección 304 EHS RQ .

Cantidad de planeación de umbral SARA 302 Sustancias Extremadamente peligrosas

Este material no contiene componentes con una sección 302 EHS TPQ.

SARA 311/312 Peligros : Toxicidad específica de órganos blanco (exposición simple o repetida)
Lesiones oculares graves o irritación ocular

SARA 313 : Este material no contiene ningún componente químico con los conocidos números CAS que exceden el umbral de los niveles reportados (De Minimis) establecidos por SARA título III, sección 313.

Ley del Aire Limpio

Este producto no contiene, ni ha sido fabricado con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).
Este producto no contiene ningún contaminante atmosférico peligroso (HAP), tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 112 (40 CFR 61).
Este producto no contiene ningún producto químico que figure en el Acta de Aire Limpio de los EE.UU. Sección 112(r) para la Prevención de Liberación Accidental (40 CFR 68.130, Sub-parte F).

PHIẾU AN TOÀN HÓA CHẤT

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Phiên bản 1.0	Ngày tháng sửa đổi, bổ sung gần nhất: 04/03/2024	MÃ SỐ PHIẾU CHỈ DẪN AN TOÀN: 00-22-410000001511	Ngày ban hành cuối cùng: - Ngày ban hành đầu tiên: 04/03/2024

Phần 1. NHẬN DẠNG

Tên sản phẩm : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Thông tin nhà cung cấp (nhập khẩu; sản xuất; phân phối)

Địa chỉ : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Điện thoại : 1-732-499-2745

Địa chỉ e-mail : CORPREGAFFAIRSMSDS@LOREAL.COM

Số điện thoại liên hệ trong trường hợp khẩn cấp

INFOTRAC : 1-800-535-5053 (Quốc tế: +1 352-323-3500) (Có sẵn 24 giờ một ngày. Thông tin SDS/Sản phẩm có thể không có sẵn cho Dịch vụ khẩn cấp.)

Mục đích sử dụng và hạn chế khi sử dụng

Mục đích sử dụng : Mỹ phẩm.

Phần 2. THÔNG TIN VỀ SỰ NGUY HẠI

Phân loại GHS theo Tiêu chuẩn truyền thông nguy hiểm của OSHA (29 CFR 1910.1200)

Kích ứng mắt : Cấp 2A

Độc tính đến cơ quan cụ thể sau phơi nhiễm lặp lại (Đường miệng) : Cấp 2 (Đường ruột)

Các yếu tố nhãn theo GHS

Hình đồ cảnh báo nguy cơ :

Từ cảnh báo : Cảnh báo

Cảnh báo nguy hiểm : H319 Gây kích ứng mắt nghiêm trọng.

H373 Có thể gây tổn thương cho các cơ quan (Đường ruột) do phơi nhiễm kéo dài hoặc lặp đi lặp lại nếu nuốt phải.

Các lưu ý phòng ngừa : P102 Để xa tầm tay của trẻ.
P103 Đọc nhãn trước khi sử dụng.

Biện pháp phòng ngừa:

P260 Không hít hơi sương hoặc hơi.
P264 Rửa tay thật kỹ sau khi thao tác với hoá chất.
P280 Đeo các thiết bị bảo vệ mặt/ mắt.

Biện pháp ứng phó:

P305 + P351 + P338 NẾU TIẾP XÚC LÊN MẮT: Rửa cẩn thận bằng nước trong vài phút. Tháo kính áp tròng nếu đang đeo và dễ thực hiện. Tiếp tục rửa.
P314 Tìm kiếm sự tư vấn/ chăm sóc y tế nếu cảm thấy không khỏe.
P337 + P313 Nếu kích ứng mắt tiếp tục kéo dài: Tìm kiếm sự tư vấn/ chăm sóc y tế.

Việc thải bỏ:

P501 Tiêu hủy thành phần bên trong/ thùng chứa hóa chất tại cơ sở xử lý chất thải đủ tiêu chuẩn.

Các nguy cơ khác

Được biết là chưa xảy ra.

Phần 3. THÀNH PHẦN/THÔNG TIN VỀ CÁC PHỤ LIỆU

Thành phần

Tên hóa học	Số CAS	Nồng độ (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

Nồng độ thực tế được giữ lại như một bí mật thương mại

Phần 4. BIỆN PHÁP SƠ CỨU VỀ Y TẾ

Lời khuyên chung : Không có mối nguy nào cần đến các biện pháp sơ cứu đặc biệt.

Trường hợp tai nạn tiếp xúc theo đường hô hấp : Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.

Trường hợp tai nạn tiếp xúc trên da : Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng.

Trường hợp tai nạn khi tiếp xúc với mắt : Ngay lập tức rửa mắt bằng thật nhiều nước.
Liên hệ với chuyên gia nếu hiện tượng kích ứng ở mắt kéo

dài.

Trường hợp tai nạn theo đường tiêu hóa	:	Xúc miệng bằng nước. Xúc miệng bằng nước và sau đó uống thật nhiều nước. Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.
Các triệu chứng/tác hại nghiêm trọng tức thời và ảnh hưởng sau này	:	Gây kích ứng mắt nghiêm trọng. Có thể gây tổn thương cho các cơ quan do phơi nhiễm kéo dài hoặc lặp đi lặp lại nếu nuốt phải.
Lưu ý đối với bác sỹ điều trị	:	Điều trị theo triệu trứng.

Phần 5. BIỆN PHÁP XỬ LÝ KHI CÓ HỎA HOẠN

Các phương tiện chữa cháy thích hợp	:	Sử dụng các biện pháp chữa cháy phù hợp với hoàn cảnh địa phương và môi trường xung quanh.
Các phương tiện chữa cháy không thích hợp	:	Được biết là chưa xảy ra.
Các nguy hiểm cụ thể khi chữa cháy	:	Không để nước chữa cháy chảy xuống cống và ao hồ.
Các chất độc được sinh ra khi bị cháy	:	Chưa từng biết có các sản phẩn gây nổ độc hại
Thông tin khác	:	Ngăn chặn việc nước chữa cháy gây ô nhiễm cho nguồn nước mặt hoặc hệ thống nước ngầm. Quy trình chuẩn dùng trong cháy nổ hóa chất
Thiết bị bảo hộ đặc biệt dành cho lính cứu hỏa	:	Đeo các dụng cụ thở cá nhân khi chữa cháy nếu cần thiết.

Phần 6. BIỆN PHÁP PHÒNG NGỪA, ỨNG PHÓ KHI CÓ SỰ CỐ

Trang thiết bị bảo hộ và quy trình ứng phó sự cố	:	Sử dụng các thiết bị bảo hộ cá nhân.
Các cảnh báo về môi trường	:	Ngăn ngừa không cho sản phẩm đi vào hệ thống cống rãnh. Ngăn ngừa việc rò rỉ hoặc tràn đổ tiếp theo nếu việc việc làm này an toàn.
Biện pháp, vật liệu vệ sinh sau khi xảy ra sự cố	:	Hút khô bằng các vật liệu hút nước trơ (ví dụ như cát, silicagen, chất liên kết axit, chất liên kết phổ thông, mùn cưa). Giữ trong các bình chứa kín thích hợp để tiêu huỷ.

Phần 7. YÊU CẦU VỀ SỬ DỤNG, BẢO QUẢN

Lời khuyên khi bảo vệ khỏi cháy nổ	:	Các biện pháp thông thường nhằm ngăn ngừa hoả hoạn.
Biện pháp, điều kiện cần áp dụng khi sử dụng, thao tác với hóa chất nguy hiểm	:	Tránh tiếp xúc với mắt. Về bảo hộ cá nhân, xem phần 8.
Biện pháp, điều kiện cần áp dụng khi bảo quản	:	Đóng kín bình chứa, đặt tại nơi khô ráo và thông gió tốt.
Các chất cần tránh bảo quản chung	:	Không lưu giữ gần axít.
Thêm thông tin về độ ổn định kho lưu trữ	:	Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.

Phần 8. KIỂM SOÁT PHƠI NHIỄM/YÊU CẦU VỀ THIẾT BỊ BẢO VỆ CÁ NHÂN

Các thành phần có các thông số cần kiểm soát tại nơi làm việc

Thành phần	Số CAS	Loại giá trị (Dạng phơi nhiễm)	Các thông số kiểm soát / Nồng độ cho phép	Cơ sở
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (Bụi hạt hít phải qua phổi)	10 mg/m3	ACGIH
		TWA (Bụi hạt hít phải qua mũi và miệng)	3 mg/m3	ACGIH

Biện pháp và thiết bị bảo hộ cá nhân

Bảo vệ hô hấp	:	Thông thường không yêu cầu các thiết bị bảo hộ hô hấp cá nhân.
Bảo vệ tay		
Ghi chú	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Cao su nitrile
Bảo vệ mắt	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Kính bảo hộ
Bảo vệ da và cơ thể	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc đồng phục hoặc áo choàng phòng thí nghiệm.
Các biện pháp vệ sinh	:	Không được ăn hoặc uống khi sử dụng. Không hút thuốc khi sử dụng. Rửa tay trước khi nghỉ giải lao và vào cuối ngày làm việc.

Phần 9. ĐẶC TÍNH LÝ, HÓA CỦA HÓA CHẤT

Trạng thái vật lý	:	thể lỏng
Hình thể	:	Chất lỏng nhớt
Màu sắc	:	được nhuộm màu
Mùi đặc trưng	:	đặc tính
Độ pH	:	3.5 - 4.5
Điểm/khoảng nóng chảy/đông đặc	:	chưa có dữ liệu
Điểm sôi/khoảng sôi	:	Không có sẵn
Điểm cháy	:	> 199 °F / > 93 °C Phương pháp: ISO 3679
Nhiệt Độ Cháy	:	Không áp dụng được
Giới hạn trên của cháy nổ / Giới hạn trên của sự bốc cháy	:	chưa có dữ liệu
Giới hạn dưới của cháy nổ / Giới hạn dưới của sự bốc cháy	:	chưa có dữ liệu
Áp suất hóa hơi	:	chưa có dữ liệu
Tỷ trọng hơi tương đối	:	chưa có dữ liệu
Tỷ trọng tương đối	:	>= 0.97 (68 °F / 20 °C)
Độ hòa tan Độ hòa tan trong nước	: :	 hòa tan được
Hệ số phân tán: n-octanol/nước	:	Không áp dụng được
Nhiệt độ tự bốc cháy	:	chưa có dữ liệu

Nhiệt độ phân hủy	:	Không áp dụng được
Độ nhớt		
Độ nhớt, động học	:	chưa có dữ liệu
Loại nổ tạo bụi	:	không áp dụng
Kích thước hạt	:	Không áp dụng được

Phần 10. MỨC ỔN ĐỊNH VÀ PHẢN ỨNG CỦA HÓA CHẤT

Khả năng phản ứng	:	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Tính ổn định	:	Ổn định trong các điều kiện thông thường.
Phản ứng nguy hiểm	:	Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.
Các điều kiện cần tránh	:	chưa có dữ liệu
Vật liệu không tương thích	:	Không áp dụng được
Phản ứng phân hủy và các sản phẩm độc của phản ứng phân hủy	:	Không sản phẩm phân hủy nguy hại nào được biết đến.

Phần 11. THÔNG TIN VỀ ĐỘC TÍNH

Độc cấp tính

Không được phân loại dựa trên thông tin có sẵn.

Sản phẩm:

Độc tính cấp theo đường miệng	:	Ước lượng độc tính cấp: > 5,000 mg/kg Phương pháp: Phương pháp tính toán

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, con cái): 3,190 mg/kg Phương pháp: Hướng dẫn xét nghiệm OECD 401 Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường miệng

BENZYL ALCOHOL:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, con đực): 1,620 mg/kg
Độc tính cấp do hít phải	:	LC50 (Chuột, Đực và cái): > 4,178 mg/l

Thời gian phơi nhiễm: 4 h
Không khí kiểm nghiệm: bụi / hơi sương
Phương pháp: Hướng dẫn xét nghiệm OECD 403
Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường hô hấp

Ăn mòn/kích ứng da

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Loài	:	Thỏ
Phương pháp	:	Hướng dẫn xét nghiệm OECD 404
Kết quả	:	Kích ứng da

BENZYL ALCOHOL:

Loài	:	Thỏ
Phương pháp	:	Hướng dẫn xét nghiệm OECD 404
Kết quả	:	Không gây kích ứng da

Tổn thương mắt nghiêm trọng/kích ứng mắt

Gây kích ứng mắt nghiêm trọng.

Sản phẩm:

Ghi chú	:	Có thể gây kích ứng mắt

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Loài	:	Thỏ
Kết quả	:	Những ảnh hưởng không thể phục hồi lên mắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 405

BENZYL ALCOHOL:

Loài	:	Thỏ
Kết quả	:	Không gây kích ứng mắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 405

Kích thích hô hấp hoặc da

Nhạy cảm với da

Không được phân loại dựa trên thông tin có sẵn.

Nhạy cảm với hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Đường tiếp xúc	:	Tiếp xúc với da
Loài	:	Chuột lang
Phương pháp	:	Hướng dẫn xét nghiệm OECD 406
Kết quả	:	Không gây kích ứng da.

BENZYL ALCOHOL:

Đường tiếp xúc	:	Tiếp xúc với da
Loài	:	Chuột nhắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 429
Kết quả	:	Không gây kích ứng da.

Đột biến tế bào mầm (tế bào gen)

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Đột biến tế bào mầm (tế bào gen) - Đánh giá	:	Trọng số bằng chứng không đủ khẳng định xếp loại là biến đổi tế bào mầm.

Tác nhân gây ung thư

Không được phân loại dựa trên thông tin có sẵn.

IARC Không có thành phần nào của sản phẩm ở mức cao hơn hoặc bằng 0.1 % được xác định là chất nghi ngờ, có thể hoặc chắc chắn gây ung thư ở người theo quy định của IARC.

OSHA Không có thành phần nào trong sản phẩm này có nồng độ lớn hơn hoặc bằng 0,1% nằm trong danh sách chất gây ung thư thuộc diện quản lý của OSHA.

NTP Không có thành phần nào của sản phẩm này ở mức cao hơn hoặc bằng 0.1 % được xác định là chất gây ung thư hoặc chất được dự đoán là gây ung thư theo NTP.

Độc tính sinh sản

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Độc tính sinh sản - Đánh giá	:	Các bằng chứng thu được không ủng hộ phép phân loại chất này có độc tính sinh sản

STOT - Tiếp xúc một lần

Không được phân loại dựa trên thông tin có sẵn.

STOT - Tiếp xúc lặp lại

Có thể gây tổn thương cho các cơ quan (Đường ruột) do phơi nhiễm kéo dài hoặc lặp đi lặp lại nếu nuốt phải.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Đường tiếp xúc	:	Nuốt phải
Các cơ quan đích	:	Đường ruột
Đánh giá	:	Chất hoặc hỗn hợp được phân loại là chất độc đối với các cơ quan đích cụ thể, phơi nhiễm nhiều lần, hạng 2.

Lượng độc lặp lại

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Loài	:	Chuột, Đực và cái
NOAEL	:	10 mg/kg
Lộ trình ứng dụng	:	Đường miệng
Thời gian phơi nhiễm	:	28 d
Phương pháp	:	Hướng dẫn xét nghiệm OECD 407

Độc tính hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Thông tin khác

Sản phẩm:

Ghi chú	:	Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 12. THÔNG TIN VỀ SINH THÁI

Độc môi trường

Sản phẩm:

Đánh giá độc tố sinh thái học

Nguy hại mãn tính đối với môi trường thủy sinh	:	Có hại đối với sinh vật thuỷ sinh với ảnh hưởng kéo dài.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Độc đối với cá	:	LC50 (Danio rerio (cá vằn)): 3.5 mg/l Thời gian phơi nhiễm: 96 h Phương pháp: Hướng dẫn xét nghiệm OECD 203
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 1.39 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Desmodesmus subspicatus (tảo lục)): 3.48 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201 EC10 (Desmodesmus subspicatus (tảo lục)): 0.78 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Danio rerio (cá vằn)): 0.24 mg/l Thời gian phơi nhiễm: 9 d Phương pháp: Hướng dẫn xét nghiệm OECD 212
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.119 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 211

Đánh giá độc tố sinh thái học

Nguy hại cấp tính đối với môi trường thủy sinh	:	Rất độc đối với sinh vật thuỷ sinh.
Nguy hại mãn tính đối với môi trường thủy sinh	:	Rất độc đối với sinh vật thuỷ sinh với ảnh hưởng kéo dài.

BENZYL ALCOHOL:

Độc đối với cá	:	LC50 (Pimephales promelas (cá tuế đầu to)): 460 mg/l Thời gian phơi nhiễm: 96 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 230 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Pseudokirchneriella subcapitata (tảo lục)): 770 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Cá): 48.9 mg/l Thời gian phơi nhiễm: 30 d Ghi chú: Giá trị được đặt ra dựa trên phương pháp tiếp cận SAR/AAR bằng cách sử dụng các mô hình OECD Toolbox, DEREK, VEGA QSAR (Các mô hình CAESAR), vv.

Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 51 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 211

Tính bền vững, khó phân hủy và khả năng phân hủy

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Tính phân hủy sinh học	:	Kết quả: Dễ phân huỷ sinh học. Phân hủy sinh học: 80 % Thời gian phơi nhiễm: 28 d Phương pháp: OECD Hướng dẫn xét nghiệm 301B Ghi chú: Tiêu chí 10 ngày không được thỏa mãn.

BENZYL ALCOHOL:

Tính phân hủy sinh học	:	Kết quả: Dễ phân huỷ sinh học. Phân hủy sinh học: 92 - 96 % Thời gian phơi nhiễm: 14 d Phương pháp: OECD Hướng dẫn xét nghiệm 301C

Khả năng tích lũy sinh học

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Tính tích lũy sinh học	:	Yếu tố nồng độ sinh học (BCF): 835 Phương pháp: Hướng dẫn xét nghiệm OECD 305
Hệ số phân tán: n-octanol/nước	:	log Pow: 3.29 Độ pH: 5.4

BENZYL ALCOHOL:

Tính tích lũy sinh học	:	Yếu tố nồng độ sinh học (BCF): 1.55

Độ linh động trong đất

chưa có dữ liệu

Các tác hại khác

Sản phẩm:

Có khả năng gây suy giảm tầng ozon	:	Quy định: 40 CFR Bảo vệ Môi trường; Phần 82 Bảo vệ tầng ôzôn bình lưu - CAA Phần 602 Các chất loại I Ghi chú: Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt.

A, App.A + B) .

Các thông tin sinh thái khác : Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 13. THÔNG TIN VỀ THẢI BỎ

Các biện pháp thải bỏ

Chất thải từ cặn : Không được đổ sản phẩm vào cống, rãnh, mương, máng, nơi nước chảy hoặc vứt xuống đất.
Gửi đến cho một công ty xử lý chất thải có giấy phép

Bao bì nhiễm độc : Loại bỏ như đối với sản phẩm không sử dụng.
Không tái sử dụng các thùng chứa rỗng.

Phần 14. THÔNG TIN KHI VẬN CHUYỂN

Quy định quốc gia

49 CFR

Chưa được quy định là hàng hóa nguy hiểm

Quy định Quốc tế

IATA-DGR

Chưa được quy định là hàng hóa nguy hiểm

Mã IMDG

Chưa được quy định là hàng hóa nguy hiểm

Vận chuyển trong tàu lớn theo như Phụ lục II của Công ước MARPOL 73/78 và Bộ luật IBC
Không áp dụng cho sản phẩm khi được cung cấp.

Những cảnh báo đặc biệt mà người sử dụng cần lưu ý

Ghi chú : Không bị xếp vào loại nguy hiểm hiểu theo các quy định về vận tải.

Phần 15. THÔNG TIN VỀ PHÁP LUẬT

CERCLA Số lượng báo cáo

Nguyên liệu này không chứa bất cứ thành phần thuộc quy định của CERCLA RQ.

Các hóa chất cực kỳ nguy hại SARA 304 Số lượng báo cáo

Nguyên liệu này không chứa bất cứ thành phần nào thuộc quy định của mục 304 EHS RQ.

SARA 302 Lập kế hoạch ngưỡng cho các chất cực kỳ nguy hiểm Số lượng

Vật liệu này không chứa bất kỳ thành phần nào có phần 302 EHS TPQ.

SARA 311/312 Các nguy cơ : Độc tính cơ quan mục tiêu cụ thể (phơi nhiễm đơn lẻ hoặc lặp đi lặp lại)
Tổn thương mắt nghiêm trọng hoặc kích ứng mắt

SARA 313 : Vật liệu này không chứa bất kỳ thành phần hóa học nào có số CAS được biết đến mà vượt các mức ngưỡng (De Minimis) báo cáo được lập trong SARA Mục IIII, phần 313.

Đạo luật không khí sạch

Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt. A, App.A + B) .
Sản phẩm này không chứa bất kỳ chất ô nhiễm không khí nguy hại nào (HAP) theo như Đạo luật Không khí sạch của Hoa Kỳ, mục 112 (40 CFR 61).
Sản phẩm này không chứa bất kỳ chất nào được liệt kê trong Đạo luật không khí sạch của Hoa Kỳ, Mục 112 (r) Ngăn ngừa Phát thải do sự cố (40 CFR 68.130 phần phụ F).

Phần 16. CÁC THÔNG TIN CẦN THIẾT KHÁC, BAO GỒM CÁC THÔNG TIN KHI XÂY DỰNG VÀ HIỆU ĐÍNH PHIẾU AN TOÀN HÓA CHẤT

SAFETY DATA SHEET

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	04/03/2024	00-22-410000001511	Date of first issue: 04/03/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Other means of identification : No data available

Manufacturer or supplier's details

Address : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

National Poisons Control Center : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (This telephone nuer is available during office hours only.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the Hazardous Products Regulations

Eye irritation : Category 2A

Specific target organ toxicity - repeated exposure (Oral) : Category 2 (Gastrointestinal tract)

GHS label elements

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H319 Causes serious eye irritation.
H373 May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P260 Do not breathe mist or vapors.
P264 Wash hands thoroughly after handling.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P314 Get medical advice/ attention if you feel unwell.
P337 + P313 If eye irritation persists: Get medical advice/ attention.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	Common Name/Synonym	CAS-No.	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	Quaternary ammonium compounds, C20-22-alkyltrimethyl, chlorides	68607-24-9	>= 1 - < 5 *
BENZYL ALCOHOL	benzyl alcohol	100-51-6	>= 1 - < 5 *
MYRISTYL STEARATE	tetradecyl stearate	17661-50-6	>= 1 - < 5 *

* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice : No hazards which require special first aid measures.

If inhaled : If symptoms persist, call a physician.

In case of skin contact	:	Get medical attention if irritation develops and persists.
In case of eye contact	:	Immediately flush eye(s) with plenty of water. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. Clean mouth with water and drink afterwards plenty of water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure if swallowed.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Materials to avoid	:	Do not store near acids.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
MYRISTYL STEARATE	17661-50-6	TWA	10 mg/m3	CA AB OEL
		TWAEV	10 mg/m3	CA QC OEL
		TWA (Inhalable)	10 mg/m3	CA BC OEL
		TWA (Respirable)	3 mg/m3	CA BC OEL
		TWA (Inhalable particulate matter)	10 mg/m3	ACGIH
		TWA (Respirable particulate matter)	3 mg/m3	ACGIH

Personal protective equipment

Respiratory protection	:	No personal respiratory protective equipment normally required.
Hand protection		
Remarks	:	Applicable for industrial settings only. Nitrile rubber
Eye protection	:	Applicable for industrial settings only. Safety glasses
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.

Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	liquid
Form	:	viscous liquid
Color	:	pigmented
Odor	:	characteristic
pH	:	3.5 - 4.5
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	>= 0.97 (20 °C)
Solubility(ies) Water solubility	:	soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available

Decomposition temperature	:	Not applicable
Viscosity		
Viscosity, kinematic	:	No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity	:	LD50 (Rat, female): 3,190 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity	:	LD50 (Rat, male): 1,620 mg/kg
Acute inhalation toxicity	:	LC50 (Rat, male and female): > 4,178 mg/l Exposure time: 4 h Test atmosphere: dust/mist

Method: OECD Test Guideline 403
Assessment: The substance or mixture has no acute inhalation toxicity

Skin corrosion/irritation

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Skin irritation

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

BENZYL ALCOHOL:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity	:	Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 3.5 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1.39 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): 3.48 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Desmodesmus subspicatus (green algae)): 0.78 mg/l Exposure time: 72 h

Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Danio rerio (zebra fish)): 0.24 mg/l
Exposure time: 9 d
Method: OECD Test Guideline 212

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 0.119 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 211

Ecotoxicology Assessment

Acute aquatic toxicity : Very toxic to aquatic life.

Chronic aquatic toxicity : Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)): 460 mg/l
Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 230 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Fish): 48.9 mg/l
Exposure time: 30 d
Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 51 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 211

Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 80 %
Exposure time: 28 d
Method: OECD Test Guideline 301B
Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 92 - 96 %
Exposure time: 14 d
Method: OECD Test Guideline 301C

Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Bioconcentration factor (BCF): 835
Method: OECD Test Guideline 305

Partition coefficient: n-octanol/water : log Pow: 3.29
pH: 5.4

BENZYL ALCOHOL:

Bioaccumulation : Bioconcentration factor (BCF): 1.55

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

TDG

Not regulated as a dangerous good

International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Canadian PBT Chemicals : This product does not contain any components on the DSL that are classified as Persistent, Bioaccumulative and Toxic (PBT) under CEPA.

Canadian National Pollutant Release Inventory (NPRI): No component is listed on NPRI.

SECTION 16. OTHER INFORMATION

Full text of other abbreviations

ACGIH	:	USA. ACGIH Threshold Limit Values (TLV)
CA AB OEL	:	Canada. Alberta, Occupational Health and Safety Code (table 2: OEL)

FICHE DE DONNÉES DE SÉCURITÉ

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	04/03/2024	00-22-410000001511	Date de la première parution: 04/03/2024

SECTION 1. IDENTIFICATION

Nom du produit : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Autres moyens d'identification : Donnée non disponible

Détails concernant le fabricant ou le fournisseur

Adresse : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Téléphone : 1-732-499-2745

Adresse de courrier électronique : CORPREGAFFAIRSMSDS@LOREAL.COM

Numéro de téléphone en cas d'urgence

Centre antipoison national : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (Ce numéro de téléone n'est valable que pendant les heures de bureau.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Disponible 24h/24. Les informations sur la FDS/le produit peuvent ne pas être disponibles pour le service d'urgence.)

Utilisation recommandée du produit chimique et restrictions d'utilisation

Utilisation recommandée : Produits de soins personnels destinés à un usage cosmétique.

SECTION 2. IDENTIFICATION DES DANGERS

Classement SGH en conformité avec les règlements sur les produits dangereux

Irritation occulaire : Catégorie 2A

Toxicité systémique sur un organe cible précis - exposition répétée (Oral(e)) : Catégorie 2 (Tractus gastro-intestinal)

Éléments étiquette SGH

Pictogrammes de danger :

Mot indicateur : Attention

Déclarations sur les risques : H319 Provoque une sévère irritation des yeux.
H373 Risque présumé d'effets graves pour les organes (Tractus gastro-intestinal) à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.

Déclarations sur la sécurité : P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.

Prévention:

P260 Ne pas respirer les brouillards ou les vapeurs.
P264 Se laver les mains soigneusement après manipulation.
P280 Porter un équipement de protection des yeux/ du visage.

Intervention:

P305 + P351 + P338 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P314 Demander un avis médical/ Consulter un médecin en cas de malaise.
P337 + P313 Si l'irritation des yeux persiste: Demander un avis médical/ Consulter un médecin.

Élimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

Autres dangers

Inconnu.

SECTION 3. COMPOSITION/INFORMATION SUR LES COMPOSANTS

Composants

Nom Chimique	Nom commun/Synonyme	No. CAS	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	Quaternary ammonium compounds, C20-22-alkyltrimethyl, chlorides	68607-24-9	>= 1 - < 5 *
BENZYL ALCOHOL	benzyl alcohol	100-51-6	>= 1 - < 5 *
MYRISTYL	tetradecyl stea-	17661-50-6	>= 1 - < 5 *

STEARATE	rate		

* La concentration ou la plage de concentration réelle est retenue en tant que secret industriel

SECTION 4. PREMIERS SOINS

Conseils généraux	:	Pas de dangers qui requièrent des mesures spéciales de premiers soins.
En cas d'inhalation	:	Si les symptômes persistent, consulter un médecin.
En cas de contact avec la peau	:	Faire appel à une assistance médicale si de l'irritation se développe et persiste.
En cas de contact avec les yeux	:	Rincer immédiatement l'oeil (les yeux) à grande eau. Si l'irritation oculaire persiste, consulter un médecin spécialiste.
En cas d'ingestion	:	Rincer la bouche à l'eau. Se rincer la bouche à l'eau puis boire beaucoup d'eau. Si les symptômes persistent, consulter un médecin.
Symptômes et effets les plus importants, aigus et différés	:	Provoque une sévère irritation des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.
Avis aux médecins	:	Traiter de façon symptomatique.

SECTION 5. MESURES DE LUTTE CONTRE L'INCENDIE

Moyen d'extinction approprié	:	Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement immédiat.
Moyens d'extinction inadéquats	:	Inconnu.
Dangers spécifiques pendant la lutte contre l'incendie	:	Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.
Produits de combustion dangereux	:	On ne connaît aucun produit de combustion dangereux
Autres informations	:	Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou souterraines. Procédure usuelle pour feux d'origine chimique.
Équipement de protection spécial pour les pompiers	:	Si nécessaire, porter un appareil respiratoire autonome lors de la lutte contre l'incendie.

SECTION 6. MESURES À PRENDRE EN CAS DE DÉVERSEMENT ACCIDENTEL

Précautions individuelles, équipement de protection et procédures d'urgence	:	Utiliser un équipement de protection personnelle.
Précautions pour la protection de l'environnement	:	Éviter que le produit pénètre dans les égouts. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger.
Méthodes et matières pour le confinement et le nettoyage	:	Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure). Conserver dans des récipients adaptés et fermés pour l'élimination.

SECTION 7. MANIPULATION ET ENTREPOSAGE

Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Équipement de protection individuelle, voir la section 8.
Conditions de stockage sures	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
Matières à éviter	:	Ne pas entreposer près des acides.
D'autres informations sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications.

SECTION 8. MESURES DE CONTRÔLE DE L'EXPOSITION/PROTECTION INDIVIDUELLE

Composants avec valeurs limites d'exposition professionnelle

Composants	No. CAS	Type de valeur (Type d'exposition)	Paramètres de contrôle / Concentration admissible	Base
MYRISTYL STEARATE	17661-50-6	TWA	10 mg/m3	CA AB OEL
		VEMP	10 mg/m3	CA QC OEL
		TWA (Inhalable)	10 mg/m3	CA BC OEL
		TWA (Respirable)	3 mg/m3	CA BC OEL
		TWA (Fraction inhalable)	10 mg/m3	ACGIH

		TWA (Fraction respirable)	3 mg/m3	ACGIH

Équipement de protection individuelle

Protection respiratoire : Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

Protection des mains

Remarques : Pour usage industriel seulement. Caoutchouc nitrile

Protection des yeux : Pour usage industriel seulement.
Lunettes de sécurité

Protection de la peau et du corps : Pour usage industriel seulement.
Uniforme de travail ou sarreau de laboratoire.

Mesures d'hygiène : Ne pas manger et ne pas boire pendant l'utilisation.
Ne pas fumer pendant l'utilisation.
Se laver les mains avant les pauses et à la fin de la journée.

SECTION 9. PROPRIETES PHYSIQUES ET CHIMIQUES

État physique : liquide

Forme : liquide visqueux

Couleur : pigmenté

Odeur : caractéristique

pH : 3.5 - 4.5

Point de fusion/congélation : Donnée non disponible

Point/intervalle d'ébullition : Pas disponible

Point d'éclair : > 93 °C

Méthode: ISO 3679

Point de feu : Sans objet

Limite d'explosivité, supérieure / Limite d'inflammabilité : Donnée non disponible

supérieure		
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible
Pression de vapeur	:	Donnée non disponible
Densité de vapeur relative	:	Donnée non disponible
Densité relative	:	>= 0.97 (20 °C)
Solubilité		
Solubilité dans l'eau	:	soluble
Coefficient de partage (n-octanol/eau)	:	Sans objet
Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Sans objet
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Classe d'explosivité des poussières	:	Sans objet.
Taille des particules	:	Sans objet

SECTION 10. STABILITÉ ET RÉACTIVITÉ

Réactivité	:	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
Stabilité chimique	:	Stable dans des conditions normales.
Possibilité de réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications.
Conditions à éviter	:	Donnée non disponible
Produits incompatibles	:	Sans objet
Produits de décomposition dangereux	:	Aucun produit dangereux de décomposition n'est connu.

SECTION 11. INFORMATIONS TOXICOLOGIQUES

Toxicité aiguë

Non répertorié selon les informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2,000 mg/kg
Méthode: Méthode de calcul

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité aiguë par voie orale : DL50 (Rat, femelle): 3,190 mg/kg
Méthode: Directives du test 401 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie orale

BENZYL ALCOHOL:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 1,620 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): > 4,178 mg/l
Durée d'exposition: 4 h
Atmosphère d'essai: poussières/brouillard
Méthode: Directives du test 403 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par inhalation

Corrosion et/ou irritation de la peau

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : Directives du test 404 de l'OECD
Résultat : Irritation de la peau

BENZYL ALCOHOL:

Espèce : Lapin
Méthode : Directives du test 404 de l'OECD
Résultat : Pas d'irritation de la peau

Lésion/irritation grave des yeux

Provoque une sévère irritation des yeux.

Produit:

Remarques : Peut irriter les yeux.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce	:	Lapin
Résultat	:	Des effets irréversibles aux yeux
Méthode	:	Directives du test 405 de l'OECD

BENZYL ALCOHOL:

Espèce	:	Lapin
Résultat	:	Pas d'irritation des yeux
Méthode	:	Directives du test 405 de l'OECD

Sensibilisation cutanée ou respiratoire

Sensibilisation de la peau

Non répertorié selon les informations disponibles.

Sensibilisation des voies respiratoires

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cobaye
Méthode	:	Directives du test 406 de l'OECD
Résultat	:	Ne cause pas la sensibilisation de la peau.

BENZYL ALCOHOL:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris
Méthode	:	Directives du test 429 de l'OECD
Résultat	:	Ne cause pas la sensibilisation de la peau.

Mutagénécité de la cellule germinale

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Mutagénécité de la cellule germinale - Évaluation	:	Les données ne soutiennent pas le classement comme un mutagène des cellules germinales.

Cancérogénicité

Non répertorié selon les informations disponibles.

Toxicité pour la reproduction

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour la reproduction - Évaluation	:	Le poids des données ne supporte pas la classification comme toxique pour la reproduction

STOT - exposition unique

Non répertorié selon les informations disponibles.

STOT - exposition répétée

Risque présumé d'effets graves pour les organes (Tractus gastro-intestinal) à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Ingestion
Organes cibles	:	Tractus gastro-intestinal
Évaluation	:	La substance ou le mélange est classé(e) comme agent toxique pour un organe spécifique, expositions répétées, catégorie 2.

Toxicité à dose répétée

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	10 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 d
Méthode	:	Directives du test 407 de l'OECD

Toxicité par aspiration

Non répertorié selon les informations disponibles.

Autres informations

Produit:

Remarques	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 12. INFORMATIONS ÉCOLOGIQUES

Écotoxicité

Produit:

Évaluation écotoxicologique

Toxicité chronique pour le milieu aquatique : Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour les poissons : CL50 (Danio rerio (poisson zèbre)): 3.5 mg/l
Durée d'exposition: 96 h
Méthode: Directives du test 203 de l'OECD

Toxicité pour la daphnie et les autres invertébrés aquatiques : CE50 (Daphnia magna (Puce d'eau)): 1.39 mg/l
Durée d'exposition: 48 h
Méthode: OCDE Ligne directrice 202

Toxicité pour les algues/plantes aquatiques : CE50 (Desmodesmus subspicatus (Algues vertes)): 3.48 mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

EC10 (Desmodesmus subspicatus (Algues vertes)): 0.78 mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

Toxicité pour les poissons (Toxicité chronique) : NOEC (Danio rerio (poisson zèbre)): 0.24 mg/l
Durée d'exposition: 9 d
Méthode: Directives du test 212 de l'OECD

Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique) : NOEC (Daphnia magna (Puce d'eau)): 0.119 mg/l
Durée d'exposition: 21 d
Méthode: OCDE Ligne directrice 211

Évaluation écotoxicologique

Toxicité aiguë en milieu aquatique : Très toxique pour les organismes aquatiques.

Toxicité chronique pour le milieu aquatique : Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

BENZYL ALCOHOL:

Toxicité pour les poissons : CL50 (Pimephales promelas (Vairon à grosse tête)): 460 mg/l
Durée d'exposition: 96 h

Toxicité pour la daphnie et : CE50 (Daphnia magna (Puce d'eau)): 230 mg/l

les autres invertébrés aquatiques		Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (Algues vertes)): 770 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Toxicité pour les poissons (Toxicité chronique)	:	NOEC (Poissons): 48.9 mg/l Durée d'exposition: 30 d Remarques: La valeur donnée est basée sur une approche SAR/AAR à l'aide de la boîte à outils OECD, DEREK, les modèles VEGA QSAR (modèles CAESAR), etc.
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC (Daphnia magna (Puce d'eau)): 51 mg/l Durée d'exposition: 21 d Méthode: OCDE Ligne directrice 211

Persistance et dégradabilité

Composants:

BEHENTRIMONIUM CHLORIDE:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 80 % Durée d'exposition: 28 d Méthode: Directive d'essais 301B de l'OCDE Remarques: Le critère de la fenêtre de 10 jours n'est pas atteint.

BENZYL ALCOHOL:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 92 - 96 % Durée d'exposition: 14 d Méthode: Directive d'essais 301C de l'OCDE

Potentiel bioaccumulatif

Composants:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation	:	Coefficient de bioconcentration (BCF): 835 Méthode: Directives du test 305 de l'OECD
Coefficient de partage (n-octanol/eau)	:	log Pow: 3.29 pH: 5.4

BENZYL ALCOHOL:

Bioaccumulation	:	Coefficient de bioconcentration (BCF): 1.55

Mobilité dans le sol

Donnée non disponible

Autres effets néfastes

Produit:

Information écologique supplémentaire : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 13. CONSIDERATIONS RELATIVES À L'ÉLIMINATION

Méthodes d'élimination

Déchets de résidus : Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol.
Envoyer à une entreprise autorisée de gestion des déchets.

Emballages contaminés : Éliminer comme produit non utilisé.
Ne pas réutiliser des récipients vides.

SECTION 14. INFORMATIONS RELATIVES AU TRANSPORT

Réglementation nationale

TDG

Non réglementé comme étant une marchandise dangereuse

Réglementations internationales

IATA-DGR

Non réglementé comme étant une marchandise dangereuse

Code IMDG

Non réglementé comme étant une marchandise dangereuse

Transport en vrac en vertu de l'Annexe II des règles MARPOL 73/78 et du code IBC

Non applicable pour le produit tel qu'il est fourni.

Précautions spéciales pour les utilisateurs

Remarques : Produit non dangereux au sens des règlements de transport.

SECTION 15. INFORMATIONS RÉGLEMENTAIRES

Produits chimiques PBT au Canada : Ce produit ne contient pas de composants inscrits sur la LIS qui sont classés comme substances persistantes, bioaccumulables et toxiques (PBT) sous la LCPE.

Inventaire National Canadien des Rejets de Polluants (INRP): Aucun composé ne fait partie de la liste de l'INRP.

SECTION 16. AUTRES INFORMATIONS

Texte complet d'autres abréviations

ACGIH	:	États-Unis. ACGIH, valeurs limites d'exposition (TLV)
CA AB OEL	:	Canada. Alberta, Code de santé et de sécurité au travail (tableau 2 : VLE)
CA BC OEL	:	Canada. LEP Colombie Britannique
CA QC OEL	:	Québec. Règlement sur la santé et la sécurité du travail, Annexe 1 Partie 1: Valeurs d'exposition admissibles des contaminants de l'air
ACGIH / TWA	:	Moyenne pondérée dans le temps de 8 h
CA AB OEL / TWA	:	Limite d'exposition professionnelle de 8 heures
CA BC OEL / TWA	:	Moyenne pondérée dans le temps de 8 h
CA QC OEL / VEMP	:	Valeur d'exposition moyenne pondérée

SAFETY DATA SHEET
according to Regulation (EC) No. 1907/2006

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	03.04.2024	00-22-410000001511	Date of first issue: 03.04.2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Personal care product used for cosmetic effect.

1.3 Details of the supplier of the safety data sheet

Company : L'Oreal SA
14, Rue Royale
75008Paris
France

Telephone : +17324992745

E-mail address of person responsible for the SDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Emergency telephone

National Poisons Control Center : ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Eye irritation, Category 2	H319: Causes serious eye irritation.
Long-term (chronic) aquatic hazard, Category 3	H412: Harmful to aquatic life with long lasting effects.

2.2 Label elements

Labeling (REGULATION (EC) No 1272/2008)

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H319 Causes serious eye irritation.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements : P102 Keep out of reach of children.

Prevention:

P264 Wash hands thoroughly after handling.
P273 Avoid release to the environment.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	Skin Irrit. 2; H315	>= 1 - < 2,5

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice : No hazards which require special first aid measures.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : Get medical attention if irritation develops and persists.

In case of eye contact : Immediately flush eye(s) with plenty of water.
If eye irritation persists, consult a specialist.

If swallowed : Rinse mouth with water.
Clean mouth with water and drink afterwards plenty of water.
If symptoms persist, call a physician.

4.2 Most important symptoms and effects, both acute and delayed

Risks : Causes serious eye irritation.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media : None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.

Hazardous combustion products : No hazardous combustion products are known.

5.3 Advice for firefighters

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

Further information : Prevent fire extinguishing water from contaminating surface water or the ground water system.

Standard procedure for chemical fires.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : Use personal protective equipment.

6.2 Environmental precautions

Environmental precautions : Prevent product from entering drains.
Prevent further leakage or spillage if safe to do so.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up : Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling : Avoid contact with eyes.
For personal protection see section 8.

Advice on protection against fire and explosion : Normal measures for preventive fire protection.

Hygiene measures : When using do not eat or drink. When using do not smoke.
Wash hands before breaks and at the end of workday.

Dust explosion class : Not applicable

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers : Keep container tightly closed in a dry and well-ventilated place.

Advice on common storage : Do not store near acids.

Further information on storage stability : No decomposition if stored and applied as directed.

7.3 Specific end use(s)

Specific use(s) : Personal care product used for cosmetic effect.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Personal protective equipment

Eye/face protection : Applicable for industrial settings only.
Safety glasses

Hand protection

Remarks : Applicable for industrial settings only. Nitrile rubber

Skin and body protection : Applicable for industrial settings only.
Work uniform or laboratory coat.

Respiratory protection : No personal respiratory protective equipment normally required.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state : liquid

Form : viscous liquid

Color : pigmented

Odor : characteristic

Melting point/freezing point : No data available

Boiling point/boiling range : Not available

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit	:	No data available
Flash point	:	> 93 °C Method: ISO 3679
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
pH	:	3,5 - 4,5
Viscosity		
Viscosity, kinematic	:	No data available
Solubility(ies)		
Water solubility	:	soluble
Partition coefficient: n-octanol/water	:	Not applicable
Vapor pressure	:	No data available
Relative density	:	>= 0,97 (20 °C)
Relative vapor density	:	No data available
Particle characteristics		
Particle size	:	Not applicable

9.2 Other information

Fire Point	:	Not applicable
Dust explosion class	:	Not applicable

SECTION 10: Stability and reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : No decomposition if stored and applied as directed.

10.4 Conditions to avoid

Conditions to avoid : No data available

10.5 Incompatible materials

Materials to avoid : Not applicable

10.6 Hazardous decomposition products

No hazardous decomposition products are known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity : Acute toxicity estimate: > 2.000 mg/kg
Method: Calculation method

Acute inhalation toxicity : Acute toxicity estimate: > 20 mg/l
Exposure time: 4 h
Test atmosphere: vapor
Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity : LD50 (Rat, female): 3.190 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity : LD50 (Rat, male): 1.620 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): > 4.178 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403
Assessment: The substance or mixture has no acute inhalation toxicity

BASIC YELLOW 87:

Acute oral toxicity : LD50 (Rat, male and female): 1.000 mg/kg
Method: OECD Test Guideline 420

BASIC RED 51:

Acute oral toxicity : LD50 (Rat, male and female): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Acute oral toxicity : LD50 (Rat, male and female): > 2.000 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

Acute dermal toxicity : LD50 (Rabbit, male and female): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Acute oral toxicity : LD50 (Rat, female): 1.150 mg/kg
Method: OECD Test Guideline 401

Acute toxicity estimate: 1.150 mg/kg
Method: Calculation method

Skin corrosion/irritation

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Species : Rabbit
Method : OECD Test Guideline 404
Result : Skin irritation

BENZYL ALCOHOL:

Species : Rabbit
Method : OECD Test Guideline 404
Result : No skin irritation

BASIC YELLOW 87:

Species : Rabbit
Result : No skin irritation

BASIC RED 51:

Species : reconstructed human epidermis (RhE)
Method : OECD Test Guideline 439
Result : Skin irritation

HC BLUE NO. 15:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CHLORHEXIDINE DIGLUCONATE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 1 to 4 hours of exposure

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	Irreversible effects on the eye

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	No eye irritation

BASIC YELLOW 87:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	No eye irritation

BASIC RED 51:

Species	:	Reconstructed Human Cornea-like Epithelium (RhCE)
Result	:	Eye irritation

HC BLUE NO. 15:

Species	:	Rabbit

Method	:	OECD Test Guideline 405
Result	:	Risk of serious damage to eyes.

CHLORHEXIDINE DIGLUCONATE:

Method	:	OECD Test Guideline 405
Result	:	Irreversible effects on the eye

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	Irreversible effects on the eye

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

BASIC YELLOW 87:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BASIC RED 51:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

HC BLUE NO. 15:

Routes of exposure	:	Skin contact
Species	:	Mouse
Assessment	:	Does not cause skin sensitization.
Method	:	OECD Test Guideline 429

CHLORHEXIDINE DIGLUCONATE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

CETRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity- Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ

toxicant, repeated exposure, category 2.

HC BLUE NO. 15:

Routes of exposure	:	Ingestion
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

HC BLUE NO. 15:

Species	:	Rat, male and female
NOAEL	:	4 mg/kg
Application Route	:	Oral
Exposure time	:	92
Method	:	OECD Test Guideline 408

Aspiration toxicity

Not classified based on available information.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment	:	The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1 Toxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity : Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 3,5 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,39 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): 3,48 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Desmodesmus subspicatus (green algae)): 0,78 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC: 0,24 mg/l Exposure time: 9 d Species: Danio rerio (zebra fish) Method: OECD Test Guideline 212
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,119 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

Ecotoxicology Assessment

Acute aquatic toxicity : Very toxic to aquatic life.

Chronic aquatic toxicity	:	Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 460 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 230 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC: 48,9 mg/l Exposure time: 30 d Species: Fish Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 51 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211

BASIC YELLOW 87:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,6 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,28 - 0,31 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOEC (Pseudokirchneriella subcapitata (green algae)): 0,025 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

BASIC RED 51:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,37 - 0,54 mg/l Exposure time: 48 h
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,24 - 0,26 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

HC BLUE NO. 15:

Toxicity to fish	:	LC50 (Fish): 0,09 mg/l Exposure time: 96 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): Exposure time: 48 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to algae/aquatic plants	:	EC50 (algae): 6,9 mg/l Exposure time: 72 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
M-Factor (Acute aquatic toxicity)	:	10
M-Factor (Chronic aquatic toxicity)	:	10

CHLORHEXIDINE DIGLUCONATE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2,08 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,087 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,019 mg/l

		Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Pseudokirchneriella subcapitata (green algae)): 0,013 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC: 0,012 mg/l Exposure time: 28 d Species: Fish Method: OECD Test Guideline 215
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,02 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

CETRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 0,21 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,012 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,113 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0,068 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC: 0,032 mg/l Exposure time: 34 d Species: Pimephales promelas (fathead minnow)

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,00415 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

12.2 Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability	:	Result: Readily biodegradable. Biodegradation: 80 % Exposure time: 28 d Method: OECD Test Guideline 301B Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability	:	Result: Readily biodegradable. Biodegradation: 92 - 96 % Exposure time: 14 d Method: OECD Test Guideline 301C

BASIC YELLOW 87:

Biodegradability	:	Result: Inherently biodegradable. Biodegradation: 21,6 % Exposure time: 28 d

BASIC RED 51:

Biodegradability	:	Result: Not readily biodegradable. Biodegradation: 4 % Exposure time: 28 d Method: OECD Test Guideline 301B

HC BLUE NO. 15:

Biodegradability	:	Result: Not readily biodegradable.

CHLORHEXIDINE DIGLUCONATE:

Biodegradability	:	Result: Not inherently biodegradable. Biodegradation: 2,2 % Exposure time: 60 d Method: OECD Test Guideline 301B

CETRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 98,5 %
Exposure time: 42 d
Method: OECD Test Guideline 301D

12.3 Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Bioconcentration factor (BCF): 835
Method: OECD Test Guideline 305

Partition coefficient: n-octanol/water : log Pow: 3,29
pH: 5,4

BENZYL ALCOHOL:

Bioaccumulation : Bioconcentration factor (BCF): 1,55

BASIC YELLOW 87:

Partition coefficient: n-octanol/water : log Pow: -1,69
Method: OECD Test Guideline 107

CHLORHEXIDINE DIGLUCONATE:

Bioaccumulation : Bioconcentration factor (BCF): 42

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment : This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Endocrine disrupting properties

Product:

Assessment : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7 Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14: Transport information

14.1 UN number or ID number

ADN : Not regulated as a dangerous good

ADR : Not regulated as a dangerous good

RID : Not regulated as a dangerous good

IMDG : Not regulated as a dangerous good

IATA : Not regulated as a dangerous good

14.2 UN proper shipping name

ADN : Not regulated as a dangerous good

ADR : Not regulated as a dangerous good

RID : Not regulated as a dangerous good

IMDG : Not regulated as a dangerous good

IATA : Not regulated as a dangerous good

14.3 Transport hazard class(es)

ADN : Not regulated as a dangerous good

ADR : Not regulated as a dangerous good

RID : Not regulated as a dangerous good

IMDG : Not regulated as a dangerous good

IATA : Not regulated as a dangerous good

14.4 Packing group

ADN	:	Not regulated as a dangerous good
ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA (Cargo)	:	Not regulated as a dangerous good
IATA (Passenger)	:	Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks	:	Not classified as dangerous in the meaning of transport regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	:	Conditions of restriction for the following entries should be considered: Number on list 3 PHENOXYETHANOL (Number on list 3)
REACH - Candidate List of Substances of Very High Concern for Authorization (Article 59).	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
Regulation (EU) 2019/1021 on persistent organic pollutants (recast)	:	Not applicable
Regulation (EC) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals	:	Not applicable
REACH - List of substances subject to authorisation (Annex XIV)	:	Not applicable

Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances.	Not applicable

Reinforced medical supervision (R4624-18) : The product has no CMR properties

15.2 Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this mixture.

SECTION 16: Other information

Full text of H-Statements

H302	:	Harmful if swallowed.
H314	:	Causes severe skin burns and eye damage.
H315	:	Causes skin irritation.
H318	:	Causes serious eye damage.
H319	:	Causes serious eye irritation.
H332	:	Harmful if inhaled.
H373	:	May cause damage to organs through prolonged or repeated exposure if swallowed.
H400	:	Very toxic to aquatic life.
H410	:	Very toxic to aquatic life with long lasting effects.

Full text of other abbreviations

Acute Tox.	:	Acute toxicity
Aquatic Acute	:	Short-term (acute) aquatic hazard
Aquatic Chronic	:	Long-term (chronic) aquatic hazard
Eye Dam.	:	Serious eye damage
Eye Irrit.	:	Eye irritation
Skin Corr.	:	Skin corrosion
Skin Irrit.	:	Skin irritation
STOT RE	:	Specific target organ toxicity - repeated exposure

ADN - European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways; ADR - Agreement concerning the International Carriage of Dangerous Goods by Road; AIIC - Australian Inventory of Industrial Chemicals; ASTM - American Society for the Testing of Materials; bw - Body weight; CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECHA - European Chemicals Agency; EC-Number - European Community number; ECx - Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships car-

rying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RID - Regulations concerning the International Carriage of Dangerous Goods by Rail; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; SVHC - substance of very high concern; TCSI - Taiwan Chemical Substance Inventory; TECI - Thailand Existing Chemicals Inventory; TRGS - Technical Rule for Hazardous Substances; TSCA - Toxic Substances Control Act (United States); UN - United Nations; vPvB - Very Persistent and Very Bioaccumulative

Further information

Other information : The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

FICHE DE DONNÉES DE SÉCURITÉ
conformément au Règlement (CE) No. 1907/2006

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	03.04.2024	00-22-410000001511	Date de la première version publiée: 03.04.2024

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1 Identificateur de produit

Nom commercial : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

1.2 Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisation de la substance/du mélange : Produits de soins personnels destinés à un usage cosmétique.

1.3 Renseignements concernant le fournisseur de la fiche de données de sécurité

Société : L'Oreal SA
14, Rue Royale
75008Paris
France

Téléphone : +17324992745

Adresse e-mail de la personne responsable de FDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Numéro d'appel d'urgence

Centre d'information antipoison national : ORFILA number (INRS): + 33 (0) 1 45 42 59 59 ((Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

INFOTRAC : +1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1 Classification de la substance ou du mélange

Classification (RÈGLEMENT (CE) No 1272/2008)

Irritation oculaire, Catégorie 2	H319: Provoque une sévère irritation des yeux.
Danger à long terme (chronique) pour le milieu aquatique, Catégorie 3	H412: Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

2.2 Éléments d'étiquetage

Étiquetage (RÈGLEMENT (CE) No 1272/2008)

Pictogrammes de danger :

Mention d'avertissement : Attention

Mentions de danger :
H319 Provoque une sévère irritation des yeux.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Conseils de prudence :
P102 Tenir hors de portée des enfants.

Prévention:

P264 Se laver les mains soigneusement après manipulation.
P273 Éviter le rejet dans l'environnement.
P280 Porter un équipement de protection des yeux/ du visage.

Intervention:

P305 + P351 + P338 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.

Elimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

2.3 Autres dangers

Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

Informations écologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Informations toxicologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2 Mélanges

Composants

Pour l'explication des abréviations voir rubrique 16.

RUBRIQUE 4: Premiers secours

4.1 Description des premiers secours

Conseils généraux : Pas de dangers qui requièrent des mesures spéciales de premiers secours.

En cas d'inhalation : Si les troubles se prolongent, consulter un médecin.

En cas de contact avec la peau : Si une irritation se développe et persiste, consulter un médecin.

En cas de contact avec les yeux : Rincer immédiatement l'oeil (les yeux) à grande eau.
Si l'irritation oculaire persiste, consulter un médecin spécialiste.

En cas d'ingestion : Se rincer la bouche à l'eau.
Se rincer la bouche à l'eau puis boire beaucoup d'eau.
Si les troubles se prolongent, consulter un médecin.

4.2 Principaux symptômes et effets, aigus et différés

Risques : Provoque une sévère irritation des yeux.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Traitement : Traiter de façon symptomatique.

RUBRIQUE 5: Mesures de lutte contre l'incendie

5.1 Moyens d'extinction

Moyens d'extinction appropriés : Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement proche.

Moyens d'extinction inappropriés : Aucun(e) à notre connaissance.

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers spécifiques pendant la lutte contre l'incendie : Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.

Produits de combustion dangereux : On ne connaît aucun produit de combustion dangereux

5.3 Conseils aux pompiers

Équipements de protection particuliers des pompiers : Porter un appareil de protection respiratoire autonome pour la lutte contre l'incendie, si nécessaire.

Information supplémentaire : Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou le réseau d'alimentation souterrain.
Procédure standard pour feux d'origine chimique.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1 Précautions individuelles, équipement de protection et procédures d'urgence

Précautions individuelles : Utiliser un équipement de protection individuelle.

6.2 Précautions pour la protection de l'environnement

Précautions pour la protection de l'environnement : Éviter que le produit pénètre dans les égouts.
Éviter tout déversement ou fuite supplémentaire, si cela est possible en toute sécurité.

6.3 Méthodes et matériel de confinement et de nettoyage

Méthodes de nettoyage : Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure).
Conserver dans des récipients adaptés et fermés pour l'élimi-

nation.

6.4 Référence à d'autres rubriques

Voir les rubriques: 7, 8, 11, 12 et 13.

RUBRIQUE 7: Manipulation et stockage

7.1 Précautions à prendre pour une manipulation sans danger

Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Pour l'équipement de protection individuel, voir rubrique 8.
Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Mesures d'hygiène	:	Ne pas manger et ne pas boire pendant l'utilisation. Ne pas fumer pendant l'utilisation. Se laver les mains avant les pauses et à la fin de la journée de travail.
Classe d´explosibilité de poussière	:	Sans objet.

7.2 Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Exigences concernant les aires de stockage et les conteneurs	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
Précautions pour le stockage en commun	:	Ne pas entreposer près des acides.
Pour en savoir plus sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

7.3 Utilisation(s) finale(s) particulière(s)

Utilisation(s) particulière(s)	:	Produits de soins personnels destinés à un usage cosmétique.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Ne contient pas de substances avec des valeurs limites d'exposition professionnelle.

8.2 Contrôles de l'exposition

Équipement de protection individuelle

Protection des yeux/du visage	:	Pour usage industriel seulement. Lunettes de sécurité
Protection des mains		
Remarques	:	Pour usage industriel seulement. Caoutchouc nitrile
Protection de la peau et du corps	:	Pour usage industriel seulement. Uniforme de travail ou veste de laboratoire.
Protection respiratoire	:	Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques essentielles

Etat physique	:	liquide
Forme	:	liquide visqueux
Couleur	:	pigmenté
Odeur	:	caractéristique
Point de fusion/point de congélation	:	Donnée non disponible
Point/intervalle d'ébullition	:	Pas disponible
Limite d'explosivité, supérieure / Limite d'inflammabilité supérieure	:	Donnée non disponible
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible
Point d'éclair	:	> 93 °C Méthode: ISO 3679

Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Non applicable
pH	:	3,5 - 4,5
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Solubilité(s)		
Hydrosolubilité	:	soluble
Coefficient de partage: n-octanol/eau	:	Non applicable
Pression de vapeur	:	Donnée non disponible
Densité relative	:	>= 0,97 (20 °C)
Densité de vapeur relative	:	Donnée non disponible
Caractéristiques de la particule		
Taille des particules	:	Non applicable

9.2 Autres informations

Point d'inflammation	:	Non applicable
Classe d´explosibilité de poussière	:	Sans objet.

RUBRIQUE 10: Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.2 Stabilité chimique

Stable dans des conditions normales.

10.3 Possibilité de réactions dangereuses

Réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

10.4 Conditions à éviter

Conditions à éviter	:	Donnée non disponible

10.5 Matières incompatibles

Matières à éviter : Non applicable

10.6 Produits de décomposition dangereux

On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

11.1 Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë

Non classé sur la base des informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2.000 mg/kg
Méthode: Méthode de calcul

Toxicité aiguë par inhalation : Estimation de la toxicité aiguë: > 20 mg/l
Durée d'exposition: 4 h
Atmosphère de test: vapeur
Méthode: Méthode de calcul

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité aiguë par voie orale : DL50 (Rat, femelle): 3.190 mg/kg
Méthode: OCDE ligne directrice 401
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

BENZYL ALCOHOL:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 1.620 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): > 4.178 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard
Méthode: OCDE ligne directrice 403
Evaluation: La substance ni le mélange ne présente une toxicité aiguë par inhalation

BASIC YELLOW 87:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 1.000 mg/kg
Méthode: OCDE ligne directrice 420

BASIC RED 51:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): > 2.000 mg/kg
Méthode: OCDE ligne directrice 401
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par voie cutanée : DL50 (Lapin, mâle et femelle): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Toxicité aiguë par voie orale : DL50 (Rat, femelle): 1.150 mg/kg
Méthode: OCDE ligne directrice 401

Estimation de la toxicité aiguë: 1.150 mg/kg
Méthode: Méthode de calcul

Corrosion cutanée/irritation cutanée

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Irritation de la peau

BENZYL ALCOHOL:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Pas d'irritation de la peau

BASIC YELLOW 87:

Espèce : Lapin
Résultat : Pas d'irritation de la peau

BASIC RED 51:

Espèce : Epiderme humain reconstitué (RHE)
Méthode : OCDE ligne directrice 439
Résultat : Irritation de la peau

HC BLUE NO. 15:

Espèce : Lapin
Méthode : OCDE ligne directrice 404

Résultat : Pas d'irritation de la peau

CHLORHEXIDINE DIGLUCONATE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Pas d'irritation de la peau

CETRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Corrosif après 1 à 4 heures d'exposition

Lésions oculaires graves/irritation oculaire

Provoque une sévère irritation des yeux.

Produit:

Remarques : Peut irriter les yeux.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Effets irréversibles sur les yeux

BENZYL ALCOHOL:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Pas d'irritation des yeux

BASIC YELLOW 87:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Pas d'irritation des yeux

BASIC RED 51:

Espèce : Épithélium cornéen humain reconstruit (RhCE)
Résultat : Irritation des yeux

HC BLUE NO. 15:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Risque de lésions oculaires graves.

CHLORHEXIDINE DIGLUCONATE:

Méthode	:	OCDE ligne directrice 405
Résultat	:	Effets irréversibles sur les yeux

CETRIMONIUM CHLORIDE:

Espèce	:	Lapin
Méthode	:	OCDE ligne directrice 405
Résultat	:	Effets irréversibles sur les yeux

Sensibilisation respiratoire ou cutanée

Sensibilisation cutanée

Non classé sur la base des informations disponibles.

Sensibilisation respiratoire

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

BENZYL ALCOHOL:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris
Méthode	:	OCDE ligne directrice 429
Résultat	:	Ne provoque pas de sensibilisation de la peau.

BASIC YELLOW 87:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

BASIC RED 51:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

HC BLUE NO. 15:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris

Evaluation	:	Ne provoque pas de sensibilisation de la peau.
Méthode	:	OCDE ligne directrice 429

CHLORHEXIDINE DIGLUCONATE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

CETRIMONIUM CHLORIDE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

Mutagénicité sur les cellules germinales

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Mutagénicité sur les cellules germinales- Evaluation	:	L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

Cancérogénicité

Non classé sur la base des informations disponibles.

Toxicité pour la reproduction

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour la reproduction - Evaluation	:	Les éléments de preuve apportés ne permettent pas le classement comme toxique pour la reproduction

Toxicité spécifique pour certains organes cibles - exposition unique

Non classé sur la base des informations disponibles.

Toxicité spécifique pour certains organes cibles - exposition répétée

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Ingestion
Organes cibles	:	Appareil gastro-intestinal
Evaluation	:	La substance ou le mélange est classé comme toxique spécifique pour un organe cible, exposition répétée, catégorie 2.

HC BLUE NO. 15:

Voies d'exposition	:	Ingestion
Evaluation	:	La substance ou le mélange est classé comme toxique spécifique pour un organe cible, exposition répétée, catégorie 2.

Toxicité à dose répétée

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	10 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 jr
Méthode	:	OCDE ligne directrice 407

HC BLUE NO. 15:

Espèce	:	Rat, mâle et femelle
NOAEL	:	4 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	92
Méthode	:	OCDE ligne directrice 408

Toxicité par aspiration

Non classé sur la base des informations disponibles.

11.2 Informations sur les autres dangers

Propriétés perturbant le système endocrinien

Produit:

Evaluation	:	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Information supplémentaire

Produit:

Remarques	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 12: Informations écologiques

12.1 Toxicité

Produit:

Évaluation Ecotoxicologique

Toxicité chronique pour le milieu aquatique	:	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 3,5 mg/l Durée d'exposition: 96 h Méthode: OCDE ligne directrice 203
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 1,39 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Desmodesmus subspicatus (Algue verte)): 3,48 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201 EC10 (Desmodesmus subspicatus (algues vertes)): 0,78 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Facteur M (Toxicité aiguë pour le milieu aquatique)	:	1
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 0,24 mg/l Durée d'exposition: 9 jr Espèce: Danio rerio (poisson zèbre) Méthode: OCDE ligne directrice 212
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,119 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 211
Facteur M (Toxicité chronique pour le milieu aquatique)	:	1

Évaluation Ecotoxicologique

Toxicité aiguë pour le milieu aquatique	:	Très toxique pour les organismes aquatiques.

Toxicité chronique pour le milieu aquatique	:	Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

BENZYL ALCOHOL:

Toxicité pour les poissons	:	CL50 (Pimephales promelas (Vairon à grosse tête)): 460 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 230 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (algues vertes)): 770 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 48,9 mg/l Durée d'exposition: 30 jr Espèce: Poisson Remarques: La valeur est donnée basée sur une approche SAR/AAR en utilisant la boîte à outils de l'OCDE, DEREK, les modèles QSAR VEGA (modèles CAESAR), etc.
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 51 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 211

BASIC YELLOW 87:

Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 1,6 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (algues vertes)): 0,28 - 0,31 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201 NOEC (Pseudokirchneriella subcapitata (algues vertes)): 0,025 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201

12.2 Persistance et dégradabilité

Composants:

BEHENTRIMONIUM CHLORIDE:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 80 % Durée d'exposition: 28 jr Méthode: OCDE Ligne directrice 301 B Remarques: Le critère de la fenêtre de 10 jours n'est pas respecté.

BENZYL ALCOHOL:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 92 - 96 % Durée d'exposition: 14 jr Méthode: OCDE Ligne directrice 301 C

BASIC YELLOW 87:

Biodégradabilité	:	Résultat: Intrinsèquement biodégradable. Biodégradation: 21,6 % Durée d'exposition: 28 jr

BASIC RED 51:

Biodégradabilité	:	Résultat: Difficilement biodégradable. Biodégradation: 4 % Durée d'exposition: 28 jr Méthode: OCDE Ligne directrice 301 B

HC BLUE NO. 15:

Biodégradabilité : Résultat: Difficilement biodégradable.

CHLORHEXIDINE DIGLUCONATE:

Biodégradabilité : Résultat: N'est pas intrinsèquement biodégradable.
Biodégradation: 2,2 %
Durée d'exposition: 60 jr
Méthode: OCDE Ligne directrice 301 B

CETRIMONIUM CHLORIDE:

Biodégradabilité : Résultat: Facilement biodégradable.
Biodégradation: 98,5 %
Durée d'exposition: 42 jr
Méthode: OCDE ligne directrice 301D

12.3 Potentiel de bioaccumulation

Composants:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Facteur de bioconcentration (FBC): 835
Méthode: OCDE ligne directrice 305

Coefficient de partage: n-octanol/eau : log Pow: 3,29
pH: 5,4

BENZYL ALCOHOL:

Bioaccumulation : Facteur de bioconcentration (FBC): 1,55

BASIC YELLOW 87:

Coefficient de partage: n-octanol/eau : log Pow: -1,69
Méthode: OCDE ligne directrice 107

CHLORHEXIDINE DIGLUCONATE:

Bioaccumulation : Facteur de bioconcentration (FBC): 42

12.4 Mobilité dans le sol

Donnée non disponible

12.5 Résultats des évaluations PBT et vPvB

Produit:

Evaluation : Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

12.6 Propriétés perturbant le système endocrinien

Produit:

Evaluation : La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

12.7 Autres effets néfastes

Produit:

Information écologique supplémentaire : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 13: Considérations relatives à l'élimination

13.1 Méthodes de traitement des déchets

Produit : Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol.
Envoyer à une entreprise autorisée à gérer les déchets.

Emballages contaminés : Eliminer comme produit non utilisé.
Ne pas réutiliser des récipients vides.

RUBRIQUE 14: Informations relatives au transport

14.1 Numéro ONU ou numéro d'identification

ADN : Non réglementé comme étant une marchandise dangereuse

ADR : Non réglementé comme étant une marchandise dangereuse

RID : Non réglementé comme étant une marchandise dangereuse

IMDG : Non réglementé comme étant une marchandise dangereuse

IATA : Non réglementé comme étant une marchandise dangereuse

14.2 Désignation officielle de transport de l'ONU

ADN : Non réglementé comme étant une marchandise dangereuse

ADR : Non réglementé comme étant une marchandise dangereuse

RID : Non réglementé comme étant une marchandise dangereuse

IMDG : Non réglementé comme étant une marchandise dangereuse

IATA : Non réglementé comme étant une marchandise dangereuse

14.3 Classe(s) de danger pour le transport

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.4 Groupe d'emballage

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA (Cargo)	:	Non réglementé comme étant une marchandise dangereuse
IATA (Passager)	:	Non réglementé comme étant une marchandise dangereuse

14.5 Dangers pour l'environnement

Non réglementé comme étant une marchandise dangereuse

14.6 Précautions particulières à prendre par l'utilisateur

Remarques	:	Produit non dangereux au sens des réglementations pour le transport.

14.7 Transport maritime en vrac conformément aux instruments de l'OMI

Non applicable pour le produit tel qu'il est fourni.

RUBRIQUE 15: Informations relatives à la réglementation

15.1 Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

REACH - Restrictions applicables à la fabrication, à la mise sur le marché et à l'utilisation de certaines substances dangereuses et de certains mélanges et articles dangereux (Annexe XVII)	:	Les conditions de limitation pour les entrées suivantes doivent être prises en compte: Numéro sur la liste 3 PHENOXYETHANOL (Numéro sur la liste 3)
REACH - Listes des substances extrêmement préoccupantes candidates en vue d'une autorisation (Article 59).	:	Non applicable
Règlement (CE) Nº 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone	:	Non applicable

Règlement (UE) 2019/1021 concernant les polluants organiques persistants (refonte)	:	Non applicable
Règlement (CE) Nº 649/2012 du Parlement européen et du Conseil concernant les exportations et importations de produits chimiques dangereux	:	Non applicable
REACH - Liste des substances soumises à autorisation (Annexe XIV)	:	Non applicable
Seveso III: Directive 2012/18/UE du Parlement européen et du Conseil concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses.		Non applicable
Surveillance médicale renforcée (R4624-18)	:	Le produit n'a pas de propriétés CMR

15.2 Évaluation de la sécurité chimique

Aucune évaluation de la sécurité chimique n'a été réalisée pour ce mélange.

RUBRIQUE 16: Autres informations

Texte complet pour phrase H

H302	:	Nocif en cas d'ingestion.
H314	:	Provoque de graves brûlures de la peau et de graves lésions des yeux.
H315	:	Provoque une irritation cutanée.
H318	:	Provoque de graves lésions des yeux.
H319	:	Provoque une sévère irritation des yeux.
H332	:	Nocif par inhalation.
H373	:	Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.
H400	:	Très toxique pour les organismes aquatiques.
H410	:	Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Texte complet pour autres abréviations

Acute Tox.	:	Toxicité aiguë
Aquatic Acute	:	Danger à court terme (aigu) pour le milieu aquatique
Aquatic Chronic	:	Danger à long terme (chronique) pour le milieu aquatique
Eye Dam.	:	Lésions oculaires graves
Eye Irrit.	:	Irritation oculaire
Skin Corr.	:	Corrosion cutanée
Skin Irrit.	:	Irritation cutanée
STOT RE	:	Toxicité spécifique pour certains organes cibles - exposition

SAFETY DATA SHEET

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	2024.04.03	00-22-410000001511	Date of first issue: 2024.04.03

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Manufacturer or supplier's details

Company : Procosa SP - Procosa Produtos de beleza LTDA
Address : Rua Manoel Monteiro de Araújo
1350 - Parque Sao Domingos
São Paulo - SP 02675-031
Brazil

Telephone : +55 21 4505-0000

E-mail address : NACORPEUROPESDSREQUEST@LOREAL.COM

Emergency telephone

National Poisons Control Center :
INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification in accordance with ABNT NBR 14725 Standard

Skin irritation : Category 3

Eye irritation : Category 2A

Short-term (acute) aquatic hazard : Category 2

Long-term (chronic) aquatic hazard : Category 3

GHS label elements in accordance with ABNT NBR 14725 Standard

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H316 Causes mild skin irritation.
H319 Causes serious eye irritation.
H401 Toxic to aquatic life.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements : P102 Keep out of reach of children.

Prevention:

P273 Avoid release to the environment.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists: Get medical advice/ attention.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards which do not result in classification

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Classification	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	Skin irritation, Category 2 Serious eye damage, Category 1 Specific target organ toxicity - repeated exposure (Oral) (Gastrointestinal tract), Category 2 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 1 -< 2,5
BENZYL ALCOHOL	100-51-6	Acute toxicity (Oral), Category 4 Acute toxicity (Inhalation), Category 4	>= 1 -< 5
MYRISTYL STEARATE	17661-50-6		>= 1 -< 5

BASIC YELLOW 87	68259-00-7	Acute toxicity (Oral), Category 4 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,25 -< 1
BASIC RED 51	77061-58-6	Acute toxicity (Oral), Category 4 Skin irritation, Category 2 Eye irritation, Category 2A Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,1 -< 0,25
HC BLUE NO. 15	74578-10-2	Serious eye damage, Category 1 Specific target organ toxicity - repeated exposure (Oral), Category 2 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,025 -< 0,1
CHLORHEXIDINE DIGLUCONATE	18472-51-0	Serious eye damage, Category 1 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,025 -< 0,1
CETRIMONIUM CHLORIDE	112-02-7	Acute toxicity (Oral), Category 4 Skin corrosion, Category 1C Serious eye damage, Category 1 Short-term (acute)	>= 0,0025 -< 0,025

		aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	

SECTION 4. FIRST AID MEASURES

General advice	:	No hazards which require special first aid measures.
If inhaled	:	If symptoms persist, call a physician.
In case of skin contact	:	Get medical attention if irritation develops and persists.
In case of eye contact	:	Immediately flush eye(s) with plenty of water. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. Clean mouth with water and drink afterwards plenty of water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes mild skin irritation. Causes serious eye irritation.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Specific extinguishing methods	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Materials to avoid	:	Do not store near acids.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
MYRISTYL STEARATE	17661-50-6	TWA (Inhalable particulate matter)	10 mg/m3	ACGIH
		TWA (Respirable particulate matter)	3 mg/m3	ACGIH

Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally re-

quired.

Hand protection

Remarks	:	Applicable for industrial settings only. Nitrile rubber
Eye protection	:	Applicable for industrial settings only. Safety glasses
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	liquid
Form	:	viscous liquid
Color	:	pigmented
Odor	:	characteristic
pH	:	3,5 - 4,5
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	>= 0,97 (20 °C)

Solubility(ies)		
Water solubility	:	soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity		
Viscosity, kinematic	:	No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 5.000 mg/kg Method: Calculation method
Acute inhalation toxicity	:	Acute toxicity estimate: > 40 mg/l Exposure time: 4 h Test atmosphere: vapor Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity	:	LD50 (Rat, female): 3.190 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity	:	LD50 (Rat, male): 1.620 mg/kg
Acute inhalation toxicity	:	LC50 (Rat, male and female): > 4.178 mg/l Exposure time: 4 h Test atmosphere: dust/mist Method: OECD Test Guideline 403 Assessment: The substance or mixture has no acute inhalation toxicity

BASIC YELLOW 87:

Acute oral toxicity	:	LD50 (Rat, male and female): 1.000 mg/kg Method: OECD Test Guideline 420

BASIC RED 51:

Acute oral toxicity	:	LD50 (Rat, male and female): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Acute oral toxicity	:	LD50 (Rat, male and female): > 2.000 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity
Acute dermal toxicity	:	LD50 (Rabbit, male and female): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Acute oral toxicity	:	LD50 (Rat, female): 1.150 mg/kg Method: OECD Test Guideline 401

Skin corrosion/irritation

Causes mild skin irritation.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Skin irritation

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

BASIC YELLOW 87:

Species	:	Rabbit
Result	:	No skin irritation

BASIC RED 51:

Species	:	reconstructed human epidermis (RhE)
Method	:	OECD Test Guideline 439
Result	:	Skin irritation

HC BLUE NO. 15:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CHLORHEXIDINE DIGLUCONATE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 1 to 4 hours of exposure

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

BENZYL ALCOHOL:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

BASIC YELLOW 87:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

BASIC RED 51:

Species	:	Reconstructed Human Cornea-like Epithelium (RhCE)
Result	:	Eye irritation

HC BLUE NO. 15:

Species	:	Rabbit
Result	:	Risk of serious damage to eyes.
Method	:	OECD Test Guideline 405

CHLORHEXIDINE DIGLUCONATE:

Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

BASIC YELLOW 87:

Routes of exposure	:	Skin contact

Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BASIC RED 51:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

HC BLUE NO. 15:

Routes of exposure	:	Skin contact
Species	:	Mouse
Assessment	:	Does not cause skin sensitization.
Method	:	OECD Test Guideline 429

CHLORHEXIDINE DIGLUCONATE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

CETRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

HC BLUE NO. 15:

Routes of exposure	:	Ingestion
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

HC BLUE NO. 15:

Species	:	Rat, male and female
NOAEL	:	4 mg/kg
Application Route	:	Oral
Exposure time	:	92
Method	:	OECD Test Guideline 408

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity : Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 3,5 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,39 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): 3,48 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Desmodesmus subspicatus (green algae)): 0,78 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC (Danio rerio (zebra fish)): 0,24 mg/l Exposure time: 9 d Method: OECD Test Guideline 212
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,119 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

Ecotoxicology Assessment

Acute aquatic toxicity	:	Very toxic to aquatic life.
Chronic aquatic toxicity	:	Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 460 mg/l

Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 230 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC (Fish): 48,9 mg/l Exposure time: 30 d Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 51 mg/l Exposure time: 21 d Method: OECD Test Guideline 211

BASIC YELLOW 87:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,6 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,28 - 0,31 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOEC (Pseudokirchneriella subcapitata (green algae)): 0,025 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

BASIC RED 51:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,37 - 0,54 mg/l Exposure time: 48 h
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,24 - 0,26 mg/l Exposure time: 72 h Method: OECD Test Guideline 201

M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

HC BLUE NO. 15:

Toxicity to fish	:	LC50 (Fish): 0,09 mg/l Exposure time: 96 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): Exposure time: 48 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to algae/aquatic plants	:	EC50 (algae): 6,9 mg/l Exposure time: 72 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
M-Factor (Acute aquatic toxicity)	:	10
M-Factor (Chronic aquatic toxicity)	:	10

CHLORHEXIDINE DIGLUCONATE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2,08 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,087 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,019 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Pseudokirchneriella subcapitata (green algae)): 0,013 mg/l Exposure time: 72 h Method: OECD Test Guideline 201

M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC (Fish): 0,012 mg/l Exposure time: 28 d Method: OECD Test Guideline 215
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,02 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

CETRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 0,21 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,012 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,113 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0,068 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC (Pimephales promelas (fathead minnow)): 0,032 mg/l Exposure time: 34 d
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,00415 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 80 %
Exposure time: 28 d
Method: OECD Test Guideline 301B
Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 92 - 96 %
Exposure time: 14 d
Method: OECD Test Guideline 301C

BASIC YELLOW 87:

Biodegradability : Result: Inherently biodegradable.
Biodegradation: 21,6 %
Exposure time: 28 d

BASIC RED 51:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 4 %
Exposure time: 28 d
Method: OECD Test Guideline 301B

HC BLUE NO. 15:

Biodegradability : Result: Not readily biodegradable.

CHLORHEXIDINE DIGLUCONATE:

Biodegradability : Result: Not inherently biodegradable.
Biodegradation: 2,2 %
Exposure time: 60 d
Method: OECD Test Guideline 301B

CETRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 98,5 %
Exposure time: 42 d
Method: OECD Test Guideline 301D

Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Bioconcentration factor (BCF): 835
Method: OECD Test Guideline 305

Partition coefficient: n- : log Pow: 3,29

octanol/water pH: 5,4

BENZYL ALCOHOL:

Bioaccumulation : Bioconcentration factor (BCF): 1,55

BASIC YELLOW 87:

Partition coefficient: n-octanol/water : log Pow: -1,69
Method: OECD Test Guideline 107

CHLORHEXIDINE DIGLUCONATE:

Bioaccumulation : Bioconcentration factor (BCF): 42

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

ANTT

Not regulated as a dangerous good

International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National List of Carcinogenic Agents for Humans - (LINACH)

Brazil. List of chemicals controlled by the Federal Police : Not applicable

SECTION 16. OTHER INFORMATION

Revision Date : 2024.04.03

Date format : yyyy/mm/dd

Further information

Other information : The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

FICHA DE DADOS DE SEGURANÇA

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Versão	Data de revisão:	Número SDS:	Data de última emissão: -
1.0	2024.04.03	00-22-410000001511	Data da primeira emissão: 2024.04.03

SECÇÃO 1. IDENTIFICACAO DO PRODUTO E DA SOCIEDADE

Nome do produto : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Coordenadas do fabricante e do fornecedos

Companhia : Procosa SP - Procosa Produtos de beleza LTDA
Direcção : Rua Manoel Monteiro de Araújo
1350 - Parque Sao Domingos
São Paulo - SP 02675-031
Brazil

Telefone : +55 21 4505-0000

Email endereço : NACORPEUROPESDSREQUEST@LOREAL.COM

Número de telefone de emergência

Centro de Informação Antivenenos nacional :
INFOTRAC : +1 352-323-3500 (Disponível 24 horas por dia. A informação sobre o produto/FDS poderá não estar disponível para o Serviço de Emergência.)

Utilização recomendada da substância química e restrições de utilização

Utilizações recomendadas : Produto de cuidado pessoal usado para efeito cosmético.

SECÇÃO 2. IDENTIFICAÇÃO DOS PERIGOS

Classificação do GHS conforme Norma ABNT NBR 14725

Irritação cutânea : Categoria 3

Iirritação ocular : Categoria 2A

Perigo (agudo) de curto prazo para o ambiente aquático : Categoria 2

Perigo (crónico) de longo prazo para o ambiente aquático : Categoria 3

Elementos de rotulagem do GHS conforme Norma ABNT NBR 14725

Pictogramas de perigo :

Palavra-sinal : Atenção

Advertências de perigo : H316 Causa uma irritação suave da pele.
H319 Provoca irritação ocular grave.
H401 Tóxico para os organismos aquáticos.
H412 Nocivo para os organismos aquáticos com efeitos duradouros.

Recomendações de prudência : P102 Manter fora do alcance das crianças.

Prevenção:

P273 Evitar a libertação para o ambiente.
P280 Usar proteção ocular/ proteção facial.

Resposta:

P305 + P351 + P338 SE ENTRAR EM CONTACTO COM OS OLHOS: Enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar.
P337 + P313 Caso a irritação ocular persista: consulte um médico.

Destruição:

P501 Eliminar o conteúdo/ recipiente em instalação aprovada de destruição de resíduos.

Outros perigos não resultam na classificação

Nenhum conhecido.

SECÇÃO 3. COMPOSIÇÃO/ INFORMAÇÃO SOBRE OS COMPONENTES

Componentes

Nome Químico	No. CAS	Classificação	Concentração (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	Irritação cutânea, Categoria 2 Lesões oculares graves, Categoria 1 Toxicidade para órgãos-alvo específicos - exposição repetida (Oral) (Via gastrointestinal), Categoria 2	>= 1 -< 2,5

		Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	
BENZYL ALCOHOL	100-51-6	Toxicidade aguda (Oral), Categoria 4 Toxicidade aguda (Inalação), Categoria 4	>= 1 -< 5
MYRISTYL STEARATE	17661-50-6		>= 1 -< 5
BASIC YELLOW 87	68259-00-7	Toxicidade aguda (Oral), Categoria 4 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,25 -< 1
BASIC RED 51	77061-58-6	Toxicidade aguda (Oral), Categoria 4 Irritação cutânea, Categoria 2 Iirritação ocular, Categoria 2A Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,1 -< 0,25
HC BLUE NO. 15	74578-10-2	Lesões oculares graves, Categoria 1 Toxicidade para órgãos-alvo específicos - exposição repetida (Oral), Categoria 2 Perigo (agudo) de curto prazo para o	>= 0,025 -< 0,1

		ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	
CHLORHEXIDINE DIGLUCONATE	18472-51-0	Lesões oculares graves, Categoria 1 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,025 -< 0,1
CETRIMONIUM CHLORIDE	112-02-7	Toxicidade aguda (Oral), Categoria 4 Corrosão cutânea, Categoria 1C Lesões oculares graves, Categoria 1 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,0025 -< 0,025

SECÇÃO 4. MEDIDAS DE PRIMEIROS SOCORROS

Recomendação geral	:	Sem perigos que necessitem de medidas de primeiros socorros especiais.
Em caso de inalação	:	No caso de problemas prolongados consultar um médico.
Em caso de contacto com a pele	:	Procure assistência médica caso a irritação desenvolva ou persista.
Se entrar em contacto com os olhos	:	Lavar imediatamente os olhos com bastante água. Se a irritação dos olhos continuar, consultar um especialista.
Em caso de ingestão	:	Enxaguar a boca com água. Lavar a boca com água e beber a seguir bastante água. No caso de problemas prolongados consultar um médico.

Sintomas e efeitos mais importantes, tanto agudos como retardados	:	Causa uma irritação suave da pele. Provoca irritação ocular grave.
Indicações para o médico	:	Tratar de acordo com os sintomas.

SECÇÃO 5. MEDIDAS DE COMBATE A INCÊNDIOS

Meios adequados de extinção	:	Adapte as medidas de combate a incêndios às condições do local e ao ambiente envolvente.
Meios inadequados de extinção	:	Nenhum conhecido.
Perigos específicos para combate a incêndios	:	Não deixar entrar a água utilizada para apagar o incêndio nos esgotos e nos cursos de água.
Produtos de combustão perigosos	:	Desconhecem-se produtos de combustão perigosos
Métodos específicos de extinção	:	Evitar a contaminação de águas de superfície e subterrâneas pela água de combate a incêndios. Procedimento standard para incêndios com produtos químicos.
Equipamento especial de proteção a utilizar pelo pessoal de combate a incêndio	:	Usar equipamento de respiração autónomo para combate a incêndios, se necessário.

SECÇÃO 6. MEDIDAS EM CASO DE FUGA ACCIDENTAL

Precauções individuais, equipamento de proteção e procedimentos de emergência	:	Usar equipamento de proteção individual.
Precauções a nível ambiental	:	Evitar que o produto entre no sistema de esgotos. Prevenir dispersão ou derramamento, se seguro.
Métodos e materiais de confinamento e limpeza	:	Impregnar com material absorvente inerte (por exemplo: areia, sílica gel, aglutinante ácido, aglutinante universal, serragem). Manter em recipientes fechados adequados, para eliminação.

SECÇÃO 7. MANUSEAMENTO E ARMAZENAGEM

Orientação para prevenção de Fogo e Explosão	:	Medidas usuais de protecção preventiva contra incêndio.

Informação para um manuseamento seguro	:	Evitar o contacto com os olhos. Para a proteção individual ver a secção 8.
Medidas de higiene	:	Não comer nem beber durante a utilização. Não fumar durante a utilização. Lavar as mãos antes das pausas, e no fim do dia de trabalho.
Condições para uma armazenagem segura	:	Guardar o recipiente herméticamente fechado em lugar seco e bem ventilado.
Materiais a evitar	:	Não armazenar junto de ácidos.
Outras informações sobre a estabilidade de armazenamento	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.

SECÇÃO 8. CONTROLO DA EXPOSIÇÃO/ PROTEÇÃO INDIVIDUAL

Componentes a controlar com relação ao local de trabalho

Componentes	No. CAS	tipo de valor (Forma de exposição)	Parâmetros de controlo / Concentração permissível	Bases
MYRISTYL STEARATE	17661-50-6	TWA (Fracção inalável)	10 mg/m3	ACGIH
		TWA (Fracção respirável)	3 mg/m3	ACGIH

Proteção individual

Protecção respiratória	:	Normalmente, não é necessário equipamento de proteção respiratória individual.
Protecção das mãos		
Observações	:	Aplicável apenas a ambientes industriais. Borracha nitrílica
Proteção dos olhos	:	Aplicável apenas a ambientes industriais. Óculos de segurança
Proteção do corpo e da pele	:	Aplicável apenas a ambientes industriais. Uniforme de trabalho ou bata de laboratório.

SECÇÃO 9. PROPRIEDADES FÍSICO-QUÍMICAS

Estado físico	:	líquido

Forma	:	líquido viscoso
Cor	:	pigmentado
Odor	:	característico
pH	:	3,5 - 4,5
Ponto de fusão/ponto de congelação	:	Dados não disponíveis
Ponto de ebulição/intervalo de ebulição	:	Não disponível
Ponto de inflamação	:	> 93 °C Método: ISO 3679
Ponto de ignição	:	Não aplicável
Limite superior de explosão / Limite de inflamabilidade superior	:	Dados não disponíveis
Limite inferior de explosão / Limite de inflamabilidade inferior	:	Dados não disponíveis
Pressão de vapor	:	Dados não disponíveis
Densidade relativa do vapor	:	Dados não disponíveis
Densidade relativa	:	>= 0,97 (20 °C)
Solubilidade(s)		
Hidrossolubilidade	:	solúvel
Coeficiente de partição: n-octanol/água	:	Não aplicável
Temperatura de auto-ignição	:	Dados não disponíveis
Temperatura de decomposição	:	Não aplicável
Viscosidade		
Viscosidade, cinemático	:	Dados não disponíveis

Classe de explosão do pó	:	Não aplicável
Tamanho da partícula	:	Não aplicável

SECÇÃO 10. ESTABILIDADE E REACTIVIDADE

Reatividade	:	Nenhuma reacção perigosa nas condições normais de utilização.
Estabilidade química	:	Estável em condições normais.
Possibilidade de reações perigosas	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.
Condições a evitar	:	Dados não disponíveis
Materiais incompatíveis	:	Não aplicável
Produtos de decomposição perigosos	:	Nenhuns produtos de decomposição conhecidos.

SECÇÃO 11. INFORMAÇÃO TOXICOLÓGICA

Toxicidade aguda

Não classificado com base nas informações disponíveis.

Produto:

Toxicidade aguda por via oral	:	Estimativa da toxicidade aguda: > 5.000 mg/kg Método: Método de cálculo
Toxicidade aguda por via inalatória	:	Estimativa da toxicidade aguda: > 40 mg/l Duração da exposição: 4 h Atmosfera de ensaio: vapor Método: Método de cálculo

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidade aguda por via oral	:	DL50 (Ratazana, fêmea): 3.190 mg/kg Método: Directrizes do Teste OECD 401 Avaliação: A substância ou mistura não tem toxicidade oral aguda

BENZYL ALCOHOL:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho): 1.620 mg/kg
Toxicidade aguda por via	:	CL50 (Ratazana, macho e fêmea): > 4.178 mg/l

inalatória

Duração da exposição: 4 h
Atmosfera de ensaio: pó/névoa
Método: Directrizes do Teste OECD 403
Avaliação: A substância ou mistura não tem toxicidade aguda por inalação

BASIC YELLOW 87:

Toxicidade aguda por via oral : DL50 (Ratazana, macho e fêmea): 1.000 mg/kg
Método: Directrizes do Teste OECD 420

BASIC RED 51:

Toxicidade aguda por via oral : DL50 (Ratazana, macho e fêmea): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Toxicidade aguda por via oral : DL50 (Ratazana, macho e fêmea): > 2.000 mg/kg
Método: Directrizes do Teste OECD 401
Avaliação: A substância ou mistura não tem toxicidade oral aguda

Toxicidade aguda por via cutânea : DL50 (Coelho, macho e fêmea): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Toxicidade aguda por via oral : DL50 (Ratazana, fêmea): 1.150 mg/kg
Método: Directrizes do Teste OECD 401

Corrosão/irritação cutânea

Causa uma irritação suave da pele.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Espécie : Coelho
Método : Directrizes do Teste OECD 404
Resultado : Irritação cutânea

BENZYL ALCOHOL:

Espécie : Coelho
Método : Directrizes do Teste OECD 404
Resultado : Não provoca irritação da pele

BASIC YELLOW 87:

Espécie : Coelho
Resultado : Não provoca irritação da pele

BASIC RED 51:

Espécie	:	epiderme humana reconstruída (RhE)
Método	:	Directrizes do Teste OECD 439
Resultado	:	Irritação cutânea

HC BLUE NO. 15:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Não provoca irritação da pele

CHLORHEXIDINE DIGLUCONATE:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Não provoca irritação da pele

CETRIMONIUM CHLORIDE:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Corrosivo após 1 a 4 horas de exposição

Lesões oculares graves/irritação ocular

Provoca irritação ocular grave.

Produto:

Observações	:	Pode irritar os olhos.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Espécie	:	Coelho
Resultado	:	Efeitos irreversíveis nos olhos
Método	:	Directrizes do Teste OECD 405

BENZYL ALCOHOL:

Espécie	:	Coelho
Resultado	:	Não irrita os olhos
Método	:	Directrizes do Teste OECD 405

BASIC YELLOW 87:

Espécie	:	Coelho
Resultado	:	Não irrita os olhos
Método	:	Directrizes do Teste OECD 405

BASIC RED 51:

Espécie	:	Epitélio semelhante à córnea humana reconstruído (RhCE)
Resultado	:	Irritação ocular

HC BLUE NO. 15:

Espécie	:	Coelho
Resultado	:	Risco de lesões oculares graves.
Método	:	Directrizes do Teste OECD 405

CHLORHEXIDINE DIGLUCONATE:

Resultado	:	Efeitos irreversíveis nos olhos
Método	:	Directrizes do Teste OECD 405

CETRIMONIUM CHLORIDE:

Espécie	:	Coelho
Resultado	:	Efeitos irreversíveis nos olhos
Método	:	Directrizes do Teste OECD 405

Sensibilização respiratória ou cutânea

Sensibilização da pele

Não classificado com base nas informações disponíveis.

Sensibilização respiratória

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

BENZYL ALCOHOL:

Vias de exposição	:	Contacto com a pele
Espécie	:	Rato
Método	:	Directrizes do Teste OECD 429
Resultado	:	Não causa sensibilização da pele.

BASIC YELLOW 87:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

BASIC RED 51:

Vias de exposição	:	Contacto com a pele

Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

HC BLUE NO. 15:

Vias de exposição	:	Contacto com a pele
Espécie	:	Rato
Avaliação	:	Não causa sensibilização da pele.
Método	:	Directrizes do Teste OECD 429

CHLORHEXIDINE DIGLUCONATE:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

CETRIMONIUM CHLORIDE:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

Mutagenicidade em células germinativas

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Mutagenicidade em células germinativas - Avaliação	:	Peso da prova não suporta a classificação como um mutagénio de células germinais.

Carcinogenicidade

Não classificado com base nas informações disponíveis.

Toxicidade reprodutiva

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidade reprodutiva - Avaliação	:	A suficiência de prova não suporta uma classificação de toxicidade reprodutiva

Toxicidade para órgãos-alvo específicos (STOT) - exposição única

Não classificado com base nas informações disponíveis.

Toxicidade para órgãos-alvo específicos (STOT) - exposição repetida

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vias de exposição	:	Ingestão
Orgãos alvo	:	Via gastrointestinal
Avaliação	:	A substância ou mistura está classificada como tóxico específico de orgãos-alvo, exposição repetida, categoria 2.

HC BLUE NO. 15:

Vias de exposição	:	Ingestão
Avaliação	:	A substância ou mistura está classificada como tóxico específico de orgãos-alvo, exposição repetida, categoria 2.

Toxicidade por dose repetida

Componentes:

BEHENTRIMONIUM CHLORIDE:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	10 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	28 d
Método	:	Directrizes do Teste OECD 407

HC BLUE NO. 15:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	4 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	92
Método	:	Directrizes do Teste OECD 408

Toxicidade por aspiração

Não classificado com base nas informações disponíveis.

Informações adicionais

Produto:

Observações	:	A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 12. INFORMAÇÃO ECOLÓGICA

Ecotoxicidade

Produto:

Avaliação eco-toxicológica

Toxicidade crónica para o ambiente aquático	:	Nocivo para os organismos aquáticos com efeitos duradouros.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 3,5 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 1,39 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Desmodesmus subspicatus (alga verde)): 3,48 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 EC10 (Desmodesmus subspicatus (alga verde)): 0,78 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Danio rerio (peixe-zebra)): 0,24 mg/l Duração da exposição: 9 d Método: Directrizes do Teste OECD 212
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,119 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

Avaliação eco-toxicológica

Toxicidade aguda para o ambiente aquático	:	Muito tóxico para os organismos aquáticos.
Toxicidade crónica para o ambiente aquático	:	Muito tóxico para os organismos aquáticos com efeitos duradouros.

BENZYL ALCOHOL:

Toxicidade em peixes	:	CL50 (Pimephales promelas (vairão gordo)): 460 mg/l Duração da exposição: 96 h
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 230 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 770 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Peixe): 48,9 mg/l Duração da exposição: 30 d Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 51 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211

BASIC YELLOW 87:

Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 1,6 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,28 - 0,31 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 NOEC (Pseudokirchneriella subcapitata (alga verde)): 0,025 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

BASIC RED 51:

Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,37 - 0,54 mg/l Duração da exposição: 48 h

Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,24 - 0,26 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

HC BLUE NO. 15:

Toxicidade em peixes	:	CL50 (Peixe): 0,09 mg/l Duração da exposição: 96 h Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): Duração da exposição: 48 h Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Toxicidade para às algas/plantas aquáticas	:	CE50 (algas): 6,9 mg/l Duração da exposição: 72 h Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Factor-M (Toxicidade aguda para o ambiente aquático)	:	10
Factor-M (Toxicidade crónica para o ambiente aquático)	:	10

CHLORHEXIDINE DIGLUCONATE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 2,08 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,087 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,019 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201

		EC10 (Pseudokirchneriella subcapitata (alga verde)): 0,013 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	10
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Peixe): 0,012 mg/l Duração da exposição: 28 d Método: Directrizes do Teste OECD 215
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,02 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

CETRIMONIUM CHLORIDE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 0,21 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,012 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,113 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 NOELR (Pseudokirchneriella subcapitata (alga verde)): 0,068 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	10
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Pimephales promelas (vairão gordo)): 0,032 mg/l Duração da exposição: 34 d
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,00415 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211
Factor-M (Toxicidade crónica	:	1

para o ambiente aquático)

Persistência e degradabilidade

Componentes:

BEHENTRIMONIUM CHLORIDE:

Biodegradabilidade : Resultado: Rapidamente biodegradável.
Biodegradabilidade: 80 %
Duração da exposição: 28 d
Método: Directrizes do Teste OECD 301 B
Observações: O critério da janela de tempo de 10 dias não é cumprido.

BENZYL ALCOHOL:

Biodegradabilidade : Resultado: Rapidamente biodegradável.
Biodegradabilidade: 92 - 96 %
Duração da exposição: 14 d
Método: Directrizes do Teste OECD 301 C

BASIC YELLOW 87:

Biodegradabilidade : Resultado: Inerentemente biodegradável.
Biodegradabilidade: 21,6 %
Duração da exposição: 28 d

BASIC RED 51:

Biodegradabilidade : Resultado: Não rapidamente biodegradável.
Biodegradabilidade: 4 %
Duração da exposição: 28 d
Método: Directrizes do Teste OECD 301 B

HC BLUE NO. 15:

Biodegradabilidade : Resultado: Não rapidamente biodegradável.

CHLORHEXIDINE DIGLUCONATE:

Biodegradabilidade : Resultado: Não inerentemente biodegradável.
Biodegradabilidade: 2,2 %
Duração da exposição: 60 d
Método: Directrizes do Teste OECD 301 B

CETRIMONIUM CHLORIDE:

Biodegradabilidade : Resultado: Rapidamente biodegradável.
Biodegradabilidade: 98,5 %
Duração da exposição: 42 d
Método: Directrizes do Teste OECD 301D

Potencial de bioacumulação

Componentes:

BEHENTRIMONIUM CHLORIDE:

Bioacumulação	:	Factor de bioconcentração (BCF): 835 Método: Directrizes do Teste OECD 305
Coeficiente de partição: n-octanol/água	:	log Pow: 3,29 pH: 5,4

BENZYL ALCOHOL:

Bioacumulação	:	Factor de bioconcentração (BCF): 1,55

BASIC YELLOW 87:

Coeficiente de partição: n-octanol/água	:	log Pow: -1,69 Método: Directrizes do Teste OECD 107

CHLORHEXIDINE DIGLUCONATE:

Bioacumulação	:	Factor de bioconcentração (BCF): 42

Mobilidade no solo

Dados não disponíveis

Outros efeitos adversos

Produto:

Informações ecológicas adicionais	:	A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 13. CONSIDERAÇÕES RELATIVAS À ELIMINAÇÃO

Métodos de destruição

Resíduos	:	Este produto não deve entrar nos esgotos, nos cursos de água e no solo. Enviar para uma indústria licenciada de gerência dos resíduos.
Embalagens contaminadas	:	Eliminar como produto Não utilizado. Não reutilizar os recipientes vazios.

SECÇÃO 14. INFORMAÇÕES RELATIVAS AO TRANSPORTE

Regulamentação doméstica

ANTT

Não regulado como mercadoria perigosa

Regulamentaçãoes Internacionais

IATA-DGR

Não regulado como mercadoria perigosa

Código-IMDG

Não regulado como mercadoria perigosa

Transporte a granel em conformidade com o anexo II da Convenção Marpol 73/78 e o Código IBC

Não aplicável ao produto tal como fornecido.

Precauções especiais para o utilizador

Observações : Produto não perigoso segundo o regulamento de transporte.

SECÇÃO 15. INFORMAÇÃO SOBRE REGULAMENTAÇÃO

Regulamentação/legislação específica para a substância ou mistura em matéria de saúde, segurança e ambiente

Lista Nacional de Agentes Cancerígenos para Humanos - (LINACH)

Brasil. Lista de Produtos Químicos Controlados pela Policia Federal : Não aplicável

SECÇÃO 16. OUTRAS INFORMAÇÕES

Data de revisão : 2024.04.03

Formato da data : ano/mês/dias

Informações adicionais

Outras informações : A informação fornecida nesta ficha de segurança é a mais correta disponível na data da sua publicação. A informação prestada destina-se apenas a orientar o uso, manuseio, processamento, armazenamento, transporte e eliminação com segurança e não deve ser considerada garantia ou especificação de qualidade. A informação refere-se apenas ao produto designado e, a menos que tal seja especificado no texto, pode não ser válida se o mesmo produto for utilizado em qualquer combinação com outros produtos ou processos.

SAFETY DATA SHEET

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	04/03/2024	00-22-410000001511	Date of first issue: 04/03/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Manufacturer or supplier's details

Address : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Eye irritation : Category 2A

Specific target organ toxicity - repeated exposure (Oral) : Category 2 (Gastrointestinal tract)

GHS label elements

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H319 Causes serious eye irritation.
H373 May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P260 Do not breathe mist or vapors.
P264 Wash hands thoroughly after handling.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P314 Get medical advice/ attention if you feel unwell.
P337 + P313 If eye irritation persists: Get medical advice/ attention.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

Actual concentration is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice : No hazards which require special first aid measures.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : Get medical attention if irritation develops and persists.

In case of eye contact : Immediately flush eye(s) with plenty of water.
If eye irritation persists, consult a specialist.

If swallowed : Rinse mouth with water.
Clean mouth with water and drink afterwards plenty of water.
If symptoms persist, call a physician.

Most important symptoms : Causes serious eye irritation.

and effects, both acute and delayed		May cause damage to organs through prolonged or repeated exposure if swallowed.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.

Materials to avoid : Do not store near acids.

Further information on storage stability : No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (Inhalable particulate matter)	10 mg/m3	ACGIH
		TWA (Respirable particulate matter)	3 mg/m3	ACGIH

Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally required.

Hand protection

Remarks : Applicable for industrial settings only. Nitrile rubber

Eye protection : Applicable for industrial settings only.
Safety glasses

Skin and body protection : Applicable for industrial settings only.
Work uniform or laboratory coat.

Hygiene measures : When using do not eat or drink.
When using do not smoke.
Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state : liquid

Form : viscous liquid

Color : pigmented

Odor	:	characteristic
pH	:	3.5 - 4.5
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 199 °F / > 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	>= 0.97 (68 °F / 20 °C)
Solubility(ies) Water solubility	: :	 soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity Viscosity, kinematic	: :	 No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.

Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity : Acute toxicity estimate: > 5,000 mg/kg
Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity : LD50 (Rat, female): 3,190 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity : LD50 (Rat, male): 1,620 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): > 4,178 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403
Assessment: The substance or mixture has no acute inhalation toxicity

Skin corrosion/irritation

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Species : Rabbit
Method : OECD Test Guideline 404
Result : Skin irritation

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

BENZYL ALCOHOL:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

IARC No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d

Method : OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity : Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish : LC50 (Danio rerio (zebra fish)): 3.5 mg/l
Exposure time: 96 h
Method: OECD Test Guideline 203

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 1.39 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : EC50 (Desmodesmus subspicatus (green algae)): 3.48 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

EC10 (Desmodesmus subspicatus (green algae)): 0.78 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Danio rerio (zebra fish)): 0.24 mg/l
Exposure time: 9 d
Method: OECD Test Guideline 212

Toxicity to daphnia and other aquatic invertebrates (Chron- : NOEC (Daphnia magna (Water flea)): 0.119 mg/l
Exposure time: 21 d

ic toxicity) Method: OECD Test Guideline 211

Ecotoxicology Assessment

Acute aquatic toxicity : Very toxic to aquatic life.

Chronic aquatic toxicity : Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)): 460 mg/l
Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 230 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Fish): 48.9 mg/l
Exposure time: 30 d
Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 51 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 211

Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 80 %
Exposure time: 28 d
Method: OECD Test Guideline 301B
Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 92 - 96 %
Exposure time: 14 d
Method: OECD Test Guideline 301C

Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation	:	Bioconcentration factor (BCF): 835 Method: OECD Test Guideline 305
Partition coefficient: n-octanol/water	:	log Pow: 3.29 pH: 5.4

BENZYL ALCOHOL:

Bioaccumulation	:	Bioconcentration factor (BCF): 1.55

Mobility in soil

No data available

Other adverse effects

Product:

Ozone-Depletion Potential	:	Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
Additional ecological information	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues	:	The product should not be allowed to enter drains, water courses or the soil. Send to a licensed waste management company.
Contaminated packaging	:	Dispose of as unused product. Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

49 CFR

Not regulated as a dangerous good

International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards : Specific target organ toxicity (single or repeated exposure)
Serious eye damage or eye irritation

SARA 313 : This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act

This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

SECTION 16. OTHER INFORMATION

Further information

化学品安全技术说明书

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

版本	修订日期:	SDS 编号:	前次修订日期: -
1.0	04/03/2024	00-22-410000001511	最初编制日期: 04/03/2024

部分 1. 鉴别

产品名称 : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

制造商或供应商信息

地址 : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

电话号码 : 1-732-499-2745

电子邮件地址 : CORPREGAFFAIRSMSDS@LOREAL.COM

应急咨询电话

INFOTRAC : 1-800-535-5053（国际：+1 352-323-3500）（每天 24 小时提供服务。紧急服务可能无法提供 SDS/产品信息。）

推荐用途和限制用途

推荐用途 : 个人美容护理产品.

部分 2. 危险性概述

根据 OSHA 危险通报标准 (29 CFR 1910.1200) 的 GHS 分类

眼睛刺激 : 类别 2A

特异性靶器官系统毒性（反复接触） (经口) : 类别 2 (胃肠道)

GHS 标签要素

象形图 :

信号词 : 警告

危险性说明 : H319 造成严重眼刺激。

H373 长期吞咽或反复接触可能损害(胃肠道)器官。

防范说明 : P102 儿童不得接触。
P103 使用前请读标签。

预防措施:

P260 不要吸入烟雾或蒸气。
P264 作业后彻底清洗双手。
P280 戴防护眼罩/戴防护面具。

事故响应:

P305 + P351 + P338 如进入眼睛：用水小心冲洗几分钟。如戴隐形眼镜并可方便地取出，取出隐形眼镜。继续冲洗。
P314 如感觉不适，须求医/就诊。
P337 + P313 如仍觉眼刺激：求医/就诊。

废弃处置:

P501 将内装物/容器送到批准的废物处理厂处理。

其他危害

未见报道。

部分 3. 成分/组成信息

组分

化学品名称	化学文摘登记号 (CAS No.)	浓度或浓度范围 (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

实际浓度作为商业秘密保留

部分 4. 急救措施

一般的建议 : 无需特别急救措施。

吸入 : 如果症状持续，请就医。

皮肤接触 : 如果刺激发生并持续，就医。

眼睛接触 : 立即用大量水冲洗眼睛。
如果眼睛刺激持续，就医。

食入 : 用水漱口。
用水嗽口，然后大量饮水。

如果症状持续，请就医。

最重要的症状和健康影响	:	造成严重眼刺激。 长期吞咽或反复接触可能损害器官。
对医生的特别提示	:	对症治疗。

部分 5. 消防措施

灭火方法及灭火剂	:	根据当时情况和周围环境采用适合的灭火措施。
不合适的灭火剂	:	未见报道。
特别危险性	:	不要让消防水流入下水道和河道。
有害燃烧产物	:	已知无有害燃烧产物
其他信息	:	防止消防水污染地表和地下水系统。 化学火灾的标准程序。
消防人员的特殊保护装备	:	如有必要，佩戴自给式呼吸器进行消防作业。

部分 6. 泄漏应急处理

人员防护措施、防护装备和应急处置程序	:	使用个人防护装备。
环境保护措施	:	防止产品进入下水道。 如能确保安全，可采取措施防止进一步的泄漏或溢出。
泄漏化学品的收容、清除方法及所使用的处置材料	:	用惰性材料吸收（如砂子、硅胶、酸性粘结剂、通用粘结剂、锯末）。 放入合适的封闭的容器中待处理。

部分 7. 操作处置与储存

防火防爆的建议	:	一般性的防火保护措施。
安全处置注意事项	:	避免沾及眼睛。 有关个人防护,请看第 8 部分。
安全储存条件	:	使容器保持密闭，储存在干燥通风处。
禁配物	:	不要贮存在酸附近。
有关储存稳定性的更多信息	:	按指导方法贮存和使用不会产生分解。

部分 8. 接触控制和个体防护

危害组成及职业接触限值

组分	化学文摘登记号(CAS No.)	数值的类型 (接触形式)	控制参数 / 容许浓度	依据
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (可吸入性粉尘)	10 mg/m3	ACGIH
		TWA (呼吸性粉尘)	3 mg/m3	ACGIH

个体防护装备

呼吸系统防护 : 一般来说无需个人呼吸防护设备。

手防护

备注 : 仅用於工业环境。 丁腈橡胶

眼睛防护 : 仅用於工业环境。
安全眼镜

皮肤和身体防护 : 仅用於工业环境。
工作服或实验外衣。

卫生措施 : 使用时，严禁饮食。
使用时，严禁吸烟。
休息前及工作结束时洗手。

部分 9. 理化特性

物态 : 液体

形状 : 粘性液体

颜色 : 着色的

气味 : 特征的

pH 值 : 3.5 - 4.5

熔点/凝固点 : 无数据资料

沸点/沸程	:	无法使用
闪点	:	> 199 华氏度 / > 93 ° C 方法: 国际标准 ISO 3679
燃点	:	不适用
爆炸上限 / 易燃上限	:	无数据资料
爆炸下限 / 易燃下限	:	无数据资料
蒸气压	:	无数据资料
蒸气密度	:	无数据资料
密度/相对密度	:	>= 0.97 (68 华氏度 / 20 ° C)
溶解性		
水溶性	:	可溶
正辛醇/水分配系数	:	不适用
自燃温度	:	无数据资料
分解温度	:	不适用
黏度		
运动黏度	:	无数据资料
粉尘爆炸级别	:	不适用
粒径	:	不适用

部分 10. 稳定性和反应性

反应性	:	正常使用的条件下未见有危险反应。
稳定性	:	正常条件下稳定。
危险反应	:	按指导方法贮存和使用不会产生分解。
应避免的条件	:	无数据资料
禁配物	:	不适用

危险的分解产物 : 没有危险的分解产物。

部分 11. 毒理学信息

急性毒性

根据现有信息无需进行分类。

产品:

急性经口毒性 : 急性毒性估计值: > 5,000 mg/kg
方法: 计算方法

组分:

BEHENTRIMONIUM CHLORIDE:

急性经口毒性 : LD50 (大鼠, 雌性): 3,190 mg/kg
方法: OECD 测试导则 401
评估: 此物质或混合物无急性口服毒性

BENZYL ALCOHOL:

急性经口毒性 : LD50 (大鼠, 雄性): 1,620 mg/kg

急性吸入毒性 : LC50 (大鼠, 雄性和雌性): > 4,178 mg/l
暴露时间: 4 h
测试环境: 粉尘/烟雾
方法: OECD 测试导则 403
评估: 此物质或混合物无急性吸入毒性

皮肤腐蚀/刺激

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

种属 : 家兔
方法 : OECD 测试导则 404
结果 : 皮肤刺激

BENZYL ALCOHOL:

种属 : 家兔
方法 : OECD 测试导则 404
结果 : 无皮肤刺激

严重眼睛损伤/眼刺激

造成严重眼刺激。

产品:

备注 : 可能刺激眼睛。

组分:

BEHENTRIMONIUM CHLORIDE:

种属 : 家兔
结果 : 对眼睛有不可逆转的影响
方法 : OECD 测试导则 405

BENZYL ALCOHOL:

种属 : 家兔
结果 : 无眼睛刺激
方法 : OECD 测试导则 405

呼吸或皮肤过敏

皮肤过敏

根据现有信息无需进行分类。

呼吸过敏

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

接触途径 : 皮肤接触
种属 : 豚鼠
方法 : OECD 测试导则 406
结果 : 不引起皮肤过敏。

BENZYL ALCOHOL:

接触途径 : 皮肤接触
种属 : 小鼠
方法 : OECD 测试导则 429
结果 : 不引起皮肤过敏。

生殖细胞致突变性

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

生殖细胞致突变性 - 评估 : 依证据权重不足以归类为生殖细胞致突变性物质。

致癌性

根据现有信息无需进行分类。

IARC 此产品中所有含量大于等于 0.1%的组分中，没有被 IARC 鉴别为已知或可能的致癌物。

OSHA 此产品中所有含量大于等于 0.1%的组分中，没有被 OSHA 鉴别为已知或潜在的致癌物。

NTP 此产品中所有含量大于等于 0.1%的组分中，没有被 NTP 鉴别为已知或预计的致癌物。

生殖毒性

根据现有信息无需进行分类。

组分:

BEHENTRIMONIUM CHLORIDE:

生殖毒性 - 评估 : 证据的效力不足以支持将该物质归类为具有生殖毒性的物质

特异性靶器官系统毒性- 一次接触

根据现有信息无需进行分类。

特异性靶器官系统毒性- 反复接触

长期吞咽或反复接触可能损害(胃肠道)器官。

组分:

BEHENTRIMONIUM CHLORIDE:

接触途径	:	食入
靶器官	:	胃肠道
评估	:	此物质或混合物被分类为特异性靶器官系统毒物，反复暴露，类别 2。

重复染毒毒性

组分:

BEHENTRIMONIUM CHLORIDE:

种属	:	大鼠,雄性和雌性
NOAEL	:	10 mg/kg
染毒途径	:	经口
暴露时间	:	28 天
方法	:	OECD 测试导则 407

吸入危害

根据现有信息无需进行分类。

其他信息

产品:

备注 : 本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 12. 生态学信息

生态毒性

产品:

生态毒理评估

长期水生危害 : 对水生生物有害并具有长期持续影响。

组分:

BEHENTRIMONIUM CHLORIDE:

对鱼类的毒性 : LC50 (Danio rerio (斑马鱼)): 3.5 mg/l
暴露时间: 96 h
方法: OECD 测试导则 203

对水溞和其他水生无脊椎动物的毒性 : EC50 (Daphnia magna (水溞)): 1.39 mg/l
暴露时间: 48 h
方法: OECD 测试导则 202

对藻类/水生植物的毒性 : EC50 (Desmodesmus subspicatus（近具刺链带藻）): 3.48 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

EC10 (Desmodesmus subspicatus (绿藻)): 0.78 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

对鱼类的毒性 (慢性毒性) : NOEC (Danio rerio (斑马鱼)): 0.24 mg/l
暴露时间: 9 天
方法: OECD 测试导则 212

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 0.119 mg/l
暴露时间: 21 天

方法: OECD 测试导则 211

生态毒理评估

急性水生危害 : 对水生生物毒性极大。

长期水生危害 : 对水生生物毒性极大并具有长期持续影响。

BENZYL ALCOHOL:

对鱼类的毒性 : LC50 (Pimephales promelas (肥头鲦鱼)): 460 mg/l
暴露时间: 96 h

对水溞和其他水生无脊椎动物的毒性 : EC50 (Daphnia magna (水溞)): 230 mg/l
暴露时间: 48 h
方法: OECD 测试导则 202

对藻类/水生植物的毒性 : EC50 (Pseudokirchneriella subcapitata (绿藻)): 770 mg/l
暴露时间: 72 h
方法: OECD 测试导则 201

对鱼类的毒性 (慢性毒性) : NOEC (鱼): 48.9 mg/l
暴露时间: 30 天
备注: 该值依据 SAR/AAR 方法给定，使用了 OECD 工具箱、DEREK 和 VEGA QSAR 模型（CAESAR 模型）等。

对水溞和其他水生无脊椎动物的毒性 (慢性毒性) : NOEC (Daphnia magna (水溞)): 51 mg/l
暴露时间: 21 天
方法: OECD 测试导则 211

持久性和降解性

组分:

BEHENTRIMONIUM CHLORIDE:

生物降解性 : 结果: 快速生物降解的。
生物降解性: 80 %
暴露时间: 28 天
方法: OECD 测试导则 301B
备注: 未满足 10 天时间窗口标准

BENZYL ALCOHOL:

生物降解性 : 结果: 快速生物降解的。
生物降解性: 92 - 96 %
暴露时间: 14 天
方法: OECD 测试导则 301C

生物蓄积潜力

组分:

BEHENTRIMONIUM CHLORIDE:

生物蓄积	:	生物富集系数(BCF): 835 方法: OECD 测试导则 305
正辛醇/水分配系数	:	log Pow: 3.29 pH 值: 5.4

BENZYL ALCOHOL:

生物蓄积	:	生物富集系数(BCF): 1.55

土壤中的迁移性

无数据资料

其他环境有害作用

产品:

臭氧消耗潜能值	:	法规: 40 CFR 环境保护; 第 82 部分平流层臭氧保护 - CAA 第 602 节 I 类物质 备注: 此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App.A + B)规定的 I 类或 II 类的臭氧破坏性（ODS）的物质。
其它生态信息	:	本文中关于个体成分的任何动物测试均基于公开的第三方数据.

部分 13. 废弃处置

处置方法

废弃化学品	:	本品不允许排入下水道,水道或土壤。 送往有执照的废弃物管理公司。
污染包装物	:	按未用产品处置。 不要重复使用倒空的容器。

部分 14. 运输信息

国内法规

49 CFR

不作为危险品管理

国际法规

空运(IATA-DGR)

不作为危险品管理

海运(IMDG-Code)

不作为危险品管理

按《MARPOL73/78 公约》附则 II 和 IBC 规则

不适用于供应的产品。

特殊防范措施

备注 : 根据运输法规，未被分类为危险品。

部分 15. 法规信息

欧洲癌症研究协会 可报告的量

此物质不含有任何与 CERCLA RQ.有关的组分。

SARA 304 极危险的物质 可报告的量

此物质不含有任何与 304 EHS RQ 有关的组分。

SARA 302 极度危险物质阈值规划数量

该材料不包含任何符合 EHS TPQ 第 302 节的成分。

萨拉 311/312 危险 : 特定靶器官毒性（单次或重复接触）
严重眼睛损伤或眼睛刺激

莎拉 313 : 该材料不包含任何已知 CAS 编号超过 SARA 第三章第 313 节规定的阈值（最低）报告水平的化学成分。

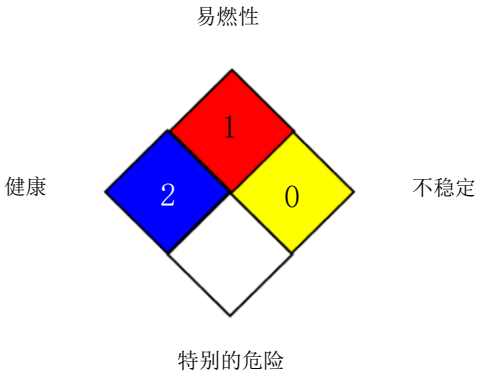
空气清洁法

此产品既不含有、也不产生由美国空气洁净法令第 602(40 CFR 82, Subpt. A, App.A + B)规定的 1 类或 II 类的臭氧破坏性（ODS）的物质。
本品不含有美国空气洁净法第 112 部分(40 CFR 61)定义的任何危险空气污染物（HAP）。
此产品不包含在美国空气洁净法令 112(r)关于意外释放防范(40 CFR 68.130, Subpart F)部分的。

部分 16. 其他信息

其他信息

NFPA 704:



缩略语和首字母缩写

ACGIH	:	美国政府工业卫生学家会议(ACGIH)之阈限值 (TLV)
US WEEL	:	USA. Workplace Environmental Exposure Levels (WEEL)
ACGIH / TWA	:	8 小时，时间加权平均值
US WEEL / TWA	:	8-hr TWA

AIIC - 澳大利亚工业化学品清单 ASTM - 美国材料实验协会; bw - 体重; CERCLA - 综合环境反应、赔偿和责任法; CMR - 致癌、致突变性或生殖毒性物质; DIN - 德国标准化学会; DOT - 交通运输部; DSL - 加拿大国内化学物质名录; ECx - 引起 x%效应的浓度; EHS - 极端有害 物质; ELx - 引起 x%效应的负荷率; EmS - 应急措施; ENCS - 日本现有和新化学物质名录; ErCx - 引起 x%生长效应的浓度; ERG - 应急指南; GHS - 全球化学品统一分类和标签制度; GLP - 良好实验室规范; HMIS - 危害物质识别系统; IARC - 国际癌症研究机构; IATA - 国际航空运输协会; IBC - 国际散装运输危险化学品船舶构造和设备规则; IC50 - 半抑制浓度; ICAO - 国际民用航空组织; IECSC - 中国现有化学物质名录; IMDG - 国际海运危险货物; IMO - 国际海事组织; ISHL - 日本工业安全和健康法案; ISO - 国际标准化组织; KECI - 韩国现有化学物质名录; LC50 - 测试人群半数致死浓度; LD50 - 测试人群半数致死量（半数致死量）; MARPOL - 国际防止船舶造成污染公约; MSHA - 矿业安全与卫生署; n.o.s. - 未另列明的; NFPA - 美国消防协会; NO(A)EC - 无可见（有害）作用浓度; NO(A)EL - 无可见（有害）作用剂量; NOELR - 无可见作用负荷率; NTP - 国家毒理学规划处; NZIoC - 新西兰化学物质名录; OECD - 经济合作与发展组织; OPPTS - 污染防治、杀虫剂和有毒物质办公室; PBT - 持久性、生物累积性和毒性的物质; PICCS - 菲律宾化学品与化学物质名录; (Q)SAR - （定量）结构一活性关系; RCRA - 资源保护和回收法; REACH - 欧洲议会和理事会关于化学品的注册、评估、授权和限制法规 (EC) 1907/2006 号; RQ - 应申报的数量; SADT - 自加速分解温度; SARA - 非常基金修正及再授权法; SDS - 安全技术说明书;

FICHA DE DATOS DE SEGURIDAD

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Versión	Fecha de revisión:	Número SDS:	Fecha de la última expedición: -
1.0	04/03/2024	00-22-410000001511	Fecha de la primera expedición: 04/03/2024

SECCIÓN 1. IDENTIFICACIÓN

Nombre del producto : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Informaciones sobre el fabricante o el proveedor

Dirección : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Teléfono : 1-732-499-2745

E-mail de contacto : CORPREGAFFAIRSMSDS@LOREAL.COM

Teléfono de emergencia

INFOTRAC : 1-800-535-5053 (Internacional: +1 352-323-3500) (Disponible las 24 horas del día. Es posible que la SDS/información del producto no esté disponible para el Servicio de emergencia).

Uso recomendado del producto químico y restricciones de uso

Uso recomendado : Producto de cuidado personal para uso cosmético.

SECCIÓN 2. IDENTIFICACIÓN DE LOS PELIGROS

Clasificación GHS de acuerdo con Norma de Comunicación de Riesgos de OSHA (29 CFR 1910.1200)

Irritación ocular : Categoría 2A

Toxicidad específica en determinados órganos - exposiciones repetidas (Oral) : Categoría 2 (Sistema gastrointestinal)

Elementos de etiquetado GHS

Pictogramas de peligro :

Palabra de advertencia : Atención

Indicaciones de peligro : H319 Provoca irritación ocular grave.
H373 Puede provocar daños en los órganos (Sistema gastroin-

testinal) tras exposiciones prolongadas o repetidas en caso de ingestión.

Consejos de prudencia : P102 Mantener fuera del alcance de los niños.
P103 Leer la etiqueta antes del uso.

Prevención:

P260 No respirar la niebla o los vapores.
P264 Lavarse las manos concienzudamente tras la manipulación.
P280 Llevar equipo de protección para los ojos/ la cara.

Intervención:

P305 + P351 + P338 EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado.
P314 Consultar a un médico en caso de malestar.
P337 + P313 Si persiste la irritación ocular: Consultar a un médico.

Eliminación:

P501 Eliminar el contenido/ el recipiente en una planta de eliminación de residuos autorizada.

Otros peligros

Ninguna conocida.

SECCIÓN 3. COMPOSICIÓN/INFORMACIÓN SOBRE LOS COMPONENTES

Componentes

Nombre químico	No. CAS	Concentración (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

La concentración real se retiene como secreto comercial

SECCIÓN 4. PRIMEROS AUXILIOS

Recomendaciones generales : Sin peligros que requieran medidas especiales de primeros auxilios.

Si es inhalado : Si los síntomas persisten consultar a un médico.

En caso de contacto con la piel : Consultar un médico si aparece y persiste una irritación.

En caso de contacto con los ojos : Enjuagar inmediatamente los ojos con abundante agua.
Si persiste la irritación de los ojos, consultar a un especialista.

Por ingestión	:	Enjuague la boca con agua. Lavar la boca con agua y después beber agua abundante. Si los síntomas persisten consultar a un médico.
Principales síntomas y efectos, agudos y retardados	:	Provoca irritación ocular grave. Puede provocar daños en los órganos tras exposiciones prolongadas o repetidas en caso de ingestión.
Notas para el médico	:	Tratar sintomáticamente.

SECCIÓN 5. MEDIDAS DE LUCHA CONTRA INCENDIOS

Medios de extinción apropiados	:	Usar medidas de extinción que sean apropiadas a las circunstancias del local y a sus alrededores.
Medios de extinción no apropiados	:	Ninguna conocida.
Peligros específicos en la lucha contra incendios	:	No permita que las aguas de extinción entren en el alcantarillado o en los cursos de agua.
Productos de combustión peligrosos	:	No se conocen productos de combustión peligrosos
Otros datos	:	Impedir la contaminación de las aguas superficiales o subterráneas por el agua que ha servido a la extinción de incendios. Procedimiento estándar para fuegos químicos.
Equipo de protección especial para el personal de lucha contra incendios	:	Si es necesario, usar equipo de respiración autónomo para la lucha contra el fuego.

SECCIÓN 6. MEDIDAS EN CASO DE VERTIDO ACCIDENTAL

Precauciones personales, equipo de protección y procedimientos de emergencia	:	Utilícese equipo de protección individual.
Precauciones relativas al medio ambiente	:	Evite que el producto penetre en el alcantarillado. Impedir nuevos escapes o derrames si puede hacerse sin riesgos.
Métodos y material de contención y de limpieza	:	Recojer con un producto absorbente inerte (por ejemplo, arena, diatomita, fijador de ácidos, fijador universal, serrín). Guardar en contenedores apropiados y cerrados para su eliminación.

SECCIÓN 7. MANIPULACIÓN Y ALMACENAMIENTO

Indicaciones para la protección contra incendio y explosión	:	Disposiciones normales de protección preventivas de incendio.
Consejos para una manipulación segura	:	Evítese el contacto con los ojos. Equipo de protección individual, ver sección 8.
Condiciones para el almacenaje seguro	:	Conservar el envase herméticamente cerrado en un lugar seco y bien ventilado.
Materias que deben evitarse	:	No almacenar conjuntamente con ácidos.
Más información acerca de la estabilidad durante el almacenamiento	:	No se descompone si se almacena y aplica como se indica.

SECCIÓN 8. CONTROLES DE EXPOSICIÓN/ PROTECCIÓN INDIVIDUAL

Componentes con valores límite ambientales de exposición profesional.

Componentes	No. CAS	Tipo de valor (Forma de exposición)	Parámetros de control / Concentración permisible	Base
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (fracción inhalable)	10 mg/m3	ACGIH
		TWA (fracción respirable)	3 mg/m3	ACGIH

Protección personal

Protección respiratoria	:	Normalmente no requiere el uso de un equipo de protección individual respiratorio.
Protección de las manos		
Observaciones	:	De aplicación solamente en entornos industriales. Caucho nitrílo
Protección de los ojos	:	De aplicación solamente en entornos industriales. Gafas de seguridad
Protección de la piel y del cuerpo	:	De aplicación solamente en entornos industriales. Uniforme de trabajo o bata de laboratorio.
Medidas de higiene	:	No comer ni beber durante su utilización. No fumar durante su utilización. Lávense las manos antes de los descansos y después de terminar la jornada laboral.

SECCIÓN 9. PROPIEDADES FÍSICAS Y QUÍMICAS

Estado físico	:	líquido
Forma	:	líquido viscoso
Color	:	pigmentado
Olor	:	característico
pH	:	3.5 - 4.5
Punto de fusión/ punto de congelación	:	Sin datos disponibles
Punto /intervalo de ebullición	:	No disponible
Punto de inflamación	:	> 199 °F / > 93 °C Método: ISO 3679
Punto de incendio	:	No aplicable
Límite superior de explosividad / Limites de inflamabilidad superior	:	Sin datos disponibles
Límites inferior de explosividad / Límites de inflamabilidad inferior	:	Sin datos disponibles
Presión de vapor	:	Sin datos disponibles
Densidad relativa del vapor	:	Sin datos disponibles
Densidad relativa	:	>= 0.97 (68 °F / 20 °C)
Solubilidad(es) Solubilidad en agua	: :	 soluble
Coeficiente de reparto n-octanol/agua	:	No aplicable
Temperatura de auto-inflamación	:	Sin datos disponibles

Temperatura de descomposición	:	No aplicable
Viscosidad		
Viscosidad, cinemática	:	Sin datos disponibles
Clase de explosión del polvo	:	No aplica
Tamaño de partícula	:	No aplicable

SECCIÓN 10. ESTABILIDAD Y REACTIVIDAD

Reactividad	:	No se conoce reacciones peligrosas bajo condiciones de uso normales.
Estabilidad química	:	Estable en condiciones normales.
Posibilidad de reacciones peligrosas	:	No se descompone si se almacena y aplica como se indica.
Condiciones que deben evitarse	:	Sin datos disponibles
Materiales incompatibles	:	No aplicable
Productos de descomposición peligrosos	:	No se conoce ningún producto peligroso de la descomposición.

SECCIÓN 11. INFORMACIÓN TOXICOLÓGICA

Toxicidad aguda

No está clasificado en base a la información disponible.

Producto:

Toxicidad oral aguda	:	Estimación de la toxicidad aguda: > 5,000 mg/kg Método: Método de cálculo

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidad oral aguda	:	DL50 (Rata, hembra): 3,190 mg/kg Método: Directrices de ensayo 401 del OECD Valoración: La sustancia o mezcla no presenta toxicidad oral aguda

BENZYL ALCOHOL:

Toxicidad oral aguda	:	DL50 (Rata, macho): 1,620 mg/kg

Toxicidad aguda por inhalación	:	CL50 (Rata, machos y hembras): > 4,178 mg/l Tiempo de exposición: 4 h Prueba de atmosfera: polvo/niebla Método: Directrices de ensayo 403 del OECD Valoración: La sustancia o mezcla no presenta toxicidad aguda por inhalación

Corrosión o irritación cutáneas

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Especies	:	Conejo
Método	:	Directrices de ensayo 404 del OECD
Resultado	:	Irritación de la piel

BENZYL ALCOHOL:

Especies	:	Conejo
Método	:	Directrices de ensayo 404 del OECD
Resultado	:	No irrita la piel

Lesiones o irritación ocular graves

Provoca irritación ocular grave.

Producto:

Observaciones	:	Puede irritar los ojos.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Especies	:	Conejo
Resultado	:	Efectos irreversibles en los ojos
Método	:	Directrices de ensayo 405 del OECD

BENZYL ALCOHOL:

Especies	:	Conejo
Resultado	:	No irrita los ojos
Método	:	Directrices de ensayo 405 del OECD

Sensibilización respiratoria o cutánea

Sensibilización cutánea

No está clasificado en base a la información disponible.

Sensibilización respiratoria

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vía de exposición	:	Contacto con la piel
Especies	:	Conejillo de indias
Método	:	Directrices de ensayo 406 del OECD
Resultado	:	No provoca sensibilización a la piel.

BENZYL ALCOHOL:

Vía de exposición	:	Contacto con la piel
Especies	:	Ratón
Método	:	Directrices de ensayo 429 del OECD
Resultado	:	No provoca sensibilización a la piel.

Mutagenicidad en células germinales

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Mutagenicidad en células germinales - Valoración	:	El peso de la evidencia no soporta la clasificación como un mutágeno de célula germinal.

Carcinogenicidad

No está clasificado en base a la información disponible.

IARC No se identifica ningún componente de este producto, que presente niveles mayores que o igual a 0,1% como agente carcinógeno humano probable, posible o confirmado por la (IARC) Agencia Internacional de Investigaciones sobre Carcinógenos.

OSHA Ningún componente de este producto está presente en niveles superiores o iguales al 0,1 % por lo que no se encuentra en la lista de OSHA de carcinógenos regulados.

NTP En este producto no se identifica ningún componente, que presente niveles mayores que o iguales a 0.1%, como agente carcinógeno conocido o anticipado por el (NTP) Programa Nacional de Toxicología.

Toxicidad para la reproducción

No está clasificado en base a la información disponible.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidad para la reproducción - Valoración	:	El peso de la prueba no admite la clasificación como toxicidad reproductiva

Toxicidad específica en determinados órganos (stot) - exposición única

No está clasificado en base a la información disponible.

Toxicidad específica en determinados órganos (stot) - exposiciones repetidas

Puede provocar daños en los órganos (Sistema gastrointestinal) tras exposiciones prolongadas o repetidas en caso de ingestión.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vía de exposición	:	Ingestión
Órganos diana	:	Sistema gastrointestinal
Valoración	:	La sustancia o mezcla se clasifica como tóxica específica de órganos diana, exposición repetida, categoría 2.

Toxicidad por dosis repetidas

Componentes:

BEHENTRIMONIUM CHLORIDE:

Especies	:	Rata, machos y hembras
NOAEL	:	10 mg/kg
Vía de aplicación	:	Oral
Tiempo de exposición	:	28 d
Método	:	Directrices de ensayo 407 del OECD

Toxicidad por aspiración

No está clasificado en base a la información disponible.

Otros datos

Producto:

Observaciones	:	En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 12. INFORMACIÓN ECOLÓGICA

Ecotoxicidad

Producto:

Evaluación Ecotoxicológica

Toxicidad acuática crónica	:	Nocivo para los organismos acuáticos, con efectos nocivos duraderos.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidad para los peces	:	CL50 (Danio rerio (pez zebra)): 3.5 mg/l Tiempo de exposición: 96 h Método: Directrices de ensayo 203 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 1.39 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para las algas/plantas acuáticas	:	CE50 (Desmodesmus subspicatus (Alga)): 3.48 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD EC10 (Desmodesmus subspicatus (alga verde)): 0.78 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Danio rerio (pez zebra)): 0.24 mg/l Tiempo de exposición: 9 d Método: Directrices de ensayo 212 del OECD
Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica)	:	NOEC (Daphnia magna (Pulga de mar grande)): 0.119 mg/l Tiempo de exposición: 21 d Método: Directrices de ensayo 211 del OECD

Evaluación Ecotoxicológica

Toxicidad acuática aguda	:	Muy tóxico para los organismos acuáticos.
Toxicidad acuática crónica	:	Muy tóxico para los organismos acuáticos, con efectos nocivos duraderos.

BENZYL ALCOHOL:

Toxicidad para los peces	:	CL50 (Pimephales promelas (Piscardo de cabeza gorda)): 460 mg/l Tiempo de exposición: 96 h
Toxicidad para las dafnias y otros invertebrados acuáticos	:	CE50 (Daphnia magna (Pulga de mar grande)): 230 mg/l Tiempo de exposición: 48 h Método: Directrices de ensayo 202 del OECD
Toxicidad para las algas/plantas acuáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 770 mg/l Tiempo de exposición: 72 h Método: Directrices de ensayo 201 del OECD
Toxicidad para los peces (Toxicidad crónica)	:	NOEC (Pez): 48.9 mg/l Tiempo de exposición: 30 d Observaciones: El resultado viene dado basándose en un enfoque SAR/AAR utilizando los modelos OECD Toolbox,

DEREK, VEGA QSAR (modelos CAESAR), etc.

Toxicidad para las dafnias y otros invertebrados acuáticos (Toxicidad crónica) : NOEC (Daphnia magna (Pulga de mar grande)): 51 mg/l
Tiempo de exposición: 21 d
Método: Directrices de ensayo 211 del OECD

Persistencia y degradabilidad

Componentes:

BEHENTRIMONIUM CHLORIDE:

Biodegradabilidad : Resultado: Fácilmente biodegradable.
Biodegradación: 80 %
Tiempo de exposición: 28 d
Método: Directrices de ensayo 301 B del OECD
Observaciones: El criterio de ventana de 10 días no se cumple.

BENZYL ALCOHOL:

Biodegradabilidad : Resultado: Fácilmente biodegradable.
Biodegradación: 92 - 96 %
Tiempo de exposición: 14 d
Método: Directrices de ensayo 301 C del OECD

Potencial de bioacumulación

Componentes:

BEHENTRIMONIUM CHLORIDE:

Bioacumulación : Factor de bioconcentración (FBC): 835
Método: Directrices de ensayo 305 del OECD

Coeficiente de reparto n-octanol/agua : log Pow: 3.29
pH: 5.4

BENZYL ALCOHOL:

Bioacumulación : Factor de bioconcentración (FBC): 1.55

Movilidad en el suelo

Sin datos disponibles

Otros efectos adversos

Producto:

Potencial de agotamiento del ozono : Regulacion: De acuerdo con las Regulaciones de Estados Unidos, se encuentra incluído en el listado de 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances
Observaciones: Este producto no contiene, ni ha sido fabrica-

do con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).

Información ecológica complementaria : En este documento, cualquier referencia acerca de pruebas con animales en componentes individuales se basa en datos disponibles al p

SECCIÓN 13. CONSIDERACIONES RELATIVAS A LA ELIMINACIÓN

Métodos de eliminación.

Residuos : No se debe permitir que el producto penetre en los desagües, tuberías, o la tierra (suelos).
Envíese a una compañía autorizada para la gestión de desechos.

Envases contaminados : Eliminar como producto no usado.
No reutilizar los recipientes vacíos.

SECCIÓN 14. INFORMACIÓN RELATIVA AL TRANSPORTE

Regulación doméstica

49 CFR

No está clasificado como producto peligroso.

Regulaciones internacionales

IATA-DGR

No está clasificado como producto peligroso.

Código-IMDG

No está clasificado como producto peligroso.

Transporte a granel con arreglo al anexo II del Convenio Marpol 73/78 y del Código IBC
No aplicable al producto suministrado.

Precauciones particulares para los usuarios

Observaciones : Producto no peligroso según los criterios de la reglamentación del transporte.

SECCIÓN 15. INFORMACIÓN REGLAMENTARIA

CERCA Cantidad Reportable

Este material no contiene ningún componente con una cantidad reportada (RQ) para CERCLA.

SARA 304 Sustancias extremadamente peligrosas Cantidad Reportable

Este material no contiene ningún componente en la sección 304 EHS RQ .

Cantidad de planeación de umbral SARA 302 Sustancias Extremadamente peligrosas

Este material no contiene componentes con una sección 302 EHS TPQ.

SARA 311/312 Peligros : Toxicidad específica de órganos blanco (exposición simple o repetida)
Lesiones oculares graves o irritación ocular

SARA 313 : Este material no contiene ningún componente químico con los conocidos números CAS que exceden el umbral de los niveles reportados (De Minimis) establecidos por SARA título III, sección 313.

Ley del Aire Limpio

Este producto no contiene, ni ha sido fabricado con ODS (Substancias que Dañan la capa de Ozono) Clase I o Clase II, tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 602 (40 CFR 82, Subpt. A, Ap.A + B).
Este producto no contiene ningún contaminante atmosférico peligroso (HAP), tal como se define en el Acta del Aire Limpio de los EE.UU. Sección 112 (40 CFR 61).
Este producto no contiene ningún producto químico que figure en el Acta de Aire Limpio de los EE.UU. Sección 112(r) para la Prevención de Liberación Accidental (40 CFR 68.130, Sub-parte F).

PHIẾU AN TOÀN HÓA CHẤT

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Phiên bản 1.0	Ngày tháng sửa đổi, bổ sung gần nhất: 04/03/2024	MÃ SỐ PHIẾU CHỈ DẪN AN TOÀN: 00-22-410000001511	Ngày ban hành cuối cùng: - Ngày ban hành đầu tiên: 04/03/2024

Phần 1. NHẬN DẠNG

Tên sản phẩm : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Thông tin nhà cung cấp (nhập khẩu; sản xuất; phân phối)

Địa chỉ : L'Oreal USA Products, Inc
133, Terminal Avenue
Clark, NJ 07066
USA

Điện thoại : 1-732-499-2745

Địa chỉ e-mail : CORPREGAFFAIRSMSDS@LOREAL.COM

Số điện thoại liên hệ trong trường hợp khẩn cấp

INFOTRAC : 1-800-535-5053 (Quốc tế: +1 352-323-3500) (Có sẵn 24 giờ một ngày. Thông tin SDS/Sản phẩm có thể không có sẵn cho Dịch vụ khẩn cấp.)

Mục đích sử dụng và hạn chế khi sử dụng

Mục đích sử dụng : Mỹ phẩm.

Phần 2. THÔNG TIN VỀ SỰ NGUY HẠI

Phân loại GHS theo Tiêu chuẩn truyền thông nguy hiểm của OSHA (29 CFR 1910.1200)

Kích ứng mắt : Cấp 2A

Độc tính đến cơ quan cụ thể sau phơi nhiễm lặp lại (Đường miệng) : Cấp 2 (Đường ruột)

Các yếu tố nhãn theo GHS

Hình đồ cảnh báo nguy cơ :

Từ cảnh báo : Cảnh báo

Cảnh báo nguy hiểm : H319 Gây kích ứng mắt nghiêm trọng.

H373 Có thể gây tổn thương cho các cơ quan (Đường ruột) do phơi nhiễm kéo dài hoặc lặp đi lặp lại nếu nuốt phải.

Các lưu ý phòng ngừa : P102 Để xa tầm tay của trẻ.
P103 Đọc nhãn trước khi sử dụng.

Biện pháp phòng ngừa:

P260 Không hít hơi sương hoặc hơi.
P264 Rửa tay thật kỹ sau khi thao tác với hoá chất.
P280 Đeo các thiết bị bảo vệ mặt/ mắt.

Biện pháp ứng phó:

P305 + P351 + P338 NẾU TIẾP XÚC LÊN MẮT: Rửa cẩn thận bằng nước trong vài phút. Tháo kính áp tròng nếu đang đeo và dễ thực hiện. Tiếp tục rửa.
P314 Tìm kiếm sự tư vấn/ chăm sóc y tế nếu cảm thấy không khỏe.
P337 + P313 Nếu kích ứng mắt tiếp tục kéo dài: Tìm kiếm sự tư vấn/ chăm sóc y tế.

Việc thải bỏ:

P501 Tiêu hủy thành phần bên trong/ thùng chứa hóa chất tại cơ sở xử lý chất thải đủ tiêu chuẩn.

Các nguy cơ khác

Được biết là chưa xảy ra.

Phần 3. THÀNH PHẦN/THÔNG TIN VỀ CÁC PHỤ LIỆU

Thành phần

Tên hóa học	Số CAS	Nồng độ (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	>= 1 - < 5
BENZYL ALCOHOL	100-51-6	>= 1 - < 5
MYRISTYL STEARATE	17661-50-6	>= 1 - < 5

Nồng độ thực tế được giữ lại như một bí mật thương mại

Phần 4. BIỆN PHÁP SƠ CỨU VỀ Y TẾ

Lời khuyên chung : Không có mối nguy nào cần đến các biện pháp sơ cứu đặc biệt.

Trường hợp tai nạn tiếp xúc theo đường hô hấp : Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.

Trường hợp tai nạn tiếp xúc trên da : Tìm kiếm sự chăm sóc y tế nếu vùng kích ứng lan rộng và dai dẳng.

Trường hợp tai nạn khi tiếp xúc với mắt : Ngay lập tức rửa mắt bằng thật nhiều nước.
Liên hệ với chuyên gia nếu hiện tượng kích ứng ở mắt kéo

dài.

Trường hợp tai nạn theo đường tiêu hóa	:	Xúc miệng bằng nước. Xúc miệng bằng nước và sau đó uống thật nhiều nước. Nếu các triệu trứng vẫn còn, hãy gọi bác sĩ.
Các triệu chứng/tác hại nghiêm trọng tức thời và ảnh hưởng sau này	:	Gây kích ứng mắt nghiêm trọng. Có thể gây tổn thương cho các cơ quan do phơi nhiễm kéo dài hoặc lặp đi lặp lại nếu nuốt phải.
Lưu ý đối với bác sỹ điều trị	:	Điều trị theo triệu trứng.

Phần 5. BIỆN PHÁP XỬ LÝ KHI CÓ HỎA HOẠN

Các phương tiện chữa cháy thích hợp	:	Sử dụng các biện pháp chữa cháy phù hợp với hoàn cảnh địa phương và môi trường xung quanh.
Các phương tiện chữa cháy không thích hợp	:	Được biết là chưa xảy ra.
Các nguy hiểm cụ thể khi chữa cháy	:	Không để nước chữa cháy chảy xuống cống và ao hồ.
Các chất độc được sinh ra khi bị cháy	:	Chưa từng biết có các sản phẩn gây nổ độc hại
Thông tin khác	:	Ngăn chặn việc nước chữa cháy gây ô nhiễm cho nguồn nước mặt hoặc hệ thống nước ngầm. Quy trình chuẩn dùng trong cháy nổ hóa chất
Thiết bị bảo hộ đặc biệt dành cho lính cứu hỏa	:	Đeo các dụng cụ thở cá nhân khi chữa cháy nếu cần thiết.

Phần 6. BIỆN PHÁP PHÒNG NGỪA, ỨNG PHÓ KHI CÓ SỰ CỐ

Trang thiết bị bảo hộ và quy trình ứng phó sự cố	:	Sử dụng các thiết bị bảo hộ cá nhân.
Các cảnh báo về môi trường	:	Ngăn ngừa không cho sản phẩm đi vào hệ thống cống rãnh. Ngăn ngừa việc rò rỉ hoặc tràn đổ tiếp theo nếu việc việc làm này an toàn.
Biện pháp, vật liệu vệ sinh sau khi xảy ra sự cố	:	Hút khô bằng các vật liệu hút nước trơ (ví dụ như cát, silicagen, chất liên kết axit, chất liên kết phổ thông, mùn cưa). Giữ trong các bình chứa kín thích hợp để tiêu huỷ.

Phần 7. YÊU CẦU VỀ SỬ DỤNG, BẢO QUẢN

Lời khuyên khi bảo vệ khỏi cháy nổ	:	Các biện pháp thông thường nhằm ngăn ngừa hoả hoạn.
Biện pháp, điều kiện cần áp dụng khi sử dụng, thao tác với hóa chất nguy hiểm	:	Tránh tiếp xúc với mắt. Về bảo hộ cá nhân, xem phần 8.
Biện pháp, điều kiện cần áp dụng khi bảo quản	:	Đóng kín bình chứa, đặt tại nơi khô ráo và thông gió tốt.
Các chất cần tránh bảo quản chung	:	Không lưu giữ gần axít.
Thêm thông tin về độ ổn định kho lưu trữ	:	Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.

Phần 8. KIỂM SOÁT PHƠI NHIỄM/YÊU CẦU VỀ THIẾT BỊ BẢO VỆ CÁ NHÂN

Các thành phần có các thông số cần kiểm soát tại nơi làm việc

Thành phần	Số CAS	Loại giá trị (Dạng phơi nhiễm)	Các thông số kiểm soát / Nồng độ cho phép	Cơ sở
BENZYL ALCOHOL	100-51-6	TWA	10 ppm	US WEEL
MYRISTYL STEARATE	17661-50-6	TWA (Bụi hạt hít phải qua phổi)	10 mg/m3	ACGIH
		TWA (Bụi hạt hít phải qua mũi và miệng)	3 mg/m3	ACGIH

Biện pháp và thiết bị bảo hộ cá nhân

Bảo vệ hô hấp	:	Thông thường không yêu cầu các thiết bị bảo hộ hô hấp cá nhân.
Bảo vệ tay		
Ghi chú	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Cao su nitrile
Bảo vệ mắt	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Kính bảo hộ
Bảo vệ da và cơ thể	:	Chỉ được áp dụng đối với các môi trường công nghiệp. Mặc đồng phục hoặc áo choàng phòng thí nghiệm.
Các biện pháp vệ sinh	:	Không được ăn hoặc uống khi sử dụng. Không hút thuốc khi sử dụng. Rửa tay trước khi nghỉ giải lao và vào cuối ngày làm việc.

Phần 9. ĐẶC TÍNH LÝ, HÓA CỦA HÓA CHẤT

Trạng thái vật lý	:	thể lỏng
Hình thể	:	Chất lỏng nhớt
Màu sắc	:	được nhuộm màu
Mùi đặc trưng	:	đặc tính
Độ pH	:	3.5 - 4.5
Điểm/khoảng nóng chảy/đông đặc	:	chưa có dữ liệu
Điểm sôi/khoảng sôi	:	Không có sẵn
Điểm cháy	:	> 199 °F / > 93 °C Phương pháp: ISO 3679
Nhiệt Độ Cháy	:	Không áp dụng được
Giới hạn trên của cháy nổ / Giới hạn trên của sự bốc cháy	:	chưa có dữ liệu
Giới hạn dưới của cháy nổ / Giới hạn dưới của sự bốc cháy	:	chưa có dữ liệu
Áp suất hóa hơi	:	chưa có dữ liệu
Tỷ trọng hơi tương đối	:	chưa có dữ liệu
Tỷ trọng tương đối	:	>= 0.97 (68 °F / 20 °C)
Độ hòa tan Độ hòa tan trong nước	: :	 hòa tan được
Hệ số phân tán: n-octanol/nước	:	Không áp dụng được
Nhiệt độ tự bốc cháy	:	chưa có dữ liệu

Nhiệt độ phân hủy	:	Không áp dụng được
Độ nhớt		
Độ nhớt, động học	:	chưa có dữ liệu
Loại nổ tạo bụi	:	không áp dụng
Kích thước hạt	:	Không áp dụng được

Phần 10. MỨC ỔN ĐỊNH VÀ PHẢN ỨNG CỦA HÓA CHẤT

Khả năng phản ứng	:	Không phản ứng nguy hiểm nào được biết đến trong điều kiện sử dụng thường.
Tính ổn định	:	Ổn định trong các điều kiện thông thường.
Phản ứng nguy hiểm	:	Không phân hủy nếu được lưu trữ và ứng dụng như chỉ dẫn.
Các điều kiện cần tránh	:	chưa có dữ liệu
Vật liệu không tương thích	:	Không áp dụng được
Phản ứng phân hủy và các sản phẩm độc của phản ứng phân hủy	:	Không sản phẩm phân hủy nguy hại nào được biết đến.

Phần 11. THÔNG TIN VỀ ĐỘC TÍNH

Độc cấp tính

Không được phân loại dựa trên thông tin có sẵn.

Sản phẩm:

Độc tính cấp theo đường miệng	:	Ước lượng độc tính cấp: > 5,000 mg/kg Phương pháp: Phương pháp tính toán

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, con cái): 3,190 mg/kg Phương pháp: Hướng dẫn xét nghiệm OECD 401 Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường miệng

BENZYL ALCOHOL:

Độc tính cấp theo đường miệng	:	LD50 (Chuột, con đực): 1,620 mg/kg
Độc tính cấp do hít phải	:	LC50 (Chuột, Đực và cái): > 4,178 mg/l

Thời gian phơi nhiễm: 4 h
Không khí kiểm nghiệm: bụi / hơi sương
Phương pháp: Hướng dẫn xét nghiệm OECD 403
Đánh giá: Hỗn hợp hoặc chất này không gây độc cấp tính theo đường hô hấp

Ăn mòn/kích ứng da

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Loài	:	Thỏ
Phương pháp	:	Hướng dẫn xét nghiệm OECD 404
Kết quả	:	Kích ứng da

BENZYL ALCOHOL:

Loài	:	Thỏ
Phương pháp	:	Hướng dẫn xét nghiệm OECD 404
Kết quả	:	Không gây kích ứng da

Tổn thương mắt nghiêm trọng/kích ứng mắt

Gây kích ứng mắt nghiêm trọng.

Sản phẩm:

Ghi chú	:	Có thể gây kích ứng mắt

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Loài	:	Thỏ
Kết quả	:	Những ảnh hưởng không thể phục hồi lên mắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 405

BENZYL ALCOHOL:

Loài	:	Thỏ
Kết quả	:	Không gây kích ứng mắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 405

Kích thích hô hấp hoặc da

Nhạy cảm với da

Không được phân loại dựa trên thông tin có sẵn.

Nhạy cảm với hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Đường tiếp xúc	:	Tiếp xúc với da
Loài	:	Chuột lang
Phương pháp	:	Hướng dẫn xét nghiệm OECD 406
Kết quả	:	Không gây kích ứng da.

BENZYL ALCOHOL:

Đường tiếp xúc	:	Tiếp xúc với da
Loài	:	Chuột nhắt
Phương pháp	:	Hướng dẫn xét nghiệm OECD 429
Kết quả	:	Không gây kích ứng da.

Đột biến tế bào mầm (tế bào gen)

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Đột biến tế bào mầm (tế bào gen) - Đánh giá	:	Trọng số bằng chứng không đủ khẳng định xếp loại là biến đổi tế bào mầm.

Tác nhân gây ung thư

Không được phân loại dựa trên thông tin có sẵn.

IARC Không có thành phần nào của sản phẩm ở mức cao hơn hoặc bằng 0.1 % được xác định là chất nghi ngờ, có thể hoặc chắc chắn gây ung thư ở người theo quy định của IARC.

OSHA Không có thành phần nào trong sản phẩm này có nồng độ lớn hơn hoặc bằng 0,1% nằm trong danh sách chất gây ung thư thuộc diện quản lý của OSHA.

NTP Không có thành phần nào của sản phẩm này ở mức cao hơn hoặc bằng 0.1 % được xác định là chất gây ung thư hoặc chất được dự đoán là gây ung thư theo NTP.

Độc tính sinh sản

Không được phân loại dựa trên thông tin có sẵn.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Độc tính sinh sản - Đánh giá	:	Các bằng chứng thu được không ủng hộ phép phân loại chất này có độc tính sinh sản

STOT - Tiếp xúc một lần

Không được phân loại dựa trên thông tin có sẵn.

STOT - Tiếp xúc lặp lại

Có thể gây tổn thương cho các cơ quan (Đường ruột) do phơi nhiễm kéo dài hoặc lặp đi lặp lại nếu nuốt phải.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Đường tiếp xúc	:	Nuốt phải
Các cơ quan đích	:	Đường ruột
Đánh giá	:	Chất hoặc hỗn hợp được phân loại là chất độc đối với các cơ quan đích cụ thể, phơi nhiễm nhiều lần, hạng 2.

Lượng độc lặp lại

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Loài	:	Chuột, Đực và cái
NOAEL	:	10 mg/kg
Lộ trình ứng dụng	:	Đường miệng
Thời gian phơi nhiễm	:	28 d
Phương pháp	:	Hướng dẫn xét nghiệm OECD 407

Độc tính hô hấp

Không được phân loại dựa trên thông tin có sẵn.

Thông tin khác

Sản phẩm:

Ghi chú	:	Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 12. THÔNG TIN VỀ SINH THÁI

Độc môi trường

Sản phẩm:

Đánh giá độc tố sinh thái học

Nguy hại mãn tính đối với môi trường thủy sinh	:	Có hại đối với sinh vật thuỷ sinh với ảnh hưởng kéo dài.

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Độc đối với cá	:	LC50 (Danio rerio (cá vằn)): 3.5 mg/l Thời gian phơi nhiễm: 96 h Phương pháp: Hướng dẫn xét nghiệm OECD 203
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 1.39 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Desmodesmus subspicatus (tảo lục)): 3.48 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201 EC10 (Desmodesmus subspicatus (tảo lục)): 0.78 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Danio rerio (cá vằn)): 0.24 mg/l Thời gian phơi nhiễm: 9 d Phương pháp: Hướng dẫn xét nghiệm OECD 212
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 0.119 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 211

Đánh giá độc tố sinh thái học

Nguy hại cấp tính đối với môi trường thủy sinh	:	Rất độc đối với sinh vật thuỷ sinh.
Nguy hại mãn tính đối với môi trường thủy sinh	:	Rất độc đối với sinh vật thuỷ sinh với ảnh hưởng kéo dài.

BENZYL ALCOHOL:

Độc đối với cá	:	LC50 (Pimephales promelas (cá tuế đầu to)): 460 mg/l Thời gian phơi nhiễm: 96 h
Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác	:	EC50 (Daphnia magna (Bọ nước)): 230 mg/l Thời gian phơi nhiễm: 48 h Phương pháp: Hướng dẫn xét nghiệm OECD 202
Độc tính đối với tảo/thực vật dưới nước	:	EC50 (Pseudokirchneriella subcapitata (tảo lục)): 770 mg/l Thời gian phơi nhiễm: 72 h Phương pháp: Hướng dẫn xét nghiệm OECD 201
Độc đối với cá (Tính độc mãn tính)	:	NOEC (Cá): 48.9 mg/l Thời gian phơi nhiễm: 30 d Ghi chú: Giá trị được đặt ra dựa trên phương pháp tiếp cận SAR/AAR bằng cách sử dụng các mô hình OECD Toolbox, DEREK, VEGA QSAR (Các mô hình CAESAR), vv.

Độc tính đối các loài giáp xác và các động vật không xương sống thủy sinh khác (Tính độc mãn tính)	:	NOEC (Daphnia magna (Bọ nước)): 51 mg/l Thời gian phơi nhiễm: 21 d Phương pháp: Hướng dẫn xét nghiệm OECD 211

Tính bền vững, khó phân hủy và khả năng phân hủy

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Tính phân hủy sinh học	:	Kết quả: Dễ phân huỷ sinh học. Phân hủy sinh học: 80 % Thời gian phơi nhiễm: 28 d Phương pháp: OECD Hướng dẫn xét nghiệm 301B Ghi chú: Tiêu chí 10 ngày không được thỏa mãn.

BENZYL ALCOHOL:

Tính phân hủy sinh học	:	Kết quả: Dễ phân huỷ sinh học. Phân hủy sinh học: 92 - 96 % Thời gian phơi nhiễm: 14 d Phương pháp: OECD Hướng dẫn xét nghiệm 301C

Khả năng tích lũy sinh học

Thành phần:

BEHENTRIMONIUM CHLORIDE:

Tính tích lũy sinh học	:	Yếu tố nồng độ sinh học (BCF): 835 Phương pháp: Hướng dẫn xét nghiệm OECD 305
Hệ số phân tán: n-octanol/nước	:	log Pow: 3.29 Độ pH: 5.4

BENZYL ALCOHOL:

Tính tích lũy sinh học	:	Yếu tố nồng độ sinh học (BCF): 1.55

Độ linh động trong đất

chưa có dữ liệu

Các tác hại khác

Sản phẩm:

Có khả năng gây suy giảm tầng ozon	:	Quy định: 40 CFR Bảo vệ Môi trường; Phần 82 Bảo vệ tầng ôzôn bình lưu - CAA Phần 602 Các chất loại I Ghi chú: Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt.

A, App.A + B) .

Các thông tin sinh thái khác : Bất kỳ dữ liệu về thành phần được thử nghiệm trên động vật được đề cập trong tài liệu này được dựa trên các nghiên cứu đã công bố rộ

Phần 13. THÔNG TIN VỀ THẢI BỎ

Các biện pháp thải bỏ

Chất thải từ cặn : Không được đổ sản phẩm vào cống, rãnh, mương, máng, nơi nước chảy hoặc vứt xuống đất.
Gửi đến cho một công ty xử lý chất thải có giấy phép

Bao bì nhiễm độc : Loại bỏ như đối với sản phẩm không sử dụng.
Không tái sử dụng các thùng chứa rỗng.

Phần 14. THÔNG TIN KHI VẬN CHUYỂN

Quy định quốc gia

49 CFR

Chưa được quy định là hàng hóa nguy hiểm

Quy định Quốc tế

IATA-DGR

Chưa được quy định là hàng hóa nguy hiểm

Mã IMDG

Chưa được quy định là hàng hóa nguy hiểm

Vận chuyển trong tàu lớn theo như Phụ lục II của Công ước MARPOL 73/78 và Bộ luật IBC
Không áp dụng cho sản phẩm khi được cung cấp.

Những cảnh báo đặc biệt mà người sử dụng cần lưu ý

Ghi chú : Không bị xếp vào loại nguy hiểm hiểu theo các quy định về vận tải.

Phần 15. THÔNG TIN VỀ PHÁP LUẬT

CERCLA Số lượng báo cáo

Nguyên liệu này không chứa bất cứ thành phần thuộc quy định của CERCLA RQ.

Các hóa chất cực kỳ nguy hại SARA 304 Số lượng báo cáo

Nguyên liệu này không chứa bất cứ thành phần nào thuộc quy định của mục 304 EHS RQ.

SARA 302 Lập kế hoạch ngưỡng cho các chất cực kỳ nguy hiểm Số lượng

Vật liệu này không chứa bất kỳ thành phần nào có phần 302 EHS TPQ.

SARA 311/312 Các nguy cơ : Độc tính cơ quan mục tiêu cụ thể (phơi nhiễm đơn lẻ hoặc lặp đi lặp lại)
Tổn thương mắt nghiêm trọng hoặc kích ứng mắt

SARA 313 : Vật liệu này không chứa bất kỳ thành phần hóa học nào có số CAS được biết đến mà vượt các mức ngưỡng (De Minimis) báo cáo được lập trong SARA Mục IIII, phần 313.

Đạo luật không khí sạch

Sản phẩm này không chứa hoặc không được sản xuất từ các hóa chất thuộc Lớp I hoặc lớp II ODS của Đạo luật Không khí sạch của Hoa Kỳ, Mục 602 (40 CFR 82, Subpt. A, App.A + B) .
Sản phẩm này không chứa bất kỳ chất ô nhiễm không khí nguy hại nào (HAP) theo như Đạo luật Không khí sạch của Hoa Kỳ, mục 112 (40 CFR 61).
Sản phẩm này không chứa bất kỳ chất nào được liệt kê trong Đạo luật không khí sạch của Hoa Kỳ, Mục 112 (r) Ngăn ngừa Phát thải do sự cố (40 CFR 68.130 phần phụ F).

Phần 16. CÁC THÔNG TIN CẦN THIẾT KHÁC, BAO GỒM CÁC THÔNG TIN KHI XÂY DỰNG VÀ HIỆU ĐÍNH PHIẾU AN TOÀN HÓA CHẤT

SAFETY DATA SHEET

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	04/03/2024	00-22-410000001511	Date of first issue: 04/03/2024

SECTION 1. IDENTIFICATION

Product name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Other means of identification : No data available

Manufacturer or supplier's details

Address : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Telephone : 1-732-499-2745

E-mail address : CORPREGAFFAIRSMSDS@LOREAL.COM

Emergency telephone

National Poisons Control Center : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (This telephone nuer is available during office hours only.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the Hazardous Products Regulations

Eye irritation : Category 2A

Specific target organ toxicity - repeated exposure (Oral) : Category 2 (Gastrointestinal tract)

GHS label elements

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H319 Causes serious eye irritation.
H373 May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Precautionary Statements : P102 Keep out of reach of children.
P103 Read label before use.

Prevention:

P260 Do not breathe mist or vapors.
P264 Wash hands thoroughly after handling.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P314 Get medical advice/ attention if you feel unwell.
P337 + P313 If eye irritation persists: Get medical advice/ attention.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	Common Name/Synonym	CAS-No.	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	Quaternary ammonium compounds, C20-22-alkyltrimethyl, chlorides	68607-24-9	>= 1 - < 5 *
BENZYL ALCOHOL	benzyl alcohol	100-51-6	>= 1 - < 5 *
MYRISTYL STEARATE	tetradecyl stearate	17661-50-6	>= 1 - < 5 *

* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice : No hazards which require special first aid measures.

If inhaled : If symptoms persist, call a physician.

In case of skin contact	:	Get medical attention if irritation develops and persists.
In case of eye contact	:	Immediately flush eye(s) with plenty of water. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. Clean mouth with water and drink afterwards plenty of water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure if swallowed.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Further information	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Materials to avoid	:	Do not store near acids.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
MYRISTYL STEARATE	17661-50-6	TWA	10 mg/m3	CA AB OEL
		TWAEV	10 mg/m3	CA QC OEL
		TWA (Inhalable)	10 mg/m3	CA BC OEL
		TWA (Respirable)	3 mg/m3	CA BC OEL
		TWA (Inhalable particulate matter)	10 mg/m3	ACGIH
		TWA (Respirable particulate matter)	3 mg/m3	ACGIH

Personal protective equipment

Respiratory protection	:	No personal respiratory protective equipment normally required.
Hand protection		
Remarks	:	Applicable for industrial settings only. Nitrile rubber
Eye protection	:	Applicable for industrial settings only. Safety glasses
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.

Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	liquid
Form	:	viscous liquid
Color	:	pigmented
Odor	:	characteristic
pH	:	3.5 - 4.5
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	>= 0.97 (20 °C)
Solubility(ies) Water solubility	:	soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available

Decomposition temperature	:	Not applicable
Viscosity		
Viscosity, kinematic	:	No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity	:	LD50 (Rat, female): 3,190 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity	:	LD50 (Rat, male): 1,620 mg/kg
Acute inhalation toxicity	:	LC50 (Rat, male and female): > 4,178 mg/l Exposure time: 4 h Test atmosphere: dust/mist

Method: OECD Test Guideline 403
Assessment: The substance or mixture has no acute inhalation toxicity

Skin corrosion/irritation

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Skin irritation

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

BENZYL ALCOHOL:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

May cause damage to organs (Gastrointestinal tract) through prolonged or repeated exposure if swallowed.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity	:	Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 3.5 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1.39 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): 3.48 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Desmodesmus subspicatus (green algae)): 0.78 mg/l Exposure time: 72 h

Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Danio rerio (zebra fish)): 0.24 mg/l
Exposure time: 9 d
Method: OECD Test Guideline 212

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 0.119 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 211

Ecotoxicology Assessment

Acute aquatic toxicity : Very toxic to aquatic life.

Chronic aquatic toxicity : Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)): 460 mg/l
Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 230 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants : EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity) : NOEC (Fish): 48.9 mg/l
Exposure time: 30 d
Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) : NOEC (Daphnia magna (Water flea)): 51 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 211

Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 80 %
Exposure time: 28 d
Method: OECD Test Guideline 301B
Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 92 - 96 %
Exposure time: 14 d
Method: OECD Test Guideline 301C

Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Bioconcentration factor (BCF): 835
Method: OECD Test Guideline 305

Partition coefficient: n-octanol/water : log Pow: 3.29
pH: 5.4

BENZYL ALCOHOL:

Bioaccumulation : Bioconcentration factor (BCF): 1.55

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

TDG

Not regulated as a dangerous good

International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Canadian PBT Chemicals : This product does not contain any components on the DSL that are classified as Persistent, Bioaccumulative and Toxic (PBT) under CEPA.

Canadian National Pollutant Release Inventory (NPRI): No component is listed on NPRI.

SECTION 16. OTHER INFORMATION

Full text of other abbreviations

ACGIH	:	USA. ACGIH Threshold Limit Values (TLV)
CA AB OEL	:	Canada. Alberta, Occupational Health and Safety Code (table 2: OEL)

FICHE DE DONNÉES DE SÉCURITÉ

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	04/03/2024	00-22-410000001511	Date de la première parution: 04/03/2024

SECTION 1. IDENTIFICATION

Nom du produit : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Autres moyens d'identification : Donnée non disponible

Détails concernant le fabricant ou le fournisseur

Adresse : L'Oreal Canada
4895 rue Hickmore
Ville St-Laurent H4T 1K5
Canada

Téléphone : 1-732-499-2745

Adresse de courrier électronique : CORPREGAFFAIRSMSDS@LOREAL.COM

Numéro de téléphone en cas d'urgence

Centre antipoison national : CANUTEC : 1-613-996-6666 (Canutec (*666 Cellular)) (Ce numéro de téléone n'est valable que pendant les heures de bureau.)

INFOTRAC : 1-800-535-5053 (International: +1 352-323-3500) (Disponible 24h/24. Les informations sur la FDS/le produit peuvent ne pas être disponibles pour le service d'urgence.)

Utilisation recommandée du produit chimique et restrictions d'utilisation

Utilisation recommandée : Produits de soins personnels destinés à un usage cosmétique.

SECTION 2. IDENTIFICATION DES DANGERS

Classement SGH en conformité avec les règlements sur les produits dangereux

Irritation occulaire : Catégorie 2A

Toxicité systémique sur un organe cible précis - exposition répétée (Oral(e)) : Catégorie 2 (Tractus gastro-intestinal)

Éléments étiquette SGH

Pictogrammes de danger :

Mot indicateur : Attention

Déclarations sur les risques : H319 Provoque une sévère irritation des yeux.
H373 Risque présumé d'effets graves pour les organes (Tractus gastro-intestinal) à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.

Déclarations sur la sécurité : P102 Tenir hors de portée des enfants.
P103 Lire l'étiquette avant utilisation.

Prévention:

P260 Ne pas respirer les brouillards ou les vapeurs.
P264 Se laver les mains soigneusement après manipulation.
P280 Porter un équipement de protection des yeux/ du visage.

Intervention:

P305 + P351 + P338 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.
P314 Demander un avis médical/ Consulter un médecin en cas de malaise.
P337 + P313 Si l'irritation des yeux persiste: Demander un avis médical/ Consulter un médecin.

Élimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

Autres dangers

Inconnu.

SECTION 3. COMPOSITION/INFORMATION SUR LES COMPOSANTS

Composants

Nom Chimique	Nom commun/Synonyme	No. CAS	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	Quaternary ammonium compounds, C20-22-alkyltrimethyl, chlorides	68607-24-9	>= 1 - < 5 *
BENZYL ALCOHOL	benzyl alcohol	100-51-6	>= 1 - < 5 *
MYRISTYL	tetradecyl stea-	17661-50-6	>= 1 - < 5 *

STEARATE	rate		

* La concentration ou la plage de concentration réelle est retenue en tant que secret industriel

SECTION 4. PREMIERS SOINS

Conseils généraux	:	Pas de dangers qui requièrent des mesures spéciales de premiers soins.
En cas d'inhalation	:	Si les symptômes persistent, consulter un médecin.
En cas de contact avec la peau	:	Faire appel à une assistance médicale si de l'irritation se développe et persiste.
En cas de contact avec les yeux	:	Rincer immédiatement l'oeil (les yeux) à grande eau. Si l'irritation oculaire persiste, consulter un médecin spécialiste.
En cas d'ingestion	:	Rincer la bouche à l'eau. Se rincer la bouche à l'eau puis boire beaucoup d'eau. Si les symptômes persistent, consulter un médecin.
Symptômes et effets les plus importants, aigus et différés	:	Provoque une sévère irritation des yeux. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.
Avis aux médecins	:	Traiter de façon symptomatique.

SECTION 5. MESURES DE LUTTE CONTRE L'INCENDIE

Moyen d'extinction approprié	:	Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement immédiat.
Moyens d'extinction inadéquats	:	Inconnu.
Dangers spécifiques pendant la lutte contre l'incendie	:	Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.
Produits de combustion dangereux	:	On ne connaît aucun produit de combustion dangereux
Autres informations	:	Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou souterraines. Procédure usuelle pour feux d'origine chimique.
Équipement de protection spécial pour les pompiers	:	Si nécessaire, porter un appareil respiratoire autonome lors de la lutte contre l'incendie.

SECTION 6. MESURES À PRENDRE EN CAS DE DÉVERSEMENT ACCIDENTEL

Précautions individuelles, équipement de protection et procédures d'urgence	:	Utiliser un équipement de protection personnelle.
Précautions pour la protection de l'environnement	:	Éviter que le produit pénètre dans les égouts. Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger.
Méthodes et matières pour le confinement et le nettoyage	:	Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure). Conserver dans des récipients adaptés et fermés pour l'élimination.

SECTION 7. MANIPULATION ET ENTREPOSAGE

Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Équipement de protection individuelle, voir la section 8.
Conditions de stockage sures	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
Matières à éviter	:	Ne pas entreposer près des acides.
D'autres informations sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications.

SECTION 8. MESURES DE CONTRÔLE DE L'EXPOSITION/PROTECTION INDIVIDUELLE

Composants avec valeurs limites d'exposition professionnelle

Composants	No. CAS	Type de valeur (Type d'exposition)	Paramètres de contrôle / Concentration admissible	Base
MYRISTYL STEARATE	17661-50-6	TWA	10 mg/m3	CA AB OEL
		VEMP	10 mg/m3	CA QC OEL
		TWA (Inhalable)	10 mg/m3	CA BC OEL
		TWA (Respirable)	3 mg/m3	CA BC OEL
		TWA (Fraction inhalable)	10 mg/m3	ACGIH

		TWA (Fraction respirable)	3 mg/m3	ACGIH

Équipement de protection individuelle

Protection respiratoire : Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

Protection des mains

Remarques : Pour usage industriel seulement. Caoutchouc nitrile

Protection des yeux : Pour usage industriel seulement.
Lunettes de sécurité

Protection de la peau et du corps : Pour usage industriel seulement.
Uniforme de travail ou sarreau de laboratoire.

Mesures d'hygiène : Ne pas manger et ne pas boire pendant l'utilisation.
Ne pas fumer pendant l'utilisation.
Se laver les mains avant les pauses et à la fin de la journée.

SECTION 9. PROPRIETES PHYSIQUES ET CHIMIQUES

État physique : liquide

Forme : liquide visqueux

Couleur : pigmenté

Odeur : caractéristique

pH : 3.5 - 4.5

Point de fusion/congélation : Donnée non disponible

Point/intervalle d'ébullition : Pas disponible

Point d'éclair : > 93 °C

Méthode: ISO 3679

Point de feu : Sans objet

Limite d'explosivité, supérieure / Limite d'inflammabilité : Donnée non disponible

supérieure		
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible
Pression de vapeur	:	Donnée non disponible
Densité de vapeur relative	:	Donnée non disponible
Densité relative	:	>= 0.97 (20 °C)
Solubilité		
Solubilité dans l'eau	:	soluble
Coefficient de partage (n-octanol/eau)	:	Sans objet
Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Sans objet
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Classe d'explosivité des poussières	:	Sans objet.
Taille des particules	:	Sans objet

SECTION 10. STABILITÉ ET RÉACTIVITÉ

Réactivité	:	Pas de réactions dangereuses connues dans les conditions normales d'utilisation.
Stabilité chimique	:	Stable dans des conditions normales.
Possibilité de réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les indications.
Conditions à éviter	:	Donnée non disponible
Produits incompatibles	:	Sans objet
Produits de décomposition dangereux	:	Aucun produit dangereux de décomposition n'est connu.

SECTION 11. INFORMATIONS TOXICOLOGIQUES

Toxicité aiguë

Non répertorié selon les informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2,000 mg/kg
Méthode: Méthode de calcul

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité aiguë par voie orale : DL50 (Rat, femelle): 3,190 mg/kg
Méthode: Directives du test 401 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par voie orale

BENZYL ALCOHOL:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 1,620 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): > 4,178 mg/l
Durée d'exposition: 4 h
Atmosphère d'essai: poussières/brouillard
Méthode: Directives du test 403 de l'OECD
Évaluation: La substance ou le mélange ne présente aucune toxicité aiguë par inhalation

Corrosion et/ou irritation de la peau

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : Directives du test 404 de l'OECD
Résultat : Irritation de la peau

BENZYL ALCOHOL:

Espèce : Lapin
Méthode : Directives du test 404 de l'OECD
Résultat : Pas d'irritation de la peau

Lésion/irritation grave des yeux

Provoque une sévère irritation des yeux.

Produit:

Remarques : Peut irriter les yeux.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce	:	Lapin
Résultat	:	Des effets irréversibles aux yeux
Méthode	:	Directives du test 405 de l'OECD

BENZYL ALCOHOL:

Espèce	:	Lapin
Résultat	:	Pas d'irritation des yeux
Méthode	:	Directives du test 405 de l'OECD

Sensibilisation cutanée ou respiratoire

Sensibilisation de la peau

Non répertorié selon les informations disponibles.

Sensibilisation des voies respiratoires

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cobaye
Méthode	:	Directives du test 406 de l'OECD
Résultat	:	Ne cause pas la sensibilisation de la peau.

BENZYL ALCOHOL:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris
Méthode	:	Directives du test 429 de l'OECD
Résultat	:	Ne cause pas la sensibilisation de la peau.

Mutagénécité de la cellule germinale

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Mutagénécité de la cellule germinale - Évaluation	:	Les données ne soutiennent pas le classement comme un mutagène des cellules germinales.

Cancérogénicité

Non répertorié selon les informations disponibles.

Toxicité pour la reproduction

Non répertorié selon les informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour la reproduction - Évaluation	:	Le poids des données ne supporte pas la classification comme toxique pour la reproduction

STOT - exposition unique

Non répertorié selon les informations disponibles.

STOT - exposition répétée

Risque présumé d'effets graves pour les organes (Tractus gastro-intestinal) à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Ingestion
Organes cibles	:	Tractus gastro-intestinal
Évaluation	:	La substance ou le mélange est classé(e) comme agent toxique pour un organe spécifique, expositions répétées, catégorie 2.

Toxicité à dose répétée

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	10 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 d
Méthode	:	Directives du test 407 de l'OECD

Toxicité par aspiration

Non répertorié selon les informations disponibles.

Autres informations

Produit:

Remarques	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 12. INFORMATIONS ÉCOLOGIQUES

Écotoxicité

Produit:

Évaluation écotoxicologique

Toxicité chronique pour le milieu aquatique : Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour les poissons : CL50 (Danio rerio (poisson zèbre)): 3.5 mg/l
Durée d'exposition: 96 h
Méthode: Directives du test 203 de l'OECD

Toxicité pour la daphnie et les autres invertébrés aquatiques : CE50 (Daphnia magna (Puce d'eau)): 1.39 mg/l
Durée d'exposition: 48 h
Méthode: OCDE Ligne directrice 202

Toxicité pour les algues/plantes aquatiques : CE50 (Desmodesmus subspicatus (Algues vertes)): 3.48 mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

EC10 (Desmodesmus subspicatus (Algues vertes)): 0.78 mg/l
Durée d'exposition: 72 h
Méthode: OCDE Ligne directrice 201

Toxicité pour les poissons (Toxicité chronique) : NOEC (Danio rerio (poisson zèbre)): 0.24 mg/l
Durée d'exposition: 9 d
Méthode: Directives du test 212 de l'OECD

Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique) : NOEC (Daphnia magna (Puce d'eau)): 0.119 mg/l
Durée d'exposition: 21 d
Méthode: OCDE Ligne directrice 211

Évaluation écotoxicologique

Toxicité aiguë en milieu aquatique : Très toxique pour les organismes aquatiques.

Toxicité chronique pour le milieu aquatique : Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

BENZYL ALCOHOL:

Toxicité pour les poissons : CL50 (Pimephales promelas (Vairon à grosse tête)): 460 mg/l
Durée d'exposition: 96 h

Toxicité pour la daphnie et : CE50 (Daphnia magna (Puce d'eau)): 230 mg/l

les autres invertébrés aquatiques		Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (Algues vertes)): 770 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Toxicité pour les poissons (Toxicité chronique)	:	NOEC (Poissons): 48.9 mg/l Durée d'exposition: 30 d Remarques: La valeur donnée est basée sur une approche SAR/AAR à l'aide de la boîte à outils OECD, DEREK, les modèles VEGA QSAR (modèles CAESAR), etc.
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC (Daphnia magna (Puce d'eau)): 51 mg/l Durée d'exposition: 21 d Méthode: OCDE Ligne directrice 211

Persistance et dégradabilité

Composants:

BEHENTRIMONIUM CHLORIDE:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 80 % Durée d'exposition: 28 d Méthode: Directive d'essais 301B de l'OCDE Remarques: Le critère de la fenêtre de 10 jours n'est pas atteint.

BENZYL ALCOHOL:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 92 - 96 % Durée d'exposition: 14 d Méthode: Directive d'essais 301C de l'OCDE

Potentiel bioaccumulatif

Composants:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation	:	Coefficient de bioconcentration (BCF): 835 Méthode: Directives du test 305 de l'OECD
Coefficient de partage (n-octanol/eau)	:	log Pow: 3.29 pH: 5.4

BENZYL ALCOHOL:

Bioaccumulation	:	Coefficient de bioconcentration (BCF): 1.55

Mobilité dans le sol

Donnée non disponible

Autres effets néfastes

Produit:

Information écologique supplémentaire : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

SECTION 13. CONSIDERATIONS RELATIVES À L'ÉLIMINATION

Méthodes d'élimination

Déchets de résidus : Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol.
Envoyer à une entreprise autorisée de gestion des déchets.

Emballages contaminés : Éliminer comme produit non utilisé.
Ne pas réutiliser des récipients vides.

SECTION 14. INFORMATIONS RELATIVES AU TRANSPORT

Réglementation nationale

TDG

Non réglementé comme étant une marchandise dangereuse

Réglementations internationales

IATA-DGR

Non réglementé comme étant une marchandise dangereuse

Code IMDG

Non réglementé comme étant une marchandise dangereuse

Transport en vrac en vertu de l'Annexe II des règles MARPOL 73/78 et du code IBC

Non applicable pour le produit tel qu'il est fourni.

Précautions spéciales pour les utilisateurs

Remarques : Produit non dangereux au sens des règlements de transport.

SECTION 15. INFORMATIONS RÉGLEMENTAIRES

Produits chimiques PBT au Canada : Ce produit ne contient pas de composants inscrits sur la LIS qui sont classés comme substances persistantes, bioaccumulables et toxiques (PBT) sous la LCPE.

Inventaire National Canadien des Rejets de Polluants (INRP): Aucun composé ne fait partie de la liste de l'INRP.

SECTION 16. AUTRES INFORMATIONS

Texte complet d'autres abréviations

ACGIH	:	États-Unis. ACGIH, valeurs limites d'exposition (TLV)
CA AB OEL	:	Canada. Alberta, Code de santé et de sécurité au travail (tableau 2 : VLE)
CA BC OEL	:	Canada. LEP Colombie Britannique
CA QC OEL	:	Québec. Règlement sur la santé et la sécurité du travail, Annexe 1 Partie 1: Valeurs d'exposition admissibles des contaminants de l'air
ACGIH / TWA	:	Moyenne pondérée dans le temps de 8 h
CA AB OEL / TWA	:	Limite d'exposition professionnelle de 8 heures
CA BC OEL / TWA	:	Moyenne pondérée dans le temps de 8 h
CA QC OEL / VEMP	:	Valeur d'exposition moyenne pondérée

AIIC - Inventaire australien des produits chimiques industriels; ANTT - Agence nationale du transport routier du Brésil; ASTM - Société américaine pour l'analyse des matériaux; bw - Poids corporel; CMR - Carcinogène, mutagène ou agent toxique pour le système reproductif; DIN - Norme de l'institut allemande de normalisation; DSL - Liste intérieure des substances (Canada); ECx - Concentration associée avec une réponse de x %; ELx - Taux de chargement associé avec une réponse de x %; EmS - Plan d'urgence; ENCS - Liste des substances chimiques existantes et nouvelles (Japon); ErCx - Concentration associée avec une réponse de taux de croissance de x %; ERG - Guide du plan d'urgence; GHS - Système à harmonisation globale; GLP - Bonne pratique de laboratoire; IARC - Agence internationale de recherche sur le cancer; IATA - Association internationale du transport aérien; IBC - Code international de la construction et des équipements pour les bateaux transportant des produits chimiques dangereux en vrac; IC50 - Concentration inhibitrice de 50 %; ICAO - Organisation internationale de l'aviation civile; IECSC - Inventaire des produits chimiques existants de la Chine; IMDG - Code maritime international des marchandises dangereuses; IMO - Organisation maritime internationale; ISHL - Loi sur la santé et la sécurité industrielle (Japon); ISO - Organisation internationale pour la normalisation; KECI - Inventaire des produits chimiques existants de la Corée; LC50 - Concentration létale pour 50 % d'une population test; LD50 - Dose létale pour 50 % d'une population test (dose létale médiane); MARPOL - Convention internationale pour la prévention de la pollution provenant des bateaux; n.o.s. - Sans autres précisions; Nch - Norme chilienne; NO(A)EC - Aucun effet de la concentration (indésirable) observé; NO(A)EL - Aucun effet du niveau (indésirable) observé; NOELR - Aucun effet observable du taux de chargement; NOM - Norme mexicaine officielle; NTP - Programme toxicologique nationale; NZIoC - Inventaire des produits chimiques de la Nouvelle Zélande; OECD - Or-

ganisation pour la coopération et le développement économique; OPPTS - Bureau de la sécurité chimique et de la prévention de la pollution; PBT - Substance persistante, bioaccumulative et toxique; PICCS - Inventaire des produits chimiques et des substances chimiques des Philippines; (Q)SAR - (Quantitative) Relation structure/activité; REACH - Règlement (CE) no. 1907/2006 du parlement européen et du conseil relatif à l'enregistrement, l'évaluation, l'autorisation et la restriction des produits chimiques; SADT - Température de décomposition auto-accélérante; SDS - Fiche technique de santé-sécurité; TCSI - Inventaire des produits chimiques de Taïwan; TDG - Transport de marchandises dangereuses; TECI - Inventaire des produits chimiques existants de la Thaïlande; TSCA - Loi sur le contrôle des substances toxiques (États-Unis); UN - Nations unies; UNRTDG - Recommandations des Nations unies pour le transport de marchandises dangereuses; vPvB - Très persistant et très bioaccumulatif; WHMIS - Système d'information sur les matières dangereuse utilisées au travail

Les informations contenues dans la présente fiche signalétique ont été établies sur la base de nos connaissances à la date de publication de ce document. Ces informations ne sont données qu'à titre indicatif en vue de permettre des opérations de manipulation, utilisation, fabrication, entreposage, transport, élimination, mise à disposition, utilisation et élimination dans des conditions satisfaisantes de sécurité, et ne sauraient donc être interprétées comme une garantie ou considérées comme des spécifications de qualité. Ces informations ne concernent en outre que le produit nommément désigné et, sauf indication contraire spécifique, peuvent ne pas être applicables en cas de mélange dudit produit avec d'autres substances ou utilisables pour tout procédé de fabrication.

SAFETY DATA SHEET
according to Regulation (EC) No. 1907/2006

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	03.04.2024	00-22-410000001511	Date of first issue: 03.04.2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Personal care product used for cosmetic effect.

1.3 Details of the supplier of the safety data sheet

Company : L'Oreal SA
14, Rue Royale
75008Paris
France

Telephone : +17324992745

E-mail address of person responsible for the SDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Emergency telephone

National Poisons Control Center : ORFILA number (INRS): + 33 (0) 1 45 42 59 59 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Eye irritation, Category 2	H319: Causes serious eye irritation.
Long-term (chronic) aquatic hazard, Category 3	H412: Harmful to aquatic life with long lasting effects.

2.2 Label elements

Labeling (REGULATION (EC) No 1272/2008)

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H319 Causes serious eye irritation.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements : P102 Keep out of reach of children.

Prevention:

P264 Wash hands thoroughly after handling.
P273 Avoid release to the environment.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	Skin Irrit. 2; H315	>= 1 - < 2,5

	271-756-9 01-2119484817-22	Eye Dam. 1; H318 STOT RE 2; H373 (Gastrointestinal tract) Aquatic Acute 1; H400 Aquatic Chronic 1; H410 M-Factor (Acute aquatic toxicity): 1 M-Factor (Chronic aquatic toxicity): 1

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice : No hazards which require special first aid measures.

If inhaled : If symptoms persist, call a physician.

In case of skin contact : Get medical attention if irritation develops and persists.

In case of eye contact : Immediately flush eye(s) with plenty of water.
If eye irritation persists, consult a specialist.

If swallowed : Rinse mouth with water.
Clean mouth with water and drink afterwards plenty of water.
If symptoms persist, call a physician.

4.2 Most important symptoms and effects, both acute and delayed

Risks : Causes serious eye irritation.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media : None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.

Hazardous combustion products : No hazardous combustion products are known.

5.3 Advice for firefighters

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

Further information : Prevent fire extinguishing water from contaminating surface water or the ground water system.

Standard procedure for chemical fires.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : Use personal protective equipment.

6.2 Environmental precautions

Environmental precautions : Prevent product from entering drains.
Prevent further leakage or spillage if safe to do so.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up : Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling : Avoid contact with eyes.
For personal protection see section 8.

Advice on protection against fire and explosion : Normal measures for preventive fire protection.

Hygiene measures : When using do not eat or drink. When using do not smoke.
Wash hands before breaks and at the end of workday.

Dust explosion class : Not applicable

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers : Keep container tightly closed in a dry and well-ventilated place.

Advice on common storage : Do not store near acids.

Further information on storage stability : No decomposition if stored and applied as directed.

7.3 Specific end use(s)

Specific use(s) : Personal care product used for cosmetic effect.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Personal protective equipment

Eye/face protection : Applicable for industrial settings only.
Safety glasses

Hand protection

Remarks : Applicable for industrial settings only. Nitrile rubber

Skin and body protection : Applicable for industrial settings only.
Work uniform or laboratory coat.

Respiratory protection : No personal respiratory protective equipment normally required.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state : liquid

Form : viscous liquid

Color : pigmented

Odor : characteristic

Melting point/freezing point : No data available

Boiling point/boiling range : Not available

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit	:	No data available
Flash point	:	> 93 °C Method: ISO 3679
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
pH	:	3,5 - 4,5
Viscosity		
Viscosity, kinematic	:	No data available
Solubility(ies)		
Water solubility	:	soluble
Partition coefficient: n-octanol/water	:	Not applicable
Vapor pressure	:	No data available
Relative density	:	>= 0,97 (20 °C)
Relative vapor density	:	No data available
Particle characteristics		
Particle size	:	Not applicable

9.2 Other information

Fire Point	:	Not applicable
Dust explosion class	:	Not applicable

SECTION 10: Stability and reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : No decomposition if stored and applied as directed.

10.4 Conditions to avoid

Conditions to avoid : No data available

10.5 Incompatible materials

Materials to avoid : Not applicable

10.6 Hazardous decomposition products

No hazardous decomposition products are known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity : Acute toxicity estimate: > 2.000 mg/kg
Method: Calculation method

Acute inhalation toxicity : Acute toxicity estimate: > 20 mg/l
Exposure time: 4 h
Test atmosphere: vapor
Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity : LD50 (Rat, female): 3.190 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity : LD50 (Rat, male): 1.620 mg/kg

Acute inhalation toxicity : LC50 (Rat, male and female): > 4.178 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Method: OECD Test Guideline 403
Assessment: The substance or mixture has no acute inhalation toxicity

BASIC YELLOW 87:

Acute oral toxicity : LD50 (Rat, male and female): 1.000 mg/kg
Method: OECD Test Guideline 420

BASIC RED 51:

Acute oral toxicity : LD50 (Rat, male and female): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Acute oral toxicity : LD50 (Rat, male and female): > 2.000 mg/kg
Method: OECD Test Guideline 401
Assessment: The substance or mixture has no acute oral toxicity

Acute dermal toxicity : LD50 (Rabbit, male and female): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Acute oral toxicity : LD50 (Rat, female): 1.150 mg/kg
Method: OECD Test Guideline 401

Acute toxicity estimate: 1.150 mg/kg
Method: Calculation method

Skin corrosion/irritation

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Species : Rabbit
Method : OECD Test Guideline 404
Result : Skin irritation

BENZYL ALCOHOL:

Species : Rabbit
Method : OECD Test Guideline 404
Result : No skin irritation

BASIC YELLOW 87:

Species : Rabbit
Result : No skin irritation

BASIC RED 51:

Species : reconstructed human epidermis (RhE)
Method : OECD Test Guideline 439
Result : Skin irritation

HC BLUE NO. 15:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CHLORHEXIDINE DIGLUCONATE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 1 to 4 hours of exposure

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	Irreversible effects on the eye

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	No eye irritation

BASIC YELLOW 87:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	No eye irritation

BASIC RED 51:

Species	:	Reconstructed Human Cornea-like Epithelium (RhCE)
Result	:	Eye irritation

HC BLUE NO. 15:

Species	:	Rabbit

Method	:	OECD Test Guideline 405
Result	:	Risk of serious damage to eyes.

CHLORHEXIDINE DIGLUCONATE:

Method	:	OECD Test Guideline 405
Result	:	Irreversible effects on the eye

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	Irreversible effects on the eye

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

BASIC YELLOW 87:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BASIC RED 51:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

HC BLUE NO. 15:

Routes of exposure	:	Skin contact
Species	:	Mouse
Assessment	:	Does not cause skin sensitization.
Method	:	OECD Test Guideline 429

CHLORHEXIDINE DIGLUCONATE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

CETRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity- Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ

toxicant, repeated exposure, category 2.

HC BLUE NO. 15:

Routes of exposure	:	Ingestion
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

HC BLUE NO. 15:

Species	:	Rat, male and female
NOAEL	:	4 mg/kg
Application Route	:	Oral
Exposure time	:	92
Method	:	OECD Test Guideline 408

Aspiration toxicity

Not classified based on available information.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment	:	The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12: Ecological information

12.1 Toxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity : Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 3,5 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,39 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): 3,48 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Desmodesmus subspicatus (green algae)): 0,78 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC: 0,24 mg/l Exposure time: 9 d Species: Danio rerio (zebra fish) Method: OECD Test Guideline 212
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,119 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

Ecotoxicology Assessment

Acute aquatic toxicity : Very toxic to aquatic life.

Chronic aquatic toxicity	:	Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 460 mg/l Exposure time: 96 h
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 230 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC: 48,9 mg/l Exposure time: 30 d Species: Fish Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 51 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211

BASIC YELLOW 87:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,6 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,28 - 0,31 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOEC (Pseudokirchneriella subcapitata (green algae)): 0,025 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

BASIC RED 51:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,37 - 0,54 mg/l Exposure time: 48 h
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,24 - 0,26 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

HC BLUE NO. 15:

Toxicity to fish	:	LC50 (Fish): 0,09 mg/l Exposure time: 96 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): Exposure time: 48 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to algae/aquatic plants	:	EC50 (algae): 6,9 mg/l Exposure time: 72 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
M-Factor (Acute aquatic toxicity)	:	10
M-Factor (Chronic aquatic toxicity)	:	10

CHLORHEXIDINE DIGLUCONATE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2,08 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,087 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,019 mg/l

		Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Pseudokirchneriella subcapitata (green algae)): 0,013 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC: 0,012 mg/l Exposure time: 28 d Species: Fish Method: OECD Test Guideline 215
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,02 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

CETRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 0,21 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,012 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,113 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0,068 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC: 0,032 mg/l Exposure time: 34 d Species: Pimephales promelas (fathead minnow)

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC: 0,00415 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

12.2 Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability	:	Result: Readily biodegradable. Biodegradation: 80 % Exposure time: 28 d Method: OECD Test Guideline 301B Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability	:	Result: Readily biodegradable. Biodegradation: 92 - 96 % Exposure time: 14 d Method: OECD Test Guideline 301C

BASIC YELLOW 87:

Biodegradability	:	Result: Inherently biodegradable. Biodegradation: 21,6 % Exposure time: 28 d

BASIC RED 51:

Biodegradability	:	Result: Not readily biodegradable. Biodegradation: 4 % Exposure time: 28 d Method: OECD Test Guideline 301B

HC BLUE NO. 15:

Biodegradability	:	Result: Not readily biodegradable.

CHLORHEXIDINE DIGLUCONATE:

Biodegradability	:	Result: Not inherently biodegradable. Biodegradation: 2,2 % Exposure time: 60 d Method: OECD Test Guideline 301B

CETRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 98,5 %
Exposure time: 42 d
Method: OECD Test Guideline 301D

12.3 Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Bioconcentration factor (BCF): 835
Method: OECD Test Guideline 305

Partition coefficient: n-octanol/water : log Pow: 3,29
pH: 5,4

BENZYL ALCOHOL:

Bioaccumulation : Bioconcentration factor (BCF): 1,55

BASIC YELLOW 87:

Partition coefficient: n-octanol/water : log Pow: -1,69
Method: OECD Test Guideline 107

CHLORHEXIDINE DIGLUCONATE:

Bioaccumulation : Bioconcentration factor (BCF): 42

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment : This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Endocrine disrupting properties

Product:

Assessment : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7 Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14: Transport information

14.1 UN number or ID number

ADN : Not regulated as a dangerous good

ADR : Not regulated as a dangerous good

RID : Not regulated as a dangerous good

IMDG : Not regulated as a dangerous good

IATA : Not regulated as a dangerous good

14.2 UN proper shipping name

ADN : Not regulated as a dangerous good

ADR : Not regulated as a dangerous good

RID : Not regulated as a dangerous good

IMDG : Not regulated as a dangerous good

IATA : Not regulated as a dangerous good

14.3 Transport hazard class(es)

ADN : Not regulated as a dangerous good

ADR : Not regulated as a dangerous good

RID : Not regulated as a dangerous good

IMDG : Not regulated as a dangerous good

IATA : Not regulated as a dangerous good

14.4 Packing group

ADN	:	Not regulated as a dangerous good
ADR	:	Not regulated as a dangerous good
RID	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA (Cargo)	:	Not regulated as a dangerous good
IATA (Passenger)	:	Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks	:	Not classified as dangerous in the meaning of transport regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	:	Conditions of restriction for the following entries should be considered: Number on list 3 PHENOXYETHANOL (Number on list 3)
REACH - Candidate List of Substances of Very High Concern for Authorization (Article 59).	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
Regulation (EU) 2019/1021 on persistent organic pollutants (recast)	:	Not applicable
Regulation (EC) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals	:	Not applicable
REACH - List of substances subject to authorisation (Annex XIV)	:	Not applicable

Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances.	Not applicable

Reinforced medical supervision (R4624-18) : The product has no CMR properties

15.2 Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this mixture.

SECTION 16: Other information

Full text of H-Statements

H302	:	Harmful if swallowed.
H314	:	Causes severe skin burns and eye damage.
H315	:	Causes skin irritation.
H318	:	Causes serious eye damage.
H319	:	Causes serious eye irritation.
H332	:	Harmful if inhaled.
H373	:	May cause damage to organs through prolonged or repeated exposure if swallowed.
H400	:	Very toxic to aquatic life.
H410	:	Very toxic to aquatic life with long lasting effects.

Full text of other abbreviations

Acute Tox.	:	Acute toxicity
Aquatic Acute	:	Short-term (acute) aquatic hazard
Aquatic Chronic	:	Long-term (chronic) aquatic hazard
Eye Dam.	:	Serious eye damage
Eye Irrit.	:	Eye irritation
Skin Corr.	:	Skin corrosion
Skin Irrit.	:	Skin irritation
STOT RE	:	Specific target organ toxicity - repeated exposure

ADN - European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways; ADR - Agreement concerning the International Carriage of Dangerous Goods by Road; AIIC - Australian Inventory of Industrial Chemicals; ASTM - American Society for the Testing of Materials; bw - Body weight; CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECHA - European Chemicals Agency; EC-Number - European Community number; ECx - Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships car-

rying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RID - Regulations concerning the International Carriage of Dangerous Goods by Rail; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; SVHC - substance of very high concern; TCSI - Taiwan Chemical Substance Inventory; TECI - Thailand Existing Chemicals Inventory; TRGS - Technical Rule for Hazardous Substances; TSCA - Toxic Substances Control Act (United States); UN - United Nations; vPvB - Very Persistent and Very Bioaccumulative

Further information

Other information : The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

FICHE DE DONNÉES DE SÉCURITÉ
conformément au Règlement (CE) No. 1907/2006

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Date de révision:	Numéro de la FDS:	Date de dernière parution: -
1.0	03.04.2024	00-22-410000001511	Date de la première version publiée: 03.04.2024

RUBRIQUE 1: Identification de la substance/du mélange et de la société/l'entreprise

1.1 Identificateur de produit

Nom commercial : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

1.2 Utilisations identifiées pertinentes de la substance ou du mélange et utilisations déconseillées

Utilisation de la substance/du mélange : Produits de soins personnels destinés à un usage cosmétique.

1.3 Renseignements concernant le fournisseur de la fiche de données de sécurité

Société : L'Oreal SA
14, Rue Royale
75008Paris
France

Téléphone : +17324992745

Adresse e-mail de la personne responsable de FDS : NACORPEUROPESDSREQUEST@LOREAL.COM

1.4 Numéro d'appel d'urgence

Centre d'information antipoison national : ORFILA number (INRS): + 33 (0) 1 45 42 59 59 ((Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

INFOTRAC : +1 352-323-3500 (Disponible 24 heures sur 24. Les informations sur la FDS/le produit sont susceptibles d'être indisponibles auprès du Service d'urgence.)

RUBRIQUE 2: Identification des dangers

2.1 Classification de la substance ou du mélange

Classification (RÈGLEMENT (CE) No 1272/2008)

Irritation oculaire, Catégorie 2	H319: Provoque une sévère irritation des yeux.
Danger à long terme (chronique) pour le milieu aquatique, Catégorie 3	H412: Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

2.2 Éléments d'étiquetage

Étiquetage (RÈGLEMENT (CE) No 1272/2008)

Pictogrammes de danger :

Mention d'avertissement : Attention

Mentions de danger :
H319 Provoque une sévère irritation des yeux.
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Conseils de prudence :
P102 Tenir hors de portée des enfants.

Prévention:

P264 Se laver les mains soigneusement après manipulation.
P273 Éviter le rejet dans l'environnement.
P280 Porter un équipement de protection des yeux/ du visage.

Intervention:

P305 + P351 + P338 EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.

Elimination:

P501 Éliminer le contenu/ récipient dans une installation d'élimination des déchets agréée.

2.3 Autres dangers

Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

Informations écologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Informations toxicologiques: La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

RUBRIQUE 3: Composition/informations sur les composants

3.2 Mélanges

Composants

Nom Chimique	No.-CAS No.-CE No.-Index Numéro d'enregistre-ment	Classification	Concentration (% w/w)

Pour l'explication des abréviations voir rubrique 16.

RUBRIQUE 4: Premiers secours

4.1 Description des premiers secours

Conseils généraux : Pas de dangers qui requièrent des mesures spéciales de premiers secours.

En cas d'inhalation : Si les troubles se prolongent, consulter un médecin.

En cas de contact avec la peau : Si une irritation se développe et persiste, consulter un médecin.

En cas de contact avec les yeux : Rincer immédiatement l'oeil (les yeux) à grande eau.
Si l'irritation oculaire persiste, consulter un médecin spécialiste.

En cas d'ingestion : Se rincer la bouche à l'eau.
Se rincer la bouche à l'eau puis boire beaucoup d'eau.
Si les troubles se prolongent, consulter un médecin.

4.2 Principaux symptômes et effets, aigus et différés

Risques : Provoque une sévère irritation des yeux.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Traitement : Traiter de façon symptomatique.

RUBRIQUE 5: Mesures de lutte contre l'incendie

5.1 Moyens d'extinction

Moyens d'extinction appropriés : Utiliser des moyens d'extinction appropriés aux conditions locales et à l'environnement proche.

Moyens d'extinction inappropriés : Aucun(e) à notre connaissance.

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers spécifiques pendant la lutte contre l'incendie : Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau.

Produits de combustion dangereux : On ne connaît aucun produit de combustion dangereux

5.3 Conseils aux pompiers

Équipements de protection particuliers des pompiers : Porter un appareil de protection respiratoire autonome pour la lutte contre l'incendie, si nécessaire.

Information supplémentaire : Empêcher les eaux d'extinction du feu de contaminer les eaux de surface ou le réseau d'alimentation souterrain.
Procédure standard pour feux d'origine chimique.

RUBRIQUE 6: Mesures à prendre en cas de dispersion accidentelle

6.1 Précautions individuelles, équipement de protection et procédures d'urgence

Précautions individuelles : Utiliser un équipement de protection individuelle.

6.2 Précautions pour la protection de l'environnement

Précautions pour la protection de l'environnement : Éviter que le produit pénètre dans les égouts.
Éviter tout déversement ou fuite supplémentaire, si cela est possible en toute sécurité.

6.3 Méthodes et matériel de confinement et de nettoyage

Méthodes de nettoyage : Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure).
Conserver dans des récipients adaptés et fermés pour l'élimi-

nation.

6.4 Référence à d'autres rubriques

Voir les rubriques: 7, 8, 11, 12 et 13.

RUBRIQUE 7: Manipulation et stockage

7.1 Précautions à prendre pour une manipulation sans danger

Conseils pour une manipulation sans danger	:	Éviter le contact avec les yeux. Pour l'équipement de protection individuel, voir rubrique 8.
Indications pour la protection contre l'incendie et l'explosion	:	Mesures préventives habituelles pour la protection contre l'incendie.
Mesures d'hygiène	:	Ne pas manger et ne pas boire pendant l'utilisation. Ne pas fumer pendant l'utilisation. Se laver les mains avant les pauses et à la fin de la journée de travail.
Classe d´explosibilité de poussière	:	Sans objet.

7.2 Conditions d'un stockage sûr, y compris d'éventuelles incompatibilités

Exigences concernant les aires de stockage et les conteneurs	:	Tenir le récipient bien fermé dans un endroit sec et bien aéré.
Précautions pour le stockage en commun	:	Ne pas entreposer près des acides.
Pour en savoir plus sur la stabilité du stockage	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

7.3 Utilisation(s) finale(s) particulière(s)

Utilisation(s) particulière(s)	:	Produits de soins personnels destinés à un usage cosmétique.

RUBRIQUE 8: Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Ne contient pas de substances avec des valeurs limites d'exposition professionnelle.

8.2 Contrôles de l'exposition

Équipement de protection individuelle

Protection des yeux/du visage	:	Pour usage industriel seulement. Lunettes de sécurité
Protection des mains		
Remarques	:	Pour usage industriel seulement. Caoutchouc nitrile
Protection de la peau et du corps	:	Pour usage industriel seulement. Uniforme de travail ou veste de laboratoire.
Protection respiratoire	:	Aucun équipement de protection respiratoire individuel n'est normalement nécessaire.

RUBRIQUE 9: Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques essentielles

Etat physique	:	liquide
Forme	:	liquide visqueux
Couleur	:	pigmenté
Odeur	:	caractéristique
Point de fusion/point de congélation	:	Donnée non disponible
Point/intervalle d'ébullition	:	Pas disponible
Limite d'explosivité, supérieure / Limite d'inflammabilité supérieure	:	Donnée non disponible
Limite d'explosivité, inférieure / Limite d'inflammabilité inférieure	:	Donnée non disponible
Point d'éclair	:	> 93 °C Méthode: ISO 3679

Température d'auto-inflammation	:	Donnée non disponible
Température de décomposition	:	Non applicable
pH	:	3,5 - 4,5
Viscosité		
Viscosité, cinématique	:	Donnée non disponible
Solubilité(s)		
Hydrosolubilité	:	soluble
Coefficient de partage: n-octanol/eau	:	Non applicable
Pression de vapeur	:	Donnée non disponible
Densité relative	:	>= 0,97 (20 °C)
Densité de vapeur relative	:	Donnée non disponible
Caractéristiques de la particule		
Taille des particules	:	Non applicable

9.2 Autres informations

Point d'inflammation	:	Non applicable
Classe d´explosibilité de poussière	:	Sans objet.

RUBRIQUE 10: Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans les conditions normales d'utilisation.

10.2 Stabilité chimique

Stable dans des conditions normales.

10.3 Possibilité de réactions dangereuses

Réactions dangereuses	:	Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

10.4 Conditions à éviter

Conditions à éviter	:	Donnée non disponible

10.5 Matières incompatibles

Matières à éviter : Non applicable

10.6 Produits de décomposition dangereux

On ne connaît pas de produits de décomposition dangereux.

RUBRIQUE 11: Informations toxicologiques

11.1 Informations sur les classes de danger telles que définies dans le règlement (CE) no 1272/2008

Toxicité aiguë

Non classé sur la base des informations disponibles.

Produit:

Toxicité aiguë par voie orale : Estimation de la toxicité aiguë: > 2.000 mg/kg
Méthode: Méthode de calcul

Toxicité aiguë par inhalation : Estimation de la toxicité aiguë: > 20 mg/l
Durée d'exposition: 4 h
Atmosphère de test: vapeur
Méthode: Méthode de calcul

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité aiguë par voie orale : DL50 (Rat, femelle): 3.190 mg/kg
Méthode: OCDE ligne directrice 401
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

BENZYL ALCOHOL:

Toxicité aiguë par voie orale : DL50 (Rat, mâle): 1.620 mg/kg

Toxicité aiguë par inhalation : CL50 (Rat, mâle et femelle): > 4.178 mg/l
Durée d'exposition: 4 h
Atmosphère de test: poussières/brouillard
Méthode: OCDE ligne directrice 403
Evaluation: La substance ni le mélange ne présente une toxicité aiguë par inhalation

BASIC YELLOW 87:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 1.000 mg/kg
Méthode: OCDE ligne directrice 420

BASIC RED 51:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Toxicité aiguë par voie orale : DL50 (Rat, mâle et femelle): > 2.000 mg/kg
Méthode: OCDE ligne directrice 401
Evaluation: La substance ou le mélange ne présente pas de toxicité orale aiguë

Toxicité aiguë par voie cutanée : DL50 (Lapin, mâle et femelle): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Toxicité aiguë par voie orale : DL50 (Rat, femelle): 1.150 mg/kg
Méthode: OCDE ligne directrice 401

Estimation de la toxicité aiguë: 1.150 mg/kg
Méthode: Méthode de calcul

Corrosion cutanée/irritation cutanée

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Irritation de la peau

BENZYL ALCOHOL:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Pas d'irritation de la peau

BASIC YELLOW 87:

Espèce : Lapin
Résultat : Pas d'irritation de la peau

BASIC RED 51:

Espèce : Epiderme humain reconstitué (RHE)
Méthode : OCDE ligne directrice 439
Résultat : Irritation de la peau

HC BLUE NO. 15:

Espèce : Lapin
Méthode : OCDE ligne directrice 404

Résultat : Pas d'irritation de la peau

CHLORHEXIDINE DIGLUCONATE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Pas d'irritation de la peau

CETRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 404
Résultat : Corrosif après 1 à 4 heures d'exposition

Lésions oculaires graves/irritation oculaire

Provoque une sévère irritation des yeux.

Produit:

Remarques : Peut irriter les yeux.

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Effets irréversibles sur les yeux

BENZYL ALCOHOL:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Pas d'irritation des yeux

BASIC YELLOW 87:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Pas d'irritation des yeux

BASIC RED 51:

Espèce : Épithélium cornéen humain reconstruit (RhCE)
Résultat : Irritation des yeux

HC BLUE NO. 15:

Espèce : Lapin
Méthode : OCDE ligne directrice 405
Résultat : Risque de lésions oculaires graves.

CHLORHEXIDINE DIGLUCONATE:

Méthode	:	OCDE ligne directrice 405
Résultat	:	Effets irréversibles sur les yeux

CETRIMONIUM CHLORIDE:

Espèce	:	Lapin
Méthode	:	OCDE ligne directrice 405
Résultat	:	Effets irréversibles sur les yeux

Sensibilisation respiratoire ou cutanée

Sensibilisation cutanée

Non classé sur la base des informations disponibles.

Sensibilisation respiratoire

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

BENZYL ALCOHOL:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris
Méthode	:	OCDE ligne directrice 429
Résultat	:	Ne provoque pas de sensibilisation de la peau.

BASIC YELLOW 87:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

BASIC RED 51:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

HC BLUE NO. 15:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Souris

Evaluation	:	Ne provoque pas de sensibilisation de la peau.
Méthode	:	OCDE ligne directrice 429

CHLORHEXIDINE DIGLUCONATE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

CETRIMONIUM CHLORIDE:

Voies d'exposition	:	Contact avec la peau
Espèce	:	Cochon d'Inde
Méthode	:	OCDE ligne directrice 406
Résultat	:	Ne provoque pas de sensibilisation de la peau.

Mutagénicité sur les cellules germinales

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Mutagénicité sur les cellules germinales- Evaluation	:	L'analyse de la valeur probante ne reconnaît pas la classification en tant que mutagène sur des cellules germinales.

Cancérogénicité

Non classé sur la base des informations disponibles.

Toxicité pour la reproduction

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour la reproduction - Evaluation	:	Les éléments de preuve apportés ne permettent pas le classement comme toxique pour la reproduction

Toxicité spécifique pour certains organes cibles - exposition unique

Non classé sur la base des informations disponibles.

Toxicité spécifique pour certains organes cibles - exposition répétée

Non classé sur la base des informations disponibles.

Composants:

BEHENTRIMONIUM CHLORIDE:

Voies d'exposition	:	Ingestion
Organes cibles	:	Appareil gastro-intestinal
Evaluation	:	La substance ou le mélange est classé comme toxique spécifique pour un organe cible, exposition répétée, catégorie 2.

HC BLUE NO. 15:

Voies d'exposition	:	Ingestion
Evaluation	:	La substance ou le mélange est classé comme toxique spécifique pour un organe cible, exposition répétée, catégorie 2.

Toxicité à dose répétée

Composants:

BEHENTRIMONIUM CHLORIDE:

Espèce	:	Rat, mâle et femelle
NOAEL	:	10 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	28 jr
Méthode	:	OCDE ligne directrice 407

HC BLUE NO. 15:

Espèce	:	Rat, mâle et femelle
NOAEL	:	4 mg/kg
Voie d'application	:	Oral(e)
Durée d'exposition	:	92
Méthode	:	OCDE ligne directrice 408

Toxicité par aspiration

Non classé sur la base des informations disponibles.

11.2 Informations sur les autres dangers

Propriétés perturbant le système endocrinien

Produit:

Evaluation	:	La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

Information supplémentaire

Produit:

Remarques	:	La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 12: Informations écologiques

12.1 Toxicité

Produit:

Évaluation Ecotoxicologique

Toxicité chronique pour le milieu aquatique	:	Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Composants:

BEHENTRIMONIUM CHLORIDE:

Toxicité pour les poissons	:	CL50 (Danio rerio (poisson zèbre)): 3,5 mg/l Durée d'exposition: 96 h Méthode: OCDE ligne directrice 203
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 1,39 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Desmodesmus subspicatus (Algue verte)): 3,48 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201 EC10 (Desmodesmus subspicatus (algues vertes)): 0,78 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Facteur M (Toxicité aiguë pour le milieu aquatique)	:	1
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 0,24 mg/l Durée d'exposition: 9 jr Espèce: Danio rerio (poisson zèbre) Méthode: OCDE ligne directrice 212
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 0,119 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 211
Facteur M (Toxicité chronique pour le milieu aquatique)	:	1

Évaluation Ecotoxicologique

Toxicité aiguë pour le milieu aquatique	:	Très toxique pour les organismes aquatiques.

Toxicité chronique pour le milieu aquatique	:	Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

BENZYL ALCOHOL:

Toxicité pour les poissons	:	CL50 (Pimephales promelas (Vairon à grosse tête)): 460 mg/l Durée d'exposition: 96 h
Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 230 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (algues vertes)): 770 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201
Toxicité pour les poissons (Toxicité chronique)	:	NOEC: 48,9 mg/l Durée d'exposition: 30 jr Espèce: Poisson Remarques: La valeur est donnée basée sur une approche SAR/AAR en utilisant la boîte à outils de l'OCDE, DEREK, les modèles QSAR VEGA (modèles CAESAR), etc.
Toxicité pour la daphnie et les autres invertébrés aquatiques (Toxicité chronique)	:	NOEC: 51 mg/l Durée d'exposition: 21 jr Espèce: Daphnia magna (Grande daphnie) Méthode: OCDE Ligne directrice 211

BASIC YELLOW 87:

Toxicité pour la daphnie et les autres invertébrés aquatiques	:	CE50 (Daphnia magna (Grande daphnie)): 1,6 mg/l Durée d'exposition: 48 h Méthode: OCDE Ligne directrice 202
Toxicité pour les algues/plantes aquatiques	:	CE50 (Pseudokirchneriella subcapitata (algues vertes)): 0,28 - 0,31 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201 NOEC (Pseudokirchneriella subcapitata (algues vertes)): 0,025 mg/l Durée d'exposition: 72 h Méthode: OCDE Ligne directrice 201

Facteur M (Toxicité chronique pour le milieu aquatique)	:	1

12.2 Persistance et dégradabilité

Composants:

BEHENTRIMONIUM CHLORIDE:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 80 % Durée d'exposition: 28 jr Méthode: OCDE Ligne directrice 301 B Remarques: Le critère de la fenêtre de 10 jours n'est pas respecté.

BENZYL ALCOHOL:

Biodégradabilité	:	Résultat: Facilement biodégradable. Biodégradation: 92 - 96 % Durée d'exposition: 14 jr Méthode: OCDE Ligne directrice 301 C

BASIC YELLOW 87:

Biodégradabilité	:	Résultat: Intrinsèquement biodégradable. Biodégradation: 21,6 % Durée d'exposition: 28 jr

BASIC RED 51:

Biodégradabilité	:	Résultat: Difficilement biodégradable. Biodégradation: 4 % Durée d'exposition: 28 jr Méthode: OCDE Ligne directrice 301 B

HC BLUE NO. 15:

Biodégradabilité : Résultat: Difficilement biodégradable.

CHLORHEXIDINE DIGLUCONATE:

Biodégradabilité : Résultat: N'est pas intrinsèquement biodégradable.
Biodégradation: 2,2 %
Durée d'exposition: 60 jr
Méthode: OCDE Ligne directrice 301 B

CETRIMONIUM CHLORIDE:

Biodégradabilité : Résultat: Facilement biodégradable.
Biodégradation: 98,5 %
Durée d'exposition: 42 jr
Méthode: OCDE ligne directrice 301D

12.3 Potentiel de bioaccumulation

Composants:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Facteur de bioconcentration (FBC): 835
Méthode: OCDE ligne directrice 305

Coefficient de partage: n-octanol/eau : log Pow: 3,29
pH: 5,4

BENZYL ALCOHOL:

Bioaccumulation : Facteur de bioconcentration (FBC): 1,55

BASIC YELLOW 87:

Coefficient de partage: n-octanol/eau : log Pow: -1,69
Méthode: OCDE ligne directrice 107

CHLORHEXIDINE DIGLUCONATE:

Bioaccumulation : Facteur de bioconcentration (FBC): 42

12.4 Mobilité dans le sol

Donnée non disponible

12.5 Résultats des évaluations PBT et vPvB

Produit:

Evaluation : Cette substance/ce mélange ne contient aucun ingrédient considéré comme persistant, bio-accumulable et toxique (PBT), ou très persistant et très bio-accumulable (vPvB) à des niveaux de 0,1% ou plus.

12.6 Propriétés perturbant le système endocrinien

Produit:

Evaluation : La substance/Le mélange ne contient pas de composants considérés comme ayant des propriétés perturbatrices du système endocrinien selon l'article 57(f) de REACH ou le règlement délégué de la Commission (UE) 2017/2100 ou le règlement de la Commission (EU) 2018/605 à des niveaux de 0,1 % ou plus.

12.7 Autres effets néfastes

Produit:

Information écologique supplémentaire : La référence aux tests sur animaux mentionnée dans ce document pour des constituants individuels est basée sur des données publiques

RUBRIQUE 13: Considérations relatives à l'élimination

13.1 Méthodes de traitement des déchets

Produit : Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol.
Envoyer à une entreprise autorisée à gérer les déchets.

Emballages contaminés : Eliminer comme produit non utilisé.
Ne pas réutiliser des récipients vides.

RUBRIQUE 14: Informations relatives au transport

14.1 Numéro ONU ou numéro d'identification

ADN : Non réglementé comme étant une marchandise dangereuse

ADR : Non réglementé comme étant une marchandise dangereuse

RID : Non réglementé comme étant une marchandise dangereuse

IMDG : Non réglementé comme étant une marchandise dangereuse

IATA : Non réglementé comme étant une marchandise dangereuse

14.2 Désignation officielle de transport de l'ONU

ADN : Non réglementé comme étant une marchandise dangereuse

ADR : Non réglementé comme étant une marchandise dangereuse

RID : Non réglementé comme étant une marchandise dangereuse

IMDG : Non réglementé comme étant une marchandise dangereuse

IATA : Non réglementé comme étant une marchandise dangereuse

14.3 Classe(s) de danger pour le transport

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA	:	Non réglementé comme étant une marchandise dangereuse

14.4 Groupe d'emballage

ADN	:	Non réglementé comme étant une marchandise dangereuse
ADR	:	Non réglementé comme étant une marchandise dangereuse
RID	:	Non réglementé comme étant une marchandise dangereuse
IMDG	:	Non réglementé comme étant une marchandise dangereuse
IATA (Cargo)	:	Non réglementé comme étant une marchandise dangereuse
IATA (Passager)	:	Non réglementé comme étant une marchandise dangereuse

14.5 Dangers pour l'environnement

Non réglementé comme étant une marchandise dangereuse

14.6 Précautions particulières à prendre par l'utilisateur

Remarques	:	Produit non dangereux au sens des réglementations pour le transport.

14.7 Transport maritime en vrac conformément aux instruments de l'OMI

Non applicable pour le produit tel qu'il est fourni.

RUBRIQUE 15: Informations relatives à la réglementation

15.1 Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement

REACH - Restrictions applicables à la fabrication, à la mise sur le marché et à l'utilisation de certaines substances dangereuses et de certains mélanges et articles dangereux (Annexe XVII)	:	Les conditions de limitation pour les entrées suivantes doivent être prises en compte: Numéro sur la liste 3 PHENOXYETHANOL (Numéro sur la liste 3)
REACH - Listes des substances extrêmement préoccupantes candidates en vue d'une autorisation (Article 59).	:	Non applicable
Règlement (CE) Nº 1005/2009 relatif à des substances qui appauvrissent la couche d'ozone	:	Non applicable

Règlement (UE) 2019/1021 concernant les polluants organiques persistants (refonte)	:	Non applicable
Règlement (CE) Nº 649/2012 du Parlement européen et du Conseil concernant les exportations et importations de produits chimiques dangereux	:	Non applicable
REACH - Liste des substances soumises à autorisation (Annexe XIV)	:	Non applicable
Seveso III: Directive 2012/18/UE du Parlement européen et du Conseil concernant la maîtrise des dangers liés aux accidents majeurs impliquant des substances dangereuses.		Non applicable
Surveillance médicale renforcée (R4624-18)	:	Le produit n'a pas de propriétés CMR

15.2 Évaluation de la sécurité chimique

Aucune évaluation de la sécurité chimique n'a été réalisée pour ce mélange.

RUBRIQUE 16: Autres informations

Texte complet pour phrase H

H302	:	Nocif en cas d'ingestion.
H314	:	Provoque de graves brûlures de la peau et de graves lésions des yeux.
H315	:	Provoque une irritation cutanée.
H318	:	Provoque de graves lésions des yeux.
H319	:	Provoque une sévère irritation des yeux.
H332	:	Nocif par inhalation.
H373	:	Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition prolongée en cas d'ingestion.
H400	:	Très toxique pour les organismes aquatiques.
H410	:	Très toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Texte complet pour autres abréviations

Acute Tox.	:	Toxicité aiguë
Aquatic Acute	:	Danger à court terme (aigu) pour le milieu aquatique
Aquatic Chronic	:	Danger à long terme (chronique) pour le milieu aquatique
Eye Dam.	:	Lésions oculaires graves
Eye Irrit.	:	Irritation oculaire
Skin Corr.	:	Corrosion cutanée
Skin Irrit.	:	Irritation cutanée
STOT RE	:	Toxicité spécifique pour certains organes cibles - exposition

SAFETY DATA SHEET

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	2024.04.03	00-22-410000001511	Date of first issue: 2024.04.03

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Manufacturer or supplier's details

Company : Procosa SP - Procosa Produtos de beleza LTDA
Address : Rua Manoel Monteiro de Araújo
1350 - Parque Sao Domingos
São Paulo - SP 02675-031
Brazil

Telephone : +55 21 4505-0000

E-mail address : NACORPEUROPESDSREQUEST@LOREAL.COM

Emergency telephone

National Poisons Control Center :
INFOTRAC : +1 352-323-3500 (Available 24 hours a day. SDS/Product information may not be available for the Emergency Service.)

Recommended use of the chemical and restrictions on use

Recommended use : Personal care product used for cosmetic effect.

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification in accordance with ABNT NBR 14725 Standard

Skin irritation : Category 3

Eye irritation : Category 2A

Short-term (acute) aquatic hazard : Category 2

Long-term (chronic) aquatic hazard : Category 3

GHS label elements in accordance with ABNT NBR 14725 Standard

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H316 Causes mild skin irritation.
H319 Causes serious eye irritation.
H401 Toxic to aquatic life.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements : P102 Keep out of reach of children.

Prevention:

P273 Avoid release to the environment.
P280 Wear eye protection/ face protection.

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists: Get medical advice/ attention.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards which do not result in classification

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Classification	Concentration (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	Skin irritation, Category 2 Serious eye damage, Category 1 Specific target organ toxicity - repeated exposure (Oral) (Gastrointestinal tract), Category 2 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 1 -< 2,5
BENZYL ALCOHOL	100-51-6	Acute toxicity (Oral), Category 4 Acute toxicity (Inhalation), Category 4	>= 1 -< 5
MYRISTYL STEARATE	17661-50-6		>= 1 -< 5

BASIC YELLOW 87	68259-00-7	Acute toxicity (Oral), Category 4 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,25 -< 1
BASIC RED 51	77061-58-6	Acute toxicity (Oral), Category 4 Skin irritation, Category 2 Eye irritation, Category 2A Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,1 -< 0,25
HC BLUE NO. 15	74578-10-2	Serious eye damage, Category 1 Specific target organ toxicity - repeated exposure (Oral), Category 2 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,025 -< 0,1
CHLORHEXIDINE DIGLUCONATE	18472-51-0	Serious eye damage, Category 1 Short-term (acute) aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	>= 0,025 -< 0,1
CETRIMONIUM CHLORIDE	112-02-7	Acute toxicity (Oral), Category 4 Skin corrosion, Category 1C Serious eye damage, Category 1 Short-term (acute)	>= 0,0025 -< 0,025

		aquatic hazard, Category 1 Long-term (chronic) aquatic hazard, Category 1	

SECTION 4. FIRST AID MEASURES

General advice	:	No hazards which require special first aid measures.
If inhaled	:	If symptoms persist, call a physician.
In case of skin contact	:	Get medical attention if irritation develops and persists.
In case of eye contact	:	Immediately flush eye(s) with plenty of water. If eye irritation persists, consult a specialist.
If swallowed	:	Rinse mouth with water. Clean mouth with water and drink afterwards plenty of water. If symptoms persist, call a physician.
Most important symptoms and effects, both acute and delayed	:	Causes mild skin irritation. Causes serious eye irritation.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	:	No hazardous combustion products are known.
Specific extinguishing methods	:	Prevent fire extinguishing water from contaminating surface water or the ground water system. Standard procedure for chemical fires.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	Avoid contact with eyes. For personal protection see section 8.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Materials to avoid	:	Do not store near acids.
Further information on storage stability	:	No decomposition if stored and applied as directed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
MYRISTYL STEARATE	17661-50-6	TWA (Inhalable particulate matter)	10 mg/m3	ACGIH
		TWA (Respirable particulate matter)	3 mg/m3	ACGIH

Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally re-

quired.

Hand protection

Remarks	:	Applicable for industrial settings only. Nitrile rubber
Eye protection	:	Applicable for industrial settings only. Safety glasses
Skin and body protection	:	Applicable for industrial settings only. Work uniform or laboratory coat.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	liquid
Form	:	viscous liquid
Color	:	pigmented
Odor	:	characteristic
pH	:	3,5 - 4,5
Melting point/freezing point	:	No data available
Boiling point/boiling range	:	Not available
Flash point	:	> 93 °C Method: ISO 3679
Fire Point	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapor pressure	:	No data available
Relative vapor density	:	No data available
Relative density	:	>= 0,97 (20 °C)

Solubility(ies)		
Water solubility	:	soluble
Partition coefficient: n-octanol/water	:	Not applicable
Autoignition temperature	:	No data available
Decomposition temperature	:	Not applicable
Viscosity		
Viscosity, kinematic	:	No data available
Dust explosion class	:	Not applicable
Particle size	:	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No dangerous reaction known under conditions of normal use.
Chemical stability	:	Stable under normal conditions.
Possibility of hazardous reactions	:	No decomposition if stored and applied as directed.
Conditions to avoid	:	No data available
Incompatible materials	:	Not applicable
Hazardous decomposition products	:	No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 5.000 mg/kg Method: Calculation method
Acute inhalation toxicity	:	Acute toxicity estimate: > 40 mg/l Exposure time: 4 h Test atmosphere: vapor Method: Calculation method

Components:

BEHENTRIMONIUM CHLORIDE:

Acute oral toxicity	:	LD50 (Rat, female): 3.190 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity

BENZYL ALCOHOL:

Acute oral toxicity	:	LD50 (Rat, male): 1.620 mg/kg
Acute inhalation toxicity	:	LC50 (Rat, male and female): > 4.178 mg/l Exposure time: 4 h Test atmosphere: dust/mist Method: OECD Test Guideline 403 Assessment: The substance or mixture has no acute inhalation toxicity

BASIC YELLOW 87:

Acute oral toxicity	:	LD50 (Rat, male and female): 1.000 mg/kg Method: OECD Test Guideline 420

BASIC RED 51:

Acute oral toxicity	:	LD50 (Rat, male and female): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Acute oral toxicity	:	LD50 (Rat, male and female): > 2.000 mg/kg Method: OECD Test Guideline 401 Assessment: The substance or mixture has no acute oral toxicity
Acute dermal toxicity	:	LD50 (Rabbit, male and female): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Acute oral toxicity	:	LD50 (Rat, female): 1.150 mg/kg Method: OECD Test Guideline 401

Skin corrosion/irritation

Causes mild skin irritation.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Skin irritation

BENZYL ALCOHOL:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

BASIC YELLOW 87:

Species	:	Rabbit
Result	:	No skin irritation

BASIC RED 51:

Species	:	reconstructed human epidermis (RhE)
Method	:	OECD Test Guideline 439
Result	:	Skin irritation

HC BLUE NO. 15:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CHLORHEXIDINE DIGLUCONATE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	No skin irritation

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Method	:	OECD Test Guideline 404
Result	:	Corrosive after 1 to 4 hours of exposure

Serious eye damage/eye irritation

Causes serious eye irritation.

Product:

Remarks	:	May irritate eyes.

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

BENZYL ALCOHOL:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

BASIC YELLOW 87:

Species	:	Rabbit
Result	:	No eye irritation
Method	:	OECD Test Guideline 405

BASIC RED 51:

Species	:	Reconstructed Human Cornea-like Epithelium (RhCE)
Result	:	Eye irritation

HC BLUE NO. 15:

Species	:	Rabbit
Result	:	Risk of serious damage to eyes.
Method	:	OECD Test Guideline 405

CHLORHEXIDINE DIGLUCONATE:

Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

CETRIMONIUM CHLORIDE:

Species	:	Rabbit
Result	:	Irreversible effects on the eye
Method	:	OECD Test Guideline 405

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BENZYL ALCOHOL:

Routes of exposure	:	Skin contact
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitization.

BASIC YELLOW 87:

Routes of exposure	:	Skin contact

Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

BASIC RED 51:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

HC BLUE NO. 15:

Routes of exposure	:	Skin contact
Species	:	Mouse
Assessment	:	Does not cause skin sensitization.
Method	:	OECD Test Guideline 429

CHLORHEXIDINE DIGLUCONATE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

CETRIMONIUM CHLORIDE:

Routes of exposure	:	Skin contact
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Does not cause skin sensitization.

Germ cell mutagenicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Reproductive toxicity - Assessment	:	Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

STOT-repeated exposure

Not classified based on available information.

Components:

BEHENTRIMONIUM CHLORIDE:

Routes of exposure	:	Ingestion
Target Organs	:	Gastrointestinal tract
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

HC BLUE NO. 15:

Routes of exposure	:	Ingestion
Assessment	:	The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Repeated dose toxicity

Components:

BEHENTRIMONIUM CHLORIDE:

Species	:	Rat, male and female
NOAEL	:	10 mg/kg
Application Route	:	Oral
Exposure time	:	28 d
Method	:	OECD Test Guideline 407

HC BLUE NO. 15:

Species	:	Rat, male and female
NOAEL	:	4 mg/kg
Application Route	:	Oral
Exposure time	:	92
Method	:	OECD Test Guideline 408

Aspiration toxicity

Not classified based on available information.

Further information

Product:

Remarks	:	The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:

Ecotoxicology Assessment

Chronic aquatic toxicity : Harmful to aquatic life with long lasting effects.

Components:

BEHENTRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 3,5 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,39 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): 3,48 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Desmodesmus subspicatus (green algae)): 0,78 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
Toxicity to fish (Chronic toxicity)	:	NOEC (Danio rerio (zebra fish)): 0,24 mg/l Exposure time: 9 d Method: OECD Test Guideline 212
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,119 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

Ecotoxicology Assessment

Acute aquatic toxicity	:	Very toxic to aquatic life.
Chronic aquatic toxicity	:	Very toxic to aquatic life with long lasting effects.

BENZYL ALCOHOL:

Toxicity to fish	:	LC50 (Pimephales promelas (fathead minnow)): 460 mg/l

Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 230 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
Toxicity to fish (Chronic toxicity)	:	NOEC (Fish): 48,9 mg/l Exposure time: 30 d Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 51 mg/l Exposure time: 21 d Method: OECD Test Guideline 211

BASIC YELLOW 87:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 1,6 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,28 - 0,31 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOEC (Pseudokirchneriella subcapitata (green algae)): 0,025 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

BASIC RED 51:

Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,37 - 0,54 mg/l Exposure time: 48 h
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,24 - 0,26 mg/l Exposure time: 72 h Method: OECD Test Guideline 201

M-Factor (Acute aquatic toxicity)	:	1
M-Factor (Chronic aquatic toxicity)	:	1

HC BLUE NO. 15:

Toxicity to fish	:	LC50 (Fish): 0,09 mg/l Exposure time: 96 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): Exposure time: 48 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
Toxicity to algae/aquatic plants	:	EC50 (algae): 6,9 mg/l Exposure time: 72 h Remarks: The value is given based on a SAR/AAR approach using OECD Toolbox, DEREK, VEGA QSAR models (CAESAR models), etc.
M-Factor (Acute aquatic toxicity)	:	10
M-Factor (Chronic aquatic toxicity)	:	10

CHLORHEXIDINE DIGLUCONATE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 2,08 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,087 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,019 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 EC10 (Pseudokirchneriella subcapitata (green algae)): 0,013 mg/l Exposure time: 72 h Method: OECD Test Guideline 201

M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC (Fish): 0,012 mg/l Exposure time: 28 d Method: OECD Test Guideline 215
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,02 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

CETRIMONIUM CHLORIDE:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): 0,21 mg/l Exposure time: 96 h Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0,012 mg/l Exposure time: 48 h Method: OECD Test Guideline 202
Toxicity to algae/aquatic plants	:	EC50 (Pseudokirchneriella subcapitata (green algae)): 0,113 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 NOELR (Pseudokirchneriella subcapitata (green algae)): 0,068 mg/l Exposure time: 72 h Method: OECD Test Guideline 201
M-Factor (Acute aquatic toxicity)	:	10
Toxicity to fish (Chronic toxicity)	:	NOEC (Pimephales promelas (fathead minnow)): 0,032 mg/l Exposure time: 34 d
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	NOEC (Daphnia magna (Water flea)): 0,00415 mg/l Exposure time: 21 d Method: OECD Test Guideline 211
M-Factor (Chronic aquatic toxicity)	:	1

Persistence and degradability

Components:

BEHENTRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 80 %
Exposure time: 28 d
Method: OECD Test Guideline 301B
Remarks: The 10 day time window criterion is not fulfilled.

BENZYL ALCOHOL:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 92 - 96 %
Exposure time: 14 d
Method: OECD Test Guideline 301C

BASIC YELLOW 87:

Biodegradability : Result: Inherently biodegradable.
Biodegradation: 21,6 %
Exposure time: 28 d

BASIC RED 51:

Biodegradability : Result: Not readily biodegradable.
Biodegradation: 4 %
Exposure time: 28 d
Method: OECD Test Guideline 301B

HC BLUE NO. 15:

Biodegradability : Result: Not readily biodegradable.

CHLORHEXIDINE DIGLUCONATE:

Biodegradability : Result: Not inherently biodegradable.
Biodegradation: 2,2 %
Exposure time: 60 d
Method: OECD Test Guideline 301B

CETRIMONIUM CHLORIDE:

Biodegradability : Result: Readily biodegradable.
Biodegradation: 98,5 %
Exposure time: 42 d
Method: OECD Test Guideline 301D

Bioaccumulative potential

Components:

BEHENTRIMONIUM CHLORIDE:

Bioaccumulation : Bioconcentration factor (BCF): 835
Method: OECD Test Guideline 305

Partition coefficient: n- : log Pow: 3,29

octanol/water pH: 5,4

BENZYL ALCOHOL:

Bioaccumulation : Bioconcentration factor (BCF): 1,55

BASIC YELLOW 87:

Partition coefficient: n-octanol/water : log Pow: -1,69
Method: OECD Test Guideline 107

CHLORHEXIDINE DIGLUCONATE:

Bioaccumulation : Bioconcentration factor (BCF): 42

Mobility in soil

No data available

Other adverse effects

Product:

Additional ecological information : The reference to any animal testing for individual constituents mentioned in this document is based on public, third-party data.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : The product should not be allowed to enter drains, water courses or the soil.
Send to a licensed waste management company.

Contaminated packaging : Dispose of as unused product.
Do not reuse empty containers.

SECTION 14. TRANSPORT INFORMATION

Domestic regulation

ANTT

Not regulated as a dangerous good

International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National List of Carcinogenic Agents for Humans - (LINACH)

Brazil. List of chemicals controlled by the Federal Police : Not applicable

SECTION 16. OTHER INFORMATION

Revision Date : 2024.04.03

Date format : yyyy/mm/dd

Further information

Other information : The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

FICHA DE DADOS DE SEGURANÇA

PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Versão	Data de revisão:	Número SDS:	Data de última emissão: -
1.0	2024.04.03	00-22-410000001511	Data da primeira emissão: 2024.04.03

SECÇÃO 1. IDENTIFICACAO DO PRODUTO E DA SOCIEDADE

Nome do produto : PULP RIOT SEMI-PERMANENT HAIRCOLOR - GROUP 10

Coordenadas do fabricante e do fornecedos

Companhia : Procosa SP - Procosa Produtos de beleza LTDA
Direcção : Rua Manoel Monteiro de Araújo
1350 - Parque Sao Domingos
São Paulo - SP 02675-031
Brazil

Telefone : +55 21 4505-0000

Email endereço : NACORPEUROPESDSREQUEST@LOREAL.COM

Número de telefone de emergência

Centro de Informação Antivenenos nacional :
INFOTRAC : +1 352-323-3500 (Disponível 24 horas por dia. A informação sobre o produto/FDS poderá não estar disponível para o Serviço de Emergência.)

Utilização recomendada da substância química e restrições de utilização

Utilizações recomendadas : Produto de cuidado pessoal usado para efeito cosmético.

SECÇÃO 2. IDENTIFICAÇÃO DOS PERIGOS

Classificação do GHS conforme Norma ABNT NBR 14725

Irritação cutânea : Categoria 3

Iirritação ocular : Categoria 2A

Perigo (agudo) de curto prazo para o ambiente aquático : Categoria 2

Perigo (crónico) de longo prazo para o ambiente aquático : Categoria 3

Elementos de rotulagem do GHS conforme Norma ABNT NBR 14725

Pictogramas de perigo :

Palavra-sinal : Atenção

Advertências de perigo : H316 Causa uma irritação suave da pele.
H319 Provoca irritação ocular grave.
H401 Tóxico para os organismos aquáticos.
H412 Nocivo para os organismos aquáticos com efeitos duradouros.

Recomendações de prudência : P102 Manter fora do alcance das crianças.

Prevenção:

P273 Evitar a libertação para o ambiente.
P280 Usar proteção ocular/ proteção facial.

Resposta:

P305 + P351 + P338 SE ENTRAR EM CONTACTO COM OS OLHOS: Enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar.
P337 + P313 Caso a irritação ocular persista: consulte um médico.

Destruição:

P501 Eliminar o conteúdo/ recipiente em instalação aprovada de destruição de resíduos.

Outros perigos não resultam na classificação

Nenhum conhecido.

SECÇÃO 3. COMPOSIÇÃO/ INFORMAÇÃO SOBRE OS COMPONENTES

Componentes

Nome Químico	No. CAS	Classificação	Concentração (% w/w)
BEHENTRIMONIUM CHLORIDE	68607-24-9	Irritação cutânea, Categoria 2 Lesões oculares graves, Categoria 1 Toxicidade para órgãos-alvo específicos - exposição repetida (Oral) (Via gastrointestinal), Categoria 2	>= 1 -< 2,5

		Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	
BENZYL ALCOHOL	100-51-6	Toxicidade aguda (Oral), Categoria 4 Toxicidade aguda (Inalação), Categoria 4	>= 1 -< 5
MYRISTYL STEARATE	17661-50-6		>= 1 -< 5
BASIC YELLOW 87	68259-00-7	Toxicidade aguda (Oral), Categoria 4 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,25 -< 1
BASIC RED 51	77061-58-6	Toxicidade aguda (Oral), Categoria 4 Irritação cutânea, Categoria 2 Iirritação ocular, Categoria 2A Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,1 -< 0,25
HC BLUE NO. 15	74578-10-2	Lesões oculares graves, Categoria 1 Toxicidade para órgãos-alvo específicos - exposição repetida (Oral), Categoria 2 Perigo (agudo) de curto prazo para o	>= 0,025 -< 0,1

		ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	
CHLORHEXIDINE DIGLUCONATE	18472-51-0	Lesões oculares graves, Categoria 1 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,025 -< 0,1
CETRIMONIUM CHLORIDE	112-02-7	Toxicidade aguda (Oral), Categoria 4 Corrosão cutânea, Categoria 1C Lesões oculares graves, Categoria 1 Perigo (agudo) de curto prazo para o ambiente aquático, Categoria 1 Perigo (crónico) de longo prazo para o ambiente aquático, Categoria 1	>= 0,0025 -< 0,025

SECÇÃO 4. MEDIDAS DE PRIMEIROS SOCORROS

Recomendação geral	:	Sem perigos que necessitem de medidas de primeiros socorros especiais.
Em caso de inalação	:	No caso de problemas prolongados consultar um médico.
Em caso de contacto com a pele	:	Procure assistência médica caso a irritação desenvolva ou persista.
Se entrar em contacto com os olhos	:	Lavar imediatamente os olhos com bastante água. Se a irritação dos olhos continuar, consultar um especialista.
Em caso de ingestão	:	Enxaguar a boca com água. Lavar a boca com água e beber a seguir bastante água. No caso de problemas prolongados consultar um médico.

Sintomas e efeitos mais importantes, tanto agudos como retardados	:	Causa uma irritação suave da pele. Provoca irritação ocular grave.
Indicações para o médico	:	Tratar de acordo com os sintomas.

SECÇÃO 5. MEDIDAS DE COMBATE A INCÊNDIOS

Meios adequados de extinção	:	Adapte as medidas de combate a incêndios às condições do local e ao ambiente envolvente.
Meios inadequados de extinção	:	Nenhum conhecido.
Perigos específicos para combate a incêndios	:	Não deixar entrar a água utilizada para apagar o incêndio nos esgotos e nos cursos de água.
Produtos de combustão perigosos	:	Desconhecem-se produtos de combustão perigosos
Métodos específicos de extinção	:	Evitar a contaminação de águas de superfície e subterrâneas pela água de combate a incêndios. Procedimento standard para incêndios com produtos químicos.
Equipamento especial de proteção a utilizar pelo pessoal de combate a incêndio	:	Usar equipamento de respiração autónomo para combate a incêndios, se necessário.

SECÇÃO 6. MEDIDAS EM CASO DE FUGA ACCIDENTAL

Precauções individuais, equipamento de proteção e procedimentos de emergência	:	Usar equipamento de proteção individual.
Precauções a nível ambiental	:	Evitar que o produto entre no sistema de esgotos. Prevenir dispersão ou derramamento, se seguro.
Métodos e materiais de confinamento e limpeza	:	Impregnar com material absorvente inerte (por exemplo: areia, sílica gel, aglutinante ácido, aglutinante universal, serragem). Manter em recipientes fechados adequados, para eliminação.

SECÇÃO 7. MANUSEAMENTO E ARMAZENAGEM

Orientação para prevenção de Fogo e Explosão	:	Medidas usuais de protecção preventiva contra incêndio.

Informação para um manuseamento seguro	:	Evitar o contacto com os olhos. Para a proteção individual ver a secção 8.
Medidas de higiene	:	Não comer nem beber durante a utilização. Não fumar durante a utilização. Lavar as mãos antes das pausas, e no fim do dia de trabalho.
Condições para uma armazenagem segura	:	Guardar o recipiente herméticamente fechado em lugar seco e bem ventilado.
Materiais a evitar	:	Não armazenar junto de ácidos.
Outras informações sobre a estabilidade de armazenamento	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.

SECÇÃO 8. CONTROLO DA EXPOSIÇÃO/ PROTEÇÃO INDIVIDUAL

Componentes a controlar com relação ao local de trabalho

Componentes	No. CAS	tipo de valor (Forma de exposição)	Parâmetros de controlo / Concentração permissível	Bases
MYRISTYL STEARATE	17661-50-6	TWA (Fracção inalável)	10 mg/m3	ACGIH
		TWA (Fracção respirável)	3 mg/m3	ACGIH

Proteção individual

Protecção respiratória	:	Normalmente, não é necessário equipamento de proteção respiratória individual.
Protecção das mãos		
Observações	:	Aplicável apenas a ambientes industriais. Borracha nitrílica
Proteção dos olhos	:	Aplicável apenas a ambientes industriais. Óculos de segurança
Proteção do corpo e da pele	:	Aplicável apenas a ambientes industriais. Uniforme de trabalho ou bata de laboratório.

SECÇÃO 9. PROPRIEDADES FÍSICO-QUÍMICAS

Estado físico	:	líquido

Forma	:	líquido viscoso
Cor	:	pigmentado
Odor	:	característico
pH	:	3,5 - 4,5
Ponto de fusão/ponto de congelação	:	Dados não disponíveis
Ponto de ebulição/intervalo de ebulição	:	Não disponível
Ponto de inflamação	:	> 93 °C Método: ISO 3679
Ponto de ignição	:	Não aplicável
Limite superior de explosão / Limite de inflamabilidade superior	:	Dados não disponíveis
Limite inferior de explosão / Limite de inflamabilidade inferior	:	Dados não disponíveis
Pressão de vapor	:	Dados não disponíveis
Densidade relativa do vapor	:	Dados não disponíveis
Densidade relativa	:	>= 0,97 (20 °C)
Solubilidade(s)		
Hidrossolubilidade	:	solúvel
Coeficiente de partição: n-octanol/água	:	Não aplicável
Temperatura de auto-ignição	:	Dados não disponíveis
Temperatura de decomposição	:	Não aplicável
Viscosidade		
Viscosidade, cinemático	:	Dados não disponíveis

Classe de explosão do pó	:	Não aplicável
Tamanho da partícula	:	Não aplicável

SECÇÃO 10. ESTABILIDADE E REACTIVIDADE

Reatividade	:	Nenhuma reacção perigosa nas condições normais de utilização.
Estabilidade química	:	Estável em condições normais.
Possibilidade de reações perigosas	:	Não se decompõe se armazenado e utilizado de acordo com as instruções.
Condições a evitar	:	Dados não disponíveis
Materiais incompatíveis	:	Não aplicável
Produtos de decomposição perigosos	:	Nenhuns produtos de decomposição conhecidos.

SECÇÃO 11. INFORMAÇÃO TOXICOLÓGICA

Toxicidade aguda

Não classificado com base nas informações disponíveis.

Produto:

Toxicidade aguda por via oral	:	Estimativa da toxicidade aguda: > 5.000 mg/kg Método: Método de cálculo
Toxicidade aguda por via inalatória	:	Estimativa da toxicidade aguda: > 40 mg/l Duração da exposição: 4 h Atmosfera de ensaio: vapor Método: Método de cálculo

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidade aguda por via oral	:	DL50 (Ratazana, fêmea): 3.190 mg/kg Método: Directrizes do Teste OECD 401 Avaliação: A substância ou mistura não tem toxicidade oral aguda

BENZYL ALCOHOL:

Toxicidade aguda por via oral	:	DL50 (Ratazana, macho): 1.620 mg/kg
Toxicidade aguda por via	:	CL50 (Ratazana, macho e fêmea): > 4.178 mg/l

inalatória

Duração da exposição: 4 h
Atmosfera de ensaio: pó/névoa
Método: Directrizes do Teste OECD 403
Avaliação: A substância ou mistura não tem toxicidade aguda por inalação

BASIC YELLOW 87:

Toxicidade aguda por via oral : DL50 (Ratazana, macho e fêmea): 1.000 mg/kg
Método: Directrizes do Teste OECD 420

BASIC RED 51:

Toxicidade aguda por via oral : DL50 (Ratazana, macho e fêmea): 1.020 mg/kg

CHLORHEXIDINE DIGLUCONATE:

Toxicidade aguda por via oral : DL50 (Ratazana, macho e fêmea): > 2.000 mg/kg
Método: Directrizes do Teste OECD 401
Avaliação: A substância ou mistura não tem toxicidade oral aguda

Toxicidade aguda por via cutânea : DL50 (Coelho, macho e fêmea): > 5.000 mg/kg

CETRIMONIUM CHLORIDE:

Toxicidade aguda por via oral : DL50 (Ratazana, fêmea): 1.150 mg/kg
Método: Directrizes do Teste OECD 401

Corrosão/irritação cutânea

Causa uma irritação suave da pele.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Espécie : Coelho
Método : Directrizes do Teste OECD 404
Resultado : Irritação cutânea

BENZYL ALCOHOL:

Espécie : Coelho
Método : Directrizes do Teste OECD 404
Resultado : Não provoca irritação da pele

BASIC YELLOW 87:

Espécie : Coelho
Resultado : Não provoca irritação da pele

BASIC RED 51:

Espécie	:	epiderme humana reconstruída (RhE)
Método	:	Directrizes do Teste OECD 439
Resultado	:	Irritação cutânea

HC BLUE NO. 15:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Não provoca irritação da pele

CHLORHEXIDINE DIGLUCONATE:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Não provoca irritação da pele

CETRIMONIUM CHLORIDE:

Espécie	:	Coelho
Método	:	Directrizes do Teste OECD 404
Resultado	:	Corrosivo após 1 a 4 horas de exposição

Lesões oculares graves/irritação ocular

Provoca irritação ocular grave.

Produto:

Observações	:	Pode irritar os olhos.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Espécie	:	Coelho
Resultado	:	Efeitos irreversíveis nos olhos
Método	:	Directrizes do Teste OECD 405

BENZYL ALCOHOL:

Espécie	:	Coelho
Resultado	:	Não irrita os olhos
Método	:	Directrizes do Teste OECD 405

BASIC YELLOW 87:

Espécie	:	Coelho
Resultado	:	Não irrita os olhos
Método	:	Directrizes do Teste OECD 405

BASIC RED 51:

Espécie	:	Epitélio semelhante à córnea humana reconstruído (RhCE)
Resultado	:	Irritação ocular

HC BLUE NO. 15:

Espécie	:	Coelho
Resultado	:	Risco de lesões oculares graves.
Método	:	Directrizes do Teste OECD 405

CHLORHEXIDINE DIGLUCONATE:

Resultado	:	Efeitos irreversíveis nos olhos
Método	:	Directrizes do Teste OECD 405

CETRIMONIUM CHLORIDE:

Espécie	:	Coelho
Resultado	:	Efeitos irreversíveis nos olhos
Método	:	Directrizes do Teste OECD 405

Sensibilização respiratória ou cutânea

Sensibilização da pele

Não classificado com base nas informações disponíveis.

Sensibilização respiratória

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

BENZYL ALCOHOL:

Vias de exposição	:	Contacto com a pele
Espécie	:	Rato
Método	:	Directrizes do Teste OECD 429
Resultado	:	Não causa sensibilização da pele.

BASIC YELLOW 87:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

BASIC RED 51:

Vias de exposição	:	Contacto com a pele

Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

HC BLUE NO. 15:

Vias de exposição	:	Contacto com a pele
Espécie	:	Rato
Avaliação	:	Não causa sensibilização da pele.
Método	:	Directrizes do Teste OECD 429

CHLORHEXIDINE DIGLUCONATE:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

CETRIMONIUM CHLORIDE:

Vias de exposição	:	Contacto com a pele
Espécie	:	Porquinho da índia
Método	:	Directrizes do Teste OECD 406
Resultado	:	Não causa sensibilização da pele.

Mutagenicidade em células germinativas

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Mutagenicidade em células germinativas - Avaliação	:	Peso da prova não suporta a classificação como um mutagénio de células germinais.

Carcinogenicidade

Não classificado com base nas informações disponíveis.

Toxicidade reprodutiva

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidade reprodutiva - Avaliação	:	A suficiência de prova não suporta uma classificação de toxicidade reprodutiva

Toxicidade para órgãos-alvo específicos (STOT) - exposição única

Não classificado com base nas informações disponíveis.

Toxicidade para órgãos-alvo específicos (STOT) - exposição repetida

Não classificado com base nas informações disponíveis.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Vias de exposição	:	Ingestão
Orgãos alvo	:	Via gastrointestinal
Avaliação	:	A substância ou mistura está classificada como tóxico específico de orgãos-alvo, exposição repetida, categoria 2.

HC BLUE NO. 15:

Vias de exposição	:	Ingestão
Avaliação	:	A substância ou mistura está classificada como tóxico específico de orgãos-alvo, exposição repetida, categoria 2.

Toxicidade por dose repetida

Componentes:

BEHENTRIMONIUM CHLORIDE:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	10 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	28 d
Método	:	Directrizes do Teste OECD 407

HC BLUE NO. 15:

Espécie	:	Ratazana, macho e fêmea
NOAEL	:	4 mg/kg
Via de aplicação	:	Oral
Duração da exposição	:	92
Método	:	Directrizes do Teste OECD 408

Toxicidade por aspiração

Não classificado com base nas informações disponíveis.

Informações adicionais

Produto:

Observações	:	A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 12. INFORMAÇÃO ECOLÓGICA

Ecotoxicidade

Produto:

Avaliação eco-toxicológica

Toxicidade crónica para o ambiente aquático	:	Nocivo para os organismos aquáticos com efeitos duradouros.

Componentes:

BEHENTRIMONIUM CHLORIDE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 3,5 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 1,39 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Desmodesmus subspicatus (alga verde)): 3,48 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 EC10 (Desmodesmus subspicatus (alga verde)): 0,78 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Danio rerio (peixe-zebra)): 0,24 mg/l Duração da exposição: 9 d Método: Directrizes do Teste OECD 212
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,119 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

Avaliação eco-toxicológica

Toxicidade aguda para o ambiente aquático	:	Muito tóxico para os organismos aquáticos.
Toxicidade crónica para o ambiente aquático	:	Muito tóxico para os organismos aquáticos com efeitos duradouros.

BENZYL ALCOHOL:

Toxicidade em peixes	:	CL50 (Pimephales promelas (vairão gordo)): 460 mg/l Duração da exposição: 96 h
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 230 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 770 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Peixe): 48,9 mg/l Duração da exposição: 30 d Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 51 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211

BASIC YELLOW 87:

Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 1,6 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,28 - 0,31 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 NOEC (Pseudokirchneriella subcapitata (alga verde)): 0,025 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

BASIC RED 51:

Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,37 - 0,54 mg/l Duração da exposição: 48 h

Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,24 - 0,26 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	1
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

HC BLUE NO. 15:

Toxicidade em peixes	:	CL50 (Peixe): 0,09 mg/l Duração da exposição: 96 h Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): Duração da exposição: 48 h Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Toxicidade para às algas/plantas aquáticas	:	CE50 (algas): 6,9 mg/l Duração da exposição: 72 h Observações: O valor é dado com base na abordagem SAR/AAR através da Caixa de Ferramentas OECD, modelos DEREK, VEGA QSAR (modelos CAESAR), etc.
Factor-M (Toxicidade aguda para o ambiente aquático)	:	10
Factor-M (Toxicidade crónica para o ambiente aquático)	:	10

CHLORHEXIDINE DIGLUCONATE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 2,08 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,087 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,019 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201

		EC10 (Pseudokirchneriella subcapitata (alga verde)): 0,013 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	10
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Peixe): 0,012 mg/l Duração da exposição: 28 d Método: Directrizes do Teste OECD 215
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,02 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211
Factor-M (Toxicidade crónica para o ambiente aquático)	:	1

CETRIMONIUM CHLORIDE:

Toxicidade em peixes	:	CL50 (Danio rerio (peixe-zebra)): 0,21 mg/l Duração da exposição: 96 h Método: Directrizes do Teste OECD 203
Toxicidade em dáfnias e outros invertebrados aquáticos	:	CE50 (Daphnia magna): 0,012 mg/l Duração da exposição: 48 h Método: Directrizes do Teste OECD 202
Toxicidade para às algas/plantas aquáticas	:	CE50 (Pseudokirchneriella subcapitata (alga verde)): 0,113 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201 NOELR (Pseudokirchneriella subcapitata (alga verde)): 0,068 mg/l Duração da exposição: 72 h Método: Directrizes do Teste OECD 201
Factor-M (Toxicidade aguda para o ambiente aquático)	:	10
Toxicidade em peixes (Toxicidade crónica)	:	NOEC (Pimephales promelas (vairão gordo)): 0,032 mg/l Duração da exposição: 34 d
Toxicidade em dáfnias e outros invertebrados aquáticos (Toxicidade crónica)	:	NOEC (Daphnia magna): 0,00415 mg/l Duração da exposição: 21 d Método: Directrizes do Teste OECD 211
Factor-M (Toxicidade crónica	:	1

para o ambiente aquático)

Persistência e degradabilidade

Componentes:

BEHENTRIMONIUM CHLORIDE:

Biodegradabilidade : Resultado: Rapidamente biodegradável.
Biodegradabilidade: 80 %
Duração da exposição: 28 d
Método: Directrizes do Teste OECD 301 B
Observações: O critério da janela de tempo de 10 dias não é cumprido.

BENZYL ALCOHOL:

Biodegradabilidade : Resultado: Rapidamente biodegradável.
Biodegradabilidade: 92 - 96 %
Duração da exposição: 14 d
Método: Directrizes do Teste OECD 301 C

BASIC YELLOW 87:

Biodegradabilidade : Resultado: Inerentemente biodegradável.
Biodegradabilidade: 21,6 %
Duração da exposição: 28 d

BASIC RED 51:

Biodegradabilidade : Resultado: Não rapidamente biodegradável.
Biodegradabilidade: 4 %
Duração da exposição: 28 d
Método: Directrizes do Teste OECD 301 B

HC BLUE NO. 15:

Biodegradabilidade : Resultado: Não rapidamente biodegradável.

CHLORHEXIDINE DIGLUCONATE:

Biodegradabilidade : Resultado: Não inerentemente biodegradável.
Biodegradabilidade: 2,2 %
Duração da exposição: 60 d
Método: Directrizes do Teste OECD 301 B

CETRIMONIUM CHLORIDE:

Biodegradabilidade : Resultado: Rapidamente biodegradável.
Biodegradabilidade: 98,5 %
Duração da exposição: 42 d
Método: Directrizes do Teste OECD 301D

Potencial de bioacumulação

Componentes:

BEHENTRIMONIUM CHLORIDE:

Bioacumulação	:	Factor de bioconcentração (BCF): 835 Método: Directrizes do Teste OECD 305
Coeficiente de partição: n-octanol/água	:	log Pow: 3,29 pH: 5,4

BENZYL ALCOHOL:

Bioacumulação	:	Factor de bioconcentração (BCF): 1,55

BASIC YELLOW 87:

Coeficiente de partição: n-octanol/água	:	log Pow: -1,69 Método: Directrizes do Teste OECD 107

CHLORHEXIDINE DIGLUCONATE:

Bioacumulação	:	Factor de bioconcentração (BCF): 42

Mobilidade no solo

Dados não disponíveis

Outros efeitos adversos

Produto:

Informações ecológicas adicionais	:	A referência a qualquer teste em animais para constituintes individuais mencionados neste documento é baseada em dados públicos de terceiros.

SECÇÃO 13. CONSIDERAÇÕES RELATIVAS À ELIMINAÇÃO

Métodos de destruição

Resíduos	:	Este produto não deve entrar nos esgotos, nos cursos de água e no solo. Enviar para uma indústria licenciada de gerência dos resíduos.
Embalagens contaminadas	:	Eliminar como produto Não utilizado. Não reutilizar os recipientes vazios.

SECÇÃO 14. INFORMAÇÕES RELATIVAS AO TRANSPORTE

Regulamentação doméstica

ANTT

Não regulado como mercadoria perigosa

Regulamentaçãoes Internacionais

IATA-DGR

Não regulado como mercadoria perigosa

Código-IMDG

Não regulado como mercadoria perigosa

Transporte a granel em conformidade com o anexo II da Convenção Marpol 73/78 e o Código IBC

Não aplicável ao produto tal como fornecido.

Precauções especiais para o utilizador

Observações : Produto não perigoso segundo o regulamento de transporte.

SECÇÃO 15. INFORMAÇÃO SOBRE REGULAMENTAÇÃO

Regulamentação/legislação específica para a substância ou mistura em matéria de saúde, segurança e ambiente

Lista Nacional de Agentes Cancerígenos para Humanos - (LINACH)

Brasil. Lista de Produtos Químicos Controlados pela Policia Federal : Não aplicável

SECÇÃO 16. OUTRAS INFORMAÇÕES

Data de revisão : 2024.04.03

Formato da data : ano/mês/dias

Informações adicionais

Outras informações : A informação fornecida nesta ficha de segurança é a mais correta disponível na data da sua publicação. A informação prestada destina-se apenas a orientar o uso, manuseio, processamento, armazenamento, transporte e eliminação com segurança e não deve ser considerada garantia ou especificação de qualidade. A informação refere-se apenas ao produto designado e, a menos que tal seja especificado no texto, pode não ser válida se o mesmo produto for utilizado em qualquer combinação com outros produtos ou processos.
